Item 7.01 Regulation FD Disclosure.

Effective January 1, 2023, Prudential Financial, Inc. (the "Company") adopted Accounting Standards Update 2018-12, Financial Services—Insurance (Topic 944): *Targeted Improvements to the Accounting for Long-Duration Contracts* ("ASU 2018-12" or "LDTI"), which provides new authoritative guidance impacting the accounting and disclosure requirements for long-duration insurance and investment contracts issued by the Company. The Company adopted this guidance using the modified retrospective transition method, where permitted, for changes to the liability for future policy benefits and deferred policy acquisition costs and related balances, and the retrospective transition method, as required, for market risk benefits. The Company applied this guidance as of the transition date of January 1, 2021, and retrospectively adjusted prior period amounts for years 2021 and 2022 to reflect the new guidance.

The Company furnishes herewith, as Exhibit 99.1, an updated Quarterly Financial Supplement (unaudited) for fourth quarter 2022 to provide investors with additional information regarding the expected impacts of adopting LDTI. The updates made for the adoption of ASU 2018-12 are highlighted in yellow throughout.

The unaudited supplemental financial information included in Exhibit 99.1 has been prepared by, and is the responsibility of, the Company's management. This information is preliminary, unaudited and subject to change based on the completion of ongoing internal control, review and audit procedures. Investors should therefore not place undue reliance on this unaudited supplemental financial information. This information should be read together with the consolidated financial statements and the related notes thereto and "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in the Company's Annual Report on Form 10-K, filed on February 16, 2023, and the Company's other filings with the SEC. The Company undertakes no obligation to update or revise these amounts as a result of new information or otherwise, except as required by law.

Additional materials related to the impact of the adoption of LDTI are available on the Company's Investor Relations website. Investors and others should note that the Company routinely uses its Investor Relations website to post presentations to investors and other important information, including information that may be deemed material to investors. Accordingly, the Company encourages investors and others interested in the Company to review the information that it shares at www.investor.prudential.com. Interested parties may register to receive automatic email alerts when presentations and other information are posted to the Investor Relations website by clicking on "Subscribe to Email Alerts" at www.investor.prudential.com and following the instructions provided.

Effective January 1, 2023, Prudential Financial, Inc. (the “Company”) adopted Accounting Standards Update 2018-12, Financial Services—Insurance (Topic 944): Targeted Improvements to the Accounting for Long-Duration Contracts (“ASU 2018-12” or “LDTI”), which provides new authoritative guidance impacting the accounting and disclosure requirements for long-duration insurance and investment contracts issued by the Company. The Company adopted this guidance using the modified retrospective transition method, where permitted, for changes to the liability for future policy benefits and deferred policy acquisition costs and related balances, and the retrospective transition method, as required, for market risk benefits. The Company applied this guidance as of the transition date of January 1, 2021, and retrospectively adjusted prior period amounts for years 2021 and 2022 to reflect the new guidance.

The impacts to the 2021 and 2022 data reflected in this Quarterly Financial Supplement are being voluntarily provided and are for comparative purposes only. Updates to the original Quarterly Financial Supplement furnished as part of the Company’s fourth quarter 2022 earnings materials are highlighted in yellow herein.

This revised Quarterly Financial Supplement for fourth quarter 2022 also reflects two segment reporting changes made by the Company effective January 1, 2023, which do not impact its consolidated financial statements in any of the periods presented:

- Assurance IQ no longer represents a separately reportable segment and is now included within the Company’s Corporate and Other operations.
- Prudential Advisors, the Company’s proprietary nationwide distribution business which was previously included in the Company’s Individual Life segment is now included within the Company’s Corporate and Other operations.

The historical results presented herein have been updated to reflect this new presentation.

(1) Operating Return on Average Equity (based on adjusted operating income) is a non-GAAP measure and represents adjusted operating income after-tax, annualized for interim periods, divided by average Prudential Financial, Inc. equity excluding accumulated other comprehensive income and adjusted to remove amounts included for foreign currency exchange rate remeasurement as described on page 3.

(2) For the three months ended December 31, 2022, September 30, 2022, June 30, 2022 and March 31, 2022 and for the year ended December 31, 2022 weighted average shares for basic earnings per share is used for calculating diluted earnings per share because dilutive shares and dilutive earnings per share are not applicable when a net loss is reported. As a result of the net loss attributable to Prudential Financial available to holders of Common Stock for the three months ended December 31, 2022, September 30, 2022, June 30, 2022 and March 31, 2022, and for the year ended December 31, 2022 all potential stock options and compensation programs were considered antidilutive.

(3) AOCI represents accumulated other comprehensive income and FX represents the remeasurement of foreign currency. See page 3 for further details.

(1) Revenues exclude realized investment gains, net of losses and related charges and adjustments; investment gains, net of losses, on assets supporting experience-rated contractholder liabilities, change in value of market risk benefits, net of related hedging gains (losses), revenues of Divested and Run-off Businesses, and changes in the fair value of contingent consideration associated with the Assurance IQ acquisition, and include revenues representing equity in earnings of operating joint ventures other than those classified as Divested and Run-off Businesses. Benefits and expenses exclude charges related to realized investment gains, net of losses; change in experience-rated contractholder liabilities due to asset value changes, benefits and expenses of Divested and Run-off Businesses, and certain components of acquisitions, including the Assurance IQ acquisition which are recognized as compensation expense over the requisite service periods and include charges for income attributable to noncontrolling interests. Revenues and Benefits and expenses exclude market experience updates. See pages 36, 37, 38 and 39 for reconciliation.

(2) Represents adjustments not included in the above reconciling items, including goodwill impairments related to Assurance IQ that resulted in charges of \$903 million pre-tax and \$713 million after-tax in the fourth quarter and year ended December 31, 2022, and \$1,060 million pre-tax and \$837 million after-tax in the year ended December 31, 2021. Also includes certain components of consideration for business acquisitions, which are recognized as compensation expense over the requisite service periods, as well as changes in the fair value of the associated contingent consideration.

(1) Excludes Closed Block division.

(2) Excludes commercial loans and assets supporting experience-rated contractholder liabilities where the investment results generally accrue to contractholders, assets of our investment management operations, including assets that are managed for third parties and assets classified as "Separate account assets" on our balance sheet.

(3) Includes fixed maturity securities classified as available-for-sale and held-to-maturity and excludes fixed maturity securities classified as trading, which are included in "Other investments." Realized gains (losses) for "Other investments" includes changes in fair value of product-related and other derivatives and embedded derivatives.

(4) Includes invested income of commercial loans, assets supporting experience-rated contractholder liabilities where the investment results generally accrue to contractholders and investment management operations.

(5) Yields are based on net investment income as reported under U.S. GAAP and as such do not include certain interest-related items, such as settlements of duration management swaps which are included in realized investment gains and losses and included in adjusted operating income. For interim periods, yields are annualized. The denominator in the yield percentage is based on quarterly average carrying values for all asset types except for fixed maturities which are based on amortized cost, net of allowance. The denominator in the yield percentage includes assets "held-for-sale" as of March 31, 2022 and December 31, 2021. Amounts for fixed maturities, short-term investments and cash equivalents are also netted for securities lending activity (i.e., income netted for rebate expenses and asset values netted for security lending liabilities). A yield is not presented for other investments as it is not considered a meaningful measure of investment performance. Yields exclude investment income and assets related to commercial loans and assets supporting experience-rated contractholder liabilities where the investment results generally accrue to contractholders and investment income and assets related to other investments.

KEY DEFINITIONS AND FORMULAS**1. Adjusted operating income before income taxes:**

Adjusted operating income is a non-GAAP measure used by the Company to evaluate segment performance and to allocate resources. Adjusted operating income excludes “Realized investment gains (losses), net,” as adjusted, and related charges and adjustments. A significant element of realized investment gains and losses are impairments and credit-related and interest rate-related gains and losses. Impairments and losses from sales of credit-impaired securities, the timing of which depends largely on market credit cycles, can vary considerably across periods. The timing of other sales that would result in gains or losses, such as interest rate-related gains or losses, is largely subject to our discretion and influenced by market opportunities as well as our tax and capital profile.

Realized investment gains (losses) within certain businesses for which such gains (losses) are a principal source of earnings, and those associated with terminating hedges of foreign currency earnings and current period yield adjustments are included in adjusted operating income. Adjusted operating income generally excludes realized investment gains and losses from products that contain embedded derivatives, and from associated derivative portfolios that are part of an asset-liability management program related to the risk of those products. Adjusted operating income also excludes gains and losses from changes in value of certain assets and liabilities relating to foreign currency exchange movements that have been economically hedged or considered part of our capital funding strategies for our international subsidiaries, as well as gains and losses on certain investments that are designated as trading. Adjusted operating income also excludes investment gains and losses on assets supporting experience-rated contractholder liabilities and changes in experience-rated contractholder liabilities due to asset value changes, because these recorded changes in asset and liability values are expected to ultimately accrue to contractholders. Additionally, adjusted operating income excludes the changes in fair value of equity securities that are recorded in net income.

Adjusted operating income excludes “Change in value of market risk benefits, net of related hedging gains (losses),” which reflects the impact from changes in current market conditions, and market experience updates, reflecting the immediate impacts in current period results from changes in current market conditions on estimates of profitability, which we believe enhances the understanding of underlying performance trends. Adjusted operating income also excludes the results of Divested and Run-off Businesses, which are not relevant to our ongoing operations and discontinued operations and earnings attributable to noncontrolling interests, each of which is presented as a separate component of net income under GAAP. Additionally, adjusted operating income excludes other items, such as certain components of the consideration for acquisitions, which are recognized as compensation expense over the requisite service periods, as well as changes in the fair value of contingent consideration, and goodwill impairments. Earnings attributable to noncontrolling interests is presented as a separate component of net income under GAAP and excluded from adjusted operating income.

Adjusted operating income does not equate to “Net income” as determined in accordance with U.S. GAAP. Adjusted operating income is not a substitute for income determined in accordance with U.S. GAAP, and our definition of adjusted operating income may differ from that used by other companies. The items above are important to an understanding of our overall results of operations. However, we believe that the presentation of adjusted operating income as we measure it for management purposes enhances the understanding of our results of operations by highlighting the results from ongoing operations and the underlying profitability of our businesses. Trends in the underlying profitability of our businesses can be more clearly identified without the fluctuating effects of the items described above.

2. After-tax adjusted operating income:

Adjusted operating income before taxes, as defined above, less the income tax effect applicable to adjusted operating income before taxes. The tax effect associated with pre-tax adjusted operating income is based on applicable IRS and foreign tax regulations inclusive of pertinent adjustments.

3. Annualized New Business Premiums:

Premiums from new sales that are expected to be collected over a one year period. Group insurance annualized new business premiums exclude new premiums resulting from rate changes on existing policies, from additional coverage issued under our Servicemembers' Group Life Insurance contract, and from excess premiums on group universal life insurance that build cash value but do not purchase face amounts. Group insurance annualized new business premiums include premiums from the takeover of claim liabilities. Excess (unscheduled) and single premium business for the company's domestic individual life and international operations are included in annualized new business premiums based on a 10% credit. Amounts ascribed to Gibraltar Life Consultants include production by captive agents associated with the Japan operation.

4. Assets Under Administration:

Fair market value of assets in client accounts and mortgage servicing assets, which are reported on an unpaid principal balance basis, that are not included in Assets Under Management. Prudential does not receive a management fee on these assets, but may receive a fee for executing trades, custody or record keeping services, or servicing the mortgage loans. In addition, fair market value of assets for which Prudential provides non-discretionary investment advice and receives a fee.

5. Assets Under Management:

Fair market value of assets directly managed by Prudential or joint ventures of which Prudential has at least 50% ownership, and assets invested in investment options included in the Company's products that are managed by third party sub-advised managers at the discretion of Prudential. This includes externally managed modified coinsurance for both Hartford and Allstate. It also includes the fair value of derivatives used in various portfolio management strategies related to the portfolio's invested assets, regardless of the hedge accounting designation, but excludes direct hedges of product liabilities and expenses.

6. Book value per share of Common Stock:

Equity attributed to Prudential Financial, Inc. divided by the number of common shares outstanding at end of period, on a diluted basis. Book value per share excluding Accumulated Other Comprehensive Income (Loss) (“AOCI”) and adjusted to remove amount included for remeasurement of foreign currency exchange rate is a non-GAAP measure. This non-GAAP measure augments the understanding of our financial position by providing a measure of net worth that is primarily attributable to our business operations, separate from the portion that is affected by capital and currency market conditions including the removal of the associated accounting impacts of the remeasurement of certain insurance liabilities and investments that are marked to market through AOCI under GAAP. However, book value per share excluding AOCI and adjusted to remove the amount included for foreign currency exchange rate remeasurement is not a substitute for book value per share including AOCI determined in accordance with GAAP, and the adjustments made to derive the measure are important to an understanding of our overall financial position.

KEY DEFINITIONS AND FORMULAS
