
FORM 6-K

UNITED STATES SECURITIES AND EXCHANGE COMMISSION Washington, D.C. 20549

Report of Foreign Private Issuer

Pursuant to Rule 13a-16 or 15d-16 of the Securities Exchange Act of 1934

Date: July 10, 2007

Commission File Number 001-31528

IAMGOLD Corporation

(Translation of registrant's name into English)

**401 Bay Street Suite 3200, PO Box 153
Toronto, Ontario, Canada M5H 2Y4
Tel: (416) 360-4710**

(Address of principal executive offices)

Indicate by check mark whether the registrant files or will file annual reports under cover Form 20-F or Form 40-F.

Form 20-F Form 40-F

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(1): _____

Note: Regulation S-T Rule 101(b)(1) only permits the submission in paper of a Form 6-K if submitted solely to provide an attached annual report to security holders.

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(7): _____

Note: Regulation S-T Rule 101(b)(7) only permits the submission in paper of a Form 6-K if submitted to furnish a report or other document that the registrant foreign private issuer must furnish and make public under the laws of the jurisdiction in which the registrant is incorporated, domiciled or legally organized (the registrant's "home country"), or under the rules of the home country exchange on which the registrant's securities are traded, as long as the report or other document is not a press release, is not required to be and has not been distributed to the registrant's security holders, and, if discussing a material event, has already been the subject of a Form 6-K submission or other Commission filing on EDGAR.

Indicate by check mark whether by furnishing the information contained in this Form, the registrant is also thereby furnishing the information to the Commission pursuant to Rule 12g3-2(b) under the Securities Exchange Act of 1934.

Yes No

If "Yes" is marked, indicate below the file number assigned to the registrant in connection with Rule 12g3-2(b): 82- _____

Signatures

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

99.1	IAMGOLD ANNOUNCES FURTHER DRILL RESULTS AT QUIMSACCOCHA

IAMGOLD ANNOUNCES FURTHER DRILL RESULTS AT QUIMSACOCCHA

Toronto, Ontario, July 10, 2007 – **IAMGOLD Corporation** (“IAMGOLD” or “the Company”) is pleased to announce the results of an additional 16 diamond drill holes on its 100% owned Quimsacocha Project in Ecuador, including an intersection of 32.6 metres averaging 5.3 grams per tonne (g/t) gold, 66.5 g/t silver and 0.36% copper. These holes represent 3,000 metres of diamond drilling carried out as part of the infill drilling and resource development program. Previous results of this program were successful in increasing resources at Quimsacocha by over 20%, as reported in September 2006 and identifying new targets to be followed up in the 2007 program. Quimsacocha is located 40 kilometres southwest of the city of Cuenca in southern Ecuador.

“Quimsacocha continues to demonstrate consistency and continuity through its results,” commented Joseph Conway, President and CEO of IAMGOLD. “As we move forward with the development of this project, part of the focus will remain on adding to the existing resource. We continue to monitor the political environment in Ecuador and are confident that changes will not impact our timetable. Our drill program is progressing as expected and the pre-feasibility study will be complete in Q1 2008.”

These most recent results are distributed in the central and southern parts of the Quimsacocha resource and confirm the continuity of the mineralization in the north / south direction. The mineralization remains open to the east and west of the known resource.

In 2006, \$6.2 million was spent on exploration at Quimsacocha to complete 19,000 metres of drilling. The majority of drilling was carried out within the Loma Larga zone which is contained in the known resource. In the first half of 2007, \$2.4 million has been spent on exploration and project development work that included more than 5,000 metres of diamond drilling on newly identified targets. The 1H 2007 drill campaign was directed at the Rio Falso Sur and Loma Tasqui targets situated south and southwest of the Quimsacocha resource respectively. Both satellite zones exhibit hydrothermal alteration and characteristics similar to Quimsacocha, and first half drill results will be released before the end of July.

Significant intersections from the recent drilling at Quimsacocha and Loma Larga are presented in Table 1. The collar locations of the drill holes can be found in Figure 1 with additional information provided in the cross sections of figures 2, 3 and 4. These figures can also be found at: www.iamgold.com.

Qualified Person/Quality Control Notes

Analyses of gold in drill core samples were carried out by fire assay at the laboratory of BSI in Lima, Peru along with copper and silver analyses. The quality assurance-quality control program (QA-QC) includes the insertion of certified standards every 20 samples, blanks at least every 20 samples and field or lab duplicates every 20 samples. In addition, 10% of the total drilled samples were re-assayed by ALS Chemex, Lima, Peru.

The "Qualified Person" reviewing the work at Quimsacocha is Francis Clouston, Director of Project Evaluations at IAMGOLD, who as a result of his education, affiliation with a professional association and past relevant work experience, fulfills the requirements to be a "Qualified Person" for the purposes of NI43-101.

Cautionary Note to U.S. Investors

The United States Securities and Exchange Commission (the "SEC") permits mining companies, in their filings with the SEC, to disclose only those mineral deposits that a company can economically and legally extract or produce. We use certain terms in this press release, such as "mineral resources", that the SEC guidelines strictly prohibit us from including in our filings with the SEC. U.S. investors are urged to consider closely the disclosure in the IAMGOLD Annual Report on Form 40-F. A copy of the 2006 Form 40-F is available to shareholders, free of charge, upon written request addresses to the Investor Relations Department.

Forward Looking Statement

This press release includes certain "Forward-Looking Statements" within the meaning of section 21E of the United States Securities Exchange Act of 1934, as amended. All statements, other than statements of historical fact, included herein, including without limitation, statements regarding potential mineralization and reserves, exploration results and future plans and objectives of IAMGOLD, are forward-looking statements that involve various risks and uncertainties. There can be no assurance that such statements will prove to be accurate and actual results and future events could differ materially from those anticipated in such statements. Important factors that could cause actual results to differ materially from IAMGOLD's expectations are disclosed under the heading "Risk Factors" and elsewhere in IAMGOLD documents filed from time-to-time with the Toronto Stock Exchange, the United States Securities and Exchange Commission and other regulatory authorities.
