The following investor presentation may be	e provided to shareholders of Argo G	Group International Holdings, Ltd.	

Forward-Looking Statements

This presentation may include forward-looking statements, both with respect to Argo Group and its industry, that reflect our current views with respect to future events and financial performance. These statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform act of 1995. Forward-looking statements include all statements that do not relate solely to historical or current facts, and can be identified by the use of words such as "expect," "intend," "plan," "believe," "do not believe," "aim," "project," "anticipate," "seek," "will," "likely," "assume," "estimate," "may," "continue," "guidance," "objective," "outlook," "trends," "future," "could," "would," "should," "target," "on track," and similar expressions of a future or forward-looking nature. All forward-looking statements address matters that involve risks

and uncertainties, many of which are beyond Argo Group's control. Accordingly, there are or will be important factors that could cause actual results to differ materially from those indicated in such statements and, therefore, you should not place undue reliance on any such statements. We believe that these factors include, but are not limited to, the following: 1) unpredictability and severity of catastrophic events; 2) rating agency actions; 3) adequacy of our risk management and loss limitation methods; 4) cyclicality of demand and pricing in the insurance and reinsurance markets;5) statutory or regulatory developments including tax policy, reinsurance and other regulatory matters; 6) our ability to implement our business strategy;

7) adequacy of our loss reserves; 8) continued availability of capital and finance; 9) retention of key personnel; 10) competition; 11) potential loss of business from one or more major insurance or reinsurance brokers; 12) our ability to implement, successfully and on a timely basis, complex infrastructure, distribution capabilities, systems, procedures, and internal controls, and to develop accurate actuarial data to support the business and regulatory and reporting requirements; 13) general economic and market conditions (including inflation, volatility in the credit and capital markets, interest rates, and foreign currency exchange rates); 14) the integration of businesses we may acquire or new business ventures we may start;

15) the effect on our investment portfolios of changing financial market conditions including inflation, interest rates, liquidity and other factors;
16) acts of terrorism or outbreak of war; and 17) availability of reinsurance and retrocessional coverage, as well as management's response to any of the aforementioned factors.

In addition, any estimates relating to loss events involve the exercise of considerable judgments and reflect a combination of ground-up evaluations, information available to date from brokers and pedants, market intelligence, initial tentative loss reports, and other sources. The actuarial range of reserves and management's best estimate is based on our then-current state of knowledge including explicit and implicit assumptions relating to the pattern of claim development, the expected ultimate settlement amount, inflation and dependencies between lines of business. Our internal capital model is used to consider the distribution for reserving risk around this best estimate and predict the potential range of outcomes. However, due to the complexity of factors contributing to the losses and preliminary nature of the information used to prepare these estimates, there can be no assurance that Argo Group's ultimate losses will remain within the stated amount.

The foregoing review of important factors should not be construed as exhaustive and should be read in conjunction with the other cautionary statements that are included herein and elsewhere, including the risk factors included in our most recent reports on Form 10-K and Form 10-Q and other documents of Argo Group on file with or furnished to the U.S. Securities and Exchange Commissions ("SEC"). Any forward-looking statements made in this presentation are qualified by these cautionary statements, and there can be no assurance that the actual results or developments anticipated by Argo Group will be realized, or even if substantially realized, that they will have the expected consequences to. or effects on, Argo Group or its business or operations. Except as required by law, Argo Group undertakes no obligation to update publicly or revise forward-looking statements, whether as a result of new information, future developments or otherwise.

Focused On Refreshment & Diverse Perspectives

- 5 new directors added since 2017, each of whom brings highly relevant skills and perspectives
- 2 independent directors added in 2019
 - Tony Latham: International industry experience spanning over four decades, including various board roles and senior executive positions
 - Sam Liss: Brings extensive financial, operational and corporate governance expertise through his directorship at Verisk and prior global business leadership role at Travelers Insurance
- √ Fully independent Board (except CEO)

Relevant Skills & Experience

Insurance Industry Expertise	Operating Experience
Executive Leadership	Accounting and Finance
Risk Management	Public Company Governance

Board Oversight of Risk Management

Board oversees development of Risk Management Policy and Chief Risk Officer's application of that Policy

Board-Level Responsibilities

- Ensure clear accountabilities are defined and a risk aware culture is fostered in line with Argo's Purpose and Values
- Retain primary responsibility for the Risk Management Policy and oversee compliance with the Policy
- Ensure Chief Risk Officer has direct line of communication with Board
- Ensure independence of Risk Management function from underwriting and business operations
- Ensure Chief Risk Officer and Risk Management function have access to all necessary personnel and information to ensure compliance with our Policy

Role of Chief Risk Officer

- Implement, maintain, and ensure compliance with the Policy; report to Board and CEO or CFO as appropriate
- Develop processes to ensure consistent application of risk management framework across entire organization
- Support Board in articulating risk appetite and monitor risk exposures against agreed risk tolerance limits
- Recommend risk response and treatment options if identified risks fall outside the Company's risk tolerance

Goals of Risk Management Framework

Risk Governance & Culture

 Define clear accountabilities and foster a risk aware culture in line with Argo's Purpose and Values

Risk Identification and Prioritization

 Ensure current and emerging risks that could materially impact our financial resources, volatility of resources or the viability of our business model are understood and articulated in a timely manner

Risk Appetite, Tolerances and Limits

 Board defines clear boundaries for acceptable risk taking are defined by the Board

Risk Management and Controls

 Ensure conscious management decisions are taken to secure opportunities and bring threats within acceptable bounds

Risk Reporting and Communication

 Clearly communicate and cascade risk information through all levels of the organization to support decision-making

Strong Governance and Compensation Practices

Our Board and Human Resources Committee are focused on maintaining strong governance and executive compensation practices

Governance Practices

- Fully independent board (except CEO)
- ✓ Independent Chairman
- Regular executive sessions of independent directors
- Annual management succession planning
- Shareholder right to call special meetings (10% threshold), with no material restrictions
- Majority vote standard for director elections
- Majority vote standard for mergers / acquisitions and charter / bylaw amendments
- Single voting class stock
- √ No poison pill

Compensation Practices

- Compensation program thoughtfully designed to align pay and performance and incentivize risk management
 - 73% of CEO and 65% on average of other NEOs' total target compensation is at-risk
 - · Robust stock ownership guidelines
 - 5x base salary for CEO, 3x annual retainer for directors, 2.5x base salary for NEOs
- ✓ Robust clawback policy
- ✓ Prohibition of hedging and significant pledging
- No single trigger severance payments upon change in control
- √ No excise tax gross-ups

Corporate Responsibility

Environmental, Social and Governance (ESG) factors are embedded throughout our company's operations, and coordinated by our Sustainability Working Group

Human Capital Management

Maintaining and developing a diverse workforce is key to our success and fundamental to our culture

- Training and Development: Training magazine ranked Argo among the top 125 organizations in the world in 2019 for our successful learning and development programs
- Employee Engagement: Argo provides innovative, creative experiences and tools to maximize engagement, connectedness, and development across our organization

Information Security & Data Protection

The smart, accurate and safe use of data is essential to our long-term success and growth

- Cybersecurity: We are committed to continued internal audits of security systems and cyber risk measures, as well as making all necessary enhancements to ensure the safety of private information
- Privacy Promise: We take our responsibility to protect our customers' data and privacy seriously

Community

Our purpose of securing the future applies not only to our clients, but to the communities in which we live and work

- The Argo Foundation: Invests in programs and services that support the health and well-being of Bermuda's youth
- Volunteering: Argo employees volunteer in local education, arts and social services fundraising events, and through our Matching Funds program, Argo will match 150% of employees' charitable donations

Environment

Argo underscores its role as a responsible corporate citizen by working to minimize the environmental impact of our office services, facilities and technology operations

 Office Locations: We are actively improving the environmental impact of our operations, from moving to a greener workspace in London to improving our recycling and waste management practices within each office. As much as possible, we operate in a paperless environment, and we encourage employees to recycle more and reduce personal waste

Differentiated Approach to Digital Innovation

Through iterative tech product development, investments and partnerships, we leverage advancements in digital technology to enhance customer intimacy, increase automation, improve risk selection and enter new markets.

How we are organized

- Cross-functional product squads, each focused on solving a particular user-focused pain point
- Squads are comprised of product owners, engineers, data scientists, and designers
- Early-stage investment team with investing, operating, and industry expertise

How we work

- Hypothesis-driven, iterative approach to building digital products
- Prioritize opportunities that can generate 2x-10x return on invested capital
- Decisions grounded in a bottomup, internally developed thesis on how technology will impact the commercial insurance ecosystem
- Partner with and invest in external ventures that can further enable our Digital approach

Our Focus

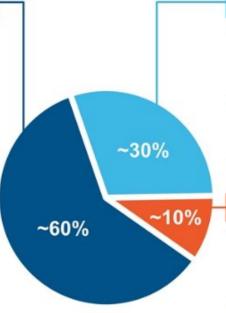

- Leverage new data sources, machine learning, and predictive analytics to enable faster and smarter underwriting
- More efficiently, with regards to both time and cost, connect to distribution partners digitally
- Automate internal processes and workflows
- Explore emerging tech-enabled categories

Digital Transformation Outcomes

Transform Core Business

- Processed over \$1.4B GWP through our flagship policy administration platform, currently supporting 14 products
- Launched Argo Risk Tech, a custom, sensor-based technology that allows retail merchants to manage risk through reduction in on-premises accidents. Achieved full year loss reduction and expense reduction for Argo Insurance.
- Partnered with Coalition, a startup cybersecurity MGA, for our cyber book
- Continued growth in our digitization of our Casualty business to 50% of our brokers getting self-service quotes with 80% being full automated.
- Launched a fully digital self-service management liability product for a key partner 3 months ahead of schedule now driving MoM self-service GWP growth.
- Built a data platform for the retrieval, processing, and machine learning on proprietary and external data sources
- Launched our first predictive analytics tool for D&O underwriters using machine learning
- Employed robotic process automation (RPA) across multiple use cases

Explore Adjacencies

- Built a self-serve digital portal driving engagement with Argo's brokers and insureds which continues to see engagement increase QonQ. Expanded use to new business units.
- Announced our partnership with Corvus, on their Smart Cargo Insurance product designed to help food and beverage companies reduce loss of perishable goods
- Invested in a startup helping brokers focus on risk advisory through custom built digital tools and automation of back-office tasks

Disrupt Traditional Insurance

- Incubated a Brazil-based startup focused on enabling stronger membership engagement for affinity groups and associations - 58 corporate clients signed up as of 2018 YE, representing ~1.6M users
- Exploring ways to use blockchain for insurance applications
- Leveraged our quick quote applications into a new platform which will allow us to launch new digital self-service lines quickly including into new areas of business with minimal operational staff

Notice to Recipient

ABOUT ARGO GROUP INTERNATIONAL HOLDINGS, LTD.

Argo Group International Holdings, Ltd. (NYSE: ARGO) is an international underwriter of specialty insurance and reinsurance products in the property and casualty market. Argo Group's insurance subsidiaries are A. M. Best-rated 'A' (Excellent) (third highest rating out of 16 rating classifications) with a stable outlook, and Argo Group's U.S. insurance subsidiaries are Standard and Poor's-rated 'A-'(Strong) with a positive outlook. More information on Argo Group and its subsidiaries is available at www.argolimited.com.

ADDITIONAL INFORMATION

Argo Group International Holdings, Ltd. ("Argo Group") intends to file a proxy statement and WHITE proxy card with the U.S. Securities and Exchange Commission (the "SEC") in connection with its solicitation of proxies for its 2019 Annual General Meeting of Shareholders (the "2019 Annual General Meeting"). ARGO GROUP SHAREHOLDERS ARE STRONGLY ENCOURAGED TO READ THE DEFINITIVE PROXY STATEMENT (AND ANY AMENDMENTS AND SUPPLEMENTS THERETO) AND ACCOMPANYING WHITE PROXY CARD WHEN THEY BECOME AVAILABLE AS THEY WILL CONTAIN IMPORTANT INFORMATION. Shareholders may obtain the proxy statement, any amendments or supplements to the proxy statement and other documents as and when filed by Argo Group with the SEC without charge from the SEC's website at www.sec.gov.

CERTAIN INFORMATION REGARDING PARTICIPANTS

Argo Group, its directors and certain of its executive officers may be deemed to be participants in connection with the solicitation of proxies from Argo Group's shareholders in connection with the matters to be considered at the 2019 Annual General Meeting. Information regarding the ownership of Argo Group's directors and executive officers in Argo Group common shares is included in their SEC filings on Forms 3, 4, and 5, which can be found through the SEC's website at www.sec.gov. Information can also be found in Argo Group's other SEC filings. More detailed and updated information regarding the identity of potential participants, and their direct or indirect interests, by security holdings or otherwise, will be set forth in the proxy statement and other materials to be filed with the SEC. These documents can be obtained free of charge from the sources indicated above.
