# Note A — Accounting Policies

#### Basis of Presentation:

The accompanying consolidated financial statements of Materion Corporation and its subsidiaries (referred to herein as the Company, our, we, or us) contain all of the adjustments necessary to present fairly the financial position, results of operations, and cash flows for the interim periods reported. All adjustments were of a normal and recurring nature.

These consolidated financial statements should be read in conjunction with the consolidated financial statements and related notes included in the Company's 2022 Annual Report on Form 10-K. The interim period results are not necessarily indicative of the results to be expected for the full year.

#### New Pronouncements Adopted:

In March 2020, the FASB issued ASU 2020-04, Reference Rate Reform (Topic 848): Facilitation of the Effects of Reference Rate Reform on Financial Reporting. This guidance is intended to provide temporary optional expedients and exceptions to the U.S. GAAP guidance on contract modifications and hedge accounting to ease the financial reporting burden related to the expected market transition from the London Interbank Offered Rate (LIBOR) and other interbank offered rates to alternative reference rates. This guidance is available immediately and may be implemented in any period prior to the guidance expiration on December 31, 2024. The Company has applied this guidance in accounting for the interest rate swaps discussed in Note N. Any additional reference rate reform impacts will be accounted for in accordance with ASU 2020-04 and ASU 2022-06.

No other recently issued or effective ASUs had, or are expected to have, a material effect on the Company's results of operations, financial condition, or liquidity.

#### Note B — Segment Reporting

The Company has the following reportable segments: Performance Materials, Electronic Materials, Precision Optics, and Other. The Company's reportable segments represent components of the Company for which separate financial information is available that is utilized on a regular basis by the Chief Executive Officer, the Company's chief operating decision maker, in determining how to allocate the Company's resources and evaluate performance.

Performance Materials provides advanced engineered solutions comprised of beryllium and non-beryllium containing alloy systems and custom engineered parts in strip, bulk, rod, plate, bar, tube, and other customized shapes.

Electronic Materials produces advanced chemicals, microelectric packaging, precious metal, non-precious metal, and specialty metal products, including vapor deposition targets, frame lid assemblies, clad and precious metal preforms, high temperature braze materials, and ultra-fine wire.

Precision Optics produces thin film coatings, optical filter materials, sputter-coated, and precision-converted thin film materials.

The Other reportable segment includes unallocated corporate costs and assets.

The primary measurement used by management to measure the financial performance of each segment is earnings before interest, taxes, depreciation and amortization (EBITDA). The below table presents financial information for each segment and a reconciliation of EBITDA to Net Income (the most directly comparable GAAP financial measure) for the second quarter and first six months of 2023 and 2022:

(Thousands)	Sec	Second Quarter 2023		Second Quarter 2022	Firs	st Six Months Ended 2023	F	First Six Months Ended 2022
Net sales:								
Performance Materials <sup>(1)</sup>	\$	182,771	\$	154,889	\$	369,785	\$	304,520
Electronic Materials <sup>(1)</sup>		190,730		260,971		419,549		531,807
Precision Optics		25,050		29,435		51,742		58,013
Other		_		_		_		_
Net sales		398,551		445,295		841,076		894,340
Segment EBITDA:	_							
Performance Materials	\$	44,925	\$	27,229	\$	87,695	\$	52,021
Electronic Materials		13,394		22,337		27,349		34,484
Precision Optics		1,701		3,544		4,393		5,735
Other		(7,598)		(7,191)		(14,253)		(12,366)
Total Segment EBITDA	-	52,422		45,919		105,184		79,874
Income tax expense		4,347		5,072		8,928		8,093
Interest expense - net		7,641		4,701		15,142		8,437
Depreciation, depletion and amortization		16,352		12,891		31,444		26,070
Net income	\$	24,082	\$	23,255	\$	49,670	\$	37,274

<sup>(1)</sup> Excludes inter-segment sales of \$1.0 million for the second quarter of 2023 and \$4.1 million for the first six months of 2023 for Electronic Materials. There were no material inter-segment sales for Performance Materials in 2023. Additionally, excludes inter-segment sales of \$0.2 million for the second quarter of 2022 and \$0.5 million for the first six months of 2022 for Performance Materials and \$2.7 million for the second quarter of 2022 and \$8.2 million for the first six months of 2022 for Electronic Materials. Inter-segment sales are eliminated in consolidation.

The following table disaggregates revenue for each segment by end market for the second quarter and first six months of 2023 and 2022:

#### Note C — Revenue Recognition

Net sales consist primarily of revenue from the sale of precious and non-precious specialty metals, beryllium and copper-based alloys, beryllium composites, and other products into numerous end markets. The Company requires an agreement with a customer that creates enforceable rights and performance obligations. The Company generally recognizes revenue in an amount that reflects the consideration to which it expects to be entitled upon satisfaction of a performance obligation by transferring control over a product to the customer. Control over a product is generally transferred to the customer when the Company has a present right to payment, the customer has legal title, the customer has physical possession, the customer has the significant risks and rewards of ownership, and/or the customer has accepted the product.

Transaction Price Allocated to Future Performance Obligations: Accounting Standards Codification 606, Revenue from Contracts with Customers, requires that the Company disclose the aggregate amount of transaction price that is allocated to performance obligations that have not yet been satisfied at June 30, 2023. Remaining performance obligations include non-cancelable purchase orders and customer contracts. The guidance provides certain practical expedients that limit this requirement. As such, the Company does not disclose the value of unsatisfied performance obligations for contracts with an original expected length of one year or less.

After considering the practical expedient at June 30, 2023, the aggregate amount of the transaction price allocated to remaining performance obligations was approximately \$64.1 million.

Contract Balances: The timing of revenue recognition, billings, and cash collections resulted in the following contract assets and contract liabilities:

(Thousands)	Jui	ne 30, 2023	 December 31, 2022	 \$ change	% change
Accounts receivable, trade	\$	188,328	\$ 215,726	\$ (27,398)	(13)%
Unbilled receivables		11,340	10,765	575	5 %
Unearned revenue		15,306	15,496	(190)	(1)%

Accounts receivable, trade represents payments due from customers relating to the transfer of the Company's products and services. The Company believes that its receivables are collectible and appropriate allowances for doubtful accounts have been recorded. Impairment losses (bad debt) incurred related to our receivables were immaterial during the second quarter of 2023.

Unbilled receivables represent expenditures on contracts, plus applicable profit margin, not yet billed. Unbilled receivables are generally billed and collected within one year. Billings made on contracts are recorded as a reduction of unbilled receivables.

Unearned revenue is recorded for consideration received from customers in advance of satisfaction of the related performance obligations. The Company recognized approximately \$11.7 million of the December 31, 2022 unearned amounts as revenue during the first six months of 2023.

As a practical expedient, the Company does not adjust the promised amount of consideration for the effects of a significant financing component because the period between the transfer of a product or service to a customer and when the customer pays for that product or service will be one year or less. The Company does not include extended payment terms in its contracts with customers.

#### Note D — Other-net

Other-net for the second quarter and first six months of 2023 and 2022 is summarized as follows:

		Second Qu	arter Ende	d	 Six Mon	ths Ended		
(Thousands)	June 20	,		uly 1, 2022	 June 30, 2023		July 1, 2022	
Amortization of intangible assets	\$	3,130	\$	3,099	\$ 6,250	\$	6,230	
Metal consignment fees		2,797		2,871	5,726		5,882	
Foreign currency (gain) loss		170		28	(38)		(305)	
Other items		95		(70)	 28		(6)	
Total	\$	6,192	\$	5,928	\$ 11,966	\$	11,801	

#### Note E — Restructuring

During 2023, the Company implemented various restructuring initiatives across the Performance Materials, Electronic Materials and Precision Optics segments to improve operational efficiency. This resulted in severance and related costs of approximately \$1.5 million and \$2.1 million during the three months and six months ended June 30, 2023, respectively.

In the first six months of 2022, Company recorded a combined total of \$1.1 million of restructuring charges in our Precision Optics, Electronic Materials and Other segments as a result of cost reduction actions taken in order to reduce our fixed cost structure.

#### Note F — Income Taxes

The Company's effective tax rate for the second quarter of 2023 and 2022 was 15.3% and 17.9%, respectively, and 15.2% and 17.8% in the first six months of 2023 and 2022, respectively. The effective tax rate for 2023 was lower than the statutory

tax rate primarily due to the impact of percentage depletion, research and development and production credits and the foreign derived intangible income deduction. The effective tax rate for 2022 was lower than the statutory tax rate primarily due to the impact of percentage depletion, research and development credits and the foreign derived intangible income deduction. The effective tax rate for the first six months of 2023 included a net discrete income tax benefits of \$1.0 million, primarily related to excess tax benefits from stock-based compensation awards. The effective tax rate for the first six months of 2022 included a net discrete income tax benefit of \$0.4 million, primarily related to excess tax benefits from stock-based compensation awards.

#### Government Tax Credits

On August 16, 2022, President Biden signed the Inflation Reduction Act of 2022 (IRA) into law. The IRA, among other provisions, includes a new corporate alternative minimum tax on certain large corporations and new or enhanced federal energy and manufacturing tax credits effective for tax years beginning in 2023. The Company is not subject to the minimum tax as our average annual book profits over the prior three-year period were less than \$1 billion. The IRA introduced a new advanced manufacturing production credit (production credit), which provides an annual cash benefit for a portion of production costs for the sale of certain minerals produced in the U.S. and sold by a taxpayer during the year.

The IRA affords the Company eligibility to a production credit beginning in 2023, for which the Company expects to recognize cash savings of at least \$8 million for the year ending December 31, 2023. The issuance of guidance and interpretation as to the eligibility for, calculation of, and methods for claiming the production credit remain pending. We will continue to monitor developments related to the production credit from the Internal Revenue Service and U.S. Treasury Department and evaluate the potential impact to the Company's production credit. The Company will finalize the expected annual production credit impact as further guidance is issued.

The production credit is recorded as a reduction in cost of goods sold as the applicable items are produced and sold. U.S. GAAP does not address the accounting for government grants received by a business entity that are outside the scope of ASC 740; our accounting policy is to analogize to IAS 20, *Accounting for Government Grants and Disclosure of Government Assistance*, under IFRS Accounting Standards. We recognize the benefit of tax credits accounted for by applying IAS 20 in pretax income on a systematic basis in line with its recognition of the expenses that the grant is intended to compensate.

# Note G — Earnings Per Share (EPS)

The following table sets forth the computation of basic and diluted EPS:

7 7 7	Second Quarter Ended				Six Mon	ths Er	Ended		
(Thousands, except per share amounts)	June 30, 2023			July 1, 2022	June 30, 2023		July 1, 2022		
Numerator for basic and diluted EPS:				_					
Net income	\$	24,082	\$	23,255	\$ 49,670	\$	37,274		
Denominator:									
Denominator for basic EPS									
Weighted-average shares outstanding		20,625		20,517	20,596		20,491		
Effect of dilutive securities:									
Stock appreciation rights		91		81	93		86		
Restricted stock units		77		82	91		116		
Performance-based restricted stock units		103		43	112		50		
Diluted potential common shares		271		206	296		252		
Denominator for diluted EPS:									
Adjusted weighted-average shares outstanding		20,896		20,723	20,892		20,743		
Basic EPS	\$	1.17	\$	1.13	\$ 2.41	\$	1.82		
Diluted EPS	\$	1.15	\$	1.12	\$ 2.38	\$	1.80		

Adjusted weighted-average shares outstanding - diluted exclude securities totaling 47,084 and 119,744 for the quarters ended June 30, 2023 and July 1, 2022, respectively, and totaling 69,716 and 79,949 for the six months ended June 30, 2023 and July 1, 2022, respectively. These securities are primarily related to restricted stock units and stock appreciation rights with fair market values and exercise prices greater than the average market price of the Company's common stock and were excluded from the dilution calculation as the effect would have been anti-dilutive.

#### Note H — Inventories

Inventories on the Consolidated Balance Sheets are summarized as follows:

	June 30,	D	ecember 31,
(Thousands)	 2023		2022
Raw materials and supplies	\$ 114,942	\$	113,694
Work in process	263,604		249,105
Finished goods	76,797		60,281
Inventories, net	\$ 455,343	\$	423,080

The Company maintains the majority of the precious metals and copper used in production on a consignment basis in order to reduce its exposure to metal market price movements and to reduce its working capital investment. The notional value of off-balance sheet precious metals and copper was \$321.3 million and \$373.1 million as of June 30, 2023 and December 31, 2022, respectively.

#### **Note I** — Customer Prepayments

In 2020, the Company entered into an investment agreement and a master supply agreement with a customer to procure equipment to manufacture product for the customer. The customer provided prepayments to the Company to fund the necessary infrastructure improvements and procure the equipment necessary to supply the customer with the desired product. The Company owns, operates and maintains the equipment that is being used to manufacture product for the customer.

Revenue will be recognized as the Company fulfills purchase orders and ships the commercial product to the customer, as product delivery is considered the satisfaction of the performance obligation.

Additionally, during the second quarter of 2022, the Company entered into an amendment to the investment agreement with the same customer to procure additional equipment to manufacture product for the customer. As of June 30, 2023, the Company has received approximately \$37.0 million in prepayments under the terms of this amended agreement, of which \$15.1 million was received during the first six months of 2023.

As of June 30, 2023 and December 31, 2022, \$91.4 million and \$85.9 million, respectively, of prepayments are classified as Unearned income on the Consolidated Balance Sheets. The prepayments will remain in Unearned income until commercial purchase orders are received for product serviced out of the equipment, at which time a portion of the purchase order value related to prepayments will be reclassified to Unearned revenue. As of June 30, 2023 \$6.7 million of the prepayments are classified as Unearned revenue.

# Note J — Pensions and Other Post-employment Benefits

The following is a summary of the net periodic benefit cost for the second quarter and first six months ended June 30, 2023 and July 1, 2022, respectively, for the pension plans as shown below. The Pension Benefits column aggregates defined benefit pension plans in the U.S., Germany, Liechtenstein, England, and the U.S. supplemental retirement plans. The Other Benefits column includes the domestic retiree medical and life insurance plan.

**Pension Benefits** 

Other Benefits

	_	Second Qu	arter	Ended	Second Qua	arter Ended		
		June 30,		July 1,	June 30,		July 1,

		Six Mon	ths E	nded	Six Mont	ths Eı	nded	
		June 30,		July 1,	June 30,		July 1,	
(Thousands)		2023		2022	 2023		2022	
Components of net periodic benefit (credit) cost								
Service cost	\$	433	\$	610	\$ 25	\$	42	
Interest cost		3,943		2,436	136		78	
Expected return on plan assets		(4,861)		(4,778)			_	
Amortization of prior service (benefit) cost		(44)		(38)	(278)		(748)	
Amortization of net loss (gain)		(156)		850	(190)		(136)	
Net periodic benefit (credit) cost	\$	(685)	\$	(920)	\$ (307)	\$	(764)	

The Company did not make any contributions to its domestic defined benefit plan in the second quarter or first six months of 2023 or 2022.

The Company reports the service cost component of net periodic benefit cost in the same line item as other compensation costs in operating expenses and the non-service cost components of net periodic benefit cost in Other non-operating (income) expense.

# Note K — Accumulated Other Comprehensive Income (Loss)

Changes in the components of accumulated other comprehensive income, including the amounts reclassified, for the second quarter and first six months of 2023 and 2022 are as follows:

Gains and Losses on Cash Flow Hedges Pension and Post-Foreign Currency Foreign Precious Metals Employment Benefits Interest Rate Total Total (Thousands) Currency Translation Balance at March 31, 2023 1,165 \$ 4,141 \$ (570) \$ 4,736 \$ (40,295)(6,067) \$ (41,626)Other comprehensive income (loss) before reclassifications 163 4,830 79 5,072 (743)4,329 Amounts reclassified from accumulated other comprehensive income (loss) (1,028)85 (943)(207)(1,150)Net current period other comprehensive 163 3,802 164 4,129 (207)(743)3,179 (loss) income before tax 38 874 37 949 47 996 Deferred taxes Net current period other comprehensive 125 2,928 127 3,180 (254)(743)2,183 (loss) income after tax 1,290 7,069 (443)7,916 (40,549)(6,810)(39,443)Balance at June 30, 2023 \$ Balance at April 1, 2022 2,451 \$ 2,485 (246) \$ 4.690 (39,942) \$ (4,934) \$ (40,186)Other comprehensive (loss) income before reclassifications 1,117 756 467 2,340 (6,343)(4,003)Amounts reclassified from accumulated (110)120 (10)110 other comprehensive income (loss) 238 (8) Net current period other comprehensive 1,007 994 459 (loss) income before tax 2,460 (10)(6,343)(3,893)229 Deferred taxes 232 105 566 (26)540 Net current period other comprehensive 765 354 1,894 16 (6,343)(4,433)(loss) income after tax

Reclassifications from accumulated other comprehensive income (loss) of gains and losses on foreign currency cash flow hedges are recorded in Net sales in the Consolidated Statements of Income. Reclassifications from accumulated other comprehensive income (loss) of gains and losses on precious metal and copper cash flow hedges are recorded in Cost of sales in the Consolidated Statements of Income. Reclassifications from accumulated other comprehensive income (loss) of gains and losses on the interest rate cash flow hedge is recorded in Interest expense in the Consolidated Statements of Income. Refer to Note N for additional details on cash flow hedges.

Reclassifications from accumulated other comprehensive income (loss) for pension and post-employment benefits are included in the computation of the net periodic pension and post-employment benefit expense. Refer to Note J for additional details on pension and post-employment expenses.

#### Note L — Stock-based Compensation Expense

Stock-based compensation expense, which includes awards settled in shares and in cash, was \$2.8 million and \$5.2 million in the second quarter and first six months of 2023, respectively, compared to \$2.0 million and \$3.8 million, respectively, in the same periods of 2022.

The Company granted 47,084 stock appreciation rights (SARs) to certain employees during the first six months of 2023. The weighted-average exercise price per share and weighted-average fair value per share of the SARs granted during the six months ended June 30, 2023 were \$113.28 and \$42.27, respectively. The Company estimated the fair value of the SARs using the following weighted-average assumptions in the Black-Scholes model:

Risk-free interest rate	4.27 %
Dividend yield	0.44 %
Volatility	39.0 %
Expected term (in years)	4.5

The Company granted 53,906 stock-settled restricted stock units (RSUs) to certain employees during the first six months of 2023. The Company measures the fair value of stock-settled RSUs based on the closing market price of a share of Materion common stock on the date of the grant. The weighted-average fair value per share was \$112.61 for stock-settled RSUs granted to employees during the six months ended June 30, 2023. RSUs are generally expensed over the vesting period of three years for employees.

The Company granted stock-settled performance-based restricted stock units (PRSUs) to certain employees in the first six months of 2023. The weighted-average fair value of the stock-settled PRSUs was \$154.97 per share and will be expensed over the vesting period of three years. The final payout to the employees for all PRSUs will be based upon the Company's return on invested capital and its total return to shareholders over the vesting period relative to a peer group's performance over the same period.

At June 30, 2023, unrecognized compensation cost related to the unvested portion of all stock-based awards was approximately \$20.7 million, and is expected to be recognized over the remaining vesting period of the respective grants.

#### Note M — Fair Value of Financial Instruments

The Company measures and records financial instruments at fair value. A hierarchy is used for those instruments measured at fair value that distinguishes between assumptions based on market data (observable inputs) and the Company's assumptions (unobservable inputs). The hierarchy consists of three levels:

- Level 1 Quoted market prices in active markets for identical assets and liabilities;
- Level 2 Inputs other than Level 1 inputs that are either directly or indirectly observable; and
- Level 3 Unobservable inputs developed using estimates and assumptions developed by the Company, which reflect those that a market participant would use.

The following table summarizes the financial instruments measured at fair value in the Consolidated Balance Sheets as of June 30, 2023 and December 31, 2022:

	otal Carryii onsolidated		As	ctive	e for l	Obser Ing	her		Unobse Inp	ficant ervable uts el 3)	
(Thousands)	2023	2022	2023		2022	2023		2022	2023	2	2022
Financial Assets											
Deferred compensation investments	\$ 4,451	\$ 3,001	\$ 4,451	\$	3,001	\$ _	\$	_	\$ _	\$	_
Foreign currency forward contracts	512	1,291	_		_	512		1,291	_		_
Interest rate swap	9,736	7,863	_		_	9,736		7,863	_		_
Precious metal swaps	1	 118	 			 1		118	 		_
Total	\$ 14,700	\$ 12,273	\$ 4,451	\$	3,001	\$ 10,249	\$	9,272	\$ 	\$	
Financial Liabilities										-	
Deferred compensation liability	\$ 4,451	\$ 3,001	\$ 4,451	\$	3,001	\$ _	\$	_	\$ _	\$	_
Foreign currency forward contracts	946	1,757	_		_	946		1,757	_		_
Interest rate swap	556	_	_		_	556		_	_		_
Precious metal swaps	580	 411			_	580		411	 		_
Total	\$ 6,533	\$ 5,169	\$ 4,451	\$	3,001	\$ 2,082	\$	2,168	\$ 	\$	_

The Company uses a market approach to value the assets and liabilities for financial instruments in the table above. Outstanding contracts are valued through models that utilize market observable inputs, including both spot and forward prices, for the same underlying currencies, metals, and interest rates. The carrying values of the other working capital items and debt in the Consolidated Balance Sheets approximate fair values as of June 30, 2023 and December 31, 2022. The Company's deferred compensation investments and liabilities are based on the fair value of the investments corresponding to the employees' investment selections, primarily in mutual funds, based on quoted prices in active markets for identical assets. Deferred compensation investments are primarily presented in Other assets. Deferred compensation liabilities are primarily presented in Other long-term liabilities.

#### Note N — Derivative Instruments and Hedging Activity

The Company uses derivative contracts to hedge exposure to movements in interest rates associated with borrowings, foreign currency exposures, and precious metal and copper exposures. The objectives and strategies for using derivatives in these areas are as follows:

*Interest Rate.* On March 4, 2022, the Company entered into a \$100.0 million interest rate swap to hedge the interest rate risk on the Credit Agreement described in Note P. The swap hedges the change in 1-month Secured Overnight Financial Rate (SOFR) from March 4, 2022 to November 2, 2026. On March 21, 2023, the Company entered into two \$50.0 million interest rate swaps to hedge the interest rate risk on the Credit Agreement described in Note P. The swaps hedge the change in 1-month USD-SOFR. The purpose of these hedges is to manage the risk of changes in the monthly interest payments attributable to changes in the benchmark interest rate.

**Foreign Currency.** The Company sells a portion of its products to overseas customers in their local currencies, primarily the euro and yen. The Company secures foreign currency derivatives, mainly forward contracts and options, to hedge these anticipated sales transactions. The purpose of the hedge program is to protect against the reduction in the dollar value of foreign currency sales from adverse exchange rate movements. Should the dollar strengthen significantly, the decrease in the translated value of the foreign currency sales should be partially offset by gains on

the hedge contracts. Depending upon the methods used, the hedge contracts may limit the benefits from a weakening U.S. dollar.

The use of forward contracts locks in a firm rate and eliminates any downside from an adverse rate movement as well as any benefit from a favorable rate movement. The Company may from time to time choose to hedge with options or a tandem of options, known as a collar. These hedging techniques can limit or eliminate the downside risk but can allow for some or all of the benefit from a favorable rate movement to be realized. Unlike a forward contract, a premium is paid for an option; collars, which are a combination of a put and call option, may have a net premium but can be structured to be cash neutral. The Company will primarily hedge with forward contracts due to the relationship between the cash outlay and the level of risk.

The use of foreign currency derivative contracts is governed by policies approved by the Audit Committee of the Board of Directors. A team consisting of senior financial managers reviews the estimated exposure levels, as defined by budgets, forecasts, and other internal data, and determines the timing, amounts, and nature of instruments to use to hedge exposures. Management analyzes the effective hedged rates and the actual and projected gains and losses on the hedging transactions against the program objectives, targeted rates, and levels of risk assumed. Foreign currency contracts are typically layered in at different times for a specified exposure period in order to minimize the impact of market rate movements.

**Precious Metals.** The Company maintains the majority of its precious metal production requirements on consignment in order to reduce its working capital investment and the exposure to metal price movements. When a product containing precious metal is fabricated and delivered to the customer, the metal content is purchased out of consignment based on the current market price. The price paid by the Company for the precious metal forms the basis for the price charged to the customer for the metal content in the product. This methodology allows for changes in either direction in the market prices of the precious metals used by the Company to be passed through to the customer and reduces the impact changes in prices could have on the Company's margins and operating profit. The consigned metal is owned by precious metal consignors that charge the Company consignment fees based upon the value of the metal as it fluctuates while on consignment. Each precious metal consignor retains title to its consigned precious metal until it is purchased by the Company, and it is the Company's typical practice to purchase metal out of consignment only after a product containing that metal has been purchased by one of our customers.

In certain instances, a customer may want to fix the price for the precious metal at the time the sales order is placed rather than at the time of shipment. Setting the sales price at a different date than when the material would be purchased out of consignment potentially creates an exposure to movements in the market price of the metal. Therefore, in these limited situations, the Company may elect to enter into a forward contract to purchase precious metal. The forward contract allows the Company to purchase metal at a fixed price on a specific future date. The price in the forward contract serves as the basis for the price to be charged to the customer. By doing so, the selling price and purchase price are matched, and the Company's price exposure is reduced.

The Company refines precious metal-containing materials for its customers and typically will purchase the refined metal from the customer at current market prices. In limited circumstances, the customer may want to fix the price to be paid at the time of the order as opposed to when the material is refined. The customer may also want to fix the price for a set period of time. The Company may then elect to enter into a hedge contract, either a forward contract or a swap, to fix the price for the estimated quantity of metal to be refined and purchased, thereby reducing the exposure to adverse movements in the price of the metal. The Company may also enter into hedges to mitigate the risk relating to the prices of the metals that we process or refine.

In certain circumstances, the Company also refines metal from the customer and may retain a portion of the refined metal as payment. The Company may elect to enter into a forward contract to sell precious metal to reduce the Company's price exposure in these instances.

The Company may, from time to time, elect to purchase precious metal and hold in inventory rather than on consignment due to potential credit line limitations or other factors. These purchases are infrequent and, when made are typically held for a short duration. A forward contract will be secured at the time of the purchase to fix the price to be paid when the metal is transferred back to the consignment line, thereby limiting any price exposure during the time when the metal was owned by the Company.

The Company will only enter into a derivative contract if there is an underlying identified exposure. Contracts are typically held to maturity. The Company does not engage in derivative trading activities and does not use derivatives for speculative purposes. The Company only uses hedge contracts that are denominated in the same currency or metal as the underlying exposure.

All derivatives are recorded on the balance sheet at fair value. If a derivative is designated and effective as a cash flow hedge, changes in the fair value of the derivative are recognized in other comprehensive income (OCI) and reclassified into income in the same period or periods during which the hedged transaction affects earnings. The ineffective portion of a derivative's fair value, if any, is recognized in earnings immediately. If a derivative is not a hedge, changes in the fair value are adjusted through income. The fair values of the outstanding derivatives are recorded on the balance sheet as assets (if the derivatives are in a gain position) or liabilities (if the derivatives are in a loss position). The derivative assets and liabilities are classified as short-term or long-term depending upon the contract maturity date.

The following table summarizes the notional amount and the fair value of the Company's outstanding derivatives not designated as hedging instruments (on a gross basis) and the balance sheet classification as of June 30, 2023 and December 31, 2022:

	June 30, 2023					Decembe	er 31, 2022		
(Thousands)		Notional Amount		Fair Value		Notional Amount		Fair Value	
Foreign currency forward contracts				<u> </u>					
Prepaid and other current assets	\$	21,807	\$	235	\$	12,242	\$	791	
Other liabilities and accrued items		27,995		521		17,061		1,048	

These outstanding foreign currency derivatives were related to balance sheet hedges and intercompany loans. Other-net included \$0.2 million and \$0.4 million of foreign currency losses in the second quarter and first six months of 2023, respectively, compared to less than \$0.1 million of foreign currency losses and \$0.7 million of foreign currency gains in the second quarter and first six months of 2022, respectively.

The following table summarizes the notional amount and the fair value of the Company's outstanding derivatives designated as cash flow hedges (on a gross basis) and balance sheet classification as of June 30, 2023 and December 31, 2022:

			June 30, 2023				
			Fai	r Val	lue		
(Thousands)	Notional Amount	Prepaid and other current assets	Other assets		Other liabilities and accrued items	0	ther long-term liabilities

Total	\$ 238,649	\$ 5,185	\$ 4,829	\$	992	\$	569

					December 31, 2022						
	Fair Value										
	Notional Amount		Prepaid and other current assets		Other assets		Other liabilities and accrued items	Other long-term liab	ilities		
Foreign currency forward contracts - yen	\$ 2,985	\$	145	\$	_	\$	74	\$	26		
Foreign currency forward contracts - euro	25,712		355		_		472		137		
Precious metal swaps	8,758		118		_		411		_		
Interest rate swap	100,000		3,114		4,749		_		—		
Total	\$ 137,455	\$	3,732	\$	4,749	\$	957	\$	163		

All of the contracts summarized above were designated and effective as cash flow hedges. We expect to reclassify \$4.1 million of net gains into earnings in the next 12 months contemporaneously with the earnings effects of the related forecasted transactions. At June 30, 2023, the maximum term of derivative instruments that hedge forecasted transactions was approximately four years. Refer to Note K for further details related to OCI.

The following table summarizes the amounts reclassified from accumulated other comprehensive income relating to the Company's outstanding derivatives designated as cash flow hedges and associated income statement classification as of the second quarter and first six months of 2023 and 2022:

			Second Qua	rter End	ed

#### Note O — Contingencies

*Legal Proceedings*. For general information regarding legal proceedings relating to Chronic Beryllium Disease Claims, refer to Note S "Contingencies and Commitments" in the Company's 2022 Annual Report on Form 10-K.

One beryllium case was outstanding as of June 30, 2023; however, the Company has entered into a confidential settlement agreement with plaintiffs, pursuant to which all remaining claims in the case are to be dismissed with prejudice, subject to court approval. The resolution of this matter will not have a material impact on the consolidated financial statements.

Other Litigation. The Company is party to several pending legal proceedings and claims arising in the normal course of business. The Company records a liability when it is both probable that a liability has been incurred and the amount of the loss can be reasonably estimated. In the event the Company determines that a loss is not probable, but is reasonably possible, and it becomes possible to develop what the Company believes to be a reasonable range of possible loss, then the Company will include disclosure related to such matters. To the extent there is a reasonable possibility that the losses could exceed any amounts accrued, the Company will adjust the accrual in the period the determination is made, disclose an estimate of the additional loss or range of loss, indicate that the estimate is immaterial with respect to its financial statements as a whole or, if the amount of such adjustment cannot be reasonably estimated, disclose that an estimate cannot be made.

On October 14, 2020, Garett Lucyk, et al. v. Materion Brush Inc., et. al., case number 20CV0234, a wage and hour purported collective and class action, was filed in the Northern District of Ohio against the Company and its subsidiary, Materion Brush Inc. (collectively, the Company). Plaintiff, a former hourly production employee at the Company's Elmore, Ohio facility, alleges, among other things, that he and other similarly situated employees nationwide are not paid for all time they spend donning and doffing personal protective equipment in violation of the Fair Labor Standards Act and Ohio law. Plaintiff filed a motion for conditional certification, which the Company opposed. On August 2, 2022, the court conditionally certified a class of employees at the Company's Elmore facility only and rejected certification of a class across the Company's other facilities. The court preliminarily approved the settlement on March 30, 2023 and a final approval hearing was held on July 6, 2023. There were no objections to the settlement and the court entered an order approving the final settlement on July 7, 2023. The final settlement amount approximated the amount previously reserved for related to this matter.

**Environmental Proceedings.** The Company has an active environmental compliance program and records reserves for the probable cost of identified environmental remediation projects. The reserves are established based upon analyses conducted by the Company's engineers and outside consultants and are adjusted from time to time based upon ongoing studies, the difference between actual and estimated costs, and other factors. The reserves may also be affected by rulings and negotiations with regulatory agencies. The undiscounted reserve balance was \$4.4 million and \$4.5 million at June 30, 2023 and December 31, 2022, respectively, and is included in Other liabilities and accrued items and Other long-term liabilities on the Consolidated Balance Sheet. Environmental projects tend to be long-term, and the final actual remediation costs may differ from the amounts currently recorded.

#### Note P — Debt

(Thousands)	J	une 30, 2023	D	ecember 31, 2022
Borrowings under Credit Agreement	\$	159,750	\$	143,250
Borrowings under the Term Loan Facility		277,500		285,000
Overdraft Sweep Facility		495		_
Foreign debt		5,774		7,541
Total debt outstanding		443,519		435,791
Current portion of long-term debt		(27,471)		(21,105)
Gross long-term debt		416,048		414,686
Unamortized deferred financing fees		(3,315)		(3,810)
Long-term debt	\$	412,733	\$	410,876

As of June 30, 2023 and December 31, 2022, the Company had \$159.8 million outstanding at an average interest rate of 6.71% and \$143.3 million outstanding at an average interest rate of 6.08%, respectively, under its revolving credit facility. The available borrowing capacity under the revolving credit facility as of June 30, 2023 was \$168.9 million. The Company has the option to repay or borrow additional funds under the revolving credit facility until the maturity date in 2026. In connection with the revolving credit facility, the administrative agent provides the Company with an overdraft sweep facility that the Company uses on a daily basis for short-term cash needs. As of June 30, 2023, the overdraft sweep facility had a balance of \$0.5 million. The amended and restated credit agreement governing the revolving credit facility and the term loan facility (Credit Agreement) includes covenants subject to a maximum leverage ratio and a minimum fixed charge coverage ratio. We were in compliance with all of our debt covenants as of June 30, 2023.

The balance outstanding on the term loan facility as of June 30, 2023 and December 31, 2022 was \$277.5 million and \$285.0 million, respectively.

At June 30, 2023 and December 31, 2022, there was \$46.3 million and \$46.5 million, respectively, outstanding against the letters of credit sub-facility.

# Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

# **OVERVIEW**

We are an integrated producer of high-performance advanced engineered materials used in a variety of electronic, thermal, and structural applications. Our products are sold into numerous end markets, including semiconductor, industrial, aerospace and defense, automotive, consumer electronics, energy, and telecom and data center.

#### RESULTS OF OPERATIONS

#### Second Ouarter

	Second Quarter Ended

Net sales of \$398.6 million in the second quarter of 2023 decreased \$46.7 million from \$445.3 million in the second quarter of 2022. A decrease in net sales in the Electronic Materials and Precision Optics segments were partially offset by increased net sales in the Performance Materials segment. Volume decreases in the semiconductor (26%) and consumer electronics (37%) end markets were partially offset by an increase in the aerospace and defense end market (22%), incremental sales from the clad strip project of \$27.0 million and a \$5.8 million increase in the volume of raw material beryllium hydroxide sales when compared to the second quarter of 2022. See Note B to the Consolidated Financial Statements for additional details on the year over year changes in our net sales by segment and market.

The change in precious metal and copper prices unfavorably impacted net sales during the second quarter of 2023 by \$1.3 million compared to the prior year period.

Value-added sales is a non-GAAP financial measure that removes the impact of pass-through precious metal market costs and allows for analysis without the distortion of the movement or volatility in precious metal market prices and changes in mix due to customer-supplied material. Internally, we manage our business on this basis, and a reconciliation of net sales, the most directly comparable GAAP financial measure, to value-added sales is included herein. Value-added sales of \$268.3 million in the second quarter of 2023 decreased \$0.5 million, or 0.2%, compared to the second quarter of 2022. Volume decreases in the semiconductor (29%) and consumer electronics (38%) end markets were partially offset by an increase in the aerospace and defense end market (25%), incremental sales from the clad strip project of \$27.0 million and a \$5.8 million increase in the volume of raw material beryllium hydroxide sales when compared to the second quarter of 2022.

*Gross margin* in the second quarter of 2023 was \$89.1 million, an increase of 2% compared to the second quarter of 2022. Gross margin expressed as a percentage of value-added sales was 33% in both the second quarter of 2023 and the second quarter of 2022. The production tax credit recorded in the second quarter of 2023 favorably impacted gross margin. See Note F to the Consolidated Financial Statements for further discussion.

**SG&A expense** was \$38.9 million in the second quarter of 2023, compared to \$42.0 million in the second quarter of 2022. The decrease in SG&A expense from the prior year period was primarily driven by \$1.0 million of merger and acquisition costs related to the acquisition of HCS-Electronic Materials incurred in the second quarter of 2022 that did not recur in 2023 as well as lower selling related expenses associated with the decrease in value-added sales. Expressed as a percentage of value-added sales, SG&A expense was 15% and 16% in the second quarter of 2023 and 2022, respectively.

**R&D** expense consists primarily of direct personnel costs for product innovation including pre-production development, evaluation, and testing of new products, prototypes, and applications to deliver new high performing advanced materials to our customers. R&D expense accounted for 3% of value-added sales in the second quarter of both 2023 and 2022.

**Restructuring expense** consists primarily of cost reduction actions taken in order to reduce our fixed cost structure. In the second quarter of 2023, we recorded a combined total of \$1.5 million of restructuring charges in our Performance Materials, Electronic Materials and Precision Optics segments. Refer to Note E to the Consolidated Financial Statements for details.

**Other-net** was \$6.2 million of expense in the second quarter of 2023, or a marginal increase of \$0.3 million from the second quarter of 2022. Refer to Note D to the Consolidated Financial Statements for details of the major components within Other-net.

*Other non-operating (income)-net* includes components of pension and post-retirement expense other than service costs. Refer to Note J to the Consolidated Financial Statements for details of the components.

Interest expense-net was \$7.6 million and \$4.7 million in the second quarter of 2023 and 2022, respectively. The increase in interest expense is primarily due to an increase in interest rates compared to the prior year period.

*Income tax expense* for the second quarter of 2023 was \$4.3 million, compared to \$5.1 million in the second quarter of 2022. The effective tax rate for the second quarter of 2023 and 2022 was 15.3% and 17.9%, respectively. The effective tax rate for 2023 was lower than the statutory tax rate primarily due to the impact of percentage depletion, research and development credits and the foreign derived intangible income deduction. The effective tax rate for 2022 was lower than the statutory tax rate primarily due to the impact of percentage depletion, research and development credits and the foreign derived intangible income deduction. See Note F to the Consolidated Financial Statements for additional discussion.

#### Six Months

		Six Months Ended												
		June 30,		July 1,		\$	%							
(Thousands, except per share data)		2023		2022		Change	Change							
Net sales	\$	841,076	\$	894,340	\$	(53,264)	(6)%							
Value-added sales		566,819		527,919		38,900	7 %							
Gross margin		180,391		162,718		17,673	11 %							
Gross margin as a % of value-added sales		32 %	ı	31 %										
SG&A expense		79,247		83,708		(4,461)	(5)%							
SG&A expense as a % of value-added sales		14 %	ı	16 %										
R&D expense		14,776		14,666		110	1 %							
R&D expense as a % of value-added sales		3 %	ı	3 %										
Restructuring expense		2,118		1,076		1,042	97 %							
Other—net		11,966		11,801		165	1 %							
Operating profit		72,284		51,467		20,817	40 %							
Other non-operating (income)—net		(1,456)		(2,337)		881	(38)%							
Interest expense—net		15,142		8,437		6,705	79 %							
Income before income taxes		58,598		45,367		13,231	29 %							
Income tax expense		8,928	\$	8,093		835	10 %							
Net income	\$	49,670	\$	37,274	\$	12,396	33 %							
Diluted earnings per share	\$	2.38	\$	1.80	\$	0.58	32 %							

Net sales of \$841.1 million in the first six months of 2023 decreased \$53.3 million from \$894.3 million in the first six months of 2022. Decreases in net sales in the Electronic Materials and Precision Optics segments were partially offset by increased net sales in the Performance Materials segment. Volume decreases in the semiconductor (21%), industrial (10%) and consumer electronics (34%) end markets were partially offset by an increase in the aerospace and defense end market (19%) and incremental sales from the clad strip project of \$63.2 million when compared to the first six months of 2022. Additionally, there was a \$3.1 million year over year decrease in the volume of raw material beryllium hydroxide sales compared to the first

six months of 2022. See Note B to the Consolidated Financial Statements for additional details on the year over year changes in our net sales by segment and market.

The change in precious metal and copper market prices unfavorably impacted net sales during the first six months of 2023 by \$6.1 million compared to the prior year period.

*Value-added sales* of \$566.8 million in the first six months of 2023 increased \$38.9 million, or 7%, compared to the first six months of 2022. The increase was driven by increased value-added sales into the aerospace and defense (22%) end market as well as \$63.2 million of incremental sales from the clad strip project. These increases were slightly offset by a \$3.1 million decrease in the volume of raw material beryllium hydroxide sales in the first six months of 2023 when compared to the first six months of 2022 as well as lower value-added sales into the semiconductor (13%) and consumer electronics (34%) end markets.

Gross margin in the first half of 2023 was \$180.4 million, which was up 11% compared to the first half of 2022. Gross margin expressed as a percentage of value-added sales increased to 32% in the first six months of 2023 from 31% in the first six months of 2022. Gross margin increased from the prior year period primarily due to \$7.5 million of inventory step up amortization from the HCS-Electronic Material acquisition that was recorded during the first quarter of 2022 that did not recur in 2023. In addition, the production tax credit recorded in the first half of 2023 favorably impacted gross margin. See Note F to the Consolidated Financial Statements for further discussion.

**SG&A expense** was \$79.2 million in the first six months of 2023, compared to \$83.7 million in the first six months of 2022. The decrease in SG&A expense for the first six months of 2023 was primarily driven by \$2.8 million of merger and acquisition costs related to the acquisition of HCS-Electronic Materials incurred in the first six months of 2022 that did not recur in 2023 as well as lower selling related expenses associated with the decrease in value-added sales. Expressed as a percentage of value-added sales, SG&A expense was 14% and 16% in the first half of 2023 and 2022, respectively.

**R&D** expense consists primarily of direct personnel costs for product innovation including pre-production development, evaluation, and testing of new products, prototypes, and applications to deliver new high performing advanced materials to our customers. R&D expense accounted for 3% of value-added sales in the first half of both 2023 and 2022.

**Restructuring expense** consists primarily of cost reduction actions taken in order to reduce our fixed cost structure. In the first six months of 2023, we recorded a combined total of \$2.1 million of restructuring charges in our Precision Optics, Electronic Materials and Precision Optics segments. In the first six months of 2022, we recorded a combined total of \$1.1 million of restructuring charges in our Precision Optics, Electronic Materials and Other segments. Refer to Note E to the Consolidated Financial Statements for details.

*Other-net* was \$12.0 million of expense in the first six months of 2023, or a \$0.2 million increase from the first six months of 2022. Refer to Note D to the Consolidated Financial Statements for details of the major components within Other-net.

Other non-operating (income)-net includes components of pension and post-retirement expense other than service costs. Refer to Note J to the Consolidated Financial Statements for details of the components.

*Interest expense-net* was \$15.1 million and \$8.4 million in the first six months of 2023 and 2022, respectively. The increase in interest expense is primarily due to an increase in interest rates compared to the prior year.

Income tax expense for the first half of 2023 was \$8.9 million, compared to \$8.1 million in the first half of 2022. The Company's effective tax rate for the first six months of 2023 and 2022 was 15.2% and 17.8%, respectively. The effective tax rate for each period in 2023 and 2022 was lower than the statutory tax rate primarily due to the impact of percentage depletion, research and development credits and the foreign derived intangible income deduction. The effective tax rate included a net discrete income tax benefit of \$1.0 million and \$0.4 million for the first six months of 2023 and 2022, respectively, primarily related to excess tax benefits from stock-based compensation awards.

#### Value-Added Sales - Reconciliation of Non-GAAP Financial Measure

A reconciliation of net sales to value-added sales, a non-GAAP financial measure, for each reportable segment and for the total Company for the second quarter and first six months of 2023 and 2022 is as follows:

	Second Qu	arter	Six Months Ended						
	 June 30,		July 1,		June 30,		July 1,		
(Thousands)	 2023		2022		2023		2022		
Net sales									
Performance Materials	\$ 182,771	\$	154,889	\$	369,785	\$	304,520		
Electronic Materials	190,730		260,971		419,549		531,807		
Precision Optics	25,050		29,435		51,742		58,013		
Total	\$ 398,551	\$	445,295	\$	841,076	\$	894,340		
Less: pass-through metal costs									
Performance Materials	\$ 17,153	\$	20,923	\$	36,157	\$	41,436		
Electronic Materials	113,115		155,208		238,056		323,813		
Precision Optics	22		18		44		67		
Other	_		349				1,105		
Total	\$ 130,290	\$	176,498	\$	274,257	\$	366,421		
Value-added sales									
Performance Materials	\$ 165,618	\$	133,966	\$	333,628	\$	263,084		
Electronic Materials	77,615		105,763		181,493		207,994		
Precision Optics	25,028		29,417		51,698		57,946		
Other	_		(349)		_		(1,105)		
Total	\$ 268,261	\$	268,797	\$	566,819	\$	527,919		

Internally, management reviews net sales on a value-added basis. Value-added sales is a non-GAAP financial measure that deducts the value of the pass-through precious metal market costs from net sales. Value-added sales allow management to assess the impact of differences in net sales between periods, segments, or markets, and analyze the resulting margins and profitability without the distortion of movements in pass-through market metal costs. The dollar amount of gross margin and operating profit is not affected by the value-added sales calculation. We sell other metals and materials that are not considered direct pass-throughs, and these costs are not deducted from net sales when calculating value-added sales. Non-GAAP financial measures, such as value-added sales, have inherent limitations and should not be considered in isolation, or as a substitute for analyses of results as reported under GAAP.

The cost of gold, silver, platinum, palladium, copper, ruthenium, iridium, rhodium, rhenium, and osmium can be quite volatile. Our pricing policy is to directly pass the market cost of these metals on to the customer in order to mitigate the impact of metal price volatility on our results from operations. Trends and comparisons of net sales are affected by movements in the market prices of these metals, but changes in net sales due to metal price movements may not have a proportionate impact on our profitability.

Our net sales are also affected by changes in the use of customer-supplied metal. When we manufacture a precious metal product, the customer may purchase metal from us or may elect to provide its own metal, in which case we process the metal on a toll basis and the metal value does not flow through net sales or cost of sales. In either case, we generally earn our margin based upon our fabrication efforts. The relationship of this margin to net sales can change depending upon whether or not the product was made from our metal or the customer's metal. The use of value-added sales removes the potential distortion in the comparison of net sales caused by changes in the level of customer-supplied metal.

By presenting information on net sales and value-added sales, it is our intention to allow users of our financial statements to review our net sales with and without the impact of the pass-through metals.

#### **Segment Results**

The Company consists of four reportable segments: Performance Materials, Electronic Materials, Precision Optics, and Other. The Other reportable segment includes unallocated corporate costs.

#### **Performance Materials**

(Thousands)	2023		2022		Change	Change			
Net sales	\$ 182,771	\$	154,889	\$	27,882	18 %			
Value-added sales	165,618		133,966		31,652	24 %			
EBITDA	44,925		27,229		17,696	65 %			

Net sales from the Performance Materials segment of \$182.8 million in the second quarter of 2023 increased 18% compared to net sales of \$154.9 million in the second quarter of 2022. The increase in sales was due to incremental sales from the clad strip project of \$27.0 million, and increased sales volumes in the aerospace and defense (17%) end market as well as a \$5.8 million increase in the volume of raw material beryllium hydroxide sales when compared to the second quarter of 2022. These increases were partially offset by decreased volumes in consumer electronics (37%) end market.

Value-added sales of \$165.6 million in the second quarter of 2023 were 24% higher than value-added sales of \$134.0 million in the second quarter of 2022. The increase in value-added sales was due to the same factors driving the increase in net sales.

EBITDA for the Performance Materials segment was \$44.9 million in the second quarter of 2023 compared to \$27.2 million in the second quarter of 2022. The increase in EBITDA was primarily due to the same factors driving the increase in net sales as well as an increase due to the \$4.6 million of start-up costs and manufacturing inefficiencies for the new wide area clad facility million incurred in the second quarter of 2022 that did not recur in the second quarter of 2023. In addition, we recorded a portion of the expected \$8 million annual benefit from the production credit in the second quarter of 2023, which favorably impacted EBITDA. See Note F to the Consolidated Financial Statements for further discussion.

#### Six Months

	Six Months Ended							
	 June 30,		July 1,		\$	%		
(Thousands)	2023		2022		Change	Change		
Net sales	\$ 369,785	\$	304,520	\$	65,265	21 %		
Value-added sales	333,628		263,084		70,544	27 %		
EBITDA	87,695		52,021		35,674	69 %		

Net sales from the Performance Materials segment of \$369.8 million in the first six months of 2023 increased 21% compared to net sales of \$304.5 million in the first six months of 2022. The increase in sales was primarily due to incremental sales from the clad strip project of \$63.2 million as well an increase in the aerospace and defense (20%) end market, partially offset by decreases in the consumer electronics end market (33%) when compared to the first six months of 2022. Additionally, there was a \$3.1 million year over year decrease in the volume of raw material beryllium hydroxide sales compared to the first six months of 2022.

Value-added sales of \$333.6 million in the first six months of 2023 were 27% higher than value-added sales of \$263.1 million in the first six months of 2022. The increase in value-added sales was due to the same factors driving the increase in net sales.

EBITDA for the Performance Materials segment was \$87.7 million in the first six months of 2023 compared to \$52.0 million in the first six months of 2022. The increase in EBITDA was primarily due to the same factors driving the increase in net sales as well as lower merger and acquisition costs of \$2.7 million and improved efficiencies due to higher clad strip volumes in the new facility. In addition, we recorded a portion of the expected \$8 million annual benefit from the production credit in the first six months of 2023, which favorably impacted EBITDA. See Note F to the Consolidated Financial Statements for further discussion.

# Electronic Materials Second Quarter

	 Second Quarter Ended								
	 June 30,		July 1,		\$	%			
(Thousands)	 2023		2022		Change	Change			
Net sales	\$ 190,730	\$	260,971	\$	(70,241)	(27)%			
Value-added sales	77,615		105,763		(28,148)	(27)%			
EBITDA	13,394		22,337		(8,943)	(40)%			

Net sales from the Electronic Materials segment of \$190.7 million in the second quarter of 2023 decreased by 27% compared to net sales of \$261.0 million in the second quarter of 2022. The decrease in net sales was primarily due to lower sales volumes in the semiconductor (27%) end market.

Value-added sales of \$77.6 million in the second quarter of 2023 decreased 27% compared to value-added sales of \$105.8 million in the second quarter of 2022. The decrease in value-added sales was due to the same factors driving the decrease in net sales.

EBITDA for the Electronic Materials segment was \$13.4 million in the second quarter of 2023 compared to \$22.3 million in the second quarter of 2022. The decrease in EBITDA was due to decreased sales volumes, partially offset by decreases in manufacturing and SG&A expense as a result of various targeted cost control initiatives implemented in the second quarter of 2023.

#### Six Months

	Six Months Ended								
		June 30,		July 1,		\$	%		
(Thousands)		2023		2022		Change	Change		
Net sales	\$	419,549	\$	531,807	\$	(112,258)	(21)%		
Value-added sales		181,493		207,994		(26,501)	(13)%		
EBITDA		27,349		34,484		(7,135)	(21)%		

Net sales from the Electronic Materials segment of \$419.5 million in the first six months of 2023 decreased by 21% compared to net sales of \$531.8 million in the first six months of 2022. The decrease in net sales was primarily due to lower sales volumes in the semiconductor (22%) end market. Additionally, pass-through metal price reductions reduced net sales by \$3.6 million compared to the first six months of 2022.

Value-added sales of \$181.5 million in the first half of 2023 decreased 13% compared to value-added sales of \$208.0 million in the first half of 2022. The decrease in value-added sales was due to the same factors driving the decrease in net sales.

EBITDA for the Electronic Materials segment was \$27.3 million in the first six months of 2023 compared to \$34.5 million in the first six months of 2022. The decrease in EBITDA was due to decreased sales volumes, partially offset by decreases in manufacturing and SG&A expense as a result of various targeted cost control initiatives implemented in the second quarter of 2023.

# **Precision Optics**

# Second Quarter

	Second Quarter Ended							
		June 30,		July 1,		\$	%	
(Thousands)		2023		2022		Change	Change	
Net sales	\$	25,050	\$	29,435	\$	(4,385)	(15)%	
Value-added sales		25,028		29,417		(4,389)	(15)%	
EBITDA		1,701		3,544		(1,843)	(52)%	

Net sales from the Precision Optics segment of \$25.1 million in the second quarter of 2023 decreased 15% compared to net sales of \$29.4 million in the second quarter of 2022. The decrease was primarily due to lower sales volumes as a result of a reduction in sales related to COVID-19 PCR testing programs as well as decreased sales in the consumer electronics end market (39%), which was primarily due to the discontinuation of a consumer electronic application. These decreases were partially offset by an increase in sales volumes in the aerospace and defense (64%) end market.

Value-added sales of \$25.0 million in the second quarter of 2023 decreased 15% compared to value-added sales of \$29.4 million in the second quarter of 2022. The decrease in value-added sales was due to the same factors driving the decrease in net sales.

EBITDA for the Precision Optics segment was \$1.7 million in the second quarter of 2023 compared to \$3.5 million in the second quarter of 2022. The decrease in EBITDA was driven by decreased volumes, partially offset by targeted cost control initiatives continued in the second quarter of 2023.

#### Six Months

		Six Month	ıs En	ded	
	June 30,	July 1,		\$	%
	2023	2022		Change	Change
\$	51,742	\$ 58,013	\$	(6,271)	(11)%
	51,698	57,946		(6,248)	(11)%
	4,393	5,735		(1,342)	(23)%

Net sales from the Precision Optics segment of \$51.7 million in the first half of 2023 decreased 11% compared to net sales of \$58.0 million in the first half of 2022. The decrease was primarily due to lower sales volumes as a result of a reduction in sales related to COVID-19 PCR testing programs as well as decreased sales in the consumer electronics end market (39%), which was primarily due to the discontinuation of a consumer electronic application. These decreases were partially offset by an increase in sales volumes in the aerospace and defense (21%) end market.

Value-added sales of \$51.7 million in the first half of 2023 decreased 11% compared to value-added sales of \$57.9 million in the first half of 2022. The decrease in value-added sales was due to the same factors driving the decrease in net sales.

EBITDA for the Precision Optics segment was \$4.4 million in the first six months of 2023 compared to \$5.7 million in the first six months of 2022. The decrease in EBITDA was driven by decreased volumes partially offset by targeted cost control initiatives in the first half of 2023.

#### Other

# Second Quarter

		Second Quarter Ended							
	June 30,	July 1,	\$	%					
(Thousands)	2023	2022	Change	Change					
Net sales				<u> </u>					
Value-added sales	<del>_</del>	(349)	349	(100)%					
EBITDA	(7,598)	(7,191)	(407)	6 %					

The Other reportable segment in total includes unallocated corporate costs.

Corporate costs were \$7.6 million in the second quarter of 2023 compared to \$7.2 million in the second quarter of 2022. Corporate costs accounted for 3% of Company-wide value-added sales in the second quarter of both 2023 and 2022 and remained relatively flat year over year.

#### Six Months

	 Six Months Ended							
	 June 30,		\$	%				
(Thousands)	 2023	2022	Change	Change				
Net sales	\$ 	<u> </u>		<u> </u>				
Value-added sales	_	(1,105)	1,105	(100)%				
EBITDA	(14,253)	(12,366)	(1,887)	15 %				

Corporate costs were \$14.3 million in the first half of 2023 compared to \$12.4 million in the first half of 2022. Corporate costs accounted for 3% and 2% of Company-wide value-added sales in the first half of 2023 and 2022, respectively. The increase in corporate costs in the first half of 2023 compared to the first half of 2022 is reflective of investments to execute our strategic initiatives and variable costs associated with improved financial performance.

#### FINANCIAL POSITION

#### **Cash Flow**

A summary of cash flows provided by (used in) operating, investing, and financing activities is as follows:

	Six Months Ended								
		June 30,		July 1,		\$			
(Thousands)		2023		2022	Change				
Net cash provided by operating activities	\$	70,522	\$	21,415	\$	49,107			
Net cash (used in) investing activities		(62,677)		(40,596)		(22,081)			
Net cash (used in)/provided by financing activities		(3,835)		38,418		(42,253)			
Effects of exchange rate changes		(537)		(1,524)		987			
Net change in cash and cash equivalents	\$	3,473	\$	17,713	\$	(14,240)			

*Net cash provided by operating activities* totaled \$70.5 million in the first six months of 2023 versus \$21.4 million in the prior-year period. Working capital initiatives in the first half of 2023 drove the year over year increase in operating cash. The increase in operating cash was primarily due to stronger cash collection and continued inventory management.

*Net cash used in investing activities* was \$62.7 million in the first six months of 2023 compared to \$40.6 million in the prior-year period. The increase in cash used in investing activities is due to increased capital expenditures and mine development, as expected, to support continued business growth.

Capital expenditures are made primarily for new product development, replacing and upgrading equipment, infrastructure investments, and implementing information technology initiatives. For the full year 2023, the Company expects payments for property, plant, and equipment to be approximately \$100 million.

*Net cash used in financing activities* totaled \$3.8 million in the first six months of 2023 and compared to net cash provided by financing activities of \$38.4 million in the comparable prior-year period. The net financing cash outflow in 2023 was primarily due to debt repayments, compared to financing used to support continued business growth in the same period in the prior year.

#### Liquidity

We believe cash flow from operations plus the available borrowing capacity and our current cash balance are adequate to support operating requirements, capital expenditures, projected pension plan contributions, the current dividend program, environmental remediation projects, and strategic acquisitions for at least the next twelve months and for the foreseeable future thereafter. At June 30, 2023, cash and cash equivalents held by our foreign operations totaled \$15.8 million. We do not expect restrictions on repatriation of cash held outside of the United States to have a material effect on our overall liquidity, financial condition, or results of operations for the foreseeable future.

A summary of key data relative to our liquidity, including outstanding debt, cash, and available borrowing capacity, as of June 30, 2023 and December 31, 2022 is as follows:

	June 30,		December 31,		
(Thousands)	2023			2022	
Cash and cash equivalents	\$	16,574	\$	13,101	
Total outstanding debt		440,204		431,981	
Net debt	\$	(423,630)	\$	(418,880)	
Available borrowing capacity	\$	168,904	\$	185,294	

Net debt is a non-GAAP financial measure. We are providing this information because we believe it is more indicative of our overall financial position. It is also a measure our management uses to assess financing and other decisions. We believe that based on our typical cash flow generated from operations, we can support a higher leverage ratio in future periods.

The available borrowing capacity in the table above represents the additional amounts that could be borrowed under our revolving credit facility and other secured lines existing as of the end of each period depicted. The applicable debt covenants have been taken into account when determining the available borrowing capacity, including the covenant that restricts the borrowing capacity to a multiple of the twelve-month trailing earnings before interest, income taxes, depreciation, depletion and amortization, and other adjustments.

In January 2023, we amended the agreement governing our \$375.0 million revolving credit facility and term loan facility (Credit Agreement). Pursuant to the amendment, we transitioned U.S. dollar denominated borrowings from LIBOR to SOFR for both the revolving credit agreement and the term loan and increased the cap on precious metals consignment line from \$600 million to \$615 million.

The Company had previously amended and restated the Credit Agreement in connection with the HCS-Electronic Materials acquisition in November 2021. A \$300 million delayed draw term loan facility was added to the Credit Agreement and the maturity date of the Credit Agreement was extended from 2024 to 2026. Moreover, the Credit Agreement also provides for an uncommitted incremental facility whereby, under certain conditions, the Company may be able to borrow additional term loans in an aggregate amount not to exceed \$150.0 million. The Credit Agreement provides the Company and its subsidiaries with additional capacity to enter into facilities for the consignment of precious metals and copper, and provides enhanced flexibility to finance acquisitions and other strategic initiatives. Borrowings under the Credit Agreement are secured by substantially all of the assets of the Company and its direct subsidiaries, with the exception of non-mining real property, precious metal, copper and certain other assets.

The Credit Agreement allows the Company to borrow money at a premium over SOFR, following the January 2023 amendment or prime rate and at varying maturities. The premium resets quarterly according to the terms and conditions stipulated in the agreement. The Credit Agreement includes restrictive covenants relating to restrictions on additional indebtedness, acquisitions, dividends, and stock repurchases. In addition, the Credit Agreement includes covenants that limit the Company to a maximum leverage ratio and a minimum interest coverage ratio. We were in compliance with all of our debt covenants as of June 30, 2023 and December 31, 2022. Cash on hand up to \$25 million can benefit the covenants and may benefit the borrowing capacity under the Credit Agreement.

In November 2021, we completed the acquisition of HCS-Electronic Materials. The Company financed the purchase price for the HCS-Electronic Materials acquisition with a new \$300 million five-year term loan pursuant to its delayed draw term loan facility under the Credit Agreement and \$103 million of borrowings under its amended revolving credit facility. The interest rate for the term loan is based on SOFR, following the January 2023 amendment, plus a tiered rate determined by the Company's quarterly leverage ratio.

Portions of our business utilize off-balance sheet consignment arrangements allowing us to use metal owned by precious metal consignors as we manufacture product for our customers. Metal is purchased from the precious metal consignor and sold to our customer at the time of product shipment. Expansion of business volumes and/or higher metal prices can put pressure on the consignment line limitations from time to time. In August 2022, we entered into a precious metals consignment agreement, maturing on August 31, 2025, which replaced the consignment agreements that would have matured on August 27, 2022. The available and unused capacity under the metal consignment agreements expiring in August 2025 totaled approximately \$293.7 million as of June 30, 2023, compared to \$241.9 million as of December 31, 2022. The availability is determined by Board approved levels and actual capacity.

In January 2014, our Board of Directors approved a plan to repurchase up to \$50.0 million of our common stock. The timing of the share repurchases will depend on several factors, including market and business conditions, our cash flow, debt levels, and other investment opportunities. There is no minimum quantity requirement to repurchase our common stock for a given year, and the repurchases may be discontinued at any time. We did not repurchase any shares under this program in the second quarter or first six months of 2023. Since the approval of the repurchase plan, we have purchased 1,254,264 shares at a total cost of \$41.7 million.

We paid cash dividends of \$2.7 million and \$5.3 million on our common stock in the second quarter and first six months of 2023. We intend to pay a quarterly dividend on an ongoing basis, subject to a determination that the dividend remains in the best interest of our shareholders.

#### OFF-BALANCE SHEET ARRANGEMENTS AND CASH OBLIGATIONS

We maintain the majority of the precious metals and portions of the copper we use in production on a consignment basis in order to reduce our exposure to metal price movements and to reduce our working capital investment. The notional value of off-balance sheet precious metals and copper was \$321.3 million and \$373.1 million as of June 30, 2023 and December 31, 2022, respectively. We were in compliance with all of the covenants contained in the consignment agreements as of June 30, 2023. For additional information on our material cash obligations, refer to our 2022 Annual Report on Form 10-K.

#### CRITICAL ACCOUNTING POLICIES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires the inherent use of estimates and management's judgment in establishing those estimates. For additional information regarding critical accounting policies, please refer to our 2022 Annual Report on Form 10-K.

Forward-looking Statements: Portions of the narrative set forth in this document that are not statements of historical or current facts are forward-looking statements. Our actual future performance may materially differ from that contemplated by the forward-looking statements as a result of a variety of factors. These factors include, in addition to those mentioned elsewhere herein: the global economy, including inflationary pressures, potential future recessionary conditions and the impact of tariffs and trade agreements; the impact of any U.S. Federal Government shutdowns or sequestrations; the condition of the markets which we serve, whether defined geographically or by segment; changes in product mix and the financial condition of customers; our success in developing and introducing new products and new product ramp-up rates; our success in passing through the costs of raw materials to customers or otherwise mitigating fluctuating prices for those materials, including the impact of fluctuating prices on inventory values; our success in identifying acquisition candidates and in acquiring and integrating such businesses; the impact of the results of acquisitions on our ability to fully achieve the strategic and financial objectives related to these acquisitions; our success in implementing our strategic plans and the timely and successful start-up and completion of any capital projects; other financial and economic factors, including the cost and availability of raw materials (both base and precious metals), physical inventory valuations, metal consignment fees, tax rates, exchange rates, interest rates, pension costs and required cash contributions and other employee benefit costs, energy costs, regulatory compliance costs, the cost and availability of insurance, credit availability, and the impact of the Company's stock price on the cost of incentive compensation plans; the uncertainties related to the impact of war, terrorist activities, and acts of God; changes in government regulatory requirements and the enactment of new legislation that impacts our obligations and operations; the conclusion of pending litigation matters in accordance with our expectation that there will be no material adverse effects; the disruptions in operations from, and other effects of, catastrophic and other extraordinary events including outbreaks of infectious diseases and the conflict between Russia and Ukraine; realization of expected financial benefits expected from the Inflation Reduction Act of 2022; and the risk factors set forth in Part 1, Item 1A of the Company's 2022 Annual Report on Form 10-K.

# Item 3. Quantitative and Qualitative Disclosures about Market Risk

For information regarding market risks, refer to Item 7A. Quantitative and Qualitative Disclosures About Market Risk in our 2022 Annual Report on Form 10-K. There have been no material changes in our market risks since the inclusion of this discussion in our 2022 Annual Report on Form 10-K.

# Item 4. Controls and Procedures

# a) Evaluation of Disclosure Controls and Procedures

The Company carried out an evaluation under the supervision and with participation of the Company's management, including the chief executive officer and chief financial officer, of the effectiveness of the design and operation of disclosure controls and procedures as of June 30, 2023 pursuant to Rule 13a-15(b) and 15d-15(b) under the Securities Exchange Act of 1934, as amended (Exchange Act). Based on that evaluation, management, including the chief executive officer and chief financial officer, concluded that disclosure controls and procedures are effective as of June 30, 2023.

# b) Changes in Internal Control over Financial Reporting

There have been no changes in the Company's internal control over financial reporting that occurred during the quarter ended June 30, 2023 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

# PART II OTHER INFORMATION

# Item 1. Legal Proceedings

Our subsidiaries and our holding company are subject, from time to time, to a variety of civil and administrative proceedings arising out of our normal operations, including, without limitation, product liability claims, health, safety, and environmental claims, and employment-related actions. Among such proceedings are cases alleging that plaintiffs have contracted, or have been placed at risk of contracting, beryllium sensitization or chronic beryllium disease or other lung conditions as a result of exposure to beryllium (beryllium cases). The plaintiffs in beryllium cases seek recovery under negligence and various other legal theories and demand compensatory and often punitive damages, in many cases of an unspecified sum. Spouses of some plaintiffs claim loss of consortium.

# **Beryllium Claims**

As of June 30, 2023, our subsidiary, Materion Brush Inc., was a defendant in one beryllium case. In Richard Miller v. Dolphin, Inc. et al., case number CV2020-005163, filed in the Superior Court of Arizona, Maricopa County, the Company is one of six named defendants and 100 Doe defendants. The plaintiff alleges that he contracted beryllium disease from exposures to beryllium-containing products supplied to his employer, Karsten Manufacturing Corporation, where he was a production worker, and asserts claims for negligence, strict liability – failure to warn, strict liability – design defect, and fraudulent concealment. The plaintiff seeks general damages, medical expenses, loss of earnings, consequential damages, and punitive damages, and his wife claims loss of consortium. A co-defendant, Dolphin, Inc., filed a cross-claim against the Company for indemnification. On August 12, 2020, the Company moved to dismiss the cross-claim for failure to state a claim upon which relief can be granted. The court denied the motion on October 23, 2020. On December 7, 2020, the Company filed a Petition for Special Action in the Court of Appeals seeking to appeal the denial of the motion to dismiss the cross-claim. The Court of Appeals declined to accept jurisdiction on December 30, 2020. The court entered a scheduling order on September 14, 2021 that did not set a date for trial. Amended scheduling orders were entered on April 8, 2022, August 4, 2022, and November 1, 2022 that likewise did not set a trial date. On March 30, 2023, the court dismissed all claims against four of the Company's co-defendants, as well as the cross-claim by those co-defendants against the Company pursuant to a confidential settlement agreement between those co-defendants and the plaintiffs. Following a court-ordered mediation on June 20, 2023, the Company and the other remaining defendant entered into a confidential settlement agreement with plaintiffs, pursuant to which all remaining claims in the case are to be dismissed with prejudice, subject to c

No beryllium cases were filed in the second quarter of 2023.

The Company has insurance coverage, which may respond, subject to an annual deductible.

#### **Other Claims**

On October 14, 2020, Garett Lucyk, et al. v. Materion Brush Inc., et. al., case number 20CV0234, a wage and hour purported collective and class action, was filed in the Northern District of Ohio against the Company and its subsidiary, Materion Brush Inc. (collectively, the Company). Plaintiff, a former hourly production employee at the Company's Elmore, Ohio facility, alleges, among other things, that he and other similarly situated employees nationwide are not paid for all time they spend donning and doffing personal protective equipment in violation of the Fair Labor Standards Act and Ohio law. Plaintiff filed a motion for conditional certification, which the Company opposed. On August 2, 2022, the court conditionally certified a class of employees at the Company's Elmore facility only and rejected certification of a class across the Company's other facilities.

In November 2022, the parties reached a settlement for an immaterial amount. The court preliminarily approved the settlement on March 30, 2023 and a final approval hearing was held on July 6, 2023. There were no objections to the settlement and the court entered an order approving the final settlement on July 7, 2023. The final settlement amount approximated the amount previously reserved for related to this matter.

# Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table presents information with respect to repurchases of common stock made by the Company during the three months ended June 30, 2023.

Period	Total Number of Shares Purchased (1)	Average Price Paid per Share (1)	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (2)	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs (2)	
April 1 through May 5, 2023	2,369	\$ 108.22	_	\$	8,316,239
May 6 through June 2, 2023	9,158	101.63	_		8,316,239
June 3 through June 30, 2023	590	113.07	_		8,316,239
Total	12,117	\$ 103.47		\$	8,316,239

- (1) Represents shares surrendered to the Company by employees to satisfy tax withholding obligations on equity awards issued under the Company's stock incentive plan.
- On January 14, 2014, the Company announced that its Board of Directors had authorized the repurchase of up to \$50.0 million of its common stock. During the three months ended June 30, 2023, the Company did not repurchase any shares under this program. As of June 30, 2023, \$8.3 million may still be purchased under the program.

# Item 4. Mine Safety Disclosures

Information concerning mine safety violations or other regulatory matters required by Section 1503(a) of the Dodd-Frank Wall Street Reform and Consumer Protection Act and Item 104 of Regulation S-K (17 CFR 229.104) is included in Exhibit 95 to this quarterly report on Form 10-Q.

# **Item 5. Other Information**

During the quarter ended June 30, 2023, no director or officer (as defined in Rule 16a-1(f) under the Exchange Act) of the Company adopted or terminated a "Rule 10b5-1 trading arrangement" or "non-Rule 10b5-1 trading arrangement" (as each term is defined in Item 408 of Regulation S-K).

# Item 6. Exhibits

All documents referenced below were filed pursuant to the Exchange Act by Materion Corporation, file number 001-15885, unless otherwise noted.

31.1	Certification of Chief Executive Officer required by Rule 13a-14(a) or 15d-14(a)*
31.2	Certification of Chief Financial Officer required by Rule 13a-14(a) or 15d-14(a)*
32	Certifications of Chief Executive Officer and Chief Financial Officer required by 18 U.S.C. Section 1350*
95	Mine Safety Disclosure Pursuant to Section 1503(a) of the Dodd-Frank Wall Street Reform and Consumer Protection Act for the period ended June 30, 2023*

# **SIGNATURES**

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

MATERION CORPORATION

Dated: August 2, 2023

/s/ Shelly M. Chadwick

Shelly M. Chadwick Vice President, Finance and Chief Financial Officer (Principal Financial Officer)

#### **CERTIFICATIONS**

- I, Jugal K. Vijayvargiya, certify that:
- 1) I have reviewed this quarterly report on Form 10-Q of Materion Corporation (the "registrant");
- 2) Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3) Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4) The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(f) and 15d-15(f)) for the registrant and have:
  - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5) The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

# Mine Safety Disclosure Pursuant to Section 1503(a) of the Dodd-Frank Wall Street Reform and Consumer Protection Act for the Fiscal Quarter Ended June 30, 2023

Materion Natural Resources Inc., a wholly owned subsidiary, operates a beryllium mining complex in the State of Utah which is regulated by both the U.S. Mine Safety and Health Administration ("MSHA") and state regulatory agencies. We endeavor to conduct our mining and other operations in compliance with all applicable federal, state and local laws and regulations. We present information below regarding certain mining safety and health citations which MSHA has levied with respect to our mining operations.

Section 1503(a) of the Dodd-Frank Wall Street Reform and Consumer Protection Act ("Section 1503(a)") requires the Company to present certain information regarding mining safety in its periodic reports filed with the Securities and Exchange Commission.

The following table reflects citations, orders and notices issued to Materion Natural Resources Inc. by MSHA during the fiscal quarter ended June 30, 2023 (the "Reporting Period") and contains certain additional information as required by Section 1503(a) and Item 104 of Regulation S-K, including information regarding mining-related fatalities, proposed assessments from MSHA and legal actions ("Legal Actions") before the Federal Mine Safety and Health Review Commission, an independent adjudicative agency that provides administrative trial and appellate review of legal disputes arising under the Mine Act.

Included below is the information required by Section 1503(a) with respect to the beryllium mining complex (MSHA Identification Number 4200706) for the Reporting Period:

(A)	Total number of alleged violations of mandatory health or safety standards that could significantly and substantially contribute to the cause and effect of a mine safety or health hazard under Section 104 of the Mine Act for which Materion Natural Resources Inc. received a citation from MSHA	0
(B)	Total number of orders issued under Section 104(b) of the Mine Act	0
(C)	Total number of citations and orders for alleged unwarrantable failure by Materion Natural Resources Inc. to comply with mandatory health or safety standards under Section 104(d) of the Mine Act	0
(D)	Total number of alleged flagrant violations under Section 110(b)(2) of the Mine Act	0
(E)	Total number of imminent danger orders issued under Section 107(a) of the Mine Act	0
(F)	Total dollar value of proposed assessments from MSHA under the Mine Act	\$143
(G)	Total number of mining-related fatalities	0
(H)	Received notice from MSHA of a pattern of violations under Section 104(e) of the Mine Act	No
(I)	Received notice from MSHA of the potential to have a pattern of violations under Section 104(e) of the Mine Act	No
(J)	Total number of Legal Actions pending as of the last day of the Reporting Period	0
(K)	Total number of Legal Actions instituted during the Reporting Period	0
(L)	Total number of Legal Actions resolved during the Reporting Period	0
