## DEFINITIONS

**Bank Loan Portfolio Joint Venture:** A joint venture BXMT entered into with a Blackstone-advised investment vehicle in June 2025 to acquire portfolios of performing commercial mortgage loans. BXMT's equity interest in the joint venture is included in investments in unconsolidated entities on BXMT's balance sheet.

**Distributable Earnings:** Blackstone Mortgage Trust, Inc. ("BXMT") discloses Distributable Earnings in this presentation. Distributable Earnings is a financial measure that is calculated and presented on the basis of methodologies other than in accordance with generally accepted accounting principles in the United States of America ("GAAP").

Distributable Earnings is a non-GAAP measure, which is defined as GAAP net income (loss), including realized gains and losses not otherwise recognized in current period GAAP net income (loss), and excluding (i) non-cash equity compensation expense, (ii) depreciation and amortization, (iii) unrealized gains (losses), and (iv) certain non-cash items. Distributable Earnings may also be adjusted from time to time to exclude one-time events pursuant to changes in GAAP and certain other non-cash charges as determined by BXMT's manager, subject to approval by a majority of its independent directors. Distributable Earnings mirrors the terms of BXMT's management agreement between BXMT's Manager and BXMT, for purposes of calculating its incentive fee expense.

BXMT's CECL reserves have been excluded from Distributable Earnings consistent with other unrealized gains (losses) pursuant to its existing policy for reporting Distributable Earnings. BXMT expects to only recognize such potential credit losses in Distributable Earnings if and when such amounts are realized and deemed non-recoverable upon a realization event. This is generally at the time a loan is repaid, or in the case of foreclosure, when the underlying asset is sold, but realization and non-recoverability may also be concluded if, in BXMT's determination, it is nearly certain that all amounts due will not be collected. The timing of any such credit loss realization in BXMT's Distributable Earnings may differ materially from the timing of CECL reserves or charge-offs in BXMT's consolidated financial statements prepared in accordance with GAAP. The realized loss amount reflected in Distributable Earnings will equal the difference between the cash received, or expected to be received, and the book value of the asset, and is reflective of its economic experience as it relates to the ultimate realization of the loan.

BXMT believes that Distributable Earnings provides meaningful information to consider in addition to net income (loss) and cash flow from operating activities determined in accordance with GAAP. BXMT believes Distributable Earnings is a useful financial metric for existing and potential future holders of its class A common stock as historically, over time, Distributable Earnings has been a strong indicator of its dividends per share. As a REIT, BXMT generally must distribute annually at least 90% of its net taxable income, subject to certain adjustments, and therefore BXMT believes its dividends are one of the principal reasons stockholders may invest in BXMT's class A common stock. Distributable Earnings helps BXMT to evaluate its performance excluding the effects of certain transactions and GAAP adjustments that BXMT believes are not necessarily indicative of BXMT's current investment portfolio and operations and is a performance metric BXMT considers when declaring its dividends.

Furthermore, BXMT believes it is useful to present Distributable Earnings prior to realized gains and losses, which include but are not limited to charge-offs of CECL reserves, to reflect BXMT's direct operating results and help existing and potential future holders of BXMT's class A common stock assess the performance of BXMT's business excluding such realized gains or losses. BXMT may make similar adjustments with respect to other types of investments, if and when applicable transactions occur. During the period from the first quarter of 2024 to the fourth quarter of 2025, we reported this metric as Distributable Earnings prior to charge-offs of CECL reserves, as the only applicable realized gains or losses during such period were charge-offs of CECL reserves. BXMT utilizes Distributable Earnings prior to realized gains and losses as an additional performance metric to consider when declaring BXMT's dividends. Distributable Earnings mirrors the terms of BXMT's Management Agreement for purposes of calculating BXMT's incentive fee expense. Therefore, Distributable Earnings prior to realized gains and losses is calculated net of the incentive fee expense that would have been recognized if such realized gains and losses had not occurred.

Distributable Earnings and Distributable Earnings prior to realized gains and losses are non-GAAP measures. BXMT defines Distributable Earnings as GAAP net income (loss), including realized gains and losses not otherwise recognized in current period GAAP net income (loss), and excluding (i) non-cash equity compensation expense, (ii) depreciation and amortization, (iii) unrealized gains (losses), and (iv) certain non-cash items. Distributable Earnings may also be adjusted from time to time to exclude one-time events pursuant to changes in GAAP and certain other non-cash charges as determined by BXMT's Manager, subject to approval by a majority of BXMT's independent directors. Distributable Earnings mirrors the terms of BXMT's management agreement between its Manager and BXMT, or BXMT's Management Agreement, for purposes of calculating BXMT's incentive fee expense. Therefore, Distributable Earnings prior to realized gains and losses is calculated net of the incentive fee expense that would have been recognized if such realized gains and losses had not occurred.

**Net Lease Joint Venture:** A joint venture BXMT entered into with a Blackstone-advised investment vehicle in 2024 to acquire triple net lease properties. BXMT's 75% equity interest in the joint venture is included in investments in unconsolidated entities on BXMT's balance sheet.

**Net Loan Exposure:** Represents the principal balance of loans that are included in BXMT's consolidated financial statements, net of (i) asset-specific debt, (ii) participations sold, (iii) cost-recovery proceeds, and (iv) total loans receivable CECL reserve. Does not include owned real estate assets or investments in unconsolidated entities.

## ENDNOTES

---

- w. Represents net income (loss) attributable to Blackstone Mortgage Trust, Inc.
- x. Represents realized losses related to loan principal amounts deemed non-recoverable during the applicable period.
- y. Represents depreciation of owned real estate assets and amortization of intangible owned real estate assets and liabilities.
- z. Represents an adjustment to the realized loss on the sale of a property held at depreciated cost. Because depreciation and amortization is a non-cash expense that is excluded from Distributable Earnings, GAAP gains upon sale of a property are higher, and GAAP losses are lower, than the respective realized amounts reflected in Distributable Earnings. For Distributable Earnings, the amount is calculated as net sales proceeds less the property's carrying value prior to depreciation and amortization.
- aa. Represents realized gain (loss) on the repatriation of unhedged foreign currency. These amounts were not included in GAAP net income (loss), but rather as a component of other comprehensive income in BXMT's consolidated financial statements.
- bb. Allocable share of adjustments related to unconsolidated entities for the three months ended March 31, 2026, reflects BXMT's share of non-cash items such as (i) \$3.2 million of unrealized losses recorded by such unconsolidated entities, (ii) \$3.1 million of depreciation and amortization, and (iii) related adjustments for realized gains, if any. For the three months ended December 31, 2025, reflects BXMT's share of non-cash items such as (i) \$(2.0) million of unrealized gains recorded by such unconsolidated entities, (ii) \$2.0 million of depreciation and amortization, and (iii) related adjustments for realized gains, if any. For the three months ended September 30, 2025, reflects BXMT's share of non-cash items such as (i) \$(2.3) million of unrealized gains recorded by such unconsolidated entities, (ii) \$1.3 million of depreciation and amortization, and (iii) related adjustments for realized gains, if any. For the three months ended June 30, 2025, reflects BXMT's share of non-cash items such as (i) \$0.9 million of unrealized losses recorded by such unconsolidated entities, (ii) \$0.7 million of depreciation and amortization, and (iii) related adjustments for realized gains, if any.
- cc. Represents (i) the non-cash income recognized under GAAP related to BXMT's Agency Multifamily Lending Partnership, in which BXMT receives a portion of origination, servicing, and other fees for loans BXMT refers to M&T Realty Capital Corporation for origination, offset by the related loss-sharing obligation accruals and (ii) the cash received related to such income previously recognized under GAAP.
- dd. Represents the amount included on BXMT's consolidated statement of operations.
