Despegar.com Announces 3Q17 YoY Growth of 32% in Gross Bookings and 24% in Revenues

Successfully Completes Initial Public Offering

Buenos Aires, November 16, 2017 – Despegar.com, Corp. (NYSE: DESP), (“Despegar” or the “Company”) a leading online travel company in Latin America, today announced unaudited results for the three- and nine-month periods ended September 30, 2017. Financial results are expressed in U.S. dollars and are presented in accordance with U.S. generally accepted accounting principles.

Third Quarter 2017 Key Highlights

- Transactions up 25% YoY
- Gross bookings and revenues up 32% and 24% YoY, respectively
- Number of mobile transactions up 55% YoY to 29% of total transactions
- Over 35 million mobile APP downloads as of September 30, 2017, up 42% YoY
- Packages, Hotels and Other Travel Products accounted for 55% of total revenue, up from 49% in third quarter 2016
- Adjusted EBITDA increased 1% YoY, and was up 15% YoY excluding one-time tax recovery gains in both periods
- Cash flow generated from operating activities of \$10.7 million in 3Q17, versus a use of cash of \$13.3 million in 3Q16

Message from CEO

“We are pleased today to report our first quarter as a public company with strong and profitable growth,” commented Damian Scokin, Despegar’s CEO. “Our growth and market share gains were a result of ongoing investment in cross-selling initiatives driving increased gross bookings particularly in higher margin Packages, Hotels and Other Travel Products. We are also successfully executing on our mobile strategy, with the share of mobile transactions up significantly year-on-year.”

“A milestone for the Company during the quarter was the successful completion of our Initial Public Offering with net proceeds to the Company of \$254 million which provides financial flexibility and additional resources to continue growing the business. We are beginning a new chapter as a public company, and are in the early stages of the development of the online travel industry in Latin America. We are focused on driving growth by executing on our long-term strategy of cross-selling, improving the customer experience and further broadening our product portfolio to continue the strong momentum across the business.”

Overview of Third Quarter 2017 Results**Operating Metrics**

Gross bookings of \$1,116.0 million in 3Q17 increased 32% from \$844.8 million in 3Q16, while transactions increased 25% to 2.3 million during 3Q17 from 1.8 million in 3Q16 despite the impact in the overall market from the earthquakes and hurricanes in the quarter. The underlying results reflect ongoing business momentum and steady macroeconomic conditions in the region, despite softer market growth during the quarter as compared to the first half of 2017.

The Company's business is organized into two segments: (1) Air, which consists of the sale of airline tickets, and (2) Packages, Hotels and Other Travel Products, which consists of travel packages (the bundling of two or more products together), as well as stand-alone sales of accommodations (including hotels and vacation rentals), car rentals, bus tickets, cruise tickets, travel insurance and destination services. During 3Q17, 58% of transactions were from Air and 42% from its Packages, Hotels and Other Travel Products segment, compared with 59% and 41%, respectively in 3Q16. The average selling price (ASP) in the third quarter of 2017 increased 6% YoY to \$486 per transaction driven by product mix shift to higher ASP packages, destination mix shift to higher ASP international destinations and supplier price increases within similar product segments, reflecting the Company's strategy to drive growth in the higher-margin Packages, Hotels and Other Travel Products segment. Brazil remains the largest market by transactions for Despegar accounting for 41% of total transactions, increasing 29% YoY in the third quarter. Transactions increased 24% YoY in Argentina and 30% YoY in Mexico in 3Q17.

During 3Q17, the number of transactions via mobile increased 55% YoY, with approximately 29% of all transactions completed on the mobile platform, compared with 23% in 3Q16. As of September 30, 2017, Despegar's apps had over 35 million cumulative downloads.

Revenue

During the third quarter of 2017 total revenue was up 24% to \$131.5 million, compared to \$106.1 million in 3Q16 primarily reflecting a strong performance in Packages, Hotels & Other Travel Products. Total revenue margin declined 78 basis points year-on-year, to 11.8% in 3Q17, mainly due to a planned reduction in Air customer fees.

- **Air segment revenue** was \$58.5 million, compared to \$54.6 million in 3Q16, representing a year-over-year increase of 7%. Transaction growth of 22% in the period resulted in market share gains. Volume gains were partially offset by a 12% decrease in average revenue per transaction driven by Company's strategy to selectively reduce customer fees in this segment to drive market share growth and provide additional cross-selling opportunities. Commissions remained stable.
- **Packages, Hotels & Other Travel Products segment revenue** increased 42% in the quarter to \$72.9 million, compared to \$51.5 million in the same period of the prior year, reflecting increases of 29% in number of transactions and 10% in revenue per transaction driven mainly by a growing share of higher-margin packages to international destinations. Packages, Hotels and Other Travel Products segment accounted for 55% of total revenue in 3Q17, up from 49% in the same period of the prior year.

Cost of revenue, which primarily consists of credit card processing fees, bank fees related to customer financing installment plans offered and the cost to operate the fulfillment center, was \$37.9 million in 3Q17 compared to \$26.2 million in the same period of the prior year, an increase of 45%. Cost of revenue in the period ending 3Q16 includes a one-time tax recovery gain of \$4.5 million. Excluding this effect, cost of revenue would have decreased 10 basis points to 28.8% from 28.9% in the same period of the prior year, primarily reflecting higher costs related to enhancements in customer financing installment plans offset by lower fraud and improved efficiency in the fulfillment center.

Gross Profit for 3Q17 of \$93.6 million increased 24% YOY excluding the one-time tax recovery gain in 3Q16. Gross margin for the quarter was 71.2%, a similar level as 3Q16.

Operating Expenses

Total operating expenses in 3Q17 were \$75.3 million, compared to \$60.7 million in 3Q16, a year over year increase of 24% primarily due to higher selling and marketing expenses. As a percent of revenue, total operating expenses were 57.3%, in-line with the same period of the prior year. Lower general & administrative and technology and product development expenses, which decreased 158 basis points Y/Y, largely offset the 169 basis points increase in selling and marketing expenses.

- **Selling and marketing expenses** of \$41.1 million were 31% higher than 3Q16, slightly below the 32% YoY increase in gross bookings as the Company continues to invest in direct marketing to drive growth. Selling and marketing expenses as a percentage of revenue in 3Q17 were 31.3% compared to 29.6% in the same period of the prior year, reflecting the reduction in air fees in the period.
- **General and administrative (G&A) expenses** were \$15.3 million, compared to \$13.6 million in 3Q16, an increase of 13% YoY due to increased stock compensation expense, consulting expenses, bonus accrual and higher personnel expenses. G&A expense was 11.7% of revenue and 115 basis points lower than 3Q16. G&A in 3Q17 includes a one-time tax recovery gain of \$2.0 million.
- **Technology and product development expenses** in 3Q17 increased 20% YoY to \$18.9 million, compared to \$15.7 million in 3Q16. As a percent of revenue, technology and product expenses declined 43 basis points during the quarter to 14.4%.

Excluding the \$2.0 million tax recovery gain in 3Q17, total operating expenses would have increased 27% YoY and total operating expenses as a percentage of revenue would have increased 163 basis points to 58.8% in 3Q17.

Financial Income/Expenses

In the third quarter of 2017, the Company reported a net financial expense of \$2.9 million compared to \$0.9 million in 3Q16. The increase was primarily due to a decline in financial income from lower foreign exchange gains partially offset by lower credit card receivable factoring expenses in Brazil as a result of a reduction in local interest rates.

Income Taxes

The Company reported an income tax expense of \$4.2 million in 3Q17, compared to \$4.1 million in 3Q16. The effective tax rate in 3Q17 was 27%, compared to 22% in 3Q16. The increase in effective tax rate was due to improved profitability in entities with limitations on the use of tax loss carryforwards, particularly in Brazil.

Adjusted EBITDA & Margin

Adjusted EBITDA in 3Q17 increased 1% to \$23.0 million from \$22.8 million in 3Q16, with an Adjusted EBITDA margin of 17.5% compared to 21.5% in the prior year period.

Excluding one-time tax recoveries of \$4.5 million in 3Q16 and \$2.0 million in 3Q17, Adjusted EBITDA would have increased 15%, with Adjusted EBITDA margins of 16.0% in 3Q17 and 17.3% in 3Q16.

Balance Sheet and Cash Flow

Unrestricted cash and cash equivalents at September 30, 2017 were \$356.0 million, primarily reflecting net proceeds to the Company of \$254.3 million from the recent Initial Public Offering, compared to \$75.9 million at December 31, 2016.

The Company generated positive net cash flow from operating activities of \$10.7 million in 3Q17 versus a use of cash of \$13.3 million in 3Q16. For the nine months ended September 30, 2017 and September 30, 2016, net cash provided by operating activities was \$36.0 million versus a use of cash of \$60.9 million.

Accounts receivables net of allowances were \$160.1 million at September 30, 2017, up 32% from \$121.1 million at December 31, 2016 due to the increase in sales volume, accumulation of credit card receivables in Brazil as part of Despegar's currency hedging strategy along with the Company's increased use of its own credit card merchant identification in Argentina to improve customer financing alternatives.

Travel suppliers' payables were \$132.5 million, a 30% increase from \$102.2 million at December 31, 2016 basically in line with sales growth and affected by the mix shift to Packages, Hotels & Other Travel Products that are typically settled on a slower schedule than Air transactions. Related party payables increased 14% to \$81.0 million from \$71.0 million at December 31, 2016.

Non-current contingent liabilities, declined by \$12.4 million, from \$22.4 million at December 31, 2016 largely due to the settlement of a fully reserved tax contingency.

Capital expenditures were \$5.1 million and \$4.3 million in the three month periods ending September 30, 2017 and September 30, 2016 respectively and \$15.3 million and \$11.8 million in the nine months ending September 30, 2017 and 2016 respectively. Funds were primarily used for software and website development. The increase reflects the increased investment in technology as well as the expansion of our regional headquarters.

Use of Non-GAAP Financial Measures

This announcement includes certain references to Adjusted EBITDA and Free Cashflow, non-GAAP financial measures. The Company defines:

Adjusted EBITDA is defined as net income / (loss) exclusive of financial income / (expense), income tax, depreciation, amortization and share-based compensation.

Free cashflow is defined as cashflow from operating activities less capital expenditures including capitalized software.

Adjusted EBITDA and Free cashflow are not measures recognized under U.S. GAAP. Accordingly, readers are cautioned not to place undue reliance on this information and should note that these measures as calculated by the Company, may differ materially from similarly titled measures reported by other companies, including its competitors. Adjusted EBITDA margin refers to Adjusted EBITDA as defined above divided by revenue.

Definitions and concepts

Average Selling Price (ASP): reflects gross bookings divided by the total number of transactions.

Gross Bookings: Gross bookings is an operating measure that represents the aggregate purchase price of all travel products booked by the Company's customers through its platform during a given period. The Company generates substantially all of its revenue from commissions and other incentive payments paid by its suppliers and service fees paid by its customers for transactions through its platform, and, as a result, it monitors gross bookings as an important indicator of its ability to generate revenue.

Number of Transactions: The number of transactions for a period is an operating measure that represents the total number of customer orders completed on our platform in such period. The number of transactions is an important metric because it is an indicator of the level of engagement with the Company's customers and the scale of its business from period to period but, unlike gross bookings, the number of transactions is independent of the average selling price of each transaction, which can be influenced by fluctuations in currency exchange rates among other factors.

Revenue: The Company reports its revenue on a net basis, deducting cancellations and amounts that it collects as sales taxes. Despegar derives substantially all of its revenue from commissions and other incentive payments paid by its suppliers and service fees paid by its customers for transactions through its platform. To a lesser extent, the Despegar also derives revenue from the sale of third-party advertisements on its websites and from certain suppliers when their brands appears in the Company advertisements in mass media.

Revenue Margin: calculated as revenue divided by gross bookings.

Seasonality : Despegar's financial results experience fluctuations due to seasonal variations in demand for travel services. Bookings for vacation and leisure travel are generally higher during the fourth quarter, although the Company has recognized more revenue associated with those bookings in the first quarter of each year. Latin American travelers, particularly leisure travelers, who are Despegar's primary customers, tend to travel most frequently at the end of the fourth quarter and during the first quarter of each year.
