CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements
(unaudited)

BUSINESS AND BASIS OF PRESENTATION

The following notes should be read together with the notes to the consolidated financial statements included in our 2016 Annual Report on Form 10-K.

CNO Financial Group, Inc., a Delaware corporation ("CNO"), is a holding company for a group of insurance companies operating throughout the United States that develop, market and administer health insurance, annuity, individual life insurance and other insurance products. The terms "CNO Financial Group, Inc.", "CNO", the "Company", "we", "us", and "our" as used in these financial statements refer to CNO and its subsidiaries. Such terms, when used to describe insurance business and products, refer to the insurance business and products of CNO's insurance subsidiaries.

We focus on serving middle-income pre-retiree and retired Americans, which we believe are attractive, underserved, high growth markets. We sell our products through three distribution channels: career agents, independent producers (some of whom sell one or more of our product lines exclusively) and direct marketing.

Our unaudited consolidated financial statements reflect normal recurring adjustments that, in the opinion of management, are necessary for a fair statement of our financial position, results of operations and cash flows for the periods presented. As permitted by rules and regulations of the Securities and Exchange Commission (the "SEC") applicable to quarterly reports on Form 10-Q, we have condensed or omitted certain information and disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP"). We have reclassified certain amounts from the prior periods to conform to the 2017 presentation. These reclassifications have no effect on net income or shareholders' equity. Results for interim periods are not necessarily indicative of the results that may be expected for a full year.

The balance sheet at December 31, 2016, presented herein, has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by GAAP for complete financial statements.

When we prepare financial statements in conformity with GAAP, we are required to make estimates and assumptions that significantly affect reported amounts of various assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and revenues and expenses during the reporting periods. For example, we use significant estimates and assumptions to calculate values for deferred acquisition costs, the present value of future profits, fair value measurements of certain investments (including derivatives), other-than-temporary impairments of investments, assets and liabilities related to income taxes, liabilities for insurance products, liabilities related to litigation and guaranty fund assessment accruals. If our future experience differs from these estimates and assumptions, our financial statements would be materially affected.

The accompanying financial statements include the accounts of the Company and its subsidiaries. Our consolidated financial statements exclude transactions between us and our consolidated affiliates, or among our consolidated affiliates.

INVESTMENTS

We classify our *fixed maturity securities* into one of two categories: (i) "available for sale" (which we carry at estimated fair value with any unrealized gain or loss, net of tax and related adjustments, recorded as a component of shareholders' equity); or (ii) "trading" (which we carry at estimated fair value with changes in such value recognized as net investment income (classified as investment income from policyholder and other special-purpose portfolios)).

Our trading securities include: (i) investments purchased with the intent of selling in the near term to generate income; (ii) investments supporting certain insurance liabilities (including investments backing the market strategies of our multibucket annuity products); and (iii) certain fixed maturity securities containing embedded derivatives for which we have elected the fair value option. The change in fair value of the income generating investments and investments supporting insurance liabilities is recognized in income from policyholder and other special-purpose portfolios (a component of net investment income). The change in fair value of securities with embedded derivatives is recognized in realized investment gains (losses). Investment income related to investments supporting certain insurance liabilities is substantially offset by the change in insurance policy benefits related to certain products.

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements
(unaudited)

Accumulated other comprehensive income is primarily comprised of the net effect of unrealized appreciation (depreciation) on our investments. These amounts, included in shareholders' equity as of March 31, 2017 and December 31, 2016, were as follows (dollars in millions):

	March 31, 2017	December 31, 2016
Net unrealized appreciation (depreciation) on fixed maturity securities, available for sale, on which an other-than-temporary impairment loss has been recognized	\$.8	\$ (1.1)
Net unrealized gains on all other investments	1,520.7	1,311.9
Adjustment to present value of future profits (a)	(104.9)	(106.2)
Adjustment to deferred acquisition costs	(253.7)	(223.5)
Adjustment to insurance liabilities	(28.8)	(13.5)
Deferred income tax liabilities	(404.5)	(345.2)
Accumulated other comprehensive income	<u>\$ 729.6</u>	<u>\$ 622.4</u>

(a) The present value of future profits is the value assigned to the right to receive future cash flows from contracts existing at September 10, 2003, the date Conseco, Inc., an Indiana corporation, emerged from bankruptcy.

At March 31, 2017, adjustments to the present value of future profits, deferred acquisition costs, insurance liabilities and deferred tax assets included \$(93.2) million, \$(134.0) million, \$(28.8) million and \$91.0 million, respectively, for premium deficiencies that would exist on certain blocks of business (primarily long-term care products) if unrealized gains on the assets backing such products had been realized and the proceeds from the sales of such assets were invested at then current yields.

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements
(unaudited)

At March 31, 2017, the amortized cost, gross unrealized gains and losses, estimated fair value, other-than-temporary impairments in accumulated other comprehensive income of fixed maturities, available for sale, and equity securities were as follows (dollars in millions):

	Amortized cost	Gross unrealized gains	Gross unrealized losses	Estimated fair value	Other-than-temporary impairments included in accumulated other comprehensive income
Corporate securities	\$ 12,688.6	\$ 1,203.6	\$ (90.1)	\$ 13,802.1	\$ (3.6)
United States Treasury securities and obligations of United States government corporations and agencies	173.1	20.7	—	193.8	—
States and political subdivisions	1,844.6	193.7	(9.4)	2,028.9	(3.0)
Debt securities issued by foreign governments	44.3	1.5	(.1)	45.7	—
Asset-backed securities	2,692.4	113.2	(11.3)	2,794.3	—
Collateralized debt obligations	212.6	1.8	—	214.4	—
Commercial mortgage-backed securities	1,411.1	34.2	(21.7)	1,423.6	—
Mortgage pass-through securities	2.3	.2	—	2.5	—
Collateralized mortgage obligations	811.3	63.4	(1.6)	873.1	(1.3)
Total fixed maturities, available for sale	<u>\$ 19,880.3</u>	<u>\$ 1,632.3</u>	<u>\$ (134.2)</u>	<u>\$ 21,378.4</u>	<u>\$ (7.9)</u>
Equity securities	<u>\$ 571.3</u>	<u>\$ 21.1</u>	<u>\$ (4.6)</u>	<u>\$ 587.8</u>	

The following table sets forth the amortized cost and estimated fair value of fixed maturities, available for sale, at March 31, 2017, by contractual maturity. Actual maturities will differ from contractual maturities because certain borrowers may have the right to call or prepay obligations with or without penalties. Structured securities (such as asset-backed securities, collateralized debt obligations, commercial mortgage-backed securities, mortgage pass-through securities and collateralized mortgage obligations, collectively referred to as "structured securities") frequently include provisions for periodic principal payments and permit periodic unscheduled payments.

	Amortized cost	Estimated fair value
	(Dollars in millions)	
Due in one year or less	\$ 332.1	\$ 337.5
Due after one year through five years	2,242.9	2,400.7
Due after five years through ten years	1,539.0	1,625.6
Due after ten years	10,636.6	11,706.7
Subtotal	<u>14,750.6</u>	<u>16,070.5</u>
Structured securities	5,129.7	5,307.9
Total fixed maturities, available for sale	<u>\$ 19,880.3</u>	<u>\$ 21,378.4</u>

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements
(unaudited)

Net Realized Investment Gains (Losses)

The following table sets forth the net realized investment gains (losses) for the periods indicated (dollars in millions):

	Three months ended	
	March 31,	
	2017	2016
Fixed maturity securities, available for sale:		
Gross realized gains on sale	\$ 7.0	\$ 98.5
Gross realized losses on sale	(2.7)	(81.0)
Impairments:		
Total other-than-temporary impairment losses	(3.2)	(6.3)
Other-than-temporary impairment losses recognized in accumulated other comprehensive income	—	—
Net impairment losses recognized	(3.2)	(6.3)
Net realized investment gains (losses) from fixed maturities	1.1	11.2
Equity securities	1.9	.1
Commercial mortgage loans	1.0	—
Impairments of other investments	(5.2)	(3.7)
Other (a)	9.1	(8.5)
Net realized investment gains (losses)	<u>\$ 7.9</u>	<u>\$ (.9)</u>

(a) Changes in the estimated fair value of trading securities that we have elected the fair value option (and are still held as of the end of the respective periods) was \$3.0 million and \$(3.4) million for the three months ended March 31, 2017 and 2016, respectively.

During the first three months of 2017, we recognized net realized investment gains of \$7.9 million, which were comprised of: (i) \$12.9 million of net gains from the sales of investments; (ii) the increase in fair value of certain fixed maturity investments with embedded derivatives of \$2.7 million; (iii) the increase in fair value of embedded derivatives related to a modified coinsurance agreement of \$.7 million; and (iv) \$8.4 million of writedowns of investments for other than temporary declines in fair value recognized through net income.

During the first three months of 2016, we recognized net realized investment losses of \$.9 million, which were comprised of: (i) \$10.9 million of net gains from the sales of investments; (ii) the decrease in fair value of certain fixed maturity investments with embedded derivatives of \$3.6 million; (iii) the increase in fair value of embedded derivatives related to a modified coinsurance agreement of \$1.8 million; and (iv) \$10.0 million of writedowns of investments for other than temporary declines in fair value recognized through net income.

Our fixed maturity investments are generally purchased in the context of various long-term strategies, including funding insurance liabilities, so we do not generally seek to generate short-term realized gains through the purchase and sale of such securities. In certain circumstances, including those in which securities are selling at prices which exceed our view of their underlying economic value, or when it is possible to reinvest the proceeds to better meet our long-term asset-liability objectives, we may sell certain securities.

During the first three months of 2017, the \$2.7 million of gross realized losses on sales of \$95.3 million of fixed maturity securities, available for sale included: (i) \$1.5 million related to various corporate securities; (ii) \$.9 million related to commercial mortgage-backed securities; and (iii) \$.3 million related to various other investments. Securities are generally sold at a loss following unforeseen issue-specific events or conditions or shifts in perceived risks. These reasons include but are not limited to: (i) changes in the investment environment; (ii) expectation that the market value could deteriorate further; (iii) desire to reduce our exposure to an asset class, an issuer or an industry; (iv) prospective or actual changes in credit quality; or (v) changes in expected portfolio cash flows.

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(unaudited)

During the first three months of 2017, we recognized \$8.4 million of impairment losses recorded in earnings which included: (i) \$3.2 million of writedowns on fixed maturities of a single issuer in the energy sector; and (ii) \$5.2 million of writedowns related to a real estate investment. Factors considered in determining the writedowns of investments in the first three months of 2017 included changes in the estimated recoverable value of the assets related to each investment and the timing of and complexities related to the recovery process.

During the first three months of 2016, we recognized \$10.0 million of impairment losses recorded in earnings which included: (i) \$6.3 million of writedowns on fixed maturities of a single issuer in the energy sector; and (ii) \$3.7 million of writedowns on a direct loan due to borrower specific events.

We regularly evaluate all of our investments with unrealized losses for possible impairment. Our assessment of whether unrealized losses are "other than temporary" requires significant judgment. Factors considered include: (i) the extent to which fair value is less than the cost basis; (ii) the length of time that the fair value has been less than cost; (iii) whether the unrealized loss is event driven, credit-driven or a result of changes in market interest rates or risk premium; (iv) the near-term prospects for specific events, developments or circumstances likely to affect the value of the investment; (v) the investment's rating and whether the investment is investment-grade and/or has been downgraded since its purchase; (vi) whether the issuer is current on all payments in accordance with the contractual terms of the investment and is expected to meet all of its obligations under the terms of the investment; (vii) whether we intend to sell the investment or it is more likely than not that circumstances will require us to sell the investment before recovery occurs; (viii) the underlying current and prospective asset and enterprise values of the issuer and the extent to which the recoverability of the carrying value of our investment may be affected by changes in such values; (ix) projections of, and unfavorable changes in, cash flows on structured securities including mortgage-backed and asset-backed securities; (x) our best estimate of the value of any collateral; and (xi) other objective and subjective factors.

Future events may occur, or additional information may become available, which may necessitate future realized losses in our portfolio. Significant losses could have a material adverse effect on our consolidated financial statements in future periods.

Impairment losses on equity securities are recognized in net income. The manner in which impairment losses on fixed maturity securities, available for sale, are recognized in the financial statements is dependent on the facts and circumstances related to the specific security. If we intend to sell a security or it is more likely than not that we would be required to sell a security before the recovery of its amortized cost, the security is other-than-temporarily impaired and the full amount of the impairment is recognized as a loss through earnings. If we do not expect to recover the amortized cost basis, we do not plan to sell the security, and if it is not more likely than not that we would be required to sell a security before the recovery of its amortized cost, less any current period credit loss, the recognition of the other-than-temporary impairment is bifurcated. We recognize the credit loss portion in net income and the noncredit loss portion in accumulated other comprehensive income.

We estimate the amount of the credit loss component of a fixed maturity security impairment as the difference between amortized cost and the present value of the expected cash flows of the security. The present value is determined using the best estimate of future cash flows discounted at the effective interest rate implicit to the security at the date of purchase or the current yield to accrete an asset-backed or floating rate security. The methodology and assumptions for establishing the best estimate of future cash flows vary depending on the type of security.

For most structured securities, cash flow estimates are based on bond specific facts and circumstances that may include collateral characteristics, expectations of delinquency and default rates, loss severity, prepayment speeds and structural support, including excess spread, subordination and guarantees. For corporate bonds, cash flow estimates are derived from scenario-based outcomes of expected corporate restructurings or the disposition of assets using bond specific facts and circumstances. The previous amortized cost basis less the impairment recognized in net income becomes the security's new cost basis. We accrete the new cost basis to the estimated future cash flows over the expected remaining life of the security, except when the security is in default or considered nonperforming.

The remaining noncredit impairment, which is recorded in accumulated other comprehensive income, is the difference between the security's estimated fair value and our best estimate of future cash flows discounted at the effective interest rate prior to impairment. The remaining noncredit impairment typically represents changes in the market interest rates, current

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements
(unaudited)

market liquidity and risk premiums. As of March 31, 2017, other-than-temporary impairments included in accumulated other comprehensive income totaled \$7.9 million (before taxes and related amortization).

The following table summarizes the amount of credit losses recognized in earnings on fixed maturity securities, available for sale, held at the beginning of the period, for which a portion of the other-than-temporary impairment was also recognized in accumulated other comprehensive income for the three months ended March 31, 2017 and 2016 (dollars in millions):

	Three months ended	
	March 31,	
	2017	2016
Credit losses on fixed maturity securities, available for sale, beginning of period	\$ (5.5)	\$ (2.6)
Add: credit losses on other-than-temporary impairments not previously recognized	—	—
Less: credit losses on securities sold	.1	—
Less: credit losses on securities impaired due to intent to sell (a)	—	—
Add: credit losses on previously impaired securities	—	—
Less: increases in cash flows expected on previously impaired securities	—	—
Credit losses on fixed maturity securities, available for sale, end of period	\$ (5.4)	\$ (2.6)

(a) Represents securities for which the amount previously recognized in accumulated other comprehensive income was recognized in earnings because we intend to sell the security or we more likely than not will be required to sell the security before recovery of its amortized cost basis.

Gross Unrealized Investment Losses

Our investment strategy is to maximize, over a sustained period and within acceptable parameters of quality and risk, investment income and total investment return through active investment management. Accordingly, we may sell securities at a gain or a loss to enhance the projected total return of the portfolio as market opportunities change, to reflect changing perceptions of risk, or to better match certain characteristics of our investment portfolio with the corresponding characteristics of our insurance liabilities.

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements

Collateralized mortgage obligations	37.9	(.5)	36.9	(1.1)	74.8	(1.6)
Total fixed maturities, available for sale	\$ 2,667.4	\$ (67.7)	\$ 894.1	\$ (66.5)	\$ 3,561.5	\$ (134.2)
Equity securities	\$ 108.8	\$ (4.6)	\$ —	\$ —	\$ 108.8	\$ (4.6)

The following table summarizes the gross unrealized losses and fair values of our investments with unrealized losses that are not deemed to be other-than-temporarily impaired, aggregated by investment category and length of time that such securities have been in a continuous unrealized loss position, at December 31, 2016 (dollars in millions):

Description of securities	Less than 12 months		12 months or greater		Total	
	Fair value	Unrealized losses	Fair value	Unrealized losses	Fair value	Unrealized losses
United States Treasury securities and obligations of United States government corporations and agencies	\$ 8.0	\$ —	\$ —	\$ —	\$ 8.0	\$ —
States and political subdivisions	176.3	(7.8)	18.3	(1.8)	194.6	(9.6)
Debt securities issued by foreign governments	18.9	(.4)	—	—	18.9	(.4)
Corporate securities	1,907.6	(75.5)	559.6	(63.5)	2,467.2	(139.0)
Asset-backed securities	692.9	(8.5)	262.5	(7.0)	955.4	(15.5)
Collateralized debt obligations	38.3	(.1)	30.8	(.2)	69.1	(.3)
Commercial mortgage-backed securities	525.2	(16.6)	154.0	(11.3)	679.2	(27.9)
Collateralized mortgage obligations	73.6	(.6)	34.6	(1.0)	108.2	(1.6)
Total fixed maturities, available for sale	\$ 3,440.8	\$ (109.5)	\$ 1,059.8	\$ (84.8)	\$ 4,500.6	\$ (194.3)
Equity securities	\$ 239.4	\$ (8.0)	\$ —	\$ —	\$ 239.4	\$ (8.0)

Based on management's current assessment of investments with unrealized losses at March 31, 2017, the Company believes the issuers of the securities will continue to meet their obligations (or with respect to equity-type securities, the

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements
(unaudited)

investment value will recover to its cost basis). While we do not have the intent to sell securities with unrealized losses and it is not more likely than not that we will be required to sell securities with unrealized losses prior to their anticipated recovery, our intent on an individual security may change, based upon market or other unforeseen developments. In such instances, if a loss is recognized from a sale subsequent to a balance sheet date due to these unexpected developments, the loss is recognized in the period in which we had the intent to sell the security before its anticipated recovery.

EARNINGS PER SHARE

A reconciliation of net income and shares used to calculate basic and diluted earnings per share is as follows (dollars in millions and shares in thousands):

	Three months ended	
	March 31,	
	2017	2016
Net income for basic and diluted earnings per share	\$ 62.3	\$ 45.5
Shares:		
Weighted average shares outstanding for basic earnings per share	173,431	180,350
Effect of dilutive securities on weighted average shares:		
Stock options, restricted stock and performance units	1,634	1,778
Weighted average shares outstanding for diluted earnings per share	175,065	182,128

Basic earnings per common share is computed by dividing net income by the weighted average number of common shares outstanding for the period. Restricted shares (including our performance units) are not included in basic earnings per share until vested. Diluted earnings per share reflect the potential dilution that could occur if outstanding stock options were exercised and restricted stock was vested. The dilution from options and restricted shares is calculated using the treasury stock method. Under this method, we assume the proceeds from the exercise of the options (or the unrecognized compensation expense with respect to restricted stock and performance units) will be used to purchase shares of our common stock at the average market price during the period, reducing the dilutive effect of the exercise of the options (or the vesting of the restricted stock and performance units).

BUSINESS SEGMENTS

The Company manages its business through the following operating segments: Bankers Life, Washington National and Colonial Penn, which are defined on the basis of product distribution; and corporate operations, comprised of holding company activities and certain noninsurance company businesses. In the fourth quarter of 2016, we began reporting the long-term care block recaptured from Beechwood Re Ltd ("BRE") effective September 30, 2016, as an additional business segment.

We measure segment performance by excluding net realized investment gains (losses), fair value changes in embedded derivative liabilities (net of related amortization), fair value changes in the agent deferred compensation plan, income taxes and other non-operating items consisting primarily of earnings attributable to variable interest entities ("VIEs") ("pre-tax operating earnings") because we believe that this performance measure is a better indicator of the ongoing business and trends in our business. Our primary investment focus is on investment income to support our liabilities for insurance products as opposed to the generation of net realized investment gains (losses), and a long-term focus is necessary to maintain profitability over the life of the business.

The net realized investment gains (losses), fair value changes in embedded derivative liabilities (net of related amortization), fair value changes in the agent deferred compensation plan and other non-operating items consisting primarily of earnings attributable to VIEs depend on market conditions or represent unusual items that do not necessarily relate to the underlying business of our segments. Net realized investment gains (losses) and fair value changes in embedded derivative liabilities (net of related amortization) may affect future earnings levels since our underlying business is long-term in nature and changes in our investment portfolio may impact our ability to earn the assumed interest rates needed to maintain the profitability of our business.

ACCOUNTING FOR DERIVATIVES

Our freestanding and embedded derivatives, which are not designated as hedging instruments, are held at fair value and are summarized as follows (dollars in millions):

	Fair value	
	March 31, 2017	December 31, 2016
Assets:		
Other invested assets:		
Fixed index call options	\$ 132.1	\$ 111.9
Reinsurance receivables	(3.5)	(4.2)
Total assets	\$ 128.6	\$ 107.7
Liabilities:		
Future policy benefits:		
Fixed index products	\$ 1,159.2	\$ 1,092.3
Total liabilities	\$ 1,159.2	\$ 1,092.3

Our fixed index annuity products provide a guaranteed minimum rate of return and a higher potential return that is based on a percentage (the "participation rate") of the amount of increase in the value of a particular index, such as the Standard & Poor's 500 Index, over a specified period. Typically, on each policy anniversary date, a new index period begins. We are generally able to change the participation rate at the beginning of each index period during a policy year, subject to contractual minimums. The Company accounts for the options attributed to the policyholder for the estimated life of the contract as embedded derivatives. These accounting requirements often create volatility in the earnings from these products. We typically buy call options (including call spreads) referenced to the applicable indices in an effort to offset or hedge potential increases to policyholder benefits resulting from increases in the particular index to which the policy's return is linked. The notional amount of these options was \$2.6 billion and \$2.5 billion at March 31, 2017 and December 31, 2016, respectively.

From time to time, we utilize United States Treasury interest rate futures primarily to hedge interest rate risk related to anticipated mortgage loan transactions.

We are required to establish an embedded derivative related to a modified coinsurance agreement pursuant to which we assume the risks of a block of health insurance business. The embedded derivative represents the mark-to-market adjustment for approximately \$130 million in underlying investments held by the ceding reinsurer.

We purchase certain fixed maturity securities that contain embedded derivatives that are required to be held at fair value on the consolidated balance sheet. We have elected the fair value option to carry the entire security at fair value with changes in fair value reported in net income.

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements
(unaudited)

The following table provides the pre-tax gains (losses) recognized in net income for derivative instruments, which are not designated as hedges for the periods indicated (dollars in millions):

	Three months ended	
	March 31,	
	2017	2016
Net investment income from policyholder and other special-purpose portfolios:		
Fixed index call options	\$ 44.5	\$ (9.0)
Net realized gains (losses):		
Interest rate futures	—	(1.0)
Embedded derivative related to modified coinsurance agreement	.7	1.8
Total	.7	.8
Insurance policy benefits:		
Embedded derivative related to fixed index annuities	2.3	(34.9)
Total	\$ 47.5	\$ (43.1)

Derivative Counterparty Risk

If the counterparties to the call options fail to meet their obligations, we may recognize a loss. We limit our exposure to such a loss by diversifying among several counterparties believed to be strong and creditworthy. At March 31, 2017, all of our counterparties were rated "A-" or higher by S&P Global Ratings ("S&P").

We also enter into exchange-traded interest rate future contracts. The contracts are marked to market and margined on a daily basis. The Company has minimal exposure to credit-related losses in the event of nonperformance.

The Company and its subsidiaries are parties to master netting arrangements with its counterparties related to entering into various derivative contracts. Exchange-traded derivatives require margin accounts which we offset.

The following table summarizes information related to derivatives with master netting arrangements or collateral as of March 31, 2017 and December 31, 2016 (dollars in millions):

	Gross amounts recognized	Gross amounts offset in the balance sheet	Net amounts of assets presented in the balance sheet	Gross amounts not offset in the balance sheet		Net amount
				Financial instruments	Cash collateral received	
March 31, 2017:						
Fixed index call options	\$ 132.1	\$ —	\$ 132.1	\$ —	\$ —	\$ 132.1
December 31, 2016:						
Fixed index call options	111.9	—	111.9	—	—	111.9

Notes to Consolidated Financial Statements
(unaudited)

REINSURANCE

The cost of reinsurance ceded totaled \$26.3 million and \$33.6 million in the first quarters of 2017 and 2016, respectively. We deduct this cost from insurance policy income. Reinsurance recoveries netted against insurance policy benefits totaled \$24.1 million and \$40.4 million in the first quarters of 2017 and 2016, respectively.

From time-to-time, we assume insurance from other companies. Any costs associated with the assumption of insurance are amortized consistent with the method used to amortize deferred acquisition costs. Reinsurance premiums assumed totaled \$8.0 million and \$8.8 million in the first quarters of 2017 and 2016, respectively.

INCOME TAXES

The Company's interim tax expense is based upon the estimated annual effective tax rate for the respective period. Under authoritative guidance, certain items are required to be excluded from the estimated annual effective tax rate calculation. Such items include changes in judgment about the realizability of deferred tax assets resulting from changes in projections of income expected to be available in future years, and items deemed to be unusual, infrequent, or that can not be reliably estimated. In these cases, the actual tax expense or benefit applicable to that item is treated discretely and is reported in the same period as the related item. The components of income tax expense are as follows (dollars in millions):

	Three months ended March 31,	
	2017	2016
Current tax expense	\$ 20.6	\$ 4.1
Deferred tax expense	13.8	10.9
Income tax expense calculated based on estimated annual effective tax rate	34.4	15.0
Income tax expense on discrete items:		
Change in valuation allowance	—	(20.0)
Total income tax expense (benefit)	<u>\$ 34.4</u>	<u>\$ (5.0)</u>

A reconciliation of the U.S. statutory corporate tax rate to the estimated annual effective rate, before discrete items, reflected in the consolidated statement of operations is as follows:

	Three months ended March 31,	
	2017	2016
U.S. statutory corporate rate	35.0 %	35.0%
Non-taxable income and nondeductible benefits, net	(1.1)	.8
State taxes	1.7	1.2
Estimated annual effective tax rate	<u>35.6 %</u>	<u>37.0%</u>

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements
(unaudited)

The components of the Company's income tax assets and liabilities are summarized below (dollars in millions):

	March 31, 2017	December 31, 2016
Deferred tax assets:		
Net federal operating loss carryforwards	\$ 884.5	\$ 882.9
Net state operating loss carryforwards	12.2	12.3
Tax credits	.3	.7
Investments	15.9	17.8
Insurance liabilities	675.8	668.4
Other	59.9	65.6
Gross deferred tax assets	1,648.6	1,647.7
Deferred tax liabilities:		
Present value of future profits and deferred acquisition costs	(275.9)	(277.8)
Accumulated other comprehensive income	(403.9)	(344.1)
Gross deferred tax liabilities	(679.8)	(621.9)
Net deferred tax assets before valuation allowance	968.8	1,025.8
Valuation allowance	(255.9)	(240.2)
Net deferred tax assets	712.9	785.6
Current income taxes prepaid (accrued)	(15.1)	4.1
Income tax assets, net	\$ 697.8	\$ 789.7

Our income tax expense includes deferred income taxes arising from temporary differences between the financial reporting and tax bases of assets and liabilities and net operating loss carryforwards ("NOLs"). Deferred tax assets and liabilities are measured using enacted tax rates expected to apply in the years in which temporary differences are expected to be recovered or paid. The effect of a change in tax rates on deferred tax assets and liabilities is recognized in earnings in the period when the changes are enacted.

A reduction of the net carrying amount of deferred tax assets by establishing a valuation allowance is required if, based on the available evidence, it is more likely than not that such assets will not be realized. In assessing the need for a valuation allowance, all available evidence, both positive and negative, shall be considered to determine whether, based on the weight of that evidence, a valuation allowance for deferred tax assets is needed. This assessment requires significant judgment and considers, among other matters, the nature, frequency and severity of current and cumulative losses, forecasts of future profitability, the duration of carryforward periods, our experience with operating loss and tax credit carryforwards expiring unused, and tax planning strategies. We evaluate the need to establish a valuation allowance for our deferred income tax assets on an ongoing basis. The realization of our deferred tax assets depends upon generating sufficient future taxable income of the appropriate type during the periods in which our temporary differences become deductible and before our NOLs expire.

Based on our assessment, it appears more likely than not that \$712.9 million of our net deferred tax assets of \$968.8 million will be realized through future taxable earnings. Accordingly, we have established a deferred tax valuation allowance of \$255.9 million at March 31, 2017 (\$245.9 million of which relates to our net federal operating loss carryforwards and \$10.0 million relates to state operating loss carryforwards). We will continue to assess the need for a valuation allowance in the future. If future results are less than projected, an increase to the valuation allowance may be required to reduce the deferred tax asset, which could have a material impact on our results of operations in the period in which it is recorded.

We use a deferred tax valuation model to assess the need for a valuation allowance. Our model is adjusted to reflect changes in our projections of future taxable income including changes resulting from investment strategies, the impact of the sale or reinsurance of business and the recapture of business previously ceded. Our estimates of future taxable income are based on evidence we consider to be objective and verifiable.

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements
(unaudited)

Our projection of future taxable income for purposes of determining the valuation allowance is based on our adjusted average annual taxable income which is assumed to increase by 3 percent for the next five years, and level taxable income is assumed thereafter. In the projections used for our analysis, our adjusted average taxable income of approximately \$335 million consisted of \$85 million of non-life taxable income and \$250 million of life taxable income.

Recovery of our deferred tax asset is dependent on achieving the level of future taxable income projected in our deferred tax valuation model and failure to do so could result in an increase in the valuation allowance in a future period. Any future increase in the valuation allowance may result in additional income tax expense and reduce shareholders' equity, and such an increase could have a significant impact upon our earnings in the future.

The Internal Revenue Code (the "Code") limits the extent to which losses realized by a non-life entity (or entities) may offset income from a life insurance company (or companies) to the lesser of: (i) 35 percent of the income of the life insurance company; or (ii) 35 percent of the total loss of the non-life entities (including NOLs of the non-life entities). There is no similar limitation on the extent to which losses realized by a life insurance entity (or entities) may offset income from a non-life entity (or entities). This limitation is the primary reason a valuation allowance for NOLs is required.

Section 382 of the Code imposes limitations on a corporation's ability to use its NOLs when the company undergoes an ownership change. Future transactions and the timing of such transactions could cause an ownership change for Section 382 income tax purposes. Such transactions may include, but are not limited to, additional repurchases under our securities repurchase program, issuances of common stock and acquisitions or sales of shares of CNO stock by certain holders of our shares, including persons who have held, currently hold or may accumulate in the future five percent or more of our outstanding common stock for their own account. Many of these transactions are beyond our control. If an additional ownership change were to occur for purposes of Section 382, we would be required to calculate an annual restriction on the use of our NOLs to offset future taxable income. The annual restriction would be calculated based upon the value of CNO's equity at the time of such ownership change, multiplied by a federal long-term tax exempt rate (2.09 percent at March 31, 2017), and the annual restriction could limit our ability to use a substantial portion of our NOLs to offset future taxable income. We regularly monitor ownership change (as calculated for purposes of Section 382) and, as of March 31, 2017 , we were below the 50 percent ownership change level that would trigger further impairment of our ability to utilize our NOLs.

As of March 31, 2017 , we had \$2.5 billion of federal NOLs (all of which were non-life NOLs). The following table summarizes the expiration dates of our loss carryforwards (dollars in millions):

Year of expiration	Net operating loss carryforwards
2023	\$ 1,940.4
2025	85.2
2026	149.9
2027	10.8
2028	80.3
2029	213.2
2030	.3
2031	.2
2032	44.4
2033	.6
2034	.9
2035	.8
Total federal NOLs	<u>\$ 2,527.0</u>

We also had deferred tax assets related to NOLs for state income taxes of \$12.2 million and \$12.3 million at March 31, 2017 and December 31, 2016 , respectively. The related state NOLs are available to offset future state taxable income in certain states through 2025.

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements
(unaudited)

All of the additional life NOLs were utilized by December 31, 2016. Accordingly, we began making estimated federal tax payments equal to the prescribed federal tax rate applied to 65 percent of our life insurance company taxable income due to the limitations on the extent to which we can use non-life NOLs to offset life insurance company taxable income. We will continue to pay tax on 65 percent of our life insurance company taxable income until all non-life NOLs are utilized or expire.

The Internal Revenue Service ("IRS") is also conducting an examination of 2011 through 2014. In connection with this exam, we have agreed to extend the statute of limitations for 2011 through 2013 to September 30, 2018. The Company's various state income tax returns are generally open for tax years beginning in 2013, based on individual state statutes of limitation. Generally, for tax years which generate NOLs, capital losses or tax credit carryforwards, the statute remains open until the expiration of the statute of limitations for the tax year in which such carryforwards are utilized. The outcome of tax audits cannot be predicted with certainty. If the Company's tax audits are not resolved in a manner consistent with management's expectations, the Company may be required to adjust its provision for income taxes.

Effective January 1, 2017, the Company adopted new authoritative guidance related to several aspects of the accounting for share-based payment transactions, including the income tax consequences. Under the new guidance, any excess tax benefits are recognized as an income tax benefit in the income statement. The new guidance is applied on a modified retrospective basis through a cumulative-effect adjustment to retained earnings for all tax benefits that were not previously recognized because the related tax deduction had not reduced taxes payable. The Company had NOL carryforwards of \$15.7 million related to deductions for stock options and restricted stock on the date of adoption. However, a corresponding valuation allowance of \$15.7 million was recognized as a result of adopting this guidance. Therefore, there was no impact to our consolidated financial statements related to this provision of the new guidance.

NOTES PAYABLE - DIRECT CORPORATE OBLIGATIONS

The following notes payable were direct corporate obligations of the Company as of March 31, 2017 and December 31, 2016 (dollars in millions):

	March 31, 2017	December 31, 2016
4.500% Senior Notes due May 2020	\$ 325.0	\$ 325.0
5.250% Senior Notes due May 2025	500.0	500.0
Revolving Credit Agreement (as defined below)	100.0	100.0
Unamortized debt issue costs	(11.6)	(12.1)
Direct corporate obligations	<u>\$ 913.4</u>	<u>\$ 912.9</u>

Revolving Credit Agreement

On May 19, 2015, the Company entered into a revolving credit agreement, with KeyBank National Association, as administrative agent (the "Agent"), and the lenders from time to time party thereto (the "Revolving Credit Agreement"). On May 19, 2015, the Company made an initial drawing of \$100.0 million under the Revolving Credit Agreement, resulting in \$50.0 million available for additional borrowings. The Revolving Credit Agreement matures on May 19, 2019.

The interest rates with respect to loans under the Revolving Credit Agreement are based on, at the Company's option, a floating base rate (defined as a per annum rate equal to the highest of: (i) the federal funds rate plus 0.50% ; (ii) the "prime rate" of the Agent; and (iii) the eurodollar rate for a one-month interest period plus an applicable margin of initially 1.00% per annum), or a eurodollar rate plus an applicable margin of initially 2.00% per annum. At March 31, 2017 , the interest rate on the amounts outstanding under the Revolving Credit Agreement was 2.98 percent . In addition, the daily average undrawn portion of the Revolving Credit Agreement accrues a commitment fee payable quarterly in arrears. The applicable margin for, and the commitment fee applicable to, the Revolving Credit Agreement, will be adjusted from time-to-time pursuant to a ratings based pricing grid.

The Revolving Credit Agreement requires the Company to maintain (each as calculated in accordance with the Revolving Credit Agreement): (i) a debt to total capitalization ratio of not more than 30.0 percent (such ratio was 19.5 percent at March 31, 2017) ; (ii) an aggregate ratio of total adjusted capital to company action level risk-based capital for the Company's insurance subsidiaries of not less than 250 percent (such ratio was estimated to be 446 percent at March 31, 2017) ; and (iii) a minimum consolidated net worth of not less than the sum of (x) \$2,674 million plus (y) 50.0% of the net equity proceeds received by the Company from the issuance and sale of equity interests in the Company (the Company's consolidated net worth was \$3,877.2 million at March 31, 2017 compared to the minimum requirement of \$2,682.2 million).

Scheduled Repayment of our Direct Corporate Obligations

The scheduled repayment of our direct corporate obligations was as follows at March 31, 2017 (dollars in millions):

<u>Year ending March 31,</u>	
2018	\$ —
2019	—
2020	100.0
2021	325.0
2022	—
Thereafter	500.0
	<u>\$ 925.0</u>

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements
(unaudited)

INVESTMENT BORROWINGS

Three of the Company's insurance subsidiaries (Washington National Insurance Company ("Washington National"), Bankers Life and Casualty Company ("Bankers Life") and Colonial Penn Life Insurance Company ("Colonial Penn")) are members of the Federal Home Loan Bank ("FHLB"). As members of the FHLB, our insurance subsidiaries have the ability to borrow on a collateralized basis from the FHLB. We are required to hold certain minimum amounts of FHLB common stock as a condition of membership in the FHLB, and additional amounts based on the amount of the borrowings. At March 31, 2017, the carrying value of the FHLB common stock was \$71.2 million. As of March 31, 2017, collateralized borrowings from the FHLB totaled \$1.6 billion and the proceeds were used to purchase fixed maturity securities. The borrowings are classified as investment borrowings in the accompanying consolidated balance sheet. The borrowings are collateralized by investments with an estimated fair value of \$2.0 billion at March 31, 2017, which are maintained in a custodial account for the benefit of the FHLB. Substantially all of such investments are classified as fixed maturities, available for sale, in our consolidated balance sheet.

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements
(unaudited)

The following summarizes the terms of the borrowings from the FHLB by our insurance subsidiaries (dollars in millions):

Amount borrowed	Maturity date	Interest rate at March 31, 2017
\$ 50.0	January 2018	Variable rate – 1.365%
50.0	January 2018	Variable rate – 1.381%
50.0	February 2018	Variable rate – 1.344%
50.0	February 2018	Variable rate – 1.127%
22.0	February 2018	Variable rate – 1.384%
100.0	May 2018	Variable rate – 1.433%
50.0	July 2018	Variable rate – 1.509%
50.0	August 2018	Variable rate – 1.159%
10.0	December 2018	Variable rate – 1.421%
50.0	January 2019	Variable rate – 1.443%
50.0	February 2019	Variable rate – 1.127%
100.0	March 2019	Variable rate – 1.423%
21.8	July 2019	Variable rate – 1.466%
15.0	October 2019	Variable rate – 1.550%
50.0	May 2020	Variable rate – 1.432%
21.8	June 2020	Fixed rate – 1.960%
25.0	September 2020	Variable rate – 1.782%
100.0	September 2020	Variable rate – 1.642%
50.0	September 2020	Variable rate – 1.643%
75.0	September 2020	Variable rate – 1.272%
100.0	October 2020	Variable rate – 1.109%
50.0	December 2020	Variable rate – 1.530%
100.0	July 2021	Variable rate – 1.572%
100.0	July 2021	Variable rate – 1.542%
28.2	August 2021	Fixed rate – 2.550%
57.7	August 2021	Variable rate - 1.564%
125.0	August 2021	Variable rate – 1.462%
50.0	September 2021	Variable rate – 1.592%
25.2	March 2023	Fixed rate – 2.160%
20.5	June 2025	Fixed rate – 2.940%
<u>\$ 1,647.2</u>		

The variable rate borrowings are pre-payable on each interest reset date without penalty. The fixed rate borrowings are pre-payable subject to payment of a yield maintenance fee based on prevailing market interest rates. At March 31, 2017, the aggregate yield maintenance fee to prepay all fixed rate borrowings was \$3.4 million.

Interest expense of \$5.7 million and \$3.8 million in the first three months of 2017 and 2016, respectively, was recognized related to total borrowings from the FHLB.

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements

CHANGES IN COMMON STOCK

Changes in the number of shares of common stock outstanding were as follows (shares in thousands):

Balance, December 31, 2016	173,754
Treasury stock purchased and retired	(2,086)
Stock options exercised	320
Restricted and performance stock vested	116 (a)
Balance, March 31, 2017	<u>172,104</u>

- (a) Such amount was reduced by 62 thousand shares which were tendered to the Company for the payment of required federal and state tax withholdings owed on the vesting of restricted and performance stock.

In the first three months of 2017, we repurchased 2.1 million shares of common stock for \$43.0 million under our securities repurchase program (including \$4.5 million of repurchases settled in the second quarter of 2017). The Company had remaining repurchase authority of \$209.7 million as of March 31, 2017.

In the first three months of 2017, dividends declared on common stock totaled \$14.0 million (\$0.08 per common share).

SALES INDUCEMENTS

Certain of our annuity products offer sales inducements to contract holders in the form of enhanced crediting rates or bonus payments in the initial period of the contract. Certain of our life insurance products offer persistency bonuses credited to the contract holders balance after the policy has been outstanding for a specified period of time. These enhanced rates and persistency bonuses are considered sales inducements in accordance with GAAP. Such amounts are deferred and amortized in the same manner as deferred acquisition costs. Sales inducements deferred totaled \$.5 million and \$1.0 million during the three months ended March 31, 2017 and 2016, respectively. Amounts amortized totaled \$2.1 million and \$1.7 million during the three months ended March 31, 2017 and 2016, respectively. The unamortized balance of deferred sales inducements was \$47.8 million and \$49.4 million at March 31, 2017 and December 31, 2016, respectively. The balance of insurance liabilities for persistency bonus benefits was \$.5 million and \$.5 million at March 31, 2017 and December 31, 2016, respectively.

RECENTLY ISSUED ACCOUNTING STANDARDS

Pending Accounting Standards

In May 2014, the Financial Accounting Standards Board (the "FASB") issued authoritative guidance for recognizing revenue from contracts with customers. Certain contracts with customers are specifically excluded from this guidance, including insurance contracts. The core principle of the new guidance is that an entity should recognize revenue when it transfers promised goods or services in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The guidance also requires additional disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. In March 2016, the FASB issued amendments that clarify the implementation guidance on principal versus agent considerations. In July 2015, the guidance was updated and will now be effective for the Company on January 1, 2018 and permits two methods of transition upon adoption; full retrospective and modified retrospective. Under the full retrospective method, prior periods would be restated under the new revenue standard, providing for comparability in all periods presented. Under the modified retrospective method, prior periods would not be restated. Instead, revenues and other disclosures for pre-2017 periods would be provided in the notes to the financial statements as previously reported under the current revenue standard. The adoption of this guidance is not expected to have a material impact on our consolidated financial statements, however, the Company is continuing its assessment of the guidance.

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements
(unaudited)

In January 2016, the FASB issued authoritative guidance related to the recognition and measurement of financial assets and financial liabilities which made targeted improvements to GAAP as follows:

- (i) Require equity investments (except those accounted for under the equity method of accounting or those that result in consolidation of the investee) to be measured at fair value with changes in fair value recognized in net income. However, an entity may choose to measure equity investments that do not have readily determinable fair values at cost minus impairment, if any, plus or minus changes resulting from observable price changes in orderly transactions for the identical or a similar investment of the same issuer.
- (ii) Simplify the impairment assessment of equity investments without readily determinable fair values by requiring a qualitative assessment to identify impairment. When a qualitative assessment indicates that impairment exists, an entity is required to measure the investment at fair value.
- (iii) Eliminate the requirement for public business entities to disclose the method(s) and significant assumptions used to estimate the fair value that is required to be disclosed for financial instruments measured at amortized cost on the balance sheet.
- (iv) Require public business entities to use the exit price notion when measuring the fair value of financial instruments for disclosure purposes.
- (v) Require an entity to present separately in other comprehensive income the portion of the total change in the fair value of a liability resulting from a change in the instrument-specific credit risk when the entity has elected to measure the liability at fair value in accordance with the fair value option for financial instruments.
- (vi) Require separate presentation of financial assets and financial liabilities by measurement category and form of financial asset (that is, securities or loans and receivables) on the balance sheet or the accompanying notes to the financial statements.
- (vii) Clarify that an entity should evaluate the need for a valuation allowance on a deferred tax asset related to available-for-sale securities in combination with the entity's other deferred tax assets.

An entity should apply this guidance by means of a cumulative-effect adjustment to the balance sheet as of the beginning of the fiscal year of adoption. The amendments related to equity securities without readily determinable fair values (including disclosure requirements) should be applied prospectively to equity investments that exist as of the date of adoption of the guidance. The guidance will be effective for the Company for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. Early adoption of the guidance is not permitted; except that item (v) above is permitted to be adopted early as of the beginning of the fiscal year of adoption. The Company is currently assessing the impact the guidance will have upon adoption.

In February 2016, the FASB issued authoritative guidance related to accounting for leases, requiring lessees to report most leases on their balance sheets, regardless of whether the lease is classified as a finance lease or an operating lease. For lessees, the initial lease liability is equal to the present value of future lease payments, and a corresponding asset, adjusted for certain items, is also recorded. Expense recognition for lessees will remain similar to current accounting requirements for capital and operating leases. The accounting applied by a lessor is largely unchanged from that applied under previous GAAP. In transition, lessees and lessors are required to recognize and measure leases at the beginning of the earliest period presented using a modified retrospective approach. The guidance will be effective for the Company for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. Early adoption is permitted. The Company is currently assessing the impact the guidance will have upon adoption.

In June 2016, the FASB issued authoritative guidance related to the measurement of credit losses on financial instruments. The new guidance replaces the incurred loss impairment methodology with a methodology that reflects expected credit losses and requires consideration of a broader range of reasonable and supportable information to form credit loss estimates. The guidance will be effective for the Company for fiscal years beginning after December 15, 2019, including interim periods within those fiscal years. Early adoption is permitted as of the fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. The Company is currently assessing the impact the guidance will have upon adoption.

In August 2016, the FASB issued authoritative guidance related to how certain cash receipts and cash payments are presented and classified in the statement of cash flows. The guidance addresses eight specific cash flow issues including debt prepayment or debt extinguishment costs, proceeds from the settlement of corporate-owned life insurance policies, distributions received from equity method investees, and others. The guidance will be effective for the Company for fiscal years beginning

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements
(unaudited)

after December 15, 2017, and interim periods within those fiscal years. Early adoption is permitted. The Company is currently assessing the impact the guidance will have upon adoption.

In November 2016, the FASB issued authoritative guidance to address the diversity in practice that currently exists regarding the classification and presentation of changes in restricted cash on the statement of cash flows. The new guidance requires that a statement of cash flows explain the change during the period in the total of cash, cash equivalents and amounts generally described as restricted cash or restricted cash equivalents. Therefore, amounts generally described as restricted cash and restricted cash equivalents should be included with cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown on the statement of cash flows. Entities will also be required to disclose information about the nature of their restricted cash and restricted cash equivalents. Additionally, if cash, cash equivalents, restricted cash and restricted cash equivalents are presented in more than one line item in the statement of financial position, entities will be required to present a reconciliation, either on the face of the statement of cash flows or disclosed in the notes, of the totals in the statement of cash flows to the related line item captions in the statement of financial position. The guidance will be effective for the Company for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. Early adoption is permitted, including adoption in an interim period. The adoption of this guidance is expected to impact the presentation of our consolidated statement of cash flows and related cash flow disclosures. The guidance will not impact our consolidated financial position or results of operations.

In March 2017, the FASB issued authoritative guidance related to the premium amortization on purchased callable debt securities. The guidance shortens the amortization period for certain callable debt securities held at a premium. Specifically, the new guidance requires the premium to be amortized to the earliest call date. The guidance does not require an accounting change for securities held at a discount; the discount continues to be amortized to maturity. The guidance will be effective for the Company for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018. Early adoption is permitted, including adoption in an interim period. If an entity early adopts the guidance in an interim period, any adjustments should be reflected as of the beginning of the fiscal year that includes that interim period. The guidance should be applied on a modified retrospective basis through a cumulative-effect adjustment directly to retained earnings as of the beginning of the period of adoption. The Company is currently assessing the impact the guidance will have upon adoption.

Adopted Accounting Standards

In March 2016, the FASB issued authoritative guidance that clarifies the requirements for assessing whether contingent call (put) options that can accelerate the payment of principal on debt instruments are clearly and closely related to their debt hosts. An entity performing the assessment under this guidance is required to assess the embedded call (put) options solely in accordance with a four-step decision sequence. The guidance is effective for the Company on January 1, 2017. The adoption of this guidance had no effect on our consolidated financial statements.

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements
(unaudited)

In October 2016, the FASB issued authoritative guidance to amend the consolidation guidance on how a reporting entity that is the single decision maker of a VIE should treat indirect interests in the entity held through related parties that are under common control with the reporting entity when determining whether it is the primary beneficiary of that VIE. The guidance is effective for the Company on January 1, 2017. The adoption of this guidance had no impact on our consolidated financial statements.

LITIGATION AND OTHER LEGAL PROCEEDINGS

Legal Proceedings

The Company and its subsidiaries are involved in various legal actions in the normal course of business, in which claims for compensatory and punitive damages are asserted, some for substantial amounts. We recognize an estimated loss from these loss contingencies when we believe it is probable that a loss has been incurred and the amount of the loss can be reasonably estimated. Some of the pending matters have been filed as purported class actions and some actions have been filed in certain jurisdictions that permit punitive damage awards that are disproportionate to the actual damages incurred. The amounts sought in certain of these actions are often large or indeterminate and the ultimate outcome of certain actions is difficult to predict. In the event of an adverse outcome in one or more of these matters, there is a possibility that the ultimate liability may be in excess of the liabilities we have established and could have a material adverse effect on our business, financial condition, results of operations and cash flows. In addition, the resolution of pending or future litigation may involve modifications to the terms of outstanding insurance policies or could impact the timing and amount of rate increases, which could adversely affect the future profitability of the related insurance policies. Based upon information presently available, and in light of legal, factual and other defenses available to the Company and its subsidiaries, the Company does not believe that it is probable that the ultimate liability from either pending or threatened legal actions, after consideration of existing loss provisions, will have a material adverse effect on the Company's consolidated financial condition, operating results or cash flows. However, given the inherent difficulty in predicting the outcome of legal proceedings, there exists the possibility that such legal actions could have a material adverse effect on the Company's consolidated financial condition, operating results or cash flows.

In addition to the inherent difficulty of predicting litigation outcomes, particularly those that will be decided by a jury, some matters purport to seek substantial or an unspecified amount of damages for unsubstantiated conduct spanning several years based on complex legal theories and damages models. The alleged damages typically are indeterminate or not factually supported in the complaint, and, in any event, the Company's experience indicates that monetary demands for damages often bear little relation to the ultimate loss. In some cases, plaintiffs are seeking to certify classes in the litigation and class certification either has been denied or is pending and we have filed oppositions to class certification or sought to decertify a prior class certification. In addition, for many of these cases: (i) there is uncertainty as to the outcome of pending appeals or motions; (ii) there are significant factual issues to be resolved; and/or (iii) there are novel legal issues presented. Accordingly, the Company cannot reasonably estimate the possible loss or range of loss in excess of amounts accrued, if any, or predict the timing of the eventual resolution of these matters. The Company reviews these matters on an ongoing basis. When assessing reasonably possible and probable outcomes, the Company bases its assessment on the expected ultimate outcome following all appeals.

On September 29, 2016, Washington National and Bankers Conseco Life Insurance Company ("BCLIC") commenced an arbitration proceeding seeking compensatory, consequential and punitive damages against BRe based upon BRe's incurable material breaches of the long-term care reinsurance agreements, conversion, fraud, and breaches of fiduciary duties and the obligation to deal honestly and in good faith. BRe filed a counterclaim against Washington National and BCLIC in the arbitration alleging damages relating to the reinsurance agreements and their termination. In addition, on September 29, 2016, a complaint was filed by BCLIC and Washington National in the United States District Court for the Southern District of New York, Bankers Conseco Life Insurance Company and Washington National Insurance Company v. Moshe M. Feuer, Scott Taylor and David Levy, Case No. 16-cv-7646, alleging, among other claims, fraud/fraudulent concealment, and violation of the Racketeer Influenced and Corrupt Organizations Act. These allegations relate to the long-term care reinsurance agreements between BRe and Washington National and BCLIC, respectively, and emanate from the undisclosed relationships between and among the defendants (who were the principal owners and officers of BRe) and Platinum Partners, LP ("Platinum") and its affiliates. On April 27, 2017, an amended complaint was filed adding Beechwood Capital Group, LLC as a defendant. Washington National and BCLIC intend to vigorously pursue their claims for damages and other remedies in the arbitration and the litigation described above.

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(unaudited)

On July 20, 2007, a complaint was filed in the Hamilton County, Indiana Circuit Court, *Signature Estates of Indiana, Inc. d/b/a Gordon Marketing, Stephens-Matthews Marketing, Inc., Shields Brokerage, Inc. and Edwin A Hildebrand d/b/a Hildebrand Insurance Services v. Conseco Medical Insurance Company, Conseco Medical Insurance Company a/k/a Washington National Insurance Company and Washington National Insurance Company, Cause No. 29D02- 0707-PL-790*. The Plaintiffs are independent insurance marketing organizations which previously marketed Conseco Medical Insurance Company ("CMIC") individual major medical products and which are claiming damages for allegedly fraudulent conduct by CMIC in withdrawing from this business in 2002. The Plaintiffs contend that they relied on CMIC's alleged representations that its major medical business was profitable and that CMIC was committed to it. The Plaintiffs further allege that when CMIC exited the market, it caused agents that were previously writing business through their organizations to cease doing business with them, thereby causing irreparable damage. CMIC merged into Washington National, effective July 1, 2003. On December 16, 2016, following a jury trial, verdicts were entered in favor of the plaintiffs, and compensatory damages aggregating \$4.7 million and punitive damages aggregating \$6.0 million were awarded to the plaintiffs. Washington National has filed post-trial motions requesting the court correct errors, grant a new trial, find that punitive damages were improper, and reduce both compensatory and punitive damages. Plaintiffs filed motions requesting pre-judgment interest and attorney fees. A hearing on the post-trial motions is set for May 30, 2017. We believe the case is without merit and intend to defend it vigorously.

Regulatory Examinations and Fines

Insurance companies face significant risks related to regulatory investigations and actions. Regulatory investigations generally result from matters related to sales or underwriting practices, payment of contingent or other sales commissions, claim payments and procedures, product design, product disclosure, additional premium charges for premiums paid on a periodic basis, denial or delay of benefits, charging excessive or impermissible fees on products, procedures related to canceling policies, changing the way cost of insurance charges are calculated for certain life insurance products or recommending unsuitable products to customers. We are, in the ordinary course of our business, subject to various examinations, inquiries and information requests from state, federal and other authorities. The ultimate outcome of these regulatory actions (including the costs of complying with information requests and policy reviews) cannot be predicted with certainty. In the event of an unfavorable outcome in one or more of these matters, the ultimate liability may be in excess of liabilities we have established and we could suffer significant reputational harm as a result of these matters, which could also have a material adverse effect on our business, financial condition, results of operations or cash flows.

In August 2011, we were notified of an examination to be done on behalf of a number of states for the purpose of determining compliance with unclaimed property laws by the Company and its subsidiaries. Such examination has included inquiries related to the use of data available on the U.S. Social Security Administration's Death Master File to identify instances where benefits under life insurance policies, annuities and retained asset accounts are payable. We are continuing to provide information to the examiners in response to their requests. A total of 38 states and the District of Columbia are currently participating in this examination.

INVESTMENTS IN VARIABLE INTEREST ENTITIES

We have concluded that we are the primary beneficiary with respect to certain VIEs, which are consolidated in our financial statements. In consolidating the VIEs, we consistently use the financial information most recently distributed to investors in the VIE.

All of the VIEs are collateralized loan trusts that were established to issue securities to finance the purchase of corporate loans and other permitted investments. The assets held by the trusts are legally isolated and not available to the Company. The liabilities of the VIEs are expected to be satisfied from the cash flows generated by the underlying loans held by the trusts, not from the assets of the Company. The Company has no financial obligation to the VIEs beyond its investment in each VIE.

Certain of our insurance subsidiaries are noteholders of the VIEs. Another subsidiary of the Company is the investment manager for the VIEs. As such, it has the power to direct the most significant activities of the VIEs which materially impacts the economic performance of the VIEs.

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements

Notes payable of VIEs held by insurance subsidiaries	203.3	(203.3)	—
Total liabilities	<u>\$ 1,947.9</u>	<u>\$ (209.7)</u>	<u>\$ 1,738.2</u>

The investment portfolios held by the VIEs are primarily comprised of commercial bank loans to corporate obligors which are almost entirely rated below-investment grade. At March 31, 2017, such loans had an amortized cost of \$1,506.1 million; gross unrealized gains of \$12.6 million; gross unrealized losses of \$4.2 million; and an estimated fair value of \$1,514.5 million.

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements
(unaudited)

The following table sets forth the amortized cost and estimated fair value of the investments held by the VIEs at March 31, 2017, by contractual maturity. Actual maturities will differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without penalties.

	Amortized cost	Estimated fair value
	(Dollars in millions)	
Due in one year or less	\$ 7.1	\$ 7.1
Due after one year through five years	600.8	604.2
Due after five years through ten years	898.2	903.2
Total	<u>\$ 1,506.1</u>	<u>\$ 1,514.5</u>

During the first three months of 2017, the VIEs recognized net realized investment gains of \$2.1 million. During the first three months of 2016, the VIEs recognized net realized investment losses of \$6.4 million.

At March 31, 2017, there were no investments held by the VIEs that were in default or considered nonperforming.

During the first three months of 2017, \$20.4 million of investments held by the VIEs were sold which resulted in gross investment losses (before income taxes) of \$1 million. During the first three months of 2016, \$26.2 million of investments held by the VIEs were sold which resulted in gross investment losses (before income taxes) of \$6.5 million.

At March 31, 2017, the VIEs held: (i) investments with a fair value of \$216.3 million and gross unrealized losses of \$2.9 million that had been in an unrealized loss position for less than twelve months; and (ii) investments with a fair value of \$69.3 million and gross unrealized losses of \$1.3 million that had been in an unrealized loss position for greater than twelve months.

At December 31, 2016, the VIEs held: (i) investments with a fair value of \$93.8 million and gross unrealized losses of \$0.9 million that had been in an unrealized loss position for less than twelve months; and (ii) investments with a fair value of \$143.9 million and gross unrealized losses of \$2.9 million that had been in an unrealized loss position for greater than twelve months.

The investments held by the VIEs are evaluated for other-than-temporary declines in fair value in a manner that is consistent with the Company's fixed maturities, available for sale.

In addition, the Company, in the normal course of business, makes passive investments in structured securities issued by VIEs for which the Company is not the investment manager. These structured securities include asset-backed securities, collateralized debt obligations, commercial mortgage-backed securities, residential mortgage-backed securities and collateralized mortgage obligations. Our maximum exposure to loss on these securities is limited to our cost basis in the investment. We have determined that we are not the primary beneficiary of these structured securities due to the relative size of our investment in comparison to the total principal amount of the individual structured securities and the level of credit subordination which reduces our obligation to absorb gains or losses.

At March 31, 2017, we held investments in various limited partnerships, in which we are not the primary beneficiary, totaling \$277.6 million (classified as other invested assets). At March 31, 2017, we had unfunded commitments to these partnerships of \$230.5 million. Our maximum exposure to loss on these investments is limited to the amount of our investment.

FAIR VALUE MEASUREMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date and, therefore, represents an exit price, not an entry price. We carry certain assets and liabilities at fair value on a recurring basis, including fixed maturities, equity securities, trading securities, investments held by VIEs, derivatives, separate account assets and embedded derivatives. We carry our company-owned life insurance policy, which is invested in a series of mutual funds, at its cash surrender value which approximates fair value. In addition, we disclose fair value for certain financial instruments, including mortgage loans, policy loans, cash and cash equivalents, insurance liabilities for interest-sensitive products, investment borrowings, notes payable and borrowings related to VIEs.

The degree of judgment utilized in measuring the fair value of financial instruments is largely dependent on the level to which pricing is based on observable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect our view of market assumptions in the absence of observable market information. Financial instruments with readily available active quoted prices would be considered to have fair values based on the highest level of observable inputs, and little judgment would be utilized in measuring fair value. Financial instruments that rarely trade would often have fair value based on a lower level of observable inputs, and more judgment would be utilized in measuring fair value.

Valuation Hierarchy

There is a three-level hierarchy for valuing assets or liabilities at fair value based on whether inputs are observable or unobservable.

- Level 1 – includes assets and liabilities valued using inputs that are unadjusted quoted prices in active markets for identical assets or liabilities. Our Level 1 assets primarily include cash and cash equivalents and exchange traded securities.
- Level 2 – includes assets and liabilities valued using inputs that are quoted prices for similar assets in an active market, quoted prices for identical or similar assets in a market that is not active, observable inputs, or observable inputs that can be corroborated by market data. Level 2 assets and liabilities include those financial instruments that are valued by independent pricing services using models or other valuation methodologies. These models consider various inputs such as credit rating, maturity, corporate credit spreads, reported trades and other inputs that are observable or derived from observable information in the marketplace or are supported by transactions executed in the marketplace. Financial assets in this category primarily include: certain publicly registered and privately placed corporate fixed maturity securities; certain government or agency securities; certain mortgage and asset-backed securities; certain equity securities; most investments held by our consolidated VIEs; certain mutual fund investments; most short-term investments; and non-exchange-traded derivatives such as call options. Financial liabilities in this category include investment borrowings, notes payable and borrowings related to VIEs.
- Level 3 – includes assets and liabilities valued using unobservable inputs that are used in model-based valuations that contain management assumptions. Level 3 assets and liabilities include those financial instruments whose fair value is estimated based on broker/dealer quotes, pricing services or internally developed models or methodologies utilizing significant inputs not based on, or corroborated by, readily available market information. Financial assets in this category include certain corporate securities (primarily certain below-investment grade privately placed securities), certain structured securities, mortgage loans, and other less liquid securities. Financial liabilities in this category include our insurance liabilities for interest-sensitive products, which includes embedded derivatives (including embedded derivatives related to our fixed index annuity products and to a modified coinsurance arrangement) since their values include significant unobservable inputs including actuarial assumptions.

At each reporting date, we classify assets and liabilities into the three input levels based on the lowest level of input that is significant to the measurement of fair value for each asset and liability reported at fair value. This classification is impacted by a number of factors, including the type of financial instrument, whether the financial instrument is new to the market and not yet established, the characteristics specific to the transaction and overall market conditions. Our assessment of the significance of a particular input to the fair value measurement and the ultimate classification of each asset and liability requires judgment and is subject to change from period to period based on the observability of the valuation inputs. Any transfers between levels

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements
(unaudited)

are reported as having occurred at the beginning of the period. There were no transfers between Level 1 and Level 2 in both the first three months of 2017 and 2016.

The vast majority of our fixed maturity and equity securities, including those held in trading portfolios and those held by consolidated VIEs, short-term and separate account assets use Level 2 inputs for the determination of fair value. These fair values are obtained primarily from independent pricing services, which use Level 2 inputs for the determination of fair value. Our Level 2 assets are valued as follows:

- Fixed maturities available for sale, equity securities and trading securities

Corporate securities are generally priced using market and income approaches. Inputs generally consist of trades of identical or similar securities, quoted prices in inactive markets, issuer rating, benchmark yields, maturity, and credit spreads.

U.S. Treasuries and obligations of U.S. Government corporations and agencies are generally priced using the market approach. Inputs generally consist of trades of identical or similar securities, quoted prices in inactive markets and maturity.

States and political subdivisions are generally priced using the market approach. Inputs generally consist of trades of identical or similar securities, quoted prices in inactive markets, new issuances and credit spreads.

Asset-backed securities, collateralized debt obligations, commercial mortgage-backed securities, mortgage pass-through securities and collateralized mortgage obligations are generally priced using market and income approaches. Inputs generally consist of quoted prices in inactive markets, spreads on actively traded securities, expected prepayments, expected credit default rates, delinquencies, and issue specific information including, but not limited to, collateral type, seniority and vintage.

Equity securities (primarily comprised of non-redeemable preferred stock) are generally priced using the market approach. Inputs generally consist of trades of identical or similar securities, quoted prices in inactive markets, issuer rating, benchmark yields, maturity, and credit spreads.

- Investments held by VIEs

Corporate securities are generally priced using market and income approaches using pricing vendors. Inputs generally consist of issuer rating, benchmark yields, maturity, and credit spreads.

- Other invested assets - derivatives

The fair value measurements for derivative instruments, including embedded derivatives requiring bifurcation, are determined based on the consideration of several inputs including closing exchange or over-the-counter market price quotes; time value and volatility factors underlying options; market interest rates; and non-performance risk.

Third party pricing services normally derive security prices through recently reported trades for identical or similar securities making adjustments through the reporting date based upon available market observable information. If there are no recently reported trades, the third party pricing services may use matrix or model processes to develop a security price where future cash flow expectations are discounted at an estimated risk-adjusted market rate. The number of prices obtained for a given security is dependent on the Company's analysis of such prices as further described below.

As the Company is responsible for the determination of fair value, we have control processes designed to ensure that the fair values received from third-party pricing sources are reasonable and the valuation techniques and assumptions used appear reasonable and consistent with prevailing market conditions. Additionally, when inputs are provided by third-party pricing sources, we have controls in place to review those inputs for reasonableness. As part of these controls, we perform monthly quantitative and qualitative analysis on the prices received from third parties to determine whether the prices are reasonable estimates of fair value. The Company's analysis includes: (i) a review of the methodology used by third party pricing services;

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements
(unaudited)

(ii) where available, a comparison of multiple pricing services' valuations for the same security; (iii) a review of month to month price fluctuations; (iv) a review to ensure valuations are not unreasonably dated; and (v) back testing to compare actual purchase and sale transactions with valuations received from third parties. As a result of such procedures, the Company may conclude the prices received from third parties are not reflective of current market conditions. In those instances, we may request additional pricing quotes or apply internally developed valuations. However, the number of such instances is insignificant and the aggregate change in value of such investments is not materially different from the original prices received.

The categorization of the fair value measurements of our investments priced by independent pricing services was based upon the Company's judgment of the inputs or methodologies used by the independent pricing services to value different asset classes. Such inputs typically include: benchmark yields, reported trades, broker dealer quotes, issuer spreads, benchmark securities, bids, offers and reference data. The Company categorizes such fair value measurements based upon asset classes and the underlying observable or unobservable inputs used to value such investments.

For securities that are not priced by pricing services and may not be reliably priced using pricing models, we obtain broker quotes. These broker quotes are non-binding and represent an exit price, but assumptions used to establish the fair value may not be observable and therefore represent Level 3 inputs. Approximately 46 percent of our Level 3 fixed maturity securities were valued using unadjusted broker quotes or broker-provided valuation inputs. The remaining Level 3 fixed maturity investments do not have readily determinable market prices and/or observable inputs. For these securities, we use internally developed valuations. Key assumptions used to determine fair value for these securities may include risk premiums, projected performance of underlying collateral and other factors involving significant assumptions which may not be reflective of an active market. For certain investments, we use a matrix or model process to develop a security price where future cash flow expectations are discounted at an estimated market rate. The pricing matrix incorporates term interest rates as well as a spread level based on the issuer's credit rating, other factors relating to the issuer, and the security's maturity. In some instances issuer-specific spread adjustments, which can be positive or negative, are made based upon internal analysis of security specifics such as liquidity, deal size, and time to maturity.

For certain embedded derivatives, we use actuarial assumptions in the determination of fair value which we consider to be Level 3 inputs.

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements
(unaudited)

For those financial instruments disclosed at fair value, we use the following methods and assumptions to determine the estimated fair values:

Mortgage loans and policy loans. We discount future expected cash flows based on interest rates currently being offered for similar loans with similar risk characteristics. We aggregate loans with similar characteristics in our calculations. The fair value of policy loans approximates their carrying value.

Company-owned life insurance is backed by a series of mutual funds and is carried at cash surrender value which approximates estimated fair value.

Cash and cash equivalents include commercial paper, invested cash and other investments purchased with original maturities of less than three months. We carry them at amortized cost, which approximates estimated fair value.

Liabilities for policyholder account balances. The estimated fair value of insurance liabilities for policyholder account balances was approximately equal to its carrying value as interest rates credited on the vast majority of account balances approximate current rates paid on similar products and because these rates are not generally guaranteed beyond one year.

Investment borrowings, notes payable and borrowings related to variable interest entities. For publicly traded debt, we use current fair values. For other notes, we use discounted cash flow analyses based on our current incremental borrowing rates for similar types of borrowing arrangements.

The fair value measurements for our financial instruments disclosed at fair value on a recurring basis are as follows (dollars in millions):

	March 31, 2017				
	Quoted prices in active markets for identical assets or liabilities (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)	Total estimated fair value	Total carrying amount

- (a) Transfers into Level 3 are the result of unobservable inputs utilized within valuation methodologies for assets that were previously valued using observable inputs. Transfers out of Level 3 are due to the use of observable inputs in valuation methodologies as well as the utilization of pricing service information for certain assets that the Company is able to validate.
- (b) Purchases, sales, issuances and settlements, net, represent the activity that occurred during the period that results in a change of the asset or liability but does not represent changes in fair value for the instruments held at the beginning of the period. Such activity primarily consists of purchases and sales of fixed maturity and equity securities and changes to embedded derivative instruments related to insurance products resulting from the issuance of new contracts, or changes to existing contracts. The following summarizes such activity for the three months ended March 31, 2017 (dollars in millions):

	<u>Purchases</u>	<u>Sales</u>	<u>Issuances</u>	<u>Settlements</u>	<u>Purchases, sales, issuances and settlements, net</u>
Assets:

The following table presents additional information about assets and liabilities measured at fair value on a recurring basis and for which we have utilized significant unobservable (Level 3) inputs to determine fair value for the three months ended March 31, 2016 (dollars in millions):

	March 31, 2016							Amount of total gains (losses) for the three months ended March 31, 2016 included in our net income relating to assets and liabilities still held as of the reporting date
	Beginning balance as of December 31, 2015	Purchases, sales, issuances and settlements, net (b)	Total realized and unrealized gains (losses) included in net income	Total realized and unrealized gains (losses) included in accumulated other comprehensive income (loss)	Transfers into Level 3 (a)	Transfers out of Level 3 (a)	Ending balance as of March 31, 2016	
Assets:								
Fixed maturities, available for sale:								
Corporate securities	\$ 170.4	\$ (15.4)	\$ (11.1)	\$ 9.1	\$ 20.3	\$ —	\$ 173.3	\$ (6.3)
Asset-backed securities	35.9	20.9	—	.7	—	(13.7)	43.8	—
Commercial mortgage-backed securities	1.1	—	—	—	—	—	1.1	—
Mortgage pass-through securities	.1	(.1)	—	—	—	—	—	—
Total fixed maturities, available for sale	207.5	5.4	(11.1)	9.8	20.3	(13.7)	218.2	(6.3)
Equity securities - corporate securities	32.0	1.1	—	(.7)	—	—	32.4	—
Trading securities - commercial mortgage-backed securities	39.9	(1.1)	—	.2	—	—	39.0	.2
Liabilities:								
Future policy benefits - embedded derivatives associated with fixed index annuity products	(1,057.1)	(4.0)	(34.9)	—	—	—	(1,096.0)	(34.9)

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements
(unaudited)

- (a) Transfers into Level 3 are the result of unobservable inputs utilized within valuation methodologies for assets that were previously valued using observable inputs. Transfers out of Level 3 are due to the use of observable inputs in valuation methodologies as well as the utilization of pricing service information for certain assets that the Company is able to validate.
- (b) Purchases, sales, issuances and settlements, net, represent the activity that occurred during the period that results in a change of the asset or liability but does not represent changes in fair value for the instruments held at the beginning of the period. Such activity primarily consists of purchases and sales of fixed maturity and equity securities and changes to embedded derivative instruments related to insurance products resulting from the issuance of new contracts, or changes to existing contracts. The following summarizes such activity for the three months ended March 31, 2016 (dollars in millions):

	Purchases	Sales	Issuances	Settlements	Purchases, sales, issuances and settlements, net
Assets:					
Fixed maturities, available for sale:					
Corporate securities	\$ —	\$ (15.4)	\$ —	\$ —	\$ (15.4)
Asset-backed securities	21.0	(.1)	—	—	20.9
Mortgage pass-through securities	—	(.1)	—	—	(.1)
Total fixed maturities, available for sale	21.0	(15.6)	—	—	5.4
Equity securities - corporate securities	1.1	—	—	—	1.1
Trading securities - commercial mortgage-backed securities	—	(1.1)	—	—	(1.1)
Liabilities:					
Future policy benefits - embedded derivatives associated with fixed index annuity products	(34.0)	14.2	(.2)	16.0	(4.0)

At March 31, 2017, 52 percent of our Level 3 fixed maturities, available for sale, were investment grade and 75 percent of our Level 3 fixed maturities, available for sale, consisted of corporate securities.

Realized and unrealized investment gains and losses presented in the preceding tables represent gains and losses during the time the applicable financial instruments were classified as Level 3.

Realized and unrealized gains (losses) on Level 3 assets are primarily reported in either net investment income for policyholder and other special-purpose portfolios, net realized investment gains (losses) or insurance policy benefits within the consolidated statement of operations or accumulated other comprehensive income within shareholders' equity based on the appropriate accounting treatment for the instrument.

The amount presented for gains (losses) included in our net loss for assets and liabilities still held as of the reporting date primarily represents impairments for fixed maturities, available for sale, changes in fair value of trading securities and certain derivatives and changes in fair value of embedded derivative instruments included in liabilities for insurance products that exist as of the reporting date.

Notes to Consolidated Financial Statements
(unaudited)

The following table provides additional information about the significant unobservable (Level 3) inputs developed internally by the Company to determine fair value for certain assets and liabilities carried at fair value at March 31, 2017 (dollars in millions):

	Fair value at March 31, 2017	Valuation techniques	Unobservable inputs	Range (weighted average)
Assets:				
Corporate securities (a)	\$ 167.9	Discounted cash flow analysis	Discount margins	1.60% - 34.59% (11.88%)
Corporate securities (b)	5.2	Recovery method	Percent of recovery expected	5% - 60% (37%)
Asset-backed securities (c)	24.2	Discounted cash flow analysis	Discount margins	1.91% - 3.65% (2.68%)
Equity security (d)	24.3	Market multiple	Projected cash flows	0.4% - 6.2% (5.9%)
Other assets categorized as Level 3 (e)	189.0	Unadjusted third-party price source	Not applicable	Not applicable
Total	410.6			
Liabilities:				
Future policy benefits (f)	1,159.2	Discounted projected embedded derivatives	Projected portfolio yields	5.15% - 5.61% (5.59%)
			Discount rates	0.35% - 3.03% (2.00%)
			Surrender rates	0.94% - 46.48% (13.52%)

- (a) Corporate securities - The significant unobservable input used in the fair value measurement of our corporate securities is discount margin added to a riskless market yield. Significant increases (decreases) in discount margin in isolation would result in a significantly lower (higher) fair value measurement.
- (b) Corporate securities - The significant unobservable input used in the fair value measurement of our corporate securities is percentage of recovery expected. Significant increases (decreases) in percentage of recovery expected in isolation would result in a significantly higher (lower) fair value measurement.
- (c) Asset-backed securities - The significant unobservable input used in the fair value measurement of these asset-backed securities is discount margin added to a riskless market yield. Significant increases (decreases) in discount margin in isolation would result in a significantly lower (higher) fair value measurement.
- (d) Equity securities - The significant unobservable input used in the fair value measurement of these equity securities is projected cash flows. Generally, increases (decreases) in the projected cash flows would result in higher (lower) fair value measurements.
- (e) Other assets categorized as Level 3 - For these assets, there were no adjustments to quoted market prices obtained from third-party pricing sources.
- (f) Future policy benefits - The significant unobservable inputs used in the fair value measurement of our embedded derivatives associated with fixed index annuity products are projected portfolio yields, discount rates and surrender rates. Increases (decreases) in projected portfolio yields in isolation would lead to a higher (lower) fair value measurement. The discount rate is based on the Treasury rate adjusted by a margin. Increases (decreases) in the discount rates would lead to a lower (higher) fair value measurement. Assumed surrender rates are used to project how long the contracts remain in force. Generally, the longer the contracts are assumed to be in force the higher the fair value of the embedded derivative.

The following table provides additional information about the significant unobservable (Level 3) inputs developed internally by the Company to determine fair value for certain assets and liabilities carried at fair value at December 31, 2016 (dollars in millions):

	Fair value at December 31, 2016	Valuation techniques	Unobservable inputs	Range (weighted average)
Assets:				
Corporate securities (a)	\$ 148.5	Discounted cash flow analysis	Discount margins	1.35% - 27.71% (13.52%)
Corporate securities (b)	14.8	Recovery method	Percent of recovery expected	5% - 69% (55%)
Asset-backed securities (c)	24.0	Discounted cash flow analysis	Discount margins	2.06% - 3.64% (2.76%)
Equity security (d)	25.2	Market multiple	Projected cash flows	0.4% - 6.2% (5.9%)
Other assets categorized as Level 3 (e)	172.9	Unadjusted third-party price source	Not applicable	Not applicable
Total	385.4			
Liabilities:				
Future policy benefits (f)	1,092.3	Discounted projected embedded derivatives	Projected portfolio yields	5.15% - 5.61% (5.59%)
			Discount rates	0.18% - 3.06% (2.07%)
			Surrender rates	0.94% - 46.48% (13.52%)

- (a) Corporate securities - The significant unobservable input used in the fair value measurement of our corporate securities is discount margin added to a riskless market yield. Significant increases (decreases) in discount margin in isolation would result in a significantly lower (higher) fair value measurement.
- (b) Corporate securities - The significant unobservable input used in the fair value measurement of our corporate securities is percentage of recovery expected. Significant increases (decreases) in percentage of recovery expected in isolation would result in a significantly higher (lower) fair value measurement.
- (c) Asset-backed securities - The significant unobservable input used in the fair value measurement of these asset-backed securities is discount margin added to a riskless market yield. Significant increases (decreases) in discount margin in isolation would result in a significantly lower (higher) fair value measurement.
- (d) Equity security - The significant unobservable input used in the fair value measurement of these equity securities is projected cash flows. Generally, increases (decreases) in the projected cash flows would result in higher (lower) fair value measurements.
- (e) Other assets categorized as Level 3 - For these assets, there were no adjustments to quoted market prices obtained from third-party pricing sources.
- (f) Future policy benefits - The significant unobservable inputs used in the fair value measurement of our embedded derivatives associated with fixed index annuity products are projected portfolio yields, discount rates and surrender rates. Increases (decreases) in projected portfolio yields in isolation would lead to a higher (lower) fair value measurement. The discount rate is based on the Treasury rate adjusted by a margin. Increases (decreases) in the discount rates would lead to a lower (higher) fair value measurement. Assumed surrender rates are used to project how long the contracts remain in force. Generally, the longer the contracts are assumed to be in force the higher the fair value of the embedded derivative.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF CONSOLIDATED FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

In this section, we review the consolidated financial condition of CNO at March 31, 2017, and its consolidated results of operations for the three months ended March 31, 2017 and 2016, and, where appropriate, factors that may affect future financial performance. Please read this discussion in conjunction with the accompanying consolidated financial statements and notes.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

Our statements, trend analyses and other information contained in this report and elsewhere (such as in filings by CNO with the SEC, press releases, presentations by CNO or its management or oral statements) relative to markets for CNO's products and trends in CNO's operations or financial results, as well as other statements, contain forward-looking statements within the meaning of the federal securities laws and the Private Securities Litigation Reform Act of 1995. Forward-looking statements typically are identified by the use of terms such as "anticipate," "believe," "plan," "estimate," "expect," "project," "intend," "may," "will," "would," "contemplate," "possible," "attempt," "seek," "should," "could," "goal," "target," "on track," "comfortable with," "optimistic," "guidance," "outlook" and similar words, although some forward-looking statements are expressed differently. You should consider statements that contain these words carefully because they describe our expectations, plans, strategies and goals and our beliefs concerning future business conditions, our results of operations, financial position, and our business outlook or they state other "forward-looking" information based on currently available information. The "Risk Factors" section of our 2016 Annual Report on Form 10-K provides examples of risks, uncertainties and events that could cause our actual results to differ materially from the expectations expressed in our forward-looking statements. Assumptions and other important factors that could cause our actual results to differ materially from those anticipated in our forward-looking statements include, among other things:

- changes in or sustained low interest rates causing reductions in investment income, the margins of our fixed annuity and life insurance businesses, and sales of, and demand for, our products;
- expectations of lower future investment earnings may cause us to accelerate amortization, write down the balance of insurance acquisition costs or establish additional liabilities for insurance products;
- general economic, market and political conditions and uncertainties, including the performance and fluctuations of the financial markets which may affect the value of our investments as well as our ability to raise capital or refinance existing indebtedness and the cost of doing so;
- the ultimate outcome of lawsuits filed against us and other legal and regulatory proceedings to which we are subject;
- our ability to make anticipated changes to certain non-guaranteed elements of our life insurance products;
- our ability to obtain adequate and timely rate increases on our health products, including our long-term care business;
- the receipt of any required regulatory approvals for dividend and surplus debenture interest payments from our insurance subsidiaries;
- mortality, morbidity, the increased cost and usage of health care services, persistency, the adequacy of our previous reserve estimates and other factors which may affect the profitability of our insurance products;
- changes in our assumptions related to deferred acquisition costs or the present value of future profits;
- the recoverability of our deferred tax assets and the effect of potential ownership changes and tax rate changes on their value;
- our assumption that the positions we take on our tax return filings will not be successfully challenged by the IRS;
- changes in accounting principles and the interpretation thereof;

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES

- our ability to continue to satisfy the financial ratio and balance requirements and other covenants of our debt agreements;
- our ability to achieve anticipated expense reductions and levels of operational efficiencies including improvements in claims adjudication and continued automation and rationalization of operating systems;
- performance and valuation of our investments, including the impact of realized losses (including other-than-temporary impairment charges);
- our ability to identify products and markets in which we can compete effectively against competitors with greater market share, higher ratings, greater financial resources and stronger brand recognition;
- our ability to generate sufficient liquidity to meet our debt service obligations and other cash needs;
- our ability to maintain effective controls over financial reporting;
- our ability to continue to recruit and retain productive agents and distribution partners;
- customer response to new products, distribution channels and marketing initiatives;
- our ability to achieve additional upgrades of the financial strength ratings of CNO and our insurance company subsidiaries as well as the impact of our ratings on our business, our ability to access capital, and the cost of capital;
- regulatory changes or actions, including those relating to regulation of the financial affairs of our insurance companies, such as the payment of dividends and surplus debenture interest to us, regulation of the sale, underwriting and pricing of products, and health care regulation affecting health insurance products;
- changes in the Federal income tax laws and regulations which may affect or eliminate the relative tax advantages of some of our products or affect the value of our deferred tax assets;
- availability and effectiveness of reinsurance arrangements, as well as the impact of any defaults or failure of reinsurers to perform;
- the amount we may need to pay to a reinsurer and the earnings charge we may incur in connection with a long-term care reinsurance transaction;
- the performance of third party service providers and potential difficulties arising from outsourcing arrangements;
- the growth rate of sales, collected premiums, annuity deposits and assets;
- interruption in telecommunication, information technology or other operational systems or failure to maintain the security, confidentiality or privacy of sensitive data on such systems;
- events of terrorism, cyber attacks, natural disasters or other catastrophic events, including losses from a disease pandemic;
- ineffectiveness of risk management policies and procedures in identifying, monitoring and managing risks; and
- the risk factors or uncertainties listed from time to time in our filings with the SEC.

Other factors and assumptions not identified above are also relevant to the forward-looking statements, and if they prove incorrect, could also cause actual results to differ materially from those projected.

All written or oral forward-looking statements attributable to us are expressly qualified in their entirety by the foregoing cautionary statement. Our forward-looking statements speak only as of the date made. We assume no obligation to update or to publicly announce the results of any revisions to any of the forward-looking statements to reflect actual results, future events or developments, changes in assumptions or changes in other factors affecting the forward-looking statements.

The reporting of risk-based capital ("RBC") measures is not intended for the purpose of ranking any insurance company or for use in connection with any marketing, advertising or promotional activities.

OVERVIEW

We are a holding company for a group of insurance companies operating throughout the United States that develop, market and administer health insurance, annuity, individual life insurance and other insurance products. We focus on serving the senior and middle-income markets, which we believe are attractive, underserved, high growth markets. We sell our products through three distribution channels: career agents, independent producers (some of whom sell one or more of our product lines exclusively) and direct marketing. In the fourth quarter of 2016, we began reporting the long-term care block recaptured from BRE as an additional business segment.

The Company's insurance segments are described below:

- **Bankers Life**, which markets and distributes Medicare supplement insurance, interest-sensitive life insurance, traditional life insurance, fixed annuities and long-term care insurance products to the middle-income senior market through a dedicated field force of career agents, financial and investment advisors, and sales managers supported by a network of community-based sales offices. The Bankers Life segment includes primarily the business of Bankers Life. Bankers Life also has various distribution and marketing agreements with other insurance companies to use Bankers Life's career agents to distribute Medicare Advantage and prescription drug plans ("PDP") products in exchange for a fee.
- **Washington National**, which markets and distributes supplemental health (including specified disease, accident and hospital indemnity insurance products) and life insurance to middle-income consumers at home and at the worksite. These products are marketed through Performance Matters Associates, Inc. ("PMA") and through independent marketing organizations and insurance agencies including worksite marketing. The products being marketed are underwritten by Washington National. This segment's business also includes certain closed blocks of annuities and Medicare supplement policies which are no longer being actively marketed by this segment and were primarily issued or acquired by Washington National.
- **Colonial Penn**, which markets primarily graded benefit and simplified issue life insurance directly to customers in the senior middle-income market through television advertising, direct mail, the internet and telemarketing. The Colonial Penn segment includes primarily the business of Colonial Penn.
- **Long-term care in run-off** consists of the long-term care business that was recaptured due to the termination of certain reinsurance agreements effective September 30, 2016. This business is not actively marketed and was issued or acquired by Washington National and BCLIC.

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES

The following summarizes our earnings for the three months ending March 31, 2017 and 2016 (dollars in millions, except per share data):

	Three months ended	
	March 31,	
	2017	2016
Adjusted EBIT (a non-GAAP measure) (a):		
Bankers Life	\$ 89.7	\$ 77.6
Washington National	23.5	26.3
Colonial Penn	(.3)	(6.8)
Long-term care in run-off	.4	—
Adjusted EBIT from business segments	113.3	97.1
Corporate operations, excluding corporate interest expense	(8.9)	(8.1)
Adjusted EBIT	104.4	89.0
Corporate interest expense	(11.5)	(11.4)
Operating earnings before taxes	92.9	77.6
Tax expense on operating income	33.1	28.0
Net operating income (a)	59.8	49.6
Net realized investment gains (losses) (net of related amortization)	7.9	(1.0)
Fair value changes in embedded derivative liabilities (net of related amortization)	(4.4)	(29.5)
Fair value changes related to agent deferred compensation plan	—	(6.0)
Other	.3	(.6)
Non-operating income (loss) before taxes	3.8	(37.1)
Income tax expense (benefit):		
On non-operating income (loss)	1.3	(13.0)
Valuation allowance for deferred tax assets	—	(20.0)
Net non-operating income (loss)	2.5	(4.1)
Net income	<u>\$ 62.3</u>	<u>\$ 45.5</u>
Per diluted share:		
Net operating income	\$.34	\$.27
Net realized investment gains (losses) (net of related amortization and taxes)	.03	—
Fair value changes in embedded derivative liabilities (net of related amortization and taxes)	(.01)	(.11)
Fair value changes related to agent deferred compensation plan (net of taxes)	—	(.02)
Valuation allowance for deferred tax assets	—	.11
Other	—	—
Net income	<u>\$.36</u>	<u>\$.25</u>

- (a) Management believes that an adjusted analysis of net operating income provides a clearer comparison of the operating results of the Company from period to period because it excludes: (i) net realized investment gains or losses, net of related amortization; (ii) fair value changes due to fluctuations in the interest rates used to discount embedded derivative liabilities related to our fixed index annuities, net of related amortization; (iii) fair value changes related to the agent deferred compensation plan; and (iv) other non-operating items consisting primarily of earnings attributable to variable interest entities. Net realized investment gains or losses include: (i) gains or losses on the sales of investments; (ii) other-than-temporary impairments recognized through net income; and (iii) changes in fair value of certain fixed maturity investments with embedded derivatives. Adjusted EBIT is presented as net operating income excluding corporate interest expense and income tax expense. The table above reconciles the non-GAAP measures to the corresponding GAAP measure.

In addition, management uses these non-GAAP financial measures in its budgeting process, financial analysis of segment performance and in assessing the allocation of resources. We believe these non-GAAP financial measures enhance an investor's understanding of our financial performance and allows them to make more informed judgments about the Company as a whole. These measures also highlight operating trends that might not otherwise be transparent. However, Adjusted EBIT and net operating income are not measurements of financial performance under GAAP and should not be considered as alternatives to cash flow from operating activities, as measures of liquidity, or as alternatives to net income as measures of our operating performance or any other measures of performance derived in accordance with GAAP. In addition, Adjusted EBIT and net operating income should not be construed as an inference that our future results will be unaffected by unusual or non-recurring items. Adjusted EBIT and net operating income have limitations as analytical tools, and you should not consider such measures either in isolation or as substitutes for analyzing our results as reported under GAAP. Our definitions and calculation of Adjusted EBIT and net operating income are not necessarily comparable to other similarly titled measures used by other companies due to different methods of calculation.

CRITICAL ACCOUNTING POLICIES

Refer to "Critical Accounting Policies" in our 2016 Annual Report on Form 10-K for information on our other accounting policies that we consider critical in preparing our consolidated financial statements.

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES

RESULTS OF OPERATIONS

The following tables and narratives summarize the operating results of our segments (dollars in millions):

	Three months ended	
	March 31,	
	2017	2016
Pre-tax operating earnings (a non-GAAP measure) (a):		
Bankers Life	\$ 89.7	\$ 77.6
Washington National	23.5	26.3
Colonial Penn	(.3)	(6.8)
Long-term care in run-off	.4	—
Corporate operations	(20.4)	(19.5)
	<u>92.9</u>	<u>77.6</u>
Net realized investment gains (losses), net of related amortization:		
Bankers Life	1.7	(6.5)
Washington National	2.0	13.0
Colonial Penn	(.1)	(1.2)
Long-term care in run-off	(.3)	—
Corporate operations	4.6	(6.3)
	<u>7.9</u>	<u>(1.0)</u>
Fair value changes in embedded derivative liabilities, net of related amortization:		
Bankers Life	(4.4)	(29.1)
Washington National	—	(.4)
	<u>(4.4)</u>	<u>(29.5)</u>
Earnings attributable to non-controlling interests:		
Corporate operations	.3	(.6)
Fair value changes related to agent deferred compensation plan:		
Corporate operations	—	(6.0)
Income (loss) before income taxes:		
Bankers Life	87.0	42.0
Washington National	25.5	38.9
Colonial Penn	(.4)	(8.0)
Long-term care in run-off	.1	—
Corporate operations	(15.5)	(32.4)
Income before income taxes	<u>\$ 96.7</u>	<u>\$ 40.5</u>

- (a) These non-GAAP measures as presented in the above table and in the following segment financial data and discussions of segment results exclude net realized investment gains (losses), fair value changes in embedded derivative liabilities, net of related amortization, fair value changes related to the agent deferred compensation plan and earnings attributable to VIEs and before income taxes. These are considered non-GAAP financial measures. A non-GAAP measure is a numerical measure of a company's performance, financial position, or cash flows that excludes or includes amounts that are normally excluded or included in the most directly comparable measure calculated and presented in accordance with GAAP.

These non-GAAP financial measures of "pre-tax operating earnings" differ from "income (loss) before income taxes" as presented in our consolidated statement of operations prepared in accordance with GAAP due to the exclusion of realized investment gains (losses), fair value changes in embedded derivative liabilities, net of related amortization, fair value changes related to the agent deferred compensation plan and earnings attributable to VIEs. We measure segment performance excluding these items because we believe that this performance measure is a better indicator of the ongoing businesses and trends in our business. Our primary investment focus is on investment income to support our liabilities for insurance products as opposed to the generation of realized investment gains (losses), and a long-term focus is necessary to maintain profitability over the life of the business. Realized investment gains (losses), fair value changes in embedded derivative liabilities, fair value changes related to the agent deferred compensation plan and earnings attributable to VIEs depend on market conditions and do not necessarily relate to decisions regarding the underlying business of our segments. However, "pre-tax operating earnings" does not replace "income (loss) before income taxes" as a measure of overall profitability.

We may experience realized investment gains (losses), which will affect future earnings levels since our underlying business is long-term in nature and we need to earn the assumed interest rates on the investments backing our liabilities for insurance products to maintain the profitability of our business. In addition, management uses this non-GAAP financial measure in its budgeting process, financial analysis of segment performance and in assessing the allocation of resources. We believe these non-GAAP financial measures enhance an investor's understanding of our financial performance and allows them to make more informed judgments about the Company as a whole. These measures also highlight operating trends that might not otherwise be transparent. The table above reconciles the non-GAAP measure to the corresponding GAAP measure.

General: CNO is the top tier holding company for a group of insurance companies operating throughout the United States that develop, market and administer health insurance, annuity, individual life insurance and other insurance products. We distribute these products through our Bankers Life segment, which utilizes a career agency force, through our Washington National segment, which utilizes independent producers and through our Colonial Penn segment, which utilizes direct response marketing. In the fourth quarter of 2016, we began reporting as an additional business segment, the long-term care block recaptured from BRc.

Benefit ratio (a)	70.0%	71.1%
Long-term care:		
Insurance policy benefits	\$ 153.3	\$ 157.4
Benefit ratio (a)	132.6%	132.9%
Interest-adjusted benefit ratio (b)	72.5%	75.3%

- (a) We calculate benefit ratios by dividing the related product's insurance policy benefits by insurance policy income.
- (b) We calculate the interest-adjusted benefit ratio (a non-GAAP measure) for Bankers Life's long-term care products by dividing such product's insurance policy benefits less the imputed interest income on the accumulated assets backing the insurance liabilities by policy income. These are considered non-GAAP financial measures. A non-GAAP measure is a numerical measure of a company's performance, financial position, or cash flows that excludes or includes amounts that are normally excluded or included in the most directly comparable measure calculated and presented in accordance with GAAP.

These non-GAAP financial measures of "interest-adjusted benefit ratios" differ from "benefit ratios" due to the deduction of imputed interest income on the accumulated assets backing the insurance liabilities from the product's insurance policy benefits used to determine the ratio. Interest income is an important factor in measuring the performance of health products that are expected to be in force for a longer duration of time, are not subject to unilateral changes in provisions (such as non-cancelable or guaranteed renewable contracts) and require the performance of various functions and services (including insurance protection) for an extended period of time. The net cash flows from long-term care products generally cause an accumulation of amounts in the early years of a policy (accounted for as reserve increases) that will be paid out as benefits in later policy years (accounted for as reserve decreases). Accordingly, as the policies age, the benefit ratio will typically increase, but the increase in benefits will be partially offset by the imputed interest income earned on the accumulated assets. The interest-adjusted benefit ratio reflects the effects of such interest income offset (which is equal to the tabular interest on the related insurance liabilities). Since interest income is an important factor in measuring the performance of this product, management believes a benefit ratio that includes the effect of interest income is useful in analyzing product performance. We utilize the interest-adjusted benefit ratio in measuring segment performance because we believe that this performance measure is a better indicator of the ongoing businesses and trends in the business. However, the "interest-adjusted benefit ratio" does not replace the "benefit ratio" as a measure of current period benefits to current period insurance policy income. Accordingly, management reviews both "benefit ratios" and "interest-adjusted benefit ratios" when analyzing the financial results attributable to these products. The imputed investment income earned on the accumulated assets backing Bankers Life's long-term care reserves was \$69.5 million and \$68.2 million in the three months ended March 31, 2017 and 2016, respectively.

Total premium collections were \$687.8 million in the first quarter of 2017, up 4.1 percent from 2016, primarily reflecting an increase in premiums from annuity products. See "Premium Collections" for further analysis of Bankers Life's premium collections.

Average liabilities for insurance products, net of reinsurance ceded were \$15.3 billion in the first quarter of 2017, up 3.0 percent from 2016. The increase in average liabilities for insurance products was primarily due to new sales and the amounts added to policyholder account balances on interest-sensitive products.

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES

Insurance policy income is comprised of premiums earned on policies which provide mortality or morbidity coverage and fees and other charges assessed on other policies.

Net investment income on general account invested assets (which excludes income on policyholder portfolios) was \$231.1 million in the first quarter of 2017, up 4.1 percent from 2016. The first quarter of 2017 reflects \$10 million of higher investment income from alternative investments compared to the 2016 period and the amount of alternative investments in this segment increased approximately \$200 million from March 31, 2016 to March 31, 2017. Prepayment income was \$5 million and \$4.0 million in the first quarters of 2017 and 2016, respectively.

Net investment income related to fixed index products represents the change in the estimated fair value of options which are purchased in an effort to offset or hedge certain potential benefits accruing to the policyholders of our fixed index products. Our fixed index products are designed so that investment income spread is expected to be more than adequate to cover the cost of the options and other costs related to these policies. Net investment income (loss) related to fixed index products was \$41.8 million and \$(7.8) million in the first quarters of 2017 and 2016, respectively. Such amounts were substantially offset by the corresponding charge (credit) to **amounts added to policyholder account balances - market value changes credited to policyholders**. Such income and related charges fluctuate based on the value of options embedded in the segment's fixed index annuity policyholder account balances subject to this benefit and to the performance of the index to which the returns on such products are linked.

Fee revenue and other income was \$10.6 million and \$6.6 million in the first quarters of 2017 and 2016, respectively. The increase in the 2017 period is attributable to fee income earned by our broker-dealer and registered investment advisor subsidiaries and revenues earned related to sales of Medicare Advantage products of other insurance companies.

Insurance policy benefits fluctuated as a result of the factors summarized below for benefit ratios. Benefit ratios are calculated by dividing the related insurance product's insurance policy benefits by insurance policy income.

The Medicare supplement business consists of both individual and group policies. Government regulations generally require us to attain and maintain a ratio of total benefits incurred to total premiums earned (excluding changes in policy benefit reserves), after three years from the original issuance of the policy and over the lifetime of the policy, of not less than 65 percent on individual products and not less than 75 percent on group products, as determined in accordance with statutory accounting principles. Since the insurance product liabilities we establish for Medicare supplement business are subject to significant estimates, the ultimate claim liability we incur for a particular period is likely to be different than our initial estimate. Our benefit ratios were 70.0 percent and 71.1 percent in the first quarters of 2017 and 2016, respectively. We continue to expect the Medicare supplement benefit ratio to be in the range of 71 percent to 74 percent during 2017.

The net cash flows from our long-term care products generally cause an accumulation of amounts in the early years of a policy (accounted for as reserve increases) which will be paid out as benefits in later policy years (accounted for as reserve decreases). Accordingly, as the policies age, the benefit ratio typically increases, but the increase in reserves is partially offset by investment income earned on the accumulated assets. The benefit ratio on our long-term care business in the Bankers Life segment was 132.6 percent and 132.9 percent in the first quarters of 2017 and 2016, respectively. The interest-adjusted benefit ratio on this business was 72.5 percent and 75.3 percent in the first quarters of 2017 and 2016, respectively. The interest-adjusted benefit ratio in the first quarters of 2017 and 2016, was favorably impacted by reserve releases of \$2 million and \$8 million, respectively, related to policyholder decisions to surrender or reduce coverage following rate increases. The interest-adjusted benefit ratio in the three months ended March 31, 2017 and 2016, excluding the favorable reserve releases related to rate increases was 74.2 percent and 82.4 percent, respectively. The interest-adjusted benefit ratio in the first quarter of 2017 also reflected no increase to the future loss reserve, given the outcome of the year-end 2016 actuarial review, compared to an \$8.9 million increase in the first quarter of 2016. We continue to expect the long-term care interest-adjusted benefit ratio to be in the range of 77 percent to 82 percent during 2017, excluding the reserve-related impacts of rate increase actions. As we experienced in the first quarter of 2017, we expect that the rate increases will have less of an impact on the interest-adjusted benefit ratio in 2017 than in 2016.

Amounts added to policyholder account balances - cost of interest credited to policyholders were \$26.5 million and \$28.1 million in the first quarters of 2017 and 2016, respectively. The weighted average crediting rate for these products was 2.8 percent in both the first quarters of 2017 and 2016. The average liabilities of the fixed interest annuity block were \$3.0 billion and \$3.3 billion in the first three months of 2017 and 2016, respectively. The decrease in the liabilities related to these

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES

annuities reflects the lower sales of these products in the current low interest rate environment and consumer preference for fixed index products.

Amounts added to policyholder account balances for fixed index products represent a guaranteed minimum rate of return and a higher potential return that is based on a percentage (the "participation rate") of the amount of increase in the value of a particular index, such as the S&P 500 Index, over a specified period. Such amounts include our cost to fund the annual index credits, net of policies that are canceled prior to their anniversary date (classified as *cost of options to fund index credits, net of forfeitures*). Market value changes in the underlying indices during a specified period of time are classified as *market value changes credited to policyholders*. Such market value changes are generally offset by the *net investment income related to fixed index products* discussed above.

Amortization related to operations includes amortization of deferred acquisition costs and the present value of future profits. Deferred acquisition costs and the present value of future profits are collectively referred to as "insurance acquisition costs". Insurance acquisition costs are generally amortized either: (i) in relation to the estimated gross profits for interest-sensitive life and annuity products; or (ii) in relation to actual and expected premium revenue for other products. In addition, for interest-sensitive life and annuity products, we are required to adjust the total amortization recorded to date through the statement of operations if actual experience or other evidence suggests that earlier estimates of future gross profits should be revised. Accordingly, amortization for interest-sensitive life and annuity products is dependent on the profits realized during the period and on our expectation of future profits. For other products, we amortize insurance acquisition costs in relation to actual and expected premium revenue, and amortization is only adjusted if expected premium revenue changes or if we determine the balance of these costs is not recoverable from future profits. Bankers Life's amortization expense was \$46.3 million and \$51.5 million in the first quarters of 2017 and 2016, respectively. The decrease in this expense generally reflects the favorable persistency experienced in the first quarter of 2017 compared to the first quarter of 2016.

Interest expense on investment borrowings represents interest expense on collateralized borrowings as further described in the note to the consolidated financial statements entitled "Investment Borrowings". The increase in interest expense in the 2017 period is primarily due to higher interest rates on the variable rate investment borrowings.

Other operating costs and expenses in our Bankers Life segment were \$111.2 million in the first quarter of 2017, up 5.9 percent from 2016. Such expenses in the first quarter of 2017 include \$3.5 million for estimated future state guaranty association assessments, net of premium tax offsets, related to the liquidation of Penn Treaty Network America Insurance Company ("Penn Treaty"). The increase in commission and agent manager benefits in the 2017 period primarily reflects commissions on products sold through our broker-dealer and registered investment advisor subsidiaries. Other operating costs and expenses include the following (dollars in millions):

	Three months ended	
	March 31,	
	2017	2016
Commission expense and agent manager benefits	\$ 18.3	\$ 15.9
Other operating expenses	92.9	89.1
Total	\$ 111.2	\$ 105.0

Net realized investment gains (losses) fluctuate from period to period. During the first three months of 2017, we recognized net realized investment gains of \$1.7 million, which were comprised of: (i) \$4 million of net losses from the sales of investments; and (ii) the increase in fair value of certain fixed maturity investments with embedded derivatives of \$2.1 million. During the first three months of 2016, we recognized net realized investment losses of \$6.6 million, which were comprised of: (i) \$4.9 million of net gains from the sales of investments; (ii) the decrease in fair value of certain fixed maturity investments with embedded derivatives of \$3.1 million; and (iii) \$8.4 million of writedowns of investments for other than temporary declines in fair value recognized through net income.

Amortization related to net realized investment gains (losses) is the increase or decrease in the amortization of insurance acquisition costs which results from realized investment gains or losses. When we sell securities which back our interest-sensitive life and annuity products at a gain (loss) and reinvest the proceeds at a different yield, we increase (reduce)

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES

the amortization of insurance acquisition costs in order to reflect the change in estimated gross profits due to the gains (losses) realized and the resulting effect on estimated future yields. Sales of fixed maturity investments resulted in an increase (decrease) in the amortization of insurance acquisition costs of nil and \$(.1) million in the first quarters of 2017 and 2016, respectively.

Insurance policy benefits - fair value changes in embedded derivative liabilities represents fair value changes due to fluctuations in the interest rates used to discount embedded derivative liabilities related to our fixed index annuities.

Amortization related to fair value changes in embedded derivative liabilities is the increase or decrease in the amortization of insurance acquisition costs which results from changes in interest rates used to discount embedded derivative liabilities related to our fixed index annuities.

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES

	Three months ended	
	March 31,	
	2017	2016
Health benefit ratios:		
Medicare supplement:		
Insurance policy benefits	\$ 9.5	\$ 10.6
Benefit ratio (a)	66.8%	65.1%
Supplemental health and other:		
Insurance policy benefits	\$ 123.2	\$ 113.0
Benefit ratio (a)	84.6%	81.2%
Interest-adjusted benefit ratio (b)	60.6%	57.7%

(a) We calculate benefit ratios by dividing the related product's insurance policy benefits by insurance policy income.

(b) We calculate the interest-adjusted benefit ratio (a non-GAAP measure) for Washington National's supplemental health products by dividing such product's insurance policy benefits less the imputed interest income on the accumulated assets backing the insurance liabilities by policy income. These are considered non-GAAP financial measures. A non-GAAP measure is a numerical measure of a company's performance, financial position, or cash flows that excludes or includes amounts that are normally excluded or included in the most directly comparable measure calculated and presented in accordance with GAAP.

These non-GAAP financial measures of "interest-adjusted benefit ratios" differ from "benefit ratios" due to the deduction of imputed interest income on the accumulated assets backing the insurance liabilities from the product's insurance policy benefits used to determine the ratio. Interest income is an important factor in measuring the performance of health products that are expected to be in force for a longer duration of time, are not subject to unilateral changes in provisions (such as non-cancelable or guaranteed renewable contracts) and require the performance of various functions and services (including insurance protection) for an extended period of time. The net cash flows from supplemental health products generally cause an accumulation of amounts in the early years of a policy (accounted for as reserve increases) that will be paid out as benefits in later policy years (accounted for as reserve decreases). Accordingly, as the policies age, the benefit ratio will typically increase, but the increase in benefits will be partially offset by the imputed interest income earned on the accumulated assets. The interest-adjusted benefit ratio reflects the effects of such interest income offset (which is equal to the tabular interest on the related insurance liabilities). Since interest income is an important factor in measuring the performance of these products, management believes a benefit ratio that includes the effect of interest income is useful in analyzing product performance. We utilize the interest-adjusted benefit ratio in measuring segment performance because we believe that this performance measure is a better indicator of the ongoing businesses and trends in the business. However, the "interest-adjusted benefit ratio" does not replace the "benefit ratio" as a measure of current period benefits to current period insurance policy income. Accordingly, management reviews both "benefit ratios" and "interest-adjusted benefit ratios" when analyzing the financial results attributable to these products. The imputed investment income earned on the accumulated assets backing the supplemental health reserves was \$34.9 million and \$32.7 million in the three months ended March 31, 2017 and 2016, respectively.

Total premium collections were \$173.1 million in the first quarter of 2017, up 4.6 percent from 2016, driven by sales and persistency of the segment's supplemental health block; partially offset by lower Medicare supplement collected premiums due to the run-off of this block of business. This segment no longer markets Medicare supplement products and no longer actively pursues sales of annuity products. See "Premium Collections" for further analysis of fluctuations in premiums collected by product.

Average liabilities for insurance products, net of reinsurance ceded were \$4.0 billion in the first quarter of 2017, up 1.4 percent from 2016, reflecting an increase in the supplemental health block; partially offset by the run-off of the annuity blocks.

Insurance policy income is comprised of premiums earned on traditional insurance policies which provide mortality or morbidity coverage and fees and other charges assessed on other policies. Such income increased in recent periods as

supplemental health premiums have increased consistent with sales; partially offset by the decrease in Medicare supplement premiums.

Net investment income on general account invested assets (which excludes income on policyholder portfolios) was \$63.4 million in the first quarter of 2017, up 2.8 percent from 2016.

Net investment income related to fixed index products represents the change in the estimated fair value of options which are purchased in an effort to offset or hedge certain potential benefits accruing to the policyholders of our fixed index products. Our fixed index products are designed so that investment income spread is expected to be more than adequate to cover the cost of the options and other costs related to these policies. Net investment income (loss) related to fixed index products was \$2.6 million and \$(1.2) million in the first quarters of 2017 and 2016, respectively. Such amounts were substantially offset by the corresponding charge to *amounts added to policyholder account balances - market value changes credited to policyholders*. Such income and related charges fluctuate based on the value of options embedded in the segment's fixed index annuity policyholder account balances subject to this benefit and to the performance of the index to which the returns on such products are linked.

Trading account income related to policyholder accounts represents the income on investments backing the market strategies of certain annuity products which provide for different rates of cash value growth based on the experience of a particular market strategy. The income on our trading account securities is designed to substantially offset certain amounts included in insurance policy benefits related to the aforementioned annuity products.

Insurance policy benefits fluctuated as a result of the factors summarized below. Benefit ratios are calculated by dividing the related insurance product's insurance policy benefits by insurance policy income.

Washington National's supplemental health products (including specified disease, accident and hospital indemnity products) generally provide fixed or limited benefits. For example, payments under cancer insurance policies are generally made directly to, or at the direction of, the policyholder following diagnosis of, or treatment for, a covered type of cancer. Approximately three-fourths of our supplemental health policies inforce (based on policy count) are sold with return of premium or cash value riders. The return of premium rider generally provides that after a policy has been inforce for a specified number of years or upon the policyholder reaching a specified age, we will pay to the policyholder, or a beneficiary under the policy, the aggregate amount of all premiums paid under the policy, without interest, less the aggregate amount of all claims incurred under the policy. The cash value rider is similar to the return of premium rider, but also provides for payment of a graded portion of the return of premium benefit if the policy terminates before the return of premium benefit is earned. Accordingly, the net cash flows from these products generally result in the accumulation of amounts in the early years of a policy (reflected in our earnings as reserve increases) which will be paid out as benefits in later policy years (reflected in our earnings as reserve decreases which offset the recording of benefit payments). As the policies age, the benefit ratio will typically increase, but the increase in benefits will be partially offset by investment income earned on the accumulated assets. The benefit ratio will fluctuate depending on the claim experience during the year.

Insurance margins (insurance policy income less insurance policy benefits) on supplemental health products were \$22.4 million and \$26.2 million in the first quarters of 2017 and 2016, respectively. The margin in the first quarter of 2017 as compared to the same period in the prior year reflects a higher benefit ratio primarily due to higher incurred claims. The interest-adjusted benefit ratio on this supplemental health business was 60.6 percent and 57.7 percent in the first quarters of 2017 and 2016, respectively. We continue to expect the supplemental health interest-adjusted benefit ratio to be in the range of 58 percent to 61 percent during 2017.

Washington National's Medicare supplement business primarily consists of individual policies. The insurance product liabilities we establish for our Medicare supplement business are subject to significant estimates and the ultimate claim liability we incur for a particular period is likely to be different than our initial estimate. Governmental regulations generally require us to attain and maintain a ratio of total benefits incurred to total premiums earned (excluding changes in policy benefit reserves), after three years from the original issuance of the policy and over the lifetime of the policy, of not less than 65 percent on these products, as determined in accordance with statutory accounting principles. Insurance margins (insurance policy income less insurance policy benefits) on these products were \$4.8 million and \$5.7 million in the first quarters of 2017 and 2016, respectively. Such decrease reflects the run-off of this block of business.

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES

Amounts added to policyholder account balances - cost of interest credited to policyholders were \$3.3 million and \$3.5 million in the first quarters of 2017 and 2016, respectively.

Amounts added to policyholder account balances for fixed index products represent a guaranteed minimum rate of return and a higher potential return that is based on a percentage (the "participation rate") of the amount of increase in the value of a particular index, such as the S&P 500 Index, over a specified period. Such amounts include our cost to fund the annual index credits, net of policies that are canceled prior to their anniversary date (classified as *cost of options to fund index credits, net of forfeitures*). Market value changes in the underlying indices during a specified period of time are classified as *market value changes credited to policyholders*. Such market value changes are generally offset by the *net investment income related to fixed index products* discussed above.

Amortization related to operations includes amortization of insurance acquisition costs. Insurance acquisition costs are generally amortized in relation to actual and expected premium revenue, and amortization is only adjusted if expected premium revenue changes or if we determine the balance of these costs is not recoverable from future profits. Such amounts were generally consistent with the related premium revenue. A revision to our current assumptions could result in increases or decreases to amortization expense in future periods. Washington National's amortization expense was \$14.3 million and \$15.1 million in the first quarters of 2017 and 2016, respectively. The decrease in this expense reflects the favorable persistency experienced in the first quarter of 2017 compared to the first quarter of 2016.

Interest expense on investment borrowings represents interest expense on collateralized borrowings as further described in the note to the consolidated financial statements entitled "Investment Borrowings". The increase in interest expense in 2017 is due to higher interest rates on the variable rate investment borrowings.

Other operating costs and expenses were \$49.0 million and \$47.3 million in the first quarters of 2017 and 2016, respectively. Such expenses in the first quarter of 2017 include \$1.3 million for estimated future state guaranty association assessments, net of premium tax offsets, related to the liquidation of Penn Treaty. Other operating costs and expenses also include commission expense of \$17.1 million and \$17.4 million in the first quarters of 2017 and 2016, respectively.

Net realized investment gains (losses) fluctuate each period. During the first three months of 2017, we recognized net realized investment gains of \$2.0 million, which were comprised of: (i) \$0.8 million of net gains from the sales of investments; (ii) the increase in fair value of certain fixed maturity investments with embedded derivatives of \$0.5 million; and (iii) the increase in fair value of embedded derivatives related to a modified coinsurance agreement of \$0.7 million. During the first three months of 2016, we recognized net realized investment gains of \$13.2 million, which were comprised of: (i) \$13.2 million of net gains from the sales of investments; (ii) the decrease in fair value of certain fixed maturity investments with embedded derivatives of \$0.4 million; (iii) the increase in fair value of embedded derivatives related to a modified coinsurance agreement of \$1.8 million; and (iv) \$1.4 million of writedowns of investments for other than temporary declines in fair value recognized through net income.

Amortization related to net realized investment gains (losses) is the increase or decrease in the amortization of insurance acquisition costs which results from realized investment gains or losses. When we sell securities which back our interest-sensitive life and annuity products at a gain (loss) and reinvest the proceeds at a different yield (or when we have the intent to sell the impaired investments before an anticipated recovery in value occurs), we increase (reduce) the amortization of insurance acquisition costs in order to reflect the change in estimated gross profits due to the gains (losses) realized and the resulting effect on estimated future yields. Sales of fixed maturity investments resulted in an increase in the amortization of insurance acquisition costs of nil and \$0.2 million in the first three months of 2017 and 2016, respectively.

Insurance policy benefits - fair value changes in embedded derivative liabilities represents fair value changes due to fluctuations in the interest rates used to discount embedded derivative liabilities related to our fixed index annuities.

Amortization related to fair value changes in embedded derivative liabilities is the increase or decrease in the amortization of insurance acquisition costs which results from changes in interest rates used to discount embedded derivative liabilities related to our fixed index annuities.

This segment's results are significantly impacted by the accounting standard related to deferred acquisition costs. We are not able to defer most of Colonial Penn's direct response advertising costs although such costs generate predictable sales and future in-force profits. We plan to continue to invest in this segment's business, including the development of new products and markets. The amount of our investment in new business during a particular period will have a significant impact on this segment's results. We continue to expect this segment to report earnings (before net realized investment gains (losses) and income taxes) in 2017 in the range of \$5 million to \$15 million.

Total premium collections were \$74.5 million in the first quarter of 2017, up 6.3 percent from 2016. The increase was driven by recent sales activity and steady persistency. See "Premium Collections" for further analysis of Colonial Penn's premium collections.

Average liabilities for insurance products, net of reinsurance ceded have increased as a result of growth in the core graded benefit and simplified issue life insurance block in this segment.

Insurance policy income is comprised of premiums earned on policies which provide mortality or morbidity coverage and fees and other charges assessed on other policies. The increase in such income reflects the growth in the block of graded benefit and simplified issue life insurance business.

Net investment income on general account invested assets decreased slightly in the 2017 period.

Insurance policy benefits increased primarily due to the growth in this segment, partially offset by lower mortality in the first quarter of 2017 compared to the first quarter of 2016.

Amortization related to operations includes amortization of insurance acquisition costs. Insurance acquisition costs in the Colonial Penn segment are amortized in relation to actual and expected premium revenue, and amortization is only adjusted if expected premium revenue changes or if we determine the balance of these costs is not recoverable from future profits. Such amounts were generally consistent with the related premium revenue and gross profits for such periods and the assumptions we made when we established the present value of future profits. A revision to our current assumptions could result in increases or decreases to amortization expense in future periods.

Other operating costs and expenses in our Colonial Penn segment fluctuate primarily due to changes in the marketing expenses incurred to generate new business. Marketing expenses were lower in the 2017 period as compared to the corresponding period in 2016. We continue to face competition from other insurance companies who also distribute products through direct marketing. In addition, the demand and cost of television advertising appropriate for Colonial Penn's campaigns has fluctuated widely in certain periods. In the first quarter of 2017, increased advertising costs resulted in our decision to lower our planned spending. We are disciplined with our marketing expenditures and will increase or decrease our advertising spend depending on prices.

Net realized investment gains (losses) fluctuated each period. During the first three months of 2017, we recognized net realized investment losses of \$.1 million, which were comprised of: (i) \$.2 million of net losses from the sales of investments; and (ii) the increase in fair value of certain fixed maturity investments with embedded derivatives of \$.1 million. During the first three months of 2016, we recognized net realized investment losses of \$1.2 million, which were comprised of: (i) \$.9 million of net losses from the sales of investments; (ii) the decrease in fair value of certain fixed maturity investments with embedded derivatives of \$.1 million; and (iii) \$.2 million of writedowns of investments for other than temporary declines in fair value recognized through net income.

Management believes that an analysis of Adjusted EBIT for Colonial Penn, separated between in-force and new business, provides increased clarity for this segment as the vast majority of the costs to generate new business in this segment are not deferrable and Adjusted EBIT will fluctuate based on management's decisions on how much marketing costs to incur in each period. Adjusted EBIT from new business includes pre-tax revenues and expenses associated with new sales of our insurance products during the first year after the sale is completed. Adjusted EBIT from in-force business includes all pre-tax revenues and expenses associated with sales of insurance products that were completed more than one year before the end of the reporting period. The allocation of certain revenues and expenses between new and in-force business is based on estimates, which we believe are reasonable.

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES

Recognizing the accounting standard that requires us to expense certain direct response advertising costs (rather than deferring such costs as deferred acquisition costs), the amount of our investment in new business in the Colonial Penn segment during a particular period will have a significant impact on the segment results. The following summarizes our earnings, separated between in-force and new business for Colonial Penn (dollars in millions):

	Three months ended	
	March 31,	
	2017	2016
Adjusted EBIT from In-Force Business		
Revenues:		
Insurance policy income	\$ 59.6	\$ 55.3
Net investment income and other	11.1	11.4
Total revenues	70.7	66.7
Benefits and expenses:		
Insurance policy benefits	44.6	42.1
Amortization	3.8	3.7
Other expenses	8.2	8.2
Total benefits and expenses	56.6	54.0
Adjusted EBIT from In-Force Business	\$ 14.1	\$ 12.7
Adjusted EBIT from New Business		
Revenues:		
Insurance policy income	\$ 13.4	\$ 13.8
Net investment income and other	—	—
Total revenues	13.4	13.8
Benefits and expenses:		
Insurance policy benefits	8.1	8.4
Amortization	.2	.2
Other expenses	19.5	24.7
Total benefits and expenses	27.8	33.3
Adjusted EBIT from New Business	\$ (14.4)	\$ (19.5)
Adjusted EBIT from In-Force and New Business		
Revenues:		
Insurance policy income	\$ 73.0	\$ 69.1
Net investment income and other	11.1	11.4
Total revenues	84.1	80.5
Benefits and expenses:		
Insurance policy benefits	52.7	50.5
Amortization	4.0	3.9
Other expenses	27.7	32.9
Total benefits and expenses	84.4	87.3
Adjusted EBIT from In-Force and New Business	\$ (.3)	\$ (6.8)

The **Adjusted EBIT from in-force business in the Colonial Penn segment** in the first quarter of 2017 reflects favorable mortality as compared to the same period in 2016. The **Adjusted EBIT from new business in the Colonial Penn segment** in the 2017 period primarily reflects lower marketing costs. The vast majority of the costs to generate new business in this segment are not deferrable and Adjusted EBIT will fluctuate based on management's decisions on how much marketing costs to incur in each period.

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES

Long-term care in run-off (dollars in millions)

In September 2016, we terminated certain reinsurance agreements and recaptured the ceded business. The long-term care in run-off segment is comprised of the long-term care business that was recaptured.

	Three months ended March 31, 2017
Premium collections:	
Long-term care (all renewal)	\$ 4.6
Average liabilities for insurance products:	
Average liabilities for long-term care products, net of reinsurance ceded	\$ 560.7
Revenues:	
Insurance policy income	\$ 4.6
Net investment income on general account invested assets	9.7
Total revenues	14.3
Expenses:	
Insurance policy benefits	13.2
Other operating costs and expenses	.7
Total benefits and expenses	13.9
Loss before net realized investment losses and income taxes	.4
Net realized investment losses	(.3)
Loss before income taxes	\$.1

	Three months ended March 31, 2017
Health benefit ratios:	
Long-term care:	
Insurance policy benefits	\$ 13.2
Benefit ratio (a)	286.5%
Interest-adjusted benefit ratio (b)	128.1%

(a) We calculate benefit ratios by dividing the related product's insurance policy benefits by insurance policy income.

(b) We calculate the interest-adjusted benefit ratio (a non-GAAP measure) for long-term care products in this segment by dividing such product's insurance policy benefits less the imputed interest income on the accumulated assets backing the insurance liabilities by policy income. These are considered non-GAAP financial measures. A non-GAAP measure is a numerical measure of a company's performance, financial position, or cash flows that excludes or includes amounts that are normally excluded or included in the most directly comparable measure calculated and presented in accordance with GAAP.

These non-GAAP financial measures of "interest-adjusted benefit ratios" differ from "benefit ratios" due to the deduction of imputed interest income on the accumulated assets backing the insurance liabilities from the product's insurance policy benefits used to determine the ratio. Interest income is an important factor in measuring the performance of health products that are expected to be in force for a longer duration of time, are not subject to unilateral changes in provisions (such as non-cancelable or guaranteed renewable contracts) and require the performance of various functions and services (including insurance protection) for an extended period of time. The net cash flows from long-term care products generally cause an accumulation of amounts in the early years of a policy (accounted for as reserve increases) that will be paid out as benefits in later policy years (accounted for as reserve decreases). Accordingly, as the policies

age, the benefit ratio will typically increase, but the increase in benefits will be partially offset by the imputed interest income earned on the accumulated assets. The interest-adjusted benefit ratio reflects the effects of such interest income offset (which is equal to the tabular interest on the related insurance liabilities). Since interest income is an important factor in measuring the performance of these products, management believes a benefit ratio that includes the effect of interest income is useful in analyzing product performance. We utilize the interest-adjusted benefit ratio in measuring segment performance because we believe that this performance measure is a better indicator of the ongoing businesses and trends in the business. However, the "interest-adjusted benefit ratio" does not replace the "benefit ratio" as a measure of current period benefits to current period insurance policy income. Accordingly, management reviews both "benefit ratios" and "interest-adjusted benefit ratios" when analyzing the financial results attributable to these products. The imputed investment income earned on the accumulated assets backing the long-term care reserves was \$7.3 million in the three months ended March 31, 2017

Insurance policy benefits were \$13.2 million in the first quarter of 2017. Since this block of long-term care business is in loss recognition status, our valuation assumptions reflect no profits or losses on the block over its remaining life. Accordingly, changes in assumptions which adversely impact future earnings will result in an immediate charge to current earnings. This block of business is particularly sensitive to changes in assumptions related to expected future investment yields. For example, we estimate that a 50 basis point reduction in the ultimate new money rate assumption would result in a \$10 million pre-tax charge.

Net realized investment losses fluctuated each period. During the first three months of 2017, we recognized net realized investment losses of \$.3 million, which were comprised of: (i) \$8.1 million of net gains from the sales of investments; and (ii) \$8.4 million of writedowns of investments for other than temporary declines in fair value recognized through net income.

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES

Corporate Operations (dollars in millions)

	Three months ended	
	March 31,	
	2017	2016
Corporate operations:		
Interest expense on corporate debt	\$ (11.5)	\$ (11.4)
Net investment income (loss):		
General investment portfolio	.9	1.3
Other special-purpose portfolios:		
COLI	6.4	(.9)
Investments held in a rabbi trust	.8	.1
Other trading account activities	2.3	3.5
Fee revenue and other income	2.4	2.5
Other operating costs and expenses	(21.7)	(14.6)
Loss before net realized investment gains (losses), earnings attributable to non-controlling interests, fair value changes related to agent deferred compensation plan and income taxes	(20.4)	(19.5)
Net realized investment gains (losses)	4.6	(6.3)
Earnings attributable to VIEs	.3	(.6)
Fair value changes related to agent deferred compensation plan	—	(6.0)
Loss before income taxes	<u>\$ (15.5)</u>	<u>\$ (32.4)</u>

Interest expense on corporate debt was \$11.5 million and \$11.4 million in the first three months of 2017 and 2016, respectively. Our average corporate debt outstanding was \$925.0 million in both the first three months of 2017 and 2016. The average interest rate on our debt was 4.7 percent in both the first three months of 2017 and 2016.

Net investment income on general investment portfolio fluctuates based on the amount and type of invested assets in the corporate operations segment.

Net investment income on other special-purpose portfolios includes the income (loss) from: (i) investments related to deferred compensation plans held in a rabbi trust (which is offset by amounts included in **other operating costs and expenses** as the investment results are allocated to participants' account balances); (ii) trading account activities; and (iii) income (loss) from Company-owned life insurance ("COLI") equal to the difference between the return on these investments (representing the change in value of the underlying investments) and our overall portfolio yield. COLI is utilized as an investment vehicle to fund Bankers Life's agent deferred compensation plan. For segment reporting, the Bankers Life segment is allocated a return on these investments equivalent to the yield on the Company's overall portfolio, with any difference in the actual COLI return allocated to the Corporate operations segment. In the first quarter of 2017, we recognized a death benefit, net of cash surrender value, of \$2.0 million related to the COLI.

Fee revenue and other income includes the fees our wholly-owned investment advisor earns for managing portfolios of commercial bank loans for investment trusts. These trusts are consolidated as VIEs in our consolidated financial statements, but the fees are reflected as revenues and the fee expense is reflected in the earnings attributable to non-controlling interests. This fee revenue fluctuates consistent with the size of the loan portfolios.

Other operating costs and expenses include general corporate expenses, net of amounts charged to subsidiaries for services provided by the corporate operations. These amounts fluctuate as a result of expenses such as legal and consulting costs which often vary from period to period and were higher in 2017 as compared to the 2016 period.

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES

Net realized investment gains (losses) often fluctuate each period. During the first three months of 2017, net realized investment gains in this segment were \$4.6 million (including \$2.1 million of gains recognized by the VIEs and \$2.5 million of net gains on other investment sales). During the first three months of 2016, net realized investment losses in this segment included \$6.3 million of net losses from the sales of investments (including \$6.4 million of losses recognized by the VIEs and \$.1 million of net gains on other investment sales).

Earnings attributable to non-controlling interests include the earnings attributable to non-controlling interests in certain VIEs that we are required to consolidate, net of affiliated amounts. Such earnings are not indicative and are unrelated to the Company's underlying fundamentals.

Fair value changes related to agent deferred compensation plan related to changes in the underlying actuarial assumptions used to value liabilities for our agent deferred compensation plan.

PREMIUM COLLECTIONS

In accordance with GAAP, insurance policy income in our consolidated statement of operations consists of premiums earned for traditional insurance policies that have life contingencies or morbidity features. For annuity and interest-sensitive life contracts, premiums collected are not reported as revenues, but as deposits to insurance liabilities. We recognize revenues for these products over time in the form of investment income and surrender or other charges.

Our insurance segments sell products through three primary distribution channels - career agents (our Bankers Life segment), direct marketing (our Colonial Penn segment) and independent producers (our Washington National segment). Our career agency force in the Bankers Life segment sells primarily Medicare supplement and long-term care insurance policies, life insurance and annuities. These agents visit the customer's home, which permits one-on-one contact with potential policyholders and promotes strong personal relationships with existing policyholders. Our direct marketing distribution channel in the Colonial Penn segment is engaged primarily in the sale of graded benefit life and simplified issue life insurance policies which are sold directly to the policyholder. Our Washington National segment sells primarily supplemental health and life insurance. These products are marketed through PMA, a wholly-owned subsidiary that specializes in marketing and distributing health products, and through independent marketing organizations and insurance agencies, including worksite marketing.

Agents, insurance brokers and marketing companies who market our products and prospective purchasers of our products use the financial strength ratings of our insurance subsidiaries as an important factor in determining whether to market or purchase. Ratings have the most impact on our sales of supplemental health and life products to consumers at the worksite. The current financial strength ratings of our primary insurance subsidiaries from A.M. Best Company ("A.M. Best"), Fitch Ratings ("Fitch"), S&P and Moody's Investor Services, Inc. ("Moody's") are "A-", "BBB+", "BBB+" and "Baa1", respectively. For a description of these ratings and additional information on our ratings, see "Financial Strength Ratings of our Insurance Subsidiaries".

We set premium rates on our health insurance policies based on facts and circumstances known at the time we issue the policies using assumptions about numerous variables, including the actuarial probability of a policyholder incurring a claim, the probable size of the claim, and the interest rate earned on our investment of premiums. We also consider historical claims information, industry statistics, the rates of our competitors and other factors. If our actual claims experience is less favorable than we anticipated and we are unable to raise our premium rates, our financial results may be adversely affected. We generally cannot raise our health insurance premiums in any state until we obtain the approval of the state insurance regulator. We review the adequacy of our premium rates regularly and file for rate increases on our products when we believe such rates are too low. It is likely that we will not be able to obtain approval for all requested premium rate increases. If such requests are denied in one or more states, our net income may decrease. If such requests are approved, increased premium rates may reduce the volume of our new sales and may cause existing policyholders to lapse their policies. If the healthier policyholders allow their policies to lapse, this would reduce our premium income and profitability in the future.

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES

Total premium collections were \$940.0 million in the first quarter of 2017 , up 4.9 percent from 2016 . First year collected premiums were \$345.3 million in the first quarter of 2017 , up 5.1 percent from 2016 . Total premiums collected are summarized as follows (dollars in millions):

	Three months ended	
	March 31,	
	2017	2016
First year:		
Bankers Life	\$ 311.1	\$ 294.5
Washington National	20.5	20.1

Total collections on insurance products	\$ 687.8	\$ 660.7

Annuitites in this segment include fixed index and other fixed interest annuities sold to the senior market. Annuity collections in this segment increased 10 percent, to \$257.5 million, in the first quarter of 2017, as compared to the same period in 2016. The increase in premium collections in the 2017 period is consistent with our marketing efforts to increase fixed index

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES

annuity sales. Premium collections from our fixed index products were also favorably impacted in the 2017 period by the general stock market performance which made these products attractive to certain customers.

Health products include Medicare supplement, long-term care and other insurance products. Our profits on health policies depend on the overall level of sales, the length of time the business remains inforce, investment yields, claims experience and expense management.

Collected premiums on Medicare supplement policies in the Bankers Life segment increased 2.6 percent, to \$191.7 million , in the first quarter of 2017 , as compared to the same period in 2016 .

Premiums collected on Bankers Life's long-term care policies decreased 2.2 percent, to \$117.0 million , in the first quarter of 2017 , as compared to the same period in 2016 .

Life products in this segment include traditional and interest-sensitive life products. Life premiums collected in this segment increased .3 percent, to \$114.3 million , in the first quarter of 2017 , as compared to the same period in 2016 , reflecting higher persistency; substantially offset by lower first-year premiums.

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES

Washington National (dollars in millions)

Total renewal premium collections on insurance products	152.6	145.4
Total collections on insurance products	\$ 173.1	\$ 165.5

Health products in the Washington National segment include Medicare supplement, supplemental health and other insurance products. Our profits on health policies depend on the overall level of sales, the length of time the business remains in force, investment yields, claim experience and expense management.

Collected premiums on Medicare supplement policies in the Washington National segment decreased in the 2017 period due to the run-off of this block of business.

Premiums collected on supplemental health products (including specified disease, accident and hospital indemnity insurance products) increased 6.4 percent, to \$150.1 million, in the first quarter of 2017, as compared to the same period in 2016. Such increase is due to new sales in recent periods and persistency.

Overall, excluding premiums from the Washington National Medicare supplement and annuity blocks which are in run-off, collected premiums were up 6.5 percent, to \$158.5 million, in the first quarter of 2017, as compared to the same period in 2016, driven by sales in recent periods and persistency.

Life premiums collected in the Washington National segment increased 9.7 percent, to \$7.9 million, in the first quarter of 2017, as compared to the same period in 2016.

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES

Annuities in this segment include fixed index and other fixed interest annuities. We are no longer actively pursuing sales of annuity products in this segment.

Colonial Penn (dollars in millions)

	Three months ended	
	March 31,	
	2017	2016
Premiums collected by product:		
Life insurance:		
Traditional (first-year)	\$ 13.7	\$ 14.0

Total renewal premium collections on insurance products	60.8	56.1
Total collections on insurance products	\$ 74.5	\$ 70.1

Life products in this segment are sold primarily to the senior market. Life premiums collected in this segment increased 6.5 percent, to \$74.0 million, in the first quarter of 2017, as compared to the same period in 2016. Graded benefit life products sold through our direct response marketing channel accounted for \$73.5 million and \$68.9 million of our total collected premiums in the first quarters of 2017 and 2016, respectively. The increase in premiums collected reflects both recent sales activity and steady persistency.

Health products include Medicare supplement and other insurance products. Our profits on health policies depend on the overall level of sales, the length of time the business remains in-force, investment yields, claims experience and expense management. Premiums collected on these products have decreased as we do not currently market these products through this segment.

Long-term care in run-off (dollars in millions)

	2016
Premiums collected by product:	
Health:	
Long-term care (renewal)	\$ 4.6

The Long-term care in run-off segment only includes the premiums collected from the long-term care block that was recaptured in September 2016.

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES

LIQUIDITY AND CAPITAL RESOURCES

Our capital structure as of March 31, 2017 and December 31, 2016 was as follows (dollars in millions):

	March 31, 2017	December 31, 2016
Total capital:		
Corporate notes payable	\$ 913.4	\$ 912.9
Shareholders' equity:		
Common stock	1.7	1.7
Additional paid-in capital	3,177.1	3,212.1
Accumulated other comprehensive income	729.6	622.4
Retained earnings	698.4	650.7
Total shareholders' equity	4,606.8	4,486.9
Total capital	\$ 5,520.2	\$ 5,399.8

The following table summarizes certain financial ratios as of and for the three months ended March 31, 2017 and as of and for the year ended December 31, 2016 :

	March 31, 2017	December 31, 2016
Book value per common share	\$ 26.77	\$ 25.82
Book value per common share, excluding accumulated other comprehensive income (a)	22.53	22.24
Ratio of earnings to fixed charges	2.55X	2.43X
Debt to total capital ratios:		
Corporate debt to total capital	16.5%	16.9%
Corporate debt to total capital, excluding accumulated other comprehensive income (a)	19.1%	19.1%

- (a) This non-GAAP measure differs from the corresponding GAAP measure presented immediately above, because accumulated other comprehensive income has been excluded from the value of capital used to determine this measure. Management believes this non-GAAP measure is useful because it removes the volatility that arises from changes in accumulated other comprehensive income. Such volatility is often caused by changes in the estimated fair value of our investment portfolio resulting from changes in general market interest rates rather than the business decisions made by management. However, this measure does not replace the corresponding GAAP measure.

Termination of Long-Term Care Reinsurance Agreements and Recapture of Related Long-Term Care Business in Run-off

In December 2013, two of our insurance subsidiaries with long-term care business (Washington National and BCLIC) entered into 100% coinsurance agreements ceding \$495 million of long-term care reserves to BRe. BRe was a reinsurer that was not licensed or accredited by the states of domicile (Indiana and New York, respectively) of the insurance subsidiaries ceding the long-term care business and BRe was not rated by A.M. Best. As a result of its non-accredited status, BRe was required to provide collateral which met the regulatory requirements of the states of domicile in order for our insurance subsidiaries to obtain full credit in their statutory financial statements for the reinsurance receivables due from BRe. Such collateral was required to be held in market value trusts subject to 7% over collateralization, investment guidelines and periodic true-up provisions. In September 2016, we terminated the reinsurance agreements with BRe and recaptured the ceded business.

Prior to the recapture, certain irregularities had come to our attention regarding BRe (including its relationship with Platinum and the valuation and appropriateness of the collateral deposited in trusts by BRe for Washington National and BCLIC). As a result, CNO commenced an independent third-party audit by a forensic accounting firm in late June 2016 of

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES

certain investments deposited in the trusts by BRE. Such investments included assets valued at that time using unobservable inputs that contained assumptions determined by BRE. The initial scope of CNO's audit was a subset of investments which had an estimated fair value of approximately \$62 million as of September 30, 2016. In September 2016, Washington National and BCLIC expanded the scope of the independent audit to include additional investments for which we estimated the fair value to be approximately \$63 million as of September 30, 2016.

The aforementioned independent audit of these investments was completed in the fourth quarter of 2016. The audit confirmed that the assets in the initial scope of the audit bore some connection to Platinum Partners, LP ("Platinum") or to parties that have had past or present associations with Platinum. Based on information obtained through the audit, the investments included in the additional scope of the audit did not appear to have clear connections to Platinum or to parties that have had past or present associations with Platinum. However, CNO and the auditor retained by CNO also concluded that many of the values that had been assigned to these investments by BRE, and summarized in reports prepared by its valuation firm, were inaccurate due to the use of flawed methodologies.

In addition to the investments subject to the independent audits, Washington National and BCLIC received approximately \$380 million in other investments and cash balances in the recapture. A substantial portion of these investments have been sold or redeemed since the recapture. The activity since the date of the recapture with respect to the assets received in the recapture is summarized below (dollars in millions):

	Investments included in initial scope of audit	Investments included in additional scope of audit	Investments not included in scope of audit Cash, fixed maturities and other invested assets	Total investments
September 30, 2016 values	\$ 62.2	\$ 62.6	\$ 379.8	\$ 504.6
Net cash flows (1)	(13.5)	(11.6)	(359.5)	(384.6)
Realized gains (losses) and impairments (2)	.4	(1.7)	(4.0)	(5.3)
Other activity (4)	3.9	1.9	.6	6.4
December 31, 2016 values	53.0	51.2	16.9	121.1
Net cash flows (1)	(16.7)	(5.5)	(8.7)	(30.9)
Realized gains (losses) and impairments (3)	3.2	(4.5)	1.0	(.3)
Other activity (4)	(1.8)	1.3	(1.4)	(1.9)
March 31, 2017 values	\$ 37.7	\$ 42.5	\$ 7.8	\$ 88.0

A summary of the values for the remaining investments that were included in the aforementioned independent audits as of March 31, 2017, is summarized below (dollars in millions):

	Investments included in initial scope of audit	Investments included in additional scope of audit	Total investments included in the scope of audit
Lease related investments	\$ —	\$ 29.6	\$ 29.6
Mortgage loans secured by real estate	1.0	10.6	11.6
Senior secured loans to companies in the energy sector (5)	11.1	—	11.1
Senior secured loans to other companies	17.6	.4	18.0
Secured term loan issued by Platinum Partners Credit Opportunity Master Fund L.P.	5.3	—	5.3
Preferred and common stock	2.7	.3	3.0
Other	—	1.6	1.6
Total investments	\$ 37.7	\$ 42.5	\$ 80.2

- (1) Net cash inflows from sales and redemptions of investments during the period.
- (2) Includes \$4.6 million of impairment charges and \$.7 million of net realized losses recognized on the sale of transferred investments.
- (3) Includes \$8.4 million of impairment charges; partially offset by \$8.1 million of net realized gains recognized on the sale of transferred investments.
- (4) Includes amortization of discount and premium and changes in estimated fair values of investments during the period.
- (5) Includes: (i) \$2.3 million of loans issued by Golden Gate Oil, LLC with a par value of \$11.7 million; and (ii) \$6.8 million of loans issued by the parent of Agera Energy LLC with a par value of \$11.1 million. The issuers of this debt have been referred to in recent articles regarding Platinum.

Liquidity for Insurance Operations

Our insurance companies generally receive adequate cash flows from premium collections and investment income to meet their obligations. Life insurance, long-term care insurance and annuity liabilities are generally long-term in nature. Life and annuity policyholders may, however, withdraw funds or surrender their policies, subject to any applicable penalty provisions; there are generally no withdrawal or surrender benefits for long-term care insurance. We actively manage the relationship between the duration of our invested assets and the estimated duration of benefit payments arising from contract liabilities.

Three of the Company's insurance subsidiaries (Washington National, Bankers Life and Colonial Penn) are members of the FHLB. As members of the FHLB, our insurance subsidiaries have the ability to borrow on a collateralized basis from the FHLB. We are required to hold certain minimum amounts of FHLB common stock as a condition of membership in the FHLB, and additional amounts based on the amount of the borrowings. At March 31, 2017, the carrying value of the FHLB common stock was \$71.2 million. As of March 31, 2017, collateralized borrowings from the FHLB totaled \$1.6 billion and the proceeds were used to purchase fixed maturity securities. The borrowings are classified as investment borrowings in the accompanying consolidated balance sheet. The borrowings are collateralized by investments with an estimated fair value of \$2.0 billion at March 31, 2017, which are maintained in custodial accounts for the benefit of the FHLB.

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES

The following summarizes the terms of the borrowings from the FHLB by our insurance subsidiaries (dollars in millions):

Amount borrowed	Maturity date	Interest rate at March 31, 2017
\$ 50.0	January 2018	Variable rate – 1.365%
50.0	January 2018	Variable rate – 1.381%
50.0	February 2018	Variable rate – 1.344%
50.0	February 2018	Variable rate – 1.127%
22.0	February 2018	Variable rate – 1.384%
100.0	May 2018	Variable rate – 1.433%
50.0	July 2018	Variable rate – 1.509%
50.0	August 2018	Variable rate – 1.159%
10.0	December 2018	Variable rate – 1.421%
50.0	January 2019	Variable rate – 1.443%
50.0	February 2019	Variable rate – 1.127%
100.0	March 2019	Variable rate – 1.423%
21.8	July 2019	Variable rate – 1.466%
15.0	October 2019	Variable rate – 1.550%
50.0	May 2020	Variable rate – 1.432%
21.8	June 2020	Fixed rate – 1.960%
25.0	September 2020	Variable rate – 1.782%
100.0	September 2020	Variable rate – 1.642%
50.0	September 2020	Variable rate – 1.643%
75.0	September 2020	Variable rate – 1.272%
100.0	October 2020	Variable rate – 1.109%
50.0	December 2020	Variable rate – 1.530%
100.0	July 2021	Variable rate – 1.572%
100.0	July 2021	Variable rate – 1.542%
28.2	August 2021	Fixed rate – 2.550%
57.7	August 2021	Variable rate - 1.564%

50.0	September 2021	Variable rate – 1.592%
25.2	March 2023	Fixed rate – 2.160%
20.5	June 2025	Fixed rate – 2.940%
<u>\$ 1,647.2</u>		

State laws generally give state insurance regulatory agencies broad authority to protect policyholders in their jurisdictions. Regulators have used this authority in the past to restrict the ability of our insurance subsidiaries to pay any dividends or other amounts without prior approval. We cannot be assured that the regulators will not seek to assert greater supervision and control over our insurance subsidiaries' businesses and financial affairs.

Our estimated consolidated statutory RBC ratio of 446 percent at March 31, 2017 , reflects estimated consolidated statutory operating earnings of \$70 million and dividends to the holding company of \$128.4 million during the first three months of 2017 . Statutory earnings will often fluctuate on a quarterly basis due to the application of statutory accounting principles.

Our insurance subsidiaries transfer exposure to certain risk to others through reinsurance arrangements. When we obtain reinsurance, we are still liable for those transferred risks in the event the reinsurer defaults on its obligations. The failure, insolvency, inability or unwillingness of one or more of the Company's reinsurers to perform in accordance with the terms of its reinsurance agreement could negatively impact our earnings or financial position and our consolidated statutory RBC ratio.

Financial Strength Ratings of our Insurance Subsidiaries

Financial strength ratings provided by A.M. Best, Fitch, S&P and Moody's are the rating agency's opinions of the ability of our insurance subsidiaries to pay policyholder claims and obligations when due.

On February 8, 2017, A.M. Best affirmed the financial strength ratings of "A-" of our primary insurance subsidiaries and the outlook for these ratings is stable. The "A-" rating is assigned to companies that have an excellent ability, in A.M. Best's opinion, to meet their ongoing obligations to policyholders. A.M. Best ratings for the industry currently range from "A++ (Superior)" to "F (In Liquidation)" and some companies are not rated. An "A++" rating indicates a superior ability to meet ongoing obligations to policyholders. A.M. Best has sixteen possible ratings. There are three ratings above the "A-" rating of our primary insurance subsidiaries and twelve ratings that are below that rating.

On January 12, 2017, Fitch affirmed its "BBB+" financial strength ratings of our primary insurance subsidiaries. The outlook for these ratings is stable. A "BBB" rating, in Fitch's opinion, indicates that there is currently a low expectation of ceased or interrupted payments. The capacity to meet policyholder and contract obligations on a timely basis is considered adequate, but adverse changes in circumstances and economic conditions are more likely to impact this capacity. Fitch ratings for the industry range from "AAA Exceptionally Strong" to "C Distressed" and some companies are not rated. Pluses and minuses show the relative standing within a category. Fitch has nineteen possible ratings. There are seven ratings above the "BBB+" rating of our primary insurance subsidiaries and eleven ratings that are below that rating.

On October 4, 2016, S&P affirmed the financial strength ratings of "BBB+" of our primary insurance subsidiaries. The outlook for these ratings is negative. S&P's negative outlook reflects their concerns related to the Company's recapture of the ceded business as further described above under the caption "Termination of Long-Term Care Reinsurance Agreements and Recapture of Related Long-Term Care Business in Run-off". S&P financial strength ratings range from "AAA" to "R" and some companies are not rated. An insurer rated "BBB" or higher is regarded as having financial security characteristics that outweigh any vulnerabilities, and is highly likely to have the ability to meet financial commitments. An insurer rated "BBB", in S&P's opinion, has good financial security characteristics, but is more likely to be affected by adverse business conditions than are higher-rated insurers. Pluses and minuses show the relative standing within a category. S&P has twenty-one possible ratings. There are seven ratings above the "BBB+" rating of our primary insurance subsidiaries and thirteen ratings that are below that rating.

On May 9, 2016, Moody's affirmed the financial strength ratings of "Baa1" of our primary insurance subsidiaries and the outlook for these ratings is stable. Moody's financial strength ratings range from "Aaa" to "C". These ratings may be supplemented with numbers "1", "2", or "3" to show relative standing within a category. In Moody's view, an insurer rated "Baa" offers adequate financial security, however, certain protective elements may be lacking or may be characteristically unreliable over any great length of time. Moody's has twenty-one possible ratings. There are seven ratings above the "Baa1" rating of our primary insurance subsidiaries and thirteen ratings that are below that rating.

Rating agencies have increased the frequency and scope of their credit reviews and requested additional information from the companies that they rate, including us. They may also adjust upward the capital and other requirements employed in the rating agency models for maintenance of certain ratings levels. We cannot predict what actions rating agencies may take, or what actions we may take in response. Accordingly, downgrades and outlook revisions related to us or the life insurance industry may occur in the future at any time and without notice by any rating agency. These could increase policy surrenders and withdrawals, adversely affect relationships with our distribution channels, reduce new sales, reduce our ability to borrow and increase our future borrowing costs.

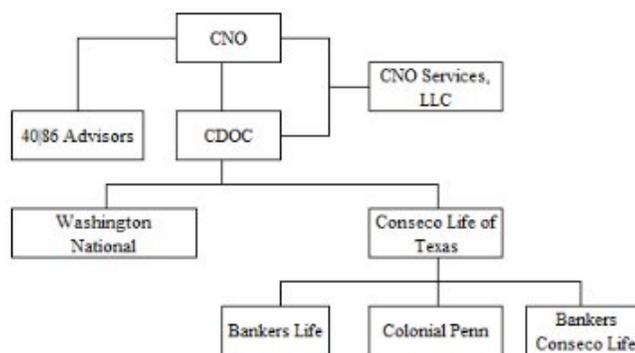

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES

Liquidity of the Holding Companies

Availability and Sources and Uses of Holding Company Liquidity; Limitations on Ability of Insurance Subsidiaries to Make Dividend and Surplus Debenture Interest Payments to the Holding Companies; Limitations on Holding Company Activities

At March 31, 2017, CNO, CDOC, Inc. ("CDOC", our wholly owned subsidiary and the immediate parent of Washington National and Conseco Life Insurance Company of Texas ("CLTX")) and our other non-insurance subsidiaries held: (i) unrestricted cash and cash equivalents of \$137.4 million; (ii) fixed income investments of \$86.6 million; and (iii) equity securities of \$89.6 million. CNO and CDOC are holding companies with no business operations of their own; they depend on their operating subsidiaries for cash to make principal and interest payments on debt, and to pay administrative expenses and income taxes. CNO and CDOC receive cash from insurance subsidiaries, consisting of dividends and distributions, interest payments on surplus debentures and tax-sharing payments, as well as cash from non-insurance subsidiaries consisting of dividends, distributions, loans and advances. The principal non-insurance subsidiaries that provide cash to CNO and CDOC are 40|86 Advisors, Inc. ("40|86 Advisors"), which receives fees from the insurance subsidiaries for investment services, and CNO Services, LLC which receives fees from the insurance subsidiaries for providing administrative services. The agreements between our insurance subsidiaries and CNO Services, LLC and 40|86 Advisors, respectively, were previously approved by the domestic insurance regulator for each insurance company, and any payments thereunder do not require further regulatory approval.

The following summarizes the current ownership structure of CNO's primary subsidiaries:

The ability of our insurance subsidiaries to pay dividends is subject to state insurance department regulations and is based on the financial statements of our insurance subsidiaries prepared in accordance with statutory accounting practices prescribed or permitted by regulatory authorities, which differ from GAAP. These regulations generally permit dividends to be paid from statutory earned surplus of the insurance company without regulatory approval for any 12-month period in amounts equal to the greater of (or in some states, the lesser of): (i) statutory net gain from operations or net income for the prior year; or (ii) 10 percent of statutory capital and surplus as of the end of the preceding year. However, as each of the immediate insurance subsidiaries of CDOC has significant negative earned surplus, any dividend payments from the insurance subsidiaries require the prior approval of the director or commissioner of the applicable state insurance department. In the first three months of 2017, our insurance subsidiaries paid dividends to CDOC totaling \$128.4 million. We expect to receive regulatory approval for future dividends from our subsidiaries, but there can be no assurance that such payments will be approved or that the financial condition of our insurance subsidiaries will not change, making future approvals less likely.

CDOC holds surplus debentures from CLTX with an aggregate principal amount of \$749.6 million. Interest payments on those surplus debentures do not require additional approval provided the RBC ratio of CLTX exceeds 100 percent (but do require prior written notice to the Texas state insurance department). The estimated RBC ratio of CLTX was 386 percent at March 31, 2017. CDOC also holds a surplus debenture from Colonial Penn with a principal balance of \$160.0 million. Interest payments on that surplus debenture require prior approval by the Pennsylvania state insurance department. Dividends and other payments from our non-insurance subsidiaries, including 40|86 Advisors and CNO Services, LLC, to CNO or CDOC do not require approval by any regulatory authority or other third party. However, insurance regulators may prohibit payments by our

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES

insurance subsidiaries to parent companies if they determine that such payments could be adverse to our policyholders or contractholders.

The insurance subsidiaries of CDOC receive funds to pay dividends primarily from: (i) the earnings of their direct businesses; (ii) tax sharing payments received from subsidiaries (if applicable); and (iii) with respect to CLTX, dividends received from subsidiaries. At March 31, 2017, the subsidiaries of CLTX had earned surplus (deficit) as summarized below (dollars in millions):

Subsidiaries of CLTX	Earned surplus (deficit)	Additional information
Bankers Life	\$ 562.8	(a)
Colonial Penn	(301.0)	(b)

(a) Bankers Life paid dividends of \$41.0 million to CLTX in the first three months of 2017.

(b) The deficit is primarily due to transactions which occurred several years ago, including a tax planning transaction and the fee paid to recapture a block of business previously ceded to an unaffiliated insurer.

A significant deterioration in the financial condition, earnings or cash flow of the material subsidiaries of CNO or CDOC for any reason could hinder such subsidiaries' ability to pay cash dividends or other disbursements to CNO and/or CDOC, which, in turn, could limit CNO's ability to meet debt service requirements and satisfy other financial obligations. In addition, we may choose to retain capital in our insurance subsidiaries or to contribute additional capital to our insurance subsidiaries to strengthen their surplus, and these decisions could limit the amount available at our top tier insurance subsidiaries to pay dividends to the holding companies.

In the first three months of 2017, we repurchased 2.1 million shares of common stock for \$43.0 million under our securities repurchase program (including \$4.5 million of repurchases settled in the second quarter of 2017). The Company has remaining repurchase authority of \$209.7 million as of March 31, 2017. We currently anticipate repurchasing a total of approximately \$200 million to \$275 million of our common stock during 2017, absent compelling alternatives including, but not limited to, investment in our business, dividends on common stock, acquisition transactions or ceding commissions related to reinsurance transactions. The amount and timing of the securities repurchases (if any) will be based on business and market conditions and other factors.

In the first three months of 2017, dividends declared on common stock totaled \$14.0 million (\$0.08 per common share).

We have previously disclosed that our strategic priorities include a reduction of our relative long-term care exposure. To achieve this goal, it is likely that we will need to transfer the risks of a portion of this business through one or more reinsurance transactions. A substantial ceding commission could be paid by the Company to transfer long-term care risk through reinsurance, depending on the specific types of risks and amounts ceded. The long-term care business written after 2007 has positive margins. The comprehensive and home health care long-term care business written before 2007 has negative margins and would likely require the payment of a significant ceding commission in a reinsurance transaction. The payment of a ceding commission by the Company would likely result in the recognition of a loss upon the completion of a reinsurance transaction. Due to our current tax position, it is likely that a portion of the tax benefit recognized on the loss would not be realized and we may be required to increase our valuation allowance for deferred tax assets. Although we believe reducing our exposure to the risk of long-term care business through reinsurance would benefit the Company in the long term, such a transaction could initially adversely impact certain aspects of our financial position, results of operations and/or cash flow, including the cash available to repurchase shares of our common stock.

On February 8, 2017, A.M. Best affirmed our issuer credit and senior unsecured debt ratings of "bbb-" and the outlook for these ratings is stable. In A.M. Best's view, a company rated "bbb-" has an adequate ability to meet the terms of its obligations; however, the issuer is more susceptible to changes in economic or other conditions. Pluses and minuses show the relative standing within a category. A.M. Best has a total of 22 possible ratings ranging from "aaa (Exceptional)" to "d (In default)". There are nine ratings above CNO's "bbb-" rating and twelve ratings that are below its rating.

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES

On January 12, 2017, Fitch affirmed its "BB+" rating on our issuer credit and senior unsecured debt. The outlook for these ratings is stable. In Fitch's view, an obligation rated "BB" indicates an elevated vulnerability to default risk, particularly in the event of adverse changes in business or economic conditions over time; however, business or financial flexibility exists which supports the servicing of financial commitments. Pluses and minuses show the relative standing within a category. Fitch has a total of 21 possible ratings ranging from "AAA" to "D". There are ten ratings above CNO's "BB+" rating and ten ratings that are below its rating.

On October 4, 2016, S&P affirmed our issuer credit and unsecured debt ratings of "BB+". The outlook for these ratings is negative. S&P's negative outlook reflects their concern related to the Company's recapture of the ceded business as further described above under the caption "Termination of Long-Term Care Reinsurance Agreements and Recapture of Related Long-Term Care Business in Run-off". In S&P's view, an obligation rated "BB" is less vulnerable to nonpayment than other speculative issues. However, it faces major ongoing uncertainties or exposure to adverse business, financial or economic conditions which could lead to the obligor's inadequate capacity to meet its financial commitment on the obligation. Pluses and minuses show the relative standing within a category. S&P has a total of 22 possible ratings ranging from "AAA (Extremely Strong)" to "D (Payment Default)". There are ten ratings above CNO's "BB+" rating and eleven ratings that are below its rating.

On May 9, 2016, Moody's affirmed our issuer credit and senior unsecured debt ratings of "Ba1" and the outlook for these ratings is stable. In Moody's view, obligations rated "Ba" are judged to have speculative elements and are subject to substantial credit risk. A rating is supplemented with numerical modifiers "1", "2" or "3" to show the relative standing within a category. Moody's has a total of 21 possible ratings ranging from "Aaa" to "C". There are ten ratings above CNO's "Ba1" rating and ten ratings that are below its rating.

As part of our investment strategy, we may enter into repurchase agreements to increase our investment return. Pursuant to such agreements, the Company sells securities subject to an obligation to repurchase the same securities. Under these arrangements, the Company may transfer legal control over the assets but still retain effective control through an agreement that both entitles and obligates the Company to repurchase the assets. As a result, these repurchase agreements are accounted for as collateralized financing arrangements (i.e., secured borrowings) and not as a sale and subsequent repurchase of securities. No such borrowings were outstanding at March 31, 2017.

We believe that the existing cash available to the holding company, the cash flows to be generated from operations and other transactions will be sufficient to allow us to meet our debt service obligations, pay corporate expenses and satisfy other financial obligations. However, our cash flow is affected by a variety of factors, many of which are outside of our control, including insurance regulatory issues, competition, financial markets and other general business conditions. We cannot provide assurance that we will possess sufficient income and liquidity to meet all of our debt service requirements and other holding company obligations.

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES

INVESTMENTS

At March 31, 2017, the amortized cost, gross unrealized gains and losses and estimated fair value of fixed maturities, available for sale, were as follows (dollars in millions):

	Amortized cost	Gross unrealized gains	Gross unrealized losses	Estimated fair value
Investment grade (a):				
Corporate securities	\$ 11,784.1	\$ 1,173.4	\$ (63.5)	\$ 12,894.0
United States Treasury securities and obligations of United States government corporations and agencies	173.1	20.7	—	193.8
States and political subdivisions	1,831.0	193.7	(6.9)	2,017.8
Debt securities issued by foreign governments	44.3	1.5	(.1)	45.7
Asset-backed securities	1,123.5	31.5	(6.7)	1,148.3

Total fixed maturities, available for sale	\$ 19,880.3	\$ 1,632.3	\$ (134.2)	\$ 21,378.4

(a) Investment ratings – Investment ratings are assigned the second lowest rating by Nationally Recognized Statistical Rating Organizations ("NRSROs") (Moody's, S&P or Fitch), or if not rated by such firms, the rating assigned by the National Association of Insurance Commissioners (the "NAIC"). NAIC designations of "1" or "2" include fixed maturities generally rated investment grade (rated "Baa3" or higher by Moody's or rated "BBB-" or higher by S&P and Fitch). NAIC designations of "3" through "6" are referred to as below-investment grade (which generally are rated "Ba1" or lower by Moody's or rated "BB+" or lower by S&P and Fitch). References to investment grade or below-investment grade throughout our consolidated financial statements are determined as described above.

(b) Certain structured securities rated below-investment grade by NRSROs may be assigned a NAIC 1 or NAIC 2 designation based on the cost basis of the security relative to estimated recoverable amounts as determined by the NAIC. Refer to the table on the page which follows for a summary of our fixed maturity securities, available for sale, by NAIC designations.

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES

The NAIC evaluates the fixed maturity investments of insurers for regulatory and capital assessment purposes and assigns securities to one of six credit quality categories called NAIC designations, which are used by insurers when preparing their annual statements based on statutory accounting principles. The NAIC designations are generally similar to the credit quality designations of the NRSROs for marketable fixed maturity securities, except for certain structured securities. However, certain structured securities rated below investment grade by the NRSROs can be assigned NAIC 1 or NAIC 2 designations dependent on the cost basis of the holding relative to estimated recoverable amounts as determined by the NAIC. The following summarizes the NAIC designations and NRSRO equivalent ratings:

<u>NAIC Designation</u>	<u>NRSRO Equivalent Rating</u>
1	AAA/AA/A
2	BBB
3	BB
4	B
5	CCC and lower
6	In or near default

A summary of our fixed maturity securities, available for sale, by NAIC designations (or for fixed maturity securities held by non-regulated entities, based on NRSRO ratings) as of March 31, 2017 is as follows (dollars in millions):

<u>NAIC designation</u>	<u>Amortized cost</u>	<u>Estimated fair value</u>	<u>Percentage of total estimated fair value</u>
1	\$ 9,519.9	\$ 10,318.9	48.3%
2	9,283.9	9,970.4	46.6
Total NAIC 1 and 2 (investment grade)	18,803.8	20,289.3	94.9
3	699.6	706.1	3.3
4	220.8	220.5	1.0
5	122.7	122.5	.6
6	33.4	40.0	.2
Total NAIC 3, 4, 5 and 6 (below-investment grade)	1,076.5	1,089.1	5.1
	\$ 19,880.3	\$ 21,378.4	100.0%

Total fixed maturities, available for sale	\$ 21,378.4	100.0%	\$ 134.2	100.0%

At March 31, 2017, the carrying value of the Company's fixed maturity securities in the energy sector was \$1.6 billion, with gross unrealized gains of \$139.7 million and gross unrealized losses of \$11.7 million. Although these securities are of high quality (90 percent are rated investment grade) and diversified (76 issuers), we could be exposed to future downgrades and declines in market values if oil prices remain at low levels for an extended period of time. At December 31, 2016, the carrying value of our fixed maturity securities in the energy sector was \$1.5 billion, with gross unrealized gains of \$126.8 million and gross unrealized losses of \$21.4 million.

Below-Investment Grade Securities

At March 31, 2017, the amortized cost of the Company's below-investment grade fixed maturity securities was \$3,084.5 million, or 16 percent of the Company's fixed maturity portfolio. The estimated fair value of the below-investment grade portfolio was \$3,209.9 million, or 104 percent of the amortized cost (refer to the table on page 88 for composition of the below-investment grade portfolio).

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES

Below-investment grade corporate debt securities typically have different characteristics than investment grade corporate debt securities. Based on historical performance, probability of default by the borrower is significantly greater for below-investment grade corporate debt securities and in many cases severity of loss is relatively greater as such securities are generally unsecured and often subordinated to other indebtedness of the issuer. Also, issuers of below-investment grade corporate debt securities frequently have higher levels of debt relative to investment-grade issuers, hence, all other things being equal, are generally more sensitive to adverse economic conditions. The Company attempts to reduce the overall risk related to its investment in below-investment grade securities, as in all investments, through careful credit analysis, strict investment policy guidelines, and diversification by issuer and/or guarantor and by industry.

Net Realized Investment Gains (Losses)

The following table sets forth the net realized investment gains (losses) for the periods indicated (dollars in millions):

	Three months ended	
	March 31,	
	2017	2016
Fixed maturity securities, available for sale:		
Gross realized gains on sale	\$ 7.0	\$ 98.5
Gross realized losses on sale	(2.7)	(81.0)
Impairments:		
Total other-than-temporary impairment losses	(3.2)	(6.3)
Other-than-temporary impairment losses recognized in accumulated other comprehensive income	—	—
Net impairment losses recognized	(3.2)	(6.3)
Net realized investment gains (losses) from fixed maturities	1.1	11.2
Equity securities	1.9	.1
Commercial mortgage loans	1.0	—
Impairments of other investments	(5.2)	(3.7)
Other (a)	9.1	(8.5)
Net realized investment gains (losses)	<u>\$ 7.9</u>	<u>\$ (.9)</u>

(a) Changes in the estimated fair value of trading securities that we have elected the fair value option (and are still held as of the end of the respective periods) was \$3.0 million and \$(3.4) million for the three months ended March 31, 2017 and 2016, respectively.

During the first three months of 2017, we recognized net realized investment gains of \$7.9 million, which were comprised of: (i) \$12.9 million of net gains from the sales of investments; (ii) the increase in fair value of certain fixed maturity investments with embedded derivatives of \$2.7 million; (iii) the increase in fair value of embedded derivatives related to a modified coinsurance agreement of \$.7 million; and (iv) \$8.4 million of writedowns of investments for other than temporary declines in fair value recognized through net income.

During the first three months of 2016, we recognized net realized investment losses of .9 million, which were comprised of: (i) \$10.9 million of net gains from the sales of investments; (ii) the decrease in fair value of certain fixed maturity investments with embedded derivatives of \$3.6 million; (iii) the increase in fair value of embedded derivatives related to a modified coinsurance agreement of \$1.8 million; and (iv) \$10.0 million of writedowns of investments for other than temporary declines in fair value recognized through net income.

At March 31, 2017, there were five investments in default with an amortized cost and carrying value of \$18.7 million and \$27.3 million, respectively.

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES

During the first three months of 2017, the \$2.7 million of gross realized losses on sales of \$95.3 million of fixed maturity securities, available for sale included: (i) \$1.5 million related to various corporate securities; (ii) \$.9 million related to commercial mortgage-backed securities; and (iii) \$.3 million related to various other investments. Securities are generally sold at a loss following unforeseen issue-specific events or conditions or shifts in perceived risks. These reasons include but are not limited to: (i) changes in the investment environment; (ii) expectation that the market value could deteriorate further; (iii) desire to reduce our exposure to an asset class, an issuer or an industry; (iv) prospective or actual changes in credit quality; or (v) changes in expected portfolio cash flows.

During the first three months of 2016, the \$81.0 million of gross realized losses on sales of \$388.0 million of fixed maturity securities, available for sale, included: (i) \$74.5 million related to various corporate securities (including \$62.7 million related to sales of investments in the energy sector); (ii) \$5.3 million related to commercial mortgage-backed securities; and (iii) \$1.2 million related to various other investments.

Our fixed maturity investments are generally purchased in the context of various long-term strategies, including funding insurance liabilities, so we do not generally seek to generate short-term realized gains through the purchase and sale of such securities. In certain circumstances, including those in which securities are selling at prices which exceed our view of their underlying economic value, or when it is possible to reinvest the proceeds to better meet our long-term asset-liability objectives, we may sell certain securities.

During the first three months of 2017, we recognized \$8.4 million of impairment losses recorded in earnings which included: (i) \$3.2 million of writedowns on fixed maturities of a single issuer in the energy sector; and (ii) \$5.2 million of writedowns related to a real estate investment. Factors considered in determining the writedowns of investments in the first three months of 2017 included changes in the estimated recoverable value of the assets related to each investment and the timing of and complexities related to the recovery process.

There were no investments sold at a loss during the first three months of 2017 which had been continuously in an unrealized loss position exceeding 20 percent of the amortized cost basis prior to the sale.

We regularly evaluate all of our investments with unrealized losses for possible impairment. Our assessment of whether unrealized losses are "other than temporary" requires significant judgment. Factors considered include: (i) the extent to which fair value is less than the cost basis; (ii) the length of time that the fair value has been less than cost; (iii) whether the unrealized loss is event driven, credit-driven or a result of changes in market interest rates or risk premium; (iv) the near-term prospects for specific events, developments or circumstances likely to affect the value of the investment; (v) the investment's rating and whether the investment is investment-grade and/or has been downgraded since its purchase; (vi) whether the issuer is current on all payments in accordance with the contractual terms of the investment and is expected to meet all of its obligations under the terms of the investment; (vii) whether we intend to sell the investment or it is more likely than not that circumstances will require us to sell the investment before recovery occurs; (viii) the underlying current and prospective asset and enterprise values of the issuer and the extent to which the recoverability of the carrying value of our investment may be affected by changes in such values; (ix) projections of, and unfavorable changes in, cash flows on structured securities including mortgage-backed and asset-backed securities; (x) our best estimate of the value of any collateral; and (xi) other objective and subjective factors.

Future events may occur, or additional information may become available, which may necessitate future realized losses in our portfolio. Significant losses could have a material adverse effect on our consolidated financial statements in future periods.

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES

The following table sets forth the amortized cost and estimated fair value of those fixed maturities, available for sale, with unrealized losses at March 31, 2017, by contractual maturity. Actual maturities will differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without penalties. Structured securities frequently include provisions for periodic principal payments and permit periodic unscheduled payments.

	Amortized cost	Estimated fair value
(Dollars in millions)		
Due in one year or less	\$ 26.8	\$ 26.6
Due after one year through five years	97.1	95.2
Due after five years through ten years	270.8	260.0
Due after ten years	1,819.0	1,732.3
Subtotal	2,213.7	2,114.1
Structured securities	1,482.0	1,447.4
Total	<u>\$ 3,695.7</u>	<u>\$ 3,561.5</u>

The following summarizes the investments in our portfolio rated below-investment grade which have been continuously in an unrealized loss position exceeding 20 percent of the cost basis for the period indicated as of March 31, 2017 (dollars in millions):

	Number of issuers	Cost basis	Unrealized loss	Estimated fair value
Less than 6 months	3	\$ 27.4	\$ (6.2)	\$ 21.2
Greater than or equal to 6 months and less than 12 months	2	6.7	(1.6)	5.1
Greater than 12 months	1	.7	(.2)	.5
		<u>\$ 34.8</u>	<u>\$ (8.0)</u>	<u>\$ 26.8</u>

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES

The following table summarizes the gross unrealized losses of our fixed maturity securities, available for sale, by category and ratings category as of March 31, 2017 (dollars in millions):

	Investment grade		Below-investment grade		Total gross unrealized losses
	AAA/AA/A	BBB	BB	B+ and below	
Commercial mortgage-backed securities	\$ 18.7	\$ 1.8	\$ 1.2	\$ —	\$ 21.7

Total fixed maturities, available for sale	\$ 37.6	\$ 60.2	\$ 21.6	\$ 14.8	\$ 134.2

Our investment strategy is to maximize, over a sustained period and within acceptable parameters of quality and risk, investment income and total investment return through active investment management. Accordingly, we may sell securities at a gain or a loss to enhance the projected total return of the portfolio as market opportunities change, to reflect changing perceptions of risk, or to better match certain characteristics of our investment portfolio with the corresponding characteristics of our insurance liabilities.

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES

The following table summarizes the gross unrealized losses and fair values of our investments with unrealized losses that are not deemed to be other-than-temporarily impaired, aggregated by investment category and length of time that such securities have been in a continuous unrealized loss position, at March 31, 2017 (dollars in millions):

Description of securities	Less than 12 months		12 months or greater		Total	
	Fair value	Unrealized losses	Fair value	Unrealized losses	Fair value	Unrealized losses
United States Treasury securities and obligations of United States government corporations and agencies	\$ 17.7	\$ —	\$ —	\$ —	\$ 17.7	\$ —
States and political subdivisions	185.4	(6.8)	18.5	(2.6)	203.9	(9.4)
Debt securities issued by foreign governments	10.4	(.1)	—	—	10.4	(.1)
Corporate securities	1,395.2	(39.2)	486.9	(50.9)	1,882.1	(90.1)
Asset-backed securities	599.3	(7.0)	219.8	(4.3)	819.1	(11.3)
Collateralized debt obligations	15.5	—	9.0	—	24.5	—
Commercial mortgage-backed securities	406.0	(14.1)	123.0	(7.6)	529.0	(21.7)
Collateralized mortgage obligations	37.9	(.5)	36.9	(1.1)	74.8	(1.6)
Total fixed maturities, available for sale	\$ 2,667.4	\$ (67.7)	\$ 894.1	\$ (66.5)	\$ 3,561.5	\$ (134.2)
Equity securities	\$ 108.8	\$ (4.6)	\$ —	\$ —	\$ 108.8	\$ (4.6)

Based on management's current assessment of investments with unrealized losses at March 31, 2017, the Company believes the issuers of the securities will continue to meet their obligations (or with respect to equity-type securities, the investment value will recover to its cost basis). While we do not have the intent to sell securities with unrealized losses and it is not more likely than not that we will be required to sell securities with unrealized losses prior to their anticipated recovery, our intent on an individual security may change, based upon market or other unforeseen developments. In such instances, if a loss is recognized from a sale subsequent to a balance sheet date due to these unexpected developments, the loss is recognized in the period in which we had the intent to sell the security before its anticipated recovery.

Structured Securities

At March 31, 2017 fixed maturity investments included structured securities with an estimated fair value of \$5.3 billion (or 25 percent of all fixed maturity securities). The yield characteristics of structured securities generally differ in some respects from those of traditional corporate fixed-income securities or government securities. For example, interest and principal payments on structured securities may occur more frequently, often monthly. In many instances, we are subject to variability in the amount and timing of principal and interest payments. For example, in many cases, partial prepayments may occur at the option of the issuer and prepayment rates are influenced by a number of factors that cannot be predicted with certainty, including: the relative sensitivity of prepayments on the underlying assets backing the security to changes in interest rates and asset values; the availability of alternative financing; a variety of economic, geographic and other factors; the timing, pace and proceeds of liquidations of defaulted collateral; and various security-specific structural considerations (for example, the repayment priority of a given security in a securitization structure). In addition, the total amount of payments for non-agency structured securities may be affected by changes to cumulative default rates or loss severities of the related collateral.

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES

The following table sets forth the par value, amortized cost and estimated fair value of structured securities, summarized by interest rates on the underlying collateral, at March 31, 2017 (dollars in millions):

	Par value	Amortized cost	Estimated fair value
Below 4 percent	\$ 2,010.1	\$ 1,536.6	\$ 1,562.7
4 percent – 5 percent	1,705.6	1,552.9	1,604.7
5 percent – 6 percent	1,672.3	1,513.5	1,587.4
6 percent – 7 percent	363.0	324.1	339.8
7 percent – 8 percent	54.4	54.8	64.3
8 percent and above	148.4	147.8	149.0
Total structured securities	\$ 5,953.8	\$ 5,129.7	\$ 5,307.9

The amortized cost and estimated fair value of structured securities at March 31, 2017, summarized by type of security, were as follows (dollars in millions):

<u>Type</u>	Amortized cost	Estimated fair value	
		Amount	Percent of fixed maturities
Pass-throughs, sequential and equivalent securities	\$ 620.3	\$ 667.7	3.1%
Planned amortization classes, target amortization classes and accretion-directed bonds	132.4	146.6	.7
Commercial mortgage-backed securities	1,411.1	1,423.6	6.6
Asset-backed securities	2,692.4	2,794.3	13.1
Collateralized debt obligations	212.6	214.4	1.0
Other	60.9	61.3	.3
Total structured securities	\$ 5,129.7	\$ 5,307.9	24.8%

Pass-throughs, sequentials and equivalent securities have unique prepayment variability characteristics. Pass-through securities typically return principal to the holders based on cash payments from the underlying mortgage obligations. Sequential securities return principal to tranche holders in a detailed hierarchy. Planned amortization classes, targeted amortization classes and accretion-directed bonds adhere to fixed schedules of principal payments as long as the underlying mortgage loans experience prepayments within certain estimated ranges. In most circumstances, changes in prepayment rates are first absorbed by support or companion classes insulating the timing of receipt of cash flows from the consequences of both faster prepayments (average life shortening) and slower prepayments (average life extension).

Commercial mortgage-backed securities are secured by commercial real estate mortgages, generally income producing properties that are managed for profit. Property types include multi-family dwellings including apartments, retail centers, hotels, restaurants, hospitals, nursing homes, warehouses, and office buildings. While most commercial mortgage-backed securities have call protection features whereby underlying borrowers may not prepay their mortgages for stated periods of time without incurring prepayment penalties, recoveries on defaulted collateral may result in involuntary prepayments.

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES

Commercial Mortgage Loans

The following table provides the carrying value and estimated fair value of our outstanding mortgage loans and the underlying collateral as of March 31, 2017 (dollars in millions):

<u>Loan-to-value ratio (a)</u>	Carrying value	Estimated fair value	
		Mortgage loans	Collateral
Less than 60%	\$ 993.2	\$ 1,012.4	\$ 2,403.2
60% to 70%	367.4	367.7	558.2
Greater than 70% to 80%	298.3	305.4	402.9
Greater than 80% to 90%	60.8	61.0	71.7
Greater than 90%	68.8	68.3	73.1
Total	\$ 1,788.5	\$ 1,814.8	\$ 3,509.1

(a) Loan-to-value ratios are calculated as the ratio of: (i) the carrying value of the commercial mortgage loans; to (ii) the estimated fair value of the underlying collateral.

INVESTMENTS IN VARIABLE INTEREST ENTITIES

The following table provides supplemental information about the revenues and expenses of the VIEs which have been consolidated in accordance with authoritative guidance, after giving effect to the elimination of our investment in the VIEs and investment management fees earned by a subsidiary of the Company (dollars in millions):

	Three months ended	
	March 31,	
	2017	2016
Revenues:		
Net investment income – policyholder and other special-purpose portfolios	\$ 19.9	\$ 17.9
Fee revenue and other income	1.6	1.7
Total revenues	21.5	19.6
Expenses:		
Interest expense	13.6	12.5
Other operating expenses	.3	.4
Total expenses	13.9	12.9
Income before net realized investment losses and income taxes	7.6	6.7
Net realized investment losses	2.1	(6.4)
Income before income taxes	\$ 9.7	\$.3

During the first three months of 2017, the VIEs recognized net realized investment gains of \$2.1 million. During the first three months of 2016, we recognized net realized investment losses on the VIE investments of \$6.4 million.

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES

Supplemental Information on Investments Held by VIEs

The following table summarizes the carrying values of the investments held by the VIEs by category as of March 31, 2017 (dollars in millions):

	Carrying value	Percent of fixed maturities	Gross unrealized losses	Percent of gross unrealized losses
Healthcare/pharmaceuticals	\$ 188.1	12.4%	\$.4	9.2%
Cable/media	175.0	11.6	.2	3.6
Technology	159.9	10.6	.2	3.9
Food/beverage	119.7	7.9	.7	16.2
Capital goods	98.3	6.5	.3	6.1
Consumer products	70.4	4.6	.1	3.2
Retail	67.2	4.4	1.4	32.4
Aerospace/defense	66.9	4.4	.1	2.3
Paper	60.4	4.0	—	.2
Brokerage	60.2	4.0	—	.5
Autos	54.1	3.6	—	.1
Building materials	47.9	3.2	—	.1
Chemicals	44.5	2.9	—	.5
Utilities	39.4	2.6	—	.6
Gaming	30.2	2.0	—	.9
Insurance	30.1	2.0	.4	9.0
Entertainment/hotels	29.8	2.0	—	—
Transportation	29.4	1.9	—	.1
Metals and mining	26.2	1.7	—	.1
Real estate/REITs	21.7	1.4	—	.3
Business services	16.5	1.1	—	—
Banks	9.9	.7	—	.2
Energy	6.1	.4	.4	9.9
Other	62.6	4.1	—	.6
Total	\$ 1,514.5	100.0%	\$ 4.2	100.0%

The following table sets forth the amortized cost and estimated fair value of those investments held by the VIEs with unrealized losses at March 31, 2017, by contractual maturity. Actual maturities will differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without penalties.

	Amortized cost	Estimated fair value
(Dollars in millions)		
Due in one year or less	\$ 2.9	\$ 2.9
Due after one year through five years	126.5	124.0
Due after five years through ten years	160.4	158.7
Total	\$ 289.8	\$ 285.6

CNO FINANCIAL GROUP, INC. AND SUBSIDIARIES

There were no investments held by the VIEs sold at a loss during the first three months of 2017 which had been continuously in an unrealized loss position exceeding 20 percent of the amortized cost basis prior to the sale.

The following summarizes the investments in our portfolio rated below-investment grade which have been continuously in an unrealized loss position exceeding 20 percent of the cost basis for the period indicated as of March 31, 2017 (dollars in millions):

	Number of issuers	Cost basis	Unrealized loss	Estimated fair value
Less than 6 months	1	\$ 2.0	\$ (.4)	\$ 1.6
		<u>\$ 2.0</u>	<u>\$ (.4)</u>	<u>\$ 1.6</u>

NEW ACCOUNTING STANDARDS

See "Recently Issued Accounting Standards" in the notes to consolidated financial statements for a discussion of recently issued accounting standards.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Our market risks, and the ways we manage them, are summarized in "Management's Discussion and Analysis of Financial Condition and Results of Operations", included in our Annual Report on Form 10-K for the year ended December 31, 2016. There have been no material changes in the first three months of 2017 to such risks or our management of such risks.

ITEM 4. CONTROLS AND PROCEDURES.

Evaluation of Disclosure Controls and Procedures . CNO's management, under the supervision and with the participation of the Chief Executive Officer and the Chief Financial Officer, evaluated the effectiveness of CNO's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended). Based on its evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as of March 31, 2017 , CNO's disclosure controls and procedures were effective to ensure that information required to be disclosed by CNO in reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures are also designed to reasonably assure that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Changes to Internal Control Over Financial Reporting . There were no changes in the Company's internal control over financial reporting (as defined in Rule 13a-15(f) under the Securities Exchange Act of 1934) during the three months ended March 31, 2017 , that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

Information required for Part II, Item 1 is incorporated by reference to the discussion under the heading "Litigation and Other Legal Proceedings" in the footnotes to our consolidated financial statements included in Part I, Item 1 of this Form 10-Q.

ITEM 1A. RISK FACTORS.

CNO and its businesses are subject to a number of risks including general business and financial risk factors. Any or all of such factors could have a material adverse effect on the business, financial condition or results of operations of CNO. Refer to "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2016, for further discussion of such risk factors. There have been no material changes from such previously disclosed risk factors.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

Issuer Purchases of Equity Securities

Period	Total number of shares (or units)	Average price paid per share (or unit)	Total number of shares (or units) purchased as part of publicly announced plans or programs	Maximum number (or approximate dollar value) of shares (or units) that may yet be purchased under the plans or programs (a)
				(dollars in millions)
January 1 through January 31	951	\$ 19.25	—	\$ 252.7
February 1 through February 28	646,901	20.98	596,019	240.2
March 1 through March 31	1,500,257	20.47	1,489,739	209.7
Total	2,148,109	20.62	2,085,758	209.7

(a) In May 2011, the Company announced a securities repurchase program of up to \$100.0 million. In February 2012, June 2012, December 2012, December 2013, November 2014 and November 2015, the Company's Board of Directors approved, in aggregate, an additional \$1,600.0 million to repurchase the Company's outstanding securities.

ITEM 6. EXHIBITS.

10.1	Form of stock option agreement for 2017 under the Amended and Restated Long-Term Incentive Plan.
10.2	Form of restricted stock unit award agreement for 2017 under the Amended and Restated Long-Term Incentive Plan.

Senior Vice President and Chief Accounting Officer

(authorized officer and principal accounting officer)

CNO FINANCIAL GROUP, INC.Re: Grant of Non-Qualified Stock Option

CNO Financial Group, Inc., a Delaware corporation (the "Company"), is pleased to advise you that, pursuant to the Company's Amended and Restated Long-Term Incentive Plan (the "Plan"), the Company has granted to you an option (the "Option") to acquire shares of the Company's common stock, par value \$.01 per share ("Common Stock"), as set forth below, subject to the terms and conditions of the Plan and the terms and conditions set forth herein.

The Option is not intended to be an "incentive stock option" within the meaning of Section 422 of the Code. Any capitalized terms used herein and not defined herein have the meaning set forth in the Plan.

1. Option.

(a) Term. Subject to the terms and conditions set forth herein, the Company hereby grants you (or such other persons as permitted by paragraph 5) an Option to purchase the number of shares of Common Stock at the exercise price per Option Share (the "Option Price") set forth on the Company's stock plan administration vendor's website (the "Award Summary"), payable upon exercise as set forth in paragraph 1(b) below. The Option shall expire at the close of business on the date indicated on the Award Summary (the "Expiration Date"), which is the tenth anniversary of the date of grant (the "Grant Date"), subject to earlier expiration as provided in paragraph 2(c) below should your employment with the Company or a Subsidiary terminate. The Option Price and the number and kind of shares of Common Stock or other property for which the Option may be exercised shall be subject to adjustment as provided in the Plan.

(b) Payment of Option Cost. Subject to paragraph 2 below, the Option may be exercised in whole or in part upon payment of an amount (the "Option Cost") equal to the product of (i) the Option Price and (ii) the number of Option Shares to be acquired. Payment of the Option Cost shall be made by one or more of the following means:

- (i) in cash (including check, bank draft, money order or wire transfer of immediately available funds);
 - (ii) if permitted by the Company on the date of exercise, by delivery of outstanding shares of Common Stock owned by you (and not subject to any substantial risk of forfeiture) for at least six months with a Fair Market Value on the date of exercise equal to the Option Cost;
 - (iii) by means of any cashless exercise procedures approved by the Committee and as may be in effect on the date of exercise; or
 - (iv) by any combination of the foregoing.
-

2. Exercisability/Vesting and Expiration.

(a) Normal Vesting. The Option granted hereunder may be exercised only to the extent it has become vested, as indicated by the vesting dates set forth on the Award Summary.

(b) Normal Expiration. In no event shall any part of the Option be exercisable after the Expiration Date.

(c) Effect on Vesting and Expiration of Employment Termination. Except as expressly set forth in any written agreement between you and the Company or a Subsidiary (whether entered into prior to or after the date of this agreement) and notwithstanding paragraphs 2(a) and (b) above, the following special vesting and expiration rules shall apply if your employment with the Company terminates prior to the Option becoming fully vested and/or prior to the Expiration Date:

(i) Termination Other than for Cause and Certain Other Events. If your employment is terminated by you, or by the Company or a Subsidiary for any reason other than Cause, Retirement, death or Disability, (A) any portion of the Option that was exercisable on the date of such termination shall remain exercisable until the ninetieth (90th) day immediately following such termination, but in no event after the Expiration Date of the Option, and such portion of the Option shall expire and be forfeited on the ninetieth (90th) day immediately following such termination and (B) any portion of the Option that was not exercisable on the date of such termination shall be forfeited immediately upon such termination.

(ii) Termination for Cause. If your employment is terminated by the Company or a Subsidiary for Cause, any portion of the Option that had not been exercised prior to the date of such termination shall be forfeited immediately upon such termination.

(iii) Termination Upon Retirement. If you elect to terminate your employment with the Company and you satisfy the definition of Retirement set forth in the Plan, then any portion of the Option which remains outstanding at the date of your Retirement shall continue to vest on the dates included in this agreement and you may exercise the Option until the earlier of (x) the Expiration Date or (y) five years after the date of your Retirement.

(iv) Termination Due to Death or Disability. If your employment is terminated by the Company or a Subsidiary due to your death or Disability, (A) any portion of the Option that was exercisable on the date of such termination shall remain exercisable until twelve (12) months after such termination, but in no event after the Expiration Date of the Option, and such portion of the Option shall expire and be forfeited on the first anniversary of the date of such termination, whether or not then exercisable and (B) any portion of the Option that was not exercisable on the date of such termination shall be forfeited immediately upon such termination.

(v) Change in Control. In the event that your employment is terminated by the Company without Cause or by you for Good Reason within 24 months

after a Change in Control has occurred, the Option shall become vested and fully exercisable as to all of the Option Shares.

3. Procedure for Exercise. Except as expressly set forth in any written agreement between you and the Company or a Subsidiary (whether entered into prior to or after the date of this agreement), you may exercise all or any portion of the Option, to the extent it has vested and is exercisable, at any time and from time to time prior to the earlier of the Expiration Date or the date specified in paragraph 2 above, by logging onto the Company's equity administration website and selecting the "Exercise Options" menu option, indicating the specific option grant to be exercised and answering the on-screen prompts to complete the exercise, together with payment of the Option Cost in accordance with the provisions of paragraph 1(b) above. The Option may not be exercised for a fraction of an Option Share.

4. Withholding of Taxes.

(a) Participant Election. If permitted by the Company, you may elect to deliver shares of Common Stock (or have the Company withhold Option Shares acquired upon exercise of the Option) to satisfy, in whole or in part, the amount the Company is required to withhold for taxes in connection with the exercise of the Option. Such election must be made on or before the date the amount of tax to be withheld is determined. Once made, the election shall be irrevocable. The Fair Market Value of the shares to be withheld or delivered will be the Fair Market Value as of the date the amount of tax to be withheld is determined.

(b) Company Requirement. The Company, to the extent permitted or required by law, shall have the right to deduct from any payment of any kind (including salary or bonus) otherwise due to you, an amount equal to any federal, state or local taxes of any kind required by law to be withheld with respect to the delivery of Option Shares under this agreement.

5. Transferability of Option. You may transfer the Option granted hereunder only by will or the laws of descent and distribution. Unless the context requires otherwise, references herein to you are deemed to include any permitted transferee under this paragraph 5. The Option may be exercised only by you; by the executor or administrator of your estate; by any person to whom the Option is transferred by will or the laws of descent and distribution; or by the guardian or representative of any of the foregoing.

6. Conformity with Plan. This agreement and the Option are intended to conform in all respects with, and are subject to all applicable provisions of, the Plan (which is incorporated herein by reference). Inconsistencies between this agreement and the Plan shall be resolved in accordance with the terms of the Plan. By accepting this stock option award, you acknowledge your receipt of this agreement and the Plan and agree to be bound by all of the terms of this agreement and the Plan.

7. Rights of Participants. Nothing in this agreement shall interfere with or limit in any way the right of the Company to terminate your employment or other performance of services at any time, nor confer upon you any right to continue in the employ or as a director or officer of, or in the performance of other services for, the Company or a Subsidiary for any period of time, or to continue your present (or any other) rate of compensation or level of

responsibility. Nothing in this agreement shall confer upon you any right to be selected again as a Plan participant, and nothing in the Plan or this agreement shall provide for any adjustment to the number of Option Shares subject to the Option upon the occurrence of subsequent events except as provided in the Plan.

8. Certain Definitions. For the purposes of this agreement, the following terms have the meanings set forth below:

"Cause" means the occurrence of one or more of the following events, as determined by the Committee:

- (i) commission of (x) a felony or (y) any crime or offense lesser than a felony involving the property of the Company or a Subsidiary; or
- (ii) conduct that has caused demonstrable and serious injury to the Company or a Subsidiary, monetary or otherwise; or
 - (iii) willful refusal to perform or substantial disregard of duties properly assigned; or
 - (iv) breach of duty of loyalty to the Company or a Subsidiary or other act of fraud or dishonesty with respect to the Company or a Subsidiary.

"Change in Control" means the occurrence of any of the following events:

- (i) the acquisition (other than an acquisition in connection with a "Non-Control Transaction" (as defined below)) by any "person" (as such term is used in Sections 13(d) and 14(d) of the Exchange Act) of "beneficial ownership" (as such term is defined in Rule 13d-3 promulgated under the Exchange Act), directly or indirectly, of securities of the Company or its Ultimate Parent representing 51% or more of the combined voting power of the then outstanding securities of the Company or its Ultimate Parent entitled to vote generally with respect to the election of the board of directors of the Company or its Ultimate Parent; or
 - (ii) as a result of or in connection with a tender or exchange offer or contest for election of directors, individual board members of the Company (identified as of the date of commencement of such tender or exchange offer, or the commencement of such election contest, as the case may be) cease to constitute at least a majority of the board of directors of the Company; or
 - (iii) the consummation of a merger, consolidation or reorganization with or into the Company unless (x) the stockholders of the Company immediately before such transaction beneficially own, directly or indirectly, immediately following such transaction securities representing 51% or more of the combined voting power of the then outstanding securities entitled to vote generally with respect to the election of the board of directors of the Company (or its successor) or, if applicable, the Ultimate Parent and (y) individual board members of the Company (identified as of the date that a binding agreement providing for such transaction is signed) constitute at least a majority of the board of directors of the Company (or its
-

successor) or, if applicable, the Ultimate Parent (a transaction to which clauses (x) and (y) apply, a "Non-Control Transaction").

"Disability" means that, solely because of injury or sickness, you are either: (i) unable to perform all the material duties of the occupation that you routinely performed just prior to the date the Disability begins; or (ii) unable to earn 80% or more of your annual salary in effect just prior to the date the Disability begins.

"Good Reason" means (i) any material diminution in the nature or scope of your authority, duties or responsibilities from those you had as of the date immediately preceding the Change in Control, (ii) requiring your relocation to a location more than 50 miles from your primary location of employment immediately preceding the Change in Control without your consent or (iii) any reduction in your base salary or target bonus opportunity without your consent.

"Option Shares" means (i) all shares of Common Stock issued or issuable upon the exercise of the Option and (ii) all shares of Common Stock issued with respect to the Common Stock referred to in clause (i) above by way of stock dividend or stock split or in connection with any conversion, merger, consolidation or recapitalization or other reorganization affecting the Common Stock.

"Subsidiary" means a corporation or other entity of which outstanding shares or ownership interests representing 50% or more of the combined voting power of such corporation or other entity entitled to elect the management thereof, or such lesser percentage as may be approved by the Committee, are owned directly or indirectly by the Company.

"Ultimate Parent" means the parent corporation (or if there is more than one parent corporation, the ultimate parent corporation) that, following a transaction, directly or indirectly beneficially owns a majority of the voting power of the outstanding securities entitled to vote with respect to the election of the board of directors of the Company (or its successor).

9. Successors and Assigns. Except as otherwise expressly provided herein, all covenants and agreements contained in this agreement by or on behalf of any of the parties hereto shall bind and inure to the benefit of the respective successors and permitted assigns of the parties hereto whether so expressed or not.

10. Severability. Whenever possible, each provision of this agreement shall be interpreted in such manner as to be effective and valid under applicable law, but if any provision of this agreement is held to be prohibited by or invalid under applicable law, such provision shall be ineffective only to the extent of such prohibition or invalidity, without invalidating the remainder of this agreement.

11. Descriptive Headings. The descriptive headings of this agreement are inserted for convenience only and do not constitute a part of this agreement.

12. Governing Law. THE VALIDITY, CONSTRUCTION, INTERPRETATION, ADMINISTRATION AND EFFECT OF THE PLAN, AND OF ITS RULES AND REGULATIONS, AND RIGHTS RELATING TO THE PLAN AND TO THIS AGREEMENT,

CNO FINANCIAL GROUP, INC.

Re: Grant of Restricted Stock Unit Award

CNO Financial Group, Inc., a Delaware corporation (the "**Company**"), is pleased to advise you that pursuant to the Company's Amended and Restated Long-Term Incentive Plan (the "**Plan**"), the Company has granted you an award of the number of restricted share units (the "**Restricted Shares**") set forth on the Company's stock plan administration vendor website (the "**Award Summary**"), effective as of the date set forth on the Award Summary (the "**Date of Grant**"), subject to the terms and conditions of the Plan and the terms and conditions set forth herein. Any capitalized terms used herein and not defined herein have the meaning set forth in the Plan.

1. **Restricted Shares**. Each Restricted Share represents the right to receive one share of the Company's Common Stock, par value \$.01 per share ("**Common Stock**"), plus Dividend Equivalents thereon (as described in Section 5(b) below) subject to satisfaction of the service vesting criteria set forth on the Award Summary. Upon satisfaction of such vesting criteria, the shares of Common Stock that have vested will be issued to you, unless you have elected to defer receipt of any such shares in accordance with the terms and conditions of the Company's Deferred Compensation Plan in which case the shares shall be issued in accordance with such deferral election. When issued, the shares of Common Stock shall be fully paid and nonassessable.

2. **Restrictions on Transfer**. You may not sell, assign, transfer, convey, pledge, exchange or otherwise encumber or dispose the Restricted Shares, except to the Company, until they have become nonforfeitable as provided in paragraph 3 hereof and in accordance with Section 6 of the Plan. Any purported encumbrance or disposition in violation of the provisions of this paragraph 2 shall be void ab initio, and the other party to any such purported transaction shall not obtain any rights to or interest in the Restricted Shares.

3. **Vesting of Restricted Shares**.

(a) Except as provided in paragraphs 3(b) - (d) and 4(b) below, the Restricted Shares shall vest and shares of Common Stock shall be issued to you only if you remain a director, officer or employee (or an approved service provider) of the Company or a Subsidiary through the vesting dates set forth on the Award Summary.

(b) In the event your employment is terminated by the Company or a Subsidiary without Cause or by you for Good Reason within six months prior to and in anticipation of or within 24 months after a Change in Control has occurred, any unvested Restricted Shares shall vest in full as of such date of termination.

(c) If your employment is terminated by the Company or a Subsidiary due to your death, any unvested Restricted Shares shall vest in full as of such date.

(d) If your employment is terminated by the Company or a Subsidiary due to your Disability, any unvested Restricted Shares shall continue to vest thereafter on the same vesting schedule as if you had remained an employee.

4. Forfeiture of Restricted Shares.

(a) Except as expressly set forth in paragraph 4(b) below or in any written employment agreement between you and the Company or a Subsidiary (whether entered into prior to or after the date of this agreement), if you cease to be (or do not become) a director, officer or employee of the Company or a Subsidiary (or cease (or do not begin) to otherwise perform services for the Company or a Subsidiary) for any reason, except as and to the extent the Restricted Shares have vested pursuant to paragraph 3 hereof, you shall forfeit the portion of the Restricted Shares which has not vested and the Restricted Shares so forfeited shall be cancelled.

(b) If you elect to terminate your employment with the Company or a Subsidiary and you satisfy the definition of Retirement set forth in the Plan, then any unvested Restricted Shares shall continue to vest after your retirement on the same vesting schedules as if you had remained an employee.

5. Dividend, Voting and Other Rights.

(a) Until issuance of shares of Common Stock pursuant to Section 1 hereof, you shall have no voting or other rights of a stockholder with respect to the Restricted Shares.

(b) *Dividend Equivalents.* You shall have the right to receive Dividend Equivalents on the unvested Restricted Shares to the extent that cash dividends are paid on the Common Stock underlying the Restricted Shares after the date of this agreement and prior to the issuance of shares of Common Stock underlying the Restricted Shares. Such Dividend Equivalents shall be subject to any required tax withholding, and shall be payable on or about such date or dates as the cash dividends are paid on the underlying Common Stock. If you have elected to defer receipt of any vested Restricted Shares, you will receive Dividend Equivalents, payable in cash and subject to any required tax withholding, to the extent that cash dividends are paid on the Common Stock underlying such Restricted Shares after the date of vesting and prior to the issuance of shares of Common Stock at the end of the deferral period.

6. Certain Definitions. For the purposes of this agreement, the following terms have the meanings set forth below:

" Board " means the Board of Directors of the Company.

" Cause " means the occurrence of one or more of the following events, as determined by the Committee:

(i) commission of (x) a felony or (y) any crime or offense lesser than a felony involving the property of the Company or a Subsidiary; or

(ii) conduct that has caused demonstrable and serious injury to the Company or a Subsidiary, monetary or otherwise; or

(iii) willful refusal to perform or substantial disregard of duties properly assigned; or

(iv) breach of duty of loyalty to the Company or a Subsidiary or other act of fraud or dishonesty with respect to the Company or a Subsidiary.

" Change in Control " means the occurrence of any of the following events:

(i) the acquisition (other than an acquisition in connection with a "Non-Control Transaction" (as defined below)) by any "person" (as such term is used in Sections 13(d) and 14(d) of the Exchange Act) of "beneficial ownership" (as such term is defined in Rule 13d-3 promulgated under the Exchange Act), directly or indirectly, of securities of the Company or its Ultimate Parent representing 51% or more of the combined voting power of the then outstanding securities of the Company or its Ultimate Parent entitled to vote generally with respect to the election of the board of directors of the Company or its Ultimate Parent; or

(ii) as a result of or in connection with a tender or exchange offer or contest for election of directors, individual board members of the Company (identified as of the date of commencement of such tender or exchange offer, or the commencement of such election contest, as the case may be) cease to constitute at least a majority of the board of directors of the Company; or

(iii) the consummation of a merger, consolidation or reorganization with or into the Company unless (x) the stockholders of the Company immediately before such transaction beneficially own, directly or indirectly, immediately following such transaction securities representing 51% or more of the combined voting power of the then outstanding securities entitled to vote generally with respect to the election of the board of directors of the Company (or its successor) or, if applicable, the Ultimate Parent and (y) individual board members of the Company (identified as of the date that a binding agreement providing for such transaction is signed) constitute at least a majority of the board of directors of the Company (or its successor) or, if applicable, the Ultimate Parent (a transaction to which clauses (x) and (y) apply, a " Non-Control Transaction ").

“ Disability ” means that, solely because of injury or sickness, you are either: (i) unable to perform all the material duties of the occupation that you routinely performed just prior to the date the Disability begins; or (ii) unable to earn 80% or more of your annual salary in effect just prior to the date the Disability begins.

" Fair Market Value " of a share of Common Stock of the Company means, as of the date in question, the officially-quoted closing selling price of the stock (or if no selling price is quoted, the bid price) on the principal securities exchange on which the Common Stock is then listed for trading (including for this purpose the Nasdaq National Market) (the " Market ") for the applicable trading day or, if the Common Stock is not then listed or quoted in the Market, the Fair Market Value shall be the fair value of the Common Stock determined in good faith by the Board.

“ Good Reason ” means (i) any material diminution in the nature or scope of your authority, duties or responsibilities from those you had as of the date immediately preceding the

Change in Control, (ii) requiring your relocation to a location more than 50 miles from your primary location of employment immediately preceding the Change in Control without your consent or (iii) any reduction in your base salary or target bonus opportunity without your consent.

“ Subsidiary ” means a corporation or other entity of which outstanding shares or ownership interests representing 50% or more of the combined voting power of such corporation or other entity entitled to elect the management thereof, or such lesser percentage as may be approved by the Committee, are owned directly or indirectly by the Company.

" Ultimate Parent " means the parent corporation (or if there is more than one parent corporation, the ultimate parent corporation) that, following a transaction, directly or indirectly beneficially owns a majority of the voting power of the outstanding securities entitled to vote with respect to the election of the board of directors of the Company (or its successor).

7. Withholding Taxes. If the Company or any Subsidiary shall be required to withhold any federal, state, local or foreign tax in connection with any issuance or vesting of Restricted Shares or other securities pursuant to this agreement, and the amounts available to the Company or such Subsidiary for such withholding are insufficient, you shall pay the tax or make provisions that are satisfactory to the Company or such Subsidiary for the payment thereof. If permitted at such time by the Company, you may elect to satisfy all or any part of any such withholding obligation by surrendering to the Company or such Subsidiary a portion of the Restricted Shares that become nonforfeitable hereunder, and the Restricted Shares so surrendered by you shall be credited against any such withholding obligation at the Fair Market Value of such Restricted Shares on the date of such surrender.

8. No Special Right to Employment. Nothing in this agreement shall interfere with or limit in any way the right of the Company to terminate your employment or other performance of services at any time, nor confer upon you any right to continue in the employ or as a director or officer of, or in the performance of other services for, the Company or a Subsidiary for any period of time, or to continue your present (or any other) rate of compensation or level of responsibility. Nothing in this agreement shall confer upon you any right to be selected again as a Plan participant, and nothing in the Plan or this agreement shall provide for any adjustment to the number of Restricted Shares upon the occurrence of subsequent events except as provided in the Plan.

9. Relation to Other Benefits. Any economic or other benefit to you under this agreement or the Plan shall not be taken into account in determining any benefits to which you may be entitled under any profit-sharing, retirement or other benefit or compensation plan maintained by the Company or a Subsidiary and shall not affect the amount of any life insurance coverage available to any beneficiary under any life insurance plan covering employees of the Company or a Subsidiary.

10. Amendments to Plan. Any amendment to the Plan shall be deemed to be an amendment to this agreement to the extent that the amendment is applicable hereto; provided, however, that no amendment shall adversely affect the your rights under this agreement without your consent.

11. Severability. Whenever possible, each provision of this agreement shall be interpreted in such manner as to be effective and valid under applicable law, but if any provision of this agreement is held to be prohibited by or invalid under applicable law, such provision shall be ineffective only to the extent of such prohibition or invalidity, without invalidating the remainder of this agreement.

12. Conformity with Plan. This agreement and the Restricted Shares granted pursuant hereto are intended to conform in all respects with, and are subject to all applicable provisions of, the Plan (which is incorporated herein by reference). Inconsistencies between this agreement and the Plan shall be resolved in accordance with the terms of the Plan. By accepting the award you acknowledge your receipt of this agreement and the Plan and agree to be bound by all of the terms of this agreement and the Plan.

13. Successors and Assigns. Except as otherwise expressly provided herein, all covenants and agreements contained in this agreement by or on behalf of any of the parties hereto shall bind and inure to the benefit of the respective successors and permitted assigns of the parties hereto whether so expressed or not.

14. Notices. All notices, demands or other communications to be given or delivered under or by reason of the provisions of this agreement shall be in writing and shall be deemed to have been given when (i) delivered personally, (ii) mailed by certified or registered mail, return receipt requested and postage prepaid or (iii) sent by reputable overnight courier, to the recipient. Such notices, demands and other communications shall be sent to you at the address on file with the Company and to the Company at 11825 N. Pennsylvania Street, Carmel, Indiana 46032, Attn: General Counsel, or to such other address or to the attention of such other person as the recipient party has specified by prior written notice to the sending party.

15. Governing Law. THE VALIDITY, CONSTRUCTION, INTERPRETATION, ADMINISTRATION AND EFFECT OF THE PLAN, AND OF ITS RULES AND REGULATIONS, AND RIGHTS RELATING TO THE PLAN AND TO THIS AGREEMENT, SHALL BE GOVERNED BY THE SUBSTANTIVE LAWS, BUT NOT THE CHOICE OF LAW RULES, OF THE STATE OF DELAWARE.

16. Descriptive Headings. The descriptive headings of this agreement are inserted for convenience only and do not constitute a part of this agreement.

17. Entire Agreement. This agreement, any written employment agreement between you and the Company or a Subsidiary to the extent contemplated by paragraphs 3(b) or 4(a) hereof, and the terms of the Plan constitute the entire understanding between you and the Company, and supersede all other agreements, whether written or oral, with respect to your acquisition of the Restricted Shares.

18. Section 409A. The Restricted Shares awarded hereunder are intended to be Non-409A Awards (as defined in the Plan) and are at all times intended to comply with Section 409A of the Code, as provided under the Plan. To the extent that Section 409A(a)(2)(B)(i) (regarding certain payments to “key employees” in connection with a separation from service) requires the Company to delay payment and/or other delivery beyond the date(s) otherwise specified in this

agreement, the Company shall pay such amounts to you upon the earliest date permitted under Section 409A(a)(2)(B)(i) of the Code without incurring excise tax.

Details of the Award of Restricted Shares are displayed on the Company's equity administration website in the Award Summary.

To execute this agreement and confirm your understanding and acceptance of the agreements contained you must click the Accept button.

Very truly yours,

Re: ***Grant of Performance Share Award***

CNO Financial Group, Inc., a Delaware corporation (the "***Company***"), is pleased to advise you that pursuant to the Company's Amended and Restated Long-Term Incentive Plan (the "***Plan***"), the Company has granted you an award of the number of performance share units set forth on the Company's stock plan administration vendor's website (the "***Award Summary***"), effective as of the date displayed on the Award Summary (the "***Grant Date***"), subject to the terms and conditions of the Plan and the terms and conditions set forth herein. Any capitalized terms used herein and not defined herein have the meaning set forth in the Plan.

1. **Performance Shares**. Each Performance Share represents the right to receive one share of the Company's Common Stock, par value \$.01 per share ("***Common Stock***"), plus Dividend Equivalents thereon (as described in Section 5(b) below) subject to satisfaction of the service and performance-based vesting criteria described in Section 3 below and Schedule A-1 of the Award Summary. Upon satisfaction of such vesting criteria, the shares of Common Stock that have vested will be issued to you, unless you have elected to defer receipt of any such shares in accordance with the terms and conditions of the Company's Deferred Compensation Plan, in which case the shares shall be issued in accordance with such deferral election. When issued, the shares of Common Stock shall be fully paid and nonassessable.

2. **Transfer Restrictions**. You may not sell, assign, transfer, convey, pledge, exchange or otherwise encumber or dispose of the Performance Shares, except to the Company. Any purported encumbrance or disposition in violation of the provisions of this Section 2 shall be void ab initio, and the other party to any such purported transaction shall not obtain any rights to or interest in the Performance Shares.

3. **Vesting of Performance Shares**.

(a) The Performance Shares shall vest (in whole or in part) based upon satisfying the vesting criteria set forth on Schedule A-1 of the Award Summary. Except as set forth below, underlying shares of Common Stock shall be issued to you only if you remain employed by the Company or a Subsidiary through the vesting date of the Performance Shares, which is anticipated to occur no later than March 15, 2020. Decisions regarding vesting and payment of the Performance Shares shall be final as determined by the Committee in its sole and absolute discretion.

(b) If you elect to terminate your employment with the Company or a Subsidiary and you satisfy the definition of Retirement set forth in the Plan, then a pro rata portion of the Performance Shares shall vest (based on the number of days from January 1, 2017 to and including the date of your Retirement divided by 1,095) and, to the extent the performance criteria

are met, such pro rata portion shall be paid at the same time as others receive shares of Common Stock under this award.

(c) If your employment is terminated by the Company or a Subsidiary due to your death or Disability, then a pro rata portion of the Performance Shares shall vest (based on the number of days from the beginning of the performance period to and including the date your employment is terminated) and, to the extent the performance criteria are met, such pro rata portion shall be paid at the same time as others receive shares of Common Stock under such award.

(d) Any Performance Shares that do not vest pursuant to Section 3(a) above shall be cancelled.

(e) In the event your employment is terminated by the Company or a Subsidiary without Cause or by you for Good Reason within six months prior to and in anticipation of or within 24 months after a Change in Control has occurred, a pro rata portion of any unvested Performance Shares shall vest (based on the number of days from the beginning of the performance period to and including the date your employment is terminated) on such date.

4. Forfeiture of Performance Shares. Except as set forth in Section 3(b) above or expressly set forth in any written agreement between you and the Company or a Subsidiary (whether entered into prior to or after the date of this letter agreement), if you cease to be an employee of the Company or a Subsidiary for any reason, except as and to the extent the Common Stock underlying the Performance Shares has been issued to you, you shall forfeit the remaining portion of the Performance Shares.

5. Dividend, Voting and Other Rights.

(a) Until issuance of shares of Common Stock pursuant to Section 1 hereof, you shall have no voting or other rights of a stockholder with respect to the Performance Shares.

(b) *Dividend Equivalents*. You shall have the right to receive Dividend Equivalents on Performance Shares that become vested hereunder, payable in cash without interest, to the extent that cash dividends are paid on the Common Stock underlying the Performance Shares after the date of this agreement and prior to the issuance of shares of Common Stock underlying the Performance Shares. Such Dividend Equivalents shall be subject to any required tax withholding, and shall be payable on or about such date or dates as the underlying Common Stock is issued to you in an amount equal to the number of shares of Common Stock delivered in respect of your vested Performance Shares multiplied by the aggregate per share dividends declared and paid after the date of this letter agreement and prior to the issuance of shares of Common Stock underlying the Performance Shares. If you have elected to defer receipt of any vested Performance Shares, you will receive Dividend Equivalents, payable in cash and subject to any required tax withholding, to the extent that cash dividends are paid on the Common Stock underlying such Performance Shares after the date of vesting and prior to the issuance of shares of Common Stock at the end of the deferral period.

6. Certain Definitions. For the purposes of this letter agreement, the following terms have the meanings set forth below:

“ Board ” means the Board of Directors of the Company.

“ Cause ” means the occurrence of one or more of the following events, as determined by the Committee:

- (i) commission of (x) a felony or (y) any crime or offense lesser than a felony involving the property of the Company or a Subsidiary; or
- (ii) conduct that has caused demonstrable and serious injury to the Company or a Subsidiary, monetary or otherwise; or
 - (iii) willful refusal to perform or substantial disregard of duties properly assigned; or
 - (iv) breach of duty of loyalty to the Company or a Subsidiary or other act of fraud or dishonesty with respect to the Company or a Subsidiary.

“ Change in Control ” means the occurrence of any of the following events:

- (i) the acquisition (other than an acquisition in connection with a "Non-Control Transaction" (as defined below)) by any "person" (as such term is used in Sections 13(d) and 14(d) of the Exchange Act) of "beneficial ownership" (as such term is defined in Rule 13d-3 promulgated under the Exchange Act), directly or indirectly, of securities of the Company or its Ultimate Parent representing 51% or more of the combined voting power of the then outstanding securities of the Company or its Ultimate Parent entitled to vote generally with respect to the election of the board of directors of the Company or its Ultimate Parent; or
- (ii) as a result of or in connection with a tender or exchange offer or contest for election of directors, individual board members of the Company (identified as of the date of commencement of such tender or exchange offer, or the commencement of such election contest, as the case may be) cease to constitute at least a majority of the board of directors of the Company; or
- (iii) the consummation of a merger, consolidation or reorganization with or into the Company unless (x) the stockholders of the Company immediately before such transaction beneficially own, directly or indirectly, immediately following such transaction securities representing 51% or more of the combined voting power of the then outstanding securities entitled to vote generally with respect to the election of the board of directors of the Company (or its successor) or, if applicable, the Ultimate Parent and (y) individual board members of the Company (identified as of the date that a binding agreement providing for such transaction is signed) constitute at least a majority of the board of directors of the Company (or its successor) or, if applicable, the Ultimate Parent (a transaction to which clauses (x) and (y) apply, a " ***Non-Control Transaction*** ").

“ Disability ” means that, solely because of injury or sickness, you are either: (i) unable to perform all the material duties of the occupation that you routinely performed just prior to the date the Disability begins; or (ii) unable to earn 80% or more of your annual salary in effect just prior to the date the Disability begins.

“ Good Reason ” means (i) any material diminution in the nature or scope of your authority, duties or responsibilities from those you had as of the date immediately preceding the Change in Control, (ii) requiring your relocation to a location more than 50 miles from your primary location of employment immediately preceding the Change in Control without your consent or (iii) any reduction in your base salary or target bonus opportunity without your consent.

“ Subsidiary ” means a subsidiary corporation, as defined in Section 424(f) of the Code (or any successor section thereto).

“ Ultimate Parent ” means the parent corporation (or if there is more than one parent corporation, the ultimate parent corporation) that, following a transaction, directly or indirectly beneficially owns a majority of the voting power of the outstanding securities entitled to vote with respect to the election of the board of directors of the Company (or its successor).

7. Withholding Taxes. If the Company or any Subsidiary shall be required to withhold any federal, state, local or foreign tax in connection with any issuance or vesting of Performance Shares or other securities pursuant to this agreement, and the amounts available to the Company or such Subsidiary for such withholding are insufficient, you shall pay the tax or make provisions that are satisfactory to the Company or such Subsidiary for the payment thereof. If permitted at such time by the Company, you may elect to satisfy all or any part of any such withholding obligation by surrendering to the Company or such Subsidiary a portion of the Performance Shares that become nonforfeitable hereunder, and the Performance Shares so surrendered by you shall be credited against any such withholding obligation at the Fair Market Value of the Common Stock underlying such Performance Shares on the date of such surrender.

8. No Special Right to Employment. Nothing in this agreement shall interfere with or limit in any way the right of the Company to terminate your employment or other performance of services at any time, nor confer upon you any right to continue in the employ or as a director or officer of, or in the performance of other services for, the Company or a Subsidiary for any period of time, or to continue your present (or any other) rate of compensation or level of responsibility. Nothing in this agreement shall confer upon you any right to be selected again as a Plan participant, and nothing in the Plan or this agreement shall provide for any adjustment to the number of Performance Shares upon the occurrence of subsequent events except as provided in the Plan.

9. Relation to Other Benefits. Any economic or other benefit to you under this agreement or the Plan shall not be taken into account in determining any benefits to which you may be entitled under any profit-sharing, retirement or other benefit or compensation plan maintained by the Company or a Subsidiary and shall not affect the amount of any life insurance coverage available to any beneficiary under any life insurance plan covering employees of the Company or a Subsidiary.

10. Amendments to Plan. Any amendment to the Plan shall be deemed to be an amendment to this agreement to the extent that the amendment is applicable hereto; provided, however, that no amendment shall adversely affect the your rights under this agreement without your consent.

11. Severability. Whenever possible, each provision of this agreement shall be interpreted in such manner as to be effective and valid under applicable law, but if any provision of this agreement is held to be prohibited by or invalid under applicable law, such provision shall be ineffective only to the extent of such prohibition or invalidity, without invalidating the remainder of this agreement.

12. Conformity with Plan. This agreement and the Performance Shares granted pursuant hereto are intended to conform in all respects with, and are subject to all applicable provisions of, the Plan (which is incorporated herein by reference). Inconsistencies between this agreement and the Plan shall be resolved in accordance with the terms of the Plan. By accepting this grant of Performance Shares on the Company's equity administration website, you acknowledge your receipt of this agreement and the Plan and agree to be bound by all of the terms of this agreement and the Plan.

13. Successors and Assigns. Except as otherwise expressly provided herein, all covenants and agreements contained in this agreement by or on behalf of any of the parties hereto shall bind and inure to the benefit of the respective successors and permitted assigns of the parties hereto whether so expressed or not.

14. Notices. All notices, demands or other communications to be given or delivered under or by reason of the provisions of this agreement shall be in writing and shall be deemed to have been given when (i) delivered personally, (ii) mailed by certified or registered mail, return receipt requested and postage prepaid or (iii) sent by reputable overnight courier, to the recipient. Such notices, demands and other communications shall be sent to you at the address on file with the Company and to the Company at 11825 N. Pennsylvania Street, P.O. Box 1911 (46082), Carmel, Indiana 46032, Attn: General Counsel, or to such other address or to the attention of such other person as the recipient party has specified by prior written notice to the sending party.

15. Governing Law. THE VALIDITY, CONSTRUCTION, INTERPRETATION, ADMINISTRATION AND EFFECT OF THE PLAN, AND OF ITS RULES AND REGULATIONS, AND RIGHTS RELATING TO THE PLAN AND TO THIS AGREEMENT, SHALL BE DETERMINED IN ACCORDANCE WITH THE LAWS OF THE STATE OF DELAWARE, WITHOUT GIVING EFFECT TO PRINCIPLES OF CONFLICTS OF LAWS, AND APPLICABLE PROVISIONS OF FEDERAL LAW.

16. Descriptive Headings. The descriptive headings of this agreement are inserted for convenience only and do not constitute a part of this agreement.

17. Entire Agreement. This agreement, any written agreement between you and the Company or a Subsidiary to the extent contemplated by Section 4 hereof, and the terms of the Plan constitute the entire understanding between you and the Company, and supersede all other agreements, whether written or oral, with respect to your acquisition of the Performance Shares.

18. Section 409A. The Performance Shares awarded hereunder are intended to comply with Section 409A of the Code, as provided under the Plan. In accordance therewith, to the extent that Section 409A(a)(2)(B)(i) (regarding certain payments to "key employees" in connection with a separation from service) requires the Company to delay payment and /or

delivery of shares of Common Stock in respect of your vesting Performance Shares beyond the date(s) otherwise specified in this agreement, the Company shall pay such amounts to you upon the earliest date permitted under 409A(a)(2)(B)(i) of the Code with incurring excise tax.

Details of the Award are set forth in the Award Summary.

Ratio of earnings to fixed charges	2.55X	2.43X

(a) Interest portion of rental is estimated to be 33 percent.

CERTIFICATION

I, Edward J. Bonach, certify that:

1. I have reviewed this quarterly report on Form 10-Q of CNO Financial Group, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary in order to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
