The information contained in Item 7.01 of this Current Report on Form 8-K is hereby incorporated by reference into this Item 2.02.

Item 7.01 Regulation FD Disclosure.

Prudential Financial, Inc. (the “Company”) is furnishing this Current Report to disclose certain (1) preliminary financial information regarding the quarter ended March 31, 2026, prior to the availability of the Company’s quarterly earnings release and quarterly financial supplement for the period, scheduled for release on May 5, 2026; and (2) segment reporting changes.

Assets Under Management of the PGIM Segment

As of March 31, 2026, assets under management of the PGIM segment were \$1.43 trillion.

Other Related Revenues, Net of Related Expenses, of the PGIM Segment

For the quarter ended March 31, 2026, PGIM’s other related revenues, net of related expenses, were approximately \$35 million on an adjusted operating income basis.⁽¹⁾ “Other related revenues” include incentive fees, transaction fees, and revenues from seed and co-investments and mortgage originations.

Alternative Investment Income of the General Account

For the quarter ended March 31, 2026, the alternative investment income of the Company’s General Account, excluding the Closed Block Division and Funds Withheld portfolios, (the “GA Portfolio”) is estimated to be approximately \$75 - \$95 million below the Company’s near-term expectations. “Alternative investment income” includes the adjusted operating income of the GA Portfolio’s interests in private equity, hedge fund and real estate-related investments, as well as real estate investments held through direct ownership, and excludes the results from those interests held by Divested Businesses and unaffiliated investors that have been consolidated on the Company’s balance sheet.

The preliminary financial information presented above for the quarter ended March 31, 2026, is estimated and unaudited and has been prepared in good faith on a basis consistent with prior periods based on information available to management as of the date hereof and constitute forward-looking statements; however, we have not completed our financial closing procedures for the quarter ended March 31, 2026, and our actual results could be materially different from these preliminary financial results.

First Quarter 2026 Resegmentation

Effective January 1, 2026, the Company made the following segment reporting changes to isolate the impacts of certain discontinued products that were previously commingled with the results of actively sold products that more closely reflect the Company’s current strategic focus. These changes are consistent with the Company’s recent organizational changes and strategy and reflect how the chief operating decision maker assesses performance and allocates resources:

- “U.S. Legacy Products” segment: (i) Traditional Variable Annuities with guaranteed living benefit riders and certain other annuity products, previously included in the Individual Retirement Strategies segment, and (ii) Guaranteed Universal Life policies, previously included in the Individual Life segment, have been combined into a new reportable segment named “U.S. Legacy Products.” This segment represents run-off blocks of business consisting of products that are no longer being sold in U.S. markets and will be managed with a focus on reducing risk and optimizing value.
- “Retirement” segment: The blocks of business in the Individual Retirement Strategies segment that were not moved into the U.S. Legacy Products segment, discussed above, consisting primarily of registered index-linked annuity and fixed annuity products, and the products previously included in the Institutional Retirement Strategies segment have been combined into a new reportable segment named “Retirement.” This combined segment better represents the Company’s strategic management, growth trajectory, and resource allocation policies.
- “Individual Life” segment: There were no other impacts to this segment other than the transfer of the Guaranteed Universal Life policies, discussed above. The remaining blocks of business contained within this segment primarily consist of term, indexed universal life, and variable universal life products.

These segment reporting changes are being applied retrospectively and do not have an impact on any of the Company’s previously issued Consolidated Financial Statements.

The Company furnishes herewith, as Exhibit 99.1, a revised version of the Quarterly Financial Supplement (unaudited) for fourth quarter 2025, previously provided to investors on February 3, 2026, to provide investors with historical information reflecting these changes. The updates made for these revisions are highlighted in yellow throughout. The revised supplement does not reflect events occurring after the original filing thereof, nor does it modify or update disclosures in any way other than as required to reflect the resegmentation described above. The unaudited supplemental financial information furnished in Exhibit 99.1 has been prepared by, and is the responsibility of, the Company's management. This information should be read together with the consolidated financial statements and the related notes thereto and "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in the Company's Annual Report on Form 10-K, filed on February 12, 2026, and the Company's other filings with the Securities and Exchange Commission.

The information in this Current Report on Form 8-K, including Exhibit 99.1, shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), or otherwise subject to the liabilities of that section, and shall not be deemed incorporated by reference into any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as shall be expressly set forth by specific reference in such filing.

Additional materials related to the segment reporting changes discussed herein are available on the Company's Investor Relations website at www.investor.prudential.com. Investors and others should note that the Company routinely uses its Investor Relations website to post presentations to investors and other important information, including information that may be deemed material to investors. Accordingly, the Company encourages investors and others interested in the Company to review the information that it shares at www.investor.prudential.com. Interested parties may register to receive automatic email alerts when presentations and other information are posted to the Investor Relations website by clicking on "Subscribe to Email Alerts" at www.investor.prudential.com and following the instructions provided.

Certain of the statements included in this report, including those regarding our estimated financial results for the first quarter of 2026 discussed herein, constitute forward-looking statements within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. Words such as "expects", "believes", "anticipates", "includes", "plans", "assumes", "estimates", "projects", "intends", "should", "will", "shall", or variations of such words are generally part of forward-looking statements. Forward-looking statements are made based on management's current expectations and beliefs concerning future developments and their potential effects upon Prudential Financial, Inc. and its subsidiaries. Prudential Financial, Inc.'s actual results may differ, possibly materially, from expectations or estimates reflected in such forward-looking statements. Certain important factors that could cause actual results to differ, possibly materially, from expectations or estimates reflected in such forward-looking statements can be found in the "Risk Factors" and "Forward-Looking Statements" sections included in Prudential Financial, Inc.'s Annual Reports on Form 10-K and Quarterly Reports on Form 10-Q. Factors that could cause estimated financial results for the first quarter of 2026 presented herein to differ from our actual results include the discovery of new or additional information that impacts accounting estimates, management's judgment or valuation methodologies underlying these estimated results, and the completion of our financial and other closing procedures and the preparation of our unaudited condensed consolidated financial statements. Prudential Financial, Inc. does not undertake to update any particular forward-looking statement included in this presentation.

(1) The Company analyzes the operating performance of each segment using pre-tax "adjusted operating income." Adjusted operating income does not equate to "Income (loss) before income taxes and equity in earnings of joint ventures and other operating entities" or "Net income (loss)" as determined in accordance with U.S. GAAP but is the measure of segment profit or loss used by the Company's chief operating decision maker to evaluate segment performance and allocate resources. Adjusted operating income is calculated by adjusting each segment's "Income (loss) before income taxes and equity in earnings of joint ventures and other operating entities" for the following items: realized investment gains (losses), net, and related charges and adjustments; change in value of market risk benefits, net of related hedging gains (losses); market experience updates; divested and run-off businesses; equity in earnings of joint ventures and other operating entities and earnings attributable to noncontrolling interests and redeemable noncontrolling interests; and other adjustments. For more information about adjusted operating income, see the "Segment Information" Note to the Consolidated Financial Statements in our Annual Report on Form 10-K for the year ended December 31, 2025.

First Quarter 2026 Resegmentation

Effective January 1, 2026, the Company made the following segment reporting changes to isolate the impacts of certain discontinued products that were previously commingled with the results of actively sold products that more closely reflect the Company's current strategic focus. These changes are consistent with the Company's recent organizational changes and strategy and reflect how the chief operating decision maker assesses performance and allocates resources:

"U.S. Legacy Products" segment: (i) Traditional Variable Annuities with guaranteed living benefit riders and certain other annuity products, previously included in the Individual Retirement Strategies segment, and (ii) Guaranteed Universal Life policies, previously included in the Individual Life segment, have been combined into a new reportable segment named "U.S. Legacy Products." This segment represents run-off blocks of business consisting of products that are no longer being sold in U.S. markets and will be managed with a focus on reducing risk and optimizing value.

"Retirement" segment: The blocks of business in the Individual Retirement Strategies segment that were not moved into the U.S. Legacy Products segment, discussed above, consisting primarily of registered index-linked annuity and fixed annuity products, and the products previously included in the Institutional Retirement Strategies segment have been combined into a new reportable segment named "Retirement." This combined segment better represents the Company's strategic management, growth trajectory, and resource allocation policies.

"Individual Life" segment: There were no other impacts to this segment other than the transfer of the Guaranteed Universal Life policies, discussed above. The remaining blocks of business contained within this segment primarily consist of term, indexed universal life, and variable universal life products.

The updates made for these revisions are highlighted in yellow throughout Exhibit 99.1.

(2) Yields are based on net investment income as reported under U.S. GAAP and as such do not include certain interest-related items, such as settlements of duration management swaps which are included in realized investment gains and losses and included in adjusted operating income. For interim periods, yields are annualized. The denominator in the yield percentage is based on quarterly average carrying values for all asset types except for fixed maturities which are based on amortized cost, net of allowance. Amounts for fixed maturities, short-term investments and cash equivalents are also netted for securities lending activity (i.e., income netted for rebate expenses and asset values netted for security lending liabilities). A yield is not presented for other investments as it is not considered a meaningful measure of investment performance. Yields exclude investment income and assets related to assets supporting experience-rated contractholder liabilities where the investment results generally accrue to contractholders and investment income and assets related to other investments. Prior periods have been updated to reflect the correction of an error.

(3) Excludes commercial loans and assets supporting experience-rated contractholder liabilities where the investment results generally accrue to contractholders, assets of our investment management operations, including assets that are managed for third parties, assets classified as "Separate account assets" on our balance sheet and investments that support customer liabilities reinsured under coinsurance with funds withheld and modified coinsurance arrangements.

(4) Includes fixed maturity securities classified as available-for-sale and excludes fixed maturity securities classified as trading, which are included in "Other investments." Also included in "Other investments" are LP/LLCs, investment real estate held through direct ownership, derivative instruments and other miscellaneous investments. Realized gains (losses) for "Other investments" includes changes in fair value of product-related and other derivatives and embedded derivatives.

(5) Includes invested income of assets supporting experience-rated contractholder liabilities where the investment results generally accrue to contractholders and investment management operations.

KEY DEFINITIONS AND FORMULAS

1. Adjusted operating income before income taxes:

Adjusted operating income is a non-GAAP measure used by the Company to evaluate segment performance and to allocate resources. Adjusted operating income excludes "Realized investment gains (losses), net, and related charges and adjustments." A significant element of realized investment gains and losses are impairments and credit-related and interest rate-related gains and losses. Impairments and losses from sales of credit-impaired securities, the timing of which depends largely on market credit cycles, can vary considerably across periods. The timing of other sales that would result in gains or losses, such as interest rate-related gains or losses, is largely subject to our discretion and influenced by market opportunities as well as capital and other factors.

Realized investment gains (losses) within certain businesses for which such gains (losses) are a principal source of earnings, and those associated with terminating hedges of foreign currency earnings and current period yield adjustments are included in adjusted operating income. Adjusted operating income generally excludes realized investment gains and losses from products that contain embedded derivatives, and from associated derivative portfolios that are part of an asset-liability management program related to the risk of those products. Adjusted operating income also excludes gains and losses from changes in value of certain assets and liabilities relating to foreign currency exchange movements that have been economically hedged or considered part of our capital funding strategies for our international subsidiaries, as well as gains and losses on certain investments that are designated as trading. Adjusted operating income also excludes investment gains and losses on assets supporting experience-rated contractholder liabilities and changes in experience-rated contractholder liabilities due to asset value changes, because these recorded changes in asset and liability values are expected to ultimately accrue to contractholders. Adjusted operating income excludes the changes in fair value of equity securities that are recorded in net income. Additionally, adjusted operating income excludes the impact of annual assumption updates and other refinements included in the above items.

Adjusted operating income excludes "Change in value of market risk benefits, net of related hedging gains (losses)," which reflects the impact from changes in current market conditions, and market experience updates, reflecting the immediate impacts in current period results from changes in current market conditions on estimates of profitability, which we believe enhances the understanding of underlying performance trends. Adjusted operating income also excludes the results of Divested and Run-off Businesses, which are not relevant to our ongoing operations and discontinued operations and earnings attributable to noncontrolling interests and redeemable noncontrolling interests, each of which is presented as a separate component of net income under GAAP. Additionally, adjusted operating income excludes other items, such as certain components of the consideration for acquisitions, which are recognized as compensation expense over the requisite service periods, and goodwill impairments. Earnings attributable to noncontrolling interests and redeemable noncontrolling interests is presented as a separate component of net income under GAAP and excluded from adjusted operating income.

Adjusted operating income does not equate to "Net income" as determined in accordance with U.S. GAAP. Adjusted operating income is not a substitute for income determined in accordance with U.S. GAAP, and our definition of adjusted operating income may differ from that used by other companies. The items above are important to an understanding of our overall results of operations. However, we believe that the presentation of adjusted operating income as we measure it for management purposes enhances the understanding of our results of operations by highlighting the results from ongoing operations and the underlying profitability of our businesses. Trends in the underlying profitability of our businesses can be more clearly identified without the fluctuating effects of the items described above.

2. After-tax adjusted operating income:

Adjusted operating income before taxes, as defined above, less the income tax effect applicable to adjusted operating income before taxes. The tax effect associated with pre-tax adjusted operating income is based on applicable domestic and foreign tax regulations inclusive of pertinent adjustments.

3. Annualized New Business Premiums:

Premiums from new sales that are expected to be collected over a one year period. Group insurance annualized new business premiums exclude new premiums resulting from rate changes on existing policies, from additional coverage issued under our Servicemembers' Group Life Insurance contract, and from excess premiums on group universal life insurance that build cash value but do not purchase face amounts. Group insurance annualized new business premiums include premiums from the takeover of claim liabilities. Excess (unscheduled) and single premium business for the company's domestic individual life and international operations are included in annualized new business premiums based on a 10% credit. Amounts ascribed to Life Consultants include production by captive agents associated with the Japan operation.

4. Assets Under Administration:

Fair market value of assets in client accounts and mortgage servicing assets, which are reported on an unpaid principal balance basis, that are not included in Assets Under Management. Prudential does not receive a management fee on these assets, but may receive a fee for executing trades, custody or record keeping services, or servicing the mortgage loans. In addition, fair market value of assets for which Prudential provides non-discretionary investment advice and receives a fee.

5. Assets Under Management:

Fair market value of assets directly managed by Prudential or joint ventures of which Prudential has at least 50% ownership, and assets invested in investment options included in the Company's products that are managed by third party sub-advised managers at the discretion of Prudential. This includes externally managed modified coinsurance for both Hartford and Allstate. It also includes the fair value of derivatives used in various portfolio management strategies related to the portfolio's invested assets, regardless of the hedge accounting designation, but excludes direct hedges of product liabilities and expenses.

6. Book value per share of Common Stock:

GAAP equity attributed to Prudential Financial, Inc. divided by the number of common shares outstanding at end of period, on a diluted basis. Adjusted book value per common share is a non-GAAP measure. This non-GAAP measure augments the understanding of our financial position by providing a measure of net worth that is primarily attributable to our business operations, separate from the portion that is affected by capital and currency market conditions including the removal of the associated accounting impacts of the remeasurement of certain insurance liabilities and investments that are marked to market through AOCI under GAAP, and the cumulative change in fair value of funds withheld embedded derivatives related to unrealized gains and losses on available-for-sale securities and certain derivatives associated with customer liabilities reinsured under coinsurance with funds withheld and modified coinsurance arrangements. However, adjusted book value per common share is not a substitute for book value per share including AOCI determined in accordance with GAAP, and the adjustments made to derive the measure are important to an understanding of our overall financial position.
