NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(in thousands)

1. BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The Company changed its name from Alliance One International, Inc. to Pyxus International, Inc. on September 12, 2018. Due to the seasonal nature of the Company's business, the results of operations for any fiscal quarter are not necessarily indicative of the operating results that may be attained for other quarters or a full fiscal year. In the opinion of management, all normal and recurring adjustments necessary for fair statement of financial position, results of operations, and cash flows at the dates and for the periods presented have been included. All intercompany accounts and transactions have been eliminated.

These financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) for interim information and with the instructions to Form 10-Q and Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for annual financial statements. These financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended March 31, 2018.

Segments

During the three months ended December 31, 2018, the Company realigned its reportable segments to reflect changes to how the business is managed and results are reviewed by the Company's chief operating decision maker. In connection with the "One Tomorrow Transformation" initiative, the Company changed its organizational structure to support its diversified business lines. Prior to the realignment, the Company assessed financial information based on geographic regions. The Company's diversification efforts have resulted in management placing emphasis on data by business line in addition to the historical focus by geography. As a result of this realignment, the reportable segments now include Leaf - North America, Leaf - Other Regions, and Other Products and Services. Prior period segment financial information has been revised to conform to the current year presentation.

Taxes Collected from Customers

Certain subsidiaries are subject to value-added taxes on local sales. The amounts included in sales and other operating revenues and cost of goods and services sold were \$4,858 and \$2,703 for the three months ended December 31, 2018 and 2017, respectively, and \$14,692 and \$13,801 for the nine months ended December 31, 2018 and 2017, respectively.

Restricted Cash

As of December 31, 2018 and 2017, and March 31, 2018, \$1,220, \$2,006 and \$1,261 of cash was held on deposit as a compensating balance for short-term borrowings, respectively. As of December 31, 2018 and 2017, and March 31, 2018, zero, zero, and \$1,487 of cash was restricted for capital investment, respectively. As of December 31, 2018 and 2017, and March 31, 2018, \$2,314, zero, and zero of cash was held in escrow from receipt of customer payments.

As of December 31, 2018, the Company held \$2,644 in the Zimbabwe Real Time Gross Settlement ("RTGS") system. RTGS is a local currency equivalent that provides for exchange 1:1 with the U.S. Dollar ("USD"). In order to exchange RTGS units to USD, the Company must obtain foreign currency resources from the Reserve Bank of Zimbabwe subject to the monetary and exchange control policy in Zimbabwe.

Property, Plant, and Equipment

Total property and equipment purchases for the nine months ended December 31, 2018 and 2017 included \$1,501 and \$279 that were unpaid and included in accounts payable, respectively. Property and equipment sales for the nine months ended December 31, 2018 and 2017 included \$1,473 and zero that were uncollected and included in receivables, respectively.

1. BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

Capitalized Interest

Interest is capitalized on significant construction in progress using the weighted average interest rate during the capitalization period. Interest of \$1,578 and zero was capitalized for the three months and nine months ended December 31, 2018 and 2017, respectively. Capitalized interest of \$1,197 is included in property, plant, and equipment, net in the condensed consolidated balance sheets. Capitalized interest of \$381 is included in investments in unconsolidated affiliates in the condensed consolidated balance sheets.

Recently Adopted Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standard Update ("ASU") No. 2014-09, *Revenue Recognition (Topic 606): Revenue from Contracts with Customers*. ASU 2014-09 outlines a comprehensive new revenue recognition model that requires a company to recognize revenue to depict the transfer of goods or services to a customer at an amount that reflects the consideration it expects to receive in exchange for those goods or services. The guidance also requires additional disclosure about the nature, amount, timing, and uncertainty of revenue and cash flows arising from customer contracts. The Company adopted this guidance on April 1, 2018 for all contracts using the modified retrospective approach. The adoption of this guidance did not have a material impact on the condensed consolidated financial statements. The adoption of this guidance resulted in additional disclosures. See ["Note 2. Revenue Recognition"](#) for more information.

In August 2016, the FASB issued ASU No. 2016-15, *Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments*. ASU 2016-15 clarifies the classification of certain cash receipts and cash payments to reduce the diversity in practice on how these activities are presented on the statement of cash flows. The Company adopted this guidance on April 1, 2018 using the retrospective approach. The adoption of this guidance resulted in the following changes as of December 31, 2017 to the condensed consolidated statement cash flows: cash collections from beneficial interests of \$183,610 was reclassified from operating activities to investing activities and \$177,259 obtained as a beneficial interest for transferring trade receivables in a securitization transaction has been added as a non-cash disclosure.

In November 2016, the FASB issued ASU No. 2016-18, *Statement of Cash Flows (Topic 230): Restricted Cash*. ASU 2016-18 clarifies the presentation of restricted cash on the statement of cash flows to reduce diversity in practice on how restricted cash is presented on the statement of cash flows. The Company adopted this guidance on April 1, 2018 using the retrospective approach. The adoption of this guidance resulted in the following changes: a reclassification of \$2,749 and \$3,373 from other current and other long-term assets in total to separately stated line items for restricted cash in the condensed consolidated balance sheets as of December 31, 2017 and March 31, 2018, respectively; the change in restricted cash of \$440 presented in investing activities in the consolidated statements of cash flows is eliminated as of December 31, 2017; and the inclusion of \$2,749 of restricted cash in the calculation of cash, cash equivalents, and restricted cash at the end of the period in the condensed consolidated statements of cash flows as of December 31, 2017.

In March 2017, the FASB issued ASU No. 2017-07, *Compensation-Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost*. ASU 2017-07 was issued to increase the consistency, transparency, and usefulness of financial information of retirement benefits by disaggregating the service cost component from the other components of net benefit cost. The Company adopted this guidance on April 1, 2018 using the retrospective approach. The adoption of this guidance resulted in a reclassification of \$342 and \$1,026 from selling, general, and administrative expenses to interest expense in the condensed consolidated statement of operations for the three months and nine months ended December 31, 2017, respectively. See ["Note 13. Pension and Other Postretirement Benefits"](#) for more information.

In August 2017, the FASB issued ASU No. 2017-12, *Derivative and Hedging (Topic 815): Targeted Improvements to Accounting for Hedging Activities*. ASU 2017-12 was issued to better align risk and management activities to financial reporting for hedging relationships through changes to both the designation and measurement guidance for qualifying hedging relationships and the presentation of hedge results. The Company early adopted this guidance on April 1, 2018 using the modified retrospective approach. The adoption of this guidance did not have a material impact on the condensed consolidated financial statements and related disclosures.

1. BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

In February 2018, the FASB issued ASU No. 2018-02, *Income Statement – Reporting Comprehensive Income (Topic 220): Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income*. ASU 2018-02 allows a reclassification from accumulated other comprehensive income to retained earnings for stranded tax effects resulting from the Tax Cuts and Job Acts (the "Tax Act"). The tax effects unrelated to the Tax Act are released from accumulated other comprehensive income using either the specific identification approach or the portfolio approach based on the nature of the underlying item. The Company adopted this guidance on December 31, 2018 using modified retrospective approach. The adoption of this guidance resulted in a reclassification of \$2,931 of stranded tax effects from accumulated other comprehensive loss to retained deficit due to reduction in federal corporate tax rate. The stranded tax effects are derived from the deferred tax balance on pension obligations as a result of the lower U.S. Federal Corporate tax rate.

In August 2018, the FASB issued ASU No. 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement*. ASU 2018-13 eliminates, adds, and modifies certain disclosure requirements for fair value measurements. The Company adopted this guidance prospectively on September 30, 2018. The adoption of this guidance resulted in the addition of the weighted average of the significant observable inputs used to develop Level 3 fair value measurements in its disclosures. See "[Note 17. Fair Value Measurements](#)" for more information.

Recent Accounting Pronouncements Not Yet Adopted

In February 2016, the FASB issued ASU No. 2016-02, *Leases (Topic 842)*. Subsequently, the FASB has issued ASUs which further clarify this guidance. ASU 2016-02 requires lessees to recognize right-of-use assets and liabilities arising from leases on the balance sheet. In addition, leases will be classified as either finance or operating, with classification affecting the pattern of expense recognition in the income statement. This guidance also requires disclosures about the amount, timing, and uncertainty of cash flows arising from leases. This guidance will be adopted using a modified retrospective approach and is effective for the Company on April 1, 2019. The Company has formed a project team to evaluate and implement this guidance. The Company has completed a scoping assessment of leasing arrangements and service agreements. The Company has elected to adopt an accounting policy for all asset classes to include both the lease and non-lease components as a single component and account for it as a lease. The Company has elected to utilize the transition practical expedients, as prescribed in ASC 842-10-65-1(f). The adoption of this guidance is expected to materially increase assets and liabilities on the consolidated balance sheets. The impact on our results of operations and cash flows is not expected to be material. The Company does not expect the adoption of this guidance to have a material impact on its existing debt covenants.

In June 2016, the FASB issued ASU No. 2016-13, *Financial Instruments-Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments*. ASU 2016-13 provides financial statement users with more decision-useful information about the expected credit losses on financial instruments and other commitments to extend credit held by a reporting entity at each reporting date. This guidance will be adopted using a modified retrospective approach and is effective for the Company on April 1, 2020. The Company is evaluating the effect that adoption of this guidance will have on its consolidated financial statements and related disclosures.

In August 2018, the FASB issued ASU No. 2018-14, *Compensation - Retirement Benefits - Defined Benefit Plans - General (Subtopic 715-20): Disclosure Framework - Changes to the Disclosure Requirements for Defined Benefit Plans*. ASU 2018-14 removes disclosures, clarifies specific disclosure requirements, and adds disclosure requirements. This guidance will be adopted using a retrospective approach and is effective for the Company on March 31, 2020. The Company is evaluating the effect that adoption of this guidance will have on its consolidated financial statements and related disclosures.

In October 2018, the FASB issued ASU No. 2018-17, *Consolidation (Topic 810): Targeted Improvements to the Related Party Guidance for Variable Interest Entities*. ASU 2018-17 changes how entities evaluate decision-making fees under the variable interest entity guidance. To determine whether decision-making fees represent a variable interest, an entity considers indirect interests held through related parties under common control on a proportional basis, rather than in their entirety. This guidance will be adopted using a retrospective approach and is effective for the Company on April 1, 2020. The Company is evaluating the effect that adoption of this guidance will have on its consolidated financial statements and related disclosures.

2. REVENUE RECOGNITION

The Company derives revenue from contracts with customers, primarily from the sale of processed tobacco and fees charged for processing and related services to the manufacturers of tobacco products. The Company does not disclose information related to its unsatisfied performance obligations with an expected duration of one year or less. A performance obligation is a promise in a contract to transfer a distinct good or service to the customer. The Company's performance obligations are satisfied when the transfer of control of the distinct product or service to the customer occurs. For products, control is transferred and revenue is recognized at a point in time, in accordance with the shipping terms of the contract. For services, control is transferred and

2. REVENUE RECOGNITION (continued)

revenue is recognized over time using the input method based on a kilogram of packed tobacco. The Company applied a practical expedient to account for shipping and handling costs as costs to fulfill its performance obligations, irrespective of when control transfers. A kilogram of processed tobacco (or tobacco processing services resulting in a kilogram of processed tobacco) is the material and distinct performance obligation for the Company's tobacco revenue streams; therefore, consideration is attributed to the performance of this obligation. Revenue is measured as the amount of consideration to which the Company expects to be entitled to receive in exchange for transferring goods or providing services. Contract costs primarily include labor, material, shipping and handling, and overhead expenses. Certain subsidiaries are subject to value-added taxes on local sales. These amounts have been included in sales and other operating revenues and cost of goods and services sold.

The following disaggregates sales and other operating revenues by major source:

	Three Months Ended December 31, 2018	Nine Months Ended December 31, 2018
Leaf - North America:		
Product revenue	\$ 60,280	\$ 152,725
Processing and other revenues	17,570	29,039
Total sales and other operating revenues	77,850	181,764
Leaf - Other Regions:		
Product revenue	432,423	977,503
Processing and other revenues	9,296	40,752
Total sales and other operating revenues	441,719	1,018,255
Other Products and Services:		
Total sales and other operating revenues ¹	4,918	10,332
Total sales and other operating revenues	\$ 524,487	\$ 1,210,351
(1) Other products and services is primarily composed of revenue from the sale of legal cannabis in Canada and e-liquids product revenue.		

Product revenue is primarily processed tobacco sold to the customer. Processing and other revenues are mainly contracts to process green tobacco owned and provided by the customers. During processing, ownership remains with the customers and the Company is engaged to perform processing services.

Assets Recognized from the Costs to Obtain a Contract with a Customer

The Company records product and supply contract intangible assets for the incremental costs of obtaining a contract with a customer if the Company expects the benefit of those costs to be longer than one year, and if such costs are material. The Company applied a practical expedient to expense costs as incurred for costs to obtain a contract when the amortization period would have been one year or less. Capitalized costs to obtain a contract as of December 31, 2018 were \$4,896 and classified as other intangible assets. See ["Note 5. Goodwill and Intangibles"](#) for more information.

Significant Judgments

The Company has identified two main forms of variable consideration in its contracts with customers: warehousing fees for storing customer-controlled tobacco until the customer requests shipment and claims resulting from tobacco that do not meet customer specifications. Warehousing fees are built into the price of tobacco based on the customers' best estimate of the date they will request shipment or separately charged using a per-day storage rate. When the Company enters into a contract with a customer, the price communicated is the amount of consideration the Company expects to receive. Price adjustments for tobacco not meeting customer specifications for shrinkage, improper blend or chemical makeup, etc. are handled through a claims allowance that is assessed quarterly.

2. REVENUE RECOGNITION *(continued)*

The following summarizes activity in the claims allowance:

	Three Months Ended December 31, 2018	Nine Months Ended December 31, 2018
Balance, beginning of period	\$ 1,360	\$ 1,100
Additions	526	2,258
Payments	(476)	(1,948)
Balance, end of period	\$ 1,410	\$ 1,410

Contract Balances

The Company generally records a receivable when revenue is recognized. Timing of revenue recognition may differ from the timing of payment from customers. Payment terms and conditions vary by contract, although terms generally include a requirement of payment within 30 to 60 days. The Company applied a practical expedient not to adjust the transaction price for the effects of financing components as the Company expects that the period between when the Company transfers a promised good or service to a customer and when the customer pays for that good or service will be one year or less. As a result, where the timing of revenue recognition differs from the timing of payment, the Company determined its contracts do not include a significant financing component.

The allowance for doubtful accounts reflects the Company's best estimate of probable losses inherent in the trade receivables, net balance. The Company determines the allowance based on historical experience, and other currently available information. The following summarizes activity in the allowance for doubtful accounts:

	Three Months Ended December 31, 2018	Nine Months Ended December 31, 2018
Balance, beginning of period	\$ (7,324)	\$ (7,055)
Additions	(1,774)	(2,136)
Writes-offs	(15)	78
Balance, end of period	(9,113)	(9,113)
Trade receivables	277,860	277,860
Trade receivables, net	\$ 268,747	\$ 268,747

3. INCOME TAXES

Accounting for Uncertainty in Income Taxes

As of December 31, 2018, the Company's unrecognized tax benefits totaled \$9,153, of which \$8,912 would impact the Company's effective tax rate, if recognized. The Company recognizes interest and penalties related to unrecognized tax benefits in income tax expense. As of December 31, 2018, accrued interest and penalties totaled \$1,176 and \$939, respectively. The Company expects to continue accruing interest expense related to the unrecognized tax benefits described above. The Company may be subject to fluctuations in the unrecognized tax benefit due to currency exchange rate movements.

During the nine months ended December 31, 2018, the Company reached an income tax settlement with the Kenyan Revenue Authority for \$1,166. An uncertain tax position had previously been recorded of \$2,692, which resulted in a favorable adjustment to tax expense (as the amount was settled for less than it was accrued) which totaled \$1,526. Furthermore, the Company recorded additional unrecognized tax benefits of \$1,987 for a return position taken in Kenya related to currency exchange losses on its amended Kenyan tax return for years 2013 - 2015. In addition, the Company entered into negotiations with the Zimbabwe Revenue Authority during its amnesty program to settle asserted issues. The Company has thus far paid \$2,988 and has accrued another \$964 in anticipation of the settlement. These amounts have not previously been accrued as an uncertain tax position.

The Company does not currently foresee any changes in the amount of its unrecognized tax benefits in the next twelve months but acknowledges circumstances can change due to unexpected developments in the law. In certain jurisdictions, tax authorities have challenged positions that the Company has taken that resulted in recognizing benefits that are material to its financial statements. The Company believes it is more likely than not that it will prevail in these situations and accordingly has not

3. INCOME TAXES (continued)

recorded liabilities for these positions. The Company expects the challenged positions to be settled at a time greater than twelve months from its balance sheet date.

The Company and its subsidiaries file a U.S. federal consolidated income tax return as well as returns in several U.S. states and a number of foreign jurisdictions. As of December 31, 2018, the Company's earliest open tax year for U.S. federal income tax purposes is its fiscal year ended March 31, 2015; however, the Company's net operating loss carryovers from prior periods remain subject to adjustment. Open tax years in state and foreign jurisdictions generally range from three to six years.

Enactment of Tax Cuts and Jobs Act ("Tax Act")

In December 2017, the SEC staff issued Staff Accounting Bulletin 118 ("SAB 118"), which provides guidance on accounting for the tax effects of the Tax Act. SAB 118 provides a measurement period that should not extend beyond one year from the Tax Act enactment date for companies to complete the accounting under ASC Topic 740—Income Taxes. As a result of the Tax Act, and in accordance with SAB 118, the Company recorded provisional tax expense in the three months ended December 31, 2017 related to the deemed repatriation tax, the revaluation of deferred tax assets, and adjustments to liabilities related to the repatriation of foreign earnings.

During the nine months ended December 31, 2018, the Company recorded adjustments to the provisional tax expense initially recorded in the December 31, 2017 financial statements upon adoption of the Tax Act. An adjustment of \$1,827 was made, increasing the deemed repatriation tax liability. As a result of this adjustment, deferred taxes related to future remittances of foreign earnings were impacted by an immaterial amount. The changes were a result of additional regulatory guidance that was issued, as well as further analysis of the Tax Act and the Company's facts and circumstances. Additionally, the Company will continue to be impacted by the expanded interest limitation and the tax on Global Intangible Low-Taxed Income ("GILTI"), which the Company has elected to treat as a period cost if and when incurred. As of December 31, 2018, the Company has completed the accounting for the income tax effects of the Tax Act.

Provision for the Nine Months Ended December 31, 2018

The effective tax rate used for the nine months ended December 31, 2018 and 2017 was (65.3)% and 396.4%, respectively. The primary difference in the effective tax rate this year compared to last year is the impact of U.S. tax reform, which resulted in a change in the taxability of operations, principally due to the impact of the new section 163(j) interest addback and GILTI. The impact was accentuated by the net foreign exchange effects. The significant difference in the effective tax rate for the nine months ended December 31, 2018 from the U.S. federal statutory rate is primarily due to the impact of U.S. tax reform and changes resulting from net foreign exchange effects.

The Company's quarterly provision for income taxes has historically been calculated using the annual effective tax rate method ("AETR method"), which applies an estimated annual effective tax rate to pre-tax income or loss. Consistent with the period ended September 30, 2018, the Company recorded its interim income tax provision using the discrete method as of December 31, 2018, as allowed under ASC 740-270, Accounting for Income Taxes - Interim Reporting. The Company utilized the discrete method, rather than the AETR method, due to significant variations in income tax expense, primarily driven by U.S. tax reform, relative to projected annual pre-tax income (loss) that would have resulted in a disproportionate and unreliable effective tax rate under the AETR method. Using the discrete method, the Company determined current and deferred income tax expense as if the interim period were an annual period.

4. GUARANTEES

The following summarizes amounts guaranteed and the fair value of those guarantees:

	December 31, 2018	December 31, 2017	March 31, 2018
Amounts guaranteed (not to exceed)	\$ 176,762	\$ 165,333	\$ 150,900
Amounts outstanding under guarantee	79,336	96,154	126,835
Fair value of guarantees	2,890	2,913	5,864

Of the guarantees outstanding at December 31, 2018, most expire within one year. As of December 31, 2018 and 2017, and March 31, 2018, respectively, the Company had balances of zero, zero, and \$14,807 due to local banks on behalf of suppliers included in accounts payable in the condensed consolidated balance sheets.

5. GOODWILL AND INTANGIBLES

	\$ 35,959	\$ 4,896	\$ 1,342	\$ 27,424	\$ 453	70,074

*Estimated amortization expense for the internally developed software is based on costs accumulated as of December 31, 2018. These estimates will change as new costs are incurred and until the software is placed into service in all locations.

6. VARIABLE INTEREST ENTITIES

The Company holds variable interests in multiple entities that primarily procure or process inventory on behalf of the Company and other parties or are securitization entities. These variable interests relate to equity investments, advances, guarantees made by the Company, and securitized receivables. The Company is not the primary beneficiary of the majority of its variable interests in variable interest entities, as it does not have the power to direct the activities that most significantly impact the economic performance of the entities due to the entities' management and board of directors' structure. As a result, the majority of these variable interest entities are not consolidated. The Company holds a majority voting interest and is the primary beneficiary of its variable interest in Humble Juice Co., LLC, a consolidated entity for which the related intercompany accounts and transactions have been eliminated.

As of December 31, 2018 and 2017, and March 31, 2018, the Company's investment in variable interest entities was \$62,156, \$66,287, and \$64,208, respectively, and is classified as investments in unconsolidated affiliates in the condensed consolidated balance sheets. The Company's advances to these variable interest entities as of December 31, 2018 and 2017, and March 31, 2018 were \$2,817, \$9,832, and \$5,895, respectively, and classified as accounts receivable, related parties in the condensed consolidated balance sheets. The Company guaranteed an amount to two variable interest entities not to exceed \$73,278, \$73,223, and \$65,487 as of December 31, 2018 and 2017, and March 31, 2018, respectively. The investments, advances, guarantees, and the deferred purchase price on the sale of securitized receivables disclosed in ["Note 16. Sale of Receivables"](#) in these variable interest entities represent the Company's maximum exposure to loss.

7. SEGMENT INFORMATION

The Company's operations are managed and reported in ten operating segments that are organized by product category and geographic area and aggregated into three reportable segments for financial reporting purposes: Leaf - North America, Leaf - Other Regions, and Other Products and Services. In reviewing operations, the Company concluded that the economic characteristics of Leaf - North America operations were dissimilar from the other Leaf geographic operating segments in Africa, Asia, Europe, and South America, which have been consolidated into one reportable segment "Leaf - Other Regions". The five other operating segments are aggregated into the "Other Products and Services" reportable segment as they do not meet the quantitative thresholds to be individually reportable. These segment groupings are consistent with information used by the chief operating decision maker to assess performance and allocate resources.

The types of products and services from which each reportable segment derives its revenues are as follows:

- Leaf - North America ships tobacco to manufacturer s of cigarettes and other consumer tobacco products around the world. In addition, Leaf - North America is more highly concentrated on processing and other activities compared to the rest of the world.
- Leaf - Other Regions ships tobacco to manufacturers of cigarettes and other consumer tobacco products around the world. In addition, the Leaf - Other Regions sell a small amount of processed but un-threshed flue-cured and burley tobacco in loose-leaf and bundle form to certain customers.
- Other Pro ducts and Services primarily consists of cannabis and e-liquid products. Cannabis was legalized for adult use in Canada on October 17, 2018. The Company's cannabis products have been sold primarily to municipally-owned retailers in the Canadian market. E-liquids products are sold to consumers via e-commerce platforms and other distribution channels, and retail stores.

The Company evaluates the operating performance of its segments based upon information included in management reports. Corporate general expenses are allocated to the segments based upon segment selling, general, and administrative expenses. Other than those described previously, the accounting policies of each segment are the same and are described in ["Note 1. Basis of Presentation and Significant Accounting Policies"](#).

7. SEGMENT INFORMATION (continued)

8. EARNINGS PER SHARE

The weighted average number of common shares outstanding is reported as the weighted average of the total shares of common stock outstanding, net of shares of common stock held by a wholly owned subsidiary. Shares of common stock owned by the subsidiary were 785 as of December 31, 2018 and 2017. This subsidiary waives its right to receive dividends and it does not have the right to vote these shares.

Certain potentially dilutive options were not included in the computation of earnings per diluted share because their exercise prices were greater than the average market price of the shares of common stock during the period and their effect would be antidilutive. These shares totaled 427 at a weighted average exercise price of \$60.00 per share as of December 31, 2018 and 2017. Diluted net loss per share as of December 31, 2018 was the same as basic net loss per share as the effects of potentially dilutive items were antidilutive given the Company's net loss.

8. EARNINGS PER SHARE *(continued)*

The following summarizes the computation of earnings per share:

10. CONTINGENCIES AND OTHER INFORMATION

The government in the Brazilian State of Parana issued a tax assessment on October 26, 2007 with respect to local intrastate trade tax credits that result primarily from tobacco transferred between states within Brazil. The assessment for intrastate trade tax credits taken is \$3,399 and the total assessment including penalties and interest at December 31, 2018 is \$11,743. The Company believes it has properly complied with Brazilian law and will contest any assessment through the judicial process. Should the Company lose in the judicial process, the loss of the intrastate trade tax credits would have a material impact on the financial statements of the Company.

The Company also has local intrastate trade tax credits in the Brazilian State of Santa Catarina and the State of Rio Grande do Sul. These jurisdictions permit the sale or transfer of excess credits to third parties. However, approval must be obtained from the tax authorities. The Company has an agreement with the state governments regarding the amounts and timing of credits that can be sold. The tax credits have a carrying value of \$7,138 as of December 31, 2018, which is net of impairment charges based on management's expectations about future realization. The intrastate trade tax credits will continue to be monitored for impairment in future periods based on market conditions and the Company's ability to use or sell the tax credits.

In 1969, the Brazilian government created a tax credit program that allowed companies to earn IPI tax credits ("IPI credits") based on the value of their exports. The government began to phase out this program in 1979, which resulted in numerous lawsuits between taxpayers and the Brazilian government. The Company has a long legal history with respect to credits it earned while the IPI credit program was in effect. In 2001, the Company won a claim related to certain IPI credits it earned between 1983 and 1990. The Brazilian government appealed this decision and numerous rulings and appeals were rendered on behalf of both the government and the Company from 2001 through 2013. Because of this favorable ruling, the Company began to use these earned IPI credits to offset federal taxes in 2004 and 2005, until it received a Judicial Order to suspend the IPI offsetting in 2005. The value of the federal taxes offset in 2004 and 2005 was \$24,142 and the Company established a reserve on these credits at the time of offsetting as they were not yet realizable due to the legal uncertainty that existed. Specifically, the Company extinguished other federal tax liabilities using IPI credits and recorded a liability in pension, postretirement and other long-term liabilities to reflect that the credits were not realizable at that time due to the prevalent legal uncertainty. On March 7, 2013, the Brazilian Supreme Court rendered a final decision in favor of the Company that recognized the validity of the IPI credits and secured the Company's right to benefit from the IPI credits earned from March 1983 to October 1990. This final decision expressly stated the Company has the right to the IPI credits. The Company estimated the total amount of the IPI credits to be approximately \$94,316 at March 31, 2013. Since the March 2013 ruling definitively (without the government's ability to appeal) granted the Company the ownership of the IPI credits generated between 1983 and 1990, the Company believed the amount of IPI credits that were used to offset other federal taxes in 2004 and 2005 were realizable beyond a reasonable doubt. Accordingly, and at March 31, 2013, the Company recorded the \$24,142 IPI credits it realized in the statements of consolidated operations in other income, net. No further benefit has been recognized pending the outcome of the judicial procedure to ascertain the final amount as those amounts have not yet been realized.

Certain of the Company's subsidiaries are involved in other litigation or legal matters incidental to their business activities, including tax matters. While the outcome of these matters cannot be predicted with certainty, the Company is vigorously defending them and does not currently expect that any of them will have a material adverse effect on its business or financial position. Should one or more of these matters be resolved in a manner adverse to its current expectation, the effect on the Company's results of operations for a particular fiscal reporting period could be material.

In accordance with GAAP, the Company records known asset retirement obligations ("ARO") for which the liability can be reasonably estimated. Currently, it has identified an ARO associated with one of its facilities that requires it to restore the land to its initial condition upon vacating the facility. The Company has not recognized a liability under GAAP for this ARO because the fair value of restoring the land at this site cannot be reasonably estimated since the settlement date is unknown at this time. The settlement date is unknown because the land restoration is not required until title is returned to the government, and the Company has no current or future plans to return the title. The Company will recognize a liability in the period in which sufficient information is available to reasonably estimate its fair value.

11. DEBT ARRANGEMENTS

ABL Facility

The ABL credit agreement restricts the Company from paying any dividends during the term of this facility subject to the satisfaction of specified financial ratios. In addition, the indentures governing the Company's outstanding 8.5% senior secured first lien notes due 2021 and its outstanding 9.875% senior secured second lien notes due 2021 contain similar restrictions and

11. DEBT ARRANGEMENTS (continued)

also prohibit the payment of dividends and other distributions if the Company fails to satisfy a ratio of consolidated EBITDA to fixed charges of at least 2.0 to 1.0. As of December 31, 2018, the Company did not satisfy this fixed charge coverage ratio.

The Company may not satisfy this ratio from time to time and failure to meet this fixed charge coverage ratio does not constitute an event of default.

Senior Secured Second Lien Notes

During the nine months ended December 31, 2018, the Company purchased \$27,260 of its existing 9.875% senior secured second lien notes on the open market. The purchased securities were canceled leaving \$635,686 of the Second Lien Notes outstanding at December 31, 2018. Related discounts were \$2,293 resulting in net cash repayment of \$24,967 and recorded in repayment of long-term borrowings in the condensed consolidated statements of cash flows. Associated costs paid were \$68 and deferred financing costs and amortization of original issue discount of \$472 were accelerated.

12. DERIVATIVE FINANCIAL INSTRUMENTS

As of December 31, 2018 and 2017, accumulated other comprehensive loss includes \$2,307 and \$999, net of tax of \$613 and zero, for unrealized losses related to designated cash flow hedges, respectively. The Company recorded losses of \$458 and \$1,445 in its cost of goods and services sold for the three months and nine months ended December 31, 2018, respectively. For the nine months ended December 31, 2018, \$987 was from the discontinuance of a portion of the Company's cash flow hedges. The Company recorded losses of \$656 and \$598 in its cost of goods and services sold for the three months and nine months ended December 31, 2017, respectively. The Company recorded a current derivative asset of \$1,029, zero, and zero as of December 31, 2018 and 2017, and March 31, 2018, respectively, included on the condensed consolidated balance sheets.

16. SALE OF RECEIVABLES

The Company sells trade receivables to unaffiliated financial institutions under two accounts receivable securitization facilities. Under the first facility, the Company continuously sells a designated pool of trade receivables to a special purpose entity, which sells 100% of the receivables to an unaffiliated financial institution. During the nine months ended December 31, 2018, the investment limit of this program was decreased from \$155,000 trade receivables to \$125,000 trade receivables. Under the second facility, the Company offers receivables for sale to an unaffiliated financial institution, which are then subject to acceptance by the unaffiliated financial institution. As of December 31, 2018, the investment limit under the second facility was \$125,000 trade receivables.

The Company is the servicer of both facilities and may receive funds that are due to the unaffiliated financial institutions, which are net settled on the next settlement date. As a result of the net settlement, trade and other receivables, net in the condensed consolidated balance sheets has been increased by \$78 as of December 31, 2018 and reduced by \$7,953 and \$10,858 as of December 31, 2017 and March 31, 2018, respectively.

16. SALE OF RECEIVABLES (continued)

Level 2 measurements

- Debt: The fair value of debt is based on the market price for similar financial instruments or model-derived valuations whose inputs are observable. The primary inputs to the valuation include market expectations, the Company's credit risk, and the contractual terms of the debt instrument.
- Derivatives: The fair value of derivatives is based on the discounted cash flow analysis of the expected future cash flows. The primary inputs to the valuation include forward yield curves, implied volatilities, LIBOR rates, and credit valuation adjustments.

Level 3 measurements

- Guarantees: The fair value of guarantees is based on the discounted cash flow analysis of the expected future cash flows or historical loss rates. The primary inputs to the discounted cash flow analysis include market interest rates of 15.0% to 70.0% and the Company's historical loss rates of 2.4% to 10.0% as of December 31, 2018. The historical loss rate was weighted by the principal balance of the loans.
- Securitized beneficial interests: The fair value of securitized beneficial interests is based on the present value of future expected cash flows. The primary inputs to this valuation include payment speeds of 64 to 73 days and discount rates of 5.0% to 7.3% as of December 31, 2018. The discount rate was weighted by the outstanding interest. Payment speed was weighted by the average days outstanding.

17. FAIR VALUE MEASUREMENTS *(continued)*

The following summarizes the reconciliation of changes in Level 3 instruments measured on a recurring basis:

Sales	\$ 475	\$ 447	\$ 14,238	\$ 23,503
Purchases	46,281	35,563	98,784	73,500

During the three months ended December 31, 2018, the Company determined that purchases with related parties reported in its related party transactions footnote in the financial statements for the three and six months ended September 30, 2018, included in its Form 10-Q for the period then ended, were not properly stated, which resulted in an understatement of the related party purchases. This change did not impact the condensed consolidated balance sheets, condensed consolidated statements of operations or the condensed consolidated statements of cash flows for any period. The revised purchases with related parties for the three and six months ended September 30, 2018 were \$21,042 and \$52,503, respectively.

20. RESTRUCTURING AND ASSET IMPAIRMENT CHARGES

The Company continues to focus on efficiency and cost improvements. During the nine months ended December 31, 2018, the Company continued to respond to changes in the business, with two cost-saving and restructuring initiatives. The first initiative involves the closing of one of its foreign processing facilities in order to process tobacco in the affected area under a third-party processing arrangement going forward. The second initiative involves the consolidation of the Company's U.S. green tobacco processing operations into its Wilson, North Carolina facility and the repurposing of its Farmville, North Carolina facility for storage and special projects. The following summarizes restructuring and impairment charges:

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

EXECUTIVE OVERVIEW:

Our company changed its name from Alliance One International, Inc. to Pyxus International, Inc. on September 12, 2018. The following executive overview for the period ended December 31, 2018 is intended to provide highlights of the discussion and analysis that follows.

Financial Results

Despite challenges impacting the North America market, including Hurricane Florence and foreign tariffs on U.S. tobacco, our leaf business's third quarter was one of the strongest we have had in four fiscal years, with sales and other operating revenues increasing to \$524.5 million, a 9.8% increase from the same period last year. Gross profit as a percent of sales decreased from 15.4% for the three months ended December 31, 2017 to 14.2% for the three months ended December 31, 2018. This decrease was primarily due to unfavorable changes in product mix in North America and South America, higher conversion costs in North America attributable to Hurricane Florence reducing the U.S. crop size, and higher conversion costs in South America attributable to crop size normalization. Total selling, general and administrative expense ("SG&A") increased \$7.4 million or 21.6% from \$34.3 million for the three months ended December 31, 2017 to \$41.7 million for the three months ended December 31, 2018. SG&A as a percent of sales increased from 7.2% for the three months ended December 31, 2017 to 8.0% for the three months ended December 31, 2018. These increases were primarily due to the inclusion of new start-up business ventures in the current year and increased costs associated with developing and supporting these new business ventures. This quarter's performance was also impacted by restructuring and asset impairment charges of \$1.7 million, related to the consolidation of our U.S. green tobacco processing operations.

Liquidity

Our liquidity requirements are affected by various factors including crop seasonality, foreign currency and interest rates, green tobacco prices, customer mix, crop size, and quality. During the three months and nine months ended December 31, 2018, we utilized surplus cash to reduce long-term debt with the purchase and cancellation of \$9.4 million and \$27.3 million of our 9.875% senior secured second lien notes, respectively, leaving \$635.7 million outstanding as of December 31, 2018. As of December 31, 2018, the Company's available credit lines, letters of credit, and cash totaled \$527.8 million. We will continue to monitor and adjust funding sources as needed to enhance and drive various business opportunities that maintain flexibility and meet cost expectations.

Outlook

It has been one year since we announced our "One Tomorrow" transformation plan, in which we revealed our pursuit of future growth opportunities and commitment to reshape our brand as the trusted provider of responsibly produced, independently verified, sustainable, and traceable agricultural products and services. Since that time, we have made tremendous progress developing higher margin, fast-growing categories and building upon the strength of our leaf operations, all while maintaining our commitment to delivering the high-quality products and services our customers expect from us.

We remain committed to the aggressive development of our global specialty product lines and strengthening our core competencies to drive improved operational and financial performance. Farmers are at the heart of everything we do and we continue to explore additional value-added products that will allow them to further expand and diversify their income. Driven by our united purpose of transforming people's lives so that together we can grow a better world, we plan to continue making progress in execution of our 'One Tomorrow' strategy and accelerating value creation for all stakeholders.

Three Months Ended December 31, 2018 Compared to Three Months Ended December 31, 2017

Sales and other operating revenues increased \$46.7 million or 9.8% from \$477.8 million for the three months ended December 31, 2017 to \$524.5 million for the three months ended December 31, 2018. This increase was primarily due to a 14.2% increase in volume attributable to larger crop sizes in Africa. This increase was partially offset by delayed tobacco shipments in South America, lower volume in North America attributable to Hurricane Florence reducing the U.S. crop size and foreign tariffs on U.S. tobacco, and a decrease in average sales price of 6.1%.

Cost of goods sold increased \$45.5 million or 11.3% from \$404.3 million for the three months ended December 31, 2017 to \$449.8 million for the three months ended December 31, 2018. This increase was primarily due to the increase in volume.

Gross profit as a percent of sales decreased from 15.4% for the three months ended December 31, 2017 to 14.2% for the three months ended December 31, 2018. This decrease was primarily due to unfavorable changes in product mix in North America and South America, higher conversion costs in North America attributable to Hurricane Florence reducing the U.S. crop size, and higher conversion costs in South America attributable to crop size normalization.

Selling, general, and administrative expense ("SG&A") increased \$7.4 million or 21.6% from \$34.3 million for the three months ended December 31, 2017 to \$41.7 million for the three months ended December 31, 2018. SG&A as a percent of sales increased from 7.2% for the three months ended December 31, 2017 to 8.0% for the three months ended December 31, 2018. These increases were primarily due to the inclusion of new start-up business ventures in the current year and increased costs associated with developing and supporting these new business ventures.

Other income, net increased \$7.0 million or 700.0% from \$1.0 million for the three months ended December 31, 2017 to \$8.0 million for the three months ended December 31, 2018. This increase was primarily due to the receipt of final insurance proceeds from the fiscal 2016 fire in Zimbabwe.

Restructuring and asset impairment charges of \$1.7 million for the three months ended December 31, 2018 were primarily related to a cost-saving and restructuring initiative to consolidate the Company's U.S. green tobacco processing operations in Farmville, North Carolina into the Wilson, North Carolina facility and repurpose the Farmville facility for storage and special projects.

Sales and other operating revenues decreased \$42.8 million or 35.5% from \$120.7 million for the three months ended December 31, 2017 to \$77.9 million for the three months ended December 31, 2018. This decrease was primarily due to lower volume in North America attributable to Hurricane Florence reducing the U.S. crop size and foreign tariffs on U.S. tobacco.

Cost of goods sold decreased \$42.2 million or 44.8% from \$94.3 million for the three months ended December 31, 2017 to \$52.1 million for the three months ended December 31, 2018. This decrease was primarily due to the decrease in volume.

Gross profit as a percent of sales increased from 10.6% for the three months ended December 31, 2017 to 11.2% for the three months ended December 31, 2018. This increase was primarily due to favorable changes in product mix. This increase was partially offset by higher conversion costs in North America attributable to Hurricane Florence reducing the U.S. crop size.

SG&A decreased \$1.1 million or 20.4% from \$5.4 million for the three months ended December 31, 2017 to \$4.3 million for the three months ended December 31, 2018. This decrease was primarily due to lower allocations of general corporate services attributable to a change in the Company's reportable segments. SG&A as a percent of sales increased from 4.5% for the three months ended December 31, 2017 to 5.5% for the three months ended December 31, 2018. This increase was primarily due to the decrease in sales.

Restructuring and asset impairment charges of \$1.5 million for the three months ended December 31, 2018 were related to a restructuring initiative to consolidate the Company's U.S. green tobacco processing operations in Farmville, North Carolina into the Wilson, North Carolina facility and repurpose the Farmville facility for storage and special projects.

Sales and other operating revenues increased \$84.6 million or 23.7% from \$357.1 million for the three months ended December 31, 2017 to \$441.7 million for the three months ended December 31, 2018. This increase was primarily due to higher volume in Africa attributable to larger crop sizes. This increase was partially offset by delayed tobacco shipments in South America.

Cost of goods sold increased \$74.4 million or 25.1% from \$296.0 million for the three months ended December 31, 2017 to \$370.4 million for the three months ended December 31, 2018. This increase was primarily due to the increase in volume.

Gross profit as a percent of sales decreased from 17.0% for the three months ended December 31, 2017 to 14.5% for the three months ended December 31, 2018. This decrease was primarily due to unfavorable changes in product mix in South America, higher conversion costs in South America attributable to crop size normalization, and the exchange impact on local currency denominated costs, primarily in Europe. This decrease was partially offset by lower conversion costs in Africa attributable to larger crop sizes.

SG&A decreased \$1.1 million or 3.8% from \$28.9 million for the three months ended December 31, 2017 to \$27.8 million for the three months ended December 31, 2018. Sales and other operating revenues increased \$8.3 million or 0.7% from \$1,202.1 million for the nine months ended December 31, 2017 to \$1,210.4 million for the nine months ended December 31, 2018. This increase was primarily due to a 5.0% increase in volume attributable to larger crop sizes in Africa. This increase was partially offset by delayed tobacco shipments in South America, lower volume in North America attributable to Hurricane Florence reducing the U.S. crop size and foreign tariffs on U.S. tobacco, and a decrease in average sales price of 4.7%.

Cost of goods sold increased \$14.4 million or 1.4% from \$1,030.6 million for the nine months ended December 31, 2017 to \$1,045.0 million for the nine months ended December 31, 2018. This increase was primarily due to the increase in volume.

Gross profit as a percent of sales decreased from 14.3% for the nine months ended December 31, 2017 to 13.7% for the nine months ended December 31, 2018. This decrease was primarily due to higher conversion costs in North America attributable to Hurricane Florence reducing the U.S. crop size, unfavorable changes in product mix in South America, and the exchange impact on local currency denominated costs, primarily in Europe.

SG&A increased \$16.6 million or 16.2% from \$102.2 million for the nine months ended December 31, 2017 to \$118.8 million for the nine months ended December 31, 2018. SG&A as a percent of sales increased from 8.5% for the nine months ended December 31, 2017 to 9.8% for the nine months ended December 31, 2018. These increases were primarily due to the inclusion of new start-up business ventures in the current year and increased costs associated with developing and supporting these new business ventures.

Other income, net increased \$3.6 million or 36.4% from \$9.9 million for the nine months ended December 31, 2017 to \$13.5 million for the nine months ended December 31, 2018. This increase was primarily due to the receipt of final insurance proceeds from the fiscal 2016 fire in Zimbabwe.

Restructuring and asset impairment charges of \$3.4 million for the nine months ended December 31, 2018 were primarily related to a restructuring initiative to consolidate the Company's U.S. green tobacco processing operations in Farmville, North Carolina into the Wilson, North Carolina facility and repurpose the Farmville facility for storage and special projects, and the decision to close one of the Company's foreign processing facilities and process tobacco in the affected area under a third-party processing arrangement going forward.

Sales and other operating revenues of \$10.3 million for the nine months ended December 31, 2018 were primarily related to cannabis and e-liquids product revenue. The cannabis revenue was attributable to sales of legal medicinal and recreational cannabis in the Canadian market. The e-liquids product revenue was attributable to sales of e-liquid products in the U.S. market.

Gross profit as a percent of sales was 23.3% for the nine months ended December 31, 2018.

SG&A of \$23.9 million for the nine months ended December 31, 2018 was related to the inclusion of these new start-up business ventures in the current year and increased costs associated with developing and supporting these new business ventures.

LIQUIDITY AND CAPITAL RESOURCES:

Overview

Our leaf tobacco business is seasonal, and purchasing, processing, and selling activities have several associated peaks where cash on hand and outstanding indebtedness may vary significantly compared to fiscal year-end. We utilize capital in excess of cash flow from operations to finance accounts receivable, inventory, and advances to tobacco suppliers in foreign countries, including Argentina, Brazil, Guatemala, Malawi, Tanzania, Turkey, and Zambia. In addition, from time to time, we may elect to purchase, redeem, repay, retire, or cancel indebtedness prior to stated maturity under our various foreign credit lines and senior secured credit agreement or indentures, as permitted therein.

As of December 31, 2018, we are in the process of repaying our South American related crop lines as we continue to ship inventory and collect receivables. In Africa, we continue to ship product which should continue into the first quarter of fiscal year 2020 as well as the purchase of the new crop which should begin mid-March. In Asia, the Indian Mysore and Indonesian crops are approaching the end of the processing and shipping is in full force. Europe continues shipping of the current crop and is preparing to purchase the new crop during the fourth fiscal quarter. North America has completed flue cured processing with shipping winding down and has commenced the purchasing, processing and shipping of the burley crop which should continue into the fourth fiscal quarter, seasonally elevating its working capital requirements. Fluctuation of the U.S. dollar versus many of the currencies in which we have costs may continue to have an impact on our working capital requirements, as such, we will monitor and hedge foreign currency costs prudently, and as needed on a currency by currency basis.

Working Capital

Our working capital decreased from \$711.5 million at March 31, 2018 to \$629.6 million at December 31, 2018. Our current ratio was 1.8 to 1 at December 31, 2018 and 2.1 to 1 at March 31, 2018. The decrease in working capital was primarily due to the increase in short-term notes payable attributable to the seasonal buildup of South American and African crops. This increase was partially offset by lower seasonal increases in inventory attributable to Hurricane Florence.

The following is a summary of items from the condensed consolidated balance sheets and condensed statements of consolidated cash flows:

<i>(in millions except for current ratio)</i>	December 31,		March 31,
	2018	2017	2018
Cash and cash equivalents	\$ 209.2	\$ 209.5	\$ 264.7

Investing activities	138.3	157.9	
Financing activities	142.9	8.1	

Approximately \$81.0 million of our outstanding cash balance at December 31, 2018 was held in foreign jurisdictions. As a result of our cash needs abroad, it is our intention to permanently reinvest these funds in foreign jurisdictions regardless of the fact that the cost of repatriation would not have a material financial impact.

Operating Cash Flows

Net cash used by operating activities decreased \$91.7 million in the nine months ended December 31, 2018 compared to the 2017 period. The decrease in cash used was primarily due to smaller crop size in North America attributable to Hurricane Florence.

Investing Cash Flows

Net cash provided by investing activities decreased \$19.6 million in the nine months ended December 31, 2018 compared to the 2017 period. The decrease in cash provided was primarily due to higher purchases for property, plant, and equipment related to expansion of new business ventures and acquisition of certain majority-owned investments during the current year.

Financing Cash Flows

Net cash provided by financing activities increased \$134.8 million in the nine months ended December 31, 2018 compared to the 2017 period. This increase is primarily due to higher net proceeds from short-term borrowings due to the timing of shipments when compared with the prior year and increases in purchasing requirements for the current African and South American crops.

Debt Financing

We continue to finance our business with a combination of short-term and long-term seasonal credit lines, an ABL facility, long-term debt securities, customer advances, and cash from operations when available. At December 31, 2018, we had cash of \$209.2 million and total debt outstanding of \$1,480.8 million comprised of \$583.4 million of short-term notes payable to banks, \$270.4 million of 8.5% senior secured first lien notes, \$626.3 million of 9.875% senior secured second lien notes, and \$0.7 million of other long-term debt. The \$156.1 million seasonal increase in notes payable to banks from March 31, 2018 to December 31, 2018 results from the timing of borrowings under the African and Brazilian credit lines. Aggregated peak borrowings by facility occurring at any time during the three months ended December 31, 2018 and 2017, were \$686.0 million at a weighted average interest rate of 6.8% and \$621.8 million at a weighted average interest rate of 5.9%, respectively. Aggregated peak borrowings by facility occurring at any time during the three months ended December 31, 2018 and 2017 were repaid with cash provided by operating activities. Available credit as of December 31, 2018 was \$318.6 million comprised of \$60.0 million under our ABL facility, \$253.6 million of notes payable to banks, and \$5.0 million of availability for letters of credit. Borrowing under the ABL facility is permitted only to the extent that, after consideration of the application of the proceeds of the borrowing, our unrestricted cash and cash equivalents would not exceed \$180.0 million. At December 31, 2018, our unrestricted cash and cash equivalents was \$209.2 million. In fiscal 2019, we expect to incur capital expenditures of approximately \$75.0 million. Approximately \$26.0 million is expected to be expended for routine replacement of equipment and investments intended to add value to our customers or increase efficiency in our tobacco business. The remainder is expected to be expended for expansion of our production capacity in Canada with anticipated funding by future Canadian structure-finance products.

No cash dividends were paid to shareholders during the three months ended December 31, 2018 and the payment of dividends is restricted under the terms of our ABL credit facility and the indentures governing the 8.5% senior secured first lien notes and the 9.875% senior secured second lien notes. We believe that our sources of liquidity will be sufficient to fund our anticipated needs for the next twelve months.

(1) As of December 31, 2018, the full amount of the ABL facility was available. Borrowing is permitted under the ABL facility only to the extent that, after consideration of the application of the proceeds of the borrowing, the Company's unrestricted cash and cash equivalents would not exceed \$180.0 million. At December 31, 2018, the Company's unrestricted cash and cash equivalents was \$209.2 million.

(2) Weighted average rate for the trailing twelve months ended December 31, 2018.

(3) Primarily foreign seasonal lines of credit.

Foreign Seasonal Lines of Credit

We have typically financed our non-U.S. tobacco operations with uncommitted unsecured short-term seasonal lines of credit at the local level. These operating lines are seasonal in nature, normally extending for a term of 180 to 270 days, corresponding to the tobacco crop cycle in that location. These facilities are typically uncommitted in that the lenders have the right to cease making loans and demand repayment of loans at any time. These loans are typically renewed at the outset of each tobacco season. As of December 31, 2018, we had \$583.4 million drawn and outstanding on foreign seasonal lines with maximum capacity totaling \$846.4 million subject to limitations as provided for in the agreement governing our ABL credit facility. Additionally, against these lines there was \$9.4 million available in letter of credit capacity with \$4.4 million issued but unfunded.

FACTORS THAT MAY AFFECT FUTURE RESULTS:

Readers are cautioned that the statements contained in this report regarding expectations of our performance or other matters that may affect our business, results of operations, or financial condition are “forward-looking statements” as defined in the Private Securities Litigation Reform Act of 1995. These statements, which are based on current expectations of future events, may be identified by the use of words such as “strategy,” “expects,” “continues,” “plans,” “anticipates,” “believes,” “will,” “estimates,” “intends,” “projects,” “goals,” “targets,” and other words of similar meaning. These statements also may be identified by the fact that they do not relate strictly to historical or current facts. If underlying assumptions prove inaccurate, or if known or unknown risks or uncertainties materialize, actual results could vary materially from those anticipated, estimated, or projected. Some of these risks and uncertainties include changes in the timing of anticipated shipments, changes in anticipated geographic product sourcing, political instability in sourcing locations, currency and interest rate fluctuations, shifts in the global supply and demand position for our tobacco products, and the impact of regulation and litigation on our customers. A further list and description of these risks, uncertainties, and other factors can be found in the “Risk Factors” section of our annual report on Form 10-K for the fiscal year ended March 31, 2018, in Part II, Item 1A of this report and in our other filings with the Securities and Exchange Commission. We do not undertake to update any forward-looking statements that we may make from time to time.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

For a discussion of our exposure to market risk, refer to Part II, [Item 1A “Risk Factors”](#) for the three months ended December 31, 2018 and Part II, Item 7A “Quantitative and Qualitative Disclosures About Market Risk” contained in our Annual Report on Form 10-K for the year ended March 31, 2018.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures (as defined in Rule 13a-15(e) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”)) designed to provide reasonable assurance that the information required to be disclosed in the reports we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission’s rules and forms and that this information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure. Due to inherent limitations, our disclosure controls and procedures, however well designed and operated, can provide only reasonable assurance (not absolute) that the objectives of the disclosure controls and procedures are met.

In connection with the preparation of this quarterly report on Form 10-Q, our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as required by Rule 13a-15(b) of the Exchange Act), as of December 31, 2018. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded our disclosure controls and procedures (as defined in Rule 13a-15(e) of the Exchange Act) were effective to provide reasonable assurance as of December 31, 2018.

Changes in Internal Control Over Financial Reporting

As required by Rule 13a-15(d) under the Exchange Act, the Company’s management, including the Company’s Chief Executive Officer and Chief Financial Officer, have evaluated the Company’s internal control over financial reporting to determine whether any changes occurred during the quarter covered by this quarterly report that have materially affected, or are reasonably likely to materially affect, the Company’s internal control over financial reporting.

There were no changes that occurred during the three months ended December 31, 2018 that have materially affected, or are reasonably likely to materially affect, the Company’s internal control over financial reporting.

Part II. Other Information

Item 1. Legal Proceedings

See "[Note 10. Contingencies and Other Information](#)" for the information required by Regulation S-K Item 103 of the Exchange Act. On November 9, 2018, the Securities and Exchange Commission ("SEC") announced that the Company had agreed to settle charges that it had violated the reporting, books and records, and internal accounting control provisions of the federal securities laws in connection with matters relating to its Kenyan subsidiary, Alliance One Tobacco (Kenya) Ltd., that led to the restatement of the Company's financial statements for the years ended March 31, 2013, 2014 and 2015 and the three months ended June 30, 2015, which restatements were filed with the SEC on May 25, 2016. In connection with the settlement, the SEC issued an order finding that the Company violated reporting, books and records and internal accounting control provisions in connection with the matter and ordered the Company to cease and desist from committing or causing any future violations of these provisions of the federal securities laws. In its order, the SEC noted the remedial acts promptly undertaken by the Company and the cooperation afforded by the Company to the SEC's staff in its investigation of the matter. No fines or penalties were assessed against the Company or its subsidiaries in connection with this matter.

In addition to the above-mentioned matters, certain of the Company's subsidiaries are involved in other litigation or legal matters incidental to their business activities, including tax matters. While the outcome of these matters cannot be predicted with certainty, the Company is vigorously defending them and does not currently expect that any of them will have a material adverse effect on its business or financial position. However, should one or more of these matters be resolved in a manner adverse to its current expectation, the effect on the Company's results of operations for a particular fiscal reporting period could be material.

Item 1A. Risk Factors

The following sets forth a risk factor revised from the "Risk Factors" included in Part I, Item 3 of the Company's Annual Report on Form 10-K for the fiscal year ended March 31, 2018:

We face increased risks of doing business due to the extent of our international operations.

We do business in more than 35 countries, some of which do not have stable economies or governments. Our international operations are subject to international business risks, including unsettled political conditions, uncertainty in the enforcement of legal obligations, including the collection of accounts receivable, fraud risks, expropriation, import and export restrictions, exchange controls, inflationary economies, currency risks and risks related to the restrictions on repatriation of earnings or proceeds from liquidated assets of foreign subsidiaries. These risks are exacerbated in countries where we have advanced substantial sums or guaranteed local loans or lines of credit for the purchase of tobacco from suppliers. For example, in 2006 as a result of the political environment, economic instability, foreign currency controls and governmental regulations in Zimbabwe, we deconsolidated our Zimbabwe subsidiary, Mashonaland Tobacco Company LTD ("MTC"). Subsequently, we determined that the significant doubt about our ability to control MTC was eliminated and we have reconsolidated MTC as of March 31, 2016.

Our international operations are in areas where the demand is for the export of lower priced tobacco. We have significant investments in our purchasing, processing and exporting operations in Argentina, Brazil, Malawi, Tanzania and Turkey.

In recent years, economic problems in certain African countries have received wide publicity related to devaluation and appreciation of the local currency and inflation, including the classification of Malawi's economy as highly inflationary and the shortages of U.S. dollars in Zimbabwe for exchange for local currency equivalents. Devaluation and appreciation can affect our purchase costs of tobacco and our processing costs. In addition, we conduct business with suppliers and customers in countries that have relatively recently had or may be subject to dramatic political regime change. In the event of such dramatic changes in the government of such countries, we may be unable to continue to operate our business, or adequately enforce legal obligations, after the change in a manner consistent with prior practice.
