The board strives to achieve a balance of service on the board through a mix of new members and perspectives and members with longer tenure with institutional knowledge, as reflected by our director nominees.

Of the nine director nominees, three are ethnically diverse. In addition, three of our director nominees are female. The board strives for a proper combination of skill sets and diversity of experience, gender, race and thought to successfully govern the company's execution of its strategic priorities. We believe the current board composition provides a diverse set of viewpoints and experiences that benefits shareholders.

CORPORATE GOVERNANCE

The board is responsible for providing oversight over the company and its senior executives and has adopted policies and processes to enable effective oversight. The following sections provide an overview of our corporate governance structure and other key aspects of our board.

The board has adopted corporate governance guidelines. A copy of these corporate governance guidelines can be found in the “Governance Documents” section of the “Corporate Governance” page of our investor relations website located at investors.bjs.com, or by writing to our secretary at our corporate offices.

Corporate governance practices

The company has a history of strong corporate governance. We are committed to governance policies and practices that serve the interests of the company and its shareholders. Over the years, our board has evolved our practices in the interest of our shareholders. Our governance practices and policies address the following topics, among others:

- **Board independence and qualifications**
- **Executive sessions of directors**
- **Board leadership structure**
- **Director qualification standards**
- **Director orientation and continuing education**
- **Limits on board service**
- **Change of principal occupation**
- **Term limits**
- **Director responsibilities**
- **Director compensation**
- **Conflict of interest**
- **Board access to management**
- **Board access to independent advisors**
- **Board and committee self-evaluations**
- **Board meetings**
- **Meeting attendance by directors and non-directors**
- **Meeting materials**
- **Board committees, responsibilities and independence**
- **Succession planning**
- **Risk management**
- **Insider trading**

Board leadership structure

Our bylaws provide the board with flexibility to combine or separate the positions of chairperson of the board and chief executive officer in accordance with its determination that utilizing one or the other structure would be in the best interests of the company and its shareholders, and the company has operated under both structures in the past. In addition, our corporate governance guidelines provide that, in order to maintain the independent integrity of the board, if the chairperson of the board is a member of management or does not otherwise qualify as an independent director, the independent members of the board may appoint an independent director to serve as lead director.

The board understands that no single approach to board leadership is universally accepted and that the appropriate leadership structure may vary based on several factors, such as a company's size, industry, operations, history and culture. Accordingly, the board, with the assistance of the nominating and corporate governance committee, assesses its leadership structure in light of these factors and the current environment to achieve the optimal model for us and for our shareholders.

Mr. Eddy is a seasoned executive with more than 17 years of executive leadership experience. He has deep financial and operational experience and extensive knowledge of the company and its growth strategy, the industry and risk management practices gained from various executive and leadership roles. Our board has determined that it continues to be in the best interests of the company and its shareholders to maintain the combined role of chairman of the board and chief executive officer and re-appoint Mr. Eddy as chairman and chief executive officer of the company. The independent directors believe that having Mr. Eddy serve as chairman and chief executive officer promotes clear accountability and strong leadership, with one person setting the tone for the company's employees, investors, customers and other stakeholders, and reflecting the optimal balance between independent oversight of management and unified leadership. The board further believes that the company's chief executive officer is best situated to serve as chairman because he is most familiar with the company's business and industry, and most capable of effectively providing the unified leadership referenced above by identifying strategic priorities and carrying out the execution of the company's strategy and business plans. As examples, Mr. Eddy demonstrated his critical leadership after the untimely passing of the company's former Chief Executive Officer Lee Delaney as well as in the company's responses to the rapidly evolving environment due to the COVID-19 pandemic and the economic volatility and market shifts that followed. To ensure the appropriate level of oversight between our independent directors and the chief executive officer, Mr. Steele will continue to serve as the lead independent director as set forth

TABLE OF CONTENTS

in our corporate governance guidelines. The board continues to expect that the lead director role will enhance and provide further assurances to our shareholders regarding the strong independent oversight exercised by the board. Mr. Steele was appointed lead director in May 2019 by the independent members then serving on the board and has extensive knowledge and experience of the company. As lead independent director, Mr. Steele presides over all meetings of the board at which the chairman of the board is not present, including executive sessions of independent directors; approves board meeting schedules and agendas; and acts as the liaison between the independent directors and the chairman of the board. The board believes that it has been able to, and will continue to, provide effective independent oversight of its business and affairs, including risks facing the company through the role of lead independent director, the independent committees of the board, the overall composition of the board and contributions from all of the independent directors and other corporate governance policies in effect.

Director independence

Under our corporate governance guidelines and the New York Stock Exchange (the "NYSE") rules, a director is not independent unless the board affirmatively determines that he or she does not have a direct or indirect material relationship with us or any of our subsidiaries. In addition, the director must meet the bright-line tests for independence set forth by the NYSE rules. The board has affirmatively determined that each of our directors, other than Mr. Eddy and Mr. Baldwin, qualifies as independent under the applicable NYSE rules.

In arriving at the foregoing independence determinations, the board reviewed and discussed information provided by the directors with regard to each director's business and personal activities and any relationships they have with us and our management. In making the director independence determinations regarding both Messrs. Peterson and Steele, the board considered that Mr. Peterson serves as an executive officer and that Mr. Peterson and Mr. Steele⁽¹⁾ serve on the board of directors of Newell Brands, Inc., respectively, one of the company's vendors and from whom we purchase products in the ordinary course of business, on arm's-length terms, in amounts and under other circumstances that the board determined did not affect Messrs. Peterson and Steele's independence. In fiscal year 2023, the company's payments to Newell Brands, Inc. were less than 1% of Newell Brands Inc.'s net sales, and Messrs. Peterson and Steele had no direct or indirect material interest in the sales Newell Brands, Inc. makes to the company.

Board committees

The board has three standing committees: an audit committee, a compensation committee and a nominating and corporate governance committee, each of which has the composition and the responsibilities described below. In addition, from time to time, special committees may be established under the direction of the board when necessary to address specific issues. Each of the audit committee, the compensation committee and the nominating and corporate governance committee operates under a written charter.

The board has determined that each of Messrs. Brown, Ortega, Parent and Peterson qualify as "independent" under NYSE's heightened standards applicable to compensation committee members and each of Messrs. Parent and Peterson qualifies as a "Non-Employee Director" as defined in Section 16b-3 of the Exchange Act.

The compensation committee has the authority to retain or obtain the advice of compensation consultants, legal counsel and other advisors to assist in carrying out its responsibilities. Before selecting any such consultant, counsel or advisor, the compensation committee reviews and considers the independence of such consultant, counsel or advisor in accordance with applicable NYSE rules. We must provide appropriate funding for payment of reasonable compensation to any consultant, counsel or advisor retained by the compensation committee.

Nominating and corporate governance committee

Members

All independent

Darryl Brown (chair)

Michelle Gloeckler

Maile Naylor

Oversees the company's corporate governance structure and practices.

Our nominating and corporate governance committee oversees and assists the board in reviewing and recommending nominees for election as directors. Our nominating and corporate governance committee is responsible for, among other things:

- identifying individuals qualified to become members of the board, consistent with criteria approved by the board, except where the company is otherwise required to provide third parties with the right to designate directors;
- recommending to the board the nominees for election to the board at annual meetings of our shareholders;
- overseeing the annual self-evaluations of the board and its committees; and
- developing and recommending to the board a set of corporate governance guidelines and principles.

The board has determined that each of Mr. Brown and Mses. Gloeckler and Naylor qualifies as “independent” under applicable NYSE rules for purposes of serving on the nominating and corporate governance committee.

Director nominations process

The nominating and corporate governance committee is responsible for recommending candidates to serve on the board and its committees. In considering whether to recommend any particular candidate to serve on the board or its committees or for inclusion in the board's slate of recommended director nominees for election at the annual meeting of shareholders, the nominating and corporate governance committee considers the criteria set forth in our corporate governance guidelines.

Specifically, the nominating and corporate governance committee may take into account many factors, including: personal and professional integrity, ethics and values; experience in corporate management, such as serving as an officer or former officer of a publicly-held company; strong finance experience; relevant social policy concerns; experience relevant to the company's industry; experience as a board member or executive officer of another publicly-held company; relevant academic expertise or other proficiency in an area of the company's operations; diversity of expertise and experience in substantive matters pertaining to the company's business relative to other board members; diversity of background and perspective, including, but not limited to, with respect to age, gender, race, place of residence and specialized experience; practical and mature business judgment, including, but not limited to, the ability to make independent analytical inquiries; and any other relevant qualifications, attributes or skills. In determining whether to recommend a director for reelection, the nominating and corporate governance committee may also consider the director's past attendance at meetings and participation in and contributions to the activities of the board.

We do not have a formal policy with regard to the consideration of diversity in identifying director nominees. The board evaluates each individual in the context of the board as

a whole, with the objective of assembling a group that can best perpetuate the success of the business and represent shareholder interests through the exercise of sound judgment using its diversity of experience in these various areas. However, the board recognizes the value of a diverse board and thus has included diversity of background and perspective, including, but not limited to, with respect to age, gender, race, place of residence and specialized experience, as factors that will be taken into consideration by the nominating and corporate governance committee when evaluating the suitability of, and recommending, candidates for election by shareholders, and by the board in approving such candidates.

In identifying prospective director candidates, the nominating and corporate governance committee may seek referrals from other members of the board, management, shareholders and other sources, including third party recommendations. The nominating and corporate governance committee also may, but need not, retain a search firm to assist it in identifying candidates to serve as directors of the company. The nominating and corporate governance committee uses the same criteria for evaluating candidates regardless of the source of the referral or recommendation. When considering director candidates, the nominating and corporate governance committee seeks individuals with backgrounds and qualities that, when combined with those of our incumbent directors, provide a blend of skills and experience to further enhance the board's effectiveness. In connection with its annual recommendation of a slate of nominees, the nominating and corporate governance committee also may assess the contributions of those directors recommended for reelection in the context of the board evaluation process and other perceived needs of the board.

TABLE OF CONTENTS

When considering whether the directors and nominees have the experience, qualifications, attributes and skills, taken as a whole, to enable the board to satisfy its oversight responsibilities effectively in light of our business and structure, the board focused primarily on the information discussed in each of the board member's biographical information set forth below. We believe that our directors provide an appropriate mix of experience and skills relevant to the size and nature of our business. This process resulted in the board's nomination of the incumbent directors named in this Proxy Statement and proposed for election by you at the Annual Meeting.

The nominating and corporate governance committee will consider director candidates recommended by shareholders, and such candidates will be considered and evaluated under the same criteria described above. Any recommendation submitted to the company should be in writing and should include any supporting material the shareholder considers appropriate in support of that recommendation, but must

include information that would be required under the rules of the Securities and Exchange Commission (the "SEC") to be included in a proxy statement soliciting proxies for the election of such candidate and a written consent of the candidate to serve as one of our directors if elected and must otherwise comply with the requirements under our bylaws for shareholders to recommend director nominees. Shareholders wishing to propose a candidate for consideration may do so by submitting the above information to the attention of the secretary, BJ's Wholesale Club Holdings, Inc., 350 Campus Drive, Marlborough, Massachusetts 01752. All recommendations for nominations received by the secretary that satisfy our bylaws' requirements relating to such director nominations will be presented to the nominating and corporate governance committee for its consideration. Shareholders also must satisfy the notification, timeliness, consent and information requirements set forth in our bylaws. These timing requirements are also described under the heading "Shareholder Proposals and Director Nominations."

Board role in risk oversight

The board has overall responsibility for risk oversight, including, as part of regular board meetings, general oversight of executives' management of risks relevant to the company. A fundamental part of risk oversight is not only understanding the material risks a company faces and the steps management is taking to manage those risks, but also understanding what level of risk is appropriate for the company. The involvement of the board in reviewing our business strategy is an integral aspect of the board's assessment of management's tolerance for risk and its determination of what constitutes an appropriate level of risk for the company. The Chief Information Officer and the VP of IT Security and Compliance provide an annual cybersecurity update to the board. While the full board has overall responsibility for risk oversight, it is supported in this function by its various committees, including principally its audit committee. Each of the committees regularly reports to the board.

The audit committee, pursuant to its charter, is responsible for overseeing risk management processes related to cybersecurity. The audit committee assists the board in fulfilling its risk oversight responsibilities by periodically reviewing our accounting, reporting and financial practices, including the integrity of our financial statements, the surveillance of administrative and financial controls, our compliance with legal and regulatory requirements and our enterprise risk management program. Through its regular meetings with management, including the finance, legal, internal audit, tax, compliance, and information technology functions, the audit committee reviews and discusses significant areas of our business and summarizes the key areas of risk and the relevant mitigating factors for the board.

The compensation committee assists the board by overseeing and evaluating risks related to the company's compensation structure and compensation programs, including the formulation, administration and regulatory compliance with respect to compensation matters. The compensation committee periodically reviews the company's compensation policies and programs and assesses whether such policies and programs are reasonably likely to have a material adverse effect on the company by encouraging excessive risk-taking. The nominating and corporate governance committee assists the board by overseeing and evaluating programs and risks associated with board organization, membership and structure, and corporate governance, as well as coordinates, along with the chairman of the board, succession planning discussions. In addition, the board receives periodic detailed operating performance reviews from management.

Given its role in the risk oversight, the board believes that any leadership structure that it adopts must allow it to effectively oversee the executives' management of the risks relating to our operations. Although there are different leadership structures that could allow the board to effectively oversee the management of such risks, and while the board believes its current leadership structure enables it to effectively manage such risks, it was not the primary reason the board selected its current leadership structure over other potential alternatives. See the discussion under the heading "Board leadership structure" above for a discussion of why the board has determined that its current leadership structure is appropriate.

Team member engagement. We provide all team members with the opportunity to share their opinions and feedback on our culture through a survey that is performed every year. Results of the survey are measured and analyzed to enhance the team member experience, promote retention of team members, drive change and leverage the overall success of our company.

Diversity. We strive to foster a work environment that includes and embraces diversity of background and perspective, including, but not limited to, with respect to age, gender, race, place of residence and specialized experience. We have a zero-tolerance policy on discrimination and harassment and have several systems under which team members can report incidents confidentially or anonymously and without fear of reprisal. We have an inclusion and diversity council which is comprised of a cross-functional team representing diversity of backgrounds, ethnicity, gender and self-identification. This council is responsible for identifying and driving actions and initiatives to advance the company's inclusion and diversity mission. The company also implemented new hiring guidelines requiring a diverse slate of candidates be considered for all director-level and more senior roles within the company. In addition, the interview panel must be diverse for screening hiring of director-level and more senior hires within the company.

Our programs include annual incentives, 401(k) plans, stock awards, an employee stock purchase plan, paid time off, flexible work schedules, family leave, team member assistance programs, and more, based on eligibility criteria. In addition, beginning in

2023, we made available to directors and more senior team members a retirement program called the non-qualified deferred compensation plan where executives are able to take advantage of a tax deferral retirement vehicle for base and incentive pay. We take the health and wellness of our team members seriously. We provide our eligible team members with access to a variety of innovative, flexible and convenient health and wellness programs. Additionally, the company provides resources, such as an onsite chiropractor, a health clinic and access to a fitness center for team members. Such programs are designed to support team members' physical and mental health by providing tools and resources to help them improve or maintain their health status and encourage engagement in healthy behaviors. The company also provides team members with comprehensive medical benefits, dental, and behavioral and mental wellness benefits.

Team member development. Training and development programs for our team members help retain and advance them into future roles with the company. We provide online and on-the-job training through innovative delivery tools which are easy to use and focused on the core skills needed to be successful at the company. We provide several management and leadership programs that develop and educate our leaders so they can provide the best work environment and growth opportunities to all our team members. The company has continued its Accelerating and Cultivating Excellence program ("ACE") which highlights high performing and high potential female leaders. Participants work through cohort-based leadership development and gain exposure to executives from across the company. The company also re-launched its Employee Resource Groups in 2023, offering team member-led communities centered around shared backgrounds, perspectives and experiences.

Community involvement. We have a long and proud history of investing in the communities where we live and work. BJ's Charitable Foundation (the "foundation") was established with the mission to enrich every community BJ's serves. The foundation supports nonprofit organizations that primarily benefit the underprivileged in the areas of hunger prevention

Communications with the board

Any shareholder or any other interested party who desires to communicate with the board, our non-management directors or any specified individual director, may do so by directing such correspondence to the attention of the secretary at our offices at 350 Campus Drive, Marlborough, Massachusetts 01752. The secretary will forward the communication to the appropriate director or directors.

Proposal 1: Election of nine director nominees

Our board currently consists of ten directors, each of whom has a term that expires at the Annual Meeting. Since our 2023 annual meeting of stockholders, the number of directors that constitute our board increased from eight to ten as a result of the appointment of each of Mr. Ortega and Ms. Robinson as directors on June 16, 2023. Mr. Ortega and Ms. Robinson, director nominees who have not previously stood for election, were initially identified as potential candidates for election to the board by a third-party search firm that was retained by our nominating and corporate governance committee to assist in the identification and evaluation of director candidates.

Based on an evaluation in accordance with our standard review process for director candidates and the recommendation of the nominating and corporate governance committee, the board has nominated each of the current board members to stand for re-election at the Annual Meeting, except for Christopher Baldwin, who will not be standing for re-election as a member of the board. Upon the expiration of Mr. Baldwin's term as a director at the Annual Meeting, the number of directors that will constitute the board will be decreased from ten to nine. The individuals elected to the board will serve for a one-year term expiring at the annual meeting of shareholders to be held in 2025 (the "2025 Annual Meeting") and until the election and qualification of his or her successor or until his or her earlier death, resignation or removal.

The board unanimously recommends that you vote "FOR" the election of each of the director nominees.

We believe that all of our directors and nominees display personal and professional integrity, satisfactory levels of education and/or business experience, broad-based business acumen, an appropriate level of understanding of our business and its industry and other industries relevant to our business, the ability and willingness to devote adequate time to the work of the board and its committees, skills and personality that complement those of our other directors that helps build a board that is effective, collegial and responsive to the needs of our company, strategic thinking and a willingness to share ideas, a diversity of experiences, expertise and background and the ability to represent the interests of all of our shareholders.

Each director nominee is currently serving as a director of the company. We have no reason to believe that any director nominee will be unable or unwilling to serve, if elected. If, however, prior to the Annual Meeting, the board should learn that any director nominee is unable or unwilling to serve as a director for any reason, and if the board shall designate a substitute nominee, the persons named as proxies will vote for the election of the substitute nominee designated by the board. Alternatively, the persons named as proxies, at the board's discretion, may vote for that fewer number of nominees as results from the inability of any nominee to serve.

Generally, vacancies or newly created directorships on the board will be filled only by vote of a majority of the directors then in office and will not be filled by the shareholders, unless the board determines by resolution otherwise.

Board recommendation

The board unanimously recommends you vote FOR the election of each of its nominees, Darryl Brown, Bob Eddy, Michelle Gloeckler, Maile Naylor, Steve Ortega, Ken Parent, Chris Peterson, Marie Robinson and Rob Steele, as a director to hold office until the 2025 Annual Meeting and until his or her successor has been duly elected and qualified.

The information presented below regarding each director nominee also sets forth specific experience, qualifications, attributes and skills, in addition to those set forth above that led the board to the conclusion that such individual should serve as a director in light of our business and structure.

We also reimburse our non-employee director for any travel or other business expenses related to their service as a director.

In addition to the annual cash retainers, each non-employee director receives an annual restricted stock unit grant with a fair market value on the date of grant of \$150,000 per year, which is made pursuant to the BJ's Wholesale Club Holdings, Inc. 2018 Incentive Award Plan (the "2018 Plan"). The annual equity award will be granted on the date of the annual meeting of shareholders or on the date of such director's election or appointment to the board, which awards will also be prorated if a director is elected or appointed as of a date other than the date of the annual meeting of shareholders. Each equity award will vest and become exercisable on the earlier of (i) the day immediately preceding the date of the first annual meeting of shareholders following the date of grant and (ii) the first anniversary of the date of grant, subject to the director continuing in service on the board through the applicable vesting date. No portion of an annual equity award that is unvested or unexercisable at the time of a director's termination of service on the board will become vested and exercisable thereafter. In the event a director is terminated upon or within 12 months following a change in control, as defined in the 2018 Plan, such director's outstanding equity awards will accelerate and vest in full.

Director stock ownership guidelines

The board adopted the director stock ownership guidelines, pursuant to which non-employee directors are required to own equity in the company at least equal to five times their retainer within five years of their election or appointment. Please see the disclosure under "Executive Compensation—Director and Executive Stock Ownership Guidelines" for more information.

Proposal 2

Approval, on an advisory (non-binding) basis, of the compensation of our named executive officers

As required by Section 14A(a)(1) of the Exchange Act, the below resolution enables our shareholders to vote to approve, on an advisory (non-binding) basis, the compensation of our named executive officers (“NEOs”) as disclosed in this Proxy Statement. This proposal (the “Say-on-Pay Vote”), and commonly known as a “say-on-pay” proposal, gives our shareholders the opportunity to express their views on our NEOs’ compensation. The Say-on-Pay Vote is not intended to address any specific item of compensation, but rather the overall compensation of our NEOs and the philosophy, policies and practices described in this Proxy Statement. We submit the compensation of our NEOs to our shareholders for a non-binding advisory vote on an annual basis. Based on the non-binding advisory vote regarding the frequency of future

executive compensation advisory votes conducted at the 2020 Annual Meeting of Shareholders, the next vote on the non-binding advisory frequency of such non-binding advisory votes will occur no later than our 2025 Annual Meeting of Shareholders.

The board unanimously recommends that you vote “FOR” this advisory proposal.

We encourage our shareholders to review the “Executive Compensation” section of this Proxy Statement for more information. As an advisory approval, this proposal is not binding upon us or the board. However, the compensation committee, which is responsible for the design and administration of our executive compensation program, values the opinions of our shareholders expressed through your vote on this proposal. The board and the compensation committee will consider the outcome of this vote in making future compensation decisions for our named executive officers. Accordingly, we ask our shareholders to vote “FOR” the following resolution at the Annual Meeting:

“RESOLVED, that the shareholders of BJ’s Wholesale Club Holdings, Inc. approve, on an advisory basis, the fiscal year 2023 compensation of BJ’s Wholesale Club Holdings, Inc.’s named executive officers as described in the Compensation Discussion and Analysis and disclosed in the Summary Compensation Table and related compensation tables and narrative disclosure set forth in BJ’s Wholesale Club Holdings, Inc.’s Proxy Statement for the 2024 Annual Meeting of Shareholders.”

Board recommendation

The board unanimously recommends you vote **FOR** the resolution to approve, on an advisory (non-binding) basis, the compensation of our NEOs, as described in the Compensation Discussion and Analysis and disclosed in the Summary Compensation Table and related compensation tables and narrative disclosure set forth in this Proxy Statement.

Executive compensation philosophy and objectives

Our executive team is critical to our success and to building value for our shareholders. The principles and objectives of our executive compensation program are to:

ATTRACT, engage and retain the best executives, with experience and managerial talent, enabling us to be an employer of choice in a highly competitive and dynamic industry

ALIGN compensation with our corporate strategies, business and financial objectives and the long-term interests of our shareholders

MOTIVATE and reward executives whose knowledge, skills and performance ensure our continued success

ENSURE that our total compensation is fair, reasonable and competitive

TABLE OF CONTENTS

Elements of compensation

The principal components of our executive compensation program are designed to fulfill one or more of the principles and objectives described above. Compensation of our NEOs includes each of the following key elements:

Base salary

Fixed short-term cash

Provides market-competitive fixed cash compensation reflecting role, responsibility and experience.

Represents 12% of CEO target compensation and 20% - 25% of other NEO target compensation.

Annual Incentive Plan awards⁽¹⁾

Variable mid-term cash

Earned based on achievement of a pre-established company financial metrics (adjusted EBITDA and comparable club sales). Designed to align pay to both individual and company performance for the fiscal year.

Represents 18% of CEO target compensation and 18% - 21% of other NEO target compensation.

Long-term incentive awards⁽²⁾

Variable long-term equity

Designed to drive company performance; align interests with shareholders; and encourage long-term retention of executives.

Represents 70% of CEO target compensation and 55% - 60% of other NEO target compensation

(1) 70% of award achievement is based on adjusted EBITDA goal and 30% of award achievement is based on comparable club sales goal.

(2) Annual performance share unit awards represent 50% of long-term incentive awards, vest over a three-year period and are earned based on the achievement of cumulative adjusted EPS growth compared to goals established by the compensation committee. The shares earned pursuant to these awards, if any, will cliff vest as of the end of the performance period, based on continued employment through such date. Annual restricted stock awards represent the remaining 50% of long-term incentive awards and vest ratably over a three-year grant period.

We view each component of our executive compensation program as related, but distinct, and we also regularly reassess the total compensation of our executive officers to ensure that our overall compensation objectives are met. In addition, we have determined the appropriate level for each compensation component, which is based on our understanding of the competitive market based on the experience of the members of the compensation committee, advice and information provided by Exequity (as defined and described below in "Engagement of compensation consultant"), our recruiting and retention goals, our view of internal equity and consistency, the length of service of our executive officers, our and each executive officer's overall performance, and other considerations the compensation committee considers relevant. Our executive compensation program is designed to be flexible and complementary and to collectively serve all of the executive compensation principles and objectives described above.

We offer cash compensation, in the form of base salaries, annual company performance-based incentives and, as circumstances warrant, discretionary individual performance-based incentives, that we believe appropriately rewards our executive officers for their contributions to our business. When making awards, the compensation committee considers the company's financial and operational performance. A key component of our executive compensation program is long-term incentive awards, which are comprised of performance-based and time-based awards as noted above. We emphasize the use of long-term equity awards to incentivize our executive officers to focus on the growth of our overall enterprise value and, correspondingly, the creation of value for our shareholders. Except as described below, we have not adopted any formal or informal policy or guidelines for allocating compensation between currently paid and long-term compensation, between cash and non-cash compensation, or among different forms of non-cash compensation.

Each of the primary elements of our executive compensation program is discussed in more detail below.

Key compensation practices

The following table highlights key features of our executive compensation program that demonstrate the company's ongoing commitment to promoting shareholder interests through sound compensation governance practices.

WHAT WE DO	WHAT WE DON'T DO
 Align the interests of our NEOs with those of our long-term investors by awarding a meaningful percentage of total compensation in the form of equity	 Do not allow hedging or pledging of company securities
 Grant annual cash incentive compensation opportunities based on pre-established company goals	 Do not provide for "single trigger" payment of cash severance or acceleration of time-based equity upon a change in control
 Have robust equity ownership guidelines for our directors and executive officers (for our CEO, 5x base salary)	 Do not provide for Section 280G excise tax gross-up payments
 Have a clawback policy that allows for the recovery of previously paid incentive compensation in the event of a financial restatement	 Do not encourage unnecessary or excessive risk-taking as a result of our compensation policies
 Engage an independent compensation consultant to advise the compensation committee	 Do not allow for repricing of stock options without shareholder approval

Roles of the compensation committee, chief executive officer and management in compensation decisions

Role of the compensation committee

The compensation committee oversees key aspects of the company's executive compensation programs, including, base salaries, annual incentive and long-term incentive awards, and perquisites or other benefits for the company's executive officers, including our NEOs. The compensation committee approves performance goals for awards granted under our incentive compensation programs. In making its decisions the compensation committee considers a variety of factors, including, but not limited to:

- our view of the strategic importance of the position;
- our evaluation of the competitive market based on the experience of the members of the compensation committee with other companies and market information we may receive from executive search firms retained by us;
- our financial condition and available resources;
- the length of service of an individual; and
- the compensation levels of our other executive officers, each as of the time of the applicable compensation decision.

Role of the chief executive officer and management

The chief executive officer and management team manage the compensation programs based on the compensation committee's decisions and directives. The chief executive officer makes recommendations to the compensation committee regarding compensation of executive officers other than himself.

Engagement of compensation consultant

The compensation committee is authorized to retain the services of one or more executive compensation advisors, in its discretion, to assist with the establishment and review of our compensation programs and related policies. In accordance with its authority to retain consultants and advisors described above, the compensation committee continued to engage the services of Exequity, LLP ("Exequity"), a national compensation consulting firm, as its compensation consultant to provide executive compensation advisory services, help evaluate our compensation philosophy and objectives and provide guidance in administering our compensation program and policies.

All services related to executive compensation provided by Exequity during fiscal year 2023 were conducted under the direction or authority of the compensation committee, and all work performed by Exequity was pre-approved by the compensation committee. Neither Exequity nor any of its affiliates maintains any other direct or indirect business relationships with us or any of our subsidiaries. Additionally, during fiscal year 2023, Exequity did not provide any services to us unrelated to executive and director compensation.

The compensation committee evaluates Exequity's independence on an annual basis and has evaluated whether any work provided by Exequity raised any conflict of interest under applicable SEC or NYSE rules for services performed during fiscal year 2023 and determined that it did not.

Key fiscal year 2023 compensation decisions

The compensation committee generally approves annual compensation levels for NEOs in the first quarter of each fiscal year, though it may make adjustments to compensation at other times of the year. When determining base salaries, annual incentives, long-term incentive awards, and other forms of compensation, the compensation committee takes into consideration a variety of information, including, but not limited to, data generated from the compensation practices of its peer group companies, internal equity, an executive's experience, knowledge of our business and the retail industry, scope of responsibility, corporate performance and individual performance. In particular, the compensation committee made the following key compensation decisions for fiscal year 2023:

- increased base salary for all NEOs as further described in "Base salary" below;
- increased target annual cash incentive award opportunities under our Annual Incentive Plan for certain NEOs in accordance with base salary adjustments and/or increased target payout percentage for his or her fiscal year 2023 award, as further described in "Annual Incentive Plan Awards" below;
- increased annual long-term incentive awards (in the form of restricted stock awards and performance-based stock units) as further described in "Long-term incentive awards" below; and
- determined that our NEOs earned 200% of their respective target performance share unit awards granted in fiscal year 2020, which represented 50% of their long-term incentive compensation awards for that year, and were earned on March 31, 2023, for the three-year performance period from February 2, 2020 to January 28, 2023.

Assessing competitive practice through peer group comparisons

To gain a general understanding of our current compensation practices, the compensation committee reviews the compensation of executives serving in similar positions at peer group companies. The external market data reviewed for fiscal year 2023 was provided by Exequity.

In reviewing and developing the peer group companies for fiscal year 2023, the compensation committee considered, at the recommendation of Exequity, industry, annual revenue, market capitalization, enterprise value, EBITDA and gross margin, among other factors for each company. With respect to its executive compensation program, the company is reasonably positioned near the median of the peer group companies based on market capitalization and enterprise value. The compensation committee reviews and develops the peer group companies annually with input from Exequity. In its 2022 review of the peer group for setting fiscal year 2023 compensation, the compensation committee removed Bed Bath & Beyond, Inc. and added Ross Stores, Inc. to the peer group as identified and recommended by Exequity based on the factors set forth above.

(1) On June 15, 2023, BJ's approved removal of Bed, Bath & Beyond, Inc. as a peer group company for future compensation determinations after it filed for Chapter 11 bankruptcy protection.

(2) On June 15, 2023, BJ's approved the addition of Ross Stores, Inc. as a peer group company for future compensation determinations.

In fiscal year 2023, the compensation committee considered the pay practices and compensation levels of executives serving in similar positions at the peer group companies when it determined the base salary adjustments, the change in the target payout levels under our Annual Incentive Plan and the size and mix of equity awards granted to our NEOs, each as described below.

TABLE OF CONTENTS

Base salary

We believe it is important to provide a competitive fixed level of pay to attract and retain experienced and successful executives. Annual base salaries compensate our NEOs for fulfilling the requirements of their respective positions and provide them with a level of cash income predictability and stability with respect to a portion of their total compensation.

The following table sets forth fiscal year 2023 and fiscal year 2022 annual base salaries for our NEOs:

Named executive officer	Fiscal year 2023 base salary (\$) ⁽¹⁾	Fiscal year 2022 base salary (\$) ⁽²⁾	Percentage (%) change
Bob Eddy	1,350,000	1,200,000	12.5
Laura Felice	750,000	675,000	11.1
Paul Cichocki	900,000	850,000	5.9
Jeff Desroches	650,000	625,000	4.0
Bill Werner	575,000	539,044	6.7

(1) Base salaries were effective April 2, 2023 for fiscal year 2023 and have been annualized based on such amounts.

(2) Base salaries were effective April 3, 2022 for fiscal year 2022 and have been annualized based on such amounts.

The base salaries of our executive officers, including our NEOs, are reviewed periodically by the compensation committee and our chief executive officer (except with respect to his own base salary), and adjustments are made as deemed appropriate. In determining the amount of base salary that each NEO receives, we consider the executive's current compensation, tenure, any change in the executive's position or responsibilities and the complexity and scope of the executive's position and responsibilities as compared to those of other executives within the company and in similar positions at the peer group companies.

The increases to the base salaries of our NEOs for fiscal year 2023 were designed to maintain or establish, as applicable, each NEO's base salary near the median of his or her counterparty within the peer group companies and were based on the compensation committee's review of the benchmarking data for the peer group companies provided by Exequity.

Annual Incentive Plan awards

Our Annual Incentive Plan, which became effective on January 29, 2017 (the "Annual Incentive Plan"), is designed to reward participants, including our NEOs, for their contributions to the company based on the achievement of pre-established company financial metrics, adjusted EBITDA and comparable club sales. As each NEO's performance contributes to these metrics, we believe they provide a fair and objective basis on which to evaluate each NEO's performance and to determine each NEO's annual cash incentive award under the Annual Incentive Plan.

Financial performance metric (weighting)	Definition	Rationale for selection
Adjusted EBITDA 70%	Income from continuing operations before interest expense, net, provision for income taxes and depreciation and amortization, adjusted for the impact of certain other items, including stock-based compensation expense; acquisition and integration costs; home office transition costs; restructuring and other adjustments, pre-opening expense, non-cash rent expense and specified litigation expense; and, for purposes of setting our performance target under the Annual Incentive Plan, excluding gas profit outside of a specific collar and other adjustments as determined by the compensation committee.	<ul style="list-style-type: none">Creates a strong focus on our overall profit goal and underlying drivers of revenue growth, cost control, cash generation and ultimately total shareholder return.Directly measures the progress we are making on our strategic growth initiatives.
Comparable club sales 30%	Comparable club sales, also known as same-store sales, includes all clubs that were open for at least 13 months at the beginning of the period and were in operation during the entirety of both periods being compared, including relocated clubs and expansions.	<ul style="list-style-type: none">Key valuation driver in the retail industry.Key financial metric in measuring the company's performance and demonstrates the effectiveness of our core business activities.

TABLE OF CONTENTS

The compensation committee assigns our NEOs an annual cash incentive target opportunity expressed as a percentage of base salary. For fiscal 2023, these formula-driven cash payouts could have ranged from zero, if company performance fell below minimum thresholds, to 100% of annual incentive opportunity, if the targets were met, and up to a maximum of 200% of the target annual incentive opportunity if performance exceeded target. Our Annual Incentive Plan provides the compensation committee with the authority to reduce the amount of annual cash incentive award paid to a participant, or some or all participants, if the compensation committee determines that such reduction is appropriate. The compensation committee established minimum, target and maximum levels of performance for the adjusted EBITDA and comparable club sales goals shortly after the beginning of fiscal year 2023, based on an assessment of the operating landscape for fiscal year 2023, which may result in variations in these established levels from year to year.

The table below illustrates the relationship between actual adjusted EBITDA and comparable club sales performance for fiscal year 2023 as compared to performance targets, the percentage of performance targets earned and the resulting aggregate cash incentive award attainment determined with interpolation applying for amounts between levels.

(dollars in millions)	Adjusted EBITDA (\$) ⁽¹⁾	Comparable club sales (\$)	Payout (%)
Minimum	1,058	15,036	0
Target	1,102	15,996	100
Maximum	1,191	16,636	200
Actual	1,088 ⁽²⁾	15,457	60
Achievement (%)	67	44	

- (1) The compensation committee determined that adjusted EBITDA for fiscal year 2023 was \$1.088B and the comparable club sales was \$15.457B which resulted in an achievement level of 60% for total AIP payout. The weighting of the adjusted EBITDA and comparable club sales goals is 70% and 30%, respectively. The total cash incentive award amounts were paid at lower than target payout amounts due to adjusted EBITDA and comparable club sales for fiscal year 2023 being achieved between the minimum and target performance levels.
- (2) Additionally, adjusted EBITDA did not include gas profit outside of a specific collar, and such amounts were therefore excluded from the calculation of the achievement level.

Each NEO's target annual cash incentive award opportunity is expressed as a percentage of his or her base salary in effect at fiscal year-end and is based on peer group benchmark data and the scope of responsibility and impact the executive has on the company's overall results. The compensation committee maintained the target payout percentage of Messrs. Eddy and Mr. Cichocki for their respective fiscal year 2023 awards, consistent with their target payout percentages for fiscal year 2022. The compensation committee increased the target payout percentage of Ms. Felice and Messrs. Desroches and Werner for their respective fiscal year 2023 awards as detailed below. The target payout percentage increases were intended to align each NEOs potential annual total cash compensation more closely with the median of the annual total cash compensation paid to executives with similar roles and responsibilities at the peer group companies and were based on the compensation committee's review of the benchmarking data for the peer group companies provided by Exequity.

Further, given the base salary increases for each of our NEOs in fiscal year 2023, each NEO's target annual cash incentive award opportunity increased for fiscal year 2023.

The following table sets forth fiscal year 2023 target incentives for each of our NEOs as a percentage of base salary, the percentage of target incentive earned for each NEO as a percentage of base salary and the cash incentive award amounts that were paid to each NEO for fiscal year 2023 based on the achievement of the goals described above.

Named executive officer	Annual Incentive Plan target incentive percentage (%) ⁽¹⁾	Annual Incentive Plan target incentive (\$) ⁽²⁾	Percentage earned (%)	Cash incentive award amount (\$) ⁽³⁾
Bob Eddy	150	2,025,000	60	1,215,000
Laura Felice	85	637,500	60	382,500
Paul Cichocki	100	900,000	60	540,000
Jeff Desroches	75	487,500	60	292,500
Bill Werner	75	431,250	60	258,750

- (1) Fiscal year 2023 was 53 weeks long. Each executive's target incentive was a percentage of their base salary as of February 3, 2024.
- (2) Calculated as Annual Incentive Plan target incentive percentage multiplied by the NEO's annual salary.
- (3) Cash incentive award amounts earned for fiscal year 2023 were paid in March 2024.

Long-term incentive awards

For fiscal year 2023, each of our NEOs received long-term incentive awards comprised of performance share units and restricted stock awards. We designed these awards primarily to motivate, reward and retain our executive officers in a manner that best aligns their interests with the interests of our shareholders. Our executive officers earn performance share units based on the achievement of pre-defined cumulative adjusted EPS goals over a three-year performance period, determined by the compensation committee, and we believe these types of awards provide a direct line of sight for the NEOs between our financial performance and their long-term incentive rewards. Furthermore, the restricted stock component of our long-term incentive awards closely aligns the incentives provided by these awards with the interests of our shareholders as our executive officers benefit from restricted stock awards when the market price of our common stock increases and all changes to the value of stock, whether positive or negative, directly correspond to those experienced by our shareholders. Therefore, we believe that restricted stock awards and performance share units provide meaningful incentives to our executive officers to achieve increases in the value of our stock over time and are an effective tool for meeting our compensation goals of increasing long-term shareholder value by tying the value of the awards to our future performance and by aligning executive officer compensation with the interests of our shareholders.

Historically, when determining the amount and terms of equity compensation awards, we considered, among other things, market information provided by Exequity, individual performance history, job scope, function, title, outstanding and unvested equity awards and comparable awards granted to other executives at similar levels at the peer group companies. The compensation committee has also drawn upon the experience of its members in making such determinations.

Based on these considerations, the compensation committee determined to increase the long-term incentive award amounts for the NEOs for fiscal year 2023 in order to remain competitively positioned with their respective counterparties within the peer group companies and was based on the compensation committee's review of the benchmarking data for the peer group companies provided by Exequity.

Target Long-Term Incentive Values

Name	2023 (\$)	2022 (\$)	Change (%)
Bob Eddy	8,000,000	7,000,000	14.3
Laura Felice	1,700,000	1,500,000	13.3
Paul Cichocki	2,700,000	2,500,000	8.0
Jeff Desroches	1,500,000	1,400,000	7.1
Bill Werner	1,300,000	1,100,000	18.2

The following table sets forth the types of awards we granted, weighting (based on target value) allocated to each type of award for each of our NEOs and vesting terms of our long-term incentive compensation for fiscal year 2023:

Award type for NEOs	Weighting	Vesting terms
Performance share units	50%	Earned based on the achievement of cumulative adjusted EPS growth compared to goals established by the compensation committee and vest over the three-year performance period ending on January 31, 2026. The shares earned, if any, will cliff vest as of the end of the performance period, based on continued employment through such date.
Restricted stock	50%	Vest in three equal annual installments commencing on April 1, 2024, subject to continued employment through such dates.

Performance share unit awards

We granted performance share unit awards to our NEOs in fiscal year 2023 for 50% of their long-term incentive compensation awards. The performance share unit awards may be earned by our NEOs based on cumulative adjusted EPS growth achieved over a three-year performance period from January 29, 2023 to January 31, 2026. Cumulative adjusted EPS means the sum of the earnings per share, determined by the compensation committee in its sole discretion in accordance with generally accepted accounting practices in the United States, for each of the three fiscal years in the applicable performance period, adjusted to account for: (i) unusual or one-time items of expense or income, including without limitation, asset impairment charges, charges associated with closing or relocating of a club, charges related to debt refinancing or other capital market transactions; (ii) income or expense related to discontinued operations; (iii) restructuring charges including severance charges related to the restructuring and any other non-recurring or out of period charge as approved by the compensation committee and the tax impact of the foregoing adjustments on net income; (iv) the effects of acquisitions, divestitures, stock split-ups, stock dividends or distributions, recapitalizations, warrants or rights issuances or combinations, exchanges or reclassifications with respect to any outstanding class or series of our common stock; (v) a corporate transaction, such as any merger of the company with another corporation, any consolidation of the company and another corporation into another corporation, any separation of the company or its business units; or (vi) any reorganization of

TABLE OF CONTENTS

us, or any partial or complete liquidation or sale of all or substantially all of our assets. We use cumulative adjusted EPS to set our performance target under the performance share unit awards because we believe (a) it aligns closely with overall shareholder value and indicates our ability to create the same and (b) it is a metric commonly used by companies in our peer group and in the general industry. As each NEO's performance contributes to this metric, we believe it provides a fair and objective basis on which to evaluate each NEO's performance and to determine each NEO's performance share unit award.

The number of units that will be earned, as a percentage of the target number of units granted, is based on threshold, target and maximum levels of performance established by the compensation committee shortly after the beginning of fiscal year 2023, based on their assessment of the company outlook, which may result in variations in these established levels from year to year. For fiscal year 2023, consistent with prior years, the adjusted EPS performance levels were increased based on growth expectations for the business. If our cumulative adjusted EPS does not equal or exceed the threshold level established, then our NEOs will not be entitled to earn any shares pursuant to these performance share units. To the extent our performance falls between two of the established levels of performance, the percentage earned will be determined based on straight-line interpolation between the percentages that would have been earned for the established levels of performance. Pursuant to these levels of performance, each NEO could earn between 0% and 200%, respectively, of his or her target performance share units. The shares earned, if any, will cliff vest as of the end of the three-year performance period based on continued employment through such date.

The table below illustrates the relationship between level of achievement and the performance share unit awards earned as a percentage of target performance, with interpolation applying for amounts between levels.

Name	Fiscal year 2023 target amounts	
	Grant date fair value (\$)	Units (#) ⁽¹⁾
Bob Eddy	3,999,989	52,583
Laura Felice	849,930	11,173
Paul Cichocki	1,349,938	17,746
Jeff Desroches	749,974	9,859
Bill Werner	649,942	8,544

- (1) The target number of units granted to each of our NEOs was determined based on the target dollar value divided by the estimated grant date fair value per unit which was determined by using the fair market value of our common stock on March 31, 2023, the preceding trading day before the grant date (Saturday, April 1, 2023), which was \$76.07.

Status of Performance Share Unit Awards

We granted annual performance-based restricted share unit awards ("PSU Awards") to our NEOs in fiscal year 2020, with performance criteria relating to cumulative adjusted EPS growth during the performance period compared to goals established by the compensation committee for the performance period. During fiscal year 2021, we also granted one-time performance-based restricted share unit awards to Messrs. Eddy, Cichocki and Werner and Ms. Felice in connection with their promotions (each, a "PSU Promotion Award"), with the same performance criteria as the PSU Awards for the applicable performance period. See "— Outstanding equity awards at fiscal 2023 year-end" for additional discussion of the outstanding PSU Awards and PSU Promotion Awards.

The table below provides a summary of the 2020 PSU awards paid out in fiscal year 2023 which were paid out at 200% of Target Earned:

Name	PSU target shares	PSU vested shares
Bob Eddy	55,843	111,686
Laura Felice	—	—
Paul Cichocki	44,874	89,748
Jeff Desroches	27,921	55,842
Bill Werner	—	—

Restricted stock awards

We also granted restricted stock awards to our NEOs for fiscal year 2023. These awards comprise 50% of their long-term incentive compensation awards and vest in three equal annual installments commencing on April 1, 2024, subject to continued employment through such dates. The following table sets forth the restricted stock awards granted to each of our NEOs for fiscal year 2023.

(1) The number of shares granted to each of our NEOs was determined based on the target dollar value divided by the estimated grant date fair value per share which was determined by using the fair market value of our common stock on March 31, 2023, the preceding trading day before the grant date (Saturday, April 1, 2023), which was \$76.07.

Cash transition awards

In connection with the transition from non-qualified stock options to performance share units in fiscal year 2020, the compensation committee determined, after considering retention factors associated with the equity scheduled to vest each year given the new delayed vesting period associated with the performance shares units as opposed to the annual vesting associated with the non-qualified stock options, to grant cash transition awards equivalent to 25% of the annual long-term incentive award grant for fiscal year 2020 (and for Ms. Felice and Mr. Werner, for fiscal year 2021), with one-third of the cash transition award vesting after one year and the remaining two-thirds of the award vesting the year thereafter. The following table sets forth the cash transition awards paid in fiscal years 2023, 2022 and 2021.

Named executive officer	Fiscal Year 2023 transition award (\$) ⁽¹⁾	Fiscal year 2022 transition award (\$) ⁽²⁾	Fiscal year 2021 transition award (\$) ⁽³⁾
Bob Eddy	—	933,333	466,667

Paul Cichocki	—	—	—
Jeff Desroches	—	466,667	233,333
Bill Werner	125,000	62,500	—

(1) The cash transition awards for fiscal year 2023 were paid on April 7, 2023.

(2) The cash transition awards for fiscal year 2022 were paid on April 1, 2022.

(3) The cash transition awards for fiscal year 2021 were paid on April 1, 2021.

All cash transition awards have been paid and no further cash transition awards are outstanding. At this time, the Company does not anticipate granting new cash transition awards.

Other compensation components

401(k) plan

We have established a 401(k) retirement savings plan for our employees, including our NEOs, who satisfy certain eligibility requirements. Under the 401(k) plan, eligible employees may elect to reduce their current compensation by up to the prescribed annual limit and contribute these amounts to the 401(k) plan. This plan provides for company matching contributions of 50% of the first 6% of an employee's covered compensation.

Executive Retirement Plan and Non-Qualified Deferred Compensation Plan

Executive Retirement Plan

Until April 2023, we maintained an executive retirement plan (the "Executive Retirement Plan") in which a select group of our management and highly compensated employees were eligible to participate. Participants were selected by the compensation committee and were entitled to company contributions within 60 days of fiscal year end under the plan (the "Annual Retirement Contribution") if they were actively employed by the company on the last day of a plan year or if they were terminated prior to the end

TABLE OF CONTENTS

of the plan year due to (i) retirement on or after the attainment of age 55 or (ii) disability. Each year the company made an Annual Retirement Contribution to each participant under this plan with at least four years of credited service in an amount equal to at least 3% of the participant's after-tax base salary earned for such year. During fiscal year 2023, we made a contribution of 5% of each NEO's base salary, consistent with prior years. Annual Retirement Contributions to participants with at least four years of service were considered taxable income to the participants, and we made an additional tax gross-up contribution to each of these participants each year. For participants with less than four years of service by the end of the applicable plan year, the participant accrued the right to an Annual Retirement Contribution each year, and, subject to continued employment, in the plan year in which the participant was first credited with four years of service, the company made an aggregate retirement contribution on behalf of the participant equal to the amount of the Annual Retirement Contribution for the applicable plan year and the previous three plan years (along with a tax gross-up contribution). Notwithstanding the foregoing, we elected to make Annual Retirement Contributions on behalf of Mr. Cichocki though he had not yet achieved four years of credited service. If the employment of Mr. Cichocki is terminated prior to achieving four years of credited service, he will forfeit any company contributions made under the plan. Tax gross up payments will be made to Mr. Cichocki when he achieves four years of credited service. Upon a change of control, each participant with less than four years of credited service will become fully vested in any benefit accrued under the plan, and each participant will receive an Annual Retirement Contribution for the year in which the change of control occurs.

Participants generally could elect to invest their balance under the Executive Retirement Plan in a variety of different tax-deferred investment vehicles. However, the company selected the investments with respect to Annual Retirement Contributions made on behalf of Mr. Cichocki since he had not yet achieved four years of credited service.

Non-Qualified Deferred Compensation Plan

In November 2023, the compensation committee adopted the BJ's Wholesale Club, Inc. Non-Qualified Deferred Compensation Plan (the "Executive NQDC Plan") effective on January 1, 2024.

Pursuant to the Executive NQDC Plan, a select group of management or highly compensated employees of the Company ("participants"), including the company's NEOs, are eligible to participate by making an annual irrevocable election to defer up to fifty percent (50%) of the participant's annual base salary, as well as up to one hundred percent (100%) of any annual cash incentive award. A participant will be 100% vested at all times in their elective deferral account within the Executive NQDC Plan. Deferred amounts are held for each participant in separate individual accounts in an irrevocable rabbi trust. The accounts are credited with earnings or losses based on the rate of return of notional investment options designated by the trustee of the rabbi trust and selected by the participant, which he or she may change at any time.

In addition, the company may elect, during any single plan year, to provide a discretionary contribution to the Executive NQDC Plan to a select management participant on such participant's behalf. Select eligible management participants include the company's NEOs.

No discretionary contribution under the Executive NQDC Plan was made by the company to our executives for fiscal year 2023.

The benefits under the Executive NQDC Plan will be paid to the participant, or in the event of death, to the participant's beneficiary, following the earliest of the participant's separation from service, death, disability, or the specified time elected by the participant, either in installments or in a lump sum payment in accordance with the terms of the Executive NQDC Plan and provisions established by the company. If a participant dies before receiving the full value of the deferral account balances, the designated beneficiary would receive a lump sum of the remaining balance.

Employee benefits and perquisites

We design our employee benefits programs to be affordable and competitive in relation to the market, as well as compliant with applicable laws and practices. We adjust our employee benefits programs as needed based upon regular monitoring of applicable laws and practices in the competitive market.

Additional benefits received by our employees, including our NEOs, include medical and dental benefits, flexible spending accounts, short-term and long-term disability insurance and accidental death and dismemberment insurance. We also provide basic life insurance coverage to our employees, as well as executive life insurance to certain key executives, including our NEOs. We reimburse certain financial counseling and estate planning expenses for certain executives, including our NEOs. We believe providing such perquisites enables us to provide a competitive package that allows us to attract and retain top talent.

In addition, Mr. Eddy is provided an allowance to use company aircraft for personal use. We have a written policy that sets forth guidelines and procedures regarding personal use of company aircraft. Mr. Eddy (and immediate family members traveling with him) may use our company aircraft for up to \$200,000 per calendar year of personal flight time. We do not reimburse for taxes relating to any imputed income for his personal travel and the personal travel of his family members when they are accompanying him. For fiscal year 2023, the aggregate incremental cost of Mr. Eddy's personal use of company aircraft was \$148,973. Such aggregate incremental cost of the personal use of our company aircraft reflects the marginal incremental private plane charter costs to the company and excludes any fixed contract costs.

We do not view perquisites, other than the use of company aircraft as discussed above, or other personal benefits as a significant component of our executive compensation program. We view the personal use of a company aircraft to be a significant benefit that

TABLE OF CONTENTS

assists us in attracting and retaining top talent while allowing our executives to serve the company without personal travel related distractions. In the future, we may provide perquisites or other personal benefits in limited circumstances, such as where we believe it is appropriate to assist an individual executive officer in the performance of his or her duties, to make our executive officers more efficient and effective, and for recruitment, motivation or retention purposes. All future practices with respect to perquisites or other personal benefits for our NEOs will be approved and subject to periodic review by the compensation committee and we do not expect such perquisites to become a significant component of our compensation program.

Severance and change in control benefits

We have entered into employment agreements with each of our NEOs and believe that it is in the best interests of our shareholders to extend the severance benefits set forth therein to our executives to reinforce and encourage retention and focus on shareholder value creation without distraction. In determining the appropriate severance entitlements to provide our NEOs, the compensation committee reviewed general market trends in consultation with our compensation consultant, Exequity. The material elements of these employment agreements are summarized below under “—Employment Agreements and Potential Payments Upon Termination or Change in Control.”

Executive stock ownership guidelines

In order to complement our compensation programs and further align the interests of our NEOs with those of our shareholders, our board adopted executive stock ownership guidelines pursuant to which (i) our chief executive officer is required to own equity in the company equal to at least five times his annual base salary, (ii) each executive vice president is required to own equity in the company equal to at least three times his or her annual base salary and (iii) each senior vice president is required to own equity in the company equal to at least one times his or her annual base salary. Please see the disclosure under “—Director and Executive Stock Ownership Guidelines” for more information.

Additional information

Anti-hedging and anti-pledging policy

None of our NEOs has engaged in any hedging transactions with respect to our common stock or pledged any of his or her shares of common stock in the company. Additionally, our board adopted an anti-hedging and anti-pledging policy, which applies to all of our directors, officers and certain designated employees. The policy prohibits our directors, officers and certain designated employees from engaging in hedging or monetization transactions, such as zero-cost collars and forward sale contracts, short sales and transactions in publicly traded options, such as puts, calls and other derivatives involving our equity securities and also prohibits the pledging of the company’s securities as collateral to secure loans.

Clawback policy

In fiscal year 2023, the company amended and restated its previously adopted clawback policy in accordance with the SEC’s rules and NYSE’s listing rules. The amended and restated clawback policy provides that in the event the company is required to prepare a material financial restatement, the company shall reasonably promptly recover the amount of cash and equity incentive compensation received by executive officers during the three completed fiscal years preceding the publication of a material financial restatement of the company’s financial statements that exceeds the amount that otherwise would have been received by the executive officer had such compensation been determined based on the restated amounts in the material financial restatement, computed without regard to any taxes paid. Our amended and restated clawback policy applies to all incentive compensation approved or awarded on or after October 2, 2023.

Tax and accounting considerations

Section 162(m) of the Internal Revenue Code

Generally, Section 162(m) of the Internal Revenue Code of 1986, as amended (the “Internal Revenue Code”), disallows a tax deduction to any publicly held corporation for any individual remuneration in excess of \$1 million paid in any taxable year to certain “covered employees.”

Our compensation committee believes that our shareholders’ interests are best served if its discretion and flexibility in awarding compensation is not restricted, even though some compensation awards may result in non-deductible compensation expense. Therefore, the compensation committee may implement programs that recognize a full range of criteria important to our success and to ensure that our executive officers are compensated in a manner consistent with our best interests and those of our shareholders, even where the compensation paid under such programs may not be deductible under Section 162(m) of the Internal Revenue Code.

Section 280G of the Internal Revenue Code

Section 280G of the Internal Revenue Code of 1986 (the “Internal Revenue Code”) disallows a tax deduction with respect to excess parachute payments to certain executives of companies which undergo a change in control. In addition, Section 4999 of the Internal Revenue Code imposes a 20% penalty on the individual receiving the excess payment. Parachute payments are compensation that is linked to or triggered by a change in control and may include, but are not limited to, incentive payments, severance payments,

TABLE OF CONTENTS

certain fringe benefits, and payments and acceleration of vesting from long-term incentive plans including stock options and other equity-based compensation. Excess parachute payments are parachute payments that exceed a threshold determined under Section 280G based on the executive's prior compensation. In approving the compensation arrangements for our NEOs in the future, the compensation committee will consider all elements of the cost to the company of providing such compensation, including the potential impact of Section 280G. However, the compensation committee may, in its judgment, authorize compensation arrangements that could give rise to loss of deductibility under Section 280G and the imposition of excise taxes under Section 4999 when it believes that such arrangements are appropriate to attract and retain executive talent.

Section 409A of the Internal Revenue Code

Section 409A of the Internal Revenue Code requires that "non-qualified deferred compensation" be deferred and paid under plans or arrangements that satisfy the requirements of the statute with respect to the timing of deferral elections, timing of payments and certain other matters. Failure to satisfy these requirements can expose employees and other service providers to accelerated income tax liabilities, penalty taxes and interest on their vested compensation under such plans. Accordingly, as a general matter, it is our intention to design and administer our compensation and benefits plans and arrangements for all of our employees and other service providers, including our NEOs, so that they are either exempt from, or satisfy the requirements of, Section 409A.

Accounting for stock-based compensation

We follow Financial Accounting Standards Board Accounting Standards Codification Topic 718, or ASC Topic 718, for our stock-based compensation awards. ASC Topic 718 requires companies to calculate the grant date "fair value" of their stock-based awards using a variety of assumptions. ASC Topic 718 also requires companies to recognize the compensation cost of their stock-based awards in their income statements over the period that an employee is required to render service in exchange for the award. Grants of restricted stock, restricted stock units, performance share units and other equity-based awards under our equity incentive award plans will be accounted for under ASC Topic 718. The compensation committee will regularly consider the accounting implications of significant compensation decisions, especially in connection with decisions that relate to our equity incentive award plans and programs. As accounting standards change, we may revise certain programs to appropriately align accounting expenses of our equity awards with our overall executive compensation philosophy and objectives.

(1) This amount reflects salary earned during the fiscal year, including any salary adjustments made during the fiscal year. Fiscal year 2023 was 53 weeks long.

(2) Amounts set forth in the Stock awards column represent the aggregate grant date fair value of awards granted in the respective fiscal year computed in accordance with ASC Topic 718. Please see “—Compensation Discussion and Analysis—Tax and Accounting Considerations—Accounting for Stock-Based Compensation” for further information regarding the calculation of these awards. The grant date fair value of the restricted stock awards granted during each respective year was calculated as the closing price per share of our common stock on the NYSE on the applicable date of grant multiplied by the number of shares granted. The grant date fair value of PSUs is reported based on the probable outcome of the performance conditions (target) on the grant date. Assuming performance at the maximum (200%) payout level, the value of PSUs granted in fiscal year 2023 was: Mr. Eddy, \$7,999,978; Ms. Felice, \$1,699,860; Mr. Cichocki, \$2,699,876; Mr. Desroches, \$1,499,948; and Mr. Werner, \$1,299,884. The value of the restricted stock awards and performance stock units granted to our NEOs for fiscal year 2023 is reflected in the Fiscal Year 2023 Grants of plan-based awards table below.

(3) Amounts reported reflect annual cash incentive awards earned by our NEOs pursuant to our Annual Incentive Plan related to the respective year’s performance, which was paid in March of the following year. Please see “—Compensation Discussion and Analysis—Annual Incentive Plan Awards” for further information regarding the Annual Incentive Plan and our annual cash incentive awards.

The performance share units granted to the NEOs are earned based on performance-based vesting hurdles, which are based on the achievement of cumulative adjusted EPS growth during fiscal years 2023, 2024 and 2025, with the shares earned, if any, also subject to vesting based on continued employment through the end of such three-year performance period.

Narrative disclosure to Summary Compensation Table and grants of plan-based awards table

Our executive compensation policies and practices, pursuant to which the compensation set forth in the Summary Compensation Table and grants of plan-based awards table for fiscal year 2023 was paid or awarded, are described above under “— Compensation Discussion and Analysis.”

In fiscal year 2023, we granted restricted stock awards and performance share unit awards to each of our NEOs. All awards were granted pursuant to the 2018 Plan, as described above in the grants of plan-based awards table for fiscal year 2023. The vesting of each award is subject to acceleration and post-termination exercisability in connection with the death or disability of the NEO as well as certain termination triggering events described below under “— Employment Agreements and Potential Payments Upon Termination or Change in Control.” To the extent we pay dividends in the future, dividends otherwise payable with respect to unvested shares of restricted stock will be retained by us and will only be paid if and when the underlying shares of restricted stock vest.

The terms of the employment agreements that we have entered into with our NEOs are described below under “— Employment Agreements and Potential Payments Upon Termination or Change in Control.”

Assuming our relative performance for the three-year performance period through the end of fiscal year 2023, these awards would have been earned at a level of maximum performance, i.e., 200% of the target amount. Assuming our relative performance for the three-year performance period through the end of fiscal year 2023, these awards would have been earned at a level of maximum performance, i.e., 200% of the target amount. In accordance with SEC rules, these awards are reflected in the table as maximum performance (i.e., 200% of the target amount).
- (9) Represents performance share units granted in fiscal year 2021 in connection with promotions for Ms. Felice to executive vice president, chief financial officer; Mr. Cichocki to executive vice president, chief commercial officer; and Mr. Werner to executive vice president, strategy and development, which provided them the ability to earn and receive shares of common stock equal to between 50% and 200% of the number of performance share units subject to the award after the end of the three-year performance period that began on January 30, 2021 to February 3, 2024 based on the achievement of cumulative adjusted EPS growth over such performance period, with the shares earned, if any, also subject to vesting based on continued employment through the end of such three-year performance period. In accordance with SEC rules, these awards are reflected in the table as maximum performance (i.e., 200% of the target amount).

- (13) Represents performance share units granted in fiscal year 2021 in connection with Mr. Werner's leadership with the strategic evaluation of the company's co-branded credit card program. 50% of the performance share units may vest on each of September 27, 2025 or September 27, 2026, subject to continued employment through the end of the applicable performance period and the co-brand spend during such performance period (the "performance target"). The compensation committee will determine the achievement of the performance goals within the ninety-day period following the end of the performance period. If the performance target is not achieved, 50% of the applicable tranche of the performance share units may vest if the co-brand spend during the applicable performance period is at least 90% of the performance target (the "floor") and up to 200% of the shares subject to the performance share units may vest upon achievement of 100% of the performance target during the applicable performance year (the "maximum"). Achievement of co-brand spend between the floor, performance target and maximum levels are determined by linear interpolation, provided that if co-brand spend is less than the floor, no shares under the applicable performance share unit tranche will vest. These awards are currently expensed at target and are being reflected in the table at target performance (i.e. 100% of the target amount).

Option exercises and stock vested for fiscal year 2023

The following table sets forth the aggregate number of options to purchase shares of our common stock exercised by our NEOs in fiscal year 2023 and the aggregate number of shares of restricted stock and performance share units that vested in fiscal year 2023. The value realized on exercise of options is the product of (1) fair market value of a share of our common stock on the date of exercise minus the exercise price, multiplied by (2) the number of shares of common stock underlying the exercised options. The value realized on vesting of stock awards is the product of (i) the closing price of our common stock on the NYSE on the vesting date (or, if there were no reported sales on such date, the most recent previous date on which sales were reported), multiplied by (ii) the number of shares vesting.

Employment agreements and potential payments upon termination or change in control

The following section describes the employment agreements that we have, or had, as applicable with our NEOs as well as other severance or change in control arrangements or policies, including applicable terms of equity awards. The company, in its discretion, may also decide to provide payments or benefits that are not specifically required to these agreements, arrangements or policies in connection with any particular termination or change in control.

NEO employment agreements

BJ’s Wholesale Club, Inc. has entered into employment agreements with each of Mr. Eddy, dated as of January 30, 2011; Ms. Felice, dated May 10, 2021, Mr. Cichocki, dated as of January 30, 2020; Mr. Desroches, dated as of April 18, 2018; and Mr. Werner dated as of May 10, 2021. The initial term of Mr. Eddy’s employment agreement was for a period of five years, ending on January 30, 2016, after which he was to remain employed by the company subject to the termination provisions of his agreement; none of Ms. Felice’s

TABLE OF CONTENTS

or Messrs. Cichocki's, Desroches' or Werner's employment agreements specified a term of employment. Mr. Eddy is subject to a 24-month post termination non-competition covenant, a 24-month post-termination non-solicitation covenant, and a perpetual confidentiality covenant. Ms. Felice and Messrs. Cichocki, Desroches and Werner are each subject to a 12-month post termination non-competition covenant, a 24-month post-termination non-solicitation covenant, and a perpetual confidentiality covenant.

Pursuant to each employment agreement (except for Mr. Eddy), the company has certain obligations that become due in the event of termination. If any of Ms. Felice and Messrs. Cichocki, Desroches and Werner are terminated by the company without cause (as defined in the applicable employment agreement), then, subject to the executive entering into a binding and irrevocable release of claims and the executive's continued compliance with the applicable post-termination non-competition, non-solicitation and confidentiality provisions, each executive is entitled to receive (i) a continuation of his base salary for a period of 24 months after termination, (ii) an amount equal to the difference between the executive's actual COBRA premium costs and the amount the executive would have paid had he continued coverage as an employee under the company's applicable health plans for up to 24 months, subject to earlier termination in specified instances and payable over such period, (iii) a pro rata portion of any amounts the executive would have been entitled to receive under the company's Annual Incentive Plan had she or he remained employed by the company until the end of the fiscal year during which termination occurred, payable in lump sum and (iv) any other payments or benefits arising from the executive's participation in other company plans to the extent such plans provide for post-termination employment benefits.

Upon a termination due to death or disability, in addition to the accrued amounts, subject to the execution of a release of claims, each of the executives is eligible to receive (i) the annual cash incentive the executive would have been entitled to receive had he remained employed until the end of the fiscal year (prorated for the period of active employment during the fiscal year), and (ii) any other payments or benefits arising from the executive's participation in other company plans to the extent such plans provide for post-termination employment benefits.

On May 10, 2021, the company entered into an employment agreement with Mr. Eddy, in connection with his promotion to the office of president and chief executive officer of the company, effective April 19, 2021, which superseded his previous employment agreement described above. In fiscal year 2023, the compensation committee approved an increase in Mr. Eddy's annual base salary from \$1.2 million to \$1.35 million. Additionally, the compensation committee approved a fiscal year 2023 target annual cash incentive award opportunity equal to 150% of his annual base salary, and annual long-term incentive awards in the amount of \$8.0 million, consisting of 50% performance-based restricted stock units and 50% restricted stock, for a target total direct compensation for fiscal year 2023 equal to \$11.375 million. Mr. Eddy's current employment agreement also provides that on or after April 19, 2021, to the extent Mr. Eddy's employment is terminated without cause (as defined in such employment agreement), he is entitled to receive, in addition to any accrued amounts, subject to his entering into a binding and irrevocable release of claims and his continue compliance with the applicable post-termination non-competition, non-solicitation and confidentiality provisions, (i) an amount equal to the sum of (a) his base salary for a period of 12 months after termination and (b) his target annual cash incentive, payable in substantially equal installments in such manner and at such times as Mr. Eddy's base salary was being paid immediately prior to such termination (or if such termination occurs upon or following the occurrence of a change in control, such amount will be paid in a single lump sum); (ii) an amount equal to the difference between Mr. Eddy's actual COBRA premium costs and the amount he would have paid had he continued coverage as an employee under the company's applicable health plans for up to 12 months, subject to earlier termination in specified instances, (iii) if such termination had occurred on or after July 1st of a fiscal year, a pro rata portion of the annual cash incentive to which Mr. Eddy would have been entitled had he remained employed by the company until the end of the fiscal year, (iv) full accelerated vesting of any stock awards or stock options that are unvested and held by him as of the termination date and (v) any other payments or benefits arising from Mr. Eddy's participation in other company plans to the extent such plans provide for post-termination employment benefits. The employment agreement also includes provisions regarding termination due to death or disability that are the same as those contained in Mr. Eddy's prior employment agreement.

Equity awards

Generally, the terms of our 2018 Plan and the applicable award agreements entered into with our NEOs provide that, as of the date of an NEO's termination of employment, unvested options and restricted stock will automatically be forfeited, cancelled or repurchased, as applicable. However, all outstanding equity award agreements with our NEOs provide for, upon termination due to death or disability, as applicable: (i) full vesting of all time-based awards, including restricted stock awards and stock options, (ii) pro-rata vesting of all performance-based awards, including performance share units, based on actual performance as of the end of the applicable performance period, pro-rated based on the period of employment during the applicable performance period, and (iii) the extension of the post-termination exercise window for vested stock options from 90 days to three years. Additionally, in the event of a change in control, as defined in the 2018 Plan, any outstanding awards granted under the 2018 Plan (other than those subject to performance-based vesting) will continue in effect or be assumed or substituted by the successor of the company or the company, if the surviving entity, unless the compensation committee elects to (i) terminate such awards in exchange for cash, rights or property, or (ii) cause such awards to become fully exercisable and no longer subject to any forfeiture restrictions prior to the consummation of a change in control. Any awards subject to performance-based vesting terms will be treated as provided in the applicable award agreement or as determined by the compensation committee (or its successor) within its sole discretion. However, if the applicable NEO's employment is terminated without cause (as such term is defined in the sole discretion of the compensation committee or set forth in the applicable award agreement) upon or within the 24 month period following a change in control, then the vesting of any awards that were continued, assumed or substituted will accelerate and the NEO will become fully vested in such

awards. In the event of termination of employment with us, vested stock options granted under our 2018 Plan that would otherwise remain exercisable generally cease to be exercisable three months or 90 days after termination of employment, except in connection with a termination due to death or disability as discussed above. In the event of termination of employment with us, vested stock options under the 2011 Plan that would otherwise remain exercisable generally cease to be exercisable 90 days after termination of employment or, in the event of a termination due to death or disability, one year after termination of employment. All unexercised stock options are immediately forfeited in the event of a termination of employment for cause.

Annual Incentive Plan

Pursuant to the terms of the Annual Incentive Plan, if a participant's employment is terminated during a fiscal year due to death, retirement on or after age 65 or retirement on or after age 55 with a minimum of ten years of service, then the participant is entitled to a pro rata portion of the annual cash incentive to which the participant would have been entitled for that fiscal year under the Annual Incentive Plan had the participant remained employed by the company until the end of the fiscal year.

Summary of potential payments upon a termination or change in control

The following table summarizes the payments that would be made to our NEOs upon the occurrence of a qualifying termination of employment or change in control, assuming that each NEO's termination of employment with the company or a change in control occurred on February 3, 2024. Amounts shown do not include (i) accrued but unpaid salary through the date of termination, and (ii) other benefits earned or accrued by the NEO during his or her employment that are available to all salaried employees. Each of the payments below are subject to the NEOs compliance with certain restrictive covenants including, but not limited to, non-solicits and non-competes as provided in their respective employment agreements.

- (1) As set forth above under “—Equity Awards”, subsequent to January 30, 2021, the compensation committee determined to modify all applicable award agreements entered into with our NEOs to address the treatment of such awards upon the death of the NEO.
- (2) For valuation purposes, we have assumed the closing price of our common stock on the NYSE on February 2, 2024 (the last trading day prior to February 3, 2024) of \$64.51, and that the 2021 PSUs would be earned at 200% of target, the 2022 PSUs would be earned at a level between target and 200% of target, and the 2023 PSUs would be earned at a level below target. A pro rata portion of the PSUs shall vest based on the total number of PSUs multiplied by a fraction, the numerator of which shall be the number of calendar days from the first day of the performance period to the date of such termination due to death or disability and the denominator of which shall be the total number of days in the performance period.
- (3) Such amount includes 12 months’ base salary and the executive’s target annual cash incentive, payable in substantially equal installments for 12 months after termination and in a single lump sum in respect of a qualifying termination occurring on or following a change in control. This amount is also payable upon Mr. Eddy’s resignation for good reason as defined in Mr. Eddy’s employment agreement.
- (4) Such amount includes the difference between the executive’s actual COBRA premium costs and the amount the executive would have paid had he continued coverage as an employee under the company’s applicable health plans for 12 months. This amount is also payable upon a termination by Mr. Eddy for good reason as defined in Mr. Eddy’s employment agreement.
- (5) Includes shares of restricted stock. The value of unvested shares of restricted stock was calculated by multiplying the number of shares of unvested restricted stock by \$64.51, the closing price of our common stock on the NYSE on February 2, 2024 (the last trading day prior to February 3, 2024).
- (6) Includes performance stock units (“PSUs”). Performance condition will be deemed achieved at target, irrespective of actual achievement of the performance condition, and a pro rata portion of the PSUs shall vest based on the total number of PSUs multiplied by a fraction, the numerator of which shall be the number of calendar days from the first day of the performance period to the date of such change in control and the denominator of which shall be the total number of days in the performance period. The value was calculated by multiplying the number of pro-rate shares of stock by \$64.51, the closing price of our common stock on the NYSE on February 2, 2024 (the last trading day prior to February 3, 2024).
- (7) No amounts are shown because the executives already were fully vested in their annual cash incentives on February 3, 2024.
- (8) For Mr. Cichocki (i) the amount in the column relating to a change in control represents the value of all unvested amounts previously contributed under the Executive Retirement Plan, all of which would vest upon a change in control, plus the tax gross-up payment that would be made upon vesting and (ii) the amount in the column relating to termination due to death or disability represents the value all unvested balances in Mr. Cichocki’s account under the company’s 401(k) plan that would vest in such event. Generally, under the company’s 401(k) plan, participants vest in amounts attributable to the company’s matching contributions based on their years of service with the company, with 25% vesting for each year of service and participants with four or more years of service being fully vested. Participants not otherwise fully vested, will fully vest upon a termination due to death or disability or if they remain employed by the company at the time they reach age of 65.
- (9) Such amount includes 24 months’ base salary, payable in substantially equal installments for 24 months after termination.

Compensation risk assessment and management

We monitor our compensation policies and practices for our employees to determine whether they encourage unnecessary or excessive risk-taking. Due to the greater emphasis placed on incentive compensation at higher levels of our organization, and the fact that these individuals are more likely to make decisions that impact corporate performance and could have a material adverse effect on us, our review focuses primarily on our executive compensation policies and practices. We believe that the risks arising from our policies and practices for compensating employees are not reasonably likely to have a material adverse effect on us primarily because of the following reasons:

- **Vesting conditions.** Vesting schedules for restricted stock, performance share units and non-qualified stock options cause management to have a significant amount of unvested awards at any given time;
- **Balanced incentives.** Our executive compensation program has a meaningful focus on long-term equity compensation with fixed and variable features;
- **Multiple performance objectives.** Short-term or annual incentive compensation opportunities are capped and therefore do not incentivize employees to maximize short-term performance at the expense of long-term performance and annual cash incentive compensation is based on pre-established company financial metrics;
- **Recoupment protocols.** We have a clawback policy that will allow us to recoup incentive compensation in the event of a restatement or material miscalculation that resulted from fraud or other intentional misconduct by one of our executive officers;
- **Competitive alignment.** Our compensation levels and opportunities are in line with appropriate competitive practice;
- **Equity ownership requirements.** Our executives and directors are expected to maintain an ownership interest in the company, which an alignment of their interests with those of our shareholders; and
- **Incentive plan caps.** Executive incentive plans are capped at 200% of target.

Director and executive stock ownership guidelines

In order to complement our compensation programs and further align the interests of our NEOs with those of our shareholders, our board adopted director stock ownership guidelines and executive stock ownership guidelines pursuant to which the following persons are expected to own equity in the company with the following aggregate market values:

<u>Position</u>	<u>Stock ownership guidelines</u>
Chief executive officer	5x annual base salary
Executive vice president	3x annual base salary
Senior vice president	1x annual base salary
Non-employee director	5x annual cash retainer, excluding committee retainers or retainers paid for service as lead director

Our non-employee directors and our executive officers are expected to attain compliance with these ownership guidelines by the fifth anniversary of our IPO, if serving as a non-employee director or executive officer at the time of our IPO, or by the fifth anniversary of their appointment or election, in the case of a non-employee director, or their hire or promotion date, in the case of an executive officer. Thereafter, non-employee directors and executive officers are required to certify as to his or her compliance with these ownership guidelines at least once each year.

2023 CEO pay ratio

As required by Item 402(u) of Regulation S-K, the company is disclosing the following information about the relationship of the annual total compensation of our CEO and the median of the annual total compensation of our employees (other than the CEO) for fiscal year 2023:

- The total annual compensation of our CEO was \$10,858,552 as disclosed in the Summary Compensation Table.
- The annual total compensation of our median employee was \$25,708.
- The ratio of the total annual compensation of our CEO to the annual total compensation of our median employee was 422 to 1.

We identified the median employee for the fiscal year 2023 pay ratio using the following methodology and material assumptions. To identify the median of the total annual compensation of our active employees as of February 3, 2024, we used total wages from our payroll records for the period from January 29, 2023 (the first day of fiscal year 2023) through February 3, 2024 (the last day of fiscal year 2023); we included any full-time, part-time, temporary or seasonal employees, but excluded our CEO; and we did not annualize compensation for any full-time or part-time permanent employees who were employed by the company on January 29, 2023 but did not work for us the entire year or make any full-time equivalent adjustments for part-time employees. We consistently applied this compensation measure and methodology to all of our employees included in the calculation.²

We determined the annual total compensation for fiscal year 2023 of our median employee (who was calculated to be a part-time employee) in the same manner that we determine the total compensation of our named executive officers for purposes of the Summary Compensation Table.

This information is being provided for compliance purposes. The ratio presented herein is a reasonable estimate and may not be comparable to the pay ratio presented by other companies. Neither the compensation committee nor management of the company used the pay ratio measure in making compensation decisions.

² The calculation of the annual total compensation of our median employee for fiscal years prior to 2023 was corrected to include annual incentive amounts in the year incentives are earned instead of the year incentives are paid.

Proposal 3 Ratification of appointment of independent registered public accounting firm

The audit committee appoints our independent registered public accounting firm. In this regard, the audit committee evaluates the qualifications, performance and independence of our independent registered public accounting firm and determines whether to re-engage our current firm. As part of its evaluation, the audit committee considers, among other factors, the quality and efficiency of the services provided by the firm, including the performance, technical expertise, industry knowledge and experience of the lead audit partner and the audit team assigned to our account, the overall strength and reputation of the firm, the firm's global capabilities relative to our business and the firm's knowledge of our operations. PricewaterhouseCoopers LLP has served as our independent registered public accounting firm since 1996. Neither the accounting firm nor any of its members has any

direct or indirect financial interest in or any connection with us in any capacity other than as our auditors and providing audit and permissible non-audit related services. Upon consideration of these and other factors, the audit committee has appointed PricewaterhouseCoopers LLP to serve as our independent registered public accounting firm for fiscal year 2024.

The board unanimously recommends that you vote “FOR” the ratification of PricewaterhouseCoopers LLP as our independent registered public accounting firm.

Although ratification is not required by our bylaws or otherwise, the board is submitting the appointment of PricewaterhouseCoopers LLP to our shareholders for ratification because we value our shareholders' views on the company's independent registered public accounting firm and it is a good corporate governance practice. If our shareholders do not ratify the appointment, the audit committee will take that act into consideration, together with such other factors it deems relevant, in determining its next appointment of independent auditors. Even if the appointment is ratified, the audit committee, in its discretion, may select a different independent registered public accounting firm at any time during the year if it determines that such a change would be in the best interests of the company and its shareholders. Representatives of PricewaterhouseCoopers LLP are expected to attend the Annual Meeting and to have an opportunity to make a statement if they so desire and be available to respond to appropriate questions from shareholders.

Board recommendation

The board unanimously recommends you vote **FOR** the ratification of the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm for fiscal year 2024.

Audit, audit-related, tax and all other fees

The table below sets forth the aggregate fees billed to BJ's for services related to fiscal year 2023 and fiscal year 2022, respectively, by PricewaterhouseCoopers LLP, our independent registered public accounting firm.

	Fiscal year 2023 (\$)	Fiscal year 2022 (\$)
Audit fees ⁽¹⁾	3,378,587	3,300,238
Audit-related fees ⁽²⁾	75,174	—

All other fees ⁽⁴⁾	2,125	3,081
Total fees	3,628,729	3,517,120

- (1) Audit fees consisted of fees billed for professional services rendered for the audit of our consolidated annual financial statements, audit of the effectiveness of internal controls over financial reporting and review of the interim consolidated financial statements included in quarterly reports and services that are normally provided by the independent registered public accounting firm in connection with statutory and regulatory filings or engagements.
- (2) Audit-related fees consisted of fees billed for environmental, social and governance-related services.
- (3) Tax fees consisted of fees billed for professional services rendered for tax compliance, tax advice and tax planning. These services include assistance regarding federal and state tax compliance, tax planning and compliance work.
- (4) All other fees related to licenses for accounting research software.

Pre-approval policies and procedures

The formal written charter for our audit committee requires that the audit committee pre-approve all audit services to be provided to us, whether provided by our principal auditor or other firms, and all other services (review, attest and non-audit) to be provided to us by our independent registered public accounting firm, other than de minimis non-audit services approved in accordance with applicable SEC rules.

The audit committee has adopted a pre-approval policy that sets forth the procedures and conditions pursuant to which audit and non-audit services proposed to be performed by our independent registered public accounting firm may be pre-approved. This pre-approval policy generally provides that the audit committee will not engage an independent registered public accounting firm to render any audit, audit-related, tax or permissible non-audit service unless the service is either (i) explicitly approved by the audit committee or (ii) entered into pursuant to the pre-approval policies and procedures described in the pre-approval policy. Unless a type of service to be provided by our independent registered public accounting firm has received this latter general pre-approval under the pre-approval policy, it requires specific pre-approval by the audit committee.

On an annual basis, the audit committee reviews and generally pre-approves the services (and related fee levels or budgeted amounts) that may be provided by the company's independent registered public accounting firm without first obtaining specific pre-approval from the audit committee. The audit committee may revise the list of general pre-approved services from time to time, based on subsequent determinations. Any member of the audit committee to whom the committee delegates authority to make pre-approval decisions must report any such pre-approval decisions to the audit committee at its next scheduled meeting. If circumstances arise where it becomes necessary to engage the independent registered public accounting firm for additional services not contemplated in the original pre-approval categories or above the pre-approved amounts, the audit committee requires pre-approval for such additional services or such additional amounts.

The services provided to us by PricewaterhouseCoopers LLP in fiscal year 2023 and fiscal year 2022 were provided in accordance with our pre-approval policies and procedures, as applicable.

Audit committee report

The audit committee operates pursuant to a charter which is reviewed periodically by the audit committee. Additionally, a brief description of the primary responsibilities of the audit committee is included in this Proxy Statement under the discussion of “Corporate Governance—Audit Committee.” Under the audit committee charter, management is responsible for the preparation, presentation and integrity of the company’s financial statements, the application of accounting and financial reporting principles and our internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. The independent registered public accounting firm is responsible for auditing our financial statements and expressing an opinion as to their conformity with accounting principles generally accepted in the United States.

In the performance of its oversight function, the audit committee reviewed and discussed with management the company’s audited financial statements for fiscal year 2023. The audit committee also discussed with the company’s independent registered public accounting firm the matters required to be discussed by the applicable requirements of the Public Company Accounting Oversight Board (the “PCAOB”) and the SEC. In addition, the audit committee received and reviewed the written disclosures and the letters from the company’s independent registered public accounting firm required by applicable requirements of the PCAOB, regarding such independent registered public accounting firm’s communications with the audit committee concerning independence and discussed with the Company’s independent registered public accounting firm their independence from the company.

Based upon the review and discussions described in the preceding paragraph, the audit committee recommended to the board that the company’s audited financial statements be included in its Annual Report on Form 10-K for fiscal year 2023 filed with the SEC.

Certain relationships and related person transactions

Review and approval of related person transactions

The board recognizes that transactions with related persons present a heightened risk of conflicts of interests and/or improper valuation (or the perception thereof). The board has adopted a written policy on transactions with related persons that is in conformity with the requirements for issuers having publicly held common stock listed on the NYSE. Our related person transaction policy requires that the audit committee approve or ratify related person transactions required to be disclosed pursuant to Item 404(a) of Regulation S-K (which are transactions in which we were or are to be a participant and the amount involved exceeds \$120,000 and in which any "related person" as defined under Item 404(a) of Regulation S-K had or will have a direct or indirect material interest). It is our policy that directors interested in a related person transaction will recuse themselves from any vote on a related person transaction in which they have an interest. Each of the transactions described below entered into following the adoption of our related person transaction policy was approved in accordance with such policy.

Indemnification agreements

Our bylaws provide that we indemnify our directors and officers to the fullest extent permitted by the Delaware General Corporation Law ("DGCL"), subject to certain exceptions contained in our bylaws. In addition, our charter provides that our directors will not be liable for monetary damages for breach of fiduciary duty.

TABLE OF CONTENTS

We have entered into indemnification agreements with each of our executive officers and directors. The indemnification agreements provide the indemnitees with contractual rights to indemnification, and expense advancement and reimbursement, to the fullest extent permitted under the DGCL, subject to certain exceptions contained in those agreements.

There is no pending litigation or proceeding naming any of our directors or officers for which indemnification is being sought, and we are not aware of any pending litigation that may result in claims for indemnification by any director or executive officer.

What is the purpose of the Annual Meeting?

The purpose of the Annual Meeting is to vote on the following items described in this Proxy Statement:

- ❖ **Proposal 1:** Election of nine director nominees;
- ❖ **Proposal 2:** Approval, on an advisory (non-binding) basis, of the compensation of our named executive officers; and
- ❖ **Proposal 3:** Ratification of the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm for fiscal year 2024.

Are there any matters to be voted on at the Annual Meeting that are not included in this Proxy Statement?

As of the date this Proxy Statement went to press, we did not know of any matters to be properly presented at the Annual Meeting other than those referred to in this Proxy Statement. If other matters are properly presented at the Annual Meeting or any continuation, postponement or adjournment thereof for consideration, and you are a shareholder of record and have submitted a proxy card, the persons named in your proxy card will have the discretion to vote on those matters for you.

Who is entitled to attend and vote at the Annual Meeting?

The board has set April 29, 2024 as the record date for the Annual Meeting. All persons who were registered holders of BJ’s Wholesale Club Holdings, Inc. common stock at the close of business on that date are shareholders of record for the purposes of the Annual Meeting and will be entitled to receive notice of, to attend and to vote at, the Annual Meeting

or any continuation, postponement or adjournment thereof. At the close of business on the record date, there were 132,814,971 shares of our common stock issued and outstanding and entitled to vote. Each share of our common stock is entitled to one vote on any matter presented to shareholders at the Annual Meeting.

Beneficial owners who, at the close of business on the record date, held their shares in an account with a broker, bank or other holder of record generally cannot vote their shares directly and instead must instruct the record holder how to vote their shares. See “How Do I Vote?—Beneficial Owners” below for more information.

How do I vote?

Registered shareholders (that is, shareholders who hold shares in their own name) can vote in any of the following ways:

- ❖ **Via the internet:** Go to www.proxyvote.com to vote via the Internet using the 16-digit control number you were provided on your proxy card or Notice of Internet Availability. You will need to follow the instructions on the website.
- ❖ **By QR code:** Scan the QR code located on your proxy card or Notice of Internet Availability to access www.proxyvote.com and vote your shares online. Additional software may be required for scanning.
- ❖ **By telephone:** Call 1 (800) 690-6903 from the United States. You will need to use the 16-digit control number you were provided on your proxy card or Notice of Internet Availability, and follow the instructions given by the voice prompts.
- ❖ **By mail:** If you received a paper copy in the mail of the Proxy Materials and a proxy card, you may mark, sign, date and return your proxy card in the enclosed postage-paid envelope. You may also appoint a proxy to attend, speak and vote your shares at the Annual Meeting by submitting the proxy card and delivering such proxy to the company’s general counsel and secretary at 350 Campus Drive, Marlborough, Massachusetts 01752. The proxy need not be a registered shareholder. Proxies must be received by the deadlines set forth below under “What Are the Deadlines to Submit My Vote?”

If you sign and return your proxy, but do not give voting instructions, the shares represented by that proxy will be voted as recommended by the board as described in this Proxy Statement. If any other matters are properly brought up at the Annual Meeting (other than the proposals contained in this Proxy Statement), then the named proxies will have the authority to vote your shares on those matters in

accordance with their discretion and judgment. The board currently does not know of any matters to be raised at the Annual Meeting other than the proposals contained in this Proxy Statement.

If you vote via the Internet or by telephone, your electronic vote authorizes the named proxies in the same manner as if you signed, dated and returned a proxy card by mail.

Beneficial owners that is, shareholders whose shares are held in the name of a bank, broker or other holder of record (sometimes referred to as holding shares in “street name”), will receive voting instructions from the holder of record. You must follow the instructions of such broker, bank or other holder of record in order for your shares to be voted.

Can I revoke my proxy or change my vote after I have voted?

Yes. If you are a registered shareholder and previously voted by Internet, telephone, scanning a QR code or mail, you may revoke your proxy or change your vote by:

- voting online at the Annual Meeting;
- voting again by Internet, telephone or scanning the QR code as set forth above before the closing of those voting facilities at 11:59 pm EDT on June 19, 2024;
- mailing a proxy card that is properly signed and dated with a later date than your previous vote and that is received no later than 11:59 pm EDT on June 19, 2024; or
- sending a written notice of revocation to our general counsel and secretary, c/o BJ's Wholesale Club Holdings, Inc., 350 Campus Drive, Marlborough, Massachusetts 01752, which must be received before the commencement of the Annual Meeting.

If you hold shares in street name, you may submit new voting instructions by contacting your broker, bank or other nominee. You may also change your vote or revoke your proxy at the Annual Meeting if you obtain a signed proxy from the record holder (broker, bank or other nominee) giving you the right to vote the shares.

Your most recent proxy card or telephone or Internet proxy is the one that is counted. Your attendance online (without further action) at the Annual Meeting by itself will not revoke your proxy unless you give written notice of revocation to the company before your proxy is voted or you vote at the Annual Meeting.

What if I do not specify how my shares are to be voted?

If you submit a proxy but do not indicate any voting instructions, the persons named as proxies will vote in accordance with the recommendations of the board. The board's recommendations are set forth below under “How Does the Board Recommend That I Vote?”, as well as with the description of each proposal in this Proxy Statement.

How many shares must be present to hold the Annual Meeting?

In order to establish a quorum at the Annual Meeting, the holders of a majority in voting power of the company's common stock issued and outstanding and entitled to vote, must be present by remote communication or represented by proxy. If you sign and return your paper proxy card or authorize a proxy to vote electronically or telephonically, your shares will be counted to determine whether we have a quorum even if you abstain, withhold or fail to vote as indicated in the proxy materials.

Broker non-votes will also be considered present for the purpose of determining whether there is a quorum for the Annual Meeting.

What if a quorum is not present at the Annual Meeting?

If a quorum is not present or represented at the scheduled time of the Annual Meeting, then either (i) the chairperson of the Annual Meeting or (ii) a majority in voting power of the shareholders entitled to vote at the Annual Meeting, present by remote communication or represented by proxy, may adjourn the Annual Meeting until a quorum is present or represented.

How many votes are required to approve each proposal?

The table below further summarizes the proposals that will be voted on, the vote required to approve each item and how votes are counted:

Proposal	Votes required	Voting options	Impact of “withhold”, “abstain” or broker non-votes	Broker discretionary voting allowed
Proposal 1: Election of nine director nominees	The plurality of the votes cast. This means that the nine nominees receiving the highest number of affirmative “FOR” votes will be elected as directors.	“FOR ALL” “WITHHOLD ALL” “FOR ALL EXCEPT”	None ⁽¹⁾	No ⁽³⁾
Proposal 2: Approval, on an advisory (non-binding) basis, of the compensation of our named executive officers	The affirmative vote of the holders of a majority in voting power of the votes cast affirmatively or negatively (excluding abstentions and broker non-votes) at the Annual Meeting by the holders entitled to vote thereon.	“FOR” “AGAINST” “ABSTAIN”	None ⁽²⁾	No ⁽³⁾
Proposal 3: Ratification of appointment of independent registered public accounting firm	The affirmative vote of the holders of a majority in voting power of the votes cast affirmatively or negatively (excluding abstentions and broker non-votes) at the Annual Meeting by the holders entitled to vote thereon.	“FOR” “AGAINST” “ABSTAIN”	None ⁽²⁾	Yes ⁽⁴⁾

- (1) Votes that are “withheld” and broker non-votes will have the same effect as an abstention and will not count as a vote “FOR” or “AGAINST” a director, because directors are elected by plurality voting.
- (2) A vote marked as an “Abstention” or a broker non-vote is not considered a vote cast and will, therefore, not affect the outcome of this proposal.
- (3) As this proposal is not considered a discretionary matter, brokers lack authority to exercise their discretion to vote uninstructed shares on this proposal.
- (4) As this proposal is considered a discretionary matter, brokers are permitted to exercise their discretion to vote uninstructed shares on this proposal.

What is a “broker non-vote” and how does it affect voting?

A “**broker non-vote**” occurs when shares held by a broker in “street name” for a beneficial owner are not voted with respect to a proposal because:

- ❖ the broker has not received voting instructions from the shareholder who beneficially owns the shares; and
- ❖ the broker lacks the authority to vote the shares at their discretion.

Under current stock exchange interpretations that govern broker non-votes, each of Proposal 1 for the election of director nominees, Proposal 2 for approval, on an advisory (non-binding) basis and of the compensation of our named executive officers, is considered a non-discretionary matter, and a broker will lack the authority to vote uninstructed shares at their discretion on such proposal. Proposal 3 for ratification of the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm for fiscal year 2024, is considered a discretionary matter, and a broker will be permitted to exercise its discretion to vote uninstructed shares on the proposal.

How does the board recommend that I vote?

The board recommends that you vote:

- ❖ *FOR* each of the nominee’s election to the board set forth in this Proxy Statement.
- ❖ *FOR* the approval, on an advisory (non-binding) basis, of the compensation of our named executive officers.
- ❖ *FOR* the ratification of the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm for fiscal year 2024.

Who will pay for the cost of this proxy solicitation?

We will pay the cost of soliciting proxies. Proxies may be solicited on our behalf by directors, officers or employees (for no additional compensation) in-person or by telephone, electronic transmission and facsimile transmission. Brokers, banks and other nominees will be requested to solicit proxies or authorizations from beneficial owners and will be reimbursed for their reasonable expenses.

Householding of shareholder documents

SEC rules permit companies and intermediaries such as brokers to satisfy delivery requirements for proxy statements and notices with respect to two or more shareholders sharing the same address by delivering a single proxy statement or a single notice addressed to those shareholders. This process, which is commonly referred to as “**householding**,” provides cost savings for companies and helps the environment by conserving natural resources. Some brokers household proxy materials, delivering a single proxy statement or notice to multiple shareholders sharing an address unless contrary instructions have been received from the affected shareholders. Once you have received notice from your broker that they will be householding materials to your address, householding will continue until you are notified otherwise or until you revoke your consent. If, at any time, you no longer wish to participate in householding and would prefer to receive a separate proxy statement or notice, or if your household is receiving multiple copies of these documents and you wish to request that future deliveries be limited to a single copy, please notify your broker. You can also request prompt delivery of a copy of this Proxy Statement and the Annual Report by contacting the Broadridge Financial Solutions, Inc. at (866) 540-7095 or in writing at Broadridge, Householding Department, 51 Mercedes Way, Edgewood, New York 11717.
