Overview

GoPro, Inc.

Overview

GoPro helps the world capture and share itself in immersive and exciting ways. Our cameras, mountable and wearable accessories, subscription and service, and implied post contract support have generated substantially all of our revenue. We sell our products globally through retailers, distributors, and on GoPro.com.

Our product offerings include cameras, mounts and accessories, lifestyle gear, applications, and subscription and services. In recent years, we have seen increased competition with new product offerings that address either new markets or solutions, which has resulted in market share loss. We believe our strategy of investing in our new next-generation, AI-driven system-on-chip (SoC), GP3, will result in new types and categories of cameras and accessories, and subscription and service offerings that will improve our performance moving forward. See Products for additional information.

Our Strategy

Helping our consumers capture and share their experiences in immersive and exciting ways is at the core of our mission and business. We are committed to developing solutions that create an easy, seamless experience for consumers to capture, create, and share engaging personal content with a focus on enabling capture beyond the phone, targeting markets where GoPro can add value, performance, and differentiation. When consumers use our cameras, accessories, and subscription and services, they often generate and share content that increases awareness for GoPro, driving a virtuous cycle and a self-reinforcing demand for our cameras, accessories, and subscription and services. We believe revenue growth will be driven by the introduction of new types and categories of cameras, accessories, subscription and service offerings, and our AI Training program launched in 2025, which enables U.S. subscribers who opted in to monetize their GoPro cloud-based content for AI model training. Additionally, we believe our investments in hardware, cloud, and mobile software solutions have yielded a solid foundational experience for consumers that we will continue to build upon. Consumers can choose between numerous channels to purchase our hardware products, which are sold through a global network of retailers and GoPro.com. In addition, consumers may purchase our subscriptions through GoPro.com or via the Quik mobile app.

Investing in our securities involves a high degree of risk. Prior to making a decision about investing in our securities, you should carefully consider the risks and uncertainties described below, together with all of the other information set forth in this prospectus or incorporated herein by reference, including the consolidated financial statements and related notes, and the risks and uncertainties discussed under “Risk Factors” in Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2025, as updated by our Quarterly Report on Form 10-Q for the quarter ended March 31, 2026, which are incorporated by reference herein in their entirety. If any of the risks described herein or therein actually occur, our business, financial condition and results of operations could suffer.

Additional risks and uncertainties beyond those set forth in this prospectus or in our reports filed with the Commission and not presently known to us or that we currently deem immaterial may also affect our operations. Any risks and uncertainties, whether set forth in this prospectus or in our reports filed with the Commission or otherwise, could cause our business, financial condition, results of operations and future prospects to be materially and adversely harmed. The trading price of our securities could decline due to any of these risks and uncertainties, and, as a result, you may lose all or part of your investment.

Risks Related to This Offering

There is no public market for the Warrants being offered in this offering.

There is no established public trading market for the Warrants, and we do not expect a market to develop. In addition, we do not intend to apply to list the Warrants on any securities exchange or nationally recognized trading system. Without an active market, the liquidity of the Warrants will be limited.

A holder of the Warrants purchased in this offering will have no rights as a holder of Common Stock until such holder exercises such Warrants and acquires our Common Stock.

Until a holder of the Warrants acquires shares of our Common Stock upon exercise of such Warrants, the holder will have no rights with respect to our Common Stock underlying such Warrants. Upon exercise of the Warrants, the holder will be entitled to exercise the rights of a holder of Common Stock only as to matters for which the record date occurs after the exercise date. Notwithstanding the foregoing, the holder of the Warrants may be entitled to dividends or other distributions of the Company’s assets made to the holders of Common Stock in limited circumstances (the “Distribution Rights”).

The Warrants being offered are speculative in nature.

Notwithstanding the Distribution Rights, the Warrants do not confer any rights of Common Stock ownership on its holder, such as voting rights, but rather merely represents the right to acquire shares of Common Stock at a fixed price for a limited period of time. Moreover, following this offering, the market value of the Warrants, if any, will be uncertain and there can be no assurance that the market value of the Warrants will equal or exceed its imputed offering price. The Warrants will not be listed or quoted for trading on any market or exchange. There can be no assurance that the market price of our Common Stock will ever equal or exceed the exercise price of the Warrants, and consequently, the Warrants may expire valueless.

Risks Relating to Our Common Stock and Other Securities

Our stock price has been and will likely continue to be volatile.

Since 2023, our closing stock price ranged from a high of \$6.46 in the first quarter of 2023 to a low of \$0.48 in the second quarter of 2025. Our stock price may fluctuate in response to a number of events and factors, such as quarterly operating results, changes in our financial projections provided to the public or our failure to meet those projections, the public’s reaction to our press releases, other public announcements and filings with the SEC, significant transactions, or new features, products or services offered by us or our competitors, changes in our business lines and product lineup, changes in financial estimates and recommendations by securities analysts, media coverage of our business and financial performance, the operating and stock price performance of, or other developments involving, other companies that investors may deem comparable to us, trends in our industry, trade regulation, any significant change in our management, and general economic conditions. Our existing liquidity and capital resources may not be sufficient to sustain our business conditions and debt obligations, we may need to raise additional capital through the issuance of additional shares which may have an adverse impact on our stock price. These factors, as well as the volatility of our Common Stock, could also affect our ability to recruit and retain employees.

In addition, the stock market in general, and the market prices for companies in our industry, have experienced volatility that often has been unrelated to operating performance. These broad market and industry fluctuations may adversely affect the price of our stock, regardless of our operating performance. Price volatility over a given period may cause the average price at which we repurchase our own stock to exceed the stock’s price at a given point in time. In addition, some companies that have experienced volatility in the market price of their stock have been subject to securities class action litigation. We have been subject to past shareholder class action lawsuits as well as derivative lawsuits and may continue to be a target for such litigation in the future. Securities litigation against us could result in substantial costs and liability and divert our management’s attention from other business concerns, which could harm our business. See Note 11 Commitments, contingencies, and guarantees, in the Notes to consolidated financial statements of the Annual Report on Form 10-K incorporated by reference and Note 10 Commitments, contingencies, and guarantees, in the Notes to consolidated financial statements of the Quarterly Report on Form 10-Q for the fiscal quarter ended March 31, 2026 incorporated by reference for a discussion on legal proceedings.

If we fail to meet expectations related to future growth, profitability, or other market expectations, our stock price may decline significantly, which could have a material adverse effect on investor confidence and employee retention. A sustained decline in our stock price and market capitalization could lead to impairment charges.

We review goodwill for impairment at least annually or more frequently if indicators of impairment arise, and should market conditions or macroeconomic conditions continue to deteriorate, including a rise in inflationary pressures and interest rates, a sustained decline in our share price, or a decline in our results of operations, the result of such review may indicate a decline in the fair value of goodwill resulting in an impairment charge. In the event we are required to record a non-cash impairment charge to our goodwill, other intangibles, and/or long-lived assets, such non-cash charge could have a material adverse effect on our business, financial condition, and results of operations in the reporting period in which we record the charge.

Our stock price has been, and may in the future be, affected by atypical retailer investor interest.

In the third quarter of 2025, we experienced high price volatility in our Common Stock, including atypical retail investor interest caused largely by social media. The coordinated trading activity, amplified by individuals on online forums and social media, may have contributed to a rapid increase in the market price of our Common Stock. Such trading activity may be unrelated to our financial results, and as a result, may cause a situation where our results of operations were not tied to our performance. Because of the volatility in the price of our Common Stock, investors may have purchased shares at artificially inflated prices and could incur substantial losses. Additionally, anomalous trading activity caused by atypical retailer investor interest or other reasons may occur in the future, resulting in increased or extremely high trading volume and high volatility.

Our Common Stock may cease to be listed on The Nasdaq Global Select Market.

Our Common Stock has in the past closed below the \$1.00 per share minimum bid price requirement for continued inclusion on The Nasdaq Global Select Market pursuant to Nasdaq Listing Rule 5450(a)(1) (Bid Price Requirement). Should our Common Stock trade below the minimum Bid Price Requirement for 30 consecutive business days, the Nasdaq Stock Market LLC (Nasdaq) will send a notice to us that, in accordance with Nasdaq Listing Rule 5810(c)(3)(A), we will be provided an initial compliance period of 180 calendar days from receipt of such notice, to regain compliance with the Bid Price Requirement. To regain compliance, the closing bid price for the Common Stock must be at least \$1.00 per share for a minimum of 10 consecutive business days prior to the end of the 180-day period. There can be no assurance that we will be able to regain compliance or that Nasdaq will extend the compliance period.

If we do not regain compliance with the Bid Price Requirement by the end of the 180-day period, we may be eligible for an additional 180 calendar day compliance period, either by submitting an application to transfer the listing of the Common Stock to The Nasdaq Capital Market, or we can apply directly to Nasdaq, without transferring to The Nasdaq Capital Market, for an additional 180-day extension, which we may not be successful at obtaining. In that case, we would also need to pay an application fee to Nasdaq and provide written notice of our intention to cure the deficiency during the additional compliance period. As part of its review process, Nasdaq will make a determination of whether it believes we will be able to cure this deficiency.

If we do not regain compliance within the applicable compliance period(s), Nasdaq will provide written notification to us that the Common Stock will be subject to delisting. At that time, we may appeal the delisting determination to a hearings panel.

We intend to monitor the closing bid price of the Common Stock. If we receive a notice from Nasdaq that we are no longer in compliance with the Bid Price Requirement, we may, if appropriate, consider taking actions to regain compliance with the Bid Price Requirement, including, subject to approval of our Board of Directors and our Class A and Class B stockholders, implementing a reverse stock split. However, there can be no assurance that, if we were to engage in a reverse stock split, it would not create an additional deficiency with Nasdaq listing standards.

Similar declines below the Bid Price Requirement have occurred in the past and we have previously received notices of non-compliance from Nasdaq. For example, on March 25, 2025, we received a letter from The Nasdaq Stock Market LLC indicating that, for thirty consecutive business days, the bid price for our Common Stock had closed below the Bid Price Requirement. However, on August 5, 2025, we received a letter from Nasdaq confirming that we had regained compliance with the Bid Price Requirement and that the matter had been closed.

There can be no assurance that we will be able to regain compliance with the Bid Price Requirement as we have done in the past or will otherwise be in compliance with other applicable Nasdaq listing rules within the applicable compliance period(s), that we will be able to successfully implement a reverse stock split, or, if we receive a delisting determination and decide to appeal the delisting determination, that such appeal would be successful.

Currently, there is no immediate effect on the listing of the Common Stock on The Nasdaq Global Select Market, and the Common Stock will continue to trade on The Nasdaq Global Select Market under the symbol “GPRO,” subject to our compliance with the other continued listing requirements of The Nasdaq Global Select Market. If our Common Stock were to be delisted from The Nasdaq Global Select Market, we might or might not be eligible to list our shares on another market. Such a delisting could negatively impact us by, among other things, reducing the liquidity and market price of our Common Stock. Additionally, if our Common Stock were to be delisted, we would be subject to an event of default under the 2025 Credit Agreement or the 2025 Term Loan.

The dual class structure of our common stock has the effect of concentrating voting control with our CEO, and we cannot predict the effect our dual class structure may have on our stock price or our business.

Our Class B common stock has 10 votes per share, and our Class A common stock has one vote per share. Stockholders who hold shares of Class B common stock hold approximately 64.2% of the voting power of our outstanding capital stock as of May 22, 2026, with Mr. Woodman, our Chairman and CEO, holding approximately 61.6% of the outstanding voting power. Mr. Woodman is able to control all matters submitted to our stockholders, including the election of directors, amendments of our organizational documents and any merger, consolidation, sale of all or substantially all of our assets or other major corporate transaction. This concentrated control could delay, defer, or prevent a change of control, merger, consolidation, or sale of all or substantially all of our assets that our other stockholders support, or conversely this concentrated control could result in the consummation of such a transaction that our other stockholders do not support. This concentrated control could also discourage a potential investor from acquiring our Class A common stock due to the limited voting power of such stock relative to the Class B common stock and might harm the trading price of our Class A common stock.

In addition, we cannot predict whether our dual class structure, combined with the concentrated control by Mr. Woodman, will result in a lower or more volatile market price of our Class A common stock or in adverse publicity or other adverse consequences. For example, certain index providers, including FTSE Russell and S&P Dow Jones, previously announced restrictions on including companies with multiple-class share structures in certain of their

indexes that were then reversed. Because of our dual class structure, we may be excluded from these indexes in the future if new restrictions are announced, and we cannot assure you that other stock indexes will not take similar actions. Given the sustained flow of investment funds into passive strategies that seek to track certain indexes, exclusion from stock indexes would likely preclude investment by many of these funds and could make our Class A common stock less attractive to other investors. As a result, the market price of our Class A common stock could be adversely affected.

Issuances of Class A common stock pursuant to our securities purchase agreement with YA II PN, Ltd., or other future equity financings or strategic transactions, will dilute the percentage of outstanding shares represented by our Class B common stock and could trigger an automatic conversion pursuant to the provisions of our corporate governance documents. An automatic conversion of our Class B common stock will be triggered when the outstanding shares of our Class B common stock represent less than ten percent 10% of the aggregate number of our shares of common stock then outstanding. Each share of Class B common stock will automatically convert into one share of Class A common stock upon such triggering event, which would eliminate the dual class structure and the concentrated voting control described above.

Shares eligible for future sale may adversely affect our Common Stock price.

Sales of our Common Stock or other securities (including securities convertible into our Common Stock) in the public or private market, or the perception that these sales may occur, could cause the market price of our Common Stock to decline. This could also impair our ability to raise additional capital through the sale of our equity securities. Under our restated certificate of incorporation, we are authorized to issue up to 500,000,000 shares of Class A common stock, 150,000,000 shares of Class B common stock, and 5,000,000 shares of undesignated preferred stock. We cannot predict the size of future issuances of our Common Stock or other securities or the effect, if any, that future sales and issuances of our common stock and other securities would have on the market price of our Common Stock.

We have in place, or have agreed to file, registration statements for the resale of certain shares of our Common Stock held by certain of our lenders, including the registration statement of which this prospectus forms a part. All of our Common Stock sold pursuant to an offering covered by such registration statements will be freely transferable. In addition, shares of our Common Stock issued or issuable under our equity incentive plans have been registered on Form S-8 registration statements and may be freely sold in the public market upon issuance, except for shares held by affiliates who have certain restrictions on their ability to sell.

Future issuances of our shares of Common Stock could dilute your ownership interest in GoPro and reduce the market price of our shares of Common Stock.

In addition to potential issuances of our shares of Common Stock associated with acquisitions, in the future, we may issue additional securities to raise capital. We may also acquire interests in other companies by using a combination of cash and our Common Stock or just our Common Stock. We may also issue securities convertible into, or exercisable for, our Common Stock. Any of these events may dilute a stockholder's ownership interest in GoPro and have an adverse impact on the price of our Common Stock.

MARKET, INDUSTRY AND OTHER DATA

Market data and certain industry data and forecasts used in, or incorporated by reference in, this prospectus were obtained from sources we believe to be reliable, including market research databases, publicly available information, reports of governmental agencies and industry publications and surveys. We have relied on certain data from third-party sources, including internal surveys, industry forecasts and market research, which we believe to be reliable based on our management's knowledge of the industry. Forecasts are particularly likely to be inaccurate, especially over long periods of time. In addition, we do not necessarily know what assumptions regarding general economic growth were used in preparing the third-party forecasts we cite. Statements as to our market position are based on the most currently available data. While we are not aware of any misstatements regarding the industry data presented in this prospectus and the documents incorporated by reference into this prospectus, our estimates involve risks and uncertainties and are subject to change based on various factors, including those discussed under the heading "[Risk Factors](#)" in this prospectus and the documents incorporated by reference into this prospectus.

USE OF PROCEEDS

The Warrants and Warrant Shares to be offered and sold using this prospectus will be offered and sold by the Selling Stockholder named in this prospectus. Accordingly, we will not receive any proceeds from any sale of Warrants or Warrant Shares by the Selling Stockholder in this offering. We will pay all of the fees and expenses incurred by us in connection with this registration.

PRIVATE PLACEMENT OF WARRANTS

On August 4, 2025, the Company entered into a second lien credit agreement (the “Second Lien Credit Agreement”) by and among us, certain of our subsidiaries from time to time as guarantors, Mateo Financing, LLC, as lender (the “Second Lien Lender”), and Farallon Capital Management, L.L.C., as administrative agent and as collateral agent, pursuant to which the Second Lien Lender would extend to GoPro a term loan in an aggregate principal amount of \$50,000,000.

In connection with the Second Lien Credit Agreement, we entered into a warrant agreement (the “Warrant Agreement”) with the Second Lien Lender, whereby we agreed to issue the Warrants to the Second Lien Lender, which entitle the Second Lien Lender to purchase from the Company 11,076,968 shares of the Common Stock, at any time and from time to time after August 4, 2025 and on or prior to the close of business on August 4, 2035 (the “Expiration Date”), at an exercise price of \$1.25 per share, subject to certain adjustments. On November 5, 2025, the Company and Mateo Financing, LLC, the warrant holder of the remaining outstanding warrants to purchase up to 11,076,968 shares of its Class A Common Stock, \$.0001 par value per share (the “Warrant holder”) agreed to amend the issued warrant (the “Original Warrant”) entered into under the terms of the Warrant Agreement dated August 4, 2025, by and among the Company and the Warrant holder (the “Warrant Agreement”) to amend the definition of “Exercise Price” of the Original Warrant from \$1.25 per share to \$0.75 per share (the “2025 Warrant Amendment”). The Warrants issued to the Second Lien Lender may not be exercised if the aggregate number of shares of Common Stock beneficially owned by the Second Lien Lender would exceed the specified beneficial ownership limitation provided therein (which is currently 4.99% and may be adjusted upon advance notice) immediately after exercise thereof. We may also be required to repurchase up to \$7.5 million of the Warrants if the Second Lien Lender is unable to sell the underlying shares of Common Stock under this registration statement or in certain limited circumstances.

Pursuant to the terms of the Warrants, we agreed to file a registration statement providing for the resale by the Second Lien Lender of the Warrant Shares within 30 calendar days from the date of the issuance of the Warrants. We agreed to use commercially reasonable efforts to cause such registration statement to become effective as soon as practicable thereafter and to keep such registration statement continuously effective for a period from the date of such initial effectiveness until such time as there are no Registrable Securities (as defined in the Warrant Agreement) remaining.

SELLING STOCKHOLDER

This prospectus covers the resale or other disposition by the Selling Stockholder identified in the table below of the Warrants and the Warrant Shares, consisting of up to an aggregate of 11,076,968 shares of our Common Stock issuable upon the exercise of the Warrants. For additional information regarding the issuances of the Warrants and Warrants, see “Private Placement of Warrants” above. We are registering the Warrants and the Warrant Shares in order to permit the Selling Stockholder to offer the Warrants and the Warrant Shares for resale from time to time. In addition to entering into the Second Lien Credit Agreement with us and the ownership of the Warrants and the Warrant Shares, the Selling Stockholder has not had material relationships with us within the past three years.

The table below sets forth, as of May 22, 2026, the following information regarding the Selling Stockholder:

- the name of the Selling Stockholder;
- the number of Warrants owned by the Selling Stockholder prior to this offering, without regard to any beneficial ownership limitations contained in the Warrants;
- the number of Warrants to be offered by the Selling Stockholder in this offering;
- the number of Warrants to be owned by the Selling Stockholder assuming the sale of all of the Warrants covered by this prospectus, without regard to any beneficial ownership limitations contained in the Warrants;
- the percentage of our issued and outstanding shares of Common Stock to be owned by the Selling Stockholder assuming the sale of all of the Warrants covered by this prospectus based on the number of shares of Common Stock issued and outstanding as of May 22, 2026;
- the number of shares of Common Stock owned by the Selling Stockholder prior to this offering, without regard to any beneficial ownership limitations contained in the Initial Warrants and the Warrants;
- the number of shares of Common Stock to be offered by the Selling Stockholder in this offering;
- the number of shares of Common Stock to be owned by the Selling Stockholder assuming the sale of all of the shares of Common Stock covered by this prospectus; and
- the percentage of our issued and outstanding shares of Common Stock to be owned by the Selling Stockholder assuming the sale of all of the shares of Common Stock covered by this prospectus based on the number of shares of Common Stock issued and outstanding as of May 22, 2026.

Except as described above, the number of shares of Common Stock beneficially owned by the Selling Stockholder has been determined in accordance with Rule 13d-3 under the Exchange Act and includes, for such purpose, shares of Common Stock that the Selling Stockholder has the right to acquire within 60 days of May 22, 2026.

All information with respect to the Warrants and Common Stock ownership of the Selling Stockholder has been furnished by or on behalf of the Selling Stockholder. We believe, based on information supplied by the Selling Stockholder, that except as may otherwise be indicated in the footnotes to the table below, the Selling Stockholder has sole voting and dispositive power with respect to the Warrants and Warrant Shares reported as beneficially owned by the Selling Stockholder. Because the Selling Stockholder identified in the table may sell a portion or all of the Warrants and/or Warrant Shares covered by this prospectus, and because there are currently no agreements, arrangements or understandings with respect to the sale of any of the Warrants, no estimate can be given as to the portion of Warrants and Warrant Shares available for resale hereby that will be held by the Selling Stockholder upon termination of this offering. In addition, the Selling Stockholder may have sold, transferred or otherwise disposed of, or may sell, transfer or otherwise dispose of, at any time and from time to time, the Warrants and shares of Common Stock it beneficially owns in transactions exempt from the registration requirements of the Securities Act after the date on which it provided the information set forth in the table below. We have, therefore, assumed for the purposes

of the following table, that the Selling Stockholder will sell all of the Warrants or Warrant Shares that are covered by this prospectus, but will not sell any other shares of Common Stock that it presently beneficially owns.

In accordance with the terms of the Warrants, this prospectus generally covers the resale of the Warrants and the maximum number of Warrant Shares issuable upon exercise of the Warrants. The Selling Stockholder may sell all, some or none of their securities in this offering. See “[Plan of Distribution](#).”

(1) Consists of 11,076,968 shares of Common Stock issuable to Mateo Financing, LLC (“Mateo”) pursuant to the Warrants held by Mateo and exercisable within 60 days hereof (subject to the beneficial ownership limitation set forth therein). Farallon Capital Management, L.L.C. (“FCM”), as the manager of Mateo, may be deemed a beneficial owner of such shares of Common Stock acquirable by Mateo upon exercise of the Warrants. Each of Joshua J. Dapice, Philip D. Dreyfuss, Hannah E. Dunn, Richard B. Fried, Varun N. Gehani, Nicolas Giauque, David T. Kim, Michael G. Linn, Patrick (Cheng) Luo, Rajiv A. Patel, Thomas G. Roberts, Jr., Edric C. Saito, William Seybold, Daniel S. Short, Andrew J. M. Spokes, John R. Warren and Mark C. Wehrly (collectively, the “Farallon Managing Members”), as a senior managing member or managing member, as the case may be, of FCM, in each case with the power to exercise investment discretion, may be deemed a beneficial owner of such shares of Common Stock acquirable by Mateo upon exercise of the Warrants. Each of FCM and the Farallon Managing Members hereby disclaims any beneficial ownership of such shares. The address of Mateo, FCM, and the Farallon Managing Members is One Maritime Plaza, Suite 2100, San Francisco, California 94111.

- (2) Includes the Warrants to purchase up to 11,076,968 shares of our Common Stock, which were issued in the Private Placement and are being offered for resale hereby. The Warrants have an exercise price of \$0.75 per share and may be exercised for a period of ten years following the issuance date.
- (3) Assumes the sale of all Warrants or all Warrant Shares offered by the Selling Stockholder pursuant to this prospectus.
- (4) Up to 11,076,968 shares of Common Stock are issuable upon the exercise of the Warrants. However, the actual number of shares that may be acquired by the Selling Stockholder is not currently known. The shares issuable upon exercise of the Initial Warrants and the Warrants are subject to a beneficial ownership limitation of 4.99%, which limitation restricts the Selling Stockholder from exercising that portion of the outstanding balance under the Warrants that would result in the Selling Stockholder and its affiliates owning upon such exercise a number of shares of our Common Stock in excess of the beneficial ownership limitation, as applicable. Based on 146,738,559 shares of Common Stock outstanding as of May 22, 2026, the 4.99% beneficial ownership limitation caps the number of shares of Common Stock that could be acquired by Mateo at 7,706,824 shares.
- (5) Percentage is based on 146,738,559 shares of Common Stock outstanding as of May 22, 2026 (and rounded to the nearest tenth of a percent) and assumes the sale of all Warrants or Warrant Shares offered by the Selling Stockholder pursuant to this prospectus.
- (6) Represents the number of Warrant Shares issuable to the Selling Stockholder pursuant to the terms of the Warrants issued in the Private Placement.

PLAN OF DISTRIBUTION

As of the date of this prospectus, we have not been advised by the Selling Stockholder as to any plan of distribution. Distributions of the securities by the Selling Stockholder, or by its equity holders, pledgees, donees (including charitable organizations), transferees or other successors in interest, may from time to time be offered for sale either directly by such party, or through underwriters, dealers or agents or on any exchange on which the securities may from time to time be traded, in the over-the-counter market, or in independently negotiated transactions or otherwise. The methods by which the securities may be sold by the Selling Stockholder include:

- sales on Nasdaq or any national securities exchange or quotation service on which our securities may be listed or quoted at the time of sale;
- privately negotiated transactions;
- to or through underwriters, brokers, dealers or agents;
- exchange distributions and/or secondary distributions;
- sales in the over-the-counter market;
- “at the market” or through market makers or into an existing market for the securities;
- ordinary brokerage transactions and transactions in which the broker solicits purchasers;
- broker-dealers may agree with the Selling Stockholder to sell a specified number of such securities at a stipulated price per security;
- block trades (which may involve crosses) in which the broker or dealer so engaged will attempt to sell the securities as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- purchases by a broker or dealer as principal and resale by such broker or dealer for its own account;
- settlement of short sales entered into after the date of this prospectus (including short sales “against the box”);
- through the writing or settlement of options or other hedging transactions, whether or not the options are listed on an options exchange;
- through the distributions of the securities by any Selling Stockholder to its members, managers, affiliates, employees, directors or shareholders;
- a combination of any such methods of sale; and
- any other method permitted pursuant to applicable law.

The Selling Stockholder may elect to make an in-kind distribution of its securities to its equity holders. To the extent that such equity holders are not affiliates of ours, such equity holders would thereby receive freely tradeable shares of our securities pursuant to the distribution through this registration statement.

The Selling Stockholder may also sell securities under Rule 144 or any other exemption from registration under the Securities Act, in each case if available, rather than under this prospectus.

The Selling Stockholder also may transfer their securities in other circumstances, in which case the transferees or other successors in interest may be the selling beneficial owners for purposes of this prospectus.

Such transactions may be effected by the Selling Stockholder at fixed prices, market prices prevailing at the time of sale, at varying prices determined at the time of sale or at negotiated prices. The Selling Stockholder may effect such transactions by selling securities to underwriters or to or through broker-dealers, and such underwriters

or broker-dealers may receive compensation in the form of discounts or commissions from the Selling Stockholder and may receive commissions from the purchasers of the securities for whom they may act as agent. The Selling Stockholder may agree to indemnify any underwriter, broker-dealer or agent that participates in transactions involving sales of the securities against certain liabilities, including liabilities arising under the Securities Act.

Broker-dealers engaged by the Selling Stockholder may arrange for other brokers-dealers to participate in sales. If the Selling Stockholder effects such transactions by selling securities to or through underwriters, broker-dealers or agents, such underwriters, broker-dealers or agents may receive commissions in the form of discounts, concessions or commissions from the Selling Stockholder (and/or, if any broker-dealer acts as agent for the purchaser of the securities, from the purchaser) in amounts to be negotiated, but, except as set forth in a supplement to this prospectus, in the case of an agency transaction not in excess of a customary brokerage commission in compliance with FINRA Rule 2121 (“Rule 2121”); and in the case of a principal transaction a markup or markdown in compliance with Rule 2121.

The Selling Stockholder may act independently of us in making decisions with respect to the price, timing, manner and size of each sale of securities. Offers to purchase securities may be solicited directly by the Selling Stockholder and the sale thereof may be made by the Selling Stockholder directly to institutional investors or others. In such a case, no underwriters or agents would be involved. The Selling Stockholder may offer the securities covered by this prospectus into an existing trading market on the terms described in the applicable prospectus supplement relating thereto. Dealers and agents who participate

in any at-the-market offerings will be described in the applicable prospectus supplement relating thereto. The terms of each such agreement will be set forth in more detail in the applicable prospectus supplement. The Selling Stockholder may sell the securities through agents from time to time. Generally, any agent will be acting on a best efforts basis for the period of its appointment. If the Selling Stockholder utilizes a dealer in the sale of the securities in respect of which this prospectus is delivered, the Selling Stockholder may sell such securities to the dealer, as principal. The dealer may then resell such securities to the public at varying prices to be determined by the dealer at the time of resale.

The Selling Stockholder may from time to time pledge or grant a security interest in some or all of the securities owned by it and, if it defaults in the performance of its secured obligations, the pledgees or secured parties may offer and sell the securities from time to time under this prospectus, or under an amendment to this prospectus under Rule 424 or other applicable provision of the Securities Act amending the list of Selling Stockholders to include the pledgee, transferee or other successors in interest as Selling Stockholders under this prospectus.

There can be no assurances that the Selling Stockholder will sell, nor is the Selling Stockholder required to sell, any or all of the securities offered under this prospectus.

To the extent required, this prospectus may be amended or supplemented from time to time to describe a specific plan of distribution. If required, we may add transferees, successors and donees by prospectus supplement in instances where the transferee, successor or donee has acquired its securities from holders named in this prospectus after the effective date of this prospectus. Transferees, successors and donees of identified Selling Stockholder may not be able to use this prospectus for resales until they are named in the Selling Stockholder table by prospectus supplement or post-effective amendment.

If at the time of any offering made under this prospectus a member of FINRA participating in the offering has a “conflict of interest” as defined in FINRA Rule 5121 (“Rule 5121”), that offering will be conducted in accordance with the relevant provisions of Rule 5121.

Our Common Stock is listed The Nasdaq Global Select Market under the symbol “GPRO.”

The Selling Stockholder and any broker-dealers or agents that are involved in selling the securities may be deemed to be “underwriters” within the meaning of the Securities Act in connection with such sales. In such event, any commissions received by such broker-dealers or agents and any profit on the resale of the securities purchased by them may be deemed to be underwriting commissions or discounts under the Securities Act. The Selling Stockholder has informed the Company that it does not have any written or oral agreement or understanding, directly or indirectly, with any person to distribute the securities.

The Company is required to pay certain fees and expenses incurred by the Company incident to the registration of the securities. The Company has agreed to indemnify the Selling Stockholder against certain losses, claims, damages and liabilities, including liabilities under the Securities Act.

We agreed to keep this prospectus effective until the earlier of (a) the date that the Selling Stockholder no longer owns any resale securities covered hereby and (b) the date on which all of the resale securities may be sold pursuant to Rule 144 without regard to any volume or manner of sale restrictions. The resale securities will be sold only through registered or licensed brokers or dealers if required under applicable state securities laws. In addition, in certain states, the resale securities covered hereby may not be sold unless they have been registered or qualified for sale in the applicable state or an exemption from the registration or qualification requirement is available and is complied with.

Under applicable rules and regulations under the Exchange Act, any person engaged in the distribution of the resale securities may not simultaneously engage in market making activities with respect to the Common Stock for the applicable restricted period, as defined in Regulation M, prior to the commencement of the distribution. In addition, the Selling Stockholder will be subject to applicable provisions of the Exchange Act and the rules and regulations thereunder, including Regulation M, which may limit the timing of purchases and sales of the Common Stock by the Selling Stockholder or any other person. We will make copies of this prospectus available to the Selling Stockholder and have informed them of the need to deliver a copy of this prospectus to each purchaser at or prior to the time of the sale (including by compliance with Rule 172 under the Securities Act).

DESCRIPTION OF SECURITIES

Our authorized capital stock consists of 500,000,000 shares of Class A common stock, \$0.0001 par value per share, 150,000,000 shares of Class B common stock, \$0.0001 par value per share and 5,000,000 shares of undesignated preferred stock, \$0.0001 par value per share. The following description summarizes the most important terms of our capital stock. Because it is only a summary, it does not contain all the information that may be important to you. For a complete description, you should refer to our restated certificate of incorporation and amended and restated bylaws, which are included as exhibits to the registration statement of which this prospectus forms a part, and to the provisions of applicable Delaware law.

Common stock

As of May 22, 2026, there were 26,258,546 shares of our Class B common stock outstanding, held by 24 stockholders of record and 146,738,559 shares of our Class A common stock outstanding, held by 399 stockholders of record.

Dividend rights

Subject to preferences that may apply to shares of preferred stock outstanding at the time, the holders of outstanding shares of our Class A and Class B common stock are entitled to receive dividends out of funds legally available at the times and in the amounts that our board of directors may determine.

Voting rights

Holders of our Class A and Class B common stock have identical rights, except that holders of our Class A common stock are entitled to one vote for each share of Class A common stock held on all matters submitted to a vote of stockholders and holders of our Class B common stock are entitled to 10 votes for each share of Class B common stock held on all matters submitted to a vote of stockholders. Holders of shares of our Class A common stock and Class B common stock vote together as a single class on all matters (including the election of directors) submitted to a vote of stockholders, unless otherwise required by law. Our restated certificate of incorporation does not provide for cumulative voting for the election of directors. As a result, the holders of a majority of our voting shares can elect all of the directors then standing for election.

No preemptive or similar rights

Neither our Class A nor our Class B common stock is entitled to preemptive or redemption rights.

Conversion

Our Class A common stock is not convertible into any other shares of our capital stock. Each share of our Class B common stock is convertible at any time at the option of the holder into one share of our Class A common stock. In addition, each share of our Class B common stock will convert automatically into one share of our Class A common stock upon any transfer, whether or not for value, except for estate planning, intercompany and other similar transfers. Each share of our Class B common stock will convert automatically into one share of Class A common stock on the date that the total number of shares of Class B common stock outstanding represents less than 10% of the total number of shares of Class A and Class B common stock outstanding. Each share of our Class B common stock will also convert into one share of Class A common stock if such conversion is approved by the holders of a majority of the then-outstanding shares of Class B common stock. Once converted into Class A common stock, the Class B common stock may not be reissued. No class of our common stock may be subdivided or combined unless the other class of our common stock concurrently is subdivided or combined in the same proportion and in the same manner.

Right to receive liquidation distributions

Upon our liquidation, dissolution or winding-up, the assets legally available for distribution to our stockholders would be distributable ratably among the holders of our Class A and Class B common stock and any participating

preferred stock outstanding at that time after payment of liquidation preferences, if any, on any outstanding shares of preferred stock and payment of other claims of creditors.

Fully paid and nonassessable

All outstanding shares of our Class A common stock and Class B common stock are, and the Conversion Shares be offered and sold in this offering will be, fully paid and non-assessable.

Preferred stock

Our board of directors is authorized, subject to limitations prescribed by Delaware law, to issue preferred stock in one or more series, to establish from time to time the number of shares to be included in each series, to fix the designation, powers, preferences and rights of the shares of each series and any of its qualifications, limitations or restrictions, in each case without further action by our stockholders. Our board of directors can also increase or decrease the number of shares of any series of preferred stock, but not below the number of shares of that series then outstanding, unless approved by the affirmative vote of the holders of a majority of our capital stock entitled to vote, or such other vote as may be required by the certificate of designation establishing the series. Our board of directors may authorize the issuance of preferred stock with voting or conversion rights that could adversely affect the voting power or other rights of the holders of the Class A or Class B common stock. The issuance of preferred stock, while providing flexibility in connection with possible acquisitions and other corporate purposes, could, among other things, have the effect of delaying, deferring or preventing a change in our control and might adversely affect the market price of our Class A common stock and the voting and other rights of the holders of our Class A and Class B common stock. We have no current plan to

issue any shares of our preferred stock.

Warrants

As of May 22, 2026, we have outstanding 11,076,968 Warrants to purchase an aggregate of 11,076,968 shares of Common Stock.

Duration and Exercise

The Warrants will have an exercise price of \$0.75 per share of Common Stock and are exercisable at any time and from time to time after August 4, 2025 and on or prior to the close of business on August 4, 2035. The Warrants are exercisable, at the election of the holder, either in full or in part, for Warrant Shares. The exercise price is subject to adjustment in connection with (i) stock splits, dividends or distributions or other similar transactions, (ii) the issuance of rights or warrants to holders of the Common Stock, and (iii) any distributions of assets, including cash, stock or other assets or property, to holders of the Common Stock.

Liquidity Event

In connection with any recapitalization, reorganization, reclassification, consolidation, merger, or other transaction, which, in each case, is effected in such a way that all of the holders of Common Stock are entitled to receive consideration with respect to or in exchange for Common Stock (other than a transaction that triggers an adjustment) (a "Liquidity Event"), each Warrant holder will have the right to receive, upon exercise of such Warrants, such consideration as would have been issued or payable in such Liquidity Event (if such Warrant holder had exercised such Warrant immediately prior to such Liquidity Event) with respect to or in exchange, as applicable, for the number of Common Stock that would have been issued upon exercise of such Warrants, if such Warrants had been exercised immediately prior to the occurrence of such Liquidity Event.

Transferability

In accordance with the terms of the Warrants and subject to certain registration requirements, a Warrant may be transferred at the option of the holder.

Fractional Shares

No fractional Warrant Shares, or scrip of any fractional Warrant Shares, will be issued upon the exercise of the Warrants. If any fraction of a share of Common Stock be issuable on the exercise of any Warrant, the holder will be entitled to receive a cash payment equal to such fraction multiplied by the Exercise Price (as defined in the Warrant) or round up to the next whole share.

Trading Market

There is no established trading market for the Warrants, and we do not expect a market to develop. We do not intend to apply for a listing for the Warrants on any securities exchange or other nationally recognized trading system. Without an active trading market, the liquidity of the Warrant will be limited.

Rights as a Shareholder

Except as otherwise provided in the Warrants or by virtue of the holders' ownership of shares of Common Stock, the holders of Warrants do not have the rights or privileges of holders of our shares of Common Stock, including any voting rights, until such Warrant holders exercise their warrants.

Registration Rights

Pursuant to the terms of the Warrants, we agreed to file a registration statement providing for the resale by the Selling Stockholder of the Warrants and Warrant Shares within 30 calendar days from the date of the issuance of the Warrants, and such shares were originally registered on a Form S-1 effective as of September 12, 2025. We agreed to use commercially reasonable efforts to cause such registration statement to become effective as soon as practicable thereafter and to keep such registration statement continuously effective until the earlier of (1) the date there are no Registrable Securities (as defined in the Warrant Agreement) remaining and (2) the date on which all Warrant Shares held by a holder may be sold pursuant to Rule 144 without regard to any volume, manner of sale, or public availability of information restrictions.

Anti-takeover provisions

The provisions of Delaware law, our restated certificate of incorporation and our amended and restated bylaws may have the effect of delaying, deferring or discouraging another person from acquiring control of our company.

Delaware law

We are subject to Section 203 of the Delaware General Corporation Law, which prohibits a Delaware corporation from engaging in any "business combination" with any interested stockholder for a period of three years after the date that such stockholder became an interested stockholder, with the following exceptions:

- before such date, the board of directors of the corporation approved either the business combination or the transaction that resulted in the stockholder becoming an interested stockholder;
- upon closing of the transaction that resulted in the stockholder becoming an interested stockholder, the interested stockholder owned at least 85% of the voting stock of the corporation outstanding at the time the transaction began, excluding for purposes of determining the voting stock outstanding (but not the outstanding voting stock owned by the interested stockholder) those shares owned (i) by persons who are directors and also officers and (ii) employee stock plans in which employee participants do not have the right to determine confidentially whether shares held subject to the plan will be tendered in a tender or exchange offer; or
- on or after such date, the business combination is approved by the board of directors and authorized at an annual or special meeting of the stockholders, and not by written consent, by the affirmative vote of at least 66 2/3% of the outstanding voting stock that is not owned by the interested stockholder.

Generally, a business combination includes a merger, asset or stock sale, or other transaction resulting in a financial benefit to the interested stockholder. An “interested stockholder” is a person who, together with affiliates and associates, owns or, within three years prior to the determination of interested stockholder status, did own 15% or more of a corporation’s outstanding voting stock.

Restated certificate of incorporation and amended and restated bylaw provisions

Our restated certificate of incorporation and our amended and restated bylaws include a number of provisions that may have the effect of deterring hostile takeovers or delaying or preventing changes in control of our management team, including the following:

- *Dual class common stock.* As described above in “—Common stock—Voting rights,” our restated certificate of incorporation provides for a dual class common stock structure pursuant to which holders of our Class B common stock have the ability to control the outcome of matters requiring stockholder approval, even if they own significantly less than a majority of the shares of our outstanding Class A and Class B common stock, including the election of directors and significant corporate transactions, such as a merger or other sale of our company or its assets, and current investors, executives and employees with the ability to exercise significant influence over those matters.
- *Board of directors vacancies.* Our restated certificate of incorporation and amended and restated bylaws authorize only our board of directors to fill vacant directorships. In addition, the number of directors constituting our board of directors may be set only by resolution adopted by a majority vote of our entire board of directors. These provisions prevent a stockholder from increasing the size of our board of directors and gaining control of our board of directors by filling the resulting vacancies with its own nominees.

Choice of forum

Our restated certificate of incorporation provides that, unless we consent in writing to the selection of an alternative forum, the Court of Chancery of the State of Delaware will be the exclusive forum for any derivative action or proceeding brought on our behalf; any action asserting a breach of fiduciary duty owed by any of our directors, officers or other employees; any action asserting a claim against us arising pursuant to the Delaware General Corporation Law, our restated certificate of incorporation or our amended and restated bylaws; or any action asserting a claim against us that is governed by the internal affairs doctrine. There are several pending lawsuits challenging the validity of choice of forum provisions in other companies’ organizational documents. It is possible that a court could rule that such a provision is inapplicable or unenforceable.

Limitations of liability and indemnification

Our restated certificate of incorporation contains provisions that limit the liability of our directors for monetary damages to the fullest extent permitted by Delaware law. Consequently, our directors will not be personally liable to us or our stockholders for monetary damages for any breach of fiduciary duties as directors, except liability for the following:

- any breach of their duty of loyalty to our company or our stockholders;
- any act or omission not in good faith or that involves intentional misconduct or a knowing violation of law;
- unlawful payments of dividends or unlawful stock repurchases or redemptions as provided in Section 174 of the Delaware General Corporation Law; or
- any transaction from which they derived an improper personal benefit.

Our amended and restated bylaws provide that we shall indemnify, to the fullest extent permitted by law, any person who is or was a party or is threatened to be made a party to any action, suit or proceeding, by reason of the fact that he or she is or was one of our directors or officers or is or was serving at our request as a director or officer of another corporation, partnership, joint venture, trust or other enterprise. Our amended and restated bylaws provide that we may indemnify to the fullest extent permitted by law any person who is or was a party or is threatened to be

made a party to any action, suit or proceeding, by reason of the fact that he or she is or was one of our employees or agents or is or was serving at our request as an employee or agent of another corporation, partnership, joint venture, trust or other enterprise. Our amended and restated bylaws also provide that we must advance expenses incurred by or on behalf of a director or officer in advance of the final disposition of any action or proceeding, subject to very limited exceptions.

We have insurance policies under which, subject to the limitations of the policies, coverage is provided to our directors and officers against loss arising from claims made by reason of breach of fiduciary duty or other wrongful acts as a director or officer, including claims relating to public securities matters, and to us with respect to payments that may be made by us to these officers and directors pursuant to our indemnification obligations or otherwise as a matter of law.

We have entered into indemnification agreements with each of our directors and executive officers that may be broader than the specific indemnification provisions contained in the Delaware General Corporation Law. These indemnification agreements require us to, among other things, indemnify our directors and executive officers against liabilities that may arise by reason of their status or service. These indemnification agreements also require us to advance all expenses incurred by the directors and executive officers in investigating or defending any such action, suit or proceeding. We believe that these agreements are necessary to attract and retain qualified individuals to serve as directors and executive officers.

At present, we are not aware of any pending litigation or proceeding for which indemnification is sought involving any person who is or was one of our directors, officers, employees or other agents or is or was serving at our request as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, and we are not aware of any threatened litigation that may result in claims for indemnification.
