Recent Developments

Apple Leisure Group Acquisition

On August 14, 2021, we agreed to acquire Apple Leisure Group, a leading luxury resort-management services, travel and hospitality group, pursuant to a definitive Securities Purchase Agreement (the “**Securities Purchase Agreement**”) with affiliates of investment funds managed by KSL Capital Partners, LLC and Kohlberg Kravis

Roberts & Co. L.P. (“**Seller**”). Under the Securities Purchase Agreement, we agreed to acquire 100% of the outstanding limited partnership interests in Casablanca Global Intermediate Holdings L.P. (doing business as Apple Leisure Group) (“**ALG**”) and 100% of the outstanding ordinary shares of Casablanca Global GP Limited, its general partner (together, “**Apple Leisure Group**”), from Seller (the “**Apple Leisure Group Acquisition**”).

The consideration to be paid by us at the closing of the Apple Leisure Group Acquisition is \$2.7 billion, subject to customary adjustments set forth in the Securities Purchase Agreement relating to working capital, cash and indebtedness of Apple Leisure Group and its subsidiaries. The Securities Purchase Agreement also provides for contingent consideration payable to Seller in an amount equal to \$69.0 million following the closing of the Apple Leisure Group Acquisition upon the achievement (if ever) of certain targets related to ALG’s outstanding travel credits.

We expect to fund more than 80% of the consideration for the Apple Leisure Group Acquisition at its closing with a combination of \$1.0 billion of cash on hand and new debt financings, including a portion of the proceeds from this offering, and the remainder with the proceeds of our recently consummated equity offering. See “—Equity Offering.”

The Apple Leisure Group Acquisition is subject to customary closing conditions. We cannot assure you that the Apple Leisure Group Acquisition will be completed on the terms or timeline anticipated or at all.

This offering is not contingent on the consummation of the Apple Leisure Group Acquisition, and the consummation of the Apple Leisure Group Acquisition is not contingent on the consummation of this offering.

Equity Offering

On September 22, 2021, we agreed to sell an aggregate of 8,050,000 shares of our Class A Common Stock at a public offering price of \$74.50 per share pursuant to a separate prospectus supplement (the “**Equity Offering**”), including through the full exercise by the underwriters of the Equity Offering of their option to purchase additional shares. The Equity Offering settled on September 27, 2021, and raised net proceeds of approximately \$575.2 million, after deducting the underwriting discount and estimated offering expenses. We expect to use the net proceeds of the Equity Offering to fund a portion of the consideration to be paid by us for the Apple Leisure Group Acquisition.

Operational Update

We have experienced improvement and further recovery in our comparable system-wide revenue per available room (“**RevPAR**”) after the end of the second quarter of 2021. System-wide RevPAR improved from approximately 50% of 2019 levels prior to Memorial Day to nearly 75% of 2019 levels in the month of July, with RevPAR at approximately \$100. July leisure transient revenue was nearly 20% ahead of 2019 levels in the United States and greater than 20% ahead of 2019 in Mainland China. System-wide RevPAR in August was approximately \$90, a modest decline from July, driven by normal seasonality and an increase in travel restrictions in certain markets related to the Delta variant of COVID-19. September system-wide RevPAR is trending at approximately \$85 with growing momentum in business transient and group business. While group cancellations have been elevated in August and September, new group bookings have remained strong. In addition, business transient bookings have accelerated materially in September as compared to August 2021. The pace of growth remains strong, with 7.4% net rooms growth over the past 12 months as of August 2021. Finally, we completed the sale of two assets in September and realized \$500 million of gross proceeds, executing our March 2019 commitment to realize gross proceeds greater than our target of \$1.5 billion from the sale of real estate before our target deadline of March 2022. As previously disclosed, we have further committed to realize an additional \$2.0 billion of gross proceeds from the sale of hotel real estate by the end of 2024.

Risk Factors

See the sections entitled “Risk Factors” in our Annual Report on Form 10-K for the fiscal year ended December 31, 2020 and our Quarterly Reports on Form 10-Q for the fiscal quarters ended March 31, 2021 and June 30, 2021, as well as in this prospectus supplement, for a discussion of the factors you should consider carefully before deciding to invest in the notes.

- be effectively junior in right of payment to our future secured debt to the extent of the value of the assets securing such debt;
- be equal in right of payment with all of our existing and future unsecured unsubordinated debt; and
- be senior in right of payment to any future subordinated debt.

The notes will not be obligations of or guaranteed by any of our subsidiaries. As a result, the notes will be structurally subordinated to all of the existing and future liabilities (including trade payables) of each of our subsidiaries, including the guarantees of our revolving credit facility by our subsidiaries that guarantee such facility.

As of June 30, 2021, our subsidiaries had \$218.0 million of debt outstanding, excluding unamortized discounts and deferred financing fees.

The indenture under which the notes will be issued does not limit our ability, or the ability of our subsidiaries, to issue or incur other debt or issue preferred stock. We depend on the ability of our subsidiaries to transfer funds to us to meet our obligations, including our payment obligations under the notes.

Optional Redemption

At any time before the first anniversary of their issue date, we may redeem some or all of the fixed rate notes at a price equal to 100% of the principal amount of the fixed rate notes redeemed plus a “make-whole” amount, as described under “Description of the Notes—Optional Redemption.” The floating rate notes will not be redeemable at our option at any time before the first anniversary of their issue date.

At any time on or after the first anniversary of their issue date, we may redeem some or all of the notes at our option, at a redemption price equal to 100% of the principal amount of the notes being redeemed.

We will also pay any accrued and unpaid interest on any principal amount being redeemed to, but excluding, the date of redemption.

See “Description of the Notes—Optional Redemption.”

Change of Control

If a change of control triggering event occurs, as defined in this prospectus supplement, we will be required to offer to purchase the notes at a price equal to 101% of their principal amount, together with any accrued and unpaid interest to, but excluding, the date of purchase. See “Description of the Notes—Change of Control.”

Covenants

We will issue the notes under an indenture with Wells Fargo Bank, National Association, as trustee. The indenture, among other things, limits our ability and the ability of certain of our subsidiaries to:

- create liens on principal property;

- enter into sale and leaseback transactions with respect to principal property; and
- enter into mergers or consolidations or transfer all or substantially all our assets.

These covenants are subject to a number of important exceptions and qualifications. For more information, see “Description of Debt Securities—Covenants” in the accompanying prospectus.

Absence of Public Market for the Notes

The notes are new issues of securities, and there is currently no established trading market for the notes. Accordingly, we cannot assure you that a liquid market for the notes will develop. The underwriters have advised us that they currently intend to make a market in the notes. However, they are not obligated to do so, and any market making with respect to the notes may be discontinued without notice. We do not intend to apply for a listing of the notes on any securities exchange or an automated dealer quotation system. For more information, see “Underwriting.”

Form and Denomination

We will issue the notes in the form of one or more fully registered global notes registered in the name of the nominee of The Depository Trust Company (“*DTC*”). Beneficial interests in the notes will be shown on, and transfers will be effected through, records maintained by DTC and its participants. The notes will be issued only in denominations of \$2,000 and integral multiples of \$1,000 in excess thereof. See “Book-Entry System; Delivery and Form.”

Material U.S. Federal Income Tax Consequences

For more information on the material U.S. federal income tax consequences of the holding and disposition of the notes, see “Material U.S. Federal Income Tax Consequences.”

Use of Proceeds

We expect the net proceeds of this offering to be approximately \$1.74 billion, after deducting the underwriting discount and estimated expenses of this offering payable by us. We intend to use the proceeds from this offering to fund a portion of the purchase price for the Apple Leisure Group Acquisition, to refinance all of our \$750.0 million principal amount of floating rate notes due 2022 and for general corporate purposes, which may include payment of any fees and expenses relating to the Apple Leisure Group Acquisition or any other general corporate purpose we may deem necessary or advisable, and to pay fees and expenses related to this offering. We may temporarily invest the proceeds from this offering that are not immediately used for these purposes in short-term investments, including marketable securities. This offering is not contingent on the consummation of the Apple Leisure Group Acquisition, and the consummation of the Apple Leisure Group Acquisition is not contingent on the consummation of this offering. See “Use of Proceeds.”

RISK FACTORS

Investing in the notes involves risk. You should carefully consider the following risk factors, as well as those discussed in our Annual Report on Form 10-K for the fiscal year ended December 31, 2020 under the sections titled “Risk Factors” in Part I, Item 1A and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in Part II, Item 7, in our Quarterly Reports on Form 10-Q for the fiscal quarters ended March 31, 2021 and June 30, 2021 under the sections titled “Risk Factors” in Part II, Item 1A and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in Part I, Item 2, and in other filings we may make from time to time with the SEC. You should also refer to the other information included and incorporated by reference in this prospectus supplement, the accompanying prospectus and any related free writing prospectus, especially our financial statements and related notes, before making an investment decision.

Risks Related to the Apple Leisure Group Acquisition

We expect to incur material expenses and indebtedness related to the Apple Leisure Group Acquisition.

We expect to incur material expenses and indebtedness (including the notes) in completing the Apple Leisure Group Acquisition and integrating the business, operations, practices, policies and procedures of Apple Leisure Group. While we have assumed that a certain level of transaction and integration expenses would be incurred, there are a number of factors beyond our control that could affect the total amount or the timing of integration expenses. Many of the expenses that will be incurred, by their nature, are difficult to estimate accurately at the present time. We also intend to finance a portion of the consideration for the Apple Leisure Group Acquisition through the incurrence of indebtedness, which would increase our debt service obligations and the risk of downgrade of our credit ratings by credit rating agencies. We cannot assure you that these additional expenses or indebtedness will not have an adverse effect on us or our results of operations.

We may not realize the anticipated benefits from the pending Apple Leisure Group Acquisition.

The Apple Leisure Group Acquisition involves the combination of two companies that currently operate as independent companies. While we and Apple Leisure Group will continue to operate independently until the completion of the Apple Leisure Group Acquisition, the success of the Apple Leisure Group Acquisition will depend, in part, on our ability to realize the anticipated benefits from successfully combining our and Apple Leisure Group’s businesses after closing. We plan on devoting substantial management attention and resources to integrating our and Apple Leisure Group’s business practices so that we can fully realize the anticipated benefits of the Apple Leisure Group Acquisition. Nonetheless, the business and assets acquired may not be successful or continue to grow at the same rate as when operated independently or may require greater resources and investments than originally anticipated. The Apple Leisure Group Acquisition could also result in the assumption of unknown or contingent liabilities, and, because Apple Leisure Group operates in the same sector that we do, the Apple Leisure Group Acquisition could also exacerbate a number of risks that currently apply to us.

Potential difficulties we may encounter following closing include the following:

- the inability to successfully combine our and Apple Leisure Group’s businesses in a manner that permits us to realize the anticipated benefits of the Apple Leisure Group Acquisition in the time frame currently anticipated, or at all;
- difficulties resulting from developments of the COVID-19 pandemic, including the emergence of new virus variants or limits in the effectiveness of vaccination programs, which could cause us to slow, cease or reevaluate the focus of integration efforts or impair the value of our and Apple Leisure Group’s assets;
- the failure to integrate internal systems, programs and controls, or decisions by our management to apply different accounting policies, assumptions or judgments to Apple Leisure Group’s operational results than Apple Leisure Group applied in the past;

[Table of Contents](#)

- the inability to successfully realize the anticipated value from Apple Leisure Group’s assets or the expected benefits and added value from the World of Hyatt loyalty program and Apple Leisure Group’s membership club offering;
- loss of sales and other commercial relationships;
- the complexities associated with managing the combined company;
- the additional complexities of combining two companies with different histories, cultures, markets, strategies and customer bases;
- the failure to retain key employees of either of the two companies that may be difficult to replace;
- the disruption of each company’s ongoing businesses or inconsistencies in services, standards, controls, procedures and policies;
- potential unknown liabilities and unforeseen increased expenses, delays or regulatory conditions associated with the Apple Leisure Group Acquisition; and
- performance shortfalls at one or both of the two companies as a result of the diversion of management’s attention caused by completing the Apple Leisure Group Acquisition and integrating our and Apple Leisure Group’s operations.

Based on our preliminary purchase accounting estimates, a significant portion of the purchase price for the Apple Leisure Group Acquisition would be allocated to goodwill and intangible assets (\$2.0 billion and \$1.8 billion, respectively, assumed in our pro forma balance sheet as of June 30, 2021). We must test goodwill and certain intangible assets for possible impairment on at least an annual basis, and must evaluate amortizable intangible assets for impairment if there are indicators of a possible impairment. If our acquisition of the Apple Leisure Group does not yield expected returns, we may be required to record impairment losses, which could materially adversely affect our reported results.

Any of these risks could adversely affect our ability to maintain relationships with customers, vendors, employees and other commercial relationships or adversely affect our or Apple Leisure Group’s future operational results. As a result, the anticipated benefits of the Apple Leisure Group Acquisition may not be realized at all or may take longer to realize or cost more than expected, which could adversely affect our business, financial condition, results of operations and growth prospects. In addition, changes in laws and regulations could adversely impact our business, financial condition, results of operations and growth prospects after the Apple Leisure Group Acquisition.

The pending Apple Leisure Group Acquisition may not be completed on the currently contemplated timeline or terms, or at all.

Consummation of the Apple Leisure Group Acquisition is conditioned on, among other things, the receipt of certain consents and other approvals under the competition laws of various jurisdictions. Neither we nor Apple Leisure Group can provide assurance that the conditions to completing the Apple Leisure Group Acquisition will be satisfied or waived, and accordingly, that the Apple Leisure Group Acquisition will be completed on the terms or timeline that the parties anticipate or at all. If any condition to the Apple Leisure Group Acquisition is not satisfied, it could delay or prevent the Apple Leisure Group Acquisition from occurring, which could negatively impact our business, financial condition, results of operations and growth prospects.

Additionally, this offering is not contingent on the consummation of the Apple Leisure Group Acquisition. See “Use of Proceeds.” Accordingly, if you decide to purchase the notes, you should be willing to do so whether or not we consummate the Apple Leisure Group Acquisition.

Failure to complete the pending Apple Leisure Group Acquisition could have an adverse effect on us.

Either we or Apple Leisure Group may terminate the Securities Purchase Agreement in specified circumstances. If the Apple Leisure Group Acquisition is not completed, our business, financial condition, results of operations and growth prospects may be adversely affected and, without realizing any of the benefits of having completed the Apple Leisure Group Acquisition, we will be subject to a number of risks, including the following:

- the market price of our securities could decline;
- we will be required to pay certain costs relating to the Apple Leisure Group Acquisition, such as legal, accounting, financial advisor, filing, printing and mailing fees and integration costs that have already been incurred or will continue to be incurred until the closing of the Apple Leisure Group Acquisition, whether or not the Apple Leisure Group Acquisition is completed;
- if the Securities Purchase Agreement is terminated, our stockholders cannot be certain that we will be able to find another acquisition opportunity as attractive to us as the Apple Leisure Group Acquisition;
- we could be subject to litigation related to any failure to complete the Apple Leisure Group Acquisition or related to any enforcement proceeding commenced against us to perform our obligations under the Securities Purchase Agreement;
- we will not realize the benefit of the time and resources, financial and otherwise, committed by our management to matters relating to the Apple Leisure Group Acquisition that could have been devoted to pursuing other beneficial opportunities;
- we may incur a material amount of indebtedness in anticipation of financing the Apple Leisure Group Acquisition, and a failure to complete it could result in our having materially more indebtedness, which we may be able to apply to other uses, without the incremental revenue or cash flows that we expect from the Apple Leisure Group Acquisition;
- in the event the Apple Leisure Group Acquisition does not successfully close, we may be unable to fulfill our \$2.0 billion asset disposition commitment on the anticipated timeline or at all; and
- we may experience reputational harm due to the adverse perception of any failure to successfully complete the Apple Leisure Group Acquisition or negative reactions from the financial markets or from our customers, vendors, employees and other commercial relationships.

Any of these risks could adversely affect our business, financial condition, results of operations and growth prospects, and impact our ability to meaningfully increase the percentage of revenues and earnings we generate from fees. Similarly, delays in the completion of the Apple Leisure Group Acquisition could, among other things, result in additional transaction costs, loss of revenue or other negative effects associated with delay and uncertainty about completion of the Apple Leisure Group Acquisition and could adversely affect our business, financial condition, results of operations and growth prospects.

The pendency of the Apple Leisure Group Acquisition could adversely affect our and/or Apple Leisure Group's businesses and operations.

In connection with the pending Apple Leisure Group Acquisition, some customers, vendors or other parties with commercial relationships with each of us and the Apple Leisure Group may delay or defer decisions, which could adversely affect the revenues, earnings, cash flows and expenses of us and Apple Leisure Group, regardless of whether the Apple Leisure Group Acquisition is completed. In addition, due to operating covenants in the Securities Purchase Agreement, Apple Leisure Group may be unable (without our prior written consent), during the pendency of the Apple Leisure Group Acquisition, to pursue strategic transactions, undertake significant capital projects, undertake certain significant financing transactions and otherwise pursue other actions outside the ordinary course, even if such actions would prove beneficial.

Risks Related to the Notes

The notes will not be guaranteed by any of our subsidiaries.

We are a holding company. We conduct substantially all of our operations through subsidiaries that own substantially all of our consolidated assets. Consequently, our ability to meet our debt service obligations depends in large part upon the cash flow of our subsidiaries and the payment of funds by our subsidiaries to us in the form of loans, dividends or otherwise. Our subsidiaries are not obligated to make funds available to us for payment of our debt securities or otherwise. In addition, their ability to make any payments will depend on their earnings, the terms of their indebtedness, business and tax considerations and legal restrictions.

As a result, the notes will be structurally subordinated to all of the existing and future liabilities (including trade payables) of each of our subsidiaries, including the guarantees of our revolving credit facility by our subsidiaries that guarantee such facility, under which we had no borrowings outstanding as of June 30, 2021. This means that creditors of our subsidiaries will be paid from their assets before holders of the notes would have any claims to those assets. As of June 30, 2021, our subsidiaries had \$218.0 million of debt outstanding, excluding unamortized discounts and deferred financing fees. The indenture governing the notes does not limit the amount of unsecured debt that our subsidiaries may incur or the amount of secured debt our unrestricted subsidiaries may incur. Substantially all of our assets are currently held by unrestricted subsidiaries. See “Description of the Notes” in this prospectus supplement and “Description of Debt Securities” in the accompanying prospectus.

There are limited covenants under the indenture.

We are not restricted under the indenture governing the notes from incurring additional debt. As of June 30, 2021, we had \$3.2 billion of total long-term debt outstanding, excluding \$1.5 billion of total availability under our revolving credit facility, net of outstanding undrawn letters of credit. As of June 30, 2021, we had no borrowings outstanding and \$1.5 billion of total availability under our revolving credit facility, net of outstanding undrawn letters of credit.

The notes will be unsecured and effectively subordinated to any secured debt that we have issued or that we may issue in the future. As of June 30, 2021, we had \$218.0 million of secured debt outstanding, excluding unamortized discounts and deferred financing fees. We expect that we will from time to time incur additional debt and other liabilities. In addition, the indenture will not restrict us from paying dividends or issuing or repurchasing securities.

Although we have generally agreed not to issue debt that is secured by our principal property without also securing the notes and not to enter into sale and leaseback transactions with respect to our principal property, this limitation is subject to significant exceptions. See “Description of Debt Securities—Covenants” in the accompanying prospectus. The holders of any secured debt that we may issue will have priority over unsecured creditors to the extent of the value of the assets securing that debt. In the event of our bankruptcy, liquidation or similar proceeding, the holders of secured debt that we may have issued will be entitled to proceed against their collateral, and that collateral may not be available for payment of unsecured debt, including the notes.

We may not be able to purchase the notes upon a change of control triggering event.

If a Change of Control Triggering Event (as defined under “Description of the Notes—Certain Definitions”) occurs, we will be required to offer to purchase the notes at a price equal to 101% of their principal amount, together with accrued and unpaid interest, if any, to, but not including, the date of purchase. At the time of any change of control, we may not have sufficient financial resources to purchase all of the notes that you may tender to us in connection with a change of control offer.

You may not be able to determine when a change of control giving rise to your right to have the notes repurchased by us has occurred and may not be able to require us to purchase notes as a result of a change in the composition of the directors on our board.

A Change of Control Triggering Event (as defined under “Description of the Notes—Certain Definitions”) will require us to make an offer to repurchase all outstanding notes. The definition of “Change of Control” includes a phrase relating to the sale, lease or transfer of “all or substantially all” of our assets. There is no precisely established definition of the phrase “substantially all” under applicable law. Accordingly, your ability to require us to repurchase your notes as a result of a sale, lease or transfer of less than all of our assets to another individual, group or entity may be uncertain.

In addition, a Delaware Chancery Court decision found that, for purposes of agreements such as the indenture, the circumstances in which a board of directors of a Delaware corporation would be permitted not to approve a dissident slate of directors as “continuing directors” are significantly limited. In the event of any such significant change in the composition of our board where the board has approved the new directors as “continuing directors” for purposes of the indenture, you may not have the right to require us to repurchase the notes as a result of the board composition change. The same court also observed that certain provisions in indentures, such as “continuing director” provisions, could function to entrench an incumbent board of directors and therefore raise enforcement concerns if adopted in violation of a board’s fiduciary duties. If such a provision were found unenforceable, you would not be able to require us to repurchase your notes as a result of a change of control resulting from a change in the composition of our board. See “Description of the Notes—Change of Control.”

The credit ratings assigned to the notes may not reflect all risks of an investment in the notes.

The credit ratings assigned to the notes reflect the rating agencies’ assessments of our ability to make payments on the notes when due. Consequently, actual or anticipated changes in these credit ratings will generally affect the market value of the notes. These credit ratings, however, may not reflect the potential impact of risks related to structure, market or other factors related to the value of the notes.

Changes in the ratings of the notes, our credit ratings or the debt markets could adversely affect the price of the notes.

The price for the notes depends on many factors, including:

- our credit ratings with major credit rating agencies;
- the prevailing interest rates being paid by, or the market price for the notes issued by, other companies similar to us;
- our financial condition, financial performance and future prospects; and
- the overall condition of the financial markets.

Disruptions in the financial markets and changes in prevailing interest rates, such as the volatility that has characterized recent market conditions, could have an adverse effect on the price of the notes.

Credit rating agencies continually review their ratings for the companies that they follow, including us. The credit rating agencies also evaluate our industry as a whole and may change their credit rating for us based on their overall view of our industry. Rating organizations may lower their respective ratings of the notes or decide not to continue to rate the notes in their sole discretion. The reduction, suspension or withdrawal of the ratings of the notes will not constitute an event of default under the indenture. However, any reduction, suspension or withdrawal of these ratings may adversely affect the market price or liquidity of the notes.

As a result of the general economic uncertainty and the impact of the COVID-19 pandemic, on March 23, 2020, Moody’s downgraded our senior unsecured rating to Baa3 from Baa2, and on April 2, 2020, S&P downgraded

our credit and senior unsecured ratings to BBB- from BBB. Moody's placed our ratings on review for further downgrade and S&P placed us on negative ratings watch. On April 21, 2020, Moody's concluded the review for downgrade initiated on March 23, 2020 and confirmed our Baa3 senior unsecured rating, with negative outlook. On September 27, 2021, S&P assigned a BBB- issue-level rating for the notes with negative outlook pending completion of the Apple Leisure Group Acquisition, and indicated that it expects to lower the notes' and our credit rating to BB+ upon the closing of the Apple Leisure Group Acquisition. We cannot assure you that our credit ratings will not be further downgraded, including in connection with the incurrence of any additional indebtedness (including the notes) or the pending Apple Leisure Group Acquisition.

The interest rates payable on the notes offered hereby is subject to adjustment depending upon the ratings assigned to such notes, as described in "Description of the Notes—Interest Rate Adjustment of the Notes Based on Certain Rating Events." We intend to take the position that any such potential adjustments do not cause the notes to be treated as "contingent payment debt instruments" for U.S. federal income tax purposes. See "Material U.S. Federal Income Tax Consequences—Additional Payments."

If we fail to comply with certain restrictions under our revolving credit facility or the indenture, our debt could be accelerated, and we may not have sufficient cash to pay our accelerated debt.

The operating and financial restrictions and covenants in our debt agreements, including our revolving credit facility and the indenture governing the notes, may adversely affect our ability to finance future operations or capital needs or to engage in new business activities.

In addition, our revolving credit facility contains financial covenants that require us to comply with a leverage ratio and a secured debt to net property and equipment ratio, as defined in our revolving credit facility, in each case measured quarterly. A failure to comply with the restrictions contained in our revolving credit facility or the indenture, or to maintain the financial ratios required by our revolving credit facility, could lead to an event of default, which could result in an acceleration of the indebtedness.

No active trading market may develop for the notes.

Prior to this offering, there has been no trading market for the notes. We have been informed by the underwriters that they intend to make a market in the notes after the offering is completed. However, the underwriters may cease their market making at any time without notice. In addition, the liquidity of the trading market in the notes, and the market price quoted for the notes, may be adversely affected by changes in the overall market for this type of security and by changes in our financial performance or prospects or in the prospects for companies in our industry generally. In addition, such market-making activities will be subject to limits imposed by the U.S. federal securities laws. As a result, we cannot assure you that an active trading market for the notes will develop or continue. If an active market does not develop or continue, the market price and liquidity of the notes may be adversely affected.

The Secured Overnight Financing Rate ("SOFR") is a relatively new reference rate and its composition and characteristics are not the same as the London Inter-Bank Offered Rate ("LIBOR").

On June 22, 2017, the Alternative Reference Rates Committee ("**ARRC**") convened by the Board of Governors of the Federal Reserve System and the Federal Reserve Bank of New York identified the SOFR as the rate that, in the consensus view of the ARRC, represented best practice for use in certain new U.S. dollar derivatives and other financial contracts. SOFR is a broad measure of the cost of borrowing cash overnight collateralized by U.S. Treasury securities, and has been published by the Federal Reserve Bank of New York since April 2018. The Federal Reserve Bank of New York has also begun publishing historical indicative Secured Overnight Financing Rates from 2014. In light of their relatively short history, you should not rely on any historical changes or trends in SOFR as an indicator of future changes in SOFR.

The composition and characteristics of SOFR are not the same as those of LIBOR, and SOFR is fundamentally different from LIBOR for two key reasons. First, SOFR is a secured rate, while LIBOR is an unsecured rate. Second, SOFR is an overnight rate, while LIBOR is a forward-looking rate that represents interbank funding over different maturities (e.g., three months). As a result, there can be no assurance that SOFR (including

Compounded SOFR) will perform in the same way as LIBOR would have at any time, including, without limitation, as a result of changes in interest and yield rates in the market, market volatility or global or regional economic, financial, political, regulatory, judicial or other events.

The interest rate on the floating rate notes is based on a Compounded SOFR rate and the SOFR Index, both of which are relatively new in the marketplace.

For each interest period applicable to the floating rate notes, the interest rate on the floating rate notes is based on Compounded SOFR, which is calculated using the SOFR Index (as defined herein) published by the Federal Reserve Bank of New York according to the specific formula described under “Description of the Notes—Floating Rate Notes—Compounded SOFR,” not the SOFR rate published on or in respect of a particular date during such interest period or an arithmetic average of SOFR rates during such period. For this and other reasons, the interest rate on the floating rate notes during any applicable interest period will not necessarily be the same as the interest rate on other SOFR-linked investments that use an alternative basis to determine the applicable interest rate. Further, if the SOFR rate in respect of a particular date during an interest period is negative, its contribution to the SOFR Index will be less than one, resulting in a reduction to Compounded SOFR used to calculate the interest payable on the floating rate notes on the Floating Rate Interest Payment Date (as defined herein) for such interest period.

Very limited market precedent exists for securities that use SOFR as the interest rate, and the method for calculating an interest rate based upon SOFR in those precedents varies. In addition, the Federal Reserve Bank of New York only began publishing the SOFR Index on March 2, 2020. Accordingly, the use of the SOFR Index or the specific formula for Compounded SOFR rate used in the floating rate notes may not be widely adopted by other market participants, if at all. If the market adopts a different calculation method, that would likely adversely affect the liquidity and market value of the floating rate notes.

The amount of interest payable on the floating rate notes may fluctuate substantially.

The floating rate notes will bear interest at a floating rate based on Compounded SOFR. Since the initial publication of SOFR, daily changes in the rate have, on occasion, been more volatile than daily changes in comparable benchmark or market rates, and SOFR over time may bear little or no relation to the historical actual or historical indicative data. In addition, the return on and value of the floating rate notes may fluctuate more than floating rate securities that are linked to less volatile rates. Any historical upward or downward trend in the SOFR is not an indication that the SOFR is more or less likely to increase or decrease at any time during an interest period, and you should not take the historical levels of SOFR as an indication of its future performance. In addition, although the actual Compounded SOFR on a Floating Rate Interest Payment Date or at other times during an interest period may be higher than Compounded SOFR on the applicable Interest Payment Determination Date, you will not benefit from Compounded SOFR at any time other than on the Interest Payment Determination Date for such interest period. As a result, changes in Compounded SOFR, or other applicable benchmark rate, may not result in a comparable change in the market value of the floating rate notes. Increases in Compounded SOFR as of any Interest Payment Determination Date will require us to make higher interest payments on the floating rate notes, which would increase our fixed charges.

Compounded SOFR with respect to a particular interest period will only be capable of being determined near the end of the relevant interest period.

The level of Compounded SOFR applicable to a particular interest period with respect to the floating rate notes and, therefore, the amount of interest payable with respect to such interest period will be determined on the Interest Payment Determination Date (as defined herein) for such interest period. Because each such date is near the end of such interest period, you will not know the amount of interest payable with respect to a particular interest period until shortly prior to the related Floating Rate Interest Payment Date and it may be difficult for you to reliably estimate the amount of interest that will be payable on each such Floating Rate Interest Payment

Date. In addition, some investors may be unwilling or unable to trade the floating rate notes without changes to their information technology systems, both of which could adversely impact the liquidity and trading price of the floating rate notes.

SOFR may be more volatile than other benchmark or market rates.

Since the initial publication of SOFR, daily changes in SOFR have, on occasion, been more volatile than daily changes in other benchmark or market rates, such as U.S. dollar-LIBOR. Although changes in Compounded SOFR generally are not expected to be as volatile as changes in daily levels of SOFR, the return on and value of the floating rate notes may fluctuate more than floating rate debt securities that are linked to less volatile rates. In addition, the volatility of SOFR has reflected the underlying volatility of the overnight U.S. Treasury repo market. The Federal Reserve Bank of New York has at times conducted operations in the overnight U.S. Treasury repo market in order to help maintain the federal funds rate within a target range. We cannot assure you that the Federal Reserve Bank of New York will continue to conduct such operations in the future, and the duration and extent of any such operations is inherently uncertain. The effect of any such operations, or of the cessation of such operations to the extent they are commenced, is uncertain and could be materially adverse to investors in the floating rate notes.

Any failure of SOFR to gain market acceptance could adversely affect the floating rate notes.

According to the ARRC, SOFR was developed for use in certain U.S. dollar derivatives and other financial contracts as an alternative to U.S. dollar-LIBOR in part because it is considered a good representation of general funding conditions in the overnight U.S. Treasury repo market. However, as a rate based on transactions secured by U.S. Treasury securities, it does not measure bank-specific credit risk and, as a result, is less likely to correlate with the unsecured short-term funding costs of banks. This may mean that market participants would not consider SOFR a suitable replacement or successor for all of the purposes for which U.S. dollar-LIBOR historically has been used (including, without limitation, as a representation of the unsecured short-term funding costs of banks), which may, in turn, lessen market acceptance of SOFR. Any failure of SOFR to gain market acceptance could adversely affect the return on and value of the floating rate notes and the price at which you can sell the floating rate notes in the secondary market.

In addition, if SOFR does not prove to be widely used as a benchmark in securities that are similar or comparable to the floating rate notes, the trading price of the floating rate notes may be lower than those of securities that are linked to rates that are more widely used. Similarly, market terms for floating rate debt securities linked to SOFR, such as the spread over the base rate reflected in interest rate provisions or the manner of compounding the base rate, may evolve over time, and trading prices of the floating rate notes may be lower than those of later-issued SOFR-based debt securities as a result. You may not be able to sell the floating rate notes at all or may not be able to sell the floating rate notes at prices that will provide you with a yield comparable to similar investments that have a developed secondary market, and may consequently suffer from increased pricing volatility and market risk.

The SOFR Index may be modified or discontinued and the floating rate notes may bear interest by reference to a rate other than Compounded SOFR, which could adversely affect the value of the floating rate notes.

The SOFR Index is published by the Federal Reserve Bank of New York (“*FRBNY*”) based on data received by it from sources other than us, and we have no control over its methods of calculation, publication schedule, rate revision practices or availability of the SOFR Index at any time. We cannot assure you, particularly given its relatively recent introduction, that the SOFR Index will not be discontinued or fundamentally altered in a manner that is materially adverse to the interests of investors in the floating rate notes. If the manner in which the SOFR Index is calculated, including the manner in which SOFR is calculated changes, the amount of interest payable on the floating rate notes and the trading prices of the floating rate notes could decrease. Further, if the benchmark rate (plus the applicable margin) on the floating rate notes during the floating rate period on any Interest Payment

[Table of Contents](#)

Determination Date declines to zero or becomes negative, the interest rate will be deemed to equal zero. The FRBNY may withdraw, modify or amend the published SOFR Index or SOFR data in its sole discretion and without notice. The interest rate for any interest period will not be adjusted for any modifications or amendments to the SOFR Index or SOFR data that the FRBNY may publish after the interest rate for that interest period has been determined.

If we or our designee determine that a Benchmark Transition Event and its related Benchmark Replacement Date (each, as defined herein) have occurred in respect of the SOFR Index, then the interest rate on the floating rate notes will no longer be determined by reference to the SOFR Index, but instead will be determined by reference to a different rate, plus a spread adjustment, as further described under “Description of the Notes—Floating Rate Notes—Compounded SOFR.”

If such a Benchmark Replacement or Benchmark Replacement Adjustment (each, as defined herein) cannot be determined, then the next available Benchmark Replacement or Benchmark Replacement Adjustment will apply. These replacement rates and adjustments may be selected, recommended or formulated by (i) the Relevant Governmental Body (as defined herein) (such as the ARRC), (ii) the International Swaps and Derivatives Association (“ISDA”) or (iii) in certain circumstances, us or our designee. In addition, the terms of the floating rate notes expressly authorize us or our designee to make Benchmark Replacement Conforming Changes (as defined herein) with respect to, among other things, changes to the definition of “interest period”, the timing and frequency of determining rates and making payments of interest, the rounding of amounts or tenors and other administrative matters. The determination of a Benchmark Replacement, the calculation of the interest rate on the floating rate notes by reference to a Benchmark Replacement (including the application of a Benchmark Replacement Adjustment), any implementation of Benchmark Replacement Conforming Changes and any other determinations, decisions or elections that may be made under the terms of the floating rate notes in connection with a Benchmark Transition Event, could adversely affect the value of the floating rate notes, the return on the floating rate notes and the price at which you can sell such floating rate notes.

The composition and characteristics of the Benchmark Replacement will not be the same as those of Compounded SOFR, the Benchmark Replacement may not be the economic equivalent of Compounded SOFR, and we cannot assure you that the Benchmark Replacement will perform in the same way as Compounded SOFR would have at any time or that the Benchmark Replacement will be a comparable substitute for Compounded SOFR, which means that a Benchmark Transition Event could adversely affect the value of the floating rate notes, the return on the floating rate notes and the price at which you can sell the floating rate notes. Furthermore, any failure of the Benchmark Replacement to gain market acceptance could adversely affect the floating rate notes, the Benchmark Replacement may have a very limited history and the future performance of the Benchmark Replacement may not be predicted based on historical performance, the secondary trading market for floating rate notes linked to the Benchmark Replacement may be limited and the administrator of the Benchmark Replacement may make changes that could change the value of the Benchmark Replacement or discontinue the Benchmark Replacement and has no obligation to consider your interests in doing so, all of which could similarly have an adverse effect on the value, return and price of the floating rate notes.

We or our designee will make certain determinations with respect to the floating rate notes, which may adversely affect the floating rate notes.

We or our designee will make certain determinations with respect to the floating rate notes. For example, if a Benchmark Transition Event and its related Benchmark Replacement Date have occurred, we or our designee will make certain determinations with respect to the floating rate notes in our or our designee’s sole discretion, as further described under “Description of the Notes—Floating Rate Notes—Compounded SOFR.” For example, assuming that a form of Compounded SOFR is developed, it is not currently known how or by whom rates for Compounded SOFR will be published. Accordingly, we will need to determine and to instruct the calculation agent concerning the manner and timing for its determination of the applicable Compounded SOFR during the applicable floating rate period. Any determination, decision or election pursuant to the benchmark replacement

[Table of Contents](#)

provisions not made by our designee will be made by us. Moreover, certain determinations may require the exercise of discretion and the making of subjective judgments, such as with respect to Compounded SOFR or the occurrence or nonoccurrence of a Benchmark Transition Event and any Benchmark Replacement Conforming Changes. Any of these determinations may adversely affect the value of the floating rate notes, the return on the floating rate notes and the price at which you can sell such floating rate notes. For further information regarding these types of determinations, see “Description of the Notes—Floating Rate Notes—Compounded SOFR.”

DESCRIPTION OF THE NOTES

The notes will be issued as separate series of debt securities under an indenture, dated August 14, 2009, between the Company and Wells Fargo Bank, National Association, as trustee, as amended by a second supplemental indenture, dated August 4, 2011, a fourth supplemental indenture, dated May 10, 2013, and additional supplemental indentures to be entered into on the closing date of this offering with respect to the issuance of the notes. We refer to the original indenture, as supplemented by the second, fourth and additional supplemental indentures, as the “indenture.”

The following description of the particular terms of the notes offered by this prospectus supplement is subject to, and qualified in its entirety by reference to, the applicable provisions of the indenture, a copy of which is available as described under “Where You Can Find More Information.” You should refer to the indenture and the notes for a complete description of the obligations of the Company and your rights because they, and not this description, define your rights as a holder of the notes.

The definitions of certain terms used in the following summary are set forth below under “—Certain Definitions.” For purposes of this “Description of the Notes,” references to “the Company” refer only to Hyatt Hotels Corporation and not to any of its subsidiaries, unless the context otherwise requires or as otherwise expressly stated. Capitalized terms not otherwise defined below or elsewhere in this prospectus supplement have the respective meanings given such terms in the indenture.

- mature on October 1, 2023.

The floating rate notes:

- will be initially issued in an aggregate principal amount of \$300,000,000;
- accrue interest at a floating rate equal to Compounded SOFR, reset quarterly, plus a margin, as described below; and
- mature on October 1, 2023.

The 2024 fixed rate notes:

- will be initially issued in an aggregate principal amount of \$750,000,000;
- accrue interest at a rate of 1.800% per annum; and
- mature on October 1, 2024.

The interest rate on the notes will be subject to adjustment as described below under “—Interest Rate Adjustment of the Notes Based on Certain Rating Events.”

The notes will be issued in minimum denominations of \$2,000 and integral multiples of \$1,000 in excess thereof.

The notes will be our general unsecured obligations and will rank senior to any of our future subordinated indebtedness and will rank equally in right of payment with all our other existing and future unsecured and unsubordinated indebtedness.

Fixed Rate Notes

Interest on the fixed rate notes will:

- accrue from October 1, 2021 or from the most recent Fixed Rate Interest Payment Date (as defined below) to which interest has been paid or provided for;
- be paid semi-annually in arrears on April 1 and October 1 of each year, commencing on April 1, 2022 (each, a “***Fixed Rate Interest Payment Date***”), to holders of record of the notes on the immediately preceding March 15 and September 15; and
- be computed on the basis of a 360-day year consisting of twelve 30-day months.

Interest on the fixed rate notes will be paid to, but excluding, the relevant Fixed Rate Interest Payment Date.

Floating Rate Notes

Interest on the floating rate notes will:

- accrue from October 1, 2021 or from the most recent Floating Rate Interest Payment Date (as defined below) at a floating rate determined in the manner provided below;
- be paid quarterly in arrears on January 1, April 1, July 1 and October 1 of each year, commencing on January 1, 2022 (each, a “***Floating Rate Interest Payment Date***”), to holders of record on the notes on the immediately preceding December 15, March 15, June 15 and September 15; and
- be computed on the basis of a 360-day year and the actual number of days in the Observation Period (as defined below).

Applicable Interest Rate

The interest rate on the floating rate notes in effect for each day of an interest period (as defined below) will be equal to Compounded SOFR plus 105 basis points (1.05%).

Interest on the floating rate notes will be paid to, but excluding, the Floating Rate Interest Payment Date.

The interest rate on the floating rate notes will in no event be higher than the maximum rate permitted by New York law as the same may be modified by United States law of general application. Additionally, the interest rate on the floating rate notes will in no event be lower than zero.

Interest Payment Determination Date

On each Interest Payment Determination Date relating to the applicable Floating Rate Interest Payment Date, the calculation agent will calculate the amount of accrued interest payable on the floating rate notes for each interest period by multiplying:

- the outstanding principal amount of the floating rate notes by
- the product of (a) the interest rate for the relevant interest period multiplied by (b) the quotient of the actual number of calendar days in such Observation Period divided by 360.

With respect to the floating rate notes, the term “*interest period*” means:

- the period commencing on any Floating Rate Interest Payment Date (or, with respect to the initial interest period only, commencing on October 1, 2021) to, but excluding, the next succeeding Floating Rate Interest Payment Date;
- in the case of the last such period, from and including the Floating Rate Interest Payment Date immediately preceding the maturity date to, but excluding, such maturity date; or
- in the event of any redemption of any such floating rate notes, from and including the Floating Rate Interest Payment Date immediately preceding the applicable redemption date to, but excluding, such redemption date.

Secured Overnight Financing Rate and the SOFR Index

SOFR is published by the Federal Reserve Bank of New York (“FRBNY”) and is intended to be a broad measure of the cost of borrowing cash overnight collateralized by U.S. Treasury securities.

The SOFR Index is published by the FRBNY and measures the cumulative impact of compounding SOFR on a unit of investment over time, with the initial value set to 1.00000000 on April 2, 2018, the first value date of SOFR. The SOFR Index value reflects the effect of compounding SOFR each business day and allows the calculation of compounded SOFR averages over custom time periods.

The FRBNY notes on its publication page for the SOFR Index that use of the SOFR Index is subject to important limitations, indemnification obligations and disclaimers, including that the FRBNY may alter the methods of calculation, publication schedule, rate revision practices or availability of the SOFR Index at any time without notice. The interest rate for any interest period will not be adjusted for any modifications or amendments to the SOFR Index or SOFR data that the FRBNY may publish after the interest rate for that interest period has been determined.

Compounded SOFR

“**Compounded SOFR**” will be determined by the calculation agent in accordance with the following formula (and the resulting percentage will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point):

$$\left(\frac{SOFR\ Index_{End}}{SOFR\ Index_{Start}} - 1 \right) \times \frac{360}{d_c}$$

where:

“**SOFR IndexStart**” = For periods other than the initial interest period, the SOFR Index value on the preceding Interest Payment Determination Date, and, for the initial interest period, the SOFR Index value on September 29, 2021;

“**SOFR IndexEnd**” = The SOFR Index value on the Interest Payment Determination Date relating to the applicable Floating Rate Interest Payment Date (or in the final interest period, relating to the applicable maturity date, or in the case of the redemption of any floating rate notes, relating to the applicable redemption date); and

“**dc**” is the number of calendar days in the relevant Observation Period.

[Table of Contents](#)

For purposes of determining Compounded SOFR:

“Interest Payment Determination Date” means the date that is two U.S. Government Securities Business Days before each Floating Rate Interest Payment Date (or in the final interest period, before the applicable maturity date, or in the case of the redemption of any floating rate notes, before the applicable redemption date).

“Observation Period” means, in respect of each interest period, the period from, and including, the date that is two U.S. Government Securities Business Days preceding the first date in such interest period to, but excluding, the date that is two U.S. Government Securities Business Days preceding the Floating Rate Interest Payment Date for such interest period (or in the final interest period, preceding the applicable maturity date, or in the case of the redemption of any floating rate notes, preceding the applicable redemption date).

“SOFR Index” means, with respect to any U.S. Government Securities Business Day:

- the SOFR Index value as published by the SOFR Administrator as such index appears on the SOFR Administrator’s Website at 3:00 p.m. (New York time) on such U.S. Government Securities Business Day (the **“SOFR Index Determination Time”**); *provided, that*
- if a SOFR Index value does not so appear as specified above at the SOFR Index Determination Time, then:
 - if a Benchmark Transition Event and its related Benchmark Replacement Date have not occurred with respect to SOFR, then Compounded SOFR shall be the rate determined as described under “SOFR Index Unavailable Provisions” below; or
 - if a Benchmark Transition Event and its related Benchmark Replacement Date have occurred with respect to SOFR, then Compounded SOFR shall be the rate determined as described under “—Effect of a Benchmark Transition Event” below.

“SOFR” means the daily secured overnight financing rate as provided by the SOFR Administrator on the SOFR Administrator’s Website.

“SOFR Administrator” means the Federal Reserve Bank of New York (or any successor administrator of SOFR).

“SOFR Administrator’s Website” means the website of the Federal Reserve Bank of New York, currently at <http://www.newyorkfed.org>, or any successor source.

“U.S. Government Securities Business Day” means any day except for a Saturday, a Sunday or a day on which the Securities Industry and Financial Markets Association recommends that the fixed income departments of its members be closed for the entire day for purposes of trading in U.S. government securities.

Notwithstanding anything to the contrary in the documentation relating to the floating rate notes, if we or our designee determine on or prior to the relevant Reference Time that a Benchmark Transition Event and its related Benchmark Replacement Date (each as defined below) have occurred with respect to determining Compounded SOFR, then the benchmark replacement provisions set forth below under “—Effect of Benchmark Transition Event” will thereafter apply to all determinations of the rate of interest payable on the floating rate notes.

For the avoidance of doubt, in accordance with the benchmark replacement provisions, after a Benchmark Transition Event and its related Benchmark Replacement Date have occurred, the interest rate for each interest period on the floating rate notes will be an annual rate equal to the sum of the Benchmark Replacement (as defined below) and the applicable margin.

SOFR Index Unavailable Provisions

If a SOFR IndexStart or SOFR IndexEnd is not published on the associated Interest Payment Determination Date and a Benchmark Transition Event and its related Benchmark Replacement Date have not occurred with respect to SOFR, “Compounded SOFR” means, for the applicable interest period for which such index is not available, the rate of return on a daily compounded interest investment calculated in accordance with the formula for SOFR Averages, and definitions required for such formula, published on the SOFR Administrator’s Website, initially located at <https://www.newyorkfed.org/markets/treasury-repo-reference-rates-information>.

For the purposes of this provision, references in the SOFR Averages compounding formula and related definitions to “calculation period” shall be replaced with “Observation Period” and the words “that is, 30-, 90-, or 180-calendar days” shall be removed. If SOFR does not so appear for any day “i” in the Observation Period, SOFR for such day “i” shall be SOFR published in respect of the first preceding U.S. Government Securities Business Day for which SOFR was published on the SOFR Administrator’s Website.

Effect of Benchmark Transition Event

- *Benchmark Replacement.* If we or our designee determine that a Benchmark Transition Event and its related Benchmark Replacement Date have occurred prior to the Reference Time (as defined below) in respect of any determination of the Benchmark on any date, the Benchmark Replacement will replace the then-current Benchmark for all purposes relating to the floating rate notes in respect of such determination on such date and all determinations on all subsequent dates.
- *Benchmark Replacement Conforming Changes.* In connection with the implementation of a Benchmark Replacement, we or our designee will have the right to make Benchmark Replacement Conforming Changes from time to time.
- *Decisions and Determinations.* Any determination, decision or election that may be made by us or our designee pursuant to the benchmark replacement provisions described herein, including any determination with respect to tenor, rate or adjustment or of the occurrence or non-occurrence of an event, circumstance or date and any decision to take or refrain from taking any action or any selection:
 - will be conclusive and binding absent manifest error;
 - if made by us, will be made in our sole discretion;
 - if made by our designee, will be made after consultation with us, and such designee will not make any such determination, decision or election to which we object; and
 - notwithstanding anything to the contrary in this prospectus supplement, the accompanying prospectus or the indenture relating to the floating rate notes, shall become effective without consent from the holders of the floating rate notes or any other party.

Any determination, decision or election pursuant to the benchmark replacement provisions shall be made by us or our designee (which may be our affiliate) on the basis as described above, and in no event shall the calculation agent be responsible for making any such determination, decision or election.

The interest rate and amount of interest to be paid on the floating rate notes for each interest period will be determined by the calculation agent. Wells Fargo Bank, National Association is currently serving as our calculation agent; however, we may change the calculation agent at any time without notice and Wells Fargo Bank, National Association may resign as calculation agent at any time with prior written notice to us. The calculation agent will, upon the request of any holder of the floating rate notes, provide the interest rate then in effect with respect to the floating rate notes. All calculations made by the calculation agent shall in the absence of manifest error be conclusive for all purposes and binding on us and the holders of the floating rate notes. So long as Compounded SOFR is required to be determined with respect to the floating rate notes, there will at all times

[Table of Contents](#)

be a calculation agent. In the event that any then acting calculation agent shall be unable or unwilling to act, or that such calculation agent shall fail to duly establish Compounded SOFR for any interest period, or that we propose to remove such calculation agent, we will appoint another calculation agent.

None of the trustee, the paying agent and the calculation agent (unless we are acting in such capacity) shall be under any obligation to:

- monitor, determine or verify the unavailability or cessation of SOFR or the SOFR Index, or whether or when there has occurred, or to give notice to any other transaction party of the occurrence of, any Benchmark Transition Event or related Benchmark Replacement Date,
- to select, determine or designate any Benchmark Replacement, or other successor or replacement benchmark index, or whether any conditions to the designation of such a rate or index have been satisfied,
- to select, determine or designate any Benchmark Replacement Adjustment, or other modifier to any replacement or successor index, or
- to determine whether or what Benchmark Replacement Conforming Changes are necessary or advisable, if any, in connection with any of the foregoing, including, but not limited to, adjustments as to any alternative spread thereon, the business day convention, interest determination dates or any other relevant methodology applicable to such substitute or successor benchmark.

In connection with the foregoing, each of the trustee, the paying agent and the calculation agent shall be entitled to conclusively rely on any determinations made by us or our designee without independent investigation, and none will have any liability for actions taken at our direction in connection therewith.

None of the trustee, the paying agent and the calculation agent shall be liable for any inability, failure or delay on its part to perform any of its duties set forth in this prospectus supplement as a result of the unavailability of SOFR, the SOFR Index or other applicable Benchmark Replacement, including as a result of any failure, inability, delay, error or inaccuracy on the part of any other transaction party in providing any direction, instruction, notice or information required or contemplated by the terms of this prospectus supplement and reasonably required for the performance of such duties. None of the trustee, the paying agent or the calculation agent shall be responsible or liable for our actions or omissions or for those of our designee, or for any failure or delay in the performance by us or our designee, nor shall any of the trustee, the paying agent or the calculation agent be under any obligation to oversee or monitor our performance or that of our designee.

Interest Rate Adjustment of the Notes Based on Certain Rating Events

The interest rate payable on the notes will be subject to adjustment from time to time if either Moody's or S&P (or, in either case, a Substitute Rating Agency (as defined in "—Certain Definitions" below)) downgrades (or subsequently upgrades) its rating assigned to the notes, as set forth below.

If the rating of the notes from one or both of Moody's or S&P (or, if applicable, any Substitute Rating Agency) is decreased to a rating set forth in either of the immediately following tables, the interest rate on the notes will increase from the interest rate set forth on the cover page of this prospectus supplement by an amount equal to the sum of the percentages per annum set forth in the following tables opposite those ratings:

| Moody's Rating* | Percentage |
|------------------------|-------------------|
| Ba1 | 0.25% |
| Ba2 | 0.50% |
| Ba3 | 0.75% |
| B1 or below | 1.00% |

| S&P Rating* | Percentage |
|------------------------|-------------------|
| BB | 0.25% |
| BB- | 0.50% |
| B+ | 0.75% |
| B or below | 1.00% |

* Including the equivalent ratings of any Substitute Rating Agency.

For purposes of making adjustments to the interest rate on the notes, the following rules of interpretation will apply:

- (1) if at any time less than two Rating Agencies provide a rating on the notes for reasons not within our control (i) we will use commercially reasonable efforts to obtain a rating on the notes from a Substitute Rating Agency for purposes of determining any increase or decrease in the interest rate on the notes pursuant to the tables above, (ii) such Substitute Rating Agency will be substituted for the last Rating Agency to provide a rating on the notes but which has since ceased to provide such rating, (iii) the relative ratings scale used by such Substitute Rating Agency to assign ratings to senior unsecured debt will be determined in good faith by an independent investment banking institution of national standing appointed by us and, for purposes of determining the applicable ratings included in the applicable table above with respect to such Substitute Rating Agency, such ratings shall be deemed to be the equivalent ratings used by Moody's or S&P, as applicable, in such table, and (iv) the interest rate on the notes will increase or decrease, as the case may be, such that the interest rate equals the interest rate with respect to the notes set forth on the cover page of this prospectus supplement plus the appropriate percentage, if any, set forth opposite the rating from such Substitute Rating Agency in the applicable table above (taking into account the provisions of clause (iii) above) (plus any applicable percentage resulting from a decreased rating by the other Rating Agency);
- (2) for so long as only one Rating Agency (or Substitute Rating Agency, if applicable) provides a rating on the notes, any increase or decrease in the interest rate on the notes necessitated by a reduction or increase in the rating by that Rating Agency shall be twice the applicable percentage set forth in the applicable table above;
- (3) if both Rating Agencies cease to provide a rating of the notes for any reason, and no Substitute Rating Agency has provided a rating on the notes, the interest rate on the notes will increase to, or remain at, as the case may be, 2.00% per annum above the interest rate on the notes prior to any such adjustment;
- (4) if Moody's or S&P ceases to rate the notes or make a rating of the notes publicly available for reasons within our control, we will not be entitled to obtain a rating from a Substitute Rating Agency and the increase or decrease in the interest rate on the notes shall be determined in the manner described above as if either only one or no Rating Agency provides a rating on the notes, as the case may be;
- (5) each interest rate adjustment required by any decrease or increase in a rating as set forth above, whether occasioned by the action of Moody's or S&P (or, in either case, any Substitute Rating Agency), shall be made independently of (and in addition to) any and all other interest rate adjustments occasioned by the action of the other Rating Agency;
- (6) in no event will (i) the interest rate on the fixed rate notes be reduced to below the interest rate on the fixed rate notes at the time of issuance, (ii) the interest rate on the floating rate notes be reduced to below 0.000% or (iii) the total increase in the interest rate on the notes exceed 2.00% above the interest rate payable on the notes on the date of their initial issuance; and
- (7) subject to clauses (3) and (4) above, no adjustment in the interest rate on the notes shall be made solely as a result of a Rating Agency ceasing to provide a rating of the notes.

If at any time the interest rate on the notes has been adjusted upward and either of the Rating Agencies subsequently increases its rating of the notes, the interest rate on the notes will again be adjusted (and decreased, if appropriate) such that the interest rate on the notes equals the original interest rate payable on the notes prior to any adjustment plus (if applicable) an amount equal to the sum of the percentages per annum set forth opposite the ratings in the tables above with respect to the ratings assigned to the notes (or deemed assigned) at that time, all calculated in accordance with the rules of interpretation set forth above.

[Table of Contents](#)

If Moody's or any Substitute Rating Agency subsequently increases its rating on the notes to "Baa3" (or its equivalent if with respect to any Substitute Rating Agency) or higher and S&P or any Substitute Rating Agency subsequently increases its rating on the notes to "BB+" (or its equivalent if with respect to any Substitute Rating Agency) or higher, the interest rate on the notes will be decreased to the interest rate on the notes prior to any adjustments made pursuant to this section.

Any interest rate increase or decrease described above will take effect from the first day of the interest period following the period in which a rating change occurs requiring an adjustment in the interest rate. If either Rating Agency changes its rating of the notes more than once during any particular interest period, the last such change by such Rating Agency to occur will control in the event of a conflict for purposes of any increase or decrease in the interest rate with respect to the notes.

The interest rate on the notes will permanently cease to be subject to any adjustment described above (notwithstanding any subsequent decrease in the ratings by either Rating Agency) if the notes become rated "Baa2" or higher by Moody's (or its equivalent if with respect to any Substitute Rating Agency) and "BBB" or higher by S&P (or its equivalent if with respect to any Substitute Rating Agency), in each case with a stable or positive outlook.

If the interest rate on the notes is increased as described above, the term "interest," as used with respect to the notes, will be deemed to include any such additional interest unless the context otherwise requires.

See "Risk Factors—Risks Relating to the Notes—Changes in the ratings of the notes, our credit ratings or the debt markets could adversely affect the price of the notes."

Promptly upon determination that an adjustment to the interest rate on the notes is required, we will inform the Trustee and, with respect to the floating rate notes, the calculation agent, in writing of the occurrence of such adjustment and the interest rate or margin payable for the next interest period. Absent manifest error, the determination of the interest rate or margin by us shall be binding and conclusive on the holders, the Trustee, the calculation agent and us.

The Trustee shall not be responsible for and makes no representation as to any act or omission of any Rating Agency or any rating with respect to the notes or the selection of a Substitute Rating Agency. The Trustee shall have no obligation to independently determine or verify if any event has occurred or notify the holders of any event dependent upon the rating of the notes, or if the rating on the notes has been changed, suspended or withdrawn by any Rating Agency.

Optional Redemption

The floating rate notes will not be redeemable at our option at any time before the Par Call Date (as defined in "—Certain Definitions" below).

We may redeem some or all of the fixed rate notes at our option at any time before the Par Call Date, at a redemption price equal to the greater of:

- 100% of the principal amount of the fixed rate notes being redeemed; and
- as calculated by the Quotation Agent (as defined below), the sum of the present values of the remaining scheduled payments of principal and interest on the fixed rate notes to be redeemed that would have been payable if the fixed rate notes being redeemed matured on the Par Call Date (except for accrued but unpaid interest to the redemption date) discounted to the redemption date on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at the Treasury Rate (as defined below) plus 20 basis points for the 2023 fixed rate notes and 20 basis points for the 2024 fixed rate notes;

plus, in each case, accrued but unpaid interest on the fixed rate notes to, but not including, the redemption date.

[Table of Contents](#)

At any time on or after the Par Call Date, we may redeem some or all of the notes at our option, at a redemption price equal to 100% of the principal amount of the notes being redeemed, *plus* accrued and unpaid interest on the notes being redeemed to, but not including, the redemption date.

Notice of any redemption will be mailed at least 15 but not more than 60 days before the redemption date to each holder of the notes to be redeemed. On and after the redemption date, unless we default in payment of the redemption price, interest will cease to accrue on the notes or portions thereof called for redemption.

The notice will identify the notes to be redeemed and will state:

- the redemption date;
- the redemption price, which will include interest accrued and unpaid to, but not including, the date fixed for redemption;
- if any note is being redeemed in part, the portion of the principal amount of such note to be redeemed and that, after the redemption date upon surrender of such note, a new note or notes in principal amount equal to the unredeemed portion will be issued upon cancellation of the original note (or cause to be transferred by book-entry);
- the name and address of the paying agent;
- that the notes called for redemption must be surrendered to the paying agent to collect the redemption price;
- that, unless we default in making such redemption payment or the paying agent is prohibited from making such payment pursuant to the terms of the indenture, interest on the notes (or portion thereof) called for redemption will cease to accrue on and after the redemption date;
- the paragraph of the notes or provision of the indenture or any supplemental indenture pursuant to which the notes called for redemption are being redeemed;
- the CUSIP or ISIN number, if any, of the notes; and
- that no representation is made as to the correctness or accuracy of the CUSIP or ISIN number, if any, listed in such notice or printed on the notes.

As long as the notes are represented by global notes held by DTC or its nominee, we will not be responsible for providing notice of redemption to anyone other than DTC or its nominee, and the trustee.

If less than all the notes are to be redeemed, the trustee will select the notes to be redeemed on a pro rata basis, by lot or by such other methods as the trustee deems fair and appropriate. The trustee will make the selection from the outstanding notes not previously called for redemption; *provided, however*, that global notes will be selected in accordance with the applicable procedures of DTC, and the trustee shall have no duty to monitor or oversee such selection procedures. Notes and portions of them that the trustee selects will be in minimum denominations of \$2,000 and any integral multiples of \$1,000 in excess thereof.

Upon surrender of a note that is redeemed in part, we will execute and the trustee will authenticate (or cause to be transferred by book-entry) for the holder a new note equal in principal amount to the unredeemed portion of the note surrendered.

Mandatory Redemption

We are not required to make mandatory redemption or sinking fund payments with respect to the notes.

Payment

The trustee, through its corporate trust office, will initially act as paying agent with respect to the notes. We may change the paying agent without prior notice to you, and we or any of our Subsidiaries may act as paying agent. We will make payments of principal, interest and premium, if any, through the paying agent to DTC as described under “Book-Entry System; Delivery and Form.”

If any Fixed Rate Interest Payment Date, maturity date or redemption date for the fixed rate notes falls on a day that is not a business day, the payment will be made on the next business day with the same force and effect as if made on the relevant Fixed Rate Interest Payment Date, maturity date or redemption date, and no interest on such payment will accrue in respect of the delay.

If a Floating Rate Interest Payment Date (other than the maturity dates) for the floating rate notes falls on a day that is not a business day, such Floating Rate Interest Payment Date shall be postponed to the next succeeding business day unless such next succeeding business day would be in the following calendar month, in which case, such Floating Rate Interest Payment Date shall be the immediately preceding business day. If the maturity date of the floating rate notes is not a business day, payment will be made on the next succeeding business day, and no interest will accrue for the period from and after the maturity date.

Purchasers are required to pay for the notes in U.S. dollars, and payments of principal, premium, if any, and interest on the notes will also be made in U.S. dollars.

Additional Notes

We may issue additional notes of each series of notes offered by this prospectus supplement, without limitation and without your consent, in accordance with the indenture. If we issue additional notes of a series, they will have the same terms and conditions as the notes of such series being offered by this prospectus supplement in all respects (except for the issue date, price to public, the initial interest payment date (if applicable) and the payment of interest accruing prior to the issue date of the additional notes of such series) so that such additional notes may be consolidated and form a single series with the notes of such series offered by this prospectus supplement. If any additional notes of such series are not fungible with the notes of such series offered by this prospectus supplement for U.S. federal income tax purposes, the additional notes will have separate CUSIP and ISIN numbers.

We may issue other series of debt securities under the indenture from time to time in an amount authorized prior to issuance. The indenture does not limit the amount of indebtedness that we may incur.

Change of Control

If a Change of Control Triggering Event (as defined in “—Certain Definitions” below) occurs, and we have not previously exercised our option to redeem the notes as described above, we will be required to make the offer described below (the “*Change of Control Offer*”) to each holder of the notes to repurchase all or any portion (in excess of \$2,000 and in integral multiples of \$1,000) of that holder’s notes at a purchase price equal to 101% of the principal amount thereof plus accrued and unpaid interest, if any, to, but not including, the date of repurchase (subject to the right of holders of record on the relevant record date to receive interest due on the relevant Interest Payment Date).

Within 30 days following any Change of Control Triggering Event, or at our option, prior to any Change of Control (as defined below) but after the public announcement of the pending Change of Control, we will mail a notice to each holder, with a copy to the trustee, which terms will govern the terms of the Change of Control Offer. Such notice will state, among other things:

[Table of Contents](#)

- that a Change of Control Triggering Event has occurred and that such holder has the right to require us to repurchase all or a portion of its notes at a purchase price in cash equal to 101% of the principal amount thereof on the date of repurchase, plus accrued and unpaid interest, if any, to, but not including, the date of repurchase (subject to the right of holders of record on the relevant record date to receive interest on the relevant Interest Payment Date);
- the circumstances and relevant facts regarding such Change of Control Triggering Event;
- the repurchase date, which will be no earlier than 30 nor later than 60 days from the date such notice is mailed, other than as may be required by law (the “*Change of Control Payment Date*”); and
- the instructions, as determined by us and consistent with the covenant described under the indenture, that a holder must follow in order to have its note purchased.

We will not be required to make a Change of Control Offer following a Change of Control Triggering Event if a third party makes the Change of Control Offer in the manner, at the times and otherwise in compliance with the requirements set forth in the indenture applicable to a Change of Control Offer made by us and purchases all notes properly tendered and not withdrawn under such Change of Control Offer.

A Change of Control Offer may be made in advance of a Change of Control, conditional upon such Change of Control, if a definitive agreement is in place for the Change of Control at the time of making of the Change of Control Offer. The Change of Control Offer, if mailed prior to the date of consummation of the Change of Control, will state that the offer is conditioned on the Change of Control being consummated on or prior to the Change of Control Payment Date.

We will comply with the requirements of Section 14(e) under the Exchange Act and any other securities laws and regulations thereunder to the extent such laws and regulations are applicable in connection with the repurchase of notes pursuant to a Change of Control Triggering Event. To the extent that the provisions of any securities laws or regulations conflict with the “Change of Control” provisions of the indenture, we will comply with those applicable securities laws and regulations and will not be deemed to have breached our obligations under the “Change of Control” provisions of the indenture by virtue of any such compliance.

Subject to the limitations discussed below, we may, in the future, enter into certain transactions, including acquisitions, refinancings or other recapitalizations, that would not constitute a Change of Control Triggering Event under the indenture, but that may increase the amount of indebtedness outstanding at such time or otherwise affect our capital structure or credit ratings. However, the indenture will not contain any covenants or provisions that will afford holders protection in the event of any such transaction.

The occurrence of a Change of Control will constitute a default under our revolving credit facility. Our other debt may contain prohibitions of certain events that would constitute a Change of Control Triggering Event or may require such debt to be repurchased or repaid upon a Change of Control Triggering Event. Moreover, the exercise by the holders of their right to require us to purchase the notes may cause a default under such debt, even if the Change of Control Triggering Event itself does not, due to the financial effect of such repurchase on us or otherwise. Finally, our ability to pay cash to the holders upon a purchase may be limited by our then-existing financial resources. We cannot assure you that sufficient funds will be available when necessary to make required purchases. The holders of a majority in aggregate principal amount of the notes may give written consent that the provisions under the indenture relating to our obligation to make an offer to purchase such notes as a result of a Change of Control Triggering Event be waived or modified prior to the occurrence of a Change of Control Triggering Event.

Reporting

So long as any notes are outstanding (unless satisfied and discharged or defeased), and so long as we are not subject to reporting requirements under Section 13 or 15(d) of the Exchange Act, we will furnish without cost to the holders and provide to the trustee, no later than 90 days after the end of each fiscal year (in the case of annual financial statements) and 45 days after the end of each fiscal quarter other than the last fiscal quarter (in the case of quarterly financial statements), unaudited quarterly and audited annual consolidated financial statements of the Company and its subsidiaries (including balance sheets, statements of operations and statements of cash flows that would be required from an SEC registrant in an Annual Report on Form 10-K or a Quarterly Report on Form 10-Q, as the case may be) prepared in accordance with GAAP, subject, with respect to quarterly financial statements, to the absence of footnote disclosure and normal year end audit adjustments. All such audited annual consolidated financial statements shall be audited by an internationally recognized independent public accountant.

We will distribute (or cause the trustee to distribute) such information and such reports electronically to:

- any holder;
- any beneficial owner of the notes that provides its email address to us and certifies that it is a beneficial owner of the notes;
- any prospective investor in the notes that provides its email address to us and certifies that it is (i) a prospective investor in the notes and (ii) a Qualified Institutional Buyer (as defined in the Securities Act) or not a U.S. Person (as defined in Rule 902(k) under the Securities Act);
- any market maker that provides its email address to us and certifies that it is or intends to be a market maker with respect to the notes; and
- any securities analyst that provides its email address to us and certifies that it is a securities analyst.

Any person who requests or receives such financial information from us will be required to represent to us that (i) it is a holder, a beneficial owner of the notes, a prospective investor in the notes, a market maker or a securities analyst; (ii) it will not use the information in violation of applicable securities laws or regulations; (iii) it will not communicate the information to any person; and (iv) it is not a Person (which includes such Person's Affiliates) that (i) is principally engaged in the hospitality or lodging business or (ii) derives a significant portion of its revenues from operating, owning or franchising hospitality or lodging assets.

Notwithstanding the foregoing, we may fulfill the requirement to distribute financial information by filing the information with the SEC.

Delivery of reports, information and documents to the trustee is for informational purposes only, and the trustee's receipt of the foregoing shall not constitute constructive notice of any information contained therein or determinable from information contained therein, including our compliance with any of the covenants in the indenture (as to which the trustee is entitled to rely on officers' certificates).

Other Terms

The terms described under "Covenants," "Mergers, Consolidations, Sales," "Certain Definitions," "Events of Default," "Defeasance of Debt Securities and Certain Covenants," "Satisfaction and Discharge" and "Modification and Waiver" in the section titled "Description of Debt Securities" of the accompanying prospectus will apply to the notes.

No Personal Liability of Directors, Officers, Employees and Stockholders

No director, officer, employee, incorporator or stockholder of our Company, as such, will have any liability for any of our obligations under the notes, the indenture, or for any claim based on, in respect of or by reason of, such obligations or their creation. Each holder of notes by accepting a note waives and releases all such liability. The waiver and release are part of the consideration for issuance of the notes. The waiver may not be effective to waive liabilities under the U.S. federal securities laws.

Governing Law

The indenture and the notes will be governed by and construed in accordance with the laws of the State of New York.

Trustee

The trustee may resign at any time or may be removed by the holders of the notes or us under certain circumstances. If the trustee resigns, is removed or becomes incapable of acting as trustee or if a vacancy occurs in the office of the trustee for any cause, a successor trustee will be appointed in accordance with the provisions of the indenture. The trustee assumes no responsibility for the accuracy or completeness of the information concerning us or our affiliates or any other party contained in this document or the related documents or for any failure by us or any other party to disclose events that may have occurred and may affect the significance or accuracy of such information. The trustee will be permitted to engage in other transactions with us; however, if it acquires any conflicting interest as defined in the Trust Indenture Act of 1939, as amended, it must eliminate such conflict within 90 days, apply to the SEC for permission to continue or resign. Wells Fargo Securities, LLC, an affiliate of the Trustee, is one of the underwriters.

“**Benchmark Replacement Date**” means the earliest to occur of the following events with respect to the then-current Benchmark (including any daily published component used in the calculation thereof):

- (1) in the case of clause (1) or (2) of the definition of “Benchmark Transition Event,” the later of (a) the date of the public statement or publication of information referenced therein and (b) the date on which the administrator of the Benchmark permanently or indefinitely ceases to provide the Benchmark (or such component); or

BOOK-ENTRY SYSTEM; DELIVERY AND FORM

The notes will be represented by one or more global notes in definitive, fully registered form without interest coupons. Each global note will be deposited with the trustee as custodian for DTC, as depository under the indenture, and registered in the name of DTC or a nominee of DTC in New York, New York for the accounts of institutions that have accounts with DTC (“*participants*”).

You may hold your interests in a global note directly through DTC if you are a DTC participant or indirectly through organizations that are DTC participants. Except in the limited circumstances described below, if you hold notes represented by interests in a global note, you will not be entitled to receive your notes in fully registered definitive form (“*definitive notes*”).

DTC has advised us as follows:

- DTC is a limited-purpose trust company organized under the New York Banking Law;
- a “banking organization” within the meaning of the New York Banking Law;
- a member of the Federal Reserve System;
- a “clearing corporation” within the meaning of the New York Uniform Commercial Code; and
- a “clearing agency” registered pursuant to the provisions of Section 17A of the Exchange Act.

DTC was created to hold securities of its participants and to facilitate the clearance and settlement of securities transactions among its participants in such securities through electronic book-entry changes in accounts of the participants, thereby eliminating the need for physical movement of securities certificates. DTC’s participants include securities brokers and dealers (which may include the underwriters), banks, trust companies, clearing corporations and certain other organizations. Access to DTC’s book-entry systems is also available to others such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a participant, whether directly or indirectly.

Ownership of Beneficial Interests

We expect that, pursuant to the procedures established by DTC, upon the issuance of each global note, DTC will credit, on its book-entry registration and transfer system, the respective principal amount of your individual beneficial interest represented by the global note to the accounts of participants. Ownership of beneficial interests in each global note will be limited to participants or persons that may hold interests through participants. Your ownership of beneficial interests in each global note will be shown on, and the transfer of those ownership interests will be effected only through, records maintained by DTC (with respect to participants’ interests) and such participants (with respect to the owners of beneficial interests in the global note other than participants).

So long as DTC, or its nominee, is the registered holder and owner of a global note, DTC or such nominee, as the case may be, will be considered the sole legal owner of the notes represented by the global note for all purposes under the indenture, the notes and applicable law. Except as set forth below, as an owner of beneficial interests in a global note, you will not be entitled to receive definitive notes, will not be entitled to have the notes represented by the global note registered in your name and will not be considered to be the owner or holder of any notes under the global note. We understand that under existing industry practice, in the event you desire to take any actions that DTC, as the holder of the global note, is entitled to take, DTC would authorize the participants to take such action, and that participants would authorize you to take such action or would otherwise act upon your instructions. As a beneficial owner of an interest in a global note, you will not be able to transfer the interest except in accordance with DTC’s applicable procedures. Because DTC can only act on behalf of participants, who in turn act on behalf of others, your ability to pledge that interest to persons that do not participate in the DTC system, or otherwise to take actions in respect of that interest, may be impaired by the lack of a physical certificate of that interest.

[Table of Contents](#)

All payments on the notes represented by a global note registered in the name of and held by DTC or its nominee will be made to DTC or its nominee, as the case may be, as the registered owner and holder of the global note.

We expect that DTC or its nominee, upon receipt of any payment of principal or interest in respect of a global note, will credit participants' accounts with payments in amounts proportionate to their respective beneficial interests in the principal amount of the global note as shown on the records of DTC or its nominee. We also expect that payments by participants to you will be governed by standing instructions and customary practices, as is now the case with securities held for accounts of customers in the names of nominees for such customers. Such payments, however, will be the responsibility of such participants and indirect participants, and neither we, the underwriters, the trustee nor any paying agent will have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in any global note or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests or for any other aspect of the relationship between DTC and its participants or the relationship between such participants and you.

Unless and until it is exchanged in whole or in part for definitive notes, no global note may be transferred except as a whole by DTC to a nominee of DTC or by a nominee of DTC to DTC or another nominee of DTC. Transfers between participants in DTC will be effected in the ordinary way in accordance with DTC rules and will be settled in same-day funds.

We expect that DTC will take any action permitted to be taken by a holder of notes (including the presentation of notes for exchange as described below) only at the direction of one or more participants to whose account the DTC interests in a global note are credited and only in respect of such portion of the aggregate principal amount of the notes as to which such participant or participants has or have given such direction. However, if there is an event of default under the notes, DTC will exchange each global note for definitive notes, which it will distribute to its participants.

Although we expect that DTC will agree to the foregoing procedures in order to facilitate transfers of interests in each global note among participants of DTC, DTC is under no obligation to perform or continue to perform such procedures, and such procedures may be discontinued at any time. Neither the underwriters, the trustee nor we will have any responsibility for the performance or non-performance by DTC or their participants or indirect participants of their respective obligations under the rules and procedures governing their operations.

The indenture provides that if:

DTC notifies us that it is unwilling or unable to continue as depository or if DTC ceases to be a clearing agency registered under the Exchange Act and, in either case, we do not appoint a successor depository within 90 days of such event;

- we execute and deliver to the trustee an officers' certificate to the effect that the global notes are exchangeable; or
- an event of default with respect to the notes represented by such global notes shall have occurred and be continuing,

the global notes will be exchanged for notes in definitive form of like tenor and of an equal principal amount, in authorized denominations. Upon the occurrence of the events set forth in either of the first two bullets of this paragraph, such definitive notes will be registered in such name or names as DTC instructs the trustee. We expect that such instructions may be based upon directions received by DTC from participants with respect to ownership of beneficial interest in global notes. In connection with any proposed exchange of a global note for a definitive note, there shall be provided to the trustee all information necessary to allow the trustee to comply with any applicable tax reporting obligations, including without limitation any cost basis reporting obligations under Section 6045 of the U.S. Internal Revenue Code of 1986, as amended. The trustee may rely on information provided to it and shall have no responsibility to verify or ensure the accuracy of such information.

We have obtained the information in this section concerning DTC and DTC's book-entry system from sources that we believe to be reliable, but neither we, the trustee nor the underwriters take responsibility for its accuracy.

Holding through Euroclear and Clearstream

If the depository for a global note is DTC, you may hold interests in the global note through Clearstream Banking, *société anonyme* ("**Clearstream**"), or Euroclear Bank S.A./N.V., as operator of the Euroclear System ("**Euroclear**"), in each case, as a participant in DTC. Euroclear and Clearstream will hold interests, in each case, on behalf of their participants through customers' securities accounts in the names of Euroclear and Clearstream on the books of their respective depositories, which in turn will hold such interests in customers' securities in the depositories' names on DTC's books.

Payments, deliveries, transfers, exchanges, notices and other matters relating to the notes made through Euroclear or Clearstream must comply with the rules and procedures of those systems. Those systems could change their rules and procedures at any time. We have no control over those systems or their participants, and we take no responsibility for their activities. Transactions between participants in Euroclear or Clearstream, on the one hand, and other participants in DTC, on the other hand, would also be subject to DTC's rules and procedures.

You will be able to make and receive through Euroclear and Clearstream payments, deliveries, transfers, exchanges, notices and other transactions involving any securities held through those systems only on days when those systems are open for business. Those systems may not be open for business on days when banks, brokers and other institutions are open for business in the United States.

In addition, because of time-zone differences, if you are a U.S. investor who holds your interests in the notes through these systems and wish on a particular day to transfer your interests, or to receive or make a payment or delivery or exercise any other right with respect to your interests, you may find that the transaction will not be effected until the next business day in Luxembourg or Brussels, as applicable. Thus, if you wish to exercise rights that expire on a particular day, you may need to act before the expiration date. In addition, if you hold your interests through both DTC and Euroclear or Clearstream, you may need to make special arrangements to finance any purchases or sales of your interests between the U.S. and European clearing systems, and those transactions may settle later than transactions within one clearing system.

MATERIAL U.S. FEDERAL INCOME TAX CONSEQUENCES

The following discussion is a summary of the material U.S. federal income tax consequences of the purchase, ownership and disposition of the notes issued pursuant to this offering, but does not purport to be a complete analysis of all potential tax effects. The effects of other U.S. federal tax laws, such as estate and gift tax laws, and any applicable state, local or foreign tax laws are not discussed. This discussion is based on the U.S. Internal Revenue Code of 1986, as amended (the “*Code*”), Treasury Regulations promulgated thereunder, judicial decisions, and published rulings and administrative pronouncements of the U.S. Internal Revenue Service (the “*IRS*”), in each case in effect as of the date hereof. These authorities may change or be subject to differing interpretations. Any such change or differing interpretation may be applied retroactively in a manner that could adversely affect a holder of the notes. We have not sought and will not seek any rulings from the IRS regarding the matters discussed below. There can be no assurance the IRS or a court will not take a contrary position to that discussed below regarding the tax consequences of the purchase, ownership and disposition of the notes.

This discussion is limited to holders who hold the notes as “capital assets” within the meaning of Section 1221 of the Code (generally, property held for investment). In addition, this discussion is limited to persons purchasing the notes for cash at original issue and at their original “issue price” within the meaning of Section 1273 of the Code (*i.e.*, the first price at which a substantial amount of the notes is sold to the public for cash other than to bond houses, brokers or similar persons or organizations acting in the capacity of underwriters, placement agents or wholesalers). This discussion assumes that the notes are issued at par or with a statutorily defined *de minimis* amount of original issue discount.

This discussion does not address all U.S. federal income tax consequences relevant to a holder’s particular circumstances, including the impact of the Medicare contribution tax on net investment income the alternative minimum tax and potentially different tax consequences with respect to beneficial owners of any floating rate notes due 2022 that may be redeemed in connection with this offering. In addition, it does not address consequences relevant to holders subject to special rules, including, without limitation:

- U.S. expatriates and former citizens or long-term residents of the United States;
- U.S. Holders (as defined below) whose functional currency is not the U.S. dollar;
- persons holding the notes as part of a hedge, straddle or other risk reduction strategy or as part of a conversion transaction or other integrated investment;
- persons subject to special tax accounting rules as a result of any item of gross income with respect to the notes being taken into account in an applicable financial statement;
- banks, insurance companies, and other financial institutions;
- real estate investment trusts or regulated investment companies;
- brokers, dealers or traders in securities;
- “controlled foreign corporations,” “passive foreign investment companies,” and corporations that accumulate earnings to avoid U.S. federal income tax;
- S corporations and partnerships or other entities or arrangements treated as partnerships for U.S. federal income tax purposes (and investors therein);
- tax-exempt organizations or governmental organizations; and
- persons deemed to sell the notes under the constructive sale provisions of the Code.

If an entity or arrangement treated as a partnership for U.S. federal income tax purposes holds the notes, the tax treatment of a partner in the partnership will depend on the status of the partner, the activities of the partnership and

certain determinations made at the partner level. Accordingly, partnerships holding the notes and the partners in such partnerships should consult their tax advisors regarding the U.S. federal income tax consequences to them.

THIS DISCUSSION IS FOR INFORMATION PURPOSES ONLY AND IS NOT TAX ADVICE. INVESTORS SHOULD CONSULT THEIR TAX ADVISORS WITH RESPECT TO THE APPLICATION OF THE U.S. FEDERAL INCOME TAX LAWS TO THEIR PARTICULAR SITUATIONS AS WELL AS ANY TAX CONSEQUENCES OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF THE NOTES ARISING UNDER OTHER U.S. FEDERAL TAX LAWS (INCLUDING ESTATE AND GIFT TAX LAWS), UNDER THE LAWS OF ANY STATE, LOCAL OR NON-U.S. TAXING JURISDICTION OR UNDER ANY APPLICABLE TAX TREATY.

Additional Payments

We may be obligated to pay amounts in excess of the stated interest and principal on the notes, including as described under “Description of the Notes—Optional Redemption and —Change of Control,” and may be obligated to pay additional interest on the notes, as described under “Description of the Notes—Interest Rate Adjustment of the Notes Based on Certain Rating Events.” These potential payments may implicate the provisions of Treasury Regulations relating to “contingent payment debt instruments” (“*CPDIs*”). According to the applicable Treasury Regulations, certain contingencies will not cause a debt instrument to be treated as a CPDI if such contingencies in the aggregate, as of the date of issuance, are remote or incidental or, in certain circumstances, if it is “significantly more likely than not” that none of such contingencies will occur. We intend to take the position that the foregoing contingencies will not cause the notes to be treated as CPDIs. Our position is binding on a holder unless such holder discloses its contrary position in the manner required by applicable Treasury Regulations. However, our determination concerning the effect of these contingencies is inherently factual, and our position is not binding on the IRS. If the IRS were to successfully challenge this position, a holder might be required to accrue interest income at a higher rate than the stated interest rate on the notes, and to treat any gain realized on the taxable disposition of a note as ordinary interest income, rather than capital gain. The remainder of this discussion assumes that the notes will not be treated as CPDIs. Prospective investors should consult their own tax advisors regarding the possible application of the CPDI rules to the notes.

Tax Consequences Applicable to U.S. Holders

Definition of a U.S. Holder

For purposes of this discussion, a “U.S. Holder” is a beneficial owner of a note that, for U.S. federal income tax purposes, is or is treated as:

- an individual who is a citizen or resident of the United States;
- a corporation created or organized under the laws of the United States, any state thereof, or the District of Columbia;
- an estate, the income of which is subject to U.S. federal income tax regardless of its source; or
- a trust that (1) is subject to the primary supervision of a U.S. court and the control of one or more “United States persons” (within the meaning of Section 7701(a)(30) of the Code), or (2) has a valid election in effect to be treated as a United States person for U.S. federal income tax purposes.

Payments of Interest

Interest on a note generally will be taxable to a U.S. Holder as ordinary income at the time such interest is received or accrued, in accordance with such U.S. Holder’s method of tax accounting for U.S. federal income tax purposes.

Sale or Other Taxable Disposition

A U.S. Holder will recognize gain or loss on the sale, exchange, redemption, retirement or other taxable disposition of a note generally equal to the difference, if any, between the amount received for the note in cash or other property valued at fair market value (less amounts attributable to any accrued but unpaid interest, which will be taxable as ordinary income to the extent not previously included in income) and the U.S. Holder's adjusted tax basis in the note. A U.S. Holder's adjusted tax basis in a note generally will be equal to the amount the U.S. Holder paid for the note. Any gain or loss will be capital gain or loss, and will be long-term capital gain or loss if the U.S. Holder has held the note for more than one year at the time of sale or other taxable disposition. Otherwise, such gain or loss will be short-term capital gain or loss. Long-term capital gains recognized by certain non-corporate U.S. Holders, including individuals, generally will be taxable at a reduced rate. The deductibility of capital losses is subject to limitations.

Information Reporting and Backup Withholding

A U.S. Holder generally will be subject to information reporting when the U.S. Holder receives payments on a note or receives proceeds from the sale or other taxable disposition of a note (including a redemption or retirement of a note). A U.S. Holder generally will be subject to backup withholding with respect to such payments and proceeds if the U.S. Holder is not otherwise exempt and:

- the U.S. Holder fails to furnish the U.S. Holder's taxpayer identification number, which for an individual is ordinarily his or her social security number;
- the U.S. Holder furnishes an incorrect taxpayer identification number;
- the applicable withholding agent is notified by the IRS that the U.S. Holder previously failed to properly report payments of interest or dividends; or
- the U.S. Holder fails to certify under penalties of perjury that the U.S. Holder has furnished a correct taxpayer identification number and that the IRS has not notified the U.S. Holder that the U.S. Holder is subject to backup withholding.

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules may be allowed as a refund or a credit against a U.S. Holder's U.S. federal income tax liability, provided the required information is timely furnished to the IRS. Certain U.S. Holders (including corporations) are exempt from backup withholding. U.S. Holders should consult their tax advisors regarding their qualification for an exemption from backup withholding and the procedures for obtaining such an exemption.

Tax Consequences Applicable to Non-U.S. Holders

Definition of a Non-U.S. Holder

For purposes of this discussion, a "Non-U.S. Holder" is a beneficial owner of a note that is neither a U.S. Holder nor an entity treated as a partnership for U.S. federal income tax purposes.

Payments of Interest

Subject to the discussions below on backup withholding and FATCA withholding, interest paid on a note to a Non-U.S. Holder that is not effectively connected with the Non-U.S. Holder's conduct of a trade or business within the United States generally will not be subject to U.S. federal income tax or withholding tax, *provided* that:

- the Non-U.S. Holder does not, actually or constructively, own 10% or more of the total combined voting power of all classes of our voting stock;
- the Non-U.S. Holder is not a controlled foreign corporation related to us through actual or constructive stock ownership; and

- either (1) the Non-U.S. Holder certifies in a statement provided to the applicable withholding agent under penalties of perjury that it is not a “United States person” (within the meaning of Section 7701(a)(30) of the Code) and provides its name and address; (2) a securities clearing organization, bank or other financial institution that holds customers’ securities in the ordinary course of its trade or business and holds the note on behalf of the Non-U.S. Holder certifies to the applicable withholding agent under penalties of perjury that it, or the financial institution between it and the Non-U.S. Holder, has received from the Non-U.S. Holder a statement under penalties of perjury that such Non-U.S. Holder is not a United States person and provides a copy of such statement to the applicable withholding agent; or (3) the Non-U.S. Holder holds its note directly through a “qualified intermediary” (within the meaning of applicable Treasury Regulations) and certain conditions are satisfied.

If a Non-U.S. Holder does not satisfy the requirements above, interest paid to such Non-U.S. Holder generally will be subject to a 30% U.S. federal withholding tax unless such Non-U.S. Holder provides the applicable withholding agent with a properly executed (1) IRS Form W-8BEN or W-8BEN-E (or other applicable documentation) claiming a reduction in or exemption from withholding tax under the benefit of an applicable income tax treaty between the United States and the country in which the Non-U.S. Holder resides or is established, or (2) IRS Form W-8ECI certifying that such interest is not subject to withholding because it is effectively connected with the Non-U.S. Holder’s conduct of a trade or business within the United States.

If interest paid to a Non-U.S. Holder is effectively connected with the Non-U.S. Holder’s conduct of a trade or business within the United States (and, if required by an applicable income tax treaty, the Non-U.S. Holder maintains a permanent establishment in the United States to which such interest is attributable), the Non-U.S. Holder will be exempt from the U.S. federal withholding tax described above (provided the Non-U.S. Holder provides the appropriate certification, as described above). Any such interest generally will be subject to U.S. federal income tax on a net income basis at the regular graduated U.S. federal income tax rates as if the Non-U.S. Holder were a U.S. Holder, unless an applicable income tax treaty provides otherwise. In addition, a Non-U.S. Holder that is a corporation also may be subject to a branch profits tax at a rate of 30% (or such lower rate specified by an applicable income tax treaty) on its effectively connected earnings and profits for the taxable year that are attributable to such interest, as adjusted for certain items.

The certifications described above must be provided to the applicable withholding agent prior to the payment of interest and may be required to be updated periodically. A Non-U.S. Holder that does not timely provide the applicable withholding agent with the required certification, but that qualifies for a reduced rate under an applicable income tax treaty, may obtain a refund of any excess amounts withheld by timely filing an appropriate claim for refund with the IRS. Non-U.S. Holders should consult their tax advisors regarding their entitlement to benefits under any applicable income tax treaty.

Sale or Other Taxable Disposition

Subject to the discussions below on backup withholding and FATCA withholding, a Non-U.S. Holder will not be subject to U.S. federal income tax or withholding tax on any gain realized upon the sale, exchange, redemption, retirement or other taxable disposition of a note (other than amounts allocable to accrued and unpaid interest, which generally will be treated as interest and may be subject to the rules discussed above in “—Payments of Interest”) unless:

- the gain is effectively connected with the Non-U.S. Holder’s conduct of a trade or business within the United States (and, if required by an applicable income tax treaty, the Non-U.S. Holder maintains a permanent establishment in the United States to which such gain is attributable); or
- the Non-U.S. Holder is a nonresident alien individual present in the United States for 183 days or more during the taxable year of the disposition and certain other requirements are met.

Gain described in the first bullet point above generally will be subject to U.S. federal income tax on a net income basis at the regular U.S. federal income tax rates as if the Non-U.S. Holder were a U.S. Holder, unless an

[Table of Contents](#)

applicable income tax treaty provides otherwise. A Non-U.S. Holder that is a corporation also may be subject to a branch profits tax at a rate of 30% (or such lower rate specified by an applicable income tax treaty) on its effectively connected earnings and profits for the taxable year that are attributable to such gain, as adjusted for certain items.

A Non-U.S. Holder described in the second bullet point above will be subject to U.S. federal income tax at a rate of 30% (or such lower rate specified by an applicable income tax treaty) on gain realized upon the sale or other taxable disposition of a note, which gain may be offset by U.S. source capital losses of the Non-U.S. Holder (even though the individual is not considered a resident of the United States), provided the Non-U.S. Holder has timely filed U.S. federal income tax returns with respect to such losses.

Non-U.S. Holders should consult their tax advisors regarding any applicable income tax treaties that may provide for different rules.

Information Reporting and Backup Withholding

Payments of interest generally will not be subject to backup withholding, provided the applicable withholding agent does not have actual knowledge or reason to know the holder is a United States person and the holder certifies its non-U.S. status as described above under “—Payments of Interest.” However, information returns are required to be filed with the IRS in connection with any interest paid to a Non-U.S. Holder, regardless of whether any tax was actually withheld. In addition, proceeds of the sale or other taxable disposition of a note (including a retirement or redemption of the note) within the United States or conducted through certain U.S.-related brokers generally will not be subject to backup withholding or information reporting, if the applicable withholding agent receives the statement described above and does not have actual knowledge or reason to know that such holder is a United States person or the holder otherwise establishes an exemption. Proceeds of a disposition of a note paid outside the United States and conducted through a non-U.S. office of a non-U.S. broker (other than a U.S.-related broker mentioned above) generally will not be subject to backup withholding or information reporting.

Copies of information returns that are filed with the IRS may also be made available under the provisions of an applicable treaty or agreement to the tax authorities of the country in which the Non-U.S. Holder resides or is established.

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules may be allowed as a refund or a credit against a Non-U.S. Holder’s U.S. federal income tax liability, provided the required information is timely furnished to the IRS.

Additional Withholding Tax on Payments Made to Foreign Accounts

Withholding taxes may be imposed under Sections 1471 to 1474 of the Code (commonly referred to as the Foreign Account Tax Compliance Act, or “*FATCA*”) on certain types of payments made to non-U.S. financial institutions and certain other non-U.S. entities. Specifically, a 30% withholding tax may be imposed on payments of interest on, or (subject to the proposed Treasury Regulations discussed below) gross proceeds from the sale or other disposition of, a note paid to a “foreign financial institution” or a “non-financial foreign entity” (each as defined in the Code), unless (1) the foreign financial institution undertakes certain diligence and reporting obligations, (2) the non-financial foreign entity either certifies it does not have any “substantial United States owners” (as defined in the Code) or furnishes identifying information regarding each substantial United States owner, or (3) the foreign financial institution or non-financial foreign entity otherwise qualifies for an exemption from these rules. If the payee is a foreign financial institution and is subject to the diligence and reporting requirements in (1) above, it must enter into an agreement with the U.S. Department of the Treasury requiring, among other things, that it undertake to identify accounts held by certain “specified United States persons” or “United States owned foreign entities” (each as defined in the Code), annually report certain information about such accounts, and withhold 30% on certain payments to non-compliant foreign financial institutions and certain

[Table of Contents](#)

other account holders. Foreign financial institutions located in jurisdictions that have an intergovernmental agreement with the United States governing FATCA may be subject to different rules.

Under the applicable Treasury Regulations and administrative guidance, withholding under FATCA generally applies to payments of interest on a note. While withholding under FATCA would have applied also to payments of gross proceeds from the sale or other disposition of a note, proposed Treasury Regulations eliminate FATCA withholding on payments of gross proceeds entirely. Taxpayers generally may rely on these proposed Treasury Regulations until final Treasury Regulations are issued.

If an interest payment is both subject to withholding under FATCA and subject to the withholding tax discussed above under “—Tax Consequences Applicable to Non-U.S. Holders—Payments of Interest,” the withholding under FATCA may be credited against, and therefore reduce, such other withholding tax.

Prospective investors should consult their tax advisors regarding the potential application of withholding under FATCA to their investment in the notes.

CERTAIN ERISA AND RELATED CONSIDERATIONS

The following is a summary of certain considerations associated with the purchase and holding of the notes by (a) “employee benefit plans” (within the meaning of Section 3(3) of the Employee Retirement Income Security Act of 1974, as amended (“**ERISA**”)) that are subject to Title I of ERISA, (b) plans, individual retirement accounts and other arrangements that are subject to Section 4975 of the Code or provisions under any other U.S. and non-U.S. federal, state, local, or other laws or regulations that are similar to the foregoing provisions of ERISA or the Code (collectively, “**Similar Laws**”), and (c) entities whose underlying assets are considered to include “plan assets” (within the meaning of ERISA) of the foregoing described in clause (a) and (b) by reason of a plan’s investment in such entities (each of (a), (b) and (c), a “**Plan**”).

General

ERISA and the Code impose certain duties on those persons who are fiduciaries with respect to Plans subject to Title I of ERISA or Section 4975 of the Code (“**Covered Plans**”) and prohibit certain transactions involving the assets of any Covered Plan and its fiduciaries or other interested parties. Investments by Covered Plans are subject to ERISA’s general fiduciary requirements, including, but not limited to, the requirements of investment prudence and diversification and the requirement that a Covered Plan’s investments be made in accordance with the documents governing the plan. Under ERISA and the Code, any person who exercises any discretionary authority, responsibility or control over the administration of such a Covered Plan or the management or disposition of the assets of such a Covered Plan, or who renders investment advice for a fee or other compensation to such a Covered Plan, is generally considered to be a fiduciary of the Covered Plan (within the meaning of Section 3(21) of ERISA).

Section 406 of ERISA and Section 4975 of the Code prohibit Covered Plans from engaging in certain transactions involving the assets of the Covered Plan and certain persons or entities having certain relationships to such Covered Plans (referred to as “**parties in interest**” or “**disqualified persons**”), unless a statutory or administrative exemption is applicable to the transaction. A party in interest or disqualified person who engages in a non-exempt prohibited transaction may be subject to excise taxes and other penalties and liabilities under ERISA and the Code. In addition, the fiduciary of the Covered Plan that engaged in such a non-exempt prohibited transaction may be subject to penalties and liabilities under ERISA and the Code.

Any Plan fiduciary that proposes to cause a Plan to purchase the notes should consult with its counsel, including regarding the potential applicability of the fiduciary responsibility and prohibited transaction provisions of ERISA and Section 4975 of the Code to such an investment, to confirm that such purchase and holding will not constitute or result in a non-exempt prohibited transaction or any other violation of an applicable requirement of ERISA, and to confirm whether an exemption would be applicable to any such purchase of the notes. When considering an investment in the notes of a portion of the assets of any Plan, a fiduciary should determine whether the investment would be in accordance with the documents and instruments governing the Plan and the applicable provisions of ERISA, the Code and any Similar Laws relating to a fiduciary’s duties to the Plan including, without limitation, the prudence, diversification, delegation of control and prohibited transaction provisions of ERISA and the Code and any other applicable Similar Law. Plan fiduciaries must make their own determinations regarding whether an investment in the notes is prudent under ERISA, taking into consideration all of the specific facts and circumstances of the Plan and any investment in the notes.

Each Covered Plan should consider the fact that neither we, the trustee, the underwriters nor our or their respective affiliates (the “**Transaction Parties**”) is acting, or will act, as a fiduciary to any Covered Plan with respect to the decision to purchase or hold the notes in connection with the initial sale and offering. The Transaction Parties are not undertaking to provide impartial investment advice or advice based on any particular investment need, or to give advice in a fiduciary capacity, with respect to the decision to purchase or hold the notes in connection with the initial sale and offering. All communications, correspondence and materials from the Transaction Parties with respect to the notes are intended to be general in nature and are not directed at any specific purchaser of the notes, and do not constitute advice regarding the advisability of investment in the notes

for any specific purchaser. The decision to purchase and hold the notes must be made solely by each prospective Covered Plan purchaser on an arm's length basis. The Transaction Parties have a financial interest in a Covered Plan's purchase and holding of the notes, which interests may conflict with the interest of such Covered Plan, as more fully described in this prospectus supplement.

Other Plans

Non-U.S. plans, governmental plans and certain church plans, may not be subject to the fiduciary responsibility provisions of ERISA or the prohibited transaction provisions of ERISA and Section 4975 of the Code, but may nevertheless be subject to similar requirements under Similar Laws. Fiduciaries of any such plans should consult with their counsel before purchasing the notes to determine the potential need for, and the availability, if necessary, of any exemptive relief under any such Similar Laws or other law or regulations.

Prohibited Transaction Exemptions

The fiduciary of a Covered Plan that proposes to purchase and hold any notes should consider, among other things, whether such purchase and holding may involve (i) the direct or indirect extension of credit between a Covered Plan and a party in interest or a disqualified person, (ii) the sale or exchange of any property between a Covered Plan and a party in interest or a disqualified person, or (iii) the transfer to, or use by or for the benefit of, a party in interest or disqualified person, of any Covered Plan assets. Such parties in interest or disqualified persons could include, without limitation, us, the underwriters, the agents or any of their respective affiliates. The acquisition and/or holding of notes by a Covered Plan with respect to which a Transaction Party is considered a party in interest or a disqualified person may constitute or result in a direct or indirect prohibited transaction under Section 406 of ERISA and/or Section 4975 of the Code (or any comparable provisions of Similar Laws), unless the investment is acquired and is held in accordance with an applicable statutory, class or individual prohibited transaction exemption. In this regard, the U.S. Department of Labor has issued prohibited transaction class exemptions, or "*PTCEs*," that may apply to the acquisition and/or holding of the notes. These class exemptions include, without limitation, PTCE 84-14 respecting transactions determined by independent qualified professional asset managers, PTCE 90-1 respecting insurance company pooled separate accounts, PTCE 91-38 respecting bank collective investment funds, PTCE 95-60 respecting life insurance company general accounts and PTCE 96-23 respecting transactions determined by in-house asset managers. In addition, Section 408(b)(17) of ERISA and Section 4975(d)(20) of the Code provide relief from the prohibited transaction provisions of ERISA and Section 4975 of the Code for certain transactions, respectively, for the purchase and sale of securities, *provided* that neither the issuer of the securities nor any of its affiliates (directly or indirectly) have or exercise any discretionary authority or control or render any investment advice with respect to the assets of any Covered Plan involved in the transaction and *provided, further*, that the Covered Plan receives no less, and pays no more, than adequate consideration in connection with the transaction. However, there can be no assurance that any such exemptions or any other exemption will be available with respect to any particular transaction involving the notes.

Because of the foregoing, the notes should not be purchased or held by any person investing "plan assets" of any Covered Plan, unless such purchase and holding will not constitute a non-exempt prohibited transaction under ERISA or the Code and will not constitute a similar violation of any applicable Similar Laws.

Representation

By its acquisition of any note, the purchaser and subsequent transferee thereof (and, if such purchaser or transferee is a Plan (or is acquiring the notes or any interest therein with the assets of a Plan) its fiduciary) will be deemed to have represented and warranted that either:

- no assets of a Plan or non-U.S., governmental or church plan have been used to acquire or hold such notes or an interest therein; or

- the acquisition, holding and disposition of such notes or an interest therein by such person will not constitute or result in a non-exempt prohibited transaction under Section 406 of ERISA or Section 4975 of the Code or a violation of Similar Law.

Each Plan fiduciary (and each fiduciary for non-U.S., governmental or church plans subject to Similar Law) should consult with its legal advisor concerning the potential consequences to the plan under Section 406 of ERISA, Section 4975 of the Code or such Similar Laws of an investment in the notes.

The foregoing discussion is general in nature, is not intended to be all inclusive, and should not be construed as legal advice or as complete in all relevant respects. Due to the complexity of these rules and the penalties that may be imposed upon persons involved in non-exempt prohibited transactions, it is particularly important that fiduciaries, or other persons considering purchasing the notes on behalf of, or with the assets of, any Plan, consult with their counsel regarding the potential applicability of Section 406 of ERISA, Section 4975 of the Code and any Similar Laws to such investment and as to whether an exemption would be applicable to the purchase and holding of the notes. Investors in the notes have exclusive responsibility for ensuring that their purchase and holding of the notes does not violate the fiduciary or prohibited transaction rules of ERISA or the Code or any similar provisions of Similar Laws. The foregoing discussion is based on laws in effect on the date of this prospectus supplement and is subject to any subsequent changes therein.

The underwriting agreement provides that the obligations of the several underwriters to pay for and accept delivery of the notes offered by this prospectus supplement are subject to certain conditions. The underwriters are obligated to take and pay for all of the notes offered by this prospectus supplement if any such notes are taken.

The underwriters initially propose to offer the notes to the public at the public offering price that appears on the cover page of this prospectus supplement. In addition, the underwriters initially propose to offer the notes to certain dealers at prices that represent a concession not in excess of 0.20% of the principal amount of the 2023 Fixed Rate Notes, 0.20% of the principal amount of the Floating Rate Notes and 0.25% of the principal amount of the 2024 Fixed Rate Notes, as applicable. Any underwriter may allow, and any such dealer may reallocate to certain other dealers, a concession not in excess of 0.15% of the principal amount of the 2023 Fixed Rate Notes, 0.15% of the principal amount of the Floating Rate Notes and 0.15% of the principal amount of the 2024 Fixed Rate Notes, as applicable. After the initial offering of the notes, the underwriters may from time to time vary the offering prices and other selling terms. The underwriters may offer and sell notes through certain of their affiliates. The offering of the notes by the underwriters is subject to receipt and acceptance and subject to the underwriters' right to reject any order in whole or in part.

The following table shows the underwriting discount that we will pay to the underwriters in connection with the offering of the notes:

| Underwriter | Paid by Us |
|--------------------------|-------------|
| Per 2023 Fixed Rate Note | 0.35% |
| Per Floating Rate Note | 0.35% |
| Per 2024 Fixed Rate Note | 0.40% |
| Total | \$6,498,374 |

We estimate that expenses associated with this offering to be paid by us, other than the underwriting discount, will be approximately \$1.0 million.

[Table of Contents](#)

We have also agreed to indemnify the several underwriters against certain liabilities, including liabilities under the Securities Act, or to contribute to payments which the underwriters may be required to make in respect of any such liabilities.

We expect that delivery of the notes will be made to investors on or about the delivery date specified on the cover page of this prospectus supplement, which will be the fourth business day following the date of this prospectus supplement (such settlement being referred to as “*T+4*”). Under Rule 15c6-1 of the Exchange Act, trades in the secondary market generally are required to settle in two business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade the notes on any day prior to the second business day before the delivery of the notes hereunder will be required, by virtue of the fact that the notes initially will settle in T+4, to specify an alternative settlement cycle at the time of any such trade to prevent failed settlement. Such purchasers should consult their own advisors in this regard.

Absence of Public Market for the Notes

The notes are a new issue of securities, and there is currently no established trading market for the notes. We do not intend to apply for the notes to be listed on any securities exchange or to arrange for the notes to be quoted on any quotation system. The underwriters have advised us that they intend to make a market in the notes, but they are not obligated to do so. The underwriters may discontinue any market making in the notes at any time at their sole discretion. Accordingly, we cannot assure you that a liquid trading market will develop for the notes, that you will be able to sell your notes at a particular time or that the prices you receive when you sell will be favorable.

Stabilization

In connection with the offering, the underwriters may purchase and sell notes in the open market. These transactions may include short sales, stabilizing transactions and purchases to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater number of notes than they are required to purchase in the offering. Stabilizing transactions consist of certain bids or purchases made for the purpose of preventing or retarding a decline in the market price of the notes while the offering is in progress.

The underwriters also may impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representatives have repurchased notes sold by or for the account of such underwriter in stabilizing or short covering transactions.

These activities by the underwriters, as well as other purchases by the underwriters for their own accounts, may stabilize, maintain or otherwise affect the market price of the notes. As a result, the price of the notes may be higher than the price that otherwise might exist in the open market. If these activities are commenced, they may be discontinued by the underwriters at any time. These transactions may be effected in the over-the-counter market or otherwise.

Selling Restrictions

European Economic Area

The notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (“*EEA*”). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, “*MiFID II*”); or (ii) a customer within the meaning of Directive (EU) 2016/97 (as amended, the “*Insurance Distribution Directive*”), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (the “*Prospectus Regulation*”). Consequently no key information document

required by Regulation (EU) No 1286/2014 (as amended, the “**PRIIPs Regulation**”) for offering or selling the notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

United Kingdom

The notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom (“**UK**”). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (“**EUWA**”); (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000 (“**FSMA**”) and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA. Consequently, no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the “**UK PRIIPs Regulation**”) for offering or selling the notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

Canada

The notes may be sold in Canada only to purchasers purchasing, or deemed to be purchasing, as principal that are accredited investors, as defined in National Instrument 45-106 Prospectus Exemptions or subsection 73.3(1) of the Securities Act (Ontario), and are permitted clients, as defined in National Instrument 31-103 Registration Requirements, Exemptions and Ongoing Registrant Obligations. Any resale of the notes must be made in accordance with an exemption from, or in a transaction not subject to, the prospectus requirements of applicable securities laws.

Securities legislation in certain provinces or territories of Canada may provide a purchaser with remedies for rescission or damages if this prospectus supplement and the accompanying prospectus (including any amendment hereto and thereto) contain a misrepresentation, *provided* that the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser’s province or territory. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser’s province or territory for particulars of these rights or consult with a legal advisor.

Pursuant to section 3A.3 of National Instrument 33-105 Underwriting Conflicts (NI 33-105), the underwriters are not required to comply with the disclosure requirements of NI 33-105 regarding underwriter conflicts of interest in connection with this offering.

Japan

The notes have not been and will not be registered under the Financial Instruments and Exchange Act of Japan (Law. No. 25 of 1948, as amended, the “**FIEA**”), and disclosure under the FIEA has not been and will not be made with respect to the notes. No notes have, directly or indirectly, been offered or sold, and may not, directly or indirectly, be offered or sold in Japan or to, or for the benefit of, any resident of Japan or to others for re-offering or re-sale, directly or indirectly in Japan or to, or for the benefit of, any resident of Japan except (i) pursuant to an exemption from the registration requirements of the FIEA and (ii) in compliance with any other relevant laws, regulations and governmental guidelines of Japan. As used in this paragraph, “**resident of Japan**” means a natural person having his/her place of domicile or residence in Japan, or a legal person having its main office in Japan. A branch, agency or other office in Japan of a non-resident, irrespective of whether it is legally authorized to represent its principal or not, shall be deemed to be a resident of Japan even if its main office is in any other country than Japan.

The notes have not been offered or sold and will not be offered or sold in Hong Kong by means of any document other than (i) in circumstances which do not constitute an offer to the public within the meaning of the Companies (Winding Up and Miscellaneous Provisions) Ordinance (Cap. 32 of the Laws of Hong Kong) (“***Companies (Winding Up and Miscellaneous Provisions) Ordinance***”) or which do not constitute an invitation to the public within the meaning of the Securities and Futures Ordinance (Cap. 571 of the Laws of Hong Kong) (“***Securities and Futures Ordinance***”), or (ii) to “professional investors” as defined in the Securities and Futures Ordinance and any rules made thereunder, or (iii) in other circumstances which do not result in the document being a “prospectus” as defined in the Companies (Winding Up and Miscellaneous Provisions) Ordinance, and no advertisement, invitation or document relating to the notes has been or may be issued or has been or may be in the possession of any person for the purpose of issue (in each case whether in Hong Kong or elsewhere), which is directed at, or the contents of which are likely to be accessed or read by, the public in Hong Kong (except if permitted to do so under the securities laws of Hong Kong) other than with respect to notes which are or are intended to be disposed of only to persons outside Hong Kong or only to “professional investors” in Hong Kong as defined in the Securities and Futures Ordinance and any rules made thereunder.

Other Relationships

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. Certain of the underwriters and their respective affiliates have, from time to time, performed, and may in the future perform, various financial advisory and investment banking services for us, for which they received or will receive customary fees and expenses. In particular, affiliates of certain of the underwriters are lenders, and those underwriters or their affiliates in some cases are also agents, under our revolving credit facility. In addition, certain of the underwriters also acted as underwriters for one or more of our prior issuances of senior notes under the indenture.

Certain of the underwriters or their respective affiliates are acting as our financial advisors in connection with the Apple Leisure Group Acquisition. One of the Joint Book-Running Managers advised the sellers in connection with the Apple Leisure Group Acquisition. In addition, affiliates of certain of the underwriters are agents or lenders under our revolving credit facility and a \$1.7 billion bridge commitment, including a \$1.2 billion capital markets bridge facility and a \$500 million term loan bridge facility, to fund a portion of the purchase price for the Apple Leisure Group Acquisition, and to pay the fees, costs and expenses incurred in connection therewith. We may use a portion of the proceeds from this offering to pay fees and expenses owned to such underwriters in connection with the Apple Leisure Group Acquisition and the bridge commitment or our revolving credit facility. Accordingly, certain of the underwriters or their respective affiliates may benefit from the application of a portion of the net proceeds from this offering to the extent used by us to pay their fees and expenses.

If any of the underwriters or their affiliates has a lending relationship with us, certain of those underwriters or their affiliates routinely hedge, certain other of those underwriters or their affiliates are likely to hedge, and certain other of those underwriters or their affiliates may hedge, their credit exposure to us consistent with their customary risk management policies. Typically, these underwriters and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the notes offered hereby. Any such credit default swaps or short positions could adversely affect future trading prices of the notes offered hereby.

In the ordinary course of their various business activities, the underwriters and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers, and such investment and securities activities may involve securities and/or instruments that we or our affiliates may issue. The underwriters and their respective affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or instruments and may at any time hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

All reports and other documents we subsequently file pursuant to Section 13(a), 13(c), 14 or 15(d) of the Exchange Act prior to the termination of this offering, but excluding any information furnished to, rather than filed with, the SEC, will also be incorporated by reference into this prospectus and deemed to be part of this prospectus from the date of the filing of such reports and documents.

Effective January 1, 2020, we changed the strategic and operational oversight for our Miraval properties, which were previously evaluated as a distinct business by our chief operating decision maker. The management fees from Miraval properties are now reported in the Americas management and franchising segment, and the operating results and financial position of underlying hotel results are now reported in our owned and leased hotels segment; the results of Miraval properties were previously reported in corporate and other. In addition, the license fees we receive from Hyatt Residence Club are now reported within our Americas management and franchising segment due to changes in the strategic oversight for these license agreements; the license fees we receive from Hyatt Residence Club were previously reported in corporate and other. In connection with our Quarterly Reports on Form 10-Q for the fiscal quarters ended March 31, 2020, June 30, 2020, and September 30, 2020, segment operating information for the three months ended March 31, 2019, the three and six months ended June 30, 2019, and the three and nine months ended September 30, 2019, respectively, has been recast to reflect these segment changes. However, we have not retrospectively revised our financial statements included in our Annual Report on Form 10-K filed February 20, 2020. On a consolidated basis, total revenues from the Miraval properties and the license fees we receive from Hyatt Residence Club represented, in the aggregate, approximately 1.5% of our total revenue for each of the 2019, 2018 and 2017 fiscal years, and less than 1% of Adjusted EBITDA for each of the 2019, 2018 and 2017 fiscal years; therefore we do not consider the impact of these changes to be material. We will reflect these changes in presentation and disclosure for all periods presented in our Annual Report on Form 10-K to be filed with the SEC for the year ending December 31, 2020.

DESCRIPTION OF CAPITAL STOCK

General

The following is a summary of the material rights of our capital stock and related provisions of our amended and restated certificate of incorporation and amended and restated bylaws. The following description of our capital stock does not purport to be complete and is subject to, and qualified in its entirety by, our amended and restated certificate of incorporation, amended and restated bylaws and registration rights agreements, copies of which have been filed with the SEC and are incorporated by reference into the registration statement of which this prospectus is a part. See the section of this prospectus titled “Where You Can Find More Information; Incorporation by Reference.”

Our amended and restated certificate of incorporation provides for two classes of common stock: Class A common stock, which has one vote per share, and Class B common stock, which has ten votes per share. Any holder of Class B common stock may convert his or her shares at any time into shares of Class A common stock on a share-for-share basis and, under certain circumstances, including upon any transfer (except for certain permitted transfers described in our amended and restated certificate of incorporation), the shares of Class B common stock will be automatically converted into shares of Class A common stock on a share-for-share basis. Otherwise, the rights of the two classes of our common stock are identical. The rights of these classes of our common stock are discussed in greater detail below.

As of October 30, 2020, our authorized capital stock consists of 1,404,691,360 shares, each with a par value of \$0.01 per share, of which:

- 1,000,000,000 shares are designated as Class A common stock;
- 394,691,360 shares are designated as Class B common stock; and
- 10,000,000 shares are designated as preferred stock.

As of October 30, 2020, we had outstanding 38,479,041 shares of Class A common stock held by approximately 26 stockholders of record and 62,696,948 shares of Class B common stock held by 81 stockholders of record. The number of stockholders of record of our Class A common stock (approximately 26 holders) does not include a substantially greater number of “street name” holders or beneficial holders of our Class A common stock whose shares are held of record by banks, brokers and other financial institutions. This number also excludes, as of October 30, 2020, 8,822,914 shares of Class A common stock reserved for issuance under our Fourth Amended and Restated Hyatt Hotels Corporation Long-Term Incentive Plan, as amended, or LTIP, 930,390 shares of our Class A common stock reserved for issuance under the Second Amended and Restated Hyatt Hotels Corporation Employee Stock Purchase Plan, or ESPP, 1,169,195 shares of our Class A common stock available for issuance pursuant to the Amended and Restated Hyatt Corporation Deferred Compensation Plan and 300,000 shares of Class A common stock available for issuance pursuant to the Hyatt International Hotels Retirement Plan (commonly known as the Field Retirement Plan), as well as any additional shares reserved for issuance under the LTIP and ESPP in connection with the amendments to such plans that were approved at our 2020 annual meeting of stockholders on May 20, 2020.

Common Stock

Voting Rights

The holders of our Class A common stock are entitled to one vote per share and the holders of our Class B common stock are entitled to ten votes per share on any matter to be voted upon by stockholders. Holders of Class A common stock and Class B common stock vote together as a single class on all matters (including the election of directors) submitted to a vote of stockholders, unless otherwise required by law.

The holders of common stock are not entitled to cumulative voting rights with respect to the election of directors, which means that the holders of a majority of the shares voted can elect all of the directors then standing for election.

Dividends

The holders of our Class A common stock and Class B common stock are entitled to share equally in any dividends that our board of directors may declare from time to time from legally available funds, subject to limitations under Delaware law and the preferential rights of holders of any outstanding shares of preferred stock. In addition, we must be in compliance with the covenants in our revolving credit facility in order to pay dividends. If a dividend is paid in the form of shares of common stock or rights to acquire shares of common stock, the holders of Class A common stock are entitled to receive Class A common stock, or rights to acquire Class A common stock, as the case may be, and the holders of Class B common stock are entitled to receive Class B common stock, or rights to acquire Class B common stock, as the case may be. See Part II, Item 5, “Market for Registrant’s Common Equity, Related Stockholder Matters and Issuer Purchasers of Equity Securities – Dividends” of our Annual Report on Form 10-K for the fiscal year ended December 31, 2019, which is incorporated by reference herein.

Liquidation

Upon any voluntary or involuntary liquidation, dissolution, distribution of assets or winding up of our corporation, the holders of our Class A common stock and Class B common stock are entitled to share equally, on a per share basis, in all our assets available for distribution, after payment to creditors and subject to any prior distribution rights granted to holders of any outstanding shares of preferred stock.

Conversion

Our Class A common stock is not convertible into any other shares of our capital stock.

Each share of Class B common stock is convertible at any time, at the option of the holder, into one share of Class A common stock. In addition, each share of Class B common stock will convert automatically into one share of Class A common stock upon any transfer, whether or not for value, except for certain permitted transfers described in our amended and restated certificate of incorporation, including transfers to any “permitted transferee” as defined in our amended and restated certificate of incorporation, which includes, among others, transfers:

- between Pritzker family business interests or to the Pritzker Foundation and related Pritzker charitable foundations;
- to lineal descendants of the transferor who are Pritzker family business interests, which we refer to as “related persons”;
- to trusts for the current benefit of the transferor and related persons;
- to corporations, partnerships, limited liability companies or other entities that are owned and controlled by the transferor and related persons;
- to guardians of stockholders who are adjudged to be unable to manage their own affairs and executors of estates of deceased stockholders;
- for trusts, corporations, partnerships, limited liability companies or other entities, to their current beneficiaries, shareholders, partners, members or other equity holders who are Pritzker family business interests;
- transfers to other holders of shares of Class B common stock and their permitted transferees;

[Table of Contents](#)

- granting a revocable proxy to any officer or director at the request of our board of directors;
- pledging shares of Class B common stock pursuant to a bona fide loan or indebtedness transaction as to which the holder of Class B common stock continues to exercise voting control, provided that the foreclosure on those shares by the lender does not qualify as a permitted transfer and, unless the lender otherwise qualifies as a permitted transferee, will result in the automatic conversion of those shares into shares of Class A common stock;
- transfers by parties to the 2007 Stockholders' Agreement, dated as of August 2007, as amended, by and among Hyatt and the parties thereto, or the 2007 Stockholders' Agreement, to their respective affiliates, subject to, and in accordance with, the 2007 Stockholders' Agreement; and
- transfers approved in advance by our board of directors or a majority of the independent directors on our board of directors after making a determination that the transfer is consistent with the purposes of the other types of transfers that are permitted.

Any transfer by a holder that is a party to, by a holder controlled by a person that is party to, or by a holder controlled by trusts whose beneficiaries are party to the 2007 Stockholders' Agreement, the Amended and Restated Global Hyatt Agreement or the Amended and Restated Foreign Global Hyatt Agreement will not qualify as a "permitted transfer" unless the transferee executes a joinder to those agreements. If a successor trustee or trustees for a holder of shares of Class B common stock that is a trust and party to such agreements do not execute a joinder to such agreements, each share of Class B common stock will convert automatically into one share of Class A common stock.

All shares of Class B common stock will convert automatically into shares of Class A common stock if, on any record date for determining the stockholders entitled to vote at an annual or special meeting of stockholders, the aggregate number of shares of our Class A common stock and Class B common stock owned, directly or indirectly, by the holders of our Class B common stock is less than 15% of the aggregate number of shares of our Class A common stock and Class B common stock then outstanding.

Once converted into Class A common stock, the Class B common stock cannot be reissued. No class of common stock may be subdivided or combined unless the other class of common stock concurrently is subdivided or combined in the same proportion and in the same manner.

Other than in connection with dividends and distributions, subdivisions or combinations, or mergers, consolidations, reorganizations or other business combinations involving stock consideration as provided for in our amended and restated certificate of incorporation, we are not authorized to issue additional shares of Class B common stock.

Mergers or Business Combinations

In any merger, consolidation, reorganization or other business combination, our amended and restated certificate of incorporation requires that the consideration to be received per share by the holders of Class A common stock and the holders of Class B common stock will be identical. If the consideration paid in the merger, consolidation, reorganization or other business combination is paid in the form of shares or other equity interests of us or another person, then the rights of the shares or other equity interests may differ to the extent that the rights of Class A common stock and the Class B common stock differ. These differences would be limited to the voting rights and conversion features of the Class A common stock and the Class B common stock.

Preemptive or Similar Rights

Pursuant to the 2007 Stockholders' Agreement, if we propose to sell any new shares of common stock, or any other equity securities (subject to certain excluded securities issuances described in the agreement, including shares issued pursuant to equity compensation plans adopted by the board of directors and the issuance of shares of our common stock in a public offering), then each stockholder party to the agreement is entitled to receive notice of the terms of the proposed sale and may elect to purchase up to such stockholder's pro rata share in the proposed sale on comparable terms. If not all stockholders party to the 2007 Stockholders' Agreement elect to purchase their full preemptive allocation of new securities, then we will notify the fully-participating stockholders of such and offer them the right to purchase the unsubscribed new securities. Other than as described above, our common stock is not entitled to preemptive rights, conversion or other rights to subscribe for additional securities and there are no redemption or sinking fund provisions applicable to our common stock.

Fully Paid and Non-assessable

All of the outstanding shares of our Class A common stock and Class B common stock are fully paid and non-assessable.

Preferred Stock

Our board of directors is authorized, without any further action by our stockholders, but subject to the limitations imposed by Delaware law, to issue up to 10,000,000 shares of preferred stock in one or more series. Our board of directors may fix the designations, powers, preferences and rights of the preferred stock, along with any qualifications, limitations or restrictions, including voting rights, dividend rights, conversion rights, redemption privileges and liquidation preferences of each series of preferred stock. The preferred stock could have voting or conversion rights that could adversely affect the voting power or other rights of holders of our common stock. The issuance of preferred stock, or rights to acquire preferred stock, could also have the effect, under certain circumstances, of delaying, deferring or preventing a change of control of our company.

Registration Rights

Long-Form Demand Registration Rights

Each stockholder party to the 2007 Registration Rights Agreement may, on not more than two occasions, request that we register all or a portion of such stockholder's shares of Class A common stock issuable upon conversion of shares of Class B common stock under the Securities Act on Form S-1 if the anticipated aggregate offering price of such shares of Class A common stock exceeds \$750,000,000, the stockholder making the request is (or will be at the anticipated time of effectiveness of the applicable registration statement) permitted to sell shares of its common stock under the lock-up provisions contained in the 2007 Stockholders' Agreement and we are not otherwise eligible at the time of the request to file a registration statement on Form S-3 for the re-sale of such stockholder's shares. For additional information with respect to these lock-up provisions, see the information under the caption "Stockholder Agreements – 2007 Stockholders' Agreement" in Part I, Item 1, "Business" and "Risks Related to Share Ownership and Other Stockholder Matters – A significant number of shares of Class A common stock issuable upon conversion of Class B common stock could be sold into the market, which could depress our stock price even if our business is doing well" in Part I, Item 1A, "Risk Factors" of our Annual Report on Form 10-K for the fiscal year ended December 31, 2019, which is incorporated by reference herein, and the section of this prospectus titled "Where You Can Find More Information; Incorporation by Reference."

The stockholders party to the 2009 Registration Rights Agreement may, on not more than one occasion, request that we register all or a portion of the shares of Class A common stock issuable upon conversion of such stockholders' shares of Class B common stock under the Securities Act on Form S-1 if the anticipated aggregate offering price of such shares of Class A common stock exceeds \$750,000,000 (net of underwriting discounts and commissions), the stockholders making the request are, at the anticipated time of effectiveness of the applicable registration statement, permitted to sell shares of their common stock under the applicable lock-up provisions contained in the Amended and Restated Global Hyatt Agreement and Amended and Restated Foreign Global Hyatt Agreement, we are not otherwise prohibited from filing such registration statement under the 2007 Registration Rights Agreement, and we are not otherwise eligible at the time of the request to file a registration statement on Form S-3 for the re-sale of such stockholder's shares. For additional information with respect to these lock-up provisions, see the information under the caption "Stockholder Agreements" in Part I, Item 1 "Business" and "Risks Related to Share Ownership and Other Stockholder Matters – A significant number of shares of Class A common stock issuable upon conversion of Class B common stock could be sold into the market, which could depress our stock price even if our business is doing well" in Part I, Item 1A, "Risk Factors" of our Annual Report on Form 10-K for the fiscal year ended December 31, 2019, which is incorporated by reference herein, and the section of this prospectus titled "Where You Can Find More Information; Incorporation by Reference."

Short-Form Demand Registration Rights

As of October 30, 2020, the holders of approximately 62,993,297 shares of our common stock are entitled to certain Form S-3 demand registration rights.

Each stockholder party to the 2007 Registration Rights Agreement may, on not more than two occasions during each calendar year, request registration of their shares of Class A common stock issuable upon conversion of shares of Class B common stock under the Securities Act on Form S-3 if the anticipated aggregate offering amount of such shares of Class A common stock exceeds \$100,000,000 and the stockholder making the request is (or will be at the anticipated time of effectiveness of the applicable registration statement) permitted to sell shares of its common stock under the lock-up provisions contained in the 2007 Stockholders' Agreement.

Stockholders party to the 2009 Registration Rights Agreement holding at least 20% of the then-issued and outstanding common stock may, on not more than one occasion during each calendar year, request registration of their shares of Class A common stock issuable upon conversion of shares of Class B common stock under the Securities Act on Form S-3 if the anticipated aggregate offering amount of such shares of Class A common stock

exceeds \$100,000,000 (net of underwriting discounts and commissions) and the stockholders making the request are, at the anticipated time of effectiveness of the applicable registration statement, permitted to sell shares of their common stock under the applicable lock-up provisions contained in the Amended and Restated Global Hyatt Agreement and Amended and Restated Foreign Global Hyatt Agreement, and we are not otherwise prohibited from filing such registration statement under the 2007 Registration Rights Agreement.

Under each of the 2007 Registration Rights Agreement and the 2009 Registration Rights Agreement, we will not be required to effect a demand registration or a Form S-3 demand registration within 180 days after the effective date of a registration statement related to a previous demand registration or Form S-3 demand registration. In addition, once every 12 months, we may postpone for up to 120 days the filing or the effectiveness of a registration statement for a demand registration or a Form S-3 demand registration if our board of directors determines in good faith that such a filing (1) would be materially detrimental to us, (2) would require a disclosure of a material fact that might reasonably be expected to have a material adverse effect on us or any plan or proposal by us to engage in any acquisition or disposition of assets or equity securities or any merger, consolidation, tender offer, material financing or other significant transactions, or (3) is inadvisable because we are planning to prepare and file a registration statement for a primary offering of our securities.

Shelf Registration Rights

As of October 30, 2020, the holders of approximately 60,722,902 shares of our common stock are entitled under the 2009 Registration Rights Agreement to certain “shelf” registration rights with respect to shares of Class A common stock issuable upon conversion of such shares of Class B common stock.

Stockholders party to the 2009 Registration Rights Agreement may, in addition to the demand registration rights described above, request that we register all or a portion of shares of Class A common stock issuable upon conversion of such stockholders’ shares of Class B common stock on a shelf registration statement on Form S-3 pursuant to Rule 415 of the Securities Act, provided that the stockholders making the request are, at the anticipated time of effectiveness of the applicable registration statement, permitted to sell such shares of their common stock under the applicable lock-up provisions contained in the Amended and Restated Global Hyatt Agreement and Amended and Restated Foreign Global Hyatt Agreement. We have agreed to use our reasonable best efforts to keep any such shelf registration statement effective and updated for a period of three years (or, if earlier, such time as all the shares covered thereby have been sold). We have also agreed that, at the end of such three year period, we will refile a new shelf registration upon the request of stockholders party to the 2009 Registration Rights Agreement holding at least 1% of our outstanding common stock at such time.

Piggyback Registration Rights

As of October 30, 2020, the holders of 62,993,297 shares of our common stock are entitled to certain “piggyback” registration rights with respect to shares of Class A common stock issuable upon conversion of such shares of Class B common stock.

In the event that we propose to register shares of Class A common stock under the Securities Act, either for our own account or for the account of other security holders, we will notify each stockholder party to the 2007 Registration Rights Agreement and the 2009 Registration Rights Agreement that is, or will be at the anticipated time of effectiveness of the applicable registration statement, permitted to sell shares of its common stock under the applicable lock-up provisions contained in the 2007 Stockholders’ Agreement, the Amended and Restated Global Hyatt Agreement and the Amended and Restated Foreign Global Hyatt Agreement of our intention to effect such a registration and will use our reasonable best efforts to include in such registration all shares requested to be included in the registration by each such stockholder, subject to certain marketing and other limitations.

Expenses of Registration, Restrictions and Indemnification

We will pay all registration expenses, including the legal fees of one counsel for all holders under the 2007 Registration Rights Agreement and one counsel for all holders under the 2009 Registration Rights Agreement, other than underwriting discounts, commissions and transfer taxes, in connection with the registration of any shares of Class A common stock pursuant to any demand registration, Form S-3 demand or piggyback registration described above. Under the 2007 Registration Rights Agreement and the 2009 Registration Rights Agreement, if a request for a demand registration or Form S-3 demand registration is withdrawn at the request of the majority of the holders of registrable securities requested to be registered, the holders of registrable securities who have withdrawn such request shall forfeit such demand registration or Form S-3 demand registration unless those holders pay or reimburse us for all of the related registration expenses. In accordance with the 2009 Registration Rights Agreement, we have agreed to pay all registration expenses, including the legal fees of one counsel for the selling stockholders, other than any applicable underwriting discounts, commissions and transfer taxes, in connection with registering the shares of Class A common stock held by the selling stockholders.

The demand, Form S-3 demand and piggyback registration rights are subject to customary restrictions such as blackout periods and any limitations on the number of shares to be included in the underwritten offering imposed by the managing underwriter. The 2007 Registration Rights Agreement and the 2009 Registration Rights Agreement also contain customary indemnification and contribution provisions.

Board Rights

Pursuant to our employment letter with Mr. Thomas J. Pritzker, we have agreed that so long as he is a member of our board of directors, we will use our commercially reasonable efforts to appoint him as our executive chairman as long as he is willing and able to serve in that office. If he is not appointed as executive chairman, he will be entitled to terminate his employment with the rights and entitlements available to him under our severance policies as if his employment was terminated by us without cause.

Pursuant to our employment letter with Mr. Mark S. Hoplamazian, we have agreed that so long as he is the president and chief executive officer of Hyatt, we will use our commercially reasonable efforts to nominate him for re-election as a director prior to the end of his term. If he is not re-elected to the board of directors, he will be entitled to terminate his employment with the rights and entitlements available to him under our severance policies as if his employment was terminated by us without cause.

Anti-Takeover Effects of Delaware Law and Provisions of Our Certificate of Incorporation and Bylaws

Certain provisions of Delaware law and our amended and restated certificate of incorporation and our amended and restated bylaws could have the effect of delaying, deferring or discouraging another party from acquiring control of us. In particular, our dual class common stock structure concentrates ownership of our voting stock in the hands of the Pritzker family business interests. These provisions, which are summarized below, are expected to discourage certain types of coercive takeover practices and inadequate takeover bids. These provisions are also designed in part to allow management to continue making decisions in the long-term best interest of Hyatt and all of our stockholders and encourage anyone seeking to acquire control of us to first negotiate with our board of directors. We believe that the advantages gained by protecting our ability to negotiate with any unsolicited and potentially unfriendly acquirer outweigh the disadvantages of discouraging such proposals, including those priced above the then-current market value of our common stock, because, among other reasons, the negotiation of such proposals could improve their terms.

Dual Class Structure

As discussed above, our Class B common stock is entitled to ten votes per share, while our Class A common stock is entitled to one vote per share. Our Class A common stock is the only class of stock that is publicly traded. As of October 30, 2020, Pritzker family business interests beneficially owned, in the aggregate, less than 1% of our Class A common stock and approximately 96.4% of our Class B common stock, representing approximately 60.0% of the outstanding shares of our common stock and approximately 90.9% of the total voting power of our outstanding common stock. Pursuant to the voting agreements contained in the Amended and Restated Global Hyatt Agreement and Amended and Restated Foreign Global Hyatt Agreement, during the term of the voting agreement, which expires on the date upon which more than 75% of the company's fully diluted shares of common stock is owned by non-Pritzker family business interests, Pritzker family business interests have agreed to vote their shares of our common stock consistent with the recommendation of our board of directors with respect to all matters (assuming agreement as to any such matter by a majority of a minimum of three independent directors (excluding for such purposes any Pritzker) or, in the case of transactions involving us and an affiliate, assuming agreement of all of such minimum of three independent directors (excluding for such purposes any Pritzker)). In addition, other existing stockholders beneficially own as of October 30, 2020, in the aggregate, approximately 3.6% of our Class B common stock, representing approximately 2.2% of the outstanding shares of our common stock and approximately 3.4% of the total voting power of our outstanding common stock. Pursuant to the voting agreement contained in the 2007 Stockholders' Agreement, these stockholders have agreed to vote their shares of our common stock consistent with the recommendation of our board of directors, without any separate requirement that our independent directors agree with the recommendation. These voting agreements expire on the date that Thomas J. Pritzker is no longer chairman of our board of directors. For additional information with respect to these voting agreements, see the information under the caption "Stockholder Agreements" in Part I, Item 1, "Business" of our Annual Report on Form 10-K for the fiscal year ended December 31, 2019, which is incorporated by reference herein, and the sections of this prospectus titled "Where You Can Find More Information; Incorporation by Reference." While these voting agreements are in effect, they may provide our board of directors with effective control over matters requiring stockholder approval, including the election of directors, a merger, consolidation or sale of all or substantially all of our assets and any other significant transaction. This is because the number of our shares that are required by the voting agreements to be voted consistent with the recommendation of our board of directors will be sufficient to determine the outcome of the election of directors and other matters submitted to stockholders for approval. Because of our dual class ownership structure and the voting agreements currently in effect, our board of directors may have effective control over matters requiring stockholder approval even if Pritzker family business interests and other holders of our Class B common stock own less than 50% of the outstanding shares of our common stock. If the majority of a minimum of three independent directors (excluding for such purposes any Pritzker) do not agree with the recommendation of our board of directors on a particular matter and, as a result, the voting agreements contained in the Amended and Restated Global Hyatt Agreement and Amended and Restated Foreign Global Hyatt Agreement do not apply, Pritzker family business interests will be able to exert a significant degree of influence or actual control over matters requiring stockholder approval. This concentrated control will limit your ability to influence corporate matters. As a result, we may take actions that you do not believe to be in our interests or your interests that could depress our stock price.

Certificate of Incorporation and Bylaws

In addition to our dual class structure, our amended and restated certificate of incorporation and our amended and restated bylaws include the following provisions, among others:

- our board of directors is divided into three classes, with each class serving for a staggered three-year term;
- our directors may be removed only for cause;

[Table of Contents](#)

- holders of our Class A common stock vote together with the holders of our Class B common stock on all matters, including the election of directors, and our amended and restated certificate of incorporation prohibits cumulative voting in the election of directors;
- vacancies on our board of directors, and any newly created director positions created by the expansion of the board of directors, may be filled only by a majority of remaining directors then in office;
- actions to be taken by our stockholders may only be effected at an annual or special meeting of our stockholders and not by written consent;
- special meetings of our stockholders can be called only by the chairman of the board or by our corporate secretary at the direction of our board of directors;
- our bylaws establish an advance notice procedure for stockholders to submit proposed nominations of persons for election to our board of directors and other proposals for business to be brought before an annual meeting of our stockholders;
- our board of directors may issue up to 10,000,000 shares of preferred stock, with designations, rights and preferences as may be determined from time to time by our board of directors; and
- an affirmative vote of the holders of at least 80% of the voting power of our outstanding capital stock entitled to vote is required to amend all provisions of our amended and restated certificate of incorporation and bylaws.

Delaware Anti-Takeover Statute

We have elected not to be governed by Section 203 of the Delaware General Corporation Law, which otherwise would prohibit a Delaware corporation, subject to certain exceptions, from engaging in any business combination with any interested stockholder for a period of three years after the date that such stockholder became an interested stockholder.

Lock-Up Agreements

Holders of 60,722,902 shares, or approximately 60.0% of our outstanding common stock have agreed to certain lock-up restrictions with respect to all or a portion of their common stock. Such lock-up provisions may delay, defer or prevent a merger or other takeover or a change of control of our company. For additional information with respect to these lock-up provisions, see the information under the caption “Stockholder Agreements” in Part I, Item 1, “Business” of our Annual Report on Form 10-K for the fiscal year ended December 31, 2019, which is incorporated by reference herein, and the section of this prospectus titled “Where You Can Find More Information; Incorporation by Reference.”

The 2007 Stockholders’ Agreement further restricts the ability of stockholders party to the agreement to transfer their shares of common stock such that they may not transfer any shares of common stock to any known aggregators. For additional information with respect to these lock-up provisions, see the information under the caption “Stockholder Agreements – 2007 Stockholders’ Agreement” in Part I, Item 1, “Business” of our Annual Report on Form 10-K for the fiscal year ended December 31, 2019, which is incorporated by reference herein, and the section of this prospectus titled “Where You Can Find More Information; Incorporation by Reference.”

Voting Agreements

Voting agreements entered into with and among our major stockholders, including Pritzker family business interests, will result in a substantial number of our shares being voted consistent with the recommendations of our board of directors, which may limit your ability to influence the election of directors and other matters submitted to stockholders for approval. For additional information, see the information under the caption “Stockholder Agreements” in Part I, Item 1, “Business” and “Risks Related to Share Ownership and Other

Standstill Agreements

Each stockholder party to the 2007 Stockholders’ Agreement has agreed, subject to certain limited exceptions, not to participate in any acquisition of any of our or our subsidiaries’ securities, any tender or exchange offer, merger or other business combination involving us or any of our subsidiaries, any recapitalization, restructuring, liquidation, dissolution or any other extraordinary transaction with respect to us or any of our subsidiaries or affiliates, or any “solicitation” of “proxies” with respect to voting of our common stock. These standstill provisions may prevent a merger or other takeover or a change of control of us. For additional information, see the information under the caption “Stockholder Agreements – 2007 Stockholders’ Agreement” in Part I, Item 1, “Business” of our Annual Report on Form 10-K for the fiscal year ended December 31, 2019, which is incorporated by reference herein.

DESCRIPTION OF DEBT SECURITIES

This prospectus describes certain general terms and provisions of our debt securities. When we offer to sell a particular series of debt securities, we will describe the specific terms of the series in a supplement to this prospectus. The indenture has been incorporated by reference as an exhibit to the registration statement and you should read the indenture for provisions that may be important to you. In the summary below, we have included references to the section numbers of the indenture so that you can easily locate these provisions. Capitalized terms used in the summary and not defined herein have the meanings specified in the indenture.

- any other terms of the debt securities (which terms are not prohibited by the provisions of the indenture). (Section 2.02)

In addition, the indenture does not limit our ability to issue convertible or subordinated debt securities. Any conversion or subordination provisions of a particular series of debt securities will be set forth in the Board Resolution, the Officers' Certificate or the supplemental indenture related to that series of debt securities and will be described in the relevant prospectus supplement. Such terms may include provisions for conversion, either mandatory, at the option of the holder or at our option, in which case the number of shares of common stock or other securities to be received by the holders of debt securities would be calculated as of a time and in the manner stated in the prospectus supplement.

If we denominate the purchase price of any of the debt securities in a foreign currency or currencies or a foreign currency unit or units, or if the principal of and any premium and interest on any series of debt securities is payable in a foreign currency or currencies or a foreign currency unit or units, we will provide you with information on the restrictions, elections, material U.S. federal income tax considerations, specific terms and other information with respect to that issue of debt securities and such foreign currency or currencies or foreign currency unit or units in the applicable prospectus supplement.

Transfer and Exchange

Each debt security will be represented by either one or more global securities registered in the name of The Depository Trust Company, or the Depository, as depository, or a nominee (we will refer to any debt security represented by a global debt security as a "book-entry debt security"), or a certificate issued in definitive registered form (we will refer to any debt security represented by a certificated security as a "definitive debt security"), as set forth in the applicable prospectus supplement. Except as set forth under the heading "Global Debt Securities and Book-Entry System" below, book-entry debt securities will not be issuable in definitive form.

Definitive Debt Securities

You may transfer or exchange definitive debt securities at any office we maintain for this purpose in accordance with the terms of the indenture. No service charge will be made for any transfer or exchange of definitive debt securities, but we may require payment of a sum sufficient to cover any tax or other governmental charge payable in connection with a transfer or exchange.

You may effect the transfer of definitive debt securities only by presenting the certificate representing those definitive debt securities to us, accompanied by a duly executed written instrument of transfer. You may effect the right to receive the principal of and premium and interest on definitive debt securities only by presenting or surrendering the certificate representing those definitive debt securities to us.

No Protection in the Event of a Change of Control

Unless we state otherwise in the applicable prospectus supplement, the debt securities will not contain any provisions which may afford holders of the debt securities protection in the event we have a change in control or in the event of a highly leveraged transaction (whether or not such transaction results in a change in control) which could adversely affect holders of debt securities.

(Section 4.07)

- (v) Liens to secure all or part of the cost of acquisition (including Liens created as a result of an acquisition by way of Capital Lease), construction, development or improvement of the underlying property, or to secure Indebtedness incurred to provide funds for any such purposes; provided, that the commitment of the creditor to extend the credit secured by any such Lien shall have been obtained not later than 18 months after the later of (A) the completion of the acquisition, construction, development or improvement of such property and (B) the placing in operation of such property or of such property as so constructed, developed or improved;
- (vi) Liens securing industrial revenue, pollution control or similar bonds; and
- (vii) any extension, renewal or replacement (including successive extensions, renewals and replacements), in whole or in part, of any Lien referred to in any of clauses (i), (iii), (iv) or (v) of this definition of Permitted Liens that would not otherwise be permitted pursuant to any of clauses (i) through (vi), to the extent that (A) the principal amount of Indebtedness secured thereby and not otherwise permitted to be secured pursuant to any of clauses (i) through (vi) of this definition of Permitted Liens does not exceed the principal amount of Indebtedness, plus any premium or fee payable in connection with any such extension, renewal or replacement, so secured at the time of any such extension, renewal or replacement, except that where (1) the Indebtedness so secured at the time of any such extension, renewal or replacement was incurred for the sole purpose of financing a specific project and (2) additional Indebtedness is to be incurred in connection with such extension, renewal or replacement solely to finance the completion of the same project, the additional Indebtedness may also be secured by such Lien; and (B) the property that is subject to the Lien serving as an extension, renewal or replacement is limited to some or all of the property that was subject to the Lien so extended, renewed or replaced.

Notwithstanding the restrictions described above, the Company and its Restricted Subsidiaries may, directly or indirectly, create, assume or permit to exist any Lien that would otherwise be subject to the restrictions set forth in the first paragraph of this section without equally and ratably securing the debt securities if, at the time of such creation, assumption or permission, after giving effect thereto and to the retirement of any Indebtedness which is concurrently being retired, the aggregate principal amount of outstanding Indebtedness secured by Liens which would otherwise be subject to such restrictions (not including Permitted Liens) plus all Attributable Indebtedness of the Company and its Restricted Subsidiaries in respect of Sale and Leaseback Transactions with respect to any Principal Property (not including such transactions described under any of clauses (i) through (v) as set forth below under “– Sale and Leaseback Transactions”), does not exceed 15% of Consolidated Net Tangible Assets.

Sale and Leaseback Transactions

The Company will not, and will not permit any Restricted Subsidiary to, enter into any Sale and Leaseback Transaction with respect to any Principal Property unless:

- (i) the Sale and Leaseback Transaction is solely with the Company or another Subsidiary;
- (ii) the lease in such Sale and Leaseback Transaction is for a period not in excess of three years, including renewal rights;
- (iii) the lease in such Sale and Leaseback Transaction secures or relates to industrial revenue, pollution control or similar bonds;
- (iv) the Sale and Leaseback Transaction is entered into prior to or within 18 months after the purchase or acquisition of the Principal Property which is the subject of such Sale and Leaseback Transaction;
- (v) the proceeds of the Sale and Leaseback Transaction are at least equal to the fair market value (as determined by the Company’s board of directors in good faith) of the Principal Property which is the subject of the Sale and Leaseback Transaction and prior to or within 180 days after the sale of such Principal Property, the Company applies an amount equal to the greater of (A) the net proceeds of such sale, and (B) the Attributable Indebtedness of the Company and its Restricted Subsidiaries in respect of such Sale and Leaseback Transaction to (1) the retirement of long-term Indebtedness that is not subordinated to any debt securities issued under the indenture and that is not Indebtedness owed to the Company or a Subsidiary, or (2) the purchase of other property which will constitute a Principal Property having a value at least equal to the value of the Principal Property leased; or
- (vi) the Attributable Indebtedness of the Company and its Restricted Subsidiaries in respect of such Sale and Leaseback Transaction and all other Sale and Leaseback Transactions with respect to any Principal Property (not including any Sale and Leaseback Transactions described under any of clauses (i) through (v) set forth immediately above, plus the aggregate principal amount of outstanding Indebtedness secured by Liens upon Principal Properties or Capital Stock or Indebtedness issued by any Restricted Subsidiary and owned by the Company or any Subsidiary then outstanding (not including any such Indebtedness secured by Permitted Liens) which do not secure such debt securities equally and ratably with (or on a basis that is prior to) the other Indebtedness secured thereby, would not exceed 15% of Consolidated Net Tangible Assets. (Section 4.08)

Mergers, Consolidations and Sales

Unless otherwise provided for a particular series of debt securities by a Board Resolution, a supplemental indenture or an Officers' Certificate, the Company shall not consolidate with or merge into any other Person or sell, assign, transfer, lease, convey or otherwise dispose of all or substantially all of the Company's and its Subsidiaries' properties and assets, taken as a whole, to any Person, unless:

- the Person surviving such consolidation or merger (if not the Company) or the Person that acquires by sale, assignment, transfer, lease, conveyance or other disposition all or substantially all of the Company's and its Subsidiaries' properties and assets, taken as a whole, shall be a corporation, partnership, limited liability company, trust or other entity organized and existing under the laws of the United States of America, any state thereof or the District of Columbia or Canada, Mexico, Switzerland or any other country that is a member country of the European Union on the date of the indenture and shall expressly assume, by a supplemental indenture, executed and delivered to the trustee, in form satisfactory to the trustee, the due and punctual payment of the principal of and any premium and interest on all the debt securities and the performance or observance of every covenant of the indenture on the part of the Company to be performed or observed;
- immediately after giving effect to such transaction and treating any Indebtedness that becomes an obligation of the Company or any Subsidiary as a result of such transaction as having been incurred by the Company or such Subsidiary at the time of such transaction, no default or Event of Default shall have occurred and be continuing; and
- the Company shall have delivered to the trustee an Officers' Certificate and an Opinion of Counsel, each stating that such consolidation, merger, sale, assignment, transfer, lease, conveyance or other disposition and, if a supplemental indenture is required in connection with such transaction, such supplemental indenture, comply with the terms of the indenture and that all conditions precedent provided for therein relating to such transaction have been complied with.

These restrictions will not apply to:

- any sale, assignment, transfer, conveyance, lease or other disposition of assets solely between or among the Company and its Subsidiaries; or
- any conversion of the Company from a corporation to a limited liability company, from a limited liability company to a corporation, from a limited liability company to a limited partnership or a similar conversion. (Section 5.01)

This covenant includes a phrase relating to the sale or other transfer of "all or substantially all" of the Company's and its Subsidiaries' properties and assets, taken as a whole. Although there is a developing body of case law interpreting the phrase "substantially all," there is no precise definition of the phrase under applicable law. Accordingly, in certain circumstances there may be a degree of uncertainty in ascertaining whether a particular transaction would involve a disposition of "all or substantially all" of the Company's and its Subsidiaries' properties and assets, taken as a whole. As a result, it may be unclear as to whether the Company is required to comply with these provisions.

Events of Default

Unless otherwise indicated for a particular series of debt securities by a Board Resolution, a supplemental indenture, or an Officers' Certificate, each of the following constitutes an "Event of Default" with respect to each series of debt securities:

- (i) default in the payment of the principal of or premium, if any, when due on the debt securities of that series;
- (ii) default for 30 days in the payment of interest when due on the debt securities of that series;
- (iii) the Company fails to comply with any of its covenants or agreements in the debt securities of that series or in the indenture and such failure continues for 60 days after written notice has been given to the Company by the trustee or the holders of at least 25% in principal amount of the outstanding debt securities of that series, as provided in the indenture;
- (iv) default by the Company or any Subsidiary under any Indebtedness (other than Non-Recourse Indebtedness) of the Company or any Subsidiary having an aggregate principal amount equal to the greater of \$100,000,000 or 2% of Consolidated Net Tangible Assets, or under any mortgage, indenture or instrument under which there may be issued or by which there may be secured or evidenced any Indebtedness for money borrowed by the Company or any Subsidiary having an aggregate principal amount equal to the greater of \$100,000,000 or 2% of Consolidated Net Tangible Assets, whether such Indebtedness now exists or shall hereafter be created, which default shall constitute a failure to pay any portion of the principal of such Indebtedness when due and payable after the expiration of any applicable grace period with respect thereto or shall have resulted in such Indebtedness becoming or being declared due and payable prior to the date on which it would otherwise have become due and payable; provided, that such acceleration shall not have been rescinded or annulled within 10 days after written notice is given to the Company by the trustee or holders of at least 25% of the outstanding principal amount of debt securities of such series as provided in the indenture; and provided, further, that prior to any declaration of the acceleration of the debt securities as provided in the indenture, an Event of Default under this clause (iv) will be remedied, cured or waived without further action on the part of either the trustee or any of the holders if the default under such other Indebtedness is remedied, cured or waived;
- (v) a final judgment or judgments outstanding against the Company or against any property or assets of the Company in an amount in excess of the greater of \$100,000,000 or 2% of Consolidated Net Tangible Assets is or are not paid, vacated, bonded, undischarged or unstayed for a period of 30 days after the date of its or their entry; provided, that prior to any declaration of acceleration of the debt securities as provided in the indenture, an Event of Default under this clause (v) will be remedied, cured or waived without further action on the part of either the trustee or any of the holders if the judgment is vacated, bonded, discharged or stayed; and
- (vi) certain events of bankruptcy, insolvency or reorganization. (Section 6.01)

The occurrence of certain Events of Default or an acceleration under the indenture may constitute an event of default under certain of our other indebtedness outstanding from time to time.

If an Event of Default with respect to the debt securities of any series at the time outstanding (other than an Event of Default referred to in clause (vi) above) occurs and is continuing, the trustee or the holders of at least 25% in principal amount of the outstanding debt securities of that series by notice to the Company, may declare the principal amount of (or other specified amount), premium, if any, and accrued and unpaid interest on all the debt securities of that series to be due and payable. Upon such a declaration, such amounts shall be due and payable immediately. If an Event of Default referred to in clause (vi) above occurs, the principal amount of (or other specified amount), premium, if any, and accrued and unpaid interest on all the debt securities of each series shall ipso facto become and be immediately due and payable without any declaration or other act on the part of the trustee or any holder.

[Table of Contents](#)

At any time after the principal of the debt securities of any series shall have been so declared due and payable (or have become immediately due and payable), and before any judgment or decree for the payment of the moneys due shall have been obtained or entered as provided in the indenture, the holders of a majority in principal amount of the debt securities of that series then outstanding under the indenture, by written notice to the Company and the trustee, may rescind and annul such declaration and its consequences if: (i) the Company has paid or deposited with the trustee a sum sufficient to pay all matured installments of interest upon all the debt securities of that series and the principal of (and premium, if any, on) any and all debt securities of that series that shall have become due otherwise than by acceleration (with interest upon such principal and premium, if any, and, to the extent that such payment is enforceable under applicable law, upon overdue installments of interest, at the rate per annum expressed in the debt securities of that series to the date of such payment or deposit) and (ii) any and all Events of Default under the indenture with respect to such series of debt securities, other than the nonpayment of principal (or other specified amount) and interest, if any, on debt securities of that series that have become due solely by such declaration of acceleration, shall have been remedied or waived as provided in the indenture. No such rescission shall affect any subsequent default or impair any right consequent thereto. (Section 6.02) For information as to waiver of defaults, see “– Modification and Waiver.”

Subject to the provisions of the indenture relating to the duties of the trustee in case an Event of Default shall occur and be continuing, the trustee shall be under no obligation to exercise any of the rights or powers vested in it by the indenture at the request or direction of any of the holders pursuant to the indenture, unless such holders shall have offered to the trustee security or indemnity reasonably satisfactory to the trustee against the costs, expenses and liabilities which might be incurred by the trustee in compliance with such request or direction. (Section 7.02(i))

Subject to applicable law and the provisions of the indenture relating to the rights of the trustee and indemnification of the trustee, the holders of a majority in principal amount of the outstanding debt securities of any series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or of exercising any trust or power conferred on the trustee with respect to the debt securities of that series. (Section 6.05)

Except to enforce the right to receive payment of the principal amount of, premium, if any, and accrued and unpaid interest on the debt securities of any series held by such holder when due, no holder of a debt security of that series may pursue any remedy with respect to the indenture or the debt securities of that series unless:

- the holder previously gave the trustee written notice stating that an Event of Default with respect to the debt securities of that series is continuing;
- the holders of at least 25% in aggregate principal amount of the outstanding debt securities of that series make a written request to the trustee to pursue the remedy;
- such holder or holders of the debt securities of that series offer to the trustee security or indemnity reasonably satisfactory to the trustee against any loss, liability or expense caused by taking such action;
- the trustee does not comply with the request within 60 days after receipt of the request and the offer of security or indemnity; and
- the holders of a majority in aggregate principal amount of the outstanding debt securities of that series do not give the trustee a direction inconsistent with the request during such 60-day period. (Section 6.06)

The Company shall deliver to the trustee within 120 days after the end of each fiscal year of the Company an Officers’ Certificate stating that a review of the activities of the Company and its Subsidiaries during the preceding fiscal year has been made under the supervision of the signing officers with a view to determining whether the Company has kept, observed, performed and fulfilled its obligations under the indenture, and further stating, as to each such officer signing such certificate, that, to such officer’s knowledge, the Company has kept,

observed, performed and fulfilled each and every covenant contained in the indenture and is not in default in the performance or observance of any of the terms, provisions and conditions under the indenture (or, if a default or Event of Default shall have occurred, describing all such defaults or Events of Default of which such officer has knowledge and what action the Company is taking or proposes to take, if any, with respect thereto). (Section 4.03)

We refer you to the prospectus supplement relating to any series of debt securities that are discount securities for the particular provisions relating to acceleration of a portion of the principal amount of such discount securities upon the occurrence of an Event of Default.

Defeasance of Debt Securities and Certain Covenants

Defeasance and Discharge

The indenture provides that, upon our exercise of our option to be discharged from all our obligations with respect to the debt securities of any series (except for certain obligations, including the obligations to exchange or register the transfer of debt securities, to replace stolen, lost, destroyed or mutilated debt securities, to maintain a paying agent, service agent and registrar and to hold moneys for payment in trust), we will be deemed to have been discharged from our obligations with respect to all debt securities of that series then outstanding on the date the conditions to such defeasance are satisfied. (Section 8.02)

In order to exercise such option, we must make an irrevocable deposit with the trustee, in trust, for the benefit of the holders of debt securities of that series, of cash in U.S. dollars or noncallable Government Securities, or a combination thereof, in such amounts as will be sufficient, in the opinion of a nationally recognized firm of independent public accountants, to pay the principal of and any premium and interest on such debt securities on the stated date for payment thereof or on the applicable redemption date, as the case may be. We must also, among other things, deliver to the trustee an Opinion of Counsel in the United States reasonably acceptable to the trustee to the effect that we have received from, or that there has been published by, the U.S. Internal Revenue Service a ruling, or there has been a change in the applicable U.S. federal income tax law, in either case to the effect that, and based thereon such Opinion of Counsel shall confirm that, holders of such debt securities will not recognize income, gain or loss for U.S. federal income tax purposes as a result of such deposit, defeasance and discharge and will be subject to U.S. federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such deposit, defeasance and discharge were not to occur. (Section 8.04)

Defeasance of Certain Covenants

The indenture provides that, upon our exercise of our option to be released with respect to the debt securities of any series from our obligations under certain restrictive covenants, including those described under “– Covenants” and the occurrence of certain Events of Default with respect to such restrictive covenants, we will be deemed to be so released with respect to such series of debt securities. (Section 8.03)

In order to exercise such option, we must make an irrevocable deposit with the trustee, in trust, for the benefit of the holders of debt securities of that series, of cash in U.S. dollars or noncallable Government Securities, or a combination thereof, in such amounts as will be sufficient, in the opinion of a nationally recognized firm of independent public accountants, to pay the principal of and any premium and interest on such debt securities on the stated date for payment thereof or on the applicable redemption date, as the case may be. We must also, among other things, deliver to the trustee an Opinion of Counsel in the United States reasonably acceptable to the trustee confirming that the holders of the outstanding debt securities will not recognize income, gain or loss for U.S. federal income tax purposes as a result of such defeasance and will be subject to U.S. federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such defeasance had not occurred. (Section 8.04)

Satisfaction and Discharge

The indenture will be discharged and will cease to be of further effect as to all debt securities of a series issued thereunder (except for the rights, powers, trusts, duties, indemnities and immunities of the trustee under the indenture and our obligations in connection therewith), when:

- either:
 - we have delivered to the trustee for cancellation all debt securities of such series that have been authenticated (except lost, stolen or destroyed debt securities that have been replaced or paid and debt securities for whose payment money and/or Government Securities have been deposited in trust or segregated and held in trust by us and thereupon repaid to us or discharged from such trust); or
 - all debt securities of such series that have not been delivered to the trustee for cancellation have become due and payable, or are by their terms to become due and payable within one year or are to be called for redemption within one year under arrangements satisfactory to the trustee for giving notice of redemption, and we have irrevocably deposited or caused to be deposited with the trustee, in trust, for the benefit of the holders, cash in U.S. dollars, noncallable Government Securities, or a combination thereof, in amounts as will be sufficient, in the opinion of a nationally recognized firm of independent public accountants, to pay at maturity or upon redemption all debt securities of that series not theretofore delivered to the trustee for cancellation, including principal of and any premium and interest due or to become due to such date of maturity or date fixed for redemption, as the case may be;
- we have paid or caused to be paid all other sums payable under the indenture with respect to such series of debt securities; and
- we have delivered to the trustee an Opinion of Counsel and an Officers' Certificate, each stating that all conditions precedent to satisfaction and discharge with respect to such series of debt securities have been complied with.

All our other obligations (except for our obligation to pay and indemnify the trustee) with respect to such series of debt securities will be discharged when all the debt securities of such series have been paid in full. (Section 8.07)

Modification and Waiver

The indenture provides that the trustee may make reasonable rules for action by or a meeting of holders.

We and the trustee may amend or supplement the indenture or the debt securities of any series without notice to any holder but with the written consent of the holders of at least a majority in principal amount of each series of debt securities then outstanding (including consents obtained in connection with a tender offer or exchange offer for such debt securities) affected by such amendment or supplement by execution of a supplemental indenture. However, without the consent of each holder affected, an amendment or supplement may not:

- reduce the principal amount of any debt securities issued under the indenture whose holders must consent to an amendment, supplement or waiver;
- reduce the rate of or extend the time for payment of interest, including default interest, on any debt security issued under the indenture;
- reduce the principal of or change the Stated Maturity of any debt security issued under the indenture;
- reduce the amount payable upon the redemption of any debt security issued under the indenture or change the time of any mandatory redemption or, in respect of an optional redemption, the times at

which any debt security may be redeemed (excluding, for the avoidance of doubt, the number of days before a redemption date that a notice of redemption may be mailed to the holders of any debt security) or, once notice of redemption has been given, to the holders of any debt security, the time at which it must thereupon be redeemed);

- make any debt security issued under the indenture payable in money other than that stated in such debt security;
- waive a default or Event of Default in the payment of principal of or any premium or interest on the debt securities issued under the indenture (except a rescission of acceleration of the debt securities by the holders of at least a majority in aggregate principal amount of the debt securities then outstanding and a waiver of the payment default that resulted from such acceleration);
- make any change in the provisions of the indenture relating to waivers of past defaults or the rights of holders of debt securities issued under the indenture to receive payments of principal of or any premium or interest on the debt securities;
- waive a redemption payment with respect to any debt security issued under the indenture; or
- make any change to the waiver of past defaults or the rights of holders to receive payment under the provisions in the indenture relating to the waiver of past defaults and the rights of holders to receive payment or in the amendment and waiver provisions described above. (Section 9.02)

The holders of a majority in principal amount of any series of debt securities then outstanding may, on behalf of the holders of all the debt securities of such series, by written notice to the trustee, waive an existing default and its consequences except:

- a default in the payment of the principal of and any premium and accrued and unpaid interest on debt securities of such series;
- a default arising from the failure to redeem or purchase any debt security of such series when required pursuant to the terms of the indenture; and
- a default in respect of certain covenants and provisions of the indenture that cannot be amended without the consent of the holder of each debt security of such series then outstanding.

However, the holders of a majority in principal amount of the outstanding debt securities of any series may rescind an acceleration and its consequences, including any related payment default that resulted from such acceleration, in accordance with the acceleration provisions under the indenture. (Section 6.04)

We may fix as a record date for the purpose of determining the holders of the debt securities entitled to give their consent or take any action required or permitted to be taken pursuant to the indenture. If a record date is fixed, only persons who were holders at such record date (or their duly designated proxies) are entitled to give such consent or to revoke any consent previously given or to take any such action, whether or not such holders continue to be holders after such record date. (Section 9.03)

With respect to the debt securities, notwithstanding the preceding paragraphs, without the consent of any holder of such debt securities, we and the trustee may amend or supplement the indenture or the debt securities:

- to cure any ambiguity, defect, omission or inconsistency;
- to provide for uncertificated debt securities in addition to or in place of definitive debt securities;
- to provide for the assumption of our obligations to holders of such debt securities in the case of a merger or consolidation or sale of all or substantially all of our assets;
- to make any changes that would provide additional rights or benefits to the holders of such debt securities that do not adversely affect the legal rights under the indenture of any such holder;

[Table of Contents](#)

- to comply with requirements of the SEC in order to effect or maintain the qualification of the indenture under the Trust Indenture Act of 1939, as amended;
- to provide for the issuance of additional debt securities in accordance with the indenture;
- to evidence and provide for the acceptance of appointment by a successor or separate trustee with respect to the debt securities and to add or change any of the provisions of the indenture as necessary to provide for or facilitate the administration of the indenture by more than one trustee;
- with respect to any series of debt securities, to conform the text of the indenture applicable thereto or the debt securities of such series to any provision of the section “Description of the Notes,” “Description of Notes” or “Description of Debt Securities” in the offering memorandum, prospectus supplement or other like offering document relating to the initial offering of such series of debt securities that is intended to be a verbatim recitation of the terms of such series of debt securities;
- to establish the form or terms of debt securities and coupons of any series of debt securities; or
- to add to, change or eliminate any of the provisions of the indenture so long as any such addition not otherwise permitted under the indenture shall (i) neither apply to any debt security of any series created prior to the execution of such supplemental indenture and entitled to the benefit of such provision nor modify the rights of the holders of any such debt security with respect to the benefit of such provision or (ii) become effective only when there is no such security outstanding. (Section 9.01)

Governing Law

The indenture and the debt securities will be governed by, and construed in accordance with, the internal laws of the State of New York. (Section 10.08)

DESCRIPTION OF OTHER SECURITIES

We will set forth in the applicable prospectus supplement a description of any warrants, purchase contracts or units issued by us that may be offered and sold pursuant to this prospectus.

GLOBAL SECURITIES

Book-Entry, Delivery and Form

Unless we indicate differently in a prospectus supplement, the securities initially will be issued in book-entry form and represented by one or more global notes or global securities, or, collectively, global securities. The global securities will be deposited with, or on behalf of, The Depository Trust Company, New York, New York, as depository, or DTC, and registered in the name of Cede & Co., the nominee of DTC. Unless and until it is exchanged for individual certificates evidencing securities under the limited circumstances described below, a global security may not be transferred except as a whole by the depository to its nominee or by the nominee to the depository, or by the depository or its nominee to a successor depository or to a nominee of the successor depository.

DTC has advised us that it is:

- a limited-purpose trust company organized under the New York Banking Law;
- a “banking organization” within the meaning of the New York Banking Law;
- a member of the Federal Reserve System;
- a “clearing corporation” within the meaning of the New York Uniform Commercial Code; and
- a “clearing agency” registered pursuant to the provisions of Section 17A of the Exchange Act.

DTC holds securities that its participants deposit with DTC. DTC also facilitates the settlement among its participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants’ accounts, thereby eliminating the need for physical movement of securities certificates. “Direct participants” in DTC include securities brokers and dealers, including underwriters, banks, trust companies, clearing corporations and other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation, or DTCC. DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others, which we sometimes refer to as indirect participants, that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC.

Purchases of securities under the DTC system must be made by or through direct participants, which will receive a credit for the securities on DTC’s records. The ownership interest of the actual purchaser of a security, which we sometimes refer to as a beneficial owner, is in turn recorded on the direct and indirect participants’ records. Beneficial owners of securities will not receive written confirmation from DTC of their purchases. However, beneficial owners are expected to receive written confirmations providing details of their transactions, as well as periodic statements of their holdings, from the direct or indirect participants through which they purchased securities. Transfers of ownership interests in global securities are to be accomplished by entries made on the books of participants acting on behalf of beneficial owners. Beneficial owners will not receive certificates representing their ownership interests in the global securities, except under the limited circumstances described below.

To facilitate subsequent transfers, all global securities deposited by direct participants with DTC will be registered in the name of DTC’s partnership nominee, Cede & Co., or such other name as may be requested by an authorized representative of DTC. The deposit of securities with DTC and their registration in the name of Cede & Co. or such other nominee will not change the beneficial ownership of the securities. DTC has no knowledge of the actual beneficial owners of the securities. DTC’s records reflect only the identity of the direct participants to whose accounts the securities are credited, which may or may not be the beneficial owners. The participants are responsible for keeping account of their holdings on behalf of their customers.

So long as the securities are in book-entry form, you will receive payments and may transfer securities only through the facilities of the depositary and its direct and indirect participants. We will maintain an office or agency in the location specified in the prospectus supplement for the applicable securities, where notices and demands in respect of the securities and the indenture may be delivered to us and where certificated securities may be surrendered for payment, registration of transfer or exchange.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants and by direct participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any legal requirements in effect from time to time.

Redemption notices will be sent to DTC. If less than all of the securities of a particular series are being redeemed, DTC's practice is to determine by lot the amount of the interest of each direct participant in the securities of such series to be redeemed.

Neither DTC nor Cede & Co. (or such other DTC nominee) will consent or vote with respect to the securities. Under its usual procedures, DTC will mail an omnibus proxy to us as soon as possible after the record date. The omnibus proxy assigns the consenting or voting rights of Cede & Co. to those direct participants to whose accounts the securities of such series are credited on the record date, identified in a listing attached to the omnibus proxy.

So long as securities are in book-entry form, we will make payments on those securities to the depositary or its nominee, as the registered owner of such securities, by wire transfer of immediately available funds. If securities are issued in definitive certificated form under the limited circumstances described below, we will have the option of making payments by check mailed to the addresses of the persons entitled to payment or by wire transfer to bank accounts in the United States designated in writing to the applicable trustee or other designated party at least 15 days before the applicable payment date by the persons entitled to payment, unless a shorter period is satisfactory to the applicable trustee or other designated party.

Redemption proceeds, distributions and dividend payments on the securities will be made to Cede & Co. or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit direct participants' accounts upon DTC's receipt of funds and corresponding detail information from us on the payment date in accordance with their respective holdings shown on DTC records. Payments by participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the account of customers in bearer form or registered in "street name." Those payments will be the responsibility of participants and not of DTC or us, subject to any statutory or regulatory requirements in effect from time to time. Payment of redemption proceeds, distributions and dividend payments to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC, is our responsibility, disbursement of payments to direct participants is the responsibility of DTC, and disbursement of payments to the beneficial owners is the responsibility of direct and indirect participants.

Except under the limited circumstances described below, purchasers of securities will not be entitled to have securities registered in their names and will not receive physical delivery of securities. Accordingly, each beneficial owner must rely on the procedures of DTC and its participants to exercise any rights under the securities and the indenture.

The laws of some jurisdictions may require that some purchasers of securities take physical delivery of securities in definitive form. Those laws may impair the ability to transfer or pledge beneficial interests in securities.

DTC may discontinue providing its services as securities depositary with respect to the securities at any time by giving reasonable notice to us. Under such circumstances, in the event that a successor depositary is not obtained, securities certificates are required to be printed and delivered.

As noted above, beneficial owners of a particular series of securities generally will not receive certificates representing their ownership interests in those securities. However, if:

- DTC notifies us that it is unwilling or unable to continue as a depository for the global security or securities representing such series of securities or if DTC ceases to be a clearing agency registered under the Exchange Act at a time when it is required to be registered and a successor depository is not appointed within 90 days of the notification to us or of our becoming aware of DTC's ceasing to be so registered, as the case may be;
- we determine, in our sole discretion, not to have such securities represented by one or more global securities; or
- an Event of Default has occurred and is continuing with respect to such series of securities,

we will prepare and deliver certificates for such securities in exchange for beneficial interests in the global securities. Any beneficial interest in a global security that is exchangeable under the circumstances described in the preceding sentence will be exchangeable for securities in definitive certificated form registered in the names that the depository directs. It is expected that these directions will be based upon directions received by the depository from its participants with respect to ownership of beneficial interests in the global securities.

We have obtained the information in this section and elsewhere in this prospectus concerning DTC and DTC's book-entry system from sources that are believed to be reliable, but we take no responsibility for the accuracy of this information.
