ABOUT THIS PROSPECTUS

This prospectus is part of a registration statement that we filed with the Securities and Exchange Commission utilizing a "shelf" registration process, or continuous offering process. Under this shelf registration process, the selling securityholders may, from time to time, sell the shares of our Class A common stock set forth in this prospectus in one or more offerings. Each time a selling securityholder sells securities using this prospectus, the selling securityholder is required to provide the purchaser with this prospectus and, in certain cases, a prospectus supplement containing specific information about the selling securityholder and the securities being offered. That prospectus supplement may include additional risk factors or other special considerations applicable to the securities. Any prospectus supplement may also add, update or change information in this prospectus. If there is any inconsistency between the information in this prospectus and any prospectus supplement, you should rely on the information in that prospectus supplement. You should read both this prospectus and any prospectus supplement together with additional information described under "Where You Can Find More Information" and "Incorporation of Certain Documents by Reference."

Except as otherwise indicated or required by the context, references in this prospectus to "we," "us," "our," "Nelnet" or the "Company" refer to Nelnet, Inc. and its subsidiaries.

The Nelnet logo is a trademark of Nelnet, Inc. This prospectus contains other trade names, trademarks and service marks of Nelnet and of other companies.

You should rely only on the information contained in this prospectus. We have not authorized anyone to provide you with information that is different from that contained in this prospectus. The selling securityholders may offer to sell, and seek offers to buy, the shares only in jurisdictions where offers and sales are permitted. The information contained in this prospectus is accurate only as of the date of this prospectus or the date of the document incorporated by reference, as applicable, regardless of the time of delivery of this prospectus or any sale of the shares.

CAUTIONARY INFORMATION ABOUT FORWARD-LOOKING STATEMENTS

You should carefully consider the risk factors referred to under the heading "Risk Factors" in this prospectus, and the risk factors included in the documents incorporated by reference in this prospectus. This prospectus, including the documents incorporated by reference in this prospectus, contains statements that may be deemed "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. All statements other than statements of historical fact included or incorporated by reference in this prospectus regarding our financial position, business strategy and plans and objectives for future performance are forward-looking statements. You can identify these statements by the fact that they do not relate strictly to historical or current facts. Forward-looking statements are commonly identified by the use of such terms and phrases as "intends," "believes," "estimates," "expects," "projects," "anticipates," "foreseeable future," "seeks," and words or phrases of similar import in connection with any discussion of future operating or financial performance. You should read statements that contain these words carefully because they discuss future actions, future performance or results of current and anticipated services, sales efforts, expenses, and financial results or state other forward-looking information.

We believe that it is important to communicate our future expectations to our investors and potential investors. However, any or all of our forward-looking statements in this prospectus, and in the documents incorporated by reference in this prospectus, are subject to certain risks and uncertainties that could cause actual results to differ materially from those projected. These forward-looking statements can be affected by inaccurate assumptions we might make, by risks and uncertainties, or by changes in the terms of student loans and the educational credit marketplace arising from the implementation of, or changes in, applicable laws and regulations, which may reduce the volume, average term, and costs of yields on student loans under the Federal Family Education Loan Program (the "FFEL Program" or "FFELP") of the U.S. Department of Education (the "Department") or result in loans being originated or refinanced under non-FFEL programs or may affect the terms upon which banks and others agree to sell FFELP loans to us. We could also be affected by changes in the demand for educational financing or in financing preferences of lenders, educational institutions, students, and their families; changes in the general interest rate environment and in the securitization markets for education loans, which may increase the costs or limit the availability of financings necessary to initiate, purchase, or carry education loans; losses from loan defaults; and changes in prepayment rates and credit spreads; and the uncertain nature of the expected benefits from acquisitions and the ability to successfully integrate operations. For a more detailed discussion of these and other factors affecting us, see the factors referred to under the heading "Risk Factors" in this prospectus and in the risk factors included in the documents incorporated by reference in this prospectus. Consequently, no forward-looking statement can be guaranteed. Our actual future results may vary materially. In addition, other factors besides those described or incorporated by reference in this prospectus could also adversely affect operating or financial performance. You should assume that the information appearing or incorporated by reference in this prospectus is accurate only as of the date on the front cover of this prospectus or the date of the document incorporated by reference, as applicable. We undertake no obligation to publicly update any forward-looking statement, whether as a result of new information, future events or otherwise.

PLAN OF DISTRIBUTION

We will not receive any of the proceeds of the sale of the shares of Class A common stock offered by this prospectus. As used herein, the term selling securityholders includes their transferees, pledgees, donees, and successors-in-interest. The shares of Class A common stock may be sold from time to time by selling securityholders to purchasers:

o directly; or

o through underwriters, broker-dealers or agents who may receive compensation in the form of discounts, concessions or commissions.

The selling securityholders and any underwriters, broker-dealers or agents who participate in the distribution of the Class A common stock may be deemed to be "underwriters" within the meaning of the Securities Act. As a result, any profits on the sale of the Class A common stock by selling securityholders and any discounts, commissions or concessions received by any such broker-dealers or agents may be deemed to be underwriting discounts and commissions under the Securities Act. If the selling securityholders were deemed to be underwriters, the selling securityholders may be subject to statutory liabilities including, but not limited to, those of Sections 11, 12 and 17 of the Securities Act and Rule 10b-5 under the Exchange Act.

If the shares of Class A common stock are sold through underwriters, broker-dealers, or agents, the selling securityholders will be responsible for underwriting discounts or commissions or agent's commissions.

The shares of Class A common stock may be sold in one or more transactions at:

o fixed prices;

o prevailing market prices at the time of sale;

o varying prices determined at the time of sale; or

o negotiated prices.

These sales may be effected in transactions:

o on any national securities exchange or quotation service on which the Class A common stock may be listed or quoted at the time of the sale, including the New York Stock Exchange;

o in the over-the-counter market; or

o in transactions otherwise than on such exchanges or services or in the over-the-counter market.

These transactions may include block transactions or crosses. Crosses are transactions in which the same broker acts as an agent on both sides of the transaction.

In connection with the sales of shares of Class A common stock or otherwise, the selling securityholders may enter into hedging transactions with broker-dealers or other financial institutions. The broker-dealers may in turn engage in short sales of the Class A common stock in the course of hedging their positions. The selling securityholders may also sell the Class A common stock short and deliver Class A common stock to close out short positions, or loan or pledge Class A common stock to broker-dealers that, in turn, may sell the Class A common stock. Such sales may include purchases by a broker-dealer as principal and resale by the broker-dealer of its account, and broker-dealers may agree with a selling securityholder to sell a specified number of shares at a stipulated price per share.

To our knowledge, there are currently no plans, arrangements or understandings between any selling securityholders and any underwriter, broker-dealer or agent regarding the sale of the Class A common stock by the selling securityholders. Selling securityholders may decide not to sell all or a portion of the Class A common stock offered by them pursuant to this prospectus or may decide not to sell Class A common stock under this prospectus. In addition, any selling securityholder may transfer, devise or give the Class A common stock by other means not described in this prospectus. Any shares of Class A common stock covered by this prospectus that qualify for sale pursuant to Rule 144 under the Securities Act or other available exemptions from the registration requirements of the Securities Act may be sold under Rule 144 or such other exemptions rather than pursuant to this prospectus.

The aggregate proceeds to the selling securityholders from the sale of the Class A common stock offered pursuant to this prospectus will be the purchase price of such Class A common stock less discounts and commissions, if any. Each of the selling securityholders reserves the right to accept and, together with their agents from time to time, reject, in whole or part, any proposed purchase of Class A common stock to be made directly or through their agents. We will not receive any of the proceeds from this offering.

The selling securityholders and any other persons participating in the distribution of the Class A common stock will be subject to the Exchange Act and the rules and regulations thereunder. The Exchange Act rules include, without limitation, Regulation M, which may limit the timing of purchases and sales of any of the Class A common stock by the selling securityholders and any such other person. Regulation M of the Exchange Act may restrict the ability of any person engaged in the distribution of the Class A common stock to engage in market-making activities with respect to the particular Class A common stock being distributed for a period of up to five business days prior to the commencement of such distribution. This may affect the marketability of the Class A common stock and the ability to engage in market-making activities with respect to the Class A common stock. We have informed the selling securityholders listed in this prospectus of the restrictions imposed by Regulation M and the selling securityholders have agreed to comply with Regulation M in connection with any offer or sale of the securities covered by this prospectus.

Although we have a stock repurchase program for the repurchase from time to time of shares of our Class A common stock, in order to ensure compliance with Regulation M of the Exchange Act we will not conduct any repurchases of our Class A common stock during any relevant time period in which any of the selling securityholders who are considered to be affiliates of us notify us that they are selling their shares of Class A common stock pursuant to this prospectus.

If requested by any selling securityholder or its representative and required with respect to a particular offering of the Class A common stock, the names of the selling securityholders, the respective purchase prices and public offering prices, the names of any agent, dealer or underwriter, and any applicable commissions or discounts related to the particular offer will be set forth in an accompanying prospectus supplement or, if appropriate, a post-effective amendment to the registration statement of which this prospectus is a part.

We have agreed to pay substantially all of the expenses incidental to the registration, offering and sale of the shares of Class A common stock offered under this prospectus to the public, other than underwriting discounts, commissions and fees and certain legal expenses, which will be paid by the selling securityholders.
