#### **Non-GAAP Financial Measures**

To supplement our unaudited condensed consolidated financial statements, which are prepared and presented in accordance with GAAP, Pure uses the following non-GAAP financial measures: non-GAAP gross profit, non-GAAP gross margin, non-GAAP operating income (loss), non-GAAP operating margin, non-GAAP net income (loss), non-GAAP net income (loss) per share, and free cash flow.

We use these non-GAAP financial measures for financial and operational decision-making and as a means to evaluate period-to-period comparisons. Our management believes that these non-GAAP financial measures provide meaningful supplemental information regarding our performance and liquidity by excluding certain expenses and expenditures such as stock-based compensation expense, payments to former shareholders of acquired companies, payroll tax expense related to stock-based activities, amortization of debt discount and debt issuance costs related to long-term debt, amortization of intangible assets acquired from acquisitions, acquisition-related transaction and integration expenses, and costs associated with the exit of certain operations that may not be indicative of our ongoing core business operating results. Pure believes that both management and investors benefit from referring to these non-GAAP financial measures in assessing our performance and when analyzing historical performance and liquidity and planning, forecasting, and analyzing future periods. The presentation of these non-GAAP financial measures is not meant to be considered in isolation or as a substitute for our financial results prepared in accordance with GAAP, and our non-GAAP measures may be different from non-GAAP measures used by other companies.

For a reconciliation of these non-GAAP financial measures to GAAP measures, please see the tables captioned "Reconciliations of non-GAAP results of operations to the nearest comparable GAAP measures" and "Reconciliation from net cash provided by operating activities to free cash flow," included at the end of this release.
