FOR IMMEDIATE RELEASE

Western Union Reports Third Quarter 2026 Results

- ***GAAP revenue of $1.0 billion, down 2% versus the prior year period; adjusted revenue down 1%***
- ***Branded Digital revenue grew 8% on both GAAP and on an adjusted basis***
- ***Consumer Services GAAP revenue declined 2%; or grew 5% on an adjusted basis***
- ***GAAP EPS of $0.25, or adjusted EPS of $0.42***

DENVER, November 4, 2026 – The Western Union Company (the "Company" or "Western Union") (NYSE: WU) today reported third quarter 2026 financial results.

The Company's third-quarter revenue of $1.0 billion decreased 2% on a reported basis, while adjusted revenue declined 1% compared to the prior year period. The decline in adjusted revenue was largely driven by a slowdown in the North America retail business partially offset by growth in our Branded Digital and Consumer Services businesses.

"As we move through the second half of the year, we continue to make progress against our Beyond strategy," said Devin McGranahan, President and Chief Executive Officer. "Importantly, the initiatives we launched in the second quarter are streamlining our cost structure and have begun to materialize in our financial results. At the same time, we continue to invest in growth, including expanding our digital capabilities, embedding AI across key operational processes, and advancing our stablecoin and next-generation money movement initiatives. We are beginning to see the impact of all of these efforts and remain confident in our ability to improve performance and create long-term shareholder value."

Third quarter GAAP EPS was $0.25, down from $0.43 in the prior year period. The decrease in the GAAP EPS was primarily due to lower revenues and higher one-time expenses related to our Beyond efficiency program and a higher GAAP tax rate, partially offset by lower shares outstanding. Adjusted EPS was $0.42 in the third quarter, down from $0.47 in the prior year period. The Adjusted EPS in the current year period was affected by lower revenues and higher expenses from our Consumer Money Transfer ("CMT") retail business, partially offset by a lower adjusted tax rate and lower shares outstanding in the quarter.

Q3 Business Results

- Branded Digital revenue increased 8% on both a GAAP and an adjusted basis, with transaction growth of 21% compared to the prior year period. The Branded Digital business represented 32% and 45% of total CMT revenues and transactions in the third quarter, respectively.

- Consumer Services segment revenue declined 2% on a GAAP basis or grew 5% on an adjusted basis compared to the prior year period. The increase in adjusted revenue was driven by higher revenues from our bill payment and check cashing businesses, partially offset by slowdown in our money order and media network businesses.

- CMT segment revenue decreased 2% on both a GAAP and an adjusted basis, while transactions grew 2% compared to the prior year period.

Q3 Financial Results

- GAAP operating margin in the quarter was 13%, compared to 20% in the prior year period, while the adjusted operating margin was 18%, compared to 20% in the prior year period. GAAP and adjusted operating margins in the current year period were impacted by lower revenues from our CMT retail business, and higher operating expenses.

- GAAP effective tax rate was 19%, compared to 17% in the prior year period. The increase in the GAAP effective tax rate was primarily due to changes in forecasted full-year pre-tax income, including the expected geographic mix of income among jurisdictions. The adjusted effective tax rate was 9%, compared to 12% in the prior year period. The decrease in the adjusted effective tax rate was primarily due to discrete expenses in the prior year period, partially offset by the proportional impact of the lower forecasted full-year pre-tax income.

Business Development

On August 10, 2025, the Company entered into an agreement (the “Merger Agreement”) to acquire International Money Express, Inc. (“Intermex”) (the “Merger”). Western Union and Intermex continue to engage in discussions with the California Department of Financial Protection and Innovation (the “DFPI”), regarding reinstatement of DFPI’s approval of the Merger. The Merger is subject to the reinstatement of the DFPI’s approval and the satisfaction or waiver of the other customary closing conditions set forth in the Merger Agreement. The Merger Agreement contains termination rights for the Company and Intermex, including the right of either party to terminate the Merger Agreement if the Merger is not completed by November 10, 2026.

2026 Outlook

The Company is updating the financial outlook for full year 2026. Our outlook assumes no material changes in macroeconomic conditions, including changes in immigration policies, foreign currencies, Argentina inflation, or any prolonged impact or escalations of the ongoing conflicts in the Middle East.

	2026 Outlook Including Intermex[1]		2026 Outlook Excluding Intermex[2]	
	GAAP	**Adjusted**	**GAAP**	**Adjusted**
Revenue[3]	0% to 1%	0% to 1%	(2)% to (1)%	(2)% to (1)%
EPS[4]	NA[5]	$1.28 to $1.38	NA[5]	$1.28 to $1.38

[1] "2026 Outlook Including Intermex" includes an assumption that the Intermex transaction closes on November 10th, 2026.

[2] "2026 Outlook Excluding Intermex" assumes the Intermex transaction does not close during fiscal year 2026.

[3] Adjusted revenue growth excludes the impact of currency and Argentina inflation in quarters when hyperinflationary (over 50% within a quarter).

[4] The GAAP effective tax rate is expected to be 20% to 22% and the adjusted effective tax rate is expected to be 10% to 12%.

[5] The Company has not provided a quantitative reconciliation of forecasted adjusted earnings per share to forecasted GAAP earnings per share because the Company cannot, without unreasonable effort, calculate certain reconciling items with confidence due to the variability, complexity, and limited visibility of the adjusting items that would be excluded from forecasted earnings per share. These items include but are not limited to: severance and other employee termination costs; acquisition, separation, and integration costs; amortization and impairment of acquisition-related intangible assets; and income taxes associated with these adjustments. The variability of these items could have a significant impact on the Company's future GAAP financial results.

Non-GAAP Measures

Western Union presents non-GAAP financial measures because management believes that these metrics provide meaningful supplemental information in addition to the GAAP metrics and provide comparability and consistency to prior periods. Constant currency revenues translate revenues denominated in foreign currencies to the United States dollar, net of the effect of foreign currency hedges, at rates consistent with those in the prior year. Beginning in the second quarter of 2025, the Company no longer excludes the estimated impact of Argentina inflation from its non-GAAP results, reflecting the significant moderation in inflation from levels above 200% in recent years to below 50%.

Reconciliations of non-GAAP to comparable GAAP measures are available in the accompanying schedules and in the "Investor Relations" section of the Company's website at https://ir.westernunion.com.

Additional Statistics

Additional key statistics for the quarter and historical trends can be found in the supplemental tables included with this press release. All amounts included in the supplemental tables to this press release are rounded to the nearest tenth of a million, except as otherwise noted. As a result, the percentage changes and margins disclosed herein may not recalculate precisely using the rounded amounts provided.

Investor and Analyst Conference Call and Presentation

The Company will host a conference call and webcast at 4:30 p.m. ET today.

The webcast and presentation will be available at https://ir.westernunion.com. Registration for the event is required, so please register at least 15 minutes prior to the scheduled start time. A webcast replay will be available shortly after the event.

To listen to the webcast, please visit the Investor Relations section of the Company's website or use the following link: Webcast Link. Alternatively, participants may join via telephone. In the U.S., dial +1 (719) 359-4580, followed by the meeting ID, which is 993 4375 8511, and the passcode, which is 776276. For participants outside the U.S., dial the country number from the international directory, followed by the meeting ID, which is 993 4375 8511, and the passcode, which is 776276.

Safe Harbor Compliance Statement for Forward-Looking Statements

This press release contains certain statements that are forward-looking within the meaning of the Private Securities Litigation Reform Act of 1995. These statements are not guarantees of future performance and involve certain risks, uncertainties, and assumptions that are difficult to predict. Actual outcomes and results may differ materially from those expressed in, or implied by, our forward-looking statements. Words such as "expects," "intends," "targets," "anticipates," "believes," "estimates," "guides," "provides guidance," "provides outlook," "projects," "designed to," and other similar expressions or future or conditional verbs such as "may," "will," "should," "would," "could," and "might" are intended to identify such forward-looking statements. Readers of this press release of The Western Union Company (the "Company," "Western Union," "we," "our," or "us") should not rely solely on the forward-looking statements and should consider all uncertainties and risks discussed in the Risk Factors section of our Annual Report on Form 10-K for the year ended December 31, 2025 and in our subsequent filings with the Securities and Exchange Commission. The statements are only as of the date they are made, and the Company undertakes no obligation to update any forward-looking statement.

Possible events or factors that could cause results or performance to differ materially from those expressed in our forward-looking statements include the following: changes in economic conditions, trade disruptions, or significantly slower growth or declines in the money transfer, payment service, and other markets in which we operate; interruptions in migration patterns, slowdown in travel, or other events, such as public health emergencies, any changes arising as a result of policy changes in the United States and/or other key markets, civil unrest, war, terrorism, natural disasters, or non-performance by our banks, lenders, insurers, or other financial services providers; failure to compete effectively in the money transfer and payment service industry, including among other things, with respect to digital, mobile and internet-based services, card associations, and card-based payment providers, and with digital currencies, including cryptocurrencies; geopolitical tensions, political conditions, armed conflicts or wars, and related actions, including trade restrictions, tariffs, and government sanctions; deterioration in customer confidence in our business; failure to maintain our agent network and business relationships; our ability to adopt new technology; the development, deployment, and use of AI, machine learning, and automated decision-making technologies in our operations, including risks or unintended outcomes; the failure to realize anticipated financial benefits from mergers, acquisitions and divestitures; decisions to change our business mix; exposure to foreign exchange rates; changes in tax laws, or their interpretation, and unfavorable resolution of tax contingencies; cybersecurity incidents involving any of our systems or those of our vendors or other third parties; cessation of or defects in various services provided to us by third-party vendors; our ability to realize the anticipated benefits from restructuring-related initiatives; our ability to attract and retain qualified key employees; failure to manage credit and fraud risks presented by our agents, clients, and consumers; adverse rating actions by credit rating agencies; our ability to protect our intellectual property rights, and to defend ourselves against potential intellectual property infringement claims; material changes in the market value or liquidity of securities that we hold; restrictions imposed by our debt obligations; liabilities or loss of business resulting from a failure by us, our agents, or their subagents to comply with laws and regulations and regulatory or judicial interpretations thereof; increased costs or loss of business due to regulatory initiatives and changes in laws, regulations, and industry practices and standards; developments resulting from governmental investigations and consent agreements with, or investigations or enforcement actions by, regulators and other government authorities; liabilities resulting from litigation; failure to comply with regulations and evolving industry standards regarding data privacy; failure to comply with consumer protection laws; effects of unclaimed property laws or their interpretation or the enforcement thereof; failure to comply with working capital requirements; changes in accounting standards, rules and interpretations; and other unanticipated events and management's ability to identify and manage these and other risks. Important factors that could cause Western Union's or the combined company's actual results to differ materially from the results referred to in the forward-looking statements in this release include: the possibility that the conditions to the consummation of the proposed acquisition of Intermex (the "Proposed Acquisition") will not be satisfied on the terms or timeline expected, or at all; failure to obtain, or delays in obtaining, or adverse conditions related to obtaining regulatory approvals sought in connection with the Proposed Acquisition; dependence on key agents and the potential effects of network disruption; the possibility that we may be unable to achieve expected benefits, synergies and operating efficiencies in connection with the Proposed Acquisition; continued availability of capital and other changes in capital markets; potential litigation or regulatory actions relating to the Proposed Acquisition, which could result in significant costs of defense, indemnification, and liability; the risk that disruptions from the Proposed Acquisition, such as diverting management's attention from the ongoing business operations and relationships of Western Union or Intermex, may harm our business, including current plans and operations, the market price of our capital stock, or our operating results; and failure to retain key management.

Segment operating income margin:						
Consumer Money Transfer	17%	20%	(3)%	15%	19%	(4)%
Consumer Services	21%	22%	(1)%	16%	23%	(7)%

(a) Represents severance costs not related to acquisition, separation, and integration activities, and the Company's Beyond efficiency program, which have been excluded from the segments as management excludes severance in making operating decisions, including allocating resources to the Company's segments.

(b) Represents the impact from expenses incurred in connection with the Company's acquisition and divestiture activity, including for the review and closing of these transactions, and integration costs directly related to the Company’s acquisitions, such as severance and consulting costs.

(c) Represents the non-cash amortization of acquired intangible assets in connection with recent business acquisitions.

(d) Represents the costs associated with operating the Company's Russian entity. In 2024, the Company decided to pursue either liquidating or selling its Russian assets. During 2025, the Company signed a definitive sale agreement, as amended. The final regulatory approval for the sale was received in October 2026, and the Company anticipates closing the transaction as soon as reasonably practicable upon satisfaction of remaining closing conditions.

(e) Represents the one-time costs associated with the Company's Beyond efficiency program which was previously announced in July 2026, including employee termination costs related to a voluntary retirement program initiated in the United States, severance costs related to relocating one of the Company's regional operating centers, and other workforce reductions.

(f) Calculation not meaningful.

[1] Beginning with the second quarter of 2025, the Company no longer adjusts for the estimated impact of Argentinian hyperinflation in its non-GAAP revenue results, as inflation in the country has moderated significantly - from over 200% in recent years to less than 50% since the second quarter of 2025.
[2] Beginning with the second quarter of 2026, Branded Digital revenues and transactions include digital wallet remittances. As a result, percentages for the second quarter of 2026 differ from those previously disclosed.

THE WESTERN UNION COMPANY

NOTES TO KEY STATISTICS

(Unaudited)

(in millions, unless indicated otherwise)

Western Union's management believes the non-GAAP financial measures presented within this press release and related tables provide meaningful supplemental information regarding the Company's results to assist management, investors, analysts, and others in understanding the Company's financial results and to better analyze operating, profitability, and other financial performance trends in the Company's underlying business because they provide consistency and comparability to prior periods or eliminate currency volatility, increasing the comparability of the Company's underlying results and trends.

A non-GAAP financial measure should not be considered in isolation or as a substitute for the most comparable GAAP financial measure. A non-GAAP financial measure reflects an additional way of viewing aspects of the Company's operations that, when viewed with the Company's GAAP results and the reconciliation to the corresponding GAAP financial measure, provides a more complete understanding of the Company's business. Users of the financial statements are encouraged to review the Company's financial statements and publicly-filed reports in their entirety and not to rely on any single financial measure. A reconciliation of non-GAAP financial measures to the most directly comparable GAAP financial measures is included below, where not previously reconciled above.

Foreign currency translation impact	(j)	0%	0%
Revenues, adjusted (non-GAAP) - YoY % change (Excluding Intermex)		(2)%	(1)%

		Range	
Effective tax rate (GAAP)		20%	22%
Non-cash tax impacts of international reorganization	(r)	(12)%	(12)%
Other adjustments	(l), (m), (n), (q), (s)	2%	2%
Effective tax rate, adjusted (non-GAAP)		10%	12%

Non-GAAP related notes:

(j) Represents the impact from the fluctuation in exchange rates between all foreign currency denominated amounts and the United States dollar. Constant currency results exclude any benefit or loss caused by foreign exchange fluctuations between foreign currencies and the United States dollar, net of foreign currency hedges, which would not have occurred if there had been a constant exchange rate. Constant currency results also reflect the impact of Argentina inflation, where indicated, due to its economy being hyperinflationary. The Company estimates Argentina inflation as the revenue growth not attributable to either transaction growth or the change in price (revenue divided by principal). Argentina inflation has historically had a more significant impact to revenues in the Company's Consumer Services segment, as proportionally, there are higher revenues generated from Argentina in the Company's Consumer Services segment, relative to its Consumer Money Transfer segment. Beginning with the second quarter of 2025, the Company no longer adjusts for the estimated impact of Argentinian hyperinflation in its non-GAAP revenue results, as inflation in the country has moderated significantly - from over 200% in recent years to less than 50% since the second quarter of 2025.

(k) Adjusted Earnings Before Interest, Taxes, Depreciation, and Amortization ("EBITDA") results from taking operating income and adjusting for non-cash depreciation and amortization and stock-based compensation expenses, as well as other items that are not included in the measurement of segment operating income provided to the CODM for purposes of performance assessment and resource allocation. Adjusted EBITDA results provide an additional performance measurement calculation which helps neutralize the operating income effects of assets acquired in prior periods, and other items that are excluded from the Company's segment operating income results.

(l) Represents the impact from expenses incurred in connection with the Company's acquisition activity, including for the review and closing of these transactions, and integration costs directly related to the Company's acquisitions, such as severance and consulting costs. The expenses are not included in the measurement of segment operating income provided to the Chief Operating Decision Maker ("CODM") for purposes of performance assessment and resource allocation.

(m) Represents the non-cash amortization of acquired intangible assets in connection with recent business acquisitions. The expenses are not included in the measurement of segment operating income provided to the CODM for purposes of performance assessment and resource allocation. These expenses are therefore excluded from the Company's segment operating income results.

(n) While the Company had previously made a decision to suspend its operations in Russia, in the third quarter of 2024, the Company decided to pursue either liquidating or selling the Russian assets. Amounts presented include the costs associated with operating the Russian entity which are no longer needed for the Company's ongoing operations. These expenses have only been incurred in order to complete the liquidation or possible sale of the Russian assets. During 2025, the Company signed a definitive sale agreement, as amended. The final regulatory approval for the sale was received in October 2026, and the Company anticipates closing the transaction as soon as reasonably practicable upon satisfaction of remaining closing conditions. Additionally, where indicated, the Company has excluded the impact of the foreign currency remeasurement of the Russian ruble because of the decision to liquidate or sell the Russian assets. These costs are not included in the measurement of segment operating income provided to the CODM for purposes of performance assessment and resource allocation.

(o) In the third quarter of 2024, the Company entered into a settlement with the IRS regarding the Company's 2017 and 2018 federal income tax returns. The Company is contesting the one remaining unagreed adjustment in the U.S. Tax Court and has fully reserved for this unagreed adjustment. In the third and fourth quarters of 2025, the Company recorded non-cash state tax benefits and interest accruals, both of which were associated with the previous federal tax settlement and are excluded from adjusted effective tax rate and adjusted earnings per share.

(p) Represents revenues from transactions originated in Iraq. Beginning in March 2023, the Company experienced a significant increase in its business originating from Iraq. The Company believes this volume to have been the effect of policy changes by United States and Iraqi regulators. In July 2023, the United States Treasury and the Federal Reserve Bank of New York announced actions that banned 14 Iraqi banks, some of whom were the Company's agents, from conducting U.S. dollar transactions. Additionally, in October 2023, the Central Bank of Iraq suspended the Company's largest agent in the country, although that agent was later reinstated and resumed offering the Company's services. The effect of fluctuations between the Iraqi dinar and United States dollar on reported revenues was not significant for these periods. Because of the significant volatility in revenues and disruptions in offering the Company's services in the country, management believes that revenue measures that exclude the Iraq revenues provide better consistency and comparability to prior periods and assist in understanding trends in the Company's ongoing revenues.

(q) Represents severance costs not related to acquisition, separation, and integration activities, and the Company's Beyond efficiency program, which have been excluded from the segments as management excludes severance in making operating decisions, including allocating resources to the Company's segments. Management excludes severance costs in its measurement of non-GAAP profitability to focus on those factors it believes to be most relevant to the Company's operations.

(r) In the fourth quarter of 2024, the Company reorganized the international operations of its business to realign and consolidate the Company's international activities. The Company recognized deferred tax assets, net of valuation allowance, associated with this reorganization, including deferred tax assets from the step-up in tax basis associated with the reorganization. The Company has excluded the non-cash recognition of the deferred tax assets associated with this reorganization because of the significance of this

recognition on its reported results. The Company has also removed the non-cash reversal of these deferred tax assets from its adjusted net income, adjusted effective tax rate, adjusted earnings per share, and adjusted earnings per share outlook.

(s) Represents the one-time costs associated with the Company's Beyond efficiency program which was previously announced in July 2026, including employee termination costs related to a voluntary retirement program initiated in the United States, severance costs related to relocating one of the Company's regional operating centers, and other workforce reductions.

(t) Represents the costs associated with the Company's stock-based compensation expense not included in severance costs and the Company's Beyond efficiency program.

Other notes:

(aa) Geographic split for transactions and revenue, including transactions initiated digitally, is determined entirely based upon the region where the money transfer is initiated.

(bb) Represents the North America (United States and Canada) (“NA”) region of the Company's Consumer Money Transfer segment.

(cc) Represents the Europe and the Commonwealth of Independent States (“EU & CIS”) region of the Company's Consumer Money Transfer segment.

(dd) Represents the Middle East, Africa, and South Asia (“MEASA”) region of the Company's Consumer Money Transfer segment, including India and certain South Asian countries, which consist of Bangladesh, Bhutan, Maldives, Nepal, and Sri Lanka.

(ee) Represents the Latin America and the Caribbean (“LACA”) region of the Company’s Consumer Money Transfer segment, including Mexico.

(ff) Represents the Asia Pacific (“APAC”) region of the Company’s Consumer Money Transfer segment.

(gg) Represents transactions marketed under the Company’s brands and initiated through its or its third-party digital partners’ websites and mobile applications (“Branded Digital”). The Company excludes transactions and revenues generated from Iraq websites and mobile applications from the definition of Branded Digital, given the significant volatility in that business and disruptions in offering services in the country.
