Caution Concerning Forward-Looking Statements

This current report on Form 8-K contains forward-looking statements as that term is used in the Private Securities Litigation Reform Act of 1995. These statements are based on our current expectations about future events or future financial performance. Forward-looking statements by their nature address matters that are, to different degrees, uncertain, and often contain words such as "may," "could," "expect," "intend," "plan," "seek," "anticipate," "believe," "estimate," "predict," "potential," or "continue." These statements involve known and unknown risks and uncertainties that may cause the events we discuss not to occur or to differ significantly from what we expect. For us, these risks and uncertainties include, among others,

- general industry conditions and competition, including ongoing economic weakness and uncertainty;
- the effect of market volatility on revenue from asset-based fees;
- damage to our reputation resulting from claims made about possible conflicts of interest;
- liability for any losses that result from an actual or claimed breach of our fiduciary duties;
- the increasing concentration of data and development work carried out at our offshore facilities in China and India;
- failure to differentiate our products and continuously create innovative, proprietary research tools;
- failure to successfully integrate acquisitions;
- challenges faced by our non-U.S. operations; and
- a prolonged outage of our database and network facilities.

A more complete description of these risks and uncertainties can be found in our Annual Report on Form 10-K for the year ended December 31, 2010. If any of these risks and uncertainties materialize, our actual future results may vary significantly from what we expect. We do not undertake to update our forward-looking statements as a result of new information or future events.
