Customers Bancorp Reports Net Income For Second Quarter 2018

- Customers Bancorp, Inc.'s ("CUBI") second quarter 2018 ("Q2 2018") net income to common shareholders was \$20.0 million, or \$0.62 per diluted share. CUBI's six month net income to common shareholders was \$40.6 million, or \$1.26 per diluted share. Q2 2018 results include \$869,000 of merger and acquisition related charges, or \$0.02 per diluted share
- The Community Business Banking segment net income to common shareholders for Q2 2018 totaled \$23.4 million, or \$0.72 per diluted share, and for the six month period totaled \$44.9 million, or \$1.39 per diluted share. The segment's adjusted net income to common shareholders (a non-GAAP measure) for Q2 2018 totaled \$23.5 million, or \$0.73 per diluted share, and for the six month period totaled \$45.0 million, or \$1.39 per diluted share
- Adjusted for merger and acquisition related charges, securities gains and impairment losses, and depreciation and amortization catch-up adjustments, the adjusted Q2 2018 diluted earnings per share (a non-GAAP measure) increased 10% from second quarter 2017 ("Q2 2017"); however, the Community Business Banking segment adjusted earnings (a non-GAAP measure) were relatively flat year-over-year
- In Q2 2018, the return on average assets ("ROAA") was 0.89% and the ROAA for the Community Business Banking segment was 1.02%
- The BankMobile segment, which is expected to be spun off to shareholders and merged into Flagship Community Bank, reported a net loss for Q2 2018 of \$3.3 million, or \$0.10 per diluted share, and for the six month period lost \$4.3 million, or \$0.13 per diluted share. Included in its results are \$0.02 of merger and acquisition related charges in Q2 2018. Adjusted for merger and acquisition related charges and depreciation and amortization catch-up adjustments, Q2 2018 losses improved to \$(0.08) from \$(0.14) in Q2 2017
- Total assets at June 30, 2018 were \$11.1 billion, compared to \$10.9 billion at June 30, 2017
- Commercial and industrial loans at June 30, 2018 increased \$306 million, or 21.1% , from June 30, 2017
- Net interest margin, tax equivalent ("NIM") (a non-GAAP measure) was 2.62% in Q2 2018 , compared to 2.67% in Q1 2018 and 2.78% in Q2 2017; seasonal reductions in BankMobile's non-interest bearing deposits reduced NIM approximately 4 basis points from first quarter 2018 ("Q1 2018")
- The Q2 2018 provision for loan losses decreased \$1.3 million from Q2 2017 to a benefit of \$0.8 million as a result of the resolution of problem loans, slower asset growth, and outstanding asset quality
- Q2 2018 book value per common share was \$22.70 and tangible book value per common share (a non-GAAP measure) was \$22.15 . Book value per common share has increased at a compound annual growth rate of 10.3% over the past five years

- The BankMobile spin-off and merger are tracking to plan, with divestiture anticipated by or shortly after September 30, 2018
- CUBI common stock, with a July 20, 2018 closing price of \$28.69 was trading at 8.72x the consensus 2019 earnings estimate, and 1.30x tangible book value (a non-GAAP measure).

Wyomissing, PA - July 25, 2018 - Customers Bancorp, Inc. (NYSE: CUBI), the parent company of Customers Bank (collectively "Customers"), reported net income to common shareholders of \$20.0 million for Q2 2018, compared to \$20.1 million for Q2 2017, a decrease of \$0.1 million, or 0.29%, and \$20.5 million for Q1 2018, a decrease of \$0.5 million, or 2.33%. Fully diluted earnings per common share for Q2 2018 was \$0.62, compared to \$0.64 for Q1 2018 and \$0.62 for Q2 2017.

Customers' Community Business Banking segment reported Q2 2018 net income to common shareholders of \$23.4 million, which was relatively flat over Q2 2017, increased 8.67% from \$21.5 million for Q1 2018. Adjusted for securities gains and impairment losses, the segment's adjusted earnings (a non-GAAP measure) in Q2 2018 of \$23.5 million increased 9.36% from \$21.5 million in Q1 2018.

Customers also reported net income to common shareholders of \$40.6 million for the six months ended June 30, 2018, compared to net income to common shareholders of \$42.2 million for the six months ended June 30, 2017. Fully diluted earnings per common share for the six months ended June 30, 2018 was \$1.26, compared to \$1.29 for the six months ended June 30, 2017. Adjusted for merger and acquisition related charges, securities gains and impairment losses, and depreciation and amortization catch-up adjustments, Customers' six month net income available to common shareholders (a non-GAAP measure) totaled \$41.4 million, a 7.62% increase compared to \$38.5 million for the first six months of 2017.

"Our Community Business Banking segment, the core business of Customers once the BankMobile spin-off has been completed, generated adjusted earnings (a non-GAAP measure) of \$23.5 million, or \$0.73 per share, a 9.1% increase in earnings from Q1 2018 but roughly flat year-over-year. The benefits of Customers' strong credit quality and disciplined underwriting were particularly evident this quarter as our reserve methodology resulted in a release of reserves, even as we maintained an allowance for loan losses equal to 149% of our nonperforming loans," stated Jay Sidhu, CEO and Chairman of Customers Bank. "Subject to final regulatory approvals, we anticipate spinning off BankMobile by or shortly after September 30, 2018," Mr. Sidhu concluded.

Strategic Priorities

Grow and Improve Financial Performance of the Community Business Banking Segment; Target in Excess of 1.1% ROAA

Priorities for the Community Business Banking segment in 2018 include strong risk management, core deposit growth, and a focus on net interest margin. Customers targets an ROAA in excess of 1.10% and a return on tangible common equity ("ROTCE") (a non-GAAP measure) greater than 12% for this segment. Longer term, the Community Business Banking segment is targeting a net interest margin greater than 2.75%, a compound annual growth rate of 10% to 15% in EPS, and an efficiency ratio in the low forties.

In Q2 2018, the Community Business Banking segment reported net income of \$23.4 million (\$0.72 per diluted share), which included the funds transfer pricing cost paid by the segment for use of BankMobile's deposits at a rate of 3.03% of those deposits. For Q2 2018, the segment reported an ROAA of 1.02% and an ROTCE of 13.7%.

Credit quality at Customers Bank is very strong, as measured by the low level of nonperforming loans (0.29% of total loans at June 30, 2018); however, Customers' below average credit risk appetite is also reflected in

below industry average asset yields and a more narrow net interest margin. This narrower NIM is mitigated with a significantly better than peer-average non-interest expense to asset ratio. Customers continues to combat the pressures of a flat yield curve and rising rates by focusing on favorable balance sheet mix shifts. Customers recently announced its entry into non-QM residential mortgage lending. Simultaneously, Customers has been deemphasizing its multi-family business. Beginning in late 2017, Customers began to significantly limit originations of loans yielding less than 5%. Customers' deposit strategy is to look at the total cost of deposits as the sum of operating and interest costs. Customers' branch light model, with a focus on cost control, is reflected in dramatically lower operating expenses than the industry - operating expenses in the Community Business Banking segment were equal to 1.42% of average assets in Q2 2018, which Customers believes is over 125 basis points lower than the industry overall. Core deposit growth is a strategic priority for Customers. Early in July, Customers launched a new digital, on-line banking business with a goal of gathering retail deposits without branches at an average cost that is below its current marginal cost of borrowing.

Increase Capital Ratios

Total shareholders' equity at June 30, 2018 increased \$25.9 million, or 2.85%, from June 30, 2017 to \$936.2 million. The estimated total risk-based capital ratio was approximately 12.7% for Q2 2018, compared to 12.4% for Q2 2017. The estimated common equity Tier 1 capital ratio was approximately 8.7% for Q2 2018, compared to 8.3% for Q2 2017. The estimated Tier 1 leverage capital ratio was approximately 8.9% for Q2 2018, compared to 8.7% for Q2 2017. The tangible common equity to tangible assets ratio (a non-GAAP measure) was 6.3% at June 30, 2018, compared to 6.2% at June 30, 2017.

"We continue to target a Tier I leverage capital ratio of 9.0% or higher and a total risk-based capital ratio of around 13.0%," Mr. Sidhu stated. "We expect our capital ratios to increase in the later part of 2018 as balance sheet growth moderates further, given seasonal declines in the mortgage warehouse business and our de-emphasis of multi-family lending" concluded Mr. Sidhu.

Grow and Successfully Divest the BankMobile Segment in 2018

BankMobile, a division of Customers Bank, operates a branchless digital bank offering very low cost banking services to its 1.8 million checking account holders, of which 1.0 million are active deposit customers. Deposit balances were approximately \$420 million at June 30, 2018. The BankMobile segment reported a net loss of \$3.3 million for Q2 2018, including \$869,000, or \$0.02 per diluted share, in merger and acquisition related charges. These charges include professional services expenses incurred in connection with the planned spin-off of the BankMobile business as well as expenses resulting from the 2016 acquisition of the Disbursements business. Results include the funds transfer pricing benefit for the originated deposits at a rate of 3.03%. Deposits generated by the BankMobile business averaged \$468 million for Q2 2018.

During the third quarter of 2017, Customers decided that the best strategy for its shareholders for divesting BankMobile was to spin-off BankMobile to Customers' shareholders subject to an agreement with Flagship Community Bank ("Flagship") for Flagship to acquire the BankMobile business. Flagship has filed its confidential Form 10 registration statement with the FDIC to register its class of common stock in connection with its expected listing on a national securities exchange, and the BankMobile spin-off subsidiary has filed its confidential Form 10 registration statement with the SEC to facilitate the spin-off and merger into Flagship. Public versions of the filings will be made closer to the spin-off date. Once approvals of the transactions and filings are received from the appropriate regulators, Customers will announce the record date for the distribution of the BankMobile spin-off subsidiary shares to Customers' shareholders. Following the spin-off of the BankMobile spin-off subsidiary from Customers and merger with Flagship, Customers and Flagship/BankMobile will be entirely separate entities. Customers will retain no ownership in the BankMobile business, there will be no common employees, facilities, or functions beyond certain temporary support services to BankMobile for an estimated six months according to the terms of a transition services

agreement and one common director. Subject to regulatory approvals, the BankMobile spin-off and merger are anticipated by or shortly after September 30, 2018.

(1) Non-GAAP measure calculated as GAAP net interest income, plus tax equivalent interest using an estimated 26% tax rate for Q2 2018 and Q1 2018, and an estimated 35% tax rate for Q4 2017, Q3 2017, and Q2 2017, divided by average interest earning assets.

(2) Regulatory capital ratios are estimated for Q2 2018.

(3) Non-GAAP measure calculated as GAAP total shareholders' equity less preferred stock and goodwill and other intangibles divided by total assets less goodwill and other intangibles.

(4) Non-GAAP measure calculated as GAAP total shareholders' equity less preferred stock and goodwill and other intangibles divided by common shares outstanding at period end.

Net interest income

Q2 2018 net interest income of \$67.3 million decreased \$1.3 million , or 1.87% , from Q2 2017 as the increase in average interest earning assets of \$435.7 million , or 4.40% , was offset by a 16 basis point reduction in net interest margin, tax equivalent (a non-GAAP measure) to 2.62% . Q2 2018 net interest income of \$67.3 million increased \$2.3 million , or 3.5% , from Q1 2018 due to a \$448.3 million , or 4.54% , increase in average interest earning assets, offset in part by a 5 basis point reduction in net interest margin to 2.62% . About 4 basis points of net interest margin compression resulted from the seasonal reduction in BankMobile's low cost deposits.

"The sequential quarter net interest margin compression was principally caused by rising funding costs and the seasonal reduction in BankMobile's non-interest bearing deposits," said Robert Wahlman, Customers Bancorp's CFO. "Customers' interest rate sensitivity objective is to limit sensitivity and the impact of a flat curve and rising rates over time. Our challenge for the second half of 2018 and into 2019 is balancing deposit growth with deposit costs in a competitive, rising rate, flat yield curve environment. We will continue to focus on originating lower cost, core deposits, disciplined loan pricing and remixing our assets as we work to combat margin pressure," concluded Mr. Wahlman.

Total loans outstanding, including loans held for sale, increased \$133.2 million , or 1.48% , to \$9.1 billion as of June 30, 2018 , compared to total loans of \$9.0 billion as of June 30, 2017 . Commercial and industrial loans increased \$305.8 million to \$1.8 billion , up 21.1% over June 30, 2017 . Commercial loans to mortgage companies decreased \$171.3 million to \$2.0 billion , a decrease of 7.94% over June 30, 2017 . Multi-family loans decreased \$7.6 million to \$3.5 billion , a decrease of 0.21% over June 30, 2017 . Commercial non-owner-occupied real estate loans decreased \$60.0 million to \$1.2 billion , down 4.94% from June 30, 2017 . Consumer loans, including residential mortgage, increased \$36.6 million to \$0.6 billion and make up only about 6% of the loan portfolio.

Total deposits decreased \$179.4 million , or 2.40% , to \$7.3 billion as of June 30, 2018 , compared to total deposits of \$7.5 billion as of June 30, 2017 . The largest decrease was \$370.2 million, or 15.2%, in time deposits, which was partly offset by a \$264.0 million, or 73.5%, increase in interest bearing demand deposits. During Q2 2018, total deposits increased \$253 million, or 14%, annualized, compared to Q1 2018.

Provision and Credit

The Q2 2018 provision for loan losses decreased \$1.3 million from Q2 2017 to a benefit of \$0.8 million . The Q2 2018 release of \$0.8 million in reserves resulted from continued strong asset quality and better than expected resolution of specific problem loans, offset in part by \$0.3 million of provision for loan growth. Net charge-offs for Q2 2018 were \$0.4 million , or 2 basis points of annualized net charge-offs to average loans, compared to Q2 2017 net charge-offs of \$2.0 million . There were no significant changes in Customers' methodology that affected the Q2 2018 allowance for loan losses estimate.

Risk management is a critical component of how Customers creates long-term shareholder value, and Customers believes that asset quality is one of the most important risks in banking to be understood and managed. Customers believes that asset quality risks must be diligently addressed during good economic times with prudent underwriting standards so that when the economy deteriorates the bank's capital is sufficient to absorb all losses without threatening its ability to operate and serve its community and other constituents. "Customers' non-performing loans at June 30, 2018 were only 0.29% of total loans, compared to our peer group non-performing loans of approximately 0.82% in the most recent period available, and industry average non-performing loans of 1.26% in the most recent period available. Our expectation is superior asset quality performance in good times and in difficult years," said Mr. Sidhu.

Non-interest income

In Q2 2018 , non-interest income decreased \$2.3 million , or 12.31% , from Q2 2017 to \$16.1 million . The decline from the year ago period was largely a result of decreases in BankMobile's interchange and card revenue of \$2.3 million , mortgage warehouse transactional fees of \$0.6 million and deposit fees of \$0.5 million . Interchange and card revenue of \$6.4 million for Q2 2018 is presented net of \$1.2 million of debit and prepaid card interchange expense as a result of adopting the new revenue recognition standard in Q1 2018 on a modified retrospective basis. If Q2 2017 was presented on a consistent basis with Q2 2018, the reported amount of interchange and card revenue of \$8.6 million would have been \$7.4 million. In Q2 2017, debit and prepaid card interchange expense of \$1.3 million was presented as technology, communication and bank operations expense within non-interest expense. BankMobile continues to focus on implementing its "Customers for Life" model and decrease its reliance on Disbursement related deposits. In Q2 2017, Customers also realized \$3.2 million of gains from the sale of its investment securities. These decreases in non-interest income in Q2 2018 were offset in part by the increase in income from commercial leases of \$1.1 million during Q2 2018.

Non-interest expense

Non-interest expenses totaled \$53.8 million , an increase of \$3.3 million from Q2 2017 , or 6.62% . Salaries and employee benefits increased \$4.1 million as Customers continues to hire new team members in the markets it serves. Technology, communication, and bank operations expense increased \$2.4 million , given the continued investment in the BankMobile segment infrastructure and Customers' recent system conversion. Technology, communication, and bank operations expense of \$11.3 million for Q2 2018 excludes debit and prepaid card interchange expense of \$1.2 million, which was reported as a reduction in interchange and card revenue within non-interest income upon adoption of the new revenue recognition standard in Q1 2018. If Q2 2017 was presented on a consistent basis with Q2 2018, the reported amount of technology, communication and bank operations expense of \$8.9 million would have been \$7.6 million. These increases were partially offset by decreases in professional services of \$2.4 million , which can vary from quarter to quarter. The Community Business Banking segment's non-interest expenses, which exclude the effect of BankMobile, increased by \$7.2 million in Q2 2018 when compared to Q2 2017 primarily as a result of increased salaries and employee benefits of \$5.1 million mainly due to salary increases and increased headcount. The BankMobile segment's costs declined by \$3.8 million to \$16.0 million in Q2 2018 from Q2 2017 as compensation costs and costs for outside services declined. The Q2 2018 efficiency ratio was 64.4% and the Q2 2018 efficiency ratio for the Community Business Banking segment was 52.8% .

Tax

The provision for income tax expense for Q2 2018 was \$6.8 million , resulting in an effective tax rate of 22.4% , compared to 23.5% in Q1 2018 . Customers currently estimates a 2018 effective tax rate of approximately 24.0% .

Profitability

Customers' return on average assets was 0.89% in Q2 2018 , compared to 0.93% in Q2 2017 , and its return on average common equity was 11.3% in Q2 2018 , compared to 11.8% in Q2 2017 . The return on average assets for the Community Business Banking segment was 1.02% , compared to 1.07% in Q2 2017 .

Managing Commercial Real Estate Concentration Risks and Providing High Net Worth Families Loans for Their Multi-Family Holdings

Customers' total commercial real estate ("CRE") loan exposures subject to regulatory concentration guidelines of \$4.7 billion as of June 30, 2018 included construction loans of \$99.6 million , multi-family loans of \$3.5 billion , and non-owner occupied commercial real estate loans of \$1.1 billion , which represent 392% of total risk-based capital on a combined basis, a reduction from 421% as of June 30, 2017. Customers' loans subject to regulatory CRE concentration guidelines had 3 year cumulative growth of 46.3% in Q2 2018 , a deceleration from 86.6% in Q2 2017. "In a flat curve environment, we will continue to deemphasize lower yielding multi-family loans and certain CRE loans," stated Mr. Sidhu.

Customers' loans collateralized by multi-family properties were approximately 294% of total risk-based capital at June 30, 2018 . Customers' multi-family exposures are focused principally on loans to high net worth families collateralized by multi-family properties that are of modest size and subject to what Customers believes are conservative underwriting standards. Customers believes it has a strong risk management process to manage the portfolio risks prospectively and that this portfolio will perform well even under a stressed scenario. Following are some key characteristics of Customers' multi-family loan portfolio:

- Principally concentrated in New York City with an emphasis on properties subject to some type of rent control; and principally to high net worth families;
- Average loan size is \$6.7 million ;
- Median annual debt service coverage ratio is 136% ;
- Median loan-to-value for the portfolio is 66.9% ;
- All loans are individually stressed with an increase of 1% and 2% to the cap rate and an increase of 1.5% and 3% in loan interest rates;
- All properties are inspected prior to a loan being granted and inspected thereafter on an annual basis by dedicated portfolio managers or outside inspectors; and
- Credit approval process is independent of customer sales and portfolio management process.

“Safe Harbor” Statement

In addition to historical information, this press release may contain "forward-looking statements" within the meaning of the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995. These forward-looking statements include statements with respect to Customers Bancorp, Inc.'s strategies, goals, beliefs, expectations, estimates, intentions, capital raising efforts, financial condition and results of operations, future performance and business. Statements preceded by, followed by, or that include the words "may," "could," "should," "pro forma," "looking forward," "would," "believe," "expect," "anticipate," "estimate," "intend," "plan," or similar expressions generally indicate a forward-looking statement. These forward-looking statements involve risks and uncertainties that are subject to change based on various important factors (some of which, in whole or in part, are beyond Customers Bancorp, Inc.'s control). Numerous competitive, economic, regulatory, legal and technological factors, among others, could cause Customers Bancorp, Inc.'s financial performance to differ materially from the goals, plans, objectives, intentions and expectations expressed in such forward-looking statements. In addition, important factors relating to the acquisition of the Disbursements business, the combination of Customers' BankMobile business with the acquired Disbursements business, the implementation of Customers Bancorp, Inc.'s strategy regarding BankMobile, the possibility of events, changes or other circumstances occurring or existing that could result in the planned spin-off and merger of BankMobile not being completed in the anticipated time frame or at all, the possibility that the planned spin-off and merger of BankMobile may be more expensive to complete than anticipated, the possibility that the expected benefits of the planned transactions to Customers and its shareholders may not be achieved, the possibility of Customers incurring liabilities relating to the disposition of BankMobile, or the possible effects on Customers' results of operations if the planned spin-off and merger of BankMobile are not completed in a timely fashion or at all also could cause Customers Bancorp's actual results to differ from those in the forward-looking statements. Further, Customers' expectations with respect to the effects of the new tax law could be affected by future clarifications, amendments, and interpretations of such law. Customers Bancorp, Inc. cautions that the foregoing factors are not exclusive, and neither such factors nor any such forward-looking statement takes into account the impact of any future events. All forward-looking statements and information set forth herein are based on management's current beliefs and assumptions as of the date hereof and speak only as of the date they are made. For a more complete discussion of the assumptions, risks and uncertainties related to our business, you are encouraged to review Customers Bancorp, Inc.'s filings with the Securities and Exchange Commission, including its most recent annual report on Form 10-K for the year ended December 31, 2017, subsequently filed quarterly reports on Form 10-Q and current reports on Form 8-K that update or provide information in addition to the information included in the Form 10-K and Form 10-Q filings, if any. Customers Bancorp, Inc. does not undertake to update any forward-looking statement whether written or oral, that may be made from time to time by Customers Bancorp, Inc. or by or on behalf of Customers Bank.

RECONCILIATION OF GAAP TO NON-GAAP MEASURES - UNAUDITED

(Dollars in thousands, except per share data)

Customers believes that the non-GAAP measurements disclosed within this document are useful for investors, regulators, management and others to evaluate our results of operations and financial condition relative to other financial institutions. These non-GAAP financial measures exclude from corresponding GAAP measures the impact of certain elements that we do not believe are representative of our financial results, which we believe enhance an overall understanding of our performance. Investors should consider our performance and financial condition as reported under GAAP and all other relevant information when assessing our performance or financial condition. Although non-GAAP financial measures are frequently used in the evaluation of a company, they have limitations as analytical tools and should not be considered in isolation or as a substitute for analysis of our results of operations or financial condition as reported under GAAP.

The following tables present reconciliations of GAAP to Non-GAAP measures used to report business segment performance.

RECONCILIATION OF GAAP TO NON-GAAP MEASURES - UNAUDITED

(Dollars in thousands)

Customers believes that the non-GAAP measurements disclosed within this document are useful for investors, regulators, management and others to evaluate our results of operations and financial condition relative to other financial institutions. These non-GAAP financial measures exclude from corresponding GAAP measures the impact of certain elements that we do not believe are representative of our financial results, which we believe enhance an overall understanding of our performance. Investors should consider our performance and financial condition as reported under GAAP and all other relevant information when assessing our performance or financial condition. Although non-GAAP financial measures are frequently used in the evaluation of a company, they have limitations as analytical tools and should not be considered in isolation or as a substitute for analysis of our results of operations or financial condition as reported under GAAP.

The following tables present reconciliations of GAAP to Non-GAAP measures disclosed within this document.

Q2 2018 Highlights

- 21% YOY growth in C&I lending (excluding loans to mortgage companies)
- Community business banking segment ROAA of 1.02%
- Pristine credit quality –release of reserves reflected continued strong asset quality and better than expected resolution of specific problem loans

Updated Community Business Banking Segment Outlook

- Expect 2018 segment EPS of \$2.65 to \$2.75
- 10% to 12% growth in total assets
 - Growth largely from C&I lending, with some reduction in Multifamily portfolio given current yield curve
 - Expect over \$600 million in core deposit growth
- Full year FTE net interest margin will likely be between 2.55% and 2.70%
- Efficiency ratio in the low 50%s
- Effective tax rate of approximately 24%

Updated BankMobile Outlook

- Subject to final regulatory approvals, divestiture of BankMobile is expected to be completed by September 30 or soon thereafter
- BankMobile will likely generate a loss of no more than \$4 million in Q3 2018

Q2 2018 Consolidated Results

Q2 2018 Net Income to Common Shareholders of \$20.0 million, and Diluted Earnings Per Common Share of \$0.62.

- 10% year-over-year growth in adjusted earnings per share¹
- \$0.72 of diluted EPS from the Community Business Banking segment
- \$0.10 of diluted loss from the BankMobile segment, which assumes a 3.03% earnings rate on BankMobile's low cost deposits

Q2 2018 NIM: -5 bps sequentially; -16 bps from Q2 2017

FTE NIM⁽¹⁾ narrowed 5 bps sequentially to 2.62%

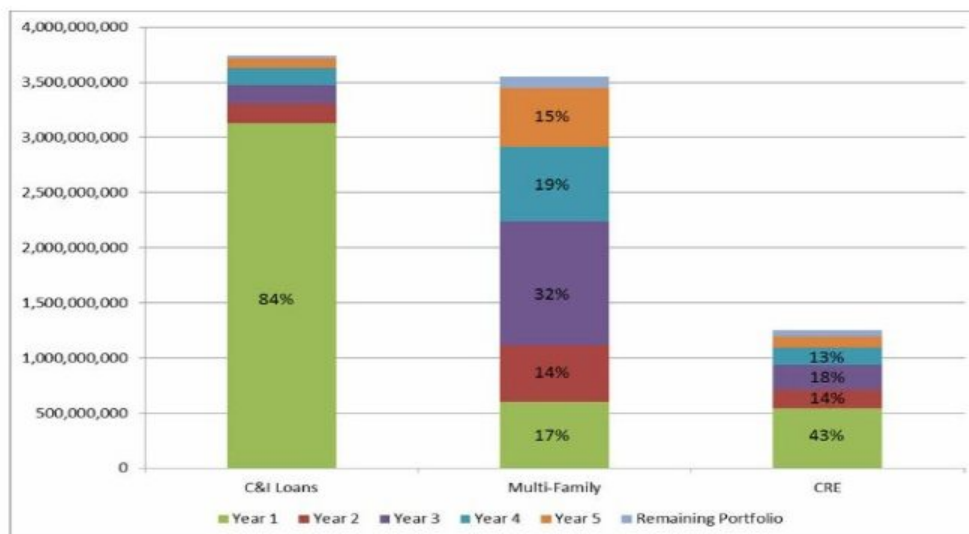

- ~ 4 bps headwind from seasonal decrease in BankMobile noninterest bearing DDA balances
- Loan yields increased 25 bps between Q1 and Q2, and 27 bps from December 31, 2017
- Margin is expected to be between 2.60% and 2.75% over a 1 to 2 year period

Steps to mitigate core margin pressure

- Significantly limiting originations of loans with yields below 5%
- Stopped making traditional multifamily loans until the yield curve normalizes
- Executed approximately \$1 billion in notional value of interest rate swaps this year (half are forward starting in 1Q19)
- Implemented product and channel strategies (including digital channel for Customers Bank) to grow core deposits in the short and long term
- Implemented compensation plans to incentivize core deposit growth; expect \$600 M in core deposit growth at the community business banking segment by year-end
- Seeking opportunities to originate higher yielding loans without taking excessive credit risk

(1) The fully taxable equivalent net interest margin (FTE NIM) is a non-GAAP measure, refer to reconciliation at the end of this document

Loan Repricing by Segment, at June 30, 2018

- 84% of our C&I loans (including loans to mortgage companies), 43% of our CRE loans, and 17% of our Multifamily loans reprice within 1 year
- The average yield on new C&I loans in Q2 2018 was 5.17%, vs. a portfolio yield of 4.75%
- C&I loans (including those to mortgage companies) make up 41% of our total loans

*Repricing includes the following: contractual loan repricing and maturities, contractual principal payments, and assumed loan prepayments

Q2 2018 Loans

Q2 2018 Total Loans Up 1.5% YOY to \$9.1 Billion; C&I Loans Make up 41% of Total

- The yield on loans increased 25 bps sequentially and 37 bps from Q2 2017
- 21% YOY growth in C&I (excluding commercial loans to mortgage companies)
- Multifamily balances were flat YOY and down 3% QOQ

Outstanding Loan Quality Portfolio

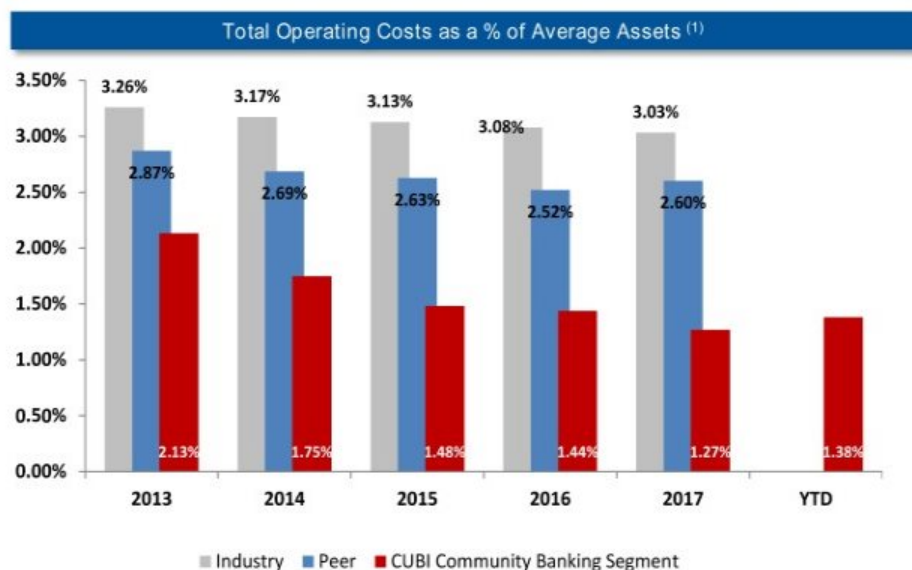

Credit metrics remain better than peers

Note: Customers 2015 charge-offs includes 12 bps for a \$9 million fraudulent loan

- Grow and Successfully Divest BankMobile in 2018
 - Announced during Q4, 2017 plans to spin-off BankMobile to shareholders and then merge BankMobile into Flagship Community Bank
 - Flagship has filed 1) an application with the FDIC for its acquisition of BankMobile's deposits and 2) a confidential Form 10 with the FDIC to register common stock to be issued as a security
 - Bmobile Technologies, Inc. has filed a confidential Form 10 with the SEC to register common shares to be issued as a dividend by CUBI in the divestiture transaction
 - Comments received from SEC & FDIC
 - Expect transaction to be completed by or shortly after September 30, 2018
- Build Capital Ratios
 - We have tempered our balance sheet growth further to 10% to 12%, due to flat curve
 - Capital ratios should increase late in the year as mortgage warehouse balances decline seasonally and retained earnings add to capital
- Improve Financial Performance
 - We are actively taking actions to defend our net interest margin and manage costs to drive ROAA higher
 - New long-term incentive plan discussed in this year's proxy incentivizes core deposit funding

This presentation, as well as other written or oral communications made from time to time by us, contains forward-looking information within the meaning of the safe harbor provisions of the U.S. Private Securities Litigation Reform Act of 1995. These statements relate to future events or future predictions, including events or predictions relating to future financial performance, and are generally identifiable by the use of forward-looking terminology such as “believe,” “expect,” “may,” “will,” “should,” “plan,” “intend,” or “anticipate” or the negative thereof or comparable terminology. Forward-looking statements in this presentation include, among other matters, guidance for our financial performance, and our financial performance targets. Forward-looking statements reflect numerous assumptions, estimates and forecasts as to future events. No assurance can be given that the assumptions, estimates and forecasts underlying such forward-looking statements will accurately reflect future conditions, or that any guidance, goals, targets or projected results will be realized. The assumptions, estimates and forecasts underlying such forward-looking statements involve judgments with respect to, among other things, future economic, competitive, regulatory and financial market conditions and future business decisions, which may not be realized and which are inherently subject to significant business, economic, competitive and regulatory uncertainties and known and unknown risks, including the risks described under “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2017 and subsequent Quarterly Reports on Form 10-Q, as such factors may be updated from time to time in our filings with the SEC. Our actual results may differ materially from those reflected in the forward-looking statements.

In addition to the risks described under “Risk Factors” in our filings with the SEC, important factors to consider and evaluate with respect to our forward-looking statements include:

- changes in external competitive market factors that might impact our results of operations;
- changes in laws and regulations, including without limitation changes in capital requirements under Basel III;
- changes in our business strategy or an inability to execute our strategy due to the occurrence of unanticipated events;
- our ability to identify potential candidates for, and consummate, acquisition or investment transactions;
- the timing of acquisition, investment or disposition transactions;
- constraints on our ability to consummate an attractive acquisition or investment transaction because of significant competition for these opportunities;
- local, regional and national economic conditions and events and the impact they may have on us and our customers;
- costs and effects of regulatory and legal developments, including the results of regulatory examinations and the outcome of regulatory or other governmental inquiries and proceedings, such as fines or restrictions on our business activities;
- our ability to attract deposits and other sources of liquidity;
- changes in the financial performance and/or condition of our borrowers;
- changes in the level of non-performing and classified assets and charge-offs;
- changes in estimates of future loan loss reserve requirements based upon the periodic review thereof under relevant regulatory and accounting requirements;
- inflation, interest rate, securities market and monetary fluctuations;

- timely development and acceptance of new banking products and services and perceived overall value of these products and services by users, including the products and services being developed and introduced to the market by the BankMobile division of Customers Bank;
- changes in consumer spending, borrowing and saving habits;
- technological changes;
- our ability to increase market share and control expenses;
- continued volatility in the credit and equity markets and its effect on the general economy;
- effects of changes in accounting policies and practices, as may be adopted by the regulatory agencies, as well as the Public Company Accounting Oversight Board, the Financial Accounting Standards Board and other accounting standard setters;
- the businesses of Customers Bank and any acquisition targets or merger partners and subsidiaries not integrating successfully or such integration being more difficult, time-consuming or costly than expected;
- material differences in the actual financial results of merger and acquisition activities compared with our expectations, such as with respect to the full realization of anticipated cost savings and revenue enhancements within the expected time frame;
- our ability to successfully implement our growth strategy, control expenses and maintain liquidity;
- Customers Bank's ability to pay dividends to Customers Bancorp;
- risks related to our proposed spin-off of BankMobile and merger of BankMobile into Flagship Community Bank, including:
 - our ability to successfully complete the transactions and the timing of completion;
 - the ability of Customers and Flagship Community Bank to meet all of the conditions to completion of the proposed transactions;
 - The ability of Customers to maintain the planned tax-free of the transaction while also complying with federal and state bank laws, regulations and requirements;
 - the impact of an announcement of the proposed spin-off and merger on the value of our securities, our business and our relationship with employees and customers;
- risks relating to BankMobile, including:
 - material variances in the adoption rate of BankMobile's services by new students
 - the usage rate of BankMobile's services by current student customers compared to our expectations;

- the levels of usage of other BankMobile student customers following graduation of additional product and service offerings of BankMobile or Customers Bank, including mortgages and consumer loans, and the mix of products and services used;
- our ability to implement changes to BankMobile's product and service offerings under current and future regulations and governmental policies;
- our ability to effectively manage revenue and expense fluctuations that may occur with respect to BankMobile's student-oriented business activities, which result from seasonal factors related to the higher-education academic year;
- our ability to implement our strategy regarding BankMobile, including with respect to our intent to spin-off and merge or otherwise dispose of the BankMobile business in the future, depending upon market conditions and opportunities; and
- BankMobile's ability to successfully implement its growth strategy and control expenses.

You are cautioned not to place undue reliance on any forward-looking statements we make, which speak only as of the date they are made. We do not undertake any obligation to release publicly or otherwise provide any revisions to any forward-looking statements we may make, including any forward-looking financial information, to reflect events or circumstances occurring after the date hereof or to reflect the occurrence of unanticipated events, except as may be required under applicable law.

This presentation shall not constitute an offer to sell or the solicitation of an offer to sell or the solicitation of an offer to buy any securities, nor shall there be any sale of securities in any jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such jurisdiction.

Reconciliation of Non-GAAP Measures - Unaudited

Customers believes that the non-GAAP measurements disclosed within this document are useful for investors, regulators, management and others to evaluate our results of operations and financial condition relative to other financial institutions. These non-GAAP financial measures exclude from corresponding GAAP measures the impact of certain elements that we do not believe are representative of our financial results, which we believe enhance an overall understanding of our performance. Investors should consider our performance and financial condition as reported under GAAP and all other relevant information when assessing our performance or financial condition. Although non-GAAP financial measures are frequently used in the evaluation of a company, they have limitations as analytical tools and should not be considered in isolation or as a substitute for analysis of our results of operations or financial condition as reported under GAAP.

The following tables present reconciliations of GAAP to Non-GAAP measures disclosed within this document.
