SECURITIES AND EXCHANGE COMMISSION
Washington, D. C. 20549

FORM 8-K

CURRENT REPORT

PURSUANT TO SECTION 13 OR 15(d) OF THE
SECURITIES EXCHANGE ACT OF 1934

Date of Report (Date of earliest event reported): February 26, 2025

Commission File Number	Registrant; State of Incorporation; Address; and Telephone Number	I.R.S. Employer Identification No.
333-21011	FIRSTENERGY CORP (An Ohio Corporation) 76 South Main Street Akron OH 44308 Telephone (800) 736-3402	34-1843785

Check the appropriate box below if the Form 8-K filing is intended to simultaneously satisfy the filing obligation of the registrant under any of the following provisions:

☐ Written communications pursuant to Rule 425 under the Securities Act (17 CFR 230.425)
☐ Soliciting material pursuant to Rule 14a-12 under the Exchange Act (17 CFR 240.14a-12)
☐ Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))
☐ Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common Stock, $0.10 par value per share	FE	New York Stock Exchange

Indicate by check mark whether the registrant is an emerging growth company as defined in Rule 405 of the Securities Act of 1933 (§230.405 of this chapter) or Rule 12b-2 of the Securities Exchange Act of 1934 (§240.12b-2 of this chapter).
Emerging growth company ☐

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Item 2.02 Results of Operations and Financial Condition

On February 26, 2025, FirstEnergy Corp. ("FirstEnergy" or the "Company") issued a press release (the "Release") announcing its financial results for the three months and full year ended December 31, 2024, providing earnings guidance for full year ended December 31, 2025, and introducing a compound annual growth rate through the Company's five-year planning period. A copy of the Release is included as Exhibit 99.1 to this Current Report on Form 8-K and is incorporated herein by reference.

The Company has presented certain financial information in accordance with U.S. generally accepted accounting principles ("GAAP") and also on a non-GAAP basis. Management uses these non-GAAP financial measures to evaluate the Company's and its segments' performance and manage its operations and frequently references these non-GAAP financial measures in its decision-making, using them to facilitate historical and ongoing performance comparisons. Management believes that the non-GAAP financial measures included in Exhibit 99.1, as well as Exhibits 99.2 and 99.3, referenced below, provide consistent and comparable measures of performance of its businesses on an ongoing basis. Management also believes that such measures are useful to other interested parties to understand performance trends and evaluate the Company against its peer group by presenting period-over-period operating results without the effect of certain adjustments that may not be consistent or comparable across periods or across the Company's peer group. The Company has provided, where possible without unreasonable effort, quantitative reconciliations of the non-GAAP financial measures to the most directly comparable GAAP financial measures in the tables on page 5 of the Release.

The information set forth in and incorporated into this Item 2.02 of this Current Report on Form 8-K is being furnished pursuant to Item 2.02 of Form 8-K and shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the "Exchange Act") or otherwise subject to the liabilities of that section, nor shall it be deemed incorporated by reference into any of the Company's filings under the Securities Act of 1933, as amended (the "Securities Act") or the Exchange Act, whether made before or after the date hereof and regardless of any general incorporation language in such filings, except to the extent expressly set forth by specific reference in such a filing.

Item 7.01 Regulation FD Disclosure

In connection with the Release, the Company also made available FirstEnergy's 4Q 2024 Strategic and Financial Highlights (the "Highlights") and latest annual investor FactBook (the "FactBook"), which are attached as Exhibit 99.2 and Exhibit 99.3, respectively, to this Current Report on Form 8-K and incorporated herein by reference. The Highlights and FactBook are available on the Company's website, located at investors.firstenergycorp.com. Website addresses are included as inactive textual references only. Information on the Company's website is not, and will not be deemed to be, a part of this Current Report on Form 8-K or incorporated into any other filings the Company may make with the Securities and Exchange Commission. Important information may be disseminated initially or exclusively via the Company's Investor Relations website; investors should consult the site to access this information.

The information set forth in and incorporated into this Item 7.01 of this Current Report on Form 8-K is being furnished pursuant to Item 7.01 of Form 8-K and shall not be deemed "filed" for purposes of Section 18 of the Exchange Act, or otherwise subject to the liabilities of that section, nor shall it be deemed incorporated by reference into any of the Company's filings under the Securities Act or the Exchange Act, whether made before or after the date hereof and regardless of any general incorporation language in such filings, except to the extent expressly set forth by specific reference in such a filing. The furnishing of this Item 7.01 of this Current Report on Form 8-K shall not be deemed an admission as to the materiality of any information herein that is required to be disclosed solely by reason of Regulation FD.

Forward-Looking Statements: This Form 8-K includes forward-looking statements based on information currently available to management. Such statements are subject to certain risks and uncertainties and readers are cautioned not to place undue reliance on these forward-looking statements. These statements include declarations regarding management's intents, beliefs and current expectations. These statements typically contain, but are not limited to, the terms “anticipate,” “potential,” “expect,” "forecast," "target," "will," "intend," “believe,” "project," “estimate," "plan" and similar words. Forward-looking statements involve estimates, assumptions, known and unknown risks, uncertainties and other factors that may cause actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements, which may include the following: the potential liabilities, increased costs and unanticipated developments resulting from government investigations and agreements, including those associated with compliance with or failure to comply with the Deferred Prosecution Agreement entered into July 21, 2021 and settlements with the U.S. Attorney’s Office for the Southern District of Ohio and the Securities and Exchange Commission (“SEC”); the risks and uncertainties associated with government investigations and audits regarding Ohio House Bill 6, as passed by Ohio’s 133rd General Assembly (“HB 6”) and related matters, including potential adverse impacts on federal or state regulatory matters, including, but not limited to, matters relating to rates; the risks and uncertainties associated with litigation, arbitration, mediation and similar proceedings, particularly regarding HB 6 related matters; changes in national and regional economic conditions, including recession, volatile interest rates, inflationary pressure, supply chain disruptions, higher fuel costs, and workforce impacts, affecting us and/or our customers and those vendors with which we do business; variations in weather, such as mild seasonal weather variations and severe weather conditions (including events caused, or exacerbated, by climate change, such as wildfires, hurricanes, flooding, droughts, high wind events and extreme heat events) and other natural disasters, which may result in increased storm restoration expenses and negatively affect future operating results; the potential liabilities and increased costs arising from regulatory actions or outcomes in response to severe weather conditions and other natural disasters; legislative and regulatory developments, and executive orders, including, but not limited to, matters related to rates, energy regulatory policies, compliance and enforcement activity, cyber security, climate change. and diversity, equity and inclusion; the risks associated with physical attacks, such as acts of war, terrorism, sabotage or other acts of violence, and cyber-attacks and other disruptions to our, or our vendors’, information technology system, which may compromise our operations, and data security breaches of sensitive data, intellectual property and proprietary or personally identifiable information; the ability to meet our goals relating to climate-related and environmental, social and governance matters, opportunities improvements, and efficiencies, including our greenhouse gas (“GHG”) reduction goals; the ability to accomplish or realize anticipated benefits through establishing a culture of continuous improvement and our other strategic and financial goals, including, but not limited to, executing Energize365, our transmission and distribution investment plan, executing on our rate filing strategy, controlling costs, improving credit metrics, maintaining investment grade ratings, strengthening our balance sheet and growing earnings; changing market conditions affecting the measurement of certain liabilities and the value of assets held in our pension trusts may negatively impact our forecasted growth rate, results of operations and may also cause us to make contributions to our pension sooner or in amounts that are larger than currently anticipated; mitigating exposure for remedial activities associated with retired and formerly owned electric generation assets, including those sites impacted by the legacy coal combustion residual rules that were finalized during 2024; changes to environmental laws and regulations, including, but not limited to, rules finalized by the Environmental Protection Agency and the SEC, including those currently stayed, related to climate change; and potential changes to such laws and regulations as a result of the new U.S. presidential administration; changes in customers’ demand for power, including, but not limited to, economic conditions, the impact of climate change, emerging technology, particularly with respect to electrification and new data centers, energy storage and distributed sources of generation; the ability to access the public securities and other capital and credit markets in accordance with our financial plans, the cost of such capital and overall condition of the capital and credit markets affecting us, including the increasing number of financial institutions evaluating the impact of climate change on their investment decisions, and the loss of our status as a well-known seasoned issuer; future actions taken by credit rating agencies that could negatively affect either our access to or terms of financing or our financial condition and liquidity; changes in assumptions regarding factors such as economic conditions within our territories, the reliability of our transmission and distribution system, generation resource planning, or the availability of capital or other resources supporting identified transmission and distribution investment opportunities; the potential of non-compliance with debt covenants in our credit facilities; the ability to comply with applicable reliability standards and energy efficiency and peak demand reduction mandates; human capital management challenges, including among other things, attracting and retaining appropriately trained and qualified employees and labor disruptions by our unionized workforce; changes to significant accounting policies; any changes in tax laws or regulations, including, but not limited to, the Inflation Reduction Act of 2022, or adverse tax audit results or rulings and potential changes to such laws and regulations as a result of the new U.S. presidential administration; and the risks and other factors discussed from time to time in our SEC filings. Dividends declared from time to time on our common stock during any period may in the aggregate vary from prior periods due to circumstances considered by the FE Board at the time of the actual declarations. A security rating is not a recommendation to buy or hold securities and is subject to revision or withdrawal at any time by the assigning rating agency. Each rating should be evaluated independently of any other rating. These forward-looking statements are also qualified by, and should be read together with, the risk factors included in FirstEnergy Corp.’s Form 10-K, Form 10-Q and in FirstEnergy's other filings with the SEC. The foregoing review of factors also should not be construed as exhaustive. New factors emerge from time to time, and it is not possible for management to predict all such factors, nor assess the impact of any such factor on FirstEnergy Corp.’s business or the extent to which any factor, or combination of factors, may cause results to differ materially from those contained in any forward-looking statements. FirstEnergy Corp. expressly disclaims any obligation to update or revise, except as required by law, any forward-looking statements contained herein or in the information incorporated by reference as a result of new information, future events or otherwise.

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

FirstEnergy Announces Fourth Quarter and Full Year 2024 Financial Results

Reports full year 2024 GAAP earnings of $1.70 per share and Operating (non-GAAP) earnings of $2.63 per share, within guidance range

Customer-focused capital investments of $4.5 billion in 2024 to improve grid reliability and resiliency and support the energy transition represent a 20% increase over 2023

Expands Energize365 capital investment program through 2029 with planned capital investments of $28 billion, an 8% increase from previous five-year plan, resulting in anticipated 9% rate base growth

Introduces 2025 Core (non-GAAP) earnings guidance and a targeted 6-8% compound annual Core earnings growth rate through the five-year planning period

AKRON, Ohio – FirstEnergy Corp. (NYSE: FE) today reported full year 2024 GAAP earnings from continuing operations of $978 million, or $1.70 per basic and diluted share, on revenue of $13.5 billion. This compares to 2023 GAAP earnings from continuing operations of $1,123 million, or $1.96 per basic and diluted share, on revenue of $12.9 billion. GAAP results for both periods reflect the impact of special items listed below. Operating (non-GAAP) earnings* were $2.63 per share in 2024, within the company's guidance range. In 2023, Operating (non-GAAP) earnings were $2.56 per share.

"In 2024, we implemented tremendous structural change to position FirstEnergy for long-term success as a premier electric company," said Brian X. Tierney, FirstEnergy Board Chair, President and Chief Executive Officer. "We redesigned our operating model to better support the impactful work we do at the local level and assembled a strong and experienced leadership team charged with delivering superior service to our 6 million customers. We also

put the power of our stronger financial position behind a comprehensive capital plan that can capture the immense opportunities to address customers' needs, now and in the future.

"In addition, we completed rate reviews and formula rate filings for 83% of our rate base since 2023 and resolved several legacy issues," Tierney continued. "Together, these milestones represent a multi-year transformation that strengthened FirstEnergy's foundation, improved our financial profile and significantly derisked our business.

"During this time, the underlying fundamentals of our core business have improved significantly. We believe, however, that investors have not fully appreciated our success because of the volatility in our unregulated legacy investment in Signal Peak, which has experienced sharp declines, and the mark-to-market impacts from the company's pension plan," he said.

"To provide investors with more information about the performance of our regulated operations, this year we will begin measuring our annual growth rate based on Core earnings," Tierney said. "This non-GAAP metric includes our four business segments: Distribution, Integrated, Stand-Alone Transmission and Corporate, but excludes special items and the income from our non-core, legacy investment in the Signal Peak coal mine and net periodic pension income."

Core (non-GAAP) earnings* were $2.37 per share in 2024, an 8% increase from $2.20 per share in 2023. In 2022, Core (non-GAAP) earnings were $1.78 per share. A reconciliation of GAAP to non-GAAP earnings is noted in the table below and is also available in the company's *Strategic and Financial Highlights* document, available online at www.firstenergycorp.com/ir.

FirstEnergy is introducing a 2025 Core earnings guidance range of $1.4 billion to $1.5 billion, or $2.40 to $2.60 per share, representing 5.5% growth (at the midpoint) compared to 2024 Core earnings, and is introducing a targeted 6-8% compounded annual growth rate for Core earnings through the five-year planning period.

FirstEnergy's growth is supported by Energize365, a systemwide capital investment program introduced one year ago that is focused on enhancing system reliability and resilience,

preparing for demand growth and improving the customer experience while maintaining a strong affordability position. In 2024, FirstEnergy invested $4.5 billion in its system through Energize365, surpassing its 2023 investment level by 20%. The company expects to invest $5.0 billion on behalf of its customers in 2025 through the Energize365 program.

Today, FirstEnergy is extending Energize365 through 2029 with a base investment plan of $28 billion, an increase of 8% compared to the 2024-2028 program. This base plan is not expected to require the issuance of incremental equity beyond the company's employee benefits programs. The company is committed to its investment-grade credit ratings and will consider a broad range of financing options should the base plan grow.

Fourth Quarter Results

Fourth quarter 2024 GAAP earnings from continuing operations were $261 million, or $0.45 per basic and diluted share, on revenue of $3.2 billion. This compares to fourth quarter 2023 GAAP earnings from continuing operations of $175 million, or $0.30 per basic and diluted share, on revenue of $3.2 billion. Results for both periods include the special items listed below. Operating (non-GAAP) earnings* were $0.67 per share in the fourth quarter of 2024, within the company's guidance range. Operating (non-GAAP) earnings in the fourth quarter of 2023 were $0.62 per share.

Core (non-GAAP) earnings were $0.61 per share in the fourth quarter of 2024, compared to $0.52 per share in the fourth quarter of 2023.

Fourth quarter 2024 earnings benefited from rate base growth in the company's distribution and transmission formula rate programs, higher revenue resulting from base rate case orders and lower operating expenses. These were partially offset by a higher effective tax rate and lower Ohio distribution revenues resulting from the ESP V order.

Total distribution deliveries were essentially unchanged compared to the fourth quarter of 2023. The impact of weather was relatively flat compared to the fourth quarter of 2023 but heating degree days were 10% below normal, which negatively impacted results in the fourth quarter of 2024.

Fourth quarter 2024 earnings in the Distribution segment increased compared to the fourth quarter of 2023. Lower operating expenses were partially offset by lower revenues resulting from the impact of Ohio ESP V, which was effective June 1, 2024.

In the Integrated segment, fourth quarter earnings increased compared to the fourth quarter of 2023, primarily reflecting the implementation of new distribution base rates, distribution and formula-rate transmission investment programs, and lower operating expenses and financing costs.

In the Stand-Alone Transmission segment, fourth quarter 2024 earnings increased by 12% resulting from rate base growth of 10%, but this was more than offset by the dilution from the incremental 30% interest sale of FirstEnergy Transmission (FET) to Brookfield, which closed in March of 2024.

Fourth quarter 2024 results decreased in Corporate/Other as lower income tax benefits were partially offset by lower interest costs associated with holding company debt redemptions.

Full Year Results

Full-year 2024 earnings reflect continued growth from the company's regulated investment strategy including the impact of new base rates and formula investment programs. Results also benefited from increased customer demand, primarily due to higher weather-related deliveries. These factors more than offset the impact of higher storm restoration and planned operating expenses, the dilutive effect of the FET equity interest sale and lower revenues in Ohio resulting from the ESP V order.

Heating degree days in 2024 were 15% below normal and slightly below 2023, while cooling degree days were 15% above normal and 37% above 2023. This contributed to a 2.8% increase in total distribution deliveries in 2024 as compared to 2023. On a weather-adjusted basis, load was flat compared to 2023, comprising slight decreases in residential and commercial sales, and stronger industrial demand.

Consolidated GAAP Earnings Per Share from Continuing Operations (EPS)
to Operating and Core (Non-GAAP) EPS Reconciliation

	Three Months Ended Dec 31,		Year Ended Dec 31,		
	2024	**2023**	**2024**	**2023**	**2022**
Earnings Attributable to FirstEnergy Corp. from Continuing Operations (GAAP) - $M	$261	$175	$978	$1,123	$406
Basic – Continuing Operations EPS (GAAP)	$0.45	$0.30	$1.70	$1.96	$0.71
Excluding Special Items:					
Asset retirement obligation regulatory change	(0.01)	—	0.27	—	—
Debt-related costs	—	—	0.12	0.05	0.25
Enhanced employee retirement and other related costs	—	0.03	0.01	0.13	—
Exit of generation	—	—	—	0.02	0.02
FE Forward cost to achieve	—	0.01	0.10	0.09	0.03
Investigation and other related costs	0.04	0.03	0.13	0.10	0.08
Pension/OPEB mark-to-market and other charges	0.07	0.12	0.07	0.05	(0.13)
Regulatory charges	0.06	0.02	0.09	0.05	0.21
State tax legislative changes	—	—	—	—	0.01
Strategic transaction charges	0.06	0.11	0.14	0.11	1.23
Total Special Items	0.22	0.32	0.93	0.60	1.70
Operating EPS (Non-GAAP)	$0.67	$0.62	$2.63	$2.56	$2.41
Signal Peak	(0.01)	(0.06)	(0.13)	(0.24)	(0.23)
Net Pension/OPEB credits	(0.05)	(0.04)	(0.13)	(0.12)	(0.40)
Core EPS (Non-GAAP)	$0.61	$0.52	$2.37	$2.20	$1.78

Per share amounts for the special items, Signal Peak and Net Pension/OPEB credits adjustments above are based on the after-tax effect of each item divided by the number of shares outstanding for the period. The current and deferred income tax effect was calculated by applying the subsidiaries' statutory tax rate to the pre-tax amount if deductible/taxable. The income tax rate ranges from 21% to 29%. Basic EPS from Continuing Operations (GAAP), Operating EPS (non-GAAP) and Core EPS (non-GAAP) are based on 576 million shares for the fourth quarter of 2024, 575 million shares for the full year 2024, 574 million shares for the fourth quarter of 2023, 573 million shares for the full year 2023 and 571 million for the full year 2022.

Non-GAAP Financial Measures

*We refer to certain financial measures, including Core earnings (non-GAAP) per share ("Core EPS") and Operating earnings (non-GAAP) per share ("Operating EPS"), as "non-GAAP financial measures," which are not calculated in accordance with U.S. Generally Accepted Accounting Principles ("GAAP") and exclude the impact of "special items" from earnings attributable to FirstEnergy Corp. from continuing operations for Operating EPS, as reflected in the table above. Core EPS further excludes from Operating EPS the earnings contribution of Signal Peak and net periodic pension and other postemployment benefits ("OPEB") credits, other than the mark-to-market adjustment and other related charges, which are already excluded as special items. Operating EPS and Core EPS also exclude the impact of Discontinued Operations. Operating EPS and Core EPS are based on the weighted average number of common shares outstanding in the respective period.

Management uses these non-GAAP financial measures to evaluate the company's and its segments' performance and manage its operations and frequently references these non-GAAP financial measures in its decision-making, using them to facilitate historical and ongoing performance comparisons. Management believes that the non-GAAP financial measures of Operating earnings (loss), Operating EPS, including by segment, and Core EPS, provide consistent and comparable measures of performance of its businesses on an ongoing basis. Management also believes that such measures are useful to shareholders and other interested parties to understand performance

trends and evaluate the company against its peer group by presenting period-over-period operating results without the effect of certain special items, the earnings contribution of Signal Peak and Net Pension/OPEB credits, that may not be consistent or comparable across periods or across the company's peer group. These non-GAAP financial measures are intended to complement, and are not considered as alternatives to, the most directly comparable GAAP financial measures, which for Operating EPS and Core EPS is EPS attributable to FirstEnergy Corp. from Continuing Operations (GAAP), as reconciled in the above table. Also, such non-GAAP financial measures may not be comparable to similarly titled measures used by other entities.

Special items represent charges incurred or benefits realized that management believes are not indicative of, or may obscure trends useful in evaluating the company's ongoing core activities and results of operations or otherwise warrant separate classification. Special Items for the period can be found in more detail in the Company's Strategic and Financial Highlights, available at www.firstenergycorp.com/ir.

Forward-Looking Non-GAAP Measures
A quantitative reconciliation of forward-looking non-GAAP measures, including 2025 Core earnings and compound annual Core earnings growth projections, to the most directly comparable GAAP measures is not provided because comparable GAAP measures for such measures are not available without unreasonable efforts due to the inherent difficulty in forecasting and quantifying measures that would be necessary for such reconciliation. Specifically, management cannot, without unreasonable effort, predict the impact of these special items in the context of Core earnings guidance and compound annual Core EPS growth rate projections because these items, which could be significant, are difficult to predict and may be highly variable. In addition, the company believes such a reconciliation would imply a degree of precision and certainty that could be confusing to investors. Forward-looking statements, including these special items, are based upon current expectations and are subject to factors that could cause actual results to differ materially from those suggested here, including those factors set forth under "Forward-Looking Statements," below.

Investor Materials and Teleconference

FirstEnergy's *Strategic and Financial Highlights* presentation is posted on the company's Investor Information website – www.firstenergycorp.com/ir. It can be accessed through the *Fourth Quarter 2024 Financial Results* link. Important information may be disseminated initially or exclusively via the company's Investor Information website; investors should consult the site to access this information.

The company invites investors, customers and other interested parties to listen to a live webcast of its teleconference for financial analysts and view presentation slides at 8:00 a.m. EST tomorrow. FirstEnergy management will present an overview of the company's financial results followed by a question-and-answer session. The teleconference and presentation can be accessed on the Investor Information website by selecting the *Fourth Quarter 2024 Earnings Webcast* link. The webcast and presentation will be archived on the website.

FirstEnergy is dedicated to integrity, safety, reliability and operational excellence. Its electric distribution companies form one of the nation's largest investor-owned electric systems, serving more than six million customers in Ohio, Pennsylvania, New Jersey, West

Virginia, Maryland and New York. The company's transmission subsidiaries operate more than 24,000 miles of transmission lines that connect the Midwest and Mid-Atlantic regions. Follow FirstEnergy online at www.firstenergycorp.com and on X @FirstEnergyCorp.

Forward-Looking Statements: This news release includes forward-looking statements based on information currently available to management. Such statements are subject to certain risks and uncertainties and readers are cautioned not to place undue reliance on these forward-looking statements. These statements include declarations regarding management's intents, beliefs and current expectations. These statements typically contain, but are not limited to, the terms "anticipate," "potential," "expect," "forecast," "target," "will," "intend," "believe," "project," "estimate," "plan" and similar words. Forward-looking statements involve estimates, assumptions, known and unknown risks, uncertainties and other factors that may cause actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements, which may include the following: the potential liabilities, increased costs and unanticipated developments resulting from government investigations and agreements, including those associated with compliance with or failure to comply with the Deferred Prosecution Agreement entered into July 21, 2021 and settlements with the U.S. Attorney's Office for the Southern District of Ohio and the Securities and Exchange Commission ("SEC"); the risks and uncertainties associated with government investigations and audits regarding Ohio House Bill 6, as passed by Ohio's 133rd General Assembly ("HB 6") and related matters, including potential adverse impacts on federal or state regulatory matters, including, but not limited to, matters relating to rates; the risks and uncertainties associated with litigation, arbitration, mediation and similar proceedings, particularly regarding HB 6 related matters; changes in national and regional economic conditions, including recession, volatile interest rates, inflationary pressure, supply chain disruptions, higher fuel costs, and workforce impacts, affecting us and/or our customers and those vendors with which we do business; variations in weather, such as mild seasonal weather variations and severe weather conditions (including events caused, or exacerbated, by climate change, such as wildfires, hurricanes, flooding, droughts, high wind events and extreme heat events) and other natural disasters, which may result in increased storm restoration expenses and negatively affect future operating results; the potential liabilities and increased costs arising from regulatory actions or outcomes in response to severe weather conditions and other natural disasters; legislative and regulatory developments, and executive orders, including, but not limited to, matters related to rates, energy regulatory policies, compliance and enforcement activity, cyber security, climate change. and diversity, equity and inclusion; the risks associated with physical attacks, such as acts of war, terrorism, sabotage or other acts of violence, and cyber-attacks and other disruptions to our, or our vendors', information technology system, which may compromise our operations, and data security breaches of sensitive data, intellectual property and proprietary or personally identifiable information; the ability to meet our goals relating to climate-related and environmental, social and governance matters, opportunities improvements, and efficiencies, including our greenhouse gas ("GHG") reduction goals; the ability to accomplish or realize anticipated benefits through establishing a culture of continuous improvement and our other strategic and financial goals, including, but not limited to, executing Energize365, our transmission and distribution investment plan, executing on our rate filing strategy, controlling costs, improving credit metrics, maintaining investment grade ratings, strengthening our balance sheet and growing earnings; changing market conditions affecting the measurement of certain liabilities and the value of assets held in our pension trusts may negatively impact our forecasted growth rate, results of operations and may also cause us to make contributions to our pension sooner or in amounts that are larger than currently anticipated; mitigating exposure for remedial activities associated with retired and formerly owned electric generation assets, including those sites impacted by the legacy coal combustion residual rules that were finalized during 2024; changes to environmental laws and regulations, including, but not limited to, rules finalized by the Environmental Protection Agency and the SEC, including those currently stayed, related to climate change; and potential changes to such laws and regulations as a result of the new U.S. presidential administration; changes in customers' demand for power, including, but not limited to, economic conditions, the impact of climate change, emerging technology, particularly with respect to electrification and new data centers, energy storage and distributed sources of generation; the ability to access the public securities and other capital and credit markets in accordance with our financial plans, the cost of such capital and overall condition of the capital and credit markets affecting us, including the increasing number of financial institutions evaluating the impact of climate change on their investment decisions, and the loss of our status as a well-known seasoned issuer; future actions taken by credit rating agencies that could negatively affect either our access to or terms of financing or our financial condition and liquidity; changes in assumptions regarding factors such as economic conditions within our territories, the reliability of our transmission and distribution system, generation resource planning, or the availability of capital or other resources supporting identified transmission and distribution investment opportunities; the potential of non-compliance with debt covenants in our credit facilities; the ability to comply with applicable reliability standards and energy efficiency and peak demand reduction mandates; human capital management challenges, including among other things, attracting and retaining appropriately trained and qualified employees and labor disruptions by our unionized workforce; changes to significant accounting policies; any changes in tax laws or regulations, including, but not limited to, the Inflation Reduction Act of 2022, or adverse tax audit results or rulings and potential changes to such laws and regulations as a result of the new U.S. presidential administration; and the risks and other factors discussed from time to time in our SEC filings. Dividends declared from time to time on our common stock during any period may in the aggregate vary from prior periods due to circumstances considered by the FE Board at the time of the actual declarations. A security rating is not a recommendation to buy or hold securities and is subject to revision or withdrawal at any time by the assigning rating agency.

Each rating should be evaluated independently of any other rating. These forward-looking statements are also qualified by, and should be read together with, the risk factors included in FirstEnergy Corp.'s Form 10-K, Form 10-Q and in FirstEnergy's other filings with the SEC. The foregoing review of factors also should not be construed as exhaustive. New factors emerge from time to time, and it is not possible for management to predict all such factors, nor assess the impact of any such factor on FirstEnergy Corp.'s business or the extent to which any factor, or combination of factors, may cause results to differ materially from those contained in any forward-looking statements. FirstEnergy Corp. expressly disclaims any obligation to update or revise, except as required by law, any forward-looking statements contained herein or in the information incorporated by reference as a result of new information, future events or otherwise.

4Q 2024 Strategic & Financial Highlights

Published February 26, 2025

Forward-Looking Statements

This presentation includes forward-looking statements based on information currently available to management. Such statements are subject to certain risks and uncertainties and readers are cautioned not to place undue reliance on these forward-looking statements. These statements include declarations regarding management's intents, beliefs and current expectations. These statements typically contain, but are not limited to, the terms "anticipate," "potential," "expect," "forecast," "target," "will," "intend," "believe," "project," "estimate," "plan" and similar words. Forward-looking statements involve estimates, assumptions, known and unknown risks, uncertainties and other factors that may cause actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements, which may include the following: the potential liabilities, increased costs and unanticipated developments resulting from government investigations and agreements, including those associated with compliance with or failure to comply with the Deferred Prosecution Agreement entered into July 21, 2021 and settlements with the U.S. Attorney's Office for the Southern District of Ohio and the Securities and Exchange Commission ("SEC"); the risks and uncertainties associated with government investigations and audits regarding Ohio House Bill 6, as passed by Ohio's 133rd General Assembly ("HB 6") and related matters, including potential adverse impacts on federal or state regulatory matters, including, but not limited to, matters relating to rates; the risks and uncertainties associated with litigation, arbitration, mediation and similar proceedings, particularly regarding HB 6 related matters; changes in national and regional economic conditions, including recession, volatile interest rates, inflationary pressure, supply chain disruptions, higher fuel costs, and workforce impacts, affecting us and/or our customers and those vendors with which we do business; variations in weather, such as mild seasonal weather variations and severe weather conditions (including events caused, or exacerbated, by climate change, such as wildfires, hurricanes, flooding, droughts, high wind events and extreme heat events) and other natural disasters, which may result in increased storm restoration expenses and negatively affect future operating results; the potential liabilities and increased costs arising from regulatory actions or outcomes in response to severe weather conditions and other natural disasters; legislative and regulatory developments, and executive orders, including, but not limited to, matters related to rates, energy regulatory policies, compliance and enforcement activity, cyber security, climate change. and diversity, equity and inclusion; the risks associated with physical attacks, such as acts of war, terrorism, sabotage or other acts of violence, and cyber-attacks and other disruptions to our, or our vendors', information technology system, which may compromise our operations, and data security breaches of sensitive data, intellectual property and proprietary or personally identifiable information; the ability to meet our goals relating to climate-related and environmental, social and governance matters, opportunities improvements, and efficiencies, including our greenhouse gas ("GHG") reduction goals; the ability to accomplish or realize anticipated benefits through establishing a culture of continuous improvement and our other strategic and financial goals, including, but not limited to, executing Energize365, our transmission and distribution investment plan, executing on our rate filing strategy, controlling costs, improving credit metrics, maintaining investment grade ratings, strengthening our balance sheet and growing earnings; changing market conditions affecting the measurement of certain liabilities and the value of assets held in our pension trusts may negatively impact our forecasted growth rate, results of operations and may also cause us to make contributions to our pension sooner or in amounts that are larger than currently anticipated; mitigating exposure for remedial activities associated with retired and formerly owned electric generation assets, including those sites impacted by the legacy coal combustion residual rules that were finalized during 2024; changes to environmental laws and regulations, including, but not limited to, rules finalized by the Environmental Protection Agency and the SEC, including those currently stayed, related to climate change; and potential changes to such laws and regulations as a result of the new U.S. presidential administration; changes in customers' demand for power, including, but not limited to, economic conditions, the impact of climate change, emerging technology, particularly with respect to electrification and new data centers, energy storage and distributed sources of generation; the ability to access the public securities and other capital and credit markets in accordance with our financial plans, the cost of such capital and overall condition of the capital and credit markets affecting us, including the increasing number of financial institutions evaluating the impact of climate change on their investment decisions, and the loss of our status as a well-known seasoned issuer; future actions taken by credit rating agencies that could negatively affect either our access to or terms of financing or our financial condition and liquidity; changes in assumptions regarding factors such as economic conditions within our territories, the reliability of our transmission and distribution system, generation resource planning, or the availability of capital or other resources supporting identified transmission and distribution investment opportunities; the potential of non-compliance with debt covenants in our credit facilities; the ability to comply with applicable reliability standards and energy efficiency and peak demand reduction mandates; human capital management challenges, including among other things, attracting and retaining appropriately trained and qualified employees and labor disruptions by our unionized workforce; changes to significant accounting policies; any changes in tax laws or regulations, including, but not limited to, the Inflation Reduction Act of 2022, or adverse tax audit results or rulings and potential changes to such laws and regulations as a result of the new U.S. presidential administration; and the risks and other factors discussed from time to time in our SEC filings. Dividends declared from time to time on our common stock during any period may in the aggregate vary from prior periods due to circumstances considered by the FE Board at the time of the actual declarations. A security rating is not a recommendation to buy or hold securities and is subject to revision or withdrawal at any time by the assigning rating agency. Each rating should be evaluated independently of any other rating. These forward-looking statements are also qualified by, and should be read together with, the risk factors included in FirstEnergy Corp.'s Form 10-K, Form 10-Q and in FirstEnergy's other filings with the SEC. The foregoing review of factors also should not be construed as exhaustive. New factors emerge from time to time, and it is not possible for management to predict all such factors, nor assess the impact of any such factor on FirstEnergy Corp.'s business or the extent to which any factor, or combination of factors, may cause results to differ materially from those contained in any forward-looking statements. FirstEnergy Corp. expressly disclaims any obligation to update or revise, except as required by law, any forward-looking statements contained herein or in the information incorporated by reference as a result of new information, future events or otherwise.

Non-GAAP Financial Matters

This presentation contains references to certain financial measures including Baseline O&M, Core earnings per share ("Core EPS") and Operating earnings per share ("Operating EPS"), as "non-GAAP financial measures," which are not calculated in accordance with U.S. Generally Accepted Accounting Principles ("GAAP") and exclude the impact of "special items," from earnings attributable to FirstEnergy Corp. from continuing operations for Operating EPS. Core EPS further excludes from Operating EPS the earnings contribution of Signal Peak and net periodic pension and other post-employment benefits ("OPEB") credits, other than the mark-to-market adjustment and other related charges, which are already excluded as special items. Core EPS and Operating EPS also exclude the impact of Discontinued Operations.

Management uses these non-GAAP financial measures to evaluate the company's and its segments' performance and manage its operations and references these non-GAAP financial measures in its decision-making, using them to facilitate historical and ongoing performance comparisons. Management believes that the non-GAAP financial measures of Core EPS and Operating EPS, including by segment, provide consistent and comparable measures of performance of its businesses on an ongoing basis. Management also believes that such measures are useful to shareholders and other interested parties to understand performance trends and evaluate the company against its peer group by presenting period-over-period operating results, excluding the impacts described above, that may not be consistent or comparable across periods or across the company's peer group. These non-GAAP financial measures are intended to complement, and are not considered as alternatives to, the most directly comparable GAAP financial measures, which for Operating EPS and Core EPS is EPS attributable to FirstEnergy Corp. from Continuing Operations (GAAP), as reconciled. Also, such non-GAAP financial measures may not be comparable to similarly titled measures used by other entities.

Special items represent charges incurred or benefits realized that management believes are not indicative of, or may obscure trends useful in evaluating the company's ongoing core activities and results of operations or otherwise warrant separate classification. Operating EPS and Core EPS are calculated based on the weighted average number of common shares outstanding in the respective period.

A reconciliation of forward-looking non-GAAP measures, including 2025 Core EPS and Core EPS compound annual growth rate projections, to the most directly comparable GAAP measures is not provided because comparable GAAP measures are not available without unreasonable efforts due to the inherent difficulty in forecasting and quantifying measures that would be necessary for such reconciliation. Specifically, management cannot, without unreasonable effort, predict the impact of these special items in the context of Core EPS guidance, or Core EPS growth rate projections forecasts because these items, which could be significant, are difficult to predict and may be highly variable. In addition, the Company believes such a reconciliation would imply a degree of precision and certainty that could be confusing to investors. These special items are uncertain, depend on various factors and may have a material impact on our future GAAP results.

Focus of Today's Call

Brian X. Tierney – President, Chief Executive Officer, and Board Chair

- Review of 2024 financial performance, key milestones, and regulatory activity
- Introducing new Core EPS measure to highlight quality growth from our regulated businesses
- Outlook for 2025 and beyond
- Review of our shareholder value proposition

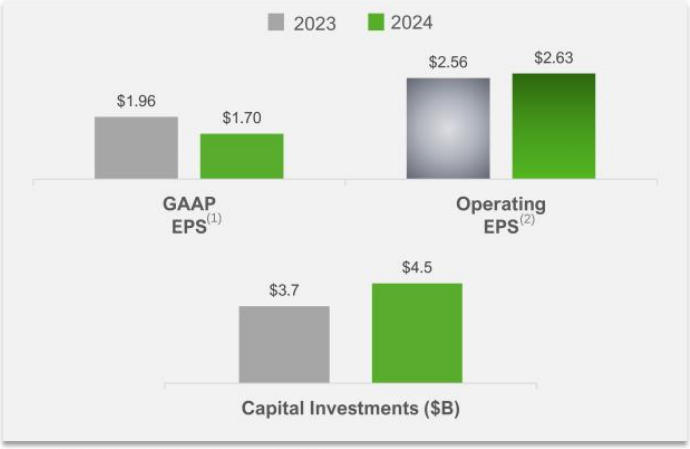

K. Jon Taylor – Senior Vice President, Chief Financial Officer

- Additional detail on 2024 financial performance and regulatory activity
- Update on 2025-2029 Financial plan
- Overview of 2025 Earnings Guidance

Financial Overview

2023 vs 2024 Results

(1) Basic Earnings Per Share from Continuing Operations
(2) See slides 24-30 for reconciliations between GAAP and Non-GAAP earnings. Please see slide 3 for more information.

2024 Highlights

Delivered **2024 Operating EPS of $2.63**, $0.07 above FY 2023 results and **within the revised guidance range** of $2.61-$2.71, despite lower Q4 customer demand

Executed **2024 Investment plan of $4.5B**, ~20% increase vs. 2023 ($3.7B) and ~5% increase vs. original 2024 Plan ($4.3B)

In December, declared dividend of $0.425/sh, for total declared **dividends of $1.70/sh in 2024** vs. $1.60/sh in 2023, a 6% increase

2024 Baseline O&M(2) of $1.28B, flat to 2023, despite significantly higher non-deferred storm costs

Proud of the progress we made in 2024 to derisk our business and build a leadership team and culture focused on continuous improvement

FirstEnergy

2024 Milestones

Regulatory Success

83% of Rate Base reviewed with constructive outcomes through base rate cases or formula rates **since 4Q23**

Investment Plan approvals: PA LTIIP III, OH Grid Mod II, NJ EE&C, representing **$2.8B of investments** included in plan

Financial Foundation

Closed 30% FET Sale as final phase of $7B in equity proceeds

Investment-grade at FE Corp. and all subsidiaries at all three rating agencies

Strengthened balance sheet drives robust $28B Energize365 investment plan

Refreshed Organization

Implemented new operating model with decision-making closer to the customer

Enhanced leadership team to build a high-performance culture; placed 24 individuals at the VP level & above (including new hires and internal promotions)

Financial & Risk Profile

De-risked pension through a 2nd lift-out transaction completed in January '25

Continued dividend growth: 2024 declarations of $1.70/share, +6% vs. 2023

Positive regulatory jurisdictions with **improved earned return on equity**

2025 Regulatory Overview

Ohio Base Rate Case

Independent **audit report and Staff report filed** on February 21

Plan to update pending base rate case filing in 1Q25 to **align with our ESP VI**

Base rate case includes **modest request** to support **recovery of investments**, while keeping **customer rates affordable**

Ohio Electric Security Plan (ESP)

PUCO **approved withdrawal of ESP V** in December '24 and reverted to ESP IV on February 1

Filed ESP VI on January 31 addressing riders for the full term of the ESP supporting significant capital investments tied to reliability performance

NJ & WV Updates

Working towards settlement of EnergizeNJ infrastructure investment program

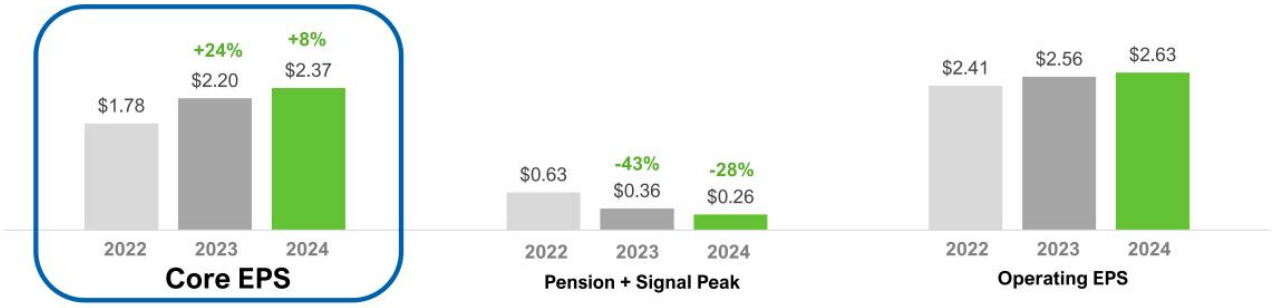

Plan to file WV IRP in December to address future regulated generation options to best serve customers energy needs

See 2025 Regulatory Calendar on slide 19 and Regulatory Corner section of our IR website for additional details

FirstEnergy

Highlighting FirstEnergy's Core Earnings Growth

- **Beginning in 2025 we will provide Core earnings [1] guidance**
  - Core EPS consists of Operating earnings for our Distribution, Integrated and Stand-Alone Transmission business segments and Corporate operations, excluding Signal Peak and net Pension/OPEB credits
    - Signal Peak subject to volatility in New Castle coal prices and other environmental and operational risks
    - Net Pension/OPEB credits subject to mark-to-market accounting
- **This approach highlights the strong growth of our core business, resulting in:**
  - More predictable results for investors
  - More insight into our high-quality earnings, driven by regulated investments

[1] See slides 24-26 for GAAP to Non-GAAP reconciliations. Please see slide 3 for more information.

2025-2029 Financial Guidance Overview

2025-2029 GUIDANCE

6-8%
Core EPS Growth[1]
(2025-2029 CAGR)

9%
Rate Base Growth
(2025-2029 CAGR)

60-70%
Targeted Dividend Payout Ratio of Core EPS

$28B
Base Investment Plan
75% Formula Investments[2]

~14%+ FFO/DEBT
Committed to achieving and maintaining BBB credit profile

NO EQUITY
No equity needs in base plan
(beyond Employee Benefit programs of up to ~$100M annually)

2025 GUIDANCE

$2.40-$2.60/SH Core EPS Guidance	**5.5% growth** vs. 2024 *(Midpoint vs. 2024A of $2.37)*
$5.0B Investment Plan	**11% growth** vs. 2024 *(2024A of $4.5B)*
$1.78/SH Dividend Declarations (Subject to Board Approval)	**5% growth** vs. 2024 *(Plan to declare four dividends of $0.445/sh in 2025 vs. $0.425/sh in 2024 totaling $1.70/sh)*
~14% FFO/Debt Target	Significant improvement in credit metrics post-FET transaction

Attractive total shareholder return of 10-12% with potential for upside through P/E expansion
(6-8% Core EPS growth and 4%+ dividend yield)

[1] With the introduction of Core (non-GAAP) earnings guidance for 2025, we will no longer be providing Operating (non-GAAP) earnings guidance going forward.
[2] Formula Rate investments includes transmission forward-looking formula rate recovery and distribution formula-like capital rider recovery.

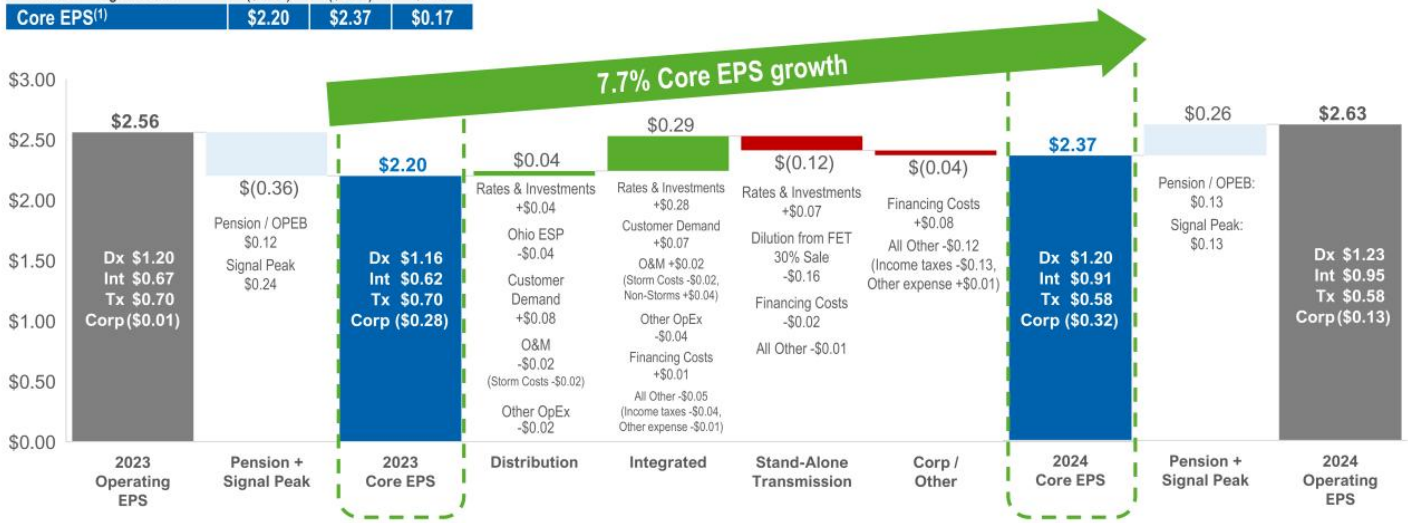

FirstEnergy

Full Year 2024 Earnings Overview

EPS Summary	2023	2024	Chg
GAAP EPS	$1.96	$1.70	($0.26)
Special items	$0.60	$0.93	$0.33
Operating EPS[1]	$2.56	$2.63	$0.07
Pension + Signal Peak	($0.36)	($0.26)	$0.10
Core EPS[1]	$2.20	$2.37	$0.17

Drivers Summary – Core Earnings

- **Distribution +$0.04:** higher customer demand, partially offset by the impact of Ohio ESP V
- **Integrated +$0.29:** new base rates, rate base growth, and higher customer demand, partially offset by lower tax benefits
- **Stand-Alone Transmission ($0.12):** rate base growth of 9% more than offset by impact of dilution from FET 30% sale (closed 3/25/24)
- **Corporate ($0.04):** lower tax benefits, partially offset by lower interest expense

[1] See slides 24-25 for GAAP to Non-GAAP reconciliations

FirstEnergy

2024 Financing Updates

2024 Debt Financings

- **Issued $2.1B in long-term debt at weighted average rate of 5.1%**
- **In December, issued $700M of long-term debt with registration rights at JCP&L**

Pension Lift-Outs

- **Since Dec. 2023, two transactions reduced pension liability by $1.4B, or 17%**
- **On Jan. 8, 2025, executed second transaction for ~$650M of plan obligations**

2024 FFO/Debt (Moody's)

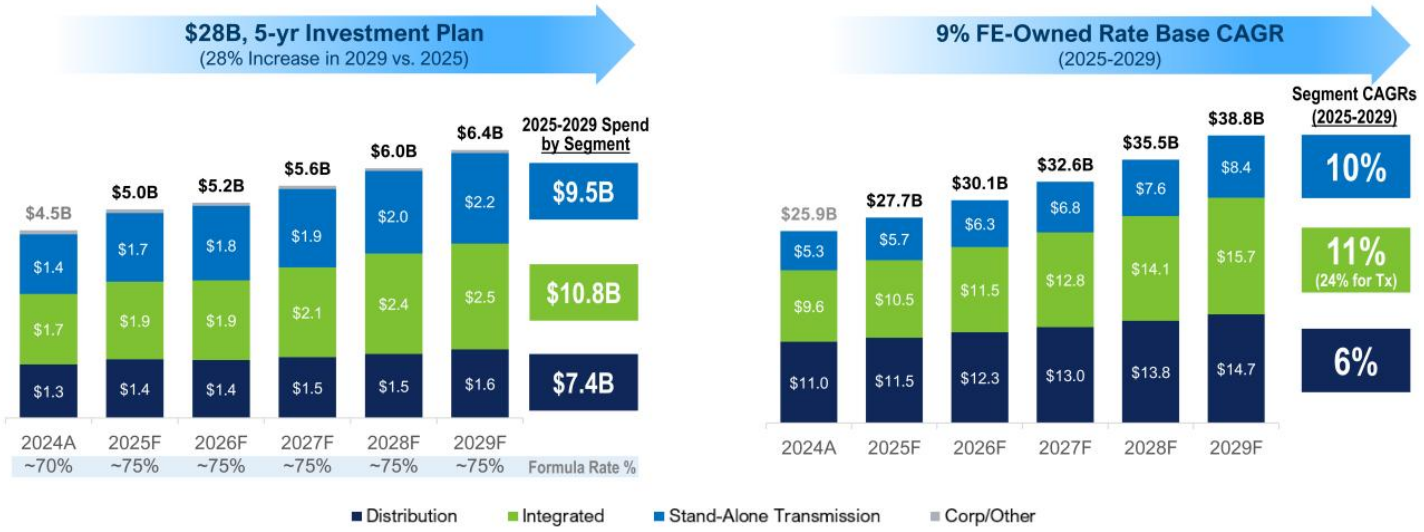

- **Adjusted FFO/Debt of 14%,** adjusted for HB6-related payments and historic August storms
- **Actual FFO/Debt of 12.5%**

2024 Debt Financings

	Principal	Notes
ATSI	$150	5.63% due 2034
MAIT	$250	5.94% due 2034
FET	$400	**4.55% due 2030***
FET	$400	**5.0% due 2035***
KATCo	$200	5.17% due 2035
JCP&L	$700	**5.1% due 2035***
FE Corp	($463)	7.375% due 2031
JCP&L	($500)	4.7% due 2024
MP	($400)	4.1% due 2024
CEI	($300)	5.5% due 2024
FE PA (ME)	($250)	4.0% due 2025
FE PA (PN)	($200)	4.15% due 2025
FET	($600)	4.35% due 2025
Total	**$2.1B issued, ($2.7B) redeemed**	

*Securities with registration rights

2025-2029 Investment Plan & Rate Base Growth

Notes:
Includes capital-like investments that earn a return.
Rate Base amounts are shown on a year-end, FE-Owned basis.
Stand-Alone Transmission adjusted from prior disclosures to exclude Brookfield's 49.9% equity interest in FET, LLC.

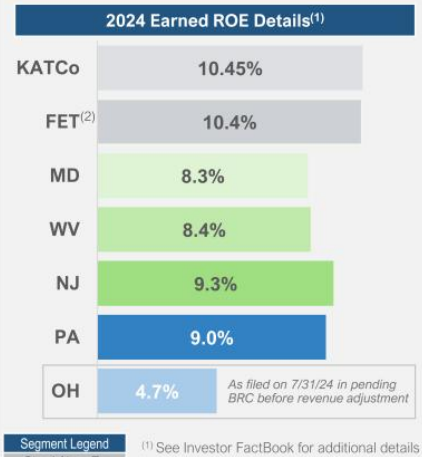

Improving Earned ROEs

Note: 50.1% FE ownership of FET at 12/31/24 and 80.1% at 12/31/23

- **FE Consolidated ROE represents a weighted average across all businesses and excludes FE/FET HoldCo activity**
- **Improved ROEs in 2024 through new distribution base rates in NJ, WV, and MD; new distribution rates in PA effective 1/1/25**
- **Beginning in 2025, adjustments from reported earnings to a regulatory view are primarily limited to:**
  - **AFUDC Equity:** full equity/AFUDC return on Construction Work in Progress balances
  - **Retirement Benefits:** recovery of retirement benefits as approved in prior rate cases
  - **Other:** items such as non-operating income and interest synchronization

83% **Rate Base with completed base rate cases** since late '23, including FERC Tx formula rates

(1) See Investor FactBook for additional details by business unit on year-end Rate Base, Allowed ROEs, and Capital Structure
(2) FET ROE is a weighted average allowed ROE of ATSI, MAIT, and TrAILCo

Expect base rates continue to support fair recovery and return on investments through regular cadence of base rate case filings

Note: ROEs calculated based on year-end Rate Base as noted above. Certain jurisdictions, including Transmission and WV/MD, use a 13-month average rate base for regulatory purposes.

FirstEnergy

Data Center Growth

$900M of Transmission investments in 2025-2029 base plan associated with growing data center demand

3GWs of load in the pipeline through 2029 represents potential incremental transmission investment of ~$350M[1] not in base plan

Beyond 2029, projecting 9GWs of total data center demand, which would require additional investment of ~$300M-$400M[2]

~6GWs of projected data center demand through 2029, with 2.6GWs active or contracted

Nearly 100 large load studies in 2024 greater then 500MWs, representing over 70+ GWs
(May represent duplicative large load studies where customers are evaluating multiple sites)

Base load forecast includes load only from Active and Contracted MWs. Contracted represents a contract to construct facilities as outlined in the construction agreement supported by load studies. Pipeline represents large load connections requested with a reasonable assumption of construction, based on certain supporting factors such as, but not limited to load study, control of property, having development plans, and public disclosure of a project

[1] Represents lowest cost option, which may vary by project and geographic location [2] Estimate, subject to change.

FirstEnergy

2025 Guidance Update

Transitioning to Core EPS Guidance highlights strong growth of our core business

Guidance Updates since 3Q24

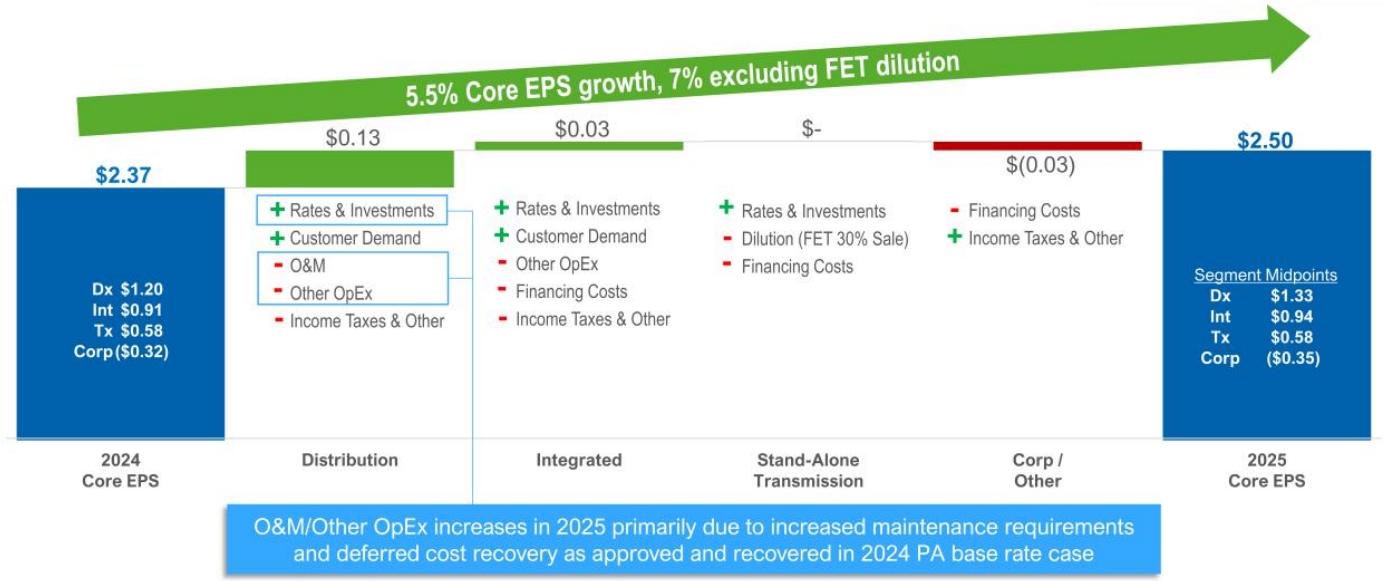

- **Impact of higher financing costs**
  - 10-yr treasury increased by ~100bps since October 1, 2024
  - Increased borrowings
- **Regulatory outcomes not anticipated in plan**
  - Removal of Ohio DCR cap increases under ESP IV
  - Reduction in ATSI ROE by 50bps
- **Higher than planned O&M**
  - Supports future regulatory activity
  - Current plan no longer assumes offsets to the incremental O&M approved in PA base rate case

Removing Non-Core components from Core EPS

- **Continued and accelerated EPS volatility from Pension and Signal Peak vs. plan**
  - Impact of YE MTM on net pension/OPEB credits
  - Volatility in commodity prices and risks associated with Signal Peak

2025 Core EPS[1] Guidance: $2.40 - $2.60

2025F Segment Core EPS Ranges	
Distribution	$1.29 - $1.37
Integrated	$0.91 - $0.97
Stand-Alone Transmission	$0.57 - $0.59
Corp/Other	($0.37) - ($0.33)
FE	$2.40 - $2.60

O&M/Other OpEx increases in 2025 primarily due to increased maintenance requirements and deferred cost recovery as approved and recovered in 2024 PA base rate case

[1] See slide 24 for 2024 GAAP to Non-GAAP reconciliation. With respect to 2025 Core EPS guidance, the Company is unable to reconcile this forward-looking non-GAAP information without unreasonable efforts. Please see slide 3 for more information.

Shareholder Value Proposition

2025-2029 Base Financial Plan

- **6-8% Core EPS[1] CAGR**
- **$28B Base Investment Plan**
- **9% Rate Base CAGR** (FE-Owned)
- **Load forecast** assumes ~2%+ CAGR; only includes active and contracted data centers

- **No incremental equity needs** in the base plan (beyond Employee Benefit programs of up to ~$100M annually)
- **Constructive regulatory frameworks** with ~75% of planned investment in formula rate programs
- **Diversified and low-risk T&D assets** with strong affordability position
- **Supportive WV regulatory construct** for generation

- **Targeting ~14%+ FFO/Debt**
- **Committed to achieving and maintaining BBB credit profile**
- Focus on **Continuous Improvement** and managing O&M expenses

- **Attractive total return opportunity of 10-12% with potential for upside through P/E expansion**
  (6-8% Core EPS growth and 4% dividend yield)
- **Improved earnings quality,** with focus on Core EPS (excl. Signal Peak & Pension)
- **Committed to dividend growth,** in line with 60%-70% payout ratio of Core EPS

Our diversified service territory, coupled with an improved balance sheet and a strong affordability position, provides the opportunity to significantly enhance the customer experience and provide solid risk-adjusted returns to our investors

[1] Core EPS consists of our three business segments and Corporate operations, excluding Signal Peak and net Pension/OPEB credits. With respect to Core EPS guidance, the Company is unable to reconcile this forward-looking non-GAAP information without unreasonable efforts. Please see slide 3 for more information.

Per share amounts for the special items, Signal Peak and Net Pension/OPEB credits adjustments above are based on the after-tax effect of each item divided by the number of shares outstanding for the period. The current and deferred income tax effect was calculated by applying the subsidiaries' statutory tax rate to the pre-tax amount if deductible/taxable. The income tax rate ranges from 21% to 29%. Basic EPS from Continuing Operations (GAAP), Operating EPS (Non-GAAP), and Core EPS (Non-GAAP) are based on 576 million shares for the Fourth Quarter of 2024 and 575 million shares for the Full Year 2024.

Net Pension/OPEB credits represents net periodic pension and OPEB benefit costs (GAAP), adjusted to remove the impact of mark-to-market adjustments, which are already accounted for within special items, and portion recovered through formula rates.

2022 GAAP to Non-GAAP Earnings Reconciliation

(In $M, except per share amounts)	FE Cons
2022 Earnings Attributable to FE Corp. from Continuing Operations (GAAP)	**$406**
2022 Earnings Per Share from Continuing Operations	**$0.71**
Excluding Special Items:	
Debt-related costs	0.25
Exit of generation	0.02
FE Forward cost to achieve	0.03
Investigation and other related costs	0.08
Pension/OPEB mark-to-market and other charges	(0.13)
Regulatory charges	0.21
State tax legislative changes	0.01
Strategic transaction charges	1.23
Total Special Items	**$1.70**
2022 Operating Earnings Per Share – Non-GAAP	**$2.41**
Remove Net Pension/OPEB credits	(0.40)
Remove Signal Peak earnings impact	(0.23)
Sub-Total	**($0.63)**
2022 Core Earnings Per Share – Non-GAAP	**$1.78**

Per share amounts for the special items, Signal Peak and Net Pension/OPEB credits adjustments above are based on the after-tax effect of each item divided by the number of shares outstanding for the period. The current and deferred income tax effect was calculated by applying the subsidiaries' statutory tax rate to the pre-tax amount if deductible/taxable. The income tax rate ranges from 21% to 29%. Basic EPS from Continuing Operations (GAAP), Operating EPS (Non-GAAP), and Core EPS (Non-GAAP) are based on 571 million shares for the Full Year 2022.

Net Pension/OPEB credits represents net periodic pension and OPEB benefit costs (GAAP), adjusted to remove the impact of mark-to-market adjustments, which are already accounted for within special items, and portion recovered through formula rates.

Please see slide 3 for more information.

FirstEnergy

Special Items Descriptions

- **ARO regulatory change:** Primarily related to increases in asset retirement obligations, primarily associated with the planned transfer of the McElroy's Run coal ash disposal site to a third party and an estimate for new remediation obligations for various legacy coal combustion residual sites triggered by a new EPA regulation.
- **Debt-related costs:** Primarily reflects costs associated with the redemption and early retirement of debt.
- **Enhanced employee retirement and other related costs:** Primarily reflects transition and benefit costs associated with the Company's voluntary retirement program and involuntary separations.
- **Exit of generation:** Primarily reflects charges or credits resulting from the exit of competitive operations.
- **FE Forward cost to achieve:** Primarily reflects the impairment charge related to exiting the Akron general office, the termination charges associated with exiting certain sporting sponsorship agreements and certain advisory and other costs incurred to transform the Company for the future.
- **Investigation and other related costs:** Primarily reflects litigation settlements and reserves, including those related to the SEC and OOCIC/OHAG investigations, and other legal and advisory expenses related to the government investigations, net of the received derivative settlement insurance proceeds.
- **Pension/OPEB mark-to-market and other charges:** Reflects the change in fair value of plan assets and net actuarial gains and losses associated with the Company's pension and other post-employment benefit plans and other settlement charges.
- **Regulatory charges:** Primarily reflects the impact of regulatory agreements, proceedings, audits, concessions or orders requiring certain commitments, refunds, and/or disallowing the recoverability of costs, net of related credits.
- **State tax legislative changes:** Primarily reflects charges resulting from state tax legislative changes.
- **Strategic transaction charges:** Primarily reflects the net tax charges and related updates associated with the FET interest sales, consolidation of the Pennsylvania Companies, charges associated with FirstEnergy's actions to exit its ownership in Signal Peak, and other charges related to the exit of a legacy purchase power contract.

Note: Special items represent charges incurred or benefits realized that management believes are not indicative of, or may obscure trends useful in evaluating, the Company's ongoing core activities and results of operations or otherwise warrant separate classification. Special items are not necessarily non-recurring.

Capital investment dollars are shown on a Consolidated basis. Investment Plan includes capital-like investments that earn a return. Formula Rate investments includes transmission forward-looking formula rate recovery and distribution formula-like capital rider recovery.

Rate Base amounts are shown on a year-end, FE-Owned basis.

FirstEnergy Overview

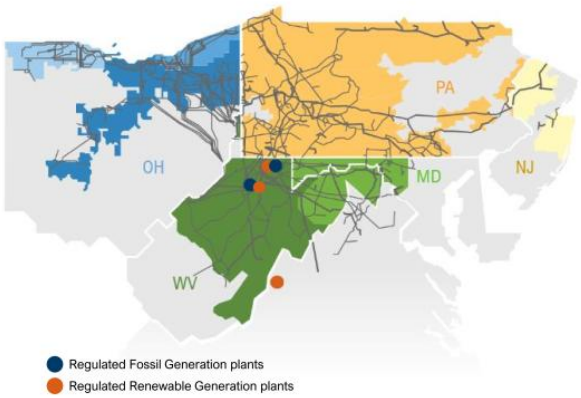

$52B Total Assets

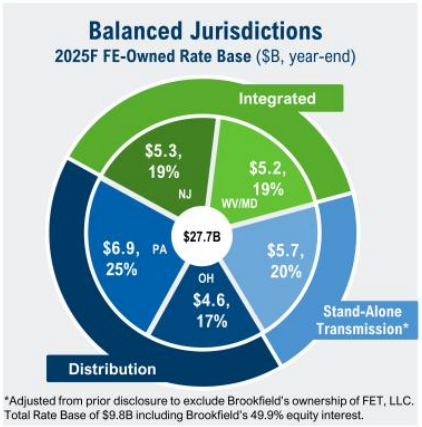

6M+ Total Customers

24K Transmission Miles

65K Square Miles of Service Territory

12K Employees

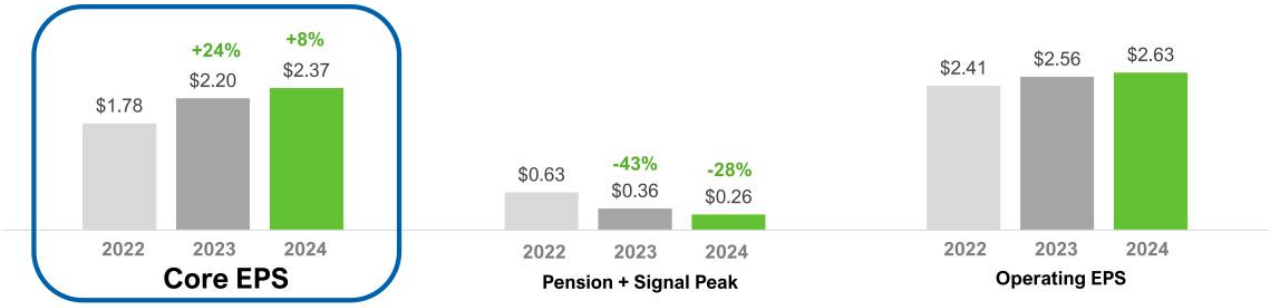

We invest in and operate our electric system to improve reliability and the customer experience, and to enable the energy transition.

We invest in our people to be safe, well-trained and productive. By doing so, we improve the wellbeing of our customers, our communities and our employees.

When we execute safely, efficiently and with integrity, our customers, employees and investors will thrive.

Highlighting FirstEnergy's Core Earnings Growth

- **Beginning in 2025 we will provide Core earnings[1] guidance**
  - Core EPS consists of Operating earnings for our Distribution, Integrated and Stand-Alone Transmission business segments and Corporate operations, excluding Signal Peak and net Pension/OPEB credits
    - Signal Peak subject to volatility in New Castle coal prices and other environmental and operational risks
    - Net Pension/OPEB credits subject to mark-to-market accounting
- **This approach highlights the strong growth of our core business, resulting in:**
  - More predictable results for investors
  - More insight into our high-quality earnings, driven by regulated investments

[1] See slides 48-51 for 2022-2024 GAAP to Non-GAAP reconciliations. With respect to 2025 Core EPS guidance, the Company is unable to reconcile this forward-looking non-GAAP information without unreasonable efforts. Please see slide 54 for more information.

Our Value Proposition

2025-2029 Base Financial Plan

- **6-8% Core EPS[1] CAGR**
- **$28B Base Investment Plan**
- **9% Rate Base CAGR** (FE-Owned)
- **Load forecast** assumes ~2%+ CAGR; only includes active and contracted data centers

- **No incremental equity needs** in the base plan (beyond Employee Benefit programs of up to ~$100M annually)
- **Constructive regulatory frameworks** with ~75% of planned investment in formula rate programs
- **Diversified and low-risk T&D assets** with strong affordability position
- **Supportive WV regulatory construct** for generation

- **Targeting ~14%+ FFO/Debt**
- **Committed to achieving and maintaining BBB credit profile**
- Focus on **Continuous Improvement** and managing O&M expenses

- **Attractive total return opportunity of 10-12% with potential for upside through P/E expansion**
  (6-8% Core EPS growth and 4% dividend yield)
- **Improved earnings quality,** with focus on Core EPS (excl. Signal Peak & Pension)
- **Committed to dividend growth,** in line with 60%-70% payout ratio of Core EPS

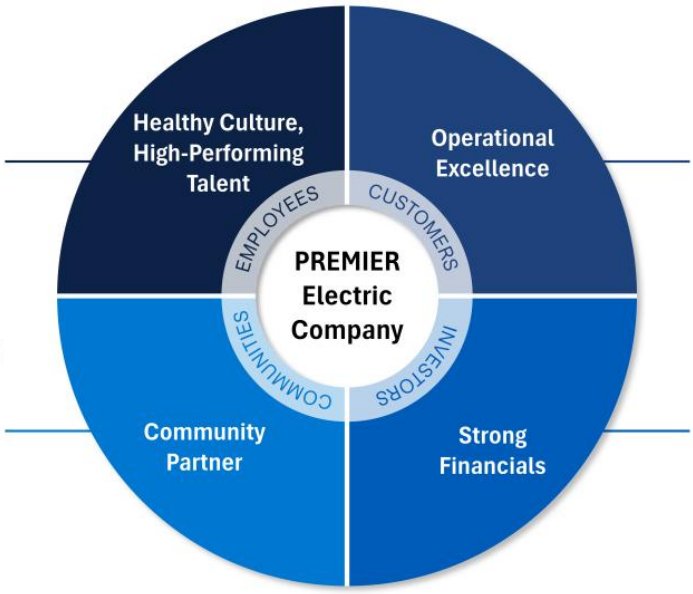

Our diversified service territory, coupled with an improved balance sheet and a strong affordability position, provides the opportunity to significantly enhance the customer experience and provide solid risk-adjusted returns to our investors

[1] Core EPS consists of our three business segments and Corporate operations, excluding Signal Peak and Net Pension/OPEB credits. With respect to Core EPS guidance, the Company is unable to reconcile this forward-looking non-GAAP information without unreasonable efforts. Please see slide 54 for more information.

FirstEnergy

Our Strategy to Transform FirstEnergy into a Premier Electric Company

- A diverse, skilled and engaged workforce
- Decisions and actions guided by core values and behaviors
- Culture that promotes ethics, integrity, accountability and innovation

- Focused on safety, reliability, and customer experience
- Continuous improvement mindset
- Leveraging technology and data to drive a best-in-class customer experience
- Executing investment plan to enhance customer experience and support the energy transition

- Responsible business practices to protect and enhance the environment
- Building strong communities through investment and engagement
- Trustworthy partner seeking cost-effective solutions for customers

- Track record of strong and consistent financial performance
- Solid data and risk-based decision-making process
- Strengthened balance sheet with investment-grade credit ratings

FirstEnergy

Key Accomplishments Supporting a Strong Foundation

Strategic

- Transitioned to **new business unit organizational structure** and **simplified segment reporting**
  - Continued adding and promoting key leaders to shift decision-making and accountability closer to the customer
- **Strengthened Balance Sheet** through total equity proceeds of ~$7B since late '21
  (equivalent to common equity at $87/sh or 36x LTM P/E)
  - FET 30% Sale: $3.5B *(Brookfield, March '24)*
  - FET 19.9% Sale: $2.4B *(Brookfield, May '22)*
  - Common Equity: $1B *(Blackstone, Dec. '21)*
- **De-risked pension** via ~$1.4B of lift-out transactions *(~$650M Jan. '25, ~$720M Dec. '23)*
- Formed a **joint venture** to pursue regional transmission projects across PJM
- **Resolved** several legacy issues
  - Successfully completed 3-yr obligations under DPA with US Dept. of Justice
  - Settlement agreements with SEC and OOCIC/OHAG

Regulatory

- **Received approvals since 4Q23 of Base Rate Cases totaling nearly $450M in annual revenue increases**, and representing $14B in rate base
  - Revenue increase by state: PA $225M, WV $105M, NJ $85M, MD $29M
- Received approvals of Dx **Investment Programs totaling ~$2.8B**
  - PA LTIIP III: $1.6B ('25-'29)
  - OH Grid Mod II: $421M ('25-'28)
  - NJ EE&C: $784M ('25-'27)
- Filed an updated **EnergizeNJ** Investment Infrastructure Program in Feb. '24
- Filed **OH ESP VI** in Jan. '25 seeking to align the start date with **OH Base Rate Case** filed in May '24
- Completed **PA Legal Entity Consolidation** in Jan. '24

Financial

- Achieved '24 **Operating EPS** results in line with annual guidance
- Achieved **8% Core EPS growth** in '24
  ($2.37/sh in '24 vs. $2.20/sh in '23)
- Executed '24 **Investment Plan** of $4.5B vs. $3.7B in '23; YoY increase of ~20%
- Achieved '24 **Baseline O&M** of $1.28B held flat to '23
- Delivered **Dividend Growth** of 6%, with four quarterly declarations of $0.425/sh in '24
  (Declared dividends of $1.70/sh vs. $1.60/sh in '23)
- Achieved **Investment-Grade** credit ratings at FE Corp. (and all subs) at all three agencies
  - Received upgrades in '24 to FE Corp. senior unsecured ratings at Moody's (Baa3), S&P (BBB-, positive), and Fitch (BBB)
- Reduced **FE Corp. HoldCo LT Debt** as % of Total Balance Sheet Debt to 25% vs. 26% at YE23 and 33% at YE21
- Executed '24 **Debt Financing Plan**; issued $2.1B of subsidiary debt at avg. coupon of 5.1%

2025 Key Regulatory Proceedings by Jurisdiction

State, % of 2025F Rate Base		
Ohio, 17% 	Electric Security Plan VI	Active
	Base Rate Case	Active
	HB6-Related Proceedings[1]	Active
Pennsylvania, 25% 	Energy Efficiency Plan – Phase V	Planned
	Default Security Plan VII	Planned
New Jersey, 19% 	Infrastructure Investment Program (IIP)	Active
West Virginia, 15% 	Annual Expanded Net Energy Cost (ENEC) Rate (2025)	Planned
	2025 Integrated Resource Plan (IRP)	Planned
Maryland, 4% 	MD Electric School Bus Pilot	Active
	MD EV Phase II	Active
FERC, 20% (Stand-alone Transmission) 	FERC Rulemaking and Proceedings Regarding Tx Planning	Active

83% **Rate Base with completed base rate cases** since late '23, including FERC Tx formula rates

17% **Rate Base in pending Ohio base rate case in 2025**

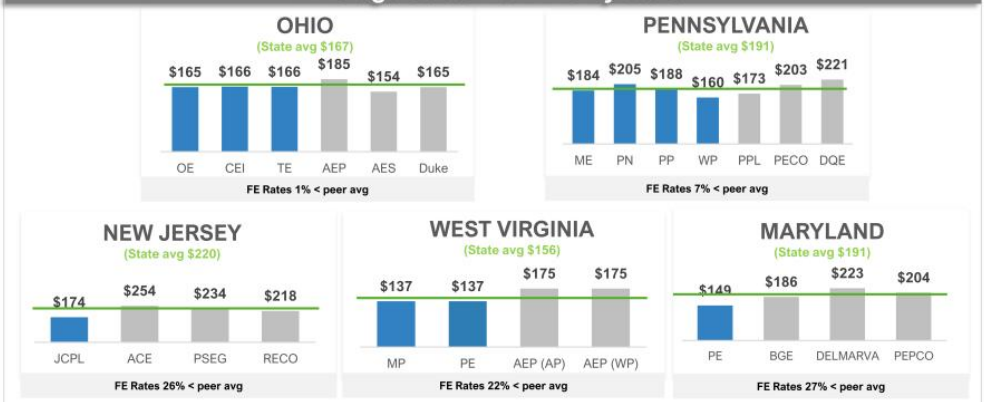

We plan to enhance the customer experience and pursue necessary filings over time to ensure fair recovery and return on investments while focusing on customer affordability

[1] Includes DCR/DMR, Political and Charitable Spending, and Corporate Separation audits.

FirstEnergy

Commitment to Affordability

Average Customer Bills by State

Rates as of 1/1/2025 for residential customers using 1,000 kWh per month.

Supporting Affordability for our Customers

- **Energy Efficiency Programs (and proposals) include:**
  - **PA Phase IV** EE: 2021-2026
  - **NJ EE&C:** 2nd triennium (Jan '25-Jun '27)
  - **MD EmPOWER**: 2024-2026
  - **OH:** Proposal to continue EE programs approved in ESP V as part of ESP VI filing (subject to approval)
- **Recent customer assistance initiatives include:**
  - **NJ & WV:** As approved in recent base rate case settlements, launched an Energy Assistance Outreach Team to enhance ongoing efforts to increase awareness, education and participation in energy assistance programs available to eligible, low-income customers
  - **PA:** The recent base rate case settlement: 1) increases annual funding for Hardship Fund grants by $2M for a 3-yr period (2025-2028) and increases the maximum grant; and 2) provides for process improvements to increase enrollment and retention in FirstEnergy's income-eligible Pennsylvania Customer Assistance Program.
  - **OH:** As part of ESP VI filing, proposed stewardship commitments including support for low-income customers
- **Focus on controlling Baseline O&M through continuous improvement and strong financial discipline**

We remain focused on enhancing the customer experience while maintaining our strong affordability position with rates at or below our in-state peers

FirstEnergy

$28B Base Investment Plan Summary (2025-2029)

ENERGIZE 365

Investment Plan by Type

Investment Plan by Segment

Reliability, Resiliency, and Energy Transition (75%):

- **Transmission:**
  - Operational Flexibility Projects (build capacity for new demand/data centers and support evolving grid)
  - Enhance System Performance (new designs/technologies to reduce load-at-risk)
  - Upgrade System Conditions (enhance reliability)
  - Regulatory Required Projects
- **Clean Energy:** WV Solar Generation, Energy Efficiency, EV infrastructure, Energy Storage
- **Grid Modernization:** Programs to drive system resiliency through automation technology and communication (OH Grid Mod II, PA LTIIP, Energize NJ (IIP))

Infrastructure Renewal (24%): Base distribution projects to address aging infrastructure (system break/fix, substation equipment replacement)

Fossil Generation (1%): Projects to maintain operations of fossil plants and remain compliant with environmental regulations through the end of their useful life

Our Scale and Diversity provides low-risk flexibility to shift investments as needed

FirstEnergy

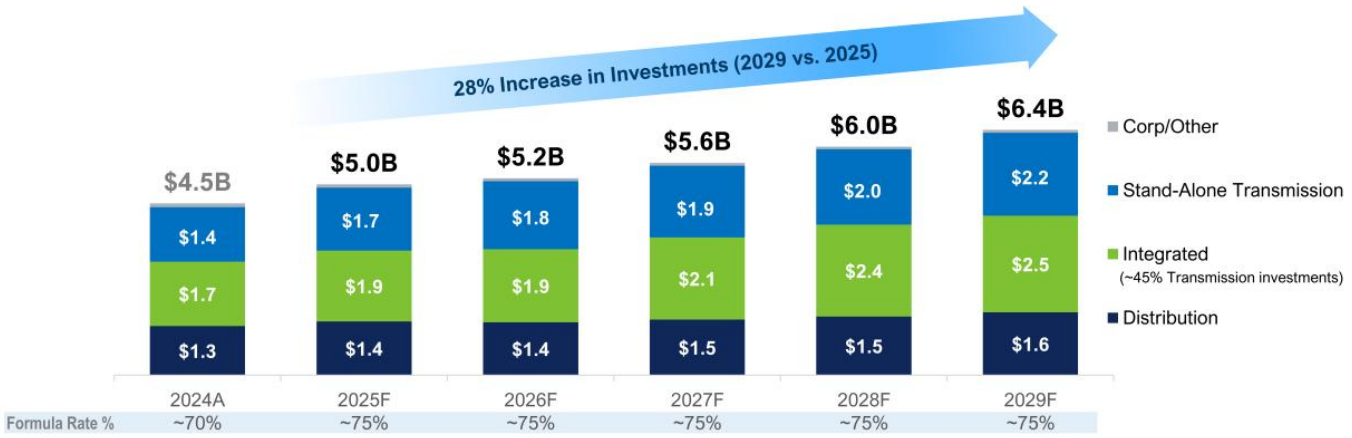

$28B Base Investment Plan by Segment & Year (2025-2029)

ENERGIZE 365

$28B base investment plan to strengthen the grid for the future

75% formula rate investments through planning period

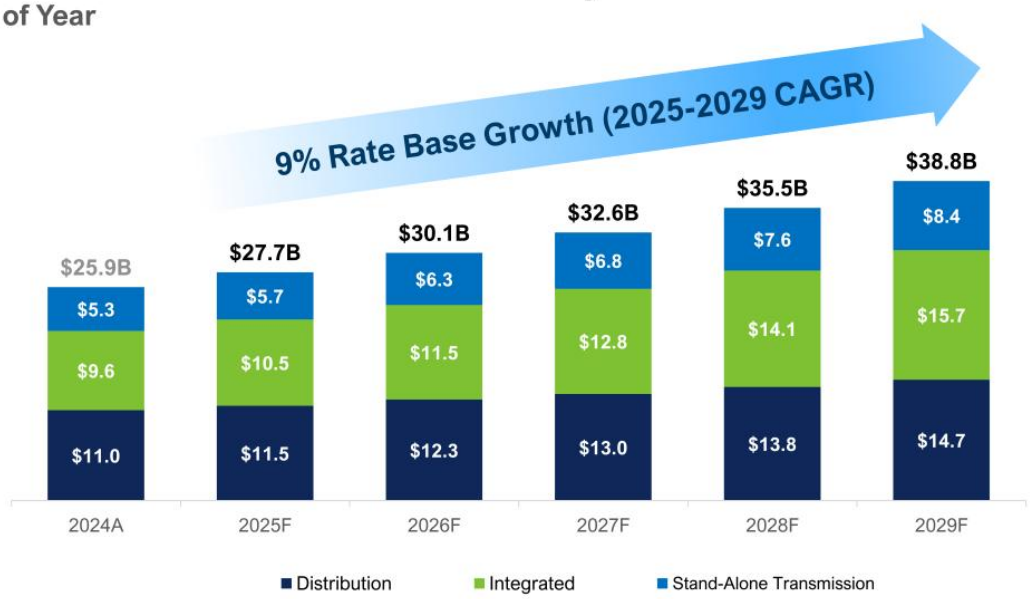

Our scale and diversity across five states and FERC provides for flexibility in plan as needed

FirstEnergy

FE-Owned Rate Base Summary

End of Year

Segment Rate Base CAGRs (2025-2029)

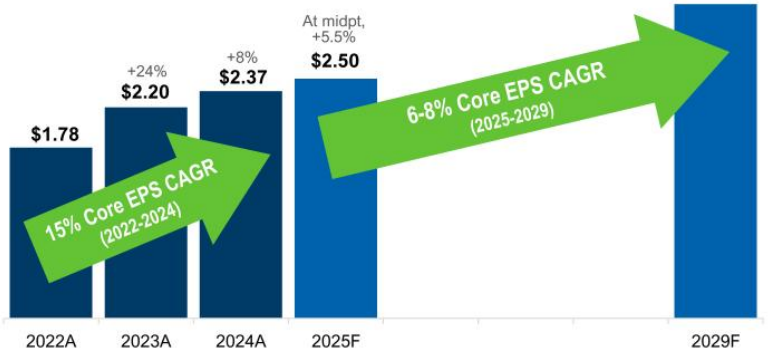

STAND-ALONE TRANSMISSION	10%
INTEGRATED	11% (24% for Transmission)
DISTRIBUTION	6%

Notes:
Rate Base amounts exclude CWIP balances of ~$2B to ~$3B per year that earn AFUDC. Maryland rate base includes CWIP. Maryland also includes Tx assets of PE-VA.
Includes capital-like investments that earn a return.
Adjusted from prior disclosures to exclude Brookfield's 49.9% equity interest in FET, LLC. 2025F Total Rate Base of $31.8B (including Brookfield).

FirstEnergy

6-8% Core EPS(1) CAGR Guidance

Sustainable, long-term earnings growth driven by rate base growth and financial discipline

Key Planning Assumptions

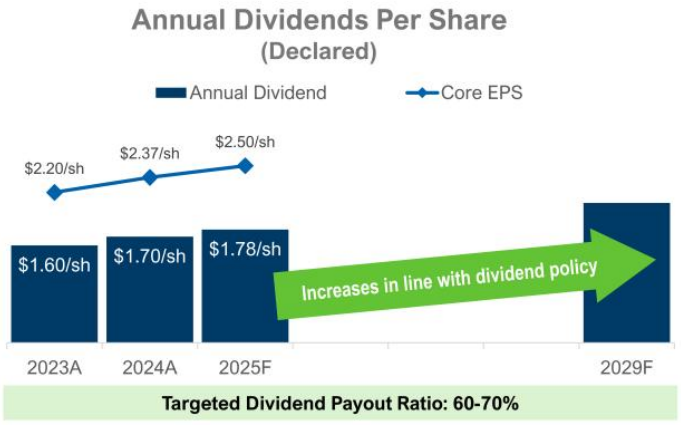

- **Rate Base CAGR of 9%,** including ~75% of investments in formula rate programs
- **Base rates** to support recovery and return on investments through regular cadence of base rate case filings
- **Modest customer demand growth**
  - Weather-adj sales: avg. increase of ~2%+ primarily from 5% Industrial growth, which includes only active and contracted data centers (see slides 17-18 for details)
  - Assumes normal weather conditions in the future
- **Controlling Baseline O&M** through continuous improvement, strong financial discipline to build in flexibility

(1) With respect to Core EPS guidance, the Company is unable to reconcile this forward-looking non-GAAP information without unreasonable efforts. Please see slide 54 for more information. See slides 48-51 for 2022-2024 GAAP to Non-GAAP reconciliations.

FirstEnergy

Dividend Overview

Dividend Policy – Targeted payout: 60-70% of Core Earnings

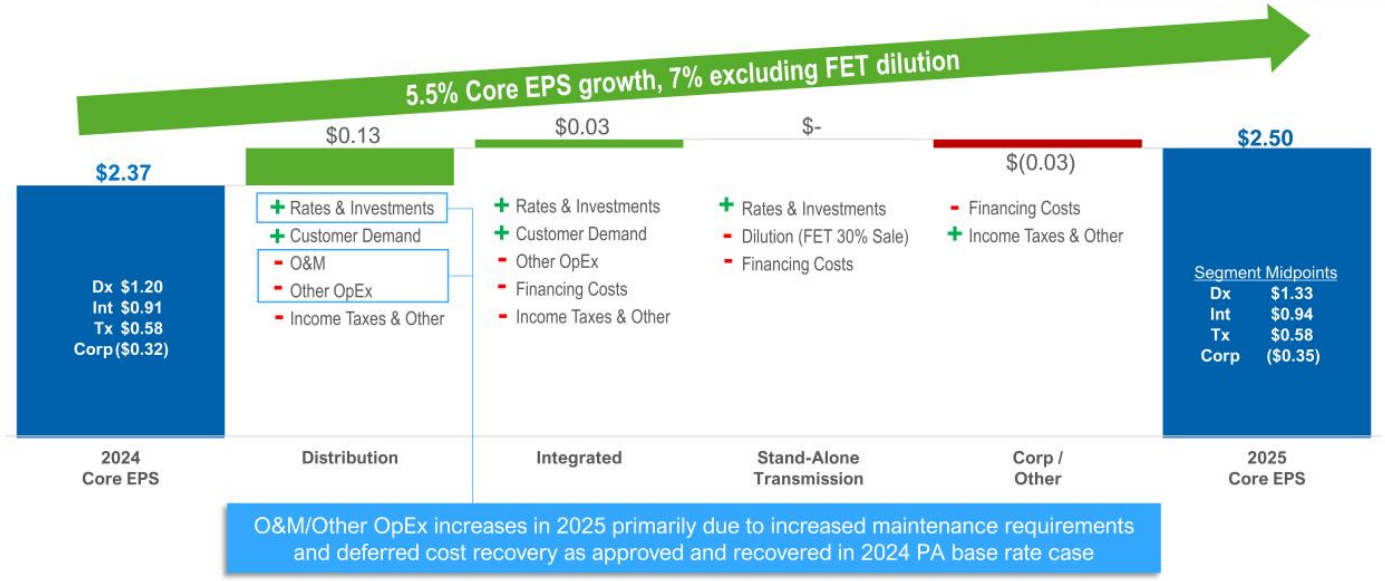

- **Resumed dividend growth in 2023 and provided growth of 6% in 2024**
  - Declared Dividends of $1.70/sh vs $1.60/sh in '23
  - Payout ratio of 72% in 2024
- **Expect continued growth in 2025**
  - Plan assumes ~5% growth, with declaration of four quarterly dividends of $0.445/sh, totaling $1.78/sh
  - Subject to Board approval
- **Current Dividend Yield: 4%+**

Dividend payments are subject to declaration by the Board of Directors

2025 Core EPS[1] Guidance: $2.40 - $2.60

2025F Segment Core EPS Ranges	
Distribution	$1.29 - $1.37
Integrated	$0.91 - $0.97
Stand-Alone Transmission	$0.57 - $0.59
Corp/Other	($0.37) - ($0.33)
FE	$2.40 - $2.60

O&M/Other OpEx increases in 2025 primarily due to increased maintenance requirements and deferred cost recovery as approved and recovered in 2024 PA base rate case

[1] See slide 48 for 2024 GAAP to Non-GAAP reconciliation. With respect to 2025 Core EPS guidance, the Company is unable to reconcile this forward-looking non-GAAP information without unreasonable efforts. Please see slide 54 for more information.

Base Load Forecast

Only includes active and contracted data center load

2025-2029 CAGRs

Industrial	+5.1%
Commercial	-0.6%
Residential	+1.7%

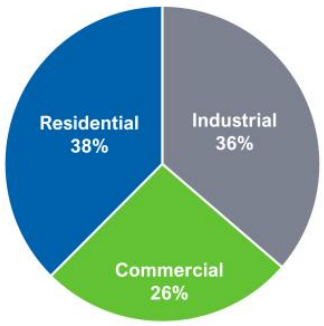

2025-2027 CAGR

Industrial	**+8.5%**

Balanced Customer Mix

(2025F)

- **Strong Industrial sales growth driven by expected customer expansions and data centers**
  - Includes 2.6 GW of data centers active / contracted thru '29; excludes incremental ~3 GW of pipeline demand in '29
  - Expect continued growth as data center convert from large load studies → pipeline → contracted
  - Industrial CAGR of 5% (2025-2029) and ~9% (2025-2027)
- **Commercial sales expected to decline primarily based on impacts of energy efficiency**
- **Residential sales growth incorporates expectations for electrification / EVs**

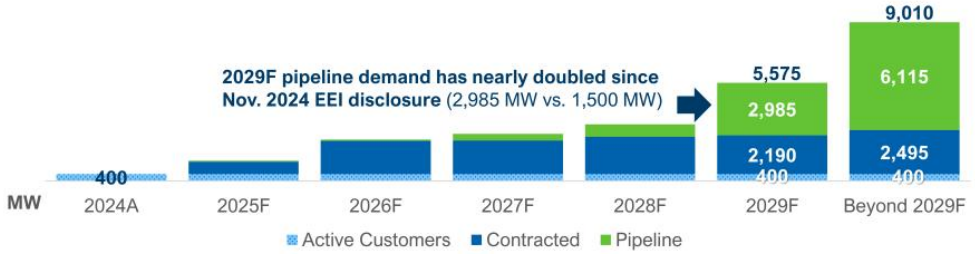

Note: Commercial includes street lighting and reflects a reclassification (in 3Q 2024) of certain customers from Industrial to Commercial.

FirstEnergy

Data Center Growth

$900M of Transmission investments in 2025-2029 base plan associated with growing data center demand

3GWs of load in the pipeline through 2029 represents potential incremental transmission investment of ~$350M[1] not in base plan

Beyond 2029, projecting 9GWs of total data center demand, which would require additional investment of ~$300M-$400M[2]

~6GWs of projected data center demand through 2029, with 2.6GWs active or contracted

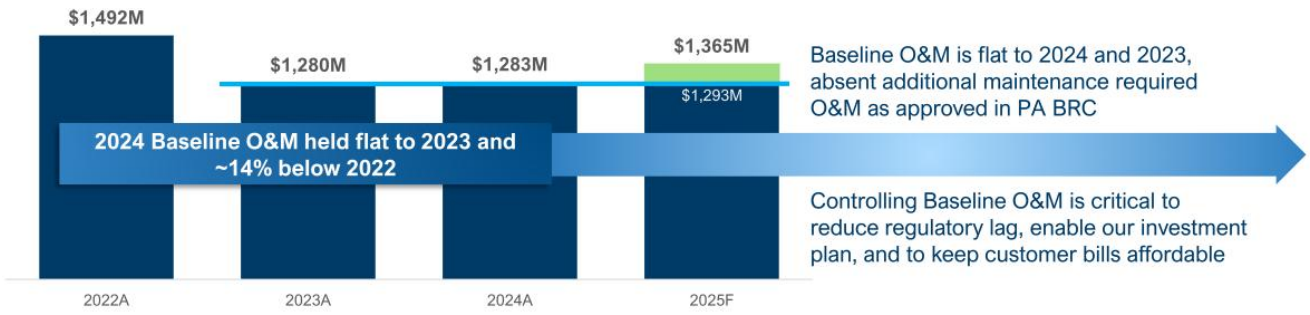

Nearly 100 large load studies in 2024 greater then 500MWs, representing over 70+ GWs
(May represent duplicative large load studies where customers are evaluating multiple sites)

Base load forecast includes load only from Active and Contracted MWs. Contracted represents a contract to construct facilities as outlined in the construction agreement supported by load studies. Pipeline represents large load connections requested with a reasonable assumption of construction, based on certain supporting factors such as, but not limited to load study, control of property, having development plans, and public disclosure of a project.

[1] Represents lowest cost option, which may vary by project and geographic location [2] Estimate, subject to change.

Controlling Baseline O&M(1)

We remain focused on controlling Baseline O&M through continuous improvement and strong financial discipline to build in flexibility

(1) See slide 52 for 2023-2024 GAAP to Non-GAAP Baseline O&M Reconciliation.

Improving Earned ROEs

FE Consolidated ROEs

	2023A	2024A
Equity Layer	52%	53%
YE Rate Base	$26.5B	$25.9B

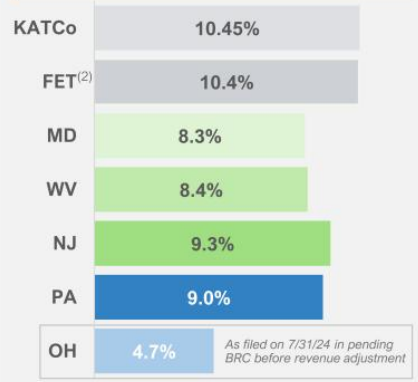

Note: 50.1% FE ownership of FET at 12/31/24 and 80.1% at 12/31/23

Targeting FE Consolidated ROE of 9.5%-10%

- **FE Consolidated ROE represents a weighted average across all businesses and excludes FE/FET HoldCo activity**
- **Improved ROEs in 2024 through new distribution base rates in NJ, WV, and MD; new distribution rates in PA effective 1/1/25**
- **Beginning in 2025, adjustments from reported earnings to a regulatory view are primarily limited to:**
  - **AFUDC Equity:** full equity/AFUDC return on Construction Work in Progress balances
  - **Retirement Benefits:** recovery of retirement benefits as approved in prior rate cases
  - **Other:** items such as non-operating income and interest synchronization

83% **Rate Base with completed base rate cases** since late '23, including FERC Tx formula rates

2024 Earned ROE Details[1]

Segment Legend: Stand-Alone Tx; Integrated; Distribution

[1] See Slides 26-44 for additional details by business unit on year-end Rate Base, Allowed ROEs, and Capital Structure

[2] FET ROE is a weighted average allowed ROE of ATSI, MAIT, and TrAILCo

Expect base rates continue to support fair recovery and return on investments through regular cadence of base rate case filings

Note: ROEs calculated based on year-end Rate Base as noted above. Certain jurisdictions, including Transmission and WV/MD, use a 13-month average rate base for regulatory purposes.

FirstEnergy

2025 Financing Plan

- **No equity issuances** (beyond Employee Benefit programs of up to ~$100M annually)
- **$3.6B of Long-term debt issuances** planned at 5.5% interest rate; Net long-term debt increase of $2B

Distribution Segment

	Issuances	Redemptions	Notes
OE	$300M		New issuance
TE	$100M		New issuance
Sub-Total	**$400M**	-	**$400M net change**

Integrated Segment

	Issuances	Redemptions	Notes
PE	$200M		New issuance
JCP&L	$1,500M	($650M)	4.3% matures 1/15/26
Sub-Total	**$1,700M**	**($650M)**	**$1,050M net change**

Stand-Alone Transmission Segment

	Issuances	Redemptions	Notes
ATSI	$225M		New issuance
TrAIL	$600M	($625M)	3.76% $75M matures 5/30/25 3.85% $550M matures 6/1/25
MAIT	$200M		New issuance
FET	$450M		New issuance
Sub-Total	**$1,475M**	**($625M)**	**$850M net change**

Corp/Other Segment

	Issuances	Redemptions	Notes
FE Corp		($300M)	2.05% matures 3/1/25
Sub-Total	-	**($300M)**	**($300M) net change**

- **Long-term debt financing plan is developed on an issuer-by-issuer basis to meet the following objectives:**
  - Meet maturing long-term debt obligations
  - Finance each company's investment plan
  - Maintain appropriate liquidity
  - Manage regulatory capital structures at/near targets to ensure appropriate regulatory recovery
  - Maintain target credit profiles

2025 Financing Plan supports $5B base investment plan, investment-grade credit metrics, and continued dividend growth

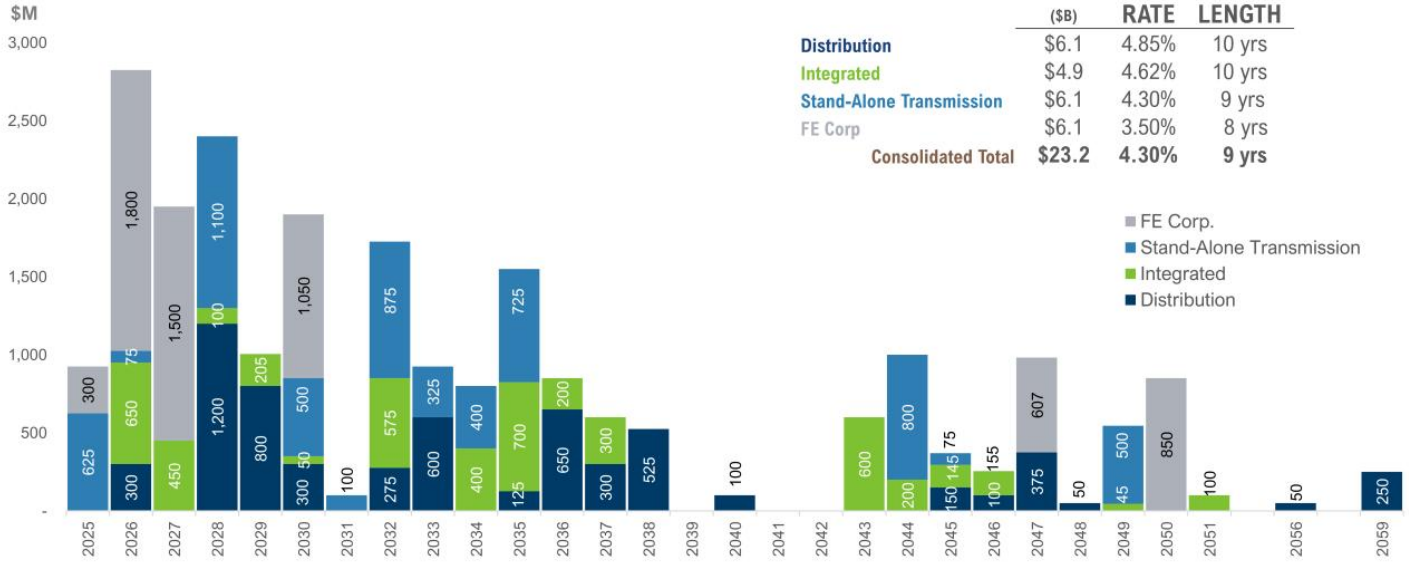

Note:
Stand-Alone Transmission segment debt is shown on a Consolidated basis (includes 100% FET ownership)
Excludes securitization bonds

FirstEnergy

Consolidated Long-Term Debt Maturities

As of December 31, 2024

	VALUE ($B)	AVG RATE	AVG LENGTH
Distribution	$6.1	4.85%	10 yrs
Integrated	$4.9	4.62%	10 yrs
Stand-Alone Transmission	$6.1	4.30%	9 yrs
FE Corp	$6.1	3.50%	8 yrs
Consolidated Total	**$23.2**	**4.30%**	**9 yrs**

Stand-Alone Transmission segment debt is shown on a Consolidated basis (includes 100% FET ownership). Excludes securitization bonds.

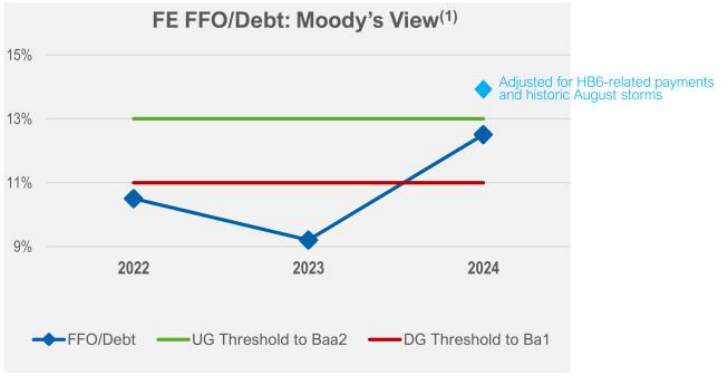

Investment-Grade Credit Profile with Continued Positive Momentum

	Senior Unsecured			Outlook		
	S&P	Moody's	Fitch	S&P	Moody's	Fitch

*Holding company
Ratings are not recommendations to buy, sell, or hold securities. Ratings are subject to change or withdrawal at any time by the credit rating agencies.

S = Stable
P = Positive
N = Negative

FE Corp. and all subs are investment-grade at all three agencies

Committed to balance sheet; achieving and maintaining BBB credit profile

(1) Based on Moody's methodology

FirstEnergy

Pension/OPEB Summary

- **FE is the sponsor of the benefit plans for employees at FE's subsidiaries**
- **FE uses the Mark-to-Market (MTM) method for Pension/OPEB costs**
  - Preferred method of accounting under GAAP; recognizes gains and losses in the year incurred, instead of being amortized over time
  - Each year at year-end, annual MTM adjustments are made to reflect changes in discount rates, actual return on plan assets, and any other differences in actuarial assumptions; these MTM adjustments are excluded from Non-GAAP results
    - In certain instances, other events (e.g., significant plan changes) may result in MTM adjustments to be recognized in an interim period
- **FE follows a total return investment approach while considering liabilities to optimize the long-term return on plan assets for a prudent level of risk**
  - YE24 Target asset allocations: Equities 30%, Fixed Income 29%, Private equity/debt 20%, Real estate 10%, Cash & derivatives 6%, Alternatives 5%
- **Executed pension lift-outs, which reduces total pension liability by ~17%**
  - On December 20, 2023, FE executed a lift-out transaction that transferred ~$720M of plan obligations to insurance providers
  - On January 8, 2025, FE executed a second lift-out transaction that transferred ~$650M of plan obligations to insurance providers
- **In the future, FE will continue to evaluate rate recovery mechanisms in various state jurisdictions and explore potential other lift-outs based on market and other conditions**

Funded Status – Qualified Pension

$B	2023A	2024A
PBO	$8.0	$7.5
Total Assets	$6.9	$6.3
Underfunded Amount	$1.1	$1.2
Funded Status	86%	84%
ROA	10.9%	-0.4%
Discount Rate (PBO)	5.1%	5.7%

Jan '25 lift-out reduced PBO by ~$650M
(2024 Pro-forma: $6.8B)

Current projection assumes required contributions of ~$900M in '27-'29; ~$300M '27, ~$600M '28-'29

Dx Rate Base	$4.4B
Filed ROE	10.8%
Filed Debt / Equity	~45%/55%
Test Year	2024

Key Regulatory Updates

- **ESP:** Withdrawal of ESP V approved 12/18/24
  - Reverted to ESP IV effective 2/1/25
  - Filed ESP VI on 1/31/25; seeking to align the start dates of ESP VI and the BRC to facilitate more efficient reviews and provide additional clarity for customers and the company
- **Base Rate Case:** Filed 5/31/24
  - No procedural schedule
  - In early 2025, expect to file update consistent with ESP VI filing
- **OH Grid Mod II:** Approved 12/18/24
  - Settlement agreement filed 4/12/24; $421M investments over 4 years

Key Formula Investment Programs

- **OH Grid Mod II**
  - 4yr/$421M plan includes 1.4M smart meters
- **OH DCR**
  - Allows for recovery of incremental distribution investments, subject to annual revenue caps
  - Under ESP IV, annual revenue cap of $390M starting 2/1/25

Affordability

Average Customer Bills, as of 1/1/25

Customers' 2023 electricity wallet as a % of total household spend was 1.6% (WV) and 1.3% (MD)

West Virginia Generation (MP)

2024 Coal Generation as a % of Total FirstEnergy:
Rate Base ~5%, Net Income ~5%, Revenues ~10%

WV 2025 Integrated Resource Plan (IRP)

- Expect to file IRP no later than December 2025 to address the obligation to supply our WV generation customers with reliable and cost-effective capacity and energy
- Filing will address a 10-year outlook and will consider:
  - Options around future of Ft. Martin, which has an estimated end of life of 2035
  - Future load forecasts
  - Environmental scenarios such as costs for complying with current regulations
  - Resource adequacy concerns
- WV strongly prefers asset-backed generation from its utilities; state requires approval from WVPSC

REGULATED GENERATION

	PJM Zone	State	Fuel Type	Units	Net Max Cap (MW)	Year Plant Comm	2024 Output M MWH
Bath Co.	Dominion	VA	Hydro	6	487[2]	1985	**1.0**
Ft. Martin[1]	APS	WV	Coal	2	1,098	1967	**3.9**
Harrison[1]	APS	WV	Coal	3	1,984	1972	**10.6**
OVEC	Rest of RTO	Multiple	Coal	Multiple	11[3]	Various	**<0.1**
Solar[4]	APS	WV	Solar	2	24[4]	2024	**<0.1**
Total					3,604		

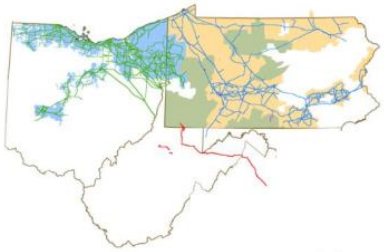

(1) Estimated end of useful life is 2035 for Ft. Martin and 2040 for Harrison
(2) Represents MP's indirect 16.25% interest in Bath County, a pumped-storage hydroelectric station. Bath County is also 23.75% owned by LS Power (non-FE affiliated) and operated by 60% owner Virginia Electric and Power Company (non-FE affiliated).
(3) Represents MP's 0.49% entitlement based on its participation in OVEC
(4) Online output in 2024 includes Ft. Martin and Rivesville. In total, MP & PE plan to develop five solar sites that will total 50 MW.

9.88%[1] - 12.7%
Allowed ROEs

[1] ROE previously 10.38% and is subject to ongoing litigation re: Transmission ROE Incentive (OCC v. ATSI, et al.)

Stand-Alone Transmission Segment Overview

- **Segment currently includes FET and KATCo**
  - **FET, LLC is 50.1% owned by FE** and is the parent of ATSI, TrAILCo, and MAIT
    - ATSI and TrAILCo Ownership: FE 50.1% / Brookfield 49.9%
    - MAIT Ownership: FE 70% / Brookfield 30% (FE continues to own 100% of MAIT Class B shares)
    - With FE's ownership in MAIT through Class B shares, FE owns ~57% of FET Rate Rase
  - **KATCo is 100% owned by FE**
  - **Pursuing joint venture, which is expected to be ~33% owned by FE**
    - Expect that JV will be accounted for as an equity method investment – reflected in "Investments" on FirstEnergy's Balance Sheet and in "Other Income (Expense)" on FirstEnergy's Statements of Income
    - JV will not be included in FE's Investment Plan and Rate Base

Investments Overview

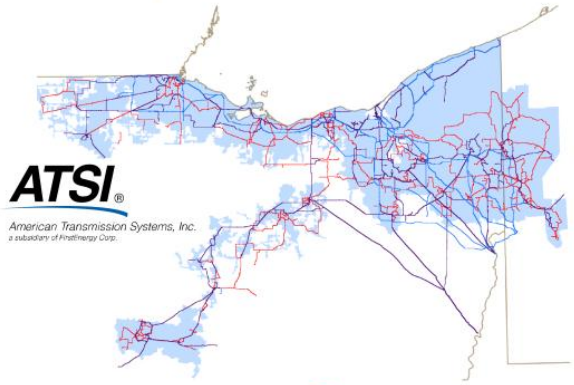

- **Focused on improving grid reliability and resiliency**, which are key to enable greater operational flexibility, increased protection against physical asset risks, and better support for increased renewables and distributed energy resources
- **Enhancing the high-voltage transmission system** to make it more resilient, reduce future maintenance costs and increase flexibility to help grid operators respond more swiftly to variable conditions

Key Updates

- **Pursuing incremental Tx investments** through 2024 PJM Open Window 1 via JV and FE Tx OpCos
  - JV solutions include several new 765-, 500- and 345-kv transmission lines; the most comprehensive of these solutions totals $3.8B in investment (FE portion ~$700M, excluding Brookfield)
  - FE also submitted nearly $1B individual projects to PJM and for needs that are outside of the JV
  - Project approvals expected to be announced in late February 2025
- Data center and AI's share of U.S. electricity consumption expected to triple by 2030
- Load study requests of 500MW+ in FE footprint have increased 5x compared to 2023
  - While we have transmission capacity to support data center investments, we are taking a thoughtful approach to ensure we appropriately manage risks and that existing customers have adequate protections

FY	**$1.20**	**$0.91**	**$0.58**	**($0.32)**	**$2.37**

Per share amounts for the special items, Signal Peak and Net Pension/OPEB credits adjustments above are based on the after-tax effect of each item divided by the number of shares outstanding for the period. The current and deferred income tax effect was calculated by applying the subsidiaries' statutory tax rate to the pre-tax amount if deductible/taxable. The income tax rate ranges from 21% to 29%. Basic EPS from Continuing Operations (GAAP), Operating EPS (Non-GAAP), and Core EPS (Non-GAAP) are based on 576 million shares for the Fourth Quarter of 2024 and 575 million shares for the Full Year 2024.

Net Pension/OPEB credits represents net periodic pension and OPEB benefit costs (GAAP), adjusted to remove the impact of mark-to-market adjustments, which are already accounted for within special items, and portion recovered through formula rates.

Please see slide 54 for more information.

2022 GAAP to Non-GAAP Earnings Reconciliation

(In $M, except per share amounts)	FE Cons
2022 Earnings Attributable to FE Corp. from Continuing Operations (GAAP)	**$406**
2022 Earnings Per Share from Continuing Operations	**$0.71**
Excluding Special Items:	
Debt-related costs	0.25
Exit of generation	0.02
FE Forward cost to achieve	0.03
Investigation and other related costs	0.08
Pension/OPEB mark-to-market and other charges	(0.13)
Regulatory charges	0.21
State tax legislative changes	0.01
Strategic transaction charges	1.23
Total Special Items	**$1.70**
2022 Operating Earnings Per Share – Non-GAAP	**$2.41**
Remove Net Pension/OPEB credits	(0.40)
Remove Signal Peak earnings impact	(0.23)
Sub-Total	**($0.63)**
2022 Core Earnings Per Share – Non-GAAP	**$1.78**

Per share amounts for the special items, Signal Peak and Net Pension/OPEB credits adjustments above are based on the after-tax effect of each item divided by the number of shares outstanding for the period. The current and deferred income tax effect was calculated by applying the subsidiaries' statutory tax rate to the pre-tax amount if deductible/taxable. The income tax rate ranges from 21% to 29%. Basic EPS from Continuing Operations (GAAP), Operating EPS (Non-GAAP), and Core EPS (Non-GAAP) are based on 571 million shares for the Full Year 2022.

Net Pension/OPEB credits represents net periodic pension and OPEB benefit costs (GAAP), adjusted to remove the impact of mark-to-market adjustments, which are already accounted for within special items, and portion recovered through formula rates.

Please see slide 54 for more information.

FirstEnergy

2022-2024 Special Item Descriptions

- **ARO regulatory change:** Primarily related to increases in asset retirement obligations, primarily associated with the planned transfer of the McElroy's Run coal ash disposal site to a third party and an estimate for new remediation obligations for various legacy coal combustion residual sites triggered by a new EPA regulation.
- **Debt-related costs:** Primarily reflects costs associated with the redemption and early retirement of debt.
- **Enhanced employee retirement and other related costs:** Primarily reflects transition and benefit costs associated with the Company's voluntary retirement program and involuntary separations.
- **Exit of generation:** Primarily reflects charges or credits resulting from the exit of competitive operations.
- **FE Forward cost to achieve:** Primarily reflects the impairment charge related to exiting the Akron general office, the termination charges associated with exiting certain sporting sponsorship agreements and certain advisory and other costs incurred to transform the Company for the future.
- **Investigation and other related costs:** Primarily reflects litigation settlements and reserves, including those related to the SEC and OOCIC/OHAG investigations, and other legal and advisory expenses related to the government investigations, net of the received derivative settlement insurance proceeds.
- **Pension/OPEB mark-to-market and other charges:** Reflects the change in fair value of plan assets and net actuarial gains and losses associated with the Company's pension and other post-employment benefit plans and other settlement charges.
- **Regulatory charges:** Primarily reflects the impact of regulatory agreements, proceedings, audits, concessions or orders requiring certain commitments, refunds, and/or disallowing the recoverability of costs, net of related credits.
- **State tax legislative changes:** Primarily reflects charges resulting from state tax legislative changes.
- **Strategic transaction charges:** Primarily reflects the net tax charges and related updates associated with the FET interest sales, consolidation of the Pennsylvania Companies, charges associated with FirstEnergy's actions to exit its ownership in Signal Peak, and other charges related to the exit of a legacy purchase power contract.

Note: Special items represent charges incurred or benefits realized that management believes are not indicative of, or may obscure trends useful in evaluating, the Company's ongoing core activities and results of operations or otherwise warrant separate classification. Special items are not necessarily non-recurring.

2023-2024 GAAP to Non-GAAP Baseline O&M Reconciliations

(In $M)	FirstEnergy Consolidated 2023	2024
Other Operating Expenses (GAAP) [1]	**$3,594**	**$4,159**
Excluding Special Items (pre-tax):		
ARO Regulatory Change	-	($200)
Enhanced Employee Retirement and Other Related Costs	($77)	($8)
Investigation and Other Related Costs	($77)	($64)
FE Forward Cost-to-Achieve [2]	($58)	($76)
Regulatory Charges	($22)	($85)
Exit of Generation	($13)	-
Total Special Items [3]	**($247)**	**($433)**
PJM Pass-Through Transmission Costs [4]	**($1,068)**	**($1,265)**
Rider/Program Recoverable [5]	**($991)**	**($1,174)**
Other	**($8)**	**($4)**
Baseline O&M (non-GAAP)	**$1,280**	**$1,283**

[1] As reported in the Consolidated Statement of Income
[2] 2024 amount primarily due to $62M impairment charge related to the Akron general office in 3Q24
[3] Refer to slides 48-49 for more information on special items
[4] Primarily represents PJM Network Transmission Expense and ancillary charges such as Transmission Enhancement
[5] Primarily represents the rider/program recoverable and deferred O&M within the Distribution, Integrated, and Stand-Alone Transmission segments

Forward-Looking Statements

This FactBook includes forward-looking statements based on information currently available to management. Such statements are subject to certain risks and uncertainties and readers are cautioned not to place undue reliance on these forward-looking statements. These statements include declarations regarding management's intents, beliefs and current expectations. These statements typically contain, but are not limited to, the terms "anticipate," "potential," "expect," "forecast," "target," "will," "intend," "believe," "project," "estimate," "plan" and similar words. Forward-looking statements involve estimates, assumptions, known and unknown risks, uncertainties and other factors that may cause actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements, which may include the following: the potential liabilities, increased costs and unanticipated developments resulting from government investigations and agreements, including those associated with compliance with or failure to comply with the Deferred Prosecution Agreement entered into July 21, 2021 and settlements with the U.S. Attorney's Office for the Southern District of Ohio and the Securities and Exchange Commission ("SEC"); the risks and uncertainties associated with government investigations and audits regarding Ohio House Bill 6, as passed by Ohio's 133rd General Assembly ("HB 6") and related matters, including potential adverse impacts on federal or state regulatory matters, including, but not limited to, matters relating to rates; the risks and uncertainties associated with litigation, arbitration, mediation and similar proceedings, particularly regarding HB 6 related matters; changes in national and regional economic conditions, including recession, volatile interest rates, inflationary pressure, supply chain disruptions, higher fuel costs, and workforce impacts, affecting us and/or our customers and those vendors with which we do business; variations in weather, such as mild seasonal weather variations and severe weather conditions (including events caused, or exacerbated, by climate change, such as wildfires, hurricanes, flooding, droughts, high wind events and extreme heat events) and other natural disasters, which may result in increased storm restoration expenses and negatively affect future operating results; the potential liabilities and increased costs arising from regulatory actions or outcomes in response to severe weather conditions and other natural disasters; legislative and regulatory developments, and executive orders, including, but not limited to, matters related to rates, energy regulatory policies, compliance and enforcement activity, cyber security, climate change. and diversity, equity and inclusion; the risks associated with physical attacks, such as acts of war, terrorism, sabotage or other acts of violence, and cyber-attacks and other disruptions to our, or our vendors', information technology system, which may compromise our operations, and data security breaches of sensitive data, intellectual property and proprietary or personally identifiable information; the ability to meet our goals relating to climate-related and environmental, social and governance matters, opportunities improvements, and efficiencies, including our greenhouse gas ("GHG") reduction goals; the ability to accomplish or realize anticipated benefits through establishing a culture of continuous improvement and our other strategic and financial goals, including, but not limited to, executing Energize365, our transmission and distribution investment plan, executing on our rate filing strategy, controlling costs, improving credit metrics, maintaining investment grade ratings, strengthening our balance sheet and growing earnings; changing market conditions affecting the measurement of certain liabilities and the value of assets held in our pension trusts may negatively impact our forecasted growth rate, results of operations and may also cause us to make contributions to our pension sooner or in amounts that are larger than currently anticipated; mitigating exposure for remedial activities associated with retired and formerly owned electric generation assets, including those sites impacted by the legacy coal combustion residual rules that were finalized during 2024; changes to environmental laws and regulations, including, but not limited to, rules finalized by the Environmental Protection Agency and the SEC, including those currently stayed, related to climate change; and potential changes to such laws and regulations as a result of the new U.S. presidential administration; changes in customers' demand for power, including, but not limited to, economic conditions, the impact of climate change, emerging technology, particularly with respect to electrification and new data centers, energy storage and distributed sources of generation; the ability to access the public securities and other capital and credit markets in accordance with our financial plans, the cost of such capital and overall condition of the capital and credit markets affecting us, including the increasing number of financial institutions evaluating the impact of climate change on their investment decisions, and the loss of our status as a well-known seasoned issuer; future actions taken by credit rating agencies that could negatively affect either our access to or terms of financing or our financial condition and liquidity; changes in assumptions regarding factors such as economic conditions within our territories, the reliability of our transmission and distribution system, generation resource planning, or the availability of capital or other resources supporting identified transmission and distribution investment opportunities; the potential of non-compliance with debt covenants in our credit facilities; the ability to comply with applicable reliability standards and energy efficiency and peak demand reduction mandates; human capital management challenges, including among other things, attracting and retaining appropriately trained and qualified employees and labor disruptions by our unionized workforce; changes to significant accounting policies; any changes in tax laws or regulations, including, but not limited to, the Inflation Reduction Act of 2022, or adverse tax audit results or rulings and potential changes to such laws and regulations as a result of the new U.S. presidential administration; and the risks and other factors discussed from time to time in our SEC filings. Dividends declared from time to time on our common stock during any period may in the aggregate vary from prior periods due to circumstances considered by the FE Board at the time of the actual declarations. A security rating is not a recommendation to buy or hold securities and is subject to revision or withdrawal at any time by the assigning rating agency. Each rating should be evaluated independently of any other rating. These forward-looking statements are also qualified by, and should be read together with, the risk factors included in FirstEnergy Corp.'s Form 10-K, Form 10-Q and in FirstEnergy's other filings with the SEC. The foregoing review of factors also should not be construed as exhaustive. New factors emerge from time to time, and it is not possible for management to predict all such factors, nor assess the impact of any such factor on FirstEnergy Corp.'s business or the extent to which any factor, or combination of factors, may cause results to differ materially from those contained in any forward-looking statements. FirstEnergy Corp. expressly disclaims any obligation to update or revise, except as required by law, any forward-looking statements contained herein or in the information incorporated by reference as a result of new information, future events or otherwise.

Non-GAAP Financial Matters

This presentation contains references to certain financial measures including Baseline O&M, Core earnings per share ("Core EPS") and Operating earnings per share ("Operating EPS"), as "non-GAAP financial measures," which are not calculated in accordance with U.S. Generally Accepted Accounting Principles ("GAAP") and exclude the impact of "special items," from earnings attributable to FirstEnergy Corp. from continuing operations for Operating EPS. Core EPS further excludes from Operating EPS the earnings contribution of Signal Peak and net periodic pension and other post-employment benefits ("OPEB") credits, other than the mark-to-market adjustment and other related charges, which are already excluded as special items. Core EPS and Operating EPS also exclude the impact of Discontinued Operations.

Management uses these non-GAAP financial measures to evaluate the company's and its segments' performance and manage its operations and references these non-GAAP financial measures in its decision-making, using them to facilitate historical and ongoing performance comparisons. Management believes that the non-GAAP financial measures of Core EPS and Operating EPS, including by segment, provide consistent and comparable measures of performance of its businesses on an ongoing basis. Management also believes that such measures are useful to shareholders and other interested parties to understand performance trends and evaluate the company against its peer group by presenting period-over-period operating results, excluding the impacts described above, that may not be consistent or comparable across periods or across the company's peer group. These non-GAAP financial measures are intended to complement, and are not considered as alternatives to, the most directly comparable GAAP financial measures, which for Operating EPS and Core EPS is EPS attributable to FirstEnergy Corp. from Continuing Operations (GAAP), as reconciled. Also, such non-GAAP financial measures may not be comparable to similarly titled measures used by other entities.

Special items represent charges incurred or benefits realized that management believes are not indicative of, or may obscure trends useful in evaluating the company's ongoing core activities and results of operations or otherwise warrant separate classification. Operating EPS and Core EPS are calculated based on the weighted average number of common shares outstanding in the respective period.

A reconciliation of forward-looking non-GAAP measures, including 2025 Core EPS and Core EPS compound annual growth rate projections, to the most directly comparable GAAP measures is not provided because comparable GAAP measures are not available without unreasonable efforts due to the inherent difficulty in forecasting and quantifying measures that would be necessary for such reconciliation. Specifically, management cannot, without unreasonable effort, predict the impact of these special items in the context of Core EPS guidance, or Core EPS growth rate projections forecasts because these items, which could be significant, are difficult to predict and may be highly variable. In addition, the Company believes such a reconciliation would imply a degree of precision and certainty that could be confusing to investors. These special items are uncertain, depend on various factors and may have a material impact on our future GAAP results.
