Washington, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2026

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 001-40396

Procore Technologies, Inc.

(Exact Name of Registrant as Specified in its Charter)

Delaware

(State or other jurisdiction of
incorporation or organization)

**6309 Carpinteria Avenue
Carpinteria, CA**

(Address of principal executive offices)

73-1636261

(I.R.S. Employer
Identification No.)

93013

(Zip Code)

Registrant's telephone number, including area code: (866) 477-6267

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common stock, \$0.0001 par value	PCOR	The New York Stock Exchange

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	<input checked="" type="checkbox"/>	Accelerated filer	<input type="checkbox"/>
Non-accelerated filer	<input type="checkbox"/>	Smaller reporting company	<input type="checkbox"/>
Emerging growth company	<input type="checkbox"/>		

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of May 1, 2026, the registrant had 150,890,216 shares of common stock, \$0.0001 par value per share, outstanding.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), about us and our industry that involve substantial risks and uncertainties. All statements other than statements of historical fact contained in this Quarterly Report on Form 10-Q are forward-looking statements regarding our future operating results and financial position, our business strategy and plans, market growth and trends, and our objectives for future operations. Forward-looking statements generally relate to future events or our future financial or operating performance. In some cases, you can identify forward-looking statements because they contain words such as "anticipate," "believe," "contemplate," "continue," "could," "estimate," "expect," "intend," "may," "plan," "potential," "predict," "project," "should," "target," "will," or "would," or the negative of these words or other similar terms or expressions that concern our expectations, strategy, plans, or intentions. These forward-looking statements include, but are not limited to, statements concerning the following:

- our expectations regarding our financial performance, including revenues, expenses, and margins, and our ability to achieve or maintain future profitability;
- our ability to effectively manage our growth and investments, including through our go-to-market ("GTM") operating model;
- anticipated performance, trends, growth rates, and challenges in our business and in the markets in which we currently or may in the future operate;
- economic and industry trends, in particular the rate of adoption of construction management software and digitization of the construction industry, inflation, and challenging macroeconomic and geopolitical conditions;
- our ability to attract new customers and retain and increase sales to existing customers;
- our ability to expand internationally;
- the effects of increased competition in our markets and our ability to compete effectively;
- our ability to develop new products, platform capabilities, services, and features, including bundled packages, and whether our customers and prospective customers will adopt these new products, platform capabilities, services, and features;
- our ability to successfully incorporate artificial intelligence ("AI") into our products, services, and platform, and deploy AI in our business operations;
- our ability to maintain, protect, and enhance our brand;
- the sufficiency of our cash to meet our cash needs for at least the next 12 months;
- future acquisitions, joint-ventures, or investments, including our strategic investments and investments in marketable securities;
- our ability to comply or remain in compliance with laws and regulations that currently apply or become applicable to our business in the United States ("U.S.") and internationally;
- our reliance on key personnel and our ability to attract, maintain, and retain management and skilled personnel;
- our expectations regarding the impact of litigation and other disputes on our business;
- the timing, price, and quantity of repurchases of shares of our common stock under our stock repurchase program, and our ability to fund any such repurchases;
- the future trading price of our common stock; and
- our ability to identify, assess, and manage cybersecurity threats and risks.

You should not rely on forward-looking statements as predictions of future events. We have based the forward-looking statements contained in this Quarterly Report on Form 10-Q primarily on our current expectations and projections about future events and trends that we believe may affect our business, financial condition, and operating results. The outcome of the events described in these forward-looking statements is

subject to risks, uncertainties, and other factors described in Part I, Item 1A, "Risk Factors" and elsewhere in our Annual Report on Form 10-K dated February 24, 2026 (our "2025 Form 10-K"). Moreover, we operate in a very competitive and rapidly changing environment. New risks and uncertainties emerge from time to time, and it is not possible for us to predict all risks and uncertainties that could have an impact on the forward-looking statements contained in this Quarterly Report on Form 10-Q. The results, events, and circumstances reflected in the forward-looking statements may not be achieved or occur, and actual results, events, or circumstances could differ materially from those described in the forward-looking statements.

In addition, statements that "we believe," and similar statements, reflect our beliefs and opinions on the relevant subject. These statements are based on information available to us as of the date of this Quarterly Report on Form 10-Q. While we believe that information provides a reasonable basis for these statements, that information may be limited or incomplete. Our statements should not be read to indicate that we have conducted an exhaustive inquiry into, or review of, all relevant information. These statements are inherently uncertain, and investors are cautioned not to rely on these statements.

The forward-looking statements made in this Quarterly Report on Form 10-Q relate only to events as of the date on which the statements are made. We undertake no obligation to update any forward-looking statements made in this Quarterly Report on Form 10-Q to reflect events or circumstances after the date of this Quarterly Report on Form 10-Q or to reflect new information or the occurrence of unanticipated events, except as required by law. We may not actually achieve the plans, intentions, or expectations disclosed in our forward-looking statements, and you should not rely on our forward-looking statements. Our forward-looking statements do not reflect the potential impact of any future acquisitions, mergers, dispositions, joint ventures, or investments.

Unless the context requires otherwise, references in this Quarterly Report on Form 10-Q to the "Company," "Procore," "we," "us," and "our" refer to Procore Technologies, Inc. and its consolidated subsidiaries.

Procore Technologies, Inc.
Notes to Condensed Consolidated Financial Statements (unaudited)

1. ORGANIZATION AND DESCRIPTION OF BUSINESS

Description of business

Procore Technologies, Inc. (together with its subsidiaries, “Procore” or the “Company”) provides a cloud-based construction management platform and related products and services that allow the construction industry’s key stakeholders, such as owners, general contractors, and specialty contractors, to collaborate on construction projects.

The Company was incorporated in California in 2002 and re-incorporated in Delaware in 2014. The Company is headquartered in Carpinteria, California, and has operations globally.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation

The accompanying condensed consolidated financial statements include the interim financial statements of Procore. The condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States (“GAAP” or “U.S. GAAP”) and are unaudited. Certain information and disclosures normally included in consolidated financial statements prepared in accordance with U.S. GAAP have been condensed or omitted. Accordingly, these condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and related notes for the year ended December 31, 2025. The condensed consolidated balance sheet information as of December 31, 2025 has been derived from the Company’s audited consolidated financial statements. The condensed consolidated financial statements have been prepared on a basis consistent with that used to prepare the audited annual consolidated financial statements and include, in the opinion of management, all adjustments, consisting of normal recurring items, necessary for the fair statement of the condensed consolidated financial statements. All intercompany balances and transactions have been eliminated in consolidation.

Use of estimates

The preparation of condensed consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the condensed consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. Management periodically evaluates its estimates and assumptions for continued reasonableness, primarily with respect to revenue recognition, the period of benefit of contract cost assets, the fair value of assets acquired and liabilities assumed in a business combination or asset acquisition, stock-based compensation expense, the recoverability of goodwill and long-lived assets, useful lives of long-lived assets, capitalization of software development costs, income taxes, including related reserves and allowances, provision for credit losses, incremental borrowing rates and estimation of lease terms applied in lease accounting, and self-insurance reserve estimates. Appropriate adjustments, if any, to the estimates used are made prospectively based upon such periodic evaluation. Management bases its estimates on historical experience and on various other assumptions that management believes to be reasonable. Actual results could differ from the Company’s estimates.

Segments

The Company operates as a single operating segment. Operating segments are defined as components of an enterprise for which separate financial information is evaluated regularly by the chief operating decision maker (“CODM”), in deciding how to allocate resources and assess performance. The Company’s CODM is its Chief Executive Officer (“CEO”).

In recent years, the Company has completed a number of acquisitions which have allowed it to expand its platform capabilities and related products and services. The Company generates substantially all of its revenue from subscriptions to access its software products and related support. While the Company provides different products and services, including as a result of its acquisitions, its business operates as one operating segment because its CODM evaluates the Company’s revenue, expenses, and assets as reported on the condensed

Procore Technologies, Inc.
Notes to Condensed Consolidated Financial Statements *(unaudited)*

consolidated income statement and balance sheet for purposes of assessing financial performance and allocating resources on a consolidated basis. The CODM uses consolidated revenue, expenses, and assets in deciding whether to invest into various parts of the Company, such as managing budgets and acquisitions. The measure of segment profit is income from operations. The CODM uses income from operations to assess financial performance and allocate resources.

Business combinations

The Company assesses whether an acquisition is a business combination or an asset acquisition. If substantially all of the gross assets acquired are concentrated in a single asset or group of similar assets, then the acquisition is accounted for as an asset acquisition where the purchase consideration is allocated on a relative fair value basis to the assets acquired. Goodwill is not recorded in an asset acquisition. If the gross assets are not concentrated in a single asset or group of similar assets, then the Company determines if the set of assets acquired represents a business. A business is an integrated set of activities and assets capable of being conducted and managed for the purpose of providing a return. Depending on the nature of the acquisition, judgment may be required to determine if the set of assets acquired is a business combination or not.

The Company applies the acquisition method of accounting for a business combination. Under this method of accounting, assets acquired and liabilities assumed are recorded at their respective fair values at the date of the acquisition. Any excess of the purchase price over the fair value of the net assets acquired is recognized as goodwill. During the measurement period, which may be up to one year from the acquisition date, the Company adjusts the provisional amounts of assets acquired and liabilities assumed with the corresponding offset to goodwill to reflect new information obtained about facts and circumstances that existed as of the acquisition date that, if known, would have affected the measurement of the amounts recognized as of that date. Upon the conclusion of the measurement period or final determination of the values of assets acquired or liabilities assumed, whichever comes first, any subsequent adjustments are recorded within the Company's condensed consolidated statements of operations and comprehensive loss.

Determining the fair value of assets acquired and liabilities assumed requires management's judgment and often involves the use of significant estimates and assumptions, including assumptions with respect to estimated level of effort and related costs of reproducing or replacing the assets acquired, future cash inflows and outflows, and discount rates, among other items. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Market participants are assumed to be buyers and sellers in the principal (most advantageous) market for the asset or liability. Additionally, fair value measurements for an asset assume the highest and best use of that asset by market participants. As a result, the Company may be required to value the acquired assets at fair value measures that do not reflect its intended use of those assets. Use of different estimates and judgments could yield different results.

Although the Company believes the assumptions and estimates it has made are reasonable and appropriate, they are based in part on historical experience and information that may be obtained from management of the acquired company and are inherently uncertain.

Marketable securities

Investments with stated maturities of greater than three months are classified as marketable securities, which consist of United States ("U.S.") treasury securities, commercial paper, corporate notes and obligations, and time deposits. All marketable securities held as of March 31, 2026 and December 31, 2025 are classified as available-for-sale debt securities, which are recorded at fair value. The Company's marketable securities are classified as either short-term or long-term in the accompanying condensed consolidated balance sheets based on the security's contractual maturity at the balance sheet date. The Company re-evaluates such classifications at each balance sheet date.

The Company periodically assesses its portfolio of marketable securities for impairment. The Company evaluates each investment in an unrealized loss position to determine if any portion of the unrealized loss is related to credit losses. In determining whether a credit loss may exist, the Company considers the extent of the

Procore Technologies, Inc.
Notes to Condensed Consolidated Financial Statements *(unaudited)*

unrealized loss position, any adverse conditions specifically related to the security or the issuer's operating environment, the pay structure of the security, the issuer's payment history, and any changes in the issuer's credit rating. Unrealized losses on marketable securities due to expected credit losses are recognized in other expense, net in the accompanying condensed consolidated statements of operations and comprehensive loss, and any excess unrealized gains and losses, net of tax, that are not due to expected credit losses are included in accumulated other comprehensive loss, a component of stockholders' equity. During the three months ended March 31, 2026 and 2025, there were no credit losses recorded on marketable securities. Interest recorded on marketable securities is recorded in interest income, with accretion of discounts, net of amortization of premiums, recorded in accretion income, net, on the accompanying condensed consolidated statements of operations and comprehensive loss.

Self-insurance reserves

The Company has elected to partially self-fund its health insurance plan. To reduce its risk related to high-dollar claims, the Company maintains individual stop-loss insurance. The Company estimates its exposure for claims incurred at the end of each reporting period, including claims not yet reported, with the assistance of an independent third-party actuary. As of March 31, 2026 and December 31, 2025, the Company's self-insurance accrual was \$3.1 million and \$3.2 million, respectively, included within other current liabilities on the accompanying condensed consolidated balance sheets.

Strategic investments

Investments in equity securities

The Company holds investments in equity securities of certain privately held companies, which do not have readily determinable fair values. The Company does not have a controlling interest or significant influence in these companies. The Company has elected to apply the measurement alternative to measure the non-marketable equity securities at cost, with remeasurements to fair value only upon the occurrence of observable price changes in orderly transactions for the identical or similar securities of the same issuer, or in the event of any impairment. This election is reassessed each reporting period to determine whether a non-marketable equity security has a readily determinable fair value, in which case the security would no longer be eligible for this election. All gains and losses on such equity securities, realized and unrealized, are recorded in other expense, net on the accompanying condensed consolidated statements of operations and comprehensive loss. The Company evaluates its non-marketable equity securities for impairment at each reporting period based on a qualitative assessment that considers various potential impairment indicators. If an impairment exists, a loss is recognized in the accompanying condensed consolidated statements of operations and comprehensive loss for the amount by which the carrying value exceeds the fair value of the investment.

Investments in limited partnership funds

The Company also holds investments in certain limited partnership funds. The Company does not hold a controlling interest or significant influence in these limited partnerships. The fair value of such investments is valued using the Net Asset Value ("NAV") provided by the fund administrator as a practical expedient.

Fair value measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs.

Procore Technologies, Inc.
Notes to Condensed Consolidated Financial Statements (unaudited)

Fair value measurements are based on a fair value hierarchy using three levels of inputs, of which the first two are considered observable and the last is considered unobservable, as follows:

- Level 1 Quoted prices in active markets for identical assets or liabilities.
- Level 2 Quoted prices for identical or similar assets and liabilities in markets that are not active or observable inputs other than quoted prices in active markets for identical or similar assets or liabilities.
- Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

As of March 31, 2026 and December 31, 2025, the carrying value of the Company's financial instruments included in current assets and current liabilities (including accounts receivable, accounts payable, and accrued expenses) approximate fair value due to the short-term nature of such items. The Company measures its cash held in money market funds, marketable securities, and investments in available-for-sale debt securities at fair value each reporting period. The estimation of fair value for available-for-sale debt securities in private companies requires the use of significant unobservable inputs, and as a result, the Company classifies these assets as Level 3 within the fair value hierarchy.

The Company's investments in equity securities of privately held companies are recorded at fair value on a non-recurring basis. For investments without a readily determinable fair value, the Company looks to observable transactions, such as the issuance of new equity by an investee, as indicators of investee enterprise value and uses them to estimate the fair value of the investments. The Company's investments in limited partnerships are valued using NAV as a practical expedient and therefore excluded from the fair value hierarchy.

Funds held for customers

Funds held for customers consist of customer cash deposits held by Procore Payment Services, Inc. ("Procore Payment Services"), a subsidiary of the Company, in connection with its money transmission activities. Procore Payment Services provides money transmission services between general contractors and subcontractors by collecting funds from the general contractors for payments to be remitted to their subcontractors via the Company's Procore Pay payment solution. These funds are deposited into the Company's bank accounts, where the Company acts as the custodian of the funds while processing payments to subcontractors. Such funds are restricted for the purpose of satisfying general contractors' fund obligations and are not available for general business use by the Company.

As of March 31, 2026 and December 31, 2025, the Company held \$12.8 million and \$9.0 million in customer funds, respectively, which are reported in prepaid expenses and other current assets, with a corresponding liability recorded in other current liabilities on the condensed consolidated balance sheets.

Cash, cash equivalents, and restricted cash

The Company classifies all investments that are readily convertible to known amounts of cash and have maturities of three months or less from the date of purchase as cash equivalents, which are carried at fair value. Cash includes cash held in checking and savings accounts. As of March 31, 2026 and December 31, 2025, cash equivalents were comprised of money market funds and highly liquid marketable securities with original maturities of three months or less that were recorded at fair value, which approximates amortized cost.

Restricted cash consists of (i) funds held for customers relating to Procore Payment Services and (ii) cash collateral required by a bank for the Company's corporate credit card program. As of March 31, 2026, \$12.8 million in restricted cash consisted of funds held for customers, and \$0.6 million in restricted cash relating to corporate credit cards. As of December 31, 2025, \$9.0 million in restricted cash consisted of funds held for customers, and \$0.6 million in restricted cash relating to corporate credit cards. The Company records restricted cash in prepaid expenses and other current assets in the condensed consolidated balance sheets, depending on the term of restriction set in the underlying agreement.

Procore Technologies, Inc.
Notes to Condensed Consolidated Financial Statements (unaudited)

Deferred revenue

Contract liabilities consist of revenue that is deferred when the Company has the contractual right to invoice in advance of transferring services to its customers. The Company recognized revenue of \$299.4 million and \$254.5 million during the three months ended March 31, 2026 and 2025, respectively, that was included in deferred revenue balances at the beginning of the respective periods.

Remaining performance obligations

The transaction price allocated to remaining performance obligations ("RPO") represents the contracted transaction price that has not yet been recognized as revenue, which includes deferred revenue and amounts under non-cancelable contracts that will be invoiced and recognized as revenue in future periods. The Company's current RPO represents future revenue under existing contracts that is expected to be recognized as revenue in the next 12 months. As of March 31, 2026, the aggregate amount of the transaction price allocated to RPO was \$1.6 billion, of which the Company expects to recognize \$1.0 billion, or approximately 65%, as revenue in the next 12 months, and substantially all of the remaining \$0.6 billion between 12 and 36 months thereafter.

3. INVESTMENTS

Marketable securities

Marketable securities consisted of the following as of March 31, 2026 (in thousands):

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
U.S. treasury securities	\$ 85,645	\$ 53	\$ (64)	\$ 85,634
Corporate notes and obligations	119,842	48	(46)	119,844
Total marketable securities	\$ 205,487	\$ 101	\$ (110)	\$ 205,478

Marketable securities consisted of the following as of December 31, 2025 (in thousands):

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
U.S. treasury securities	\$ 131,832	\$ 205	\$ (1)	\$ 132,036
Commercial paper	14,308	2	—	14,310
Corporate notes and obligations	183,726	265	(6)	183,985
Total marketable securities	\$ 329,866	\$ 472	\$ (7)	\$ 330,331

The following table summarizes the estimated fair value of investments classified as marketable securities by contractual maturity date (in thousands):

	March 31, 2026	December 31, 2025
Due within 1 year	\$ 205,478	\$ 287,802
Due in 1 to 2 years	—	42,529
Total marketable securities	\$ 205,478	\$ 330,331

During the three months ended March 31, 2026 and 2025, there were maturities of marketable securities of \$18.4 million and \$135.8 million, respectively. There were \$106.8 million sales of marketable securities during the three months ended March 31, 2026. There were no sales of marketable securities during the three months ended March 31, 2025. Realized gains and losses on sales of marketable securities are recorded in other

Procore Technologies, Inc.
Notes to Condensed Consolidated Financial Statements (unaudited)

expense, net on the condensed consolidated statements of operations and comprehensive loss. Such gains and losses were immaterial during the three months ended March 31, 2026 and 2025. There were no impairments of marketable securities during the three months ended March 31, 2026 or 2025.

Strategic investments

Strategic investment activity during the three months ended March 31, 2026 is summarized as follows (in thousands):

	Equity Securities	Limited Partnerships	Total
Balance as of December 31, 2025	\$ 8,216	\$ 8,413	\$ 16,629
Purchases of strategic investments	—	531	531
Unrealized gain on strategic investments	—	104	104
Balance as of March 31, 2026	<u>\$ 8,216</u>	<u>\$ 9,048</u>	<u>\$ 17,264</u>

Strategic investment activity during the three months ended March 31, 2025 is summarized as follows (in thousands):

	Equity Securities	Limited Partnerships	Total
Balance as of December 31, 2024	\$ 8,685	\$ 5,669	\$ 14,354
Purchases of strategic investments	—	550	550
Unrealized gain on strategic investments	—	228	228
Impairment losses	(452)	—	(452)
Balance as of March 31, 2025	<u>\$ 8,233</u>	<u>\$ 6,447</u>	<u>\$ 14,680</u>

Strategic investments are recorded in other assets on the accompanying condensed consolidated balance sheets. As of March 31, 2026, in connection with the Company's investments in limited partnerships, it has a contractual obligation to provide additional investment funding of up to \$6.1 million at the option of the investees.

Procore Technologies, Inc.
Notes to Condensed Consolidated Financial Statements (unaudited)

4. FAIR VALUE OF FINANCIAL INSTRUMENTS

Financial assets measured at fair value on a recurring basis within the fair value hierarchy are summarized as follows (in thousands):

	March 31, 2026		
	Level 1	Level 2	Total
Cash equivalents:			
Money market funds	\$ 305,713	\$ —	\$ 305,713
Marketable securities:			
U.S. treasury securities	85,634	—	85,634
Corporate notes and obligations	—	119,844	119,844
Total	<u>\$ 391,347</u>	<u>\$ 119,844</u>	<u>\$ 511,191</u>
	December 31, 2025		
	Level 1	Level 2	Total
Cash equivalents:			
Money market funds	\$ 403,979	\$ —	\$ 403,979
Marketable securities:			
U.S. treasury securities	132,036	—	132,036
Commercial paper	—	14,310	14,310
Corporate notes and obligations	—	183,985	183,985
Total	<u>\$ 536,015</u>	<u>\$ 198,295</u>	<u>\$ 734,310</u>

5. LEASES

The Company has primarily entered into lease arrangements for office space, in addition to other miscellaneous equipment. The Company's leases have initial non-cancelable lease terms ranging from one to 14 years. Some of the Company's leases include an option for it to extend the term of the lease for up to 14 years.

Procore Technologies, Inc.
Notes to Condensed Consolidated Financial Statements (unaudited)

Supplemental information related to leases is as follows (in thousands):

	March 31, 2026	December 31, 2025
Operating Leases		
Operating right of use assets	\$ 47,900	\$ 36,024
Amount included within other current liabilities	6,232	5,019
Operating lease liabilities, non-current	58,848	45,855
Total operating lease liabilities	\$ 65,080	\$ 50,874
Finance Leases		
Finance right of use assets	\$ 19,169	\$ 19,619
Amount included within other current liabilities	1,792	1,771
Finance lease liabilities, non-current	26,112	26,557
Total finance lease liabilities	\$ 27,904	\$ 28,328
	March 31, 2026	December 31, 2025
Weighted-average remaining lease term (in years)		
Finance leases	11.0	11.2
Operating leases	10.3	10.2
Weighted-average discount rate		
Finance leases	3.80 %	3.80 %
Operating leases	6.01 %	6.04 %

Maturities of lease payments, net of tenant improvement reimbursement, for leases where the lease commencement date commenced on or prior to March 31, 2026 are as follows (in thousands):

Period Ended December 31,	Operating	Finance	Total
2026 ⁽¹⁾	\$ 3,473	\$ 2,126	\$ 5,599
2027	4,647	2,804	7,451
2028	10,008	2,870	12,878
2029	8,337	2,956	11,293
2030	9,094	3,045	12,139
2031	6,916	3,136	10,052
Thereafter	51,270	17,560	68,830
Total lease payments, net of tenant improvement reimbursement	\$ 93,745	\$ 34,497	\$ 128,242
Less imputed interest	(28,665)	(6,593)	(35,258)
Total	\$ 65,080	\$ 27,904	\$ 92,984

(1) For the nine months from April 1, 2026 through December 31, 2026.

Procore Technologies, Inc.
Notes to Condensed Consolidated Financial Statements (unaudited)

6. BUSINESS COMBINATIONS***Datagrid***

On January 16, 2026, the Company completed the acquisition of all outstanding equity of Toric Labs, Inc. (d/b/a Datagrid) (“Datagrid”), a leader in agentic artificial intelligence (“AI”) solutions for the construction industry, to accelerate the Company’s AI strategy and deliver advanced reasoning and data connectivity capabilities for its customers. The purchase consideration was \$168.0 million in cash.

The preliminary purchase consideration was allocated to the following assets and liabilities at the acquisition date (in thousands):

	Fair Value	Useful Life
Assets acquired		
Cash and cash equivalents	\$ 9,073	
Accounts receivable	832	
Prepaid expenses and other current assets	1,039	
Developed technology intangible asset	50,500	7 years
Customer relationships intangible asset	4,000	10 years
Goodwill	114,926	
Total assets acquired	<u>\$ 180,370</u>	
Liabilities assumed		
Accounts payable	(343)	
Accrued expenses	(58)	
Deferred revenue, current	(2,073)	
Other current liabilities	(5,798)	
Net deferred tax liabilities	(4,128)	
Total liabilities assumed	<u>\$ (12,400)</u>	
Net assets acquired	<u><u>\$ 167,970</u></u>	

Developed technology intangible asset represents the fair value of Datagrid’s technology, which was valued considering the cost to rebuild method. Key assumptions under the cost to rebuild method include the estimated level of effort and related costs of reproducing or replacing the acquired technology. Developed technology is amortized on a straight-line basis, which approximates the pattern in which the economic benefits of the technology are consumed, over its estimated useful life of seven years. The amortization expense is recorded in cost of revenue in the accompanying condensed consolidated statements of operations and comprehensive loss.

Customer relationships represent the fair value of the underlying relationships with Datagrid’s existing customers, which were valued using the excess earnings method. Key assumptions under the excess earnings method include estimated future revenues, costs, cash flows, and a discount rate. The customer relationship intangible asset is amortized on a straight-line basis, which approximates the pattern in which the economic benefits of the customer relationships are consumed, over its estimated useful life of 10 years. The amortization expense is recorded in sales and marketing expenses in the accompanying condensed consolidated statements of operations and comprehensive loss.

The \$114.9 million goodwill balance is primarily attributable to synergies and expanded market opportunities that are expected to be achieved from the integration of Datagrid with the Company’s offerings and assembled workforce. Goodwill is not deductible for income taxes purposes.

The measurement period for the valuation of assets acquired and liabilities assumed ends as soon as information on the facts and circumstances that existed as of the acquisition date becomes available, but does

Procore Technologies, Inc.
Notes to Condensed Consolidated Financial Statements *(unaudited)*

not exceed 12 months. The purchase price allocation is subject to future adjustments, including as a result of finalizing the closing net working capital.

The Company issued 59,492 performance based restricted stock units ("PSUs") and 344,729 service-based restricted stock units ("RSUs"), at a grant date fair value of \$70.90 per share, in order to retain certain employees of Datagrid. The PSUs issued to Datagrid employees vest upon the achievement of certain milestones. The total grant date fair value of the PSUs and RSUs was excluded from purchase consideration and is recognized as post-combination expense. See Note 10 to these condensed consolidated financial statements for details on how the Company expenses stock-based compensation.

To retain certain Datagrid employees, the Company also held back \$25.7 million of the cash purchase price, which will be released in equal installments every six months after the acquisition date based on continued employment over a two- or three-year period, as applicable. The cash holdback amount is excluded from the purchase consideration and will be recorded as post-combination compensation expense over the service period on a straight-line basis.

The Company has not separately presented pro forma results reflecting the acquisition of Datagrid or revenue and operating losses of Datagrid for the period from the acquisition date through March 31, 2026, as the impacts were not material to the condensed consolidated financial statements. The acquisition-related transaction costs incurred by the Company of \$2.1 million were expensed as incurred in the condensed consolidated statements of operations and comprehensive loss.

Novorender

On January 28, 2025, the Company completed the acquisition of all outstanding equity of Novorender AS ("Novorender"), a Norway-based leader in advanced building information modeling rendering technology, to enhance Procore's capabilities for large-scale construction projects. The purchase price was \$44.3 million in total cash consideration. Of the consideration transferred, \$43.2 million was considered purchase consideration. \$1.1 million of the cash consideration relates to the acceleration of options vesting for certain Novorender option holders, and was excluded from purchase consideration and recorded to compensation expense in the accompanying condensed consolidated statements of operations and comprehensive loss on the acquisition date. On the acquisition date, \$5.0 million in cash was placed in an escrow account held by a third-party escrow agent for potential breaches of representations, warranties, and covenants, and satisfaction of indemnity obligations and is scheduled to be released from escrow to Novorender's stockholders 24 months after the acquisition date (subject to any indemnification claims).

Procore Technologies, Inc.
Notes to Condensed Consolidated Financial Statements (unaudited)

The purchase consideration was allocated to the following assets and liabilities at the acquisition date (in thousands):

	Fair Value	Useful Life
Assets acquired		
Cash and cash equivalents	\$ 1,931	
Accounts receivable	272	
Prepaid expenses and other current assets	379	
Other non-current assets	2	
Developed technology intangible asset	19,100	7 years
Customer relationships intangible asset	4,900	10 years
Goodwill	23,706	
Total assets acquired	\$ 50,290	
Liabilities assumed		
Accounts payable	(250)	
Deferred revenue, current	(590)	
Other current liabilities	(214)	
Accrued expenses	(1,687)	
Net deferred tax liabilities	(4,366)	
Total liabilities assumed	\$ (7,107)	
Net assets acquired	\$ 43,183	

Developed technology intangible asset represents the fair value of Novorender's technology, which was valued considering both the cost to rebuild and relief from royalty methods. Key assumptions under the cost to rebuild method include the estimated level of effort and related costs of reproducing or replacing the acquired technology. Key assumptions under the relief from royalty method include forecasted revenue to be generated from the developed technology, an estimated royalty rate applicable to the technology, and a discount rate. Developed technology is amortized on a straight-line basis, which approximates the pattern in which the economic benefits of the technology are consumed, over its estimated useful life of seven years. The amortization expense is recorded in cost of revenue in the accompanying condensed consolidated statements of operations and comprehensive loss.

Customer relationships represent the fair value of the underlying relationships with Novorender's existing customers, which were valued using the excess earnings method. Key assumptions under the excess earnings method include estimated future revenues, costs, cash flows, and a discount rate. The customer relationship intangible asset is amortized on a straight-line basis, which approximates the pattern in which the economic benefits of the customer relationships are consumed, over its estimated useful life of 10 years. The amortization expense is recorded in sales and marketing expenses in the accompanying condensed consolidated statements of operations and comprehensive loss.

The \$23.7 million goodwill balance is primarily attributable to synergies and expanded market opportunities that are expected to be achieved from the integration of Novorender with the Company's offerings and assembled workforce. Goodwill is not deductible for income tax purposes.

The measurement period for the valuation of assets acquired and liabilities assumed ends as soon as information on the facts and circumstances that existed as of the acquisition date becomes available, but does not exceed 12 months. The purchase price allocation is final.

The Company issued 55,956 service-based RSUs at a grant date fair value of \$76.30 per share in order to retain certain employees of Novorender. The total grant date fair value of the RSUs was excluded from purchase consideration and is recognized as post-combination expense. See Note 10 to these condensed consolidated financial statements for details on how the Company expenses stock-based compensation.

Procore Technologies, Inc.
Notes to Condensed Consolidated Financial Statements *(unaudited)*

To retain certain Novorender employees, the Company held back \$6.7 million of the cash purchase price, which will vest based on continued employment over a two-year period. \$1.9 million was paid in January 2026, and the remaining \$4.8 million will be paid in January 2027. The cash holdback amount is excluded from the purchase consideration and is recorded as post-combination compensation expense over the service period on a straight-line basis.

The Company has not separately presented pro forma results reflecting the acquisition of Novorender or revenue and operating losses of Novorender for the period from the acquisition date through March 31, 2026, as the impacts were not material to the condensed consolidated financial statements. The acquisition-related transaction costs were not material and were expensed as incurred in the accompanying condensed consolidated statements of operations and comprehensive loss.

7. INTANGIBLE ASSETS AND GOODWILL

Intangible assets

During the three months ended March 31, 2026, the Company completed the acquisition of Datagrid, which was accounted for as a business combination, as described above in Note 6.

The Company's intangible assets are summarized as follows (in thousands):

	March 31, 2026			
	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount	Weighted-Average Remaining Useful Life (Years)
Developed technology	\$ 262,959	\$ (136,126)	\$ 126,833	6.0
Customer relationships	79,950	(56,415)	23,535	6.3
Total intangible assets	<u>\$ 342,909</u>	<u>\$ (192,541)</u>	<u>\$ 150,368</u>	6.1

	December 31, 2025			
	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount	Weighted-Average Remaining Useful Life (Years)
Developed technology	\$ 212,463	\$ (127,638)	\$ 84,825	3.8
Customer relationships	75,950	(55,411)	20,539	6.4
Total intangible assets	<u>\$ 288,413</u>	<u>\$ (183,049)</u>	<u>\$ 105,364</u>	4.3

Procore Technologies, Inc.
Notes to Condensed Consolidated Financial Statements (unaudited)

Certain of the Company's intangible assets related to previous acquisitions were fully amortized in 2025. The Company estimates that there is no significant residual value related to its intangible assets. Amortization expense recorded on the Company's intangible assets is summarized as follows (in thousands):

	Three Months Ended March 31,	
	2026	2025
Cost of revenue	\$ 7,708	\$ 7,602
Sales and marketing	1,121	3,305
Research and development	663	632
Total amortization of acquired intangible assets	<u>\$ 9,492</u>	<u>\$ 11,539</u>

Goodwill

The following table presents the changes in carrying amount of goodwill during the three months ended March 31, 2026 (in thousands):

Beginning balance	\$ 574,083
Additions	114,926
Other adjustments, net ⁽¹⁾	(169)
Ending balance	<u>\$ 688,840</u>

⁽¹⁾ Includes the effect of foreign currency translation.

The addition to goodwill was due to the acquisition of Datagrid as disclosed in Note 6 to these condensed consolidated financial statements. There was no impairment of goodwill during the periods presented.

8. ACCRUED EXPENSES

The following represents the components of accrued expenses contained within the Company's condensed consolidated balance sheets at the end of each period (in thousands):

	March 31, 2026	December 31, 2025
Accrued bonuses	\$ 13,237	\$ 49,706
Accrued commissions	14,437	30,417
Accrued salary, payroll tax, and employee benefit liabilities	36,756	32,173
Other accrued expenses	21,991	17,984
Total accrued expenses	<u>\$ 86,421</u>	<u>\$ 130,280</u>

9. COMMITMENTS AND CONTINGENCIES

Legal Matters

The Company is, and may in the future become, involved in or subject to various legal proceedings arising in the ordinary course of business, including, among other things, related to commercial matters, business or employment practices, regulatory compliance, and legal proceedings with third parties asserting infringement of their intellectual property rights. The results of any current or future legal proceedings cannot be predicted with certainty, and regardless of the outcome, such proceedings can have an adverse impact on the Company because of defense and settlement costs, diversion of management resources, and other factors. The Company reviews at least quarterly the status of each legal proceeding and assesses its potential financial exposure in light of the impacts of negotiations, estimated settlements, legal rulings, advice of legal counsel, and other information and events pertaining to such matters. The Company accrues a liability related to a legal proceeding when it is considered both probable that a liability has been incurred and the amount of the loss is reasonably

Procore Technologies, Inc.
Notes to Condensed Consolidated Financial Statements *(unaudited)*

estimable. However, legal proceedings are inherently uncertain and as circumstances change, it is possible that the amount of any accrued liability may increase, decrease, or be eliminated.

Trade Secret Litigation

On October 25, 2024, Oracle America, Inc. and certain of its affiliates ("Oracle") filed a lawsuit against the Company, one of its affiliates, and a former employee of Oracle employed by the Company, in the U.S. District Court for the Northern District of California. The lawsuit alleges misappropriation of trade secrets in violation of the Defend Trade Secrets Act, asserting that the Company utilized Oracle's trade secrets to develop and enhance the Company's construction payment product, Procore Pay. The parties are currently in the expert discovery phase of litigation. Oracle is seeking injunctive relief and monetary damages. The Company intends to vigorously defend itself against the claim. The Company's chances of success on the merits are still uncertain, and any possible loss or range of loss cannot be reasonably estimated at this time.

Indemnification

In the ordinary course of business, the Company may provide indemnification of varying scope and terms to customers, vendors, investors, directors, and officers with respect to certain matters, including, but not limited to, losses arising out of its breach of such agreements, breaches of confidentiality or data protection requirements, services to be provided by the Company, or from intellectual property infringement claims made by third parties. These indemnification provisions may survive termination of the underlying agreement and the maximum potential amount of future payments the Company could be required to make under these indemnification provisions may not be subject to maximum loss clauses or be covered by the Company's insurance programs. The maximum potential amount of future payments the Company could be required to make under these indemnification provisions is indeterminable.

The Company has never paid a material claim, nor has the Company been sued in connection with these indemnification arrangements. To date, the Company has not accrued a liability for these guarantees because the likelihood of incurring a payment obligation, if any, in connection with these guarantees is not probable or reasonably estimable.

10. STOCKHOLDERS' EQUITY

2021 Equity Incentive Plan

In May 2021, the Company's board of directors (the "Board") adopted, and the stockholders approved, the 2021 Equity Incentive Plan (the "2021 Plan") with the purpose of granting stock-based awards, including stock options, stock appreciation rights, restricted stock awards, RSUs, PSUs, and other forms of awards, to employees, directors, and consultants. As of December 31, 2025, a total of 59,355,916 shares of common stock were authorized for issuance under the 2021 Plan. The number of shares of the Company's common stock reserved for issuance under the 2021 Plan automatically increases on January 1 of each calendar year, starting on January 1, 2022 through January 1, 2031, in an amount equal to either (i) 5% of the total number of shares of the Company's common stock outstanding on December 31 of the fiscal year before the date of each automatic increase, or (ii) a lesser number of shares determined by the Board prior to the applicable January 1. Accordingly, on January 1, 2026, the number of shares of common stock that may be issued under the 2021 Plan increased by an additional 7,585,428 shares. As a result, as of March 31, 2026, a total of 66,941,344 shares of common stock are authorized for issuance under the 2021 Plan. As of March 31, 2026, a total of 43,934,466 shares of common stock were available for issuance under the 2021 Plan. No stock options have been issued under the 2021 Plan.

Procore Technologies, Inc.
Notes to Condensed Consolidated Financial Statements (unaudited)

Stock options

No stock options were granted during the periods presented.

The following table summarizes the stock option activity during the three months ended March 31, 2026:

	Number of Shares	Weighted- Average Exercise Price
Outstanding at December 31, 2025	2,064,273	\$ 13.05
Exercised	(277,900)	9.01
Outstanding at March 31, 2026	1,786,373	13.68
Exercisable at March 31, 2026	<u>1,786,373</u>	<u>\$ 13.68</u>

As of March 31, 2026, there is no unrecognized stock-based compensation cost for stock options previously granted by the Company.

Restricted stock units

Service-based restricted stock units

In 2018, the Company began issuing RSUs to certain employees, officers, non-employee consultants, and directors. All of the RSUs granted subsequent to the Company's initial public offering ("IPO") vest based solely on continued service, which is generally over three or four years, on either a quarterly or annual vesting schedule.

The following table summarizes the RSU activity during the three months ended March 31, 2026:

	Number of Shares	Weighted- Average Grant Date Fair Value
Unvested at December 31, 2025	6,431,468	\$ 68.18
Granted	2,957,423	58.14
Vested	(756,701)	64.96
Canceled/Forfeited	(362,448)	66.78
Unvested at March 31, 2026	<u>8,269,742</u>	<u>\$ 64.94</u>

As of March 31, 2026, the total unrecognized stock-based compensation cost for all RSUs outstanding was \$491.9 million, which is expected to be recognized over a weighted-average vesting period of 2.7 years.

Performance-based restricted stock units

Operating and financial performance-based restricted stock units

In 2022, the Company began granting PSUs to certain non-executive employees with vesting terms based on the achievement of certain operating and financial performance goals. In 2024, the Company began granting PSUs to certain executive employees with vesting terms based on the achievement of certain operating performance goals. Such PSUs are also subject to employees' continued service through the applicable vesting dates. The grant date fair value per share for PSUs is equal to the closing stock price of the Company's common stock on the market date prior to the grant date.

The grant date fair value for PSUs is recognized as compensation expense using a graded vesting attribution model. No expense is recognized for PSUs until that condition is probable of being met, therefore the

Procore Technologies, Inc.
Notes to Condensed Consolidated Financial Statements (unaudited)

portion of expense recognized in any period may fluctuate depending on changing estimates of the achievement of the performance conditions. Forfeitures are recorded when they occur.

Market based restricted stock units

In 2025, the Company began granting market-based PSUs ("MSUs"), with vesting terms that are subject to a market condition and will vest based on the Company's total shareholder return ("TSR") performance relative to the TSR of the other companies that comprise the S&P Completion Index (CI) Information Technology (the "Index"). Such MSUs are also subject to employees' continued service through the applicable vesting dates. To determine the fair value of MSUs on the date of grant, the Company utilizes a Monte Carlo simulation with the following assumptions:

Risk-free interest rate	3.55% to 3.77%
Expected term (in years)	3.0 to 3.1
Estimated dividend yield	0.00%
Estimated weighted-average volatility	42.75% to 43.51%

The Company estimates volatility for MSUs based on the historical volatility of its own common stock price. The interest rate is derived from government bonds with a term equal to the longest simulation term. The Company has not declared, nor does it expect to declare, dividends in the foreseeable future. Consequently, an expected dividend yield of zero is utilized.

The grant date fair value for MSUs is recognized as compensation expense using a graded vesting attribution model. The expense recognized for MSUs is not adjusted for final projected payout of the awards. Forfeitures are recorded when they occur.

The following table summarizes the PSU and MSU activity during the three months ended March 31, 2026:

	Number of Shares	Weighted- Average Grant Date Fair Value
Unvested at December 31, 2025	605,053	\$ 103.05
Granted ⁽¹⁾	636,035	90.45
Vested	(64,635)	73.04
Canceled/Forfeited	(6,424)	79.16
Unvested at March 31, 2026	<u>1,170,029</u>	<u>\$ 97.99</u>

⁽¹⁾ This represents awards granted at 100% attainment of the performance conditions.

As of March 31, 2026, the total unrecognized stock-based compensation cost for all PSUs outstanding was \$67.9 million, which is expected to be recognized over a weighted-average vesting period of 2.8 years.

Employee Stock Purchase Plan

In May 2021, the Board adopted, and the stockholders approved, the 2021 Employee Stock Purchase Plan (the "ESPP"), which became effective immediately prior to the effective date of the Company's IPO. As of December 31, 2025, a total of 8,278,659 shares of common stock had been reserved for issuance under the ESPP. The number of shares of the Company's common stock reserved for issuance under the ESPP automatically increases on January 1 of each year for a period of 10 years, beginning on January 1, 2022 and continuing through January 1, 2031, by the lesser of (i) 1% of the total number of shares of the Company's common stock outstanding on December 31 of the immediately preceding year; and (ii) 3,900,000 shares, except before the date of any such increase, the Board may determine that such increase will be less than the

Procore Technologies, Inc.
Notes to Condensed Consolidated Financial Statements (unaudited)

amount set forth in clauses (i) and (ii). Accordingly, on January 1, 2026, the number of shares of common stock reserved under the ESPP increased by an additional 1,517,085 shares.

The offering periods are scheduled to start in May and November of each year. The ESPP provides for consecutive offering periods that will typically have a duration of 12 months in length and comprise two purchase periods of six months in length, subject to reset and rollover provisions.

The ESPP provides eligible employees with an opportunity to purchase shares of the Company's common stock through payroll deductions of up to 15% of their eligible compensation, subject to a maximum of \$25,000 of stock per calendar year. A participant may purchase a maximum of 2,500 shares of common stock during a purchase period. Amounts deducted and accumulated by the participant are used to purchase shares of common stock at the end of each six-month purchase period. The purchase price of the shares will be 85% of the lower of the fair market value of the common stock on (i) the first trading day of the applicable offering period and (ii) the last trading day of each purchase period in the related offering period. However, in the event the fair value of the common stock on the purchase date is lower than the fair value on the first trading day of the offering period, the offering period is terminated immediately following the purchase and a new offering period begins the following day. Participants may end their participation at any time prior to the last 15 days of a purchase period and will be repaid their accrued contributions that have not yet been used to purchase shares of common stock. Participation ends automatically upon termination of employment.

Employee payroll contributions accrued in connection with the ESPP were \$11.2 million and \$5.2 million as of March 31, 2026 and December 31, 2025, respectively, and are included within accrued expenses on the accompanying condensed consolidated balance sheets. Employee payroll contributions ultimately used to purchase shares will be reclassified to stockholders' equity on the purchase date. Stock-based compensation expense related to the ESPP is recognized on a straight-line basis over the offering period. During the three months ended March 31, 2026 and 2025, the Company recognized stock-based compensation expense of \$2.3 million and \$2.8 million, respectively, in connection with the ESPP.

As of March 31, 2026, unrecognized stock-based compensation expense related to the ESPP was \$5.1 million, which is expected to be recognized over a weighted-average period of 0.3 years.

Stock-based compensation

The Company recorded total stock-based compensation cost from stock options, RSUs, PSUs, and the ESPP as follows (in thousands):

	Three Months Ended March 31,	
	2026	2025
Cost of revenue	\$ 2,619	\$ 2,752
Sales and marketing	20,473	14,834
Research and development	18,548	18,372
General and administrative	15,360	12,321
Total stock-based compensation expense	\$ 57,000	\$ 48,279
Stock-based compensation capitalized for software development and cloud-computing arrangement implementation costs	4,337	4,123
Total stock-based compensation cost	\$ 61,337	\$ 52,402

Procore Technologies, Inc.
Notes to Condensed Consolidated Financial Statements *(unaudited)*

Stock repurchase program

On November 3, 2025, the Board authorized a stock repurchase program to repurchase up to \$300.0 million of the Company's outstanding common stock (the "2025 Stock Repurchase Program"). The Company intends to opportunistically repurchase shares of its common stock from time to time through the open market, or other transactions in accordance with applicable securities laws, in each case, subject to market conditions, applicable legal requirements, and other relevant factors. Open market repurchases may be structured to occur in accordance with the requirements of Rule 10b-18 of the Securities Exchange Act of 1934, as amended. The Company may also, from time to time, enter into Rule 10b5-1 trading plans to facilitate repurchases of its common stock under this authorization. The timing of stock repurchases and the actual number of shares repurchased will depend on a variety of factors, including price, general business and market conditions, and alternative investment opportunities, and will be subject to the discretion of the Company's management within its authorization. The 2025 Stock Repurchase Program will be funded using the Company's working capital. The 2025 Stock Repurchase Program does not obligate the Company to acquire any particular number of shares of the Company's common stock, or any shares at all. The 2025 Stock Repurchase Program expires on November 3, 2026, and may be suspended or discontinued at any time at the Company's discretion and without notice.

During the three months ended March 31, 2026, the Company repurchased and retired a total of 1,765,560 shares of the Company's common stock at a weighted average per share price of \$56.66 for an aggregate amount of \$100.0 million, which includes the transaction costs associated with the repurchases but excludes the 1% excise tax on stock repurchases imposed by the Inflation Reduction Act of 2022.

Procore Technologies, Inc.
Notes to Condensed Consolidated Financial Statements (unaudited)

11. INCOME TAXES

For the three months ended March 31, 2026 and 2025, income tax benefits recorded by the Company were \$1.9 million and expenses were \$5.3 million, respectively. As of March 31, 2026, the Company maintained a full valuation allowance on its U.S. federal and state net deferred tax assets as it was more likely than not that those deferred tax assets would not be realized.

In determining quarterly provisions for income taxes, the Company uses the annual estimated effective tax rate applied to the actual year-to-date income or loss, adjusted for discrete items, if any, arising in that quarter. The Company's annual estimated effective tax rate differs from the U.S. federal statutory rate of 21% primarily as a result of state taxes, foreign taxes, and changes in the Company's valuation allowance.

12. NET LOSS PER SHARE

Basic net loss per share attributable to common stockholders is calculated by dividing the net loss attributable to common stockholders by the weighted-average number of shares of common stock outstanding during the period.

As the Company has reported net losses attributable to common stockholders for all periods presented, all potentially dilutive securities are anti-dilutive and accordingly, basic net loss per share attributable to common stockholders equals diluted net loss per share attributable to common stockholders.

The following weighted-average potentially dilutive shares are excluded from the calculation of diluted earnings per share as they are anti-dilutive:

	Three Months Ended March 31,	
	2026	2025
RSUs and PSUs subject to future vesting	7,175,871	6,944,609
Shares issuable pursuant to the ESPP	543,326	589,773
Shares of common stock issuable from stock options	1,911,400	3,086,131
Total	9,630,597	10,620,513

13. GEOGRAPHIC INFORMATION

The following table sets forth the Company's revenues by geographic region, which is determined based on the billing location of the customer (in thousands):

	Three Months Ended March 31,	
	2026	2025
Revenue by geographic region:		
U.S.	\$ 305,370	\$ 264,597
Rest of the world	53,913	46,035
Total revenue	\$ 359,283	\$ 310,632
Percentage of revenue by geographic region:		
U.S.	85%	85%
Rest of the world	15%	15%

Procore Technologies, Inc.
Notes to Condensed Consolidated Financial Statements *(unaudited)*

14. RESTRUCTURING

In January 2026, the Company executed a reduction of 4% of its global workforce as part of its ongoing evaluation of its operations to ensure alignment of its workforce with, and to enable greater investment in key growth opportunities. The reduction in force was completed as of March 31, 2026.

The following table summarizes the severance and other benefit costs incurred during the three months ended March 31, 2026 by line item within the condensed consolidated statement of operations and comprehensive loss (in thousands) related to this restructuring event:

Cost of revenue	\$	1,058
Sales and marketing		2,461
Research and development		1,974
General and administrative		789
Total restructuring-related costs	\$	<u>6,282</u>

As of March 31, 2026, there was \$0.7 million liability remaining for restructuring-related costs.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

You should read the following discussion and analysis of our financial condition and results of operations in conjunction with our condensed consolidated financial statements and the related notes and other financial information included elsewhere in this Quarterly Report on Form 10-Q and our audited consolidated financial statements and notes thereto and the related Management's Discussion and Analysis of Financial Condition and Results of Operations included in our 2025 Form 10-K. You should review the disclosures under the section titled "Special Note Regarding Forward-Looking Statements" in this Quarterly Report on Form 10-Q and under Part I, Item 1A, "Risk Factors" in our 2025 Form 10-K for a discussion of forward-looking statements and important factors that could cause actual results to differ materially from the results described in or implied by the forward-looking statements contained in the following discussion and analysis. These statements, like all statements in this report, speak only as of their date (unless another date is indicated), and we undertake no obligation to update or revise these statements in light of future developments, except as required by law.

Overview

Our mission is to connect everyone in construction on a global platform.

We are the leading global provider of construction management software, and are helping transform one of the oldest, largest, and least digitized industries in the world. We focus exclusively on connecting and empowering the construction industry's key stakeholders, such as owners, general contractors, and specialty contractors, to collaborate and access our capabilities from any location on any connected device. Our platform is modernizing and digitizing construction management by enabling timely access to critical project information, simplifying complex workflows, and facilitating seamless communication among relevant stakeholders, all of which we believe positions us to serve as a critical system of record and collaboration for the construction industry. We also continue to develop other products and services to address related challenges faced by the construction industry's key stakeholders. Our products, services, and platform help our customers increase productivity and efficiency, reduce rework and costly delays, improve safety and compliance, and enhance financial transparency and accountability.

In short, we build the software for the people that build the world.

Our customers range from small businesses managing a few million dollars of annual construction volume to global enterprises managing billions of dollars of annual construction volume. Our core customers are owners, general contractors, and specialty contractors operating across the residential and non-residential segments of the construction industry. We primarily sell subscriptions to access our products through our direct sales team, which is specialized by geography, followed by size and type of stakeholder.

Our products are offered on our cloud-based platform and are designed to be easy to configure and deploy. Our users can access our products on computers, smartphones, and tablets through any web browser or from our mobile application available for both the iOS and Android platforms.

We generate substantially all of our revenue from subscriptions to access our products. We primarily sell our products on a subscription basis for a fixed fee with pricing generally based on the number and mix of products a customer subscribes to and the fixed aggregate dollar volume of construction work contracted to run on our platform annually, which we refer to as annual construction volume. As our customers subscribe to additional products or increase the annual construction volume contracted to run on our platform, we generate more revenue. We do not provide refunds for unused construction volume. We generally do not charge customers based on consumption or on a per-project basis. Our business model is designed to encourage rapid, widespread adoption of our products by generally allowing for unlimited users. We typically do not charge a per-seat or per-user fee, meaning that customers can invite all project participants, including owners, general contractors, specialty contractors, architects, and engineers, to engage with our platform as part of a project team without incurring additional fees. We offer access to our products on a per-user basis to certain of our owner customers who have preferred to purchase access on a per-user basis. Customers are able to invite project participants to join our platform, including their employees and collaborators, who are other project participants that engage with our platform but do not pay us for such use. Multiple participants can be customers on the same project, which allows each of them to manage their own discrete workflows for the project and retain access to project information for the duration of their subscription while allowing us to receive revenue from multiple customers on the same project independent of seat count.

Certain Factors Affecting Our Performance

Acquiring New Customers and Retaining and Expanding Existing Customers' Use of Our Platform

We believe that the market for our platform is large, and we are highly focused on our long-term growth. Our ability to generate revenue, continue to grow our business, and serve the broader needs of the construction industry depends on our ability to efficiently acquire new customers, retain existing customers and expand their use of our products, services, and platform, and maintain or increase the pricing of our products and services. We drive new customer acquisitions by investing across our sales and marketing engine to engage prospective customers, increase brand awareness, and drive adoption of our products, services, and platform. We drive retention of existing customers and expansion of their use of our products, services, and platform by focusing on our customers' success.

To support these efforts, we evolved our GTM operating model by, among other things, transitioning to a general manager model. We added new product and technical specialists to our GTM teams to match the evolving needs of our customers' diverse buyer personas with our products and services and to help our customers understand and implement the full potential of our platform. Evolving our GTM operating model required new investment as we increased our sales headcount, ramped and invested in additional enablement for our sales teams, and added the new specialists to our teams. We believe that these investments have allowed, and will continue to allow, us to build stronger and deeper customer relationships and provide additional value to our customers. We have seen, and may continue to see, some disruptions and adverse impacts to our financial and operating results in the near-term in connection with the evolved GTM operating model. Over the longer term, if we fail to realize the benefits of our evolved GTM operating model, or otherwise fail to acquire new customers, retain existing customers, or expand existing customers' use of our products, services, and platform, our business, financial condition, results of operations, and prospects will be adversely affected, potentially materially. Notwithstanding these risks, we believe that the evolved GTM operating model will improve our long-term operating efficiency, best position us for sustainable long-term growth, and enhance our ability to capture our large market opportunity.

Despite macroeconomic challenges, we have seen an increase in the number of customers that contributed more than \$100,000 of annual recurring revenue ("ARR"), which increased from 2,418 as of March 31, 2025 to 2,795 as of March 31, 2026, reflecting a year-over-year growth rate of 16%. All aforementioned customer counts exclude customers acquired from business combinations that do not have standard Procore annual contracts.

In addition, our gross retention rate ("GRR") was 95% as of both March 31, 2026 and March 31, 2025. Our GRR reflects only customer losses and does not reflect customer expansion or contraction. We believe our high GRR demonstrates that we serve a vital role in our customers' operations, as the vast majority of our customers continue to use our products and platform and to renew their subscriptions. We believe that GRR is a key metric to understand our ability to retain our customer base, to evaluate whether our products and platform are addressing our customers' needs throughout the year.

To calculate GRR at the end of a particular period, we first calculate our ARR from the cohort of active customers at the end of the period 12 months prior to the end of the period selected. We define ARR at the end of a particular period as the annualized dollar value of our subscriptions from customers as of such period end date. For multi-year subscriptions, ARR at the end of a particular period is measured by using the stated contractual subscription fees as of the period end date on which ARR is measured. For example, if ARR is measured during the first year of a multi-year contract, the first-year subscription fees are used to calculate ARR. ARR at the end of a particular period includes the annualized dollar value of subscriptions for which the term has not ended, and subscriptions for which we are negotiating a subscription renewal. ARR should be viewed independently of revenue determined in accordance with accounting principles generally accepted in the U.S. ("GAAP" or "U.S. GAAP") and does not represent our U.S. GAAP revenue on an annualized basis. ARR is not intended to be a replacement or forecast of revenue. We then calculate the value of ARR from any customers whose subscriptions terminated and were not renewed during the 12 months preceding the end of the period selected, which we refer to as cancellations. We then divide (a) the total prior period ARR minus cancellations by (b) the total prior period ARR to calculate GRR.

Remaining Performance Obligations

Our subscriptions typically have a term of one to three years. The transaction price allocated to remaining performance obligations (“RPO”) under our subscriptions represents the contracted transaction price that has not yet been recognized as revenue, which includes deferred revenue and amounts under non-cancelable subscriptions that will be invoiced and recognized as revenue in future periods. Our current RPO (“cRPO”) represents future revenue under existing contracts that is expected to be recognized as revenue in the next 12 months.

The following table presents our cRPO and non-current RPO at the end of each period:

	March 31,		Change	
	2026	2025	Dollar	Percent
(dollars in thousands)				
Remaining performance obligations				
Current	\$ 1,019,454	\$ 842,558	\$ 176,896	21%
Non-current	542,139	447,707	94,432	21%
Total remaining performance obligations	\$ 1,561,593	\$ 1,290,265	\$ 271,328	21%

We believe that cRPO is a key metric to track our ability to win fixed revenue commitments from new customers and to expand and retain existing customers. However, as our average contract duration continues to lengthen due to increased purchases of multi-year subscriptions, our cRPO growth rate may not directly correlate with our actual or expected revenue growth in current or future periods. As of March 31, 2026, cRPO increased by \$176.9 million, or 21%, year-over-year. Approximately 41% of the increase was attributable to existing customers and 59% was attributable to new customers acquired during the twelve months ended March 31, 2026. We expect RPO to change from period to period primarily due to the size, timing, and duration of new customer contracts and customer renewals.

Continued Technology Innovation and Strategic Expansion of Our Products and Services

We plan to continue to invest in technology innovation and product development, including Procore AI, which includes tools and products that are purpose-built for the construction industry, to enhance the capabilities of our platform. Additional capabilities will also enable customers and collaborators to manage new workflows on our platform and allow us to attract a broader set of stakeholders. We have introduced and continue to develop new products and services organically and through our acquisitions.

We intend to continue to invest in building additional products, services, offerings, features, and functionality that expand our capabilities and facilitate the extension of our platform. For example, in January 2026, we acquired Toric Labs, Inc. (d/b/a Datagrid), a leader in agentic AI solutions for the construction industry, to accelerate our AI strategy, and in January 2025, we acquired Novorender AS, a leader in advanced building information model rendering technology, to enhance our capabilities for large-scale construction projects. We also intend to continue to evaluate strategic acquisitions and investments in businesses and technologies to drive product and market expansion. While the impact of these developments are not yet material to our business, our future success is dependent on our ability to successfully develop or acquire, market, and sell existing and new products and services to both new and existing customers.

International Growth

We see international expansion as a major, and largely greenfield, opportunity for growth as we look to capture a larger part of the worldwide construction market. We have an international sales and marketing presence with offices in Sydney, Australia; Toronto, Canada; London, England; Dublin, Ireland; and Dubai, United Arab Emirates (“UAE”). As a result of our international efforts, we support multiple languages and currencies. Non-U.S. revenue as a percentage of our total revenue was 15% for both of the three month periods ended March 31, 2026 and 2025. We determine the percentage of non-U.S. revenue based on the billing location of each customer. Fluctuations in foreign currencies may positively or negatively impact the amount of revenue that we report for our foreign subsidiaries upon the translation of these amounts into U.S. Dollars.

Furthermore, we believe global demand for our products, services, and platform will continue to increase as we expand our international sales and marketing efforts, and the awareness of our products, services, and platform grows. However, our ability to conduct our business operations internationally will require considerable management attention and resources and is subject to the particular challenges of supporting a rapidly growing business in an environment of multiple languages, currencies, cultures, customs, and commercial markets, as well as differing legal, tax, regulatory, and alternative dispute systems. We have made, and plan to continue to make, significant investments in international markets. While these investments may adversely affect our operating results in the near term, we believe they will contribute to our long-term growth.

Macroeconomic Factors

Macroeconomic factors and geopolitical events that impact the construction industry, such as elevated inflation and responses by governments to address it, changing interest rates, volatility in capital markets, bank failures, fluctuations in foreign exchange rates, global pandemics, trade wars or shifting tariffs, evolving and potentially conflicting regulatory requirements, and wars and other conflicts may impact our customers' spending as well as our operating expenses and cash flows. However, as such factors evolve, we continue to monitor the ways in which they may directly or indirectly impact our business, results of operations, and financial condition. See the section titled “Risk Factors” in Part I, Item 1A, of our 2025 Form 10-K for further discussion.

Components of Results of Operations

Revenue

We generate substantially all of our revenue from subscriptions to access our products and related support. Subscriptions are sold for a fixed fee and revenue is recognized ratably over the term of the subscription. Our subscriptions generally have annual or multi-year terms, are typically subject to renewal at the end of the subscription term, and are non-cancelable. To the extent we invoice our customers in advance of revenue recognition, we record deferred revenue. Consequently, a portion of the revenue that we report each period is attributable to the recognition of revenue previously deferred related to subscriptions that we entered into during previous periods.

Cost of Revenue

Cost of revenue primarily consists of personnel-related compensation expenses for our customer support team, including salaries, benefits, stock-based compensation, payroll taxes, commissions, and bonuses. Additionally, cost of revenue includes non-personnel-related expenses, such as third-party hosting costs, amortization of capitalized software development costs related to our platform, amortization of acquired technology intangible assets, software license fees, and allocated overhead. We expect our cost of revenue to increase on an absolute dollar basis as our revenue and acquisition activities increase. We intend to continue to invest additional resources in platform hosting, customer support, and software development as we grow our business, support our GTM operating model, and ensure that our customers are realizing the full benefit of our products. The level and timing of investment in these areas could affect our cost of revenue in the future.

Costs related to the development of internal-use software for new products and major platform enhancements are capitalized until the software is substantially complete and ready for its intended use. Capitalized software development costs are amortized on a straight-line basis over the developed software's estimated useful life of two years and the amortization is recorded in cost of revenue.

Operating Expenses

Our operating expenses consist of sales and marketing, research and development, and general and administrative expenses. For each of these categories of expense, personnel-related compensation expenses are the most significant component, which include salaries, stock-based compensation, commissions, benefits, payroll taxes, and bonuses.

Sales and Marketing

Sales and marketing expenses primarily consist of personnel-related compensation expenses for our sales and marketing organizations. Additionally, sales and marketing expenses include non-personnel-related expenses, such as advertising costs, marketing events, travel, trade shows, and other marketing activities; contractor costs to supplement our staff levels; consulting services; amortization of acquired customer relationship intangible assets; and allocated overhead. We expense advertising and other promotional expenditures as incurred. We expect sales and marketing expenses to increase on an absolute dollar basis and vary from period to period as a percentage of revenue, as our business continues to grow, as we support our GTM operating model, and as we increase our investment in sales and marketing to drive customer growth.

Research and Development

Research and development expenses primarily consist of personnel-related compensation expenses for our engineering, product, and design teams, net of capitalized software development costs. Additionally, research and development expenses include non-personnel-related expenses, such as contractor costs to supplement our staff levels; computer software expenses; consulting services; amortization of certain acquired intangible assets used in research and development activities; and allocated overhead. We expect research and development expenses to increase on an absolute dollar basis and vary from period to period as a percentage of revenue for the foreseeable future as we continue to build, enhance, maintain, and scale our products, services, and platform.

General and Administrative

General and administrative expenses primarily consist of personnel-related compensation expenses for our finance, human resources, information technology, legal, executive, and other administrative functions. Additionally, general and administrative expenses include non-personnel-related expenses, such as professional fees for legal, audit, tax, and other external consulting services; computer software expenses; costs associated with operating as a public company, including insurance costs, professional services, investor relations, and other compliance costs; property and use taxes; licenses; travel and entertainment costs; acquisition-related transaction expenses; and allocated overhead. We expect general and administrative expenses to increase on an absolute dollar basis and vary from period to period as a percentage of revenue, as our business continues to grow, including in relation to our international expansion.

Interest Income

Interest income consists primarily of interest income earned on our marketable securities, money market funds, and cash savings accounts.

Interest Expense

Interest expense consists primarily of costs associated with our finance leases.

Accretion Income, Net

Accretion income, net consists of accretion of discounts, net of amortization of premiums, related to our available-for-sale marketable debt securities.

Other (Expense) Income, Net

Other (expense) income, net primarily consists of gains or losses on foreign currency transactions, unrealized gains or losses on equity securities, and miscellaneous other income and expenses.

(Benefit from) Provision for Income Taxes

(Benefit from) provision for income taxes consists primarily of income taxes of U.S. state franchise taxes and certain foreign jurisdictions in which we conduct business, net of the release of valuation allowance as a result of deferred tax liabilities from acquisitions that are an available source of income to realize our deferred tax assets. As we expand our international operations, we expect to incur increased foreign tax expenses. We have a full valuation allowance for net U.S. deferred tax assets. The U.S. valuation allowance primarily includes net operating loss carryforwards and tax credits related primarily to research and development for our operations in the U.S. We expect to maintain this full valuation allowance for our net U.S. deferred tax assets for the foreseeable future.

Results of Operations

The following tables set forth our condensed consolidated statements of operations data and such data as a percentage of revenue for each of the periods indicated. Certain percentages below may not sum due to rounding.

	Three Months Ended March 31,	
	2026	2025
	(in thousands)	
Revenue	\$ 359,283	\$ 310,632
Cost of revenue ⁽¹⁾⁽²⁾⁽³⁾	71,493	64,926
Gross profit	287,790	245,706

(1) Includes stock-based compensation expense and amortization of capitalized stock-based compensation as follows:

	Three Months Ended March 31,	
	2026	2025
	(in thousands)	
Cost of revenue	\$ 5,942	\$ 5,268
Sales and marketing	20,588	14,950
Research and development	18,555	18,424
General and administrative	15,402	12,382
Total stock-based compensation expense*	<u>\$ 60,487</u>	<u>\$ 51,024</u>

*Includes amortization of capitalized stock-based compensation of \$3.5 million and \$2.7 million, respectively, for the three months ended March 31, 2026 and 2025 which was initially capitalized as capitalized software and cloud-computing arrangement implementation costs.

(2) Includes amortization of acquired intangible assets as follows:

	Three Months Ended March 31,	
	2026	2025
	(in thousands)	
Cost of revenue	\$ 7,708	\$ 7,602
Sales and marketing	1,121	3,305
Research and development	663	632
Total amortization of acquired intangible assets	<u>\$ 9,492</u>	<u>\$ 11,539</u>

(3) Includes employer payroll tax on employee stock transactions as follows:

	Three Months Ended March 31,	
	2026	2025
	(in thousands)	
Cost of revenue	\$ 174	\$ 261
Sales and marketing	752	1,131
Research and development	1,050	1,726
General and administrative	502	883
Total employer payroll tax on employee stock transactions	<u>\$ 2,478</u>	<u>\$ 4,001</u>

(4) Includes acquisition-related expenses as follows:

	Three Months Ended March 31,	
	2026	2025
	(in thousands)	
Sales and marketing	\$ 154	\$ 656
Research and development	2,586	1,049
General and administrative	1,245	375
Total acquisition-related expenses	<u>\$ 3,985</u>	<u>\$ 2,080</u>

Comparison of the Three Months Ended March 31, 2026 and 2025

Revenue

	Three Months Ended March 31,		Change	
	2026	2025	Dollar	Percent
	(dollars in thousands)			
Revenue	\$ 359,283	\$ 310,632	\$ 48,651	16%

During the three months ended March 31, 2026, our revenue increased by \$48.7 million, or 16%, compared to the three months ended March 31, 2025, of which approximately 87% was attributable to revenue from existing customers and approximately 13% was attributable to revenue from new customers acquired during the three months ended March 31, 2026. The increase in revenue from existing customers includes the net benefit of a full quarter of subscription revenue in the first quarter of 2026 from customers that were newly acquired or expanded their subscriptions between the beginning of the first quarter of 2025 and the end of the fourth quarter of 2025 and continued or expanded their subscriptions, as applicable, in the first quarter of 2026.

Cost of Revenue, Gross Profit, and Gross Margin

	Three Months Ended March 31,		Change	
	2026	2025	Dollar	Percent
	(dollars in thousands)			
Cost of revenue	\$ 71,493	\$ 64,926	\$ 6,567	10%
Gross profit	287,790	245,706	42,084	17%
Gross margin	80%	79%		

The increase in cost of revenue during the three months ended March 31, 2026 was primarily attributable to an increase of \$3.8 million in amortization of capitalized software development costs. The increase in cost of revenue was also attributable to a \$1.0 million increase in third-party cloud hosting and related services as we grow our customer base; and a \$0.9 million increase in personnel-related expenses for salaries and wages. Our cost of revenue headcount remained relatively consistent since March 31, 2025.

Operating Expenses

	Three Months Ended March 31,		Change	
	2026	2025	Dollar	Percent
	(dollars in thousands)			
Sales and marketing	\$ 149,181	\$ 138,684	\$ 10,497	8%

The increase in sales and marketing expenses during the three months ended March 31, 2026 was primarily attributable to an increase of \$12.6 million in personnel-related expenses, including increases of \$7.4 million in salaries and wages and \$5.6 million in stock-based compensation expense. The increases in sales and marketing expenses were partially offset by a \$2.2 million decrease in amortization of customer relationship intangible assets due to certain customer relationship intangible assets becoming fully amortized in 2025; and a \$1.8 million decrease in professional fees for temporary contractor labor. We decreased our sales and marketing headcount by 5% since March 31, 2025.

	Three Months Ended March 31,		Change	
	2026	2025	Dollar	Percent
	(dollars in thousands)			
Research and development	\$ 85,565	\$ 87,609	\$ (2,044)	(2%)

The decrease in research and development expenses during the three months ended March 31, 2026 was primarily attributable to a decrease of \$3.1 million in personnel-related expenses for salaries and wages. The decrease in research and development expenses was also attributable to a \$1.9 million decrease in professional fees for temporary contractor labor. The decreases in research and development expenses were partially offset by a \$1.5 million increase in acquisition-related expenses. We increased our research and development headcount by 11% since March 31, 2025.

	Three Months Ended March 31,		Change	
	2026	2025	Dollar	Percent
	(dollars in thousands)			
General and administrative	\$ 68,715	\$ 55,658	\$ 13,057	23%

The increase in general and administrative expenses during the three months ended March 31, 2026 was primarily due to an increase of \$8.8 million in legal fees, which were predominantly related to an ongoing lawsuit with Oracle. The increase in general and administrative expenses was also attributable to a \$1.6 million increase in rent expense; a \$0.9 million increase in acquisition-related expenses; and a \$0.2 million increase in personnel-related expenses, including an increase of \$3.0 million in stock-based compensation expense, partially offset by a decrease of \$2.8 million in salaries and wages. Our general and administrative headcount remained relatively consistent since March 31, 2025.

Interest Income, Interest Expense, Accretion Income, Net, Other (Expense) Income, Net, and (Benefit from) Provision for Income Taxes

	Three Months Ended March 31,		Change	
	2026	2025	Dollar	Percent
	(dollars in thousands)			
Interest income	\$ 4,522	\$ 5,997	\$ (1,475)	(25%)
Interest expense	268	285	(17)	(6%)
Accretion income, net	997	2,447	(1,450)	(59%)
Other (expense) income, net	(556)	391	(947)	*
(Benefit from) provision for income taxes	(1,880)	5,294	(7,174)	(136%)

*Percentage not meaningful

During the three months ended March 31, 2026, accretion income, net decreased by \$1.5 million due to a decrease in the balance of our marketable securities portfolio year over year.

(Benefit from) income taxes for the three months ended March 31, 2026, differs from provision for income taxes for the three months ended March 31, 2025, primarily due to the release of a portion of our valuation allowance as a result of acquired deferred tax liabilities from the Datagrid acquisition that are an available source of income to realize our deferred tax assets. Further, in the prior year, the Company recognized a one-time tax expense related to foreign tax on the realignment of intellectual property attributable to the Novorender acquisition.

Non-GAAP Financial Measures

In addition to our results determined in accordance with U.S. GAAP, we believe certain non-GAAP measures, as described below, are useful in evaluating our operating performance. We use this non-GAAP financial information, collectively, to evaluate our ongoing operations as well as for internal planning and forecasting purposes. We believe that non-GAAP financial information, when taken collectively, is helpful to investors because it provides consistency and comparability with past financial performance, and may assist in comparisons with other companies, some of which use similar non-GAAP financial information to supplement their GAAP results.

The non-GAAP financial information is presented for supplemental informational purposes only. Non-GAAP financial measures should not be considered a substitute for financial information presented in accordance with GAAP. There are limitations in using non-GAAP financial measures because non-GAAP financial measures are not prepared in accordance with GAAP, non-GAAP financial measures may be different from similarly-titled non-GAAP measures used by other companies since other companies may calculate such non-GAAP financial measures differently, and non-GAAP financial measures exclude expenses that may have a material impact on our reported financial results. Unlike stock-based compensation expense, employer payroll tax related to employee stock transactions is a cash expense that we will continue to incur in the future. The presentation of non-GAAP financial information is not meant to be considered in isolation or as a substitute for the directly comparable financial measures prepared in accordance with GAAP. A reconciliation is provided below for each non-GAAP financial measure to the most directly comparable financial measure stated in accordance with GAAP. Investors are encouraged to review the related GAAP financial measures and the reconciliation of these non-GAAP financial measures to their most directly comparable GAAP financial measures. Investors should not rely on any single financial measure to evaluate our business.

Non-GAAP Gross Profit, Non-GAAP Gross Margin, Non-GAAP Operating Expenses, Non-GAAP Income from Operations, and Non-GAAP Operating Margin

We define these non-GAAP financial measures as the respective GAAP measures, excluding stock-based compensation expense, amortization of acquired intangible assets, employer payroll tax related to employee stock transactions, and acquisition-related expenses. Non-GAAP gross margin is the ratio calculated by dividing non-GAAP gross profit by total revenue. Non-GAAP operating margin is the ratio calculated by dividing non-GAAP income from operations by total revenue.

Stock-based compensation expense includes the net effects of capitalization and amortization of stock-based compensation expense related to capitalized software and cloud-computing arrangement implementation costs. Stock-based compensation expense has been, and will continue to be for the foreseeable future, a significant recurring expense in our business and an important part of the compensation provided to our employees. Because of varying available valuation methodologies, subjective assumptions, and the variety of equity instruments that can impact a company's non-cash expenses, we believe that providing non-GAAP financial measures that exclude stock-based compensation expense allows for meaningful comparisons between our operating results from period to period. The expense related to amortization of acquired intangible assets is a non-cash expense and dependent upon estimates and assumptions, which can vary significantly and are unique to each asset acquired; therefore, we believe that non-GAAP measures that adjust for the amortization of acquired intangible assets provide investors a consistent basis for comparison across accounting periods. The amount of employer payroll tax-related items on employee stock transactions is dependent on restricted stock unit ("RSU") settlements, option exercises, related stock price, and other factors that are beyond our control and that do not correlate to the operation of our business. When evaluating the performance of our business and making operating plans, we do not consider these items (for example, when considering the impact of equity award grants, we place a greater emphasis on overall stockholder dilution than the accounting charges associated with such grants). Since the amount of employer payroll tax-related items on employee stock transactions is highly variable due to factors outside our control, and unrelated to our core operations, operating results, revenue-generating activities, business strategy, industry, or regulatory environment, management does not consider employer payroll tax on employee stock transactions in the evaluation of the business or in making operating plans. Accordingly, we believe this adjustment in arriving at our non-GAAP measures provides investors with a better understanding of the performance of our core business in a manner that is consistent with management's view of the business. Acquisition-related expenses include external and incremental transaction costs, such as legal and due diligence costs, and retention or other compensation payments. These expenses are unpredictable and generally would not have otherwise been

incurred in the periods presented as part of our continuing operations. In addition, the size and complexity of an acquisition, which often drives the magnitude of acquisition-related expenses, may not be indicative of such future costs. We believe excluding acquisition-related expenses facilitates the comparison of our financial results to our historical operating results and to other companies in our industry. Overall, we believe it is useful to exclude these expenses in order to better understand the long-term performance of our core business and to facilitate comparison of our results period-over-period and to those of peer companies.

The following tables present reconciliations of our GAAP financial measures to our non-GAAP financial measures for the periods presented:

Reconciliation of gross profit and gross margin to non-GAAP gross profit and non-GAAP gross margin:

	Three Months Ended March 31,	
	2026	2025
	(dollars in thousands)	
Revenue	\$ 359,283	\$ 310,632
Gross profit	287,790	245,706
Stock-based compensation expense	5,942	5,268
Amortization of acquired technology intangible assets	7,708	7,602
Employer payroll tax on employee stock transactions	174	261
Non-GAAP gross profit	\$ 301,614	\$ 258,837
Gross margin	80%	79%
Non-GAAP gross margin	84%	83%

Reconciliation of operating expenses to non-GAAP operating expenses:

	Three Months Ended March 31,	
	2026	2025
	(dollars in thousands)	
Revenue	\$ 359,283	\$ 310,632
GAAP sales and marketing	149,181	138,684
Stock-based compensation expense	(20,588)	(14,950)
Amortization of acquired intangible assets	(1,121)	(3,305)
Employer payroll tax on employee stock transactions	(752)	(1,131)
Acquisition-related expenses	(154)	(656)
Non-GAAP sales and marketing	\$ 126,566	\$ 118,642
GAAP sales and marketing as a percentage of revenue	42%	45%
Non-GAAP sales and marketing as a percentage of revenue	35%	38%
GAAP research and development	\$ 85,565	\$ 87,609
Stock-based compensation expense	(18,555)	(18,424)
Amortization of acquired intangible assets	(663)	(632)
Employer payroll tax on employee stock transactions	(1,050)	(1,726)
Acquisition-related expenses	(2,586)	(1,049)
Non-GAAP research and development	\$ 62,711	\$ 65,778
GAAP research and development as a percentage of revenue	24%	28%
Non-GAAP research and development as a percentage of revenue	17%	21%

Stock-based compensation expense	(15,402)	(12,382)
Employer payroll tax on employee stock transactions	(502)	(883)
Acquisition-related expenses	(1,245)	(375)
Non-GAAP general and administrative	\$ 51,566	\$ 42,018
GAAP general and administrative as a percentage of revenue	19%	18%
Non-GAAP general and administrative as a percentage of revenue	14%	14%

Reconciliation of loss from operations and operating margin to non-GAAP income from operations and non-GAAP operating margin:

	Three Months Ended March 31,	
	2026	2025
	(dollars in thousands)	
Revenue	\$ 359,283	\$ 310,632
Loss from operations	(15,671)	(36,245)
Stock-based compensation expense	60,487	51,024
Amortization of acquired intangible assets	9,492	11,539
Employer payroll tax on employee stock transactions	2,478	4,001
Acquisition-related expenses	3,985	2,080
Non-GAAP income from operations	\$ 60,771	\$ 32,399
Operating margin	(4%)	(12%)
Non-GAAP operating margin	17%	10%

Liquidity and Capital Resources

As of March 31, 2026, our principal sources of liquidity were cash, cash equivalents, and marketable securities totaling \$591.5 million, which were held in money market funds, U.S. treasury securities, corporate notes and obligations, commercial paper, checking accounts, and savings accounts. Our investments in marketable securities are exposed to interest rate risk; however, due to the short-term nature of our investments, we do not anticipate being exposed to material risks due to changes in interest rates.

As of March 31, 2026, we had outstanding letters of credit on an unsecured basis totaling approximately \$7.6 million to secure various leased office facilities in the U.S. and Australia.

Our cash sources primarily consist of cash generated from sales to our customers, maturities of our marketable securities, proceeds from employees through stock option exercises and our employee stock purchase plan ("ESPP"), and interest income on our marketable securities, money market funds, and savings account balances.

Our cash requirements are primarily for operating expenses, which include personnel-related costs, purchase obligations primarily for hosting and software licenses and other services, lease obligations, and capital expenditures for our employees and offices. We also fund investments which help drive our strategic business growth through acquisitions and investments in equity securities and limited partnership funds. In February 2025, we began using cash to fund withholding taxes due upon the vesting of employee RSUs by net share settlement, rather than our previous approach of selling shares of our common stock issued to employees to cover applicable withholding taxes. We also use working capital to fund repurchases under our stock repurchase program.

During the three months ended March 31, 2026, we had additional contractual commitments beyond those disclosed in our 2025 Form 10-K, primarily related to new lease obligations. In the next 12 months, we have operating lease obligations of \$0.5 million related to leases that commenced during the three months ended March 31, 2026. Beyond the next 12 months, we have net contractual commitments for operating lease obligations of \$20.8 million related to leases that commenced during the three months ended March 31, 2026. There have been no other material changes to our contractual obligations from those discussed in "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our 2025 Form 10-K. We believe our existing cash, cash equivalents, and marketable securities will be sufficient to meet our needs for at least the next 12 months. While we have generated positive cash flows from operations in recent years, we have continued to generate losses from operations, as reflected in our accumulated deficit of \$1.4 billion as of March 31, 2026. We may not achieve profitability in the foreseeable future and may require additional capital resources to execute strategic initiatives to grow our business.

This assessment is a forward-looking statement and involves risks and uncertainties. Our additional future capital requirements will depend on many factors, including our revenue growth rate, new customer acquisition and subscription renewal activity, timing of billing activities, our ability to integrate the companies or technologies we acquire and realize strategic and financial benefits from our investments and acquisitions, other strategic transactions or investments we may enter into, the volume and timing of any stock repurchases under our stock repurchase program, the timing and extent of spending to support further sales and marketing and research and development efforts, general and administrative expenses to support our growth (including international expansion), and inflation. We may in the future enter into arrangements to acquire or invest in complementary businesses, services, and technologies, including intellectual property rights. We may be required to seek additional equity or debt financing to fund these activities. If we are unable to raise additional capital when desired, or on acceptable terms, our business, results of operations, and financial condition could be materially adversely affected.

As of March 31, 2026, we did not have any relationships with unconsolidated organizations or financial partnerships, such as structured finance or special purpose entities, that would have been established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes.

The following table summarizes our cash flows for the periods presented:

	Three Months Ended March 31,	
	2026	2025
	(in thousands)	
Net cash provided by operating activities	\$ 76,756	\$ 66,028
Net cash used in investing activities	(55,019)	(63,511)
Net cash used in financing activities	(109,717)	(126,380)

Operating Activities

Our largest source of cash from operating activities is collections from the sales of subscriptions to our customers. Our primary uses of cash from operating activities are for personnel expenses, marketing expenses, hosting and software license expenses, and overhead.

Net cash provided by operating activities was \$76.8 million during the three months ended March 31, 2026 which resulted from a net loss of \$9.1 million, adjusted for non-cash charges of \$86.3 million and a net cash outflow of \$0.4 million from changes in operating expenses and liabilities. The \$0.4 million of net cash outflows provided as a result of changes in our operating assets and liabilities primarily reflected the following:

- a \$51.2 million decrease in accrued expenses and other liabilities primarily due to the size and timing of bonus and commission accruals and payouts, accrued ESPP contributions, payroll, and cash payments to our vendors;
- a \$33.6 million decrease in deferred revenue primarily due to timing of billings and seasonality;
- a \$10.7 million increase in prepaid expenses and other assets primarily due to timing of cash payments to our vendors;
- a \$6.9 million decrease in accounts payable primarily due to timing of cash payments to our vendors; and
- a \$1.3 million increase in deferred contract cost assets related to commissions as a result of additional customer contracts closed and a higher capitalization rate during the period.

These changes in our operating assets and liabilities were partially offset by a \$103.9 million decrease in accounts receivable primarily due to timing of billings and cash receipts from customers.

Net cash provided by operating activities was \$66.0 million during the three months ended March 31, 2025, which resulted from a net loss of \$33.0 million, adjusted for non-cash charges of \$75.0 million and net cash inflows of \$24.0 million from changes in operating assets and liabilities. The \$24.0 million of net cash inflows provided as a result of changes in our operating assets and liabilities primarily reflected an \$86.3 million decrease in accounts receivable primarily due to timing of billings and cash receipts from customers, which was partially offset by the following:

- a \$26.6 million decrease in deferred revenue primarily due to timing of billings and seasonality;
- a \$11.1 million decrease in accounts payable primarily due to timing of cash payments to our vendors.
- a \$9.9 million decrease in accrued expenses and other liabilities primarily due to the size and timing of bonus and commission accruals and payouts, accrued ESPP contributions, payroll, and cash payments to our vendors;
- a \$7.5 million increase in prepaid expenses and other assets primarily due to timing of cash payments to our vendors; and
- a \$6.6 million increase in deferred contract cost assets related to commissions as a result of additional customer contracts closed and a higher capitalization rate during the period.

Investing Activities

Net cash used in investing activities of \$55.0 million during the three months ended March 31, 2026 consisted of cash outflows for business combinations of \$158.9 million, capitalized software development costs of \$17.8 million, purchases of property and equipment of \$2.9 million, and purchases of strategic investments of \$0.5 million; partially offset by sales of marketable securities of \$106.7 million, and maturities of marketable securities of \$18.4 million.

Net cash used in investing activities of \$63.5 million during the three months ended March 31, 2025 consisted of purchases of marketable securities of \$134.6 million, business combinations of \$41.3 million, capitalized software development costs of \$15.3 million, and purchases of property and equipment of \$4.0 million, asset acquisitions of \$3.5 million, and purchases of strategic investments of \$0.6 million; partially offset by \$135.8 million in maturities of marketable securities.

Financing Activities

Net cash used in financing activities of \$109.7 million during the three months ended March 31, 2026 consisted of repurchases of our common stock of \$100.0 million, payments of tax withholding for net share settlement of \$15.3 million, payments on our finance lease obligations of \$0.4 million, and deferred asset acquisition payments of \$0.3 million; partially offset by proceeds from stock option exercises of \$2.5 million.

Net cash used in financing activities of \$126.4 million during the three months ended March 31, 2025 consisted of repurchases of our common stock of \$100.0 million, payments of tax withholding for net share settlement of \$28.3 million, and payments on our finance lease obligations of \$0.4 million; partially offset by proceeds from stock option exercises of \$2.3 million.

Capital Allocation Strategy

We have a balanced approach to capital allocation based on the following priorities: driving organic and efficient revenue growth; investing in accretive mergers and acquisitions; and returning capital to stockholders through regular evaluation of stock repurchases, as appropriate.

Stock Repurchase Program

On November 3, 2025, our Board authorized a stock repurchase program to repurchase up to \$300.0 million of our outstanding common stock. We intend to opportunistically repurchase shares of our common stock from time to time through the open market or other transactions in accordance with applicable securities laws, in each case, subject to market conditions, applicable legal requirements, and other relevant factors. The timing of stock repurchases and the actual number of shares repurchased will depend on a variety of factors, including price, general business and market conditions, and alternative investment opportunities, and will be subject to the discretion of our management within its authorization. The stock repurchase program will be funded using our working capital. The stock repurchase program does not obligate us to acquire any particular number of shares of our common stock, or any shares at all. The stock repurchase program expires on November 3, 2026, and may be suspended or discontinued at any time at our discretion and without notice. During the three months ended March 31, 2026, we repurchased and retired a total of 1,765,560 shares of our common stock at a weighted average per share price of \$56.66 for an aggregate amount of \$100.0 million, which includes the transaction costs associated with the repurchases but excludes the 1% excise tax on stock repurchases imposed by the Inflation Reduction Act of 2022.

Critical Accounting Policies and Estimates

Critical accounting policies and estimates are those accounting policies and estimates that are both the most important to the portrayal of our net assets and results of operations and require the most difficult, subjective, or complex judgments, often as a result of the need to make estimates about the effect of matters that are inherently uncertain. These estimates are developed based on historical experience and various other assumptions that we believe to be reasonable under the circumstances. Critical accounting estimates are accounting estimates where the nature of the estimates is material due to the levels of subjectivity and judgment necessary to account for highly uncertain matters or the susceptibility of such matters to change and the impact of the estimates on financial condition or operating performance is material.

Our significant accounting policies are described in Note 2 of our condensed consolidated financial statements. Our critical accounting policies and more significant judgments and estimates used in the preparation of our financial statements are discussed in “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our 2025 Form 10-K. There have been no significant changes to these policies for the three months ended March 31, 2026.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Foreign Currency and Exchange Risk

The vast majority of our cash generated from revenue is denominated in U.S. Dollars, with the remainder denominated in Australian Dollars, Canadian Dollars, Great British Pounds, Euros, Norwegian Krone, and UAE Dirham. Our expenses are generally denominated in the currencies of the jurisdictions in which we conduct our business operations, which are primarily in the U.S., Australia, Canada, England, Egypt, Ireland, Czech Republic, Costa Rica, India, the UAE, and Norway. Our results of current and future operations and cash flows are, therefore, subject to the risk of fluctuations in foreign currency exchange rates. This exposure is the result of selling in multiple currencies and payment of personnel-related expenses and other operating expenses in countries where the functional currency is the local currency. Changes in foreign currency exchange rates could have an adverse impact on our financial results and cash flow. These exposures may change over time as business practices evolve and economic conditions change. As the impact of foreign currency exchange rates has not been material to our historical operating results, we have not entered into derivative or hedging transactions, but we may do so in the future if our exposure to foreign currency becomes more significant.

Interest Rate Risk

We had cash, cash equivalents, and marketable securities of \$591.5 million as of March 31, 2026. Cash, cash equivalents, and marketable securities consist of money market funds, U.S. treasury securities, corporate notes and obligations, commercial paper, checking accounts, and savings accounts. The cash and cash equivalents are held for working capital and general corporate purposes. Interest-earning instruments carry a degree of interest rate risk. The primary objective of our investment activities is to preserve principal while maximizing income without significantly increasing risk. We do not enter into investments for trading or speculative purposes and have not used any derivative financial instruments to manage our interest rate risk exposure. Due to the short-term nature of our investments, we have not been exposed to, nor do we anticipate being exposed to, material risks due to changes in interest rates. As of March 31, 2026, a hypothetical 100 basis points increase or decrease in interest rates would not have a material impact on the fair market value of our portfolio. We therefore do not expect our results of operations or cash flows to be materially affected by a sudden change in market interest rates.

Inflation Risk

Inflation can have a positive impact on our pricing since increased construction costs may increase construction volume purchased by customers. However, supply chain challenges and labor shortages can result in delayed construction project starts, which may negatively impact construction volume purchased. Inflation can also result in higher personnel-related costs. We do not believe that inflation has had a material effect on our business, results of operations, or financial condition. Nonetheless, if our costs were to become subject to significant inflationary pressures, we may not be able to fully offset such higher costs. Our inability or failure to do so could harm our business, results of operations, or financial condition.

Item 4. Controls and Procedures.

(a) Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our chief executive officer and chief financial officer, we conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, as of March 31, 2026, the end of the period covered by this report.

Based on the Company's evaluation, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures are designed to, and are effective to, provide assurance at a reasonable level that the information we are required to disclose in reports that we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in Securities and Exchange Commission rules and forms, and that such information is accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate, to allow timely decisions regarding required disclosures.

(b) Changes in Internal Control Over Financial Reporting.

Under the supervision and with the participation of our management, including our chief executive officer and chief financial officer, we conducted an evaluation of any changes in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during our most recently completed fiscal quarter. There have not been any changes in internal control over financial reporting during the quarter ended March 31, 2026 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

(c) Limitations on Effectiveness of Controls and Procedures

Our management, including our chief executive officer and chief financial officer, believes that our disclosure controls and procedures and internal control over financial reporting are designed to provide reasonable assurance of achieving their objectives and are effective at the reasonable assurance level. However, our management does not expect that our disclosure controls and procedures or our internal control over financial reporting will prevent all errors and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, have been detected. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the controls. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions; over time, controls may become inadequate because of changes in conditions, or the degree of compliance with policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings.

From time to time, we are, and may in the future become, involved in or subject to various legal proceedings arising in the ordinary course of business. Refer to Note 9 of the Notes to the Condensed Consolidated Financial Statements in Part I, Item 1 of this Quarterly Report on Form 10-Q for a discussion of legal proceedings.

Item 1A. Risk Factors.

Investing in our common stock involves a high degree of risk. You should carefully consider the risks and uncertainties described in Part I, Item 1A, “Risk Factors” in our 2025 Form 10-K, together with all of the other information contained in this Quarterly Report on Form 10-Q, including our condensed consolidated financial statements and the related notes thereto, before making a decision to invest in our common stock. There have been no material changes described in Part I, Item 1A, “Risk Factors” in our 2025 Form 10-K. The risks and uncertainties described in Part I, Item 1A, “Risk Factors” in our 2025 Form 10-K are not the only ones we face. Additional risks and uncertainties that we are unaware of, or that we currently believe are not material, may also become important factors that affect us. If any of such risks occur, our business, financial condition, results of operations, and prospects could be materially adversely affected. In that event, the price of our common stock could decline, and you could lose part or all of your investment.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

Unregistered Sales of Equity Securities

None.

Issuer Purchases of Equity Securities

On November 3, 2025, our Board authorized a stock repurchase program to repurchase up to \$300.0 million of our outstanding common stock.

The following table summarizes the stock repurchase activity and the approximate dollar value of shares that may yet be purchased pursuant to our authorized stock repurchase program for the three months ended March 31, 2026:

Period	Total Number of Shares Purchased	Average Price Paid Per Share ⁽¹⁾	Total Number of Shares Purchased Under Publicly Announced Programs	Approximate Dollar Value of Shares that May Yet be Purchased Under the Program (in thousands)
January 1 - January 31	786,608	\$ 61.14	786,608	\$ 251,978
February 1 - February 28	978,952	\$ 53.06	978,952	199,978
March 1 - March 31	—	\$ —	—	199,978
Total	1,765,560		1,765,560	\$ 199,978

(1) The average price paid per share includes transaction costs associated with the stock repurchase and excludes the 1% excise tax on stock repurchases imposed by the Inflation Reduction Act of 2022.

Items 3 and 4 are not applicable and have been omitted.

Item 5. Other Information.**Insider Trading Arrangements**

During the quarterly period ended March 31, 2026, our directors and officers (as defined in Rule 16a-1(f) under the Exchange Act) adopted or terminated the contracts, instructions, or written plans for the purchase or sale of our securities as set forth in the table below.

Name and Position	Action	Adoption/Termination Date	Type of Trading Arrangement		Total Shares of Common Stock to be Sold ⁽³⁾	Expiration Date
			Rule 10b5-1 ⁽¹⁾	Non-Rule 10b5-1 ⁽²⁾		
Elisa A. Steele, Director	Adoption	March 12, 2026	x		4,837	June 11, 2027
Kevin J. O'Connor, Director	Adoption	March 13, 2026	x		250,000	June 22, 2027

(1) Contract, instruction, or written plan intended to satisfy the affirmative defense conditions of Rule 10b5-1(c) under the Exchange Act.

(2) "Non-Rule 10b5-1 trading arrangement" as defined in Item 408(c) of Regulation S-K under the Exchange Act.

(3) Represents the maximum number of shares that may be sold pursuant to the Rule 10b5-1 trading arrangement. The number of shares actually sold may be lower and will depend on the satisfaction of certain conditions as set forth in the written plan.

CERTIFICATION OF CHIEF EXECUTIVE OFFICER**PURSUANT TO EXCHANGE ACT RULES 13a-14(a) AND 15d-14(a), AS ADOPTED PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Ajei S. Gopal, certify that:

1. I have reviewed this Form 10-Q of Procore Technologies, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
