CUSTOMERS BANCORP REPORTS RECORD NET INCOME FOR SECOND QUARTER AND FIRST SIX MONTHS OF 2016

- **Record Q2 2016 GAAP Net Income of \$17.4 Million, Up 57.2% Over Q2 2015**
- **Record Q2 2016 Fully Diluted Earnings Per Share ("EPS") of \$0.60, Up 53.8% over Q2 2015 Fully Diluted EPS**
- **Record Six Months of 2016 Net Income of \$33.8 million, Up 35.1% over First Six Months of 2015 and EPS of \$1.17, Up 33.0% over First Six Months 2015**
- **Exceptional Asset Quality with NPLs only 0.17% of Total Loans**
- **Acquisition of Higher One Holdings, Inc. Disbursements Business and Combination With Customers' BankMobile Division Completed**

Wyomissing, PA – July 20, 2016 - Customers Bancorp, Inc. (NYSE: CUBI), the parent company of Customers Bank (collectively "Customers"), reported net income to common shareholders of \$17.4 million for the second quarter of 2016 ("Q2 2016") compared to net income to common shareholders of \$11.0 million for the second quarter of 2015 ("Q2 2015"), an increase of \$6.3 million, or 57.2%. Fully diluted earnings per share for Q2 2016 was \$0.60 compared to \$0.39 fully diluted earnings per share for Q2 2015, an increase of \$0.21 per share, or 53.8%. Average fully diluted shares for Q2 2016 were 29.0 million compared to average fully diluted shares of 28.7 million for Q2 2015. The second quarter results included one-time costs for acquisition related expenses and a true-up to a higher effective tax rate as well as two weeks of Disbursements business results totaling approximately \$2.7 million.

Customers also reported net income to common shareholders of \$33.8 million for the first six months of 2016 compared to net income to common shareholders of \$25.0 million for the first six months of 2015, an increase of \$8.8 million, or 35.1%. Fully diluted earnings per share for the first six months of 2016 was \$1.17 compared to \$0.88 for the first six months of 2015, an increase of 33.0%.

"Customers is pleased to report record earnings for the second quarter and first six months of 2016. Customers' single point of contact business model delivered by highly experienced professional teams resulted in Customers continued origination of high quality loans, limiting our interest rate exposures, and controlling operating costs," stated Jay Sidhu, Chairman and CEO of Customers. "Furthermore, Customers completed its strategic acquisition of the Disbursements business from Higher One Holdings, Inc. on June 15, 2016. Combining the Disbursements business with our BankMobile business and platform gives Customers over 2.1 million BankMobile serviced customers and the potential to add as many as 500,000 new BankMobile customers annually. We believe this acquisition will lower the overall cost of deposits for Customers and provide for realizing the value of BankMobile Technologies within 12 to 18 months, making this Division of Customers Bank potentially one of the most successful digital banking platforms in the United States," Sidhu continued.

Other financial highlights for Q2 2016 compared to Q2 2015 include:

- Q2 2016 net interest income of \$63.2 million increased \$16.6 million, or 35.7%, from net interest income for Q2 2015 as average loan and security balances increased \$2.2 billion. Net interest margin expanded by 10 basis points to 2.83% from Q2 2015.
 - Commercial loan average balances increased \$886 million, including commercial loans to mortgage banking companies, in Q2 2016 compared to Q2 2015.
 - Multi-family average loan balances increased \$1.2 billion.
 - The increased yields from variable rate commercial loans and investment portfolios more than offset the slightly higher funding costs.
- Customers reported a \$0.8 million provision for loan losses in Q2 2016. The Q2 2016 provision for loan losses included provisions for loan growth and impairment measured on specific loans of \$2.1 million, offset in part by increased estimated cash flows expected to be collected on purchased credit-impaired loans and a reduction in the estimated amount owed to the FDIC for previous FDIC assisted acquisitions totaling \$1.3 million. The Q2 2015 provision included a provision of \$6.0 million for a fraudulent loan.
- Q2 2016 non-interest income of \$8.3 million increased \$1.9 million from Q2 2015 as a result of \$2.2 million interchange and other fees received from the acquired Disbursements business and \$0.3 million increase in warehouse fees offset in part by a decrease in gains on loan sales. There were no sales of multi-family loans in Q2 2016.
- Non-interest expenses in Q2 2016 of \$38.2 million increased \$12.5 million, or 48.8%, from non-interest expenses in Q2 2015. Q2 2016 operating expenses included approximately \$3.2 million of Disbursements business expenses (salaries and employee benefits of \$0.7 million, professional services of \$0.5 million, technology, communication and bank operations of \$0.9 million, and other expenses of \$1.1 million) and one-time acquisition related expenses of \$0.9 million (predominately for professional services). The remaining increases in salary and employee benefits, regulatory assessments and fees, professional services, technology, and occupancy expenses resulted largely from the increases in resources and services necessary to support and operate a \$9.7 billion bank.

- Customers' Q2 2016 income tax expense of \$13.0 million reflects an estimated effective tax rate of 40.1% compared to Q2 2015 tax expense of \$6.4 million with an effective tax rate of 35.6%. During Q2 2016, Customers evaluated its apportionment factors and estimated that due to the increasing proportion of income producing assets domiciled in New York, particularly in New York City, that Customers' effective tax rate for full year 2016 would be approximately 38.0%. The 40.1% Q2 2016 effective rate reflects recording the higher estimated taxes for the first six months of 2016 during Q2 2016.
- Customers achieved a return on average assets of 0.84% in Q2 2016 compared to 0.65% in Q2 2015, and achieved a return on average common equity of 13.03% in Q2 2016 compared to 9.44% in Q2 2015. Pre-tax and pre-provision return on average assets reached 1.44% in Q2 2016. Pre-tax and pre-provision return on average common equity was 23.38% in Q2 2016.
- Total loans, including commercial loans held for sale, increased \$1.9 billion, or 28.4%, to \$8.4 billion as of June 30, 2016 compared to total loans as of June 30, 2015 of \$6.6 billion. Multi-family loan balances increased \$1.0 billion to \$3.3 billion and commercial loans including lines of credit to mortgage companies increased \$0.9 billion to \$4.7 billion.
- Total deposits increased \$1.3 billion, or 23.3%, to \$6.8 billion as of June 30, 2016 compared to total deposits of \$5.5 billion as of June 30, 2015. Non-interest bearing demand deposits grew \$165.2 million to \$749.6 million, a 28.3% increase. Money market account balances were up \$536.9 million to \$3.0 billion as of June 30, 2016 compared to June 30, 2015, a 21.7% increase, and certificates of deposit accounts increased \$469.3 million to \$2.7 billion as of June 30, 2016, a 20.8% increase.
- The Q2 2016 efficiency ratio was 53.47% compared to a 48.4% Q2 2015 efficiency ratio. Q2 2016 operating expenses included acquisition related expenses of \$0.9 million and Disbursements business expenses of \$3.2 million.
- Capital levels continue to exceed the "well-capitalized" threshold established by regulation at the bank and exceed the applicable Basel III regulatory thresholds for the holding company and the bank.
- Customers Bancorp issued \$57.5 million of non-cumulative perpetual preferred stock paying a 6.45% dividend on April 28, 2016. The proceeds from the capital raise were largely contributed to the subsidiary bank to support Customers Bank's balance sheet growth and other general corporate purposes.
- Total Tier 1 equity for Customers Bancorp increased \$141.3 million from June 30, 2015 to June 30, 2016, an increase in capital of 27.0% over the year.
- The tangible book value per common share continued to increase, reaching \$19.35 at June 30, 2016, compared to \$17.28 at June 30, 2015, an increase of 12.0% year-over-year.

Q2 2016 compared to Q1 2016:

Customers' Q2 2016 net income to common shareholders of \$17.4 million increased \$1.0 million, or 5.8%, from net income to common shareholders of \$16.4 million for the first quarter of 2016 ("Q1 2016"). The \$1.0 million increase in Q2 2016 compared to Q1 2016 net income to common shareholders resulted primarily from increases in net interest income of \$5.5 million to \$63.2 million, a decrease in provisions for loan losses of \$1.2 million to \$0.8 million, an increase in non-interest income of \$2.8 million to \$8.3 million partially offset by increased operating expenses of \$4.3 million to \$38.2 million, and a \$3.5 million increase in income tax expense to \$13.0 million. Discussing these changes further:

- The \$5.5 million increase in net interest income in Q2 2016 resulted from a \$0.9 billion higher average loan balance in Q2 2016 as a result of loan growth.
- The \$1.2 million decrease in provision for loan losses in Q2 2016 resulted primarily from a reduction in the amount estimated to be owed to the FDIC for FDIC assisted acquisitions and increased estimated cash flows expected to be collected on purchased credit-impaired loans totaling \$1.3 million.
- The \$2.8 million increase in non-interest income in Q2 2016 resulted primarily from an increase in interchange revenue and deposit fees of \$2.2 million related to the Disbursements business acquisition, and a \$0.5 million increase in mortgage warehouse transactional fees as the volume of loans processed increased in Q2 2016 compared to Q1 2016.
- The increase in operating expenses of \$4.3 million in Q2 2016 compared to Q1 2016 resulted largely from Disbursements business related expenses of \$3.2 million.

The following table presents a summary of key earnings and performance metrics for the quarter ended June 30, 2016 and the preceding four quarters, respectively:

Capital

Customers recognizes the importance of not only being well capitalized in the current environment but to have adequate capital buffers to absorb any unexpected shocks. "Our capital ratios continue to be stretched as of June 30, 2016 due to the continued high usage of lines of credit by our mortgage banking customers (mortgage warehouse) and reflect the refinance boom triggered by the flat yield curve resulting in abnormally low 10-year yields. We are committed to controlling our asset growth over the next 12 months to two years and staying below \$10 billion in assets. Over this time, we expect to demonstrate our business model's ability to gain new student demand deposit accounts and become the bank of choice for graduating students. Limiting our growth and possible future gains from our strategic alternatives for BankMobile should be significantly accretive to our capital ratios," stated Mr. Sidhu.

BankMobile

The BankMobile division took a significant step during Q2 2016 with Customers Bank's acquisition of the Higher One Holdings, Inc. Disbursements business, and BankMobile's combination with the acquired business. Together the new BankMobile division services over 2.1 million deposit accounts, and is perhaps the largest provider of mobile banking services in the United States by number of customers. The combined businesses also have the potential to add about 500,000 new student accounts annually. "We are very focused on continuing to build out BankMobile's technology software platform, introducing the Vibe and Bold deposit accounts, integrating the Disbursements business with the BankMobile business, developing and beginning to execute plans to continue to attract about 500,000 or more new millennial customers to its customer base each year and improve their engagement as a banking customer so they stay a BankMobile customer for life. The acquisition of the Disbursements business provides us with a great opportunity, marking an inflection point in BankMobile's development. We are committed to making BankMobile the primary bank for all our student customers and moving with them as they evolve to young professionals," stated Mr. Sidhu. "We are also focused on attracting more deposit customers with the Vibe and Bold accounts, arguably among the best customer offerings and the best priced banking services available in the U.S. We believe that 2016 and 2017 will be very exciting years as we build BankMobile as a profitable business and create value for Customers Bancorp, Inc. shareholders," Mr. Sidhu continued.

Managing Commercial Real Estate Concentration Risks and Providing High Net Worth Families Loans for Their Multi-Family Holdings

Customers' loans collateralized by multi-family properties were approximately 39.6% of Customers' total loan portfolio. Recognizing the risks that accompany certain elements of commercial real estate ("CRE") lending, Customers has as part of its core strategies studiously sought to limit its risks. Customers' total real estate construction and development exposure, arguably the riskiest area of CRE, was under \$100 million as of June 30, 2016.

Our CRE exposures are focused principally on loans to high net worth families collateralized by multi-family properties that are of modest size and subject to what Customers believes are conservative underwriting standards. As of June 30, 2016, Customers had no non-performing multi-family loans. Customers believes it has a strong risk management process to manage the portfolio risks prospectively and that this portfolio will perform well even under a stressed scenario. Following are some unique characteristics of Customers' multi-family loan portfolio:

- Principally concentrated in New York City and principally to high net worth families;
- Average loan size is between \$5 million - \$7 million;
- Annual debt service coverage ratio is 140%;
- Median loan-to-value is 70%;
- All loans are individually stressed with an increase of 1% and 2% to the cap rate and an increase of 1.5% and 3% in interest rates;
- All properties are inspected prior to a loan being granted and monitored thereafter on an annual basis by dedicated portfolio managers;
- Customers to date has never experienced more than a 30 day delinquency on any of the multi-family loans that it has originated; and
- Credit approval process is independent of customer sales and portfolio management process.

Asset Quality and Interest Rate Risk

Risk management is a critical component of how Customers creates long-term shareholder value. Two of the most important risks of banking to be understood and managed in an uncertain economy are asset quality and interest rate risk.

Customers believes that asset quality risks must be diligently addressed during good economic times with prudent underwriting standards so that when the economy deteriorates the bank's capital is sufficient to absorb all losses without threatening its ability to operate and serve its community and other constituents. "Customers adopted prudent underwriting standards in 2009 when the current management team assumed responsibility for the Bank and has not compromised those standards in the last six years," stated Mr. Sidhu. "Customers' non-performing loans at June 30, 2016 were only 0.17% of total loans, compared to our peer group non-performing loans of approximately 0.95% of total loans, and industry average non-performing loans of about 1.60% of total loans. Our expectation is superior asset quality performance in good times and in difficult years. We have no direct exposure to oil and gas or business investments in fracking," said Mr. Sidhu.

Interest rate risk is another critical element for banks to manage. An unexpected shift in interest rates can have a devastating effect on a bank's profitability for multiple years. Banks can position their assets and liabilities to speculate on future interest rate changes with the hope of gaining earnings by guessing the next movement in interest rates. "Customers' objective is to manage the estimated effect of future interest rate changes, up or down, to a neutral effect on net interest income, so not speculating on whether interest rates go up or down," said Mr. Sidhu. "This allows our team members to focus on generating earnings from the business of banking, aggregating deposits and making loans to customers in the communities we serve," concluded Mr. Sidhu.

Diversified Loan Portfolio

Customers is a Business Bank that principally focuses on four lending activities; commercial and industrial loans to privately held businesses, multi-family loans principally to high net worth families, selected commercial real estate loans, and commercial loans and banking services to privately held mortgage companies. Commercial and industrial loans, including owner-occupied commercial real estate loans, and commercial loans to mortgage companies, were approximately \$3.5 billion at June 30, 2016. Multi-family loans, or loans to high net worth families, were approximately \$3.3 billion at June 30, 2016. Non-owner occupied commercial real estate loans were approximately \$1.1 billion at June 30, 2016. Consumer and residential mortgage loans make up only about 5% of the loan portfolio.

This presentation, as well as other written or oral communications made from time to time by us, contains forward-looking information within the meaning of the safe harbor provisions of the U.S. Private Securities Litigation Reform Act of 1995. These statements relate to future events or future predictions, including events or predictions relating to future financial performance, and are generally identifiable by the use of forward-looking terminology such as “believe,” “expect,” “may,” “will,” “should,” “plan,” “intend,” or “anticipate” or the negative thereof or comparable terminology. These forward-looking statements are only predictions and estimates regarding future events and circumstances and involve known and unknown risks, uncertainties and other factors, including the risks described under “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2015 and subsequent Quarterly Reports on Form 10-Q, as such factors may be updated from time to time in our filings with the SEC, that may cause actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by such forward-looking statements. The information is based upon various assumptions that may not prove to be correct.

In addition to the risks described under “Risk Factors” in the reports we file with the SEC under the Securities Exchange Act of 1934, as amended, important factors to consider and evaluate with respect to such forward-looking statements include:

- changes in the external competitive market factors that might impact our results of operations;
- changes in laws and regulations, including without limitation changes in capital requirements under Basel III;
- changes in our business strategy or an inability to execute our strategy due to the occurrence of unanticipated events;
- our ability to identify potential candidates for, and consummate, acquisition or investment transactions;
- the timing of acquisition or investment transactions;
- constraints on our ability to consummate an attractive acquisition or investment transaction because of significant competition for these opportunities;
- local, regional and national economic conditions and events and the impact they may have on us and our customers;
- costs and effects of regulatory and legal developments, including the results of regulatory examinations and the outcome of regulatory or other governmental inquiries and proceedings, such as fines or restrictions on our business activities;
- ability to attract deposits and other sources of liquidity;
- changes in the financial performance and/or condition of our borrowers;
- changes in the level of non-performing and classified assets and charge-offs;
- changes in estimates of future loan loss reserve requirements based upon the periodic review thereof under relevant regulatory and accounting requirements;
- unforeseen challenges that may arise in connection with the consummation of our recently completed transaction with Higher One;
- inflation, interest rate, securities market and monetary fluctuations;

- timely development and acceptance of new banking products and services and perceived overall value of these products and services by users;
- changes in consumer spending, borrowing and saving habits;
- technological changes;
- our ability to increase market share and control expenses;
- continued volatility in the credit and equity markets and its effect on the general economy;
- effects of changes in accounting policies and practices, as may be adopted by the regulatory agencies, as well as the Public Company Accounting Oversight Board, the Financial Accounting Standards Board and other accounting standard setters;
- the businesses of Customers Bank and any acquisition targets or merger partners and subsidiaries not integrating successfully or such integration being more difficult, time-consuming or costly than expected, including with respect to our recent acquisition of certain assets from Higher One;
- material differences in the actual financial results of merger and acquisition activities compared with expectations, such as with respect to the full realization of anticipated cost savings and revenue enhancements within the expected time frame, including with respect to our acquisition of the Disbursements Business from Higher One.
- our ability to successfully implement our growth strategy, control expenses and maintain liquidity; and
- Customers Bank's ability to pay dividends to Customers Bancorp.

You are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof, or, in the case of other documents referred to herein, the dates of those documents. We do not undertake any obligation to release publicly or otherwise provide any revisions to these forward-looking statements to reflect events or circumstances occurring after the date hereof or to reflect the occurrence of unanticipated events, except as may be required under applicable law.

Banking Industry Trends.....

How Do We Deal with These Issues

External Forces

- Role of traditional bank branches changing very rapidly
- Mobile banking fastest growing channel
- Banks of all sizes revisiting their business strategies, revenue generation models and cost structures
- Technology and customer needs, desires and style changing rapidly
- Students, underbanked and middle class paying lion's share of fees to banks

Business Issues

- Slow economic growth. Some credit quality concerns emerging
- Fewer good quality consumer and business loan opportunities for non niche players
- Pressure continues on margin. Days of 3.5%-4.0% margin are gone. Banks need to reduce efficiency ratios
- Difficult to attract good talent
- Must be excellent at risk management and compliance
- Shareholders want 10%+ ROE, consistent quality growth and strong risk management infrastructure

Issues facing Us

What is our unique strategy for revenue and profitable growth?

How do we attract and retain best talent?

How do we take advantage of technology?

How do we deal with growing compliance burden?

How do we manage our risks better than peers?

How do we lower our efficiency ratios?

Impediments to Growth

- Traditional CRE lending very difficult to do and under regulatory scrutiny
- Very little consumer loan growth; headwinds for consumer credit quality
- Growth exists only at niche players
- Mortgage banking revenues are extremely volatile
- Pressure to reduce or eliminate Overdraft and other nuisance fees by CFPB
- Regulators principally focus on strength of risk management and compliance and less on profitable growth

Shareholder Expectations

- Start bank and sell at 2 to 3x book no longer an option – what do shareholders of small privately held banks do?
- Equity markets not available to small banks
- Banks need to earn 10% or more ROE if they want to remain independent
- Consistent ROE of 12% or greater and ROA of 1% or greater being rewarded well by market

Credit Improving – Though Banks Face a Number of Operational Headwinds

- **Credit Quality Improved over past 5 years; some pressure emerging**
- **Quality Asset Generation Remains A Challenge**
 - › Banks are starved for interest-earning assets and exploring new asset classes, competing on price and structure and looking into specialty finance business / lending
- **NIM Compression ⁽¹⁾**
 - › Low rate environment for the foreseeable future will continue to compress NIM
 - › Many institutions wither betting on rates or otherwise taking excessive interest rate risk
 - › Industry NIM continues to decline
 - › Down over 100 bps since 1995
 - › Low interest rate environment, competitive pressures likely to prevent return to historical levels
- **Operational leverage**
 - › Expense management is top of mind as banks try to improve efficiency in light of revenue pressure and increased regulatory / compliance costs
 - › Regulatory pressure expected to stay robust
- **New Strategies**
 - › Yesterday's strategies may not be appropriate tomorrow

Deposit, Lending and Efficiency Strategies Result in Disciplined & Profitable Growth

- Strategy execution has produced superior growth in revenues and earnings

- (1) Core income is net income before extraordinary items less/plus securities gains and losses, less a 2015 BOLI death benefit of approximately \$2.4 million after tax, and excludes the 2015 \$9.0 million (\$5.8 million after tax) specific reserve for a fraudulent loan.
- (2) CAGR calculated from December 2011 to June 2016 (annualized).
- (3) Added fee income and expense in June related to acquiring the Disbursements Business from Higher One.

- Must focus on both “Relationship” or “High Touch” banking combined with “Highly Efficient” or “High Tech”. Strategy should be unique as to not be copied easily
- Attract and retain best high quality talent. Business Bankers / Relationship Bankers with approximately 15 years+ experience who bring a book of business with them
- Compensate leaders based upon risk and profitability with both cash and equity
- Never deviate from following critical success factors
 - Only focus on very strong credit quality niches
 - Have very strong risk management culture
 - Have significantly lower efficiency ratio than peers to deliver sustainable strong profitability and growth with lower margin and lower risk profile
 - Always attract and retain top quality talent
 - Culture of innovation and continuous improvement

- Banks each year charge about \$32 billion in overdraft fees – that's allowing or creating over 1 billion overdrafts each year....Why??
- Payday lenders charge consumers another \$7 billion in fees
- That's more than 3x what America spends on Breast Cancer and Lung Cancer combined and almost the amount Americans spend on vegetables
- This is about 50% of all America spends on Food Stamps
- Some of banking industries most profitable consumer customers hate banks
- Another estimated 25% consumers are unbanked or under banked

This should not be happening in America

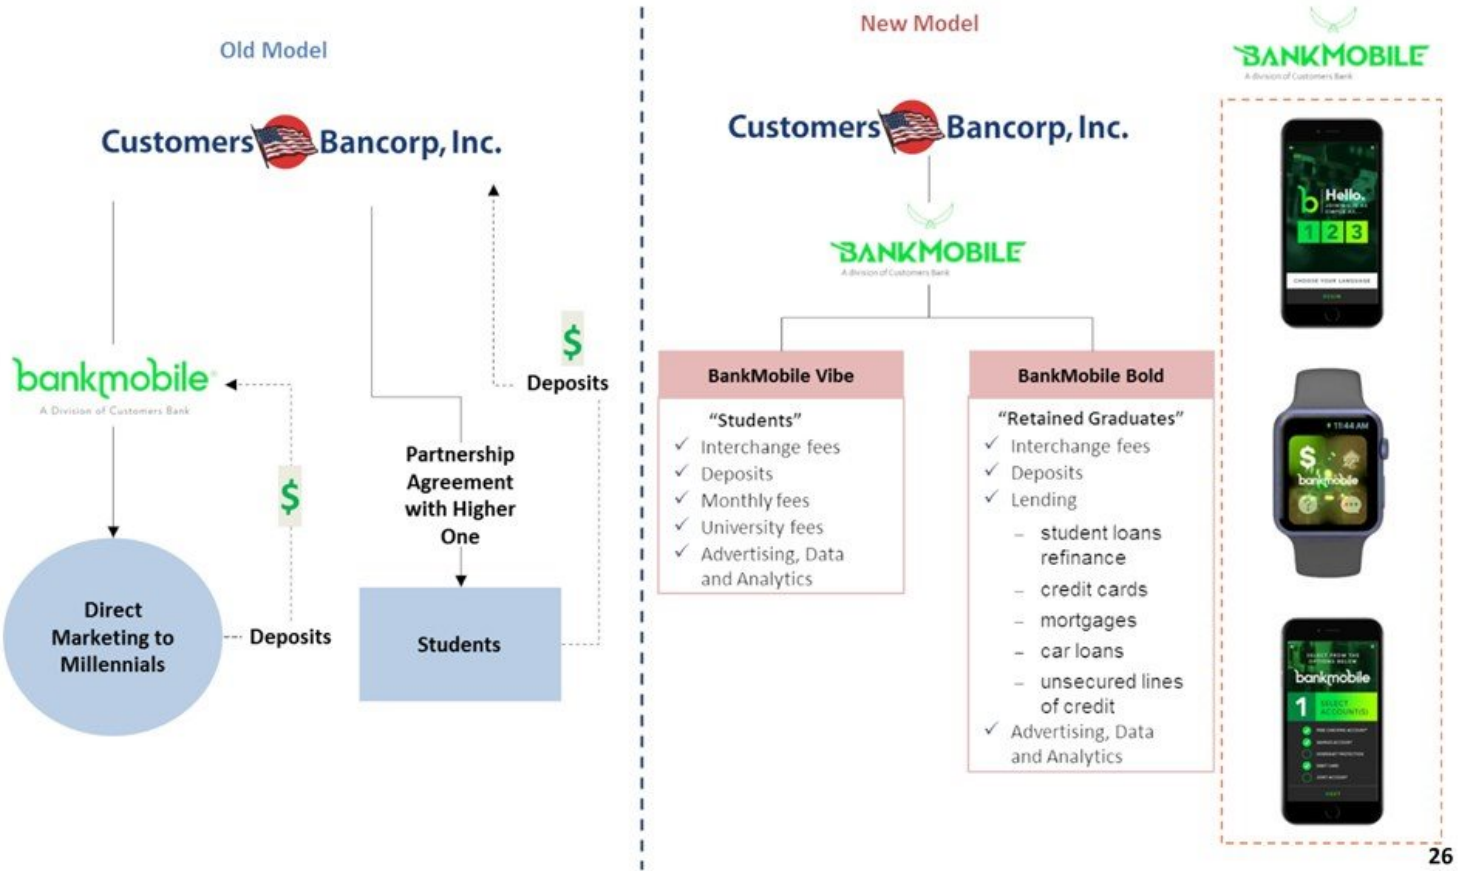

We hope to start, in a small way, a new revolution to profitably address this problem

- No fee or very low fee banking, 25 bps higher interest savings, line of credit, 55,000 ATM's, Personal Banker and more, all in the palm of your hand
- Marketing Strategy
 - Target technology dependent younger consumers; including underserved / underbanked and middle income Americans
 - Capitalize on retaining at least 75% of our ~ two million student customers as lifetime customers
 - Reach middle income markets also through Affinity Banking Groups
 - Revenue generation from debit card interchange and margin from low cost core deposits
 - Durbin Amendment a unique opportunity for Bank Mobile
- Expected to achieve profitability within 12 months and above average, franchise value, ROA and ROE within 5 years

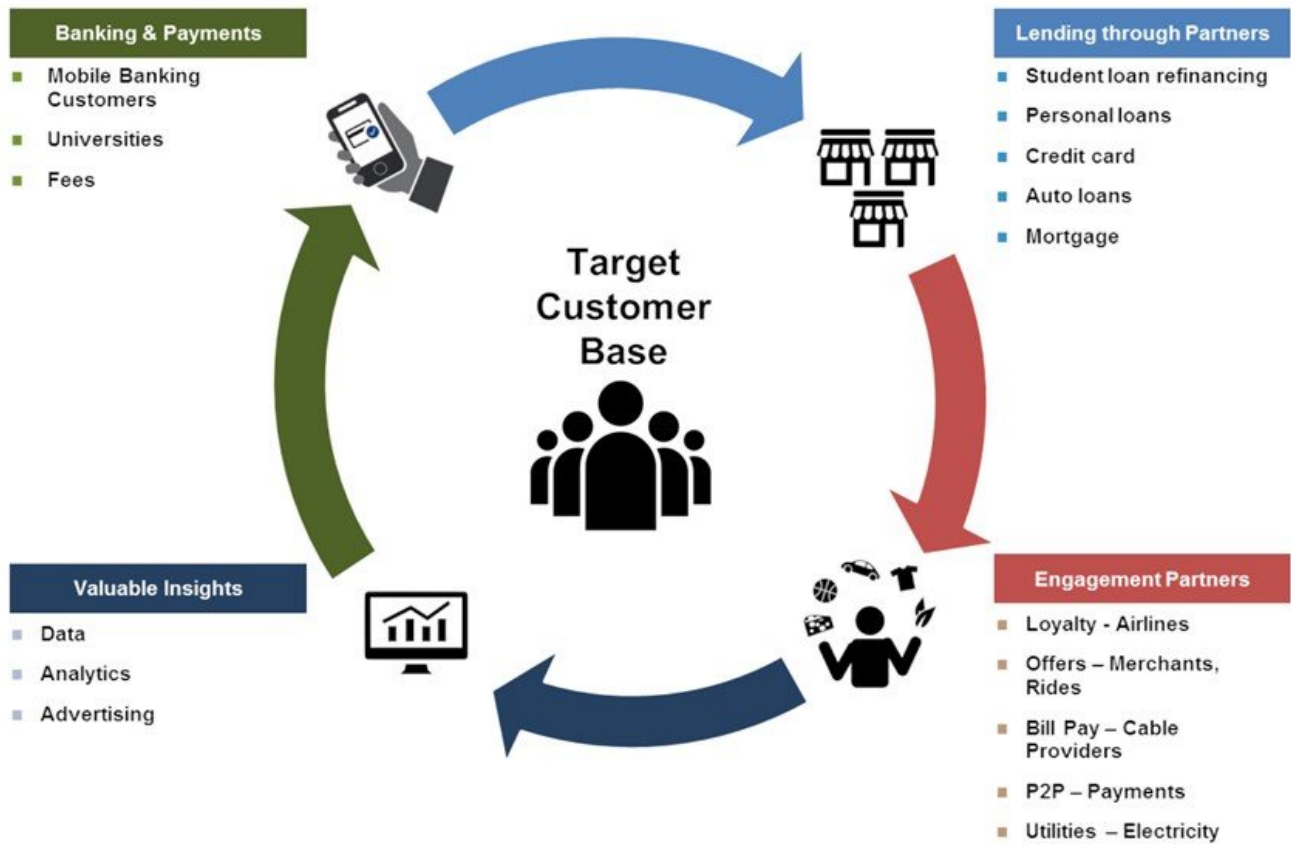

CUBI Acquired Student Checking Customers & Refund Disbursement Business from Higher One

- **Strategically compelling acquisition for CUBI and transformational transaction for **BANKMOBILE**, making it one of the top digital banks in the US**
 - Business to be combined with **BANKMOBILE** platform marking inflection point in its development
 - Assume servicing of ~2mm new student checking customers holding over \$500mm in non-interest bearing deposits
 - Immediately accelerates **BANKMOBILE** evolution from investment phase to shareholder return phase
- **Powerful customer acquisition model drives maximum lifetime customer value**
 - Proven and sustainable business model; 14 year operating history and over \$70bn in payments processed
 - Generates over 500,000 new student checking accounts annually
 - Positions **BANKMOBILE** as the primary banking relationship as students evolve to young professionals and target retail consumer base changes from Gen X to millennials
- **CUBI uniquely positioned to capitalize on low risk transaction**
 - Customers Bank has a deep understanding of the business given existing Higher One relationship coupled with extensive due diligence
 - Deal structured to address past regulatory and reputational risk of legacy practices
 - Extensive dialogue with relevant regulators to preview transaction and go-forward operating model
- **Financially attractive transaction to CUBI shareholders while creating one of the most technologically advanced businesses in banking today**
 - Accretive to core EPS in first full year following close
 - Limited TBVPS dilution with rapid breakeven despite 100% cash transaction
 - Practically all payments to Higher One are tax deductible
 - Highly attractive IRR

Higher One acquisition coupled with existing technology enables BankMobile to convert student customers into lifetime customers

BankMobile is well positioned to be its customers' primary banking relationship throughout their lives

Additional option value for CUBI Shareholders created by *pro forma* **BANKMOBILE** platform

Significant Value for **BANKMOBILE** with Embedded Upside

- ~2 million active deposit customers on day one
- Over 500,000 new accounts per year
- Potential for long-term growth rate of 15% - 20%
- Existing students with automatic recurring growth
- Unique opportunity to capture lifetime value of customers and cross-sell value added products and services
- Pro forma **BANKMOBILE** platform has significant additional growth prospects via partnerships (lending products) and select acquisitions

End Game

- Fee Revenue Expansion can drive P/E Expansion
- Valuation on Payments Processors & FinTech sector for a **BANKMOBILE** business segment
...think multiple of revenues....
- CUBI shareholders participate in **BANKMOBILE** platform contributions:
 - A division of Customers Bank
 - Retain Intellectual Property (IP), rent for fee
- CUBI to explore various strategic options for **BANKMOBILE** to maximize shareholder value
