NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

1. Business

Tompkins Financial Corporation ("Tompkins" or the "Company") is headquartered in Ithaca, New York and is registered as a Financial Holding Company with the Federal Reserve Board under the Bank Holding Company Act of 1956, as amended. The Company is a locally oriented, community-based financial services organization that offers a full array of products and services, including commercial and consumer banking, leasing, trust and investment management, and financial planning and wealth management. At June 30, 2026, the Company had one wholly-owned banking subsidiary, Tompkins Community Bank, which changed its name to Tompkins Bank & Trust effective July 20, 2026. Tompkins Bank & Trust provides a broad selection of trust and wealth management services under the Tompkins Financial Advisors brand, including investment management, trust and estate, and financial and tax planning services. On October 31, 2025, the Company sold all of the issued and outstanding shares of capital stock of its insurance subsidiary, Tompkins Insurance Agencies, Inc. ("TIA"), to Arthur J. Gallagher Risk Management Services, LLC ("Gallagher"). The Company's principal offices are located at 118 E. Seneca Street, Ithaca, New York, 14850, and its telephone number is (888) 503-5753. The Company's common stock is traded on the NYSE American under the symbol "TMP."

As a registered financial holding company, the Company is regulated under the Bank Holding Company Act of 1956 ("BHC Act"), as amended and is subject to examination and comprehensive regulation by the Federal Reserve Board ("FRB"). The Company is also subject to the jurisdiction of the Securities and Exchange Commission ("SEC") and is subject to disclosure and regulatory requirements under the Securities Act of 1933, as amended, and the Securities Exchange Act of 1934, as amended. The Company is subject to the rules of the NYSE American for listed companies.

Tompkins Bank & Trust is subject to examination and comprehensive regulation by various regulatory authorities, including the Federal Deposit Insurance Corporation ("FDIC"), and the New York State Department of Financial Services ("NYSDFS"). Each of these agencies issues regulations and requires the filing of reports describing the activities and financial condition of the entities under its jurisdiction. Likewise, such agencies conduct examinations on a recurring basis to evaluate the safety and soundness of the institutions, and to test compliance with various regulatory requirements, including: consumer protection, privacy, fair lending, the Community Reinvestment Act, the Bank Secrecy Act, sales of non-deposit investments, electronic data processing, and trust department activities. These agencies also examine and regulate the trust business of Tompkins Bank & Trust.

2. Basis of Presentation

The unaudited consolidated financial statements included in this quarterly report do not include all of the information and footnotes required by U.S. Generally Accepted Accounting Principles ("GAAP") for a full year presentation and certain disclosures have been condensed or omitted in accordance with rules and regulations of the SEC. In the application of certain accounting policies, management is required to make assumptions regarding the effect of matters that are inherently uncertain. These estimates and assumptions affect the reported amounts of certain assets, liabilities, revenues, and expenses in the unaudited consolidated financial statements. Different amounts could be reported under different conditions, or if different assumptions were used in the application of these accounting policies. The accounting policy that management considers critical in this respect is the determination of the allowance for credit losses. The Company has evaluated subsequent events for potential recognition and/or disclosure as of the date of these unaudited consolidated financial statements, and determined that no further disclosures were required.

In management's opinion, the unaudited consolidated financial statements reflect all adjustments of a normal recurring nature. The results of operations for the interim periods are not necessarily indicative of the results of operations to be expected for the full year ended December 31, 2026. The unaudited consolidated financial statements should be read in conjunction with the audited consolidated financial statements and the notes thereto in the Company's Annual Report on Form 10-K for the year ended December 31, 2025.

Accounting Standards Pending Adoption

ASU No. 2023-06, "Disclosure Improvements" amends the disclosure or presentation requirements related to various subtopics in the FASB Accounting Standards Codification. The new guidance is intended to align GAAP requirements with those of the SEC. The ASU will become effective on the earlier of the date on which the SEC removes its related disclosure requirements from Regulation S-X or Regulation S-K, or June 30, 2027. Early adoption is prohibited. Adoption of ASU 2023-06 is not expected to have a material impact on our consolidated financial statements.

ASU No. 2024-03, "Disaggregation of Income Statement Expenses" requires new financial statement disclosures in tabular format, disaggregating information about prescribed categories underlying any relevant income statement expense captions, including employee compensation, depreciation, and intangible asset amortization. Tompkins is required to adopt this ASU prospectively for annual periods beginning after December 15, 2026, and interim periods within fiscal years beginning after December 15, 2027. Early adoption and retrospective application are permitted. Tompkins is currently evaluating the potential impact of ASU 2024-03 on our consolidated financial statements.

ASU No. 2025-11, "Interim Reporting (Topic 270): Narrow-Scope Improvements" was issued to improve the guidance within Topic 270, Interim Reporting, by clarifying applicability of the requirements. This guidance is effective for interim reporting periods within annual reporting periods beginning after December 15, 2027. Tompkins is currently evaluating the potential impact of ASU 2025-11 on our consolidated financial statements.

ASU No. 2025-12, "Codification Improvements" addresses suggestions received from stakeholders on the Accounting Standards Codification and to make other incremental improvements to generally accepted accounting principles (GAAP). This ASU is effective for interim reporting periods within annual reporting periods beginning after December 15, 2027. Adoption is not expected to have a material impact on our consolidated financial statements.

The Company reviews new accounting standards as issued. Management has not identified any other new standards that it believes will have a significant impact on the Company's financial statements.

3. Securities

Available-for-Sale Debt Securities

The following table summarizes available-for-sale debt securities held by the Company at June 30, 2026 and December 31, 2025:

<i>(In thousands)</i>	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
June 30, 2026				
U.S. Treasuries	\$ 45,665	\$ 70	\$ 2,008	\$ 43,727
Obligations of U.S. Government sponsored entities	348,968	2,960	12,797	339,131
Obligations of U.S. states and political subdivisions	80,649	4	5,199	75,454
Mortgage-backed securities – residential, issued by				
U.S. Government agencies	301,450	215	4,846	296,819
U.S. Government sponsored entities	640,657	3,602	8,770	635,489
U.S. corporate debt securities	2,500	0	59	2,441
Total available-for-sale debt securities	\$ 1,419,889	\$ 6,851	\$ 33,679	\$ 1,393,061
December 31, 2025				
U.S. Treasuries	\$ 55,492	\$ 213	\$ 1,925	\$ 53,780
Obligations of U.S. Government sponsored entities	354,128	5,928	11,653	348,403
Obligations of U.S. states and political subdivisions	81,517	7	5,214	76,310
Mortgage-backed securities – residential, issued by				
U.S. Government agencies	315,001	852	2,357	313,496
U.S. Government sponsored entities	582,741	6,712	1,821	587,632

Total available-for-sale debt securities	\$ 1,391,379	\$ 13,712	\$ 23,023	\$ 1,382,068

Held-to-Maturity Debt Securities

The following table summarizes held-to-maturity debt securities held by the Company at June 30, 2026 and December 31, 2025:

<i>(In thousands)</i>	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
June 30, 2026				
U.S. Treasuries	\$ 85,718	\$ 0	\$ 7,603	\$ 78,115
Obligations of U.S. Government sponsored entities	226,844	0	23,464	203,380
Total held-to-maturity debt securities	\$ 312,562	\$ 0	\$ 31,067	\$ 281,495
December 31, 2025				
U.S. Treasuries	\$ 85,831	\$ 0	\$ 7,037	\$ 78,794
Obligations of U.S. Government sponsored entities	226,697	0	21,631	205,066
Total held-to-maturity debt securities	\$ 312,528	\$ 0	\$ 28,668	\$ 283,860

The Company may from time to time sell debt securities from its available-for-sale portfolio. There were no realized gains or losses on sales of available-for-sale debt securities for the three and six months ended June 30, 2026 and June 30, 2025. The Company's investment portfolio includes callable securities that may be called prior to maturity. There were no realized gains or losses on called available-for-sale or held-to-maturity debt securities for the three and six months ended June 30, 2026 and June 30, 2025. The Company recognized net losses on equity securities of \$4,000 and \$9,000 for the three and six months ended June 30, 2026, respectively, compared to net gains of \$1,000 and \$15,300 for the three and six months ended June 30, 2025, respectively, reflecting the change in fair value.

The following table summarizes available-for-sale debt securities that had unrealized losses at June 30, 2026, and December 31, 2025:

	Less than 12 Months		12 Months or Longer		Total	
<i>(In thousands)</i>	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
June 30, 2026

The Company evaluates available-for-sale debt securities for expected credit losses ("ECL") in unrealized loss positions at each measurement date to determine whether the decline in the fair value below the amortized cost basis (impairment) is due to credit-related factors or noncredit-related factors.

Factors that may be indicative of ECL include, but are not limited to, the following:

- Extent to which the fair value is less than the amortized cost basis.
- Adverse conditions specifically related to the security, an industry, or geographic area (changes in technology, business practice).
- Payment structure of the debt security with respect to underlying issuer or obligor.
- Failure of the issuer to make scheduled payment of principal and/or interest.
- Changes to the rating of a security or issuer by a nationally recognized statistical rating organization.
- Changes in tax or regulatory guidelines that impact a security or underlying issuer.

For available-for-sale debt securities in an unrealized loss position, the Company evaluates the securities to determine whether the decline in the fair value below the amortized cost basis is the result of changes in interest rates or reflects a fundamental change in the creditworthiness of the underlying issuer. Any impairment that is not credit related is recognized in other comprehensive income (loss), net of applicable taxes. Credit-related impairment is recognized as an allowance for credit losses ("ACL") on the Consolidated Statements of Condition, limited to the amount by which the amortized cost basis exceeds the fair value, with a corresponding adjustment to earnings. Both the ACL and the adjustment to net income may be reversed if conditions change.

Management measures expected credit losses on held-to-maturity debt securities on a collective basis by major security type with each type sharing similar risk characteristics and considers historical credit loss information that is adjusted for current conditions and reasonable and supportable forecasts. Management has made the accounting policy election to exclude accrued interest receivable on held-to-maturity debt securities from the estimate of credit losses. As of June 30, 2026, the held-to-maturity portfolio consisted of U.S. Treasury securities and securities issued by U.S. government-sponsored enterprises, including the Federal National Mortgage Agency and the Federal Farm Credit Banks Funding Corporation. U.S. Treasury securities are backed by the full faith and credit of and/or guaranteed by the U.S. government, and it is expected that the securities will not be settled at prices less than the amortized cost bases of the securities. Securities issued by U.S. government agencies or U.S. government-sponsored enterprises carry the explicit and/or implicit guarantee of the U.S. government, are widely recognized as "low-risk," and have a long history of zero credit loss. As such, the Company did not record an allowance for credit losses for these securities as of June 30, 2026 or December 31, 2025.

The gross unrealized losses reported for residential mortgage-backed securities relate to investment securities issued by U.S. government sponsored entities such as Federal National Mortgage Association, Federal Home Loan Mortgage Corporation, and U.S. government agencies such as Government National Mortgage Association. The total gross unrealized losses, shown in the tables above, were primarily attributable to changes in interest rates and levels of market liquidity, relative to when the investment securities were purchased, and not due to the credit-related quality of the investment securities. The Company does

not have the intent to sell these securities and does not believe it is more likely than not that the Company will be required to sell these securities before a recovery of amortized cost.

The Company did not recognize any net credit impairment charge to earnings on investment securities in the second quarter of 2026 or the second quarter of 2025.

The amortized cost and estimated fair value of debt securities by contractual maturity are shown in the following table. Expected maturities may differ from contractual maturities because issuers may have the right to call or prepay obligations with or without call or prepayment penalties. Mortgage-backed securities are shown separately since they are not due at a single maturity date.

<i>(In thousands)</i>	June 30, 2026		December 31, 2025	
	Amortized Cost	Fair Value	Amortized Cost	Fair Value
Available-for-sale debt securities:

Total held-to-maturity debt securities	\$ 312,562	\$ 281,495	\$ 312,528	\$ 283,860

The Company also holds non-marketable Federal Home Loan Bank of New York ("FHLBNY") stock and non-marketable Atlantic Community Bankers Bank ("ACBB") stock, all of which are required to be held for regulatory purposes and for borrowing availability. The required investment in FHLB stock is tied to the Company's borrowing levels with the FHLB. Holdings of FHLBNY stock and ACBB stock totaled \$31.9 million and \$95,000, respectively, at June 30, 2026. These securities are carried at par, which is also cost. The FHLBNY continues to pay dividends and repurchase stock. Quarterly, we evaluate our investment in the FHLB for impairment. We evaluate recent and long-term operating performance, liquidity, funding and capital positions, stock repurchase history, dividend history and impact of legislative and regulatory changes. Based on our most recent evaluation, as of June 30, 2026, we determined that no impairment write-downs were required.

4. Loans and Leases

Loans and leases at June 30, 2026 and December 31, 2025 were as follows:

<i>(In thousands)</i>	06/30/2026	12/31/2025
Commercial and industrial		
Agriculture	\$ 117,956	\$ 114,475

Total loans and leases, net of unearned income and deferred costs and fees	\$ 6,597,178	\$ 6,446,245

The Company has adopted comprehensive lending policies, underwriting standards and loan review procedures. Management reviews these policies and procedures on a regular basis. The Company discussed its lending policies and underwriting guidelines for its various lending portfolios in Note 4 – "Loans and Leases" in the Notes to Consolidated Financial Statements contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2025. There have been no significant changes in these policies and guidelines since the date of that report. The Company's Board of Directors approves the lending policies at least annually. The Company recognizes that exceptions to policy guidelines may occasionally occur and has established procedures for approving exceptions to these policy guidelines. Management has also implemented reporting systems to monitor loan origination, loan quality, concentrations of credit, loan delinquencies and nonperforming loans and potential problem loans.

Loans are considered past due if the required principal and interest payments have not been received as of the date such payments are due. Generally loans are placed on nonaccrual status if principal or interest payments become 90 days or more contractually past due and/or management deems the collectability of the principal and/or interest to be in question as well as when required by regulatory agencies. When interest accrual is discontinued, all unpaid accrued interest is reversed. Payments received on loans on nonaccrual are generally applied to reduce the principal balance of the loan. Loans are generally returned to accrual status when all the principal and interest amounts contractually due are brought current, the borrower has established a payment history, and future payments are reasonably assured. When management determines that the collection of principal in full is not probable, management will charge-off a partial amount or full amount of the loan balance. Management considers specific facts and circumstances relative to each individual credit in making such a determination. For residential and consumer loans, management uses specific regulatory guidance and thresholds for determining charge-offs.

The below tables are an age analysis of past due loans, segregated by class of loans and leases, as of June 30, 2026 and December 31, 2025:

<i>(In thousands)</i>	30-59 Days	60-89 Days	90 Days or More	Total Past Due	Current Loans	Total Loans

The Company did not recognize any interest income on nonaccrual loans during the three and six months ended June 30, 2026 and 2025.

5. Allowance for Credit Losses

Management reviews the appropriateness of the allowance for credit losses ("allowance" or "ACL") on a regular basis. Management considers the accounting policy relating to the allowance to be a critical accounting policy, given the inherent uncertainty in evaluating the levels of the allowance required to cover credit losses in the portfolio and the material effect that assumptions could have on the Company's results of operations. The Company has developed a methodology to measure the amount of estimated credit loss exposure inherent in the loan portfolio to assure that an appropriate allowance is maintained. The Company's methodology is based upon guidance provided in SEC Staff Accounting Bulletin No. 119, *Measurement of Credit Losses on Financial Instruments* ("CECL"), and *Financial Instruments - Credit Losses* and *ASC Topic 326, Financial Instruments - Credit Losses*.

The Company uses a Discounted Cash Flow ("DCF") method to estimate expected credit losses for all loan segments excluding the leasing segment. For each of these loan segments, the Company generates cash flow projections at the instrument level wherein payment expectations are adjusted for estimated prepayment speed, curtailments, recovery lag, probability of default, and loss given default. The modeling of expected prepayment speeds, curtailment rates, and time to recovery are based on internal historical data.

The Company uses regression analysis of historical internal and peer data to determine suitable loss drivers to utilize when modeling lifetime probability of default and loss given default. This analysis also determines how expected probability of default and loss given default will react to forecasted levels of the loss drivers. For all loans utilizing the DCF method, management utilizes forecasts of national unemployment and a one year percentage change in national gross domestic product as loss drivers in the model.

For all DCF models, management has determined that four quarters represents a reasonable and supportable forecast period and reverts back to a historical loss rate over eight quarters on a straight-line basis. Management leverages economic projections

from a reputable and independent third party to inform its loss driver forecasts over the four-quarter forecast period. Other internal and external indicators of economic forecasts, and scenario weightings, are also considered by management when developing the forecast metrics.

Due to the size and characteristics of the leasing portfolio, the Company uses the remaining life method, using the historical loss rate of the commercial and industrial segment, to determine the allowance for credit losses.

The combination of adjustments for credit expectations and timing expectations produces an expected cash flow stream at the instrument level. Instrument effective yield is calculated, net of the impacts of prepayment assumptions, and the instrument expected cash flows are then discounted at that effective yield to produce a net present value of expected cash flows ("NPV"). An ACL is established for the difference between the NPV and amortized cost basis.

Since the methodology is based upon historical experience and trends, current conditions, and reasonable and supportable forecasts, as well as management's judgment, factors may arise that result in different estimates. In addition, various federal and State regulatory agencies, as part of their examination process, review the Company's allowance and may require the Company to recognize additions to the allowance based on their judgments and information available to them at the time of their examinations.

Loan Commitments and Allowance for Credit Losses on Off-Balance Sheet Credit Exposures

Financial instruments include off-balance sheet credit instruments, such as commitments to make loans and commercial letters of credit. The Company's exposure to credit loss in the event of nonperformance by the other party to the financial instrument for off-balance sheet loan commitments is represented by the contractual amount of those instruments. Such financial instruments are recorded when they are funded. The Company records an allowance for credit losses on off-balance sheet credit exposures, unless the commitments to extend credit are unconditionally cancellable, through a charge to credit loss expense for off-balance sheet credit exposures included in provision expense in the Company's consolidated statements of income.

The following tables detail activity in the allowance for credit losses on loans and leases for the three and six months ended June 30, 2026 and 2025. Allocation of a portion of the allowance to one category of loans does not preclude its availability to absorb losses in other categories.

<i>(In thousands)</i>	Commercial & Industrial	Commercial Real Estate	Residential Real Estate	Consumer and Other	Finance Leases	Total
Three Months Ended June 30, 2026

Loan Modifications to Borrowers Experiencing Financial Difficulty

When the Company modifies loans to borrowers experiencing financial difficulty, the modifications may include interest rate reductions, principal or interest forgiveness, forbearances, term extensions, and other actions intended to minimize economic loss and to avoid foreclosure or repossession of collateral.

The following tables show the amortized cost basis as of June 30, 2026 and December 31, 2025 of the modified loans to borrowers experiencing financial difficulty, disaggregated by class of financing receivable and type of concession granted:

<i>(In thousands)</i>	Term Extension	Interest Rate Reduction	Payment Delay and Term Extension	Term Extension and Interest Rate Reduction	Payment Delay	Total	% of Total Class of Loans and Leases

6. Earnings Per Share

Earnings per share in the table below, for the three and six month periods ended June 30, 2026 and 2025 are calculated under the two-class method as required by ASC Topic 260, Earnings Per Share (ASC 260). ASC 260 provides that unvested share-based payment awards that contain nonforfeitable rights to dividends are participating securities and shall be included in the computation of earnings per share pursuant to the two-class method. Prior to 2019, the Company issued restricted stock awards that contained such rights and are therefore considered participating securities. Since 2019, the Company has issued restricted stock awards that do not have nonforfeitable rights to dividends and are therefore not considered participating securities. Basic earnings per common share are calculated by dividing net income allocable to common stock by the weighted average number of common shares, excluding participating securities, during the period. Diluted earnings per common share include the dilutive effect of participating securities.

<i>(In thousands, except share and per share data)</i>	Three Months Ended		Six Months Ended	
	6/30/2026	6/30/2025	6/30/2026	6/30/2025
Basic				
Net income available to common shareholders	\$ 29,304	\$ 21,471	\$ 55,378	\$ 41,150
Less: income attributable to unvested stock-based compensation awards	0	0	0	0
Net earnings allocated to common shareholders	29,304	21,471	55,378	41,150
Weighted average shares outstanding, including unvested stock-based compensation awards	14,383,667	14,433,857	14,399,857	14,434,245
Less: average unvested stock-based compensation awards	(158,695)	(187,462)	(161,977)	(187,979)
Weighted average shares outstanding - Basic	14,224,972	14,246,395	14,237,880	14,246,266
Diluted				
Net earnings allocated to common shareholders	29,304	21,471	55,378	41,150
Weighted average shares outstanding - Basic	14,224,972	14,246,395	14,237,880	14,246,266
Plus: incremental shares from assumed conversion of stock-based compensation awards	108,418	73,730	102,481	73,515
Weighted average shares outstanding - Diluted	14,333,390	14,320,125	14,340,361	14,319,781
Basic EPS	\$ 2.06	\$ 1.51	\$ 3.89	\$ 2.89
Diluted EPS	\$ 2.04	\$ 1.50	\$ 3.86	\$ 2.87

Stock-based compensation awards representing 914 and 12,817 common shares during the three months ended June 30, 2026 and 2025, respectively, were not included in the computations of diluted earnings per common share because the effect on those periods would have been anti-dilutive.

Stock-based compensation awards representing approximately 4,541 and 13,151 common shares during the six months ended June 30, 2026 and 2025, respectively were not included in the computations of diluted earnings per common share because the effect on those periods would have been anti-dilutive.

7. Other Comprehensive Income (Loss)

The following tables present reclassifications out of accumulated other comprehensive income (loss) for the three and six month periods ended June 30, 2026 and 2025:

(In thousands)	Three Months Ended		
	Before-Tax Amount	Tax (Expense) Benefit	Net of Tax
June 30, 2026			
Available-for-sale debt securities:			
Change in net unrealized (loss) gain during the period	\$ (7,968)	\$ 1,992	\$ (5,976)

The following tables present the amounts reclassified out of each component of accumulated other comprehensive (loss) income for the three and six months ended June 30, 2026 and 2025:

Details about Accumulated other Comprehensive Income (Loss) Components (In thousands)	Amount Reclassified from Accumulated Other Comprehensive (Loss) Income ¹		Affected Line Item in the Statement Where Net Income is Presented
	06/30/2026	06/30/2025	
Three Months Ended			
Available-for-sale debt securities:			
Unrealized gains and losses on available-for-sale debt securities	\$ 0	\$ 0	Net gain (loss) on securities transactions
	0	0	Income tax expense
	0	0	Net of tax
Employee benefit plans:			
Amortization of the following ²			
Net retirement plan actuarial loss	26	(19)	Other operating expense
Net retirement plan prior service cost	(48)	(49)	Other operating expense
	(22)	(68)	Total before tax
	4	17	Income tax expense
	\$ (18)	\$ (51)	Net of tax
Six Months Ended			
Available-for-sale debt securities:			
Unrealized gain (loss) on available-for-sale debt securities	\$ 0	\$ 0	Net loss on securities transactions
	0	0	Income tax expense
	0	0	Net of tax
Employee benefit plans:			
Amortization of the following ²			
Net retirement plan actuarial gain (loss)	(83)	(190)	Other operating expense
Net retirement plan prior service cost	(97)	(98)	Other operating expense
	(180)	(288)	Total before tax
	44	72	Income tax expense
	\$ (136)	\$ (216)	Net of tax

¹ Amounts in parentheses indicate debits in income statement.

² The accumulated other comprehensive (loss) income components are included in the computation of net periodic benefit cost (See Note 11 - "Employee Benefit Plans" in the Company's Annual Report on Form 10-K for the year ended December 31, 2025).

8. Financial Guarantees

The Company currently does not issue any guarantees that would require liability recognition or disclosure, other than standby letters of credit. The Company extends standby letters of credit to its customers in the normal course of business. The standby letters of credit are generally short-term. As of June 30, 2026, the Company's maximum potential obligation under standby letters of credit was \$36.5 million, unchanged from December 31, 2025. Management uses the same credit policies to extend standby letters of credit that it uses for on-balance sheet lending decisions and may require collateral to support standby letters of credit based upon its evaluation of the counterparty. Management does not anticipate any significant losses as a result of these transactions, and has determined that the fair value of standby letters of credit is not significant.

9. Segment and Related Information

The Company manages its operations through two reportable business segments in accordance with the standards set forth in FASB ASC 280, "Segment Reporting": (i) banking and (ii) wealth management. The Company's wealth management services, other than trust services, are managed separately from the banking segment.

On October 31, 2025, the Company sold all of the issued and outstanding shares of capital stock of its insurance subsidiary, TIA, to Gallagher. For the first 10 months of 2025, the Company had three operating segments: (i) banking, (ii) insurance services, and (iii) wealth management.

Banking

Tompkins Bank & Trust has twelve banking offices located in Ithaca, NY and surrounding communities; fourteen banking offices located in the Genesee Valley region of New York State, which includes Monroe County; twelve banking offices located in the counties north of New York City; and sixteen banking offices operating in southeastern Pennsylvania.

Wealth Management

The wealth management segment is generally organized under the Tompkins Financial Advisors brand. Tompkins Financial Advisors offers a comprehensive suite of financial services to customers, including trust and estate services, investment management and financial and insurance planning for individuals, corporate executives, small business owners and high net worth individuals. Tompkins Financial Advisors has offices in each of the Company's regional markets.

Chief Operating Decision Maker

Our Chief Executive Officer ("CEO") is our chief operating decision maker. In order to allocate costs, capital and resources to each operating segment, we (i) identify the cost or opportunity value of funds within each business segment, (ii) measure the profitability of a particular business segment by relating appropriate costs to revenues, (iii) evaluate each business segment in a manner consistent with its economic impact on consolidated earnings, and (iv) enhance asset and liability pricing decisions. Our CEO reviews actual net income versus budgeted net income on a monthly basis to assess segment performance and to make decisions about allocating capital and personnel among the segments.

Segment Reporting

Summarized financial information concerning the Company's reportable segments and the reconciliation to the Company's consolidated results is shown in the following tables. Investment in subsidiaries is netted out of the presentations below. The "Intercompany" column identifies the intercompany activities of revenues, expenses and other assets between the banking, insurance and wealth management services segments. The Company accounts for intercompany fees and services at an estimated fair value according to regulatory requirements for the services provided. Intercompany items relate primarily to the use of human resources, information systems, accounting and marketing services provided by the bank and the holding company. All other accounting policies are the same as those described in the summary of significant accounting policies in the Company's Annual Report on Form 10-K for the year ended December 31, 2025.

10. Fair Value Measurements

FASB ASC Topic 820, *Fair Value Measurements and Disclosures* (ASC 820), defines fair value, establishes a framework for measuring fair value in accordance with GAAP and expands disclosures about fair value measurements. ASC 820 also establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Transfers between levels, when determined to be appropriate, are recognized at the end of each reporting period.

The three levels of the fair value hierarchy under ASC 820 are:

Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 – Quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, or inputs that are observable, either directly or indirectly, for substantially the full term of the asset or liability;

Level 3 – Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (i.e., supported by little or no market activity).

The following table summarizes financial assets and financial liabilities measured at fair value on a recurring basis as of June 30, 2026 and December 31, 2025, segregated by the level of valuation inputs within the fair value hierarchy used to measure fair value:

Recurring Fair Value Measurements

<i>(In thousands)</i>	Total	(Level 1)	(Level 2)	(Level 3)

Securities: Fair values for U.S. Treasury securities are based on quoted market prices. Fair values for obligations of U.S. government sponsored entities, mortgage-backed securities-residential, obligations of U.S. states and political subdivisions, and U.S. corporate debt securities are based on quoted market prices, where available, as provided by third party pricing vendors. If quoted market prices were not available, fair values are based on quoted market prices of comparable instruments in active markets and/or based upon a matrix pricing methodology, which uses comprehensive interest rate tables to determine market price, movement and yield relationships. These securities are reviewed periodically to determine if there are any events or changes in circumstances that would adversely affect their value.

The change in the fair value of equity securities valued using significant unobservable inputs (Level 3), for the periods ended June 30, 2026 and December 31, 2025, was immaterial.

There were no transfers between Levels 1, 2 and 3 for the six months ended June 30, 2026 or the six months ended June 30, 2025.

The Company determines fair value for its available-for-sale debt securities using an independent bond pricing service for identical assets or very similar securities. The Company determines fair value for its equity securities based on the underlying equity fund's pricing and valuation procedures which consider recent sales price, market quotations from a pricing service, or market quotes from an independent broker-dealer. The Company has reviewed the pricing sources, including methodologies used, and finds them to be fairly stated.

Derivatives: The Company has contracted with a third party vendor to provide periodic valuations for its interest rate derivatives to determine the fair value of its interest rate contracts. The vendor utilizes standard valuation methodologies applicable to interest rate derivatives such as discounted cash flow analysis. Such valuations are based upon readily observable market data and are therefore considered Level 2 valuations by the Company.

Certain assets are measured at fair value on a nonrecurring basis. For the Company, these include loans held for sale, individually evaluated loans, and OREO. For the three and six months ended June 30, 2026, certain individually evaluated loans were remeasured and reported at fair value through a specific valuation allowance and/or partial charge-offs for credit losses based upon the fair value of the underlying collateral. Collateral values are estimated using Level 3 inputs based upon customized discounting criteria. In addition to collateral dependent evaluated loans, certain other real estate owned was remeasured and reported at fair value based upon the fair value of the underlying collateral. The fair values of other real estate owned are estimated using Level 2 inputs based on observable market data or Level 3 inputs based on customized discounting criteria. In general, the fair values of other real estate owned are based upon appraisals, with discounts made to reflect estimated costs to sell the real estate. Upon initial recognition, fair value write-downs are taken through a charge-off to the allowance for credit losses. Subsequent fair value write-downs on other real estate owned are reported in other noninterest expense.

The fair value estimates, methods and assumptions set forth below for the Company's financial instruments, including those financial instruments carried at cost, are made solely to comply with disclosures required by GAAP and should be read in conjunction with the financial statements and notes included in this Report.

For loans where the Company has determined that foreclosure of the collateral is probable, or where the borrower is experiencing financial difficulty and the Company expects repayment of the loan to be provided substantially through the operation or sale of the collateral, the ACL is measured based on the difference between the fair value of the collateral and the amortized cost basis of the loan as of the measurement date. For real estate loans, fair value of the loan's collateral is determined by third party appraisals, which are then adjusted for the estimated selling and closing costs related to liquidation of the collateral. For this asset class, the actual valuation methods (income, sales comparable, or cost) vary based on the status of the project or property. For example, land is generally based on the sales comparable method while construction is based on the income and/or sales comparable methods. The unobservable inputs may vary depending on the individual assets with no one of the three methods being the predominant approach. The Company reviews the third party appraisal for appropriateness and

adjusts the value downward to consider selling and closing costs, which typically range from 5% to 8% of the appraised value. For non-real estate loans, fair value of the loan's collateral may be determined using an appraisal, net book value per the borrower's financial statements, or aging reports, adjusted or discounted based on management's historical knowledge, changes in market conditions from the time of the valuation, and management's expertise and knowledge of the client and client's business.

The following table presents the carrying amounts and estimated fair values of the Company's financial instruments at June 30, 2026 and December 31, 2025. The carrying amounts shown in the tables are included in the Consolidated Statements of Condition under the indicated captions.

Accrued interest payable	4,920	4,920	0	4,920	0

¹ Lease receivables, although excluded from the scope of ASC Topic 825, are included in the estimated fair value amounts at their carrying value.

The following methods and assumptions were used in estimating fair value disclosures for financial instruments:

Cash and Cash Equivalents: The carrying amounts reported in the Consolidated Statements of Condition for cash, noninterest-bearing deposits, money market funds, and Federal funds sold approximate the fair value of those assets.

Securities - Held-to-Maturity: Fair values for U.S. Treasury securities are based on quoted market prices. Fair values for obligations of U.S. government sponsored entities and mortgage-backed securities-residential are based on quoted market prices, where available, as provided by third party pricing vendors. If quoted market prices are not available, fair values are based on quoted market prices of comparable instruments in active markets and/or based upon a matrix pricing methodology.

which uses comprehensive interest rate tables to determine market price, movement and yield relationships. These securities are reviewed periodically to determine if there are any events or changes in circumstances that would adversely affect their value.

FHLB Stock and Other Stock: The carrying amount of FHLB stock approximates fair value. If the stock is redeemed, the Company will receive an amount equal to the par value of the stock. For miscellaneous equity securities, carrying value is cost.

Loans and Leases: Fair value for loans is calculated using an exit price notion. The Company's valuation methodology takes into account factors such as estimated cash flows, including contractual cash flow and assumptions for prepayments; liquidity risk; and credit risk. The fair values of residential loans were estimated using discounted cash flow analyses, based upon available market benchmarks for rates and prepayment assumptions. The fair values of commercial and consumer loans were estimated using discounted cash flow analyses, based upon interest rates currently offered for loans and leases with similar terms and credit quality. The fair values of loans held for sale were determined based upon contractual prices for loans with similar characteristics.

Accrued Interest Receivable and Accrued Interest Payable: The carrying amount of these short term instruments approximates fair value.

Deposits: The fair values disclosed for noninterest bearing accounts and accounts with no stated maturities are equal to the amount payable on demand at the reporting date. The fair value of time deposits is based upon discounted cash flow analyses using rates offered for FHLB advances, which is the Company's primary alternative source of funds.

Fed Funds Purchased and Securities Sold Under Agreements to Repurchase: The carrying amount of these instruments approximates fair value because the instruments have short-term maturities.

Other borrowings: The fair value of other borrowings is based upon discounted cash flow analyses using current rates offered for FHLB advances, with similar terms.

11. Derivatives and Hedging Activities

Risk Management Objective of Using Derivatives

The Company is exposed to certain risks arising from both its business operations and economic conditions. The Company principally manages its exposures to a wide variety of business and operational risks through management of its core business activities. The Company manages economic risks, including interest rate, liquidity, and credit risk primarily by managing the amount, sources, and duration of its assets and liabilities and the use of derivative financial instruments. Specifically, the Company enters into derivative financial instruments to manage exposures that arise from business activities that result in the receipt or payment of future known and uncertain cash amounts, the value of which are determined by interest rates. The Company also enters into interest rate derivatives to accommodate the business requirements of certain qualifying customers. All derivatives are recognized as other assets or other liabilities on the Company's Consolidated Statements of Condition at fair value. The accounting for changes in the fair value of derivatives depends on the intended use of the derivative and resulting designation.

Derivatives Designated as Hedging Instruments

Fair Value Hedges of Interest Rate Risk

The Company is exposed to changes in the fair value of certain of its fixed-rate assets due to changes in benchmark interest rates. The Company uses interest rate swaps to manage its exposure to changes in fair value on these instruments attributable to changes in the designated benchmark interest rate. Interest rate swaps designated as fair value hedges involve the payment of fixed-rate amounts to a counterparty in exchange for the Company receiving variable-rate payments over the life of the agreements without the exchange of the underlying notional amount. As of June 30, 2026, the Company had no outstanding interest rate swaps.

For derivatives designated and that qualify as fair value hedges, the gain or loss on the derivative as well as the offsetting loss or gain on the hedged item attributable to the hedged risk are recognized in interest income.

As of June 30, 2026 and December 31, 2025, the following amounts were recorded on the balance sheet related to cumulative basis adjustment for fair value hedges.

Line Item in the Statement of Financial Position in Which the Hedged Item is Included	Carrying Amount of the Hedged Assets/(Liabilities)	Cumulative Amount of Fair Value Hedging Adjustment Included in the Carrying Amount of the Hedged Assets/(Liabilities)	Carrying Amount of the Hedged Assets/(Liabilities)	Cumulative Amount of Fair Value Hedging Adjustment Included in the Carrying Amount of the Hedged Assets/(Liabilities)
	06/30/2026	06/30/2026	12/31/2025	12/31/2025
Fixed Rate Loans ¹	\$0	\$0	\$49,962	\$(38)
Total	\$0	\$0	\$49,962	\$(38)

¹These amounts include the amortized cost basis of closed portfolios of fixed rate loans used to designate hedging relationships in which the hedged item is the stated amount of assets in the closed portfolio anticipated to be outstanding for the designated hedged period. At June 30, 2026 and December 31, 2025, the amortized cost basis of the closed portfolios used in these hedging relationships was \$0 and \$658.5 million respectively; the cumulative basis adjustments associated with these hedging relationships was \$0 and \$38,000, respectively; and the amounts of the designated hedged items were \$0 and \$100.0 million respectively.

Derivatives Not Designated as Hedging Instruments

The Company enters into interest rate swaps to help commercial loan borrowers manage their interest rate risk. These interest rate swap contracts allow borrowers to convert variable-rate loan payments to fixed-rate loan payments. When the Company enters into an interest rate derivative contract with a commercial loan borrower, it simultaneously enters into a “mirror” interest rate contract with a third party. For interest rate swaps, the third party exchanges the client’s fixed-rate loan payments for variable-rate loan payments. The Company’s credit policies with respect to interest rate contracts with commercial borrowers are similar to those used for loans. The Company retains the risk that is associated with the potential failure of counterparties and the risk inherent in originating loans. The interest rate contracts with counterparties are generally subject to bilateral collateralization terms. These derivatives are not designated as hedges and therefore, changes in fair value are recognized in earnings.

The Company has entered into risk participation agreements with other banks in commercial loan arrangements. Participating banks guarantee the performance on borrower-related interest rate swap contracts. These derivatives are not designated as hedges and therefore, changes in fair value are recognized in earnings.

Under a risk participation-out agreement, a derivative asset, the Company participates out a portion of the credit risk associated with the interest rate swap position executed with the commercial borrower for a fee paid to the participating bank. Under a risk participation-in agreement, a derivative liability, the Company assumes, or participates in, a portion of the credit risk associated with the interest rate swap position with the commercial borrower for a fee received from the other bank.

Tabular Disclosure of Fair Values of Derivative Instruments on the Consolidated Statements of Condition

The table below presents the fair value of the Company’s derivative financial instruments as well as their classification on the consolidated statements of condition as of June 30, 2026 and December 31, 2025. Amounts below are presented on a net basis in accordance with applicable accounting guidance.

<i>(In thousands)</i>	Notional Amount		Fair Value		Notional Amount		Fair Value

Credit-risk-related Contingent Features

Applicable for OTC derivatives with dealers

The Company's agreements with each of its derivative counterparties contain cross default provisions that provide that the Company could be declared in default on its derivative obligations if the Company defaults on any of its indebtedness, including a default where repayment of the indebtedness has not been accelerated by the lender.

As of June 30, 2026 and December 31, 2025, the fair value of derivatives in a net liability position, which includes accrued interest but excludes any adjustment for nonperformance risk, related to these agreements was \$1.8 million and \$5.3 million, respectively. As of June 30, 2026 and December 31, 2025, the Company had posted \$1.6 million and \$1.9 million, respectively, in collateral related to these agreements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

BUSINESS

Tompkins Financial Corporation ("Tompkins" or the "Company") is headquartered in Ithaca, New York and is registered as a Financial Holding Company with the Federal Reserve Board under the Bank Holding Company Act of 1956, as amended. The Company is a locally oriented, community-based financial services organization that offers a full array of products and services, including commercial and consumer banking, leasing, trust and investment management, and financial planning and wealth management. At June 30, 2026, the Company had one wholly-owned banking subsidiary, Tompkins Community Bank, which changed its name to Tompkins Bank & Trust effective July 20, 2026. Tompkins Bank & Trust provides a broad selection of wealth management services under the Tompkins Financial Advisors brand, including investment management, trust and estate, and financial and tax planning. On October 31, 2025, the Company sold all of the issued and outstanding shares of capital stock of its wholly-owned insurance subsidiary, Tompkins Insurance Agencies, Inc. ("TIA"), to Arthur J. Gallagher Risk Management Services, LLC ("Gallagher"). The Company's principal offices are located at 118 E. Seneca Street, P.O. Box 460, Ithaca, NY, 14850, and its telephone number is (888) 503-5753. The Company's common stock is traded on the NYSE American under the Symbol "TMP."

Tompkins' strategy centers around our core values and a commitment to delivering long-term value to our clients, communities, and shareholders. A key strategic initiative for the Company is a focus on responsible and sustainable growth, including initiatives to grow organically through our current businesses, as well as through possible acquisitions of financial institutions, branches, and financial services businesses. As such, the Company has acquired, and from time to time considers acquiring, banks, thrift institutions, branch offices of banks or thrift institutions, or other businesses that would complement the Company's business or its geographic reach. The Company generally targets merger or acquisition partners that are culturally similar and have experienced management and possess either significant market presence or have potential for improved profitability through financial management, economies of scale and expanded services.

Business Segments

The Company operates in two segments, banking and wealth management. Banking services consist primarily of attracting deposits from the areas served by Tompkins Bank & Trust, which has 54 banking offices (38 offices in New York and 16 offices in Pennsylvania) and using those deposits to originate a variety of commercial loans, agricultural loans, consumer loans, real estate loans, and leases. The Company's lending function is managed within the guidelines of a comprehensive Board-approved lending policy. Reporting systems are in place to provide management with ongoing information related to loan production, loan quality, concentrations of credit, loan delinquencies, and nonperforming and potential problem loans. Banking services also include a full suite of products such as debit cards, credit cards, remote deposit, electronic banking, mobile banking, cash management, and safe deposit services.

Wealth management services consist of investment management, trust and estate, and financial and tax planning services. Wealth management services are provided under the trade name Tompkins Financial Advisors.

The Company operated its wholly-owned insurance subsidiary, TIA, from 2001 until its sale to Gallagher on October 31, 2025. TIA was a full-service insurance agency that offered services such as property and casualty insurance, employee benefit consulting, and life, long-term care and disability insurance. TIA's revenue and expenses were consolidated into the Company's financial statements through October 31, 2025.

The Company's principal expenses are interest on deposits, interest on borrowings, and operating and general administrative expenses, as well as provisions for credit losses. Funding sources, other than deposits, include borrowings, securities sold under agreements to repurchase, and cash flow from lending and investing activities.

Competition

Competition for commercial banking and other financial services is strong in the Company's market areas. In one or more aspects of its business, Tompkins Bank & Trust competes with other commercial banks, savings and loan associations, credit unions, finance companies, internet-based financial services companies, mutual funds, brokerage and investment banking companies, and other financial intermediaries. Some of these competitors have substantially greater resources and lending capabilities and may offer services that the Company does not currently provide. The financial services industry continues to undergo rapid technological change with introductions of new technologies and services, including new ways that customers can make payments or manage their accounts, including through use of stablecoins and other forms of cryptocurrency, tokens, and other digital assets or alternative payment systems. The Company faces increasing competition from institutions not subject to the same extensive State and Federal regulations that govern financial holding companies and Federally-insured banks, including by financial technology companies, or "fintechs," which may offer bank-like products or services that compete directly with the Company's products and services.

Competition among financial institutions is based upon interest rates offered on deposit accounts, interest rates charged on loans and other credit and service charges, the quality and scope of the services rendered, the convenience of facilities and services, and, in the case of loans to commercial borrowers, relative lending limits. Management believes that a community-based financial organization is better positioned to establish personalized financial relationships with both commercial customers and individual households. The Company's community commitment and involvement in its primary market areas, as well as its commitment to quality and personalized financial services, are factors that contribute to the Company's competitiveness. Management believes that the Company's subsidiary bank can compete successfully in its primary market areas by making prudent lending decisions quickly and more efficiently than its competitors, without compromising asset quality or profitability. In addition, the Company focuses on providing unparalleled customer service, which includes offering a strong suite of products and services, including products that are accessible to our customers through digital means. Although management feels that this business model has caused the Company to grow its customer base in recent years and allows it to compete effectively in the markets it serves, we cannot assure you that such factors will result in future success.

Regulation

Banking and wealth management are highly regulated. As a financial holding company including a community bank and a registered investment adviser, the Company and its subsidiary are subject to examination and regulation by the Federal Reserve Board ("FRB"), Securities and Exchange Commission ("SEC"), the Federal Deposit Insurance Corporation ("FDIC"), the New York State Department of Financial Services, and the Financial Industry Regulatory Authority.

OTHER IMPORTANT INFORMATION

The following discussion is intended to provide an understanding of the consolidated financial condition and results of operations of the Company for the three and six months ended June 30, 2026. It should be read in conjunction with the Company's Audited Consolidated Financial Statements and the notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2025, and the Unaudited Consolidated Financial Statements and notes thereto included in Part I of this Quarterly Report on Form 10-Q.

In this Report, there are comparisons of the Company's performance to that of a peer group, which is comprised of 207 domestic bank holding companies with \$3 billion to \$10 billion in total assets as defined in the Federal Reserve's "Bank Holding Company Performance Report" for March 31, 2026 (the most recent report available). Although the peer group data is presented based upon financial information that is one fiscal quarter behind the financial information included in this report, the Company believes that it is relevant to include certain peer group information for comparison to current quarter numbers.

Forward-Looking Statements

This Quarterly Report on Form 10-Q contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. The statements contained in this Report that are not statements of historical fact may include forward-looking statements that involve a number of risks and uncertainties. Forward-looking statements may be identified by use of such words as "may", "could", "should", "will", "would", "estimate", "intend", "continue", "believe", "expect", "plan", "commit", or "anticipate", as well as the negative and other variations of these terms and other similar words. Examples of forward-looking statements may include statements regarding; the sufficiency of liquidity sources; the Company's exposure to changes in interest rates, and to new, changed, or extended government/regulatory expectations; the need to sell securities before recovery of amortized cost; the impact of changes in accounting standards; and trends, plans, prospects, growth and strategies; projections of future financial condition, operating results, income, capital expenditures, costs or other financial items; anticipated regulatory and legislative changes; and other characterizations of future events or circumstances as well as other statements that are not statements of historical fact. Forward-looking statements are made based on management's expectations and beliefs concerning future events impacting the Company and are subject to uncertainties and factors relating to the Company's operations and economic environment, all of which are difficult to predict and many of which are beyond the control of the Company, that could cause actual results of the Company to differ materially from those expressed and/or implied by forward-looking statements and historical performance. The following factors, in addition to those listed as Risk Factors in Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2025, are among those that could cause actual results to differ materially from the forward-looking statements and historical performance: changes in general economic, market and regulatory conditions; our ability to attract and retain deposits and other sources of liquidity; gross domestic product growth and inflation trends; the impact of the interest rate and inflationary environment on the Company's business, financial condition and results of operations; other income or cash flow anticipated from the Company's operations, investment and/or lending activities; changes in laws and regulations affecting public companies, banks, bank holding companies and/or financial holding companies, including the Dodd-Frank Act, and other federal, state and local government mandates; the impact of any change in the FDIC insurance assessment rate or the rules and regulations related to the calculation of the FDIC insurance assessment amount; changes in supervisory and regulatory scrutiny of financial institutions; technological developments and changes; cybersecurity incidents and threats; the ability to continue to introduce competitive new products and services on a

timely, cost-effective basis; governmental and public policy changes, including environmental regulation; reliance on large customers and the geographic concentration of our business; the ability to access financial resources in the amounts, at the times, and on the terms required to support the Company's future businesses; and the economic impact, including potential market volatility, of national and global events, including the response to bank failures, war and geopolitical matters (including continuing or increasing hostilities in the Middle East and the war in Ukraine), tariffs and trade wars, widespread protests, civil unrest, political uncertainty, and pandemics or other public health crises; and the related financial stress on borrowers and changes to customer behavior and credit risk as a result of any of the foregoing. The Company does not undertake any obligation to update its forward-looking statements.

Critical Accounting Policies

The accounting and reporting policies followed by the Company conform, in all material respects, to U.S. generally accepted accounting principles ("GAAP") and to general practices within the financial services industry. In the course of normal business activity, management must select and apply many accounting policies and methodologies and make estimates and assumptions that lead to the financial results presented in the Company's consolidated financial statements and accompanying notes. There are uncertainties inherent in making these estimates and assumptions, which could materially affect the Company's results of operations and financial position.

Management considers accounting estimates to be critical to reported financial results if (i) the accounting estimates require management to make assumptions about matters that are highly uncertain, and (ii) different estimates that management reasonably could have used for the accounting estimate in the current period, or changes in the accounting estimate that are reasonably likely to occur from period to period, could have a material impact on the Company's financial statements. Management considers the accounting policy relating to the allowance for credit losses ("allowance", or "ACL") to be a critical accounting policy because of the uncertainty and subjectivity involved in this policy and the material effect that estimates related to this area can have on the Company's results of operations.

The Company's methodology for estimating the allowance considers available relevant information about the collectability of cash flows, including information about past events, current conditions, and reasonable and supportable forecasts. Refer to "Allowance for Credit Losses" below and to Note 5 - "Allowance for Credit Losses", and Note 1 - "Summary of Significant Accounting Policies" in the Notes to Consolidated Financial Statements contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2025, for additional information on the Company's methodology for estimating the allowance.

For information on the Company's significant accounting policies and to gain a greater understanding of how the Company's financial performance is reported, refer to Note 1 - "Summary of Significant Accounting Policies" in the Notes to Consolidated Financial Statements contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2025. Refer to "Accounting Standards Pending Adoption" in Note 2 - "Basis of Presentation" in the Notes to Unaudited Consolidated Financial Statements included in this Quarterly Report on Form 10-Q for a discussion of recent accounting standards updates.

Critical Accounting Estimates

The Company's significant accounting policies conform with GAAP and are described in Note 1 - "Summary of Significant Accounting Policies" in the Notes to Consolidated Financial Statements contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2025. In applying those accounting policies, management of the Company is required to exercise judgment in determining many of the methodologies, assumptions and estimates to be utilized. Certain critical accounting estimates are more dependent on such judgment and in some cases may contribute to volatility in the Company's reported financial performance should the assumptions and estimates used change over time due to changes in circumstances. The most significant area in which management of the Company applies critical assumptions and estimates was the following:

- Accounting for credit losses - The Company accounts for the allowance for credit losses using the current expected credit loss model. Under this model, the allowance for credit losses represents a valuation account that is deducted from the amortized cost basis of certain financial assets, including loans and leases, to present the net amount expected to be collected at the balance sheet date. A provision for credit losses is recorded to adjust the level of the allowance as deemed necessary by management. In estimating expected losses in the loan and lease portfolio, borrower-specific financial data and macro-economic assumptions are utilized to project losses over a reasonable and supportable forecast period. For certain loan pools that share similar risk characteristics, the Company utilizes statistically developed models to estimate amounts and timing of expected future cash flows, collateral values and other factors used to determine the borrowers' abilities to repay obligations. Such models consider historical correlations of credit losses with various macroeconomic assumptions including unemployment and gross domestic product. These forecasts may be adjusted for inherent limitations or biases of the models. Subsequent to the forecast period, the Company utilizes longer-term historical loss experience to estimate losses over the remaining contractual life of the loans. Changes in the circumstances considered when determining management's estimates and assumptions could result in

changes in those estimates and assumptions, which could result in adjustment of the allowance for credit losses in future periods. A discussion of facts and circumstances considered by management in determining the allowance for credit losses is included in Note 5 - "Allowance for Credit Losses" in the Notes to the Unaudited Consolidated Financial Statements included in this Quarterly Report on Form 10-Q.

RESULTS OF OPERATIONS

Performance Summary

Net income for the second quarter of 2026 was \$29.3 million, or \$2.04 diluted earnings per share, compared to \$21.5 million, or \$1.50 diluted earnings per share for the second quarter of 2025. Net income for the six months ended June 30, 2026 was \$55.4 million, or \$3.86 diluted earnings per share, compared to \$41.2 million, or \$2.87 diluted earnings per share for the same period in 2025. The increase in net income and diluted earnings per share for the three and six months ended June 30, 2026 compared to the same periods in 2025 largely reflects increases in our net interest margin as well as continued loan growth.

Return on average assets ("ROA") for the quarter ended June 30, 2026 was 1.36%, compared to 1.05% for the quarter ended June 30, 2025. Return on average shareholders' equity ("ROE") for the second quarter of 2026 was 12.32%, compared to 11.48% for the second quarter of 2025. For the year-to-date period ended June 30, 2026, ROA and ROE totaled 1.30% and 11.72%, respectively, compared to 1.02% and 11.23%, for the same periods in 2025.

Segment Reporting

The Company operates in the following two business segments: banking and wealth management. Wealth management activities include the results of the Company's trust, financial planning, and wealth management services provided by Tompkins Financial Advisors, a division of Tompkins Bank & Trust. All other activities are considered banking. Prior to the sale of TIA on October 31, 2025, the Company also had an insurance segment. TIA provided property and casualty insurance services and employee benefits consulting. For additional financial information on the Company's segments, refer to "Note 9 - Segment and Related Information" in the Notes to Unaudited Consolidated Financial Statements in Part I of this Report on Form 10-Q.

Banking Segment

The banking segment reported net income of \$28.4 million for the second quarter of 2026, an increase of \$9.7 million, or 52.0%, compared to \$18.7 million for the second quarter of 2025. For the six months ended June 30, 2026, the banking segment reported net income of \$53.6 million, up \$19.2 million, or 55.8%, from the same period in 2025. The increase in net income for the three and six months ended June 30, 2026 compared to the same periods in 2025 was mainly due to an increase in net interest income.

Net interest income of \$74.0 million for the second quarter of 2026 was up \$13.9 million, or 23.0%, from the same period in 2025. For the six months ended June 30, 2026, net interest income of \$145.8 million was up \$29.1 million, or 24.9%, from the same period in 2025. The increase in net interest income for the three and six months ended June 30, 2026 compared to the same periods in 2025 was primarily due to an improved net interest margin, which was driven by growth in average loan balances, higher average earning asset yields and a reduction in average funding costs.

The provision for credit losses was \$1.5 million for the three months ended June 30, 2026, compared to \$2.8 million for the same period in 2025. For the six months ended June 30, 2026, the provision for credit losses was \$3.0 million compared to \$8.1 million for the same period in 2025.

Noninterest income was \$7.8 million for the three months ended June 30, 2026, up 2.5% compared to \$7.6 million for the same period in 2025. The increase in noninterest income for the three months ended June 30, 2026 was mainly attributable to increases in gains on sales of residential loans and card services income, partially offset by lower income related to bank owned life insurance. For the six months ended June 30, 2026, noninterest income was \$14.3 million compared to \$16.3 million for the six months ended June 30, 2025. The decrease in year-to-date noninterest income compared to the same period in 2025 was mainly attributable to a \$1.9 million gain on the sale of other real estate owned ("OREO") in the prior year period.

Noninterest expense of \$42.9 million for the three months ended June 30, 2026, increased by \$2.5 million or 6.2% compared to the same period in 2025. For the six months ended June 30, 2026 noninterest expense of \$86.5 million was up \$6.4 million, or 8.0% compared to the same period in 2025. The increases in noninterest expense across both periods were primarily driven by salaries and employee benefits, technology, and net occupancy expense of premises.

Wealth Management Segment

The wealth management segment reported net income of \$899,000 for the three months ended June 30, 2026, which was down \$257,000 or 22.2% compared to the second quarter of 2025. For the six months ended June 30, 2026, net income of \$1.8 million was down \$165,000, or 8.3%, compared to the same period in the prior year. The decrease in net income for the three and six months ended June 30, 2026 compared to the prior year periods was primarily due to gains on the sale of certain customer accounts recorded in the second quarter of 2025, combined with an increase in noninterest expenses, mainly in technology and intercompany service allocations.

Net Interest Income

The following tables show average interest-earning assets and interest-bearing liabilities, and the corresponding yield or cost associated with each, for the three and six month periods ended June 30, 2026 and 2025 and the three months ended March 31, 2026:

¹ Average balances and yields on available-for-sale debt securities are based on historical amortized cost.

² Interest income includes the tax effects of taxable-equivalent adjustments using an effective income tax rate of 21% in 2026 and 2025 to increase tax exempt interest income to taxable-equivalent basis.

³ Nonaccrual loans are included in the average asset totals presented above. Payments received on nonaccrual loans have been recognized as disclosed in Note 1 of the Company's consolidated financial statements included in Part 1 of the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2025.

Net Interest Income

Net interest income is the Company's largest source of revenue, and is dependent on the volume and composition of interest earning assets and interest-bearing liabilities and the level of market interest rates. The above tables show average interest-earning assets and interest-bearing liabilities, and the corresponding yield or cost associated with each.

Net interest income was \$74.0 million and \$145.8 million, respectively, for the three and six months ended June 30, 2026, up \$13.9 million, or 23.0%, and \$29.1 million, or 24.9%, respectively, from the same periods in 2025. The increase in net interest income compared to both prior year periods was due to improvement in net interest margin, which is discussed below, and growth in average loans.

Net interest margin for the three months ended June 30, 2026 was 3.58% compared to 3.08% for the same period in 2025. Net interest margin for the six months ended June 30, 2026 was 3.58% compared to 3.03% for the same period in 2025. The increase in net interest margin for the three and six months ended June 30, 2026 compared to the same periods in 2025 reflects growth in average loan balances, improved yields on average earnings assets, and lower funding costs.

The quarterly net interest margin of 3.58% for the second quarter of 2026 was up 1 basis point over the net interest margin of 3.57% for the first quarter of 2026, as increased average earning asset yields were partially offset by higher average cost of interest-bearing liabilities, driven by seasonal outflow of municipal deposits resulting in increased borrowings for the quarter.

Interest income for the three and six months ended June 30, 2026 was \$105.9 million and \$208.6 million, up 13.1% and 13.9%, respectively, compared to the same periods in 2025. The increase in interest income was mainly in interest and fees on loans, and interest on securities. Interest and fees on loans were up \$7.8 million or 9.5% and \$16.3 million or 10.1% respectively, from the same periods in 2025. Average loan balances for the three and six months ended June 30, 2026 were up \$395.7 million or 6.5% and \$402.6 million or 6.6% respectively, from the same periods in 2025.

Interest income on securities, excluding dividends on FHLB stock, for the three and six months ended June 30, 2026, was up \$4.6 million or 43.6% and \$9.6 million or 46.7% respectively, over the same periods in 2025. The average yield on total securities for the three and six months ended June 30, 2026, was up 101 and 107 basis points, respectively, over the same periods in 2025, mainly a result of the reinvestment within the portfolio at higher yields, including the previously reported repositioning of the portfolio in the fourth quarter of 2025. Average balances for securities for the three and six months ended June 30, 2026 increased \$35.5 million, or 2.1%, and \$34.4 million, or 2.0%, respectively, from the same periods in 2025.

Interest expense for the three and six months ended June 30, 2026 decreased \$1.6 million, or 4.7%, and \$3.6 million or 5.4%, respectively, compared to the same periods in 2025, driven mainly by a decrease in average rates paid on interest-bearing liabilities, partially offset by higher average balances of interest-bearing liabilities. For the three and six months ended June 30, 2026, the average cost of interest-bearing liabilities was down 20 basis points and 21 basis points, respectively, from the same periods in 2025, while average interest-bearing liabilities were up \$222.6 million or 4.1% and \$207.7 million or 3.8%, respectively.

The average cost of interest-bearing deposits for both the three and six month periods ended June 30, 2026 was 2.07%, down 17 basis points over the same periods in 2025. Average interest-bearing deposits for the three and six months ended June 30, 2026, were up \$224.6 million, or 4.6%, and \$246.3 million, or 5.1%, respectively, from the same periods in 2025. Average noninterest deposits for the three and six months ended June 30, 2026, were up \$72.6 million, or 4.0%, and \$74.4 million, or 4.1%, respectively, from the same periods in 2025.

Average other borrowings for the three and six months ended June 30, 2026 were down \$517,000 or 0.1%, and \$35.4 million, or 6.4%, respectively, compared to the same periods in 2025. The average rate paid on other borrowings for the three and six months ended June 30, 2026 was down 43 basis points and 45 basis points, respectively, from the same periods in 2025.

Noninterest Income

Noninterest income of \$13.1 million for the three months ended June 30, 2026, was down \$9.4 million or 41.7% from the second quarter of 2025, and noninterest income of \$25.0 million for the six months ended June 30, 2026, was down \$22.6 million, or 47.5%, from the same period in the prior year. The decrease was mainly in insurance commissions and fees and reflects the sale of the Company's insurance subsidiary, TIA, in October 2025. Insurance revenues were \$9.6 million and \$21.2 million for the three and six months, respectively, ended June 30, 2025.

Wealth management fees of \$5.2 million in the second quarter of 2026 were up \$265,000 or 5.3% over the second quarter of 2025. For the first six months of 2026, wealth management fees were up \$412,000, or 4.1% compared to the same period in 2025. Wealth management fees include trust services, financial planning, wealth management services, and brokerage related services. The fair value of assets managed by, or in custody of, Tompkins was \$3.1 billion at June 30, 2026, up \$261.7 million or 9.2% from June 30, 2025.

Other income of \$2.8 million in the second quarter of 2026 was down \$201,000, or 6.7%, compared to the same period in 2025. For the first six months of 2026, other income of \$4.9 million was down \$1.9 million, or 28.2%, compared to the same period in 2025. The decrease for the three months ended June 30, 2026 compared to the same period in 2025 was driven by a \$236,000 reduction in BOLI income. The decrease for the six months ended June 30, 2026 compared to the same period in 2025 was driven by a \$1.9 million gain on the sale of other real estate owned in 2025.

Noninterest Expense

Noninterest expense of \$47.1 million for the second quarter of 2026 was down \$4.6 million or 8.8% from the second quarter of 2025. Noninterest expense of \$94.8 million for the first six months of 2026 was down \$7.4 million, or 7.3%, compared to the same period in 2025. The decrease in noninterest expense for both periods was primarily attributable to the sale of TIA in the fourth quarter of 2025.

Noninterest expense for the second quarter and year-to-date periods in 2025 included the following expenses related to TIA: salaries and wages and other employee benefits of \$6.2 million and \$12.1 million, respectively, and other expenses of \$1.5 million and \$2.9 million, respectively. For the three and six months ended June 30, 2026, salaries and wages and other employee benefits decreased \$4.7 million, or 14.0%, and \$8.0 million, or 12.2%, respectively, compared to the prior year periods. These decreases were partially offset by annual merit increases and higher other employee benefit costs. Noninterest expense for the three and six months ended June 30, 2026, excluding salaries and wages and other employee benefits expenses, was up \$143,000, or 0.8%, and \$584,000, or 1.6%, mainly attributable to increases in technology, marketing, and buildings and grounds expenses.

Income Tax Expense

The provision for income taxes was \$9.2 million for an effective rate of 24.0% for the second quarter of 2026, compared to a tax provision of \$6.8 million and an effective rate of 24.0% for the same quarter in 2025. For the first six months of 2026, the provision for income taxes was \$17.6 million for an effective rate of 24.2% compared to tax provision of \$12.9 million and an effective rate of 23.9% for the same period in 2025. The effective rates differ from the U.S. and state statutory rates primarily due to the effect of tax-exempt income from loans, securities and life insurance assets, and the income tax effects associated with stock-based compensation.

FINANCIAL CONDITION

Total assets were \$8.8 billion at June 30, 2026, up \$133.3 million or 1.5% from December 31, 2025. Cash and cash equivalents were up \$14.9 million or 11.3%, total loans were up \$150.9 million or 2.3%, total securities were up \$11.0 million or 0.7% and loans held for sale were down \$43.4 million compared to December 31, 2025. Total deposits were up \$91.3 million or 1.3%, Federal funds purchased and securities sold under agreement to repurchase were up \$86.1 million or 90.1%, and total borrowings were down \$18.1 million or 3.2% from December 31, 2025.

Securities

The Company's securities portfolio was \$1.7 billion at June 30, 2026 and December 31, 2025, representing 19.4% of total assets at June 30, 2026, compared to 19.6% of total assets at year end 2025. The following tables detail the composition of the securities portfolio:

U.S. Treasuries	\$ 85,718	\$ 78,115	\$ 85,831	\$ 78,794
Obligations of U.S. Government sponsored entities	226,844	203,380	226,697	205,066
Total held-to-maturity debt securities	\$ 312,562	\$ 281,495	\$ 312,528	\$ 283,860

As of June 30, 2026, the available-for-sale debt securities portfolio had net unrealized losses, which reflects the amount that the amortized cost exceeds fair value, of \$26.8 million compared to net unrealized losses of \$9.3 million at December 31, 2025. The increase in unrealized losses related to the available-for-sale debt securities portfolio reflects interest rate volatility in the

market, the volume and rates associated with securities purchases, and maturities in 2026. Management's policy is to purchase investment grade securities that on average have relatively short duration, which helps mitigate interest rate risk and provides sources of liquidity without significant risk to capital.

The Company did not recognize any net credit impairment charge to earnings on investment securities in the second quarter or year-to-date period ending June 30, 2026.

Loans and Leases

Loans and leases as of the end of the second quarter and prior year-end were as follows:

<i>(In thousands)</i>	06/30/2026	12/31/2025
Commercial and industrial		
Agriculture	\$ 117,956	\$ 114,475
Commercial and industrial other	1,073,179	986,173

Other	522,175	14.08 %	503,723	13.75 %
Total	\$ 3,709,209	100.00 %	\$ 3,662,035	100.00 %

¹Retail included 1.98% and 2.10%, respectively, of owner occupied real estate at June 30, 2026 and December 31, 2025.

²Office space included 1.64% and 1.65%, respectively, of owner occupied real estate at June 30, 2026 and December 31, 2025.

³Industrial included 2.87% and 2.79%, respectively, of owner occupied real estate at June 30, 2026 and December 31, 2025.

⁴Medical included 1.47% and 1.71%, respectively, of owner occupied real estate at June 30, 2026 and December 31, 2025.

Total loans and leases of \$6.6 billion at June 30, 2026 were up \$150.9 million, or 2.3%, from December 31, 2025, mainly in the commercial real estate and commercial and industrial loan portfolios. As of June 30, 2026, total loans and leases represented 75.0% of total assets compared to 74.4% of total assets at December 31, 2025.

Residential real estate loans, including home equity loans, were \$1.6 billion at June 30, 2026, up \$16.1 million or 1.0% compared to December 31, 2025, and comprised 24.4% of total loans and leases at June 30, 2026. The Company may sell residential real estate loans in the secondary market based on interest rate considerations. The Company's Asset/Liability Committee meets regularly and establishes standards for selling and retaining residential real estate mortgage originations. These residential real estate loans are generally sold to Federal Home Loan Mortgage Corporation ("FHLMC") without recourse in accordance with standard secondary market loan sale agreements. These residential real estate loans also are subject to customary representations and warranties made by the Company, including representations and warranties related to gross incompetence and fraud. The Company has not had to repurchase any loans as a result of these representations and warranties.

During the first six months of 2026 and 2025, the Company sold residential loans totaling \$43.2 million and \$34.6 million, respectively, recognizing gains of \$1.5 million and \$1.0 million, respectively. These residential real estate loans were sold without recourse in accordance with standard secondary market loan sale agreements. When residential mortgage loans are sold, the Company typically retains all servicing rights, which provides the Company with a source of fee income. Mortgage servicing rights totaled \$1.9 million at June 30, 2026, and \$1.7 million at December 31, 2025.

Commercial real estate loans and commercial and industrial loans totaled \$3.7 billion and \$1.2 billion, respectively, and represented 56.2% and 18.1%, respectively, of total loans and leases as of June 30, 2026. The commercial real estate portfolio was up \$47.2 million, or 1.3%, compared to December 31, 2025, while commercial and industrial loans were up \$90.5 million, or 8.2%, compared to December 31, 2025.

As of June 30, 2026, agriculturally-related loans totaled \$358.9 million, or 5.4%, of total loans and leases, compared to \$348.8 million, or 5.4%, of total loans and leases at December 31, 2025. Agriculturally-related loans include loans to dairy farms and crop farms. Agriculturally-related loans are primarily made based on identified cash flows of the borrower with consideration given to underlying collateral, personal guarantees, and government related guarantees. Agriculturally-related loans are generally secured by the assets or property being financed or other business assets such as accounts receivable, livestock, equipment or commodities/crops.

The Company's loan and lease customers are located primarily in the New York and Pennsylvania communities served by its subsidiary bank. Although operating in numerous communities in New York and Pennsylvania, the Company is still dependent on the general economic conditions of these states and the local economic conditions of the communities within those states in which the Company does business.

The Allowance for Credit Losses

The below table represents the allowance for credit losses as of June 30, 2026, December 31, 2025, and June 30, 2025. The table provides, as of the dates indicated, an allocation of the allowance for credit losses for inherent loan losses by type. The allocation is neither indicative of the specific amounts or the loan categories in which future charge-offs may occur, nor is it an indicator of future loss trends. The allocation of the allowance for credit losses to each category does not restrict the use of the allowance to absorb losses in any other category.

<i>(In thousands)</i>	06/30/2026	12/31/2025	06/30/2025
Allowance for credit losses			
Commercial and industrial	\$ 11,432	\$ 10,234	\$ 9,160
Commercial real estate	35,835	35,255	35,765
Residential real estate	10,050	10,893	12,065
Consumer and other	1,105	1,230	1,509
Finance leases	57	59	56
Total	\$ 58,479	\$ 57,671	\$ 58,555
Allowance for credit losses as a percentage of total loans and leases	0.89 %	0.89 %	0.95 %
Allowance/nonperforming loans and leases	111.29 %	120.30 %	111.55 %

Activity in the Company's allowance for credit losses during the first six months of 2026 and 2025 is illustrated in the table below:

Analysis of the Allowance for Credit Losses

<i>(In thousands)</i>	6/30/2026	06/30/2025
Average loans outstanding during period	\$ 6,480,319	\$ 6,077,749
Allowance at beginning of year, prior to adoption of ASU 2016-13	57,671	56,496
Balance of allowance at beginning of year	57,671	56,496
LOANS CHARGED-OFF:		
Commercial and industrial	1,126	198
Commercial real estate	0	4,882
Residential real estate	932	0
Consumer and other	840	1,297
Total loans charged-off	\$ 2,898	\$ 6,377
RECOVERIES OF LOANS PREVIOUSLY CHARGED-OFF:		
Commercial and industrial	119	51
Commercial real estate	6	4
Residential real estate	139	35
Consumer and other	268	300
Total loans recovered	\$ 532	\$ 390
Net loans charged-off (recovered)	2,366	5,987
Provision for credit losses related to loans	3,174	8,046
Balance of allowance at end of period	\$ 58,479	\$ 58,555
Annualized net charge-offs on loans to average total loans and leases during the period	0.07 %	0.20 %

As of June 30, 2026, the allowance for credit losses was \$58.5 million, up \$808,000 or 1.4% compared to December 31, 2025, and in line with the allowance at June 30, 2025. The allowance for credit losses as a percentage of total loans measured 0.89% at June 30, 2026, unchanged from December 31, 2025, and down from the 0.95% reported at June 30, 2025. The decrease in the allowance for credit losses coverage ratio compared to June 30, 2025 was mainly due to the improved economic forecasts for unemployment and gross domestic product.

The ratio of the allowance to nonperforming loans and leases was 111.29% at June 30, 2026, compared to 120.30% at December 31, 2025, and 111.55% at June 30, 2025. The decrease in the ratio compared to year-end 2025 was due to an increase in nonperforming loans and leases. At June 30, 2026 nonperforming loans and leases were \$4.6 million or 9.6% higher than at December 31, 2025. The Company's nonperforming loans and leases are mostly comprised of collateral-dependent loans with limited exposure or loans that require limited specific reserve due to the level of collateral available with respect to these loans and/or previous charge-offs.

The provision expense for credit losses for loans is based upon the Company's quarterly evaluation of the appropriateness of the allowance for credit losses. The provision for credit losses for loans for the second quarter of 2026 was \$2.0 million compared to \$2.8 million for the second quarter of 2025. For the six month period ended June 30, 2026, the provision for credit losses for loans was \$3.2 million compared to \$8.0 million for the same period in 2025. Net charge-offs for the three and six months ended June 30, 2026 were \$1.6 million and \$2.4 million, respectively, compared to \$5.3 million and \$6.0 million, respectively, for the same periods in 2025. The year-over-year decrease in net charge-offs was mainly due to a partial charge-off of \$4.7 million during the second quarter of 2025 related to one commercial real estate relationship totaling \$18.1 million.

Allowance for Credit Losses on Off-Balance Sheet Credit Exposures

For the three months ended June 30, 2026, the provision for credit losses for off-balance sheet credit exposures was a credit of \$460,000 compared to a credit of \$6,000 for the same period in 2025. For the six month period ended June 30, 2026, the provision for credit losses for off-balance sheet credit exposures was a credit of \$170,000 compared to \$21,000 expense for the same period in 2025. The decrease for both periods in 2026 over 2025 was mainly attributable to a lighter commercial loan pipeline.

Analysis of Past Due and Nonperforming Loans

(In thousands)

	6/30/2026	12/31/2025	6/30/2025
Loans 90 days past due and accruing			
Residential real estate	\$ 1	\$ 1	\$ 1
Consumer and other	121	145	165
Total loans 90 days past due and accruing	\$ 122	\$ 146	\$ 166
Nonaccrual loans			
Commercial and industrial	\$ 10,416	\$ 8,305	\$ 2,570
Commercial real estate	23,948	22,864	32,680
Residential real estate	18,007	16,555	16,949
Consumer and other	55	70	126
Total nonaccrual loans	\$ 52,426	\$ 47,794	\$ 52,325
Total nonperforming loans and leases	\$ 52,548	\$ 47,940	\$ 52,491
Other real estate owned	384	229	81
Total nonperforming assets	\$ 52,932	\$ 48,169	\$ 52,572
Total nonperforming loans and leases as percentage of total loans and leases	0.80 %	0.74 %	0.85 %
Total nonperforming assets as percentage of total assets	0.60 %	0.56 %	0.63 %

Asset quality measures at June 30, 2026 were mixed compared to December 31, 2025, and generally favorable compared to June 30, 2025. The above table shows nonperforming loans and leases and total nonperforming assets at June 30, 2026 up from year-end 2025, and in line with June 30, 2025.

Nonperforming assets include loans past due 90 days and accruing, nonaccrual loans, and foreclosed real estate/other real estate owned. Total nonperforming assets of \$52.9 million at June 30, 2026 were up \$4.8 million, or 9.9%, compared to December 31, 2025, and \$360,000, or 0.7%, compared to June 30, 2025. Nonperforming assets represented 0.60% of total assets at June 30, 2026, up from 0.56% at December 31, 2025, and down from 0.63% at June 30, 2025. The increase in nonperforming assets from year-end 2025 included one commercial relationship totaling \$2.0 million and one commercial real estate relationship totaling \$2.2 million. Our peer group's average ratio of nonperforming assets to total assets was 0.62% at March 31, 2026.

Loan internally-classified Special Mention or Substandard totaled \$140.0 million at June 30, 2026, compared to \$134.5 million reported at December 31, 2025, and \$96.8 million at June 30, 2025.

Loans past due 30-89 days totaled \$4.7 million or 0.07% of total loans at June 30, 2026, down from \$8.8 million or 0.14% of total loans at year-end 2025 and down from \$5.9 million or 0.09% of total loans at June 30, 2025.

Deposits and Other Liabilities

Total deposits of \$7.0 billion at June 30, 2026 were up \$91.4 million, or 1.3%, compared to December 31, 2025, and were up \$313.3 million, or 4.7%, compared to June 30, 2025. The increase from year-end 2025 was primarily in checking, money market and savings accounts, which were up \$50.8 million, or 1.4%, and non-interest bearing deposits, which were up \$33.4 million, or 1.8%. The increase in deposits over year-end 2025 was mainly due to the seasonal inflow of municipal deposits in the first quarter of 2026. Brokered time deposits were up \$54.6 million or 54.1% from year-end 2025.

The Company is a participant in the IntraFi Network's IntraFi Cash Service (ICS) and Certificate of Deposit Account Registry Service (CDARS) programs. The Company uses these deposit sweep services to place customer funds from interest-bearing demand accounts, money market accounts, and/or time deposits to be placed with other participating network banks. Customer funds are placed at one or more participating banks to ensure that each deposit customer is eligible for the full amount of FDIC insurance. As a program participant, we receive reciprocal amounts of deposits from other participating network banks equal to the amount of our customer funds placed in the IntraFi Network. In addition to the reciprocal funding programs, the Company may utilize both the ICS and CDARS programs to obtain wholesale funding through One-Way Buy transactions. Funds obtained using One-Way Buy transactions are classified as brokered deposits. At June 30, 2026 the Company held \$1.0 million in CDARS One-Way Buy funds.

The most significant source of funding for the Company is core deposits. The Company defines core deposits as total deposits less time deposits of \$250,000 or more, brokered deposits, municipal money market deposits, and reciprocal deposit relationships with municipalities. Core deposits of \$5.5 billion at June 30, 2026 decreased by \$42.9 million, or 0.8%, from year-end 2025, but increased by \$104.9 million, or 2.0% from June 30, 2025. Core deposits represented 77.9% of total deposits at June 30, 2026, compared to 79.5% of total deposits at December 31, 2025 and 80.0% at June 30, 2025.

The Company uses both retail and wholesale repurchase agreements. Retail repurchase agreements are arrangements with local customers of the Company, in which the Company agrees to sell securities to the customer with an agreement to repurchase those securities at a specified later date. Retail repurchase agreements totaled \$33.0 million at June 30, 2026, and \$45.6 million at December 31, 2025. Management generally views retail repurchase agreements as an alternative to large time deposits.

The Company has established several unsecured Federal funds purchased lines through various correspondent bank relationships, totaling \$149.0 million. Federal funds purchased from correspondent banks totaled \$148.7 million as of June 30, 2026 compared to \$50.0 million at December 31, 2025.

The Company's other borrowings totaled \$546.4 million at June 30, 2026, down \$18.1 million, or 3.2%, from \$564.4 million at December 31, 2025. Other borrowings at June 30, 2026 consisted of \$235.8 million in FHLB overnight advances and \$310.6 million of FHLB term advances, compared to \$395.0 million FHLB overnight advances and \$169.4 million of FHLB term advances at year end 2025. Of the \$310.6 million in FHLB term advances at June 30, 2026, \$235.6 million was due to mature in less than one year and \$75.0 million was due to mature in over one year.

Capital

Total equity was \$959.9 million at June 30, 2026, an increase of \$21.6 million, or 2.3%, from December 31, 2025. The increase was driven by net income of \$60.4 million for the six months ended June 30, 2026, partially offset by dividends of \$19.3 million and a \$13.0 million decrease in accumulated other comprehensive income due primarily to the change in the fair value of securities available for sale.

The Company and its subsidiary bank are subject to various regulatory capital requirements administered by Federal bank regulatory agencies. Failure to meet minimum capital requirements can initiate certain mandatory and possibly additional discretionary actions by regulators that, if undertaken, could have a direct material adverse effect on the Company's business, results of operation and financial condition. Under capital adequacy guidelines and the regulatory framework for prompt corrective action (PCA), banks must meet specific guidelines that involve quantitative measures of assets, liabilities, and certain off-balance-sheet items as calculated under regulatory accounting practices. Capital amounts and classifications of the Company and its subsidiary banks are also subject to qualitative judgments by regulators concerning components, risk weightings, and other factors. Quantitative measures established by regulation to ensure capital adequacy require the maintenance of minimum amounts and ratios of common equity Tier 1 capital, Total capital and Tier 1 capital to risk-weighted assets, and of Tier 1 capital to average assets. Management believes that, as of June 30, 2026, the Company and its subsidiary bank met all capital adequacy requirements to which they are subject.

The following table provides a summary of the Company's capital ratios as of June 30, 2026:

Regulatory Capital Analysis

June 30, 2026 <i>(dollar amounts in thousands)</i>	Actual		Well Capitalized Requirement	
	Amount	Ratio	Amount	Ratio
Total Capital (to risk weighted assets)	\$ 978,964	14.88 %	\$ 657,667	10.00 %
Tier 1 Capital (to risk weighted assets)	919,222	13.98 %	526,134	8.00 %
Tier 1 Common Equity (to risk weighted assets)	919,222	13.98 %	427,484	6.50 %
Tier 1 Capital (to average assets)	919,222	10.69 %	430,057	5.00 %

As of June 30, 2026, the Company's capital ratios exceeded the minimum required capital ratios plus the fully phased-in capital conservation buffer, and the minimum required capital ratios for well capitalized institutions. The capital levels required for an institution to be considered well capitalized, presented in the above table, are based upon prompt corrective action regulations, as amended to reflect the changes under Basel III Capital Rules.

Total capital as a percent of risk weighted assets increased to 14.9% at June 30, 2026, compared with 14.6% at December 31, 2025. Tier 1 capital as a percent of risk weighted assets increased to 14.0% at June 30, 2026 compared to 13.6% at December

31, 2025. Tier 1 capital as a percent of average assets was 10.7% at June 30, 2026, up from 10.6% as of December 31, 2025. Common equity Tier 1 capital was 14.0% at June 30, 2026, up from 13.6% at December 31, 2025.

As of June 30, 2026, the capital ratios for the Company's subsidiary bank also exceeded the minimum required capital ratios for well capitalized institutions, plus the fully phased-in capital conservation buffer.

Liquidity

The objective of liquidity management is to ensure the availability of adequate funding sources to satisfy anticipated demand for credit, deposit withdrawals, and business investment opportunities. The Company's large, stable core deposit base and strong capital position are the foundation for the Company's liquidity position. The Company uses a variety of resources to meet its liquidity needs, which include deposits, cash and cash equivalents, short-term investments, cash flow from lending and investing activities, repurchase agreements, and borrowings. The Company's Asset/Liability Management Committee monitors asset and liability positions of the Company's subsidiary bank individually and on a combined basis. The Committee reviews periodic reports on liquidity and interest rate sensitivity positions. Comparisons with industry and peer groups are also monitored. The Company's strong reputation in the communities it serves, along with its strong financial condition, provides access to numerous sources of liquidity as described below. Management believes these diverse liquidity sources provide sufficient means to meet all demands on the Company's liquidity that are reasonably likely to occur. Management measures liquidity, including the level of cash, unencumbered securities, and the availability of dependable borrowing sources. The Board has set a policy limit stating that reliable sources of liquidity should remain in excess of 6% of total assets. The ratio was 15.2% at June 30, 2026, and 16.2% at December 31, 2025. In addition, the Company maintains access to the Federal Reserve Bank borrowing facility, which improved the reliable sources of liquidity ratio by an additional 4.1% at June 30, 2026, and 2.9% at December 31, 2025, to 19.4% and 19.1%, respectively. The Company also maintains board policy limits requiring that on-balance sheet liquidity, which includes liquid assets including cash, overnight funds sold, short-term investments, fair value of encumbered investment securities, and the guaranteed portion of government and agency loans, remain above 3% of total assets. As of the end of the second quarter of 2026, this ratio was 9.7% compared to 11.1% at year-end 2025.

Core deposits, discussed above under "Deposits and Other Liabilities", are a primary and low-cost funding source obtained primarily through the Bank's branch network. In addition to core deposits, the Company uses non-core funding sources to support asset growth. These non-core funding sources include time deposits of \$250,000 or more, municipal money market deposits, reciprocal deposits, bank borrowings, Federal funds purchased and securities sold under agreements to repurchase and overnight and term advances from the FHLB. Rates and terms are the primary determinants of the mix of these funding sources. Non-core funding sources of \$2.3 billion at June 30, 2026 increased \$202.3 million, or 9.7%, as compared to December 31, 2025. Non-core funding sources, as a percentage of total liabilities, were 29.1% at June 30, 2026, compared to 26.9% at December 31, 2025. The increase from year-end 2025 was mainly in municipal money market deposits, Federal funds purchased and brokered deposits.

Non-core funding sources may require securities to be pledged against the underlying liability. Securities held with a carrying value of \$1.1 billion at June 30, 2026 and \$887.5 million at December 31, 2025, were either pledged or sold under agreements to repurchase. Pledged securities represented 63.9% of total securities at June 30, 2026, compared to 52.1% of total securities at December 31, 2025.

Cash and cash equivalents totaled \$147.8 million as of June 30, 2026 which increased from \$132.8 million at December 31, 2025. Short-term investments, consisting of securities due in one year or less, decreased from \$74.1 million at December 31, 2025, to \$54.4 million at June 30, 2026.

Cash flow from the loan and investment portfolios provides a significant source of liquidity. These assets may have stated maturities in excess of one year, but have monthly principal reductions. Total mortgage-backed securities, at fair value, were \$932.3 million at June 30, 2026 compared with \$901.1 million at December 31, 2025. Outstanding principal balances of residential mortgage loans, consumer loans, and leases totaled approximately \$1.7 billion at June 30, 2026, in line with December 31, 2025. Aggregate amortization from monthly payments on these assets provides significant additional cash flow to the Company.

The Company's liquidity is enhanced by ready access to national and regional wholesale funding sources including Federal funds purchased, repurchase agreements, brokered deposits, and FHLB advances. Through its subsidiary bank, the Company has borrowing relationships with the FHLB and correspondent banks, which provide secured and unsecured borrowing capacity. As a member of the FHLB, the Company can use certain unencumbered mortgage-related assets and securities to secure borrowings from the FHLB. At June 30, 2026, the established borrowing capacity with the FHLB was \$1.2 billion, or 13.9% of total assets, with available unencumbered mortgage-related assets of \$491.2 million. Additional assets may also qualify as collateral for FHLB advances, upon approval of the FHLB. Additionally, through various programs at the Federal Reserve Bank, the Company has the ability to use certain unencumbered loans and securities to secure borrowings from the

Federal Reserve Bank's Discount Window. At June 30, 2026 the Company's available borrowing capacity with the Federal Reserve Bank was \$361.4 million, all of which was secured by loans. In addition to the available borrowing lines at the FHLB and Federal Reserve Bank, as of June 30, 2026, the Company maintained \$595.8 million of unencumbered securities which could be pledged to further enhance secured borrowing capacity.

Non-GAAP Disclosure

The following table includes disclosure of non-GAAP financial measures. Tangible common equity, a non-GAAP financial measure, is total stockholders' equity less intangible assets. Tangible book value per share is tangible equity divided by total shares issued and outstanding. These measures adjust common equity per share to exclude the effects of goodwill and intangible amortization expense on earnings, equity, and capital. The Company believes the non-GAAP measures provide meaningful comparisons of our underlying operational performance and facilitate management's and investors' assessments of business and performance trends in comparison to others in the financial services industry. These non-GAAP financial measures should not be considered in isolation or as a measure of the Company's profitability or liquidity; they should be considered as supplemental in nature and not as a substitute for the related financial information prepared in accordance with GAAP. Tangible common equity and tangible book value per share as presented herein may be different from non-GAAP financial measures used by other companies, and may not be comparable to similarly titled measures reported by other companies. Further, the Company may utilize other measures to illustrate performance in the future. Non-GAAP financial measures have limitations since they do not reflect all of the amounts associated with the Company's results of operations as determined in accordance with GAAP.

Reconciliation of Tangible Book Value Per Share (non-GAAP) to Common Equity Book Value Per Share (GAAP)

	Quarter-Ended 06/30/2026	Year-ended 12/31/2025
<i>(In thousands, except share and per share data)</i>		
Total common equity (GAAP)	\$ 959,932	\$ 938,377
Less: Goodwill and intangibles	72,766	72,766
Tangible common equity (Non-GAAP)	887,166	865,611
Ending shares outstanding	14,382,196	14,420,495
Common equity book value per share (GAAP)	\$ 66.74	\$ 65.07
Tangible book value per share (Non-GAAP)	\$ 61.68	\$ 60.03

Item 3. Quantitative and Qualitative Disclosure About Market Risk

Interest rate risk is the primary market risk category associated with the Company's operations. Interest rate risk refers to the volatility of earnings caused by changes in interest rates. The Company manages interest rate risk using income simulation to measure interest rate risk inherent in its on-balance sheet and off-balance sheet financial instruments at a given point in time. The simulation models are used to estimate the potential effect of interest rate shifts on net interest income for future periods. Each quarter the Company's Asset/Liability Management Committee reviews the simulation results to determine whether the exposure of net interest income to changes in interest rates remains within Board-approved levels. The Committee also considers strategies to manage this exposure and incorporates these strategies into the investment and funding decisions of the Company. The Company uses derivatives to manage various risks and to accommodate the business requirements of its customers. Additional information on derivatives is available in "Note 11 - Derivatives and Hedging Activities" in the Notes to Unaudited Consolidated Financial Statements in Part I, "Financial Statements" of this Report on Form 10-Q.

The Company's Board of Directors has set a policy that interest rate risk exposure will remain within a range whereby net interest income will not decline by more than 10% in one year as a result of a 200 basis point parallel change in rates over a one-year time frame. Based upon the most recent simulation analysis performed as of May 31, 2026, a 200 basis point parallel upward change in interest rates over a one-year time frame would result in a one-year decrease in net interest income from the base case of approximately 1.8%, while a 200 basis point parallel decline in interest rates over a one-year period would result in a one year increase in net interest income of 1.2% from the base case. This simulation assumes no balance sheet growth, no changes in balance sheet mix, deposit rates move in a manner that reflects the historical relationship between deposit rate movement and changes in Federal funds rate, and no management action to address balance sheet mismatches.

The decrease in net interest income in the rising rate scenario is a result of the balance sheet showing a slightly more liability sensitive position over a one year time horizon. As such, in a rising rate scenario, in the short-term, net interest income would be expected to trend slightly below the base assumption, as upward adjustments to rate sensitive deposits and short-term funding outpace increases to asset yields which are concentrated in intermediate to longer-term products. As intermediate and longer-term assets continue to reprice/adjust into higher rate environment and funding costs stabilize, the simulation shows net interest income would be expected to trend upwards.

The 200 basis point decline scenario increases net interest income slightly in the first year as a result of the Company's assets repricing downward to a lesser degree than the rates on the Company's interest-bearing liabilities, mainly deposits and overnight borrowings. The model assumes that prepayments accelerate in the down interest rate environment resulting in additional pressure on asset yields as proceeds are reinvested at lower rates.

The most recent simulation of a base case scenario, which in addition to the above assumptions, also assumes interest rates remain unchanged from the date of the simulation, reflects a net interest margin that is increasing over the next 12 months.

Although the simulation model is useful in identifying potential exposure to interest rate movements, actual results may differ from those modeled as the repricing, maturity, balance sheet mix, and prepayment characteristics of financial instruments may change to a different degree than modeled. In addition, the model does not reflect actions that management may employ to manage the Company's interest rate risk exposure. The Company's current liquidity profile, capital position, and growth prospects offer a level of flexibility for management to take actions that could offset some of the negative effects of unfavorable movements in interest rates. Management believes the current exposure to changes in interest rates is not significant in relation to the earnings and capital strength of the Company.

In addition to the simulation analysis, management assesses the Company's exposure to changes in interest rates using an interest rate gap measure. The table below is a Condensed Static Gap Report, which illustrates the anticipated repricing intervals of assets and liabilities as of June 30, 2026. The Company's one-year net interest rate gap was a positive \$25.3 million, or 0.29% of total assets at June 30, 2026, compared with a negative \$106.9 million, or 1.23% of total assets at December 31, 2025. A negative gap position exists when the amount of interest-bearing liabilities maturing or repricing exceeds the amount of interest-earning assets maturing or repricing within a particular time period. This analysis demonstrates that the timing of repricing of the Company's interest earning assets and interest-bearing liabilities over the next 12 months is relatively similar, suggesting net interest income contains minimal risk of decline in either a rising or falling rate environment over the next 12 months. An interest rate gap measure could be significantly affected by external factors such as a rise or decline in interest rates, loan or securities prepayments, and deposit withdrawals.

Condensed Static Gap - June 30, 2026

(In thousands)	Repricing Interval					Cumulative 12 months
	Total	0-3 months	3-6 months	6-12 months		
Interest-earning assets ¹	\$ 8,438,534	\$ 2,170,448	\$ 403,113	\$ 697,524	\$	3,271,085
Interest-bearing liabilities	5,826,849	2,469,374	398,059	378,381		3,245,814
Net gap position	\$	(298,926)	\$ 5,054	\$ 319,143	\$	25,271
Net gap position as a percentage of total assets		(3.40)%	0.06 %	3.63 %		0.29 %

¹ Balances of available securities are shown at amortized cost

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended) as of June 30, 2026.

Based upon that evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that, as of the end of the period covered by this Report on Form 10-Q, the Company's disclosure controls and procedures were effective.

Changes in Internal Control Over Financial Reporting

There were no changes in the Company's internal control over financial reporting that occurred during the quarter ended June 30, 2026, that materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

The Company is subject to various claims and legal actions that arise in the ordinary course of conducting business. As of June 30, 2026, management, after consultation with legal counsel, does not anticipate that the aggregate ultimate liability arising out of litigation pending or threatened against the Company or its subsidiaries will be material to the Company's consolidated financial position. On at least a quarterly basis, the Company assesses its liabilities and contingencies in connection with such legal proceedings. Although the Company does not believe that the outcome of pending litigation will be material to the Company's consolidated financial position, it cannot rule out the possibility that such outcomes will be material to the consolidated results of operations for a particular reporting period in the future.

Item 1A. Risk Factors

There have been no material changes in the risk factors previously disclosed under Item 1A. in the Company's Annual Report on Form 10-K, for the fiscal year ended December 31, 2025.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Issuer Purchases of Equity Securities

	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs
	(a)	(b)	(c)	(d)
April 1, 2026 through April 30, 2026	9,136	\$ 80.85	6,875	347,055
May 1, 2026 through May 31, 2026	9,492	83.26	4,912	342,143
June 1, 2026 through June 30, 2026	0	0.00	0	342,143
Total	18,628	\$ 82.08	11,787	342,143

Included in the table above are 1,674 shares purchased in April 2026, at an average cost of \$80.09, and 508 shares purchased in May 2026, at an average cost of \$81.75, by the trustee of the rabbi trust established by the Company under the Company's Stock Retainer Plan For Eligible Directors of Tompkins Financial Corporation and Participating Subsidiaries (the "Director Retainer Plan"), which were part of the director deferred compensation under that plan. In addition, the table includes 587 and 4,072 shares delivered to the Company at an average price of \$80.37 and \$84.18 in April and May 2026, respectively, to satisfy mandatory tax withholding requirements upon vesting of restricted stock under the Company's 2019 Equity Incentive Plan.

On July 24, 2025, the Company's Board of Directors authorized a share repurchase plan (the "2025 Repurchase Plan") under which the Company may repurchase up to 400,000 shares of the Company's common stock over the 24 months following adoption of the plan. Shares may be repurchased from time to time under the 2025 Repurchase Plan in open market transactions at prevailing market prices, in privately negotiated transactions, or by other means in accordance with federal securities laws. The Company has no obligation to repurchase any shares and may discontinue repurchases at any time. As of June 30, 2026, 57,857 shares had been repurchased under the 2025 Repurchase Plan at an average price of \$76.57.

Recent Sales of Unregistered Securities

On April 6, 2026, we issued an aggregate of 643 shares of our common stock to non-employee members of our Board of Directors who elected to receive all or a portion of their quarterly director retainer fees in Company stock pursuant to the Director Retainer Plan. These shares were valued at \$80.09 per share, which was based on the price at which shares of common stock were purchased on the open market for directors who elected to receive deferred stock under the Retainer Plan. The aggregate value of the issued shares was \$51,497.87. The shares were issued to our non-employee directors in private transactions exempt from registration pursuant to Section 4(a)(2) of the Securities Act of 1933, as amended.

CERTIFICATION

I, Stephen S. Romaine, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Tompkins Financial Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
