Use of Forward-Looking Statements

This press release contains, and statements made during the above-referenced conference call will contain, "forward-looking statements," including, among other things, statements regarding future events and the future financial performance of SGH (including the business outlook for the next fiscal quarter) and statements regarding growth drivers in SGH's industries and markets. These forward-looking statements are based on current expectations and preliminary assumptions that are subject to factors and uncertainties that could cause actual results to differ materially from those described in these forward-looking statements. These forward-looking statements are subject to a number of risks, uncertainties and other factors, many of which are outside SGH's control, including, among others: issues, delays or complications in integrating the operations of Stratus; global business and economic conditions and growth trends in technology industries, our customer markets and various geographic regions; uncertainties in the geopolitical environment; uncertainties in the global macroeconomic environment; disruptions in our operations or our supply chain as a result of COVID-19 pandemic or otherwise; changes in trade regulations or adverse developments in international trade relations and agreements; changes in currency exchange rates; overall information technology spending; appropriations for government spending; the success of our strategic initiatives including additional investments in new products and additional capacity; acquisitions of companies or technologies, the failure to successfully integrate and operate them, or customers' negative reactions to them; limitations on, or changes in the availability of, supply of materials and components; fluctuations in material costs; the temporary or volatile nature of pricing trends in memory or elsewhere; deterioration in customer relationships; production or manufacturing difficulties; competitive factors; technological changes; difficulties with, or delays in, the introduction of new products; slowing or contraction of growth in the memory market in Brazil or in the LED market; reduction in or termination of incentives for local manufacturing in Brazil; changes to applicable tax regimes or rates; prices for the end products of our customers; strikes or labor disputes; deterioration in or loss of relations with any of our limited number of key vendors; the inability to maintain or expand government business; and other factors and risks detailed in SGH's filings with the U.S. Securities and Exchange Commission, which include SGH's most recent reports on Form 8-K, Form 10-K and Form 10-Q, including SGH's future filings.

Such factors and risks as outlined above and in such filings do not constitute all factors and risks that could cause actual results of SGH to be materially different from our forward-looking statements. Accordingly, investors are cautioned not to place undue reliance on any forward-looking statements. These forward-looking statements are made as of today, and SGH does not intend, and has no obligation, to update or revise any forward-looking statements in order to reflect events or circumstances that may arise after the date of this press release, except as required by law.

Statement Regarding Use of Non-GAAP Financial Measures

SGH management uses non-GAAP measures to supplement SGH's financial results under GAAP. Management uses these measures to analyze its operations and make decisions as to future operational plans and believes that this supplemental non-GAAP information is useful to investors in analyzing and assessing the Company's past and future operating performance. These non-GAAP measures exclude certain items, such as share-based compensation expense, amortization of acquisition-related intangible assets (consisting of amortization of developed technology, customer relationships, trademarks/trade names and backlog acquired in connection with business combinations), acquisition-related inventory adjustments, acquisition-related expenses, restructure charges and integration expenses, changes in the fair value of contingent consideration, (gains) losses from changes in currency exchange rates, COVID-19 expenses, amortization of debt

discount and other costs and other infrequent or unusual items. While amortization of acquisition-related intangible assets is excluded, the revenues from acquired companies is reflected in our non-GAAP measures and these intangible assets contribute to revenue generation. Management believes the presentation of operating results that exclude certain items provides useful supplemental information to investors and facilitates the analysis of the Company's core operating results and comparison of operating results across reporting periods. Management also uses adjusted EBITDA, which represents GAAP net income (loss), adjusted for net interest expense, income tax expense, depreciation and amortization expense, share-based compensation expense, acquisition-related inventory adjustments, acquisition-related expenses, restructure charges and integration expenses, changes in the fair value of contingent consideration, COVID-19 expenses and other infrequent or unusual items.

Non-GAAP financial measures should not be considered as a substitute for, or superior to, measures of financial performance prepared in accordance with GAAP, as they exclude important information about our financial results, as noted above. The presentation of these adjusted amounts varies from amounts presented in accordance with GAAP and therefore may not be comparable to amounts reported by other companies. In addition, adjusted EBITDA does not purport to represent cash flow provided by, or used in, operating activities in accordance with GAAP and should not be used as a measure of liquidity. Investors are encouraged to review the "Reconciliation of GAAP to Non-GAAP Measures" tables below.
