Adjustment to Conversion Rate Upon a Make-Whole Fundamental Change: If the effective date (as defined in the Preliminary Prospectus Supplement) of a make-whole fundamental change (as defined in the Preliminary Prospectus Supplement) occurs prior to the maturity date of the Notes and a holder elects to convert its Notes in connection with such make-whole fundamental change, we will increase the conversion rate by a number of additional shares. If holders of our Common Stock receive only cash in a make-whole fundamental change, the price paid (or deemed paid) per share will be the cash amount paid per share. Otherwise, the price paid (or deemed paid) per share will be equal to the average of the closing sale prices of our Common Stock over the five trading day period ending on, and including, the trading day immediately preceding the effective date of such make-whole fundamental change.

The following table shows what the make-whole premium would be for each stock price and effective date set forth below, expressed as additional shares of Common Stock per \$1,000 principal amount of Notes.

The exact stock price and effective date may not be set forth in the table above, in which case, if the stock price is:

- between two stock prices in the table or the effective date is between two effective dates in the table, the number of additional shares by which the conversion rate will be increased will be determined by a straight-line interpolation between the number of additional shares set forth for the higher and lower stock prices and the earlier and later effective dates based on a 360-day year;
- greater than \$325.00 per share (subject to adjustment in the same manner and at the same time as the stock prices in the table above), we will not increase the conversion rate;
- less than \$55.06 per share (subject to adjustment in the same manner and at the same time as the stock prices in the table above), we will not increase the conversion rate.

Notwithstanding the foregoing, in no event will the total number of shares of our Common Stock issuable upon conversion exceed 18.1620 shares per \$1,000 principal amount of Notes, subject to adjustment in the same manner and at the same time as the conversion rate.
