c/o Del Monte Fresh Produce Company
241 Sevilla Avenue
Coral Gables, Florida 33134
(Address of Registrant's U.S. Executive Offices)

Securities registered pursuant to Section 12(b) of the Act:

Title of Each Class	Trading Symbol	Name of Each Exchange on Which Registered
Ordinary Shares, Par Value \$0.01 Per Share	FDP	New York Stock Exchange

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the Registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes ☒ No ☐

Indicate by check mark if the Registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes ☐ No ☒

Indicate by check mark whether the Registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes ☒ No ☐

Indicate by check mark whether the Registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of “large accelerated filer,” “accelerated filer,” “smaller reporting company,” and “emerging growth company” in Rule 12b-2 of the Exchange Act.

Large Accelerated Filer	Accelerated filer	Non-accelerated filer	Smaller reporting company	Emerging growth company
<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes ☐ No ☒

Indicate by check mark whether the registrant has filed a report on and attestation to its management’s assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 7262(b)) by the registered public accounting firm that prepared or issued its audit report. Yes ☒ No ☐

If securities are registered pursuant to Section 12(b) of the Act, indicate by check mark whether the financial statements of the registrant included in the filing reflect the correction of an error to previously issued financial statements. ☐

Indicate by check mark whether any of those error corrections are restatements that required a recovery analysis of incentive-based compensation received by any of the registrant’s executive officers during the relevant recovery period pursuant to §240.10D-1(b). ☐

The aggregate market value of Ordinary Shares held by non-affiliates at June 27, 2025, the last business day of the registrant’s most recently completed second quarter, was \$1,079,979,727 based on the number of shares held by non-affiliates of the registrant and the reported closing price of Ordinary Shares on June 27, 2025 of \$32.06.

As of February 6, 2026, there were 47,383,526 ordinary shares of Fresh Del Monte Produce Inc. issued and outstanding.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the Registrant’s definitive Proxy Statement for the 2025 Annual General Meeting of Shareholders to be filed with the Securities and Exchange Commission within 120 days after the end of the registrant’s fiscal year are incorporated by reference in Part III of this report.

PART I

Item 1. Business

Business Overview

Fresh Del Monte Produce Inc. (the “Company,” “we” or “us”) is one of the world’s leading vertically integrated producers, marketers and distributors of high-quality fresh and fresh-cut fruit and vegetables, as well as a leading producer and distributor of prepared fruit and vegetables, juices, beverages and snacks in Europe, Africa and the Middle East. We market our products worldwide primarily under the *Del Monte*® brand, a symbol of product innovation, quality, freshness and reliability since 1892. Our global sourcing and logistics network allows us to provide consistent delivery of high-quality products and value-added services to our customers.

We have leading market positions in the following product categories and we believe we are:

- the largest marketer of *fresh pineapples* in the United States, and a leading marketer in other markets worldwide;
- the third-largest marketer of *bananas* in the United States, and a leading marketer in other markets worldwide; and
- a leading marketer of:
 - *fresh-cut fruit* in the United States, Japan, Saudi Arabia, South Korea, United Arab Emirates, and the United Kingdom;
 - *fresh-cut vegetables* in North America, South Korea, Kuwait, United Arab Emirates, Japan, and Saudi Arabia;
 - *avocados* in the United States; and
 - *canned fruit* in Europe, Africa, and the Middle East.

Our vision is to inspire healthy lifestyles through wholesome and convenient products. Our strategy is founded on six goals:

Our business is comprised of three reportable segments, two of which represent our primary businesses of fresh and value-added products and banana, and one that represents our other ancillary businesses.

- *Fresh and value-added products* - includes pineapples, fresh-cut fruit, fresh-cut vegetables (which includes fresh-cut salads), melons, vegetables, non-tropical fruit (which includes grapes, apples, citrus, blueberries, strawberries, pears, peaches, plums, nectarines, cherries and kiwis), other fruit and vegetables, avocados, and prepared foods (which includes prepared fruit and vegetables, juices, other beverages, and meals and snacks).
- *Banana*
- *Other products and services* - includes our third-party freight and logistic services business, our Jordanian poultry and meats business and our specialty ingredients business (previously referred to as our biomass initiatives).

We market and distribute our products to retail stores, club stores, convenience stores, wholesalers, distributors and foodservice operators in more than 80 countries around the world. North America is our largest market, accounting for 58% of our net sales in 2025. Our other major markets are Europe, the Middle East (which includes North Africa) and Asia. Our net sales by region for the year 2025 are depicted in the chart below.

We produce, source, distribute and market a broad array of fresh produce, primarily under the *Del Monte*[®] brand, as well as under other proprietary brands, such as *UTC*[®] and *Rosy*[®]. We also produce, distribute and market prepared fruits and vegetables, juices, beverages and snacks under the *Del Monte*[®] brand, as well as other proprietary brands, such as *Just Juice*[®], *Fruitini*[®], *Pinkglow*[®], *Del Monte Zero*[®], *Honeyglow*[®], *Rubyglow*[®], *Honey Miniglow*[®], *Bananinis*[®], and other regional trademarks in North America, Europe, Africa and the Middle East.

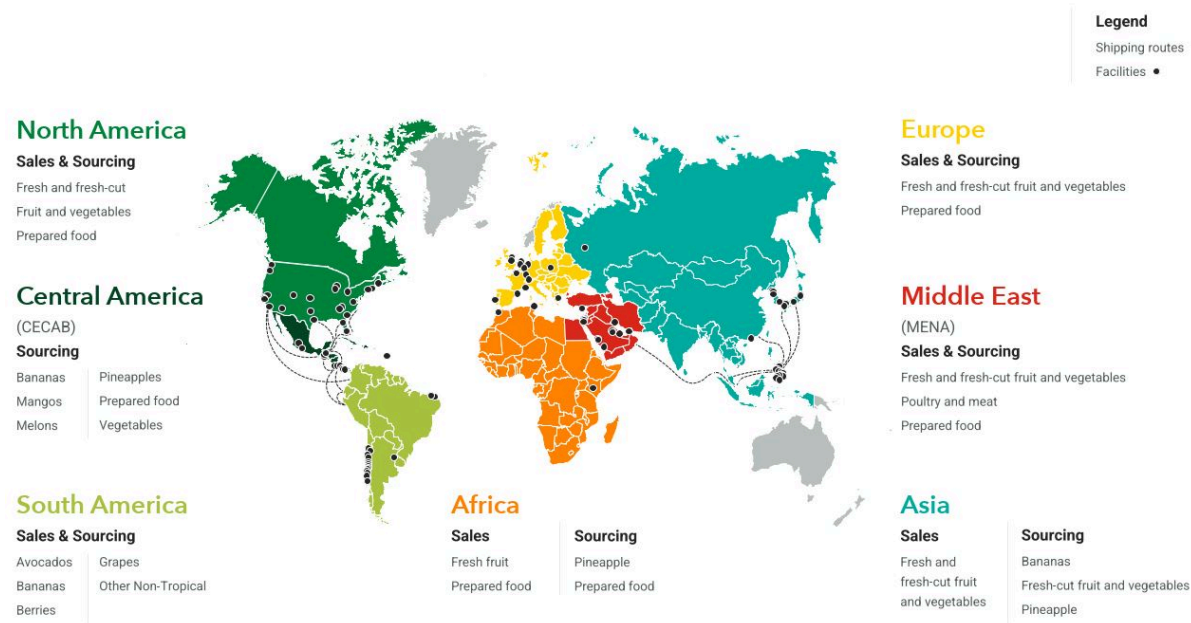

Our distribution centers and fresh-cut facilities address the growing demand from supermarket chains, club stores, convenience stores, foodservice providers, mass merchandisers and independent grocers to provide value-added services, including the preparation of fresh-cut produce, ripening, customized sorting and packing, just-in-time and direct-store-delivery and in-store merchandising and promotional support. Large national and global chains are increasingly choosing fewer suppliers who can serve all of their needs on a national basis. We believe that there is a significant opportunity for a company like ours with a full fresh and fresh-cut produce line, well-recognized brands, a consistent supply of quality produce and a global distribution network to become the preferred supplier to these large retail, convenience store, and foodservice customers. We strive to expand this status by increasing our leading position in fresh-cut produce, expanding our fresh fruit and vegetable business, continuing to grow these value-added products and diversifying our other fresh produce selections.

Del Monte Foods Acquisition

On January 15, 2026, we were selected as the successful bidder by the United States Bankruptcy Court for the District of New Jersey (the “Court”) to acquire select assets of Del Monte Foods Corporation II Inc. and its affiliates (“Del Monte Foods”) for approximately \$285 million plus the assumption of certain liabilities following a competitive bankruptcy auction process under Section 363 of the U.S. Bankruptcy Code. The Court subsequently approved the sale order and execution of an Asset Purchase Agreement (“APA”) on February 6, 2026. Under the APA, we will acquire (i) the prepared and packaged foods businesses of Del Monte Foods comprising canned vegetable, tomato, and refrigerated fruit business assets operated under the *Del Monte*[®], *S&W*[®], *Contadina*[®], *Take Root Organics*[®] trademarks, (ii) the bubble tea business operated under the *Joyba*[®] trademarks, (iii) four US facilities, two facilities in Mexico, and one facility in Venezuela and (iv) global ownership of the *Del Monte*[®] brand, which is subject to existing licensing arrangements across different regions and categories (the “Acquisition”). The APA also provides for the assumption of customer and supplier contracts as defined in the APA, as well as inventory at closing to help support uninterrupted service to the existing customer base. The Acquisition brings the *Del Monte*[®] brand under a single owner for the first time in nearly four decades, allowing our business to align fresh and shelf-stable foods under one integrated strategy while leveraging our distribution network and infrastructure within North America. We expect to finance the Acquisition through a combination of cash on hand, existing escrow deposits of \$28.5 million made pursuant to the terms of the bankruptcy auction, and availability under our existing revolving credit facility. The Acquisition, which we expect to close during the first quarter of 2026, remains subject to regulatory clearances, including under the Hart-Scott-Rodino Act, and other customary closing conditions.

Sourcing and Production

A graphic depicting our geographic sales and sourcing operations as of the end of 2025 is shown below.

We source our fresh produce products primarily from Central and South America, North America, and the Philippines, and our prepared food products from Africa, Europe, and the Middle East. We also produce, market and distribute certain prepared food products in North America based on our agreement with Del Monte Pacific Limited and its subsidiary Del Monte Foods, Inc.

Our products are sourced from company-controlled operations and through supply contracts with independent producers. In 2025, 52% of the fresh produce we sold was grown on company-controlled farms and the remaining 48% was acquired primarily through supply contracts with independent growers. Costa Rica is our most significant sourcing location representing approximately 34% of our total sales volume of fresh produce products and where 41% of our property, plant and equipment was located in 2025.

Fresh and value-added products

Our fresh and value-added products segment includes sales of the following product categories:

Fresh-cut produce (fresh-cut fruit and fresh-cut vegetables)

Our fresh-cut produce sales in 2025 represented 20% of our total net sales. Our largest selling market for our fresh-cut products was North America, which accounted for 69% of our fresh-cut fruit sales and 74% of our fresh-cut vegetable sales in 2025. We also sold fresh-cut produce in Europe, Asia, and the Middle East.

We believe that the fresh-cut produce market continues to be one of the fastest-growing categories in the fresh produce industry, largely due to consumer trends favoring healthy, fresh and conveniently packaged ready-to-eat foods. While packaged salads continue to lead the category of fresh-cut produce sales, the category has expanded significantly to include pineapples, melons, mangoes, grapes, citrus and assorted vegetable produce items that are washed, cut and packaged in a ready-to-use form. Within this market, we believe that there is differentiation between companies active primarily in the packaged salad market and other companies, like us, that can offer a wide variety of value-added conventional and organic fresh-cut fruit and vegetable items.

Our fresh-cut fruit products include pineapples, melons, grapes, citrus, apples, mangoes, kiwis and other fruit items. We believe that our experience in this market coupled with our sourcing and logistics capabilities and the *Del Monte*[®] brand have enabled us to become a leading supplier of fresh-cut fruit to the supermarket, convenience and club store channels in the United States. Our offerings in North America also include a broad variety of fresh-cut vegetable products.

The majority of fresh-cut produce is sold to consumers through retail and club store settings, as well as non-conventional settings such as e-commerce, convenience stores, and airports. We believe that outsourcing by food retailers will increase, particularly as food safety regulations become more stringent and retailers demand more value-added services. We believe that this trend should benefit large branded suppliers like us, who are better positioned to invest in state-of-the-art fresh-cut facilities, food safety systems and to service regional, national and global chains and foodservice operators, as well as supercenters, mass merchandisers, club stores and convenience stores. We also believe that large branded suppliers benefit from merchandising, branding and other marketing strategies for fresh-cut products, similar to those used for branded processed food products, which depend substantially on product differentiation.

The fruit we use in our fresh-cut operations are sourced within our integrated system of Company-controlled farms and from GAP-certified (good agricultural practices) independent growers. We purchase our vegetables from independent growers principally in the United States and Mexico. Our purchase contracts for both fruit and vegetables are typically short-term and vary by produce item.

Pineapples

We believe that we are the leading marketer of fresh pineapples in the United States and a leading marketer worldwide based on internally generated data. Our pineapple net sales in 2025 represented 16% of our total net sales, and were primarily concentrated in North America (accounting for 57% of our total pineapple sales), followed by Europe (25%), Asia (9%), and the Middle East (9%).

Our *Del Monte Gold*[®] Extra Sweet pineapple, which was launched in 1996 as a then-new variety, has an enhanced taste, golden shell color, and bright yellow flesh and has replaced other traditional pineapple varieties in popularity and demand. The production and sale of premium pineapples in the market has also led to increased competition. In recent years, we have continued our efforts to innovate our product lines, including with the launch of our proprietary *Pinkglow*[®] pineapple in 2020 and with the relaunch of our *Honeyglow*[®] pineapple in 2021. In 2022, as a further showcase of our diverse product line in the pineapple space, we announced the launch of our *Del Monte Zero*[™] carbon neutral pineapple, which provides consumers with a unique opportunity to support climate-conscious produce. This pineapple product line extension is grown in Costa Rica and has been certified as sustainably grown by a third-party certification body. In January 2024, we launched our *Rubyglow*[®] pineapple, debuting exclusively in China and later in the United States, which features a red exterior and bright yellow flesh as part of our expansion into the market. We expanded the launch of our *Rubyglow*[®] pineapple in Europe in early 2025.

Pineapples are grown in tropical and sub-tropical locations. The principal production and procurement areas for our pineapples are Costa Rica, the Philippines, and Kenya.

Pineapples have a long growing cycle of 18 months and require re-cultivation after one to two harvests. Growing pineapple requires a higher level of capital investment, as well as greater agricultural expertise as compared to bananas. Given the complexity of pineapple cultivation relative to our bananas, a higher percentage of the fresh pineapples we sell (81% by volume in 2025) is produced on company-controlled farms.

Avocados

Avocado net sales represented 8% of our total net sales during 2025. Avocados are one of the fastest growing produce items in the United States. According to a USDA report, the quantity of avocados available per person, a proxy for consumption, has tripled over the past two decades. Additionally, The Packer, a leading fresh produce publication, reported over the most recent three years that an average of approximately 55% of consumers in the U.S. purchased avocados over the same time period. During 2025, our largest selling market for avocados was North America, which made up 97% of our avocado net sales. We believe opportunity exists to expand our avocado net sales in international markets.

Our avocados are sourced principally from Mexico where we have our own sourcing operations and sorting and packing facility, ensuring a consistent supply of high-quality avocados year-round. Our supply of avocados are supplemented from independent growers in the United States, Colombia, and Peru. In August 2025, we announced the formation of a Colombian-based joint venture to expand our sourcing of avocados in Colombia for our North America and European markets.

Prepared Foods

Prepared foods net sales represented 7% of our total net sales during 2025. We have a royalty-free, perpetual license to use the *Del Monte*[®] trademark in connection with the production, manufacture, sale and distribution of prepared food, including beverages, in over 100 countries throughout Europe, Africa, the Middle East and certain Central Asian countries. We can also produce, market and distribute certain prepared food products in North America based on our agreement with Del Monte Pacific Limited. The *Del Monte*[®] brand has a reputation with both consumers and retailers for value, quality and reliability and is considered a premier brand in many Western European markets. In addition to under the *Del Monte*[®] label, our prepared food products are also sold under the buyers' own private label for major retailers.

Our prepared food products include prepared pineapple, peaches, fruit cocktail, pears, tomatoes, and other fruits and vegetables, as well as fruit juices, various meals and snacks, guacamole, and industrial products such as fruit in the form of purees, pulps and concentrates for further processing.

Our prepared pineapple products are primarily sourced from our facility in Kenya while our prepared deciduous and tomato products are primarily sourced from our facility in Greece and from independent producers. We expect to continue investing in new product development to increase revenue and maintain market leadership in our prepared foods category.

Banana

Bananas are the leading internationally traded fresh fruit in terms of volume and dollar sales and one of the best-selling fresh fruits in the United States. According to a 2025 publication by The Packer, bananas were the most popular item in the produce department, purchased by 92% of consumers in the U.S. over the past twelve months.

We believe that we are the third-largest marketer of bananas in the United States and a leading marketer in other markets worldwide, based on internally generated data. Our banana net sales in 2025 represented 34% of our total net sales, and were primarily concentrated in North America (accounting for 46% of our total banana sales), followed by Europe (26%), Asia (16%), and the Middle East (11%). Our ability to provide our customers with a year-round supply of high-quality *Del Monte*[®] bananas is important to maintaining our existing customer relationships and attracting new customers. Our position as a volume shipper of bananas has also allowed us to make regular shipments of a wide array of other fresh produce, such as pineapples, melons and plantains, and has positioned us to expand our third-party ocean freight services, thereby reducing our average per-box logistics costs and maintaining higher quality produce with a longer shelf life.

Bananas have a relatively short growing cycle and are grown in tropical locations with humid climates and heavy rainfall, such as Central and South America, the Caribbean, Asia and Africa. Bananas are grown throughout the year in these locations, although demand and prices fluctuate based on the relative supply of bananas and the availability of seasonal and alternative fruit.

We produce bananas on Company-controlled farms in Costa Rica, Guatemala, the Philippines, Panama and Brazil, and we purchase bananas from independent growers in Guatemala, the Philippines, Ecuador, and Colombia. In 2025, we produced approximately 47% of the banana volume we sold on Company-controlled farms, and we purchased the remainder from independent growers. Although our supply contracts are primarily long-term, we also make purchases in the spot market, primarily in Ecuador. In Ecuador and Costa Rica, there are minimum export prices for the sale of bananas, which are established and reviewed on a periodic basis by the respective governments.

In the Philippines, we purchase the majority of our bananas through long-term contracts with independent growers. Approximately 94% of our Philippine-sourced bananas were supplied in 2025 by one grower, representing 13% of the Philippines banana industry volume in 2025. In the Philippines, we have leased approximately 610 hectares of land where we have planted approximately 505 hectares of bananas for the Asia and the Middle East markets. This amount excludes previously leased land associated with two operations in the Philippines which we abandoned during the third quarter of 2025 as a result of low profitability and reduced production.

During 2025, we began supplementing purchases of bananas for our Asia markets by sourcing from independent growers in Vietnam and Cambodia under short-term trial agreements. Further, in November 2025, we announced our signing of a strategic partnership with THACO Agri to source bananas from their operations in Vietnam and Cambodia to strengthen our sourcing in Southeast Asia.

Additionally, in early 2023, we announced a multi-year collaboration agreement with a United Arab Emirates-based ("UAE") firm to supply our Middle East and North Africa markets with bananas grown in Somalia, which started in 2025. During the late 1980s and early 1990s, Somalia was a main hub for banana exports to these regions.

Other Products and Services

Included in our other products and services segment is our third-party freight and logistic services business, our Jordanian poultry and meats business and our specialty ingredients business.

Our third-party freight and logistic services business leverages our supply chain assets, including our shipping vessels, warehouses and cold storage infrastructure as part of our efforts to expand our portfolio of services. Our third-party ocean freight services business "Network Shipping" operates as a hybrid shipping line/cargo owner and seeks to offer customers flexible and dependable access to routes between Costa Rica, Ecuador, Guatemala, Peru and the U.S. Our six refrigerated container vessels, which were delivered in 2020 and 2021, have allowed us to continue expanding this ancillary business, and provide meaningful contribution to our profitability. The business began by allowing us to optimize the excess capacity on our ships' outbound and return voyages to and from our product sourcing locations as a way to generate incremental revenue and reduce our overall shipping costs. We have opened agencies in the U.S., Guatemala, Costa Rica, Ecuador and Peru to support the expansion of this business and better serve our customers, including by enabling better end-to-end solutions such as cold storage services at port locations and cross-docking services in addition to our ocean freight services.

In addition we provide a range of logistic services in North America, including inland freight, cross-docking, cold storage and warehousing services in an effort to further leverage our supply chain network within the region and optimize the productivity of our assets.

Our Jordanian poultry and meats business includes a vertically-integrated poultry business, including poultry farms, hatcheries, a feed mill, a slaughterhouse and a meat processing plant.

Our specialty ingredients business, previously referred to as our biomass initiatives, include a Kenyan biofertilizer plant, which will use residues from the Company's pineapple cannery to create different types of biomass products for internal use and third-party sales to other growers. In addition, our specialty ingredients business includes our majority stake in a Ugandan supplier of bulk crude and edible avocado oil which we acquired during March 2025.

Logistics Operations

We conduct complex logistics operations on a global basis, transporting our products from the countries in which they are grown to the many markets in which they are sold worldwide. Maintaining fresh produce at the appropriate temperature is an important factor in preventing premature ripening and optimizing product quality and freshness. Consistent with our reputation for high-quality fresh produce, we must preserve our fresh produce in a continuous temperature-controlled environment, from the harvest through to distribution.

We have an integrated logistics network, which includes land and sea transportation through a broad range of refrigerated environments on ships, port facilities, containers, trucks and warehouses. Our logistics system is supported by various information systems. Our objective is to maximize use of our logistics network to lower our average per-box logistics cost, while remaining sufficiently flexible to redeploy capacity or shipments to meet fluctuations in demand in our key markets. Because logistics costs are also our largest expense other than our cost of products, we devote substantial resources to optimizing our logistics network.

As of the year ended December 26, 2025, we transported our fresh produce to markets using our fleet of one chartered and six owned ships, and four port facilities in the United States. We also transport our products to destinations around the world using third-party container lines that cover destinations that we do not service directly with our own fleet. Our owned ships are refrigerated container ships that we received in 2020 and 2021. These fuel-efficient vessels have allowed us to continue generating logistics cost savings, expanding our third-party ocean freight business, and ensuring the freshness and quality of our products. In addition, we operated a fleet of approximately 11,000 refrigerated containers. We operated 31 distribution centers globally, generally with cold storage and banana ripening facilities in our key markets worldwide, including the United States, South Korea, the UAE, Saudi Arabia and Hong Kong. We also operated 18 fresh-cut facilities in the United States, the United Kingdom, Japan, South Korea, the UAE, Kuwait, and Saudi Arabia, some of which are located within our distribution centers. In addition, we own or lease other related equipment, including approximately 419 trucks and refrigerated trailers used to transport our fresh produce in the United States. In the Middle East, we own or lease approximately 241 trucks used to deliver fresh produce, prepared food, and poultry products to customers.

We believe that our control of the logistics process is a competitive advantage, including from a sales and marketing perspective. For example, because we are able to maintain the quality of our fresh produce in a continuous temperature-controlled environment, we are under less pressure to fully sell a shipment prior to its arrival at port. This allows us to manage the timing of our sales to optimize our margins. Our ability to off-load shipments for cold storage and distribution throughout our network also improves ship utilization by minimizing in-port docking time. In addition, our logistics network enables us to continuously monitor and maintain the quality of our produce, ensure timely and regular distribution to customers on a year-round basis, and manage our inventory among distribution centers, as needed, to effectively respond to changes in market demand.

Sales and Marketing

The *Del Monte*® brand has been used to identify premium produce products for over 130 years and is recognized by consumers worldwide for quality, freshness and reliability. We employ a variety of marketing tools, including advertising, public relations and promotions to reinforce our brand equity with consumers and the trade. Depending on the product and market, we also provide technical, logistical and merchandising support aimed at safeguarding the superior quality of our products to the ultimate consumer. Our sales activities are conducted by our sales force, which operates through sales offices worldwide and at each of our distribution centers. These commercial efforts are supported by centralized and regional marketing professionals located in key markets. A key element of our sales and marketing strategy is to use our distribution centers and fresh-cut facilities to provide value-added services to our customers. We actively support our customers through technical training in the handling of fresh produce, category management, in-store merchandising support, joint promotional activities, market research, inventory and other logistical support.

The level of marketing investment necessary to support the prepared foods business is significantly higher than that required for the fresh produce and fresh-cut fruit and vegetable business. We use a variety of promotional tools to build the *Del Monte*® brand and engage consumers in key markets in Europe, Africa and the Middle East. In certain European markets, we use distributors to perform product distribution, sales and marketing activities for the prepared foods business. Under these distribution agreements, the sales, warehousing, logistics, marketing and promotion functions are all performed by the distributor. This strategy of utilizing independent distributors enables us to reduce distribution, sales and marketing expenses while allowing us to penetrate additional markets.

During 2025, one customer, Walmart, Inc. (including its affiliates), accounted for approximately 7% of our total net sales. These sales are reported in our banana and fresh and value-added products segments. No customer accounted for 10% or more of our net sales in 2025. In 2025, our top 10 customers accounted for approximately 29% of our net sales.

North America

In 2025, 58% of our net sales were in North America where we have established a highly-integrated sales and marketing network that builds on our ability to control transportation and distribution throughout our extensive logistics network. We operate a total of 20 distribution centers and fresh-cut facilities within North America. Our distribution centers have ripening capabilities and/or other value-added services. Within North America we also operate four port facilities, which include cold storage capabilities, and own an avocado packing facility in Uruapan, Mexico.

We have sales professionals in locations throughout the United States and Canada. We sell to leading grocery stores and other retail chains, wholesalers, mass merchandisers, supercenters, foodservice operators, club stores, convenience stores and distributors in North America. These large customers typically take delivery of our products at the port facilities, which we refer to as FOB delivery. We also service these customers, as well as an increasing number of smaller regional chains and independent grocers, through our distribution centers.

Europe

In 2025, 21% of our net sales were in Europe where we distribute our fresh produce and prepared food products. Our fresh produce products are distributed to leading retail chains, smaller regional customers as well as to wholesalers and distributors through direct sales and distribution centers. In the United Kingdom, we have a sales office in Staines, England and operate a fresh-cut facility in Wisbech, England. In France we outsource our banana ripening activities to third-parties, while our sales and marketing function is performed internally. Similarly, in Germany, our sales and marketing function is performed internally and our ripening operations were outsourced to a service provider beginning in 2022. In the Netherlands, Spain, Portugal, Italy and Poland, we have sales and marketing entities that perform direct sales of our fresh produce products.

Our prepared food products are distributed through independent distributors throughout most of Europe. In the United Kingdom, our prepared food products are distributed using a combination of both independent distributors and our own marketing entity. Our prepared foods activity in Germany and France has been performed via direct sales to the retail channel through our own sales and marketing entity.

Middle East and North Africa

In 2025, 10% of our net sales were in the Middle East and North Africa. In this region, we distribute our products through independent distributors and company-operated distribution facilities.

Our leased distribution and manufacturing center in Dubai, UAE has just-in-time delivery capabilities and includes fresh-cut fruit and vegetable operations, an ultra-fresh juice manufacturing operation and prepared foods distribution. In Saudi Arabia, through our 60%-owned joint venture, we lease two distribution centers with fresh-cut fruit, vegetable and salad operations, and prepared foods manufacturing of frozen potatoes, and ultra-fresh juices. One of the distribution centers is located in Riyadh, the capital city of Saudi Arabia, and the other distribution center is located in Jeddah, the second largest city in Saudi Arabia.

In the UAE and in Saudi Arabia, we also distribute our products using our own innovative retail concept through our Food and Beverage (F&B) stores. These F&B stores are small retail kiosks selling our fresh-cut produce, juice and other prepared food products and are strategically located in airports, schools, and hospitals.

In Jordan, we own a vertically-integrated poultry business including poultry farms, hatcheries, a feed mill, a slaughterhouse and a meat processing plant. As part of our vertical integration and expansion strategy in this region, we developed a 10-hectare ultra-modern hydroponic greenhouse in Jordan to supply lettuce to our fresh-cut facilities, and where we also have a fresh-cut processing center for supplying lettuce to the Jordan market. We have one F&B store in Jordan.

In Qatar, we have a sales and marketing office to serve the expanding brand presence in the country. In Turkey, our sales office located in Mersin is responsible for sourcing various types of fruit serving our units across the region. We have a leased facility to service the Kuwaiti market with our fresh produce products and fresh-cut fruit, fresh-cut vegetables and salads. We also have an office in Morocco, which distributes our products locally and exports locally-sourced fresh produce, allowing us to further expand our coverage in the North Africa Region. We believe that the Middle East, North Africa and Central Asian countries represent an area for sales growth and development of our fresh and prepared food products. Utilizing our extensive knowledge of this region, we plan to continue capitalizing on this opportunity with increased focus in these markets.

Asia

In 2025, 9% of our net sales were in Asia. We distribute our products in Asia through direct marketing and large distributors. Our principal markets in this region are Japan, South Korea, mainland China and Hong Kong.

- In Japan, we distributed 100% of the products we sold in 2025 through our own direct sales and marketing organization and we operated two fresh-cut facilities. Our products are distributed from four distribution centers located at strategic ports in Japan, which include cold storage.
- In South Korea and Hong Kong, we engage in direct sales and marketing activities. In South Korea, we have three distribution centers that utilize advanced ripening technology and which increase our ability to offer value-added services to our customers. In South Korea, we also operate a fresh-cut fruit and vegetable facility from which we supply major foodservice customers. In Hong Kong, we have one distribution and banana ripening center.
- In other Asian markets, including mainland China, we sell to local distributors.

Quality Assurance

To ensure the consistent high quality of our products, we have quality assurance operations placed throughout our global operations under the guidance of our corporate quality assurance team and the direction of our regional quality assurance leadership. These quality assurance teams maintain and enforce detailed quality specifications for all our products so that they meet or exceed our high-quality standards and any applicable regulatory requirements. Our specifications require extensive sampling of our fresh produce at each stage of the production and distribution process using external appearance, internal quality, size, color, porosity, translucency, sweetness and other criteria. Our goal is that only fresh produce meeting our stringent quality specifications is sold under the *Del Monte*[®] brand.

We are able to maintain the high quality of our products by growing a substantial portion of our own produce and working closely with our independent growers. We insist that all produce supplied by our independent growers meet the same stringent quality requirements as the produce grown on our farms. Accordingly, we monitor our independent growers to ensure that their produce will meet our agricultural and quality control standards, offer technical assistance on certain aspects of production and packing and, in some cases, manage the farms. The quality assurance process begins on the farms and continues as harvested products enter our packing facilities. Where appropriate, we cool the fresh produce at our packing facilities to maximize quality and optimize shelf life.

As an indication of our worldwide commitment to quality, food safety, and sustainability, many of our operations are third party certified in globally recognized standards developed for the safe and sustainable production and distribution of quality foods. All of our global fresh-cut operations are certified with at least one of the internationally recognized audit schemes, Global Food Safety Initiative (GFSI), that include PrimusGFS, BRCGS, FSSC 22000, and Global GAP. We ensure that we comply with local, regional, and country-specific regulations specific to our global operations sites; farm, packing, processing, and storage. In the United States, our operations are in compliance with the requisite programs defined by the Food and Drug Administration's (FDA) Food Safety Modernization Act. All of our operations that produce or handle high risk foods (tomatoes, melons or leafy greens) apply Hazard Analysis & Critical Control Points ("HACCP") and Good Manufacturing Practice (GMP) principles. HACCP is a management system in which food safety is addressed through the analysis and control of biological, chemical and physical hazard from raw material harvesting, packing, cooling; processing and handling, storage and distribution.

Our certification also includes SCS Global Services' Sustainably Grown Certified and the Sustainable Agriculture Network's Rain Forest Alliance for sustainable agriculture and food production.

The transition to a low-carbon economy also presents us with commercial opportunities such as the increasing demand for sustainable products. In response to this, we introduced *Del Monte Zero*[®]™ in 2023, our carbon-neutral pineapple as certified by SCS Global Services. As part of this effort, we invested in conserving over 8,000 hectares of forest in Costa Rica.

Competition

The global fresh produce industry is a highly competitive business, and the effect of competition is intensified because of the perishable nature of the products. We compete based on a variety of factors, including price, overall product quality, brand recognition and customer loyalty, reliability and consistency, effectiveness of marketing and promotional activity, and the ability to identify and satisfy evolving consumer preferences. Our sales are also affected by the availability of seasonal and alternative produce. While historically our main competitors have been multinational banana and pineapple producers, our diversified range of product offerings has resulted in additional competition from a variety of companies. These companies include local and regional producers and distributors in each of our fresh produce and fresh-cut product categories.

The extent of competition varies by product. In the banana market, we continue to face competition from a limited number of large multinational companies. At times, particularly when demand is greater than supply, we also face competition from a large number of relatively small banana producers. Unlike the pineapple market, there are few barriers to entry into the banana market. Supplies of bananas can be increased relatively quickly due to bananas having a short growing cycle and the limited capital investment required for banana growing. As a result of changes in supply and demand, plus seasonal factors, banana prices fluctuate significantly.

In the pineapple category, we believe that the high degree of capital investment and cultivation expertise required, as well as the longer length of the growing cycle, makes it relatively difficult to enter the market. Our primary competitors in this category are large multinational producers, as well as smaller exporters and importers. Our profitability has depended significantly on the sale of our *Del Monte Gold*[®] Extra Sweet pineapples.

The fresh-cut produce market is highly fragmented, and we compete with a wide variety of local and regional distributors of branded and unbranded fresh-cut produce and, in the case of certain fresh-cut vegetables, a small number of large, branded producers and distributors. However, we believe that our principal competitive opportunity is to capitalize on the growing trend of retail chains and independent grocers to outsource their own on-premises fresh-cut operations. We believe that our sales strategy, which emphasizes not only our existing sources of fresh produce, but also a full range of value-added services, strict compliance with food safety standards and our national distribution capability, positions us to increase our share of this market.

The prepared food products market is mature and characterized by high levels of competition and consumer awareness. Consumer choices are driven by price and/or quality. Large retailers with their “buyers own label” (“BOL”) products appeal to price-conscious consumers, while brand names are the key differentiator for quality-focused consumers. In the prepared foods markets in Europe, Africa, North America, and the Middle East, we compete with various local producers, large retailers with their BOL products, and large international branded companies. We believe we hold a leading market position in the branded section of our prepared food products, specifically canned fruit and pineapple, in many European countries. The mature state of the market in Western Europe, together with the strength and sophistication of the large retailers there, account in part for the increasing presence of BOL products in many food and beverage categories. In order to reduce our costs and increase our competitiveness in the prepared foods market, particularly in Europe, we use distributors in certain key European markets to perform product distribution and sales and marketing activities. Under these arrangements, the sales, warehousing, logistics, marketing and promotion functions are all performed by the distributor.

Government Regulation

As a producer and distributor of food products, we are subject to extensive government laws and regulations in the jurisdictions where our produce is grown, where our facilities are located and where our products are distributed. We have internal policies and procedures to comply with the most stringent regulations applicable to our products, as well as a technical staff to monitor pesticide usage and compliance with applicable laws and regulations. We believe we are in material compliance with these laws and regulations.

The countries in which we market a material amount of our products are the United States, the countries of the European Union (EU), the United Kingdom, Japan, South Korea, and Saudi Arabia. The government regulations we are subject to include:

- sanitary regulations, particularly in the United States and the EU;
- regulations on imports and exports by the USDA and other jurisdictions;
- regulations governing pesticide use in all source countries and residue standards in all market countries, particularly in the United States, the EU, Germany, Japan and South Korea;
- laws and regulations associated with the European Green Deal and the EU's General Food Law Regulation effort to create sustainable food systems, which could result in increased costs for our business associated with new laws and regulations;
- laws and regulations implemented by the Canadian Food Inspection Agency and other Canadian governmental departments, which could disrupt our Canadian business, including, for example, requirements relating to import licenses, traceability and food testing;
- ongoing Endocrine Disruptor Assessment programs in the EU and United States which may potentially impact availability, use and residue tolerance of some pesticides; and
- regulations governing safety, traceability, packaging, and labeling, particularly (i) in the United States where we are subject to the Federal Food, Drug, and Cosmetic Act and the Food Safety Modernization Act, and (ii) in the EU pursuant to food and safety laws issued by member states of the EU and pursuant to the General Food Law Regulation (EC No. 178/2002), where food safety policy is governed by the Farm to Fork Strategy which regulates food safety at all stages of the production and distribution process for all food products marketed within the EU, whether produced within the EU or imported from other countries. For further information about these regulations, please refer to the discussion in Item 1A. *Risk Factors*, “We are subject to regulations concerning food safety and protection of health and the environment.”

We believe there has been an increasing emphasis on food safety issues on the part of consumers, as well as retailers, wholesalers, distributors and foodservice operators, which could result in our business and operations being subject to increasingly stringent food safety regulations or guidelines. Recent changes of leadership at the FDA and the United States Department of Agriculture amid a change in the food regulatory landscape shaped by the Trump administration's Make America Health Again ("MAHA") initiative may have a large impact on the food industry, including new rules governing nutrition and food date labeling. For example, the FDA issued a final rule on additional traceability recordkeeping requirements, originally scheduled to be effective January 20, 2026 (which has now been extended to July 20, 2028), designed to facilitate faster identification and rapid removal of potentially contaminated food.

Environmental Regulations

The management, use and disposal of some chemicals and pesticides are inherent aspects of our production operations. These activities and other aspects of production are subject to various environmental laws and regulations, depending upon the country of operation. In addition, in some countries of operation, environmental laws can require the investigation and, if necessary, remediation of contamination related to past or current operations. We are not a party to any dispute or legal proceeding relating to environmental matters where we believe that the risk associated with the dispute or legal proceeding would be material, except as described in Note 16, “*Commitments and Contingencies*” to the Consolidated Financial Statements included in Item 8. *Financial Statements and Supplementary Data*.

Research and Development and Intellectual Property

Our research and development programs have led to improvements in agricultural and growing practices, as well as product packaging and technology. These programs are directed mainly at reducing the cost and risk of pesticides by fostering the use of natural biological agents to control pests and diseases, testing new varieties of our principal fruit varieties for improved crop yield and resistance to diseases, and improving post-harvest handling. We have been seeking to increase the productivity of low-grade soils for improved banana growth and experimenting with various other types of fresh produce. Our research and development efforts are conducted by our staff of professionals and include studies conducted in laboratories, as well as on-site field analysis and experiments. We have research teams directing or actively involved in the development of new fruit varieties in the United States, Costa Rica, and Brazil. Recent research and development projects include the development of our

proprietary *Rubyglow*[®] pineapple (patented as Vintage Ruby[™]), a partnership with the University of Granada regarding the use of fruit residues for medical and non-medical applications, and studies surrounding our biomass initiatives at our Kenyan biofertilizer plant.

We have the exclusive right to use the *Del Monte*[®] brand for fresh fruit, fresh vegetables and other fresh and fresh-cut produce and certain other specified products on a royalty-free basis under a worldwide, perpetual license from Del Monte Foods Corporation II Inc., an unaffiliated company that owns the *Del Monte*[®] trademark. Del Monte Corporation and several other unaffiliated companies manufacture, distribute and sell under the *Del Monte*[®] brand canned or processed fruit, vegetables and other produce, as well as dried fruit, snacks and other products. Our licenses allow us to use the trademark “*Del Monte*[®]” and the words “*Del Monte*” in association with any design or logotype associated with the brand. The licenses also give us certain other trademarks and trademark rights, on or in connection with the production, manufacture, sale and distribution of fresh fruit, fresh vegetables, other fresh produce and certain other specified products. In addition, the licenses allow us to use certain patents and trade secrets in connection with the production, manufacture, sale and distribution of our fresh fruit, fresh vegetables, other fresh produce and certain other specified products.

We have a royalty-free perpetual license to use the *Del Monte*[®] trademark in connection with the production, manufacture, sale and distribution of all food and beverage products in Europe, Africa, and the Middle East and certain Central Asian countries. We can also produce, market and distribute certain prepared food products in North America based on an agreement with Del Monte Pacific utilizing the *Del Monte*[®] brand.

We sell produce under several other brands for which we have obtained registered trademarks, including *UTC*[®], *Rosy*[®], *Just Juice*[®], *Fruitini*[®] and *Honeyglow*[®], *Pinkglow*[®], *Rubyglow*[®], among many others.

Additionally, we license the *Mann*[®], *Mann's Logo*[®], *Broccolini*[®] and *Caulilini*[®] brands to a third-party under an Intellectual Property Transfer and License Agreement ("the License Agreement") entered into as part of the sale of our Mann Packing business during the fourth quarter of 2025. The License Agreement provides for use of the brand names for a period of five years with the first three years licensed on a royalty-free basis.

Seasonality

Due to seasonal sales price fluctuations, we have historically realized a greater portion of our net sales and of our gross profit during the first two calendar quarters of the year. The sales price of any fresh produce item fluctuates throughout the year due to the supply of and demand for that particular item, as well as the pricing and availability of other fresh produce items, many of which are seasonal in nature. For example, the production of bananas is continuous throughout the year and production is usually higher in the second half of the year, when the demand for bananas varies because of the availability of other fruit. As a result, demand for bananas is seasonal and generally results in higher sales prices during the first six months of the calendar year. We make most of our sales of non-tropical fruit from October to May.

These seasonal fluctuations are illustrated in the table below, which presents certain unaudited quarterly financial information for the periods indicated.

	Year ended	
	December 26, 2025	December 27, 2024
Net sales:		
First quarter	\$ 1,098.4	\$ 1,107.9
Second quarter	1,182.5	1,139.7
Third quarter	1,021.9	1,019.5
Fourth quarter	1,019.5	1,013.2
Total	<u>\$ 4,322.3</u>	<u>\$ 4,280.2</u>
Gross profit:		
First quarter	\$ 92.2	\$ 82.3
Second quarter	120.1	113.2
Third quarter	80.8	93.8
Fourth quarter	106.0	68.7
Total*	<u>\$ 399.1</u>	<u>\$ 357.9</u>

*Due to rounding, the sum of the quarterly amounts may not equal the reported amounts for the full year.

Human Capital Management

We believe in nurturing people, from consumers eating our products to our employees, suppliers, customers and the communities in which we live and work.

Employees

Our employees are our greatest asset and are directly responsible for our success in delivering fresh, quality products to consumers. Our current workforce is comprised of approximately 8,562 full-time Fresh Del Monte employees. Additionally, as of December 26, 2025, we employed over 31,466 daily, seasonal, and temporary employees, who enable us to pack our in-season fruits and vegetables. Approximately 84% of our workforce is employed in production locations. We provide our employees with competitive fixed and/or variable pay, and for eligible employees, we currently provide access to health and retirement benefits. In each of our regions, we work with local officials to calculate fair wages for our team members. We are competitive with local practices, and on average, we pay above minimum wage at our farms in Central America, Kenya, and the Philippines.

Diversity and Inclusion

We strive to foster a culture of diversity and inclusion (“D&I”) so all employees feel respected and no employee feels discriminated against. We are proud of the diversity throughout our organization and especially in our leadership team, of which 45% identify as Hispanic, 27% identify as Middle Eastern, 18% identify as Caucasian, and 9% identify as Asian. We embrace diversity throughout our company as we have employees across multiple generations and many different backgrounds. In 2025, we launched the "Fresh Perspectives" survey across targeted North America locations to strengthen trust, engagement, and inclusion, achieving an 87% participation rate and notable improvements in transparency, equity, and employee voice. We believe a diverse workforce fosters innovation and cultivates an environment of unique perspectives. As a result, D&I helps us meet the needs of our customers around the world.

Engagement and Opportunities

Evolving our culture to increase employee engagement and productivity is a primary focus of our strategic plan as we believe an engaged workforce leads to a more innovative, productive and profitable company. Our employees are supported with training and development opportunities to pursue their careers and support compliance with our policies. We also utilize a centralized employee intranet to reach out to employees and allow them to stay connected, remain informed and communicate their thoughts and values.

Health

We support the health and well-being of our employees by offering health care benefits. While these benefits vary across our different regions, we are competitive with local practices. We take a proactive approach to the health and well-being of our communities by contributing to the development of health services and infrastructure. We also support many local organizations and initiatives that promote healthy and active lifestyles, and sponsor local sports teams and organizations throughout our regions.

Safety

We are committed to building a culture of safety with the goal of zero incidents. We enforce our Supplier Code of Conduct so that our suppliers uphold these standards and eliminate labor violations in our supply chain. We require that our key third-party suppliers are certified against Global Food and Safety Initiative benchmarked standards or other standards needed to support the safety of their products and people. We are also supporting innovations to enhance soils, crop yields and resiliency to strengthen our farmers’ livelihoods.

Community Outreach

In our communities around the world, we create more than just jobs; we help to increase access to healthcare and education, help develop infrastructure, contribute to reducing food insecurity and support resiliency and recovery when natural disasters occur. We recognize that each community has unique needs, challenges and cultures, so we work with these communities individually through local organizations and governments, to help develop initiatives that address some of their biggest challenges. Our goal for these programs is to support and foster lasting change. Although we prioritize a “bottom-up” approach that gives our operating regions the responsibility for responding to the specific issues of local concern, our Community Fresh Team steers our community outreach strategy with a focus on five key pillars: (1) access to healthcare, (2) education, (3) clean water and related infrastructure, (4) disaster relief, and (5) ending hunger and providing access to healthy foods.

Globally, we launch and support a variety of projects each year, from providing clean water, to funding schools, to planting trees. We work together with our team members and communities to tackle the issues they face in each of the regions we are proud to call home and are committed to doing all that we can to preserve, protect and grow programs and infrastructure that help them thrive. Our efforts, to date, include:

- Planting and donating more than 2.8 million trees in our operations and our communities;
- Supporting 39,000 students and adult learners with educational opportunities;
- Aiding in sanitation and health efforts across the globe, including conducting medical service events by providing medical consultations, free medicines, eye check-ups and other services;
- Distributing food and non-food relief items to families effected by severe tropical storms in the Philippines;
- Providing safe, treated and piped/tanker drinking water to the surround communities like Ndula Community, Nanga communities, Kayatta and institutions. Fresh water treatment plant serves Del Monte employees Eastern Zone and about 1,000 residents of neighboring Ndula scheme, Kihiumwiri and Swani Dispensary; and
- Launching the BIOJUNTOS alliance in Costa Rica's Caribbean region as an extension of our JUNTOS program, uniting public, private, nonprofit, and academic partners. Together, they drive bio-restoration and environmental education initiatives.

Workforce Governance

Our Board of Directors (the "Board") currently oversees all human capital resources. Our Governance Committee currently oversees our policies and programs related to sustainability, risk management, cybersecurity oversight, corporate social responsibility and the environment. Additionally, our Compensation Committee is dedicated to carrying out incentive programs and working with our employees to strategically align talent within the Company. Within our Compensation Committee, our Chief Human Resources Officer is responsible for advising and providing insight to best practices regarding human resource issues.

Availability of Reports and Additional Information

Our legal name is Fresh Del Monte Produce Inc., and we use the commercial name Del Monte Fresh Produce. We are an exempted holding company, incorporated under the laws of the Cayman Islands on August 29, 1996. At December 26, 2025, the close of our most recent fiscal year, members of the Abu-Ghazaleh family directly owned approximately 30.0% of our outstanding Ordinary Shares.

Our principal executive office is located at P.O. Box 1569, 6th Floor, Athena Tower, 71 Fort Street, George Town, Grand Cayman, KY1-1110, Cayman Islands. The address of our U.S. executive office is c/o Del Monte Fresh Produce Company, 241 Sevilla Avenue, Coral Gables, Florida 33134. Our telephone number at our U.S. executive office is (305) 520-8400. Our Internet address is www.freshdelmonte.com. We make available, free of charge, our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, proxy statements on Schedule 14A and amendments to those materials filed or furnished pursuant to Section 13(a) or 15(d) of the Securities and Exchange Act of 1934, as amended (the “Exchange Act”), on our website under “Investor Relations - SEC Filings,” as soon as reasonably practicable after we file electronically such material with, or furnish it to, the United States Securities and Exchange Commission (the “SEC”). Information on our website is not a part of this Report on Form 10-K. Copies of our annual report may be obtained, free of charge, upon written request to Attention: Investor Relations, c/o Del Monte Fresh Produce Company, 241 Sevilla Avenue, Coral Gables, Florida 33134.

The volume data included in this Annual Report on Form 10-K has been obtained from our records. Except for volume data for Fresh Del Monte, the market share, volume and consumption data contained in this annual report have been compiled by us based upon data and other information obtained from third-party sources and from our surveys of customers and other company-compiled data. Except as otherwise indicated, volume data contained in this Annual Report on Form 10-K is shown in millions of 40-pound equivalent boxes.

Item 1A. Risk Factors

Summary of Principal Risk Factors

We are subject to many risks and uncertainties that may affect our future financial performance and our stock price. Some of the risks and uncertainties that may cause our financial performance to vary or that may materially or adversely affect our financial performance or stock price as outlined below.

Risks Related to Global Market Conditions

Changes in the United States trade policy, including the impact of baseline tariffs, may have a material adverse effect on our business and results of operations.

Throughout 2025, the U.S. government has adopted changes to its trade policy, existing trade agreements and the use of tariffs to enforce trade policy and other countries have adopted retaliatory tariffs and trade restrictions. These tariffs and fee announcements have been followed by announcements of specific exemptions and temporary pauses, resulting in additional uncertainty to our business. For example, tariffs implemented by the U.S. government during 2025 impact various jurisdictions we sell into and from which we purchase or source, including Costa Rica, Guatemala, and Ecuador where we source the majority of our products sold into the United States. The tariffs currently exempt imports that are compliant with the United States-Mexico-Canada ("USMCA") trading agreement, which includes a wide range of fresh fruit and vegetables. However, these trade policies are subject to change with limited or no advance notice to the Company. As a result, it is uncertain what, if any, impact tariffs or other trade policy may have on products we source or partially source from Mexico, which made up approximately 11% of our North American sales during our fiscal year 2025. These actions impact U.S. inflation, particularly food price inflation, resulting in an increase in the cost of manufacturing food produce, reduced customer purchasing power, declining consumer confidence, increased price pressure, and reduced or cancelled orders and increased supply chain costs. We may be disproportionately impacted by these tariff policies based on where we source our products as compared to our competition.

We may not be able to increase prices to fully offset continued pricing pressures on various commodities, raw materials and other costs, which may impact our financial condition or results of operations.

As a producer, marketer and distributor of produce, we rely on raw materials, packaging materials, labor, distribution resources and transportation capacity. These types of materials and costs are also subject to price fluctuations arising from market conditions, weather, energy costs, currency fluctuations, supplier capacities, regulatory changes, governmental actions, import and export requirements (including tariffs), regulatory changes and acts of war or international conflict (such as the ongoing conflict in the Middle East, between Russia and Ukraine and shipping disruptions in the Red Sea). During recent years, we have experienced elevated commodity and supply chain costs, including the costs of raw materials, packing materials, labor, energy, fuel, transportation and other inputs necessary for the production and distribution of our products. The price and availability of various commodities can significantly affect our costs. We may not be able to pass along any resulting price increases to our consumers to help offset elevated costs, which could materially and adversely affect our profitability. Even if we are able to pass along costs, increased product prices may result in reductions in sales volume if consumers are less willing to pay a price differential for our branded products and instead elect to purchase lower-priced offerings or forgo some purchases altogether. This is especially relevant during an economic downturn if inflation further reduces consumer purchasing power. To the extent that price increases are not sufficient to offset these increased costs adequately or in a timely manner or if they result in significant decreases in sales volume, our business, financial condition or operating results may be adversely affected.

Our profit margins for many of our products, including bananas, pineapples, avocados and other fresh produce, are volatile and we may not be able to increase prices to address cost increases.

Our profitability depends on the profit margins and sale volumes of bananas, pineapples, avocados and other fresh produce. Market prices of bananas, pineapples, avocados and other fresh produce are volatile and difficult to predict because they are affected by various factors, including their availability and quality in the marketplace, imbalances of supply and demand and

import regulations. In addition, a significant portion of our cost of goods for these products is production and logistics costs which are based on, amongst others, the prices of fuel, labor, fertilizers, inland freight and packing materials, which are out of our control. Consequently, increases in these costs materially and adversely affect our margins for these products, including increases due to the inflationary pressures discussed above. If we are unable to increase our pricing to reflect these increased costs our profit margins will be adversely affected. Additionally, any retail price increases realized may not sufficiently reverse the reduced profit margins and could result in loss of sales if our competitors do not also increase their prices. These cost pressures will likely continue to negatively impact our profitability in the future, and we cannot predict their extent or duration.

Our industry is highly competitive, which could adversely affect our profitability.

The bananas, pineapples, and other fresh produce and value-added products markets are highly competitive, and the effect of competition is intensified because most of our products are perishable. Although the perishability of fresh produce varies to a certain degree by item, fresh produce is, as a general matter, highly perishable and must be brought to market and sold soon after harvest. To compete successfully, we must strategically source fresh produce and value-added products of uniformly high quality and sell and distribute them on a timely and regular basis. The extent of competition generally varies by product and is influenced by various factors including price, product quality, brand recognition and customer loyalty, effectiveness of marketing and promotional activity, and the ability to identify and satisfy evolving consumer preferences.

In the banana and pineapple markets, we primarily compete with a limited number of multinational and large regional producers. For other fresh fruit and vegetable products, we compete with several small producers and regional competitors. The fresh-cut produce market is highly fragmented, and we compete with multiple local and regional distributors of branded and unbranded fresh-cut produce and, for certain fresh-cut vegetables, a small number of large, branded producers and distributors. The prepared foods markets are mature markets characterized by high levels of competition and consumer awareness. In addition, our profitability has depended significantly on the sale of our *Del Monte Gold*[®] Extra Sweet pineapples. Increased competition in the production and sale of *Del Monte Gold*[®] Extra Sweet pineapples or our other product categories could adversely affect our results.

Some of our competitors are also engaged in the development of new plant varieties and other food products and frequently introduce new products into the market. Existing products or products under development by our competitors could be more effective, more resistant to disease or less costly than our products, which could have an adverse effect on the competitiveness of our products and adversely affect our business, financial condition and results of operations. We expect these competitive pressures to continue. There is no assurance that we will continue to compete effectively with our present and future competitors.

Consolidation of retailers, wholesalers and distributors in the food industry may result in downward pressure on sales prices.

The food industry in the United States and in many international markets has significantly consolidated in the past twenty years and continues to consolidate. For example, in March 2024 Aldi completed its acquisition of Winn-Dixie and Harveys Supermarket. Based on the increased size and buying leverage as a result of consolidation, entities (i) can exert significant downward pricing pressure on marketers and/or distributors, such as us, which inhibits our ability to adequately respond to inflationary changes, (ii) can impose additional costs on us that are the type typically borne by the retailer, wholesaler or distributor and (iii) have the ability to launch private label food products that compete with us. If we are unable to successfully manage these relationships, our financial results may be materially and adversely affected.

We are subject to material currency exchange risks because our operations involve transactions denominated in various currencies, which could negatively affect our operating results.

We conduct business around the world and regularly transact in foreign currencies. Consequently, our results of operations, as expressed in U.S. dollars, may vary significantly because of fluctuations in currency exchange rates. Such disparities are particularly crucial to our business because we incur a significant portion of our costs and our net sales in foreign currencies (nearly 33% of our sales in fiscal 2025). We are generally unable to adjust our sales prices locally to compensate for fluctuations in the exchange rate of the U.S. dollar and a given foreign currency. There is also a time lag between the moment we incur costs and the moment we collect payments for our products. We periodically utilize forward or collar contracts to hedge against a portion of our exposure to currency fluctuations, but we may at times be unable to agree to favorable terms or agree to terms that do not adequately offset currency fluctuations. Accordingly, if the U.S. dollar appreciates relative to the foreign currencies in which we receive sales proceeds, our operating results may be negatively affected. Our costs are also

affected by fluctuations in the value, relative to U.S. dollar, of the currencies of the countries in which we have significant production operations. A weaker U.S. dollar may result in increased costs of production abroad.

Risks Related to Our Business and Operations

The loss of one or more of our largest customers, or a reduction in the level of purchases made by these customers, could negatively impact our sales and profits.

Sales to Walmart, Inc., our largest customer, amounted to approximately 7% of our total net sales in fiscal 2025, and our top 10 customers collectively accounted for approximately 29% of our total net sales. We expect that a significant portion of our revenues will continue to be derived from a small number of customers. We believe these customers make purchasing decisions based on a combination of price, product quality, consumer demand, customer service performance, desired inventory levels and other factors that may be important to them. Changes in our customers' strategies or purchasing patterns, including a reduction in the number of brands they carry, may adversely affect our sales. Customers may also reduce their purchases from us because of price increases. Additionally, our customers may face financial difficulties, including bankruptcy, or disruptions to their operations which may cause them to reduce their level of purchases from us or render them unable to satisfy their outstanding credit balances on a timely basis. If sales of our products to one or more of our largest customers are reduced or we are unable to collect payment, our business, financial condition and results of operations may be adversely affected.

Shortages of qualified labor, increases in wage and benefit costs, changes in laws and other labor regulations, and labor disruptions could impact our financial results and decrease our profitability.

The future success of our operations, including the achievement of our strategic objectives, depends on our ability, and the ability of third parties on which we rely to supply and to deliver our products, to identify, recruit, develop and retain qualified and talented individuals. As a result, any shortage of qualified labor could significantly adversely affect our business. In the current operating environment, we are experiencing a shortage of qualified labor in certain geographies which is resulting in increased costs. A continuation of such shortages for a prolonged period could have a material adverse effect on our profitability and our ability to grow.

We have significant labor-related expenses, including employee health benefits. Our ability to control our employee and related labor costs is generally subject to numerous external factors, including shortages of qualified labor, prevailing wage rates and new or revised employment and labor regulations including changes in immigration laws in the U.S. and other key production countries. Our operations are also subject to foreign, federal, state and local labor and immigration laws, including applicable equal pay and minimum wage requirements, classification of employees, working and safety conditions and work authorization requirements. Unfavorable changes in such employee and related labor costs could impact our business, results of operations and financial condition.

In addition, a material portion of our employees work under various syndicates, work councils, collective bargaining agreements or other agreements with similar types of entities. Our inability to maintain favorable relationships with these entities could result in labor disputes, including work stoppages, which could have a material adverse effect on the portion of our business affected by the dispute, our financial position, and our results of operations.

We are dependent on our relationships with key suppliers to obtain a number of our products.

We depend on independent growers and key suppliers to obtain products and raw materials. In the Philippines, we purchase most of our bananas through long-term contracts with independent growers. Approximately 13% of our banana net sales in 2025 were supplied by one grower in the Philippines with whom our contract is set to expire on February 28, 2026. While we believe other independent growers and key suppliers in the region will be able to provide similar volumes, our business may be negatively impacted if we are unable to fully replace these quantities in total or at similar prices. In November 2025, we announced our signing of a strategic partnership with THACO Agri to source bananas from their operations in Vietnam and Cambodia to strengthen our sourcing in Southeast Asia. Our new partnership with THACO Agri may be unable to provide volumes sufficient to offset the expiration of our prior grower contract, or may result in costs in excess of those incurred prior to the expiration of our prior grower contract. Our dependency on independent growers exposes us to various counterparty risks, including their financial health, their ability to effectively manage the weather, labor and macroeconomic factors associated with their operations as well as their willingness to meet their contractual obligations to us. If our counterparties are unable or unwilling to meet their contractual obligations to us, they may seek to increase prices, reduce volumes or cease supplying to us altogether; any of these factors could have an adverse effect on our profitability or growth if we are unable to replace the relationship with similar agreements.

Similarly, termination of our relationships with other key suppliers could adversely affect our business, financial condition or results of operations in the unlikely event that we were unable to obtain adequate equipment or supplies from other sources in a timely manner, at a reasonable cost or at all. Additionally, we may enter into seasonal purchase agreements committing us to purchase fixed quantities of produce at fixed prices. We may suffer losses if we fail to sell such fixed quantities of produce. Any of these factors could materially and adversely affect our business, financial condition and results of operations.

Disruption of our supply chain could adversely affect our business.

Damage or disruption to raw material supplies or our manufacturing or distribution capabilities due to weather, climate change, natural disaster, fire, cyber-attacks, pandemics, regulatory changes, governmental restrictions, strikes, import/export restrictions, regulatory changes, civil unrest, war, international conflict or other factors could impair our ability to produce and sell our products. Our suppliers' policies and practices can damage our reputation and the quality and safety of our products. Disputes with significant suppliers, including disputes regarding pricing or performance, could adversely affect our ability to supply products to our customers and could materially and adversely affect our sales, financial condition and results of operations. Failure to take adequate steps to mitigate the likelihood or potential impact of such events, or to effectively manage such events if they occur, particularly when a product is manufactured from a single location, could adversely affect our business and results of operations, as well as require additional resources to restore our supply chain.

Moreover, short-term or sustained increases in consumer demand may exceed our production capacity or otherwise strain our supply chain. Our failure to meet the demand for our products could adversely affect our business and the results of operations.

Our strategy of diversifying our product lines, expanding into new geographic markets and increasing the value-added services that we provide to our customers may not be successful.

We are diversifying our product lines through expansion of our service offerings to include a higher proportion of value-added products and services, such as customized sorting and packing, direct-to-store delivery and in-store merchandising and promotional support. We have also made significant investments in distribution centers, growing operations and prepared foods facilities through capital expenditures, and have expanded our business into new geographic markets. Additionally, we are also exploring opportunities to monetize our fruit residues, including exploring the use of fruit residue for medical and non-medical applications and biofertilizer as part of our specialty ingredients business.

There may not be significant demand for these products and services, and we may not be successful in anticipating such demand for these value-added products and services or in establishing the requisite infrastructure to meet customer demand or the provision of these value-added services. If we are unable to successfully develop and integrate the diversified product lines in our value-added categories, successfully commercialize use of fruit residues, or if demand for these products does not meet expectations, we may not realize all the anticipated synergies and benefits of our investments which could have an adverse effect on our growth and our results of operations.

Some of our products contain genetically modified organisms (“GMOs”) or are gene-edited and we may in the future need to develop and market such products based on adverse market conditions.

As we continue to diversify our product lines, we may increasingly incorporate products that may contain genetically modified organisms (“GMOs”) or be gene-edited in varying proportions. For example, our proprietary *Pinkglow*® pineapple is sourced from genetically modified pineapple plants. The success of these products will in large part depend on the market acceptance of these products in the areas that we operate. In the future, we may be forced to utilize GMO or gene-edited products in response to adverse market conditions, including disease, climate change or rising costs, if such products are the only viable alternatives. For example, as a result of TR4 spreading into new growing regions, we may need to deploy GMO or gene-edited bananas resistant to the disease to maintain a viable supply of bananas to our key markets. If adverse public opinion about GMO or gene-edited products predominates, we may be unable to sell such products in certain key markets, adversely affecting our business, financial condition and results of operations. For more information about TR4, see “*Risk Factors - Our agricultural plantings are potentially subject to damage from crop disease or insect infestations, which could adversely impact our operating results and financial condition.*”

In recent years, the food industry has been subject to negative publicity about the health implications of GMOs, added sugars, trans fat, salt, artificial growth hormones and ingredients sourced from foreign suppliers. Consumers may decide to purchase fewer GMO produce products or require us to meet stricter standards than are required by applicable agencies, thereby increasing the cost of production. Global regulatory agencies may also impose new restrictions on the use of GMOs. If adverse

public opinion about GMO or gene-edited products predominates, we may be unable to sell such innovative products in certain of our key markets, adversely affecting our ability to diversify our business.

Demand for our products is subject to changing consumer preferences, and a reduction in demand for any one or more of our products could negatively impact our sales and profits.

Consumer preferences for food products evolve over time. Shifts in consumer preferences that impact demand for our products can result from several factors, including dietary trends, attention to nutritional aspects and concerns about the health effects of and the sourcing of ingredients. Our ability to market and sell our products successfully in part depends on how we identify and respond to such changes by offering products that appeal broadly to consumers considering current demands. Our competitors may have a greater operating flexibility, which may permit them to better adapt to changes or to introduce new products and packaging quicker and with greater marketing support. The demand for our products may also be impacted by public commentaries and social media narratives about our products or similar products, as well as by changes in the level of advertising or promotional support that we employ or that are employed by relevant industry groups or third parties that provide competing products. If consumer preferences trend negatively with respect to any one or more of our products, our sales volumes may decline as a result.

Adverse perception, events or rumors relating to our Del Monte® brand could have a material adverse effect on our business.

We depend on the *Del Monte*® brand and other proprietary brands in marketing our products. Any events or rumors that cause consumers and/or institutions to no longer associate these brands with high-quality and safe food products may materially adversely affect the value of our brand names and demand for our products. Allegations involving the safety or security of our facilities, employees, or other members of the public, even if untrue, that we are not respecting the human rights found in our Human Rights Policy, which adheres to the United Nations Universal Declaration of Human Rights; actual or perceived failure by our suppliers or other business partners to comply with applicable labor and workplace rights laws, including child labor laws and equal pay laws, or their actual or perceived abuse or misuse of migrant workers or the like could negatively affect our Company's overall reputation and brand image, which in turn could have a negative impact on our products' acceptance by consumers or customers. For example, allegations regarding human rights violations have been made regarding our Kenya subsidiary. Any media coverage resulting therefrom, could create a negative public perception of our business, which in turn could have a negative impact on our products' acceptance by consumers or customers.

Furthermore, Del Monte Foods, our Licensor has recently faced financial difficulties, and, together with 17 of its affiliates, filed for chapter 11 bankruptcy in July 2025, where the Licensor pursued a sale of substantially all of its assets, including its trademarks. At the time of the filing of such bankruptcy, there was market confusion as to our relationship with the bankrupt entity and whether our company was likewise in bankruptcy. Although the Licensor is a separate private entity and not affiliated with us, the use of the *Del Monte*® trademark licensed to us and the use of a similar entity name by the Licensor may tarnish our brand and reputation. Adverse information about our brand, whether or not true, may be instantly and easily posted on social media platforms at any time, especially given the rise of influencer marketing in the food industry. Negative publicity of this kind may potentially perpetuate marketplace confusion and adversely affect our relationship with customers and suppliers. The harm may be immediate without affording us an opportunity for redress or correction. Subsequent to year end, we entered into an agreement to acquire select assets of Del Monte Foods Corporation II Inc. and its affiliates as part of the aforementioned bankruptcy. For more information, see "*Risk Factors - Our acquisition of Del Monte Foods may not be consummated and we may incur significant time and expenses to consummate this strategic acquisition.*"

We also share the *Del Monte*® brand with unaffiliated companies that manufacture, distribute and sell canned or processed fruits and vegetables, dried fruit, snacks, nuts and other products. Acts or omissions by these companies, including an instance of food-borne contamination or disease, may adversely affect the value of the *Del Monte*® brand. As a result, our reputation and the value of the *Del Monte*® brand may be adversely affected by negative consumer perception which could adversely affect our sales.

We rely on protection of our intellectual property and proprietary rights.

Our success also depends on our ability to protect our intellectual property rights. We rely primarily on patent, copyright, trademark and trade secret laws to protect our proprietary technologies. We protect our technology by, among other things, filing patent applications for technology relating to the development of our business in the U.S., the EU and selected foreign jurisdictions. Our trademarks and brand names are registered in jurisdictions throughout the world. We intend to keep these filings current and seek protection for new trademarks to the extent consistent with business needs. We also rely on trade secrets and proprietary know-how and confidentiality agreements to protect our technologies and processes. The failure of any

patents, trademarks, trade secrets or other intellectual property rights to provide protection to our technologies would make it easier for our competitors to offer similar products, which could adversely affect our business, financial conditions and results of operations.

Our acquisition of Del Monte Foods may not be consummated and we may incur significant time and expenses to consummate this strategic acquisition.

The closing of the Del Monte Foods asset acquisition (the "Acquisition") is contingent upon a number of customary closing conditions, some of which are beyond our control. For example, the Acquisition is subject to regulatory clearances from governmental authorities, including those under the Hart-Scott-Rodino Act. Furthermore, the Acquisition is subject to the simultaneous closing of two other bankruptcy sales of other business units being sold by Del Monte Foods and its affiliates unrelated to us or the assets being acquired by us. Therefore, we are unable to accurately predict when, or if, the Acquisition will close. If we are unable to close the Acquisition for any reason, we will not realize the potential benefits of the Acquisition which may result in a material adverse effect on our business. We can provide no assurance that any required regulatory approval will not contain material conditions or restrictions. There also can be no assurance as to the cost, scope or impact on our business, results of operations, financial condition or prospects of the actions that may be required in order to obtain the necessary regulatory approvals.

We expect to incur a significant amount of non-recurring expenses in connection with the Acquisition, including legal, accounting, integration and other expenses. The amounts of these expenses will be based on a variety of factors but may be material individually or in aggregate. Many of these expenses are payable by us whether or not the Acquisition is completed. Our management is also devoting a significant proportion of their time and resources to consummate the Acquisition, however, there can be no assurance that such activities will result in the consummation of the transaction.

In the event that any of these closing conditions are not satisfied, we may not be able to consummate the Acquisition, despite the cost and time invested.

Our acquisition of Del Monte Foods may not deliver the anticipated benefits we expect.

Even if we do consummate the transaction, we may not realize the anticipated benefits. Our ability to realize the anticipated benefits of the Acquisition involves certain risks, including risks related to:

- potential difficulties in successfully assimilating and integrating acquired operations and personnel of Del Monte Foods;
- difficulty or inability to fund or finance the expanded business operations that result from the Acquisition or to satisfy liabilities or obligations acquired by the Company in connection with the Acquisition;
- disruption of the ongoing business operations, including distraction of management and key employees from other opportunities and challenges due to the integration efforts;
- difficulty integrating the Del Monte Foods' accounting, management information and other administrative systems;
- inability to retain key customers, vendors, and other business partners of Del Monte Foods;
- inability to achieve the financial and strategic goals of Del Monte Foods;
- any loss of key employees of acquired operations or any inability to hire or retain key employees necessary to integrate an acquired business or otherwise implement our growth strategy;
- unanticipated costs, litigation, or other contingent liabilities associated with the Acquisition;
- incurrence of acquisition- and integration-related costs, goodwill or in-process research and development impairment charges, or amortization costs for acquired intangible assets, that could negatively impact our operating results and financial condition;
- failure of due diligence processes to identify significant issues with product quality, legal and financial liabilities, among other things;
- inability to implement effective internal controls over financial reporting or maintain compliance with securities law requirements regarding timely filing of required pro forma information with respect to the Acquisition; and
- difficulty in maintaining or implementing controls, procedures, and policies during the transition and integration.

Additional unanticipated costs may be incurred following the consummation of the Acquisition in the course of the integration process. We cannot be certain that the elimination of duplicative costs or the realization of other efficiencies related to the integration of the business will offset the transaction and integration cost in the near term, or at all. The process of integrating acquired products into our operations may result in unforeseen operating difficulties and large expenditures and may absorb significant management attention that would otherwise be available for the ongoing development of our business. It may also result in the loss of key customers and/or personnel and expose us to unanticipated liabilities. Further, we may not be able to

retain key employees that may be necessary to operate the business we acquire, and, we may not be able to timely attract new skilled employees and management to replace them. There can be no assurance that we will be successful in integrating acquisitions into our existing business.

We may not be able to successfully consummate and manage ongoing acquisition, joint venture and business partnership activities, which could have an adverse impact on our results.

In addition to the Acquisition of Del Monte Foods, our growth strategy includes acquisitions and expansion. Accordingly, we may acquire additional businesses or enter into joint ventures or other business partnerships from time to time. These types of transactions involve certain risks, including risks related to (i) identifying appropriate acquisition candidates or business partners, (ii) potential difficulties in successfully integrating acquired operations, (iii) the quality of products of an acquired business or business partners compared to the products we provide, (iv) any loss of key employees of acquired operations or any inability to hire or retain key employees necessary to integrate an acquired business or otherwise implement our growth strategy, (v) potential diversion of our capital and management time and attention away from other important business matters and (vi) reputational and financial risks, such as potential unknown liabilities of any acquired business.

Additionally, during recent years we have made, and we may continue making, investments in unconsolidated companies within the food, nutrition, and agricultural technology sectors, as well as in other minority investments. These investments, joint ventures and business partnerships carried increased potential risks associated with the lesser degree of control that we may be able to exert due to the arrangements with our business partners. Under certain circumstances, significant declines in the fair values of these investments may require the recognition of other-than-temporary impairment losses. We may lose all or part of our investment relating to such companies if their value decreases as a result of their financial performance or for any other reason.

A sustained lack of profitability could cause us to incur impairment charges of our intangible and long-lived assets and/or record valuation allowances against our deferred tax assets.

If we incur operating losses for a sustained period of time, the carrying value of our goodwill, other intangible assets and long-lived assets could be impaired. We review for impairment annually or if indicators of impairment manifest. In particular, the goodwill associated with our banana reporting unit and the goodwill, trade names, and trademarks associated with our prepared foods reporting unit are highly sensitive to differences between estimated and actual cash flows and changes in the discount rates used to evaluate their fair value. If these reporting units do not perform as expected, the goodwill and other intangible assets associated with these reporting units may be at risk of impairment in the future. Additionally, we record impairments on long-lived assets when indicators of impairment are present and the estimated undiscounted cash flows of those assets are less than the assets' carrying amount. If future developments result in estimated cash flows that are less than currently estimated levels, these assets could be impaired. If incurred, future impairment of our intangible and/or long-lived assets could have a material adverse effect on our results of operations. For example, during 2024 we incurred impairment charges to goodwill in our vegetable reporting unit of \$1.4 million. Similarly, during 2023 we incurred impairment charges to intangible and long-lived assets in our fresh and value-added segment of \$109.6 million and to goodwill in our prepared foods reporting unit of \$21.6 million. These impairment charges were incurred as a result of a decline in actual and projected performance and cash flows.

We record valuation allowances on our deferred tax assets if, based on available evidence, it is more-likely-than-not that all or some portion of the assets will not be realized. The determination of whether our deferred tax assets are realizable requires us to identify and weigh all available positive and negative evidence, including recent financial performance and projected future income. If we are unable to generate sufficient income in jurisdictions where we have significant deferred tax assets, we may be required to record valuation allowances which would adversely affect our results of operations.

Any failure to adequately store, maintain and deliver quality perishable foods could materially adversely affect our business, financial condition and operating results.

Our ability to adequately store, maintain and deliver quality perishable foods is critical. We store highly perishable food products in refrigerated fulfillment centers and ship them to our customers while maintaining appropriate temperatures in transit. We use refrigerated delivery trucks to support temperature control for shipments to certain locations. However, delays in our ability to ship or disruption in the distribution of our products could have a material adverse effect on our business, financial condition and results of operations.

Keeping our food products at specific temperatures maintains freshness and enhances food safety. In the event of extended power outages, natural disasters or other catastrophic occurrences, failures of the refrigeration systems in our fulfillment centers

or third-party delivery trucks, failure to use adequate packaging to maintain appropriate temperatures, or other circumstances both within and beyond our control, our inability to store perishable inventory at specific temperatures could result in significant inventory losses as well as increased risk of food safety. We also contract with third parties to conduct certain fulfillment processes and operations on our behalf or to sell our product in a retail environment. Any failure by such third party to adequately store, maintain or transport perishable foods could negatively impact the safety, quality and merchantability of our products and the experience of our customers. The occurrence of any of these risks could materially adversely affect our business, financial condition and operating results.

Regulatory Risks

We are subject to the risk of product contamination and product liability claims which could materially and adversely affect our results and financial condition.

The sale of food products for human consumption involves the risk of injury to consumers. Such injuries may result from tampering by unauthorized personnel or quality issues such as product contamination or spoilage, including the presence of foreign objects, substances, chemicals or residues introduced during the growing, packing, storage, handling or transportation phases. The occurrence of any illnesses or injuries could have serious consequences on sales of our products, our brands and/or our reputation, any of which could harm our business. We cannot be sure that consumption of our products will not cause a health-related illness in the future, that we will not be subject to claims or lawsuits relating to such matters or that we will not need to initiate recalls of our products in response to the foregoing. Even if a product liability claim is unsuccessful, the negative publicity surrounding any assertion that our products caused illness or injury could adversely affect our reputation with existing and potential customers and our brand image. In addition, claims or liabilities of this sort might not be covered by our insurance or by any rights of indemnity or contribution that we may have against third parties, including our customers and suppliers. We cannot be sure that we will not incur claims or liabilities for which we are not insured or that exceed the amount of our insurance coverage, resulting in significant cash outlays that would materially and adversely affect our results and financial condition. We also are subject to the risk of recall events of our competitors which could result in industry-wide reputational loss or consumer avoidance of certain products.

We are subject to regulations concerning food safety and protection of health and the environment.

Our business is regulated by foreign, federal, state and local environmental, health and safety laws and regulations, in the jurisdictions where our facilities are located and where our products are distributed, which may result in material compliance costs and penalties if we do not comply with these laws and regulations. These regulations affect daily operations and, to comply with all applicable laws and regulations, we have been and may be required in the future to modify our operations, purchase new equipment or make capital improvements. Changes to our processes and procedures could impose unanticipated costs and/or materially impact our business. Violations of these laws and regulations can result in substantial fines or penalties. There is no assurance that these modifications and improvements and any fines or penalties would not have an adverse effect on our business, financial condition and results of operations.

Furthermore, changes of leadership at the FDA and the USDA shaped by the Trump administration's MAHA initiative may have a large impact on the food industry, including new rules governing nutrition and food date labeling. For example, the FDA issued a final rule on additional traceability recordkeeping requirements, originally scheduled to be effective January 20, 2026 (which has been extended to July 20, 2028), designed to facilitate faster identification and rapid removal of potentially contaminated food. In addition, the Trump administration recently announced the 2025-2030 Dietary Guidelines for Americans ("DGA") which almost doubled the daily protein recommendations and inverted the old food pyramid by placing fresh produce and proteins at the widest part of the food pyramid. The DGA and MAHA's focus on "food as medicine" could influence how we market our fresh produce by highlighting nutrient-dense fruits and vegetables, while also retaining flavor. From a product standpoint, we may need to evaluate how packaging, formats and assortments can make it easier for consumers to meet the DGA, while also prioritizing convenience.

Our failure to comply with these laws and regulations, to obtain required approvals or to adapt to the new trends in the nutrition and food industry could result in fines, as well as a ban or temporary suspension on the production of our products or limit or bar their distribution, and affect our sales and development of new products, and thus materially adversely affect our business and operating results.

We are subject to legal and environmental risks arising from the transportation of our products and our commercial shipping and logistics business that could result in significant cash outlays.

Our business and employment practices are also subject to regulation by the U.S. Department of Transportation, as well as its agencies, the Surface Transportation Board, the Federal Highway Administration, the Federal Motor Carrier Safety Administration, and the National Highway Traffic Safety Administration, which collectively regulate our trucking business through the regulation of operations, safety, insurance and hazardous materials. We must comply with the safety and fitness regulations promulgated by the Federal Motor Carrier Safety Administration, including those relating to drug and alcohol testing and hours of service. Such matters as weight and dimension of equipment also fall under federal and state regulations.

In addition, as an ocean logistics operator, we are subject to numerous federal, state and local laws and regulations in the U.S., as well as laws and regulations internationally, relating to safety, cabotage, and equipment standards that are costly to comply with and expose us to liability. We are also subject to environmental laws and regulations, including those relating to air quality initiatives at port locations; air emissions; wastewater discharges; the transportation, handling and disposal of solid and hazardous materials, oil and oil-related products, hazardous substances and wastes; the investigation and remediation of contamination; and health, safety and the protection of the environment and natural resources. These laws and regulations provide for substantial fines, as well as criminal and civil penalties, in the event of any violations of, or non-compliance with, their requirements. We have in the past received notices from the California Air Resource Board alleging violations of certain California anti-air pollution regulations by ships that were subject to a time charter by us from an unrelated non-U.S. third party. While in the past we were able to settle matters for an immaterial amount, mitigation strategies or contingency plans to remain in compliance with such laws and regulations in the future may be unsuccessful or may result in additional costs which could adversely affect our business. Further, any changes in applicable laws and regulations, including their enforcement, interpretation or implementation that result in more stringent requirements than currently anticipated, as well as any new laws and regulations that are adopted could impose significant additional costs and limitations on our ability to operate.

Environmental, social and governance matters and any related reporting obligations may impact our businesses.

U.S. and international regulators, investors and other stakeholders are increasingly focused on environmental, social and governance matters. For example, new domestic and international laws and regulations relating to environmental, social and governance matters, including environmental sustainability and climate change, human capital management and cybersecurity, are under consideration or being adopted, such as the European Union's CSRD and California's Climate Corporate Data Accountability Act and Climate Related Financial Risk Act, and the SEC's Enhancement and Standardization of Climate-Related Disclosures for Investors, which include or may include specific, target-driven disclosure requirements or obligations. Our response will require increased costs to comply, the implementation of new reporting processes, entailing additional compliance risk, a skilled workforce and other incremental investments. While the SEC voted on March 27, 2025 to cease defending final rules under the Enhancement and Standardization of Climate-Related Disclosures for Investors resulting in these disclosure requirements no longer being applicable, the SEC has not formally rescinded the rule. Despite this action by the SEC, we expect to experience increased compliance burdens and costs to meet the regulatory obligations included in these regulatory frameworks.

In addition, we have undertaken or announced a number of sustainability related goals and initiatives, such as investing in traceability technology, which will require changes to operations and ongoing investments. There is no assurance that our initiatives will achieve their intended outcomes or that we will achieve any of these goals. Our reputation could be impacted by stakeholders' perceptions of our sustainability initiatives. Should we not meet stakeholders' expectations or communicate our efforts sufficiently, our reputation may be negatively impacted. In addition, our ability to implement some initiatives or achieve some goals is dependent on external factors. For example, our ability to meet certain environmental sustainability goals or initiatives will depend in part on third-party collaboration, the availability of suppliers that can satisfy new requirements, mitigation innovations and/or the availability of economically feasible solutions at scale.

We are exposed to political, economic and other risks from operating a multinational business, which could have a material adverse effect on our results and financial condition.

Our business is multinational and subject to the political, economic and other risks that are inherent in operating in numerous countries, including:

- a change in laws and regulations or imposition of currency restrictions and other restraints;
- the imposition of import and export duties and quotas;
- the risk that the government may expropriate assets;
- the imposition of burdensome tariffs and quotas;
- political changes and economic crises that may lead to changes in the business environment where we operate;

- international conflicts and terrorist acts, which could impact our business, financial condition and results of operations;
- potential criminal activities targeting our employees, property or business activities, such as theft, vandalism, or physical attacks;
- public health epidemics which could impact employees and the global economy;
- economic sanctions, which could disrupt our products, even if we do not sell directly into a sanctioned country;
- potential violations or alleged violations of laws, regulations, safety codes, employment practices, human rights standards, anti-corruptions laws and other obligations, norms and ethical standards associated with our operations that may result in litigation costs and damage to our reputation, even if we are ultimately not found responsible;
- changes in governmental agricultural policies such as price supports and acreage set aside programs in the jurisdictions where we conduct our significant growing operations; and
- economic downturns, political instability, boycotts and war or civil disturbances that may disrupt our, our third-party suppliers' and our customers' production and distribution logistics or limit sales in individual markets.

Concerning the regulatory environment, banana import regulations have previously restricted our access and increased the cost of doing business. Costa Rica and Ecuador have established “minimum” export prices for bananas that are used as the reference point in banana purchase contracts from independent producers, thus limiting our ability to negotiate lower purchase prices. These minimum export price requirements could increase the cost of sourcing bananas in countries that have established such requirements.

We are also subject to a variety of sanitary regulations, regulations governing pesticide use and residue levels, and regulations governing food safety, traceability, packaging and labeling in countries where we source and market our products. If we fail to comply with applicable regulations, we could be restricted from selling or shipping some or all our products for a given period. Such a development could result in significant losses and could weaken our financial condition.

The enforcement of regulations concerning the marketing and labeling of food products could adversely affect our reputation.

The marketing and labeling of food products have brought increased risk of consumer class action lawsuits, and risk that the Federal Trade Commission (“FTC”) and/or state attorneys general will bring legal action about the truth and accuracy of the marketing and labeling of the product. Such consumer class actions include fraud, unfair trade practices and breach of state consumer protection statutes, such as Proposition 65 in California. The FTC and state attorneys general may bring legal actions that seek removal of a product from the marketplace and impose fines and penalties. Even when not merited, these class action claims and legal actions can be expensive to defend and could adversely affect our reputation, brand image, business and operating results.

The packaging and labeling of our products, and their distribution and marketing, are also subject to regulation by governmental authorities in each jurisdiction where our products are marketed. MAHA has pushed for stricter monitoring of chemicals in the food supply and the elimination of certain food and color additives. States such as Texas and Louisiana have already adopted labeling requirements for food ingredients. For instance, Texas legislation passed in June 2025 requires that food products containing any of 44 specified ingredients include a warning statement on their labels, starting in 2027. Louisiana legislation that will be effective in January 2028, mandates that food packaging include a QR code linking to a manufacturer-controlled website that must display a required disclosure for each flagged ingredient. As MAHA-inspired policies gain traction, the regulatory landscape is shifting quickly, resulting in a patchwork of state-level laws governing labeling, additives and ingredients. A failure to comply with these evolving requirements in any of the jurisdictions in which we do business could result in enforcement proceedings, an order barring the sale of part or all of a particular shipment of our products or, possibly, the sale of any of our products for a specified period. Such a development could result in significant losses and could weaken our financial condition.

Changes in tax laws in any of the jurisdictions in which we operate or in which we establish holding companies, or adverse outcomes from tax audits could cause fluctuations in our overall tax rate and adversely impact our operating results.

Our income taxes consist of the consolidation of tax provisions computed on a separate entity basis, for each country in which we have operations. Changes in the sources of income, agreements we have with taxing authorities or our tax filing positions in various jurisdictions could cause our overall tax rate to fluctuate significantly. In addition, changes in rules related to the accounting for income taxes or changes in applicable tax laws and regulations, including tax laws that impact our current company structure, could adversely affect our tax expense, profitability and cash flows. In the U.S., the current administration may implement substantial changes and reforms to fiscal and tax policies. We cannot predict the impact, if any, of these

potential changes, or any future changes in any of the countries in which we operate, to our business. However, such changes could adversely affect our business, financial position and results of operations.

We must comply with complex and evolving tax regulations in the various jurisdictions in which we operate, which subjects us to international tax compliance risks. Some tax jurisdictions have complex and subjective rules about income tax, value-added tax, sales or excise tax, tariffs, duties and transfer tax. From time to time, our subsidiaries are subject to tax audits and may be required to pay additional taxes, interest or penalties if a taxing authority asserts different interpretations, allocations or valuations, which could be material and reduce our income and cash flow from our international operations. The imposition of any penalties and costs of litigation, regardless of an eventual favorable ruling, in connection with current or future tax disputes related to our international operations could materially adversely affect our business, financial condition and operating results.

Additionally, the European Union (EU) Member States formally adopted the EU's Pillar Two Directive, which generally provides for a minimum effective tax rate of 15%, as established by the Organization for Economic Co-operation and Development (OECD) Pillar Two Framework which became effective for the Company for the 2025 fiscal year. A significant number of other countries are expected to also implement similar legislation with varying effective dates in the future. The Company may not be able to completely mitigate the impact of the legislation, which could have an adverse material effect on our financial condition, results of operations and cash flows.

In addition, adverse outcomes from tax audits in any of our major tax or operating jurisdictions, such as the U.S., Luxembourg, Switzerland, Costa Rica, Guatemala, Kenya or Japan, could materially adversely impact our operating results. For example, in connection with a current examination of the tax returns in three of these foreign jurisdictions, the taxing authorities have issued income tax deficiencies primarily related to transfer pricing aggregating approximately \$260.6 million (including interest and penalties) for tax years 2012 through 2021. We strongly disagree with the proposed adjustments and we expect to exhaust all administrative and judicial remedies necessary to resolve the matters. However, these matters may not be resolved in our favor, and an adverse outcome of either matter, or any future tax examinations involving similar assertions, could have a material effect on our financial condition, results of operations and cash flows.

Risks Related to Environmental Concerns/Agricultural Operations

Our agricultural plantings are potentially subject to damage from crop disease or insect infestations, which could adversely impact our operating results and financial condition.

Fresh produce is vulnerable to crop disease and insect infestations, which vary in severity and effect based on the stage of production, the type of treatment applied and climatic conditions. Such diseases or infestations may adversely affect our supply of fresh produce items, reduce our sales volumes, increase our production costs or impair our ability to ship products as planned. For example, we previously ceased pineapple production in Brazil due to the Pineapple Fusariosis disease that became widespread in the region and in 2019, we detected Banana Fusarium Wilt Tropical Race 4 ("TR4"), a serious vascular crop disease, infecting one of our principal products, the Cavendish variety of bananas, in some areas of Southeast Asia where we source our products. In September 2025, Ecuador, the largest producer of bananas in Latin America, announced it had also detected the presence of TR4. TR4, Black Sigatoka and other crop diseases cause low-yielding banana crops, which have and may in the future result in impairment charges or increased production costs as a result of lower banana volumes produced. We remain concerned that these crop diseases could affect Southeast Asia and other growing regions like Latin America, which could lead to the destruction of all or a portion of the banana crops. We are working with agricultural experts and qualified agencies to monitor and prevent the spread of TR4 and develop contingency plans and as a result we have incurred, and will continue to incur, costs to improve our prevention strategies and to identify solutions to the spread of the disease, which may adversely impact our operating profit. Despite our efforts, we may be unable to prevent the spread of TR4. A long-term reduction in the supply of bananas or other important crops could lead to increased costs, decreased revenue, and charges to earnings that may adversely affect our business, financial condition and results of operations.

In response to crop diseases and insect infestations, in addition to working on prevention, we are involved in efforts to develop varieties of affected crops to minimize the long-term effect of these diseases. The costs associated with these efforts may be material and there are no assurances that the research will result in varieties that are resistant to the targeted disease or infestation or, even if resistant, will be accepted by consumers or regulators to the same extent as their predecessor crop. For example, through our partnership with Queensland University of Technology we are seeking to develop a replacement to the Cavendish variety of banana that appeals broadly to consumers and is resistant to TR4. However, this research is still on-going. Furthermore, we have recently developed a pineapple variety in Brazil that we believe will be resistant to Pineapple Fusariosis, however, the success of this variety and its acceptance in the market will take multiple seasons to confirm. If our research efforts do not yield results that are effective and accepted by consumers, our future operations and business may be adversely affected.

Adverse weather, natural disasters and other conditions affecting the environment, including the effects of climate change, could result in substantial losses and weaken our financial condition.

Fresh produce is vulnerable to adverse weather conditions, which are common but difficult to predict. The effects of natural disasters may be intensified or occur with higher frequency because of the ongoing global climate change. Severe weather conditions have and are expected to continue to adversely affect our supply of one or more fresh produce items, reduce our sales volumes, increase our unit production costs or prevent or impair our ability to ship products as planned. In the past four years, we have been impacted by severe weather conditions such as hurricanes, severe rainstorms and flooding that have resulted in inventory write-offs and asset impairment charges ranging up to \$2.7 million, and we could incur similar or greater costs in the future due to such events. When severe weather, natural disasters, and other adverse environmental conditions (i) destroy crops planted on our farms or our suppliers' farms or (ii) prevent us from exporting these crops on a timely basis, we may lose our investment in those crops and/or our costs of purchased fruit may increase, including as a result of lower production volumes. These risks can be exacerbated when a substantial portion of our production of a specific product is grown in one region, provided by a limited number of suppliers, or when it endangers one of our primary products. For example, in Costa Rica, where we source approximately 26% of our banana volumes, Costa Rica's National Banana Corporation (CORBANA) reported banana volumes decreased by approximately 21% during the first half of 2025 as a result of the overaccumulation of moisture in the soil resulting in a higher occurrence of crop diseases such as Black Sigatoka. For more information about the impact of crop disease, see *"Risk Factors - Our agricultural plantings are potentially subject to damage from crop disease or insect infestations, which could adversely impact our operating results and financial condition."*

Adverse weather may also impact our supply chains, preventing us from procuring necessary supplies and delivering our products to our customers. We own or lease, manage and operate manufacturing, processing, storage and office facilities, some of which are located in areas that are susceptible to harsh weather. Risks related to natural ecosystems degradation, decreased agricultural productivity in certain regions of the world, biodiversity loss, water resource depletion and deforestation, which are partially driven or exacerbated by climate change, have and may continue to disrupt our business operations or those of our suppliers. We could be unable to accept and fulfill customer orders due to these factors as well as severe weather and natural disasters. Although we have business continuity plans, we cannot provide assurance that our business continuity plans will address all the issues we may encounter in the event of a disaster, or will not lead to increased costs affecting our profitability or other unanticipated issues.

Regulations concerning the use of pesticides, fertilizers and other agricultural products could adversely impact us by increasing our production costs or restricting our ability to import certain products into our selling markets. Furthermore, we may be subject to liability for environmental damage from the use of herbicides, pesticides and other substances or environmental contamination of our owned or leased property.

Our business depends on the use of herbicides, pesticides, fertilizers, and other agricultural products and other potentially hazardous substances in the operation of our business. The use and disposal of these products are often regulated by various agencies. A decision by a regulatory agency to significantly restrict the use of such products that have traditionally been used in the cultivation of one of our principal products could have an adverse impact on us. For example, the EPA and EU have taken a series of regulatory actions relating to the evaluation, approval and use of pesticides in the food industry. In January 2021, the EU did not renew the approval for mancozeb, a fungicide currently used in our operations, to be used within the EU member states. However, tolerances of mancozeb for products imported into the EU are still accepted and the EU is currently assessing whether these tolerances should be maintained, reduced, or eliminated. Future actions regarding the availability and use of pesticides could have an adverse effect on us by increasing our production costs, restricting our ability to import certain products, or imposing substantial penalties or bans due to noncompliance.

We may have to pay for the costs or damages associated with any improper application, accidental release or the use or misuse of pesticides, fertilizers, and other agricultural products and other potentially hazardous substances. Our insurance may not be adequate to cover such costs or damages or may not continue to be available at a price or under terms that are satisfactory to us. In such cases, payment of such costs or damages could have an adverse effect on our business, financial condition or results of operations. Certain environmental laws, including the Comprehensive Environmental Response, Compensation and Liability Act in the U.S., impose strict and, in many cases, joint and several, liability for the cost of remediating contamination, on current and former owners of property or on persons responsible for causing such contamination, which could have an adverse effect on our business, financial condition and results of operations.

Water scarcity in our growing regions could adversely affect our agricultural operations and our profitability.

Water is vital to grow the fresh produce that our business relies on. In recent years, water deficits in certain regions have become more evident. In Brazil, water shortages have previously negatively impacted our banana production, and our pineapple farms in Kenya have been affected by droughts linked to El Nino. To mitigate water risks, we have invested heavily to upgrade existing infrastructure to more efficient irrigation systems like drip or low pressure/low volume sprinkler systems in Kenya and Guatemala. The viability of agricultural land is also impacted by water-related issues. We analyze these issues in the river basin where new development might be planned. Such analysis is a part of our due diligence before investing in agricultural operations, which increases our costs. In the event of water scarcity or deterioration, we may incur increased production costs or face production constraints that may materially and adversely affect our financial condition, results of operations and cash flows.

Costs of compliance with climate change laws could have a material adverse impact on our results of operations.

Concerns about the environmental impacts of climate change and greenhouse gas emissions may result in environmental taxes, charges, assessments or penalties which could restrict or negatively impact our operations, as well as those of our suppliers who would likely pass all or a portion of their costs along to us. Legislative and regulatory authorities in the U.S., the EU, Canada and other international jurisdictions will likely continue to consider measures related to climate change and greenhouse gas emissions. We may be required to make additional investments of capital to maintain compliance with new laws and regulations. Any enactment of laws or passage of regulations regarding greenhouse gas emissions or other climate change laws in the jurisdictions where we conduct business could materially and adversely affect our business, financial condition and results of operations.

Risks Related to Our Information Systems

Our operations and reputations could be harmed if our information technology systems fail to perform adequately.

Our businesses rely on sophisticated information technology ("IT") systems to obtain, rapidly process, analyze and manage data. We rely on these IT systems to, among other things, facilitate communications with our growers, distributors and customers; receive, process and ship orders on a timely basis, to maintain accurate and up-to-date operating and financial data for the compilation of management information and to comply with regulatory, legal and tax requirements. We utilize certain legacy IT systems, software, and hardware, some of which are nearing or at end of support. The continued operation of these systems could increase the risk of cybersecurity incidents, errors, and operational disruptions, and may require enhanced monitoring and compensating controls. Remediation, replacement, or modernization efforts may require significant capital expenditures, and if not executed effectively, could adversely affect our operations, financial condition, or results of operations. If our IT systems do not effectively collect, store, process and report relevant data for the operation of our business, whether due to equipment malfunction or constraints, software deficiencies or human error, our ability to effectively plan, forecast and execute our business plan and comply with applicable laws and regulations will be impaired, perhaps materially. Any such impairment could materially and adversely affect our reputation, financial condition, results of operations, cash flows and the timeliness with which we report our internal and external operating results. Furthermore, some of our IT systems are or may be managed, hosted by or outsourced to third party service providers to manage our business data, communications, supply chain, order entry and fulfillment and other business processes. Our IT systems and those third party service providers upon which we rely may be vulnerable to damage from a variety of sources, including telecommunications or network failures, power loss, natural disasters, human acts, computer viruses, ransomware, computer denial-of-service attacks, unauthorized access to customer or employee data or company trade secrets, and other attempts to harm our systems. Despite any precautions we may take, such problems could result in, among other consequences, disruption of our operations, which could harm our reputation and financial results.

Security breaches and other disruptions could compromise our information and expose us to liability, which would cause our business and reputation to suffer.

In the ordinary course of our business, we hold the sensitive personal data of our current and former employees, as well as proprietary information about our business, including strategic plans and intellectual property. The cyber threat landscape is growing increasingly complex and it is rapidly evolving, particularly considering growing geopolitical tensions. Cybersecurity attacks may result in the unauthorized access to or release of intellectual property, trade secrets and confidential business or otherwise protected information and corruption of our data. Such information could be leaked to competitors or the public which may result in a loss of competitive position and market share. We also have personal confidential information stored in our systems which, if stolen or leaked, could result in significant financial and legal risk, including the risk of litigation or regulatory penalties under data protection legislation in the territories in which we operate, such as the General Data Protection Regulation (EU) 2016/679 (the "GDPR") or the California Consumer Privacy Act in the U.S. ("CCPA"). A cybersecurity

incident that resulted in the disclosure of personal confidential information could lead to state or federal enforcement actions or private causes of action which could result in fines, penalties, judgments or other liabilities. Although we strive to comply with all applicable privacy laws, it is possible we could be subject to enforcement actions and litigation alleging non-compliance.

Furthermore, any damage caused by unforeseen events or system failure which causes interruptions to the input, retrieval and transmission of data or increase in the service time, whether caused by human error, natural disasters, power loss, computer viruses, intentional acts of vandalism, various forms of cybercrimes including and not limited to hacking, ransomware, intrusions and malware or otherwise, could disrupt our normal operations. We have in the past experienced, and may in the future face, hackers, cybercriminals or others gaining unauthorized access to, or otherwise misusing, our systems to misappropriate our proprietary information and technology, interrupt our business, or gain unauthorized access to confidential information. For example, in early 2023, we experienced a cybersecurity incident which impacted certain of our operational and information technology systems. Promptly upon our detection of the attack, we launched an investigation, notified law enforcement and engaged the services of specialized legal counsel and other incident response advisors. While the incident did not have a material impact on our financial results, there is no guarantee that we will have similar success with an attack in the future should one occur.

Our ability to operate efficiently and remain competitive may depend in part on our ability to adapt to technological innovation in our industry.

Our industry is experiencing increased adoption of artificial intelligence (“AI”) technologies, including applications used to support contaminant detection, logistics planning, demand forecasting, and operational risk management. We use, and expect to continue to evaluate and deploy, AI-enabled tools to support food safety and supply chain decision-making. While AI is not the sole driver of our business performance, our ability to operate efficiently and remain competitive may depend in part on the effective implementation and use of such technologies.

The adoption and use of AI involves challenges and risks. AI systems can be complex to develop, integrate, and maintain, and may require substantial investment, high-quality data, ongoing monitoring, and specialized expertise. AI-enabled tools may produce inaccurate, incomplete, or misleading outputs due to data limitations, model assumptions, or changing conditions, which could result in operational errors, service disruptions, regulatory or contractual non-compliance, increased costs, or reputational harm. In addition, the use of AI may increase our exposure to cybersecurity, data privacy, and third-party vendor risks.

Risks Related to Our Financing

Our indebtedness could limit our financial and operating flexibility and subject us to other risks.

Our ability to obtain additional debt financing or refinance our debt on acceptable terms, if at all, in the future for working capital, capital expenditures or acquisitions may be limited by financial considerations or due to covenants in existing debt agreements. Our current credit facility imposes certain operating and financial restrictions on us. Our failure to comply with the obligations under this facility, including maintenance of financial ratios, could result in an event of default, which, if not cured or waived, would permit the lender to accelerate the indebtedness due under the facility.

As a holding company, our ability to meet our financial obligations depends on receiving sufficient funds from our subsidiaries. The payment of dividends or other distributions to us by our subsidiaries may be limited by the provisions of our credit agreements and other contractual requirements and by applicable legal restrictions on payment of dividends and other distributions.

If we were unable to meet our financial obligations, we would be forced to pursue one or more alternative strategies, such as selling assets, restructuring or refinancing our indebtedness or seeking additional equity capital, strategies which could be unsuccessful. Additional sales of our equity capital could substantially dilute the ownership interest of existing shareholders.

Increases in interest rates could increase the cost of servicing our indebtedness and have an adverse effect on our results of operations and cash flows.

Our current credit facility bears interest at a variable rate, which will generally change as interest rates change. We also have various leases, and may enter into future equipment leases, with costs that increase as interest rates increase. Interest rates rose significantly in 2023 in response to inflationary pressures in the U.S. and world economies. While inflationary pressures eased to some extent during 2025, however, it is uncertain the extent to which interest rates will continue to decrease. Furthermore, it is uncertain what actions may be taken by the U.S. government or the Federal Reserve in response to current macroeconomic

conditions and how these actions may impact interest rates. We have previously utilized interest rate swaps to hedge against our exposure to interest rate fluctuations, but we may at times be unable to agree to favorable terms or agree to terms that do not adequately offset interest rate fluctuations. Accordingly, we bear the risk that the rates we are charged by our lenders and lessors will increase faster than the earnings and cash flow of our business, which could reduce profitability and adversely affect our ability to service our debt, or cause us to breach covenants contained in our credit agreement or leases, which could materially adversely affect our business, financial condition and results of operations.

Risks Related to Our Corporate Structure

Our principal shareholders are able to significantly influence all matters requiring shareholder approval.

Members of the Abu-Ghazaleh family, including our Chairman and Chief Executive Officer and one of our directors, are our principal shareholders. As of February 6, 2026, they together directly owned 30.0% of our outstanding Ordinary Shares, and our Chairman and Chief Executive Officer holds, and is expected to continue to hold, an irrevocable proxy to vote all of these shares with respect to most shareholder votes. We expect our principal shareholders to continue to use their interest in our Ordinary Shares to influence the direction of our management, the election of our directors and to determine substantially all other matters requiring shareholder approval. The concentration of our beneficial ownership may delay, deter, or prevent a change in control, may discourage bids for the Ordinary Shares at a premium over their market price and may otherwise adversely affect the market price of the Ordinary Shares.

Our organizational documents contain certain anti-takeover provisions that could delay, deter or prevent a change in control.

Various provisions of our organizational documents and Cayman Islands law may delay, deter or prevent a change in control of us that is not approved by our Board. These provisions include (i) a classified board of directors, (ii) a prohibition on shareholder action through written consents, (iii) a requirement that general meetings of shareholders be called only by a majority of the Board or by the Chairman of the Board, (iv) advance notice requirements for shareholder proposals and nominations, (v) limitations on the ability of shareholders to amend, alter or repeal our organizational documents; and (vi) the authority of the Board to issue preferred shares on such terms that are determined by the Board itself.

Our shareholders have limited rights under Cayman Islands law.

We are incorporated under the laws of the Cayman Islands, and our corporate affairs are governed by our Second Amended and Restated Memorandum and Articles of Association and by the Companies Law of the Cayman Islands. Legal principles related to the validity of corporate procedures, the fiduciary duties of our management, directors and controlling shareholders and the rights of our shareholders differ from those that would apply if we were incorporated in the U.S. Further, the rights of shareholders under Cayman Islands law are not as clearly established as the rights of shareholders under legislation or judicial precedent applicable in most U.S. jurisdictions. As a result, our public shareholders may have more difficulty in protecting their interests in the face of actions by the management, directors or controlling shareholders than they might have as shareholders of a U.S. corporation. In addition, it is unclear whether the courts of the Cayman Islands would enforce, either in an original action or in an action for enforcement of judgments of U.S. courts, liabilities that are predicated upon U.S. federal securities laws.

General Risks

Our success depends on the services of our senior executives, the loss of any one of which could disrupt our operations.

Our ability to maintain our competitive position is dependent to a large degree on the services of our senior management team and other key employees. Our future success depends upon our ability to attract and retain executive officers and other senior management, especially to support our current operations and business strategy. Our business may be negatively affected if we are unable to retain our existing senior management personnel or attract additional qualified senior management personnel. Competition for these individuals is intense and our business may be adversely affected if we are not effective in filling critical leadership positions or in assimilating new executive talent into our organization.

Item 1B. Unresolved Staff Comments

None.

Item 1C. Cybersecurity

Cybersecurity risk management and strategy

Our Board recognizes the increasing significance that cybersecurity has on our operations and business and is responsible for overseeing our cybersecurity plan and risks to the Company from cybersecurity threat actors. From farm to table our operations rely on various information systems and technologies, including those provided by third party suppliers. These systems collect, process, transmit and retain information that may require both mandatory and voluntary data protection regimens.

Our cybersecurity policies, standards, processes, and practices are designed to provide reasonable information security given the integrated nature of our organization, our third-party relationships, and the geographic regions we operate in. With this multi-layered approach, we aim to mitigate cybersecurity vulnerabilities across all aspects of our operations. Our approach to cybersecurity is grounded in the NIST Cybersecurity Framework v2.0, a nationally recognized and adaptable model that aligns with our goals, and addresses the following key areas:

- **Cross-Functional Approach and Disclosure Committee:** We have implemented a cross-functional approach to identifying, preventing and mitigating cybersecurity threats and incidents, while also implementing controls and procedures that provide for the prompt escalation of cybersecurity incidents so that decisions regarding the disclosure and reporting of such material incidents may be made by management in a timely manner. Cybersecurity incidents are reported to the Company's Management Disclosure Committee to review and assess the materiality of the cybersecurity incident.
- **Identify, Protect and Detect:** We have designed and implemented an industry standard security architecture, policies and procedures applying least privilege, and third-party monitoring of security controls of our core enterprise systems.
- **Response and Recovery:** Working with our third-party security operations center, we maintain an incident response plan to timely, consistently and compliantly address any cyber event that may occur and have a designated Incident Response Team consisting of representatives from select business functions which is led by our Vice President of Information Technology ("VP of IT"), who is also in charge of information security, and our Chief Global Privacy Officer ("CPO"). We regularly test our incident response plan, conduct compliance audits, annual tabletop exercises, vulnerability assessments, and where necessary engage third parties to assist with these audits and assessments, as well as mitigation and remediation options and plans.
- **Third-Party Risk Management:** We rely on the representations and certifications of key partnerships with suppliers recognizing these third-party relationships introduce additional cybersecurity risks. To address these third-party risks, we have established strict criteria for technology supplier selection and implemented systems to perform ongoing detection and remediation of vendor risk across our supplier ecosystem.
- **Education and Awareness:** We provide regular, mandatory training for personnel regarding cybersecurity threats to educate and empower our workforce to be vigilant against threat actors and actively participate in cybersecurity efforts.

Cybersecurity governance

Board Oversight

Our Board believes a strong cybersecurity strategy is vital to protect our business operations, sustain our control environment and honor our data protection obligations. Our Board has delegated to its Governance Committee the responsibility for monitoring the effectiveness of the Company's internal cybersecurity program and coordinates its findings with the company Audit Committee. The VP of IT and various members of the Incident Response Team report on cybersecurity threats, incidents, plans and responses to the Governance Committee and/or the entire Board on at least a quarterly basis, and more often as needed.

Management Oversight

Our Chief Operating Officer ("COO"), Chief Financial Officer ("CFO"), VP of IT, CPO, General Counsel ("GC") and various members of the Incident Response Team play an important role in managing the Company's cybersecurity-related risks and maintaining an ongoing dialogue with our Board, the Governance Committee and the Company's Disclosure Committee. Potential cybersecurity incidents come to the attention of the Incident Response Team, which then responds to such incidents in accordance with our incident response plan. Cybersecurity incidents are reported to the Company's Management Disclosure Committee to review and assess the materiality of the cybersecurity incident. The members of the Disclosure Committee, which is responsible for addressing the Company's public disclosures and internal controls, include the GC, VP of IT, CPO, CFO, COO, certain members of the Incident Response Team, and other members of senior management from legal, finance, risk management, internal audit and communications.

While we have not experienced any cybersecurity incidents that have had, either individually or in the aggregate, a material adverse effect on our business, financial condition or results of operations, we did experience and incur costs related to a cybersecurity incident in 2023. Future incidents may interrupt our operations, cause reputational harm, subject us to increased operating costs or expose us to litigation. For additional discussion of the risks posed by cybersecurity threats, see Part I, Item 1A. Risk Factors – Risks Related to our Information Systems of this Annual Report on Form 10-K.

Item 2. Properties

The following table summarizes the approximate plantation acreage under production that are owned or leased by us and the principal products grown on such plantations by location as of the end of 2025:

Location	Acres Under Production		Products
	Acres Owned	Acres Leased	
Costa Rica	43,886	5,187	Bananas, Pineapples, Melons
Philippines	—	9,214	Bananas, Pineapples
Guatemala	9,079	4,298	Bananas, Melons
Kenya	—	10,660	Pineapples
Chile	2,073	1,366	Non-Tropical Fruit
Panama	—	2,533	Bananas
Brazil	2,282	—	Bananas, Other Crops
United States	599	—	Melons

Our significant properties include the following, which all relate to our fresh and value-added products or banana segments unless otherwise noted:

North America

We operate a total of 20 distribution centers in the United States, of which 9 are also fresh-cut facilities. We own 7 of our distribution centers including our distribution center in Houston, Texas, a 200,000 square foot distribution center in Dallas, Texas, distribution centers in Plant City, Florida; Goodyear, Arizona; Kankakee, Illinois; Portland, Oregon, and a repack facility in Winder, Georgia. In Yuma, Arizona, we also own a cooling facility. The remaining 13 distribution centers are leased from third parties. All of our distribution centers have ripening capabilities and/or other value-added services. We own an avocado packing facility in Uruapan, Mexico. We also operate in four port facilities that include cross-docking and cold storage capabilities. In Gonzales, California, we own production facilities which we began leasing to a third party in conjunction with the sale of our Mann Packing business during the fourth quarter of 2025.

Europe

We own and operate a fresh-cut fruit facility in Wisbech, England. In Larissa, Greece, we own and operate a production facility for prepared fruit, tomato products and snacks. In Frankfurt, Germany, we own a distribution center which is currently leased to a third party.

Asia

Our products are distributed from four leased distribution centers located at strategic ports in Japan with cold storage. In Japan, we also operate two owned fresh-cut fruit facilities located in Kobe and Yokohama. In Hong Kong, we lease a distribution center located in Kwai Chung. In addition, in South Korea, we lease one distribution center located in Changwon and own two distribution centers in Eumseong and Icheon. Our distribution centers include ripening technology and other value-added services. We own one fresh-cut facility that includes fresh-cut fruit and vegetable operation located in Eumseong.

Central America

In Costa Rica, we own a juice processing plant, an IQF (individually quick frozen) fruit processing plant, and greenhouses where we produce tomatoes and other vegetables for sale in the local market. We also own greenhouses in Guatemala. In Panama, we have a banana operation on leased land; approximately 2,500 acres of this leased land were under production at the end of 2025.

South America

In Brazil, we own approximately 25,000 acres of land of which 2,300 acres are under production. In Uruguay, we own approximately 6,400 acres which are leased to a third party. In Chile, we own approximately 6,200 acres of land, of which approximately 2,000 acres are primarily used for production of non-tropical fruits. We also lease approximately 1,400 acres in Chile for non-tropical fruit production.

Africa

In Thika, Kenya, we own and operate a warehouse, a pineapple cannery, a fresh pineapple packing facility, a juice production facility and an IQF fruit processing plant. Additionally, during 2024 we opened a factory that will use our biomass products from our canning facility to produce biofertilizer and other related products.

Middle East

In Jordan, we own an integrated poultry business including poultry farms, hatcheries, a feed mill, a poultry slaughterhouse and a meat processing plant which relate to our other products and services segment. In Jordan, we also own a 25 acre hydroponic greenhouse for lettuce on leased land where we have a fresh-cut processing center. In the UAE, we lease a combined distribution and manufacturing center in Dubai. This facility includes fresh-cut fruit and vegetable operations, an ultra-fresh juice manufacturing operation and prepared foods manufacturing. In Saudi Arabia, we own 60% of a joint venture that leases two strategically located distribution centers in Jeddah and Riyadh.

Other Properties

We own our U.S. executive headquarters building in Coral Gables, Florida and our South America regional headquarters building in Santiago, Chile. We own office space in Guatemala City, Guatemala, and Amman, Jordan. Our remaining office space in North America, Europe, Asia, Central and South America and the Middle East is leased from third parties.

Item 3. Legal Proceedings

Tax related matters

In one of our foreign jurisdictions, we are currently contesting tax assessments related to the 2012-2015 audit years and the 2016 audit year in both the administrative court and the judicial court. During 2019 and 2020, we filed actions contesting the tax assessment in the administrative office. Our initial challenge to each of these tax assessments was rejected, and we subsequently lost our appeals at the administrative court. We have subsequently filed actions to contest each of these tax assessments in the country's judicial courts. In addition, we have filed a request for injunction to the judicial court to stay the tax authorities' collection efforts for these two tax assessments, pending final judicial decisions. The court granted our injunction with respect to the 2016 audit year, however denied our injunction with respect to the 2012-2015 audit years. We timely appealed the denial of the injunction, and on August 10, 2022 the appellate court overturned the denial and granted our injunction for the 2012-2015 audit years with a trial date set for July 4, 2025. During June 2025, we were notified of the hearing being suspended until further notice due to a pending constitutional remedy affecting a rule included in the arguments. Pursuant to local law, we registered real estate collateral with an approximate fair market value of \$7.3 million in connection with the grant of the 2016 audit year injunction. This real estate collateral has a net book value of \$3.8 million as of the year ended December 26, 2025. In addition, in connection with the grant of the 2012-2015 audit year injunction, we registered real estate collateral with an approximate fair market value of \$30.6 million, and a net book value of \$4.6 million as of the year ended December 26, 2025. The registration of this real estate collateral does not affect our operations in the country.

In a separate foreign jurisdiction where we are contesting tax assessments, the administrative court denied our appeal, and on March 4, 2020 we filed an action in the judicial court to contest the administrative court's decision. The case is still pending.

In the third foreign jurisdiction, we received tax assessments related to the 2018-2021 audit years. We have filed objections contesting these assessments and have subsequently initiated appeals. Subsequent to December 26, 2025, we received an unfavorable decision related to the appeals. We will continue to contest these assessments and have pursued further appeal through the applicable appellate forum.

We will continue to vigorously contest the adjustments and to exhaust all administrative and judicial remedies necessary in these jurisdictions to resolve the matters, which could be a lengthy process.

California Air Resource Board

On December 21, 2022, the California Air Resource Board ("CARB") issued a Notice of Violation ("NOV") to the Company regarding violations of certain California anti-air pollution regulations by three non-shore capable vessels that were subject to a time charter by us from an unrelated non-U.S. third party. We cooperated with and assisted CARB in its audits for the alleged violations during 2021. During 2024, we accrued expenses of \$0.5 million as a contingent reserve which are included in asset impairments and other charges, net in the Consolidated Statements of Operations. This amount is in addition to a \$0.4 million contingent reserve accrued as of December 29, 2023 related to this matter. On February 12, 2025, we entered into a settlement agreement regarding the matter. Consistent with the terms of the settlement agreement, we agreed to pay approximately \$0.9 million in civil penalties associated with the NOV. Consequently, we do not expect to accrue any additional amounts.

For more information, see Note 16 "*Commitments and Contingencies*" to the Consolidated Financial Statements included in Part II, Item 8. *Financial Statements and Supplementary Data* of this Annual Report on Form 10-K.

Item 4. Mine Safety Disclosures

Not applicable.

PART II

Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

Market for our Ordinary Shares

Our Ordinary Shares are traded solely on the New York Stock Exchange, under the symbol "FDP", and commenced trading on October 24, 1997, the date of our initial public offering.

As of February 6, 2026, we had 402 shareholders of record, which excludes shareholders whose shares were held by brokerage firms, depositories and other institutional firms.

Dividends

Holders of our Ordinary Shares are entitled to receive dividends when and if they are declared by our Board. Our Board declared and paid a cash dividend of \$0.30 per share during the first, second, third, and fourth quarters of 2025. In addition, on February 17, 2026, our Board declared a cash dividend of \$0.30 per share, payable on March 27, 2026 to shareholders of record on March 4, 2026. The declaration, amount and payment of future dividends, if any, will be at the discretion of our Board and will depend upon many factors, including our results of operations, financial condition, capital requirements, restrictions in our debt agreements and other factors that our Board deem relevant.

Purchases of Equity Securities by the Issuer

The following table provides information regarding our purchases of ordinary shares during the periods indicated:

Period	Total Number of Shares Purchased ⁽¹⁾	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Dollar Value of Shares that May Yet Be Purchased Under the Program
September 27, 2025 to October 24, 2025	—	\$ —	—	
October 25, 2025 to November 21, 2025	—	\$ —	—	
November 22, 2025 to December 26, 2025	410,409	\$ 36.56	410,409	
Total	<u>410,409</u>			<u>\$ 120,180,420</u>

- (1) On February 21, 2025, our Board of Directors approved a share repurchase program (the Stock Repurchase Program") of up to \$150 million of our ordinary shares. The Stock Repurchase Program does not obligate the Company to purchase a minimum amount of shares. The Stock Repurchase Program has no expiration date and will continue until otherwise modified or terminated by the Company's Board of Directors at any time in its sole discretion. All shares repurchased during the periods above were repurchased in open market transactions pursuant to this share repurchase program.

Performance Graph

The following graph compares the cumulative five-year total return of holders of FDP ordinary shares with the cumulative total returns of the S&P Smallcap 600 and S&P 600 Food Products indexes. The graph tracks the performance of a \$100 investment in our common stock and in each of the indexes (with the reinvestment of all dividends) from January 1, 2021 to December 26, 2025.

COMPARISON OF 5 YEAR CUMULATIVE TOTAL RETURN*

Item 6. Reserved

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion of our financial condition and results of operations should be read in conjunction with the information contained in our consolidated financial statements and the notes thereto. The following discussion includes forward-looking statements that involve certain risks and uncertainties, including, but not limited to, those described in Part I, Item 1A. Risk Factors of this Annual Report on Form 10-K. Our actual results may differ materially from those discussed below. See "Special Note Regarding Forward-Looking Statements" below and Part I, Item 1A. Risk Factors, of this Annual Report on Form 10-K.

Overview

We are one of the world's leading vertically integrated producers, marketers and distributors of high-quality fresh and fresh-cut fruit and vegetables, as well as a leading producer and marketer of prepared fruit and vegetables, juices, beverages and snacks in Europe, Africa and the Middle East. We market our products worldwide under the *Del Monte*® brand, a symbol of product innovation, quality, freshness and reliability since 1892. Our major sales markets are organized as follows: North America, Europe, the Middle East (which includes North Africa) and Asia. Our global sourcing and logistics system allows us to provide regular delivery of consistently high-quality produce and value-added services to our customers. Our major producing operations are located in North, Central and South America, Asia and Africa.

Our business is comprised of three reportable segments, two of which represent our primary businesses of fresh and value-added products and banana, and one that represents our other ancillary businesses.

- *Fresh and value-added products* - includes pineapples, fresh-cut fruit, fresh-cut vegetables (which includes fresh-cut salads), melons, vegetables, non-tropical fruit (which includes grapes, apples, citrus, blueberries, strawberries, pears, peaches, plums, nectarines, cherries and kiwis), other fruit and vegetables, avocados, and prepared foods (which includes prepared fruit and vegetables, juices, other beverages, and meals and snacks).
- *Banana*
- *Other products and services* - includes our third-party freight and logistic services business, our Jordanian poultry and meats business and our specialty ingredients business (previously referred to as our biomass initiatives).

Fiscal Year

Our fiscal year end is the last Friday of the calendar year, unless the first Friday subsequent to the end of the calendar year is January 1st (in which case our year end is January 1st). Fiscal year 2025 had 52 weeks and ended on December 26, 2025. Fiscal year 2024 had 52 weeks and ended on December 27, 2024. Fiscal year 2023 had 52 weeks and ended on December 29, 2023.

Current Macroeconomic Environment and Geopolitical Environment

Starting in fiscal year 2021, we began experiencing inflationary and cost pressures due to volatility and disruption in the global economy. These conditions, which increased our production and distribution costs, were driven by a multitude of external factors including rising interest rates, restrictions and economic impacts related to the COVID-19 pandemic, currency fluctuations, supply chain disruptions and geopolitical conflicts. Based on the stabilization of inflation in certain key markets during the latter part of 2023, we have not established further inflation-justified price increases and surcharges during 2024 and 2025. We are actively monitoring region-specific macroeconomic factors to mitigate increases in our costs, if necessary.

Throughout 2025, the U.S. government has signaled or announced numerous changes to its trade policy, including changes to existing trade agreements and the use of tariffs to enforce trade policy. The tariffs impact various jurisdictions we sell into and from which we purchase or source, including Costa Rica, Guatemala and Ecuador where we source the majority of our products sold into the United States. These tariffs currently exempt imports that are compliant with the United States-Mexico-Canada ("USMCA") trading agreement, which includes a wide range of fresh fruit and vegetables. However, these trade policies are subject to change with limited or no advance notice to the Company. As a result, it is uncertain what, if any, impact tariffs or other trade policy may have on products we source or partially source from Mexico, which makes up approximately 11% of our North American net sales.

Tariffs implemented during 2025 have and may continue to significantly increase our cost of products sold. During the year ended December 26, 2025, we incurred additional costs related to tariff charges placed on products sold into the United States which we were able to mostly mitigate through increased selling prices to our North American customers implemented during the second quarter of 2025. If we are unable to successfully sustain our increased selling prices to our customers, institute new increases for incremental tariffs, or if increased selling prices significantly impact consumer demand, we expect the impact to our gross profit in future periods to be material. The actual impact of the announced tariffs on our business is subject to a number of factors including the duration of such tariffs, changes to the countries included in the scope of tariffs in the future, changes to amounts, potential retaliatory tariffs imposed by other countries, and other variables.

Additionally, we continue to actively monitor geopolitical pressures around the world including, among others, the conflicts in the Middle East and other regional or global military conflicts. As a result of these conflicts, recent shipping disruptions in the Red Sea and surrounding waterways have created logistical pressures that have negatively impacted our business, including impacts to the availability of certain shipping routes resulting in increased shipping times. While we have taken actions to divert our shipping routes in order to minimize impacts on our business, we may not be able to mitigate the impact of additional write-offs, higher shipping rates, or longer shipping routes on our operations if conditions in the regions surrounding the Red Sea deteriorate.

Refer to the “Results of Operations” section below, as well as Part I. Item 1A, *Risk Factors* of this Annual Report on Form 10-K for further discussion.

Recent Developments

Acquisition of Select Assets of Del Monte Foods Corporation II Inc. and Affiliates

On February 6, 2026, the U.S. Bankruptcy Court for the District of New Jersey (the “Court”) entered a sale order and approved the Asset Purchase Agreement (the “APA”) by and among us acting in our capacity as the Buyer thereunder with Del Monte Foods Holdings Limited and certain of its affiliates (collectively “Del Monte Foods”, acting in their capacity as the Seller thereunder) for approximately \$285 million plus assumption of certain liabilities. The Court selected us as the successful bidder, following a competitive bankruptcy auction process under Section 363 of the U.S. Bankruptcy Code. Under the APA, we will acquire i) the prepared and packaged foods businesses of Del Monte Foods comprising canned vegetable, tomato, and refrigerated fruit business assets operated under the *Del Monte*®, *S&W*®, *Contadina*®, *Take Root Organics*® trademarks, (ii) the bubble tea business operated under the *Joyba*® trademarks, (iii) four US facilities, two facilities in Mexico, and one facility in Venezuela and (iv) global ownership of the *Del Monte*® brand, which is subject to existing licensing arrangements across different regions and categories (the “Acquisition”). The APA also provides for the assumption of material customer and supplier contracts as well as inventory at closing to help support uninterrupted service to the existing customer base. We expect to finance the Acquisition through a combination of cash on hand and availability under our existing revolving credit facility. The Acquisition, which we expect to close during the first quarter of 2026, remains subject to regulatory clearances, including under the Hart-Scott-Rodino Act, and other customary closing conditions. The Acquisition brings the *Del Monte*® brand under a single owner for the first time in nearly four decades, allowing our business to align fresh and shelf-stable foods under one integrated strategy while leveraging our distribution network and infrastructure within North America.

Divestiture of Mann Packing

Consistent with our strategy to enhance long-term productivity by concentrating on higher-return businesses, on October 15, 2025, we entered into an Asset Purchase Agreement with CBRT Processing, LLC, a wholly-owned subsidiary of True Leaf Holdings, LLC (collectively, the “Buyer”) to sell the Mann Packing business, including substantially all of the operational assets of Mann Packing, in exchange for \$19.0 million plus a variable amount based on inventory at closing of the transaction. The \$19.0 million purchase price is payable as follows: (i) \$5.0 million payable in sixty (60) monthly installments commencing on the closing date of the transaction, and (ii) \$14.0 million payable in a single installment on the fifth anniversary of the closing date of the transaction. Payment for inventory is payable no later than ninety (90) days after the closing date of the transaction, with the exception of payments for growing crop inventory which are payable no later than thirty (30) days following the end of the month in which the crop is harvested and delivered to the Buyer. The transaction closed on December 15, 2025. Additionally, in conjunction with the Asset Purchase Agreement, we entered into a five-year lease agreement with the Buyer to lease our Gonzales, California production facility beginning on the closing date of the transaction. The lease agreement provides the Buyer the option to extend the initial lease-term for an additional five-year period, as well as an option to purchase the Gonzales facility which can be exercised annually as described in the lease agreement.

The transaction resulted in a pre-tax loss of \$17.9 million. The amount, which primarily represented write-downs performed during the third quarter of 2025 based on the excess of the disposal group's carrying value over its fair value less costs to sell, included an impairment of goodwill allocated to the disposal group of \$7.2 million. We recognized proceeds from the transaction of \$31.3 million, net of a present value discount of \$4.3 million, all of which was outstanding and receivable as of December 26, 2025.

Net Sales

Our net sales are affected by numerous factors, including mainly the balance between the supply of and demand for our products and competition from other fresh produce companies. Our net sales are also dependent on our ability to supply a consistent volume and quality of fresh produce to the markets we serve. As a result of seasonal sales price fluctuations, we have historically realized a greater portion of our net sales and gross profit during the first two calendar quarters of the year. For example, seasonal variations in demand for bananas as a result of increased supply and competition from other fruit are reflected in the seasonal fluctuations of banana prices, with the first six months of each year generally exhibiting stronger demand and higher prices, except in those years where an excess supply exists. In our fresh and value-added products segment, there are seasonal variations in sales of our non-tropical fruit products which reach peak sales season from October to May.

Our strategy for net sales growth is focused on protecting and growing our core business as well as driving innovation and expansion of our value-added categories, including through the development of new products and by targeting the convenience store and foodservice trade in our major global markets.

Since our financial reporting currency is the U.S. dollar, our net sales are significantly affected by fluctuations in the value of the currency in which we conduct our sales versus the dollar, with a weaker dollar versus such currencies resulting in increased net sales in dollar terms. Including the effect of our foreign currency hedges, net sales in 2025 were positively impacted by \$14.7 million primarily due to fluctuations in exchange rates versus the Euro and British pound, partially offset by fluctuations in exchange rates versus the Korean won.

Cost of Products Sold

Cost of products sold is primarily composed of two elements:

Product costs - primarily composed of cultivation (the cost of growing crops), harvesting, packaging, labor, depreciation and farm administration. Product cost for produce obtained from independent growers is composed of procurement and packaging costs.

Logistics costs - includes land and sea transportation and expenses related to port facilities and distribution centers. Sea transportation cost is the most significant component of logistics costs and is comprised of:

- Ship operating expenses - includes operations, maintenance, depreciation, insurance, fuel (the cost of which is subject to commodity price fluctuations), and port charges.
- Chartered ship costs - includes the cost of chartering the ships, fuel and port charges.
- Container equipment-related costs - includes leasing expense and in the case of owned equipment, also depreciation expense.
- Third-party containerized shipping costs - includes the cost of using third-party shipping in our logistics operations.

In general, changes in our volume of products sold can have a disproportionate effect on our gross profit. Within any particular year, a significant portion of our cost of products sold is fixed, both with respect to our operations and with respect to the cost of produce purchased from independent growers from whom we have agreed to purchase all the products they produce. Accordingly, higher volumes produced on company-controlled farms directly reduce the average per-box cost, while lower volumes directly increase the average per-box cost. In addition, because the volume that will actually be produced on our farms and by independent growers in any given year depends on a variety of factors, including weather, that are beyond our control or the control of our independent growers, it is difficult to predict volumes and per-box costs.

Variations in containerboard prices, which affect the cost of boxes and other packaging materials, and fuel prices can have a significant impact on our product costs and our gross profit. Containerboard, plastic, resin and fuel prices have historically been volatile. Our expenses relating to employee labor are also significant to our product costs and our gross profit, and our ability to control these costs is generally subject to numerous external factors. Also, variations in the production yields, fertilizers and other input costs and the cost to procure products from independent growers can have a significant impact on our costs. Refer to the “*Current Macroeconomic Environment and Inflation Impact*” section above for further discussion regarding the impact of inflationary cost pressures on our fiscal years 2024 and 2025 financial results.

Since our financial reporting currency is the U.S. dollar, our costs are affected by fluctuations in the value of the currency in which we have significant operations versus the dollar, with lower cost resulting from a stronger U.S. dollar. During 2025, cost of products sold was negatively impacted by approximately \$4.9 million, primarily driven by fluctuations in exchange rates versus the Costa Rican Colon and Euro, partially offset by fluctuations in exchange rates versus the Mexican peso.

Income Taxes

The provision for income taxes in 2025 was \$37.4 million. Income taxes consist of the consolidation of the tax provisions, computed on a separate entity basis, in each country in which we have operations. Since we are a non-U.S. company with substantial operations outside the United States, a substantial portion of our results of operations is not subject to U.S. taxation. Several of the countries in which we operate have lower tax rates than the United States. We are subject to U.S. taxation on our operations in the United States. From time to time, tax authorities in various jurisdictions in which we operate audit our tax returns and review our tax positions. There are audits presently pending in various countries. There can be no assurance that any tax audits, or changes in existing tax laws or interpretations in countries in which we operate will not result in an increased effective tax rate for us.

In connection with the examination of the tax returns in three foreign jurisdictions, the taxing authorities have issued income tax deficiencies primarily related to transfer pricing aggregating approximately \$260.6 million (including interest and penalties) for tax years 2012 through 2021. We strongly disagree with the proposed adjustments and have filed a protest with each of the taxing authorities.

We regularly assess the likelihood of adverse outcomes resulting from examinations such as these to determine the adequacy of our tax reserves. Accordingly, during the year ended December 26, 2025, we accrued \$2.9 million based on our current evaluation of the proposed adjustments. There can be no assurance that these matters will be resolved in our favor, and an adverse outcome of either matter, or any future tax examinations involving similar assertions, could have a material effect on our financial condition, results of operations and cash flows. See Part I, Item 3. Legal Proceedings, of this Annual Report on Form 10-K for more information regarding these matters.

On December 15, 2022, the European Union (EU) Member States formally adopted the EU’s Pillar Two Directive, which generally provides for a minimum effective tax rate of 15%, as established by the Organization for Economic Co-operation and Development (OECD) Pillar Two Framework which will be effective for the Company for the 2025 fiscal year. A significant number of other countries are expected to also implement similar legislation with varying effective dates in the future. To date, we have determined that there is a global minimum tax liability of \$2.8 million as a result of Pillar Two, as certain jurisdictions have satisfied the safe harbor test to mitigate any minimum tax under Pillar Two. We continue to monitor its jurisdictions for any legislative changes.

On July 4, 2025, the One Big Beautiful Bill Act (“OBBBA”) was enacted in the United States. The OBBBA includes significant provisions, such as the permanent extension of certain expiring provisions of the Tax Cuts and Jobs Act, modifications to the international tax framework and the restoration of favorable tax treatment for certain business provisions. The legislation has multiple effective dates, with certain provisions effective in 2025 and others implemented through 2027. For the year ended December 26, 2025, the impact of OBBBA on the Company’s financial statements is immaterial. The Company is continuing to evaluate the effects of OBBBA for provisions that become effective in future periods.

RESULTS OF OPERATIONS

Consolidated Financial Results For the Year Ended December 26, 2025, Compared to the Year Ended December 27, 2024

The following summarizes the more significant factors impacting our operating results for the fiscal year ended December 26, 2025 as compared with the fiscal year ended December 27, 2024.

	Year ended		
	December 26, 2025	December 27, 2024	December 29, 2023
Net sales	\$ 4,322.3	\$ 4,280.2	\$ 4,320.7
Gross profit	399.1	357.9	350.7
Selling, general and administrative expenses	212.7	196.9	186.7
Operating income	137.4	196.3	58.5

Net sales - Net sales for 2025 were \$4,322.3 million compared with \$4,280.2 million in 2024. Net sales increased across all of our segments, primarily impacted by higher per unit selling prices in our banana and fresh and value-added products segments, including the impact of tariff related price adjustments in North America and the favorable impact of fluctuations in exchange rates, primarily versus the Euro and British pound compared with the prior-year period. The increase was partially offset by lower sales volume of fresh-cut vegetables in our fresh and value-added products segment due to strategic operational reductions, including the sale of certain assets of Fresh Leaf Farms, taken during the fourth quarter of 2024.

Gross profit - Gross profit for 2025 increased by 12% to \$399.1 million from \$357.9 million in 2024. The increase in gross profit was driven by higher net sales in our fresh and value-added products segment. The increase was partially offset by higher per unit production and procurement costs in our banana segment and higher distribution costs.

Gross profit for 2025 included \$0.5 million of other product-related credits primarily consisting of insurance recoveries related to damages incurred as a result of Hurricane Beryl during July 2024. Gross profit for 2024 included \$1.0 million of other product-related charges primarily related to \$1.2 million of severance charges from the outsourcing of certain functions of our fresh and value-added operations and \$1.0 million of additional logistic costs and inventory write-offs incurred as a result of Hurricane Beryl, partially offset by insurance recoveries of \$1.7 million tied to the flooding of a seasonal production facility in Greece.

Selling, general and administrative expenses - Selling, general and administrative expenses increased by \$15.8 million when compared with the prior-year period. The increase was primarily due to higher employee benefit costs and professional fees, particularly in North America, and the unfavorable impact of fluctuations in exchange rates for expenses denominated in foreign currencies, primarily due to the Euro and British pound compared with the prior-year period.

Gain on disposal of property, plant and equipment, net and subsidiary - The gain on disposal of property, plant and equipment, net and subsidiary of \$10.3 million during 2025 primarily consisted of a \$9.8 million gain related to the sale of four carrier vessels and a \$2.1 million gain related to the sale of two idle properties in Chile, partially offset by a \$3.3 million loss related to disposals of low-yielding banana plants in Costa Rica in order to replant and improve productivity. The gain on disposal of property, plant and equipment, net and subsidiary of \$39.5 million during 2024 primarily consisted of a \$14.7 million gain on the sale of two idle facilities, a \$11.3 million gain on the sale of a Canadian distribution center, a \$7.7 million gain from the sale of a warehouse in South America, and \$4.3 million related to the sale of certain assets of Fresh Leaf Farms, a North American subsidiary in our fresh and value-added products segment.

Asset impairment and other charges (credits), net - Asset impairment and other charges, net of \$59.3 million in 2025 primarily consisted of (1) \$37.5 million of impairment charges related to low productivity banana farms in the Philippines, (2) \$17.9 million of impairment charges associated with the divestiture of our Mann Packing business and (3) \$1.5 million of legal settlement charges related to the restoration of a previously leased deciduous fruit farm in Chile. Asset impairment and other charges, net of \$4.2 million in 2024 primarily consisted of (1) a \$1.8 million settlement agreement with respect to a litigation matter by a former employee, net of insurance reimbursements, (2) \$1.5 million of impairment charges of damaged buildings located at farms in Costa Rica, (3) \$1.4 million of impairment charges related to goodwill in our vegetable reporting unit, and (4) a \$0.5 million reserve related to a regulatory matter arising from our third-party logistics operations, partially offset by a \$2.0 million insurance reimbursement related to fire damages at a warehouse in Chile.

Operating income - Operating income decreased by \$58.9 million in 2025 when compared with 2024, mainly due to higher asset impairment charges, net and a lower gain on disposal of property, plant and equipment, net. These changes were partially offset by higher gross profit during 2025.

Interest expense - Interest expense decreased by \$7.2 million in 2025 when compared with 2024, primarily due to lower average debt balances.

Income from equity method investments - Income from equity method investments was \$13.2 million in 2025 compared with \$9.2 million in 2024. The increase of \$4.0 million was primarily driven by higher equity earnings of unconsolidated companies within the food and nutrition sector compared to the prior year. Additionally, certain investments in unconsolidated companies took place during 2024 resulting in these investments reflecting a full year of activity during 2025 compared to a partial period during the prior year.

Other expense, net - Other expense, net, was \$10.3 million in 2025 compared with \$17.6 million in 2024. The decrease in expense of \$7.3 million was mainly driven by lower foreign currency losses compared to the prior year.

Income tax provision - Income tax provision was \$37.4 million in 2025 compared with \$29.1 million in 2024. The increase in the income tax provision of \$8.3 million is primarily due to the impact of the OECD Pillar Two global minimum tax combined with increased earnings in certain higher tax jurisdictions.

Financial Results by Segment

The following table presents net sales and gross profit by segment (U.S. dollars in millions) and gross margin percentage:

Segments	Year ended								
	December 26, 2025			December 27, 2024			December 29, 2023		
	Net Sales	Gross Profit	Gross Margin	Net Sales	Gross Profit	Gross Margin	Net Sales	Gross Profit	Gross Margin
Fresh and value-added products	\$ 2,621.9	\$ 299.4	11.4 %	\$ 2,606.9	\$ 243.3	9.3 %	\$ 2,477.8	\$ 167.3	6.8 %
Banana	1,490.4	71.0	4.8 %	1,475.9	86.8	5.9 %	1,638.2	163.3	10.0 %
Other products and services	210.0	28.7	13.7 %	197.4	27.8	14.1 %	204.7	20.1	9.8 %
	<u>\$ 4,322.3</u>	<u>\$ 399.1</u>	<u>9.2 %</u>	<u>\$ 4,280.2</u>	<u>\$ 357.9</u>	<u>8.4 %</u>	<u>\$ 4,320.7</u>	<u>\$ 350.7</u>	<u>8.1 %</u>

Fresh and value-added products

Net sales for 2025 were \$2,621.9 million compared with \$2,606.9 million in 2024. The increase in net sales was primarily a result of higher per unit selling prices of pineapple and higher per unit selling prices and sales volume of fresh-cut fruits due to strong market demand. Selling prices in our fresh and value-added products segment reflect tariff-related price increases in North America and the favorable impact of fluctuations in exchange rates primarily due to a stronger British pound. The increases were partially offset by lower net sales of fresh and fresh-cut vegetables due to lower sales volume due to strategic operational reductions, including the sale of certain assets of Fresh Leaf Farms, taken during the fourth quarter of 2024.

Gross profit for 2025 was \$299.4 million compared with \$243.3 million in 2024. The increase in gross profit was primarily driven by higher net sales, including higher per unit selling prices of pineapple due to a favorable sales mix of our premium pineapple varieties, partially offset by higher distributions costs.

Gross profit in the fresh and value-added products segment included \$0.2 million of other product-related credits in 2025 as a result of insurance recoveries related to damages incurred during Hurricane Beryl in July 2024. Gross profit in the fresh and value-added products segment included \$0.6 million of other product-related charges in 2024 primarily related to \$1.2 million of severance charges from the outsourcing of certain functions within our operations, \$0.6 million of additional logistic expenses and inventory write-offs incurred as a result of Hurricane Beryl, and \$0.2 million of inventory write-offs related to flooding damage at melon farms in Costa Rica, partially offset by \$1.7 million of insurance recoveries, net of expenses, associated with the flooding of a seasonal production facility in Greece during 2023. Gross margin increased to 11.4% compared with 9.3% in the prior-year period.

Banana

Net sales for 2025 were \$1,490.4 million compared with \$1,475.9 million in 2024. The increase in net sales was driven by higher per unit selling prices, primarily in North America due to tariff-related price adjustments and reduced industry volumes and Europe due to increased demand and the favorable impact of fluctuations in exchange rates primarily due to a stronger Euro, and higher sales volume in the Middle East as the prior-year period was impacted by shipment disruptions related to the Red Sea conflict. The increase was partially offset by lower sales volumes in Asia, primarily due to reduced supply and weak market demand, and lower sales volume in North America, primarily due to adverse weather in production areas during the first half of the year.

Gross profit for 2025 was \$71.0 million compared with \$86.8 million in 2024. The decrease in gross profit was primarily driven by higher per unit production and procurement costs due to adverse weather and the impact of crop disease such as Black Sigatoka in our growing regions, higher distribution costs, and an allowance recorded on a receivable from an independent grower in Asia due to low production. The decrease was partially offset by higher net sales.

Gross profit in the bananas segment for 2025 included \$0.3 million of other product-related credits, primarily as a result of insurance recoveries related to damages incurred during Hurricane Beryl in July 2024. Gross profit in the bananas segment for 2024 included \$0.4 million of other product-related charges, primarily as a result of additional logistic expenses and inventory write-offs incurred as a result of Hurricane Beryl. Gross margin decreased to 4.8% compared with 5.9% in the prior-year period.

Other products and services

Net sales for 2025 were \$210.0 million compared with \$197.4 million in 2024. The increase in net sales was primarily due to higher net sales in our third-party ocean freight services and specialty ingredients businesses as a result of higher volume and our acquisition of a Ugandan producer of avocado oil during March 2025, partially offset by a decrease in net sales in our poultry and meats business driven by lower volumes and per unit selling prices.

Gross profit for 2025 was \$28.7 million compared to \$27.8 million in 2024. The slight increase in gross profit was primarily a result of higher net sales partially offset by higher per unit production costs in our poultry and meats business. Gross margin decreased to 13.7% from 14.1% in the prior-year period.

Results of Operations - For the Year Ended December 27, 2024, Compared to the Year Ended December 29, 2023

For a comparison of our results of operations for the year ended December 27, 2024, compared to the year ended December 29, 2023, see “[Part II, Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations](#)” of our annual report on Form 10-K for the year ended December 27, 2024, filed with the SEC on February 24, 2025, which is incorporated herein by reference.

LIQUIDITY AND CAPITAL RESOURCES

Fresh Del Monte Produce Inc. is a holding company whose only significant asset is the outstanding capital stock of our subsidiaries that directly or indirectly own all of our assets. We conduct all of our business operations through our subsidiaries. Accordingly, as of December 26, 2025, our principal sources of liquidity are (i) cash generated from operations of our subsidiaries, (ii) our combined \$796 million of credit facilities with an available capacity of approximately \$606 million and (iii) existing cash and cash equivalents of \$35.7 million. The loan commitments under our credit facilities can be used for working capital or other general corporate purposes. On a long-term basis, we will continue to rely on our credit facilities for any long-term funding not provided by cash generated from operations of our subsidiaries.

Our principal uses of liquidity are paying the costs associated with our operations, paying dividends, and making capital expenditures to increase our productivity and expand our product offerings and geographic reach. We may also, from time to time, prepay outstanding indebtedness on our credit facilities, repurchase and retire ordinary shares of our common stock or acquire assets or businesses that we believe are complementary to our operations.

On January 15, 2026, we announced our successful bid to acquire select assets of Del Monte Foods Corporation II Inc. and its affiliates ("Del Monte Foods") for a purchase price of \$285.0 million plus the assumption of certain liabilities through a court-supervised sale under Section 363 of the U.S. Bankruptcy Code. The sale order was subsequently approved on February 6, 2026 by the United States Bankruptcy Court for the District of New Jersey. The transaction, which we expect to close during the first quarter of 2026, remains subject to regulatory clearances, including under the Hart-Scott-Rodino Act, and other customary closing conditions. At time of closing, we expect to finance this acquisition through a combination of cash on hand, existing escrow deposits of \$28.5 million made pursuant to the terms of the bankruptcy auction, and available capacity under our existing credit facilities. Upon closing of the acquisition, we anticipate the working capital needs of Del Monte Foods may be material given the timing of their annual pack during the second and third quarter of 2026. We expect to finance these additional working capital requirements with our cash on hand and available capacity under our existing credit facilities.

A summary of our cash flows is as follows (U.S. dollars in millions):

	Year ended		
	December 26, 2025	December 27, 2024	December 29, 2023
Summary cash flow information:			
Net cash provided by operating activities	\$ 245.1	\$ 182.5	\$ 177.9
Net cash (used in) provided by investing activities	(48.7)	20.4	56.4
Net cash used in financing activities	(165.7)	(209.9)	(213.5)
Effect of exchange rate changes on cash	0.9	5.8	(4.2)
Net increase (decrease) in cash, cash equivalents and restricted cash	31.6	(1.2)	16.6
Cash, cash equivalents and restricted cash, beginning	32.6	33.8	17.2
Cash, cash equivalents and restricted cash, ending	<u>\$ 64.2</u>	<u>\$ 32.6</u>	<u>\$ 33.8</u>

Operating activities

Net cash provided by operating activities was \$245.1 million for 2025 compared with \$182.5 million for 2024, an increase of \$62.6 million. The primary driver of cash flows in both years was net earnings, with the increase in net cash provided by operating activities during 2025 being principally attributable to the change in non-cash items, including higher asset impairments and a lower gain on disposal of property plant, and equipment. The increase in net cash provided by operating activities during 2025 was also impacted by working capital fluctuations, mainly due to lower levels of accounts receivables compared to the prior-year period partially offset by lower accounts payable and accrued expenses due to the timing of receipts from customers and period end payments to suppliers.

Working capital was \$611.5 million at December 26, 2025 compared with \$599.8 million at December 27, 2024, an increase of \$11.7 million. The increase in working capital was mainly due to higher levels of (i) prepaid expenses and other current assets, including restricted cash held in escrow of \$28.5 million as a result of our planned acquisition of select assets of Del Monte Foods Corporation II Inc. and its affiliates, and (ii) other accounts receivable as a result of the sale of our Mann Packing business during the fourth quarter of 2025. Partially offsetting this increase in working capital was a decrease in (a) trade receivables and (b) finished goods inventory.

Investing activities

Net cash used in investing activities was \$48.7 million for 2025 compared with net cash provided by investing activities of \$20.4 million for 2024. Net cash used in investing activities for 2025 primarily consisted of capital expenditures of \$63.8 million and \$12.5 million in investments in unconsolidated companies in the food and nutrition sector that align with our long-term strategy and vision. Partially offsetting the net cash used in investing activities were proceeds from the sale of property, plant and equipment of \$25.0 million, primarily relating to the sale of four carrier vessels, two idle properties in Chile, and an administrative office in Costa Rica, and \$2.5 million in distributions from our investments in unconsolidated companies.

Net cash provided by investing activities for 2024 primarily consisted of proceeds from the sale of property, plant and equipment and subsidiary of \$74.4 million, primarily relating to the sale of three facilities in South America, a distribution center in Canada, and certain assets of Fresh Leaf Farms, a North American subsidiary in our fresh-cut vegetable business, and \$5.7 million of insurance recoveries received for damage to property, plant and equipment associated with the flooding of a seasonal production facility in Greece during 2023. Partially offsetting the net cash provided by investing activities were capital expenditures of \$51.7 million and \$8.0 million in investments in unconsolidated companies in the food and nutrition sector that align with our long-term strategy and vision.

Capital expenditures related to the *fresh and value-added products segment* accounted for \$43.7 million, or 68%, of our 2025 capital expenditures and \$35.5 million, or 69%, of our 2024 capital expenditures. During 2025 capital expenditures primarily related to (1) improvements and enhancements to our pineapple operations in Central America, (2) improvements to our fresh-cut production facilities in North America and (3) an IQF production facility in Kenya within our prepared foods business. During 2024, capital expenditures primarily related to (1) improvements to our pineapple operations in Central America, Kenya and the Philippines and (2) improvements and enhancements to our production facilities in North America and Europe.

Capital expenditures related to the *banana segment* accounted for \$17.2 million, or 27%, of total 2025 capital expenditures and \$13.7 million, or 26%, of total 2024 capital expenditures. During 2025, these capital expenditures primarily related to improvements to our production operations in Central America. During 2024, these capital expenditures primarily related to improvements to our production operations in Central America and port facilities in North America.

Capital expenditures related to the *other products and services segment* accounted for \$2.9 million, or 5%, of our 2025 capital expenditures and \$2.5 million, or 5%, of our 2024 capital expenditures. During 2025 and 2024, these capital expenditures primarily related to expansion of our specialty ingredients business.

Capital expenditures for 2026 are expected to be approximately \$60 million to \$70 million, primarily consisting of (1) upgrades and expansion to our pineapple and banana production operations in Central America, (2) investments to improve and expand our fresh-cut and prepared foods operations in Europe and (3) implementation of our global enterprise resource planning system. We expect to fund these capital expenditures, which primarily relate to our fresh and value-added products and banana segments, through operating cash flows and borrowings under our existing credit facility.

Financing Activities

Net cash used in financing activities was \$165.7 million for 2025 and \$209.9 million for 2024. Net cash used in financing activities for 2025 primarily consisted of (i) net payments on long-term debt of \$71.1 million, (ii) dividends paid of \$57.4 million, and (iii) the repurchase and retirement of ordinary shares of our common stock of \$29.8 million as part of our stock repurchase program announced in February 2025. Net cash used in financing activities for 2024 primarily consisted of (i) net payments on long-term debt of \$155.9 million, (ii) dividends paid of \$47.8 million, and (iii) payment of deferred financing costs of \$2.2 million in conjunction with the February amendment of our Second Amended and Restated Credit Agreement.

Debt Instruments and Debt Service Requirements

On October 1, 2019, we and certain of our subsidiaries entered into a Second Amended and Restated Credit Agreement (the "Second A&R Credit Agreement") with the financial institutions and other lenders named therein, including Bank of America, N.A. as administrative agent and BofA Securities, Inc. as sole lead arranger and sole bookrunner. The Second A&R Credit Agreement provided for a five-year, \$0.9 billion syndicated senior unsecured revolving credit facility maturing on October 1, 2024. The Second A&R Credit Agreement was subsequently amended on December 30, 2022, to replace the Eurocurrency Rate with the Term Secured Overnight Financing Rate ("Term SOFR") effective January 3, 2023.

On February 21, 2024, we entered into Amendment No. 2 to the Second Amended and Restated Credit Agreement (the "2024 Amended Credit Facility") which amends and restates the Second A&R Credit Agreement. The 2024 Amended Credit Facility provides for a five-year, \$0.75 billion syndicated senior unsecured revolving credit facility ("Amended Revolving Credit Facility") and extends the existing maturity date to February 21, 2029. Amounts borrowed under the revolving credit facility accrue interest at a rate equal to the Term SOFR rate plus a margin that ranges from 1.0% to 1.625% based on our Consolidated Leverage Ratio (as defined in the 2024 Amended Credit Facility). In addition, we pay a fee on unused commitments at a rate equal to 0.150% to 0.250% based on our Consolidated Leverage Ratio. The 2024 Amended Credit Facility also permits, under certain conditions, \$200 million of Permitted Receivables Financing (as defined in the 2024 Amended Credit Facility). We intend to use funds borrowed under the Amended Revolving Credit Facility from time to time for general corporate purposes, working capital, capital expenditures and other permitted investment opportunities.

The 2024 Amended Credit Facility provides for an accordion feature that permits us, without the consent of the other lenders, to request that one or more lenders provide us with increases in revolving credit facility or term loans up to an aggregate of \$300 million ("Incremental Increases"). The aggregate amount of Incremental Increases can be further increased to the extent that after giving effect to the proposed increase in revolving credit facility commitments or term loans our Consolidated Leverage Ratio, on a pro forma basis, would not exceed 2.75 to 1.00. Our ability to request such increases or term loans is subject to our compliance with customary conditions set forth in the 2024 Amended Credit Facility including compliance, on a pro forma basis, with certain financial covenants and ratios. Upon our request, each lender may decide, in its sole discretion, whether to increase all or a portion of its revolving credit facility commitment or provide term loans.

The 2024 Amended Credit Facility contains similar financial covenants to those included within the Second A&R Credit Agreement. Specifically, it requires us to maintain 1) a Consolidated Leverage Ratio of not more than 3.75 to 1.00 at any time during any period of four consecutive fiscal quarters, subject to certain exceptions and 2) minimum Consolidated Interest Coverage Ratio of not less than 2.25 to 1.00 as of the end of any fiscal quarter. Additionally, it requires us to comply with certain other covenants, including limitations on capital investments, the amount of dividends that can be paid in the future, the amounts and types of liens and indebtedness, material asset sales, and mergers. Under the 2024 Amended Credit Facility, we are permitted to declare or pay cash dividends in any fiscal year up to an amount that does not exceed the greater of (i) an amount equal to (1) the greater of (A) 50% of the Consolidated Net Income (as defined in the 2024 Amended Credit Facility) for the immediately preceding fiscal year or (B) \$25 million (the "Base Dividend Basket") plus (2) commencing in the fiscal year ending December 26, 2025 any portion of the Base Dividend Basket not used in the immediately preceding fiscal year, or (ii) the greatest amount which would not cause the Consolidated Leverage Ratio (determined on a pro forma basis as of the date of declaration or payment) to exceed 3.50 to 1.00. It also provides an allowance for stock repurchases to be an amount not exceeding the greater of (i) (A) \$50,000,000 (the "Base Redemption Basket") plus (B) commencing in the fiscal year ending December 26, 2025, any portion of the Base Redemption Basket not used in the immediately preceding fiscal year or (ii) the greatest amount which would not cause the Consolidated Leverage Ratio (determined on a pro forma basis as of the date of such repurchase) to exceed 3.50 to 1.00. As of December 26, 2025, we were in compliance with all the covenants contained in the 2024 Amended Credit Facility.

In addition to the indebtedness under our 2024 Amended Credit Facility, our material cash requirements include contractual obligations from other working capital facilities and lease obligations. Refer to Note 11 "*Debt*" in the Notes to the Consolidated Financial Statements under Part II, Item 8 *Financial Statements and Supplementary Data* of this Annual Report on Form 10-K for more information regarding these material cash requirements.

As of December 26, 2025, we had \$605.5 million of borrowing availability under committed working capital facilities, primarily under the Amended Revolving Credit Facility.

We believe that our cash on hand, borrowing capacity available under our Amended Revolving Credit Facility, and cash flows from operations for the next twelve months will be sufficient to service our outstanding debt during the next twelve months. However, we cannot predict whether future developments associated with the current economic environment will materially adversely affect our long-term liquidity position. Our liquidity assumptions, the adequacy of our available funding sources, and our ability to meet our Amended Revolving Credit Facility covenants are dependent on many additional factors, including those set forth in Part I, Item 1A, "*Risk Factors*" of this Annual Report on Form 10-K.

Derivatives

We are exposed to fluctuations in currency exchange rates against the U.S. dollar on our results of operations and financial condition and we mitigate that exposure by entering into foreign currency forward contracts. Certain of our subsidiaries periodically enter into foreign currency forward contracts in order to hedge portions of forecasted sales or cost of sales denominated in foreign currencies, which generally mature within one year. The fair value of our derivatives related to our foreign currency cash flow hedges was a net liability position of \$1.0 million as of December 26, 2025 compared to a net asset position of \$0.3 million as of December 27, 2024 due to the relative strengthening or weakening of exchange rates when compared to the contracted rates.

We are exposed to fluctuations in variable interest rates on our results of operations and financial condition, and we mitigate that exposure by entering into interest rate swaps from time to time. During 2018, we entered into interest rate swaps in order to hedge the risk of the fluctuation on future interest payments related to a portion of our variable rate borrowings through 2028. On July 19, 2024, we agreed to terminate our outstanding interest rate swap agreement in exchange for \$7.3 million, net of fees of \$0.2 million. Based on our assessment that the originally hedged cash flows associated with our variable rate borrowings remain probable, the proceeds received as a result of the termination of our outstanding interest rate swap agreement will remain in accumulated other comprehensive loss and be reclassified to earnings through interest expense over the remaining life of the hedged debt. At December 26, 2025, \$2.8 million remained in accumulated other comprehensive loss related to the terminated interest rate swap, of which \$1.2 million is expected to be reclassified to earnings through interest expense over the next twelve months.

We enter into derivative instruments with counterparties that are highly rated and do not expect a deterioration of our counterparty's credit ratings; however, the deterioration of our counterparty's credit ratings would affect the Consolidated Financial Statements in the recognition of the fair value of the hedges that would be transferred to earnings as the contracts settle. We expect that \$0.5 million of the net fair value of designated hedges recognized as a net gain in accumulated other comprehensive loss will be transferred to earnings during the next 12 months along with the earnings effect of the related forecasted transactions.

Other

We are involved in several legal and environmental matters that, if not resolved in our favor, could require significant cash outlays and could have a material adverse effect on our results of operations, financial condition and liquidity. See Part I, Item 1. *Business Overview* under “*Environmental Regulations*” and Part I, Item 3. *Legal Proceedings* and Note 16, “*Commitments and Contingencies*” to the Consolidated Financial Statements included in Part II, Item 8. *Financial Statements and Supplementary Data* of this Annual Report on Form 10-K.

Commitments and Contractual Obligations

The following details information with respect to our contractual obligations as of December 26, 2025.

Contractual obligations by period	(U.S. dollars in millions)				
	Total	Less than 1 year	1 - 3 years	3 - 5 years	More than 5 years
Fruit purchase agreements	\$ 1,043.9	\$ 379.0	\$ 429.3	\$ 235.6	\$ —
Purchase obligations	258.2	239.6	6.6	3.8	8.2
Operating leases and charter agreements	189.6	49.3	65.5	34.0	40.8
Finance lease obligations	4.7	1.6	3.1	—	—
Long-term debt	173.0	—	—	173.0	—
Interest on long-term debt ⁽¹⁾	25.5	8.4	15.7	1.4	—
Retirement benefits	132.1	14.7	25.6	26.1	65.7
Uncertain tax positions	9.9	3.1	4.0	0.5	2.3
Totals	<u>\$ 1,836.9</u>	<u>\$ 695.7</u>	<u>\$ 549.8</u>	<u>\$ 474.4</u>	<u>\$ 117.0</u>

⁽¹⁾ We utilize a variable interest rate on our long-term debt, and for presentation purposes we have used an assumed average rate of 4.4%.

We have agreements to purchase the entire or partial production of certain products of our independent growers primarily in Guatemala, Ecuador, Philippines, Costa Rica, Colombia, and the United Kingdom that meet our quality standards. Total purchases under these agreements amounted to \$655.3 million for 2025, \$643.4 million for 2024, and \$631.6 million for 2023.

Liquidity and Capital Resources - For the Year Ended December 27, 2024, Compared to the Year Ended December 29, 2023

For a comparison of our liquidity and capital resources for the year ended December 27, 2024, compared to the year ended December 29, 2023, see “[Part II, Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations](#)” of our annual report on Form 10-K for the year ended December 27, 2024, filed with the SEC on February 26, 2025, which is incorporated herein by reference.

Critical Accounting Policies and Estimates

We prepare our consolidated financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP). In applying accounting principles, it is often required to use estimates. These estimates require the application of judgment and affect the reported amounts of assets, liabilities, revenue, expenses, and the related disclosures. We base our estimates and judgments on historical experience, current trends and other factors that management believes to be relevant at the time our consolidated financial statements are prepared. Although we believe our estimates are reasonable and appropriate, material changes in certain estimates that we use could potentially affect, by a material amount, our consolidated financial position and results of operations. We have identified several estimates which are listed below as being critical because they require management to make particularly difficult, subjective, and complex judgments about matters that are inherently uncertain. As a result, there is a likelihood that materially different amounts would be reported under different conditions or using different assumptions.

All of our significant accounting policies are discussed in Note 2, “*Summary of Significant Accounting Policies*” in the Notes to the Consolidated Financial Statements under Part II, Item 8 *Financial Statements and Supplementary Data* of this Annual Report on Form 10-K.

Goodwill and Indefinite-Lived Intangible Assets

Goodwill represents the excess of the purchase price of an acquired entity over the fair value of the net tangible and identifiable intangible assets acquired and liabilities assumed in a business combination. We assess goodwill at the reporting unit level on an annual basis as of the first day of our fourth quarter, or more frequently if events or changes in circumstances suggest that goodwill may not be recoverable. In performing our annual goodwill impairment test, we may start with an optional qualitative assessment as allowed for under the accounting guidance. As part of the qualitative assessment, we evaluate all events and circumstances, including both positive and negative events, in their totality, to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If we bypass the qualitative assessment, or if the qualitative assessment indicates that a quantitative analysis should be performed, we perform a quantitative test for impairment by comparing the fair value of each reporting unit to its carrying value, including the associated goodwill. In performing our quantitative test, we estimated the fair value of these reporting units by using the income approach. The income approach provides an estimate of fair value by measuring estimated annual cash flows over a discrete projection period and applying a present value discount rate to the cash flows. The present value of the estimated annual cash flows is then added to the present value equivalent of the residual value of the business to arrive at an estimated fair value of the reporting unit. The discount rates are determined using the weighted average cost of capital for the risk of achieving the projected cash flows. If the carrying amount of the reporting unit exceeds the estimated fair value, an impairment charge is recorded to reduce the carrying value to the estimated fair value.

Our projections include several estimates and assumptions by management related to forecasts of future sales volume and pricing, cost of sales, expenses, tax rates, capital spending and the weighted-average cost of capital. Significant judgment is involved in estimating inputs used in the discounted cash flow estimates and, as a result, they include inherent uncertainties. These uncertainties are a result of management establishing expectations based on historical experience about customer demand, macroeconomic trends for the markets in which our reporting units operate, and expectations for investments in maintaining and expanding infrastructure, among other inputs. As of the date of our 2025 impairment testing, the related cash flows were discounted using rates ranging from 8.0% to 10.5% for our reporting units and we used long-term growth rates from 0.5% to 2.5%. Changes in these estimates, many of which fall under Level 3 within the fair value measurement hierarchy, could change our conclusion regarding the impairment of goodwill assets and potentially reduce the carrying value of goodwill on our balance sheet and reduce our income in the year in which it is recorded.

As part of the 2004 Del Monte Foods acquisition, we also acquired perpetual, royalty-free licenses to use the *Del Monte*[®] brand for processed and/or canned food in more than 100 countries throughout Europe, Africa, the Middle East and certain Central Asian countries. We can also produce, market and distribute certain prepared food products in North America based on our agreement with Del Monte Pacific utilizing the *Del Monte*[®] brand. This indefinite-lived intangible asset is not amortized but is reviewed for impairment as of the first day of the fourth quarter of each fiscal year, or sooner if impairment indicators arise. We generally estimate the fair value of our indefinite-lived intangible assets using a royalty savings method which estimates the value of trade names and trademarks by capitalizing the estimated royalties saved based on our ownership of the assets. The royalty savings method requires significant estimates and judgments by management, including estimates of future sales, tax rates and the weighted-average cost of capital. Additionally, management assumptions are used in determining an appropriate royalty rate which requires management to identify comparable companies and assessment of return attributable to other tangible and intangible assets.

Although we believe that our estimates and judgments used in performing our impairment tests are reasonable, if our reporting units do not perform to expected levels, the related goodwill and the *Del Monte*[®] trade names and trademarks may be at risk for additional impairment in the future. Management has identified the fair value of the banana reporting unit's goodwill, prepared reporting unit's goodwill and the *Del Monte*[®] prepared foods reporting unit's trade names and trademarks to be at a higher risk of sensitivity to differences between estimated and actual cash flows and changes in the related discount rate used to evaluate the fair value of these assets based on the percentage by which their respective fair value exceeded the carrying value as of the date of our annual impairment test. The following table highlights the sensitivities of the goodwill and indefinite-lived intangible assets which may be at risk for impairment as of December 26, 2025 (U.S. dollars in millions):

	Banana Reporting Unit Goodwill	Prepared Foods Reporting Unit Goodwill	Prepared Foods Reporting Unit <i>Del Monte</i> [®] Trade Names and Trademarks
Carrying value of indefinite-lived intangible assets	\$ 64.2	\$ 27.1	\$ 31.7
Approximate percentage by which the fair value exceeds the carrying value based on the annual impairment test	20.1 %	6.8 %	16.5 %
Amount that a one percentage point increase in the discount rate and a 5% decrease in cash flows would cause the carrying value to exceed the fair value and trigger an impairment	\$ 41.9	\$ 27.1	\$ —

As of December 26, 2025, we are not aware of any additional items or events that would cause an adjustment to the carrying value of our goodwill and indefinite-lived intangible assets.

Impairment of Long-Lived Assets

We review long-lived assets (or asset groups) with identifiable cash flows for impairment whenever events or changes in circumstances (triggering events) indicate that the carrying amount of an asset may not be recoverable. Once a triggering event has occurred, the impairment test performed is based on whether the Company's intent is to hold the asset for continued use or to hold the asset for sale. The impairment test for assets held for use requires a comparison of the estimated undiscounted cash flows expected to be generated over the useful life of the primary asset of an asset group to the carrying amount of the asset group. An asset group is generally established by identifying the lowest level of cash flows generated by a group of assets that are largely independent of the cash flows of other assets and could include assets used across multiple businesses. In the event the carrying amount of an asset group exceeds the estimated undiscounted future cash flows, an impairment would be measured as the difference between the fair value of the asset group and the carrying amount of the asset group. The fair value of an asset group is measured by either determining the expected future discounted cash flows of the asset group or by independent appraisal. Determining whether a long-lived asset group is impaired requires various estimates and assumptions by management, including assessment of whether a triggering event has occurred, the identification of asset groups, forecasts of future sales volume and pricing, cost of sales, expenses, tax rates, capital spending and the weighted-average cost of capital. These estimates, many of which fall under Level 3 within the fair value measurement hierarchy, determine whether impairments have been incurred and quantify the amount of any related impairment charges.

During the third quarter of 2025, we entered into a non-binding Letter of Intent pursuant to which we intended to sell the Mann Packing business, a wholly-owned subsidiary of the Company included in our fresh and value-added products segment, including substantially all operating assets (the "Mann Packing Disposal Group"). Goodwill was allocated to the Mann Packing Disposal Group and the retained portion of our fresh-cut reporting unit based on the relative fair value. Goodwill allocated to the Mann Packing Disposal Group was tested for impairment which resulted in an impairment charge of \$7.2 million. Additionally, we compared the carrying amount of the Mann Packing Disposal Group to the fair value less cost to sell. As a result, we recognized a pre-tax loss of \$17.9 million, inclusive of the \$7.2 million impairment charge above, to record the Mann Packing Disposal Group at its fair value less costs to sell which is included in Asset impairment and other charges, net in our Consolidated Statements of Operations. The fair value of the Mann Packing Disposal Group was measured using a discounted cash flow analysis based upon unobservable inputs, such as the estimated selling price derived from Company-specific information and the rate used to discount cash flows based on market yield rates. On October 15, 2025, we entered into an Asset Purchase Agreement to sell the Mann Packing Disposal Group. The terms of the Asset Purchase Agreement were materially the same as those considered as inputs to the valuation of the Mann Packing Disposal Group during the third quarter of 2025, and the transaction closed on December 15, 2025.

Income Taxes

Deferred income taxes are recognized for the tax consequences in future years of differences between the tax basis of assets and liabilities and their financial reporting amounts at each year end, based on enacted tax laws and statutory tax rates applicable to the year in which the differences are expected to affect taxable income. In calculating our effective income tax rate as part of our deferred income taxes, we make judgments regarding certain tax positions, including the timing and amount of deductions and allocation of income among various tax jurisdictions with disparate tax laws. Valuation allowances are established when it is deemed more likely than not that some portion or all of the deferred tax assets will not be realized. We review the realizability of our deferred tax asset valuation allowances on a quarterly basis or whenever events or changes in circumstances indicate that a review is required.

The assessment of realizability is dependent upon management's estimates and assumptions, including an estimate of future reversals of existing taxable temporary differences, forecasted future taxable income, and the implementation and success of any tax planning strategies that may be employed to prevent an operating loss or tax credit carryforward from expiring unused. To the extent that results differ from our original or adjusted estimates, the effect will be recorded in the provision for income taxes in the period that the matter is resolved.

Additionally, as a matter of course, the Company is regularly audited by federal, state and foreign tax authorities. From time to time, these audits result in proposed assessments. Our determinations regarding the recognition of income tax expenses or benefits as a result of these matters are made in consultation with outside tax and legal counsel, where appropriate, and are based upon the merits of our tax positions in consideration of applicable tax statutes in the associated jurisdictions. Given the uncertainties associated with these matters, the tax benefits ultimately realized by the Company may differ from those recognized in our future financial statements based on a number of factors, including the Company's success in supporting its filing positions with taxing authorities. See Note 9, "Income Taxes" to the Consolidated Financial Statements in Item 8. *Financial Statements and Supplementary Data* for additional discussion.

New Accounting Pronouncements

For a description of new applicable accounting pronouncements, refer to Note 2, "Summary of Significant Accounting Policies" to the Consolidated Financial Statements included in Part II, Item 8. *Financial Statements and Supplementary Data*.

Off-Balance Sheet Arrangements

We are not involved in any off-balance sheet arrangements.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk

We are exposed to market risk from changes in foreign currency exchange rates and interest rates, which may adversely affect our results of operations and financial condition. We seek to minimize the risks from these currency exchange rate and interest rate fluctuations through our regular operating and financing activities and, when considered appropriate, through the use of derivative financial instruments. Our policy is to not use financial instruments for trading or other speculative purposes and not to be a party to any leveraged financial instruments.

We manage our currency exchange rate risk by hedging a portion of our overall exposure to currency fluctuation through foreign exchange forward contracts. We manage our exposure to interest rate fluctuations on a portion of our debt through interest rate swaps which convert the floating rate to a fixed rate, plus a borrowing spread. We also have procedures to monitor the impact of market risk on the fair value of long-term debt, short-term debt instruments and other financial instruments, considering reasonably possible changes in currency exchange rates and interest rates.

Exchange Rate Risk

Because we conduct our operations in many areas of the world involving transactions denominated in a variety of currencies, our results of operations as expressed in U.S. dollars may be significantly affected by fluctuations in rates of exchange between currencies. These fluctuations could be significant. Approximately 33% and 34% of our net sales and a significant portion of our costs and expenses in each of 2025 and 2024 were denominated in currencies other than the dollar. We generally are unable to adjust our non-dollar local currency sales prices to reflect changes in exchange rates between the dollar and the relevant local currency. As a result, changes in exchange rates between the Euro, Japanese yen, British pound, Korean won or other currencies in which we receive sale proceeds and the dollar have a direct impact on our operating results. Our costs are also affected by fluctuations in the value, relative to U.S. dollar, of the currencies of the countries in which we have significant production operations, such as the Costa Rican colon, Guatemalan quetzal, Chilean peso, Kenya shilling, and Mexican peso. A weaker U.S. dollar may result in increased costs of production abroad. There is normally a time lag between the moment we incur costs and the moment we collect payments for our products, exposing us to additional currency exchange rate risk.

To reduce currency exchange rate risk, we generally exchange local currencies for dollars promptly upon receipt. We periodically enter into currency forward or collar contracts as a hedge against a portion of our currency exchange rate exposures; however, we may decide not to enter into these contracts during any particular period. We had seven foreign currency cash flow hedges outstanding at December 26, 2025 and one outstanding at December 27, 2024. The fair value of these hedges was a net liability of \$1 million as of December 26, 2025 and a net asset of \$0.3 million as of December 27, 2024.

The results of a hypothetical 10% strengthening in the average value of the dollar during 2025 and 2024 relative to the other currencies in which a significant portion of our net sales are denominated would have resulted in a decrease in net sales of approximately \$142.0 million and \$137.0 million for the years ended December 26, 2025 and December 27, 2024. This calculation assumes that each exchange rate would change in the same direction relative to the dollar. Our sensitivity analysis of the effects of changes in currency exchange rates does not factor in a potential change in sales levels or any offsetting gains on currency forward contracts.

Interest Rate Risk

As described in Note 11, “*Debt*” to the Consolidated Financial Statements included in Part II, Item 8. *Financial Statements and Supplementary Data*, our indebtedness is both variable and fixed rate. Changes in interest rates in our indebtedness could have a material effect on our financial statements.

At year end December 26, 2025 and December 27, 2024, total variable rate debt had carrying values of \$173.0 million and \$244.1 million. The fair value of the debt approximates the carrying value because the variable rates approximate market rates. A 10% increase in the interest rate for 2025 and 2024 would have resulted in a negative impact of approximately \$0.9 million and \$1.7 million on our results of operations for each of the years ended December 26, 2025 and December 27, 2024.

To reduce interest rate risk, during 2018, we entered into interest rate swaps in order to hedge the risk of the fluctuation on future interest expense related to a portion of our variable rate borrowings under our Credit Facility through 2028. On July 19, 2024, we agreed to terminate our remaining outstanding interest rate swap in exchange for \$7.3 million, net of fees of approximately \$0.2 million. Based on our assessment that the originally hedged cash flows associated with our variable rate borrowings remain probable, the proceeds received as a result of terminating our interest rate swap were recorded in accumulated other comprehensive loss and are reclassified to earnings as a reduction in interest expense over the remaining life of the hedged outstanding debt.

The above discussion of our procedures to monitor market risk and the estimated changes in fair value resulting from our sensitivity analysis are forward-looking statements of market risk assuming certain adverse market conditions occur.

Actual results in the future may differ materially from these estimated results due to actual developments in the global financial markets. The analysis methods we used to assess and mitigate risk discussed above should not be considered projections of future events or losses.

Special Note Regarding Forward-Looking Statements

This Annual Report on Form 10-K contains “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). These statements concern expectations, beliefs, projections, plans and strategies, anticipated events or trends and similar expressions concerning matters that are not historical facts. Specifically, this Annual Report on Form 10-K contains forward-looking statements including, but not limited to the following:

- our ability to successfully navigate the competitive pressures in the markets in which we operate, the impact of consolidation and the barriers to entry in the pineapple and non-tropical fruit markets;
- our ability to successfully close our acquisition of Del Monte Foods assets, including our ability to obtain necessary court approvals, and subsequently integrate it into our business operations
- our strategic plans and future performance, including plans to expand avocados into additional international markets and to continue to expand our pineapple offerings;
- our market positions in our different product categories and expectations regarding our growth potential in such categories;
- opportunities for sales growth and development of our fresh and prepared food products in the Middle East, North Africa and Central Asian countries and the drivers of continued net sales growth across our segments;
- trends in consumer demand and our ability to capitalize on such trends to deliver future growth;
- our intent to invest in our specialty ingredients business and the potential impact on future results;
- our opportunity to be a preferred supplier to large retail, convenience store chain, and food service customers and our methods to expand or establish such status;
- the ability of investments in new product development to increase revenue and maintain our premium price position and market leadership in our product categories;
- the impact of outsourcing by food retailers and our ability to capitalize on such trend;
- the impact of geopolitical conflicts, including the Red Sea conflict, on our business operations;
- our ability to generate cost savings;
- our expectations regarding the expansion of our third-party ocean freight services and other new logistic services to provide a meaningful contribution to our profitability and operating results;
- our ability to continue to maintain compliance with applicable laws and regulations;
- our intent to continue to make further equity investments in companies and timing of the liquidation of existing equity investments;
- inflationary pressures and the impacts to our future operating results;
- our financial condition, including sales growth, estimated liabilities and expenditures related to environmental cleanup;
- capital expenditures in 2026, including for research and development;
- our expectations regarding share repurchases;
- the adequacy of our insurance coverage;
- the sufficiency of our information technology protections and practices;
- legal, tax and accounting matters, including our litigation strategy, plans and beliefs regarding the ultimate outcome of income tax adjustments assessed by foreign taxing authorities;
- the sufficiency of our capital resources and sufficiency of our liquidity to service our outstanding debt during the next twelve months;
- the impact of seasonality on our financial results; and
- accounting estimates, including the impact of our hedges and other derivative instruments on our results of operations.

These forward-looking statements reflect our current views about future events and are subject to risks, uncertainties and assumptions. We wish to caution readers that certain important factors may have affected and could in the future affect our actual results and could cause actual results to differ significantly from those expressed in any forward-looking statement. Various factors could prevent us from achieving our goals, and cause the assumptions underlying forward-looking statements and the actual results and performance to differ materially from those expressed in or implied by the forward-looking statements include, but are not limited to, the following:

- the impact of inflationary pressures on raw materials and other costs, as well as the impact of increased costs for many of our products;
- the impact of tariffs and other governmental trade restrictions;
- changes in consumer preferences or consumer demand for branded products such as ours;
- macroeconomic factors that could adversely affect demand for our premium products or that could result in pricing pressures, such as inflation, lower discretionary income or reduction in consumer confidence;
- our ability to successfully compete in the markets in which we do business;

- the impact of the consolidation of retailers, wholesalers and distributors in the food industry;
- the availability of sufficient labor during peak growing and harvesting seasons;
- the continued ability of our distributors and suppliers to have access to sufficient liquidity to fund their operations;
- the impact of crop diseases as well as our ability to improve our existing quarantine policies and other prevention strategies, as well as find contingency plans, to protect our and our suppliers' banana crops from vascular diseases;
- global or local disruptions or issues that impact our production facilities or complex logistics network;
- our ability to successfully integrate acquisitions and new product lines into our operations;
- the timing and cost of resolution of pending and future legal and environmental proceedings or investigation;
- the impact of changes in tax accounting or tax laws (or interpretations thereof), the impact of claims or adjustments proposed by the Internal Revenue Service or other taxing authorities, including the EU, in connection with our tax audits and our ability to successfully contest such tax claims and pursue necessary remedies;
- the success of our joint ventures;
- the impact of severe weather conditions and natural disasters, and the impact that may have on our business and financial condition;
- damage to our reputation or brand names or negative publicity about our products;
- product liability claims and associated regulatory and legal actions, product recalls, or other legal proceedings relating to our business;
- our ability to continue to comply with covenants and the terms of our credit instruments and our ability to obtain additional financing to fund our capital expenditures; and
- our ability to successfully manage the risks associated with international operations, including risks relating to political or economic conditions, inflation, tax laws, currency restrictions and exchange rate fluctuations, legal or judicial systems.

The foregoing list of important factors does not include all such factors, nor necessarily present them in order of importance. In addition, you should consult other disclosures made by us (such as in our other filings with the SEC or in company press releases) for other factors that may cause actual results to differ materially from those projected by the Company. Please refer to Part I. Item 1A., *Risk Factors*, of this Annual Report on Form 10-K for additional information regarding factors that could affect our results of operations, financial condition and liquidity.

We intend our forward-looking statements to speak only as of the time of such statements and do not undertake or plan to update or revise them as more information becomes available or to reflect changes in expectations, assumptions or results, except as required by applicable law. We can give no assurance that such expectations or forward-looking statements will prove to be correct. An occurrence of, or any material adverse change in, one or more of the risk factors or risks and uncertainties referred to in this report or included in our other periodic reports filed with the SEC could materially and adversely impact our operations and our future financial results.

Any public statements or disclosures made by us following this report that modify or impact any of the forward-looking statements contained in or accompanying this report will be deemed to modify or supersede such outlook or other forward-looking statements in or accompanying this report.

Report of Independent Registered Public Accounting Firm

To the Shareholders and the Board of Directors of Fresh Del Monte Produce Inc.

Opinion on Internal Control Over Financial Reporting

We have audited Fresh Del Monte Produce Inc. and subsidiaries' internal control over financial reporting as of December 26, 2025, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) (the COSO criteria). In our opinion, Fresh Del Monte Produce Inc. and subsidiaries (the Company) maintained, in all material respects, effective internal control over financial reporting as of December 26, 2025, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the 2025 consolidated financial statements of the Company and our report dated February 19, 2026 expressed an unqualified opinion thereon.

Basis for Opinion

The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Annual Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects.

Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

Definition and Limitations of Internal Control Over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Report of Independent Registered Public Accounting Firm

To the Shareholders and the Board of Directors of Fresh Del Monte Produce Inc.

Opinion on the Financial Statements

We have audited the accompanying consolidated balance sheets of Fresh Del Monte Produce Inc. and subsidiaries (the Company) as of December 26, 2025 and December 27, 2024, the related consolidated statements of operations, comprehensive income, shareholders' equity and redeemable noncontrolling interest and cash flows for each of the three years in the period ended December 26, 2025, and the related notes and financial statement schedule listed in the Index at Item 15 (collectively referred to as the "consolidated financial statements"). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company at December 26, 2025 and December 27, 2024, and the results of its operations and its cash flows for each of the three years in the period ended December 26, 2025, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company's internal control over financial reporting as of December 26, 2025, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework), and our report dated February 19, 2026 expressed an unqualified opinion thereon.

Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Critical Audit Matters

The critical audit matter communicated below is a matter arising from the current period audit of the financial statements that was communicated or required to be communicated to the audit committee and that: (1) relates to accounts or disclosures that are material to the financial statements and (2) involved our especially challenging, subjective or complex judgments. The communication of the critical audit matter does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

Valuation of Goodwill

Description of the Matter

At December 26, 2025, the Company's goodwill was \$390.0 million. As discussed in Note 2 to the consolidated financial statements, goodwill is tested for impairment at least annually, at the reporting unit level. The carrying value of the prepared foods reporting unit's goodwill is \$27.1 million as of December 26, 2025. Note 6 to the consolidated financial statements discloses the sensitivity of the fair value of this asset to changes in assumptions and underlying data used by the Company in their impairment accounting model including differences between estimated and actual cash flows and in discount rates used. The Company measured the fair value of the goodwill using an income approach.

Auditing the Company's annual impairment test related to the prepared foods reporting unit's goodwill was complex and required the involvement of our specialists due to the judgmental nature of the assumptions used in the valuation model described above. Moreover, this asset is more sensitive to the differences between estimated and actual cash flows, and changes in discount rate used to estimate its fair value. Assumptions related to estimated cash flows (specifically sales and cost of products sold) are judgmental as they are affected by expectations about future market or economic conditions, which can vary significantly and depend on market forces and events outside of the Company's control.

How We Addressed the Matter in our Audit

We obtained an understanding, evaluated the design, and tested the operating effectiveness of controls over the Company's impairment review process related to the prepared foods reporting unit's goodwill including controls over management's review of the significant assumptions described above.

To test the estimated fair value of the Company's prepared foods reporting unit's goodwill, our audit procedures included, among others, evaluating the methodologies used, the significant assumptions discussed above, and the underlying data used by the Company. Such data includes historical sales and cost data, go forward business plans, as well as data from comparable companies. We involved our valuation specialists to assist in our procedures and to independently evaluate the reasonableness of the ranges for the discount rate. We compared the significant assumptions to current industry and economic trends, as well as market factor changes, to the Company's business model, and other relevant factors. We assessed the historical accuracy of management's estimates by comparing them to actual operating results and performed sensitivity analyses of the significant assumptions described above to evaluate the impact on the fair value of the prepared foods reporting unit's goodwill.

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****1. General**

Reference in this Report to “Fresh Del Monte,” “we,” “our” and “us” and the “Company” refer to Fresh Del Monte Produce Inc. and its subsidiaries, unless the context indicates otherwise.

Nature of Business

We are one of the world’s leading vertically integrated producers, marketers and distributors of high-quality fresh and fresh-cut fruit and vegetables, as well as a leading producer and marketer of prepared fruit and vegetables, juices, beverages and snacks in Europe, Africa and the Middle East. We market our products worldwide under the *Del Monte*® brand, a symbol of product innovation, quality, freshness and reliability since 1892. Our major sales markets are organized as follows: North America, Europe, the Middle East (which includes North Africa) and Asia. Our global sourcing and logistics system allows us to provide regular delivery of consistently high-quality produce and value-added services to our customers. Our major producing operations are located in North, Central and South America, Asia and Africa. Our products are sourced from our company-controlled operations and through supply contracts with independent growers.

Our business is comprised of three reportable segments, two of which represent our primary businesses of fresh and value-added products and banana, and one that represents our other ancillary businesses.

- *Fresh and value-added products* - includes pineapples, fresh-cut fruit, fresh-cut vegetables (which includes fresh-cut salads), melons, vegetables, non-tropical fruit (which includes grapes, apples, citrus, blueberries, strawberries, pears, peaches, plums, nectarines, cherries and kiwis), other fruit and vegetables, avocados, and prepared foods (which includes prepared fruit and vegetables, juices, other beverages, and meals and snacks).
- *Banana*
- *Other products and services* - includes our third-party freight and logistic services business, our Jordanian poultry and meats business and our specialty ingredients business, previously referred to as our biomass initiatives.

Fiscal Year

Our fiscal year end is the last Friday of the calendar year, unless the first Friday subsequent to the end of the calendar year is January 1st (in which case our year end is January 1st). Fiscal year 2025 had 52 weeks and ended on December 26, 2025. Fiscal year 2024 had 52 weeks and ended on December 27, 2024. Fiscal year 2023 had 52 weeks and ended on December 29, 2023.

Basis of Presentation

The accompanying Consolidated Financial Statements have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP). The preparation of our Consolidated Financial Statements in accordance with U.S. GAAP requires us to make estimates and assumptions that affect the amounts reported in our Consolidated Financial Statements and accompanying notes. Actual results could differ from these estimates.

Our Consolidated Financial Statements include the accounts of our majority owned subsidiaries, which we control due to ownership of a majority voting interest. Additionally, we consolidate variable interest entities (“VIEs”) when we have variable interests and are the primary beneficiary. All intercompany accounts and transactions are eliminated in consolidation.

We are required to evaluate events occurring after December 26, 2025, our fiscal year end, for recognition and disclosure in the Consolidated Financial Statements for the year ended fiscal 2025. Events are evaluated based on whether they represent information existing as of December 26, 2025, which require recognition in the Consolidated Financial Statements, or new events occurring after December 26, 2025, which do not require recognition but require disclosure if the event is significant to the Consolidated Financial Statements. We evaluated events occurring subsequent to December 26, 2025 through the date of issuance of these Consolidated Financial Statements.

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

2. Summary of Significant Accounting Policies***Cash and Cash Equivalents***

We classify as cash equivalents all highly liquid investments with a maturity of three months or less at the time of purchase.

Trade Receivables

Trade receivables less allowances are recognized on our accompanying Consolidated Balance Sheets at net realizable value, which reflects the net amount expected to be collected from customers. Our allowance for trade receivables consists of two components: a \$16.8 million allowance for credit losses and a \$21.4 million allowance for customer claims, which are accounted for under the scope of ASC 606 - *Revenue Recognition*.

We estimate expected credit losses on our trade receivables in accordance with Accounting Standards Codification (“ASC”) 326 - *Financial Instruments - Credit Losses*. We perform ongoing credit evaluations of our customers and adjust credit limits based upon payment history and customers’ credit worthiness, as determined by our review of their current credit information. We measure the allowance for credit losses on trade receivables on a collective (pool) basis when similar risk characteristics exist. We generally pool our trade receivables based on geographic region or country to which the receivables relate. Receivables that do not share similar risk characteristics are evaluated for collectibility on an individual basis.

Our historical credit loss experience provides the basis for our estimation of expected credit losses. We generally use a three-year average of annual loss rates as a starting point for our estimation, and make adjustments to the historical loss rates to account for differences in current conditions impacting the collectibility of our receivable pools. We generally monitor macroeconomic indicators to assess whether adjustments are necessary to reflect current conditions.

Our allowances for identified claims are recorded as a reduction to both trade accounts receivable and net sales. Write-off of accounts receivable is done only when all collection efforts have been exhausted without success.

Accounts receivable from one customer represents approximately 6% of trade accounts receivable, net of allowance. This customer is current with its payments.

Other Accounts Receivable

Other accounts receivable less allowances are recognized on our accompanying Consolidated Balance Sheets at net realizable value, which reflects the net amount expected to be collected. Other accounts receivable includes value-added taxes (“VAT”) receivables, seasonal advances to growers and suppliers, which are usually short-term in nature, and other financing receivables.

VAT receivables are primarily related to purchases by production units and are refunded by the taxing authorities. As of December 26, 2025, we had \$40.5 million classified as current in other accounts receivable and \$26.2 million, net of allowance of \$3.2 million, classified as other noncurrent assets on our Consolidated Balance Sheets. As of December 27, 2024, we had \$41.2 million classified as current in other accounts receivable and \$24.5 million, net of allowance of \$2.8 million, classified as other noncurrent assets in our Consolidated Balance Sheets.

Advances to growers and suppliers are generally repaid to us as produce is harvested and sold. We generally require property liens and pledges of the current season’s produce as collateral to support the advances. Refer to Note 7, “*Allowance for Credit Losses*” for further discussion on advances to growers and suppliers.

We measure the allowance for credit losses on advances to suppliers and growers on a collective (pool) basis when similar risk characteristics exist. We generally pool our advances based on the country which they relate to, and further disaggregate them based on their current or past-due status. We generally consider an advance to a grower to be past due when the advance is not fully paid within the respective growing season. The allowance for advances to growers and suppliers that do not share similar risk characteristics are determined on a case-by-case basis, depending on the expected production for the season and other contributing factors. The advances are typically collateralized by property liens and pledges of the respective season’s produce. Occasionally, we agree to a payment plan with certain growers or take steps to recover the advance via established collateral. We may write-off uncollectible financing receivables after our collection efforts are exhausted.

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

Our historical credit loss experience provides the basis for our estimation of expected credit losses. We generally use a three-year average annual loss rate as the starting point for our estimation, and make adjustments to the historical loss rate to account for differences in current or expected future conditions. We generally monitor macroeconomic indicators as well as other factors, including unfavorable weather conditions and crop diseases, which may impact the collectibility of the advances when assessing whether adjustments to the historical loss rate are necessary.

Recoveries of other accounts receivable previously reserved in the allowance are credited to operating income.

Inventories

Inventories are valued at the lower of cost or net realizable value. Cost is computed using the weighted average cost or first-in first-out methods for finished goods, which includes fresh produce and prepared foods and the first-in first-out, actual cost or average cost methods for raw materials and packaging supplies. Raw materials and packaging supplies inventory consists primarily of agricultural supplies, containerboard, packaging materials, spare parts and fuel. Expenditures on pineapple, melon, vegetable and non-tropical fruit growing crops are valued at the lower of cost or net realizable value and are deferred and charged to cost of products sold when the related crop is harvested and sold. The deferred growing costs included in inventories in our Consolidated Balance Sheets consist primarily of land preparation, cultivation, irrigation and fertilization costs. For the most part, expenditures related to banana crops are expensed in the year incurred due to the continuous nature of the crop.

Inventories consisted of the following (U.S. dollars in millions):

	December 26, 2025	December 27, 2024
Finished goods	\$ 185.0	\$ 200.2
Raw materials and packaging supplies	156.3	157.6
Growing crops	240.6	237.5
Total inventories	<u>\$ 581.9</u>	<u>\$ 595.3</u>

Restricted Cash

At December 26, 2025, we held \$28.5 million in an escrow account pursuant to the terms of the competitive bankruptcy auction under Section 363 as part of our bid for select assets of Del Monte Foods Corporation II Inc. These amounts are presented under prepaid expenses and other current assets on our Consolidated Balance Sheets. See Note 23, "Subsequent Events" for further information.

The following table provides a reconciliation of cash, cash equivalents, and restricted cash in our Consolidated Balance Sheets, that reconcile to the amounts shown on the Consolidated Statements of Cash Flows:

	December 26, 2025	December 27, 2024	December 29, 2023
Cash and cash equivalents	\$ 35.7	\$ 32.6	\$ 33.8
Restricted cash included in:			
Prepaid expenses and other current assets	28.5	—	—
Total cash, cash equivalents and restricted cash	<u>\$ 64.2</u>	<u>\$ 32.6</u>	<u>\$ 33.8</u>

Accounting for Planned Major Maintenance Activities

We account for planned major maintenance activities, such as ship dry-dock activities, consistent with ASC guidance related to "Other Assets and Deferred Costs." We utilize the deferral method of accounting for ship dry-dock activities whereby actual costs incurred are deferred and amortized on a straight-line basis over the period until the next scheduled dry-dock activity.

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)*****Investments in Unconsolidated Companies***

We apply the equity method of accounting to account for investments over which we exert significant influence but do not hold a controlling financial interest, or for investments in limited partnerships where our ownership interest is more than 3%-5%. Under the equity method of accounting, investments are stated at initial cost and are adjusted for subsequent additional investments and our proportionate share of earnings or losses and distributions. Our investments in unconsolidated companies include investments in companies who qualify as investment companies pursuant to Accounting Standards Codification Topic 946, *Financial Services - Investment Companies*. Accordingly, the underlying investments held by investees who qualify as investment companies are generally carried at fair value with unrealized gains and losses resulting from changes in the fair value of these investments recognized as gains or losses in income. As these investees hold investments in private companies, they do not have a readily determinable fair value and are carried on our Consolidated Balance Sheets at net asset value ("NAV"), which approximates fair value. Additionally, due to these investments being carried at NAV, they are excluded from the fair value hierarchy. As a result of the timing of the receipt of valuation data from the investment managers, these investments are generally reported on a three-month lag.

We present the carrying value of our equity method investments within investments in and advances to unconsolidated companies on our Consolidated Balance Sheets. Our proportionate share of the investees' net income or loss is presented under other expense, net on our Consolidated Statement of Operations. We review our investments for impairment when events and circumstances indicate that the decline in fair value of such assets below the carrying value is other-than-temporary. See Note 4, "*Investments in Unconsolidated Companies*" for further information.

Property, Plant and Equipment and Other Long-Lived Assets

Property, plant and equipment additions are recorded at cost. Depreciation is calculated using the straight-line method over the estimated useful lives of the assets, which range from 10 to 40 years for buildings, five to 20 years for maritime and other equipment, including ships and containers, three to 20 years for machinery and equipment, three to seven years for furniture, fixtures and office equipment, three to seven years for computer software, and five to 10 years for automotive equipment including automobiles, tractors, trailers and trucks. Leasehold improvements are amortized over the term of the lease, or the estimated useful life of the related asset, whichever is shorter. See Note 5, "*Property, Plant and Equipment, Net*" for further information.

When assets are retired or disposed of, the costs and accumulated depreciation or amortization are removed from the respective accounts and any related gain or loss is recognized. Maintenance and repairs are charged to expense as incurred. Significant expenditures, which extend the useful lives of assets, are capitalized. Interest is capitalized as part of the cost of construction.

Our long-lived assets other than property, plant and equipment consists of a definite-lived intangible asset. Intangible assets determined to have finite life are amortized over the estimated useful life to reflect the pattern of economic benefits consumed, either on a straight-line or accelerated basis. Our definite-lived intangible asset has a remaining amortization period of 15 years. Amortization expense related to definite-lived intangible assets totaled \$0.1 million for 2025, \$0.1 million for 2024 and \$4.9 million for 2023, and is included in selling, general, and administrative expenses. Refer to Note 6, "*Goodwill and Other Intangible Assets*" for further information.

We review long-lived assets (or asset groups) with identifiable cash flows for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. We consider factors such as historic and forecasted operating results, trends and future prospects, current market value, and other economic and regulatory factors in performing these analyses. In the event that an asset is not recoverable, and the carrying amount of an asset exceeds the asset's fair value, we measure and record an impairment loss for the excess. The fair value of an asset is measured by either determining the expected future discounted cash flow of the asset or by independent appraisal.

For long-lived assets held for sale, we record impairment losses when the carrying amount is greater than the fair value less the cost to sell. We discontinue depreciation of long-lived assets when these assets are classified as held for sale and include these assets as assets held for sale on our Consolidated Balance Sheets.

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)**

We incurred charges related to impairment of long-lived assets of \$48.2 million in 2025, \$2.3 million in 2024, and \$119.7 million in 2023. Such charges are included in asset impairment and other charges, net in the accompanying Consolidated Statements of Operations for the years ended December 26, 2025, December 27, 2024 and December 29, 2023 and are described further in Note 3, "*Asset Impairment and Other Charges, Net*", Note 6, "*Goodwill and Other Intangible Assets*", and Note 18, "*Fair Value Measurements*".

The gain on disposal of property, plant and equipment and subsidiary, net of \$10.3 million during 2025 primarily related to the sale of four carrier vessels, facilities and farmland in Central America, and an office building in Costa Rica, partially offset by the disposal of low-yielding banana crops in Costa Rica. These transactions were primarily accounted for using the guidance in ASC 610 - *Other Income*.

Assets Held for Sale

Assets are classified as held for sale when (1) management approves and commits to a plan to sell the asset, (2) the asset is available for immediate sale in its present condition, subject only to terms that are usual and customary, (3) an active program to locate a buyer and other actions required to complete the plan to sell have been initiated, (4) the sale of the asset is probable and is expected to be completed within one year, (5) the asset is being actively marketed for sale at a price that is reasonable in relation to its current fair value, and (6) actions necessary to complete the plan of sale indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn. Assets held for sale are stated at the lower of net book value or estimated fair value less cost to sell.

Goodwill and Indefinite-Lived Intangible Assets

Goodwill represents the excess of the purchase price of an acquired entity over the fair value of the net tangible and identifiable intangible assets acquired and liabilities assumed in a business combination. We assess goodwill at the reporting unit level on an annual basis as of the first day of our fourth quarter, or more frequently if events or changes in circumstances suggest that goodwill may not be recoverable. Judgment is involved in determining if an indicator of impairment has occurred.

For those reporting units where events or changes in circumstances indicate that potential impairment indicators exist, we perform a quantitative assessment to determine whether the carrying amount of goodwill can be recovered. When performing the annual goodwill impairment test, we may start with an optional qualitative assessment as allowed for under the accounting guidance. As part of the qualitative assessment, we evaluate all events and circumstances, including both positive and negative events, in their totality, to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If we bypass the qualitative assessment, or if the qualitative assessment indicates that a quantitative analysis should be performed, we evaluate goodwill for impairment by comparing the fair value of a reporting unit to its carrying value, including the associated goodwill. We generally estimate a reporting unit's fair value using a discounted cash flow approach which is dependent on several estimates and assumptions related to forecasts of future revenues, cost of sales, expenses and the weighted-average cost of capital for each reporting unit. If the carrying amount of the reporting unit exceeds the estimated fair value, an impairment charge is recorded to reduce the carrying value to the estimated fair value. The impairment of goodwill is limited to the total amount of goodwill allocated to the reporting unit. Any adverse changes in the estimates and assumptions used in our goodwill impairment test could have an impact on the recoverability of goodwill and could have a material impact on our Consolidated Financial Statements. We incurred charges related to impairment of goodwill of \$7.2 million in 2025, \$1.4 million in 2024, and \$21.6 million in 2023 as described further in Note 3, "*Asset Impairment and Other Charges, Net*", Note 6, "*Goodwill and Other Intangible Assets*" and Note 18, "*Fair Value Measurements*".

An intangible asset with an indefinite useful life is not amortized but assessed for impairment at least annually, or sooner if indications of possible impairment are identified. When performing the annual impairment test, we first may start with an optional qualitative assessment to determine whether it is not more likely than not that our indefinite-lived intangible assets are impaired. As part of a qualitative assessment, we evaluate relevant events and circumstances that could affect the significant inputs used to determine the fair value of the indefinite-lived intangible asset. If we bypass the qualitative assessment, or if the qualitative assessment indicates that a quantitative analysis should be performed, we evaluate our indefinite-lived intangible assets for impairment by comparing the fair value of the asset to its carrying amount. We generally estimate the fair value of our indefinite-lived intangible assets using a royalty savings method.

See Note 6, "*Goodwill and Other Intangible Assets*" for further discussion.

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)*****Revenue Recognition***

Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration we expect to be entitled to in exchange for those products or services. We record revenue based on a five-step model in accordance with the accounting guidance. For our customer contracts, we identify the performance obligations (products or services), determine the transaction price, allocate the contract transaction price to the performance obligations, and recognize the revenue when the performance obligation is fulfilled, which is when the product is shipped to or received by the customer, depending on the specific terms of the arrangement. Substantially all our revenues are recorded at a point in time with exception of our third-party freight and logistic services business which is recorded over time.

Product sales are recorded net of variable consideration, such as provisions for returns, discounts and allowances. Such provisions are calculated using historical averages adjusted for any expected changes due to current business conditions. Consideration given to customers for cooperative advertising is recognized as a reduction of revenue except to the extent that there is a distinct good or service, in which case the expense is classified as selling, general, and administrative expense. Provisions for customer volume rebates are based on achieving a certain level of purchases and other performance criteria that are established on a program by program basis. These rebates are estimated based on the expected amount to be provided to the customers and are recognized as a reduction of revenue.

We expense incremental costs of obtaining a contract, if the contract period is for one year or less. These costs are included in selling, general and administrative expenses. Otherwise, incremental contract costs are recognized as an asset on our Consolidated Balance Sheets and amortized over time as promised goods and services are transferred to a customer. Our contracts are generally less than one year and incremental costs of obtaining a contract are not material. We account for shipping and handling costs as costs to fulfill a contract and not as performance obligations to our customers. We also exclude taxes collected from our customers, assessed by government authorities that are both imposed on and concurrent with a specific revenue-producing transaction, from our determination of the transaction price. We do not adjust the promised amount of consideration for the effects of a significant financing component if the period between the transfer of the promised good or service to a customer and the customer payment is one year or less.

Cost of Products Sold

Cost of products sold is primarily made up of two elements: product costs and logistics costs.

Product costs - primarily composed of cultivation (the cost of growing crops), harvesting, packaging, labor, depreciation and farm administration. Product cost for produce obtained from independent growers is composed of procurement and packaging costs.

Logistics costs - include land and sea transportation and expenses related to port facilities and distribution centers. Sea transportation cost is the most significant component of logistics costs and is comprised of:

- Ship operating expenses - include operations, maintenance, depreciation, insurance, fuel, and port charges.
- Chartered ship costs - include the cost of chartering the ships, fuel and port charges.
- Container equipment-related costs - include leasing expense and in the case of owned equipment, also depreciation expense.
- Third-party containerized shipping costs - include the cost of using third-party shipping in our logistics operations.

Advertising and Promotional Costs

We expense advertising and promotional costs as incurred. Advertising and promotional costs, which are included in selling, general and administrative expenses, were \$10.7 million for 2025, \$12.7 million for 2024 and \$10.5 million for 2023.

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)*****Income Taxes***

Deferred income taxes are recognized for the tax consequences in future years of differences between the tax basis of assets and liabilities and their financial reporting amounts at each year end, based on enacted tax laws and statutory tax rates applicable to the year in which the differences are expected to affect taxable income. Valuation allowances are established when it is deemed more likely than not that some portion or all of the deferred tax assets will not be realized.

We account for income tax uncertainties consistent with the guidance included in ASC 740 - *Income Taxes*, which clarifies the accounting for uncertainty in income taxes recognized in a company's financial statements and prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The ASC also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition.

See Note 9, "*Income Taxes*" for more information.

Contingencies

Estimated losses from contingencies are recognized if it is probable that an asset has been impaired or a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. Gain contingencies are not reflected in the financial statements until realized. We use judgment in assessing whether a loss contingency is probable and estimable. Actual results may differ from these estimates.

See Note 16, "*Commitments and Contingencies*" for more information.

Foreign Currency Translation and Transactions

For our operations in countries where the functional currency is other than the U.S. dollar, balance sheet amounts are translated using the exchange rate in effect at the balance sheet date. Income statement amounts are translated monthly using the average exchange rate for the respective month. The gains and losses resulting from the changes in exchange rates from year-to-year and the effect of exchange rate changes on intercompany transactions of long-term investment nature are recorded as a component of accumulated other comprehensive income or loss as currency translation adjustments.

For our operations where the functional currency is the U.S. dollar, non-monetary balance sheet amounts are remeasured at historical exchange rates. Other balance sheet amounts are remeasured at the exchange rates in effect at the balance sheet date. Income statement accounts, excluding those items of income and expenses that relate to non-monetary assets and liabilities, are remeasured at the average exchange rate for the month. These remeasurement adjustments are included in the determination of net income and are included in other expense, net.

Other expense, net, in the accompanying Consolidated Statements of Operations includes a net foreign exchange loss of \$3.2 million for 2025, \$10.8 million for 2024, and \$10.4 million for 2023. These amounts include the effect of foreign currency remeasurement and realized foreign currency transaction gains and losses.

Other Expense, Net

In addition to foreign currency gains and losses described above, other expense, net, also includes other non-operating income and expense items.

Leases

We lease property, plant and equipment for use in our operations including agricultural land, office facilities and refrigerated containers. We account for leases under the scope of ASC 842 - *Leases* which requires leases with durations greater than twelve months to be recognized on the balance sheet. We have lease agreements with lease and non-lease components, and we have made an accounting policy election to account for these as a single lease component.

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)**

We evaluate our leases at inception or at any subsequent modification and classify them as either finance or operating leases. For leases with terms greater than 12 months, we recognize a related asset (“right-of-use asset”) and obligation (“lease liability”) on the lease commencement date, calculated as the present value of the future minimum lease payments over the lease term. Right-of-use assets represent our right to use an underlying asset for the lease term and lease liabilities represent our obligation to make lease payments arising from the lease. Certain leases include one or more options to renew or options to terminate, which are generally at our discretion. Any option or renewal periods that we determine are reasonably certain of being exercised are included in the lease term, and are used in calculating the right-of-use asset and lease liabilities. Many of our leases also include predetermined fixed escalation clauses. We recognize rental expense for operating leases that contain predetermined fixed escalation clauses on a straight-line basis over the expected term of the lease. Our lease agreements do not contain any residual value guarantees.

When available, we use the rate implicit in the lease to discount lease payments to present value; however, most of our leases do not provide a readily determinable implicit rate. Therefore, we must estimate our incremental borrowing rate to discount the lease payments based on information available at lease commencement.

For finance leases, we recognize interest expense and amortization of the right-of-use asset, and for operating leases, we recognize lease expense on a straight-line basis over the lease term.

See Note 10, “*Leases*” for more information.

Fair Value Measurements

Fair value is measured as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In developing its fair value estimates, we use the following hierarchy:

- Level 1 - Quoted prices in active markets for identical assets or liabilities.
- Level 2 - Observable market-based inputs or unobservable inputs that are corroborated by market data.
- Level 3 - Significant unobservable inputs that are not corroborated by market data. Generally, these fair value measures are model-based valuation techniques such as discounted cash flows using our own estimates and assumptions or those expected to be used by market participants.

We measure the fair value of financial instruments, such as derivatives, on an ongoing basis. We measure fair value for non-financial assets when a valuation is necessary, such as for impairment of long-lived and indefinite-lived assets when indicators of impairment exist.

See Note 18, “*Fair Value Measurements*” for more information.

Share-Based Compensation

Compensation expense for all share-based awards expected to vest is measured at fair value on the date of grant and recognized on a straight-line basis over the related service period, which is generally the vesting period of each award. Forfeitures are recognized as they occur. Our share-based awards consist of performance stock units and restricted stock units, and are granted to employees and members of our Board of Directors which meet the definition of employees under the accounting guidance. The fair value of our share-based awards is determined based on our stock price on the date of grant.

See Note 15, “*Share-Based Compensation*” for more information.

Derivative Financial Instruments

We recognize the value of derivative instruments as either assets or liabilities in the statement of financial position at fair value. The accounting for changes in the fair value (i.e., gains or losses) of a derivative instrument depends on whether it has been designated as a hedge and qualifies as part of a hedging relationship. The accounting also depends on the type of hedging relationship, whether a cash flow hedge, a fair value hedge, or hedge of a net investment in a foreign operation.

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)**

We use derivative financial instruments primarily to reduce our exposure to adverse fluctuations in foreign exchange rates and variable interest rates. Upon entry into a derivative instrument, we formally designate and document the financial instrument as a hedge of a specific underlying exposure, as well as the risk management objectives and strategies for undertaking the hedge transaction. Derivatives are recorded in the Consolidated Balance Sheets at fair value in prepaid expenses and other current assets, other non-current assets, accounts payable and accrued expenses or other non-current liabilities, depending on whether the amount is an asset or liability and is of a short-term or long-term nature.

We designate our derivative financial instruments as cash flow hedges. A cash flow hedge requires that the change in the fair value of a derivative instrument be recognized in other comprehensive income, a component of shareholders' equity, and reclassified into earnings in the same period or periods during which the hedged transaction affects earnings and is presented in the same income statement line item as the earnings effect of the hedged item. We also classify the cash flows from our cash flow hedges in the same category as the items being hedged on our Consolidated Statements of Cash Flows based on the fact that our cash flow hedges do not contain an other-than-insignificant financing element at inception.

In the event that hedge accounting is discontinued, any changes in fair value of the associated derivatives since the date of dedesignation are recognized in other expense, net. Cash flows subsequent to the date of dedesignation are classified within investing activities in our Consolidated Statements of Cash Flows.

See Note 17, "*Derivative Financial Instruments*" for more information.

Share Repurchases

When stock is retired or purchased for constructive retirement, the purchase price is initially recorded as a reduction to the par value of the shares repurchased, with any excess purchase price over par value recorded as a reduction to additional paid-in capital and retained earnings.

Retirement and Other Employee Benefits

We sponsor a number of defined benefit pension plans and post-retirement plans. The most significant of these plans cover employees in the United States, United Kingdom, Costa Rica and Guatemala. We recognize the funded status of our defined benefit pension and post-retirement plans in our Consolidated Balance Sheets, with changes in the funded status recognized primarily through accumulated other comprehensive loss in the year in which the changes occur. Actuarially-determined liabilities related to pension and post-retirement benefits are recorded based on estimates and assumptions. Factors used in developing estimates of these liabilities include assumptions related to discount rates, rates of return on investments, benefit payment patterns and other factors, and are periodically updated. We provide disclosures about our plan assets, including investment strategies, major categories of plan assets, concentrations of risk within plan assets, and valuation techniques used to measure the fair value of plan assets consistent with the fair value hierarchy framework.

See Note 14, "*Retirement and Other Employee Benefits*" for more information.

Redeemable Noncontrolling Interest

As part of the Mann Packing acquisition in 2018, we acquired a put option exercisable by the 25% shareholder of one of the acquired subsidiaries. The put option allowed the noncontrolling shareholder to sell its 25% noncontrolling interest to us for a multiple of the subsidiary's adjusted earnings on or after April 1, 2023. As the put option was outside of our control, the estimated redemption value of the 25% noncontrolling interest was presented as a redeemable noncontrolling interest outside of permanent equity on our Consolidated Balance Sheet. The redeemable noncontrolling interest was recognized at the higher of (1) the initial carrying amount adjusted for accumulated earnings and distributions or (2) the contractually-defined redemption value as of the balance sheet date. In June 2023, the noncontrolling shareholder exercised its put option right and we closed the purchase of the remaining 25% of this subsidiary.

See Note 22, "*Redeemable Noncontrolling Interest Acquisition*" for more information.

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)*****New Accounting Pronouncements - Adopted***

In December 2023, the FASB issued ASU 2023-09, *Income Taxes (Topic 740) - Improvements to Income Tax Disclosures*. This ASU amends ASC 740 to enhance the nature of disclosures for income taxes. Specifically, the ASU requires public business entities to disclose additional information in categories defined within the ASU within the reconciliation of the effective tax rate to the statutory rate for federal, state and foreign income taxes. Additionally, the ASU requires disclosure of taxes paid, net of refunds received, disaggregated by federal, state and foreign taxes. ASU 2023-09 is effective for years beginning after December 15, 2024 with early adoption permitted. We have adopted this guidance, which did not have an impact on our financial condition, results of operations and cash flows, although it did result in expanded disclosures as included in Note 9, "Income Taxes".

New Accounting Pronouncements - Not Yet Adopted

In November 2024, the FASB issued ASU 2024-03, *Income Statement - Reporting Comprehensive Income - Expense Disaggregation Disclosures (Subtopic 220-40)*. This ASU amends Accounting Standards Codification (ASC) 220 to require additional disclosure of certain expense information on an annual and interim basis, including but not limited to the amounts of purchases of inventory, employee compensation and depreciation and intangible asset amortization included within each income statement expense caption, as applicable. ASU 2024-03 is effective for annual reporting periods beginning after December 15, 2026, and interim reporting periods beginning after December 15, 2027 with early adoption permitted. ASU 2024-03 should be applied prospectively; however, retrospective application is permitted. We are currently evaluating the impact of the adoption of this ASU on our consolidated financial statements.

In September 2025, the FASB issued ASU 2025-06, *Intangibles - Goodwill and Other - Internal-Use Software (Subtopic 350-40): Targeted Improvements to the Accounting for Internal-Use Software ("ASU 2025-06")*. This ASU amends ASC 350 to now require entities to commence capitalizing eligible software costs when (i) management has authorized and committed to funding the software project, and (ii) it is probable that the project will be completed and the software will be used to perform the function intended. The new standard also supersedes the guidance related to costs incurred to develop a website. ASU 2025-06 is effective for years beginning after December 15, 2027, with early adoption permitted. We are currently evaluating the impact of this ASU on our consolidated financial statements.

Reclassification of Prior Period Presentation

Certain reclassifications of prior periods have been made to our Consolidated Statement of Operations and our operating cash flows within our Consolidated Statement of Cash Flows to conform to the current period presentation. These reclassifications had no effect on our balance sheet, operating and net income, or total cash flows from operating, investing, and financing activities previously presented.

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

3. Asset Impairment and Other Charges, Net

We incurred asset impairment and other charges, net totaling \$59.3 million for 2025, \$4.2 million for 2024 and \$143.4 million for 2023.

The following represents the detail of asset impairment and other charges, net for the year ended December 26, 2025 by reportable segment (U.S. dollars in millions):

	Long-lived and other asset impairment	Exit activity and other charges	Total
Banana segment:			
Philippines impairment of banana-related fixed assets and exit costs ⁽¹⁾	35.7	1.8	37.5
Fresh and value-added products segment:			
Asset impairment and write-offs related to planned divestiture of Mann Packing ⁽²⁾	17.9	—	17.9
Impairment of leased grape farm in Chile and legal settlement accrual ⁽³⁾	0.6	1.5	2.1
Adjustment of Kunia Well Site environmental reserve in Hawaii	—	0.6	0.6
Other fresh and value-added products segment charges	1.2	—	1.2
Total asset impairment and other charges, net	<u>\$ 55.4</u>	<u>\$ 3.9</u>	<u>\$ 59.3</u>

⁽¹⁾ During the year ended December 26, 2025, we abandoned two operations in the Philippines as a result of low profitability and reduced production, including the impact of crop disease. As a result, we incurred charges of \$35.7 million related to the write-off of property, plant and equipment and right-of-use lease assets and \$1.8 million in charges related to restoration and severance costs. Refer to Note 18, "Fair Value Measurements".

⁽²⁾ As a result of our divestiture of the Mann Packing business, including substantially all the operational assets, we recorded \$17.9 million in asset impairment and other charges during the year ended December 26, 2025. These charges included \$15.7 million to reduce the carrying value of the disposal group assets to fair value and \$2.2 million in charges related to software used by the operations of Mann Packing. Refer to Note 6, "Goodwill and other Intangible Assets" and Note 18, "Fair Value Measurements".

⁽³⁾ As a result of low productivity at a leased grape farm in Chile, we recorded impairment charges of approximately \$0.6 million during the year ended December 26, 2025. Additionally, we accrued restoration costs of \$1.5 million in conjunction with a legal settlement made as a result of our termination of the lease.

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

The following represents the detail of asset impairment and other charges, net for the year ended December 27, 2024 by reportable segment (U.S. dollars in millions):

	Long-lived and other asset impairment	Exit activity and other charges (credits)	Total
Banana segment:			
California Air Resource Board reserve ⁽¹⁾	\$ —	\$ 0.5	\$ 0.5
Philippines impairment of banana-related fixed assets	1.2	—	1.2
Fresh and value-added products segment:			
Insurance recovery related to South American warehouse	—	(2.0)	(2.0)
Impairment of vegetable reporting unit goodwill ⁽²⁾	1.4	—	1.4
Impairment of damaged buildings in Central America	1.5	—	1.5
Reduction in repair reserves related to 2023 flooding in Greece ⁽³⁾	(0.5)	—	(0.5)
Chile property and equipment damage due to rain and windstorms	—	0.2	0.2
Other fresh and value-added products segment charges	0.1	—	0.1
Other:			
Legal settlement ⁽⁴⁾	—	1.8	1.8
Total asset impairment and other charges, net	<u>\$ 3.7</u>	<u>\$ 0.5</u>	<u>\$ 4.2</u>

⁽¹⁾ During the year ended December 27, 2024, we recorded a \$0.5 million reserve relating to a regulatory matter. Refer to Note 16, "Commitments and Contingencies" for further information.

⁽²⁾ Refer to Note 6, "Goodwill and Other Intangible Assets," for further information.

⁽³⁾ Due to damages caused by severe flooding during the third quarter of 2023, we recorded reserves related to estimated damages to our property, plant and equipment. During the year ended December 27, 2024, we determined it was appropriate to reduce this reserve by \$0.5 million based on actual repair charges incurred.

⁽⁴⁾ During the year ended December 27, 2024, we entered into a settlement agreement with respect to a litigation matter by a former employee regarding a legacy claim stemming from the 1970s. Accordingly, we incurred charges of \$1.8 million, net of insurance reimbursements, associated with the settlement. Refer to Note 16, "Commitments and Contingencies."

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

The following represents the detail of asset impairment and other charges, net for the year ended December 29, 2023 by reportable segment (U.S. dollars in millions):

	Long-lived and other asset impairment	Exit activity and other charges	Total
Banana segment:			
Impairment of low-yielding banana farms in the Philippines	\$ 3.7	\$ —	\$ 3.7
Fresh and value-added products segment:			
Impairment of fresh and value-added assets in North America ⁽¹⁾	109.6	—	109.6
Impairment of prepared foods reporting unit goodwill ⁽²⁾	21.6	—	21.6
Impairment of low productivity grape vines in South America and related costs	1.7	0.1	1.8
Impairment of low-yielding apple farms in South America	2.6	\$ —	\$ 2.6
Other fresh and value-added products segment charges	0.3	\$ 0.7	\$ 1.0
Other:			
2023 cybersecurity incident expenses ⁽³⁾	—	1.3	1.3
Impairment of assets related to idle land in Central and South America	\$ 1.8	\$ —	\$ 1.8
Total asset impairment and other charges, net	\$ 141.3	\$ 2.1	\$ 143.4

⁽¹⁾ During the year ended December 29, 2023, impairment charges related to our fresh and value-added assets in North America included impairment charges to customer relationships intangible assets of \$88.6 million, trade names of \$8.3 million, and building, land and land improvements of \$12.7 million. Refer to Note 6, "Goodwill and Other Intangible Assets," for further information.

⁽²⁾ Refer to Note 6, "Goodwill and Other Intangible Assets," for further information.

⁽³⁾ During the year ended December 29, 2023, we incurred cybersecurity expenses of \$1.3 million, net of insurance reimbursements received, primarily related to the engagement of specialized legal counsel and other incident response advisors.

4. Investments in and Advances to Unconsolidated Companies

Investments in and advances to unconsolidated companies amounted to \$63.2 million as of December 26, 2025 and \$39.9 million as of December 27, 2024. These investments are accounted for under the equity method of accounting, and primarily relate to investments in limited partnerships and joint ventures in the food, nutrition and agricultural technology sectors. Our investments in unconsolidated companies include investments in companies who qualify as investment companies pursuant to Accounting Standards Codification Topic 946, *Financial Services - Investment Companies* ("ASC 946") and, accordingly, are carried at net asset value ("NAV"), which approximates fair value. Our investments in unconsolidated companies who qualify as investment companies under ASC 946, which make up approximately \$52.9 million of the balance as of December 26, 2025 and \$32.3 million of the balance as of December 27, 2024, cannot be redeemed, but the funds will make distributions through liquidation. The estimate of the liquidation period varies from 2026 to 2037. Total unfunded commitments related to our investments in and advances to unconsolidated companies as of December 26, 2025 were \$12.3 million, of which \$1.7 million was funded during January 2026.

Distributions received from these investments were \$2.5 million for the year ended December 26, 2025 and were not significant for the years ended December 27, 2024 and December 29, 2023. On February 10, 2026, we received a distribution of \$29.6 million as a result of the January 2026 liquidation of an investment fund whose carrying value made up \$23.0 million of our investments in and advances to unconsolidated companies as of December 26, 2025.

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

5. Property, Plant and Equipment, Net

Property, plant and equipment, net consisted of the following (U.S. dollars in millions):

	December 26, 2025	December 27, 2024
Land and land improvements	\$ 648.6	\$ 680.0
Machinery and equipment	559.8	598.7
Buildings and leasehold improvements	529.4	550.4
Maritime equipment (including containers)	204.3	223.3
Furniture, fixtures and office equipment	96.3	101.4
Automotive equipment	68.5	68.6
Construction-in-progress	35.3	21.0
	2,142.2	2,243.4
Less: accumulated depreciation and amortization	(1,022.7)	(1,051.8)
Property, plant and equipment, net	\$ 1,119.5	\$ 1,191.6

Depreciation expense on property, plant and equipment, including assets under finance leases, was \$72.4 million for 2025, \$78.4 million for 2024 and \$79.9 million for 2023.

Shipping containers, machinery and equipment and automotive equipment under finance leases totaled \$10.4 million at December 26, 2025 and \$10.4 million at December 27, 2024. Accumulated amortization for assets under finance leases was \$6.2 million at December 26, 2025 and \$4.7 million at December 27, 2024.

The gain on disposal of property, plant and equipment, net and subsidiary was a gain of \$10.3 million for 2025, \$39.5 million for 2024 and \$37.9 million for 2023. The gain on disposal of property, plant and equipment, net and subsidiary in 2025 was primarily related to the sale of four carrier vessels and two idle properties in Chile, partially offset by the disposal of low-yielding banana crops in Costa Rica. The gain on disposal of property, plant and equipment, net and subsidiary in 2024 was primarily related to the sale of two idle facilities and one warehouse in Chile, a Canadian distribution center, and certain assets of a fresh-cut vegetable subsidiary in North America.

6. Goodwill and Other Intangible Assets

The following table reflects our indefinite-lived intangible assets, including goodwill, and our definite-lived intangible assets along with related accumulated amortization by major category (U.S. dollars in millions):

	December 26, 2025	December 27, 2024
Goodwill	\$ 390.0	\$ 396.3
Indefinite-lived intangible assets:		
Trademarks	31.6	31.7
Definite-lived intangible assets:		
Definite-lived intangible assets	10.6	10.6
Accumulated amortization	(9.1)	(9.1)
Definite-lived intangible assets, net	1.5	1.5
Goodwill and other intangible assets, net	\$ 423.1	\$ 429.5

Indefinite-lived and definite-lived intangible assets are included in intangible assets, net, in the Consolidated Balance Sheets. Our definite-lived intangible assets primarily consist of water rights in South America.

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

The following table reflects the changes in the carrying amount of goodwill by business segment (U.S. dollars in millions):

	Bananas	Fresh and Value-Added Products	Totals
Balance at December 29, 2023	\$ 64.4	\$ 337.5	\$ 401.9
Foreign exchange	(0.2)	—	(0.2)
Goodwill allocated to disposal of fresh-cut vegetable assets	—	(4.0)	(4.0)
Impairment charges	—	(1.4)	(1.4)
Balance at December 27, 2024	\$ 64.2	\$ 332.1	\$ 396.3
Foreign exchange	0.4	0.5	0.9
Goodwill allocated to Mann Packing disposal group	—	(7.2)	(7.2)
Balance at December 26, 2025	<u>\$ 64.6</u>	<u>\$ 325.4</u>	<u>\$ 390.0</u>

In the table above, goodwill is presented net of accumulated impairment losses of \$111.1 million, relating strictly to the fresh and value-added products segment.

Allocation of Goodwill to Mann Packing Disposal Group

During the third quarter of 2025, we entered into a non-binding Letter of Intent pursuant to which we intended to sell the Mann Packing business, a wholly-owned subsidiary of the Company included in our fresh and value-added products segment, including substantially all operating assets. Subsequently, on October 15, 2025, we entered into an Asset Purchase Agreement (the "Mann Divestiture Agreement"), by and among Mann Packing and the Company (collectively, the "Sellers") and CBRT Processing, LLC and True Leaf Holdings, LLC (collectively, the "Buyer") pursuant to which the Buyer agreed to acquire the Mann Packing business and substantially all its operational assets. In accordance with ASC 805 - *Business Combinations*, the Mann Packing Assets constitute a business and, as a result, \$7.2 million of goodwill from our fresh-cut products reporting unit was allocated to the carrying value of the disposal group as determined on a relative fair value basis during the third quarter of 2025. The reporting unit was evaluated for impairment subsequent to the allocation of goodwill and it was determined that the fair value of the reporting unit was in excess of its carrying amount. See Note 18, "*Fair Value Measurements*" for further discussion.

Allocation of Goodwill to Disposal of Fresh Leaf Farm Assets

On October 26, 2024, we entered into an agreement to dispose of certain assets in Fresh Leaf Farms, LLC ("Fresh Leaf Farms"), a wholly owned subsidiary of our Mann Packing business which operated in our fresh and value-added products segment. In accordance with ASC 805 - *Business Combinations*, the sale of the Fresh Leaf Farms' assets constitutes a business, and therefore, we allocated \$4.0 million of goodwill from our fresh-cut reporting unit to the carrying value of the assets sold as determined on a relative fair value basis. The reporting unit was evaluated for impairment subsequent to the allocation of goodwill and it was determined that the fair value of the reporting unit was in excess of its carrying amount. See Note 18, "*Fair Value Measurements*" for further discussion.

Results of 2025 Impairment Tests

We review goodwill for impairment on an annual basis or earlier if indicators of impairment arise. We performed our fourth quarter 2025 annual goodwill impairment test using a quantitative assessment for all reporting units, and specifically an income approach valuation methodology. The results of our impairment test resulted in the fair value of each reporting unit exceeding its respective carrying amount as of the assessment date.

We also evaluated both *Del Monte*® trade names and trademarks related to our prepared foods reporting unit for impairment as of the first day of our fourth quarter of 2025 using the royalty savings method, an income approach valuation methodology. The royalty savings method estimated the fair value of the intangible assets by capitalizing the royalties saved. Both *Del Monte*® trade names and trademarks had fair values that exceeded their carrying amounts.

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

The fair value of the banana reporting unit's goodwill, prepared foods reporting unit's goodwill and the *Del Monte*® prepared foods reporting unit's trade names and trademarks are sensitive to differences between estimated and actual cash flows and changes in the related discount rate used to evaluate the fair value of these assets. If the banana and the prepared foods reporting unit do not perform to expected levels, the related goodwill and the *Del Monte*® trade names and trademarks associated with the prepared foods reporting unit may be at risk for impairment in the future.

The following table highlights the sensitivities of the indefinite-lived intangibles as of December 26, 2025 (U.S. dollars in millions):

	Banana Reporting Unit Goodwill	Prepared Foods Reporting Unit Goodwill	Prepared Foods Reporting Unit <i>Del Monte</i> ® Trade Names and Trademarks
Carrying value of indefinite-lived intangible assets	\$ 64.6	\$ 27.1	\$ 31.7
Approximate percentage by which the fair value exceeds the carrying value based on the annual impairment test	20.1 %	6.8 %	16.5 %
Amount that a one percentage point increase in the discount rate and a 5% decrease in cash flows would cause the carrying value to exceed the fair value and trigger an impairment	\$ 41.9	\$ 27.1	\$ —

Results of 2024 Impairment Tests

Based on the results of our 2024 impairment test and due to underperformance in our vegetable business in North America and reduction in forecasted cash flows, we incurred an impairment charge of \$1.4 million representing the entire goodwill assigned to the vegetable reporting unit.

Results of 2023 Impairment Tests

Based on the results of our 2023 impairment test and due to underperformance in our prepared foods business in North America and Europe, coupled with an increase in the discount rates used, we incurred an impairment charge of \$21.6 million for which the fair value was determined to be \$27.2 million.

In addition, during the fourth quarter of 2023, we identified factors which indicated the carrying amounts of certain fresh and value-added assets associated with Mann Packing may not be recoverable. These factors included (1) a sustained decline in actual and projected sales and gross margins, (2) conclusions reached from management's strategic review of Mann Packing finalized in the fourth quarter of 2023 and (3) impairment charges of goodwill in our prepared foods reporting unit which is included within our fresh and value-added products segment. Based on the results of our recoverability test performed, we determined the carrying amounts of certain fresh and value-added assets exceeded their fair values and during 2023 we recorded non-cash impairment charges of \$109.6 million, including impairment charges to customer relationships intangible assets of \$88.6 million and trade name intangible assets of \$8.3 million.

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

As of December 26, 2025, the estimated amortization expense related to definite-lived intangible assets for the five succeeding years is as follows (U.S. dollars in millions):

Year	Estimated Amortization Expense
2026	\$ 0.1
2027	0.1
2028	0.1
2029	0.1
2030	0.1

7. Allowance for Credit Losses

We estimate expected credit losses on our trade receivables and financing receivables in accordance with Accounting Standards Codification (“ASC”) 326 - *Financial Instruments - Credit Losses*.

Trade Receivables

Trade receivables as of December 26, 2025 were \$376.1 million, net of an allowance of \$38.2 million. Our allowance for trade receivables consists of two components: a \$16.8 million allowance for credit losses and a \$21.4 million allowance for customer claims accounted for under the scope of ASC 606 - *Revenue Recognition*.

As a result of our robust credit monitoring practices, the industry in which we operate, and the nature of our customer base, the credit losses associated with our trade receivables have historically been insignificant in comparison to our annual net sales. We measure the allowance for credit losses on trade receivables on a collective (pool) basis when similar characteristics exist. We generally pool our trade receivables based on the geographic region or country to which the receivables relate. Receivables that do not share similar risk characteristics are evaluated for collectibility on an individual basis.

Our historical credit loss experience provides the basis for our estimation of expected credit losses. We generally use a three-year average annual loss rate as a starting point for our estimation, and make adjustments to the historical loss rate to account for differences in current conditions impacting the collectibility of our receivable pools. We generally monitor macroeconomic indicators to assess whether adjustments are necessary to reflect current conditions.

The table below presents a rollforward of our trade receivable allowance for credit losses for the years ended December 26, 2025 and December 27, 2024 (U.S. dollars in millions):

Trade Receivables	Year ended	
	December 26, 2025	December 27, 2024
Allowance for Credit Losses		
Balance, beginning of period	\$ 11.5	\$ 7.4
Provision for uncollectible amounts	6.1	4.7
Deductions to allowance related to write-offs	(0.6)	(0.4)
Recoveries of amounts previously allowed for	(0.6)	—
Foreign exchange effects	0.4	(0.2)
Balance, end of period	\$ 16.8	\$ 11.5

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

Financing Receivables

Financing receivables are included in other accounts receivable, net on our Consolidated Balance Sheet if due in less than one year and other noncurrent assets on our Consolidated Balance Sheet if due in greater than one year. Financing receivables are recognized at amortized cost less an allowance for estimated credit losses. Financing receivables include seasonal advances to growers and suppliers, which are usually short-term in nature, and other financing receivables.

A significant portion of the fresh produce we sell is acquired through supply contracts with independent growers. In order to ensure the consistent high quality of our products and packaging, we make advances to independent growers and suppliers. These growers and suppliers typically sell all of their production to us and make payments on their advances as a deduction to the agreed upon selling price of the fruit or packaging material. The majority of the advances to growers and suppliers are for terms less than one year and typically span a growing season. In certain cases, there may be longer term advances with terms of up to ten years.

We measure the allowance for credit losses on advances to suppliers and growers on a collective (pool) basis when similar risk characteristics exist. We generally pool our advances based on the country which they relate to, and further disaggregate them based on their current or past-due status. We generally consider an advance to a grower to be past due when the advance is not fully paid within the respective growing season. The allowance for advances to growers and suppliers that do not share similar risk characteristics are determined on a case-by-case basis, depending on the expected production for the season and other contributing factors. The advances are typically collateralized by property liens and pledges of the respective season's produce. Occasionally, we agree to a payment plan with certain growers or take steps to recover the advance via established collateral. We may write-off uncollectible financing receivables after our collection efforts are exhausted. Historically, our credit losses associated with our advances to suppliers and growers have not been significant.

Our historical credit loss experience provides the basis for our estimation of expected credit losses. We generally use a three-year average annual loss rate as a starting point for our estimation, and make adjustments to the historical loss rate to account for differences in current or expected future conditions. We generally monitor macroeconomic indicators as well as other factors, including unfavorable weather conditions and crop diseases, which may impact the collectibility of the advances when assessing whether adjustments to the historical loss rate are necessary.

The following table details the advances to growers and suppliers based on their credit risk profile (U.S. dollars in millions):

	December 26, 2025		December 27, 2024	
	Current	Past-Due	Current	Past-Due
Gross advances to growers and suppliers	\$ 10.7	\$ 22.3	\$ 18.8	\$ 16.1

The allowance for advances to growers and suppliers and the related financing receivables for the years ended December 26, 2025 and December 27, 2024 were as follows (U.S. dollars in millions):

	Year ended	
	December 26, 2025	December 27, 2024
Allowance for advances to growers and suppliers:		
Balance, beginning of period	\$ 12.1	\$ 7.5
Provision for uncollectible amounts	15.8	5.6
Deductions to allowance related to write-offs	(0.8)	(1.0)
Balance, end of period	\$ 27.1	\$ 12.1

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

8. Accounts Payable and Accrued Expenses

Accounts payable and accrued expenses consisted of the following (U.S. dollars in millions):

	December 26, 2025	December 27, 2024
Trade payables	\$ 237.9	\$ 228.0
Accrued fruit purchases	17.3	30.1
Ship and port operating expenses	17.3	20.1
Warehouse and distribution costs	24.0	22.5
Payroll and employee benefits	88.1	88.9
Accrued promotions	23.5	29.1
Other accrued expenses	59.2	57.3
Accounts payable and accrued expenses	<u>\$ 467.3</u>	<u>\$ 476.0</u>

Other accrued expenses are primarily composed of accruals for purchases received but not invoiced and other accruals, none of which individually exceed 5% of current liabilities.

9. Income Taxes

We adopted ASU 2023-09, *Income Taxes (Topic 740): Improvements to Income Tax Disclosures* on a prospective basis for the year ended December 26, 2025.

The provision for income taxes consisted of the following (U.S. dollars in millions):

	Year ended		
	December 26, 2025	December 27, 2024	December 29, 2023
Current:			
U.S. federal income tax	\$ 0.2	\$ 0.1	\$ 0.1
State	1.9	0.7	1.0
Non-U.S.	27.3	24.8	20.8
	<u>29.4</u>	<u>25.6</u>	<u>21.9</u>
Deferred:			
U.S. federal income tax	(0.6)	0.3	(1.1)
State	(0.7)	0.2	(0.2)
Non-U.S.	9.3	3.0	(2.5)
	<u>8.0</u>	<u>3.5</u>	<u>(3.8)</u>
	<u>\$ 37.4</u>	<u>\$ 29.1</u>	<u>\$ 18.1</u>

Income before income taxes consisted of the following (U.S. dollars in millions):

	Year ended		
	December 26, 2025	December 27, 2024	December 29, 2023
U.S.	\$ 2.4	\$ 8.5	\$ (136.4)
Non-U.S.	128.5	162.2	152.9
	<u>\$ 130.9</u>	<u>\$ 170.7</u>	<u>\$ 16.5</u>

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

In accordance with the updated requirements of ASU 2023-09 for the year ended December 26, 2025, a reconciliation of the U.S. federal statutory income tax rate to the effective tax rate are explained in the following (U.S. dollars in millions):

	December 26, 2025	
	Amount	Rate
U.S. federal statutory income tax at 21%	\$ 27.5	21.0 %
State and local income taxes, net of federal income tax effect ^(a)	2.0	1.6 %
Enactment of new tax laws	0.2	0.2 %

(a) State taxes in California, Texas, North Carolina and Pennsylvania made up the majority (greater than 50 percent) of this category.

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

The Company has a subsidiary that operates in a jurisdiction with a statutory tax regime which provides corporate income tax incentives for qualifying activities, subject to compliance with certain operational and investment requirements for an initial period of 8 years, expiring on December 31, 2031, with the opportunity to renew. The aggregate reduction in income tax expense attributable to this was approximately \$19.8 million. The impact on diluted earnings per share was \$0.41 for the year ended December 26, 2025.

The differences between the reported provision for income taxes and income taxes computed at the U.S. statutory federal income tax rate for years prior to the adoption of ASU 2023-09 are explained in the following reconciliation (U.S. dollars in millions):

	Year Ended	
	December 27, 2024	December 29, 2023
Income tax provision computed at the U.S. statutory federal rate	\$ 35.9	\$ 3.4
Effect of tax rates on non-U.S. operations	(31.2)	(70.8)
Provision for uncertain tax positions	(1.0)	1.5
Non-deductible interest	22.3	23.1
Foreign exchange	(18.2)	8.1
Non-deductible differences	1.3	(0.7)
Non-taxable income/loss	(2.1)	(0.5)
Non-deductible impairment charges	0.7	5.4
Other	2.1	0.8
State tax benefit	0.5	(4.4)
Other taxes in lieu of income	5.8	3.5
Increase in valuation allowance ⁽¹⁾	13.0	48.7
Provision for income taxes	<u>\$ 29.1</u>	<u>\$ 18.1</u>

⁽¹⁾ The increase in valuation allowance includes effects of foreign exchange and adjustments to deferred tax balances which were fully offset by valuation allowance.

The table below provides the updated requirements of ASU 2023-09 for cash paid for income taxes, net of refunds during the year ended December 26, 2025:

Cash Paid for Income Taxes:

U.S. federal	\$ —
U.S. state and local	0.9
Non-U.S.	
Chile	2.0
Costa Rica	1.4
Guatemala	3.4
Mexico	3.3
Saudi Arabia	3.0
Other foreign jurisdictions	4.2
Total	<u>\$ 18.2</u>

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

Deferred income tax assets and liabilities consisted of the following (U.S. dollars in millions):

	December 26, 2025	December 27, 2024
Deferred tax liabilities:		
Allowances and other accrued liabilities	\$ (2.0)	\$ (0.5)
Inventories	(16.0)	(16.8)
Property, plant and equipment	(65.1)	(69.8)
Equity in earnings of unconsolidated companies	(6.0)	(2.7)
Pension obligations	(3.1)	(2.7)
Other noncurrent deferred tax liabilities	(27.1)	(26.8)
ROU assets	(24.8)	(17.8)
Total noncurrent deferred tax liabilities	<u>\$ (144.1)</u>	<u>\$ (137.1)</u>
Deferred tax assets:		
Allowances and other accrued assets	\$ 21.3	\$ 19.0
Inventories	3.1	6.2
Pension obligations	26.6	23.2
Property, plant and equipment	3.1	2.9
Post-retirement benefits other than pension	0.9	2.8
Net operating loss carryforwards	418.1	408.0
Capital loss carryover	4.1	3.2
Other noncurrent assets	123.6	124.5
Operating lease	28.4	19.4
Total noncurrent deferred tax assets	<u>629.2</u>	<u>609.2</u>
Valuation allowance	(518.8)	(499.8)
Total deferred tax assets, net	<u>110.4</u>	<u>109.4</u>
Net deferred tax liabilities	<u>\$ (33.7)</u>	<u>\$ (27.7)</u>

The valuation allowance increased by \$19.0 million in 2025. The increase in 2025 relates primarily to valuation allowance on additional net operating loss carryforwards combined with the effect of a change in judgment about our ability to realize deferred tax assets in future years, due to our current and foreseeable operations.

At December 26, 2025, we are no longer permanently reinvested on certain foreign earnings. Accordingly, there is a deferred tax liability of \$0.9 million as of December 26, 2025 related to the foreign earnings which are not considered to be permanently reinvested. Additionally, the undistributed earnings of our foreign subsidiaries amounted to \$625.5 million. Those earnings are considered to be either indefinitely reinvested, or the earnings could be distributed tax free. To the extent the earnings are considered indefinitely reinvested, determination of the amount of the unrecognized deferred tax liability is not practicable due to the complexities associated with its hypothetical calculation.

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

At December 26, 2025, we had approximately \$1,640.2 million of federal and foreign tax operating loss carryforwards expiring as follows (U.S. dollars in millions):

Expires:		
2026	\$	3.5
2027		1.2
2028		5.8
2029		6.8
2030 and beyond		865.9
No expiration		757.0
	\$	<u>1,640.2</u>

A reconciliation of the beginning and ending amount of uncertain tax positions excluding interest and penalties is as follows (U.S. dollars in millions):

	December 26, 2025	December 27, 2024	December 29, 2023
Beginning balance	\$ 4.7	\$ 6.4	\$ 6.1
Gross increases - current-period tax positions	2.1	0.5	1.2
Settlements	—	(1.0)	(1.1)
Lapse of statute of limitations	(0.9)	(1.0)	—
Foreign exchange	—	(0.2)	0.2
Ending balance	<u>\$ 5.9</u>	<u>\$ 4.7</u>	<u>\$ 6.4</u>

We accrued \$9.9 million in 2025 and \$7.6 million in 2024, for uncertain tax positions, including interest and penalties that, if recognized would affect the effective income tax rate.

The tax years 2012-2024 remain subject to examination by taxing authorities throughout the world in major jurisdictions, such as Costa Rica, Luxembourg, Switzerland and the United States.

We classify interest and penalties on uncertain tax positions as a component of income tax expense in the Consolidated Statements of Operations. Accrued interest and penalties related to uncertain tax positions are \$4.0 million and \$2.8 million for December 26, 2025 and December 27, 2024, respectively and are included in other noncurrent liabilities.

In connection with the examination of the tax returns in three foreign jurisdictions, the taxing authorities have issued income tax deficiencies primarily related to transfer pricing aggregating approximately \$260.6 million (including interest and penalties) for tax years 2012 through 2021. We strongly disagree with the proposed adjustments and have filed or intend to file a protest with each of the taxing authorities.

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)**

In one of the foreign jurisdictions, we are currently contesting tax assessments related to the 2012-2015 audit years and the 2016 audit year in both the administrative court and the judicial court. During 2019 and 2020, we filed actions contesting the tax assessment in the administrative office. Our initial challenge to each of these tax assessments was rejected, and we subsequently lost our appeals at the administrative court. We have subsequently filed actions to contest each of these tax assessments in the country's judicial courts. In addition, we have filed a request for injunction to the judicial court to stay the tax authorities' collection efforts for these two tax assessments, pending final judicial decisions. The court granted our injunction with respect to the 2016 audit year, however denied our injunction with respect to the 2012-2015 audit years. We timely appealed the denial of the injunction, and on August 10, 2022 the appellate court overturned the denial and granted our injunction for the 2012-2015 audit years with a trial date set for July 4, 2025. During June 2025, we were notified of the hearing being suspended until further notice due to a pending constitutional remedy affecting a rule included in the arguments. Pursuant to local law, we registered real estate collateral with an approximate fair market value of \$7.3 million in connection with the grant of the 2016 audit year injunction. This real estate collateral has a net book value of \$3.8 million as of the year ended December 26, 2025. In addition, in connection with the grant of the 2012-2015 audit year injunction, we registered real estate collateral with an approximate fair market value of \$30.6 million, and a net book value of \$4.6 million as of the year ended December 26, 2025. The registration of this real estate collateral does not affect our operations in the country.

In the second foreign jurisdiction, the administrative court denied our appeal, and on March 4, 2020 we filed an action in the judicial court to contest the administrative court's decision. The case is still pending.

In the third foreign jurisdiction, we received tax assessments related to 2018-2021 audit years. We have filed objections contesting these assessments and have subsequently initiated appeals. Subsequent to December 26, 2025, we received an unfavorable decision related to the appeals. We will continue to contest these assessments and have pursued further appeal through the applicable appellate forum.

We will continue to vigorously contest the adjustments and to exhaust all administrative and judicial remedies necessary in all jurisdictions to resolve the matters, which could be a lengthy process.

We regularly assess the likelihood of adverse outcomes resulting from examinations such as these to determine the adequacy of our tax reserves. Accordingly, during the year ended December 26, 2025, we accrued \$2.9 million based on our current evaluation of the proposed adjustments. There can be no assurance that these matters will be resolved in our favor, and an adverse outcome of either matter, or any future tax examinations involving similar assertions, could have a material effect on our financial condition, results of operations and cash flows.

Additionally, the European Union (EU) Member States formally adopted the EU's Pillar Two Directive, which generally provides for a minimum effective tax rate of 15%, as established by the Organization for Economic Co-operation and Development (OECD) Pillar Two Framework. Pursuant to the implementation dates prescribed in the Directive, the rules became effective for the Company for the 2025 fiscal year. A significant number of other countries are expected to also implement similar legislation with varying effective dates in the future. To date, the Company has determined that there is a global minimum tax liability of \$2.8 million as a result of Pillar Two, as certain jurisdictions have satisfied the safe harbor test to mitigate any minimum tax under Pillar Two. The Company continues to monitor its jurisdictions for any legislative changes.

On July 4, 2025, the One Big Beautiful Bill Act ("OBBBA") was enacted in the U.S. The OBBBA includes significant provisions, such as the permanent extension of certain expiring provisions of the Tax Cuts and Jobs Act, modifications to the international tax framework and the restoration of favorable tax treatment for certain business provisions. The legislation has multiple effective dates, with certain provisions effective in 2025 and others implemented through 2027. For the year ended December 26, 2025, the impact of OBBBA on our consolidated financial statements is immaterial. We are continuing to evaluate the effects of OBBBA for provisions that become effective in future periods.

10. Leases

We lease property and equipment under operating and finance leases. We evaluate our leases at inception or at any subsequent modification and classify them as either finance or operating leases. For leases with terms greater than 12 months, we recognize a related right-of-use asset and lease liability on the lease commencement date, calculated as the present value of the future minimum lease payments over the lease term. Right-of-use assets represent our right to use an underlying asset for the lease term and lease liabilities represent our obligation to make lease payments arising from the lease.

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)**

Certain leases include one or more options to renew or options to terminate, which are generally at our discretion. Any option or renewal periods that we determine are reasonably certain of being exercised are included in the lease term, and are used in calculating the right-of-use asset and lease liability. Our lease agreements do not contain any residual value guarantees. We do not separate lease and non-lease components of contracts.

When available, we use the rate implicit in the lease to discount lease payments to present value; however, most of our leases do not provide a readily determinable implicit rate. Therefore, we must estimate our incremental borrowing rate to discount the lease payments based on information available at lease commencement.

Our operating lease arrangements include leases of agricultural land and certain property, plant, and equipment, including office facilities and refrigerated containers. Many of our leases include predetermined fixed escalation clauses. We recognize rental expense for operating leases on a straight-line basis over the expected term of the lease. We also enter into ship charter agreements for the transport of our fresh produce to markets worldwide. As of the year ended 2025, one of our ships is chartered. The remaining term for our chartered ship is approximately 12 months.

In connection with our divestiture of the Mann Packing business during the fourth quarter of 2025, we entered into a five-year lease as lessor for our Gonzales, California processing facility commencing in December 2025. The lease provides the lessee the option to renew the lease for an additional five-year term as well as a purchase option which can be exercised annually as described in the lease agreement. No lease income was recognized under this lease agreement during 2025 and 2024.

During the year ended December 27, 2024, we entered into an agreement ("the Sale Agreement") to dispose of certain assets in Fresh Leaf Farms, LLC, a wholly owned subsidiary of our Mann Packing business. In conjunction with the Sale Agreement, we entered into a lease termination agreement and an assignment and assumption agreement with the buyer of the Fresh Leaf Farms assets which resulted in the termination of two of our leases. As a result of the termination, we recognized a gain of \$0.3 million which is included in gain on disposal of property, plant and equipment, net and subsidiary on our Consolidated Statement of Operations for the year ended December 27, 2024.

During the year ended December 29, 2023, our 60% owned joint venture in Saudi Arabia entered into a sale and purchase agreement to sell two distribution centers and related assets for a total purchase price of \$67.6 million. Contemporaneously with the execution of the sale and purchase agreement, we entered into an operating lease agreement in which we leased back approximately 31% of the facilities for a term of five years. The lease agreement allows for an option to renew for additional terms, subject to the written agreement of both parties.

Our finance lease arrangements include leases of refrigerated containers. For finance leases, we recognize interest expense and amortization of the right-of-use asset.

Less: imputed interest	18.3	—
Total lease liabilities	\$ 171.3	\$ 4.7

11. Debt

Credit Facility

On October 1, 2019, we entered into a Second Amended and Restated Credit Agreement (as amended, the “Second A&R Credit Agreement”) with Bank of America, N.A. as administrative agent and BofA Securities, Inc. as sole lead arranger and sole bookrunner and certain other lenders. The Second A&R Credit Agreement provided for a five-year, \$0.9 billion syndicated senior unsecured revolving credit facility maturing on October 1, 2024. The Second A&R Credit Agreement was subsequently amended on December 30, 2022, to replace the Eurocurrency Rate with the Term Secured Overnight Financing Rate ("Term SOFR") effective January 3, 2023.

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

On February 21, 2024, we entered into Amendment No. 2 to the Second Amended and Restated Credit Agreement (the "2024 Amended Credit Facility") with Bank of America, N.A. as administrative agent and BofA Securities, Inc. as sole lead arranger and sole bookrunner and certain other lenders. The 2024 Amended Credit Facility provides for a five-year, \$0.75 billion syndicated senior unsecured revolving credit facility maturing on February 21, 2029. Amounts borrowed under the revolving credit facility accrue interest at a rate equal to the Term SOFR rate plus a margin that ranges from 1.0% to 1.625% based on our Consolidated Leverage Ratio (as defined in the 2024 Amended Credit Facility). The 2024 Amended Credit Facility also permits, under certain conditions, \$200 million of Permitted Receivables Financing (as defined in the 2024 Amended Credit Facility). In addition, we pay a fee on unused commitments at a rate equal to 0.150% to 0.250% based on our Consolidated Leverage Ratio.

The 2024 Amended Credit Facility provides for an accordion feature that permits us, without the consent of the other lenders, to request that one or more lenders provide us with increases in revolving credit facility or term loans up to an aggregate of \$300 million ("Incremental Increases"). The aggregate amount of Incremental Increases can be further increased to the extent that after giving effect to the proposed increase in revolving credit facility commitments or term loans our Consolidated Leverage Ratio, on a pro forma basis, would not exceed 2.75 to 1.00. Our ability to request such increases or term loans is subject to our compliance with customary conditions set forth in the 2024 Amended Credit Facility including compliance, on a pro forma basis, with certain financial covenants and ratios. Upon our request, each lender may decide, in its sole discretion, whether to increase all or a portion of its revolving credit facility commitment or provide term loans.

The 2024 Amended Credit Facility contains similar financial covenants to those included within the Second A&R Credit Agreement. Specifically, it requires us to maintain 1) a Consolidated Leverage Ratio of not more than 3.75 to 1.00 at any time during any period of four consecutive fiscal quarters, subject to certain exceptions and 2) minimum Consolidated Interest Coverage Ratio of not less than 2.25 to 1.00 as of the end of any fiscal quarter. Additionally, it requires us to comply with certain other covenants, including limitations on capital investments, the amount of dividends that can be paid in the future, the amounts and types of liens and indebtedness, material asset sales, and mergers. Under the 2024 Amended Credit Facility, we are permitted to declare or pay cash dividends in any fiscal year up to an amount that does not exceed the greater of (i) an amount equal to (1) the greater of (A) 50% of the Consolidated Net Income (as defined in the 2024 Amended Credit Facility) for the immediately preceding fiscal year or (B) \$25 million (the "Base Dividend Basket") plus (2) commencing in the fiscal year ending December 26, 2025 any portion of the Base Dividend Basket not used in the immediately preceding fiscal year, or (ii) the greatest amount which would not cause the Consolidated Leverage Ratio (determined on a pro forma basis as of the date of declaration or payment) to exceed 3.50 to 1.00. It also provides an allowance for stock repurchases to be an amount not exceeding the greater of (i) (A) \$50,000,000 (the "Base Redemption Basket") plus (B) commencing in the fiscal year ending December 26, 2025, any portion of the Base Redemption Basket not used in the immediately preceding fiscal year or (ii) the greatest amount which would not cause the Consolidated Leverage Ratio (determined on a pro forma basis as of the date of such repurchase) to exceed 3.50 to 1.00. As of December 26, 2025, we were in compliance with all of the covenants contained in the 2024 Amended Credit Facility.

In connection with the 2024 Amended Credit Facility, we paid lender and third-party fees of \$2.2 million associated with the amendment. We concluded that the amendment resulted in a modification of debt and as such, determined that debt issuance costs incurred in connection with the 2024 Amended Credit Facility would be deferred and amortized over the term of the new arrangement. Debt issuance costs of \$1.3 million and \$1.8 million are included in other noncurrent assets on our Consolidated Balance Sheets as of December 26, 2025 and December 27, 2024.

The following is a summary of the material terms of the 2024 Amended Credit Facility and other working capital facilities at December 26, 2025 (U.S. dollars in millions):

	Term	Maturity Date	Interest Rate	Borrowing Limit	Available Borrowings
Bank of America credit facility	5 years	February 21, 2029	4.84%	\$ 750.0	\$ 577.0
Rabobank letter of credit facility	364 days	June 12, 2026	Varies	25.0	18.8
Other working capital facilities	Varies	Varies	Varies	20.9	9.7
				<u>\$ 795.9</u>	<u>\$ 605.5</u>

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

The margin for Term SOFR advances as of December 26, 2025 was 1.00%. We intend to use funds borrowed under the 2024 Amended Credit Facility from time to time for general corporate purposes, which may include working capital needs, capital expenditures, funding of possible acquisitions, share repurchases, and satisfaction of other obligations.

As of December 26, 2025, we applied \$32.0 million to letters of credit and bank guarantees issued from Rabobank Nederland, Bank of America, and other banks.

During 2018, we entered into interest rate swaps in order to hedge the risk of the fluctuation on future interest payments related to our variable rate borrowings from our revolving credit facility. During 2024, outstanding interest rate swaps previously used to hedge the risk of fluctuation on future interest payments reached maturity or were terminated. Refer to Note 17, “*Derivative Financial Instruments*” for further information.

Maturities of long-term debt obligations during the next five years and thereafter are as follows (U.S. dollars in millions):

Fiscal Years	Long-Term Debt
2026	\$ 8.4
2027	8.1
2028	7.6
2029	174.4
2030	—
Thereafter	—
	198.5
Less: Amounts representing interest ⁽¹⁾	(25.5)
	173.0
Less: Current portion	—
Totals, net of current portion of long-term debt and finance lease obligations	\$ 173.0

⁽¹⁾ We utilize a variable interest rate on our long-term debt, and for presentation purposes we have used an assumed average rate of 4.4%.

Cash payments of interest on long-term debt, net of amounts capitalized, were \$13.4 million for 2025, \$20.3 million for 2024 and \$24.2 million for 2023. Capitalized interest expense was \$0.3 million for 2025, \$0.5 million for 2024 and \$0.3 million for 2023.

12. Earnings Per Ordinary Share

Basic net income per share is computed using the weighted average number of common shares outstanding for the period. Basic and diluted net income (loss) per ordinary share are calculated as follows (U.S. dollars in millions, except share and per share data):

	Year ended		
	December 26, 2025	December 27, 2024	December 29, 2023
Numerator:			
Net income (loss) attributable to Fresh Del Monte Produce Inc.	\$ 90.7	\$ 142.2	\$ (11.4)
Denominator:			
Weighted average number of ordinary shares - Basic	47,845,826	47,876,129	47,979,143
Effect of dilutive securities - share-based awards	307,055	163,876	—
Weighted average number of ordinary shares - Diluted	48,152,881	48,040,005	47,979,143
Antidilutive awards ⁽¹⁾	—	—	692,680
Net income (loss) per ordinary share attributable to Fresh Del Monte Produce Inc.:			
Basic	\$ 1.90	\$ 2.97	\$ (0.24)
Diluted	\$ 1.88	\$ 2.96	\$ (0.24)

⁽¹⁾ Awards of certain unvested shares and options are not included in the calculation of diluted weighted average shares outstanding because their effect would have been anti-dilutive.

13. Accumulated Other Comprehensive Loss

The following table includes the changes in accumulated other comprehensive loss by component for the years ended December 26, 2025 and December 27, 2024 (U.S. dollars in millions):

	Changes in Accumulated Other Comprehensive Loss by Component ⁽¹⁾			
	Cash Flow Hedges	Foreign Currency Translation Adjustment	Retirement Benefit Adjustment	Total
Balance at December 29, 2023	\$ 3.8	\$ (37.1)	\$ (10.0)	\$ (43.3)
Other comprehensive income (loss) before reclassifications	9.0 ⁽³⁾	(8.1) ⁽²⁾	(1.6)	(0.7)
Amounts reclassified from accumulated other comprehensive loss	(7.2)	—	0.8	(6.4)
Net current period other comprehensive income (loss)	1.8	(8.1)	(0.8)	(7.1)
Balance at December 27, 2024	\$ 5.6	\$ (45.2)	\$ (10.8)	\$ (50.4)
Other comprehensive income (loss) before reclassifications	(11.3)	20.4	(5.5)	3.6
Amounts reclassified from accumulated other comprehensive loss	7.6	—	1.0	8.6
Net current period other comprehensive (loss) income	(3.7)	20.4	(4.5)	12.2
Balance at December 26, 2025	\$ 1.9	\$ (24.8)	\$ (15.3)	\$ (38.2)

⁽¹⁾ All amounts are net of tax and noncontrolling interests.

⁽²⁾ Includes a gain of \$10.1 million for the year ended December 26, 2025 and a loss of \$6.1 million for the year ended December 27, 2024 related to intra-entity foreign currency transactions that are of a long-term-investment nature.

⁽³⁾ Includes a tax effect of \$0.2 million for the year ended December 27, 2024.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

The following table includes details about amounts reclassified from accumulated other comprehensive loss by component for the years ended December 26, 2025 and December 27, 2024 (U.S. dollars in millions):

Details about accumulated other comprehensive loss components	Amount of (gain) loss reclassified from accumulated other comprehensive loss		Affected line item in the statement where net income is presented
	December 26, 2025	December 27, 2024	
Cash flow hedges:			
Designated as hedging instruments:			
Foreign currency cash flow hedges	\$ 13.0	\$ (4.1)	Net sales
Foreign currency cash flow hedges	(2.7)	3.5	Cost of products sold
Interest rate swaps	(2.7)	(6.6)	Interest expense
Total	<u>\$ 7.6</u>	<u>\$ (7.2)</u>	
Amortization of retirement benefits:			
Actuarial losses	\$ 0.5	\$ 0.5	Other expense, net
Curtailment and settlement losses	0.2	0.3	Other expense, net
Curtailment and settlement losses ⁽¹⁾	0.3	—	Asset impairment and other charges, net
Total	<u>\$ 1.0</u>	<u>\$ 0.8</u>	

⁽¹⁾ These curtailment and settlement losses were incurred as a result of the abandonment of a Philippines banana operation during 2025. Refer to Note 3, "Asset impairment and other charges, net" for additional detail.

14. Retirement and Other Employee Benefits

We sponsor a number of defined benefit pension plans and post-retirement plans. The most significant of these plans cover employees in the United States, United Kingdom, Costa Rica and Guatemala.

The benefit obligation is the projected benefit obligation for defined benefit pension plans and the accumulated post-retirement benefit obligation for post-retirement benefit plans other than pensions.

U.S. Defined Benefit Pension Plan

We sponsor a defined benefit pension plan, which covers a portion of our U.S.-based employees under a collective bargaining agreement. As a result of the accelerated closing of our Hawaii facility announced in 2006, the ILWU Local 42 collective bargaining agreement was not re-negotiated and expired in 2009 and as such the U.S.-based defined benefit pension plan has ceased accruing benefits. Our funding policy for this plan is to contribute amounts sufficient to meet the minimum funding requirements of the Employee Retirement Income Security Act of 1974, as amended, or such additional amounts as determined appropriate to assure that the assets of the plan would be adequate to provide benefits. Substantially all of the plan's assets are invested in mutual funds.

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

United Kingdom Defined Benefit Pension Plan

We sponsor a defined benefit pension plan, which covers a portion of our employees in the United Kingdom (the “U.K. plan”). The U.K. plan provides benefits based on the employees’ years of service and qualifying compensation and has ceased accruing benefits. Benefit payments are based on a final pay calculation as of November 30, 2005 and are adjusted for inflation annually. Our funding policy for the U.K. plan is to contribute amounts into the plan in accordance with a recovery plan agreed by the Trustees and us in order to meet the statutory funding objectives of occupational trust-based arrangements of the United Kingdom or such additional amounts as determined appropriate to assure that assets of the U.K. plan are adequate to provide benefits. Substantially all of the U.K. plan’s assets are primarily invested in fixed income and equity securities.

Central American Plans

We provide retirement benefits to a portion of our employees of certain Costa Rican and Guatemalan subsidiaries (“Central American plans”). Generally, benefits under these programs are based on an employee’s length of service and level of compensation. These programs are commonly referred to as termination indemnities, which provide retirement benefits in accordance with regulations mandated by the respective governments. Funding generally occurs when employees cease active service.

The following table sets forth a reconciliation of benefit obligations, plan assets and funded status for our defined benefit pension plans and post-retirement plans as of December 26, 2025 and December 27, 2024, which are also their measurement dates (U.S. dollars in millions):

Interest cost	0.5	2.1	0.5	1.9	5.1	5.1
Actuarial loss (gain)	(0.1)	(1.0)	(0.1)	(2.6)	4.6	0.2
Benefits paid	(1.1)	(2.6)	(1.1)	(2.6)	(8.5)	(2.7)
Exchange rate changes ⁽²⁾	—	2.6	—	(0.5)	0.8	1.5
Settlement gain	—	—	—	—	—	(6.4)
Ending benefit obligation	9.8	37.9	10.5	36.8	83.7	75.1
Change in Plan Assets:						
Beginning fair value	11.3	39.1	11.4	42.2	—	—
Actual return on plan assets	1.1	1.3	1.1	(1.8)	—	—
Company contributions	—	1.9	—	1.8	8.5	9.1
Effect of settlements	—	—	—	—	—	(6.4)
Benefits paid	(1.0)	(2.6)	(1.2)	(2.6)	(8.5)	(2.7)
Exchange rate changes ⁽²⁾	—	2.9	—	(0.5)	—	—
Ending fair value	11.4	42.6	11.3	39.1	—	—
Amounts recognized in the Consolidated Balance Sheets:						
Accounts payable and accrued expenses (current liability)	—	—	—	—	(11.3)	(12.6)
Retirement benefits liability (noncurrent liability)	—	—	—	—	(72.4)	(62.5)
Other noncurrent assets	1.5	4.7	0.8	2.3	—	—
Net asset (liability) recognized in the Consolidated Balance Sheets	\$ 1.5	\$ 4.7	\$ 0.8	\$ 2.3	\$ (83.7)	\$ (75.1)
Amounts recognized in accumulated other comprehensive loss:⁽³⁾						
Net actuarial (loss) gain	(5.4)	(11.7)	(6.3)	(11.0)	0.7	5.2
Prior service cost	—	(1.1)	—	(1.0)	1.9	2.1
Net amount recognized in accumulated other comprehensive loss	\$ (5.4)	\$ (12.8)	\$ (6.3)	\$ (12.0)	\$ 2.6	\$ 7.3

⁽¹⁾ The accumulated benefit obligation is the same as the projected benefit obligation.

⁽²⁾ The exchange rate difference included in the reconciliation of the change in benefit obligation and the change in plan assets above results from currency fluctuations of the U.S. dollar relative to the British pound for the U.K. plan and the U.S. dollar versus Central American currencies such as the Costa Rican colon and Guatemalan quetzal for the Central American plans as of December 26, 2025 and December 27, 2024, when compared to the previous year.

⁽³⁾ We had accumulated other comprehensive income of \$3.4 million as of December 26, 2025 and \$2.4 million as of December 27, 2024 related to the tax effect of unamortized pension gains and losses.

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

The following table provides a rollforward of the accumulated other comprehensive loss balances (U.S. dollars in millions):

	Pension plans				Post-retirement plans	
	Year ended				Year ended	
	December 26, 2025		December 27, 2024		December 26, 2025	December 27, 2024
	U.S.	U.K.	U.S.	U.K.	Central America	Central America
Reconciliation of accumulated other comprehensive loss						
Accumulated other comprehensive (loss) gain at beginning of plan year	\$ (6.3)	\$ (12.0)	\$ (6.9)	\$ (10.7)	\$ 7.3	\$ 8.1
Amortization of net losses recognized during the year	0.4	0.1	0.3	0.1	(0.2)	0.3
Prior service (cost) credit recognized during the year	—	—	—	—	—	(1.0)
Net gain (loss) during the year	0.5	(0.3)	0.3	(1.6)	(4.6)	(0.3)
Currency exchange rate changes	—	(0.6)	—	0.2	0.1	0.2
Accumulated other comprehensive (loss) gain at end of plan year	<u>\$ (5.4)</u>	<u>\$ (12.8)</u>	<u>\$ (6.3)</u>	<u>\$ (12.0)</u>	<u>\$ 2.6</u>	<u>\$ 7.3</u>

The following table sets forth the net periodic pension cost of our defined benefit pension and post-retirement benefit plans (U.S. dollars in millions):

	Pension plans						Post-retirement plans		
	Year ended						Year ended		
	December 26, 2025		December 27, 2024		December 29, 2023		December 26, 2025	December 27, 2024	December 29, 2023
	U.S.	U.K.	U.S.	U.K.	U.S.	U.K.	Central America	Central America	Central America
Service cost	\$ —	\$ —	\$ —	\$ —	\$ —	\$ —	\$ 6.6	\$ 7.2	\$ 6.0
Interest cost	0.5	2.1	0.5	1.9	0.6	1.8	5.1	5.1	5.2
Expected return on assets	(0.7)	(2.6)	(0.8)	(2.4)	(0.8)	(2.4)	—	—	—
Settlement (gain) loss	—	—	—	—	—	—	(0.1)	(0.4)	—
Net amortization	0.3	0.5	0.3	0.3	0.3	0.1	(0.2)	(0.3)	0.1
Net periodic cost (income)	<u>\$ 0.1</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$ (0.2)</u>	<u>\$ 0.1</u>	<u>\$ (0.5)</u>	<u>\$ 11.4</u>	<u>\$ 11.6</u>	<u>\$ 11.3</u>

The expected return on assets is calculated using the fair value of plan assets for both the U.S. and U.K. plans.

Service costs are presented in the same line item in the Consolidated Statements of Operations as other compensation costs arising from services rendered by the employees during the period. With the exception of service cost, the other components of net periodic benefit costs (which include interest costs, expected return on assets, amortization of net actuarial losses) are recorded in the Consolidated Statements of Operations in other expense, net.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

Actuarial Assumptions

The assumptions used in the calculation of the benefit obligations of our U.S. and U.K. defined benefit pension plans and Central American plans consisted of the following:

	December 26, 2025			December 27, 2024			December 29, 2023		
	Pension plans		Post-retirement plans	Pension plans		Post-retirement plans	Pension plans		Post-retirement plans
	U.S.	U.K.	Central America	U.S.	U.K.	Central America	U.S.	U.K.	Central America
Weighted average discount rate	5.15 %	5.55 %	6.39 %	5.40 %	5.50 %	7.31 %	4.90 %	4.80 %	7.79 %
Rate of increase in compensation levels	—	—	4.66 %	—	—	4.64 %	—	—	4.78 %

The assumptions used in the calculation of the net periodic pension costs for our U.S. and U.K. defined benefit pension plans and Central American plans consisted of the following:

	December 26, 2025			December 27, 2024			December 29, 2023		
	Pension plans		Post-retirement plans	Pension plans		Post-retirement plans	Pension plans		Post-retirement plans
	U.S.	U.K.	Central America	U.S.	U.K.	Central America	U.S.	U.K.	Central America
Weighted average discount rate	5.40 %	5.50 %	7.37 %	4.90 %	4.80 %	7.77 %	5.15 %	5.00 %	8.21 %
Rate of increase in compensation levels	—	—	4.66 %	—	—	4.64 %	—	—	3.22 %
Expected long-term rate of return on assets	6.25 %	6.34 %	—	7.00 %	5.90 %	—	7.00 %	6.16 %	—

Cash Flows

The following table sets forth estimated future benefit payments:

	Pension plans		Post-retirement plans
	U.S.	U.K.	Central America
Expected benefit payments for:			
2026	\$ 1.1	\$ 2.3	\$ 11.3
2027	1.0	2.3	8.9
2028	1.0	2.4	10.0
2029	0.9	2.5	9.4
2030	0.9	2.4	10.0
Next 5 years	3.7	13.1	48.9
Expected benefit payments over the next 10 years	\$ 8.6	\$ 25.0	\$ 98.5

For 2026, expected contributions are \$1.9 million for the U.K. pension plan. No contributions are expected for the U.S. pension plan. Contributions for the U.S. and U.K. pension plans are actuarially determined based on funding regulations.

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

U.S. Defined Benefit Pension Plan

Plan Assets

Our overall investment strategy is to achieve a mix of between 45% equity securities for long-term growth and 54% fixed income securities for near-term benefit payments. Asset allocation targets promote optimal expected return and volatility characteristics given the long-term time horizon for fulfilling the obligations of the pension plans. Selection of the targeted asset allocation for U.S. plan assets was based upon a review of the expected return and risk characteristics of each asset class, as well as the correlation of returns among asset classes.

The fair values of our U.S. plan assets by asset category were as follows as of the years ended December 26, 2025 and December 27, 2024 (U.S. dollars in millions):

		Fair Value Measurements at December 26, 2025		
Asset Category	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual Funds:				
Fixed income securities	\$ 6.3	\$ 6.3	\$ —	\$ —
Value securities	2.0	2.0	—	—
Growth securities	3.1	3.1	—	—
Total	\$ 11.4	\$ 11.4	\$ —	\$ —

		Fair Value Measurements at December 27, 2024		
Asset Category	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual Funds:				
Fixed income securities	\$ 4.5	\$ 4.5	\$ —	\$ —
Value securities	2.4	2.4	—	—
Growth securities	4.4	4.4	—	—
Total	\$ 11.3	\$ 11.3	\$ —	\$ —

Mutual Funds – This category includes investments in mutual funds that encompass both equity and fixed income securities that are designed to provide a diverse portfolio. The plan's mutual funds are designed to track exchange indices, and invest in diverse industries. Some mutual funds are classified as regulated investment companies. Investment managers have the ability to shift investments from value to growth strategies, from small to large capitalization funds, and from U.S. to international investments. These investments are valued at the closing price reported on the active market on which the individual securities are traded. These investments are classified within Level 1 of the fair value hierarchy.

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

Investment managers agree to operate the plan's investments within certain criteria that determine eligible and ineligible securities, diversification requirements and credit quality standards, where applicable. Unless exceptions have been approved or are part of a permitted mutual fund strategy, investment managers are prohibited from buying or selling commodities, futures or option contracts, as well as from short selling of securities. Furthermore, investment managers agree to obtain written approval for deviations from stated investment style or guidelines. We considered historical returns and the future expectations for returns for each asset class as well as the target asset allocation of plan assets to develop the expected long-term rate of return on assets assumption. We evaluate the rate of return assumption on an annual basis.

United Kingdom Defined Benefit Pension Plan
Plan Assets

The fair values of our U.K. plan assets by asset category were as follows as of the years ended December 26, 2025 and December 27, 2024 (U.S. dollars in millions):

Asset Category	Total	Fair Value Measurements at December 27, 2025		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Cash	\$ 0.4	\$ 0.4	\$ —	\$ —

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)**

Equity securities – This category includes pooled investments in global equities, emerging market equities and diversified growth funds. The investments are spread across a range of diverse industries including financial, information technology, consumer discretionary and consumer staples. The diversified growth funds seek to provide a long-term equity-like return, with a managed level of volatility. The diversified growth funds invest across a wide range of asset classes, both traditional and alternative. Units of the pooled investment accounts are not traded on an exchange or in an active market; however, valuation is based on the underlying investments of the units and are classified as Level 2 inputs within the fair value hierarchy.

Fixed income securities – This category includes pooled investments in liability-driven investments and government and corporate bonds. These investments are valued at the closing price reported on the active market on which the individual securities are traded. Units of the pooled investment accounts are not traded on an exchange or in an active market; however, valuation is based on the underlying investments of the units and are classified as Level 2 inputs within the fair value hierarchy.

The expected long-term rate of return assumption for U.K. plan assets is reviewed annually and is determined by reference to U.K. government bond yields, the historical level of the risk premium associated with the other asset classes in which the portfolio is invested and the expectations for future returns of each asset class.

The plan's investment strategy is to optimize growth through investment in return-seeking securities, while maintaining a stable funding position through investments that aim to match the change in the value of the plan's liabilities due to movements in interest rates and inflation. The growth portfolio invests across a diversified range of asset classes, including equities, fixed income securities, and alternatives, such as hedge funds. The remaining portfolio invests in U.K. government bonds, corporate bonds, cash and leveraged liability-driven investment funds.

Fund managers have no discretion to make asset allocation decisions with the exception of the diversified growth fund. The trustees try to rebalance any discrepancies through selective allocations of future contributions. Performance benchmarks for each asset class are based on various indices. Investment performance is reviewed quarterly.

Other Employee Benefits

We also sponsor a defined contribution plan established pursuant to Section 401(k) of the Internal Revenue Code. Subject to certain dollar limits, employees may contribute a percentage of their salaries to the plan, and we will match a portion of each employee's contribution. This plan is in effect for U.S.-based employees only. The expense pertaining to this plan was \$1.5 million for 2025, \$1.6 million for 2024 and \$1.3 million for 2023.

On August 31, 1997, one of our subsidiaries ceased accruing benefits under its salary continuation plan covering certain of our Central American management personnel. At December 26, 2025 we had \$1.0 million accrued for this plan, including \$0.1 million in accumulated other comprehensive loss related to unamortized pension gains. Net periodic pension costs for the years ended December 26, 2025, December 27, 2024 or December 29, 2023 were insignificant. Expected benefit payments under the plan for 2026 through 2030 total \$0.8 million. For 2030 through 2035 the expected benefit payments under the plan total \$0.3 million.

We sponsor a service gratuity plan covering certain of our Kenyan personnel. At December 26, 2025 we had \$1.3 million accrued for this plan. Net periodic pension costs were \$0.6 million for the year ended December 26, 2025, and included curtailment expenses of \$0.3 million. Net periodic pension costs were \$1.3 million for the year ended December 27, 2024, and included curtailment and settlement expenses of \$0.7 million. Net periodic pension costs were \$1.5 million for the year ended December 29, 2023, and included curtailment and settlement expenses of \$0.8 million. During fiscal 2022, we began conversion of the service gratuity plan into a Provident fund scheme which has allowed certain of our Kenyan personnel to make a voluntary decision whether to remain as participants of the plan, or to convert to the Provident fund. The conversion to the Provident fund scheme will require us to make funding contributions that would differ in timing with those previously expected under the service gratuity plan, and which will ultimately depend on the number of employees who elect to convert. We estimate, based on the anticipated completion of the conversion to the Provident fund scheme during 2026, that expected benefit payments under the service gratuity plan and the Provident fund scheme during 2026 will be approximately \$1.0 million, however this number could vary based on the number of employees who ultimately elect to convert.

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

We provide retirement benefits to certain employees who are not U.S.-based. Generally, benefits under these programs are based on an employee's length of service and level of compensation. Included in retirement benefits on our consolidated balance sheets is \$16.2 million at December 26, 2025 and \$16.7 million at December 27, 2024 related to these programs.

The unamortized pension losses related to other non-U.S.-based plans included in accumulated other comprehensive loss, a component of shareholders' equity, was \$4.6 million as of the year ending December 26, 2025 and \$3.5 million as of the year ending December 27, 2024. We also offer certain post-employment benefits to former executives and have accrued \$1.2 million at December 26, 2025 and \$1.2 million at December 27, 2024 in retirement benefits on our consolidated balance sheets related to these benefits.

15. Share-Based Compensation

We maintain various compensation plans for officers, other employees, and non-employee members of our Board of Directors. On June 2, 2022, our shareholders approved and ratified the 2022 Omnibus Share Incentive Plan (the "2022 Plan"). The 2022 Plan allows us to grant equity-based compensation awards including restricted stock units ("RSUs"), performance stock units ("PSUs"), stock options, and restricted stock awards. The 2022 Plan replaces and supersedes the 2014 Omnibus Share Incentive Plan (the "Prior Plan"). No awards can be granted under the Prior Plan upon adoption of the 2022 Plan. Under the 2022 Plan, the Board of Directors is authorized to award up to (i) 2,800,000 ordinary shares plus (ii) any ordinary shares remaining available for future awards under the Prior Plan at the time of adoption (of which there were approximately 241,263) plus (iii) any ordinary shares with respect to awards and Prior Plan awards that are forfeited, canceled, expire unexercised, or are settled in cash following adoption of the 2022 Plan.

Share-based compensation expense related to RSUs and PSUs is included in selling, general and administrative expenses in the accompanying Consolidated Statements of Operations and was comprised in the relevant periods as follows (U.S. dollars in millions):

Types of Awards	Year ended		
	December 26, 2025	December 27, 2024	December 29, 2023
RSUs/PSUs	\$ 10.0	\$ 6.9	\$ 9.9

Restricted Stock Units and Performance Stock Units

Under the 2022 Plan and Prior Plan, each RSU/PSU represents a contingent right to receive one of our ordinary shares. The PSUs are subject to meeting minimum performance criteria set by the Compensation Committee of our Board of Directors. The actual number of shares the recipient receives is determined based on the results achieved versus performance goals. Those performance goals are based on exceeding a measure of our earnings. Depending on the results achieved, the actual number of shares that an award recipient receives at the end of the period may range from 0% to 100% of the award units granted, or as it relates to the 2025, 2024 and 2023 PSU awards granted to our Chairman and Chief Executive Officer, 0% to 125% of the award units granted. Provided such criteria are met, the PSUs will vest in three equal annual installments on each of the next three anniversary dates provided that the recipient remains employed with us.

Expense for RSUs is recognized on a straight line basis over the requisite service period for the entire award. RSUs vest annually in three equal installments over a three-year service period. RSUs granted to our Board of Directors generally vest after a one-year period.

The fair market value for RSUs and PSUs is based on the closing price of our stock on the grant date. We recognize expenses related to RSUs and PSUs based on the fair market value, as determined on the grant date, ratably over the vesting period, provided the performance condition, if any, is probable. Forfeitures are recognized as they occur.

RSUs and PSUs do not have the voting rights of ordinary shares, and the shares underlying the RSUs and PSUs are not considered issued and outstanding. However, shares underlying RSUs/PSUs are included in the calculation of diluted earnings per share to the extent the performance criteria are met, if any.

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

Each of our outstanding RSUs and PSUs are eligible to earn Dividend Equivalent Units (“DEUs”) equal to the cash dividend paid to ordinary shareholders. DEUs are subject to the same performance and/or service conditions as the underlying RSUs and PSUs and are forfeitable.

The following table summarizes RSU and PSU activity for the years ended December 26, 2025, December 27, 2024, and December 29, 2023:

	RSUs		PSUs	
	Number of Shares	Weighted Average Grant Date Fair Value	Number of Shares	Weighted Average Grant Date Fair Value
Non-vested as of December 30, 2022	360,097	25.68	215,543	28.18
Granted	267,671	31.13	102,171	31.59
Vested	(194,900)	25.94	(92,760)	28.12
Canceled	(24,409)	27.35	(13,302)	28.45
Non-vested as of December 29, 2023	408,459	29.01	211,652	30.00
Granted	52,783	24.73	316,457	24.51
Vested	(234,824)	27.88	(76,333)	28.15
Canceled	(19,569)	29.78	(107,570)	30.84
Non-vested as of December 27, 2024	206,849	29.22	344,206	25.13
Granted	331,505	30.67	149,361	29.66
Vested	(147,424)	28.08	(151,077)	26.13
Canceled	(17,916)	30.75	—	—
Non-vested as of December 26, 2025	373,014	\$ 30.85	342,490	\$ 26.67

As of December 26, 2025, the total remaining unrecognized compensation cost related to non-vested RSUs/PSUs was \$9.7 million, which will be amortized over the weighted-average remaining requisite service period of 1.6 years.

16. Commitments and Contingencies

Commitments

We have agreements to purchase the entire or partial production of certain products of our independent growers primarily in Guatemala, Ecuador, Philippines, Costa Rica, Colombia, and the United Kingdom that meet our quality standards. Total purchases under these agreements amounted to \$655.3 million for 2025, \$643.4 million for 2024 and \$631.6 million for 2023.

Refer to Note 10 “Leases”, for further a discussion concerning our lease commitments.

Kunia Well Site

In 1980, elevated levels of certain chemicals were detected in the soil and ground-water at a plantation leased by one of our U.S. subsidiaries in Honolulu, Hawaii (the “Kunia Well Site”). In 2005, our subsidiary signed a Consent Decree (“Consent Decree”) with the Environmental Protection Agency (“EPA”) for the performance of the clean-up work for the Kunia Well Site. Based on findings from remedial investigations, our subsidiary coordinated with the EPA to evaluate the clean-up work required in accordance with the Consent Decree. On July 25, 2022, an Explanation of Significant Differences (ESD) for the Kunia Well Site was filed by the EPA, which formally transitioned the remedy for the Kunia Well Site to a Monitored Natural Attenuation (MNA), thereby reducing our potential liability. In connection with the above decision, we recorded a \$9.9 million reduction in our liability during the year ended December 30, 2022.

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)**

The revised estimate associated with the clean-up costs, and on which our accrual is based, is \$3.2 million. As of December 26, 2025, \$2.7 million was included in other noncurrent liabilities, and \$0.5 million was included in accounts payable and accrued expenses in the Consolidated Balance Sheets for the Kunia Well Site clean-up. We expect to expend approximately \$0.5 million in 2026, \$0.2 million in 2027, \$0.2 million in 2028, \$0.1 million in 2029, and \$0.3 million in 2030.

California Air Resource Board

In December 2022, the California Air Resource Board ("CARB") issued a Notice of Violation ("NOV") to the Company regarding alleged violations of certain California anti-air pollution regulations by three non-shore capable vessels that were subject to a time charter by us from an unrelated non-U.S. third party. We cooperated with and assisted CARB in its audits for the alleged violations during 2021. During the year ended December 27, 2024, we accrued expenses of \$0.5 million as a contingent reserve which are included in asset impairments and other charges, net in the Consolidated Statements of Operations. This charge is in addition to a \$0.4 million contingent reserve accrued as of December 29, 2023 related to this matter. We settled amounts previously accrued for this matter during the first quarter of 2025.

Legal Settlement

In May 2024, we entered into a settlement agreement with respect to a litigation matter by a former employee regarding a legacy claim stemming from the 1970s. This matter was in the discovery phase until the first quarter of 2024, when the court set the expected trial date and the parties began to discuss settlement. Accordingly, during the year ended December 27, 2024, we incurred charges of \$1.8 million, net of insurance reimbursements, associated with the settlement which are included in assets impairment and other charges, net in the Consolidated Statements of Operations.

Value Added Tax ("VAT") Receivables

In connection with administrative delays in a jurisdiction in which we operate, we have incurred delays in the collection of VAT refund claims made by the Company. As a result of those delays, as of December 26, 2025 we have classified \$19.2 million of VAT receivables related to the jurisdiction as non-current assets which are included in other noncurrent assets in our Consolidated Balance Sheets. While we believe the amounts are collectible through standard administrative processes, these amounts may ultimately need to be recovered through administrative appeals or other legal means.

Additional Information

In addition to the foregoing, we are involved from time to time in various claims and legal actions incident to our operations, both as plaintiff and defendant. In the opinion of management, after consulting with legal counsel, none of these other claims is currently expected to have a material adverse effect on the results of operations, financial position or our cash flows.

17. Derivative Financial Instruments

Our derivative financial instruments reduce our exposure to fluctuations in foreign exchange rates and variable interest rates. We designate our derivative financial instruments as cash flow hedges.

Counterparties expose us to credit loss in the event of non-performance of hedges. We monitor our exposure to counterparty non-performance risk both at inception of the hedge and at least quarterly thereafter.

Fluctuations in the value of the derivative instruments are generally offset by changes in the cash flows of the underlying exposures being hedged. A cash flow hedge requires the change in the fair value of a derivative instrument to be recognized in other comprehensive income (loss), a component of shareholders' equity, and reclassified into earnings in the same period or periods during which the hedged transaction affects earnings and is presented in the same income statement line item as the earnings effect of the hedged item.

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

Certain of our derivative instruments contain provisions that require the current credit relationship between us and our counterparty to be maintained throughout the term of the derivative instruments. If that credit relationship changes, certain provisions could be triggered, and the counterparty could request immediate collateralization of derivative instruments in a net liability position above a certain threshold. The aggregate fair value of all derivative instruments with a credit-risk-related contingent feature that were in a liability position on December 26, 2025 was \$1.4 million. As of December 26, 2025, no triggering event had occurred and thus we were not required to post collateral.

Derivative instruments are disclosed on a gross basis. There are various rights of setoff associated with our derivative instruments that are subject to an enforceable master netting arrangement or similar agreements. Although various rights of setoff and master netting arrangements or similar agreements may exist with the individual counterparties, individually, these financial rights are not material.

Cash flows from derivative instruments that are designated as cash flow hedges are classified in the same category as the cash flows from the underlying hedged items. In the event that hedge accounting is discontinued, cash flows related to changes in fair value subsequent to the date of discontinuance are classified within investing activities.

Foreign Currency Hedges

Our results of operations and financial condition are exposed to fluctuations in currency exchange rates against the U.S. dollar, and we may mitigate that exposure by entering into foreign currency forward or collar contracts. Certain of our subsidiaries periodically enter into foreign currency forward contracts in order to hedge portions of forecasted sales or cost of sales denominated in foreign currencies, which generally mature within one year. At December 26, 2025, our foreign currency forward contracts hedge a portion of our 2026 foreign currency exposure.

The foreign currency forward contracts qualifying as cash flow hedges were designated as single-purpose cash flow hedges of forecasted cash flows.

We had the following outstanding foreign currency forward contracts as of December 26, 2025 (in millions):

Foreign currency contracts qualifying as cash flow hedges:	Notional amount	
Chilean peso	CLP	22,874.9
Euro	EUR	338.0

Interest Rate Contracts

Our results of operations and financial condition are exposed to fluctuations in variable interest rates, and we previously mitigated that exposure by entering into interest rate swaps. During 2018, we entered into interest rate swaps in order to hedge the risk of the fluctuation on future interest payments related to our variable rate LIBOR-based borrowings through 2028. We amended our Second A&R Credit Agreement and our interest rate swaps to transition from LIBOR to SOFR as a reference rate effective January 3, 2023.

In July 2024, we agreed to terminate our outstanding interest rate swap in exchange for \$7.3 million in cash proceeds, net of fees of approximately \$0.2 million. Based on our assessment that the originally hedged cash flows associated with our variable rate borrowings remain probable, the proceeds received as a result of the termination of our outstanding interest rate swap agreement will remain in accumulated other comprehensive loss and be reclassified to earnings through interest expense over the remaining life of the hedged debt. At December 26, 2025, \$2.8 million in accumulated other comprehensive loss related to the terminated interest rate swap, of which \$1.2 million is expected to be reclassified to earnings through interest expense over the next twelve months.

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

The following table reflects the fair values of derivative instruments, which are designated as level 2 in the fair value hierarchy, as of December 26, 2025 and December 27, 2024 (U.S. dollars in millions):

Balance Sheet location:	Derivatives designated as hedging instruments ⁽¹⁾	
	Foreign exchange contracts	
	December 26, 2025	December 27, 2024
Asset derivatives:		
Prepaid expenses and other current assets	\$ 0.4	\$ 0.3
Liability derivatives:		
Accounts payable and accrued expenses	\$ 1.4	\$ —

⁽¹⁾ See Note 18, “Fair Value Measurements,” for fair value disclosures.

As of December 26, 2025, we expect that \$0.5 million of the net fair value of our cash flow hedges recognized as a net gain in accumulated other comprehensive loss, inclusive of amounts associated with our interest rate swap terminated during the quarter ended June 28, 2024, will be transferred to earnings during the next 12 months, and the remaining net gain of \$1.5 million to be transferred to earnings over the following 3 years, along with the earnings effect of the related forecasted transactions.

The following table reflects the effect of derivative instruments on the Consolidated Statements of Comprehensive Income for the years ended December 26, 2025 and December 27, 2024 (U.S. dollars in millions):

Derivative Instruments	Net amount of gain (loss) recognized in other comprehensive income on derivatives	
	December 26, 2025	December 27, 2024
Foreign exchange contracts	\$ (1.0)	\$ 4.0
Interest rate swaps, net of tax	(2.7)	(2.2)
Total	\$ (3.7)	\$ 1.8

Refer to Note 13, “Accumulated Other Comprehensive Loss” for the effect of derivative instruments on the Consolidated Statements of Operations related to amounts reclassified from accumulated other comprehensive loss for the years ended December 26, 2025 and December 27, 2024.

18. Fair Value Measurements

Fair Value of Financial Instruments

Our derivative assets or liabilities include foreign exchange and interest rate derivatives that are measured at fair value using observable market inputs such as forward rates, interest rates, and our own credit risk as well as an evaluation of our counterparties’ credit risks. We use an income approach to value our outstanding foreign currency and interest rate hedges, which consists of a discounted cash flow model that takes into account the present value of future cash flows under the terms of the contracts using current market information as of the measurement date such as foreign currency spot rate, forward rates and interest rates. Additionally, we include an element of default risk based on observable inputs into the fair value calculation. Based on these inputs, the derivative assets or liabilities are classified within Level 2 of the valuation hierarchy.

The following table provides a summary of the fair values of our derivative financial instruments measured on a recurring basis (U.S. dollars in millions):

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

	Foreign currency forward contracts, net (liability) asset	
	December 26, 2025	December 27, 2024
Quoted prices in active markets for identical assets (Level 1)	\$ —	\$ —
Significant other observable inputs (Level 2)	(1.0)	0.3
Significant unobservable inputs (Level 3)	—	—

Refer to Note 14, “*Retirement and Other Employee Benefits*” for further fair value disclosures related to pension assets.

In estimating our fair value disclosures for financial instruments, we use the following methods and assumptions:

Cash and cash equivalents: The carrying amount reported in the Consolidated Balance Sheets for these items approximates fair value due to their liquid nature and are classified as Level 1.

Trade accounts receivable and other accounts receivable, net: The carrying value reported in the Consolidated Balance Sheets for these items is net of allowances, which includes a degree of counterparty non-performance risk and are classified as Level 2.

Accounts payable and other current liabilities: The carrying value reported in the Consolidated Balance Sheets for these items approximates their fair value, which is the likely amount for which the liability with short settlement periods would be transferred to a market participant with a similar credit standing as ours and are classified as Level 2.

Long-term debt: The carrying value of our long-term debt reported in the Consolidated Balance Sheets approximates their fair value since they bear interest at variable rates which contain an element of default risk. The fair value of our long-term debt is estimated using Level 2 inputs based on quoted prices for those or similar instruments. Refer to Note 11, “*Debt*.”

Divestiture of Mann Packing

During the third quarter of 2025, we entered into a non-binding Letter of Intent pursuant to which we intended to sell the Mann Packing business, a wholly-owned subsidiary of the Company included in our fresh and value-added products segment, including substantially all operating assets. Subsequently, on October 15, 2025, we entered into an Asset Purchase Agreement (the “Mann Divestiture Agreement”), by and among Mann Packing and the Company (collectively, the “Sellers”) and CBRT Processing, LLC and True Leaf Holdings, LLC (collectively, the “Buyer”) pursuant to which the Buyer agreed to acquire the Mann Packing business and substantially all its operational assets including, among other things, machinery and equipment, finished goods, raw materials, packaging supplies, growing crop inventory, and customer lists (collectively, the “Mann Packing Assets”) for \$19.0 million plus the value of inventory at closing of the transaction. The \$19.0 million purchase price is payable as follows: (i) \$5.0 million payable in sixty (60) monthly installments commencing on the December 15, 2025 (the “Closing Date”), and (ii) \$14.0 million payable in a single installment on the fifth anniversary of the Closing Date. Payment for inventory is payable no later than ninety (90) days after the closing date of the transaction, with the exception of payments for growing crop inventory which are payable no later than the earlier of (1) the one-year anniversary of the Closing Date of the transaction or (2) thirty (30) days following the end of the month in which the crop is harvested and delivered to the Buyer.

As a result of the closing of the transaction, we recorded \$31.3 million of receivables related to proceeds under the Mann Divestiture Agreement, including \$17.6 million included in Other accounts receivable, net and \$13.7 million, net of a present value discount of \$4.3 million, included in Other noncurrent assets in our Consolidated Balance Sheet as of December 26, 2025.

Given our entrance into the Letter of Intent during the third quarter of 2025, we determined the Mann Packing Assets met the criteria to be classified as held for sale in our Consolidated Balance Sheets as of the end of our third quarter and through the closing date of the transaction. In accordance with ASC 805 - *Business Combinations*, the Mann Packing Assets constitute a business and, as a result, \$7.2 million of goodwill from our fresh-cut products reporting unit was allocated to the carrying value of the disposal group as determined on a relative fair value basis. As a result of the allocation, we were required to evaluate the retained fresh-cut reporting unit for impairment and determined that the fair value of the reporting unit was in excess of its carrying amount.

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)**

The divestiture of Mann Packing resulted in a pre-tax loss of \$17.9 million which is included in Asset impairment and other charges, net in our Consolidated Statements of Operations for the year ended December 26, 2025. The amount, which primarily represented write-downs performed during the third quarter of 2025 based on the excess of the disposal group's carrying value over its fair value less costs to sell, included an impairment of goodwill allocated to the disposal group of \$7.2 million.

We have determined that this disposal does not meet the criteria for classification as a discontinued operation under ASC 205-20, as it does not represent a strategic shift that has or will have a major effect on our operations and/or financial results, however, does represent the disposal of an individually significant component of the Company. Income before income taxes for this individually significant component was a loss of \$58.0 million for the year ended December 26, 2025, inclusive of \$17.9 million of charges included in Asset impairment and other charges, net described above. For the years ended December 27, 2024 and December 29, 2023, income before income taxes for this individually significant component was a loss of \$23.2 million and a loss of \$170.4 million.

Fair Value of Non-Financial Assets

During 2024 we recorded an impairment charge of \$1.4 million related to goodwill in our vegetable reporting unit. The fair value of the vegetable reporting unit was estimated based on an analysis of the present value of future discounted cash flows. Significant estimates used in the discounted cash flow models included our weighted average cost of capital, projected cash flows, and long-term rate of growth. The fair value measurements were primarily based on significant inputs that are not observable in the market and thus represent a Level 3 measurement.

Additionally, during the year ended December 29, 2023, long-lived assets with an aggregate carrying value of \$202.6 million were written down to their fair value of \$93.0 million, resulting in an asset impairment charge of \$109.6 million. The fair value of the long-lived assets was estimated based on an analysis of the present value of future discounted cash flows and third-party asset appraisals using a discount rate commensurate with the risk. Significant estimates used in the discounted cash flows model included our weighted average cost of capital, projected cash flows, and long-term rate of growth. The fair value measurements used in the discounted cash flows model were primarily based on significant inputs that are not observable in the market and thus represent a Level 3 measurement.

As of December 26, 2025, we had \$9.6 million in property, plant and equipment meeting the criteria of assets held for sale consisting of \$7.4 million related to idle farmland in Italy, \$2.0 million related to facilities and farmland in Guatemala and \$0.2 million related to facilities in Chile. These assets are recognized at the lower of cost or fair value less cost to sell. During 2025, we received proceeds of \$22.0 million and recorded a gain on disposal of property, plant and equipment, net and subsidiary of \$13.4 million from the sale of assets previously held for sale.

We recorded additional asset impairment and other charges during the years ended December 26, 2025, December 27, 2024 and December 29, 2023, that do not fall under the scope of fair value measurement. Refer to Note 3, "*Asset Impairment and Other Charges, Net*".

19. Related Party Transactions

Advances and receivables due from related parties were \$7.1 million in 2025 and \$5.3 million in 2024.

On July 24, 2024, we entered into a \$1.0 million line of credit agreement as lender with a related party to fund the related party's obligation to cover a portion of costs associated with a joint venture. The line of credit bears interest at a rate of 5.5% per annum and matures on July 23, 2029. Total draws on the line of credit, which represent contributions from the noncontrolling interest, totaled \$0.5 million as of December 26, 2025 and December 27, 2024 and are included in other noncurrent assets in our Consolidated Balance Sheets.

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)**

On August 14, 2025, we announced our entrance into a joint venture with Iscol Investments S.A.S. ("Managro") to invest and expand an avocado and lime packing house in Colombia. Prior to our formation of the joint venture, on March 25, 2025, we entered into a loan agreement with Managro pursuant to which we provided a secured two-year term loan of up to \$1.0 million. For the first twelve months of the agreement, the loan bears interest at a rate of 7% per annum, with the applicable interest rate thereafter subject to adjustment mutually agreed upon both parties as defined in the agreement. The agreement requires interest only payments annually, with any outstanding balance and unpaid interest due at maturity on March 24, 2027. The loan may be prepaid at any time without penalty and is secured by a first-priority mortgage on certain real estate owned by Managro. Borrowings outstanding under the loan agreement, including outstanding interest payments, were \$1.1 million as of December 26, 2025 and are included in other noncurrent assets in our Consolidated Balance Sheets.

Payables to related parties were \$0.3 million in 2025 and \$0.6 million in 2024.

We incurred expenses of approximately \$0.4 million in 2025, \$0.4 million in 2024 and \$0.3 million in 2023 for chartered air transportation services from an aircraft management company in which our Chairman and Chief Executive Officer has an ownership interest.

Other purchases from related parties were \$4.6 million in 2025 compared to \$3.0 million in 2024 and \$46.1 million in 2023, of which \$43.0 million for 2023 was related to one Mann Packing grower. Due to the acquisition of its noncontrolling interest in our subsidiary in June 2023, this grower was subsequently no longer determined to be a related party.

Related party leases previously included a building and land in North America primarily related to one Mann Packing grower. Due to the acquisition of its noncontrolling interest in our subsidiary in June 2023, this grower was no longer determined to be a related party. Prior to the date of our acquisition of its noncontrolling interest, expenses incurred associated with these leases were \$0.7 million for 2023.

Sales to related parties amounted to \$1.8 million in 2025, \$2.0 million in 2024 and \$1.0 million in 2023.

Cash distributions to noncontrolling interests \$4.8 million in 2025 and \$17.9 million in 2023. No cash distributions to noncontrolling interests were made during 2024. We have reflected the cash distributions to noncontrolling interests under financing activities in our Consolidated Statements of Cash Flows. No amounts were owed to noncontrolling interests as of December 26, 2025 and December 27, 2024.

20. Business Segment Data

We are principally engaged in the production, distribution and marketing of fresh and value-added products and bananas. Our products are sold in markets throughout the world and our major producing operations are located in North, Central and South America, Asia and Africa.

Our business is comprised of three reportable segments, two of which represent our primary businesses of fresh and value-added products and banana, and one that represents our other ancillary businesses.

- *Fresh and value-added products* - includes pineapples, fresh-cut fruit, fresh-cut vegetables (which includes fresh-cut salads), melons, vegetables, non-tropical fruit (which includes grapes, apples, citrus, blueberries, strawberries, pears, peaches, plums, nectarines, cherries and kiwis), other fruit and vegetables, avocados, and prepared foods (which includes prepared fruit and vegetables, juices, other beverages, and meals and snacks).
- *Banana*
- *Other products and services* - includes our third-party freight and logistic services business, our Jordanian poultry and meats business and our specialty ingredients business (previously referred to as our biomass initiatives).

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

Our Chief Operating Decision Maker ("CODM") is our Chief Executive Officer, Chief Operating Officer, and Chief Financial Officer ("the CODM Group"). The CODM Group uses segment gross profit, calculated as net sales less cost of products sold, as the primary measure in assessing segment performance and determining allocation of resources, with these determinations generally made as part of our annual budgeting process. Reviews of segment performance by the CODM Group occur regularly throughout the year, including monthly review of budget-to-actual results, which can result in allocation changes if deemed appropriate. The following table provides information by reportable segment, including net sales, cost of products sold and gross profit (U.S. dollars in millions):

	Year ended								
	December 26, 2025			December 27, 2024			December 29, 2023		
	Net Sales	Cost of products sold	Gross Profit	Net Sales	Cost of products sold	Gross Profit	Net Sales	Cost of products sold	Gross Profit

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

The following table indicates our net sales by geographic region (U.S. dollars in millions):

Net sales by geographic region:	Year ended		
	December 26, 2025	December 27, 2024	December 29, 2023
North America	\$ 2,516.1	\$ 2,541.7	\$ 2,578.7
Europe	894.9	834.0	830.9
Asia	377.2	411.1	446.4
Middle East	441.7	393.5	384.9
Other	92.4	99.9	79.8
Total net sales	<u>\$ 4,322.3</u>	<u>\$ 4,280.2</u>	<u>\$ 4,320.7</u>

North America accounted for approximately 58% of our net sales for 2025, 59% for 2024 and 60% for 2023. Our earnings are heavily dependent on operations located worldwide; however, our net sales are not dependent on any particular country other than the United States, with no other country accounting for greater than 10% of our net sales in 2025, 2024 and 2023. These operations are a significant factor in the economies of some of the countries in which we operate and are subject to the risks that are inherent in operating in such countries, including government regulations, currency and ownership restrictions and risk of expropriation.

Walmart accounted for 7% of our net sales in 2025, 9% of net sales in 2024 and 9% in 2023. These sales are reported in the banana and fresh and value-added products segments. In 2025, our top 10 customers accounted for approximately 29% of net sales as compared with 32% during 2024 and 31% for 2023.

The following tables indicate our (i) property, plant, and equipment, net by location and (ii) total assets by location (U.S. dollars in millions):

Property, plant and equipment, net:	December 26, 2025	December 27, 2024
North America	\$ 122.9	\$ 155.3
Europe	29.2	28.8
Middle East	47.2	48.1
Africa	38.2	32.9
Asia	46.2	85.7
Central America	626.0	616.8
South America	44.5	47.3
Maritime equipment (including containers)	160.2	172.6
Corporate	5.1	4.1
Total property, plant and equipment, net	<u>\$ 1,119.5</u>	<u>\$ 1,191.6</u>

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

Total assets:	December 26, 2025	December 27, 2024
North America	\$ 624.7	\$ 670.9
Europe	350.3	345.1
Middle East	214.1	226.8
Africa	161.2	156.8
Asia	163.8	236.4
Central America	1,082.7	1,035.6
South America	105.2	110.5
Maritime equipment (including containers)	176.0	180.6
Corporate	181.0	133.5
Total assets	<u>\$ 3,059.0</u>	<u>\$ 3,096.2</u>

Management reviews assets on the basis of geographic region and not by reportable segment, which more closely aligns our capital investment with demand for our products. Costa Rica is our most significant sourcing location and represented approximately 41% of our property, plant and equipment as of December 26, 2025. Excluding the U.S., no other country other than Costa Rica accounted for greater than 10% of our property, plant and equipment as of the years ended December 26, 2025 and December 27, 2024.

Total assets by geographic area represent those assets used in the operations of each geographic area.

21. Shareholders' Equity

Our shareholders have authorized 50,000,000 preferred shares at \$0.01 par value, of which none are issued or outstanding at December 26, 2025, and 200,000,000 ordinary shares of common stock at \$0.01 par value, of which 47,373,027 were issued and outstanding at December 26, 2025.

On February 21, 2025, our Board of Directors approved a stock repurchase program ("Stock Repurchase Program") of up to \$150 million of our ordinary shares. During 2025, we repurchased 865,773 shares for \$29.8 million under the Stock Repurchase Program. The Stock Repurchase Program has no expiration date and will continue until otherwise modified or terminated by the Company's Board of Directors at any time in its sole discretion.

The below is a summary of the dividends paid per share for the years ended December 26, 2025 and December 27, 2024. These dividends were declared and paid within the same fiscal quarter.

Year ended			
December 26, 2025		December 27, 2024	
Dividend Payment Date	Cash Dividend per Ordinary Share	Dividend Payment Date	Cash Dividend per Ordinary Share
December 5, 2025	\$ 0.30	December 6, 2024	\$ 0.25
September 5, 2025	\$ 0.30	September 6, 2024	\$ 0.25
June 6, 2025	\$ 0.30	June 7, 2024	\$ 0.25
March 28, 2025	\$ 0.30	March 29, 2024	\$ 0.25

We paid \$57.4 million in dividends during fiscal 2025 and \$47.8 million during fiscal 2024.

On February 17, 2026, our Board of Directors declared a cash dividend of thirty cents \$0.30 per share, payable on March 27, 2026 to shareholders of record on March 4, 2026.

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

22. Redeemable Noncontrolling Interest Acquisition

As part of the Mann Packing acquisition in 2018, we acquired a put option exercisable by the 25% shareholder of one of the acquired subsidiaries. The put option allowed the noncontrolling shareholder to sell its 25% noncontrolling interest to us for a multiple of the subsidiary's adjusted earnings. As the put option was outside of our control, the carrying value of the 25% noncontrolling interest was presented as a redeemable noncontrolling interest outside of permanent equity on our Consolidated Balance Sheet. At each reporting period, the redeemable noncontrolling interest was recognized at the higher of (1) the initial carrying amount adjusted for accumulated earnings and distributions or (2) the contractually-defined redemption value as of the balance sheet date.

During June 2023, the noncontrolling shareholder exercised its put option right and accordingly, the Company closed the purchase of the remaining 25% of this subsidiary for \$5.2 million in cash consideration. The transaction was accounted for as an equity transaction, with the differential between the redeemable noncontrolling interest carrying amount at the time of closing and the cash purchase price being recognized as a \$42.7 million increase in paid-in capital within shareholders' equity.

23. Subsequent Events

On January 15, 2026, we were selected as the successful bidder by the United States Bankruptcy Court for the District of New Jersey (the “Court”) to acquire select assets of Del Monte Foods Corporation II Inc. and its affiliates (“Del Monte Foods”) for approximately \$285 million plus the assumption of certain liabilities following a court-supervised bankruptcy auction process under Section 363 of the U.S. Bankruptcy Code. The Court subsequently approved the sale order and execution of an Asset Purchase Agreement (“APA”) on February 6, 2026. Under the APA, we will acquire i) the prepared and packaged foods businesses of Del Monte Foods comprising canned vegetable, tomato, and refrigerated fruit business assets operated under the *Del Monte*[®], *S&W*[®], *Contadina*[®], *Take Root Organics*[®] trademarks, (ii) the bubble tea business operated under the *Joyba*[®] trademarks, (iii) four US facilities, two facilities in Mexico, and one facility in Venezuela and (iv) global ownership of the *Del Monte*[®] brand, which is subject to existing licensing arrangements across different regions and categories (the “Acquisition”). The APA also provides for the assumption of customer and supplier contracts as defined in the APA, as well as inventory at closing to help support uninterrupted service to the existing customer base. The Acquisition, which we expect to close during the first quarter of 2026, remains subject to regulatory clearances, including under the Hart-Scott-Rodino Act, and other customary closing conditions.

Schedule II - Valuation and Qualifying Accounts

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

None.

Item 9A. Controls and Procedures

We carried out an evaluation, under the supervision and with the participation of management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of December 26, 2025. Based upon this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of such date to ensure that information required to be disclosed in the reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC rules and forms. Such officers also confirm that there was no change in our internal control over financial reporting during the quarter ended December 26, 2025 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Management's Annual Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act. Our internal control over financial reporting is designed under the supervision of our Chairman and Chief Executive Officer and Senior Vice President and Chief Financial Officer to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Our internal control over financial reporting includes those policies and procedures that:

1. Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of our assets;
2. Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures are being made only in accordance with authorizations of our management and directors; and
3. Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on the financial statements.

Under the supervision and with the participation of our management, including our Chairman and Chief Executive Officer and Senior Vice President and Chief Financial Officer, we conducted an evaluation of the effectiveness of our internal control over financial reporting, based on criteria established in *Internal Control-Integrated Framework* issued in 2013 by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO"). Based on this assessment, management determined that our internal control over financial reporting was effective as of December 26, 2025 based on the criteria in *Internal Control - Integrated Framework* issued in 2013 by COSO.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

The effectiveness of our internal control over financial reporting as of December 26, 2025 has been audited by Ernst & Young LLP, an independent registered certified public accounting firm, as stated in their report that is included elsewhere herein. That report expresses an unqualified opinion on the effectiveness of our internal control over financial reporting.

Item 9B. Other Information

Rule 10b5-1 Trading Plans

During the quarter ended December 26, 2025, no director or officer of the Company adopted or terminated a “Rule 10b5-1 trading arrangement” or “non-Rule 10b5-1 trading arrangement,” as each term is defined in Item 408(a) of Regulation S-K, except as follows:

On September 16, 2025, Mohammad Abu-Ghazaleh, the Company's Chief Executive Officer, adopted a trading plan pursuant to Rule 10b5-1 of the Exchange Act, which is intended to satisfy the affirmative defense conditions of Rule 10b5-1(c), providing for the sale of up to 50,811 of the Company's shares. Mohammad Abu-Ghazaleh subsequently terminated the plan on December 16, 2025.

Item 9C. Disclosure Regarding Foreign Jurisdictions that Prevent Inspections

Not applicable.

PART III

Item 10. Directors, Executive Officers and Corporate Governance

Information required by Item 10 of Part III of this Annual Report on Form 10-K will be included in our definitive Proxy Statement relating to our 2025 Annual General Meeting of Shareholders with respect to directors, executive officers, audit committee financial experts of the Company and Section 16(a) beneficial ownership reporting compliance, and is incorporated herein by reference in response to this item.

Code of Ethics

We have adopted a Code of Conduct and Business Ethics Policy (“Code of Conduct”) that applies to our principal executive officer, principal financial officer and principal accounting officer as well as all our directors, other officers and employees. Our Code of Conduct can be found on our website at www.freshdelmonte.com. We have not waived the requirements of the Code of Conduct for any directors or executive officers and there were no amendments in 2025. We intend to disclose any amendment or waiver of the Code of Conduct promptly on our website.

Item 11. Executive Compensation

Information required by Item 11 of Part III of this Annual Report on Form 10-K will be included in our definitive Proxy Statement relating to our 2025 Annual General Meeting of Shareholders with respect to executive compensation, and is incorporated herein by reference in response to this item.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

Information required by Item 12 of Part III of this Annual Report on Form 10-K will be included in our definitive Proxy Statement relating to our 2025 Annual General Meeting of Shareholders with respect to security ownership of certain beneficial owners and management and securities authorized for issuance under equity compensation plans, and is incorporated herein by reference in response to this item.

Item 13. Certain Relationships and Related Transactions, and Director Independence

Information required by Item 13 of Part III of this Annual Report on Form 10-K will be included in our definitive Proxy Statement relating to our 2025 Annual General Meeting of Shareholders with respect to certain relationships and related transactions and director independence, and is incorporated herein by reference in response to this item.

Item 14. Principal Accountant Fees and Services

Information required by Item 14 of Part III of this Annual Report on Form 10-K will be included in our definitive Proxy Statement relating to our 2025 Annual General Meeting of Shareholders with respect to principal accountant fees and services, and is incorporated by reference in response to this item.

PART IV**Item 15. Exhibits and Financial Statement Schedules*****Consolidated Statements and Other Financial Information***

The following financial statements and supplemental schedule of Fresh Del Monte Produce Inc. and its subsidiaries are included in Item 8. *Financial Statements and Supplementary Data* of this Report:

Consolidated Financial Statements

Report of Independent Registered Public Accounting Firm on Consolidated Financial Statements

Consolidated Balance Sheets at December 26, 2025 and December 27, 2024

Consolidated Statements of Operations for the years ended December 26, 2025, December 27, 2024 and December 29, 2023

Consolidated Statements of Comprehensive Income for the years ended December 26, 2025, December 27, 2024 and December 29, 2023

Consolidated Statements of Cash Flows for the years ended December 26, 2025, December 27, 2024 and December 29, 2023

Consolidated Statements of Shareholders' Equity and Redeemable Noncontrolling Interest for the years ended December 26, 2025, December 27, 2024 and December 29, 2023

Notes to Consolidated Financial Statements

Supplemental Financial Statement Schedule

Schedule II - Valuation and Qualifying Accounts

Exhibits

The exhibits listed below are incorporated in this Report by reference, except for those indicated by “*” which are filed herewith (see accompanying Exhibit Index)

Exhibit No.	Description
3.1	Amended and Restated Memorandum of Association of Fresh Del Monte Produce Inc. (incorporated by reference to Exhibit 3.1 of our Annual Report on Form 10-K of our fiscal year ended December 27, 2019).
3.2	Second Amended and Restated Articles of Association of Fresh Del Monte Produce Inc. (incorporated by reference to Exhibit 3.3 to our Quarterly Report on Form 10-Q of our fiscal quarter ended July 1, 2022).
4.1	Specimen Certificate of Ordinary Shares of Fresh Del Monte Produce Inc. (incorporated by reference to Exhibit 4.1 of our Annual Report on Form 10-K of our fiscal year ended December 30, 2022).
4.2	Description of Securities (incorporated by reference to Exhibit 4.2 to our Quarterly Report on Form 10-Q of our fiscal quarter ended March 31, 2023).
10.1	License Agreement, dated as of December 5, 1989, between Del Monte Corporation and Wafer Limited (the “DMC-Wafer License”) (incorporated by reference to Exhibit 10.1 of our Annual Report on Form 10-K of our fiscal year ended December 31, 2021).

Exhibit No.	Description
10.2	<u>License Agreement, dated as of December 5, 1989, between Del Monte Corporation and Del Monte Tropical Fruit Company, North America (the “NAJ License”)(incorporated by reference to Exhibit 10.2 of our Annual Report on Form 10-K of our fiscal year ended December 31, 2021).</u>
10.3	<u>License Agreement, dated as of December 5, 1989, between Del Monte Corporation and Del Monte Fresh Fruit International, Inc. (incorporated by reference to Exhibit 10.3 of our Annual Report on Form 10-K of our fiscal year ended December 31, 2021).</u>
10.4	<u>Amendment No. 1 to DMC-Wafer License, dated as of October 12, 1992, between Del Monte Corporation and Wafer Limited (incorporated by reference to Exhibit 10.4 of our Annual Report on Form 10-K of our fiscal year ended December 30, 2022).</u>
10.5	<u>Amendment No. 1 to NAJ License, dated as of October 12, 1992, between Del Monte Corporation and Del Monte Fresh Produce N.A., Inc. (incorporated by reference to Exhibit 10.5 of our Annual Report on Form 10-K of our fiscal year ended December 30, 2022).</u>
10.6	<u>Amendment No. 1 to Direct DMC-DMFFI License, dated as of October 12, 1992, between Del Monte Corporation and Del Monte Fresh Produce International, Inc. (incorporated by reference to Exhibit 10.3 of our Annual Report on Form 10-K of our fiscal year ended December 31, 2021).</u>
10.7	<u>Registration Rights Agreement, dated as of October 15, 1997, by and between Fresh Del Monte and FG Holdings Limited (incorporated by reference to Exhibit 10.7 of our Annual Report on Form 10-K of our fiscal year ended December 31, 2021).</u>
10.8	<u>Strategic Alliance Agreement, dated as of August 29, 1997, by and between the Registrant and IAT Group Inc. (incorporated by reference to Exhibit 10.8 of our Annual Report on Form 10-K of our fiscal year ended December 31, 2021).</u>
10.9**	<u>Amended and Restated Fresh Del Monte Produce Inc. 1999 Share Incentive Plan, effective as of April 30, 2008 (reflects Amendment No. 1, dated May 1, 2002, Amendments No. 2 through 5 dated April 27, 2005 and Amendment No. 6 dated April 30, 2008)(incorporated by reference to Exhibit 10.1 to Quarterly Report on Form 10-Q of our fiscal quarter ended June 27, 2008).</u>

CERTIFICATION

I, Mohammad Abu-Ghazaleh, certify that:

1. I have reviewed this annual report on Form 10-K of Fresh Del Monte Produce Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
