IAMGOLD 2006 OPERATING RESULTS AND 2007 GUIDANCE

Toronto, Ontario, February 21, 2007 - IAMGOLD Corporation (“IAMGOLD” or “the Company”) announced today that the Company produced 642,000 ounces of gold in 2006 at a weighted average cash cost of US\$321 / ounce. This represents a 44% increase in production from 2005 and a 16% increase in costs over the same period.

Joseph Conway, President and CEO of IAMGOLD commented on the Company’s 2006 production results, stating: “We exceeded our forecast of production and costs at our four joint venture operations for 2006. In fact, the Sadiola and Yatela operations in Mali had a great year with a combined increase in production of close to 25%. The remainder of IAMGOLD’s increase in overall production is attributed to the contributions made from the new assets acquired through our acquisitions in 2006 of Gallery Gold and Cambior. Our production in 2007 is expected to increase by about 55% over 2006. Our challenge remains costs as 2007 costs will be higher. We are evaluating a number of opportunities to reduce costs to ensure we have improved operating performance relative to the noted guidance.”

Table 1 summarizes production and Gold Institute cash costs and the production attributable to IAMGOLD in 2006 for all operations:
