Item 2.02. Results of Operations and Financial Condition.

On February 8, 2017, Axalta Coating Systems Ltd. ("Axalta") issued a press release and posted an earnings call presentation to its website reporting its financial results for the fourth quarter and year ended December 31, 2016. Copies of the press release and the earnings call presentation are furnished as Exhibit 99.1 and Exhibit 99.2, respectively, to this Current Report on Form 8-K and are incorporated herein by reference. The information furnished with this Item 2.02, including Exhibits 99.1 and 99.2, shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, or otherwise subject to the liabilities of that section, nor shall it be deemed incorporated by reference into any other filing under the Securities Act of 1933, as amended, except as expressly set forth by specific reference in such a filing.

In the press release, the earnings call presentation and the conference call to discuss its financial results for the fourth quarter and year ended December 31, 2016, scheduled to be webcast at 8:00 A.M. on February 8, 2017, Axalta presents, and will present, certain non-GAAP financial measures. Axalta management believes that presenting these non-GAAP financial measures provides meaningful information to investors in understanding operating results and may enhance investors' ability to analyze financial and business trends. In addition, Axalta management believes that these non-GAAP financial measures allow investors to compare period to period results more easily by excluding items that could have a disproportionately negative or positive impact on results in any particular period. Non-GAAP measures are not a substitute for GAAP measures and should be considered together with the GAAP financial measures. Our non-GAAP financial measures may not be comparable to other similarly titled measures of other companies.

Axalta Releases Fourth Quarter and Full Year 2016 Results

Fourth Quarter 2016 Highlights:

- Net sales of \$1,029.4 million driven by volume and pricing growth of 5.6%, offset by unfavorable foreign currency translation
- GAAP net loss attributable to Axalta of \$36.5 million versus net income of \$38.6 million in Q4 2015; Adjusted net income attributable to Axalta of \$68.6 million for Q4 2016 versus \$58.0 million in Q4 2015
- Adjusted EBITDA of \$226.5 million versus \$212.8 million in Q4 2015

Full Year 2016 Highlights:

- Net sales of \$4,073.5 million driven by volume and pricing growth of 4.3%, offset by unfavorable foreign currency translation
- GAAP net income attributable to Axalta of \$41.8 million versus \$93.7 million in 2015; Adjusted net income attributable to Axalta of \$269.4 million for 2016 versus \$241.9 million in 2015
- Adjusted EBITDA of \$907.1 million versus \$867.2 million in 2015

PHILADELPHIA, PA, February 8, 2017 - Axalta Coating Systems Ltd. (NYSE:AXTA) ("Axalta"), a leading global coatings company, announced its financial results for the fourth quarter and full year ended December 31, 2016.

"Axalta's 2016 financial period ended on a strong note, with fourth quarter net sales and operating performance slightly exceeding the expectations set in October, driven by volume and favorable product mix. For the full year, we also met our key objectives in terms of financial and operating performance, despite a somewhat greater foreign currency headwind." said Charles W. Shaver, Axalta's Chairman and Chief Executive Officer. "We are proud of the progress we made this year, including achieving positive growth in a tough global economy, successfully executing on our M&A strategy, meeting our leverage target ahead of plan, and improving productivity through our Axalta Way initiatives. Key milestones were also met in new product technology introduction, refinancing our capital structure, and progressing our product globalization and commercial excellence objectives. We look forward to ongoing momentum in each of these areas in 2017."

Fourth Quarter 2016 Consolidated Financial Results

Net sales of \$1,029.4 million for the fourth quarter benefited from both volume and pricing growth, offset by a 3.0% negative impact from foreign currency translation. Constant currency net sales increased 5.6% compared to the year-ago quarter, driven by 2.2% higher average selling prices and 3.4% volume growth. Acquisitions contributed 3.1% of the volume growth in the quarter. Net sales growth in the quarter was led by Asia Pacific and North America, and Axalta posted positive overall volume growth in all regions except Latin America, which remains challenged in both segments.

We reported a net loss attributable to Axalta of \$36.5 million for the fourth quarter of 2016 compared with net income attributable to Axalta of \$38.6 million in Q4 2015. The net loss in Q4 2016 was primarily driven by severance charges related to planned productivity initiatives, the write-down of long-lived assets in Venezuela, and charges related to the refinancing of our Term Loans during Q4. Adjusted net income attributable to Axalta of \$68.6 million for the fourth quarter of 2016 increased 18.3% compared to \$58.0 million in Q4 2015.

Adjusted EBITDA of \$226.5 million for the fourth quarter increased 6.4% compared to \$212.8 million in Q4 2015. This result benefited from lower variable costs, acquisitions, improved average pricing as well as incremental savings from our operating enhancement initiatives. These factors were somewhat offset by negative foreign currency translation and operational expenditures to support planned growth.

Performance Coatings Results

Performance Coatings net sales were \$608.8 million in Q4 2016, an increase of 3.4% year-over-year including a 4.3% unfavorable foreign currency translation impact. Constant currency net sales increased 7.7%, driven by a 2.5% increase in volumes and higher average selling prices of 5.2% in the period. Acquisitions added 4.3% to volume growth in the quarter. Refinish end-market net sales increased 0.1% to \$422.4 million in Q4 2016 (increased 4.9% excluding foreign currency translation), while our Industrial end-market increased 11.8% to \$186.4 million (increased 14.8% excluding foreign currency translation).

The Performance Coatings segment generated Adjusted EBITDA of \$138.5 million in the fourth quarter, a 5.8% year-over-year increase. Contribution from acquisitions, positive pricing, coupled with variable cost savings, were partially offset by negative foreign currency translation and incremental operating expense to support growth initiatives. Fourth quarter segment Adjusted EBITDA margin of 22.7% reflected a 50 basis point increase compared to Q4 2015.

Transportation Coatings Results

Transportation Coatings net sales were \$420.6 million in Q4 2016, an increase of 1.3% year-over-year including a 1.4% unfavorable foreign currency translation impact. Constant currency net sales increased 2.7% versus Q4 2015, driven largely by 4.7% volume growth, partially offset by a 2.0% negative price impact. Acquisitions added 1.5% to volume growth in the period.

Light Vehicle net sales increased 5.0% to \$342.8 million year-over-year (increased 6.6% excluding foreign currency translation), driven principally by growth in Asia Pacific and North America versus last year, offset by modest decline in EMEA. Latin America saw the first positive revenue growth in several years, driven largely by Mexico with stable South America results versus prior periods. Commercial Vehicle net sales decreased 12.2% to \$77.8 million versus last year (decreased 11.5% excluding foreign currency translation), driven by lower heavy truck production and ongoing slower volumes from other non-truck customers.

Transportation Coatings generated Adjusted EBITDA of \$88.0 million in Q4 2016, an increase of 7.4% versus Q4 2015, with positive volume and variable cost contributions partially offset by somewhat lower average pricing, and ongoing operating expense increases to support planned growth. Segment Adjusted EBITDA margin of 20.9% in Q4 represented a 120 basis point increase from 19.7% in the prior year quarter.

Balance Sheet and Cash Flow Highlights

We ended the quarter with cash and cash equivalents of \$535.4 million. Our debt, net of cash, was \$2,728.5 million as of December 31, 2016, compared to \$2,956.5 million at December 31, 2015. During the quarter we completed an amendment of our USD and Euro Term Loans which included a shift of the USD/Euro mix, repricing and extension of maturities. The amendment will reduce our interest payments by approximately \$8 million annually. We also prepaid \$150 million of our USD Term Loan in October for an additional annual interest savings of \$5.6 million.

Fourth quarter operating cash flow was \$228.0 million versus \$237.1 million in the corresponding quarter of 2015, reflecting another strong seasonal operating result derived largely from strong operations and working capital performance. Free cash flow, calculated as operating cash flow less capital expenditures, totaled \$187.1 million after capital expenditures of \$40.9 million. For the full year 2016, free cash flow was \$423.1 million, a significant increase from \$271.7 million reported in 2015.

"We are very pleased that in the fourth quarter we were able to demonstrate strong operating and financial performance, including solid revenue growth as well as record Adjusted EBITDA margins. We also completed additional refinancing to further optimize our capital structure, and ended the year with very strong cash flow," said Robert W. Bryant, Axalta's Executive Vice President and Chief Financial Officer. "As we noted in December and affirm today, we continue to expect 2017 to show incremental progress across the organization, including ongoing above-market growth in net sales, modest incremental margin expansion, continued benefit from our acquisition strategy, and improvement in free cash flow and associated metrics."

Adoption of New Share-based Compensation Expense Accounting Standard

During the three months ended December 31, 2016, Axalta early adopted ASU 2016-09, which addresses, among other items, the accounting for income taxes, calculations on diluted weighted average shares outstanding, and cash flow presentation relating to share-based compensation. The early adoption increased net income attributable to Axalta by \$2.6 million and \$13.4 million for both the three months and full year ended December 31, 2016, respectively. The impact of adoption increased Axalta's dilutive shares by 1.3 million shares and 1.7 million shares for the fourth quarter and year ended December 31, 2016, respectively. Axalta will provide more detailed information regarding the impact of the early adoption in its annual report on Form 10-K for the year ended December 31, 2016.

2017 Guidance Update

We are updating our outlook for the full year 2017 as follows:

- Net sales growth of 1-3% as-reported; 4-6% ex-FX, including acquisition contribution of 2-3%
- Adjusted EBITDA of \$930-980 million
- Interest expense of ~\$150 million
- Income tax rate, as adjusted, of 22-24%
- Free cash flow of \$440-480 million
- Capital expenditures of ~\$160 million
- Depreciation and amortization of ~\$335 million
- Diluted shares outstanding of 246-249 million

Conference Call Information

As previously announced, Axalta will hold a conference call to discuss its fourth quarter and full year 2016 financial results on Wednesday, February 8th, at 8:00 a.m. EDT. A live webcast of the conference call will also be available online at <http://axalta.com/investorcall>. For those unable to participate in the conference call, a replay will be available through February 11, 2017. The U.S. replay dial-in phone number is (844) 512-2921 and the international replay dial-in number is +1 (412) 317-6671. The replay passcode is 13654004.

Cautionary Statement Concerning Forward-Looking Statements

This release may contain certain forward-looking statements regarding Axalta and its subsidiaries including those relating to interest savings, returns generated by acquisitions, margin expansion, as well as our 2017 full year outlook, including net sales growth, Adjusted EBITDA, interest expense, income tax rate, as adjusted, free cash flow, capital expenditures, depreciation and amortization, and diluted shares outstanding. All of these statements are based on management's expectations as well as estimates and assumptions prepared by management that, although they believe to be reasonable, are inherently uncertain. These statements involve risks and uncertainties, including, but not limited to, economic, competitive, governmental and technological factors outside of Axalta's control that may cause its business, industry, strategy, financing activities or actual results to differ materially. More information on potential factors that could affect Axalta's financial results is available in the "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" section within Axalta's most recent annual report on Form 10-K, and in other documents that we have filed with, or furnished to, the U.S. Securities and Exchange Commission. Axalta undertakes no obligation to update or revise any of the forward-looking statements contained herein, whether as a result of new information, future events or otherwise.

Non-GAAP Financial Measures

The historical financial information included in this presentation includes financial information that is not presented in accordance with generally accepted accounting principles in the United States (“GAAP”), including constant currency net sales growth, income tax rate, as adjusted, EBITDA, Adjusted EBITDA, free cash flow, net debt and Adjusted net income. Management uses these non-GAAP financial measures in the analysis of our financial and operating performance because they assist in the evaluation of underlying trends in our business. Adjusted EBITDA consists of EBITDA adjusted for (i) non-cash items included within net income, (ii) items Axalta does not believe are indicative of ongoing operating performance or (iii) nonrecurring or infrequent items that Axalta believes are not reasonably likely to recur within the next two years. We believe that making such adjustments provides investors meaningful information to understand our operating results and ability to analyze financial and business trends on a period-to-period basis. Adjusted net income shows the adjusted value of net income (loss) attributable to controlling interests after removing the items that are determined by management to be items that we do not consider indicative of our ongoing operating performance or unusual or nonrecurring in nature. Our use of the terms constant currency net sales growth, income tax rate, as adjusted, EBITDA, Adjusted EBITDA, free cash flow, net debt and Adjusted net income may differ from that of others in our industry. Constant currency net sales growth, income tax rate, as adjusted, EBITDA, Adjusted EBITDA, free cash flow, net debt and Adjusted net income should not be considered as alternatives to net sales, net income (loss), income (loss) before operations or any other performance measures derived in accordance with GAAP as measures of operating performance or operating cash flows or as measures of liquidity. Constant currency net sales growth, income tax rate, as adjusted, EBITDA, Adjusted EBITDA, free cash flow, net debt and Adjusted net income have important limitations as analytical tools and should be considered in conjunction with, and not as substitutes for, our results as reported under GAAP. This presentation includes a reconciliation of certain non-GAAP financial measures with the most directly comparable financial measures calculated in accordance with GAAP. Axalta does not provide a reconciliation for non-GAAP estimates for constant currency net sales growth, Adjusted EBITDA, income tax rate, as adjusted, or free cash flow on a forward-looking basis because the information necessary to calculate a meaningful or accurate estimation of reconciling items is not available without unreasonable effort. For example, such reconciling items include the impact of foreign currency exchange gains or losses, gains or losses that are unusual or nonrecurring in nature, as well as discrete taxable events. We cannot estimate or project these items and they may have a substantial and unpredictable impact on our US GAAP results.

Segment Financial Measures

The primary measure of segment operating performance is Adjusted EBITDA, which is a key metric that is used by management to evaluate business performance in comparison to budgets, forecasts, and prior year financial results, providing a measure that management believes reflects Axalta’s core operating performance. As we do not measure segment operating performance based on net income (loss), a reconciliation of this non-GAAP financial measure with the most directly comparable financial measure calculated in accordance with GAAP is not available.

- (a) During the three months and years ended December 31, 2016 and 2015 we prepaid principal on our term loans, resulting in non-cash extinguishment losses of \$3.0 million, \$9.6 million, \$2.5 million and \$2.5 million, respectively. During the three months and year ended December 31, 2016, we amended our Credit Agreement and refinanced our indebtedness, resulting in additional losses of \$10.4 million and \$88.0 million, respectively. We do not consider these items to be indicative of our ongoing operating performance.
- (b) Eliminates foreign exchange losses resulting from the remeasurement of assets and liabilities denominated in foreign currencies, net of the impacts of our foreign currency instruments used to hedge our balance sheet exposures. Exchange effects attributable to the remeasurement of our Venezuelan subsidiary represented gains of \$0.4 million and losses of \$23.5 million for the three months and year ended December 31, 2016, respectively, and gains of \$1.1 million and losses of \$51.5 million for three months and year ended December 31, 2015.
- (c) Eliminates the non-cash non-service cost (gain) components of long-term employee benefit costs.
- (d) Represents expenses primarily related to employee termination benefits including our initiative to improve the overall cost structure within the European region as well as costs associated with our Axalta Way initiatives, which are not considered indicative of our ongoing operating performance.
- (e) Represents fees paid to consultants for professional services primarily related to our Axalta Way initiatives, which are not considered indicative of our ongoing operating performance.
- (f) Represents a change in estimate associated with the transition costs from DuPont to a standalone entity, including certain indemnities. We do not consider these items to be indicative of our ongoing operating performance.
- (g) Represents costs associated with the secondary offerings of our common shares by Carlyle and acquisition-related expenses, including changes in the fair value of contingent consideration, all of which are not considered indicative of our ongoing operating performance.
- (h) Represents non-cash costs associated with stock-based compensation, including \$8.2 million of expense during the year ended December 31, 2015 attributable to the accelerated vesting of all issued and outstanding stock options issued under the 2013 Plan as a result of the Change in Control.
- (i) Represents costs for certain non-operational or non-cash (gains) and losses, unrelated to our core business and which we do not consider indicative of ongoing operations, including equity investee dividends, indemnity losses (gains) associated with the Acquisition, losses (gains) on sale and disposal of property, plant and equipment, losses (gains) on the remaining foreign currency derivative instruments and non-cash fair value inventory adjustments associated with our business combinations.
- (j) Represents the payment of dividends to our joint venture partners by our consolidated entities that are not wholly owned, which are reflected to show the cash operating performance of these entities on Axalta's financial statements.

- (k) As a result of currency devaluations in Venezuela, we recorded non-cash impairment charges relating to a real estate investment of \$10.5 million and \$30.6 million during the years ended December 31, 2016 and 2015, respectively. Additionally, during the year ended December 31, 2016, we recorded a \$57.9 million non-cash impairment on long-lived assets associated with our Venezuela operations. We do not consider these impairments to be indicative of our ongoing operating performance.

The following table reconciles net income (loss) to adjusted net income for the periods presented (in millions):

Forward-Looking Statements

This presentation and the oral remarks made in connection herewith may contain "forward-looking statements" within the meaning of the U.S. Private Securities Litigation Reform Act of 1995, including those relating to 2017 financial projections, including execution on our 2017 goals as well as 2017 net sales, net sales excluding FX, Adjusted EBITDA, interest expense, tax rate, as adjusted, free cash flow, capital expenditures, working capital, depreciation and amortization, diluted shares outstanding, cost savings, contributions from acquisitions, and related assumptions. Any forward-looking statements involve risks, uncertainties and assumptions. These statements often include words such as "believe," "expect," "anticipate," "intend," "plan," "estimate," "target," "project," "forecast," "seek," "will," "may," "should," "could," "would," or similar expressions. These statements are based on certain assumptions that we have made in light of our experience in the industry and our perceptions of historical trends, current conditions, expected future developments and other factors we believe are appropriate under the circumstances as of the date hereof. Although we believe that the assumptions and analysis underlying these statements are reasonable as of the date hereof, investors are cautioned not to place undue reliance on these statements. We do not have any obligation to and do not intend to update any forward-looking statements included herein, which speak only as of the date hereof. You should understand that these statements are not guarantees of future performance or results. Actual results could differ materially from those described in any forward-looking statements contained herein or the oral remarks made in connection herewith as a result of a variety of factors, including known and unknown risks and uncertainties, many of which are beyond our control including, but not limited to, the risks and uncertainties described in "Non-GAAP Financial Measures," and "Forward-Looking Statements" as well as "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2015 and our Quarterly Reports on Form 10-Q for the quarters ended March 31, 2016, June 30, 2016 and September 30, 2016.

Non-GAAP Financial Measures

The historical financial information included in this presentation includes financial information that is not presented in accordance with generally accepted accounting principles in the United States ("GAAP"), including net sales excluding FX, EBITDA, Adjusted EBITDA, Free Cash Flow, tax rate, as adjusted, and Net Debt. Management uses these non-GAAP financial measures in the analysis of our financial and operating performance because they assist in the evaluation of underlying trends in our business. Adjusted EBITDA consists of EBITDA adjusted for (i) non-operating income or expense, (ii) the impact of certain non-cash, nonrecurring or other items that are included in net income and EBITDA that we do not consider indicative of our ongoing performance and (iii) certain unusual or nonrecurring items impacting results in a particular period. We believe that making such adjustments provides investors meaningful information to understand our operating results and ability to analyze financial and business trends on a period-to-period basis. Our use of the terms net sales excluding FX, EBITDA, Adjusted EBITDA, Free Cash Flow, tax rate, as adjusted, and Net Debt may differ from that of others in our industry. Net sales excluding FX, EBITDA, Adjusted EBITDA and Free Cash Flow should not be considered as alternatives to net income, operating income or any other performance measures derived in accordance with GAAP as measures of operating performance or operating cash flows or as measures of liquidity. Net sales excluding FX, EBITDA, Adjusted EBITDA, Free Cash Flow, tax rate, as adjusted, and Net Debt have important limitations as analytical tools and should be considered in conjunction with, and not as substitutes for, our results as reported under GAAP. This presentation includes a reconciliation of certain non-GAAP financial measures with the most directly comparable financial measures calculated in accordance with GAAP. Axalta does not provide a reconciliation for non-GAAP estimates for net sales excluding FX, EBITDA, Adjusted EBITDA, Free Cash Flow or tax rate, as adjusted, as-reported on a forward-looking basis because the information necessary to calculate a meaningful or accurate estimation of reconciling items is not available without unreasonable effort. For example, such reconciling items include the impact of foreign currency exchange gains or losses, gains or losses that are unusual or nonrecurring in nature, as well as discrete taxable events. We cannot estimate or project those items and they may have a substantial and unpredictable impact on our US GAAP results.

Segment Financial Measures

The primary measure of segment operating performance is Adjusted EBITDA, which is a key metric that is used by management to evaluate business performance in comparison to budgets, forecasts and prior year financial results, providing a measure that management believes reflects Axalta's core operating performance. As we do not measure segment operating performance based on Net Income, a reconciliation of this non-GAAP financial measure with the most directly comparable financial measure calculated in accordance with GAAP is not available.

Defined Terms

All capitalized terms contained within this presentation have been previously defined in our filings with the United States Securities and Exchange Commission.

Adjusted EBITDA Reconciliation (cont'd)

- A. During the three months and years ended December 31, 2016 and 2015 we prepaid principal on our term loans, resulting in non-cash extinguishment losses of \$3 million, \$10 million, \$3 million and \$3 million, respectively. During the three months and year ended December 31, 2016, we amended our Credit Agreement and refinanced our indebtedness, resulting in additional losses of \$10 million and \$88 million, respectively. We do not consider these items to be indicative of our ongoing operating performance.
- B. Eliminates foreign exchange losses resulting from the remeasurement of assets and liabilities denominated in foreign currencies, net of the impacts of our foreign currency instruments used to hedge our balance sheet exposures. Exchange effects attributable to the remeasurement of our Venezuelan subsidiary represented gains of \$1 million and losses of \$24 million for the three months and year ended December 31, 2016, respectively, and gains of \$1 million and losses of \$52 million for three months and year ended December 31, 2015.
- C. Eliminates the non-cash, non-service cost (gain) components of long-term employee benefit costs.
- D. Represents expenses primarily related to employee termination benefits including our initiative to improve the overall cost structure within the European region as well as costs associated with our Axalta Way initiatives, which are not considered indicative of our ongoing operating performance.
- E. Represents fees paid to consultants for professional services primarily related to our Axalta Way initiatives, which are not considered indicative of our ongoing operating performance.
- F. Represents a change in estimate associated with the transition costs from DuPont to a standalone entity, including certain indemnities. We do not consider these items to be indicative of our ongoing operating performance.
- G. Represents costs associated with the secondary offerings of our common shares by Carlyle and acquisition-related expenses, including changes in the fair value of contingent consideration, all of which are not considered indicative of our ongoing operating performance.
- H. Represents non-cash costs associated with stock-based compensation, including \$8 million of expense during the year ended December 31, 2015 attributable to the accelerated vesting of all issued and outstanding stock options issued under the 2013 Plan as a result of the Change in Control.
- I. Represents costs for certain non-operational or non-cash (gains) and losses, unrelated to our core business and which we do not consider indicative of ongoing operations, including equity investee dividends, indemnity losses (gains) associated with the Acquisition, losses (gains) on sale and disposal of property, plant and equipment, losses (gains) on the remaining foreign currency derivative instruments and non-cash fair value inventory adjustments associated with our business combinations.
- J. Represents the payment of dividends to our joint venture partners by our consolidated entities that are not wholly owned, which are reflected to show cash operating performance of these entities on Axalta's financial statements.
- K. As a result of currency devaluations in Venezuela, we recorded non-cash impairment charges relating to a real estate investment of \$11 million and \$31 million during the years ended December 31, 2016 and 2015, respectively. Additionally, during the year ended December 31, 2016, we recorded a \$58 million non-cash impairment on long-lived assets associated with our Venezuela operations. We do not consider these impairments to be indicative of our ongoing operating performance.
