## Item 8.01 Other Events

### Certain Litigation Relating to the Merger

As previously announced, Grubhub Inc., a Delaware Corporation (“Grubhub”), entered into an Agreement and Plan of Merger, dated as of June 10, 2020 (as amended on September 4, 2020 and March 12, 2021, the “Merger Agreement”), with Just Eat Takeaway.com N.V., a public company with limited liability (*naamloze vennootschap*) incorporated under the laws of the Netherlands (“Just Eat Takeaway.com”), Checkers Merger Sub I, Inc., a Delaware corporation and wholly owned subsidiary of Just Eat Takeaway.com, and Checkers Merger Sub II, Inc., a Delaware corporation and wholly owned subsidiary of Just Eat Takeaway.com, pursuant to which Just Eat Takeaway.com will acquire Grubhub in an all-share combination in accordance with the Merger Agreement (the “Transaction”).

In connection with the Transaction, fourteen complaints have been filed by alleged shareholders of Grubhub (collectively, the “Shareholder Complaints”): *Wang v. Grubhub, Inc., et al.*, Case No. 1:21-cv-3756, *Ferreiro v. Grubhub Inc., et al.*, Case No. 1:21-cv-03945 (the “Ferreiro Complaint”), *Dennis v. Grubhub Inc., et al.*, Case No. 1:21-cv-03983, *Johnson v. Grubhub Inc., et al.*, Case No. 1:21-cv-04104, *Brown v. Grubhub Inc., et al.*, Case No. 1:21-cv-04118 (the “Brown Complaint”), *Langlois v. Grubhub Inc., et al.*, Case No. 1:21-cv-04369 (the “Langlois Complaint”), *Litwin v. Grubhub Inc., et al.*, Case No. 1:21-cv-04581, *Heilmeier v. Grubhub Inc., et al.*, Case No. 1:21-cv-04687, *Luftig v. Grubhub Inc., et al.*, Case No. 1:21-cv-04704 and *Ryan v. Grubhub Inc., et al.*, Case No. 1:21-cv-04865 are individual actions that were filed in the United States District Court for the Southern District of New York (the “Litwin Complaint”); *Carrier v. Grubhub Inc., et al.*, Case No. 1:21-cv-02508 and *Lowinger v. Grubhub Inc., et al.*, Case No. 1:21-cv-02743 (the “Lowinger Complaint”) are individual actions that were filed in the United States District Court for the Eastern District of New York; *Williams v. Grubhub Inc., et al.*, Case No. 1:21-cv-00729 is an individual action filed in the United States District Court for the District of Delaware; *Waterman v. Grubhub Inc., et al.*, Case No. 2:21-cv-02414 is an individual action filed the United States District Court for the Eastern District of Pennsylvania. The Shareholder Complaints named as defendants Grubhub and members of its board of directors (the “Grubhub Board”) and allege, among other things, that the defendants violated Sections 14(a) and 20(a) of the U.S. Securities Exchange Act of 1934, as amended (the “Exchange Act”), and Rule 14a-9 promulgated thereunder by omitting supposedly material information from the preliminary proxy statement (the “Proxy Statement”) filed by Grubhub on April 27, 2021 with the Securities and Exchange Commission (“SEC”), rendering the filing false and/or misleading. The plaintiffs in the Ferreiro Complaint and Langlois Complaint further allege breaches of fiduciary duties by the members of the Grubhub Board as a result of an allegedly flawed and inadequate sales process, alleged potential conflicts of interest, and alleged failure to include information in the preliminary proxy statement. The plaintiffs in the Brown Complaint and Lowinger Complaint further allege that certain provisions in Merger Agreement are restrictive to Grubhub’s ability to consider other offers. The plaintiff in the Langlois Complaint alleges that Merger Consideration represents inadequate compensation for Grubhub shares and the plaintiffs in the Lowinger Complaint and Litwin Complaint allege that certain of Grubhub’s officers have significant financial interests in completing the Proposed Transaction because of potential payouts and positions in the combined company. The Shareholder Complaints seek various remedies, including, among other things, injunctive relief to prevent the consummation of the Transaction unless certain allegedly material information is disclosed, a directive that defendants exercise their fiduciary duties to obtain an acquisition which is in the best interest of Grubhub Stockholders, an award of attorneys’ fees and expenses, rescission of the Transaction or an award of damages should the Transaction be consummated. A separate alleged shareholder, who did not also file a complaint, sent a demand to the Grubhub Board requesting additional disclosures.

Grubhub and the other named defendants believe that the disclosures set forth in the Proxy Statement comply fully with all applicable law, that no supplemental disclosures are required under applicable law, and that the plaintiffs’ allegations in each of the Shareholder Complaints are without merit. However, in an effort to put the claims that were or could have been asserted to rest, to avoid nuisance and possible expense and transaction delays, and without admitting any liability or wrongdoing, Grubhub is making certain disclosures set forth below that supplement and revise those contained in the Proxy Statement. Nothing in this Current Report on Form 8-K shall be deemed an admission of the legal necessity or materiality under applicable law of any of the disclosures set forth herein. To the contrary, Grubhub and the other named defendants have denied, and continue to deny, that they have committed or assisted others in committing any violations of law, further deny all allegations that any disclosure was or is required or material, and expressly maintain that, to the extent applicable, they have complied with their respective legal obligations.

***The section of the Proxy Statement entitled “Grubhub Proposal I: Adoption of the Merger Agreement—Opinion of Grubhub’s Financial Advisor — Summary of Evercore’s Financial Analyses” starting on page 97 of the Proxy Statement is amended and supplemented as follows:***

*The disclosure under the subheading “—Discounted Cash Flow Analysis” starting on pages 97 and 98 of the Proxy Statement is amended and supplemented as follows (with new text underlined and deleted text struck through):*

“Grubhub

Evercore performed a discounted cash flow analysis of Grubhub to calculate the estimated present value of the standalone unlevered, after-tax free cash flows that Grubhub was forecasted to generate during Grubhub’s second, third and fourth quarter of fiscal year 2020 and fiscal years 2021 through 2024 based on the Grubhub financial projections (the “Grubhub Projections DCF”). Evercore calculated terminal values for Grubhub by applying terminal year multiples ranging from 16.0x to 20.0x, which range was selected by Evercore based on its professional judgment and experience, to the estimated terminal year adjusted EBITDA of Grubhub as reflected in the Grubhub financial projections (which analysis implied perpetuity growth rates for Grubhub for the period after 31 December 2024 ranging from 6.8% to 9.2%). The cash flows and terminal values in each case were then discounted to present value as of 31 March 2020 using discount rates ranging from 9.0% to 11.0%, which were based on an estimate of Grubhub’s weighted average cost of capital, as estimated by Evercore based on the Capital Asset Pricing Model (“CAPM”), and the mid-year cash flow discounting convention. Evercore derived a range of illustrative enterprise values for Grubhub by adding the ranges of present values for the cash flows and terminal values and the estimated present value as of 31 March 2020 of the tax savings of Grubhub attributed to its net operating losses calculated by applying the same range of discount rates referred to above. Evercore then subtracted from the range of illustrative enterprise values it calculated Grubhub’s net debt (defined as total debt, including lease liabilities, less cash and cash equivalents) of approximately \$203 million as of 31 March 2020, as calculated based on Grubhub’s public filings and information provided to Evercore by Grubhub management and approved for Evercore’s use by Grubhub management to derive a range of illustrative equity values for Grubhub. Evercore then divided the range of illustrative equity values it derived for Grubhub by the number of fully diluted outstanding Grubhub Shares, calculated using the treasury stock method, as provided to Evercore by Grubhub management and approved for Evercore’s use by Grubhub management. This analysis indicated a range of implied share prices per Grubhub Share of approximately \$40.63 to approximately \$55.58.

---

For reference purposes only and using the same method as described above for the Grubhub Projections DCF, Evercore also performed a discounted cash flow analysis of Grubhub based on the Grubhub financial projections and taking into account 50% of the estimated cost synergies (the “Grubhub Projections Plus Synergies DCF”). Evercore calculated a range of implied values of synergies by applying multiples ranging from 10.0x to 12.0x to the estimated cost synergies, which range was selected by Evercore based on its professional judgment and experience, and dividing the resulting range by 50%. Evercore then calculated the implied value of the synergies per Grubhub Share by dividing the range of implied synergies by the number of fully diluted outstanding Grubhub Shares, calculated using the treasury stock method, as provided to Evercore by Grubhub management and approved for Evercore’s use by Grubhub management. Evercore then added to the implied share prices of Grubhub Shares (as calculated above) the implied value of the synergies per Grubhub Share. This analysis indicated a range of implied share prices per Grubhub Share of approximately \$43.20 to approximately \$58.67.

#### Just Eat Takeaway.com

Evercore performed a discounted cash flow analysis of Just Eat Takeaway.com to calculate the estimated present value of the standalone unlevered, after-tax free cash flows that Just Eat Takeaway.com was forecasted to generate during Just Eat Takeaway.com’s fiscal years 2020 through 2029 based on the counterparty financial projections. Evercore calculated terminal values for Just Eat Takeaway.com by applying terminal year multiples ranging from 12.0x to 14.0x, which range was selected by Evercore based on its professional judgment and experience, to the estimated terminal year adjusted EBITDA of Just Eat Takeaway.com as reflected in the counterparty financial projections (which analysis implied perpetuity growth rates for Just Eat Takeaway.com for the period after 31 December 2029 ranging from of 2.6% to 5.3%). The cash flows and terminal values in each case were then discounted to present value as of 31 March 2020 using discount rates ranging from 9.0% to 11.0%, which were based on an estimate of Just Eat Takeaway.com’s weighted average cost of capital, as estimated by Evercore based on CAPM, and the mid-year cash flow discounting convention. Evercore derived a range of illustrative enterprise values for Just Eat Takeaway.com by adding the ranges of present values for the cash flows and terminal values and the estimated present value as of 31 March 2020 of the tax savings of Just Eat Takeaway.com attributed to unused tax losses, calculated by applying the same range of discount rates referred to above. Evercore then subtracted from the range of illustrative enterprise values it calculated Just Eat Takeaway.com’s estimated net debt (defined as total debt, including lease liabilities, less cash and cash equivalents) of approximately €20 million, as calculated based on information provided to Evercore by Just Eat Takeaway.com management and approved for Evercore’s use by Grubhub management and added Just Eat Takeaway.com’s unconsolidated assets of approximately €1.32 billion, which includes a 0.24% stake in Woowa Brothers, as calculated based on Delivery Hero’s proposed €3.6 billion acquisition per public filings and press releases, and a 33% stake in iFood, as calculated based on median of research analyst estimates, as calculated based on Takeaway.com N.V.’s public filings, certain publicly available research analyst reports for Just Eat Takeaway.com

and information provided to Evercore by Grubhub management and approved for Evercore's use by Grubhub management to derive a range of illustrative equity values for Just Eat Takeaway.com. Evercore then divided the range of illustrative equity values it derived for Just Eat Takeaway.com by the number of fully diluted outstanding Just Eat Takeaway.com Shares, calculated using the treasury stock method, as provided to Evercore by Just Eat Takeaway.com management and approved for Evercore's use by Grubhub management. This analysis indicated a range of implied share prices per Just Eat Takeaway.com Share of approximately €106.34 to approximately €136.68."

*The first sentence of the final paragraph on page 98 of the Proxy Statement is hereby amended and supplemented as follows (with new text underlined):*

"For reference purposes only, Evercore reviewed selected public market trading price targets for the Grubhub Shares prepared and published by twenty-one equity research analysts that were publicly available as of 9 June 2020."

*The first sentence of the first paragraph on page 99 of the Proxy Statement is hereby amended and supplemented as follows (with new text underlined):*

"For reference purposes only, Evercore reviewed selected public market trading price targets for the Just Eat Takeaway.com Shares prepared and published by thirteen equity research analysts that were publicly available as of 9 June 2020."

***The section of the Proxy Statement entitled "Grubhub Proposal I: Adoption of the Merger Agreement— Certain Unaudited Prospective Financial Information Prepared by Grubhub" starting on page 101 of the Proxy Statement is amended and supplemented as follows:***

*The table on page 103 of the Proxy Statement presenting a summary of the Grubhub financial projections and related footnotes are hereby replaced with the following:*

<i>(USD, in millions)</i>	<u>2020E</u>	<u>2021E</u>	<u>2022E</u>	<u>2023E</u>	<u>2024E</u>
