

United States
Securities and Exchange Commission
Washington, D.C. 20549

Form 10-K

Annual Report Pursuant to Section 13 or 15(d) of the Securities Act of 1934

For the fiscal year ended December 31, 2025

Commission File Number 1-13145

Jones Lang LaSalle Incorporated

(Exact name of registrant as specified in its charter)

Maryland

(State or other jurisdiction of incorporation or organization)

200 East Randolph Drive Chicago, IL

(Address of principal executive offices)

Registrant's telephone number, including area code:

36-4150422

(I.R.S. Employer Identification No.)

60601

(Zip Code)

(312) 782-5800

Securities registered pursuant to Section 12(b) of the Act:

<u>Title of each class</u>	<u>Trading Symbol</u>	<u>Name of each exchange on which registered</u>
Common Stock, par value \$0.01	JLL	The New York Stock Exchange

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Act. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth corporation (as defined in Rule 12b-2 of the Exchange Act).

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant has filed a report on and attestation to its management's assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 7262(b)) by the registered public accounting firm that prepared or issued its audit report.

If securities are registered pursuant to Section 12(b) of the Act, indicate by check mark whether the financial statements of the registrant included in the filing reflect the correction of an error to previously issued financial statements.

Indicate by check mark whether any of those error corrections are restatements that required a recovery analysis of incentive-based compensation received by any of the registrant's executive officers during the relevant recovery period pursuant to §240.10D-1(b).

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The aggregate market value of the voting stock (common stock) held by non-affiliates of the registrant as of the close of business on June 30, 2025 was \$12,017,132,438.

The number of shares outstanding of the registrant's common stock (par value \$0.01) as of the close of business on February 13, 2026 was 46,851,472.

Portions of the Registrant's Proxy Statement for its 2026 Annual Meeting of Shareholders are incorporated by reference in Part III of this report.

PART I

ITEM 1. BUSINESS

COMPANY OVERVIEW

Jones Lang LaSalle Incorporated, incorporated in 1997, is a Maryland corporation. References to "JLL," "the Company," "we," "us" and "our" refer to Jones Lang LaSalle Incorporated and include all of its consolidated subsidiaries, unless otherwise indicated or the context requires otherwise. Our common stock is listed on The New York Stock Exchange ("NYSE") under the symbol "JLL."

JLL is a leading global commercial real estate services and investment management company with annual revenue of \$26.1 billion, operations in over 80 countries and a global workforce of more than 113,000 as of December 31, 2025. For over 200 years, clients have trusted JLL, a Fortune 500[®] company, to help them confidently buy, build, occupy, manage and invest across a variety of industries and property types, including office, industrial, hotel, multi-family, retail and data center properties. Driven by our purpose to shape the future of real estate for a better world, we help our clients, people and communities SEE A BRIGHTER WAYSM. Powered by rich global datasets and leading technology capabilities, we provide coordinated, end-to-end delivery of real estate services for a broad range of global clients who represent a wide variety of industries. Our clients vary greatly in size and include for-profit and not-for-profit entities, public-private partnerships and governmental ("public sector") entities. Through LaSalle Investment Management (also referred to as "LaSalle" or our "Investment Management" segment), we invest for clients on a global basis in both private assets and publicly traded real estate securities.

Our global platform and diverse service and product offerings position us to take advantage of the opportunities in a consolidating industry and to successfully navigate the dynamic and challenging markets in which we compete worldwide.

We use JLL as our principal trading name. Jones Lang LaSalle Incorporated remains our legal name. JLL is a registered trademark in the countries in which we do business, as is our logo. In addition, LaSalle Investment Management, which uses LaSalle as its principal trading name, is a wholly-owned subsidiary of Jones Lang LaSalle Incorporated. LaSalle is also a registered trademark in the countries in which we conduct business, as is our logo.

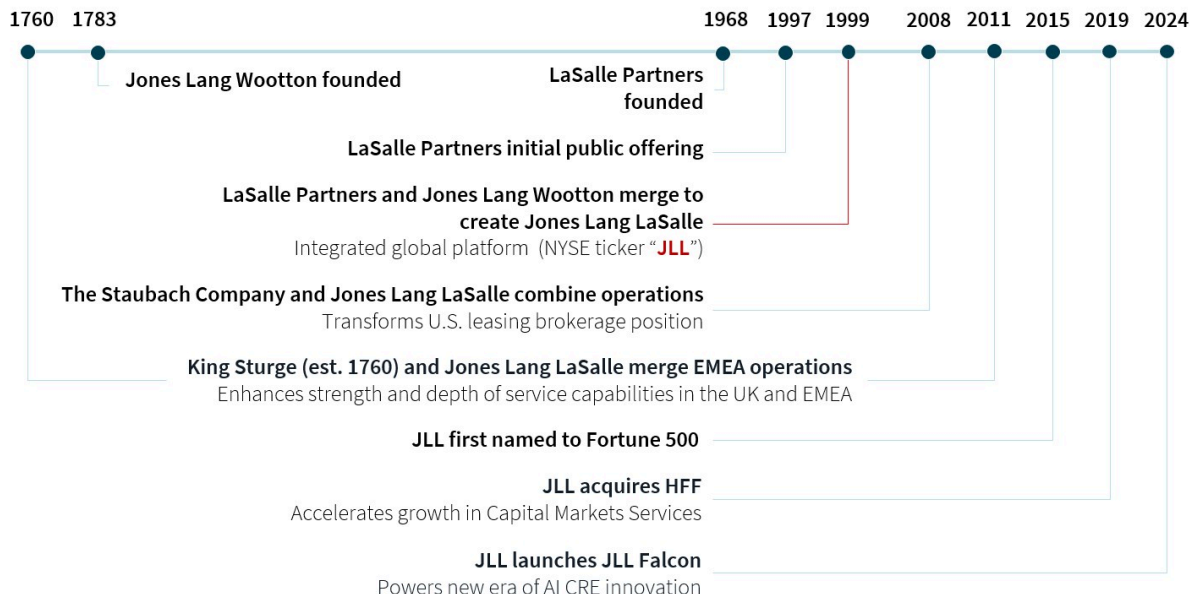

Effective July 1, 2025, we report the balances and activity associated with the investments historically reported within Software and Technology Solutions in "All Other." These investments (inclusive of convertible notes receivable) in proptech funds and early to mid-stage proptech companies ("Proptech Investments") do not constitute an operating or reporting segment. Effective January 1, 2026, the Software and Technology Solutions segment will merge into Real Estate Management Services with results of operations reported as a subsegment within Real Estate Management Services.

OUR HISTORY

While our roots trace back to 1783 with the founding of Jones Lang Wootton in England, we began to establish our global services platform through the 1999 merger with LaSalle Partners Incorporated ("LaSalle Partners," founded in the United States in 1968 and incorporated in 1997). The Company has grown by expanding our client base as well as service and product offerings, both organically as well as through mergers and acquisitions. Our extensive global reach and in-depth knowledge of local real estate markets enable us to serve as a single-source provider of solutions for the full spectrum of our clients' real estate needs. The mergers and acquisitions have given us additional share and scale in key geographical markets, expanded our capabilities in certain service offerings and further broadened the global platform we make available to our clients.

For information on recent acquisitions, refer to Note 4, Business Combinations, Goodwill and Other Intangible Assets, of the Notes to the Consolidated Financial Statements, included in Item 8.

A timeline of notable milestones in our history is illustrated below.

OUR SERVICES AND BUSINESS SEGMENTS

We are driven to shape the future of real estate for a better world. We do this by addressing the needs of real estate owners, occupiers and investors, leveraging our deep real estate expertise and experience to provide clients with a full range of services on a local, regional and global scale. For details on the range of services provided by each of the five segments, refer to the narrative starting on page 6.

We offer our real estate services locally, regionally and globally to real estate owners, occupiers, investors and developers for a variety of property types, including (ordered alphabetically):

- | | | |
|--|-------------------------------------|--|
| • Critical Environments and Data Centers | • Hotels and Hospitality Facilities | • Office (including Flex Space) |
| • Cultural Facilities | • Industrial and Warehouse | • Residential (Individual and Multifamily) |
| • Educational Facilities | • Infrastructure Projects | • Retail and Shopping Malls |
| • Government Facilities | • Logistics (Sort and Fulfillment) | • Sports Facilities |
| • Healthcare and Laboratory Facilities | • Military Housing and Other | • Transportation Centers |

The following reflects our revenue by segment for the year ended December 31, 2025:

Revenue by Segment - \$26.1B

Our revenue was \$26.1 billion for 2025, earned geographically as follows:

Revenue by Country

Note: Greater China is defined as China, Hong Kong, Macau and Taiwan.

As of December 31, 2025, our five segments, and the services we provide within them, included:

1. Real Estate Management Services

Workplace Management

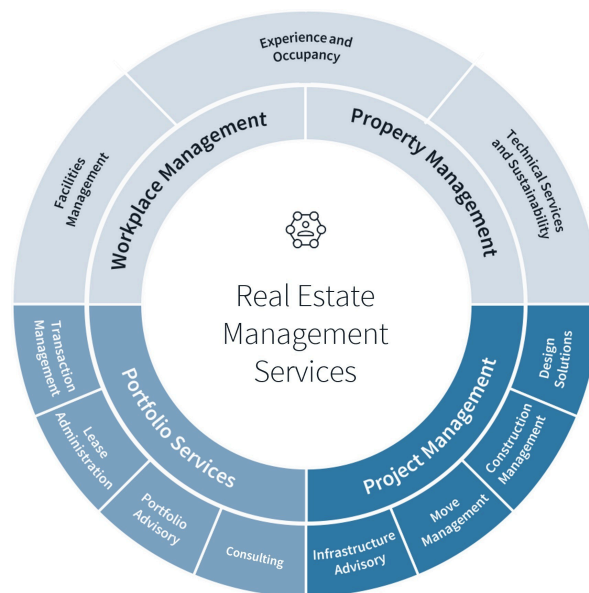

As a strategic partner of clients with a multinational footprint, Real Estate Management Services offers a single, cohesive service-delivery team focused on three key value levers: (i) making informed, data-driven decisions and digital transformation, (ii) achieving operational excellence through improved productivity and financial performance and (iii) attracting and retaining talent through an enhanced user experience.

Workplace Management provides comprehensive facility management services globally to corporations and institutions that outsource the management of the real estate they occupy, typically those with large multi-market portfolios of over one million square feet. Our Workplace Management offering leverages tech-enabled solutions and focuses on the work, worker and workplace to help clients manage costs, achieve sustainability goals, improve workplace service delivery and enhance end-user experience and performance.

Our globally-integrated delivery team includes our own personnel as well as third-party vendors and subcontractors who meet clients' requirements by providing consistent service delivery worldwide and a single point of contact for their real estate service needs.

Workplace Management solutions offered to clients range from mobile engineering at a single location to a full-service outsourcing, where we execute day-to-day operations management of client site locations, delivered through a globally-integrated platform with standardized processes. Facilities under management cover all real estate asset classes, including corporate headquarters, distribution facilities, hospitals, research and development facilities, data centers and industrial complexes. As of December 31, 2025, Workplace Management managed approximately 2.8 billion square feet of real estate for our clients.

Workplace Management contracts are generally structured on a principal basis (a fixed fee, guaranteed maximum, or reimbursement-based pricing model) but may also be on an agency basis. Typically, our structures include a direct or indirect reimbursement for costs of client-dedicated personnel and third-party vendors and subcontractors in addition to a base fee and performance-based fees. Performance-based fees result from achieving quantitative and qualitative performance measures and/or target scores on recurring client satisfaction surveys. Workplace Management agreements are typically three to seven years in duration and, although most contracts can be terminated at will by the client upon a short notice period (usually 30 to 60 days), a transition period of six to twelve-months is more common in our industry. We typically experience a high renewal rate, with most clients renewing their contracts at least once; many of our largest contracts have been in place for more than a decade.

Project Management

Project Management provides consulting, design, management and build services to tenants of leased space, owners in self-occupied buildings and owners of real estate investments, leveraging technology to drive outstanding service delivery. We also provide services to public-sector clients, notably military and government entities, and educational institutions, primarily in the U.S. and to a growing extent in other countries. We bring a "life cycle" perspective to our clients, from consulting and capital management through design, construction and occupancy via our JLL brand, while we also provide fit-out, refurbishment and design services under the Tétris brand, predominantly in Europe.

Our Project Management business is generally compensated on the basis of negotiated fees as well as reimbursement of costs when we are principal to a contract (or client). Individual projects are generally completed in less than one year, but client contracts may extend multiple years in duration and govern a number of discrete projects.

Property Management

Property Management provides services to real estate owners for office, industrial and logistics, retail, multi-housing and specialty properties. We typically provide property management services through local teams, which are generally on-site for office and multi-housing properties, supported by regional supervisory teams and central resources in such areas as technology, training, environmental services, accounting, marketing, lease administration and human resources. We leverage our market share and buying power to deliver superior service and value to our clients, and our extended delivery team increasingly uses new technology and digital capabilities we deploy at the property. This allows clients to drive value, optimize operations, gain insights and elevate the tenant experience. Our work with clients also includes advisory, tenancy management and services focused strategically on reducing energy usage and carbon impact. As of December 31, 2025, we provided management services for properties totaling approximately 2.9 billion square feet.

We are generally compensated by either directly agreeing to a fixed fee or a cost plus fee model, or a fee based upon a percentage of cash collections we make on behalf of our clients, or based on square footage managed; in some cases, management agreements provide for incentive compensation relating to operating expense reductions, gross revenue or occupancy objectives, or tenant satisfaction levels. Consistent with industry norms, management contract terms typically range from one to three years, although some contracts can be terminated at will at any time following a short notice period, usually 30 to 120 days.

Portfolio Services

Through the suite of services our Real Estate Management Services business provides to clients via our "One JLL" approach, we gain deep knowledge and extensive data about their corporate real estate footprints, business strategies and organizational priorities. This knowledge enables our consulting practice to effectively advise clients on how to optimize their workplace strategies and occupancy planning to improve utilization and ultimately enhance the productivity and well-being of those who use the space. More broadly, this advice may extend to our clients' portfolio strategies, including location advisory, transaction management, lease administration, technology implementation and optimization, and options to add and integrate flexible space solutions. Our fee structures vary and are based on the point-in-time or over-time nature of services and deliverables provided to our clients.

2. Leasing Advisory

Leasing Advisory offers local expertise across the globe covering a comprehensive range of services across asset types. We aggregate such services into two categories: Leasing and Advisory, Consulting and Other.

Leasing

Agency Leasing executes marketing and leasing programs on behalf of property owners (such as investors, developers, property-owning companies and public entities), including product positioning, target tenant identification and competitor analysis through to securing tenants and negotiating leases with terms that reflect our clients' best interests. In 2025, we completed approximately 19,500 agency leasing transactions representing 340 million square feet of space.

Tenant Representation establishes strategic alliances with occupier clients to define space requirements, identify suitable alternatives, recommend appropriate occupancy solutions, and negotiate lease and ownership terms with landlords. Our involvement helps our clients reduce real estate costs, minimize occupancy risk, improve occupancy control and flexibility,

and create more productive office environments. In 2025, we completed approximately 23,500 tenant representation transactions representing 569 million square feet of space.

Our agency leasing and tenant representation advisory businesses anchor to the workplace of the future and helps owners and occupiers realize their sustainability commitments and goals. Both our agency leasing and tenant representation fees are typically based on a percentage of the value of the lease revenue commitment for executed leases, although in some cases they are based on a monetary amount per square foot leased.

Advisory, Consulting and Other

Advisory and Consulting provides clients with specialized, value-add real estate consulting services in such areas as occupier portfolio strategy, workplace solutions, location advisory, mergers and acquisitions advisory, asset management, development advisory and master planning activities.

We typically negotiate compensation for Advisory and Consulting based on developed work plans that vary based on the scope and complexity of projects.

3. Capital Markets Services

Capital Markets Services is a full-service global provider of capital solutions creating a world of opportunity for investors and owners of real estate. As a leading provider of property sales, debt, value and risk advisory services, and hedging and derivatives, we combine the unique knowledge of our people with the power of collective insight and technology made possible by our fully-integrated capital markets platform. Our broad array of services includes (ordered alphabetically):

- Debt advisory
- Equity advisory (Equity and funds placement, M&A and corporate advisory)
- Investment sales and advisory
- Loan sales
- Loan servicing
- Value and risk advisory

Investment Sales, Debt/Equity Advisory and Other

We provide brokerage and other services for real estate transactions, such as sales or loan originations and refinancing. M&A and corporate advisory services include sourcing capital, both equity and debt, and other traditional investment banking services designed to assist investor and corporate clients to maximize the value of their real estate interests. To meet client demands for selling and acquiring real estate assets domestically and internationally, our Capital Markets Services teams combine local market knowledge with our access to global capital sources to provide superior execution in raising capital for real estate transactions. By originating, developing and introducing innovative new financial products and strategies, Capital Markets Services is integral to the business development efforts of our other businesses. Most of our revenues are in the form of fees, derived from the value of transactions we complete or securities we place. In certain circumstances, we receive retainer fees for portfolio advisory or consulting services. For the year ended December 31, 2025, we provided capital markets services for approximately \$258 billion of client transactions.

Value and Risk Advisory

Our Value and Risk Advisory professionals provide several services, including valuation, secured lending advisory, transaction support, data and analytics, development advisory, asset and infrastructure advisory, business valuation, property tax advisory, and restructuring. Our specialist risk advisory team provides environmental risk assessments to help asset owners reduce the carbon footprint of an asset. Our risk analytics services use artificial intelligence ("AI") and machine learning to identify risks from cash flow stability, climate change, location, regulatory and health and safety risks. Working closely with investors and lenders, we usually negotiate compensation for value and risk advisory services based on the scale and complexity of each assignment, and our fees typically relate in part to the value of the underlying assets.

Loan Servicing

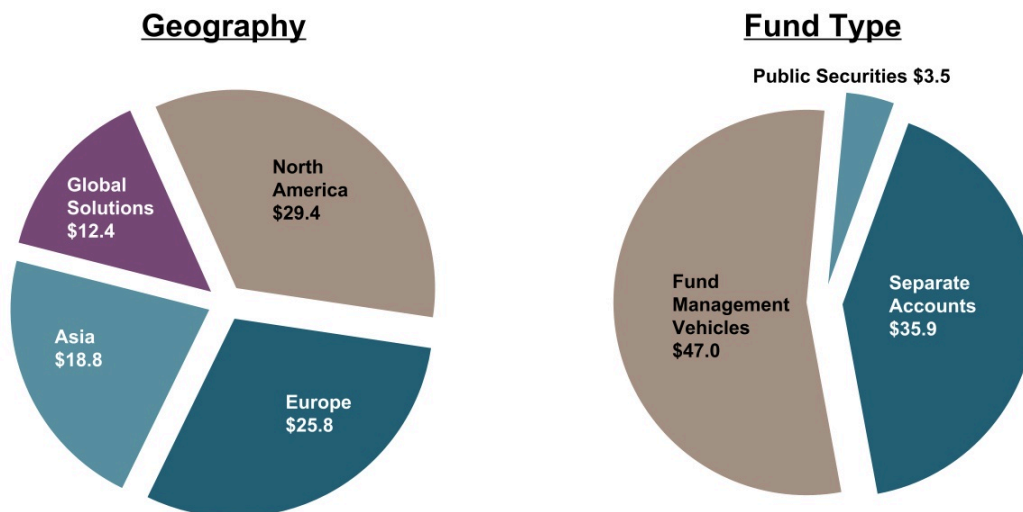

In the U.S., we are a commercial multifamily lender and loan servicer approved by Freddie Mac, Fannie Mae and Housing and Urban Development/Ginnie Mae (the "Agencies"). In addition, we are one of only 24 Fannie Mae Delegated Underwriting and Servicing ("DUS") lenders. We service substantially all the loans we originate and sell to the Agencies, and service loans we did not originate but subsequently acquire the rights to service. We obtain a periodic fee for each loan we service based on a proportion of the cash collections. As of December 31, 2025, we serviced a loan portfolio of approximately \$140.3 billion.

4. Investment Management

LaSalle Investment Management ("Investment Management") is a global real estate investment management firm that invests institutional and individual capital in real estate assets and securities with a strategic priority to meet client objectives and deliver superior risk-adjusted returns over market cycles.

Investment Management launched its first institutional investment fund in 1979, making us one of the most experienced real estate focused investment managers in the industry. We have invested, on behalf of our clients and ourselves, in real estate assets located in 24 countries around the globe, as well as in public real estate companies traded on all major stock exchanges. Investment Management provides clients with a broad range of real estate investment products and services, designed to meet the differing strategic, asset allocation, risk/return and liquidity requirements of our clients. The range of investment solutions are offered either through commingled or single investor strategies and include private and public equity investments and real estate debt strategies structured as private or public open-end funds or private closed-end funds (commingled funds), separate accounts, joint ventures or co-investments.

Investment Management's assets under management ("AUM") of \$86.4 billion, as of December 31, 2025, by geographic distribution and fund type, is detailed in the following graphics (\$ in billions).

We believe our ability to co-invest alongside our clients' funds aligns our interests and will continue to be an important differentiating factor in maintaining and improving our investment performance and attracting new capital to manage. As of December 31, 2025, we had a total of \$505.8 million of co-investments, alongside our clients, in real estate ventures included in total AUM.

Investment Management is compensated for investment management services for private equity investments based on capital committed, capital deployed and managed (advisory fees), with additional fees tied to investment performance above specific hurdles (incentive fees). In some cases, Investment Management also receives fees tied to acquisitions, financings and dispositions (transaction fees).

Our investment funds have various life spans, typically ranging between five and nine years, but in some cases are open ended. In 2025, open-end funds represented approximately 34% of AUM as of December 31, 2025. Separate account advisory agreements generally have specific terms with "at will" termination provisions and include fee arrangements calculated on the mark to market value of the assets, plus, in some cases, incentive fees.

5. Software and Technology Solutions

Software and Technology Solutions leverages its comprehensive technology portfolio of software platforms, apps, hardware and technology services, as well as innovations from venture-backed companies, to help organizations maximize their real estate experience.

Services and Software Solutions

We offer professional services including program and project management, implementation and support, managed services, and advisory/consulting services. We recognize the associated revenue at the time our performance obligation is satisfied, sometimes over the course of multiple years.

In addition, our cloud-based software solutions enable higher-quality insight and decision-making through improved data and analytics, creating opportunities to improve clients' financial and/or operating performance. These solutions are typically sold via subscription offerings and we recognize revenue over time, commensurate with the length and terms of the contract. Examples include:

- **Building Engines**, a comprehensive system that unites the technology and applications used to manage a building with simplified upstream and downstream user interactions; and
- **Corrigo**, a mobile and desktop-integrated product that enables facility managers to efficiently manage work orders, centralize repairs and maintenance, and automate tasks, all on a scalable level.

All Other

We drive property technology ("proptech") innovation across the real estate spectrum, supporting the development of an array of products and data analytics tools. One way we achieve this goal is through strategic investments in proptech funds and early to mid-stage proptech companies, including through our JLL Spark Global Ventures Funds. We generally report these investments at fair value and include fair value adjustments in our Consolidated Statements of Comprehensive Income within Equity earnings/losses. As of December 31, 2025, the fair value of such investments was \$340.1 million.

Effective July 1, 2025, we report the balances and activity associated with the investments historically reported within Software and Technology Solutions in "All Other." These investments (inclusive of convertible notes receivable) in proptech funds and early to mid-stage proptech companies ("Proptech Investments") do not constitute an operating or reporting segment.

ORGANIZATIONAL PURPOSE

JLL's organizational purpose is to shape the future of real estate for a better world. Staying true to this purpose in all that we do enables us to fully align with the best interests and ambitions of our clients and all our stakeholders. We embrace our opportunity to play a leading role in understanding and guiding the future of work, workplaces and cities, while enabling clients and communities to deliver on their sustainability targets through our services. JLL recognizes the vital role innovations in data capabilities and technology will play in the real estate sector. We continue to strategically invest in our platform, products and people to lead this wave of change.

This core organizational purpose is fully aligned with our "One JLL" philosophy which supports our corporate values of teamwork, ethics and excellence. This philosophy formalizes how our teams engage with each other and enables us to deliver the best capabilities to our clients. Ultimate responsibility for promoting awareness and ensuring adherence to our values and

purpose across the enterprise is held by the JLL Global Executive Board ("GEB") and is endorsed by our Board of Directors. Our purpose guides our strategic growth vision and informs our response to the long-term macro trends which maintain prevalence in the real estate industry at all points in the economic cycle. These trends and our strategic framework are summarized below.

INDUSTRY TRENDS

We continue to see major macro trends influencing the expansion and evolution of the real estate sector.

Growth in corporate outsourcing

Corporate outsourcing of real estate services began in the early 1990s with U.S.-based corporations, and evolved into a global trend, embraced by owners and occupiers, with a strong growth trajectory. By focusing their own resources on core competencies and partnering with dedicated service providers like JLL to manage real estate strategy and activities, organizations are better positioned to advance their goals of financial and operational performance, talent attraction, customer experience, employee productivity and environmental sustainability.

An evolving technology backdrop (e.g., artificial intelligence, or "AI") and other macro factors on workforce productivity, creativity, well-being and culture, corporate management and boards around the world have a sustained focus on reimagining workplaces and concepts for the future of work. With our deep expertise and specialist experience and resources in these areas across industries, we are positioned to provide our clients highly adaptive and relevant solutions and advisory services. We continue to see a long runway for further growth in the trend for organizations to outsource real estate services as our clients increasingly seek strategic advice on reimagining their workspaces and workstyles to reinforce culture, attract talent and drive cost efficiencies.

Rising investment allocations to real estate

In the years following the 2008 Global Financial Crisis, as investors reassessed investment allocations and priorities, real estate emerged from its previous "alternative investment" classification to become a major defined asset class of its own. This began a sustained long-term trend of rising investment allocations to the real estate sector with allocations increasing approximately 110 basis points since 2015, according to Cornell University's Baker Program in Real Estate and Hodes Weill & Associates, LP. While major global and market events can have significant near-term impacts on real estate investment transaction volumes, this deeply engrained long-term trend remains prevalent, as investors focus on real estate's relative returns and distinctive investment characteristics.

Demographics and urbanization

The concentration of people, culture, diversity, opportunity, facilities and creative expression supports the long-term global trend of migration into the world's major cities. While work patterns and preferences will continue to evolve, driven in part by new possibilities created by technology and the widespread adoption of flexible working, cities will thrive as they deliver on people's lifestyle and economic ambitions, characterized by vibrant and reimagined office, cultural, retail and residential profiles alongside an increasing focus on sustainability initiatives.

According to the World Bank's Urban Development update in April 2023, over 80% of global GDP is generated from cities, with the population in cities expected to increase 1.5 times by 2045. These trends support increasing demand for global real estate services and advice. JLL has well-established global research exploring this and associated trends in more depth, including related dynamics in the way the world's major cities are growing, adapting and evolving.

AI and technology's next frontier

The real estate industry is affected by advances in technology, data and artificial intelligence in many ways, specifically: (1) the transition to flexible and hybrid office working models, (2) new data-driven understanding of how all forms of real estate can be more efficient, sustainable and productive, (3) the rise of experiential and online retail, (4) new asset management technologies and (5) the growth of the logistics sector.

While there is currently no single technology disruptor positioned to dominate the real estate industry, there are thousands of start-ups, applications and concepts vying to transform the marketplace, collectively known as proptech. The challenge to innovate and maximize the current and future benefits of proptech is constant. At the heart of our Beyond strategy (discussed

below) and supported by ongoing investments and innovations, we are widely-recognized as a leading user of technology and data in real estate.

Energy and sustainability

Climate change and resource constraints are transforming the real estate industry. The built environment is under pressure from evolving regulations, investor demands, corporate net zero commitments, and rising occupant health and well-being expectations. These converging factors are reshaping how properties are valued, operated, and occupied—driving demand for sustainable and energy-efficient building solutions that deliver environmental and financial returns. Capturing this opportunity represents a strategic priority for growth, aligned with our purpose to shape the future of real estate for a better world.

Refer to our annual Sustainability Statement, available on our website, for further information.

STRATEGIC FRAMEWORK

Our GEB has set out the Beyond strategic vision and framework to deliver long-term sustainable and profitable global growth. This framework comprises broad strategic priorities grouped into five pillars – Clients, Brand, Technology, People & Values, and Sustainability – which collectively support and drive our ambitious long-term growth trajectory.

Beyond: Our Strategic Vision for Long-Term Sustainable and Profitable Growth

After launching our Beyond strategic plan in 2017, we embarked on a multi-year transformation program to build a fully-integrated global organization and enable our "One JLL" philosophy across all of our business lines and functions. This allows us to provide seamless and consistent services to our clients across the world, as well as smoothly and rapidly deploy innovations, best practices and new technologies, ultimately enhancing growth prospects and operating efficiencies.

Clients

We deliver advisory-led services to maximize client outcomes, leveraging data, expertise and collaboration to convert insights into solutions. Our "One JLL" philosophy formalizes how our teams engage with each other and enables us to seamlessly serve clients across business lines and geographies. We focus on attracting clients in growth industries who value our global scale, differentiated platform and data-driven insights.

We continue to enhance our comprehensive service offerings to create real value for our clients. Guided by our Beyond strategy, we are making continued investments in our people and platform, ensuring our multidisciplinary teams are well positioned to provide tailored services and improve client outcomes.

Brand

We are recognized across our industry for our global presence, market-specific knowledge, actionable intelligence and sector specialization. Our company continues to emphasize its capability to provide tailored solutions for complex client challenges by aligning real estate strategies with clients' business growth objectives. Our industry-leading research capabilities, data intelligence and world-renowned expertise equip JLL's people to SEE A BRIGHTER WAY forward for our clients.

Our clients perceive the JLL brand to be trustworthy and ethical, in line with our recent recognition by Ethisphere as one of the World's Most Ethical Companies for the 18th consecutive year. Our heritage of over 250 years and strong global network reinforce this perception. While clients value our global connectivity, they also value our service quality and proactiveness. This is reflected by numerous local recognition awards and client-awarded supplier excellence awards.

Our clients continue to place importance on our ability to deliver integrated insights with the latest technology, and we continue to demonstrate our leadership in technology to transform data into actionable insight. Our industry-recognized commitment to technology earned JLL a place in *Fast Company's* Next Big Things in Tech. Additionally, *Fortune* named us one of the World's Most Admired Companies for the ninth consecutive year.

Technology

Technology is core to our growth strategy and essential to our purpose to shape the future of real estate for a better world. Through technology, JLL helps organizations transform the way they acquire, manage, operate and experience space. With a comprehensive portfolio of purpose-built solutions, unparalleled industry expertise and leading-edge, venture-backed

companies, JLL enables organizations to achieve exceptional building performance, accelerate the path to net zero and optimize spaces for the future of work.

JLL is a global leader in proptech, expanding and refining our technology capabilities to deliver significant competitive advantages and value for our company and our clients, across all business lines. The technology and data solutions we provide include multiple cloud-based software products and AI-powered platforms. These technologies generate value for occupiers and investors by leveraging data and analytics to improve the quality of decision making, deliver unique insights and reduce operating costs.

People & Values

We are dedicated to helping our people SEE A BRIGHTER WAY by enabling them to explore new opportunities, build expertise, create long-term careers, and draw inspiration through working with talented colleagues and clients.

In the world's major markets across most industries, declining working-age populations, emerging technologies and long-term economic growth continue to drive competition for talent, resulting in highly fluid and competitive recruitment markets, particularly for niche and emerging skills. A successful enterprise-wide people strategy is central to our company's success and complements our promise to our people where we commit to empowering them to shape a brighter way forward. This promise ensures JLL is positioned as an employer of choice for top talent, achieving and sustaining an inclusive and collaborative culture that strongly appeals to our people and our clients alike.

Sustainability

Our sustainability program is rooted in our purpose to shape the future of real estate for a better world. Staying true to this purpose enables us to align with the interests and ambitions of our clients and stakeholders. It exemplifies our commitment to a more sustainable and inclusive future.

Growth

Our Beyond priorities, strategic vision and the macro trends discussed above provide a basis for enhancing productivity, optimizing sustainable and profitable long-term growth, and creating value for all our stakeholders. We embrace our opportunity to play a leading role in understanding and guiding the future of work, workplaces and cities, while enabling clients and communities to deliver on their sustainability targets and ambitions. JLL recognizes the vital role innovations in data capabilities and technology will play in the real estate sector. We continue to strategically invest in our platform, products and people to lead this wave of change.

The commercial real estate industry is consolidating, with the large players gaining market share both organically and through mergers and acquisitions. Our strong investment grade balance sheet provides flexibility to augment our organic growth with selective inorganic opportunities, enhancing our competitive position in this evolving landscape.

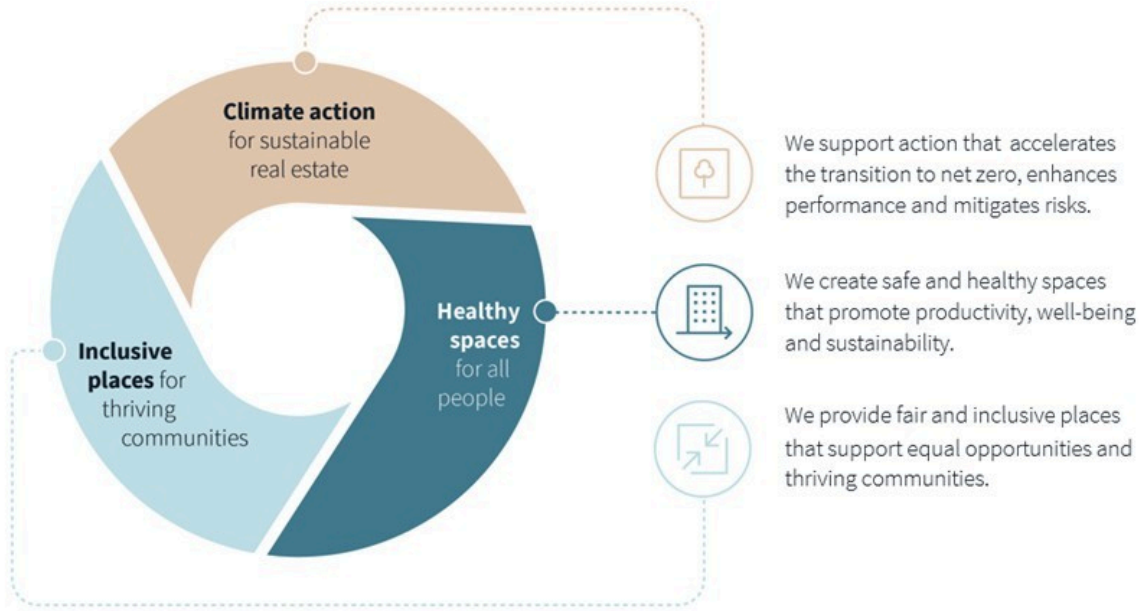

Our growth strategy and strategic vision includes creating an environment where all employees feel valued and can contribute their unique strengths to our collective success, ensuring we attract and retain a talented global workforce to meet our clients' evolving needs.

SUSTAINING OUR ENTERPRISE: A BUSINESS MODEL THAT CONSIDERS ALL ASPECTS OF STAKEHOLDER VALUE

JLL holds a strategic role in the real estate value chain, acting as an intermediary that connects real estate owners, occupiers, investors, and developers. Combined with the global scale of our operations, we are positioned to shape a more resilient and sustainable industry while driving positive outcomes for our clients, stakeholders, and the communities where we operate.

Our Sustainability Program

JLL's sustainability program is focused on delivering impact in three key areas: climate action, healthy spaces and inclusive places. We call this our Sustainability Framework, with each area supported by specific targets. The implementation of the program is supported by a global governance structure for sustainability.

Four principles drive our sustainable leadership and demonstrate how we deliver a positive impact for our stakeholders.

- 1 **Being a responsible business** is central to our values and everything we do. Leading by example gives us the credibility to talk to our clients and advance industry action on sustainability
- 2 **Harnessing the power of our people**, giving them the opportunity, knowledge, and tools to own their success and valuing what makes them unique
- 3 **Driving change through client solutions** to maximize impact, collaborating to transform and transition toward more sustainable outcomes
- 4 **Advocating for a better real estate sector** by driving demand for sustainability, demonstrating thought leadership and engaging the industry, governments and society on the issues that matter most

Our priorities are informed by evolving sustainability reporting standards. We conduct a double materiality assessment, aligned with the European Sustainability Reporting Standards (ESRS), that considers both the impacts of sustainability factors on our business and our impact on people, communities and the environment. This assessment identifies key sustainability topics that inform our strategic decision-making and guide our efforts to create value for all our stakeholders.

Additional information on our sustainability approach and performance is available in our Sustainability Statement on our website. Our 2025 Statement is due for publication in the second quarter of 2026.

Creating Sustainable Value for Our Stakeholders

We strive to create a healthy and dynamic balance between generating short-term value through effective management of current transactions and business activities, and creating long-term returns through strategic investments in talent, acquisitions, and technologies.

Sustainability services represent a significant opportunity that aligns with this approach. Our clients increasingly require integrated, technology-enabled services that deliver consistent outcomes across diverse geographic portfolios. In response, JLL has invested in developing sustainability services powered by a suite of technology solutions, creating an end-to-end approach that enables clients to achieve their goals.

Our global team of sustainability professionals helps clients optimize their operations and achieve decarbonization objectives. Our dedicated sustainability services follow a structured three-phase programmatic approach to achieve results across all types of real estate portfolios, projects and transactions:

- Plan, to help clients develop carbon baselines and actionable sustainability strategies;
- Act, to execute targeted sustainability initiatives and capital projects; and
- Manage, to optimize performance through ongoing management, monitoring and compliance reporting.

As sustainability becomes increasingly central to real estate decision-making, our capabilities allow us to help clients navigate this evolving landscape, create meaningful career opportunities for our employees, and generate value for our shareholders.

COMPETITION

We operate globally across a wide variety of highly-competitive business lines within the commercial real estate services industry. Our significant growth over the last decade, and our ability to take advantage of the consolidation which has taken place in our industry, have made us one of the largest commercial real estate services and investment management providers on a global basis, though the industry remains fragmented.

As we provide a broad range of commercial real estate and investment management services across many geographies, we face competition at international, regional and local levels. We also see companies entering the market who may not traditionally be considered real estate service providers, including investment banking firms, investment managers, accounting firms, technology firms, software-as-a-service companies, firms providing co-working space, firms providing outsourcing services of various types (including technology, food service and building products) and companies that self-perform their real estate services with in-house capabilities.

DISTINGUISHING ATTRIBUTES AND COMPETITIVE DIFFERENTIATORS

We deliver exceptional strategic, fully-integrated services, best practices and innovative solutions for real estate owners, occupiers, investors and developers worldwide through an integrated global platform. We invest in technology and data capabilities that provide our people and our clients with the best insights and advice, driving productivity and client results. These characteristics, among others, distinguish us from our competitors, drive service excellence and customer loyalty, and demonstrate our commitment to a sustainable future.

While we face formidable competition in individual markets, the following are key attributes differentiating JLL for clients seeking real estate and investment management services across the globe.

Client Relationship Management

Our client-driven focus enables us to develop, sustain and grow long-term client relationships that generate additional business opportunities and resilient revenue streams. Clients are an essential component of our business model, and we enable superior service delivery through ongoing investments in the people, processes and tools that support client relationship management. Our client experience management platform allows us to gather, understand and act on our clients' feedback.

Our goal is to provide a holistic understanding of our clients' needs across our business, curate a customized experience and identify the right management approach for our clients to drive accountability and bring the best of JLL. We achieve superior client service through best practices in client relationship management, seeking and acting on regular client feedback, and recognizing each client's own specific definition of excellence. We invest in developing the highest caliber talent dedicated to managing our client relationships through an employee compensation and evaluation system aligned with our global career framework and designed to reward client relationship building, teamwork and quality performance.

Globally Integrated Business Model and "One JLL"

Through the combination of a wide range of high-quality, complementary services, we develop and implement real estate strategies that meet the increasingly complex and far-reaching needs of our clients. With operations spanning the globe, our in-depth knowledge of local, regional and international markets along with our "One JLL" approach — leveraging the ability and connectivity of our people — can provide services which address the entire life cycle of real estate around the world. "One JLL" enables cross-selling opportunities across geographies and service offerings that we expect will continue to develop new revenue sources and growth.

Technology Leadership

Technology is transforming commercial real estate and is top of mind for our clients. JLL's technology strategy is to curate a portfolio of impactful and transformative technology products that drive revenue growth and increase the profitability of JLL, anchored in both an AI-forward approach and one that enables us to deliver valuable insights to our clients.

We make significant investments in AI, data and technology to empower our people and clients to achieve success. For example, our LeasingOS platform is a digital command center that streamlines the entire leasing process and provides a real-time environment for brokers and clients to collaborate.

We are a leader in the development and deployment of AI to transform CRE, backed by our proprietary data. Powered by our foundational AI platform, JLL Falcon, we're building AI capabilities into our products to address complex problems and needs, while delivering data-backed insights and performance gains for our clients. For instance:

- JLL Azara is an AI-powered CRE data and business intelligence platform that transforms how business leaders interact with corporate real estate and facilities management data.
- JLL GPT is a generative AI assistant, purpose-built for the CRE industry, used by tens of thousands of our employees every day to increase efficiency and deliver customized solutions for clients.

JLL has successfully scaled AI from experimentation to everyday business operations, achieving high user satisfaction and demonstrating clear competitive differentiation.

Brand

The combined strength of our JLL and LaSalle brands represents a significant advantage when we pursue new business opportunities, and is also a major motivator for talented people to join our global organization.

Large corporations, institutional investors and occupiers of real estate recognize our ability to create value reliably in changing market conditions, based on (i) evidence provided by brand perception surveys we have commissioned, (ii) extensive coverage we receive in top-tier business publications, (iii) awards we receive in real estate, sustainability, innovation, data/technology and ethics, as well as (iv) our significant, long-standing client relationships.

Our reputation derives from our deep industry knowledge providing actionable intelligence, global provision of high-quality professional real estate and investment management services, and our local expertise and sector specialization, ensuring that our clients receive a best-in-class service.

We believe in uncompromising integrity and the highest ethical conduct, where our Board of Directors and senior management lead by example. We are proud of the global reputation we have earned, and are determined to protect and enhance it. The integrity our brand represents is one of our most valuable assets and a strong differentiator for JLL.

SEE A BRIGHTER WAY, our global brand idea, embodies our commitment to bring optimism, innovative ideas and unmatched intelligence in everything we do for our clients. This has helped us to increase the value of our brand, and continues to support our quest to shape the future of real estate for a better world.

Employee Experience

Our people are united by our purpose to shape the future of real estate for a better world. Our purpose, combined with our strategic focus areas, positions us for exciting business growth. Embedded in everything we do are our values: Teamwork, Ethics and Excellence. Driving the best people experience is imperative, enabling our employees to continue to grow with JLL while also feeling part of an inclusive and collaborative culture. We give employees the opportunity, knowledge and tools to own their success as we value what makes each of us unique.

Our goal-setting framework is anchored to the pillars of our strategy. This fosters alignment of our people's efforts with the enterprise-wide strategy throughout all levels of the organization and builds focus and attention on our priorities. Ongoing employee feedback is important to the continued improvement of our organization and, to harness this valuable feedback, we conduct an all-employee survey regularly, measuring key aspects such as engagement, leadership, inclusion and well-being.

Financial Strength

Our broad geographic reach and the range of our global service offerings diversify the sources of our revenue, increasing the overall resilience of our business. This further differentiates JLL from firms with more limited service offerings, and/or that are only local or regional and must rely on fewer markets.

Confidence in the financial strength of long-term service providers is important to our clients, who require this when they select real estate service providers. We focus on maintaining financial performance metrics that support investment-grade financial ratings, namely our leverage and debt service coverage ratios. We continue our long history of investment grade credit ratings from Moody's Investors Service, Inc. ("Moody's") and Standard & Poor's Ratings Services ("S&P"). Our issuer and senior unsecured ratings as of December 31, 2025 are Baa1 from Moody's and BBB+ from S&P. Accordingly, our ability to present a strong financial condition may distinguish us as we compete for business, notably in the Real Estate Management Services segment.

We have ample capacity to fund our business. As of December 31, 2025, corporate liquidity was \$3.9 billion, the sum of cash and cash equivalents and the available capacity on our unsecured credit facility (the "Facility"). The Facility is provided by an international syndicate of banks, which, as of December 31, 2025, had a maximum borrowing capacity of \$3.3 billion and a maturity date in November 2028. In addition to our Facility, we maintain a commercial paper program in which we may issue up to \$2.5 billion of short-term, unsecured and unsubordinated commercial paper notes at any time.

Focus on Sustainability

Leading on sustainability is fundamental to both our purpose and our long-term growth strategy, with a strong correlation to business success. Being a responsible corporate citizen is the right thing to do and aligns with what our clients and employees expect from us.

Our Sustainability Statement provides information on our management approach and performance against the three issue areas that underpin our sustainability program, as well as additional sustainability-related impacts identified through our sustainability materiality review.

Industry-Leading Research and Data Capabilities

We invest in and rely on comprehensive research to support and guide the development of real estate and investment strategy for our clients. With hundreds of research professionals who gather data and cover market and economic conditions around the world, we are a leading adviser within the commercial real estate industry. Research plays a key role in keeping colleagues and clients attuned to important trends and changing conditions in markets globally. We continue to devise and invest in new approaches through data science and other technology to make our research, services and property offerings more readily available to our people and clients.

We believe our investments in research, technology, data science and analytics, people and thought leadership position JLL as a leading innovator in our industry. Our research initiatives investigate emerging trends to help us anticipate future conditions and shape new services to benefit our clients, which in turn help us secure and maintain profitable long-term relationships with the clients we target: the world's leading real estate owners, occupiers, investors and developers.

Awards

We won numerous awards and recognitions through January 2026 that reflect the quality of the services we provide to our clients, the integrity of our people and our desirability as a place to work. As examples, we were named:

- An Energy Star Sustained Excellence Award recipient, by the U.S. Environmental Protection Agency, every year since 2012
- One of the World's Most Ethical Companies by the Ethisphere Institute, every year since 2008
- A World's Most Admired Company by Fortune Magazine, every year since 2017
- To the Human Rights Campaign Foundation's Corporate Equality Index, a benchmarking survey on corporate policies and practices related to LGBTQ workplace equality, every year since 2015
- One of the Best Places to Work for Disability Inclusion by the Disability Equality Index, for the seventh consecutive year
- One of America's 100 Most Sustainable Companies by Barron's, for the sixth consecutive year
- To the Wall Street Journal's Management Top 250 ranking, for the sixth consecutive year
- One of America's Most JUST Companies by Forbes/JUST Capital, for the fourth consecutive year
- One of U.S. News & World Report's Best Companies to Work For, for the fourth consecutive year
- One of The World's Best Companies by Time and Statista for the second consecutive year
- One of Forbes' Most Trusted Companies for the second consecutive year
- One of America's Climate Leaders by USA Today for the second consecutive year

INTEGRATED REPORTING

JLL was one of the first U.S. listed companies to participate in the International Integrated Reporting Council ("IIRC"), and we continue to support the general principles set forth by the <IR> Framework, which are designed to promote communications and integrated thinking about how an organization's strategy, governance, and financial and non-financial performance lead to the creation of value over the short, medium and long term.

Components of Our Integrated Reporting. This Annual Report on Form 10-K focuses on our business strategy and our financial performance, including an attempt to illustrate how being a sustainable enterprise is integral to our success. Our citizenship and sustainability efforts for ourselves and our clients are reflected primarily in our annual Sustainability Report, available through our Sustainability Reporting Hub. Our governance and remuneration practices are reported primarily in the Proxy Statement for our Annual Meeting of Shareholders. The mechanisms we use to make our clients comfortable with respect to our transparency and fair dealing are summarized in our Ethics Everywhere Annual Report. The behaviors and standards we expect of our employees and of the suppliers we engage for our own company and on behalf of clients are presented in our Code of Ethics and our Vendor Code of Conduct. We publish details of our ethics program and ethics statistics in our Ethics Everywhere Annual Report to increase transparency and understanding of the types of concerns and issues raised through our reporting channels.

Responsibility for Integrated Reporting. Our Finance, Legal and Sustainability functions are primarily responsible for the integrity of our integrated reporting efforts, collaborating in the preparation and presentation of this report and engaging our organization's leadership.

SEASONALITY

Historically, we have reported a relatively smaller revenue and profit in the first quarter with both measures increasing during each of the following three quarters. This is a result of a general focus in the real estate industry on completing or documenting transactions by calendar year end and the fact that certain expenses are constant throughout the year. Our seasonality excludes the recognition of investment-generated performance fees and realized and unrealized investment equity earnings and losses. Specifically, in our Investment Management business, we recognize incentive fees when assets are sold or as a result of valuation increases in the portfolio, the timing of which may not be predictable or recurring. In addition, investment equity gains and losses are primarily dependent on underlying valuations, and the direction and magnitude of changes to such valuations are not predictable. Non-variable operating expenses, which we treat as expenses when incurred during the year, are relatively constant on a quarterly basis.

HUMAN CAPITAL

The following table details our global headcount for reimbursable and non-reimbursable employees.

(in thousands)	December 31, 2025	December 31, 2024
Professional non-reimbursable employees	58.6	58.2
Directly reimbursable employees	54.6	53.9
Total employees	113.2	112.1

The costs associated with directly reimbursable employees are fully reimbursed by clients, primarily in Real Estate Management Services. Specifically, reimbursable employees include many of our Workplace Management and Property Management professionals, inclusive of our building maintenance employees.

Our employees do not report being members of any labor unions, with the exception of approximately 4,100 building maintenance employees in the United States, over 78% of whom are reimbursable. As of both December 31, 2025 and December 31, 2024, approximately two-thirds of our employees were based in countries other than the United States.

At JLL, our community of people is united by our shared purpose of shaping the future of real estate for a better world through our values of teamwork, ethics and excellence. We hold true to our people promise of giving every employee the opportunity, knowledge and tools to own their success while celebrating what makes each person unique.

Employee Engagement

Our vibrant workplace culture is reflected in our annual People Survey results, where 90,000 (81%) employees across all levels and backgrounds shared their perspectives, resulting in an engagement score of 80, surpassing the high-performance organizations benchmark by 1 point.

We create a work environment that supports the growth and interests of our employees. Our programs provide a framework that recognizes and understands our colleagues' distinct aspirations and needs throughout our company. This approach enables us to develop strategies that resonate with different groups, ensuring all employees can access resources that support their success.

We have various ways for employees to connect and engage through volunteering, community groups and well-being programs. Employee engagement efforts are open to all employees, and continue to foster an environment where connections flourish, providing inclusive platforms for career learning and relationship-building across our global community. These groups strengthen our culture of belonging while creating pathways to enhance business acumen and professional development.

Training and Development

As our business has evolved, so too have our broader learning and development platform and products. We continue to upskill our workforce on future-focused skills, ensuring our employees worldwide have the development they need, whether for technical or professional development, leveraging our MyLearning platform. Over 100,000 employees annually have been able to learn, in seven different languages, through a variety of modality offerings including Instructor Led, Virtual Instructor Led and on-demand offerings about topics such as, but not limited to leadership, AI, sustainability, career development and the future of work. Our learning platforms have resulted in over 2 million learning assets consumed in 2025 to accelerate the development of our employees.

Using extensive internal and external research, we have a set of core leadership behaviors that drive our near and long-term success. These behaviors are the foundation for leadership development, leadership performance and talent assessments, succession planning and other talent processes. Our award-winning development platform, Leading the Way, incorporates these leadership behaviors and our employees can self-assess against them to participate in programs.

Leading the Way is an end-to-end platform that helps our employees grow their leadership skills from frontline to executive. In 2025, we graduated over 1,400 employees in Leading the Way nomination programs and reached over 8,000 completions of on-demand learning through e-learning, live webinars, and top talent initiatives. These programs incorporate elements of coaching, mentorship and partnerships with a variety of business schools, ensuring comprehensive leadership development across all levels of our organization.

We're leading the industry in technological innovation by integrating AI tools into our goal-setting platform. This advancement empowers employees to set personalized, persona-driven goals that align with their individual career paths and skill development, creating an environment where everyone has access to growth opportunities.

Well-being

Our well-being framework, consisting of physical, mental, financial and inclusion pillars, fosters a culture of holistic care that empowers our approximately 113,000 employees to thrive both personally and professionally. Through our global well-being site, employees can access live and virtual resources on topics such as mental health, financial education and caregiver support. Our Well-being hub offers over 120 sessions globally, addressing all aspects of employee wellness. In 2025, the hub has been viewed over 65,000 times, with employees completing several hundred hours of courses throughout the year.

Health and Safety

Health and safety is at the forefront of JLL's operations. With over 1,000 health and safety professionals, we are committed to creating an environment that unequivocally protects our employees, clients and supply partners.

To effectively manage health and safety, our program is certified to the internationally recognized health and safety management standard ISO 45001. We implement global health and safety standards that ensure we apply a consistent approach to harm prevention and operate assurance programs to ensure legal compliance.

We recognize that successful health and safety programs are built on proactive individual and collective safe behaviors. Through our health and safety vision, "One team S.A.F.E.R together," we create a stronger culture of health and safety, underpinned by our S.A.F.E.R. behaviors: S – Speak about safety; A – Act safely; F – Focus on safety standards; E – Engage in safety initiatives; R – Recognize safe performance.

We continue to promote the importance of health and safety across JLL through our annual Global Safety Week and weekly safety communications. In addition, we regularly assess the safety culture across JLL, and in 2025 over 20,000 employees participated in our Global Safety Culture Survey, demonstrating ongoing improvement in JLL's safety culture and performance above industry benchmark.

INTELLECTUAL PROPERTY

We regard our technology and other intellectual property, including our brands, as a critical part of our business.

We hold various trademarks, trade dress and trade names and rely on a combination of patent, copyright, trademark, service mark and trade secret laws, as well as contractual restrictions to establish and protect our proprietary rights. We own numerous domain names, have registered numerous trademarks, and have filed applications for the registration of a number of our other trademarks and service marks in the United States and in foreign countries. We hold the "Jones Lang LaSalle," "JLL," "LaSalle Investment Management" and "LaSalle" trademarks and the related logos to conduct the material aspects of our business globally. We own the rights to use the ".jll" and ".lasalle" top level domain names.

Although we believe our intellectual property plays a role in maintaining our competitive position in a number of the markets we serve, we do not believe we would be materially adversely affected by the expiration or termination of our trademarks or trade names or the loss of any of our other intellectual property rights other than the "JLL," "Jones Lang LaSalle," "LaSalle," and "LaSalle Investment Management" names, and our Design (Three Circles) mark that is also trademarked. Our trademark registrations have to be renewed every ten years, which we expect to continue to renew, as necessary. Based on our most recent trademark registrations, the JLL mark will expire in 2034. The JLL Design (Three Circles) mark will expire in 2031. Our LaSalle and LaSalle Investment Management marks will expire in 2031.

In addition to our trademarks and trade names, we also have proprietary technologies for the provision of complex services and analysis. We also have a number of pending patent applications in the U.S. to further enable us to provide high levels of client service and operational excellence. We will continue to file additional patent applications on new inventions, as appropriate, demonstrating our commitment to technology and innovation.

CORPORATE GOVERNANCE; CODE OF BUSINESS ETHICS; CORPORATE SUSTAINABILITY AND RELATED MATTERS

We are committed to the values of effective corporate governance, operating our business to the highest ethical standards and conducting ourselves in an environmentally and socially responsible manner. We believe these values promote the best long-term performance of JLL for the benefit of our shareholders, clients, staff and other constituencies.

Corporate Governance. We believe our policies and practices reflect corporate governance initiatives that comply with the listing requirements of the NYSE, the corporate governance requirements of the Sarbanes-Oxley Act of 2002, U.S. Securities and Exchange Commission ("SEC") regulations, the Dodd-Frank Wall Street Reform and Consumer Protection Act, and the General Corporation Law of the State of Maryland, where we are incorporated.

Our Board of Directors ("the Board") regularly reviews corporate governance developments and modifies our Bylaws, Guidelines and Committee Charters accordingly.

We have adopted the following corporate governance policies and approaches considered to be best practices in corporate governance.

- Annual elections of all members of our Board
- Annual "say on pay" votes by shareholders with respect to executive compensation
- Right of shareholders owning 30% of the outstanding shares of our Common stock to call a special meeting of shareholders for any purpose
- Majority voting in Director elections
- Separation of Chairman and CEO roles, with the Chairman serving as Lead Independent Director
- Required approval by the Nominating, Governance and Sustainability Committee of any Director or Executive Officer related-party transactions
- Executive session among the Non-Executive Directors at each in-person meeting
- Annual self-assessment by the Board and each of its Committees

Code of Ethics. Our Code of Ethics which sets forth the ethics principles that guide our operations globally and applies to all employees of JLL and the members of our Board. The Code of Ethics is the cornerstone of our Ethics Everywhere Program, by which we establish the operating framework to communicate, monitor and enhance our ethical culture and maintain compliance with our Code. As we operate in a service industry, the integrity our brand represents is one of our most valuable assets. For 2024 and 2025, we received *Compliance Leader Verification* from Ethisphere, a leading organization dedicated to advancing best practices in ethics, compliance, corporate governance and citizenship. The *Compliance Leader Verification* process involves a rigorous review of an ethics and compliance program and corporate culture and is awarded to select organizations that demonstrate a high level of excellence. As previously noted, we have also earned Ethisphere's World's Most Ethical Companies recognition every year since 2008.

Our Whistleblower and Non-Retaliation Policy and our Human Rights Policy also support our values and our commitment to ethical business practices. We support the principles of the United Nations Global Compact and the United Nations Principles of Responsible Investing. We are also a member of the Partnering Against Corruption Initiative sponsored by the World Economic Forum.

Vendor Code of Conduct. In 2025, we launched an updated version of our Vendor Code of Conduct. We expect each of our vendors, meaning any firm or individual providing a product or service to us, or indirectly to our clients as a contractor or subcontractor, will share and embrace the letter and spirit of our commitment to integrity. While vendors are independent entities, their business practices may significantly reflect upon us, our reputation and our brand. Accordingly, we expect all vendors to adhere to the JLL Vendor Code of Conduct, which we publish in multiple languages on our website. We continue to evaluate and implement new ways to monitor the quality and integrity of our supply chain. This includes developing means to efficiently survey and compare responses about the ethical environment and riskiness of current and potential suppliers we engage both for our own company and on behalf of clients.

Corporate Sustainability. We encourage and promote the principles of sustainability everywhere we operate, seeking to improve the communities and environment in which our people work and live. We design our corporate policies to reflect the highest standards of corporate governance and transparency, and we hold ourselves responsible for our social, environmental and economic performance. We seek to incorporate sustainability practices and principles into our client investments and asset management. These priorities guide the interactions we have with our shareholders, clients, employees, regulators and vendors, as well as with all others with whom we come into contact. We recognize both the risks and opportunities presented by climate change and seek to address these impacts in and beyond our business.

We strive to create an inclusive environment that recognizes the value of different perspectives and experiences. Our approach aims to enhance our performance and contribute positively to the communities in which we operate. We are committed to fair and equitable practices in recruitment, development and promotion. We believe that embracing a wide range of experiences and viewpoints among our employees contributes to our overall success and innovation.

Corporate Political Activities. Our general approach is to not take positions as an organization on social or political issues or on political campaigns. Accordingly, we do not permit contributions in JLL's name for political activities. From time to time, we may comment on proposed legislation or regulations that directly affect our business interests and therefore the interests of our shareholders. We may also belong to industry trade associations that do become involved in attempts to influence legislation in the interests of the industry generally.

COMPANY WEBSITE AND AVAILABLE INFORMATION

JLL's website address is www.jll.com. We use our website as a channel of distribution for company, financial and other information. Our website also includes information about our corporate governance. We intend to post on our website any amendment or waiver of the Code of Ethics with respect to a member of our Board or any of the executive officers named in our proxy statement.

On the Investor Relations page on our website, we make available our Annual Report on Form 10-K, our Proxy Statement on Schedule 14A, our Quarterly Reports on Form 10-Q, our Current Reports on Form 8-K and any amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934 (the "Exchange Act"). The SEC maintains www.sec.gov, containing annual, quarterly and current reports, proxy statements and other information we file electronically with the SEC.

ITEM 1A. RISK FACTORS

In addition to other information set forth in this report, you should carefully consider the following risks that, based upon current knowledge, information and assumptions, could materially adversely affect our business, financial condition and results of operations. Some of these risks and uncertainties could affect particular segments or geographies, while others could affect all of our businesses. Although each risk is discussed separately, many are interrelated.

These risk factors do not identify all risks we face; our operations could also be affected by factors not presently known to us or that we currently consider to be not significant to our operations. Our business is also subject to general risks and uncertainties which broadly affect all companies.

Categorization of Enterprise Risks. This section reflects our current views, as of the issuance of this report, concerning the most significant risks we believe our business faces, both in the short and long term. For purposes of the following analysis and discussion, we group the risks we face according to five principal categories:

- Operational Risk Factors
- Strategic Risk Factors
- Legal, Compliance and Regulatory Risk Factors
- Financial Risk Factors
- General Risk Factors

Although risks we identify may fit the criteria of more than one category, we chose the category we view as primary. We do not present the risks below in their order of significance, the relative likelihood we will experience a loss, or the magnitude of any such loss. Certain risks also may give rise to business opportunities for us, but our discussion of risk factors in Item 1A is limited to the adverse effects the risks may have on our business.

Operational Risk Factors

Operational risk relates to risks arising from systems, processes, people and external events that affect the operation of our businesses. It includes information management and data protection and security, including cybersecurity; supply chain and business disruption; health and safety; and other risks, including human resources and reputation.

INSUFFICIENT ORGANIZATIONAL AGILITY ACROSS OUR STRATEGY, STRUCTURE, PROCESSES, PEOPLE AND TECHNOLOGY MAY IMPACT OUR COMPANY'S SUCCESS.

Our business is evolving at a rapid pace. Our organizational agility underpins our ability to mitigate many other risks, minimize impacts from adverse events, and capitalize upon opportunities when presented. The sheer size and footprint of our company - with over 113,000 employees across more than 80 countries - makes change-management and responsiveness challenging. Any global change is a complex undertaking. Insufficient proactive and reactive organizational agility and responsiveness to industry trends and other external factors may negatively impact our results, reputation, and the differentiated services we provide as compared to our competitors.

WE MAY FACE CHALLENGES IN RETAINING OUR SENIOR MANAGEMENT, MAINTAINING OUR WORKFORCE CULTURE, AND ATTRACTING AND DEVELOPING QUALIFIED EMPLOYEES.

Our success largely depends on the expertise of our senior management team and key personnel who possess extensive knowledge of our business and strategy, as well as colleagues critical to developing and retaining client relationships. The competitive nature of our industry presents ongoing challenges for retaining and attracting skilled personnel with relevant industry experience and knowledge.

Regional and national labor policies, which can be difficult to predict, may indirectly impact our ability to retain and attract key personnel.

Our ability to achieve our strategic vision, maintain business continuity, and ensure high-quality client service depends on successfully identifying, attracting, developing, and retaining talent in key positions, as well as maintaining a strong pipeline of successors for important management roles. Failure to do so could disrupt our business, impact revenues, increase costs, and affect staff morale.

As technology and market demands shift, we recognize the need to continuously upskill and reskill our workforce to maintain our competitiveness and efficiency. Failing to address this need promptly could affect our ability to adapt to changing market conditions.

OUR RELIANCE ON THIRD PARTIES COULD EXPOSE US TO INCREASED ECONOMIC AND REPUTATIONAL HARM.

We rely on third parties, and in some cases subcontractors, to perform activities on behalf of our organization to improve quality, increase efficiencies, reduce costs and lower operational risks across our business and support functions. We continue to use a Vendor Code of Conduct, which is published in multiple languages on our website, to communicate to our vendors the standards of conduct we expect them to uphold. Our contracts with vendors also generally impose a contractual obligation to comply with our Vendor Code. In addition, we leverage technology at an increasing rate to help us better screen vendors, with the aim of gaining a deeper understanding of the risks posed to our business by potential and existing vendors. If our third parties do not have the proper safeguards and controls in place, or if appropriate oversight cannot be provided, or if they fail to comply with service level agreements or regulatory or legal requirements in a high-quality and timely manner, we could be exposed to increased operational, regulatory, financial or reputational risks. Our reliance on third parties is increasing, particularly for critical technology and data services. This creates heightened exposure to supplier-related risks, including operational disruption from system outages, cybersecurity breaches originating from vendor systems, and vendor lock-in that may lead to aggressive pricing or costly migrations. Failures by either our technology or non-technology service delivery suppliers could cause damage to our reputation and harm to our business.

OUR HEALTH, SAFETY, SECURITY AND ENVIRONMENT PROGRAM, POLICIES, AND PROCEDURES (INCLUDING THOSE OF OUR CONTRACTORS AND SUBCONTRACTORS) MAY NOT BE ADEQUATE.

Health, safety and security is a prominent part of our purpose and values, which is why we have taken steps to implement what we believe are strong operational health and safety controls. Our goal is to ensure those with whom we work and interact are unharmed by our operations. We have a multi-disciplinary safety management structure, with executive sponsorship, aimed at managing existing and emerging health and safety risks, and achieving continuous improvement.

However, despite significant investments in our safety platform, management systems and vendor due diligence program, if our health and safety policies, procedures, and programs are not adequate, or if our employees or contractors do not receive or complete adequate training or comply with our policies and procedures, we may be, and have previously been, exposed to significant consequences including serious injury or loss of life, which could have a material impact on our financial performance and reputation. Despite our efforts, we recently experienced an increase in the number of serious safety incidents, including fatalities of both employees and contractors. As a result, we have identified and implemented additional safety measures for our employees and subcontractors including electrical safety and work at heights training, and enhanced controls for approving work. Our contractors and their subcontractors are highly integrated into many aspects of our operations and therefore are involved in a significant proportion of the safety incidents we experience. Additional efforts are necessary to ensure our vendors are aware of our high health and safety expectations and consistently comply with our policies and procedures.

WE FACE BUSINESS DISRUPTION AND RELATED RISKS RESULTING FROM HEALTH EPIDEMICS.

Health epidemics that affect the general conduct of business in one or more urban areas (including as the result of travel restrictions and the inability to conduct face-to-face meetings) have occurred in the past, for example from influenza or COVID-19, and may occur in the future from other types of outbreaks. Such instances can adversely affect the volume of business transactions, real estate markets and the cost of operating real estate or providing real estate services.

DISRUPTIONS IN COMPUTER SYSTEMS, PRIVACY BREACHES OR CYBERSECURITY ISSUES, OR FAILURES TO EXECUTE OUR ENTERPRISE-WIDE DATA STRATEGY, COULD IMPACT OUR ABILITY TO SERVICE OUR CUSTOMERS AND ADVERSELY AFFECT OUR BUSINESS, DAMAGE OUR REPUTATION AND EXPOSE US TO FINANCIAL RISK.

Our business is highly dependent on our ability to collect, use, store and manage organizational and client data. If any of our significant information and data management systems do not operate properly or are disabled, we could suffer a disruption of our businesses, liability to clients, loss of client or other sensitive data, loss of employee data, regulatory intervention, breach of confidentiality or other contract provisions, or reputational damage. These systems may fail to operate properly or become disabled as a result of events wholly or partially beyond our control, including disruptions of electrical or communications services, as well as disruptions caused by natural disasters, political instability, terrorist attacks, sabotage, computer viruses, deliberate attempts to disrupt our computer systems through "hacking," "phishing," or other forms of both deliberate or unintentional cyberattack, or our inability to occupy one or more of our office locations. As we outsource significant portions of our information technology functions, such as cloud computing, to third-party providers, we bear the risk of having less direct control over the manner and quality of performance.

Our enterprise data governance is responsible for identifying, defining and providing direction and oversight of significant data-related business needs. Failure to effectively execute our enterprise-wide data strategy may lead to a loss of sensitive or critical data, costly remediation of data-related issues and possible regulatory or contractual penalties.

Cyber threats are proliferating and advancing the ability to identify and exploit vulnerabilities, requiring continuous evaluation and improvements to our security architecture and cyber defenses. The risk of cyber threats also extends to suppliers and vendors we engage on a principal basis to perform various services. We also face increased cybersecurity risk as we deploy additional mobile and cloud technologies. We service clients across multiple industry verticals - many of which are higher-profile cyber targets themselves - including financial services, technology, government institutions, healthcare and life sciences, and because of this the risk that we are subject to cyberattack incidents may increase. In addition, the rapid evolution and increased adoption of artificial intelligence technologies amplify these risks. We are continuously hardening our infrastructure built on these technologies, monitoring for threats, and evaluating our capability to respond to any incidents to minimize any impact to our systems, data, or business operations. However, we cannot ensure that these measures will be successful in preventing any cyberattacks.

We have experienced various types of cyberattack incidents which, to date, have been contained and not material to us. As the result of such incidents, we continue to implement new controls, governance, technical protections and other procedures. We maintain a cyber risk insurance policy, but the costs related to cybersecurity threats or disruptions may not be fully insured. We may incur substantial costs and suffer other negative consequences such as liability for damages, reputational harm and significant remediation costs and experience material harm to our business and financial results if we, or vendors or suppliers we engage on behalf of our clients, fall victim to other successful cyberattacks.

In addition, we collect personal information and other data as part of our business processes and activities. This data is subject to a variety of U.S. and foreign laws and regulations, including oversight by various regulatory or other governmental bodies. The European Union ("EU") General Data Protection Regulation, for example, imposes stringent data protection requirements and provides significant penalties for noncompliance. Any inability, or perceived inability, to adequately address data privacy and data protection concerns, even if unfounded, or comply with applicable laws, regulations, policies, industry standards, contractual obligations, or other legal obligations (including at newly-acquired companies) could result in additional cost and liability to us or company officials, damage our reputation, inhibit sales, and otherwise adversely affect our business.

RISKS RELATING TO SERVING LARGE CLIENTS AND THE TERMS OF OUR CLIENT CONTRACTS.

We provide services to many of the world's largest and most sophisticated corporate and investor clients. Our business could be adversely affected by the loss of a major client or the disruption of key client relationships.

Deepening relationships with our large enterprise clients may intensify client concentration risk, where a service delivery failure or relationship issue in one service line could jeopardize our entire relationship with that client across other or even all business lines. We are dependent on long-term client relationships and revenue received for services under various service agreements. In this competitive market, if we are unable to maintain these relationships or are otherwise unable to retain existing clients and develop new clients, our business, results of operations and/or financial condition may be materially adversely affected.

In addition, the competitive environment for servicing large clients may require us to agree to contractual terms that increase our potential risk and liability. To secure and retain business, we may need to compromise on terms related to liability limitations, indemnification obligations, credit terms, and the allocation of risk. Where competitive pressures result in higher levels of potential liability under our contracts, the financial impact of operational errors or other matters for which we have indemnified our clients could be significant and may not be fully covered by our insurance.

WE ARE EXPOSED TO LEGAL AND REPUTATIONAL RISKS ARISING FROM BREACH OF FIDUCIARY OBLIGATIONS CLAIMS PURSUANT TO CLIENT CONTRACTS.

In certain cases, we are subject to fiduciary obligations to our clients, which may result in a higher level of legal obligation compared to basic contractual obligations. These relate to, among other matters, the decisions we make on behalf of a client with respect to managing assets on its behalf, purchasing products or services from third parties or other divisions within our Company, or handling substantial amounts of client funds in connection with managing their properties or complicated and high-profile transactions. We face legal and reputational risks in the event we do not perform, or are perceived to have not performed, under those contracts or in accordance with those obligations, or in the event we are negligent in the handling of client funds or in the way in which we have delivered our professional services. The increased potential for the fraudulent diversion of funds from a "hacking" or "phishing" attack exacerbates these risks.

The precautions we take to prevent these types of occurrences, which represent a significant commitment of corporate resources, may nevertheless be ineffective in certain cases.

WE ARE SUBJECT TO ACTUAL OR PERCEIVED CORPORATE CONFLICTS OF INTEREST CLAIMS.

Corporate conflicts of interest arise in the context of the services we provide as a company to our different clients. Personal conflicts of interest on the part of our employees are separately considered as issues within the context of our Code of Ethics. Our failure or inability to identify, disclose and resolve potential conflicts of interest in a significant situation could have a material adverse effect. In addition, it is possible that in some jurisdictions, regulations could be changed to limit our ability to act for certain parties where potential conflicts may exist even with informed consent, which could limit our market share in those markets. There can be no assurance potential conflicts of interest will not adversely affect us.

After reductions in the market values of the underlying properties, firms engaged in the business of providing valuations are inherently subject to a higher risk of claims with respect to conflicts of interest based on the circumstances of valuations they previously issued. Regardless of the ultimate merits of these claims, the allegations themselves can cause reputational damage and can be expensive to defend in terms of counsel fees and otherwise.

EVOLVING WORKPLACE STRATEGIES AND REAL ESTATE TRENDS, INCLUDING VARYING OFFICE REAL ESTATE OCCUPANCY RATES IN SOME GEOGRAPHIC MARKETS, MAY AFFECT DEMAND FOR OUR SERVICES AND CLIENT PORTFOLIOS.

The ongoing evolution of corporate workplace strategies continues to alter how companies use real estate, impacting demand across asset types, particularly the office sector. As organizations seek to optimize their portfolios for cost, efficiency, and employee experience, they are re-evaluating their real estate needs. This dynamic has created opportunities for our advisory services in areas like workplace strategy and design, but it also presents potential risks to our business.

A sustained “flight-to-quality,” where clients prioritize modern, well-amenitized buildings, could lead to bifurcated market performance. This may result in reduced transaction volumes and downward pressure on asset values for older or less competitive properties, which could, in turn, affect our brokerage revenues. However, while lower quality assets struggle, the high-quality segment of the market is filling up rapidly, and limited financing availability for new office construction constrains the addition of new high-end supply. This supply shortage in premium office space could limit overall market activity and present challenges for parts of our business. A shift in the mix of services demanded by clients, such as changes to the size and nature of their managed facilities, could also affect long-term annuity revenues from our Real Estate Management Services business.

For our Investment Management business, these evolving real estate dynamics may influence the performance and valuation of office-focused investment portfolios and affect investor sentiment and capital allocation decisions.

Our financial performance is linked to our ability to anticipate and adapt to these market shifts. Our success depends on our continued ability to advise clients effectively, evolve our service offerings, and help investors navigate the changing risk and opportunity profile of commercial real estate.

WITH RESPECT TO LOANS WE ORIGINATE AND SERVICE, WE FACE THE RISK OF POTENTIAL BREACHES OF REPRESENTATIONS AND WARRANTIES, WHICH MAY HAVE A MATERIAL IMPACT ON OUR BUSINESS.

Our loan origination and servicing activities include participating in the Fannie Mae DUS and Freddie Mac Optigo loan programs, among others, which require us to provide representations and warranties regarding the loans we originate. These representations and warranties relate to various aspects such as the accuracy of information provided, compliance with underwriting and eligibility requirements, and adherence to program guidelines. There is a risk that representations and warranties in connection with these programs may be breached, either inadvertently or due to unforeseen circumstances. Underlying reasons for such breaches may include inaccurate, incomplete or fraudulent information provided by borrowers or third parties, errors in documentation, changes in program guidelines, or changes in the regulatory environment. If a breach of representations and warranties occurs in loans originated or serviced by us, we may be exposed to various risks, including: contractual obligations to repurchase loans (inclusive of the outstanding principal amount of the loan, accrued interest, and associated expenses) resulting in financial losses; obligations to indemnify for losses or, for loans originated under the DUS program, increase the loss-sharing; legal actions or regulatory or other penalties imposed by Fannie Mae, Freddie Mac, or other governing bodies that could result in reputational damage, financial penalties, increased compliance requirements, or restrictions on our ability to participate in future loan programs; and other outcomes that could result in financial losses or impairment of assets, impacting our financial performance, profitability, and cash flows. Given the inherent risks associated with loan origination and servicing activities, particularly in highly-regulated programs such as Fannie Mae DUS and Freddie Mac Optigo, we maintain underwriting and due diligence processes, compliance procedures, and risk mitigation measures to minimize the likelihood of breaches, though such measures may not always be fully effective in mitigating all risks, especially in the case of breaches tied to the actions of borrowers or third parties, from whom recovery may be limited.

Strategic Risk Factors

Strategic risk relates to JLL's future business plans and strategies, including the risks associated with: the global macro-environment in which we operate; mergers and acquisitions and restructuring activities; intellectual property; and other risks, including the demand for our services, competitive threats, technology and innovation, and public policy.

WE MAY FACE CHALLENGES IN ADAPTING TO AND LEVERAGING RAPIDLY EVOLVING TECHNOLOGIES, INCLUDING ARTIFICIAL INTELLIGENCE, WHICH COULD IMPACT OUR COMPETITIVE POSITION AND FINANCIAL PERFORMANCE.

The real estate industry continues to be transformed by artificial intelligence (“AI”), including generative AI, advanced analytics, and other emerging technologies. As JLL and the sector increasingly embrace data-driven decision-making, our ability to effectively manage and utilize data and AI tools is crucial for maintaining our competitive edge. Failure to adapt to these technologies or leverage them effectively could result in loss of market share and revenues, particularly if we are unable to meet evolving client needs or align our offerings with industry standards and client expectations.

Our ability to execute our strategy is increasingly dependent on the successful adoption of AI. A failure to optimally deploy and integrate AI could result in the write-off of significant investments and a failure to realize expected productivity and efficiency gains, negatively impacting our profit margins and competitive position. As we replace human processes, we create critical dependencies on AI systems, which could lead to extended operational disruptions if those systems fail and manual backups are no longer viable. Furthermore, as an established incumbent, our legacy data architecture and the need to retrain a large workforce may impede our ability to adopt new technology as quickly as our competitors or new market entrants.

Our increasing reliance on AI technology introduces risks relating to our dependency on the accuracy and reliability of AI-generated outputs, the potential for data privacy and security breaches, and challenges in complying with rapidly-evolving AI regulations across multiple jurisdictions. Specifically, the rapid adoption of AI tools exposes us to risks of inaccurate or misleading outputs, which could lead to flawed business analysis or client advice. Furthermore, the use of generative AI may create uncertainty around intellectual property ownership of both inputs and outputs, and could increase the risk of inadvertent disclosure of confidential client or company information. In addition, as we deploy AI to create efficiencies, we face risks relating to our pricing models. A failure to adopt our pricing strategies, particularly in cost-plus arrangements, to reflect AI-enabled cost reductions could result in margin erosion or damage client relationships if our pricing is not perceived as transparent and fair.

While we have implemented policies and safeguards governing the use of AI technology and protection of our intellectual property and sensitive information, we cannot guarantee complete adherence by our employees, contractors, or other agents. The misuse or improper implementation of AI could lead to erroneous decisions, biased outcomes, regulatory fines, or reputational damage.

The legal and regulatory landscape surrounding AI also is rapidly evolving and fragmented. Jurisdictions are beginning to implement distinct regulatory frameworks, such as the European Union's AI Act, which could impose varying and potentially conflicting compliance obligations on our global operations. Navigating these changes may require significant resources to ensure compliance with both U.S. and non-U.S. laws, potentially impacting our operations and financial performance.

As AI capabilities continue to advance, we may face challenges in maintaining the relevance and competitiveness of our traditional service offerings, balancing AI-driven efficiencies with the need for human expertise in complex real estate decisions, managing client and public perceptions regarding our use of AI in service delivery, and attracting and retaining talent with the necessary skills to develop and manage AI systems.

Failure to address these challenges and risks adequately may negatively impact our operations, reputation, and financial performance. Additionally, as AI technology continues to evolve rapidly, other unforeseen risks may emerge that could adversely affect our business, financial condition, and results of operations.

IF WE FAIL TO PROTECT OUR INTELLECTUAL PROPERTY ADEQUATELY OR INFRINGE UPON THIRD-PARTY INTELLECTUAL PROPERTY RIGHTS, OUR BUSINESS COULD BE MATERIALLY IMPACTED.

Our business depends, in part, on our ability to identify and protect proprietary information and other intellectual property such as our service marks, domain names, client lists and information, business methods and technology innovations, and platforms we may create or acquire. Existing laws of some countries in which we provide or intend to provide services, or the extent to which their laws are actually enforced, may offer only limited protections of our intellectual property rights. We rely on a combination of trade secrets, confidentiality policies, non-disclosure and other contractual arrangements, and on patent, copyright and trademark laws to protect our intellectual property rights. In particular, we hold various trademarks and trade names, including our principal trade names, "JLL" and "LaSalle." If either of our registered trade names were to expire or terminate, our competitive position in certain markets could be materially and adversely affected. Our inability to detect unauthorized use (for example, by current or former employees) or take appropriate or timely steps to enforce our intellectual property rights may have an adverse effect on our business.

We cannot be sure the intellectual property we may use in the course of operating our business or the services we offer to clients do not infringe on the rights of third parties. However, we do obtain representations and warranties, as well as indemnities, from the licensors in order to mitigate this risk. We may have infringement claims asserted against us or against our clients. These claims may harm our reputation, cost us money and prevent us from offering some services.

GEOPOLITICAL VOLATILITY AND TRADE TENSIONS, INCLUDING THE IMPOSITION OF TARIFFS, COULD ADVERSELY AFFECT OUR BUSINESS.

As a global company operating in over 80 countries, we are inherently exposed to risks arising from geopolitical volatility, conflicts, and shifting international relations. The current global landscape is marked by significant tensions, including the ongoing war in Ukraine and broader instability in the Middle East, which have disrupted energy markets, global supply chains, and international trade through events like attacks on commercial shipping. Strategic competition between major global powers has led to a more fragmented and unpredictable trade environment characterized by tariffs, investment restrictions, sanctions, and controls on technology transfers. These trade barriers can directly increase the cost and complexity of real estate projects by raising prices for essential construction materials and technology, which particularly affects our Project and Development Services and Workplace Management businesses and can lead to project delays or cancellations.

Collectively, these geopolitical conditions contribute to widespread economic uncertainty, currency volatility, and reduced investor and corporate confidence. This environment can cause clients to delay or reconsider real estate investment and leasing decisions, leading to longer sales cycles and potentially lower transaction volumes that would negatively impact our capital markets, leasing, and investment management revenues. Geopolitical developments may also restrict or limit our ability to provide services in countries where we operate today. Navigating this complex landscape of sanctions and evolving trade regulations also increases our operational costs and compliance risks and can pose direct risks to the safety of our employees in affected regions. While we actively monitor these global developments and adapt our strategies to mitigate their impact, a significant escalation of conflict or trade tensions could materially harm our operations, financial performance, and reputation.

REAL ESTATE SERVICES AND INVESTMENT MANAGEMENT MARKETS ARE HIGHLY COMPETITIVE, WHICH COULD MAKE IT DIFFICULT FOR US TO MAINTAIN OUR MARKET SHARE, GROWTH RATE AND PROFITABILITY.

We face significant competition from other real estate service providers, institutional lenders, insurance companies, investment banking firms, investment managers, accounting firms, technology firms, consulting firms, co-locating providers, temporary space providers and firms providing outsourcing of various types (including technology and building products), any of which may be a global, regional or local firm, and from firms that self-perform their real estate services with in-house capabilities.

Many of our competitors are local or regional firms, which may be substantially smaller in size than us but hold a larger share of a specific local market. Some of our competitors have expanded the services they offer in an attempt to gain additional business. Some may be providing outsourced facility management services to sell clients' products that we do not offer. In some sectors of our business, some of our competitors may have greater financial, technical and marketing resources, larger customer bases, and more established relationships with their customers and suppliers than we have. Larger or better-capitalized competitors in those sectors may be able to respond faster to the need for technological change, price their services more aggressively, compete more effectively for skilled professionals, finance acquisitions more easily, develop innovative products more effectively, and generally compete more aggressively for market share. This can also lead to increasing commoditization of the services we provide and increasing downward pressure on the fees we can charge.

New competitors, or alliances among competitors that increase their ability to service clients, could emerge and gain market share, develop a lower cost structure, adopt more aggressive pricing policies, aggressively recruit our people at above-market compensation, develop a disruptive technology that captures market share, or provide services that gain greater market acceptance than the services we offer. Some of these may come from non-traditional sources, such as information aggregators or digital technology firms. To respond to increased competition and pricing pressure, we may have to lower our prices, loosen contractual terms (such as liability limitations), develop our own innovative approaches to mining data and using information, develop our own disruptive technologies, or increase compensation, which may have an adverse effect on our revenue and profit margins. We may also need to become increasingly productive and efficient in the way we deliver services, or with respect to the cost structure supporting our businesses, which may in turn require more innovative uses of technology as well as data gathering and data mining.

Our industry has continued to consolidate, and there is an inherent risk competitive firms may be more successful than we are at growing through merger and acquisition activity. While we have successfully grown organically and through a series of acquisitions, sourcing and completing acquisitions are complex and sensitive activities. Considering the continuing need to provide clients with more comprehensive services on a more productive and cost-efficient basis, we expect acquisition opportunities to continue to emerge. However, there is no assurance we will be able to continue our acquisition activity in the future at the same pace as we have in the past, particularly as we weigh acquisition opportunities against other potential uses of capital for technology and other investments in systems and human resources, as well as returning capital to shareholders.

Weaknesses in the markets in which our clients compete may lead to additional pricing pressure from clients as they themselves come under financial pressure.

THE SEASONALITY IN PARTS OF OUR BUSINESS EXPOSES US TO RISKS.

In parts of our business, our revenue and profits have historically grown progressively by quarter throughout the year mostly due to completing or documenting transactions by fiscal year-end and the fact that certain of our expenses are constant through the year. Historically, we have reported a relatively smaller profit in the first quarter and then increasingly larger profits during each of the following three quarters, excluding the recognition of investment-generated performance fees and co-investment equity gains or losses, each of which can vary from period to period.

The seasonality of these parts of our business makes it difficult to determine during the course of the year whether planned results will be achieved, and thus to budget, and to adjust to changes in expectations. In addition, negative economic or other conditions that arise at a time when they impact performance in the fourth quarter, such as the particular timing of when larger transactions close or changes in the value of the U.S. dollar against other currencies occur, may have a more pronounced impact than if they occurred earlier in the year. To the extent we are not able to identify and adjust for changes in expectations, or we are confronted with negative conditions that disproportionately impact the fourth quarter of a calendar year, we could experience a material adverse effect on our financial performance.

Growth in our Property Management and Workplace Management businesses and other services related to the growth of outsourcing of corporate real estate services has, to an extent, lessened the seasonality in our revenue and profits during the past several years.

WE ARE SUBJECT TO RISKS INHERENT IN MAKING ACQUISITIONS AND ENTERING INTO JOINT VENTURES.

Historically, a significant component of our growth has been generated by acquisitions. Any future growth through acquisitions will depend in part on the continued availability of suitable acquisitions at favorable prices and with advantageous terms and conditions, which may not be available to us.

Acquisitions subject us to several significant risks, any of which may prevent us from realizing the anticipated benefits or synergies of the acquisition. The integration of companies is a complex and time-consuming process that could significantly disrupt the businesses of JLL and the acquired company such as: diversion of management attention, failure to identify certain liabilities and issues during the due diligence process, including historical instances of misconduct, and the inability to retain personnel and clients of the acquired business.

From time to time, we have entered into joint ventures to conduct certain businesses or enter new geographies, and we will consider doing so in appropriate situations in the future. Joint ventures have many of the same risk characteristics as acquisitions, particularly with respect to the due diligence and ongoing relationship with joint venture partners, given each partner has inherently less control in a joint venture and will be subject to the authority and economics of the particular structure that is negotiated. Accordingly, we may not have the authority to direct the management and policies of the joint venture. If a joint venture participant acts contrary to our interests, it could harm our brand, business, results of operations and financial condition.

WE ARE SUBJECT TO RISKS INHERENT TO INVESTMENT AND REAL ESTATE INVESTMENT BANKING ACTIVITIES.

One component of our business strategy includes investing in (i) real estate, both individually and along with our investment management clients, and (ii) proptech funds and early to mid-stage proptech companies. As of December 31, 2025, we have unfunded commitment obligations of up to \$210.8 million to fund future investments across our investment strategies. To remain competitive with well-capitalized financial services firms, we may also use our capital to acquire properties before the related investment management funds have been established or investment commitments have been received from third-party clients.

Certain service lines we operate have the acquisition, development, management and sale of real estate and proptech investments as part of their strategy. Investing in any of these types of situations exposes us to several risks:

- We may lose some or all of the capital we invest if the investments underperform.
 - For real estate investments, underperformance may result from many factors outside of our control, including the general reduction in asset values within a particular geography or asset class.
 - For proptech investments, the concepts and strategic plans underpinning the value of the fund or entity may not be realized or could be poorly executed. In addition, the fund or entity may be negatively impacted by risks to which they are exposed (some of which we are also exposed to and are discussed elsewhere in this Item).
- We will have fluctuations in earnings and cash flow as we recognize gains or losses, and receive cash upon the disposition of investments, the timing of which may be geared toward the benefit of our clients.

In certain situations, we raise funds from outside investors where we are the sponsor of real estate investments, developments, or projects. To the extent we return less than the investors' original investments because the investments, developments, or projects have underperformed relative to expectations, the investors could attempt to recoup the full amount of their investments under securities law theories such as lack of adequate disclosure when funds were initially raised. Sponsoring funds into which retail investors can invest, such as the investment funds sponsored by Investment Management, may increase this risk.

Legal, Compliance and Regulatory Risk Factors

Legal and compliance risk relates to risks arising from the government and regulatory environment and action, legal proceedings, and compliance with integrity policies and procedures. Government and regulatory risks include the risk that government or regulatory actions will impose additional cost on us or cause us to have to change our business models or practices.

COMPLIANCE WITH MULTIPLE AND POTENTIALLY CONFLICTING LAWS AND REGULATIONS, INCLUDING SANCTIONS AND ANTI-MONEY LAUNDERING REQUIREMENTS, AND DEALING WITH CHANGES IN LEGAL AND REGULATORY REQUIREMENTS MAY BE DIFFICULT, BURDENSOME AND/OR EXPENSIVE.

We face a broad range of legal and regulatory environments in the countries in which we do business and identifying and complying with these regulations is complex. We may not be successful in complying with regulations in all situations and could, therefore, be subject to regulatory actions and fines for non-compliance.

We are subject to evolving and increasingly complex sanctions regimes and anti-money laundering (“AML”) regulations. As a global company, we must navigate a web of international sanctions imposed by various jurisdictions, including the U.S., EU and UK. These trade sanctions can target countries, entities, individuals, sectors, and designated goods, and they can change rapidly in response to geopolitical events. Failure to comply with applicable trade sanctions could result in severe penalties, including substantial fines, loss of business licenses, and reputational damage.

Similarly, AML regulations require us to implement “know your customer” (KYC) procedures and report suspicious transactions. The global nature of our business, particularly in real estate transactions and investment management, exposes us to the risk of inadvertently facilitating money laundering or terrorist financing. Penalties for AML violations can be severe, including criminal prosecution of the company and individual employees.

Our employees or supply partners may directly or indirectly engage in unethical, illegal or non-compliant practices related to bribery, corruption, money laundering, fraud, international trade sanctions, modern slavery, violations of applicable data privacy laws, or other acts that constitute a breach of our Code of Ethics. Failure to adequately prevent, monitor, and detect such behavior could lead to significant reputational damage, regulatory consequences, and adversely impact our operations, profitability and enterprise value. The increased utilization of AI by third-party fraudsters also may exacerbate all, or some, of these risks and it can be challenging to keep pace with the emerging technologies third-parties are using to commit fraudulent and other illegal acts targeting JLL and its supply chain partners.

Changes in legal and regulatory requirements can impact our ability to engage in business in certain jurisdictions or increase the cost of doing so. The legal requirements of U.S. statutes may also conflict with local legal requirements in a particular country. Avoiding regulatory pitfalls as a result of conflicting laws will continue to be a key focus as non-U.S. statutory law and court decisions create more ambiguity. The jurisdictional reach of laws may be unclear as well, such as when laws in one country purport to regulate the behavior of our subsidiaries or affiliates operating in another country.

Our global operations must comply with all applicable anti-corruption laws, including the U.S. Foreign Corrupt Practices Act and the UK Bribery Act. These anti-corruption laws generally prohibit companies and their intermediaries from making improper payments or providing anything of value to improperly influence government officials or private individuals for the purpose of obtaining or retaining a business advantage. Such prohibitions exist regardless of whether those practices are legal or culturally expected in a particular jurisdiction. Our compliance program may not prevent violations of such laws, which could result in criminal or civil sanctions and have an adverse effect on our reputation, business, and results of operations and financial condition.

U.S. laws and regulations govern the provision of products and services to, and of other trade-related activities involving, certain targeted countries and parties. As a result, we have had longstanding policies and procedures to restrict or prohibit sales of our services into countries subject to embargoes and sanctions, or to countries designated as state sponsors of terrorism. In conjunction with such policies, we have also implemented certain procedures to evaluate whether existing or potential clients appear on the "Specially Designated Nationals and Blocked Persons List" maintained by OFAC. However, the complexity and rapid changes in sanctions regimes mean that we may inadvertently engage with sanctioned entities or individuals.

Changes in governments or majority political parties may result in significant changes in enforcement priorities with respect to employment, health and safety, tax, securities disclosure and other regulations, which, in turn, could negatively affect our business.

WE ARE SUBJECT TO COMPLEX AND EVOLVING LICENSING REQUIREMENTS.

Several of our business operations are subject to requirements in various jurisdictions to maintain licenses. If we fail to maintain our licenses or conduct licensed activities without a license, we may be required to pay fines, return commissions or investment capital from investors or may have a given license suspended or revoked. Our acquisition activity increases these risks, because we must successfully transfer licenses of acquired entities and their staff, as appropriate. Licensing requirements may also preclude us from engaging in certain types of transactions or change the way in which we conduct business or the cost of doing so. In addition, because the size and scope of real estate sales transactions, the number of countries in which we operate or invest, and the areas we offer services have increased significantly during the past several years, both the difficulty of ensuring compliance with the numerous licensing requirements and the possible loss resulting from noncompliance, have increased.

With respect to our status as an approved lender for Fannie Mae, Freddie Mac and as a HUD-approved originator and issuer of Ginnie Mae securities (collectively the "Agencies"), we are required to comply with various eligibility criteria established by the Agencies, such as minimum net worth, operational liquidity and collateral requirements. In addition, we are required to originate and service loans in accordance with the applicable program requirements and guidelines established from time to time by the Agencies. Failure to comply with any of these program requirements may result in the termination or withdrawal of our approval to sell loans to the Agencies and service their loans.

Licensing requirements in various jurisdictions may change, increasing compliance costs. Particularly in emerging markets, there can be relatively less transparency around the standards and conditions under which licenses are granted, maintained, or renewed. It also may be difficult to defend against the arbitrary revocation of a license in a jurisdiction where the rule of law is less well developed.

As a licensed real estate service provider and advisor in various jurisdictions, we and our licensed employees may be subject to various licensing obligations that vary by jurisdiction. Failure to maintain proper licensing could subject us to loss of our ability to conduct business in those jurisdictions. We could also face fines, penalties, or suspension of licenses if we fail to meet licensing requirements.

WE FACE RISKS RELATING TO ENVIRONMENTAL AND CLIMATE MATTERS, INCLUDING DELIVERING ON OUR 2030 AND 2040 CARBON REDUCTION COMMITMENTS AND COMPLYING WITH EVOLVING CLIMATE-RELATED DISCLOSURE REQUIREMENTS.

We may face liability with respect to environmental issues occurring at properties we manage or occupy, or in which we invest. We may face costs or liabilities under these laws as a result of our role as an on-site property manager or a manager of construction projects. Our risks for such liabilities may increase as we expand our services to include more industrial and/or manufacturing facilities than has been the case in the past, or with respect to our co-investments in real estate as discussed above.

The impact of climate change presents a significant risk. Damage to assets caused by extreme weather events linked to climate change is becoming more evident, highlighting the fragility of global infrastructure. We also anticipate the potential effects of climate change will increasingly impact our own operations and those of client properties we manage, especially when they are in coastal cities, and may impair asset valuations.

We anticipate the potential effects of climate change will increasingly impact the decisions and analyses we make with respect to investments in the properties we manage, as well as those we consider for acquisition or disposition on behalf of clients, since climate change considerations can impact the relative desirability of locations and the cost of operating and insuring properties. Future legislation could require specific performance levels for building operations resulting in non-compliant buildings becoming obsolete. This could materially affect investments in properties we have made on behalf of clients, including those in which we may have co-invested. Climate change considerations will likely also increasingly be part of the consulting work we do for clients to the extent it is relevant to the decisions our clients are seeking to make.

Around the world, many countries are enacting stricter regulations to protect the environment and preserve their natural resources. In Europe, the European Union's Environmental Liability Directive establishes a comprehensive liability standard, but individual EU countries may have stricter regulations. The risks may not be limited to fines and the costs of remediation. In Brazil, employees risk jail sentences as well as fines in connection with pollution incidents. China has set ambitious climate goals, including achieving carbon neutrality by 2060, and has implemented various policies and regulations to support these objectives. This follows environmental protection laws passed in 2014 designed to limit contaminated water, air and soil linked to economic growth and public health. New environmental legislation and regulations may require us to make material changes to our operations, which could adversely affect operating results. Furthermore, the perspectives of shareholders, employees and other stakeholders regarding these standards may affect our business activities and increase disclosure requirements, which may increase our costs.

If we fail to meet our carbon reduction commitments or comply with evolving environmental regulations this may expose us to risks that could have a significant impact on our business operations and financial performance. These risks encompass reputational damage, potential legal and regulatory penalties, litigation, increased compliance costs, and diminished access to financing and investment opportunities. Additionally, failure to effectively reduce carbon emissions may result in negative public perception, reduced client demand, and potential loss of competitive advantage. Failure to adapt to changing environmental standards and adequately manage our carbon footprint may also expose us to potential disruptions in supply chains, constraints on resource availability, and limitations on access to certain markets. Failure to address these risks could have adverse consequences on our financial condition, operations, and long-term sustainability.

Our business faces evolving climate change disclosure requirements, including the recommendations outlined by the Task Force on Climate-related Financial Disclosures (TCFD) and the Corporate Sustainability Reporting Directive (CSRD). A failure to fulfill these obligations, including the proper disclosure of climate-related risks, opportunities, and our approach to managing them, may lead to reputational damage, legal and regulatory sanctions and potential financial consequences. Developments in climate change reporting standards, frameworks and guidelines may require us to provide more detailed information on greenhouse gas emissions, climate-related risks and sustainability initiatives, increasing the complexity and cost of compliance. Furthermore, the potential misinterpretation or criticism of our disclosed climate change data and actions could impact our relationships with investors, customers and other stakeholders. Additionally, as climate-related regulations and reporting requirements continue to evolve globally, we may face challenges in maintaining compliance across all jurisdictions in which we operate, potentially leading to increased operational costs and complexity in our reporting process.

Financial Risk Factors

Financial risk relates to our ability to meet financial obligations and mitigate exposure to broad market risks, including volatility in foreign currency exchange rates and interest rates; credit risk; and liquidity risk, including risk related to our credit ratings and our availability and cost of funding.

VOLATILITY IN TRANSACTIONAL-BASED REVENUE MAY IMPACT OUR PROFITABILITY.

We have product offerings, such as leasing and capital markets activities including investment sales and debt advisory, that generate fees based on the timing, size and pricing of closed transactions, and these fees may significantly contribute to our net income and to changes in earnings from one quarter or year to the next. Volatility in this component of our earnings is inevitable due to the nature of these businesses and the amount of the fees we will recognize in future quarters is inherently unpredictable.

In addition, Investment Management's portfolio is of sufficient size to periodically generate large incentive fees and equity earnings (losses) that significantly influence our earnings and the changes in earnings from one year to the next. Volatility in this component of our earnings is also inevitable due to the nature of this aspect of our business, and the amount of incentive fees or equity earnings or losses we may recognize in future quarters is inherently unpredictable as it relates to client needs, the market and other dynamics in effect at the time.

CURRENCY RESTRICTIONS, EXCHANGE RATE FLUCTUATIONS, AND INFLATIONARY PRESSURES MAY MATERIALLY IMPACT OUR FINANCIAL RESULTS.

We produce positive cash flows in various countries and currencies that can be most effectively used to fund operations in other countries or to repay our indebtedness, which is currently primarily denominated in U.S. dollars and euros. We face restrictions in certain countries that limit or prevent the transfer of funds to other countries or the exchange of the local currency to other currencies. We also face risks associated with fluctuations in currency exchange rates that may lead to a decline in the value of the funds earned in certain jurisdictions.

Although we operate globally, we report our results in U.S. dollars, and thus our reported results are impacted by the strengthening or weakening of currencies against the U.S. dollar. Our revenue from outside of the United States approximated 38% of our total revenue for 2025. In addition to the potential negative impact on reported earnings, fluctuations in currencies relative to the U.S. dollar may make it more difficult to perform period-to-period comparisons of the reported results of operations.

We are subject to inflationary pressures on employee wages, salaries, and the cost of various goods and services including energy costs that we procure which can materially impact our financial results. While we attempt to mitigate the impact of inflation in our client agreements, some client agreements may be entered into on a fixed or guaranteed maximum price basis where our ability to make price adjustments to take into account inflation may be limited.

EXPOSURE TO ADDITIONAL TAX LIABILITIES STEMMING FROM OUR GLOBAL OPERATIONS AND CHANGES IN TAX LEGISLATION, REGULATION AND TAX RATES COULD ADVERSELY AFFECT OUR FINANCIAL RESULTS.

We face a variety of risks of increased future taxation on our earnings as a corporate taxpayer in the countries in which we have operations. Moving funds between countries can produce adverse tax consequences. In addition, as our operations are global, we face challenges in effectively gaining a tax benefit for costs incurred in one country that benefit our operations in other countries.

Changes in tax legislation or tax rates may occur in one or more jurisdictions in which we operate that may materially impact the cost of operating our business. Recent legislative changes in the United States include the 2022 Inflation Reduction Act and the 2025 One Big Beautiful Bill Act, which have introduced limitations on certain business-related deductions, continued taxation of foreign earnings in the U.S., and established a corporate minimum tax, all of which could increase our future tax expense.

In addition, many countries have enacted significant legislative policy changes in the taxation of multinational corporations, inspired by the “Pillar One” and “Pillar Two” initiatives of the Organization for Economic Co-operation and Development and the European Union Anti-Tax Avoidance Directives. It is also possible that some governments will make significant changes to their tax policies in response to factors such as budgetary needs, feedback from the business community and the public view on applicable tax planning activities. Further, interpretations of existing tax law in various countries may change due to the regulatory and examination policies of the tax authorities and the decisions of courts.

We face such risks both in our own business and in the investment funds LaSalle operates. Adverse or unanticipated tax consequences to the funds can negatively impact fund performance, incentive fees and the value of co-investments we have made. We are uncertain as to the ultimate results of these potential changes or what their effects will be on our business.

A FAILURE TO MAINTAIN FINANCIAL RESILIENCE COULD IMPAIR OUR BALANCE SHEET, LIQUIDITY, AND ABILITY TO EXECUTE OUR STRATEGY.

Our ability to navigate market cycles and invest in strategic priorities depends on our financial resilience. This resilience may be threatened by several factors. Our balance sheet is exposed to potential material losses from our co-investments and other capital commitments, which could cause earnings volatility and constrain future investment capacity. Our debt and liquidity are subject to risk from potential constraints on our access to credit or a breach of debt covenants, which could reduce our operational flexibility, particularly during periods of market stress. We face challenges in rapidly adjusting our cost base in response to revenue declines, which could compress margins and pressure cash flow. Finally, our working capital and liquidity could be negatively impacted by challenges in managing receivables and bad debt exposures, which may limit funds available for strategic needs. A failure in any of these areas could impact our investment grade credit rating, reduce shareholder equity, and harm our financial performance.

General Risk Factors

OUR BUSINESS IS SUBJECT TO GENERAL ECONOMIC CONDITIONS AND REAL ESTATE MARKET CONDITIONS AS WELL AS SUPPLY-CHAIN PRESSURES.

The success of our business is significantly related to general economic conditions. Further, our business and financial conditions correlate strongly to local, national and regional economic and political conditions or, at least, the perceptions of and confidence in those conditions. Interest rate volatility, tighter lending standards, and elevated price uncertainty can put downward pressure on transaction volumes and significantly impact our fees and our business with revenues and assets tied to market performance.

We have previously experienced and expect in the future that we will be negatively impacted by periods of economic slowdown or recession and corresponding declines in the demand for real estate and related services. The ongoing reconfiguration of global supply chains for greater resilience, combined with persistent geopolitical tensions, continues to create volatility in the cost and availability of materials, which can affect project timelines and profitability for our clients and our business.

The risk of market volatility and fluctuating real estate asset values could create liquidity issues for our counterparties and/or lead to tightened lending conditions, which may negatively affect our cash flow and access to credit. Persistent economic uncertainty may prolong commercial real estate and investor decision making and have a dampening effect on our results.

Negative economic conditions and declines in demand for real estate and related services in several markets or in significant markets could have a material adverse effect on our performance driven by (i) a decline in acquisition and disposition activity, (ii) a decline in real estate values and performance, leasing activity and rental rates, (iii) a decline in value of real estate securities, (iv) the cyclicality in the real estate markets and lag in recovery relative to broader markets, or (v) the effect of changes in non-real estate markets.

OUR REPUTATION AND BRAND ARE IMPORTANT COMPANY ASSETS; IF WE FAIL TO PROTECT THEM, OUR BUSINESS MAY BE NEGATIVELY IMPACTED.

The value and premium status of our brand is one of our most important assets. An inherent risk in maintaining our brand is that we may fail to successfully differentiate the scope and quality of our service and product offerings from those of our competitors, or that we may fail to sufficiently innovate or develop improved products or services that will be attractive to our clients.

The rapid dissemination and increasing transparency of information, particularly for public companies, increases the risks to our business that could result from negative media or announcements about ethics lapses or other operational problems, which could lead clients to terminate or reduce their relationships with us. As such, any negative media, allegations or litigation against us, irrespective of the final outcome, could potentially harm our professional reputation and damage our business. We are also subject to misappropriation of one of the names or trademarks we own by third parties that do not have the right to use them so they can benefit from the goodwill we have built up in our intellectual property; further, our efforts to police usage of our intellectual property may not be successful in all situations.

DOWNGRADES IN OUR CREDIT RATINGS COULD INCREASE OUR BORROWING COSTS OR REDUCE OUR ACCESS TO FUNDING SOURCES IN THE CREDIT AND CAPITAL MARKETS.

We are currently assigned corporate credit ratings from Moody's and S&P based on their evaluation of our creditworthiness. As of the date of this filing, our debt ratings remain investment grade, but there can be no assurance we will not be downgraded or that any of our ratings will remain investment grade in the future. If our credit ratings are downgraded or other negative action is taken, by one or more rating agencies, this could adversely affect our access to funding sources, the cost and other terms of obtaining funding as well as our overall financial condition, operating results and cash flow.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

ITEM 1C. CYBERSECURITY

Risk Management and Strategy

Like other companies with a large technology footprint and high-profile client base, we are regularly subject to cyberattacks. While certain attacks against us have been successful, thus far none have had a material impact on our or our clients' operations. To respond to the threat of cybersecurity breaches and cybersecurity attacks, we have developed and maintain a comprehensive global cybersecurity program. The program utilizes internal and external assessments to continually improve our overall cybersecurity posture and manage technology risk. Our cybersecurity strategy has implemented layered technical and administrative controls, which are aligned with the National Institute of Standards and Technology ("NIST") Cybersecurity Framework ("CSF") to minimize both the frequency and severity of cybersecurity events. Specific to our external assessments, we routinely engage third-party consultants to assess our overall cybersecurity maturity and improve our ability to identify and manage material risks stemming from a cybersecurity event. Additionally, as a material cybersecurity incident can manifest from outside of the organization, JLL leverages security assessments and continuous monitoring to evaluate the security risk of third-party service providers.

In 2023, we established an executive management group responsible for determining the materiality of cybersecurity incidents and ensuring proper disclosure if required. While we have not experienced any material cybersecurity events to date, we acknowledge cybersecurity threats could significantly impact our business strategy, operations, or financial condition. In our commitment to reducing the frequency and severity of a cybersecurity event, we maintain a cybersecurity incident response plan and regularly conduct tabletop exercises to bolster our preparedness.

JLL's cybersecurity function has a risk management framework for cyber-related risks, detailing controls and improvements. The cybersecurity function provides regular updates to our Chief Risk Officer on cybersecurity threats, incidents, and JLL's prevention, detection, mitigation, and remediation efforts for managing these risks. Our Enterprise Risk Management ("ERM") program is designed to evaluate and monitor significant risks, including cybersecurity, and places them in JLL's overall risk framework. Our Global Executive Board and Audit and Risk Committee receive regular reporting on cyber risks and mitigation from both ERM and the cybersecurity function.

We maintain a cyber risk insurance policy, but costs related to cybersecurity threats or disruptions may not be fully insured. We acknowledge that successful cyberattacks could result in substantial costs, liability, reputational harm and significant remediation expenses. For additional information on material cybersecurity risks, refer to our discussion in the "Operational Risk Factors" section of Item 1A, Risk Factors, of this report.

Governance

Our Management and the Board of Directors provide significant oversight of cybersecurity risks. Since 2022, the Board expanded the Audit and Risk Committee's charter to include cybersecurity and information technology readiness. In addition, the Audit Committee was renamed to the "Audit and Risk Committee" to more accurately align with its responsibility to assist the Board in overseeing our policies, program and related risks identified as part of the enterprise risk management framework and cybersecurity and information technology.

Further enhancing our cybersecurity governance, in 2024, the Board formally established the Cybersecurity Subcommittee of the Audit and Risk Committee. This subcommittee meets on a quarterly basis with management and regularly reports to the Audit and Risk Committee, providing an additional layer of specialized oversight on cybersecurity and information technology matters.

Management's role in executing our cybersecurity strategy is led by our Global Chief Information Officer ("CIO") and our Chief Information Security Officer ("CISO") both with over twenty years' experience in large institutions. Our CISO leads our cybersecurity program, holds a master's degree in business administration and has over twenty years of relevant experience, including cybersecurity and enterprise security leadership roles in Financial Services and within the Department of Defense. Our CISO reports to our CIO who is responsible for the development and implementation of our technology, data and information management strategy. Our CIO's educational background includes a bachelor's degree in mechanical engineering and a master's degree in industrial engineering – operations research, providing a strong foundation for work in technology, data management, data science and analytics.

Management's Cybersecurity Governance Committee, established in 2022, comprises senior executives representing several business segments and corporate functions. It provides an additional level of oversight for cybersecurity policies and serves as a formal channel to communicate cybersecurity decisions with our Global Executive Board.

The Audit and Risk Committee, its Cybersecurity Subcommittee, and management's Cybersecurity Governance Committee receive regular reports on our information security program, including top risks, strategy, controls, improvement projects, metrics, and training protocols. Reports are also shared with the full Board of Directors.

ITEM 2. PROPERTIES

Our principal corporate holding company headquarters is located at 200 East Randolph Street, Chicago, Illinois, where we currently occupy approximately 138,000 square feet of office space under a lease that expires in May 2032. Our regional

employee hubs for our (i) Americas, (ii) Europe, Middle East and Africa (EMEA) and (iii) Asia Pacific businesses are located in Chicago, London and Singapore, respectively.

As of December 31, 2025, we have corporate offices in the following geographical regions:

	Corporate Offices
Americas	138
EMEA	102
Asia Pacific	78
Total	318

Our corporate offices may serve multiple business segments. Therefore, to prevent double-counting, we have presented the office totals above by geographic region rather than by business segment. In addition, we have on-site property and facility management offices, generally located within properties we manage, provided to us without cost.

ITEM 3. LEGAL PROCEEDINGS

We have contingent liabilities from various pending claims and litigation matters arising in the ordinary course of business, some of which involve claims for damages that are substantial in amount. Many of these matters are covered by insurance, including insurance provided through a wholly-owned captive insurance company, although they may nevertheless be subject to large deductibles or retentions, and the amounts being claimed may exceed the available insurance. Although the ultimate liability for these matters cannot be determined, based upon information currently available, we believe the ultimate resolution of such claims and litigation will not have a material adverse effect on our financial position, results of operations or liquidity.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED SHAREHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Our common stock is listed for trading on the NYSE under the symbol "JLL." As of February 5, 2026, there were over 300 shareholders of record of our common stock and more than 170,000 additional street name holders whose shares were held of record by banks, brokers and other financial institutions.

Share Repurchases

During the year ended December 31, 2025, we repurchased approximately 747,500 shares for \$211.5 million, compared with approximately 373,100 shares repurchased for \$80.4 million in 2024.

The following table provides information about our purchases of equity securities that are registered by us pursuant to Section 12 of the Exchange Act during the quarter ended December 31, 2025:

Period	Total number of shares purchased	Weighted average price paid per share	Total number of shares purchased as part of publicly announced plan	Approximate dollar value of shares that may yet be purchased under the plan (in millions)
October 1, 2025 - October 31, 2025	77,919	\$ 300.31	77,919	
November 1, 2025 - November 30, 2025	90,175	\$ 305.48	90,175	
December 1, 2025 - December 31, 2025	88,200	\$ 333.20	88,200	\$ 801.7
Total	256,294		256,294	

Dividends

We did not declare or pay any dividends in 2025 or 2024. Any future decision to declare and pay dividends remains subject to the discretion of our Board of Directors.

Transfer Agent

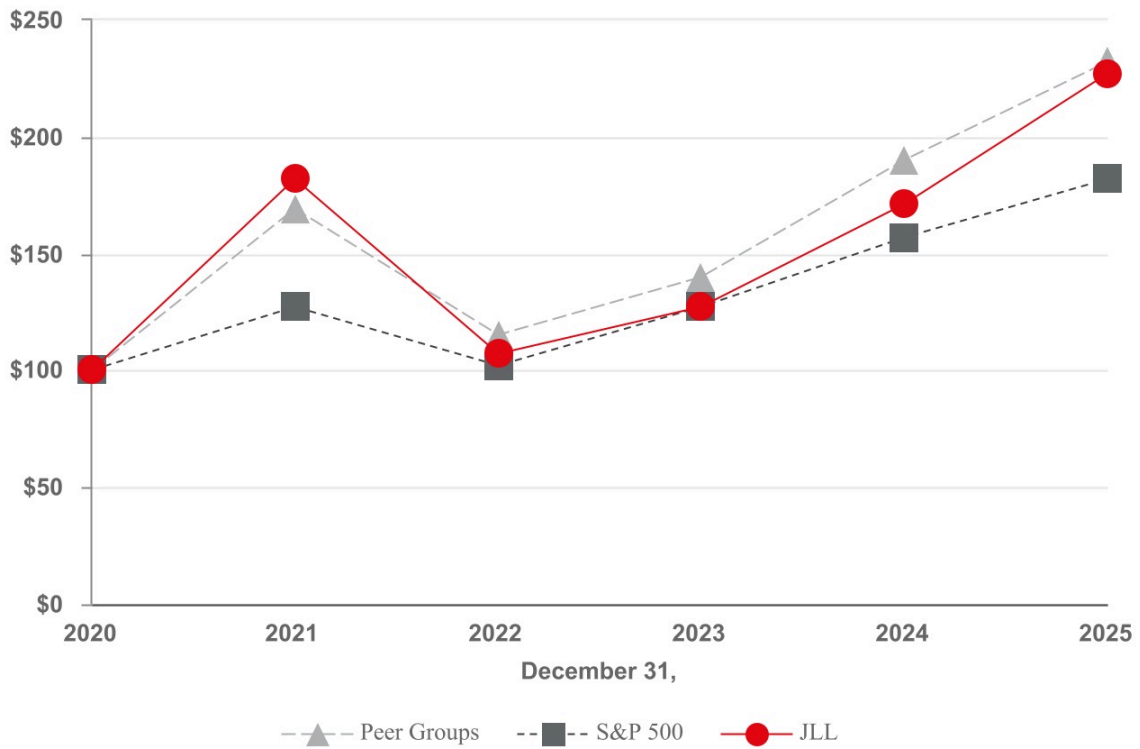

Computershare
P.O. Box 505000
Louisville, KY 40233

Equity Compensation Plan Information

For information regarding our equity compensation plans, including both shareholder approved plans and plans not approved by shareholders, see Part III, Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Shareholder Matters.

Comparison of Cumulative Total Shareholder Return

The following graph compares the cumulative 5-year total return to shareholders of JLL's common stock relative to the cumulative total returns of the S&P 500 Index, and a customized peer group comprising: 1) CBRE Group Inc. (CBRE), a global commercial real estate services company publicly traded in the U.S., 2) Cushman & Wakefield plc (CWK), a global commercial real estate services company publicly traded in the U.S., 3) Colliers International Group Inc. (CIGI), a global commercial real estate services company traded in the U.S., and 4) Savills plc (SVS.L), a real estate services company traded on the London Stock Exchange. The following graph assumes the value of the investment in JLL's common stock, the S&P 500 Index, and the peer group (including reinvestment of dividends) was \$100 on December 31, 2020.

	December 31,					
	2020	2021	2022	2023	2024	2025
JLL	\$ 100	\$ 182	\$ 107	\$ 127	\$ 171	\$ 227
S&P 500	100	127	102	127	157	182
Peer Group	100	169	115	140	190	232

ITEM 6. [Reserved]

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis contains certain forward-looking statements generally identified by the words: anticipates, believes, estimates, expects, forecasts, plans, intends and other similar expressions. Such forward-looking statements involve known and unknown risks, uncertainties, and other factors that may cause our actual results, performance, achievements, plans, and objectives to be materially different from any future results, performance, achievements, plans, and objectives expressed or implied by such forward-looking statements. See the Cautionary Note Regarding Forward-Looking Statements after Part IV, Item 15. Exhibits and Financial Statement Schedules.

We present our Management's Discussion and Analysis in the following sections:

- (1) A summary of our critical accounting policies and estimates;
- (2) Certain items affecting the comparability of results;
- (3) Certain market and other risks we face;
- (4) The results of our operations, first on a consolidated basis and then for each of our business segments; and
- (5) Liquidity and capital resources.

In this Item, we discuss results for the years ended December 31, 2025 and 2024 and the comparison between these years. Discussions of results for the year ended December 31, 2023 and comparisons between 2024 and 2023 results can be found in Item 7 "Management's Discussion and Analysis of Financial Condition and Results of Operations" of our [Annual Report on Form 10-K for the year ended December 31, 2024](#).

SUMMARY OF CRITICAL ACCOUNTING POLICIES AND ESTIMATES

An understanding of our accounting policies is necessary for a complete analysis of our results, financial position, liquidity and trends. The preparation of our financial statements requires management to make certain critical accounting estimates and judgments that impact (i) the stated amount of assets and liabilities, (ii) disclosure of contingent assets and liabilities as of the date of the financial statements and (iii) the reported amounts of revenue and expenses during the reporting periods. These accounting estimates are based on management's judgment. We consider them to be critical because of their significance to the financial statements and the possibility future events may differ from current judgments, or that the use of different assumptions could result in materially different estimates. We review these estimates on a periodic basis to ensure reasonableness. Although actual amounts may differ from such estimated amounts, we believe such differences are not likely to be material. For additional detail regarding our critical accounting policies and estimates discussed below, see Note 2, Summary of Significant Accounting Policies, of the Notes to Consolidated Financial Statements, included in Item 8.

Revenue Recognition

We earn revenue from the following services (segments are bolded).

- **Real Estate Management Services**
 - Workplace Management
 - Project Management
 - Property Management
 - Portfolio Services and Other
- **Leasing Advisory**
 - Leasing
 - Advisory, Consulting and Other
- **Capital Markets Services**
 - Investment Sales, Debt/Equity Advisory and Other
 - Loan Servicing
 - Value and Risk Advisory
- **Investment Management**
- **Software and Technology Solutions**

Our services are generally earned and billed in the form of transaction commissions, advisory and management fees, and incentive fees. Some of the contractual terms related to the services we provide, and thus the revenue we recognize, can be complex, requiring us to make judgments about our performance obligations and the timing and extent of revenue to recognize. In addition, a significant portion of our revenue represents the reimbursement of costs we incur on behalf of clients.

Goodwill and Other Intangible Assets

Consistent with the services nature of the businesses we have acquired, the largest asset on the Consolidated Balance Sheets is goodwill. We do not amortize goodwill; instead, we evaluate goodwill for impairment at least annually, or as events or changes in circumstances indicate the carrying value may be impaired.

In addition, we may record intangible assets as a result of acquisitions, which are primarily composed of customer relationships, management contracts and customer backlog, and are amortized on a straight-line basis over their estimated useful lives. We generally use the income approach to determine fair value, which requires management to make significant estimates and assumptions. These estimates and assumptions primarily include discount rates, terminal growth rates, forecasts of revenue, operating income and capital expenditures. The discount rates reflect the risk factors, from the perspective of a market participant, associated with forecasts of cash flows. In addition, we establish an intangible upon closing on the sale of a mortgage loan we originated, concurrent with the retention of its servicing rights and amortize the intangible over the estimated period net servicing income is projected to be received.

Although we believe our intangible asset estimates of fair value are reasonable, actual financial results could differ from those estimates due to the inherent uncertainty involved in making such estimates. Changes in assumptions concerning future financial results or other underlying assumptions could have a significant impact on the determination of the fair value of the identified intangible assets acquired. Judgment is also required in determining the useful life of a finite-lived intangible asset. We evaluate our identified intangibles for impairment at least annually, or as events or changes in circumstances indicate the carrying value may be impaired.

Investments

Substantially all of our investments are grouped within one of the following two categories.

First, we invest in certain real estate ventures that primarily own and operate commercial real estate, historically through co-investments in funds that Investment Management establishes in the ordinary course of business for its clients. These investments include non-controlling ownership interests generally ranging from less than 1% to 10% of the respective ventures. We account for these investments at fair value or under the equity method of accounting.

Second, we invest in proptech funds and early to mid-stage companies through the JLL Spark Global Ventures Funds. We account for a majority of these investments at fair value. Certain investments are accounted for under the measurement alternative, defined as cost minus impairment, plus or minus adjustments resulting from observable price changes in orderly transactions for the identical or a similar investment of the same issuer.

Where applicable, we estimate fair value of our investments using the net asset value ("NAV") per share (or its equivalent) our investees provide. Critical inputs to NAV estimates include fund financial statements, valuations of the underlying real estate assets and borrowings, which incorporate investment-specific assumptions such as discount rates, capitalization rates, rental and expense growth rates and asset-specific market borrowing rates. In circumstances where the NAV provided by the investee has a reporting date different than ours or when the NAV is not calculated consistent with U.S. GAAP measurement principles, we adjust the NAV accordingly.

For investments in proptech companies, we primarily estimate the fair value based on the per-share pricing. Subsequent funding rounds or changes in the companies' business strategy/outlook are indicators of a change in fair value. The fair value of certain investments is estimated using significant unobservable inputs which requires judgment due to the absence of market data. In determining the estimated fair value of these investments, we utilize appropriate valuation techniques including discounted cash flow analyses, scorecard method, Black-Scholes models and other methods as appropriate. Key inputs include projected cash flows, discount rates, peer group multiples and volatility.

For all investments reported at fair value, other than such investments where the measurement alternative has been elected, our investment is increased or decreased each reporting period by the difference between the fair value of the investment and

the carrying value as of the balance sheet date. Investments for which the measurement alternative has been elected are remeasured if a qualifying observable price change occurs. We reflect these fair value adjustments as gains or losses on the Consolidated Statements of Comprehensive Income within Equity earnings/losses.

Income Taxes

We account for income taxes under the asset and liability method. We recognize deferred tax assets and liabilities for the expected future tax consequences attributable to (i) differences between the consolidated financial statement carrying amounts of existing assets and liabilities and their respective tax bases and (ii) operating loss and tax credit carryforwards. We measure deferred tax assets and liabilities using the enacted tax rates expected to apply to taxable income in the years in which we expect those temporary differences to be recovered or settled. We recognize into income the effect on deferred tax assets and liabilities of a change in tax rates in the period including the enactment date.

Because of the global and cross-border nature of our business, our corporate tax position is complex. We generally provide for taxes in each tax jurisdiction in which we operate based on local tax regulations and rules. Such taxes are provided on pre-tax earnings and include the provision for taxes on substantively all differences between financial statement amounts and amounts used in tax returns, excluding certain non-deductible items and permanent differences.

Our global effective tax rate is sensitive to the complexity of our operations as well as to changes in the mix of our geographic profitability. We evaluate our estimated effective tax rate on a quarterly basis to reflect forecast changes in our geographic mix of income and legislative actions on statutory tax rates.

Based on our historical experience and future business plans, we do not expect to repatriate our foreign source earnings to the U.S. As of December 31, 2025, we have therefore not provided for withholding tax, dividend distribution tax, capital gains taxes, or other taxes which could arise upon such distribution. We believe our policy of permanently reinvesting earnings of foreign subsidiaries does not significantly impact our liquidity.

We have established valuation allowances against deferred tax assets where expected future taxable income does not support their realization on a more-likely-than-not basis. We formally assess the likelihood of being able to utilize current tax losses in the future on a country-by-country basis, commensurate with the determination of each quarter's income tax provision. We establish or increase valuation allowances upon specific indications the carrying value of a tax asset may not be recoverable. Alternatively, we reduce valuation allowances upon (i) specific indications the carrying value of the related tax asset is more-likely-than-not recoverable or (ii) the implementation of tax planning strategies which allow an asset we previously determined to be not realizable to be viewed as realizable.

Estimations and judgments relevant to the determination of tax expense, assets, and liabilities require analysis of the tax environment and the future profitability, for tax purposes, of local statutory legal entities rather than business segments. Our statutory legal entity structure generally does not mirror the way we organize, manage and report our business operations. For example, the same legal entity may include Capital Markets Services, Real Estate Management Services and Leasing Advisory businesses in a particular country.

In situations where we believe that there may be uncertainty with respect to the recognition of tax benefits, we provide reserves for those benefits. Changes to the amounts of our unrecognized tax benefits may occur as a result of ongoing operations, the outcomes of audits or other examinations by tax authorities, or the passing of statutes of limitations. We do not expect changes to our unrecognized tax benefits to have a significant impact on net income, the financial position, or the cash flows of JLL. We do not believe we have material tax positions for which the ultimate deductibility is highly certain but for which there is uncertainty about the timing of such deductibility.

NEW ACCOUNTING STANDARDS

Refer to Note 2, Summary of Significant Accounting Policies of the Notes to Consolidated Financial Statements, included in Item 8.

ITEMS AFFECTING COMPARABILITY

Macroeconomic Conditions

Our results of operations and the variability of these results are significantly influenced by (i) macroeconomic trends, (ii) geopolitical environment, (iii) global and regional real estate markets and (iv) financial and credit markets. These macroeconomic and other conditions have had, and we expect will continue to have, a significant impact on the variability of our results of operations.

Acquisitions and Dispositions

The timing of acquisitions may impact the comparability of our results on a year-over-year basis. Our results include incremental revenues and expenses following the completion date of an acquisition. Relating to dispositions, comparable results will include the revenues and expenses of recent dispositions, and may also include gains (losses) on the disposition. In addition, there is generally an initial adverse impact on net income from an acquisition as a result of pre-acquisition due diligence expenditures, transaction/deal costs and post-acquisition integration costs, such as fees from third-party advisors engaged to assist with onboarding and process alignment, retention and severance expense, early lease termination costs, and other integration expenses. For dispositions, we may also incur such incremental costs during the disposition process and these costs could have an adverse impact on net income.

Transaction-Based Revenues and Equity Earnings/Losses

Transaction-based revenues are impacted by the size and timing of our clients' transactions. Such revenues include investment sales, debt/equity advisory fees and other capital markets activities, agency and tenant representation leasing transactions, incentive fees, and other services/offering, which increase the variability of the revenue we earn. Specifically for Investment Management, the magnitude and timing of recognition of incentive fees are driven by one or a combination of the following: changes in valuations of the underlying investments; dispositions of managed assets; and the contractual measurement periods with clients. The timing and the magnitude of transaction-based revenues can vary significantly from year to year and quarter to quarter, and also vary geographically.

Equity earnings/losses may vary substantially from period to period for a variety of reasons, including as a result of (i) valuation increases (decreases) on investments reported at fair value, (ii) gains (losses) on asset dispositions and (iii) impairment charges. The timing of recognition of these items may impact comparability between quarters, in any one year, or compared to a prior year.

The comparability of these items can be seen in Note 3, Business Segments, of the Notes to Consolidated Financial Statements, included in Item 8, and is discussed further in Segment Operating Results included herein.

Foreign Currency

We conduct business using a variety of currencies, but we report our results in U.S. dollars. As a result, the volatility of currencies against the U.S. dollar may positively or negatively impact our results. This volatility can make it more difficult to perform period-to-period comparisons of the reported U.S. dollar results of operations because such results may indicate a rate of growth or decline that might not have been consistent with the real underlying rate of growth or decline in the local operations. Consequently, we provide information about the impact of foreign currencies in the period-to-period comparisons of the reported results of operations in our discussion and analysis of financial condition in the Results of Operations section below.

MARKET RISKS

The principal market risks we face due to the risk of loss arising from adverse changes in market rates and prices are:

- Interest rates on our unsecured credit facility (the "Facility"); and
- Foreign exchange risks.

In the normal course of business, we manage these risks through a variety of strategies, including hedging transactions using various derivative financial instruments such as foreign currency forward contracts. We enter into derivative instruments with high credit-quality counterparties and diversify our positions across such counterparties in order to reduce our exposure to credit losses. We do not enter into derivative transactions for trading or speculative purposes.

Interest Rates

We centrally manage our debt, considering investment opportunities and risks, tax consequences and overall financing strategies. Our overall interest rate risk management objectives are to limit the impact of interest rate changes on earnings and cash flows and to lower our overall borrowing costs. We are primarily exposed to interest rate risk on our Facility, which had a maximum borrowing capacity of \$3.30 billion as of December 31, 2025. We had no outstanding borrowings under the Facility as of December 31, 2025. The Facility bears a variable rate of interest that fluctuates based on market rates.

Our \$400.0 million of senior unsecured notes are due December 2028 and bear interest at a fixed annual rate of 6.875%. Our €350.0 million face value of Euro Notes is split between €175.0 million due in June 2027 and €175.0 million due in June 2029, bearing interest at fixed annual rates of 1.96% and 2.21%, respectively. The issuance of the senior notes and Euro Notes at fixed interest rates has helped to limit our exposure to future movements in interest rates.

We maintain a commercial paper program (the "Program") in which we may issue up to \$2.5 billion of short-term, unsecured and unsubordinated commercial paper notes at any time. We had no outstanding borrowings under the Program as of December 31, 2025. Our Program provides us with another source of short-term capital, which may help us mitigate interest rate risk.

We assess interest rate sensitivity to estimate the potential effect of rising interest rates on our variable rate debt. For the year ended December 31, 2025, if interest rates were 50 basis points higher, Interest expense, net of interest income, would have been \$3.5 million higher.

Foreign Exchange

Foreign exchange risk is the risk we will incur economic losses due to adverse changes in foreign currency exchange rates. Our revenue from outside of the U.S. approximated 38% and 39% of our total revenue for the years ended December 31, 2025 and 2024, respectively, as outlined in the table below. Operating in international markets means we are exposed to movements in foreign exchange rates, most significantly the British pound and the euro.

We mitigate our foreign currency exchange risk principally by (i) establishing local operations in the markets we serve and (ii) invoicing customers in the same currency as the source of the costs. The impact of translating expenses incurred in foreign currencies into U.S. dollars reduces the impact of translating revenue earned in foreign currencies into U.S. dollars. In addition, British pound and Singapore dollar expenses incurred as a result of our regional employee hubs being located in London and Singapore, respectively, act as ongoing partial operational hedges against our translation exposures to those currencies.

We enter into cross-currency swaps and foreign currency forward contracts to manage currency risks associated with net investments in foreign operations and intercompany loan balances, respectively. As of December 31, 2025, we had cross-currency swap contracts with a gross notional value of \$805.8 million and forward contracts with a gross notional value of \$2.04 billion. For forward contracts, the corresponding net carrying gain/loss is generally offset by a carrying gain/loss in associated intercompany loans.

Although we operate globally, we report our results in U.S. dollars. As a result, the strengthening or weakening of the U.S. dollar in relation to currencies we are exposed to may positively or negatively impact our reported results. The following table sets forth the revenue derived from our most significant currencies.

(\$ in millions)	Year Ended December 31,			
	2025	% of Total	2024	% of Total
United States dollar	\$ 16,298.8	62.4 %	\$ 14,402.3	61.5 %
British pound	1,954.9	7.5	1,773.5	7.6
Euro	1,662.5	6.4	1,464.9	6.3
Australian dollar	1,156.0	4.4	1,085.3	4.6
Indian rupee	925.0	3.5	823.8	3.5
Canadian dollar	620.3	2.4	612.6	2.6
Hong Kong dollar	582.9	2.2	567.1	2.4
Chinese yuan	510.4	2.0	488.1	2.1
Singapore dollar	482.3	1.8	447.3	1.9
Japanese yen	362.9	1.4	346.3	1.5
Other currencies	1,559.6	6.0	1,421.7	6.0
Total revenue	\$ 26,115.6	100.0 %	\$ 23,432.9	100.0 %

Had British pound-to-U.S. dollar exchange rates been 10% higher throughout the course of 2025, we estimate our reported operating income would have increased by \$11.8 million. Had euro-to-U.S. dollar exchange rates been 10% higher throughout the course of 2025, we estimate our reported operating income would have increased by \$7.4 million. These hypothetical calculations estimate the impact of translating results into U.S. dollars and do not include an estimate of the impact a 10% increase in the U.S. dollar against other currencies would have on our foreign operations.

Seasonality

Historically, we have reported a relatively smaller revenue and profit in the first quarter with both measures increasing during each of the following three quarters. This is a result of a general focus in the real estate industry on completing or documenting transactions by calendar year end and the fact that certain expenses are constant throughout the year. Our seasonality excludes the recognition of investment-generated performance fees and realized and unrealized investment equity earnings and losses. Specifically, we recognize incentives fees when assets are sold or as a result of valuation increases in the portfolio, the timing of which may not be predictable or recurring. In addition, investment equity gains and losses are primarily dependent on underlying valuations, and the direction and magnitude of changes to such valuations are not predictable. Non-variable operating expenses, which we treat as expenses when incurred during the year, are relatively constant on a quarterly basis. Other factors may affect seasonality.

Inflation

Our operating expenses fluctuate with our revenue and general economic conditions, including inflation. However, we do not believe inflation had a material impact on our results of operations for the twelve months ended December 31, 2025.

RESULTS OF OPERATIONS

Definitions

- Assets under management data for Investment Management is primarily reported on a one-quarter lag.
- "n.m.": not meaningful, typically represented by a percentage change of greater than 1,000%, favorable or unfavorable.
- Effective January 1, 2025, we report Project Management in Resilient revenue. Prior period financial information was recast to conform with this presentation.
- We define "Resilient" revenue as (i) Workplace Management, Project Management and Property Management, within Real Estate Management Services, (ii) Value and Risk Advisory, and Loan Servicing, within Capital Markets Services, (iii) Advisory Fees, within Investment Management and (iv) Software and Technology Solutions. In addition, we define "Transactional" revenue as (i) Portfolio Services and Other, within Real Estate Management Services, (ii) Leasing Advisory, (iii) Investment Sales, Debt/Equity Advisory and Other, within Capital Markets Services and (iv) Incentive fees and Transaction fees and other, within Investment Management.
- Gross contract costs represent certain costs associated with client-dedicated employees and third-party vendors and subcontractors and are directly or indirectly reimbursed through the fees we receive. These costs are presented on a gross basis in Operating expenses (with the corresponding fees in Revenue).

Year Ended December 31, 2025 compared with Year Ended December 31, 2024

(\$ in millions)	Year Ended December 31,		Change in		% Change in	
	2025	2024	U.S. dollars		Local Currency	
Real Estate Management Services	\$ 20,001.2	17,992.7	2,008.5	11 %		11 %

Total operating expenses	\$ 25,017.6	22,564.8	2,452.8	11 %		10 %
Operating income	\$ 1,098.0	868.1	229.9	26 %		25 %
Equity losses	\$ (20.7)	(70.8)	50.1	71 %		71 %
Net non-cash MSR and mortgage banking derivative activity	\$ (15.2)	(18.2)	3.0	16 %		17 %
Adjusted EBITDA	\$ 1,452.9	1,186.3	266.6	22 %		22 %

Non-GAAP Financial Measures

Management uses certain non-GAAP financial measures to develop budgets and forecasts, measure and reward performance against those budgets and forecasts, and enhance comparability to prior periods. These measures are believed to be useful to investors and other external stakeholders as supplemental measures of core operating performance and include the following:

- Adjusted EBITDA attributable to common shareholders ("Adjusted EBITDA") and
- Percentage changes against prior periods, presented on a local currency basis.

However, non-GAAP financial measures should not be considered alternatives to measures determined in accordance with U.S. GAAP. Any measure that eliminates components of a company's capital structure, cost of operations or investments, or other results has limitations as a performance measure. In light of these limitations, management also considers U.S. GAAP financial measures and does not rely solely on non-GAAP financial measures. Because our non-GAAP financial measures are not calculated in accordance with U.S. GAAP, they may not be comparable to similarly titled measures used by other companies.

Adjustments to U.S. GAAP Financial Measures Used to Calculate non-GAAP Financial Measures

Net non-cash MSR and mortgage banking derivative activity consists of the balances presented within Revenue composed of (i) derivative gains/losses resulting from mortgage banking loan commitment and warehousing activity and (ii) gains recognized from the retention of MSR upon origination and sale of mortgage loans, offset by (iii) amortization of MSR intangible assets over the period that net servicing income is projected to be received. Non-cash derivative gains/losses resulting from mortgage banking loan commitment and warehousing activity are calculated as the estimated fair value of loan commitments and subsequent changes thereof, primarily represented by the estimated net cash flows associated with future servicing rights. MSR gains and corresponding MSR intangible assets are calculated as the present value of estimated net cash flows over the estimated mortgage servicing periods. The above activity is reported entirely within Revenue of the Capital Markets Services segment. Excluding net non-cash MSR and mortgage banking derivative activity reflects how we manage and evaluate performance because the excluded activity is non-cash in nature.

Restructuring and acquisition charges primarily consist of (i) severance and employment-related charges, including those related to external service providers, incurred in conjunction with a structural business shift, which can be represented by a notable change in headcount, change in leadership or transformation of business processes; (ii) acquisition, transaction and integration-related charges, including fair value adjustments, which are generally non-cash in the periods such adjustments are made, to assets and liabilities recorded in purchase accounting such as earn-out liabilities and intangible assets; and (iii) other restructuring, including lease exit charges. Such activity is excluded as the amounts are generally either non-cash in nature or the anticipated benefits from the expenditures would not likely be fully realized until future periods. Restructuring and acquisition charges are excluded from segment operating results and therefore not a line item in the segments' reconciliation to Adjusted EBITDA.

Interest on employee loans, net of forgiveness reflects interest accrued on employee loans less the amount of accrued interest forgiven. Certain employees (predominantly in Leasing Advisory and Capital Markets Services) receive cash payments structured as loans, with interest. Employees earn forgiveness of the loan based on performance, generally calculated as a percentage of revenue production. Such forgiven amounts are reflected in Compensation and benefits expense. Given the interest accrued on these employee loans and subsequent forgiveness are non-cash and the amounts perfectly offset over the life of the loan, the activity is not indicative of core operating performance and is excluded from non-GAAP measures.

Equity earnings/losses (Investment Management and PropTech Investments) primarily reflects valuation changes on investments reported at fair value, which are increased or decreased each reporting period as fair value changes. Where the measurement alternative has been elected, our investment is increased or decreased upon observable price changes. Such activity is excluded as the amounts are generally non-cash in nature and not indicative of core operating performance.

Note: Equity earnings/losses for segments other than Investment Management represent the results of unconsolidated operating ventures (not investments), and therefore, the amounts are included in Adjusted EBITDA on both a segment and consolidated basis.

Credit losses on convertible note investments reflects credit impairments associated with pre-equity convertible note investments in early-stage proptech enterprises. Such losses are similar to the equity investment-related losses included in equity earnings/losses for Proptech Investments and are therefore consistently excluded from adjusted measures.

Reconciliation of Non-GAAP Financial Measures

Below is a reconciliation of Net income attributable to common shareholders to Adjusted EBITDA.

(in millions)	Year Ended December 31,		
	2025	2024	
Net income attributable to common shareholders	\$	792.1	546.8
Add:			
Interest expense, net of interest income		107.3	136.9
Income tax provision		189.5	132.5
Depreciation and amortization ⁽¹⁾		249.1	252.0
Adjustments:			
Restructuring and acquisition charges		75.3	23.1
Net non-cash MSR and mortgage banking derivative activity		15.2	18.2
Interest on employee loans, net of forgiveness		(6.5)	(5.9)
Equity losses - Investment Management and Proptech Investments ⁽¹⁾		25.8	76.4
Credit losses on convertible note investments		5.1	6.3
Adjusted EBITDA	\$	1,452.9	1,186.3

(1) This adjustment excludes the noncontrolling interest portion which is not attributable to common shareholders.

In discussing our operating results, we refer to percentage changes in local currency, unless otherwise noted. Amounts presented on a local currency basis are calculated by translating the current period results of our foreign operations to U.S. dollars using the foreign currency exchange rates from the comparative period. We believe this methodology provides a framework for assessing performance and operations excluding the effect of foreign currency fluctuations.

The following table reflects the reconciliation to local currency amounts for consolidated (i) Revenue, (ii) Operating income and (iii) Adjusted EBITDA.

(\$ in millions)	Year Ended December 31,	
	2025	% Change
Revenue:		
At current period exchange rates	\$ 26,115.6	11 %
Impact of change in exchange rates	(106.9)	n/a
At comparative period exchange rates	\$ 26,008.7	11 %
Operating income:		
At current period exchange rates	\$ 1,098.0	26 %
Impact of change in exchange rates	(9.0)	n/a
At comparative period exchange rates	\$ 1,089.0	25 %
Adjusted EBITDA:		
At current period exchange rates	\$ 1,452.9	22 %
Impact of change in exchange rates	(10.3)	n/a
At comparative period exchange rates	\$ 1,442.6	22 %

Revenue

Consolidated revenue increased 11% compared with 2024. Transactional revenues increased 13% collectively, led by Investment Sales, Debt/Equity Advisory and Other, up 23% (excluding the impact of non-cash MSR and mortgage banking derivative activity) and Leasing, up 11%. Resilient revenues grew 11%, highlighted by Project Management, up 20%, and Workplace Management, up 10%.

The following highlights Revenue by segment and type (Transactional versus Resilient), for the current and prior year (\$ in millions). Refer to segment operating results for further detail.

Operating Expenses

Operating expenses increased 10% to \$25.0 billion in 2025. Generally, the increase in operating expenses was largely driven by growth in revenue-related expenses, including pass-through costs (gross contract costs) and commission expense, and also reflected higher restructuring and acquisition charges. Greater platform leverage mitigated the revenue-related growth, as evidenced by the, lower, 8% increase in platform operating expenses. Refer to segment operating results for additional detail.

Restructuring and acquisition charges were higher, compared with 2024, primarily due to significantly lower net decreases to earn-out liabilities as well as higher severance and other employment-related charges. Refer to the following table for further detail.

(in millions)	Year Ended December 31,	
	2025	2024
Severance and other employment-related charges	\$ 42.2	27.1
Restructuring, pre-acquisition and post-acquisition charges	34.9	28.6
Fair value adjustments to earn-out liabilities	(1.8)	(32.6)
Restructuring and acquisition charges	\$ 75.3	23.1

Interest Expense

Interest expense, net of interest income, for 2025 was \$107.3 million, compared to \$136.9 million in 2024. The improvement was primarily due to lower average borrowings with meaningful contributions from a lower average interest rate. The average outstanding borrowings under our credit facilities and commercial paper program was \$1,119.7 million this year, with an average effective interest rate of 4.9%, in 2025, compared with \$1,381.4 million, with an average effective interest rate of 5.9%, during 2024.

Equity Earnings/Losses

The following table details Equity earnings (losses) by category of investment. Specific to PropTech Investments, lower equity losses in 2025 were attributable to modest valuation increases across several investments and less significant valuation declines compared with 2024. Refer to the Investment Management segment discussion for additional details.

(in millions)	Year Ended December 31,	
	2025	2024
Investment Management	\$ 12.3	(22.6)
PropTech Investments	(38.8)	(53.8)
Other	5.8	5.6
Equity losses	\$ (20.7)	(70.8)

Income Taxes

The provision for income taxes increased for the year as higher earnings before taxes outpaced the slight decline in our effective tax rate. The following details our Income tax provision and effective tax rate.

(\$ in millions)	Year Ended December 31,	
	2025	2024
Income tax provision	\$ 189.5	132.5
Effective tax rate	19.3 %	19.5 %

Refer to the Income Tax discussion in the Summary of Critical Accounting Policies and Estimates and Note 8, Income Taxes, of the Notes to Consolidated Financial Statements, included in Item 8, for a further discussion of our effective tax rate.

On July 4, 2025, the United States enacted the One Big Beautiful Bill Act ("OBBBA"). The OBBBA includes provisions altering the timing of deduction associated with certain depreciable assets, research and experimental expenses, and interest expense, with some effective in 2025 and some in 2026. The OBBBA further alters the determination and rates of taxation of international earnings, primarily effective in 2026. The current period's financial statements include the impact of the OBBBA provisions effective for 2025, which are not material to either income tax expense or the financial statements as a whole.

Net Income and Adjusted EBITDA

The following details Net income attributable to common shareholders, earnings per share and Adjusted EBITDA.

(in millions, except per share data)	Year Ended December 31,	
	2025	2024
Net income attributable to common shareholders	\$ 792.1	546.8
Basic earnings per common share	\$ 16.73	11.51
Diluted earnings per common share	\$ 16.40	11.30
Adjusted EBITDA	\$ 1,452.9	1,186.3

Higher profits were primarily driven by Leasing Advisory and Capital Markets Services, fueled by strong Transactional revenue growth, with incremental contributions from Real Estate Management Services. All segments reflected enhanced platform leverage and continued cost discipline. In addition, an approximate \$25 million adverse impact associated with U.S. employee healthcare actuarial deficit was largely offset by discrete cost management actions. Refer to the segment performance highlights for additional detail.

In addition to the aforementioned segment drivers, Net income attributable to common shareholders was favorably impacted by lower Interest expense, net of interest income, and lower equity losses, and unfavorably impacted by higher Restructuring and acquisition charges. These additional drivers are discussed above in further detail.

Segment Operating Results

Effective January 1, 2025, we report Property Management (historically included in Markets Advisory, which was renamed Leasing Advisory) within Real Estate Management Services (formerly referred to as Work Dynamics). Additionally, Capital Markets, LaSalle and JLL Technologies were renamed to Capital Markets Services, Investment Management, and Software and Technology Solutions, respectively.

Effective July 1, 2025, we report the balances and activity associated with the investments historically reported within Software and Technology Solutions in "All Other." These investments (inclusive of convertible notes receivable) in proptech funds and early to mid-stage proptech companies ("Proptech Investments") do not constitute an operating or reporting segment.

Prior period financial information was recast to conform with the presentation changes described above.

Through December 31, 2025, we managed and reported our operations as five business segments: Real Estate Management Services, Leasing Advisory, Capital Markets Services, Investment Management, and Software and Technology Solutions. Our Real Estate Management Services business provides a broad suite of integrated services to occupiers of real estate, including facility and property management, project management, and portfolio and other services. We consider "Property Management" to be services provided to non-occupying property investors and "Workplace Management" to be services provided to facility occupiers. Leasing Advisory offers agency leasing and tenant representation, as well as advisory and consulting services. Our Capital Markets Services offerings include investment sales, debt and equity advisory, value and risk advisory, and loan servicing. Investment Management provides services on a global basis to institutional investors and other sources of private capital, while our Software and Technology Solutions segment offers various software products and services to our clients.

Segment operating expenses comprise Gross contract costs and Segment platform operating expenses, which includes Platform compensation and benefits; Platform operating, administrative and other expenses; and Depreciation and amortization. Our measure of segment results excludes Restructuring and acquisition charges.

Real Estate Management Services

(\$ in millions)	Year Ended December 31,		Change in		% Change
	2025	2024	U.S. dollars		in Local Currency
<i>Workplace Management</i>	\$ 13,848.5	12,529.7	1,318.8	11 %	10 %
<i>Project Management</i>	3,797.9	3,151.9	646.0	20	20
<i>Property Management</i>	1,841.3	1,795.1	46.2	3	3
<i>Portfolio Services and Other</i>	513.5	516.0	(2.5)	—	(1)
Revenue	\$ 20,001.2	17,992.7	2,008.5	11 %	11 %
Platform compensation and benefits	\$ 1,860.3	1,731.4	128.9	7%	7%
Platform operating, administrative and other	595.7	594.2	1.5	—	—
Depreciation and amortization	114.2	124.3	(10.1)	(8)	(9)
Segment platform operating expenses	2,570.2	2,449.9	120.3	5	4
Gross contract costs	17,102.0	15,266.2	1,835.8	12	12
Segment operating expenses	\$ 19,672.2	17,716.1	1,956.1	11 %	11 %
Equity earnings	\$ 0.7	2.9	(2.2)	(76)%	(74)%
Adjusted EBITDA	\$ 437.5	399.2	38.3	10 %	9 %

Higher Real Estate Management Services revenue was primarily driven by Workplace Management and Project Management. Within Workplace Management, growth reflected a largely balanced mix of mandate expansions and new client wins. Management fees within Workplace Management were unfavorably impacted by approximately \$12 million of higher pass-through costs, compared with the prior year, associated with the U.S. employee healthcare actuarial surplus/deficit. Project Management delivered 20% growth, with broad-based contributions from most geographies, as higher pass-through costs augmented a low double-digit management fee increase.

The increase in Segment platform operating expenses was primarily driven by higher compensation and benefits expense to support business growth, partially mitigated by enhanced platform leverage. The difference between the lower 4% increase in segment platform operating expenses compared with the 11% increase in total segment operating expenses was driven by incremental gross contract costs. In addition, an approximate \$22 million adverse bottom-line impact associated with the U.S. medical actuarial surplus/deficit was largely offset by discrete cost management actions.

Adjusted EBITDA expansion was largely attributable to revenue growth described above together with the enhanced platform leverage.

Leasing Advisory

(\$ in millions)	Year Ended December 31,		Change in	% Change	
	2025	2024	U.S. dollars	in Local Currency	
<i>Leasing</i>	\$ 2,901.6	2,596.2	305.4	12 %	11 %
<i>Advisory, Consulting and Other</i>	108.3	109.4	(1.1)	(1)	(2)
Revenue	\$ 3,009.9	2,705.6	304.3	11 %	11 %
Platform compensation and benefits	\$ 2,146.7	1,963.6	183.1	9%	9%
Platform operating, administrative and other	274.1	245.5	28.6	12	11
Depreciation and amortization	45.2	36.8	8.4	23	23
Segment platform operating expenses	2,466.0	2,245.9	220.1	10	9
Gross contract costs	11.6	33.3	(21.7)	(65)	(65)
Segment operating expenses	\$ 2,477.6	2,279.2	198.4	9 %	8 %
Adjusted EBITDA	\$ 580.1	464.7	115.4	25 %	24 %

The increase in Leasing Advisory revenue was attributable to Leasing, led by continued momentum in the office sector. Many geographies achieved double-digit Leasing revenue increases, with the most significant growth coming from the U.S., Germany and Canada. Broad-based growth across the U.S. was primarily driven by office — as a meaningful increase in average deal size complemented higher volume — and industrial, largely due to higher deal volume.

The increase in Segment platform operating expenses was driven by higher commissions, a direct result of the revenue growth, partially mitigated by greater platform leverage.

Higher Adjusted EBITDA was driven by the revenue growth coupled with incremental platform leverage.

Capital Markets Services

(\$ in millions)	Year Ended December 31,		Change in		% Change
	2025	2024	U.S. dollars		in Local Currency
<i>Investment Sales, Debt/Equity Advisory and Other</i>	\$ 1,874.5	1,506.2	368.3	24 %	23 %
<i>Value and Risk Advisory</i>	379.6	373.0	6.6	2	—
<i>Loan Servicing</i>	168.0	161.2	6.8	4	4
Revenue	\$ 2,422.1	2,040.4	381.7	19 %	17 %
Platform compensation and benefits	\$ 1,736.8	1,491.9	244.9	16%	15%
Platform operating, administrative and other	337.7	278.4	59.3	21	20
Depreciation and amortization	55.6	66.8	(11.2)	(17)	(17)
Segment platform operating expenses	2,130.1	1,837.1	293.0	16	15
Gross contract costs	5.7	48.6	(42.9)	(88)	(88)
Segment operating expenses	\$ 2,135.8	1,885.7	250.1	13 %	12 %
Equity earnings	\$ 5.1	2.7	2.4	89 %	77 %
Net non-cash MSR and mortgage banking derivative activity	\$ (15.2)	(18.2)	3.0	16%	17%
Adjusted EBITDA	\$ 364.4	244.4	120.0	49 %	47 %

Capital Markets Services top-line growth was fueled by investment sales and debt advisory transactions across nearly all sectors, with the most significant contributions coming from multifamily and office. Geographically, the growth was led by the U.S., UK and Spain. Globally, investment sales revenues were up 21%, outpacing the broader investment sales market, which grew 18% over the same period according to JLL Research. The current-year performance complemented a strong 2024 to achieve 43% and 57% top-line growth for investment sales and debt advisory, respectively, on a two-year stacked basis.

The increase in Segment platform operating expenses was primarily driven by higher commissions and other revenue-related costs.

The Adjusted EBITDA improvement was largely attributable to the transactional revenue growth, net of higher commissions, described above, together with enhanced platform leverage.

Investment Management

(\$ in millions)	Year Ended December 31,		Change in		% Change in Local Currency
	2025	2024	U.S. dollars		
<i>Advisory fees</i>	\$ 373.7	373.8	(0.1)	— %	(1) %
<i>Transaction fees and other</i>	37.3	33.5	3.8	11	11
<i>Incentive fees</i>	39.1	60.6	(21.5)	(35)	(37)
Revenue	\$ 450.1	467.9	(17.8)	(4)%	(5)%
Platform compensation and benefits	\$ 263.8	268.9	(5.1)	(2)%	(4)%
Platform operating, administrative and other	66.9	69.8	(2.9)	(4)	(6)
Depreciation and amortization	11.2	8.5	2.7	32	31
Segment platform operating expenses	341.9	347.2	(5.3)	(2)	(3)
Gross contract costs	36.1	37.4	(1.3)	(3)	(4)
Segment operating expenses	\$ 378.0	384.6	(6.6)	(2)%	(3)%
Adjusted EBITDA ⁽¹⁾	\$ 83.5	100.3	(16.8)	(17)%	(17)%
Equity earnings (losses)	\$ 12.3	(22.6)	34.9	n.m.	n.m.

(1) Adjusted EBITDA excludes Equity earnings (losses) attributable to common shareholders for Investment Management.

The decrease in Investment Management revenue was predominantly attributable to the lower incentive fees, as expected. Transaction fees increased compared with the prior year, especially during the fourth quarter, reflecting improved transaction volume in multiple geographies, while Advisory fees remained relatively steady, as growth in North America offset lower contributions from Asia Pacific.

The decrease in Segment platform operating expenses was largely driven by lower variable incentive compensation expense as a result of the decrease in incentive fees.

The change in Adjusted EBITDA primarily reflected (i) the expected, lower incentive fees noted above, net of variable compensation costs and (ii) the absence of a prior-year \$8.2 million benefit from the gain recognized in the second quarter of 2024 following the purchase of a controlling interest in a LaSalle-managed fund.

Investment Management reported equity earnings for the year, versus equity losses in the prior year, as property valuation adjustments stabilized and in some cases rose.

AUM decreased 3% in USD and local currency over the trailing twelve months. Changes in AUM are detailed in the table below (in billions):

Beginning balance (December 31, 2024)	\$	88.8
Asset acquisitions/takeovers		5.9
Asset dispositions/withdrawals		(8.7)
Valuation changes		1.8
Foreign currency translation		0.1
Change in uncalled committed capital and cash held		(1.5)
Ending balance (December 31, 2025)	\$	86.4

Software and Technology Solutions

(\$ in millions)	Year Ended December 31,		Change in		% Change in Local Currency	
	2025	2024	U.S. dollars			
Revenue	\$	232.3	226.3	6.0	3 %	2 %
Platform compensation and benefits	\$	188.1	194.3	(6.2)	(3)%	(3)%
Platform operating, administrative and other		57.7	47.9	9.8	20	20
Depreciation and amortization		26.6	19.4	7.2	37	37
Segment platform operating expenses		272.4	261.6	10.8	4	4
Gross contract costs		2.8	5.5	(2.7)	(49)	(49)
Segment operating expenses	\$	275.2	267.1	8.1	3 %	3 %
Adjusted EBITDA	\$	(14.2)	(19.6)	5.4	28 %	25 %

The increase in Software and Technology Solutions revenue reflected double-digit growth in software outpacing declines in technology solutions, the result of lower activity associated with large existing clients.

Segment platform operating expense growth was driven by increased revenue-related expenses and higher depreciation and amortization expense, largely associated with purchased and developed software. These drivers were partially offset by cost management actions.

The improvement in Adjusted EBITDA was driven by the increased revenue and cost management actions described above.

LIQUIDITY AND CAPITAL RESOURCES

Cash Flows from Operating Activities

Operating activities provided \$1,194.1 million of cash in 2025, compared with \$785.3 million provided in 2024. Improved cash flow performance was primarily driven by (i) higher cash provided by earnings, (ii) the absence of cash outflow associated with a 2024 loan repurchased from Fannie Mae together with cash proceeds in 2025 from the sale of the repurchased loan's underlying asset, and (iii) lower cash taxes paid.

Cash Flows from Investing Activities

We used \$336.6 million of cash for investing activities during 2025, compared with \$316.8 million used in 2024. The increase in cash used for investing activities was primarily attributable to our \$100.0 million contribution to JLL Income Property Trust ("JLL IPT"), an Investment Management core open-end flagship fund, in January 2025, and higher net capital additions, partially offset by lower cash paid for acquisitions. We discuss key drivers, along with other investing activities, individually below in further detail.

Cash Flows from Financing Activities

Financing activities used \$643.2 million of cash during 2025, compared with \$451.2 million used during 2024. The change was driven by higher share repurchases and incremental net reductions on short-term borrowings in 2025. We discuss these drivers in further detail below.

Debt

We maintain a commercial paper program (the "Program") in which we may issue up to \$2.5 billion of short-term, unsecured and unsubordinated commercial paper notes at any time.

Our \$3.3 billion Facility matures on November 3, 2028, and bears a variable interest rate. Outstanding borrowings, including the balance of the Facility, Short-term borrowings (financing lease obligations, overdrawn bank accounts and local overdraft facilities) and the balance outstanding under the Program are presented below.

(in millions)	2025	December 31, 2024
Outstanding borrowings under the Facility	\$ —	100.0
Short-term borrowings	92.7	153.8
Outstanding commercial paper	—	200.0

In addition to our Facility, we had the capacity to borrow up to \$58.6 million under local overdraft facilities as of December 31, 2025.

The following table provides additional information on our Facility, commercial paper, and our uncommitted credit agreement ("Uncommitted Facility"), which allows for discretionary short-term liquidity of up to \$400.0 million, collectively.

(\$ in millions)	2025	Year Ended December 31, 2024
Average outstanding borrowings	\$ 1,119.7	1,381.4
Average effective interest rate	4.9 %	5.9 %

As of December 31, 2025, we had €350.0 million of Euro Notes, evenly divided between maturities of June 2027 (with a fixed interest rate of 1.96%) and June 2029 (with a fixed interest rate of 2.21%), and \$400.0 million of Senior Notes due December 2028 with a fixed interest rate of 6.875%.

We will continue to use the Facility for working capital needs (including payment of accrued incentive compensation), co-investment activities, share repurchases, capital expenditures and acquisitions.

Refer to Note 9, Fair Value Measurements in the Notes to Consolidated Financial Statements, included in Item 8, for additional information on our debt.

Investment Activity

As of December 31, 2025, we had a carrying value of \$892.9 million in Investments, primarily related to Investment Management co-investments and investments in early to mid-stage proptech companies as well as proptech funds ("Proptech Investments"). In 2025 and 2024, funding of investments exceeded returns of capital by \$111.1 million (which notably included \$100.0 million invested in JLL IPT as described above) and \$69.4 million, respectively. We have maximum potential unfunded commitments to direct investments or investment vehicles of \$203.5 million and \$7.3 million as of December 31, 2025 for our Investment Management business and Proptech Investments, respectively.

See Note 5, Investments, of the Notes to Consolidated Financial Statements, included in Item 8, for additional information on our investment activity.

Share Repurchase and Dividend Programs

As of December 31, 2025, \$801.7 million remained authorized for repurchases under our repurchase program. The following table outlines share repurchase activity for the last two years.

	Year Ended December 31,	
	2025	2024
Total number of shares repurchased (in thousands)	747.5	373.1
Total paid for shares repurchased (in millions)	\$ 211.5	80.4

Capital Expenditures

Net capital additions were \$215.6 million and \$185.5 million in 2025 and 2024, respectively. Expenditures in both years were primarily related to office leasehold improvements, hardware and purchased/developed software.

Business Acquisitions

The following table details cash payments relating to acquisitions. Payments for current-year acquisitions are included in cash used in investing activities, while payments for prior-year acquisitions are primarily reflected in cash used in financing activities.

(in millions)	Year Ended December 31,	
	2025	2024
Payments relating to current-year acquisitions	\$ 7.7	62.3
Payments for deferred business acquisition and earn-out obligations	19.6	7.4
Total paid for business acquisitions	\$ 27.3	69.7

Terms for our acquisitions have typically included cash paid at closing with provisions for additional consideration and earn-out payments subject to certain contract provisions and performance. Deferred business acquisition obligations totaled \$21.3 million and \$20.8 million on the Consolidated Balance Sheets as of December 31, 2025 and 2024, respectively. These obligations represent the current discounted values of payments to sellers of businesses for which our acquisition has closed as of the balance sheet dates and for which the only remaining condition on those payments is the passage of time. As of December 31, 2025, we had the potential to make earn-out payments on 11 acquisitions subject to the achievement of certain performance conditions, representing \$17.2 million accrued for potential earn-out payments, of a potential maximum of \$75.5 million (undiscounted). These earn-outs will come due at various times over the next five years, assuming the achievement of the applicable performance conditions.

We will continue to consider acquisitions we believe will strengthen our market position, increase our profitability and supplement our organic growth.

Refer to Note 4, Business Combinations, Goodwill and Other Intangible Assets, of the Notes to the Consolidated Financial Statements, included in Item 8, for further information on business acquisitions.

Repatriation of Foreign Earnings

Based on our historical experience and future business plans, we do not expect to repatriate our foreign source earnings to the U.S. We believe our policy of permanently reinvesting earnings of foreign subsidiaries does not significantly impact our liquidity. As of December 31, 2025 and 2024, we had total cash and cash equivalents of \$599.1 million and \$416.3 million, respectively, of which \$386.0 million and \$314.4 million, respectively, was held by our foreign subsidiaries.

Leases

Our lease obligations primarily consist of operating leases of office space in various buildings for our own use as well as operating leases for equipment. The total minimum rentals to be received in the future as sublessor under noncancelable operating subleases as of December 31, 2025 was \$27.9 million.

Refer to Note 11, Leases, of the Notes to the Consolidated Financial Statements, included in Item 8, for further information on our lease obligations.

Deferred Compensation

Deferred compensation obligations are inclusive of amounts attributable to service conditions satisfied as of December 31, 2025, as well as service conditions expected to be satisfied in future periods. We invest directly in insurance contracts which yield returns to fund these deferred compensation obligations. These plans allow employees and members of our Board of Directors to defer portions of their compensation, and plan balances predominantly relate to U.S. employees. We recognize an asset for the amount that could be realized under these insurance contracts at the balance sheet date, and the deferred compensation obligation is adjusted to reflect the changes in the fair value of the amount owed to the employees. The timing of payments to employees is, in part, dependent on their employment with JLL and, therefore, cannot be determined with precision.

Refer to the Consolidated Balance Sheets, of the Consolidated Financial Statements, and Note 9, Fair Value Measurements, of the Notes to the Consolidated Financial Statements, included in Item 8, for further information on our deferred compensation.

Defined Benefit Plans

The defined benefit plan obligations represent estimates of the expected benefits to be paid out by our defined benefit plans. We will fund these obligations from the assets held by these plans. If the assets these plans hold are not sufficient to fund these payments, JLL will fund the remaining obligations. We have historically funded pension costs as actuarially determined and as applicable laws and regulations require. We expect to make immaterial contributions to our defined benefit pension plans in 2026. As payments to recipients are based on their retirement date, age and other factors, we cannot determine the timing of such payments with precision.

Refer to Note 7, Retirement Plans, of the Notes to the Consolidated Financial Statements, included in Item 8, for further information on our defined benefit plans.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Information regarding market risk is included in Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations under the caption "Market Risks" and is incorporated by reference herein.

Disclosure of Limitations

As the information presented above includes only those exposures that exist as of December 31, 2025, it does not consider those exposures or positions which could arise after that date. The information we present has limited predictive value. As a result, the ultimate realized gain or loss with respect to interest rate and foreign currency fluctuations will depend on the exposures that arise during the applicable period, the hedging strategies at the time, and interest and foreign currency rates.

Report of Independent Registered Public Accounting Firm

To the Shareholders and Board of Directors
Jones Lang LaSalle Incorporated:

Opinion on the Consolidated Financial Statements

We have audited the accompanying consolidated balance sheets of Jones Lang LaSalle Incorporated and subsidiaries (the Company) as of December 31, 2025 and 2024, the related consolidated statements of comprehensive income, changes in equity, and cash flows for each of the years in the three-year period ended December 31, 2025, and the related notes (collectively, the consolidated financial statements). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2025 and 2024, and the results of its operations and its cash flows for each of the years in the three-year period ended December 31, 2025, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company's internal control over financial reporting as of December 31, 2025, based on criteria established in Internal Control – Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission, and our report dated February 19, 2026 expressed an unqualified opinion on the effectiveness of the Company's internal control over financial reporting.

Basis for Opinion

These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that our audits provide a reasonable basis for our opinion.

Critical Audit Matter

The critical audit matter communicated below is a matter arising from the current period audit of the consolidated financial statements that was communicated or required to be communicated to the audit committee and that: (1) relates to accounts or disclosures that are material to the consolidated financial statements and (2) involved our especially challenging, subjective, or complex judgments. The communication of a critical audit matter does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

Sufficiency of audit evidence over income taxes

As described in Notes 2 and 8 to the consolidated financial statements, the Company recorded a provision for income taxes of \$189.5 million for the year ended December 31, 2025, based on local tax rules and regulations for the tax jurisdictions in which they operate. The Company has operations which constitute a taxable income presence in over 93 countries or other taxable jurisdictions outside of the U.S.

We identified the evaluation of the sufficiency of audit evidence over income tax expense as a critical audit matter. The Company's global tax structure adds complexity that required subjective auditor judgment to evaluate the sufficiency of audit evidence obtained. This required the involvement of federal and international tax professionals with specialized skills and knowledge, in order to assess the nature and extent of procedures performed in relation to the amounts recorded and disclosed in the consolidated financial statements.

The following are the primary procedures we performed to address this critical audit matter. We evaluated the design and tested the operating effectiveness of certain internal controls over the Company's income tax process, including controls over the amounts recorded. We applied auditor judgment to determine the nature and extent of procedures to be performed over income tax expense. For certain taxing jurisdictions, we analyzed supporting documentation for the provision for income taxes. In addition, we involved tax professionals with specialized skills and knowledge who evaluated certain of the Company's interpretations and applications of the tax rules and regulations. We evaluated the sufficiency of audit evidence obtained by assessing the results of procedures performed over income tax expense, including the appropriateness of the nature and extent of such evidence.

/s/ KPMG LLP

We have served as the Company's auditor since 1988.

Report of Independent Registered Public Accounting Firm

To the Shareholders and Board of Directors

Jones Lang LaSalle Incorporated:

Opinion on Internal Control Over Financial Reporting

We have audited Jones Lang LaSalle Incorporated and subsidiaries' (the Company) internal control over financial reporting as of December 31, 2025, based on criteria established in Internal Control – Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission. In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2025, based on criteria established in Internal Control – Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated balance sheets of the Company as of December 31, 2025 and 2024, the related consolidated statements of comprehensive income, changes in equity, and cash flows for each of the years in the three-year period ended December 31, 2025, and the related notes (collectively, the consolidated financial statements), and our report dated February 19, 2026 expressed an unqualified opinion on those consolidated financial statements.

Basis for Opinion

The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

Definition and Limitations of Internal Control Over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

JONES LANG LASALLE INCORPORATED
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. ORGANIZATION

Jones Lang LaSalle Incorporated ("Jones Lang LaSalle," which we may refer to as "JLL," "we," "us," "our," or the "Company") was incorporated in 1997. We have corporate offices worldwide and over 113,000 employees, including approximately 54,600 employees whose costs are reimbursed by our clients. We provide comprehensive integrated real estate and investment management expertise on a local, regional and global level to owner, occupier and investor clients. We are an industry leader in property and facility management services, with a managed portfolio of nearly 5.7 billion square feet (unaudited) worldwide as of December 31, 2025. LaSalle Investment Management ("Investment Management") is one of the world's premier diversified real estate investment management firms, with \$86.4 billion of assets under management (unaudited) as of December 31, 2025.

We work for a broad range of clients representing a wide variety of industries in markets throughout the world. Our clients vary greatly in size and include for-profit and not-for-profit entities of all kinds, public-private partnerships and governmental (public sector) entities. We provide real estate investment management services on a global basis for both public and private assets through our Investment Management segment. Our integrated global business model, industry-leading research capabilities, client relationship management focus, consistent worldwide service delivery and strong brand are attributes that enhance our services.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation

Our Consolidated Financial Statements have been prepared in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") and include the accounts of JLL and its majority-owned and controlled subsidiaries. Intercompany balances and transactions have been eliminated. Investments over which we exercise significant influence, but do not control, are accounted for either at fair value or under the equity method.

When applying principles of consolidation, we begin by determining whether an investee entity is a variable interest entity ("VIE") or a voting interest entity. U.S. GAAP draws a distinction between voting interest entities, which are embodied by common and traditional corporate and certain partnership structures, and VIEs, broadly defined as entities for which control is achieved through means other than voting rights. For voting interest entities, the interest holder with control through majority ownership and majority voting rights consolidates the entity. For VIEs, determination of the "primary beneficiary" dictates the accounting treatment. We identify the primary beneficiary of a VIE as the enterprise having both (1) the power to direct the activities of the VIE that most significantly impact the entity's economic performance and (2) the obligation to absorb losses or receive benefits of the VIE that could potentially be significant to the VIE. We perform the primary beneficiary analysis as of the inception of our investment and upon the occurrence of a reconsideration event. When we determine we are the primary beneficiary of a VIE, we consolidate the VIE; when we determine we are not the primary beneficiary of the VIE, we account for our investment in the VIE at fair value or under the equity method, based upon an election made at the time of investment.

Our determination of the appropriate accounting method to apply for unconsolidated investments is based on the level of influence we have in the underlying entity. When we have an asset advisory contract with a real estate limited partnership in which we also hold an ownership interest, the combination of our limited partner interest and the advisory agreement generally provides us with significant influence over such real estate limited partnership. Accordingly, we account for such investments either at the equity method or fair value if elected. We eliminate transactions with such subsidiaries to the extent of our ownership in such subsidiaries.

For less-than-wholly-owned consolidated subsidiaries, noncontrolling interest is the portion of equity not attributable, directly or indirectly, to JLL. We evaluate whether noncontrolling interests possess any redemption features outside of our control. If such features exist, the noncontrolling interests are presented outside of permanent equity on the Consolidated Balance Sheets within Redeemable noncontrolling interest. Redeemable noncontrolling interests are adjusted to the greater of their fair value or carrying value as of each balance sheet date through a charge to Additional paid-in capital, if necessary. We had no such redeemable noncontrolling interest as of December 31, 2025 or 2024. When noncontrolling interests have no redemption features outside of our control, noncontrolling interests are presented as a component of permanent equity on the Consolidated Balance Sheets. We report revenues, expenses and net income/loss from less-than-wholly-owned consolidated subsidiaries at the consolidated amounts, including both the amounts attributable to the Company and noncontrolling interests; the income or loss attributable to the noncontrolling interest holders is reflected in Net income attributable to noncontrolling interest on the Consolidated Statements of Comprehensive Income.

Use of Estimates

The preparation of the Consolidated Financial Statements in conformity with U.S. GAAP requires us to make estimates and assumptions about future events that affect reported amounts of assets and liabilities, disclosure of contingent assets and liabilities, and reported amounts of revenue and expenses during each reporting period. Such estimates include the value and allocation of purchase consideration, valuation of accounts receivable, Reimbursable receivables, Warehouse receivables, Investments, Goodwill, intangible assets, derivative financial instruments, other long-lived assets, earn-out liabilities, legal contingencies, assumptions used in the calculation of income taxes, incentive compensation, self-insurance program liabilities, and retirement and other post-employment benefits, among others.

These estimates and assumptions are based on management's best estimate and judgment. We evaluate these estimates and assumptions on an ongoing basis using historical experience and other factors, including the current economic environment, which we believe to be reasonable under the circumstances. We adjust such estimates and assumptions when facts and circumstances dictate. Market factors, such as illiquid credit markets, volatile equity markets and foreign currency exchange rate fluctuations can increase the uncertainty in such estimates and assumptions. Because future events and their effects cannot be determined with precision, actual results could differ significantly from these estimates. Changes in those estimates resulting from continuing changes in the economic environment will be reflected in the financial statements in future periods. Although actual amounts may differ from such estimated amounts, we believe such differences are not likely to be material.

Revenue Recognition

We earn revenue from the following services (segments are bolded).

- **Real Estate Management Services**
 - Workplace Management
 - Project Management
 - Property Management
 - Portfolio Services and Other
- **Leasing Advisory**
 - Leasing
 - Advisory, Consulting and Other
- **Capital Markets Services**
 - Investment Sales, Debt/Equity Advisory and Other
 - Value and Risk Advisory
 - Loan Servicing
- **Investment Management**
- **Software and Technology Solutions**

Real Estate Management Services

Workplace Management

Workplace Management provides comprehensive, on-site day-to-day real estate management services to corporations and institutions across a broad range of industries that outsource the management of the real estate they occupy. Contract pricing can include multiple elements, such as a management fee or an incentive fee or other form of variable consideration. In addition, these fees may be inclusive of – or distinct from – the reimbursement of costs related to client-dedicated personnel, subcontractors and third-party vendors for which we are reimbursed. When distinct, such costs are reimbursed separately from our management fee.

Management fees are typically structured as a fixed monthly price for an agreed-upon scope of work or are determined by applying a contractual markup to spend associated with fulfilling our Workplace Management contracts. As these fees represent a series of daily performance obligations delivered over time, we recognize revenue each period for fees related to the services we perform.

Many contracts also include variable consideration, which is typically earned as an incentive fee when we perform favorably with respect to agreed-upon key performance indicators ("KPI"), but may also be structured as an at-risk fee where we are penalized for failing to achieve a KPI. Examples of KPIs include shared savings targets, service quality benchmarks, timely work order completion statistics and client satisfaction scores. Regardless of the upside or downside nature, we assess variable consideration independently for each contract and, when appropriate, recognize such fees as revenue when the achievement of the KPI is probable and material reversal of such revenue is unlikely.

Because we control and direct the work of client-dedicated employees, we present the associated compensation and benefits expense as well as the corresponding revenue gross on our Consolidated Statements of Comprehensive Income. Similarly, when we act as principal with respect to third-party vendors and subcontractors engaged to deliver operational services to our client, we control and direct these third-party activities prior to the transfer of services to the client and accordingly present the costs we are reimbursed for as well as the corresponding revenue as gross. For contracts where we do not control and direct third-party services delivered to the client, we act as the client's agent and report revenue net of such costs.

Project Management

Project Management provides construction-related services, primarily short-term in nature, ranging from development and design to general contracting and project management for owners and occupiers of real estate. Depending on the terms of our engagement, our performance obligation is either to arrange for the completion of a project or to assume responsibility for completing a project on behalf of a client. Our obligations to clients are satisfied over time due to the continuous transfer of control of the underlying asset. Therefore, we recognize revenue over time, generally using input measures (e.g., to-date costs incurred relative to total estimated costs at completion).

Typically, we are entitled to consideration at distinct milestones over the term of an engagement. For certain contracts where we assume responsibility for completing a project, we control the services provided by third-party vendors and subcontractors prior to transfer of the assets to the client. In these situations, the third-party costs incurred on behalf of clients, along with the associated reimbursement revenue, are presented gross on our Consolidated Statements of Comprehensive Income. In contrast, where we act as agent on behalf of clients, third-party costs incurred and the associated revenue are presented net on our Consolidated Statements of Comprehensive Income.

Property Management

Property Management provides on-site day-to-day real estate management services for owners of office, industrial, retail, multifamily residential and various other types of properties, representing a series of daily performance obligations delivered over time. Pricing is generally in the form of a monthly management fee based upon property-level cash receipts, square footage under management or some other variable metric.

Although we are principal in certain situations, we generally act as agent on behalf of our Property Management clients in relation to third-party vendors and subcontractors engaged to deliver operational services to our clients' properties. In these situations, we arrange, but do not control, the services provided by third party vendors and subcontractors prior to the transfer of the services to the client. As a result, the third-party costs incurred on behalf of clients, along with the corresponding revenue, are presented net on our Consolidated Statements of Comprehensive Income.

Portfolio Services and Other

Portfolio Services and Other includes a variety of different service offerings, including advising clients on how to optimize their workplace strategies and occupancy planning efforts, and overall portfolio strategy management and administration for our clients. Our performance obligation is to provide services as specified in the contract. For event-driven point-in-time transactions, we record revenue when our performance obligation is complete, such as the delivery of a report to the client, whereas revenue is recorded over time for services with a continuous transfer of control to our clients.

Leasing Advisory

Leasing

Leasing revenue is earned from brokerage commissions as we represent tenants and/or landlords in connection with real estate leases. Our performance obligation is to facilitate the execution of a lease agreement, which is satisfied at a point in time, upon lease execution. Generally, we are either entitled to the full consideration upon lease execution or in part upon lease execution with the remainder upon the occurrence of a future event outside of our control (e.g., tenant occupancy, lease commencement, or rent commencement). The majority of the events that preclude our entitlement to the full consideration upon lease execution are considered to be "normal course of business" and, therefore, do not result in a constraint upon the recognition of revenue. In the infrequent instance our fee entitlement in a contract with a customer is predicated on the occurrence of a future event(s) uncertain of occurring, we constrain the recognition of revenue until the uncertainty is resolved or the future event occurs. Generally, less than 5% of our Leasing revenue recognized in a period had previously been constrained.

Advisory, Consulting and Other

Advisory, Consulting and Other includes a variety of different service offerings, whereby our performance obligation is to provide services as specified in the contract. Occasionally, our entitlement to consideration is predicated on the occurrence of an event such as the delivery of a report to the client. However, except for event-driven point-in-time transactions, the majority of services provided within this service line are delivered over time due to the continuous transfer of control to our clients.

Capital Markets Services

Investment Sales, Debt/Equity Advisory and Other

We provide brokerage and other services for capital transactions, such as real estate sales or loan originations and refinancings. Our performance obligation is to facilitate the execution of capital transactions, and we are generally entitled to the full consideration at the point in time upon which our performance obligation is satisfied, at which time we recognize revenue. In addition, revenue related to mortgage servicing rights ("MSR" or "MSRs") and loan origination fees are reported within Investment Sales, Debt/Equity Advisory and Other.

Value and Risk Advisory

Value and Risk Advisory service offerings include (but are not limited to) asset appraisal, business valuation, property tax advisory, complex litigation and environmental property consulting. Our performance obligation is to provide services as specified in the contract and our pricing is negotiated based on the scale and complexity of each assignment. Typically, our entitlement to consideration is predicated on the occurrence of an event such as the delivery of an appraisal or report to the client.

Loan Servicing

We service substantially all the loans we originate and sell, and service loans we did not originate but subsequently acquire the rights to service. We obtain a periodic fee for each loan we service based on a proportion of the cash collections.

Capital Markets Services revenue excluded from the scope of Accounting Standards Codification Topic 606, Revenue from Contracts with Customers ("ASC Topic 606")

Our mortgage banking and servicing operations, comprised of (i) all Loan Servicing revenue and (ii) activities related to MSRs and loan origination fees (included in Investment Sales, Debt/Equity Advisory and Other), are not considered revenue from contracts with customers, and accordingly are excluded from the scope of ASC Topic 606. Such out-of-scope revenue is presented below.

(in millions)	Year Ended December 31,		
	2025	2024	2023
Revenue excluded from scope of ASC Topic 606	\$ 360.8	325.9	286.3

Investment Management

Investment Management provides real estate investment management services to clients and generally earns consideration in the form of advisory fees, transaction fees and incentive fees. Typically, our performance obligation is to manage clients' capital for a specified period of time and is delivered as a series of daily performance obligations over time. Revenue recognition for transaction fees and incentive fees is generally constrained until all contingencies have cleared due to the possibility of a significant reversal. Revenue is recognized upon completion of the events necessary to realize the associated consideration. Substantially all incentive fees recognized as revenue were previously constrained.

Software and Technology Solutions

Software and Technology Solutions offers multiple cloud-based software solutions that generate value for investors and businesses by enabling higher-quality decision-making through improved data and analytics. We recognize cloud-based software revenue over time commensurate with the length and terms of the contract. In addition, we offer professional services such as program and project management, implementation and support, managed services, and advisory services. We recognize professional services revenue at the time our performance obligation is satisfied.

Effective January 1, 2026, the Software and Technology Solutions segment will merge into Real Estate Management Services with results of operations reported as a subsegment within Real Estate Management Services.

Contract Costs

Expenses, primarily employee commissions, incurred on leasing and capital markets transactions represent substantially all our incremental costs to obtain revenue contracts. We apply the applicable practical expedient offered by ASC Topic 606 when the amortization period is one year or less and, therefore, recognize these costs as an operating expense as they are incurred.

We also incur costs to fulfill revenue contracts, primarily related to transition costs incurred prior to delivering Property Management and Workplace Management services. These costs are not expensed as incurred but are deferred and amortized as an operating expense over the expected life of the contract in accordance with the transfer of related services. Contract costs that are recognized as assets are reviewed for impairment when events and changes in circumstances indicate that their carrying amounts may not be recoverable.

Contract Assets and Liabilities

Contract assets include amounts recognized as revenue for which we are not yet entitled to payment for reasons other than the passage of time, but that do not constrain revenue recognition. We include Contract assets in our reserving process and assess the risk of loss similar to our methodology for Trade receivables, since Contract assets are reclassified to Trade receivables when we become entitled to payment. Accordingly, a reserve is applied upon recognition of the contract asset. Our contract assets, net of allowance, are included in Short-term contract assets and Other assets.

Contract liabilities include advance payments we have received which relate to performance obligations we have not yet satisfied. The majority of contract liabilities are recognized as revenue within 90 days. Our contract liabilities are included in Short-term contract liabilities and deferred income on our Consolidated Balance Sheets.

Such contract assets and liabilities are presented below.

(in millions)	December 31, 2025		December 31, 2024
Contract assets, gross	\$	407.1	388.3
Contract asset allowance		(3.9)	(3.9)
Contract assets, net	\$	403.2	384.4
Contract liabilities	\$	187.3	154.7

Deferred Income

Deferred income includes payments received from customers for which we have satisfied our performance obligations but are not yet able to recognize the related revenue because of contractual requirements.

Remaining Performance Obligations

Remaining performance obligations represent the aggregate transaction price for contracts where our performance obligations have not yet been satisfied. As of December 31, 2025, the aggregate amount of transaction price allocated to remaining performance obligations represented an insignificant amount of our total revenue. In accordance with ASC Topic 606, excluded from the aforementioned remaining performance obligations are (i) amounts attributable to contracts expected to be completed within 12 months and (ii) variable consideration for services performed as a series of daily performance obligations, such as facilities management, property management, and Investment Management contracts. Contracts within these businesses represent a significant portion of our contracts with customers not expected to be completed within 12 months.

Cash and Cash Equivalents

We consider all highly-liquid investments purchased with maturities of three months or fewer to be cash equivalents. The carrying amount of cash equivalents approximates fair value due to the short-term maturity of these investments.

Financing Receivables

We account for Trade receivables, Notes and other receivables, Long-term receivables, Reimbursable receivables, and Warehouse receivables as financing receivables.

Trade Receivables

Pursuant to contractual arrangements, Trade receivables, net of allowances include unbilled amounts of \$612.8 million and \$625.3 million as of December 31, 2025 and 2024, respectively.

We estimate the allowance necessary to provide for uncollectible Trade receivables. We base this estimate on historical collection experience combined with a review of current developments and economic conditions. The process by which we calculate the allowance is formulaic and driven by the age profile of the receivables. We then review these allowances on a quarterly basis to ensure they are appropriate. After all collection efforts have been exhausted by management, the outstanding balance considered not collectible is written off against the allowance.

The following table details the changes in the allowance for uncollectible Trade receivables.

(in millions)	2025		2024	2023
Allowance as of January 1,	\$	60.8	70.7	66.7
Charged to income		31.6	28.2	22.0
Write-off of uncollectible Trade receivables		(31.8)	(36.6)	(15.8)
Impact of exchange rate movements and other		1.6	(1.5)	(2.2)
Allowance as of December 31,	\$	62.2	60.8	70.7

Trade Receivables - Factoring

We participate in certain clients' trade receivables factoring programs in which we elect and sell Trade and Reimbursable receivables to unaffiliated financial institutions on a non-recourse basis. We account for the transfer of the receivables as a true sale in accordance with ASC Topic 860 at the point control is transferred (after which we have no continuing involvement) and, accordingly, the sold receivables are excluded from Trade or Reimbursable receivables in our Consolidated Balance Sheet. Cash flows attributable to factoring are reflected as cash flows from operating activities in our Consolidated Statements of Cash Flows. Factoring fees are included as Operating, administrative and other expenses in our Consolidated Statements of Comprehensive Income. The aggregate amount of factoring fees on the sale of trade receivables was not material during the three-year period ended December 31, 2025.

Notes and Other Receivables and Long-Term Receivables

We make ongoing assessments of the collectability of outstanding Notes and other receivables and Long-term receivables, considering both objective and subjective factors such as the aging profile of outstanding balances, the contractual terms of repayment, and credit quality. To the extent that receivables share similar characteristics, these are assessed on a collective basis. Aspects of credit quality considered in our assessments of collectability include historical experience, current and expected economic conditions, and our broader business relationship with the obligor. We record an allowance against the outstanding balance when our assessments determine payment has become unlikely. After all collection efforts have been exhausted by management, the outstanding balance is written off against the reserve. Historically, credit quality deterioration to the point of impairment or non-performance in our Notes and other receivables and Long-term receivables has not had a material impact on the Consolidated Financial Statements.

Reimbursable Receivables

We recognize Reimbursable receivables for costs incurred on behalf of clients, primarily while performing property & facility management services. These costs include direct reimbursements, primarily payroll and third-party vendor and subcontractor costs. We record an allowance based on specific identification of an uncollectible reimbursable receivable, considering current and future economic conditions as well as client credit quality. Historically, we have not experienced any material collection issues and, as such, have not applied a formulaic reserve to these receivables. Reimbursable receivables relate to our Reimbursable payables, which are typically satisfied on a pay-when-paid basis.

Warehouse Receivables

We classify Warehouse receivables as held-for-sale as they represent originated mortgage loans for which we have simultaneously executed commitments to sell to a third-party investor, primarily the Federal Home Loan Mortgage Corporation (Freddie Mac), the Federal National Mortgage Association (Fannie Mae), and the Government National Mortgage Association (Ginnie Mae). These loans (also referred to as "Warehouse receivables") are funded directly to borrowers by our Warehouse facilities and are generally repaid within a 45-day period after origination when the third-party investor buys the loan(s); upon surrender of control over each loan, we account for the transfer as a sale. Warehouse receivables are measured and reported at fair value in accordance with our entity-wide election of the fair value option. As such, increases or decreases in the fair value of loans are recognized as Revenue on the Consolidated Statements of Comprehensive Income. Historically, we have not experienced credit quality deterioration or uncollectible balances with respect to our Warehouse receivables.

We generally retain certain servicing rights upon sale of the mortgage loan (refer to the Mortgage Servicing Rights section below). We typically retain no exposure for credit losses on loans subsequent to sale, except for loans under Fannie Mae's Delegated Underwriting and Servicing ("DUS") program. See the following section, Financial Guarantees, as well as Note 13, Commitments and Contingencies, for additional information on the risk of loss retained related to DUS program loans.

Contractually specified servicing fees related to sold warehouse receivables and loans serviced for others were \$168.4 million, \$160.0 million and \$152.6 million for the years ended December 31, 2025, 2024 and 2023, respectively, including prepayment and late fees totaling \$4.2 million, \$2.6 million, and \$4.2 million, respectively, and are included in Revenue on the Consolidated Statements of Comprehensive Income. Placement fees totaling \$82.6 million, \$90.9 million, and \$79.6 million earned for the years ended December 31, 2025, 2024 and 2023, respectively, were also recorded in Revenue on the Consolidated Statements of Comprehensive Income.

Financial Guarantees

Certain loans we originate and sell under the Fannie Mae DUS program retain a percentage of the risk of loss. This loss-sharing aspect of the program represents an off-balance sheet credit exposure, and we have established a contingent reserve ("loan loss guarantee reserve") for this risk in accordance with ASC Topic 326. To estimate the reserve, we use a model that analyzes historical losses, current and expected economic conditions, and reasonable and supportable forecasts. The model also considers specific details of the underlying property used as collateral, such as occupancy and financial performance. Loans are evaluated collectively based on vintage, which captures similar risk characteristics. As of December 31, 2025 and 2024, the loan loss guarantee reserve was \$29.9 million and \$28.5 million, respectively, and was included within Other liabilities on the Consolidated Balance Sheets.

For all DUS program loans with loss-sharing obligations, we record a non-contingent liability equal to the estimated fair value of the guarantee obligations undertaken upon sale of the loan, which reduces our gain on sale of the loan. Subsequently, this liability is amortized over the estimated life of the loan and recognized as Revenue on the Consolidated Statements of Comprehensive Income. The loss-sharing guarantee obligation (in accordance with ASC Topic 460, *Guarantees*) is separate from the loan loss guarantee reserve discussed above. As of December 31, 2025 and 2024, loss-sharing guarantee obligations were \$30.4 million and \$30.0 million, respectively, and was included in Other liabilities on the Consolidated Balance Sheets.

See Note 13, Commitments and Contingencies, for further information on the DUS program.

Mortgage Servicing Rights

We generally retain servicing rights in connection with the origination and sale of Warehouse receivables. We initially record MSRs based on the fair value of these rights on the date the loans are sold, which could result in net gains which we recognize as Revenue on the Consolidated Statements of Comprehensive Income. As of December 31, 2025 and 2024, we had \$458.2 million and \$471.1 million, respectively, of MSRs carried at the lower of amortized cost or fair value in Identified intangibles on the Consolidated Balance Sheets. The total unpaid principal balance ("UPB") of loans making up the servicing portfolio was \$140.3 billion and \$140.1 billion as of December 31, 2025 and 2024, respectively.

We amortize servicing rights over the estimated period net servicing income is projected to be received. In addition, we evaluate MSR intangible assets for impairment on a quarterly basis, or more frequently if circumstances or events indicate a change in fair value. Other than write-offs due to prepayments of sold Warehouse receivables for which we retained the servicing rights, there have been no significant instances of impairment during the three-year period ended December 31, 2025. However, an increase in loan prepayment activity or deterioration in the credit quality of borrowers could result in a decrease to our MSR balance. MSRs do not actively trade in an open market with readily available observable prices; therefore, if necessary, the fair value of these rights are determined in part based on certain assumptions and judgments that are unobservable within the fair value hierarchy. Specifically, the fair value of the MSRs is determined using a discounted cash flow model incorporating assumptions, including a conditional prepayment rate and cost of service. The estimated fair value of MSRs was \$666.7 million and \$708.9 million as of December 31, 2025 and 2024, respectively.

See Note 4, Business Combinations, Goodwill and Other Intangible Assets, for additional information on MSRs.

Restricted Cash

Restricted cash primarily consists of cash amounts set aside to satisfy legal or contractual requirements arising in the normal course of business. We are restricted in our ability to withdraw these funds other than for their specified use.

Property and Equipment

We record property and equipment at cost and depreciate these assets over their relevant useful lives. We capitalize certain direct costs relating to internal-use software when incurred during the development phase.

We evaluate property and equipment for impairment whenever events or circumstances indicate the carrying value of an asset group may not be recoverable. We record an impairment loss to the extent the carrying value exceeds the estimated fair value. We did not recognize any significant impairment losses related to property and equipment during the three years ended December 31, 2025.

We calculate depreciation on property and equipment for financial reporting purposes using the straight-line method based on the estimated useful lives of our assets. Depreciation expense related to property and equipment for the years ended December 31, 2025, 2024 and 2023 was \$201.8 million, \$189.5 million and \$168.7 million, respectively. The following table shows the gross value of major asset categories and the standard depreciable lives for each of these asset categories as of December 31, 2025.

(\$ in millions)	December 31,		Depreciable Life
	2025	2024	
Furniture, fixtures and equipment	\$ 153.5	144.9	3 to 13 years
Computer equipment and software	1,176.0	1,070.7	2 to 7 years
Leasehold improvements	544.0	480.6	1 to 15 years
Other⁽¹⁾	74.8	63.5	2 to 30 years
Total	1,948.3	1,759.7	
Less: Accumulated depreciation	1,317.7	1,161.6	
Net property and equipment	\$ 630.6	598.1	

(1) Other includes certain assets, such as land, which are not depreciated.

Business Combinations, Goodwill and Other Intangible Assets

We have historically grown, in part, through a series of acquisitions. Consistent with the services nature of the majority of businesses we have acquired, we have recognized significant goodwill and intangible assets resulting from these acquisitions. Intangible assets are initially recorded at their respective acquisition date fair values and amortized on a straight-line basis over their estimated useful lives. They primarily represent customer relationships, management contracts and customer backlogs acquired as part of our acquisitions.

We evaluate goodwill for impairment annually on July 1st of each year or when a triggering event occurs. In our annual goodwill impairment evaluation on July 1, 2025, we considered qualitative and quantitative factors and determined it is not more-likely-than-not that the fair value of each reporting unit is less than their carrying value. In performing our assessments of all reporting units, we primarily considered (i) macroeconomic and industry trends, (ii) our overall financial performance, and nature of the key drivers thereof, during the year at both the reporting unit and consolidated reporting levels, (iii) near and longer-term forecasts of financial results and cash flows generated by our reporting units in relation to the carrying values of the net assets of each reporting unit, and (iv) our market capitalization in relation to the aggregate carrying value of our net assets.

In addition to our annual impairment evaluation, we evaluated whether events or circumstances have occurred in the period subsequent to our annual impairment testing and determined it is not more-likely-than-not that the fair value of all our reporting units are less than their respective carrying values. It is possible our determination that goodwill for a reporting unit is not impaired could change in the future if current economic or other conditions deteriorate. We will continue to monitor the relationship between our market capitalization and carrying value, as well as the ability of our reporting units to deliver current and projected earnings and cash flows sufficient to support the carrying values of the net assets of their respective businesses.

We evaluate our Identified intangibles for impairment annually or more frequently if other events or circumstances indicate the carrying value may be impaired.

See Note 4, Business Combinations, Goodwill and Other Intangible Assets, for additional information on business combinations, goodwill and other intangible assets.

Investments

We invest in certain ventures that primarily own and operate commercial real estate on a global basis across a wide array of sectors including retail, residential and office. Historically, these investments have primarily been co-investments in funds our Investment Management business establishes in the ordinary course of business for its clients. These investments take the form of equity ownership interests generally ranging from less than 1% to 10% of the respective ventures and, based upon investment-specific objectives, have generally included five to nine-year investment periods. Typically, our investments are not redeemable until the earlier of the disposition of the underlying real estate investments or the end of the fund's life. When in place, such restrictions are a result of our role beyond that of a passive investor, which generally means an advisory or management responsibility on behalf of the other investors who are typically clients of our Investment Management business. We account for these investments at fair value or under the equity method of accounting as further discussed below.

In addition to our LaSalle investments, we have strategic investments in early to mid-stage PropTech companies as well as proptech funds to improve our strategic position within the real estate technology landscape, including investments through the JLL Spark Global Ventures Funds. We account for a majority of these investments at fair value. Certain investments are accounted for under the measurement alternative.

For limited partnerships in which we are a general partner, the entities are generally well-capitalized and grant the limited partners substantive participating rights, such as the right to replace the general partner without cause, to dissolve or liquidate the partnership, to approve the sale or refinancing of the principal partnership assets, or to approve the acquisition of principal partnership assets. We account for such general partner interests at fair value or under the equity method.

For limited partnerships in which we are a limited partner, management has concluded we do not have a controlling interest in these limited partnerships. When we have an asset advisory contract with the limited partnership, the combination of our limited partner interest and the advisory agreement generally provides us with significant influence over the real estate limited partnership venture. Accordingly, we account for such investments under the equity method or at fair value if elected.

See "Principles of Consolidation" above for additional discussion of the accounting for our co-investments.

For investments reported at fair value, the investment balance is increased or decreased each reporting period by the difference between the fair value of the investment and the carrying value as of the balance sheet date. These fair value adjustments are reflected as gains or losses on the Consolidated Statements of Comprehensive Income within Equity earnings/losses. To the extent applicable, we estimate fair value of our investments using the net asset value ("NAV") per share (or its equivalent) our investees provide.

For investments in proptech companies, we primarily estimate the fair value based on the per-share pricing. Subsequent funding rounds or changes in the companies' business strategy/outlook are indicators of a change in fair value. The fair value of certain investments is estimated using significant unobservable inputs which requires judgment due to the absence of market data. In determining the estimated fair value of these investments, we utilize appropriate valuation techniques including discounted cash flow analyses, scorecard method, Black-Scholes models and other methods as appropriate. Key inputs include projected cash flows, discount rates, peer group multiples and volatility.

If we elect to apply the measurement alternative for equity investments that do not have readily determinable fair values, we will measure them at cost, less any impairment, plus or minus adjustments resulting from observable price changes in orderly transactions for the identical or a similar investment of the same issuer. An impairment loss would be recorded when an event or circumstance indicates a decline in value has occurred.

For investments accounted for under the equity method, we maintain an investment account that is (i) increased by contributions made and by our share of net income earned by the real estate ventures, and (ii) decreased by distributions received and by our share of net losses realized by the real estate ventures. Our share of each real estate venture's net income or loss, including gains and losses from capital transactions, is reflected on the Consolidated Statements of Comprehensive Income within Equity earnings/losses. We evaluate our investments accounted for under the equity method for other-than-temporary impairment on a quarterly basis, or as events or changes in circumstances warrant such an evaluation. Our evaluations consider the existence of impairment indicators in the underlying real estate assets that compose the majority of our investments. We base such evaluations, in regard to both the investment and the investment's underlying asset levels, on regular updates to future cash flow models, our share of co-investment cash flows, and factors such as operational performance, market conditions, major tenancy matters, legal and environmental concerns, and our ability and intent to hold

each investment. If an investment is considered other-than-temporarily impaired, we record the excess of the carrying value over the estimated fair value as an impairment charge.

Impairment charges to write down the carrying value of the real estate assets underlying our investments are generally based on the result of discounted cash flow models that primarily rely upon unobservable inputs to determine fair value. We recognize our proportionate share of such impairment within Equity earnings/losses on the Consolidated Statements of Comprehensive Income.

See Note 5, Investments, and Note 9, Fair Value Measurements, for additional information on Investments.

Stock-Based Compensation

Stock-based compensation in the form of restricted stock units ("RSUs") and performance stock units ("PSUs") is an important element of our compensation programs. We determine the fair value of RSUs, subject only to service requirements, based on the closing market price of our common stock on the grant date. PSUs are subject to service requirements and performance measures. All PSUs contain one or more performance conditions, such as a pre-defined target based on the Company's cumulative earnings per share over a multi-year period. For certain executives there is an additional performance measure, a market condition, based on total shareholder return ("TSR") against a peer group. The number of shares that will be issued upon vesting of these PSUs can range from 0% to 200% of the target award, depending on the achievement of each performance condition. We determine the fair value of PSUs based on the (i) closing market price of our common stock on the grant date, (ii) the achievement probability for each performance condition, and (iii) the market condition valuation, as applicable, based on the output of Monte Carlo simulations. We periodically assess the achievement probability for performance conditions.

Employees of a specific age, with a sum of age plus years of service with the Company which meets or exceeds 65, based on the terms of the Jones Lang LaSalle 2019 Stock Award and Incentive Plan ("SAIP"), are eligible to be considered for receipt of retirement benefits upon departure from the Company. These award provisions, where applicable, require acceleration of compensation expense such that all expense is recognized by the time these employees are considered retirement eligible. We also have a "noncompensatory" Employee Stock Purchase Plan ("ESPP") for U.S. employees.

We do not estimate forfeitures; instead, we recognize forfeitures in Compensation and benefits expense as they occur.

See Note 6, Stock-Based Compensation, for additional information on our stock-based compensation plans.

Income Taxes

We account for income taxes under the asset and liability method. We recognize deferred tax assets and liabilities for the expected future tax consequences of events that have been included in our consolidated financial statements or tax returns. Under this method, we determine deferred tax assets and liabilities based on the differences between the financial reporting and tax bases of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse.

An increase or decrease in a deferred tax asset or liability that results from a change in circumstances, and that causes a change in our judgment about expected future tax consequences of events, would be included in the tax provision when the changes in circumstances and our judgment occurs. Deferred income taxes also reflect the impact of operating loss and tax credit carryforwards. A valuation allowance is established if we believe it is more-likely-than-not all or some portion of a deferred tax asset will not be realized. An increase or decrease in a valuation allowance that results from a change in circumstances, and that causes a change in our judgment about the ability to realize the related deferred tax asset, would be included in the tax provision when the changes in circumstances and our judgment occurs.

See Note 8, Income Taxes, for additional information on income taxes.

Foreign Currency Derivatives and Hedging Activities

We do not enter into derivative financial instruments for trading or speculative purposes. However, in the normal course of business, we do use derivative financial instruments in the form of foreign currency forward contracts and cross-currency swaps to manage our foreign currency exchange rate risk. We record all derivatives on our Consolidated Balance Sheets at fair value. Cash flows related to the derivatives are classified in the Consolidated Statements of Cash Flows based on the instrument's nature.

For derivative instruments designated as net investment hedges, the derivative is marked-to-market each period with changes in unrealized gains or losses offset by the foreign currency translation of the net investment within Accumulated Other Comprehensive Income ("AOCI"). Amounts are reclassified out of AOCI into earnings when the hedged net investment is sold or liquidated. The initial value of any excluded components from the assessment of effectiveness are recognized using a systematic and rational method over the life of the hedging instrument. The interest accrual component of cross-currency swaps, which represents an excluded component, is reported directly in earnings as a component of Interest expense, net of interest income and within Operating activities on the Consolidated Statements of Cash Flows.

For derivative instruments not designated in a hedging relationship, the derivative is marked-to-market each period with changes in unrealized gains or losses offset by foreign currency gains and losses on associated intercompany loans and other foreign currency balances. Gains and losses from the revaluation of these contracts are recognized as a component of Operating, administrative and other expense and are offset by the gains and losses recognized on the revaluation of intercompany loans and other foreign currency balances such that the impact to net income was not significant for any of the three years ended December 31, 2025.

For presentation and disclosure, we net our exposure by counterparty for all counterparties subject to International Swaps and Derivatives Association Master Agreements.

We have considered the counterparty credit risk related to these derivative instruments and do not deem any counterparty credit risk to be material as of December 31, 2025. We enter transactions with high credit-quality financial institutions and monitor their credit ratings. This risk is also reduced due to the short-term nature of the forward foreign currency exchange contracts.

See Note 16, Foreign Currency Derivatives and Hedging, for additional information on foreign currency derivative financial instruments.

Mortgage Banking Derivatives

Certain loan commitments and forward sales commitments related to our Warehouse receivables meet the definition of a derivative and are recorded at fair value on the Consolidated Balance Sheets. The estimated fair value of loan commitments includes the fair value of the expected net cash flows associated with servicing of the loan, other net cash flows associated with origination and sale of the loan, and the effects of market interest rate movements. The estimated fair value of forward sale commitments includes the effects of market interest rate movements. Therefore, the effect of market interest rate movements on estimated fair value offset between the loan commitments and the forward sale commitments. Adjustments to fair value related to loan and forward sale commitments are included within Revenue on the Consolidated Statements of Comprehensive Income.

See Note 9, Fair Value Measurements, for additional information on mortgage banking derivatives.

Leases

Substantially all of our operating leases are related to office space we lease in various buildings for our own use. The terms of these non-cancelable operating leases typically require us to pay rent and a share of operating expenses and real estate taxes, generally with an inflation-based rent increase included. We also lease equipment under both operating and finance lease arrangements. Our lease agreements do not contain any material residual value guarantees or material restrictive covenants.

We determine whether a contract is or contains a lease at contract inception. Operating lease right-of-use assets and operating lease liabilities are recognized based on the present value of the future minimum lease payments (e.g. rent) over the lease term beginning at the commencement date. The Operating lease right-of-use assets are adjusted for lease incentives, deferred rent, and initial direct costs, if incurred. Our leases generally do not include an implicit rate; therefore, we use an incremental borrowing rate based on information available at the lease commencement date in determining the present value of future minimum lease payments. The incremental borrowing rate reflects the lease term and currency of lease payments for each lease. The related lease expense is recognized on a straight-line basis over the lease term.

As an accounting policy election, short-term leases (initial lease terms of 12 months or less) are not recognized as Operating lease right-of-use assets and operating lease liabilities on our Consolidated Balance Sheets. Rent expense for short-term leases is recognized on a straight-line basis over the lease term and variable lease payments are recognized in the period in which the obligation for those payments is incurred.

Finance leases are included in Property and equipment, net of accumulated depreciation, Short-term borrowings, and Other liabilities on our Consolidated Balance Sheets. Our finance leases do not represent a significant portion of our leasing activity.

See Note 11, Leases, for additional information on leases.

Foreign Currency Translation

We prepare the financial statements of our subsidiaries located outside the U.S. using local currency as the functional currency. The assets and liabilities of these subsidiaries are translated to U.S. dollars at the rates of exchange as of the balance sheet date with the resulting translation adjustments included as a separate component of equity on the Consolidated Balance Sheets (Accumulated other comprehensive loss) and on the Consolidated Statements of Comprehensive Income (Other comprehensive income (loss)-foreign currency translation adjustments).

See Note 15, Accumulated Other Comprehensive Income (Loss), for additional information on the components of Accumulated other comprehensive loss.

Income and expenses are translated at the average monthly rates of exchange. We include gains and losses from foreign currency transactions in net earnings as a component of Operating, administrative and other expense. For the years ended December 31, 2025, 2024 and 2023 we had net foreign currency transaction losses of \$0.9 million, \$1.5 million and \$10.6 million, respectively.

The effect of foreign currency exchange rate changes on Cash, cash equivalents and restricted cash is presented as a separate caption in the Consolidated Statements of Cash Flows.

Cash Held for Others

We manage significant amounts of cash and cash equivalents in our role as agent for certain of our investment, facility management and property management clients. We do not include such amounts on the Consolidated Balance Sheets.

Taxes Collected from Clients and Remitted to Governmental Authorities

We account for tax assessed by a governmental authority that is based on a revenue or transaction value (i.e., sales, use and value-added taxes) on a net basis, excluded from revenue, and recorded as current liabilities until paid.

Other Commitments and Contingencies

We are subject to various claims and contingencies related to disputes, lawsuits and taxes as well as commitments under contractual obligations. Many of these claims are covered under our current insurance programs, subject to deductibles. Our current insurance programs include professional, auto and general liability. The level of risk retained by our captive insurance company is limited per claim, inclusive of the deductible.

For professional indemnity coverage, we contract third-party insurance companies to provide coverage of risk in excess of the policy limits. We recognize the liability associated with a loss contingency when a loss is probable and estimable.

See Note 13, Commitments and Contingencies, for additional information on commitments and contingencies.

Earnings Per Share; Net Income Available to Common Shareholders

The difference between basic weighted average shares outstanding and diluted weighted average shares outstanding represents the dilutive impact of our common stock equivalents. Common stock equivalents consist of shares to be issued under employee stock-based compensation programs. Anti-dilutive shares were de minimis for all periods presented.

See Note 6, Stock-Based Compensation, for additional information on our stock-based compensation plans.

New Accounting Standards

Recently adopted accounting guidance

In December 2023, the FASB issued ASU 2023-09, *Income Taxes (Topic 740): Improvements to Income Tax Disclosures*, which enhances the income tax disclosures to provide information to better assess how an entity's operations and related tax risks and tax planning and operational opportunities affect its tax rate and prospects for future cash flows. We adopted this guidance for the annual period beginning January 1, 2025 and will adopt for the interim periods beginning January 1, 2026. This ASU resulted in expanded disclosures related to income taxes but did not have an impact on our financial statements or results of operations.

Recently issued accounting guidance, not yet adopted

In November 2024, the FASB issued ASU 2024-03, *Income Statement—Reporting Comprehensive Income—Expense Disaggregation Disclosures (Subtopic 220-40)*, which requires disaggregated disclosure of income statement expenses for public entities. The ASU does not change the expense captions an entity presents on the face of the income statement; rather, it requires disaggregation of certain expense captions into specified categories in disclosures within the footnotes to the financial statements. This ASU is effective for annual periods beginning after December 15, 2026, and for interim periods beginning after December 15, 2027, with early adoption permitted. This ASU will result in expanded disclosures related to expenses but will have no impact on our financial statements or results of operations.

In July 2025, the FASB issued ASU 2025-05, *Financial Instruments—Credit Losses (Topic 326): Measurement of Credit Losses for Accounts Receivable and Contract Assets*, which provides a practical expedient and an accounting policy election related to the estimation of expected credit losses for current accounts receivable and current contract assets that arise from transactions accounted for under ASC 606. The practical expedient permits an entity to assume current conditions as of the balance sheet date do not change for the remaining life of the current accounts receivable and current contract assets. The practical expedient is available to all entities. The accounting policy election is only available to entities other than public business entities and is therefore not applicable to us. This ASU is effective for annual periods beginning after December 15, 2025, with early adoption permitted. We are evaluating the effect this would have on our financial statements.

In September 2025, the FASB issued ASU 2025-06, *Intangibles—Goodwill and Other—Internal-Use Software (Subtopic 350-40): Targeted Improvements to the Accounting for Internal-Use Software*, which amends certain aspects of the accounting for and disclosure of software costs under ASC 350-40. The ASU aims to better align the accounting with how software is developed. Specifically, software development has shifted from using a prescriptive and sequential development method to using an incremental and iterative development method. This ASU makes targeted improvements to increase the operability of the recognition guidance considering different methods of software development. This ASU is effective for annual periods beginning after December 15, 2027, with early adoption permitted. We are evaluating the effect this guidance will have on our financial statements.

In November 2025, the FASB issued ASU 2025-08, *Financial Instruments—Credit Losses (Topic 326): Purchased Loans*, which requires entities to account for acquired loans that meet certain criteria ("purchased seasoned loans") using the gross-up approach, aligning their treatment with purchased financial assets with credit deterioration. Under this approach, entities recognize the loans at their purchase price plus an allowance for expected credit losses. This ASU is effective for annual periods beginning after December 15, 2026, and interim periods within those years, with early adoption permitted. The amendments must be applied prospectively to loans acquired on or after the initial application date. We do not expect this guidance to have a material impact on our financial statements.

In December 2025, the FASB issued ASU 2025-10, *Government Grants (Topic 832): Accounting for Government Grants Received by Business Entities*, which provides guidance on the recognition, measurement, and presentation of government grants to business entities. This ASU is effective for annual periods beginning after December 15, 2028, for public business entities, with early adoption permitted. We do not expect this guidance to have a material impact on our financial statements.

In December 2025, the FASB issued ASU 2025-11, *Interim Reporting (Topic 270): Narrow-Scope Improvements*, which clarifies interim reporting requirements under US GAAP for all entities preparing interim financial statements and notes. The ASU improves the navigability of Topic 270, specifies the form and content of interim financial statements and notes, provides a comprehensive list of required interim disclosures, and introduces a disclosure principle for condensed interim financial statements requiring disclosure of events with a material effect since the end of the previous annual period. This

ASU is effective for interim periods in fiscal years beginning after December 15, 2027, for public business entities, with early adoption permitted. We do not expect this guidance to have a material impact on our financial statements.

In December 2025, the FASB issued ASU 2025-12, *Codification Improvements*, as part of its ongoing project to make minor amendments and clarifications to the Accounting Standards Codification. The amendments address issues across a wide range of Topics and are intended to clarify, correct errors, or make minor improvements without significant impact on current accounting practice or cost to most entities. The ASU is effective for all entities for annual reporting periods beginning after December 15, 2026, and interim reporting periods within those years, with early adoption permitted on an issue-by-issue basis. We do not expect this guidance to have a material impact on our financial statements.

3. BUSINESS SEGMENTS

Effective January 1, 2025, we report Property Management (historically included in Markets Advisory, which was renamed Leasing Advisory) within Real Estate Management Services (formerly referred to as Work Dynamics). Additionally, Capital Markets, LaSalle and JLL Technologies were renamed to Capital Markets Services, Investment Management, and Software and Technology Solutions, respectively.

Effective July 1, 2025, we report the balances and activity associated with the investments historically reported within Software and Technology Solutions in "All Other." These investments (inclusive of convertible notes receivable) in proptech funds and early to mid-stage proptech companies ("Proptech Investments") do not constitute an operating or reporting segment.

Prior period financial information was recast to conform with the presentation changes described above.

Through December 31, 2025, we managed and reported our operations as five global business segments:

- (1) Real Estate Management Services,
- (2) Leasing Advisory,
- (3) Capital Markets Services,
- (4) Investment Management and
- (5) Software and Technology Solutions.

Real Estate Management Services business provides a broad suite of integrated services to occupiers of real estate, including facility and property management, project management, and portfolio and other services. Leasing Advisory offers agency leasing and tenant representation, as well as advisory and consulting services. Capital Markets Services offerings include investment sales, debt and equity advisory, value and risk advisory, and loan servicing. Investment Management provides services on a global basis to institutional investors and high-net-worth individuals, while our Software and Technology Solutions segment offers various software products and services to our clients.

We allocate all indirect expenses to our segments, other than interest and income taxes, as nearly all expenses incurred benefit one or more of the segments. Allocated expenses primarily consist of corporate functional costs across the globe, which we allocate to the business segments using an expense-specific driver-based methodology.

Adjusted EBITDA does not include (i) Restructuring and acquisition charges, (ii) gain/loss on disposal, (iii) interest on employee loans, net of forgiveness, (iv) Equity earnings/losses for Investment Management and Proptech Investments, (v) credit losses on convertible note investments, (vi) net non-cash MSR and mortgage banking derivative activity, (vii) Interest expense, net of interest income, (viii) Income tax provision and (ix) Depreciation and amortization, which are otherwise included in Net income on the Consolidated Statements of Comprehensive Income.

The Other segment items caption includes (i) other income/loss, (ii) gain/loss on disposal, (iii) interest on employee loans, net of forgiveness, (iv) net income/loss attributable to noncontrolling interest, (v) the noncontrolling interest portion of amortization of acquisition-related intangibles which is not attributable to common shareholders and (vi) the noncontrolling interest portion of Equity earnings/losses which are not attributable to common shareholders.

The Chief Operating Decision Maker ("CODM") of JLL measures and evaluates the segment results based on Adjusted EBITDA for purposes of making decisions about allocating resources and assessing performance. Our CODM is not provided with total asset information by segment and accordingly does not measure or allocate resources based on total assets information. Therefore, we have not disclosed asset information by segment. As of December 31, 2025, we continue to define the Global Executive Board, collectively, as our CODM.

Summarized financial information by business segment is as follows.

Real Estate Management Services (in millions)	Year Ended December 31,		
	2025	2024	2023
<i>Workplace Management</i>	\$ 13,848.5	12,529.7	10,706.2
<i>Project Management</i>	3,797.9	3,151.9	2,924.8
<i>Property Management</i>	1,841.3	1,795.1	1,675.1

Total revenue	\$ 26,115.6	23,432.9	20,760.8

Change in Reporting Structure

Effective January 1, 2026, the Software and Technology Solutions segment will merge into Real Estate Management Services with results of operations reported as a subsegment within Real Estate Management Services. Prior period results will be restated to conform with our new reporting structure in 2026.

4. BUSINESS COMBINATIONS, GOODWILL AND OTHER INTANGIBLE ASSETS

Business Combinations Activity

The following table details cash payments relating to acquisitions. Payments for current-year acquisitions are included in cash used in investing activities, while payments for prior-year acquisitions are primarily reflected in cash used in financing activities. We completed no strategic acquisitions during the year ended December 31, 2025, and completed two strategic acquisitions during the year ended December 31, 2024.

(in millions)	Year Ended December 31,	
	2025	2024
Payments relating to current-year acquisitions	\$ 7.7	62.3
Payments for deferred business acquisition and earn-out obligations	19.6	7.4
Total paid for business acquisitions	\$ 27.3	69.7

Earn-Out Payments

The following table details the number of acquisitions related to our earn-out payments, in addition to the maximum (undiscounted) amount and fair values of those earn-out payments.

(\$ in millions)	December 31, 2025	December 31, 2024
Number of acquisitions with earn-out payments subject to the achievement of certain performance criteria	11	13
Maximum earn-out payments (undiscounted)	\$ 75.5	108.0
Short-term earn-out liabilities (fair value)⁽¹⁾	5.9	12.0
Long-term earn-out liabilities (fair value)⁽¹⁾	11.3	23.8

(1) Included in Other current and Other long-term liabilities on the Consolidated Balance Sheets.

Assuming the achievement of the applicable performance criteria, we anticipate making these earn-out payments over the next five years. Refer to Note 9, Fair Value Measurements, and Note 14, Restructuring and Acquisition Charges, for additional discussion of our earn-out liabilities.

Goodwill and Other Intangible Assets

Goodwill and unamortized intangibles as of December 31, 2025 consisted of: (i) Goodwill of \$4,707.3 million, (ii) identifiable intangibles of \$614.7 million to be amortized over their remaining finite useful lives and (iii) \$52.0 million of identifiable intangibles with indefinite useful lives that are not amortized.

Significant portions of our goodwill and unamortized intangibles are denominated in currencies other than the U.S. dollar, which means a portion of the movements in the reported book value of these balances is attributable to movements in foreign currency exchange rates.

In conjunction with our new organizational structure described more fully in Note 3, Business Segments, we reassessed our reporting units as of January 1, 2025. As a result of the changes in Real Estate Management Services and Leasing Advisory, we reassigned goodwill to these reporting units using a relative fair value approach. Under this methodology, the fair value of each impacted reporting unit was determined using a combination of the income approach and the market approach, and this resulting relative fair value was used to reassign the balance of goodwill.

We considered the change to Real Estate Management Services and Leasing Advisory reporting units a triggering event requiring the testing of our goodwill for impairment as of January 1, 2025. We performed a quantitative test relying on the discounted cash flow ("DCF") method, an income approach, and a market approach in determining the estimated fair value of these reporting units. Our analysis relied on significant judgments and assumptions in determining the inputs, specifically, forecasted revenue growth, forecasted profitability margin and the discount rate used to present value the estimated future cash flows. Our analysis indicated that no impairment existed as the estimated fair value of both Real Estate Management Services and Leasing Advisory reporting units exceeded their respective carrying values.

The following table details, by reporting segment, movements in goodwill. As a result of reassigning goodwill, only activity in periods after the reassignment are disclosed.

(in millions)	Real Estate Management Services	Leasing Advisory	Capital Markets Services	Investment Management	Software and Technology Solutions	Consolidated
Balance as of January 1, 2025	\$ 961.2	1,372.6	1,971.5	55.9	250.1	\$ 4,611.3

Adjustment for fully amortized intangibles	59.4	218.1	277.5
Impact of exchange rate movements	—	(3.8)	(3.8)
Balance as of December 31, 2025	\$ (438.6)	(127.5)	\$ (566.1)
Net book value as of December 31, 2025	\$ 458.2	208.5	\$ 666.7

(1) Included in this amount for MSRs was \$7.7 million for both 2025 and 2024, related to write-offs due to prepayments of sold warehouse receivables for which we retained the servicing rights. Amortization of MSRs is included in Revenue within the Consolidated Statements of Comprehensive Income.

The remaining weighted average amortization period of MSRs and other finite-lived identifiable intangible assets is 3.4 years and 4.5 years, respectively, and the remaining estimated future amortization expense by year, as of December 31, 2025, is presented in the following table.

(in millions)	MSRs	Other Intangibles	Total
2026	\$ 107.2	24.7	\$ 131.9
2027	95.5	20.0	115.5
2028	81.7	18.5	100.2
2029	63.9	17.8	81.7
2030	43.0	15.6	58.6
Thereafter	66.9	59.9	126.8
Total	\$ 458.2	156.5	\$ 614.7

5. INVESTMENTS

Summarized investment balances are presented in the following table.

(in millions)		December 31,	
		2025	2024
Investment Management co-investments	\$	505.8	406.1
Proptech Investments		353.0	372.8
Other investments		34.1	33.8
Total	\$	892.9	812.7

Our Investment Management co-investments are, primarily, direct investments in property or commingled funds, where we co-invest alongside our clients and for which we also have an advisory agreement, while our Proptech Investments are generally investments in early to mid-stage proptech companies as well as proptech funds.

We have maximum potential unfunded commitments to direct investments or investment vehicles of \$203.5 million and \$7.3 million as of December 31, 2025 for our Investment Management business and Proptech Investments, respectively.

We evaluate our less-than-wholly-owned investments to determine whether the underlying entities are classified as variable interest entities ("VIEs"); we assess each identified VIE to determine whether we are the primary beneficiary. As of December 31, 2025 and 2024, our maximum exposure to losses related to unconsolidated VIEs was as follows:

(in millions)		December 31,	
		2025	2024
Investments in unconsolidated VIEs	\$	194.0	190.7
Unfunded commitments		152.3	127.4
Maximum exposure to loss	\$	346.3	318.1

The following tables summarize the combined financial information for certain of our unconsolidated investments accounted for under the equity method or at fair value.

(in millions)		December 31,	
		2025	2024
Balance Sheets:			
Investments, net of depreciation	\$	39,519.4	36,058.9
Total assets		44,739.2	40,774.4
Mortgage indebtedness		12,537.7	11,803.7
Other borrowings		1,755.4	2,495.6
Total liabilities		18,857.3	17,525.1
Total equity		25,881.9	23,249.3

(in millions)		Year Ended December 31,		
		2025	2024	2023
Statements of Operations:				
Revenue	\$	2,951.6	2,586.2	2,403.5
Net income (loss)		1,382.4	253.5	(1,085.8)

Impairment

There were no significant other-than-temporary impairments during the years ended December 31, 2025, 2024 and 2023.

Fair Value

We report a majority of our investments at fair value. For such investments, we increase or decrease our investment each reporting period by the change in the fair value and we report these fair value adjustments in our Consolidated Statements of Comprehensive Income within Equity earnings/losses. The table below shows the movement in our investments reported at fair value. See Note 9, Fair Value Measurements, for further discussion of our investments reported at fair value.

The table below does not include our \$12.9 million investment in certain mid-stage non-public companies as they are non-marketable equity investments accounted for under the measurement alternative, defined as cost minus impairment, plus or minus adjustments resulting from observable price changes in orderly transactions for the identical or a similar investment of the same issuer.

(in millions)	Year Ended December 31,		
	2025	2024	2023
Fair value investments as of January 1,	\$ 742.0	740.8	794.9
Investments	161.7	92.0	93.5
Distributions	(74.0)	(27.8)	(25.2)
Change in fair value	(24.4)	(62.4)	(197.8)
Foreign currency translation adjustments, net	11.9	(12.9)	8.5
Transfers in	26.8	12.3	66.9
Fair value investments as of December 31,	\$ 844.0	742.0	740.8

6. STOCK-BASED COMPENSATION

The Stock Award and Incentive Plan ("SAIP") provides for the granting of various stock awards to eligible employees of JLL. These awards have historically been RSUs which generally vest over three years (either cliff or graded vesting) and PSUs which generally vest in three years (cliff vesting), subject to performance and/or market conditions.

There were approximately 1.5 million shares available for grant under the SAIP as of December 31, 2025.

Stock-based compensation expense, excluding expense related to retention awards issued in conjunction with acquisitions, is included within Compensation and benefits expense on the Consolidated Statements of Comprehensive Income. The expense related to retention awards issued in conjunction with acquisitions is included within Restructuring and acquisition charges.

Stock-based compensation expense by award type is presented below. In 2023, we recognized \$13.5 million of stock-based compensation expense reversal associated with the expected achievement against performance measures of certain PSU awards.

(in millions)	Year Ended December 31,		
	2025	2024	2023
Restricted stock unit awards	\$ 85.9	82.5	65.9
Performance stock unit awards	26.1	12.6	9.0
Total	\$ 112.0	95.1	74.9

Restricted Stock Units and Performance Stock Units

	RSU Shares (in 000's)	PSU Shares (in 000's)	Total Shares (in 000's)	Weighted Average Grant Date Fair Value
Unvested as of December 31, 2022	841.3	567.0	1,408.3	\$ 170.78
Granted	520.5	185.2	705.7	143.64
Vested	(296.8)	(257.2)	(554.0)	126.28
Forfeited	(74.9)	(36.9)	(111.8)	164.42
Unvested as of December 31, 2023	990.1	458.1	1,448.2	\$ 175.07
Granted	500.9	168.7	669.6	210.34
Vested	(347.5)	(109.0)	(456.5)	184.86
Forfeited	(52.8)	(92.1)	(144.9)	173.88
Unvested as of December 31, 2024	1,090.7	425.7	1,516.4	\$ 187.78
Granted	410.3	89.5	499.8	238.94
Vested	(383.5)	(20.8)	(404.3)	198.85
Forfeited	(56.6)	(121.9)	(178.5)	207.74
Unvested as of December 31, 2025	1,060.9	372.5	1,433.4	\$ 200.75

As of December 31, 2025, we had \$109.9 million of unamortized deferred compensation related to unvested RSUs and PSUs, which we anticipate to be recognized over a weighted average period of 1.2 years.

Shares vested during the years ended December 31, 2025, 2024 and 2023 had grant date fair values of \$80.4 million, \$84.4 million, and \$70.0 million, respectively. Shares granted during the years ended December 31, 2025, 2024 and 2023 had grant date fair values of \$119.4 million, \$140.8 million and \$101.4 million, respectively.

7. RETIREMENT PLANS

Defined Contribution Plans

We have a qualified profit sharing plan subject to United States Internal Revenue Code Section 401(k) for eligible U.S. employees. A plan participant is allowed to contribute between 1% to 50% of their compensation to the 401(k) plan, subject to limits imposed by the IRS. We make employer matching contributions under this qualified profit sharing plan that are reflected in Compensation and benefits in the accompanying Consolidated Statements of Comprehensive Income. For 2025, 2024 and 2023 we matched 100% on the first 3% of annual compensation contributed to the plan and 50% on the next 2%. The related trust assets of this plan are managed by trustees and are excluded from the accompanying Consolidated Financial Statements. In addition, we maintain several defined contribution retirement plans for eligible non-U.S. employees. The table below provides detail of employer contributions for these plans.

(in millions)	Year Ended December 31,			
	2025	2024	2023	
Employer contributions (U.S. employees)	\$ 57.0	54.8	52.1	
Employer contributions (non-U.S. employees)	59.8	56.8	46.9	

Defined Benefit Plans

We maintain five defined benefit pension plans across Europe. It is our policy to fund at least the minimum annual contributions as actuarially determined and as required by applicable laws and regulations. Our contributions to these plans are invested by the plan trustee and, if the investment performance is not sufficient, we may be required to provide additional contributions to cover any pension underfunding. Our largest plan has been closed to new entrants since 2013. The following table provides the projected benefit obligation and plan assets, the net of which represents our funded status, as well as the accumulated benefit obligations of our defined benefit pension plans.

(in millions)		2025	December 31,	
			2024	
Projected benefit obligation	\$	257.9		244.9
Fair value of plan assets		299.1		285.7
Funded status and net amount recognized	\$	41.2		40.8
Accumulated benefit obligation	\$	257.9		244.9

The primary driver for the year-over-year change in projected benefit obligation was foreign exchange rates. Discount rates remained materially consistent compared with prior year.

Defined benefit pension plan amounts recorded in the Consolidated Balance Sheets are presented in the below table.

(in millions)		2025	December 31,	
			2024	
Pension assets (included in Other assets)	\$	42.7		42.8
Pension liabilities (included in Other liabilities)		(1.5)		(2.0)
Net asset recognized	\$	41.2		40.8
Accumulated other comprehensive loss	\$	102.5		94.2

Net periodic pension cost (benefit) was not material during the three-year period ended December 31, 2025.

8. INCOME TAXES

Our provision for income taxes consisted of the following:

(in millions)		Year Ended December 31,		
		2025	2024	2023
U.S. federal:				
Current	\$	37.6	34.1	88.1
Deferred		(12.1)	(22.7)	(160.1)
	\$	25.5	11.4	(72.0)
State and Local:				
Current	\$	17.8	12.8	33.4
Deferred		(1.7)	(5.7)	(54.6)
	\$	16.1	7.1	(21.2)
International:				
Current	\$	197.1	120.7	161.2
Deferred		(49.2)	(6.7)	(42.3)
	\$	147.9	114.0	118.9
Total	\$	189.5	132.5	25.7

The U.S. Internal Revenue Code contains two taxes, the Base Erosion Anti-Abuse Tax and Global Intangible Low-Taxed Income Tax, for which we treat any associated income tax as a period cost and record an expense provision for any year we are subject to the taxes. Accordingly, the estimated impacts of these taxes were included in our provision for income taxes for all periods presented.

Due to the generation of net operating loss carryovers, our current tax expense increased by \$13.8 million, \$36.0 million and \$69.1 million in 2025, 2024 and 2023, respectively, and our deferred tax expense was reduced by a corresponding amount.

We adopted ASU 2023-09, *Income Taxes (Topic 740): Improvements to Income Tax Disclosures*, prospectively. As such, we have included the required expanded disclosures for the year ended December 31, 2025, while disclosures for the years ended December 31, 2024 and 2023 reflect the previous disclosure requirements.

Income tax expense differed from the amounts computed by applying the U.S. federal income tax rate of 21% to earnings before provision for income taxes as a result of the following:

(\$ in millions)	Year Ended December 31,		
	2025		
Computed "expected" tax expense	\$	206.1	21.0 %
State and local income tax, net of federal (national) income tax effect⁽¹⁾		12.9	1.3
Foreign tax effects			
Singapore			
Unremitted income		(11.7)	(1.2)
Other		(4.8)	(0.5)
Other countries		21.0	2.2
Effect of cross-border tax laws			
U.S. global intangible low-taxed income (GILTI)		15.0	1.5
Other		(2.6)	(0.3)
Changes in valuation allowances		(2.6)	(0.3)
Nontaxable or nondeductible items			
Nontaxable deferred compensation insurance trust earnings		(17.9)	(1.8)
Nondeductible executive compensation		10.6	1.1
Effect of legal entity restructuring		(17.1)	(1.7)
Other		(8.4)	(0.9)
Changes in unrecognized tax benefits		(9.9)	(1.0)
Other, net		(1.1)	(0.1)
Grand Total	\$	189.5	19.3 %

(1) State and local income taxes in California, the District of Columbia, Illinois, New York and New York City comprise the majority of the state and local income taxes, net of federal effect category.

On July 4, 2025, the United States enacted the One Big Beautiful Bill Act ("OBBBA"). The OBBBA includes provisions altering the timing of deduction from certain depreciable assets, research and experimental expenses, and interest expense, with some effective in 2025 and some in 2026. The current period's financial statements include the impact of the OBBBA provisions effective for 2025, which are primarily in the nature of timing differences which do not impact this year's effective tax rate. The OBBBA further alters the determination and rates of taxation of international earnings, effective in 2026. We are still evaluating these provisions, which may decrease overall U.S. tax on international subsidiary income.

(\$ in millions)	Year Ended December 31,					
	2024		2023			
Income tax expense at statutory rates	\$	142.6	21.0 %	\$	52.9	21.0 %
Increase (reduction) in income taxes from:						
State and local income taxes, net of federal income tax benefit		5.4	0.8		(17.1)	(6.8)
Nondeductible expenses		13.8	2.0		7.1	2.9
International earnings taxed at various rates		(32.3)	(4.8)		(58.4)	(23.2)
Valuation allowance		12.7	1.9		41.3	16.4
Other, net		(9.7)	(1.4)		(0.1)	(0.1)
Total	\$	132.5	19.5 %	\$	25.7	10.2 %

With respect to international earnings taxed at varying rates, we have operations which constitute a taxable income presence in over 93 countries or other taxable jurisdictions outside of the U.S. which are treated as such by the U.S. Internal Revenue Code. Of those countries or other taxable jurisdictions, 70 had income tax rates lower than the combined U.S. federal and state income tax rate in 2025, of which some are very low tax rate jurisdictions, with combined national and municipal state or provincial rates of 25% or lower. While the U.S. federal income tax rate is 21%, after factoring in the impact of state income taxes, we do not consider the U.S. to be a very low tax rate jurisdiction. With respect to very low tax rate jurisdictions in which we operate, income from Hong Kong (16.5%) and Singapore (17%) represent the most significant components of the international earnings line item in our effective tax rate reconciliation for 2024 and 2023.

Our income (loss) before taxes from domestic (U.S.) and international sources is presented in the following table.

(in millions)	Year Ended December 31,			
	2025	2024	2023	
Domestic	\$	249.7	93.4	(175.5)
International		732.0	585.9	427.4
Total	\$	981.7	679.3	251.9

The tax effects of temporary differences that give rise to significant portions of the deferred tax assets and deferred tax liabilities are presented below.

(in millions)	December 31,	
	2025	2024
Deferred tax assets attributable to:		
Accrued expenses	\$ 533.7	472.3
U.S. federal and state loss and credit carryovers	72.4	66.2
Allowances for uncollectible accounts	37.0	37.5
International loss carryovers	361.1	330.6
Investments	24.8	20.4
Pension liabilities	30.7	27.9
Other	3.6	—
Deferred tax assets	1,063.3	954.9
Less: valuation allowances	(198.2)	(164.9)
Net deferred tax assets	\$ 865.1	790.0
Deferred tax liabilities attributable to:		
Intangible assets	297.7	277.5
Income deferred for tax purposes	13.4	26.6
Other	—	13.3
Deferred tax liabilities	\$ 311.1	317.4
Net deferred taxes	\$ 554.0	472.6

The increase in gross deferred tax assets in 2025 was primarily the result of accrued expenses. The increase in valuation allowances was primarily the result of additional losses incurred in countries with existing valuation allowances.

We have not provided a deferred tax liability on the unremitted foreign earnings of international subsidiaries because it is our intent to permanently reinvest such earnings outside of the U.S. If repatriation of all such earnings were to occur, we would incur withholding taxes, dividend distribution taxes and potentially an amount of gain taxation which is not presently determinable.

As of December 31, 2025, we had an available U.S. federal net operating loss ("NOL") carryover of \$78.1 million from acquired companies, for which we have established a full valuation allowance due to significant statutory limitations on its usage, and which will begin to expire in 2032. We have U.S. state NOL carryovers with a tax effect of \$24.1 million, which expire at various dates through 2045, and international NOL carryovers of \$1,449.8 million, which generally do not have expiration dates. The change in deferred tax balances for NOL carryovers from 2024 to 2025 included increases from current year losses and decreases from current year estimated utilization.

As of December 31, 2025, we believe it is more-likely-than-not the net deferred tax assets of \$554.0 million will be realized based upon our estimates of future taxable income and the consideration of net operating losses, earnings trends and tax planning strategies. Valuation allowances have been provided with regard to the tax benefit of certain international NOL carryovers, for which we have concluded recognition is not yet appropriate. In 2025, we reduced valuation allowances by \$9.9 million on some jurisdictions' NOLs due to the utilization or expiration of those losses; and we increased valuation allowances by \$37.0 million for other jurisdictions based upon circumstances that caused us to establish or continue to provide valuation allowances on current or prior-year losses (including acquired NOL carryovers) in addition to those provided in prior years. The remaining movement in valuation allowances comparing December 31, 2025 to December 31, 2024 was attributable to the effect of changes in foreign currency exchange rates.

The following table presents net current and net non-current payable for income tax.

(in millions)		2025	December 31, 2024
<i>Current payable for income tax</i>			
Current payable	\$	305.6	286.2
Current receivable		(198.1)	(218.2)
Net current payable for income tax	\$	107.5	68.0
<i>Non-current payable for income tax</i>			
Non-current payable	\$	50.4	62.2
Non-current receivable		—	—
Net non-current payable for income tax	\$	50.4	62.2

The current receivables, current payables, and noncurrent payables are included in Notes and other receivables, Accounts payable and accrued liabilities, and Other liabilities, respectively, on our Consolidated Balance Sheets.

We file income tax returns in the U.S. (including 46 states, 25 cities, the District of Columbia and Puerto Rico), the United Kingdom (including England, Scotland and Wales), Australia, Germany, The People's Republic of China (including Hong Kong and Macau), France, Japan, Singapore, India, the Netherlands, Spain and approximately 78 other countries. Generally, our open tax years include those from 2022 to the present, although reviews of taxing authorities for more recent years have been completed or are in process in a number of jurisdictions.

As of December 31, 2025, we were under examination in Belgium, Germany, Egypt, Indonesia, India, Mauritius, Pakistan, the Philippines, Poland, Portugal, Sri Lanka, Switzerland, Thailand, the U.S. and Vietnam. Also in the U.S., we were under examination in the states of Texas and Wisconsin.

A reconciliation of the beginning and ending amount of unrecognized tax benefits is presented in the following table.

(in millions)		2025	2024
Balance as of January 1,	\$	73.7	71.2
Additions based on tax positions related to the current year		1.5	2.8
(Decrease) increase related to tax positions of prior years		(11.5)	1.6
Settlements with taxing authorities		—	(1.9)
Balance as of December 31,	\$	63.7	73.7

The recognition of tax benefits, and other changes to the amounts of our unrecognized tax benefits, may occur as the result of ongoing operations, the outcomes of audits or other examinations by tax authorities, or the passing of statutes of limitations. We do not expect changes to our unrecognized tax benefits to have a significant impact on our net income, financial position, or cash flows. We do not believe we have material tax positions for which the ultimate deductibility is highly certain but there is uncertainty about the timing of such deductibility.

We recognize interest accrued and penalties, if any, in Income tax provision on our Consolidated Statements of Comprehensive Income. During the years ended December 31, 2025, 2024 and 2023, the amount of interest expense and penalties was not material. In addition, the amount of accrued interest related to income taxes was not material as of December 31, 2025 and 2024.

The following table presents income taxes paid (net of refunds received) to federal, state and foreign taxing authorities, including individual jurisdictions where taxes paid (net of refunds received) exceeded 5% of total taxes paid (net of refunds received).

(in millions)	Year Ended December 31, 2025	
Federal	\$	53.4
State		15.1
Foreign		
Australia		17.4
Canada		12.9
England		26.2
Japan		23.5
All other		77.5
Total Foreign		157.5
Total	\$	226.0

9. FAIR VALUE MEASUREMENTS

We measure certain assets and liabilities in accordance with ASC 820, *Fair Value Measurements and Disclosures*, which defines fair value as the price that would be received for an asset, or paid to transfer a liability, in an orderly transaction between market participants on the measurement date. In addition, it establishes a framework for measuring fair value according to the following three-tier fair value hierarchy:

- Level 1 - Quoted prices for identical assets or liabilities in active markets accessible as of the measurement date;
- Level 2 - Inputs, other than quoted prices in active markets, that are observable either directly or indirectly; and
- Level 3 - Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

Financial Instruments

Our financial instruments include Cash and cash equivalents, Trade receivables, Notes and other receivables, Reimbursable receivables, Warehouse receivables, restricted cash, contract assets, Accounts payable, Reimbursable payables, Short-term borrowings, Commercial paper, contract liabilities, Warehouse facilities, Credit facility, Long-term debt and foreign currency derivatives. The carrying amounts of Cash and cash equivalents, Trade receivables, Notes and other receivables, Reimbursable receivables, restricted cash, contract assets, Accounts payable, Reimbursable payables, contract liabilities and the Warehouse facilities approximate their estimated fair values due to the short-term nature of these instruments. The carrying values of our Credit facility, Short-term borrowings, and Commercial paper approximate their estimated fair values given the variable interest rate terms and market spreads.

We estimated the fair value of our Long-term debt using dealer quotes that are Level 2 inputs in the fair value hierarchy. The fair value and carrying value of our debt are presented in the following table.

(in millions)	December 31,	
	2025	2024
Long-term debt, fair value	\$ 838.7	785.2
Long-term debt, carrying value, net of debt issuance costs	805.9	756.7

Investments at Fair Value - Net Asset Value ("NAV")

We report a significant portion of our investments at fair value. For such investments, we increase or decrease our investment each reporting period by the change in the fair value, and we report these fair value adjustments in our Consolidated Statements of Comprehensive Income within Equity earnings/losses.

For a subset of our investments reported at fair value, we estimate the fair value using the NAV per share (or its equivalent) our investees provide. Critical inputs to NAV estimates included valuations of the underlying real estate assets and borrowings, which incorporate investment-specific assumptions such as discount rates, capitalization rates, rental and expense growth rates, and asset-specific market borrowing rates. We did not consider adjustments to NAV estimates provided by investees, including adjustments for any restrictions to the transferability of ownership interests embedded within investment agreements to which we are a party, to be necessary based upon (i) our understanding of the methodology utilized and inputs incorporated to estimate NAV at the investee level, (ii) consideration of market demand for the specific types of real estate assets held by each venture and (iii) contemplation of real estate and capital markets conditions in the localities in which these ventures operate. As of December 31, 2025 and 2024, investments at fair value using NAV were \$491.1 million and \$367.9 million, respectively. As these investments are not required to be classified in the fair value hierarchy, they have been excluded from the following table.

Recurring Fair Value Measurements

The following table categorizes by level in the fair value hierarchy the estimated fair value of our assets and liabilities measured at fair value on a recurring basis.

(in millions)	December 31,					
	2025			2024		
	Level 1	Level 2	Level 3	Level 1	Level 2	Level 3
Assets						
Investments - fair value	\$ 48.2	—	304.7	43.8	—	330.3
Foreign currency derivative assets	—	5.8	—	—	7.3	—
Warehouse receivables	—	751.2	—	—	770.7	—
Deferred compensation plan assets	—	723.6	—	—	664.0	—
Mortgage banking derivative assets	—	—	52.2	—	—	161.1
Total assets at fair value	\$ 48.2	1,480.6	356.9	43.8	1,442.0	491.4
Liabilities						
Foreign currency derivative liabilities	\$ —	14.2	—	—	16.3	—
Deferred compensation plan liabilities	—	731.4	—	—	658.4	—
Earn-out liabilities	—	—	17.2	—	—	35.8
Mortgage banking derivative liabilities	—	—	20.6	—	—	67.3
Total liabilities at fair value	\$ —	745.6	37.8	—	674.7	103.1

Investments

We classify one investment as Level 1 in the fair value hierarchy as a quoted price is readily available. We increase or decrease our investment each reporting period by the change in the fair value of the investment. We report the fair value adjustments in the Consolidated Statements of Comprehensive Income within Equity earnings/losses.

Investments classified as Level 3 in the fair value hierarchy represent investments in early-stage non-public entities where we elected the fair value option. For most of our investments, the carrying value was deemed to approximate fair value due to the proximity of the investment date, or date of most recent financing raise, to the balance sheet date, as well as consideration of investee-level performance updates. The fair value of certain investments is estimated using significant unobservable inputs which requires judgment due to the absence of market data. In determining the estimated fair value of these investments, we utilize appropriate valuation techniques including discounted cash flow analyses, scorecard method, Black-Scholes models and other methods as appropriate. Key inputs include projected cash flows, discount rates, peer group multiples and volatility.

To the extent there are changes in fair value, we recognize such changes through Equity earnings/losses.

Foreign Currency Derivative Contracts

We use cross-currency swaps and foreign currency forward contracts in the normal course of business to hedge foreign currency exchange rate risk. We determine the fair values of these derivatives based on current market rates. The inputs for

these valuations are Level 2 in the fair value hierarchy. We record the asset and liability positions for the contracts based on the net payable or net receivable position with the financial institutions from which we purchase these contracts.

See Note 16, Foreign Currency Derivatives and Hedging for additional details regarding these contracts.

Warehouse Receivables

The fair value of the Warehouse receivables is based on already locked-in security-buy prices. As of December 31, 2025 and 2024, all of our Warehouse receivables included in the Consolidated Balance Sheets were under commitment to be purchased by government-sponsored enterprises ("GSEs") or by a qualifying investor as part of a U.S. government or GSE mortgage-backed security program. The Warehouse receivables are classified as Level 2 in the fair value hierarchy as all significant inputs are readily observable.

Deferred Compensation Plan

We maintain a deferred compensation plan for certain of our U.S. employees and members of our Board of Directors that allows them to defer portions of their compensation. We invest directly in insurance contracts which yield returns to fund these deferred compensation obligations. We recognize an asset for the amount that could be realized under these insurance contracts as of the balance sheet date, and we adjust the deferred compensation obligation to reflect the changes in the fair value of the amount owed to the employees. The inputs for this valuation are Level 2 in the fair value hierarchy. We reflect this plan on our Consolidated Balance Sheets as Deferred compensation plan assets, long-term deferred compensation plan liabilities, included in Deferred compensation, and as a reduction of equity, Shares held in trust. The components of the plan are presented in the following table.

(in millions)		December 31,	
		2025	2024
Deferred compensation plan assets	\$	723.6	664.0
Long-term deferred compensation plan liabilities		731.4	658.4
Shares held in trust		13.8	11.8

Earn-Out Liabilities

We classify our Earn-out liabilities within Level 3 in the fair value hierarchy because the inputs we use to develop the estimated fair value include unobservable inputs. We base the fair value of our Earn-out liabilities on the present value of probability-weighted future cash flows related to the earn-out performance criteria on each reporting date. We determine the probabilities of achievement we assign to the performance criteria based on the due diligence we performed at the time of acquisition as well as actual performance achieved subsequent to acquisition. An increase to a probability of achievement would result in a higher fair value measurement. See Note 4, Business Combinations, Goodwill and Other Intangible Assets, for additional discussion of our Earn-out liabilities.

Mortgage Banking Derivatives

In the normal course of business, we enter into simultaneous contractual commitments to originate and sell multi-family mortgage loans at fixed prices with fixed expiration dates. Commitments to borrowers become effective when the borrowers "lock-in" a specified interest rate and maximum principal balance for an established time frame (hereinafter referred to as an interest rate lock commitment or "IRLC"). All mortgagors are evaluated for creditworthiness prior to execution of an IRLC.

We are exposed to market interest risk (the risk of movement in market interest rates following the execution of an IRLC) until a loan is funded and onwards through delivery. To mitigate the effect of the interest rate risk inherent in providing IRLCs to borrowers, we simultaneously enter into a forward commitment to sell the eventual loan associated with the IRLC to a GSE or other investor. Similar to the IRLC, the forward sale commitment locks in an interest rate, maximum principal balance, and price for the sale of the loan. Ultimately, the terms of the forward sale commitment and the IRLC are matched in substantially all respects, with the objective of eliminating market interest rate and other balance sheet risk to the extent practical. As an additional element of protection, forward sale commitments extend for a longer period of time as compared to IRLCs to allow, among other things, for the closing of the loan and processing of paperwork to deliver the loan in accordance with the terms of the sale commitment.

The fair value of our IRLCs to prospective borrowers and the related inputs primarily include, as applicable, the expected net cash flows associated with servicing the loan and the effects of interest rate movements between the date of the IRLC and the balance sheet date based on applicable published U.S. Treasury rates.

The fair value of our forward sales contracts to prospective investors considers the market price movement of a similar security between the trade date and the balance sheet date. The market price changes are multiplied by the notional amount of the forward sales contracts to measure the fair value.

Both the rate lock commitments to prospective borrowers and the forward sale contracts to prospective investors are undesignated derivatives and considered Level 3 valuations due to significant unobservable inputs related to nonperformance risk. An increase in nonperformance risk assumptions would result in a lower fair value measurement. The fair valuation is determined using discounted cash flow techniques, and the derivatives are marked to fair value through Revenue in the Consolidated Statements of Comprehensive Income.

The tables below present a reconciliation for assets and liabilities measured at fair value on a recurring basis using significant unobservable inputs (Level 3).

(in millions)	Balance as of December 31, 2024	Net change in fair value	Foreign CTA ⁽¹⁾	Purchases / Additions	Settlements	Transfers in (out) ⁽²⁾	Balance as of December 31, 2025
Investments	\$ 330.3	(36.8)	1.8	7.3	(0.1)	2.2	\$ 304.7
Mortgage banking derivative assets and liabilities, net	93.8	42.6	—	167.8	(272.6)	—	31.6
Earn-out liabilities	35.8	(1.8)	0.4	0.7	(16.2)	(1.7)	17.2

(in millions)	Balance as of December 31, 2023	Net change in fair value	Foreign CTA ⁽¹⁾	Purchases / Additions	Settlements	Transfers in (out) ⁽²⁾	Balance as of December 31, 2024
Investments	\$ 367.3	(53.9)	(0.6)	5.2	—	12.3	\$ 330.3
Mortgage banking derivative assets and liabilities, net	10.3	126.4	—	126.6	(169.5)	—	93.8
Earn-out liabilities	57.5	(32.5)	(0.2)	13.4	(2.3)	(0.1)	35.8

(1) CTA: Currency translation adjustments

(2) Within Investments, notes receivable (inclusive of accrued interest) converted to unconsolidated equity investments upon maturity and was classified as a Level 3 investment immediately.

Net change in fair value, included in the tables above, is reported in Net income as follows.

Category of Assets/Liabilities using Unobservable Inputs	Consolidated Statements of Comprehensive Income Account Caption
Earn-out liabilities (short-term and long-term)	Restructuring and acquisition charges
Investments	Equity losses
Other current assets - Mortgage banking derivative assets	Revenue
Other current liabilities - Mortgage banking derivative liabilities	Revenue

Non-Recurring Fair Value Measurements

We review our investments, except those investments otherwise reported at fair value, on a quarterly basis, or as otherwise necessary, for indications of whether we may be unable to recover the carrying value of our investments and whether such investments are other than temporarily impaired. When the carrying amount of the investment exceeds the estimated future undiscounted cash flows, we use a discounted cash flow approach or other acceptable method to determine the fair value of the investment in computing the amount of the impairment. Our determination of fair value primarily relies on Level 3 inputs. There were no significant other-than-temporary impairments during the three-year period ended December 31, 2025.

10. DEBT

Debt is composed of the following obligations.

(in millions)	December 31,	
	2025	2024
Short-term debt:		
Local overdraft facilities	\$ 2.8	18.9
Other short-term borrowings	89.9	134.9
Commercial paper, net of debt issuance costs of \$0.2 and \$0.7	(0.2)	199.3
Total short-term debt, net of debt issuance costs	\$ 92.5	353.1
Credit facility, net of debt issuance costs of \$8.5 and \$11.4	(8.5)	88.6
Long-term senior notes, 1.96%, face amount of €175.0, due June 2027, net of debt issuance costs of \$0.2 and \$0.3	205.1	181.2
Long-term senior notes, 6.875%, face amount of \$400.0, due December 2028, net of debt issuance costs of \$4.1 and \$5.6	395.9	394.4
Long-term senior notes, 2.21%, face amount of €175.0, due June 2029, net of debt issuance costs of \$0.4 and \$0.5	204.9	181.1
Total debt, net of debt issuance costs	\$ 889.9	1,198.4

Commercial Paper Program

We maintain a commercial paper program (the "Program") in which we may issue up to \$2.5 billion of short-term, unsecured and unsubordinated commercial paper notes at any time. Amounts available under the Program may be borrowed, repaid and re-borrowed from time to time. Notes issued under the Program will be sold under customary market terms in the U.S. commercial paper market at par less a discount representing an interest factor or, if interest bearing, at par. The maturities of the Program notes may vary but may not exceed 397 days from the date of issuance. We intend to use net proceeds of the Program for general corporate purposes, including the repayment of outstanding borrowings under our credit facilities.

Credit Facilities

We have a \$3.3 billion unsecured revolving credit facility (the "Facility") that matures on November 3, 2028. Pricing on the unsecured revolving credit facility (the "Facility") ranges from Adjusted Term ("SOFR") plus 0.875% to 1.35%, with pricing including facility fees, as of December 31, 2025 at Adjusted Term SOFR plus 0.93%.

In addition, we have an uncommitted credit agreement (the "Uncommitted Facility"), which allows for discretionary short-term liquidity of up to \$400.0 million. Interest and fees are set at the time of utilization and calculated on a 360-day basis. Between quarter-end dates, we intend to use the proceeds to reduce indebtedness under the Facility at a lower interest rate. As such, the Uncommitted Facility had no outstanding balance as of December 31, 2025 and 2024.

The following table provides additional information on our Facility, Uncommitted Facility, and the Program collectively.

(\$ in millions)	Year Ended December 31,	
	2025	2024
Average outstanding borrowings	\$ 1,119.7	1,381.4
Average effective interest rate	4.9 %	5.9 %

We will continue to use the Facility for, but not limited to, business acquisitions, working capital needs (including payment of accrued incentive compensation), co-investment activities, share repurchases and capital expenditures.

Short-Term and Long-Term Debt

In addition to our credit facilities, we had the capacity to borrow up to \$58.6 million under local overdraft facilities as of December 31, 2025. Amounts outstanding are presented in the debt table above.

As of December 31, 2025, our issuer and senior unsecured ratings were investment grade: Baa1 from Moody's Investors Service, Inc. and BBB+ from Standard & Poor's Ratings Services.

Covenants

Our Facility and senior notes are subject to customary financial and other covenants, including cash interest coverage ratios and leverage ratios, as well as event of default conditions. We remained in compliance with all covenants as of December 31, 2025.

Warehouse Facilities

We maintain our Warehouse facilities with third-party lenders for the purpose of funding mortgage loans that will be resold, included in Warehouse receivables. The following table shows our gross cash activity related to Warehouse receivables as well as the corresponding, and largely offsetting, net change of our Warehouse facilities. This activity, in aggregate, is reflected as net cash flows from operating activities in our Consolidated Statements of Cash Flows.

(in millions)	Year Ended December 31,	
	2025	2024
Origination of mortgage loans	\$ (12,654.9)	(10,301.5)
Proceeds from the sales of mortgage loans	12,734.2	10,127.5
Net (decrease) increase in Warehouse facilities	(81.9)	178.3

We have lines of credit established for the sole purpose of funding our Warehouse receivables. These lines of credit exist with financial institutions and are secured by the related warehouse receivables. The following table provides details regarding our Warehouse facilities lines of credit.

(\$ in millions)	December 31, 2025		December 31, 2024	
	Outstanding Balance	Maximum Capacity	Outstanding Balance	Maximum Capacity
Warehouse facilities:				
SOFR plus 1.40%, expires September 14, 2026 ⁽¹⁾	\$ 114.2	700.0	341.3	700.0
SOFR plus 1.30%, expires September 11, 2026 ⁽¹⁾	185.6	600.0	416.5	2,100.0
SOFR plus 1.40%, expires October 22, 2026 ⁽¹⁾	338.0	1,100.0	8.8	400.0
Fannie Mae ASAP ⁽²⁾ program, SOFR plus 1.25%	122.0	n/a	75.3	n/a
Gross warehouse facilities	759.8	2,400.0	841.9	3,200.0
Debt issuance costs	(0.7)	n/a	(0.9)	n/a
Total warehouse facilities	\$ 759.1	2,400.0	841.0	3,200.0

(1) Warehouse facility has been amended since prior periods. Refer to our previous filings for specific terms of agreements.

(2) As Soon As Pooled ("ASAP") funding program.

Pursuant to these facilities, we are required to comply with certain financial covenants regarding (i) minimum net worth, (ii) minimum servicing-related loans and (iii) minimum adjusted leverage ratios. We remained in compliance with all covenants under our facilities as of December 31, 2025.

We are party to a master repurchase agreement with a maximum capacity of \$1.1 billion. Transactions executed under this agreement are accounted for as secured borrowings.

As a supplement to our lines of credit, we have an uncommitted facility with Fannie Mae under its As Soon As Pooled ("ASAP") funding program. After origination, we sell certain warehouse receivables to Fannie Mae; the proceeds are used to repay the original lines of credit used to fund the loan. The ASAP funding program requires us to repurchase these loans, generally within 45 days, followed by an immediate, ultimate, sale back to Fannie Mae. The difference between the price paid upon the original sale to Fannie Mae and the ultimate sale reflects borrowing costs.

11. LEASES

For the years ended December 31, 2025, 2024 and 2023, operating lease expense was \$189.7 million, \$191.3 million and \$187.4 million, respectively, and variable and short-term lease expense was \$49.8 million, \$50.3 million and \$44.5 million, respectively. In addition, \$206.6 million and \$169.6 million of Operating lease right-of-use assets were obtained in exchange for lease obligations during the years ended December 31, 2025 and 2024, respectively.

As of December 31, 2025, our total commitments related to finance leases was \$33.7 million. Leases in which we sublet do not represent a significant portion of our leasing activity.

Minimum future lease payments due in each of the next five years and thereafter, as of December 31, 2025, are presented in the table below.

(in millions)		
2026	\$	198.1
2027		187.2
2028		155.0
2029		136.9
2030		116.7
Thereafter		320.4
Total future minimum lease payments	\$	1,114.3
Less imputed interest		173.2
Total	\$	941.1

Other information related to operating leases is as follows.

	December 31, 2025
Weighted average remaining lease term	6.9 years
Weighted average discount rate	4.6 %

12. TRANSACTIONS WITH AFFILIATES

As part of our co-investment strategy, we have equity interests in real estate ventures, some of which have certain of our officers as trustees or board of director members, and from which we earn advisory and management fees.

Included in the accompanying Consolidated Financial Statements was revenue of \$757.8 million, \$631.7 million and \$896.4 million for 2025, 2024 and 2023, respectively, as well as receivables of \$139.3 million and \$115.6 million as of December 31, 2025 and 2024, respectively, related to transactions with affiliates.

The outstanding balance of loans to employees are presented in the following table. The Company does not extend credit or provide personal loans to any director or executive officer of JLL.

(in millions)	December 31,	
	2025	2024
Loans related to co-investments ⁽¹⁾	\$ 84.2	81.0
Employee advances ⁽²⁾	444.5	427.5
Total	\$ 528.7	508.5

(1) These non-recourse loans have been made to allow employees the ability to participate in investment fund opportunities. Such amounts are included in Investments on our Consolidated Balance Sheets.

(2) Consists primarily of commissions and other compensation advances to employees that are amortized to Compensation and benefits based on performance over required service periods. Such amounts are included in Notes and other receivables and Long-term receivables on our Consolidated Balance Sheets.

13. COMMITMENTS AND CONTINGENCIES

We are a defendant in various litigation matters arising in the ordinary course of business, some of which involve claims for damages that are substantial in amount. Many of these litigation matters are covered by insurance (including insurance provided through a consolidated captive insurance company as further discussed below), but they may nevertheless be subject to large deductibles and the amounts being claimed may exceed the available insurance. Although we cannot determine the ultimate liability for these matters, based upon information currently available, we believe the ultimate resolution of such claims and litigation will not have a material adverse effect on our financial position, results of operations or liquidity.

Professional Indemnity Insurance

To better manage our global insurance program and support our risk management efforts, we supplement our traditional insurance coverage for certain types of claims by using a wholly-owned captive insurance company. The level of risk retained by us, including our captive insurance company, with respect to professional indemnity claims, is up to \$10.0 million per claim. We contract third-party insurance companies to provide coverage of risk in excess of this amount. When a potential loss event occurs, we estimate the ultimate cost of the claim and accrue the amount in other liabilities on our Consolidated Balance Sheets when probable and estimable. In addition, we have established receivables from third-party insurance providers for claim amounts in excess of the risk retained by our captive insurance company. There was no such receivable recorded as of December 31, 2025. As of December 31, 2024, a receivable of \$0.5 million was included in Notes and other receivables on our Consolidated Balance Sheets.

The following table shows the professional indemnity accrual activity and related payments.

(in millions)	
December 31, 2022	\$ 2.2
New claims	7.0
Prior year claims adjustments (including foreign currency changes)	5.2
Claims paid	(5.0)
December 31, 2023	9.4
New claims	1.0
Prior year claims adjustments (including foreign currency changes)	1.0
Claims paid	(7.2)
December 31, 2024	4.2
New claims	4.5
Prior year claims adjustments (including foreign currency changes)	0.1
Claims paid	(7.4)
December 31, 2025	\$ 1.4

Delegated Underwriting and Servicing ("DUS") Program Loan Loss-Sharing

As a participant in the DUS program, we retain a portion of the risk of loss for loans that are originated and sold under the DUS program. Net losses on defaulted loans are shared with Fannie Mae based upon established loss-sharing ratios. Generally, we share approximately one-third of incurred losses, subject to a cap of 20% of the principal balance of the mortgage at origination. As of December 31, 2025 and 2024, we had loans, funded and sold, subject to loss-sharing arrangements with an aggregate unpaid principal balance of \$25.8 billion and \$23.0 billion, respectively.

In June of 2025, we entered into an enhanced loss-sharing agreement with Fannie Mae associated with a specific three-loan portfolio. The agreement finalized our portion of the loss at \$20.6 million, which we paid in 2025; as a result, there is no residual loss exposure for the subject loans. There were no material loan losses incurred for the years ended December 31, 2025, 2024 and 2023. See "Financial Guarantees" section of Note 2, Summary of Significant Accounting Policies, for additional information.

14. RESTRUCTURING AND ACQUISITION CHARGES

Restructuring and acquisition charges include cash and non-cash expenses. Cash-based charges primarily consist of (i) severance and employment-related charges, including those related to external service providers, incurred in conjunction with a structural business shift, which can be represented by a notable change in headcount, change in leadership, or transformation of business processes, (ii) acquisition, transaction and integration-related charges and (iii) other restructuring charges. Non-cash charges include (i) stock-based compensation expense for retention awards issued in conjunction with prior-period acquisitions, (ii) fair value adjustments to earn-out liabilities relating to prior-period acquisition activity and (iii) asset impairment charges. Restructuring and acquisition charges are presented in the following table.

(in millions)	Year Ended December 31,		
	2025	2024	2023
Severance and other employment-related charges	\$ 42.2	27.1	62.1
Restructuring, pre-acquisition and post-acquisition charges	32.2	26.3	39.6
Stock-based compensation expense for post-acquisition retention awards	2.7	2.3	3.4
Fair value adjustments to earn-out liabilities	(1.8)	(32.6)	(4.4)
Restructuring and acquisition charges	\$ 75.3	23.1	100.7

We expect nearly all cash-based charges related to (i) severance and other employment-related charges and (ii) restructuring, pre-acquisition and post-acquisition charges as of December 31, 2025 will be paid during the next twelve months.

15. ACCUMULATED OTHER COMPREHENSIVE INCOME (LOSS)

The table below presents the changes in Accumulated other comprehensive income (loss) by component.

(in millions)	Pension and postretirement benefit	Cumulative foreign currency translation adjustment	Total
Balance as of December 31, 2023	\$ (63.8)	(527.7)	\$ (591.5)
Other comprehensive income (loss) before reclassification	6.6	(72.4)	(65.8)
Amounts reclassified from AOCI after tax expense of \$0.6, \$- and \$0.6	1.7	8.7	10.4
Other comprehensive income (loss) after tax expense of \$2.2, \$- and \$2.2	8.3	(63.7)	(55.4)
Balance as of December 31, 2024	(55.5)	(591.4)	(646.9)
Other comprehensive (loss) income before reclassification	(10.1)	82.3	72.2
Amounts reclassified from AOCI after tax expense of \$0.8, \$- and \$0.8	2.2	—	2.2
Other comprehensive (loss) income after tax benefit of \$0.5, \$- and \$0.5	(7.9)	82.3	74.4
Balance as of December 31, 2025	\$ (63.4)	(509.1)	\$ (572.5)

For pension and postretirement benefits, we report amounts reclassified from Accumulated other comprehensive loss in Other income within the Consolidated Statements of Comprehensive Income.

16. FOREIGN CURRENCY DERIVATIVES AND HEDGING

We use derivative financial instruments in the normal course of business to hedge foreign currency exchange rate risk. We do not use derivative financial instruments for trading or speculative purposes.

We enter into cross-currency swaps to hedge the foreign currency exposure arising from our net investments in foreign operations. These swaps are designated as net investment hedges. The resulting gains and losses from these derivatives offset the foreign currency translation gains and losses on the associated net investments, both recorded as a component of AOCI. The initial value of any excluded components from the assessment of effectiveness are recognized using a systematic and rational method over the life of the hedging instrument. The interest accrual component of cross-currency swaps is reported directly in earnings.

We enter into foreign currency forward contracts to manage our currency exchange rate risk related to intercompany lending and cash management practices. These derivatives do not qualify for hedge accounting treatment. Gains and losses from the revaluation of these contracts are recognized as a component of Operating, administrative and other expense and are offset by the gains and losses recognized on the revaluation of intercompany loans and other foreign currency balances such that the impact to net income was not significant for any of the three years ended December 31, 2025.

We are exposed to credit risk in the event of nonperformance of the counterparties under the derivative contracts. We manage this risk by entering transactions with major financial institutions, monitoring their credit ratings and diversifying our positions across counterparties. Our derivatives are subject to a master netting arrangement that allow for net settlement of contracts with the same counterparties. There are currently no requirements for the Company to post collateral.

During the year ended December 31, 2025, we entered into cross-currency swaps designated as net investment hedges to hedge the net investments of euro, Japanese yen, Swiss franc and Canadian dollar functional currency foreign subsidiaries. As of December 31, 2025, the total notional of these swaps was \$805.8 million which will mature between 2030 and 2035.

During the year ended December 31, 2025, we entered into forward contracts to hedge foreign currency risk that were not designated as hedges which generally have a maturity of less than 90 days. Forward contracts outstanding as of December 31, 2025 will mature on March 17, 2026. The following table details the gross notional value and net basis of these contracts.

(in billions)		December 31, 2025	2024
Foreign currency forward contracts, gross notional value	\$	2.04	2.21
Foreign currency forward contracts, net basis		1.23	1.08

The following table summarizes the asset and liability positions of our derivatives on a gross basis and the net asset or net liability position with the financial institutions from which we purchase these contracts.

(in millions)	Fair Value Asset		Fair Value Liability	
	December 31,		December 31,	
	2025	2024	2025	2024
Derivatives designated as hedging instruments:				
<i>Net investment hedges:</i>				
Gross amount of derivative	\$ 3.6	—	\$ 10.0	—
Offsetting derivative	(1.1)	—	(1.1)	—
Net amount of net investment hedges	\$ 2.5	—	\$ 8.9	—
Derivatives not designated as hedging instruments:				
<i>Foreign currency forward contracts:</i>				
Gross amount of derivative	\$ 2.2	7.3	\$ 4.2	16.3
Offsetting derivative	(0.6)	(2.4)	(0.6)	(2.4)
Net amount of foreign currency forward contracts	\$ 1.6	4.9	\$ 3.6	13.9
Total derivatives at fair value	\$ 4.1	\$ 4.9	\$ 12.5	13.9

Derivatives designated as hedging instruments are presented in Other long-term assets or Other long-term liabilities. Those not designated as hedging instruments are presented in Restricted cash, prepaid and other assets or Other current liabilities.

See Note 9, Fair Value Measurements for additional information on derivative instruments accounted for at fair value.

The following table summarizes the pre-tax impact of the outstanding derivatives on the Consolidated Statements of Comprehensive Income.

(in millions)	Year Ended December 31,		
	2025	2024	2023
Derivatives designated as hedging instruments:			
Interest income	\$ 2.5	—	—
Loss recognized in Accumulated other comprehensive loss	6.4	—	—
Derivatives not designated as hedging instruments:			
Gain (loss) recognized in Operating, administrative and other	\$ 9.0	(22.1)	5.2

We did not enter into any net investment hedges for the periods ended December 31, 2024 and 2023. As such, there was no impact to these periods.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES

The Company has established disclosure controls and procedures to ensure material information relating to the Company, including its consolidated subsidiaries, is made known to the officers who certify the Company's financial reports and to the members of senior management and the Board of Directors.

Based on management's evaluation as of December 31, 2025, the principal executive officer and principal financial officer of the Company have concluded the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934) are effective.

MANAGEMENT'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rules 13a-15(f) and 15d-15(f). Under the supervision and with the participation of our management, including our principal executive officer, we conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in *Internal Control-Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on our evaluation under the framework in *Internal Control-Integrated Framework (2013)*, our management concluded our internal control over financial reporting was effective as of December 31, 2025.

KPMG LLP, the Independent Registered Public Accounting Firm that audited the Consolidated Financial Statements included in this Annual Report on Form 10-K, issued an audit report on the Company's internal control over financial reporting. That Report of Independent Registered Public Accounting Firm is included in Item 8. Financial Statements and Supplementary Data.

CHANGES IN INTERNAL CONTROLS OVER FINANCIAL REPORTING

There were no changes to the Company's internal controls over financial reporting during the quarter ended December 31, 2025 that have materially affected, or are reasonably likely to materially affect, the Company's internal controls over financial reporting.

ITEM 9B. OTHER INFORMATION

On December 9, 2025, Deborah McAneny, a Director of the Company, entered into a pre-planned stock trading arrangement (the "McAneny Trading Plan") designed to comply with Rule 10b5-1 under the Securities Exchange Act of 1934, as amended, and the Company's insider trading policy.

The McAneny Trading Plan provides for the sale of up to 3,352 shares of the Company's common stock subject to certain price thresholds. Sales under the McAneny Trading Plan may commence no earlier than March 10, 2026, and will terminate on the earlier of December 9, 2026, or when all shares under the McAneny Trading Plan have been sold.

On December 19, 2025, the Company's Chief Executive Officer Christian Ulbrich entered into a pre-planned stock trading arrangement (the "Ulbrich Trading Plan") designed to comply with Rule 10b5-1 under the Securities Exchange Act of 1934, as amended, and the Company's insider trading policy.

The Ulbrich Trading Plan provides for the sale of up to 30,000 shares of the Company's common stock subject to certain price thresholds and with no more than 2,000 shares being sold on any trading day. Sales under the Ulbrich Trading Plan may commence no earlier than June 17, 2026, and will terminate on the earlier of December 31, 2026, or when all shares under the Ulbrich Trading Plan have been sold.

On December 23, 2025, Anne Bloxam, the spouse of Richard Bloxam, the Company's CEO of Capital Markets, entered into a pre-planned stock trading arrangement (the "Anne Bloxam Trading Plan") designed to comply with Rule 10b5-1 under the Securities Exchange Act of 1934, as amended, and the Company's insider trading policy.

The Anne Bloxam Trading Plan provides for the sale of up to 5,440 shares of the Company's common stock. Sales under the Anne Bloxam Trading Plan may commence no earlier than March 24, 2026, and will terminate on the earlier of June 18, 2026, or when all shares under the Anne Bloxam Trading Plan have been sold.

No other directors or officers adopted or terminated any contract, instruction or written plan for the purchase or sale of our securities that was intended to satisfy the affirmative defense conditions of a Rule 10b5-1(c) trading arrangement or a non-Rule 10b5-1 trading arrangement as such terms are defined under Item 1 408(a) or Regulation S-K during the quarter ended December 31, 2025.

ITEM 9C. DISCLOSURE REGARDING FOREIGN JURISDICTIONS THAT PREVENT INSPECTIONS

Not applicable.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

The information required by Item 401 of Regulation S-K in the definitive proxy statement for the annual meeting of shareholders to be held on or about May 28, 2026 ("Proxy Statement"), under the captions "Corporate Governance - Item 1 - Election of Directors" and "Executive Officers" is incorporated herein by reference. The information in the Proxy Statement required by Item 405 of Regulation S-K under the caption "Security Ownership - Delinquent Section 16 Reports" is incorporated herein by reference. The information in the Proxy Statement required by Items 407(d)(4) and 407(d)(5) of Regulation S-K under the caption "Corporate Governance - Board Committees" is incorporated herein by reference.

JLL has adopted a code of ethics that applies to its executives, including its principal executive officer, principal financial officer and principal accounting officer. This code of ethics and JLL's corporate governance policies are posted on JLL's website at www.jll.com. JLL intends to satisfy disclosure requirements regarding amendments to or waivers from its code of ethics by posting such information on this website. The charters of the Audit and Risk, Nominating, Governance and Sustainability, and Compensation committees of JLL's Board of Directors are available on JLL's website as well. This information is also available in print free of charge to any person who requests it.

ITEM 11. EXECUTIVE COMPENSATION

The information required by Item 402 and 407(e)(4) and (e)(5) of Regulation S-K in the Proxy Statement under the caption "Executive Compensation" is incorporated herein by reference.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED SHAREHOLDER MATTERS

The information required by Item 403 of Regulation S-K in the Proxy Statement under the caption "Security Ownership" is incorporated herein by reference. The following table provides information with respect to Jones Lang LaSalle's common shares issuable under our equity compensation plans.

December 31, 2025			
(in thousands, except exercise price) PLAN CATEGORY	NUMBER OF SECURITIES TO BE ISSUED UPON EXERCISE OF OUTSTANDING OPTIONS, WARRANTS AND RIGHTS (A)	WEIGHTED AVERAGE EXERCISE PRICE OF OUTSTANDING OPTIONS, WARRANTS AND RIGHTS (B)	NUMBER OF SECURITIES REMAINING AVAILABLE FOR FUTURE ISSUANCE UNDER EQUITY COMPENSATION PLANS (EXCLUDING SECURITIES REFLECTED IN COLUMN (A)) (C)
Equity compensation plans approved by security holders			
SAIP	1,433	\$200.75	1,540
ESPP	n/a	n/a	113
Subtotal	1,433		1,653
Equity compensation plans not approved by security holders			
SAYE ⁽¹⁾	—	—	281
Total	1,433		1,934

(1) In November 2001, we adopted the SAYE plan for eligible employees of our U.K. based operations. In November 2006, the SAYE plan was extended to employees in our Ireland operations. Under this plan, employee contributions for stock purchases are enhanced by us through an additional contribution of a 15% discount on the purchase price. Options granted under the SAYE plan vest over a period of three to five years. The original SAYE plan was not approved by shareholders since such approval was not required under applicable rules at the time of the adoption of this plan. In 2006, our shareholders approved an amendment to the SAYE plan that increased the number of shares reserved for issuance by 500,000.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

The information required by Item 404 of Regulation S-K in the Proxy Statement under the caption "Security Ownership - Certain Relationships and Related Transactions" is incorporated herein by reference. The information required by Item 407(a) of Regulation S-K in the Proxy Statement under the caption "Corporate Governance-Director Independence" is incorporated herein by reference.

ITEM 14. PRINCIPAL ACCOUNTING FEES AND SERVICES

The Company's independent registered public accounting firm is KPMG, LLP, Chicago, IL, Auditor Firm ID: 185.

The information required by this Item 14 is set forth in the Proxy Statement under the captions "Audit Matters - Information About Our Independent Registered Public Accounting Firm" and incorporated herein by reference.

PART IV

ITEM 15. EXHIBITS AND FINANCIAL STATEMENT SCHEDULES

The following documents are filed as part of this report:

- 1. Financial Statements.** See Index to Consolidated Financial Statements in Part II, Item 8 of this report.
- 2. Financial Statement Schedules.** No financial statement schedules are included because they are not required or are not applicable, or the required information is set forth in the applicable statements or related notes.
- 3. Exhibits.** A list of exhibits is set forth in the Exhibit Index, included below.

ITEM 16. FORM 10-K SUMMARY

None.

Cautionary Note Regarding Forward-Looking Statements

This report, including this Management's Discussion and Analysis of Financial Condition and Results of Operations, contains "forward-looking statements" within the meaning of the federal securities laws. All such statements are qualified by this cautionary note, which is provided pursuant to the safe harbor provisions of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements may also be included in our other public filings, press releases, our website, and oral and written presentations by management.

Statements in the future tense, and all statements accompanied by terms such as "believe," "will," "may," "could," "project," "expect," "estimate," "assume," "intend," "anticipate," "target," "plan" and variations thereof and similar terms, are intended to be forward-looking statements. Such statements do not relate strictly to historical or current facts as they relate to our intent, belief and current expectations about our strategic direction, prospects and future results, and give our current expectations or forecasts of future events. Management believes that these forward-looking statements are reasonable as and when made. However, caution should be taken not to place undue reliance on any such forward-looking statements because such statements speak only as of the date when made, unless an earlier date is specified.

Forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from our historical experience and our present expectations or anticipated results. These risks and uncertainties are described in Part I, Item 1A. Risk Factors and may also be described from time to time in our future reports filed with the SEC. You should consider the limitations on, and risks associated with, forward-looking statements and not unduly rely on the accuracy of predictions contained in such forward-looking statements. The forward-looking statements in this report represent our estimates and assumptions only as of the date of this report, unless an earlier date is specified. We do not undertake any obligation to update forward-looking statements to reflect events, circumstances, changes in expectations or results, new information, developments or any change in events, or otherwise, after the date of those statements, except to the extent that disclosure may be required by law.

Power of Attorney

Jones Lang LaSalle Incorporated, a Maryland corporation, and the undersigned Directors and officers of Jones Lang LaSalle Incorporated, hereby constitutes and appoints Christian Ulbrich, Kelly Howe and Benjamin Hawke its, his or her true and lawful attorneys-in-fact and agents, for it, him or her and in its, his or her name, place and stead, in any and all capacities, with full power to act alone, to sign any and all amendments to this report, and to file each such amendment to this report, with all exhibits thereto, and any and all documents in connection therewith, with the Securities and Exchange Commission, hereby granting unto said attorneys-in-fact and agents, and each of them, full power and authority to do and perform any and all acts and things requisite and necessary to be done in and about the premises, as fully to all intents and purposes as it, he or she might or could do in person, hereby ratifying and confirming all that said attorneys-in-fact and agents, or any of them, may lawfully do or cause to be done by virtue hereof.

EXHIBIT NUMBER	DESCRIPTION

CERTIFICATION

I, Christian Ulbrich, certify that:

1. I have reviewed this Annual Report on Form 10-K of Jones Lang LaSalle Incorporated;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

**JONES LANG LASALLE INCORPORATED
AMENDED AND RESTATED POLICY ON
RECOUPMENT OF INCENTIVE COMPENSATION**

Introduction

The Compensation Committee (the “Compensation Committee”) of the Board of Directors (the “Board”) of Jones Lang LaSalle Incorporated (the “Company”) has adopted this Amended and Restated Policy on Recoupment of Incentive Compensation (this “Policy”), which provides for the recoupment of compensation in certain circumstances in the event of (i) a restatement of financial results by the Company or (ii) for members of the Company’s Global Executive Board (“GEB”), ethical or criminal violations resulting in significant reputational or financial harm to the Company or any of its affiliates. This Policy is intended to comply with the requirements of Securities and Exchange Commission (“SEC”) rules and New York Stock Exchange (“NYSE”) listing standards implementing Section 954 of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (the “Dodd-Frank Act”) and to establish additional recoupment triggers and procedures beyond those required by applicable law for certain senior executives.

Administration

This Policy shall be administered by the Compensation Committee. Any determinations made by the Compensation Committee shall be final and binding on all affected individuals. The Compensation Committee is authorized to interpret and construe this Policy and to make all determinations necessary, appropriate, or advisable for the administration of this Policy, in all relevant cases consistent with applicable law including the Dodd-Frank Act. The Compensation Committee may amend this Policy from time to time in its sole discretion.

Covered Executives

This Policy applies to any current or former “executive officer,” within the meaning of Rule 10D-1 under the Securities Exchange Act of 1934, as amended, who was employed by the Company or a subsidiary of the Company (each such individual, an “Executive”) during the applicable Recovery Period, as defined below. This Policy shall be binding and enforceable against all Executives and their beneficiaries, executors, administrators, and other legal representatives.

For the avoidance of doubt, this Policy also applies to all GEB Members, whether or not such GEB Member also qualifies as an Executive. For purposes of this Policy, a “GEB Member” means any current or former member of the Company’s Global Executive Board who was serving in such capacity during the applicable Recovery Period.

Recoupment Upon Financial Restatement

If the Company is required to prepare an accounting restatement due to the material noncompliance of the Company with any financial reporting requirement under the securities laws, including any required accounting restatement to correct an error in previously issued financial statements that is material to the previously issued financial statements, or that would result in a material misstatement if the error were corrected in the current period or left uncorrected in the current period (a “Financial”

Restatement”), the Compensation Committee shall cause the Company to recoup from each Executive, as promptly as reasonably possible, any erroneously awarded Incentive-Based Compensation, as defined below.

Recoupment Upon Ethical or Criminal Violations

If a GEB Member engages in conduct that constitutes (i) a material violation of the Company’s Code of Ethics or other applicable Company policies, (ii) criminal conduct, or (iii) any other misconduct that, in the reasonable judgment of the Compensation Committee, results in significant reputational harm or financial harm to the Company or any of its affiliates (an “Ethics Violation”), the Compensation Committee may, in its sole discretion, cause the Company to recoup from such GEB Member any cash bonuses and/or equity awards received by such GEB Member during the three (3) completed fiscal years immediately preceding the date on which the Compensation Committee determines that an Ethics Violation has occurred, in such amounts as the Compensation Committee deems appropriate.

No-Fault Recovery for Financial Restatements

Recoupment under this Policy related to Financial Restatements shall be required regardless of whether the Executive or any other person was at fault or responsible for errors that contributed to the need for the Financial Restatement or engaged in any misconduct, and for Executives who are GEB Members, regardless of whether an Ethics Violation has occurred.

Compensation Subject to Recovery; Enforcement

For Financial Restatements, this Policy applies to all compensation granted, earned or vested based wholly or in part upon the attainment of any measure determined and presented in accordance with the accounting principles used in preparing the Company’s financial statements, and any measure that is derived wholly or in part from such measures, whether or not presented within the Company’s financial statements or included in a filing with the SEC, including stock price and total shareholder return (“TSR”), including but not limited to performance-based cash, stock, options or other equity-based awards paid or granted to the Executive, including proceeds received upon the sale of shares acquired through an incentive plan that were granted or vested based wholly or in part on satisfying a financial reporting measure performance goal (“Incentive-Based Compensation”).

Compensation that is granted, vests or is earned based solely upon the occurrence of non-financial events, such as base salary, restricted stock or options with time-based vesting, or a bonus awarded solely at the discretion of the Board or Compensation Committee and not based on the attainment of any financial measure, is not subject to this Policy with respect to Financial Restatements.

For Ethics Violations by GEB Members, this Policy applies to all cash bonuses and equity awards received by the GEB Member during the applicable Recovery Period, notwithstanding the existence of performance metrics or vesting conditions applicable to such compensation.

Calculation and Recovery Period

In the event of a Financial Restatement, the amount to be recovered will be the excess of (i) the Incentive-Based Compensation received by the Executive during the three completed fiscal years immediately preceding the date on which the Company is required to prepare the Financial Restatement, as determined in accordance with the last sentence of this paragraph, or any transition period (that results from a change in the Company's fiscal year) within or immediately following those three completed fiscal years (provided that a transition period between the last day of the Company's previous fiscal year and the first day of its new fiscal year that comprises a period of nine to twelve months would be deemed a completed fiscal year) (the "Recovery Period"), based on the erroneous data and calculated without regard to any taxes paid or withheld, over (ii) the Incentive-Based Compensation that the Executive would have received had it been calculated based on the restated financial information, as determined by the Compensation Committee.

For this purpose, the Executive is considered to have received Incentive-Based Compensation in the fiscal year during which the applicable financial reporting measure was attained or purportedly attained, regardless of when the payment or grant of such Incentive-Based Compensation occurs. The date on which the Company is required to prepare a Financial Restatement is the earlier to occur of (A) the date the Board or a Board committee (or authorized officers of the Company if Board action is not required) concludes, or reasonably should have concluded, that the Company is required to prepare a Financial Restatement or (B) the date a court, regulator, or other legally authorized body directs the Company to prepare a Financial Restatement.

For Incentive-Based Compensation based on stock price or TSR, where the amount of erroneously awarded compensation is not subject to mathematical recalculation directly from the information in the Financial Restatement, then the Compensation Committee shall determine the amount to be recovered based on a reasonable estimate of the effect of the Financial Restatement on the stock price or TSR upon which the Incentive-Based Compensation was received and the Company shall document the determination of that estimate and provide it to the NYSE.

For Ethics Violations by GEB Members, the Recovery Period shall be the three (3) completed fiscal years immediately preceding the date on which the Compensation Committee determines that an Ethics Violation has occurred. For this purpose, a GEB Member is considered to have received compensation in the fiscal year during which the compensation was actually paid, granted, or vested.

Committee Discretion for Ethics Violations

With respect to Ethics Violations by GEB Members, the Compensation Committee shall have sole and absolute discretion to determine (i) whether to seek recoupment of any compensation under this Policy, (ii) the amount of any compensation to be recouped, and (iii) the method and timing of any recoupment. The Compensation Committee shall not be required to recoup any amount under this Policy for Ethics Violations and may consider any factors it deems relevant in making its determinations, including but not limited to the GEB Member's role in any triggering event, the financial or reputational impact on the Company, the costs of recovery, and any other circumstances the Compensation Committee deems appropriate.

Enforcement Mechanisms

The Company may use any legal or equitable remedies that are available to the Company to recoup any compensation subject to this Policy, including but not limited to by collecting from the Executive or GEB Member a cash payment or shares of Company common stock or by forfeiting any amounts that the Company owes to the Executive or GEB Member.

No Indemnification

The Company shall not indemnify any Executive or GEB Member or pay or reimburse the premium for any insurance policy to cover any losses incurred by such Executive or GEB Member under this Policy.

Exceptions

The compensation recouped under this Policy shall not include compensation received by an Executive or GEB Member (i) prior to beginning service as an Executive or GEB Member, respectively, or (ii) if he or she did not serve as an Executive or GEB Member, respectively, at any time during the applicable Recovery Period.

For Financial Restatements only, the Compensation Committee may determine not to seek recovery from an Executive in whole or part to the extent it determines in its sole discretion that such recovery would be impracticable because (A) the direct expense paid to a third party to assist in enforcing recovery would exceed the recoverable amount (after having made a reasonable attempt to recover the erroneously awarded Incentive-Based Compensation and providing corresponding documentation of such attempt to the NYSE), (B) recovery would violate the home country law that was adopted prior to November 28, 2022, as determined by an opinion of counsel licensed in the applicable jurisdiction that is acceptable to and provided to the NYSE, or (C) recovery would likely cause the Company's 401(k) plan or any other tax-qualified retirement plan to fail to meet the requirements of Section 401(a)(13) or Section 411(a) of the Internal Revenue Code of 1986, as amended, and the regulations thereunder.

Other Remedies Not Precluded

The exercise by the Compensation Committee of any rights pursuant to this Policy shall be without prejudice to any other rights or remedies that the Company, the Board, or the Compensation Committee may have with respect to any Executive or GEB Member subject to this Policy.

Effective Date

The Compensation Committee has adopted this Amended and Restated Policy effective as of January 1, 2026 (the "Effective Date") and shall apply to any compensation that is received by an Executive on or after the Effective Date. The original Policy on Recoupment of Incentive Compensation adopted on September 7, 2023, is hereby amended and restated in its entirety by this Policy; however, such policy will continue to apply to compensation received by an Executive prior to the Effective Date in accordance with its terms.
