## **1. BASIS OF PRESENTATION**

Mettler-Toledo International Inc. (Mettler-Toledo or the Company) is a leading global supplier of precision instruments and services. The Company manufactures weighing instruments for use in laboratory, industrial, packaging, logistics and food retailing applications. The Company also manufactures several related analytical instruments and provides automated chemistry solutions used in drug and chemical compound discovery and development. In addition, the Company manufactures metal detection and other end-of-line inspection systems used in production and packaging and provides solutions for use in certain process analytics applications. The Company's primary manufacturing facilities are located in China, Germany, Mexico, Switzerland, the United Kingdom and the United States. The Company's principal executive offices are located in Columbus, Ohio and Greifensee, Switzerland.

The accompanying interim consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) and include all entities in which the Company has control, which are its wholly-owned subsidiaries. The interim consolidated financial statements have been prepared without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. GAAP have been condensed or omitted pursuant to such rules and regulations. The interim consolidated financial statements should be read in conjunction with the consolidated financial statements and the notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2025.

The accompanying interim consolidated financial statements reflect all adjustments which, in the opinion of management, are necessary for a fair statement of the results of the interim periods presented. Operating results for the three and six months ended June 30, 2026 are not necessarily indicative of the results to be expected for the full year ending December 31, 2026. As further described in Note 14, the Company's operating results for the three and six months ended June 30, 2026 include a one-time benefit of \$52.4 million from U.S. government International Emergency Economic Powers Act ("IEEPA") tariff refunds that reduced cost of sales, offset in part by tariff-related customer refunds of \$27.8 million that reduced net sales.

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, as well as disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting periods. These financial statements were prepared using information reasonably available as of June 30, 2026 and through the date of this report. Actual results may differ from those estimates due to uncertainty around ongoing developments related to global trade/tariffs, and the conflicts in Ukraine, Iran, and the Middle East, as well as other factors.

All intercompany transactions and balances have been eliminated.

## **2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

### *Trade Accounts Receivable*

Trade accounts receivable are recorded at the invoiced amount and do not bear interest. The allowance for expected credit losses represents the Company's best estimate based on historical information, current information, and reasonable and supportable forecasts of future events and circumstances.

### *Inventories*

Inventories are valued at the lower of cost or net realizable value. Cost, which includes direct materials, labor and overhead, is generally determined using the first in, first out (FIFO) method. The estimated net realizable value is based on assumptions for future demand and related pricing. Adjustments to the cost basis of the Company's inventory are made for excess and obsolete items based on usage, orders and technological obsolescence. If actual market conditions are less favorable than those projected by management, reductions in the value of inventory may be required in the future.

Inventories consisted of the following:

|                         | June 30, 2026     | December 31, 2025 |
|-------------------------|-------------------|-------------------|
| Raw materials and parts | \$ 181,705        | \$ 171,600        |
| Work-in-progress        | 88,784            | 77,146            |
| Finished goods          | 141,074           | 138,482           |
|                         | <u>\$ 411,563</u> | <u>\$ 387,228</u> |

### *Goodwill and Other Intangible Assets*

Goodwill, representing the excess of purchase price over the net asset value of companies acquired, and indefinite-lived intangible assets are not amortized, but are reviewed for impairment annually in the fourth quarter, or more frequently if events or changes in circumstances indicate that an asset might be impaired. The annual evaluation for goodwill and indefinite-lived intangible assets are generally based on an assessment of qualitative factors to determine whether it is more likely than not that the fair values of the assets are less than their carrying amounts.

Other intangible assets include indefinite-lived assets and assets subject to amortization. Where applicable, amortization is charged on a straight-line basis over the expected period to be benefited. The straight-line method of amortization reflects an appropriate allocation of the cost of the intangible assets to earnings in proportion to the amount of economic benefits obtained by the Company in each reporting period. The Company assesses the initial acquisition of intangible assets in accordance with the provisions of ASC 805 "Business Combinations" and the continued accounting for previously recognized intangible assets and goodwill in accordance with the provisions of ASC 350 "Intangibles - Goodwill and Other" and ASC 360 "Property, Plant and Equipment."

Other intangible assets consisted of the following:

**METTLER-TOLEDO INTERNATIONAL INC.**  
**NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)**  
(In thousands, except share data, unless otherwise stated)

The Company recognized amortization expense associated with the above intangible assets of \$7.2 million and \$6.6 million for the three months ended June 30, 2026 and 2025, respectively, and \$14.5 million and \$13.2 million for the six months ended June 30, 2026 and 2025, respectively. The annual aggregate amortization expense based on the current balance of other intangible assets is estimated to be \$28.9 million for 2026, \$27.9 million for 2027, \$25.4 million for 2028, \$23.5 million for 2029, \$22.2 million for 2030, and \$19.8 million for 2031. Purchased intangible amortization was \$6.9 million, \$5.3 million after tax, and \$6.5 million, \$5.0 million after tax, for the three months ended June 30, 2026 and 2025, respectively, and \$14.0 million, \$10.7 million after tax, and \$12.8 million, \$9.9 million after tax, for the six months ended June 30, 2026 and 2025, respectively.

In addition to the above amortization, the Company recorded amortization expense associated with capitalized software of \$12.2 million and \$10.9 million for the three months ended June 30, 2026 and 2025, respectively, and \$24.4 million and \$21.4 million for the six months ended June 30, 2026 and 2025, respectively.

### *Revenue Recognition*

Product revenue is recognized from contracts with customers when a customer has obtained control of a product. The Company considers control to have transferred based upon shipping terms. To the extent the Company's arrangements have a separate performance obligation, revenue related to any post-shipment performance obligation is deferred until completed. Shipping and handling costs charged to customers are included in total net sales and the associated expense is a component of cost of sales. Certain products are also sold through indirect distribution channels whereby the distributor assumes any further obligations to the end customer. Revenue is recognized on these distributor arrangements upon transfer of control to the distributor. Contracts do not contain variable pricing arrangements that are retrospective, except for rebate programs. Rebates are estimated based on expected sales volumes and offset against revenue at the time such revenue is recognized. The Company generally maintains the right to accept or reject a product return in its terms and conditions and also maintains appropriate accruals for outstanding credits. The related provisions for estimated returns and rebates are immaterial to the interim consolidated financial statements.

Certain of the Company's product arrangements include separate performance obligations, primarily related to installation. Such performance obligations are accounted for separately when the deliverables have stand-alone value and the satisfaction of the undelivered performance obligations is probable and within the Company's control. The allocation of revenue between the performance obligations is based on the observable stand-alone selling prices at the time of the sale in accordance with a number of factors including service technician billing rates, time to install, and geographic location.

Software is generally not considered a distinct performance obligation with the exception of a limited number of software applications. The Company primarily sells software products with the related hardware instrument as the software is embedded in the product. The Company's products typically require no significant production, modification, or customization of the hardware or software that is essential to the functionality of the products.

Service revenue not under contract is recognized upon the completion of the service performed. Revenue from spare parts sold on a stand-alone basis is recognized when control is transferred to the customer, which is generally at the time of shipment or delivery. Revenue from service contracts is recognized ratably over the contract period using a time-based method. These contracts represent an obligation to perform repair and other services including regulatory compliance qualification, calibration, certification, and preventative maintenance on a customer's pre-defined equipment over the contract period.

### *Share-Based Compensation*

The Company recognizes share-based compensation expense within selling, general, and administrative in the consolidated statements of operations and other comprehensive income with a corresponding offset to additional paid-in capital in the consolidated balance sheet. The Company recognized \$5.4 million and \$10.8 million of share-based compensation expense for the three and six months ended June 30, 2026, respectively, compared to \$5.4 million and \$10.5 million for the corresponding periods in 2025.

### *Research and Development*

Research and development costs primarily consist of salaries, consulting and other costs. The Company expenses these costs as incurred.

### *Business Combinations and Asset Acquisitions*

The Company accounts for business acquisitions under the accounting standards for business combinations using the acquisition method of accounting. The results of each acquisition are included in the Company's consolidated results as of the acquisition date. The purchase price of an acquisition is generally allocated to tangible and intangible assets and assumed liabilities based on their estimated fair values and any consideration in excess of the net assets acquired is recognized as goodwill. The determination of the fair values of the acquired assets and assumed liabilities, including goodwill and intangible assets, requires significant judgment. Acquisition transaction costs are expensed when incurred.

In circumstances where an acquisition involves a contingent consideration arrangement, the Company recognizes a liability equal to the fair value of the expected contingent payments as of the acquisition date. Subsequent changes in the fair value of the contingent consideration are recorded to other charges (income), net.

### *Recent Accounting Pronouncements*

In November 2024, the FASB issued ASU 2024-03: Disaggregation of Income Statement Expenses, which requires disclosures about the nature of expenses presented on the face of the income statement. The Company will adopt the annual disclosure requirements prospectively in 2027 and is currently evaluating the impact of this guidance on the consolidated financial statements.

In September 2025, the FASB issued ASU 2025-06: Targeted Improvements to the Accounting for Internal-Use Software, which modernizes the accounting for internal-use software costs. The guidance is effective for fiscal years beginning after December 15, 2027, with early adoption permitted. The Company plans to adopt prospectively and is currently evaluating the potential impact, if any, on the consolidated financial statements.

In December 2025, the FASB issued ASU 2025-12: Codification Improvements, which updates U.S. GAAP for a broad range of topics arising from technical corrections, unintended application of the codification, clarifications, and other minor improvements. The guidance is effective for fiscal years beginning after December 15, 2026, with early adoption permitted. The Company plans to adopt prospectively and is currently evaluating the potential impact, if any, on the consolidated financial statements.

### 3. REVENUE

The Company disaggregates revenue from contracts with customers by product, service, timing of revenue recognition and geography. As further described in Note 14, revenue for the three and six months ended June 30, 2026 includes a one-time reduction of net sales of \$27.8 million for tariff-related customer refunds, which is included in the U.S. Operations segment. A summary of revenue by the Company's reportable segments for the three and six months ended June 30, 2026 and 2025 follows:

The Company's global revenue mix by product category is laboratory (55% of sales), industrial (40% of sales) and retail (5% of sales). The Company's product revenue by reportable segment is proportionately similar to the Company's global revenue mix, except the Company's Swiss Operations is largely comprised of laboratory products while the Company's Chinese Operations has a slightly higher percentage of industrial products. A breakdown of the Company's sales by product category for the three and six months ended June 30 is as follows:

|            | Three Months Ended<br>June 30, |                   | Six Months Ended<br>June 30, |                     |

The payment terms in the Company's contracts with customers do not exceed one year and therefore contracts do not contain a significant financing component. In most cases, after appropriate credit evaluations, payments are due in arrears and are recognized as receivables. Unbilled revenue is recorded when performance obligations have been satisfied, but not yet billed to the customer. Unbilled revenue as of June 30, 2026 and December 31, 2025 was \$49.0 million and \$32.3 million, respectively, and is included within accounts receivable. Deferred revenue and customer prepayments are recorded when cash payments are received or due in advance of the performance obligation being satisfied. Deferred revenue primarily includes prepaid service contracts, as well as deferred installation.

Changes in the components of deferred revenue and customer prepayments during the six month periods ended June 30, 2026 and 2025 are as follows:

|                                        | 2026              | 2025              |
|----------------------------------------|-------------------|-------------------|
| Beginning balances as of January 1     | \$ 229,378        | \$ 204,166        |
| Customer pre-payments/deferred revenue | 444,056           | 363,588           |
| Revenue recognized                     | (413,322)         | (335,082)         |
| Foreign currency translation           | (2,630)           | 11,154            |
| Ending balance as of June 30           | <u>\$ 257,482</u> | <u>\$ 243,826</u> |

The Company generally expenses sales commissions when incurred because the contract period is one year or less. These costs are recorded within selling, general, and administrative expenses. The value of unsatisfied performance obligations other than customer prepayments and deferred revenue associated with contracts greater than one year is immaterial.

#### 4. FINANCIAL INSTRUMENTS

The Company has limited involvement with derivative financial instruments and does not use them for trading purposes. The Company enters into certain interest rate swap agreements in order to manage its exposure to changes in interest rates. The amount of the Company's fixed obligation interest payments may change based upon the expiration dates of its interest rate swap agreements and the level and composition of its debt. The Company also enters into certain foreign currency forward contracts to limit the Company's exposure to currency fluctuations on the respective hedged items. For additional disclosures on derivative instruments regarding balance sheet location, fair value, and the amounts reclassified into other comprehensive income and the effective portion of the cash flow hedges, also see Note 5 and Note 9 to the interim consolidated financial statements. As also described in Note 7, the Company has designated its euro-denominated debt as a hedge of a portion of its net investment in euro-denominated foreign subsidiaries.

##### *Cash Flow Hedges*

The Company has entered into a number of cross currency swaps designated as cash flow hedges. The agreements convert borrowings under the Company's credit facility into synthetic Swiss franc debt, which allows the Company to effectively change the floating rate SOFR-based interest payments, excluding the credit spread, to a fixed Swiss franc income or expense as follows:

| <b>Agreement Date</b> | <b>Amount<br/>Converted</b> | <b>Effective Swiss Franc<br/>Interest Rate</b> | <b>Maturity Date</b> |
|-----------------------|-----------------------------|------------------------------------------------|----------------------|
| June 2021             | \$50 million                | (0.59)%                                        | June 2025            |
| December 2023         | \$50 million                | 1.04%                                          | November 2026        |
| November 2023         | \$50 million                | 1.16%                                          | November 2026        |
| June 2023             | \$50 million                | 1.55%                                          | June 2027            |
| June 2024             | \$50 million                | 1.15%                                          | June 2027            |
| June 2025             | \$50 million                | (0.21)%                                        | June 2028            |

The Company's cash flow hedges are recorded gross at fair value in the consolidated balance sheet at June 30, 2026 and December 31, 2025, respectively. A derivative gain of \$4.3 million based upon interest rates at June 30, 2026, is expected to be reclassified from other comprehensive income (loss) to earnings in the next twelve months. The cash flow hedges remain effective as of June 30, 2026.

##### *Other Derivatives*

The Company enters into foreign currency forward contracts in order to economically hedge short-term trade and non-trade intercompany balances largely denominated in Swiss franc, other major European currencies, and the Chinese renminbi with its foreign businesses. In accordance with U.S. GAAP, these contracts are considered "derivatives not designated as hedging instruments." Gains or losses on these instruments are reported in current earnings. The foreign currency forward contracts are recorded at fair value in the consolidated balance sheet at June 30, 2026 and December 31, 2025, as disclosed in Note 5. The Company recognized in other charges (income) a net gain of \$11.4 million and a net loss of \$12.6 million during the three months ended June 30, 2026 and 2025, respectively, and a net gain of \$18.6 million and a net loss of \$11.3 million during the six months ended June 30, 2026 and 2025, respectively, which offset the related transaction gains (losses) associated with these contracts. At June 30, 2026 and December 31, 2025, these contracts had a notional value of \$1.1 billion and \$1.2 billion, respectively.

## 5. FAIR VALUE MEASUREMENTS

At June 30, 2026 and December 31, 2025, the Company had derivative assets totaling \$4.9 million and \$3.2 million respectively, and derivative liabilities totaling \$28.3 million and \$37.4 million, respectively. The Company has limited involvement with derivative financial instruments and therefore does not present all the required disclosures in tabular format. The fair values of the cross-currency swap agreements and foreign currency forward contracts that economically hedge short-term intercompany balances are estimated based upon inputs from current valuation information obtained from dealer quotes and priced with observable market assumptions and appropriate valuation adjustments for credit risk. The Company has evaluated the valuation methodologies used to develop the fair values by dealers in order to determine whether such valuations are representative of an exit price in the Company's principal market. In addition, the Company uses an internally developed model to perform testing on the valuations received from brokers. The Company has also considered both its own credit risk and counterparty credit risk in determining fair value and determined these adjustments were insignificant at June 30, 2026 and December 31, 2025.

Under U.S. GAAP, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement consists of observable and unobservable inputs that reflect the assumptions that a market participant would use in pricing an asset or liability.

A fair value hierarchy has been established that categorizes these inputs into three levels:

Level 1: Quoted prices in active markets for identical assets and liabilities

Level 2: Observable inputs other than quoted prices in active markets for identical assets and liabilities

Level 3: Unobservable inputs

The following table presents the Company's assets and liabilities, which are all categorized as Level 2, that are measured at fair value on a recurring basis. The Company does not have any assets or liabilities which are categorized as Level 1:

|                                                                          | June 30, 2026    | December 31,<br>2025 | Balance Sheet Classification              |

The Company had \$1.4 million and \$5.1 million of cash equivalents at June 30, 2026 and December 31, 2025, respectively, the fair value of which is determined using Level 2 inputs, through quoted and corroborated prices in active markets. The fair value of cash equivalents approximates cost.

The fair value of the Company's debt is less than the carrying value by approximately \$187.0 million as of June 30, 2026. The fair value of the Company's fixed interest rate debt was estimated using Level 2 inputs, primarily utilizing discounted cash flow models based on estimated current rates offered for similar debt under current market conditions for the Company.

## 6. INCOME TAXES

The Company's reported tax rate was 19.5% and 18.6% during the three months ended June 30, 2026 and 2025, respectively and 19.4% and 18.8% during the six months ended June 30, 2026 and 2025, respectively. The provision for taxes is based upon using the Company's projected annual effective tax rate of 19.0% before non-recurring discrete tax items during 2026 and 2025. The difference between the Company's projected annual effective tax rate and the reported tax rate is primarily related to the timing of excess tax benefits associated with stock option exercises, as well as the one-time tariff-related government and customer refunds.

<sup>(a)</sup> The benchmark interest rate is determined by the borrowing currency. The benchmark rates by borrowing currency are as follows: SOFR for U.S. dollars (plus a 10 basis points spread adjustment), SARON for Swiss franc, EURIBOR for Euro and SONIA for Great British pounds.

On May 30, 2024, the Company entered into a \$1.35 billion Credit Agreement (the Credit Agreement), which amended its \$1.25 billion Amended and Restated Credit Agreement (the Prior Credit Agreement). As of June 30, 2026, the Company had \$562.7 million of additional borrowings available under its Credit Agreement, and the Company maintained \$51.4 million of cash and cash equivalents.

The Credit Agreement is provided by a group of financial institutions (similar to the Company's Prior Credit Agreement) and has a maturity date of May 30, 2029. It is a revolving credit facility and is not subject to any scheduled principal payments prior to maturity. The obligations under the Credit Agreement are unsecured.

**NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)**  
(In thousands, except share data, unless otherwise stated)

Borrowings under the Credit Agreement bear interest at current market rates plus a margin based on the Company's consolidated leverage ratio. The Company must also pay facility fees that are tied to its leverage ratio. The Credit Agreement contains covenants that are similar to those contained in the Prior Credit Agreement, with which the Company was in compliance as of June 30, 2026. The Company is required to maintain (i) a ratio of net funded indebtedness to EBITDA of 3.5 to 1.0 or less, except in certain circumstances and (ii) an interest coverage ratio of 3.0 to 1.0 or greater. The Credit Agreement also places certain limitations on the Company, including limiting the ability to incur liens or indebtedness at a subsidiary level. In addition, the Credit Agreement has several events of default, with customary grace periods applicable.

In January 2025, the Company entered into an agreement to issue and sell EUR 100 million 10 1/2-year Senior Notes with a fixed interest rate of 3.8% (3.8% Euro Senior Notes) in a private placement, which will mature in July 2035. The 3.8% Euro Senior Notes are unsecured obligations of the Company, and the terms are consistent with the previous Notes as disclosed in Note 10 to the Company's consolidated financial statements for the year ended December 31, 2025. The Company used the proceeds from the sale of the notes to refinance existing indebtedness and for other general corporate purposes.

The Company has designated the EUR 125 million 1.47% Euro Senior Notes, the EUR 135 million 1.30% Euro Senior Notes, the EUR 125 million 1.06% Euro Senior Notes, and the EUR 100 million 3.80% Euro Senior Notes as a hedge of a portion of its net investment in euro-denominated foreign subsidiaries to reduce foreign currency risk associated with the net investment. Changes in the carrying value of this debt resulting from fluctuations in the euro to U.S. dollar exchange rate are recorded as foreign currency translation adjustments within other comprehensive income (loss). The Company recorded in other comprehensive income (loss) related to this net investment hedge an unrealized gain of \$6.0 million and unrealized loss of \$44.6 million for the three months ended June 30, 2026 and 2025, respectively, and an unrealized gain of \$17.2 million and unrealized loss of \$63.8 million for the six month periods ended June 30, 2026 and 2025, respectively. The Company has an unrealized loss of \$6.1 million recorded in accumulated other comprehensive income (loss) as of June 30, 2026.

#### *Other Local Arrangements*

In April 2018, two of the Company's non-U.S. pension plans issued loans totaling \$39.6 million (Swiss franc 38 million) to a wholly owned subsidiary of the Company. The loans have the same terms and conditions, which include an interest rate of SARON plus 87.5 basis points. The loans were renewed for one year in April 2026.

## **8. SHARE REPURCHASE PROGRAM AND TREASURY STOCK**

The Company has \$3.2 billion of remaining availability for its share repurchase program as of June 30, 2026. The share repurchases are expected to be funded from cash generated from operating activities, borrowings, and cash balances. Repurchases will be made through open market transactions, and the amount and timing of purchases will depend on business and market conditions, the stock price, trading restrictions, the level of acquisition activity, and other factors.

The Company has purchased 33.3 million shares at an average price per share of \$330.16 since the inception of the program in 2004 through June 30, 2026. During the six months ended June 30, 2026 and 2025, the Company spent \$412.5 million and \$437.5 million on the repurchase of 325,348 shares and 368,010 shares at an average price per share of \$1,267.85 and \$1,188.80, respectively. The Company also reissued 2,554 shares and 17,589 shares held in treasury upon the exercise of stock options and vesting of restricted stock units during the six months ended June 30, 2026 and 2025, respectively. In addition, the Company incurred \$2.0 million and \$2.1 million of excise tax during the three months ended June 30, 2026 and 2025, respectively, and \$4.1 million of excise tax during both the six months ended June 30,

## 10. EARNINGS PER COMMON SHARE

In accordance with the treasury stock method, the Company has included the following common equivalent shares in the calculation of diluted weighted average number of common shares outstanding for the three and six months ended June 30, relating to outstanding stock options and restricted stock units:

|                    | 2026   | 2025   |
|--------------------|--------|--------|
| Three months ended | 44,734 | 51,387 |
| Six months ended   | 48,193 | 59,177 |

Outstanding options and restricted stock units to purchase or receive 83,831 and 100,446 shares of common stock for the three month period ended June 30, 2026 and 2025, respectively, have been excluded from the calculation of diluted weighted average number of common and common equivalent shares as such options and restricted stock units would be anti-dilutive. Options and restricted stock units to purchase or receive 59,718 and 92,116 shares for the six month period ended June 30, 2026 and 2025, respectively, have been excluded from the calculation of diluted weighted average of common and common equivalent shares as such options and restricted stock units would be anti-dilutive.

upon several factors, including fluctuations in currency exchange rates, actual returns on plan assets and changes in legal requirements.

## 12. OTHER CHARGES (INCOME), NET

Other charges (income), net includes non-service pension costs (benefits), (gains) losses from foreign currency transactions and related hedging activities, interest income and other items. Non-service pension benefits were \$6.0 million and \$3.4 million for the three month periods ended June 30, 2026 and 2025, respectively, and \$12.0 million and \$6.5 million for the six month periods ended June 30, 2026 and 2025, respectively. Other charges for the three and six month periods ended June 30, 2026 also includes a net expense of \$8.4 million related to additional contingent consideration associated with previous acquisitions.

## 13. SEGMENT REPORTING

As disclosed in Note 18 to the Company's consolidated financial statements for the year ended December 31, 2025, the Company has determined there are five reportable segments: U.S. Operations, Swiss Operations, Western European Operations, Chinese Operations and Other.

Our reportable segments comprise the structure used by our Chief Executive Officer, who is our Chief Operating Decision Maker (CODM), to make key operating decisions and assess performance. The Company evaluates performance based on segment profit for segment reporting (gross profit less research and development and selling, general, and administrative expenses, before amortization, interest expense, restructuring charges, other charges (income), net, and taxes).

As further described in Note 14, the Company's operating results for the three and six months ended June 30, 2026 include a one-time benefit of \$52.4 million from U.S government IEEPA tariff refunds that reduced cost of sales, offset in part by tariff-related customer refunds of \$27.8 million that reduced net sales. This is reflected in the U.S. Operations segment.

The following tables show the operations of the Company's operating segments:

#### **14. COMMITMENTS AND CONTINGENCIES**

In February 2026, the U.S. Supreme Court issued a decision invalidating tariffs imposed under the International Emergency Economic Powers Act (“IEEPA”). During the three months ended June 30, 2026, the Company received refunds, including interest, from the U.S. Customs and Border Protection of \$42.9 million and concluded the remaining \$9.5 million of refunds were realizable and such amounts have been subsequently received. The \$9.5 million refund receivable is included in other current assets and prepaid expenses in the interim consolidated balance sheet as of June 30, 2026. This has resulted in a one-time gross benefit of \$52.4 million that has reduced cost of sales for the three and six months ended June 30, 2026. In addition, the Company committed to refund approximately \$27.8 million to customers, which reduced net sales for the three and six months ended June 30, 2026. This is included in accrued and other liabilities on the interim consolidated balance sheet as of June 30, 2026. The Company anticipates distributing tariff-related refunds to customers during the third quarter of 2026.

The Company is also party to various legal proceedings, including certain environmental matters, incidental to the normal course of business. Management does not expect that any of such proceedings, either individually or in the aggregate, will have a material adverse effect on the Company’s financial condition, results of operations or cash flows.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

*The following discussion and analysis of our financial condition and results of operations should be read in conjunction with the Unaudited Interim Consolidated Financial Statements included herein.*

### General

Our interim consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America. Operating results for the three and six months ended June 30, 2026 are not necessarily indicative of the results to be expected for the full year ending December 31, 2026.

Changes in local currencies exclude the effect of currency exchange rate fluctuations. Local currency amounts are determined by translating current and previous year consolidated financial information at an index utilizing historical currency exchange rates. We believe local currency information provides a helpful assessment of business performance and a useful measure of results between periods. We do not, nor do we suggest that investors should, consider such non-GAAP financial measures in isolation from, or as a substitute for, financial information prepared in accordance with GAAP. We present non-GAAP financial measures in reporting our financial results to provide investors with an additional analytical tool to evaluate our operating results.

We also include in the discussion below disclosures of immaterial qualitative factors that are not quantified. Although the impact of such factors is not considered material, we believe these disclosures can be useful in evaluating our operating results.

### Results of Operations – Consolidated

**Note:** As further described below, our operating results for the three and six months ended June 30, 2026 include a one-time benefit of \$52.4 million from IEEPA tariff-related refunds that reduced cost of sales, offset in part by related customer refunds of \$27.8 million that reduced net sales.

#### *Recent developments in global trade disputes/tariffs*

In 2025, the U.S. government enacted incremental tariff rates on U.S. imports from certain foreign countries. In response to the U.S. tariffs, the Chinese government implemented an additional tariff on imports from the U.S. We estimate that we incurred costs before mitigation actions from the 2025 incremental tariffs of approximately \$50 million in 2025, and we implemented various actions to fully offset the effect of the current incremental tariffs in 2026. At

the beginning of 2026, incremental tariffs rates were 15% on imports from Switzerland, 25% on non-USMCA imports from Mexico, 30% on imports from China, 15% on imports from the European Union, and 10% on imports from the United Kingdom.

In February 2026, the U.S. Supreme Court issued a decision invalidating tariffs imposed under the International Emergency Economic Powers Act (“IEEPA”). During the three months ended June 30, 2026, we received refunds, including interest, from the U.S. Customs and Border Protection of \$42.9 million and concluded the remaining \$9.5 million of refunds due were realizable and such amounts have been subsequently received. This resulted in a one-time gross benefit of \$52.4 million that reduced cost of sales for the three and six months ended June 30, 2026. In addition, we committed to issue \$27.8 million to customers for tariff-related refunds, which reduced net sales for the three and six months ended June 30, 2026. We anticipate distributing refunds to our customers during the third quarter of 2026.

Following the U.S. Supreme Court’s decision in February 2026, the U.S. government effectively replaced IEEPA tariffs with a temporary Section 122 tariff that included a 10% tariff on imports from most countries that expired near the end of July 2026. In April 2026, the U.S. government also issued an update to the definition of Section 232 tariffs, which is not expected to have a significant effect on our ongoing tariff obligations.

On July 23, 2026, the U.S. government imposed new Section 301 tariffs to effectively replace the expired Section 122 tariffs. The new Section 301 tariffs include a 12.5% rate on imports from Switzerland and China, and a 10% rate on imports from the European Union, United Kingdom, and non-USMCA imports from Mexico. The U.S. government has also discussed the potential of additional tariffs on certain countries, as well as a potential ending of USMCA on imports from Mexico that are currently not subject to tariffs. Any additional changes to tariff rates in the future could adversely impact our financial results.

Global trade disputes/tariffs create economic uncertainty in our end markets and the overall global economic environment and market conditions may change quickly.

#### *Recent developments in Iran*

In February 2026, tensions between the U.S. and Iran escalated to an armed conflict (the “Iran War”) that has expanded to include much of the Middle East region. This has led to transportation restrictions in the region, resulting in volatility in global energy markets, commodities pricing, transportation costs, and foreign currency exchange rates. While we do not have significant direct exposure to the Middle East, recent events have increased global economic uncertainty and may affect customer demand in certain markets and contribute to higher global inflation.

While it is difficult to estimate the impact of the Iran War on the global economy, including increased inflation and higher energy and transportation costs, the Iran War could adversely impact our financial results and presents several risks to our business as further described in Part I, Item 1A, “Risk Factors” of our Annual Report for the year ended December 31, 2025. Uncertainties remain related to the Iran War and the resulting impact on the global economy, and market conditions can change quickly.

#### *Net sales*

Net sales were \$1.0 billion and \$983.2 million for the three months ended June 30, 2026, and 2025, respectively, and \$2.0 billion and \$1.9 billion for the six months ended June 30, 2026, and 2025, respectively. Sales in U.S. dollars increased 4% for the three months and increased 6% for the six months ended June 30, 2026, respectively. Excluding the effect of currency exchange fluctuations, or in local currencies, net sales increased 6% for the three months and 4% for the six months ended June 30, 2026, respectively, before the previously described one-time tariff-related customer refunds. Organic local currency net sales, which exclude acquisitions and the one-time tariff-related customer refunds, increased 4% for the three months and 3% for the six months ended June 30, 2026, respectively.

Market conditions have improved, and we continue to benefit from the execution of our global sales and marketing programs, our innovative product portfolio, and investments in our field organization, particularly surrounding digital tools and techniques. However, ongoing developments in Iran and the Middle East, as well as global trade disputes/tariffs, create uncertainty in our end markets and the global economic environment and market conditions may change quickly. The ongoing developments related to global trade disputes/tariffs, Ukraine, and the conflicts in Iran and the Middle East also present several risks to our business as further described in Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2025. These topics could adversely impact our financial results in future periods.

Net sales by geographic destination for the three months ended June 30, 2026 in U.S. dollars decreased 3% in the Americas, and increased 7% in Europe and 12% Asia/Rest of World. In local currencies, our net sales by geographic destination decreased 3% in the Americas and increased 4% in Europe and 10% in Asia/Rest of World. Local currency net sales by geographic destination increased 3% in the Americas, 4% in Europe, and 10% in Asia/Rest of World before the effect of one-time tariff-related customer refunds. Organic local currency net sales by geographic destination increased 1% in the Americas, 4% in Europe, and 9% in Asia/Rest of World. Organic local currency net sales in Asia/Rest of World includes an increase of 9% in China during the three months ended June 30, 2026.

Net sales by geographic destination for the six months ended June 30, 2026 in U.S. dollars were flat in the Americas and increased 10% in both Europe and Asia/Rest of World. Local currency net sales by geographic destination increased 3% in the Americas, 3% in Europe, and 8% in Asia/Rest of World before the effect of one-time tariff-related customer refunds. Organic local currency net sales by geographic destination were flat in the Americas and increased 3% in Europe and 6% in Asia/Rest of World. Organic local currency net sales in Asia/Rest of World includes an increase of 7% in China during the six months ended June 30, 2026. A discussion of sales by operating segment is included below.

As described in Note 18 to our consolidated financial statements for the year ended December 31, 2025, our net sales comprise product sales of precision instruments and related services. Service revenues are primarily derived from repair and other services, including regulatory compliance qualification, calibration, certification, preventative maintenance, and spare parts.

Net sales of products increased 3% and 4% in U.S. dollars for the three and six months ended June 30, 2026, respectively. Local currency product net sales increased 4% and 3% for the three and six months ended June 30, 2026, respectively, before the one-time tariff-related customer refunds. Organic local currency product net sales increased 3% and 2% for the three and six months ended June 30, 2026, respectively, compared to the corresponding periods in 2025.

Service net sales (including spare parts) increased 10% and 11% in U.S. dollars for the three and six months ended June 30, 2026, respectively. Local currency service net sales increased 9% and 8% for the three and six months ended June 30, 2026, respectively, before the one-time tariff-related customer refunds. Organic local currency service net sales increased 7% and 6% for the three and six months ended June 30, 2026, respectively, compared to the corresponding periods in 2025.

Net sales of our laboratory products and services, which represented approximately 55% of our total net sales, increased 3% and 4% in U.S. dollars for the three and six months ended June 30, 2026, respectively. Local currency laboratory net sales increased 5% and 3% for the three and six months ended June 30, 2026, respectively, before the one-time tariff-related customer refunds. Organic local currency laboratory net sales increased 4% and 2% for the three and six months ended June 30, 2026, respectively. The Organic local currency increase in laboratory net sales for the three and six months ended June 30, 2026 includes strong growth in process analytics, laboratory balances, and analytical instruments.

Net sales of our industrial products and services, which represented approximately 40% of our total net sales, increased 6% and 8% in U.S. dollars for the three and six months ended June 30, 2026, respectively. Local currency industrial net sales increased 6% and 5% for the three and six months ended June 30, 2026, respectively, before the one-time tariff-related customer refunds.

Organic local currency industrial net sales increased 3% for both the three and six months ended June 30, 2026. The Organic local currency increase in industrial net sales for the three and six months ended June 30, 2026 includes growth in most product categories, with good core industrial growth during the three months ended June 30, 2026.

Net sales of our food retailing products and services, which represented approximately 5% of our total net sales, increased 13% in U.S. dollars for both the three and six months ended June 30, 2026. Local currency food retailing net sales increased 11% and 9% for the three and six months ended June 30, 2026, respectively, before the one-time tariff-related customer refunds. The local currency increase in food retail net sales for the three and six months ended June 30, 2026 includes strong project activity in Europe and Asia/Rest of World, partially offset by a decline in the Americas.

#### *Gross profit*

Gross profit as a percentage of net sales was 63.3% and 59.0% for the three months ended June 30, 2026 and 2025, respectively, and 61.1% and 59.2% for the six months ended June 30, 2026 and 2025, respectively. Excluding the effect of both the one-time tariff-related U.S. government and customer refunds, gross profit as a percentage of net sales was 59.3% and 59.0% for the three and six months ended June 30, 2026, respectively.

Gross profit as a percentage of net sales for products was 66.4% and 60.6% for the three months ended June 30, 2026 and 2025, respectively, and 63.7% and 61.1% for the six months ended June 30, 2026 and 2025, respectively. Excluding the effect of both the one-time tariff-related U.S. government and customer refunds, gross profit as a percentage of product net sales was 61.7% and 61.3% for the three and six months ended June 30, 2026, respectively.

Gross profit as a percentage of net sales for services (including spare parts) was 54.9% and 54.2% for the three months ended June 30, 2026 and 2025, respectively, and 54.1% and 54.0% for the six months ended June 30, 2026 and 2025, respectively. Excluding the effect of both the one-time tariff-related U.S. government and customer refunds, gross profit as a percentage of service net sales was 52.5% and 52.9% for the three and six months ended June 30, 2026, respectively.

Excluding the effect of the one-time tariff-related U.S. government and customer refunds, the increase in gross profit as a percentage of net sales for the three months ended June 30, 2026 primarily reflects favorable price realization, lower tariff costs, and benefits from our SternDrive program, partially offset by unfavorable foreign currency and higher transportation costs.

#### *Research and development and selling, general, and administrative expenses*

Research and development expenses as a percentage of net sales was 5.2% and 5.0% for the three months ended June 30, 2026 and 2025, respectively, and was 5.3% and 5.1% for the six months ended June 30, 2026 and 2025, respectively. Research and development expenses increased 8% in U.S. dollars and 3% in local currencies for the three months ended June 30, 2026, and increased 9% in U.S. dollars and 2% in local currencies for the six months ended June 30, 2026, respectively, compared to the corresponding periods in 2025.

Selling, general, and administrative expenses as a percentage of net sales were 25.6% and 25.2% for the three months ended June 30, 2026 and 2025, respectively, and were 26.4% and 26.3% for the six months ended June 30, 2026 and 2025, respectively. Selling, general, and administrative expenses increased 6% in U.S. dollars and 4% in local currencies for the three months ended June 30, 2026, and increased 6% in U.S. dollars and 2% in local currencies for the six months ended June 30, 2026. The local currency increase for the three and six months ended June 30, 2026 includes sales and marketing investments, offset in part by our cost savings initiatives.

#### *Amortization, interest expense, restructuring charges, other charges (income), net and taxes*

Amortization expense was \$19.4 million and \$17.6 million for the three months ended June 30, 2026 and 2025, respectively, and \$39.0 million and \$34.8 million for the six months ended June 30, 2026 and 2025, respectively.

Interest expense was \$17.2 million and \$16.8 million for the three months ended June 30, 2026 and 2025, respectively, and \$34.3 million and \$33.4 million for the six months ended June 30, 2026 and 2025, respectively.

Restructuring charges were \$5.5 million and \$3.6 million for the three months ended June 30, 2026 and 2025, respectively, and \$12.7 million and \$7.3 million for the six months ended June 30, 2026 and 2025, respectively. Restructuring expenses are primarily comprised of employee-related costs.

Other charges (income), net includes non-service pension costs (benefits), net (gains) losses from foreign currency transactions and hedging activities, interest income and other items. Non-service pension benefits were \$6.0 million and \$3.4 million for the three months ended June 30, 2026 and 2025, respectively, and \$12.0 million and \$6.5 million for the six months ended June 30, 2026 and 2025, respectively. Other charges also includes a net expense of \$8.4 million related to additional contingent consideration associated with previous acquisitions for the three and six months ended June 30, 2026.

Our reported tax rate was 19.5% and 18.6% during the three months ended June 30, 2026 and 2025, respectively, and 19.4% and 18.8% during the six months ended June 30, 2026 and 2025, respectively. The provision for taxes is based upon our projected annual effective tax rate of 19.0% before non-recurring discrete tax items for the periods ended June 30, 2026 and 2025. The difference between our projected annual effective tax rate and the reported tax rate is related to the timing of excess tax benefits associated with stock option exercises, as well as the one-time tariff related U.S. government and customer refunds.

1) Represents U.S. dollar growth (decline).

Total net sales increased 9% in U.S. dollars and 10% in local currency for the three months ended June 30, 2026 and increased 11% in U.S. dollars and 10% in local currency for the six months ended June 30, 2026, compared to the corresponding periods in 2025. Net sales to external customers increased 9% in U.S. dollars and 10% in local currencies for the three months ended June 30, 2026 and increased 11% in U.S. dollars and 9% in local currencies for the six months ended June 30, 2026, compared to the corresponding periods in 2025. Local currency net sales to external customers excluding acquisitions increased 5% and 4% for the three and six months ended June 30, 2026, respectively. Net sales to external customers for the three and six months ended June 30, 2026 includes strong growth in process analytics, laboratory balances and analytical instruments, as well as core industrial.

Segment profit increased \$2.1 million and \$5.1 million for the three and six months ended June 30, 2026, respectively, compared to the corresponding periods in 2025. The increase in segment profit for the three and six months ended June 30, 2026 is primarily related to increased sales and benefits from our margin expansion initiatives, offset in part by unfavorable foreign currency translation.

## Liquidity and Capital Resources

Liquidity is our ability to generate sufficient cash flows from operating activities to meet our obligations and commitments. In addition, liquidity includes available borrowings under our Credit Agreement, the ability to obtain appropriate financing and our cash and cash equivalent balances. Currently, our liquidity needs are primarily driven by working capital requirements, capital expenditures, share repurchases and acquisitions. Global market conditions can be uncertain, and our ability to generate cash flows could be reduced by a deterioration in global markets.

We currently believe that cash flows from operating activities, together with liquidity available under our Credit Agreement, local working capital facilities, and cash balances, will be sufficient to fund currently anticipated working capital needs and spending requirements for at least the foreseeable future.

Cash provided by operating activities totaled \$450.2 million during the six months ended June 30, 2026, compared to \$430.8 million in the corresponding period in 2025 and includes a benefit of \$42.9 million related to one-time tariff related U.S. government refunds. Excluding the

one-time tariff related U.S. government refunds, the decrease for the six months ended June 30, 2026 is primarily related to the timing of tax payments.

Capital expenditures are made primarily for investments in information systems and technology, machinery, equipment and the purchase and expansion of facilities. Our capital expenditures totaled \$45.2 million for the six months ended June 30, 2026 compared to \$41.1 million in the corresponding period in 2025.

In December 2025, we entered into an agreement with the government of Xuhui, China to increase production automation and capacity and improve logistics. We will receive proceeds of approximately \$31 million, of which approximately \$18 million is expected to offset future purchases of property, plant, and equipment and approximately \$13 million is expected to offset future operating expenses. We expect to receive proceeds and make payments related to the agreement through 2030. We have received cumulative proceeds of \$12.4 million, including \$6.2 million during the six months ended June 30, 2026. No proceeds were received during the three months ended June 30, 2026. We have cumulatively incurred \$0.9 million, including \$0.3 million of capital expenditures and \$0.6 million of operating expense, related to the agreement during the three months ended June 30, 2026. Proceeds are recorded in accrued and other liabilities and will be reduced as amounts related to the agreement are paid.

We continue to explore potential acquisitions. In connection with any acquisition, we may incur additional indebtedness.

Cash flows used in financing activities are primarily comprised of share repurchases. In accordance with our share repurchase program, we spent \$412.5 million and \$437.5 million on the repurchase of 325,348 shares and 368,010 shares, during the six months ended June 30, 2026 and 2025, respectively.

<sup>(a)</sup> The benchmark interest rate is determined by the borrowing currency. The benchmark rates by borrowing currency are as follows: SOFR for U.S. dollars (plus a 10 basis points spread adjustment), SARON for Swiss franc, EURIBOR for Euro and SONIA for Great British pounds.

As of June 30, 2026, we had \$562.7 million of additional borrowings available under our Credit Agreement, and we maintained \$51.4 million of cash and cash equivalents.

Changes in exchange rates between the currencies in which we generate cash flows and the currencies in which our borrowings are denominated affect our liquidity. In addition, because we borrow in a variety of currencies, our debt balances fluctuate due to changes in exchange rates. Further, we do not have any downgrade triggers relating to ratings from rating agencies that would accelerate the maturity dates of our debt. We were in compliance with our debt covenants as of June 30, 2026.

In January 2025, we entered into an agreement to issue and sell EUR 100 million 10 1/2-year Senior Notes with a fixed interest rate of 3.8% (3.8% Euro Senior Notes) in a private placement, which will mature in July 2035. The 3.8% Euro Senior Notes are unsecured obligations of the Company and the terms are consistent with the previous Notes as disclosed in Note 10 to our consolidated financial statements for the year ended December 31, 2025. We used the proceeds from the sale of the Notes to refinance existing indebtedness and for other general corporate purposes.

#### *Other Local Arrangements*

In April 2018, two of our non-U.S. pension plans issued loans totaling \$39.6 million (Swiss franc 38 million) to a wholly owned subsidiary of the Company. The loans have the same terms and conditions which include an interest rate of SARON plus 87.5 basis points. The loans were renewed for one year in April 2026.

#### *Share Repurchase Program*

We have \$3.2 billion of remaining availability for our share repurchase program as of June 30, 2026. The share repurchases are expected to be funded from cash generated from operating activities, borrowings, and cash balances. Repurchases will be made through open market transactions, and the amount and timing of purchases will depend on business and market conditions, the stock price, trading restrictions, the level of acquisition activity, and other factors.

We have purchased 33.3 million shares at an average price per share of \$330.16 since the inception of the program in 2004 through June 30, 2026. During the six months ended June 30, 2026 and 2025, we spent \$412.5 million and \$437.5 million on the repurchase of 325,348 and 368,010 shares at an average price per share of \$1,267.85 and \$1,188.80, respectively. We also reissued 2,554 shares and 17,589 shares held in treasury upon the exercise of stock options and vesting of restricted stock units during the six months ended June 30, 2026 and 2025, respectively. In addition, we incurred \$2.0 million and \$2.1 million of excise tax during the three months ended June 30, 2026 and 2025, respectively, and \$4.1 million of excise tax during both the six months ended June 30, 2026 and 2025 related to the Inflation Reduction Act which is reflected as a reduction in shareholders' equity in our consolidated financial statements.

### **Effect of Currency on Results of Operations**

Our earnings are affected by changing exchange rates. We are most sensitive to changes in the exchange rates between the Swiss franc, euro, Chinese renminbi, and U.S. dollar. We have more Swiss franc expenses than we do Swiss franc sales because we develop and manufacture products in Switzerland that we sell globally, and have a number of corporate functions located in Switzerland. When the Swiss franc strengthens against our other trading currencies, particularly the U.S. dollar and euro, our earnings decrease. We also have significantly more sales in the euro than we do expenses. When the euro weakens against the U.S. dollar and Swiss franc, our earnings also decrease. We estimate a 1% strengthening of the Swiss franc against the euro would reduce our earnings before tax by approximately \$2.8 million to \$3.1 million annually.

We also conduct business in many geographies throughout the world, including Asia Pacific, the United Kingdom, Eastern Europe, Latin America, and Canada. Fluctuations in these currency exchange rates against the U.S. dollar can also affect our operating results. The most significant of these currency exposures is the Chinese renminbi. The impact on our earnings before tax of the Chinese renminbi weakening 1% against the U.S. dollar is a reduction of approximately \$2.2 million to \$2.6 million annually.

In addition to the effects of exchange rate movements on operating profits, our debt levels can fluctuate due to changes in exchange rates, particularly between the U.S. dollar, the Swiss franc and the euro. Based on our outstanding debt at June 30, 2026, we estimate that a 5% weakening of the U.S. dollar against the currencies in which our debt is denominated would result in an increase of approximately \$52.3 million in the reported U.S. dollar value of our debt.

## Certification Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002

I, Patrick Kaltenbach, certify that:

- (1) I have reviewed this quarterly report on Form 10-Q of Mettler-Toledo International Inc.;
- (2) Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- (3) Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- (4) The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- (5) The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
