Recent Business Highlights

- **Expanded Video Doorbell Product Line:** The new VDB775 video doorbell is a premium front-door security solution designed to drive upgrades and adoption of higher-tier, AI-driven video subscriptions. It supports Alarm.com's full suite of advanced Video Analytics capabilities, including Familiar Faces, and offers streamlined installation capabilities.
- **Released Gen-AI Video Search Tool:** Commercial and Residential subscribers to advanced video subscription tiers can now use natural language queries to easily search saved video events and quickly find important events captured by Alarm.com and third-party video cameras.
- **Commercial Business Passes 2 Million Active Video Devices Milestone in 2025:** Alarm.com for Business and OpenEye now support more than 2 million active video cameras and devices across a broad base of commercial customers—from small and medium businesses to enterprises. The growing installation base reflects continued strong adoption of cloud-based video solutions that can improve security outcomes, deliver business intelligence insights, and streamline the management and monitoring of integrated systems across the property.
- **EnergyHub Delivered Grid Flexibility at Scale in 2025:** EnergyHub delivered large-scale flexibility that supported grid reliability amid unprecedented stress caused by record heat in parts of the United States, surging demand and aging infrastructure. With over 2.5 million distributed energy resources under management, the EnergyHub platform shifted

approximately 38,000 MWh of load across more than three thousand events during the year. EnergyHub's growth reflects the unique value and capabilities of its integrated platform that can address a growing range of grid challenges.

- **Acquired Resideo Grid Services (RGS):** The acquisition of RGS, a provider of demand response aggregation and program management services for utilities, builds on EnergyHub's leading position in the market for grid-edge flexibility solutions. RGS clients can leverage EnergyHub's integrated platform to manage a broad ecosystem of distributed energy resources and rapidly deploy advanced load-shaping solutions.

Financial Outlook

Alarm.com is providing its outlook for SaaS and license revenue for the first quarter of 2026 and its guidance for the full year 2026 based upon current management expectations.

For the first quarter of 2026:

- SaaS and license revenue is expected to be in the range of \$175.8 million to \$176.0 million.

For the full year 2026:

- SaaS and license revenue is expected to be in the range of \$743.0 million to \$745.0 million.
- Total revenue is expected to be in the range of \$1.0580 billion to \$1.0650 billion, which includes anticipated hardware and other revenue in the range of \$315.0 million to \$320.0 million.
- Non-GAAP adjusted EBITDA is expected to be in the range of \$213.0 million to \$215.0 million.
- Non-GAAP adjusted net income attributable to common stockholders is expected to be in the range of \$150.5 million to \$151.0 million, based on an estimated tax rate of 21.0%.
- Based on an expected 57.2 million weighted average diluted shares outstanding, non-GAAP adjusted net income attributable to common stockholders is expected to be \$2.78 to \$2.79 per diluted share.

The 2026 guidance provided above is forward-looking in nature. Actual results may differ materially. See the cautionary note regarding "Forward-Looking Statements" below. The guidance provided above is based on expectations as of the date of this press release and Alarm.com undertakes no obligation to update guidance after such date.

Non-GAAP Financial Measures

To supplement our consolidated selected financial data presented on a basis consistent with GAAP, this press release contains certain non-GAAP financial measures, including non-GAAP adjusted EBITDA, non-GAAP adjusted net income, non-GAAP adjusted net income attributable to common stockholders, non-GAAP adjusted net income attributable to common stockholders per share and non-GAAP free cash flow. We have included non-GAAP measures in this press release because they are financial, operating or liquidity measures used by our management to (i) understand and evaluate our core operating performance and trends and generate future operating plans, (ii) make strategic decisions regarding the allocation of capital and investments in initiatives that are focused on cultivating new markets for our solutions and (iii) provide useful information to management about the amount of cash generated by the business after necessary capital expenditures. We also use non-GAAP adjusted EBITDA as a performance measure under our executive bonus plan. Further, we believe that these non-GAAP measures of our financial results provide useful information to investors and others in understanding and evaluating our results of operations, business trends and financial condition. While we believe the use of these non-GAAP measures provides useful information to investors and management in analyzing our financial performance, non-GAAP measures have inherent limitations in that they do not reflect all of the amounts and transactions that are included in our financial statements prepared in

accordance with GAAP. Non-GAAP measures do not serve as an alternative to GAAP nor do we consider our non-GAAP measures in isolation. Accordingly, we present non-GAAP financial measures only in connection with GAAP results. We urge investors to consider non-GAAP measures only in conjunction with our GAAP financials and to review the reconciliation of our non-GAAP financial measures to the most directly comparable GAAP financial measures, which are included in this press release.

We consider non-GAAP free cash flow to be a liquidity measure, which we define as cash flows from operating activities less purchases of property and equipment.

With respect to our expectations under “Financial Outlook” above, reconciliation of non-GAAP adjusted EBITDA and non-GAAP adjusted net income attributable to common stockholders guidance to the closest corresponding GAAP measure is not available without unreasonable efforts on a forward-looking basis due to the high variability, complexity and low visibility with respect to the charges excluded from these non-GAAP measures. In particular, non-ordinary course litigation expense, acquisition-related expense and tax adjustments can have unpredictable fluctuations based on unforeseen activity that is out of our control and/or cannot reasonably be predicted. We expect the above charges to have a significant and potentially highly variable impact on our future GAAP financial results.

We exclude one or more of the following items from non-GAAP financial and operating measures:

Interest expense: We record interest expense primarily related to the January 2021 issuance of \$500.0 million aggregate principal amount of 0% convertible senior notes due January 15, 2026, or the 2026 Notes, and the May 2024 issuance of \$500.0 million aggregate principal amount of 2.25% convertible senior notes due June 1, 2029, or the 2029 Notes. We exclude interest expense in calculating our non-GAAP adjusted EBITDA. For non-GAAP adjusted net income, non-GAAP adjusted net income attributable to common stockholders and non-GAAP adjusted net income attributable to common stockholders per share, basic and diluted, we do not exclude interest expense other than the interest expense related to the amortization of debt issuance costs related to the 2026 Notes and 2029 Notes as discussed below.

Interest income and certain activity within other income / (expense), net: We exclude interest income as well as certain activity within other income / (expense), net including gains, losses or impairments on investments without readily determinable fair values and other assets, gains on settlement fees as well as losses on the early extinguishment of the debt, when applicable, from our non-GAAP financial measures because we do not consider it part of our ongoing results of operations.

Provision for income taxes: We exclude the impact related to our provision for income taxes from our non-GAAP adjusted EBITDA calculation. We do not consider this tax adjustment to be part of our ongoing results of operations.

Income from equity method investments, net: We exclude income from equity method investments, net from our non-GAAP financial measures because we do not consider it part of our ongoing results of operations.

Amortization expense: GAAP requires that operating expenses include the amortization of acquired intangible assets, which principally include acquired customer relationships, developed technology and trade names. We exclude amortization of intangibles from our non-GAAP financial measures because we do not consider amortization expense when we evaluate our ongoing business operations, nor do we factor amortization expense into our evaluation of potential acquisitions, or our measurement of the performance of those acquisitions. We believe that the exclusion of amortization expense enables the comparison of our performance to other companies in our industry as other companies may be more or less acquisitive than we are and therefore, amortization expense may vary significantly by company based on their acquisition history. Although we exclude amortization of acquired intangible assets from our non-GAAP financial measures, management believes that it is important for investors to understand that such intangible assets were recorded as part of purchase accounting and contribute to revenue generation.

Depreciation expense: We record depreciation primarily for investments in property and equipment. We exclude depreciation in calculating non-GAAP adjusted EBITDA because we do not consider depreciation when we evaluate our ongoing business operations. For non-GAAP adjusted net income, non-GAAP adjusted net income attributable to common stockholders and non-GAAP adjusted net income attributable to common stockholders per share, basic and diluted, we do not exclude depreciation.

Amortization of debt issuance costs: We record amortization of debt issuance costs related to the 2026 Notes and 2029 Notes as interest expense. We exclude amortization of debt issuance costs from our non-GAAP adjusted net income, non-GAAP adjusted net income attributable to common stockholders and non-GAAP adjusted net income attributable to common stockholders per share, basic and diluted, because we believe that the exclusion of this non-cash interest expense will provide for more meaningful information about our financial performance.

Stock-based compensation expense: We exclude stock-based compensation expense, which relates to restricted stock units and other forms of equity incentives primarily awarded to employees of Alarm.com, because they are non-cash charges that we do not consider when assessing the operating performance of our business. Additionally, the determination of stock-based compensation expense can be calculated using various methodologies and is dependent upon subjective assumptions and other factors that vary on a company-by-company basis. Therefore, we believe that excluding stock-based compensation expense from our non-GAAP financial measures improves the comparability of our results to the results of other companies in our industry.

Acquisition-related expense: Included in operating expenses are incremental costs directly related to business and asset acquisitions as well as changes in the fair value of contingent consideration liabilities, when applicable. We exclude acquisition-related expense from our non-GAAP financial measures because we believe that the exclusion of this expense allows us to better provide meaningful information about our operating performance, facilitates comparisons to our historical operating results, improves the comparability of our results to the results of other companies in our industry, and ultimately, we believe helps investors better understand the acquisition-related expense and the effects of the transaction on our results of operations.

Litigation expense: We exclude non-ordinary course litigation expense because we do not consider legal costs and settlement fees incurred and received in litigation and litigation-related matters of non-ordinary course lawsuits and other disputes, particularly costs incurred in ongoing intellectual property litigation, to be indicative of our core operating performance. We do not adjust for ordinary course legal expenses, including those expenses resulting from maintaining and enforcing our intellectual property portfolio and license agreements.

Forward-Looking Statements

This press release includes forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements may be identified by their use of terms and phrases such as “anticipate,” “believe,” “continue,” “designed,” “enable,” “ensure,” “expect,” “intend,” “will,” and other similar terms and phrases, and such forward-looking statements include, but are not limited to, the statements regarding the Company’s opportunities, positioning, the benefits of recently launched offerings, acquisitions and investments, and the Company’s guidance for the first quarter and full year 2026 described under “Financial Outlook” above and key assumptions related thereto. The events described in these forward-looking statements involve known and unknown risks, uncertainties and other factors that could cause actual results to differ materially from the results anticipated by these forward-looking statements, including, but not limited to: impact of the global economic uncertainty and financial market conditions caused by significant worldwide events, including public health crises, geopolitical upheaval (including the ongoing conflicts in Ukraine, and in the Middle East and surrounding areas), supply chain disruptions, fluctuations in interest rates, tariffs, risk of recession and inflation (collectively, Macroeconomic Conditions); impact of Macroeconomic Conditions and their economic effects on demand for the Company’s products; the reliability of the Company’s network operations centers; the Company’s ability to retain service provider partners and residential and commercial subscribers and sustain its growth rate; the Company’s ability to manage growth and execute on its business strategies; the effects of increased competition and evolving technologies; the Company’s ability to integrate acquired assets and businesses and to manage service provider partners, customers and employees; consumer demand for interactive security, video monitoring, intelligent automation, energy management and wellness solutions; the Company’s reliance on its service provider network to attract new customers and retain existing customers; the Company’s dependence on its suppliers; the potential loss of any key supplier or the inability of a key supplier to deliver their products to us on time or at the contracted price; the reliability of the Company’s hardware and wireless network suppliers and new or enhanced United States tax, tariff, import/export restrictions, or other trade barriers; and other risks and uncertainties discussed in the “Risk Factors” section of the Company’s Quarterly Report on Form 10-Q filed with the Securities and Exchange Commission on November 6, 2025 and other subsequent filings the Company makes with the Securities and Exchange Commission from time to time, including its Form 10-K for the year ended December 31, 2025. In addition, the forward-looking statements included in this press release represent the Company’s views and expectations as of the date hereof and are based on information currently available to the Company. The Company anticipates that subsequent events and developments may cause the Company’s views to change. However, while the Company may elect to update these forward-looking statements at some point in the future, the Company specifically disclaims any obligation to do so except as required by law. These forward-looking statements should not be relied upon as representing the Company’s views as of any date subsequent to the date hereof.
