RISK FACTORS

Your investment in the notes involves certain risks. In consultation with your own financial, tax and legal advisors, you should carefully consider, among other matters, the following discussion of risks before deciding whether an investment in the notes is suitable for you. The notes are not an appropriate investment for you if you are unsophisticated with respect to their significant components. The risk factors described below may be updated from time to time by our filings with the Securities and Exchange Commission under the Exchange Act that we incorporate by reference herein. The risks and uncertainties described in such incorporated documents and described below are not the only risks and uncertainties that we face. Additional risks and uncertainties not currently known to us or that we currently deem immaterial may also impair our business, financial condition and results of operations. If any of those risks actually occurs, our business, financial condition and results of operations would suffer. See “Cautionary Statement Concerning Forward-Looking Statements.” In this “Risk Factors” section, (i) when we refer to the applicability of the Secured Overnight Financing Rate (“SOFR”) to the floating rate notes, we mean the floating rate notes at any time when the interest rate on the floating rate notes is or will be determined based on SOFR, including Compounded SOFR, and (ii) when we refer to the “benchmark transition provisions” and certain defined terms in those provisions, we mean the benchmark transition provisions and defined terms that are described under “Description of the Notes—Interest—Effect of Benchmark Transition Event.”

General

For an enterprise as large and complex as The Walt Disney Company and its subsidiaries are, a wide range of factors could materially affect future developments and performance. The most significant factors affecting the operations of The Walt Disney Company include those set out in “Risk Factors” in our Annual Report on Form 10-K for the fiscal year ended September 27, 2025, our subsequent Quarterly Report on Form 10-Q and the other filings with the Securities and Exchange Commission that are incorporated or deemed to be incorporated by reference in this prospectus supplement and the accompanying prospectus. Additional factors relevant to this offering include the following.

There may not be any trading market for your notes; many factors affect the trading and market value of your notes.

The notes are new issues of securities and, upon issuance, your notes will not have an established trading market. We do not intend to apply for listing or quotation of the notes on any securities exchange or on any automated quotation system. We cannot assure you a trading market for your notes will ever develop or be maintained if developed. Furthermore, we cannot assure you as to the liquidity of any trading market that may develop for any of the notes, whether you will be able to sell the notes, or the prices at which you may be able to sell the notes. In addition to our creditworthiness, many factors will affect the trading market for, and trading value of, your notes. These factors include the risk factors described and referred to elsewhere in this “Risk Factors” section and the following:

- the interest rate on the notes;
- the time remaining to the maturity of the notes;
- the outstanding amount of the notes;
- the redemption features of the notes;
- the level, direction and volatility of market interest rates generally;
- market perceptions of the level, direction and volatility of interest rates generally; and
- the trading value of comparable securities.

There may be a limited number of buyers when you decide to sell your notes. This may affect the price you receive for your notes or your ability to sell your notes at all. You should not purchase the notes unless you understand and know you can bear all of the investment risks involving your notes.

The Walt Disney Company is a holding company, and the notes will be structurally subordinated to the indebtedness and other liabilities of our subsidiaries, other than the Guarantor. The guarantee will be structurally subordinated to the indebtedness and other liabilities of the Guarantor's subsidiaries.

The notes are our obligations exclusively and not of any of our subsidiaries. The guarantee is the Guarantor's obligation exclusively and not any of its subsidiaries. Operations are conducted almost entirely through our subsidiaries. As a result, we are dependent upon dividends and other payments from our subsidiaries to generate the funds necessary to meet our outstanding debt service and other obligations. Our and the Guarantor's subsidiaries are separate legal entities that have no obligation to pay any amounts due under the notes or the guarantee or to make any funds available therefor, whether by dividends, loans or other payments. Except to the extent we or the Guarantor are a creditor with recognized claims against our or the Guarantor's subsidiaries, all claims of creditors (including trade creditors) of our or the Guarantor's subsidiaries will have priority with respect to the assets of such subsidiaries over our or the Guarantor's claims (and therefore the claims of our and the Guarantor's creditors, including holders of the notes). Consequently, the notes will be structurally subordinated to all indebtedness or other liabilities of our subsidiaries other than the Guarantor, including any subsidiaries that we may in the future acquire or establish, and the guarantee will be structurally subordinated to all indebtedness or other liabilities of the Guarantor's subsidiaries, including any subsidiaries that the Guarantor may in the future acquire or establish.

We may be able to incur substantially more debt in the future.

We may be able to incur substantial indebtedness in the future, including secured debt. The terms of the indenture governing the notes and our existing notes do not restrict the future incurrence of indebtedness. If we incur any additional indebtedness that ranks equally with the notes, the holders of that debt will be entitled to share ratably with the holders of the notes in any proceeds distributed in connection with any insolvency, liquidation, reorganization, dissolution or other winding up of The Walt Disney Company or the Guarantor.

Redemption prior to maturity may adversely affect your return on the fixed rate notes.

Since the fixed rate notes are redeemable at our option, we may choose to redeem your fixed rate notes at times when prevailing interest rates are relatively low. As a result, you generally will not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate as high as the interest rate on your notes being redeemed.

Our and the Guarantor's credit ratings may not reflect all risks of an investment in the notes and a downgrade in our and/or the Guarantor's credit ratings could adversely affect the market value of the notes.

The credit ratings that may be assigned to our outstanding debt securities and to the notes do not purport to reflect the potential impact of all risks relating to an investment in those securities. Such ratings are limited in scope and reflect only the view of each rating agency at the time the rating was issued. These ratings are subject to ongoing evaluation by credit rating agencies and there can be no assurance that such credit ratings will not be lowered, suspended or withdrawn entirely by the rating agencies or placed on a so-called "watch list" for a possible downgrade or assigned a negative ratings outlook if, in any rating agency's judgment, circumstances so warrant. Moreover, these credit ratings are not recommendations to buy, sell or hold any of our debt securities or the notes. Actual or anticipated changes or downgrades in our or the Guarantor's credit ratings may adversely affect any trading market for, and the market value of, the notes, and also increase our borrowing costs.

An increase in market interest rates could result in a decrease in the market value of the fixed rate notes.

In general, as market interest rates rise, debt securities bearing interest at fixed rates of interest decline in value. Consequently, if you purchase fixed rate notes and market interest rates increase, the market value of those fixed rate notes may decline. We cannot predict the future level of market interest rates.

Risks Related to the Floating Rate Notes

The future performance of SOFR cannot be predicted based on historical performance.

The future performance of SOFR cannot be predicted based on the limited historical performance. Levels of SOFR going forward may bear little or no relation to the historical actual or historical indicative data. Prior observed patterns, if any, in the behavior of market variables and their relation to SOFR, such as correlations, may change in the future. While some pre-publication historical data have been released by the Federal Reserve Bank of New York, such analysis inherently involves assumptions, estimates and approximations. The future performance of SOFR is impossible to predict and therefore no future performance of SOFR may be inferred from any of the historical actual or historical indicative data. Hypothetical or historical performance data are not indicative of, and have no bearing on, the potential performance of SOFR. There can be no assurance that SOFR will be positive. Investors in the floating rate notes may not be able to sell the floating rate notes at all or may not be able to sell the floating rate notes at prices that will provide them with a yield comparable to similar investments that have a developed secondary market, and may consequently suffer from increased pricing volatility and market risk.

The interest rate on the floating rate notes is based on a Compounded SOFR rate and the SOFR Index.

For each floating rate notes interest period, the interest rate on the floating rate notes is based on Compounded SOFR, which is calculated using the SOFR Index published by the Federal Reserve Bank of New York according to the specific formula described under “*Description of the Notes—Interest—Compounded SOFR*,” not the SOFR rate published on or in respect of a particular date during such floating rate notes interest period or an arithmetic average of SOFR rates during such period. For this and other reasons, the interest rate on the floating rate notes during any floating rate notes interest period will not be the same as the interest rate on other SOFR-linked investments that use an alternative basis to determine the applicable interest rate. Further, if the SOFR rate in respect of a particular date during a floating rate notes interest period is negative, its contribution to the SOFR Index will be less than one, resulting in a reduction to Compounded SOFR used to calculate the interest payable on the floating rate notes on the floating rate notes interest payment date for such floating rate notes interest period.

Compounded SOFR with respect to a particular floating rate notes interest period will only be capable of being determined near the end of the relevant floating rate notes interest period.

The level of Compounded SOFR applicable to a particular floating rate notes interest period and, therefore, the amount of interest payable with respect to such floating rate notes interest period will be determined on the Interest Payment Determination Date for such floating rate notes interest period. Because each such date is near the end of the related floating rate notes interest period, you will not know the amount of interest payable with respect to a particular floating rate notes interest period until shortly prior to the related floating rate notes interest payment date and it may be difficult for you to reliably estimate the amount of interest that will be payable on each such floating rate notes interest payment date. In addition, some investors may be unwilling or unable to trade the floating rate notes without changes to their information technology systems, both of which could adversely impact the liquidity and trading price of the floating rate notes.

SOFR or the SOFR Index may be modified or discontinued and the floating rate notes may bear interest by reference to a rate other than Compounded SOFR, which could adversely affect the value of the floating rate notes.

The SOFR Index is published by the Federal Reserve Bank of New York based on data received by it from sources other than us, and we have no control over its methods of calculation, publication schedule, rate revision practices or availability of the SOFR Index at any time. There can be no guarantee that the SOFR Index will not be discontinued or fundamentally altered in a manner that is materially adverse to the interests of investors in the floating rate notes. If the manner in which the SOFR Index is calculated, including the manner in which SOFR is calculated, is changed, that change may result in a reduction of the amount of interest payable on the floating rate notes, which may adversely affect the trading prices of the floating rate notes. The Federal Reserve Bank of New York may withdraw, modify, amend, suspend or discontinue the publication of the SOFR Index or SOFR data in its sole discretion and without notice (in which case a fallback method of determining the interest rate on the floating rate notes as further described under “*Description of the Notes—Interest—Compounded SOFR*” will apply) and has no obligation to consider the interests of holders of the floating rate notes in calculating, withdrawing, modifying, amending, suspending or discontinuing SOFR or the SOFR Index. The interest rate for any interest period will not be adjusted for any modifications or amendments to the SOFR Index or SOFR data that the Federal Reserve Bank of New York may publish after the interest rate for that interest period has been determined. If we or our Designee (as defined herein) determines that a Benchmark Transition Event and its related Benchmark Replacement Date have occurred in respect of the SOFR Index, then the interest rate on the floating rate notes will no longer be determined by reference to the SOFR Index, but instead will be determined by reference to a different rate, which will be a different rate plus a spread adjustment, which we refer to as a “Benchmark Replacement,” as further described under “*Description of the Notes—Interest—Compounded SOFR*.”

We or an affiliate of ours will or could have authority to make determinations, decisions and elections that could affect the return on, value of and market for the floating rate notes.

Under the terms of the floating rate notes, we are authorized to make certain determinations, decisions and elections with respect to the interest rate on the floating rate notes. We will make any such determination, decision or election in our sole discretion, and any such determination, decision or election that we make could affect the amount of interest payable on the floating rate notes. For example, if we determine that a Benchmark Transition Event and its related Benchmark Replacement Date have occurred with respect to the floating rate notes, then we will determine, among other things, the Benchmark Replacement, Benchmark Replacement Adjustment and Benchmark Replacement Conforming Changes. Furthermore, we are authorized to appoint a designee (which may be one of our affiliates) to make certain of the determinations, decisions and elections that we are authorized to make under the terms of the floating rate notes, including any determination that a Benchmark Transition Event and its related Benchmark Replacement Date have occurred, and the related determinations of the Benchmark Replacement and Benchmark Replacement Adjustment. Any exercise of discretion by us, or by one of our affiliates acting as our designee, under the terms of the floating rate notes could present a conflict of interest. In addition, we or an affiliate of ours may assume the duties of calculation agent for the floating rate notes. In making any required determinations, decisions and elections under the terms of the floating rate notes, we or any affiliate acting as our designee, including if we or an affiliate are acting as calculation agent, may have economic interests that are adverse to the interest of the holders of those notes, and those determinations, decisions or elections could have a material adverse effect on the return on, value of and market for those notes. All determinations, decisions or elections by us, or by one of our affiliates acting as our designee, including those made by us or by an affiliate acting as calculation agent, will be conclusive and binding absent manifest error.

USE OF PROCEEDS

We estimate that the net proceeds to us from the sale of the notes in this offering will be approximately \$3,972,755,000 after deducting the underwriting discounts but before deducting estimated offering expenses payable by us. We intend to use the net proceeds of this offering for general corporate purposes.

DESCRIPTION OF THE NOTES

Each of the floating rate notes due 2029 (the “floating rate notes”), the 3.750% notes due 2029 (the “2029 notes”), the 4.000% notes due 2031 (the “2031 notes”) and the 4.625% notes due 2036 (the “2036 notes”) and, collectively with the 2029 notes and the 2031 notes, the “fixed rate notes”) being offered hereby will be a series of senior debt securities (as defined in the accompanying prospectus under “Description of Debt Securities of The Walt Disney Company”) and issued under the indenture dated as of March 20, 2019 (the “indenture”) between The Walt Disney Company, as issuer, TWDC Enterprises, as guarantor, and Citibank, N.A., as trustee (referred to herein as the “trustee”). The floating rate notes and the fixed rate notes are referred to herein collectively as the “notes”. The following description of certain provisions of the notes and the indenture is not complete and is qualified in its entirety by reference to the indenture and the forms of the notes. The terms of the notes include those stated in the indenture and those made part of the indenture by reference to the Trust Indenture Act of 1939, as amended. You should review the indenture and the forms of the notes, copies of which have been or will be filed or incorporated by reference as exhibits to the registration statement of which the accompanying prospectus is a part and which may be obtained as described under “Where You Can Find More Information.” Capitalized terms used but not defined in this “Description of the Notes” section or in the accompanying prospectus under the caption “Description of Debt Securities of The Walt Disney Company” have the meanings given to them in the indenture. The following description supplements and, to the extent inconsistent, supersedes, the discussion of certain terms and provisions of the notes and the indenture set forth under “Description of Debt Securities of The Walt Disney Company” in the accompanying prospectus.

As used under this caption “Description of the Notes,” references to the “principal” or “redemption price” of any note shall be deemed to include a reference to the premium, if any, payable on such note.

General

Each series of notes will constitute a separate series of our senior debt securities under the indenture, initially limited, in the case of the floating rate notes, to \$500,000,000 aggregate principal amount, in the case of the 2029 notes, to \$1,000,000,000 aggregate principal amount, in the case of the 2031 notes, to \$1,500,000,000 aggregate principal amount, and in the case of the 2036 notes, to \$1,000,000,000 aggregate principal amount, subject to our right from time to time, without the consent of the holders of any series of notes, to issue additional notes of any such series as described below under “—Further Issues.” There is no limit under the indenture on the aggregate principal amount of notes that we may issue.

The notes will be issued in fully-registered, book-entry form in minimum denominations of \$2,000 and integral multiples of \$1,000 in excess thereof. The notes will be held in global form by The Depository Trust Company (“DTC”), as depository, and will be registered in the name of Cede & Co., as nominee of DTC. See “—Book-Entry System” below.

Maturity

The floating rate notes will mature on March 14, 2029. The 2029 notes will mature on March 14, 2029. The 2031 notes will mature on March 14, 2031. The 2036 notes will mature on March 14, 2036.

Interest

Floating Rate Notes

The floating rate notes will bear interest for each interest period at a rate determined by the calculation agent, except as set forth below. The calculation agent is Citibank, N.A. until such time as we appoint a successor calculation agent (the “Calculation Agent”). We will pay interest on the floating rate notes on March 14, June 14, September 14 and December 14 of each year, commencing on June 14, 2026, to the record holders at the close of

business on the preceding February 27, May 30, August 30 and November 29 of each year, respectively, (whether or not such record date is a business day). The interest rate on the floating rate notes for a particular interest period (as defined below) will be a per annum rate equal to a benchmark rate, which will initially be Compounded SOFR, determined as described below, plus 47 basis points (the “spread”). The interest determination date for an interest period will be the date that is two U.S. Government Securities Business Days (as defined below) before the applicable interest payment date. Promptly upon determination, the Calculation Agent will inform the trustee and us, or in certain circumstances described below, we or our designee (which may be an independent financial advisor or such other designee of ours (any of such entities, a “Designee”)) will inform the trustee, of the interest rate for such interest period. Absent manifest error, the determination of the interest rate by the Calculation Agent, or in certain circumstances described below, by us or our Designee, shall be binding and conclusive on the holders of the floating rate notes, the trustee and us. For the avoidance of doubt, in no event shall the Calculation Agent, trustee or paying agent be the Designee. If an interest payment date on the floating rate notes (other than an interest payment date occurring on the maturity date) falls on a date that is not a business day, the interest payment date shall be postponed to the next succeeding business day unless such next succeeding business day would be in the following month, in which case, the interest payment date shall be the immediately preceding business day. If the maturity date of the floating rate notes falls on a day that is not a business day, the payment of principal and interest with respect to the floating rate notes may be made on the next succeeding business day, and no interest on that payment shall accrue for the period from and after such maturity. Interest on the floating rate notes will be paid to but excluding the relevant interest payment date. Interest on the floating rate notes will be computed on the basis of the actual number of days in an interest period and a 360-day year.

None of the trustee, the paying agent or the Calculation Agent shall be under any obligation (i) to monitor, determine or verify the unavailability or cessation of Compounded SOFR (or any other benchmark), or whether or when there has occurred, or to give notice to any other transaction party of the occurrence of, any Benchmark Transition Event (as defined herein) or related Benchmark Replacement Date (as defined herein), (ii) to select, determine or designate any Benchmark Replacement, or other successor or replacement benchmark index, or whether any conditions to the designation of such a rate or index have been satisfied, (iii) to select, determine or designate any Benchmark Replacement Adjustment (as defined herein), or other modifier to any replacement or successor index, or (iv) to determine whether or what Benchmark Replacement Conforming Changes (as defined herein) are necessary or advisable, if any, in connection with any of the foregoing, including, but not limited to, adjustments as to any alternative spread thereon, the business day convention, interest determination dates or any other relevant methodology applicable to such substitute or successor benchmark. In connection with the foregoing, each of the trustee, paying agent and Calculation Agent shall be entitled to conclusively rely on any determinations made by us or its Designee without independent investigation, and none will have any liability for actions taken at our direction.

Any determination, decision or election that may be made by us or our Designee in connection with a Benchmark Transition Event or a Benchmark Replacement, including any determination with respect to a rate or adjustment or of the occurrence or non-occurrence of an event, circumstance or date and any decision to take or refrain from taking any action or any selection, will be conclusive and binding absent manifest error, may be made in our or our Designee’s sole discretion and, notwithstanding anything to the contrary in the transaction documents, will become effective without consent from any other party. None of the trustee, the Calculation Agent or the paying agent will have any liability for any determination made by or on behalf of us or our Designee in connection with a Benchmark Transition Event or a Benchmark Replacement.

None of the trustee, the paying agent or the Calculation Agent shall be liable for any inability, failure or delay on its part to perform any of its duties set forth in this prospectus supplement as a result of the unavailability of Compounded SOFR or other applicable Benchmark Replacement, including as a result of any failure, inability, delay, error or inaccuracy on the part of any other transaction party in providing any direction, instruction, notice or information required or contemplated by the terms of this prospectus supplement and reasonably required for the performance of such duties. None of the trustee, paying agent or Calculation Agent shall be responsible or

liable for our actions or omissions or for those of our Designee, or for any failure or delay in the performance by us or our Designee, nor shall any of the trustee, paying agent or Calculation Agent be under any obligation to oversee or monitor our performance or that of our Designee.

The term “interest period,” with respect to the floating rate notes, means (i) the period from, and including, the most recent interest payment date for the floating rate notes (or, with respect to the initial interest period only, from and including February 12, 2026) to, but excluding, the next succeeding interest payment date for the floating rate notes and (ii) in the case of the last such period, from, and including, the interest payment date for the floating rate notes immediately preceding the maturity date to, but excluding, the maturity date.

As further described herein, the amount of interest accrued and payable on the floating rate notes for each interest period will be equal to the product of (i) the outstanding principal amount of the floating rate notes multiplied by (ii) the product of (a) the interest rate of the floating rate notes for the relevant interest period multiplied by (b) the quotient of the actual number of calendar days in such interest period divided by 360.

Compounded SOFR

The interest rate on the floating rate notes for each interest period will be equal to Compounded SOFR plus the spread. “Compounded SOFR” will be determined by the Calculation Agent in accordance with the following formula (and the resulting percentage will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point, e.g., 9.753973% (or .09753973) being rounded down to 9.75397% (or .0975397) and 9.753978% (or .09753978) being rounded up to 9.75398% (or .0975398)):

$$\left(\frac{SOFR\ Index_{End}}{SOFR\ Index_{Start}} - 1 \right) \times \left(\frac{360}{d_c} \right)$$

where:

“SOFR Index_{Start}” is the SOFR Index value for the day which is two U.S. Government Securities Business Days preceding the first date of the relevant interest period;

“SOFR Index_{End}” is the SOFR Index value for the day which is two U.S. Government Securities Business Days preceding the interest payment date relating to such interest period; and

“d_c” is the number of calendar days in the applicable Observation Period.

For purposes of determining Compounded SOFR, “SOFR Index” means, with respect to any U.S. Government Securities Business Day:

- the SOFR Index published for such U.S. Government Securities Business Day as such value appears on the Federal Reserve Bank of New York’s Website at 3:00 p.m. (New York time) on such U.S. Government Securities Business Day (the “SOFR Index Determination Time”); or
- if the SOFR Index specified in (1) above does not so appear, unless both a Benchmark Transition Event and its related Benchmark Replacement Date have occurred with respect to SOFR, then Compounded SOFR shall be the rate determined pursuant to the “SOFR Index Unavailability” provisions below.

“Interest Payment Determination Date” is the date that is two U.S. Government Securities Business Days before each interest payment date.

“Observation Period” is, in respect of each interest period for the floating rate notes, the period from, and including, the date that is two U.S. Government Securities Business Days preceding the first date in such interest period to, but excluding, the Interest Payment Determination Date for such interest period.

“SOFR” with respect to any day means the secured overnight financing rate published for such day by the Federal Reserve Bank of New York, as the administrator of the benchmark (or a successor administrator), on the Federal Reserve Bank of New York’s Website.

“U.S. Government Securities Business Day” is any day except for a Saturday, a Sunday or a day on which the Securities Industry and Financial Markets Association recommends that the fixed income departments of its members be closed for the entire day for purposes of trading in U.S. government securities.

For the avoidance of doubt, the calculation of Compounded SOFR shall exclude the spread of 0.47% per annum.

Notwithstanding anything to the contrary in the documentation relating to the floating rate notes, if we or our Designee determines on or prior to the relevant Reference Time that a Benchmark Transition Event and its related Benchmark Replacement Date have occurred with respect to determining Compounded SOFR, then the benchmark replacement provisions set forth herein will thereafter apply to all determinations of the rate of interest payable on the floating rate notes.

For the avoidance of doubt, in accordance with the benchmark replacement provisions, after a Benchmark Transition Event and its related Benchmark Replacement Date have occurred, the interest payable for each interest period on the floating rate notes will be an annual rate equal to the sum of the Benchmark Replacement (as defined below) and the spread.

SOFR Index Unavailability

If a SOFR IndexStart or SOFR IndexEnd is not published on the associated Interest Payment Determination Date and a Benchmark Transition Event and its related Benchmark Replacement Date have not occurred with respect to SOFR, “Compounded SOFR” means, for the applicable interest period for which such index is not available, the rate of return on a daily compounded interest investment calculated in accordance with the formula for SOFR Averages, and definitions required for such formula, published on the website of the Federal Reserve Bank of New York, at <https://www.newyorkfed.org/markets/treasury-repo-reference-rates-information>, or any successor source. For the purposes of this provision, references in the SOFR Averages compounding formula and related definitions to “calculation period” shall be replaced with “Observation Period” and the words “that is, 30-, 90-, or 180- calendar days” shall be removed. If the daily SOFR (“SOFRi”) does not so appear for any day, “i” in the Observation Period, SOFRi for such day “i” shall be SOFR published in respect of the first preceding U.S. Government Securities Business Day for which SOFR was published on the Federal Reserve Bank of New York’s Website.

Effect of Benchmark Transition Event

Benchmark Replacement. If we or our Designee determines that a Benchmark Transition Event and its related Benchmark Replacement Date have occurred on or prior to the Reference Time in respect of any determination of the Benchmark on any date, the Benchmark Replacement will replace the then-current Benchmark for all purposes relating to the floating rate notes in respect of such determination on such date and for all determinations on all subsequent dates.

Benchmark Replacement Conforming Changes. In connection with the implementation of a Benchmark Replacement, we (or our Designee) will have the right to make Benchmark Replacement Conforming Changes from time to time.

Decisions and Determinations. Any determination, decision or election that may be made by us (or our Designee) pursuant to this Section titled “Effect of Benchmark Transition Event,” including any determination with respect to tenor, rate or adjustment or of the occurrence or nonoccurrence of an event, circumstance or date and any decision to take or refrain from taking any action or any selection, will be conclusive and binding absent manifest error, will be made in our (or our Designee’s) sole discretion, and, notwithstanding anything to the contrary in the documentation relating to the floating rate notes, shall become effective without consent from the holders of the floating rate notes or any other party.

Certain Defined Terms. As used herein:

“Benchmark” means, initially, Compounded SOFR; provided that if a Benchmark Transition Event and its related Benchmark Replacement Date have occurred with respect to Compounded SOFR or the then-current Benchmark, then “Benchmark” means the applicable Benchmark Replacement.

“Benchmark Replacement” means the first alternative set forth in the order below that can be determined by us (or our Designee) as of the Benchmark Replacement Date:

- the sum of: (a) the alternate rate of interest that has been selected or recommended by the Relevant Governmental Body as the replacement for the then-current Benchmark and (b) the Benchmark Replacement Adjustment;
- the sum of: (a) the ISDA Fallback Rate and (b) the Benchmark Replacement Adjustment; or
- the sum of: (a) the alternate rate of interest that has been selected by us (or our Designee) as the replacement for the then-current Benchmark giving due consideration to any industry-accepted rate of interest as a replacement for the then-current Benchmark for U.S. dollar-denominated floating rate notes at such time and (b) the Benchmark Replacement Adjustment.

“Benchmark Replacement Adjustment” means the first alternative set forth in the order below that can be determined by us (or our Designee) as of the Benchmark Replacement Date:

- the spread adjustment, or method for calculating or determining such spread adjustment, (which may be a positive or negative value or zero) that has been selected or recommended by the Relevant Governmental Body for the applicable Unadjusted Benchmark Replacement;
- if the applicable Unadjusted Benchmark Replacement is equivalent to the ISDA Fallback Rate, then the ISDA Fallback Adjustment;
- the spread adjustment (which may be a positive or negative value or zero) that has been selected by us (or our Designee) giving due consideration to any industry-accepted spread adjustment, or method for calculating or determining such spread adjustment, for the replacement of the then-current Benchmark with the applicable Unadjusted Benchmark Replacement for U.S. dollar-denominated floating rate notes at such time.

“Benchmark Replacement Conforming Changes” means, with respect to any Benchmark Replacement, any technical, administrative or operational changes (including changes to the definitions of “interest period” and “Observation Period,” the timing and frequency of determining rates and making payments of interest, the rounding of amounts or tenors and other administrative matters) that we (or our Designee) decide may be appropriate to reflect the adoption of such Benchmark Replacement in a manner substantially consistent with market practice (or, if we (or our Designee) decide that adoption of any portion of such market practice is not administratively feasible or if we (or our Designee) determine that no market practice for use of the Benchmark Replacement exists, in such other manner as we (or our Designee) determine is reasonably necessary).

“Benchmark Replacement Date” means the earliest to occur of the following events with respect to the then-current Benchmark:

- in the case of clause (1) or (2) of the definition of “Benchmark Transition Event,” the later of (a) the date of the public statement or publication of information referenced therein and (b) the date on which the administrator of the Benchmark permanently or indefinitely ceases to provide the Benchmark; or
- in the case of clause (3) of the definition of “Benchmark Transition Event,” the date of the public statement or publication of information referenced therein.

For the avoidance of doubt, if the event giving rise to the Benchmark Replacement Date occurs on the same day as, but earlier than, the Reference Time in respect of any determination, the Benchmark Replacement Date will be deemed to have occurred prior to the Reference Time for such determination.

For the avoidance of doubt, for purposes of the definitions of Benchmark Replacement Date and Benchmark Transition Event, references to Benchmark also include any reference rate underlying such Benchmark.

“Benchmark Transition Event” means the occurrence of one or more of the following events with respect to the then-current Benchmark:

- a public statement or publication of information by or on behalf of the administrator of the Benchmark announcing that such administrator has ceased or will cease to provide the Benchmark, permanently or indefinitely, provided that, at the time of such statement or publication, there is no successor administrator that will continue to provide the Benchmark;
- a public statement or publication of information by the regulatory supervisor for the administrator of the Benchmark, the central bank for the currency of the Benchmark, an insolvency official with jurisdiction over the administrator for the Benchmark, a resolution authority with jurisdiction over the administrator for the Benchmark or a court or an entity with similar insolvency or resolution authority over the administrator for the Benchmark, which states that the administrator of the Benchmark has ceased or will cease to provide the Benchmark permanently or indefinitely, provided that, at the time of such statement or publication, there is no successor administrator that will continue to provide the Benchmark; or
- a public statement or publication of information by the regulatory supervisor for the administrator of the Benchmark announcing that the Benchmark is no longer representative.

“ISDA Definitions” means the 2006 ISDA Definitions published by the International Swaps and Derivatives Association, Inc. or any successor thereto, as amended or supplemented from time to time, or any successor definitional booklet for interest rate derivatives published from time to time.

“ISDA Fallback Adjustment” means the spread adjustment (which may be a positive or negative value or zero) that would apply for derivatives transactions referencing the ISDA Definitions to be determined upon the occurrence of an index cessation event with respect to the Benchmark for the applicable tenor.

“ISDA Fallback Rate” means the rate that would apply for derivatives transactions referencing the ISDA Definitions to be effective upon the occurrence of an index cessation date with respect to the Benchmark for the applicable tenor excluding the applicable ISDA Fallback Adjustment.

“Reference Time” with respect to any determination of the Benchmark for the floating rate notes means (1) if the Benchmark is Compounded SOFR, the SOFR Index Determination Time and (2) if the Benchmark is not Compounded SOFR, the time determined by us or our Designee after giving effect to the Benchmark Replacement Conforming Changes.

“Relevant Governmental Body” means the Federal Reserve Board and/or the Federal Reserve Bank of New York, or a committee officially endorsed or convened by the Federal Reserve Board and/or the Federal Reserve Bank of New York or any successor thereto.

“Unadjusted Benchmark Replacement” means the Benchmark Replacement excluding the Benchmark Replacement Adjustment.

Fixed Rate Notes

The 2029 notes will bear interest at the rate of 3.750% per annum, the 2031 notes will bear interest at the rate of 4.000% per annum and the 2036 notes will bear interest at the rate of 4.625% per annum, in each case accruing from February 12, 2026.

We will pay interest on the 2029 notes semi-annually in arrears on March 14 and September 14 of each year, commencing on September 14, 2026, to the record holders at the close of business on the preceding February 27 and August 30 (whether or not such record date is a business day), respectively.

We will pay interest on the 2031 notes semi-annually in arrears on March 14 and September 14 of each year, commencing on September 14, 2026, to the record holders at the close of business on the preceding February 27 and August 30 (whether or not such record date is a business day), respectively.

We will pay interest on the 2036 notes semi-annually in arrears on March 14 and September 14 of each year, commencing on September 14, 2026, to the record holders at the close of business on the preceding February 27 and August 30 (whether or not such record date is a business day), respectively.

For a full semi-annual interest period, interest on the fixed rate notes will be computed on the basis of a 360-day year consisting of twelve 30-day months.

If any interest payment date, any redemption date, the applicable maturity date or any other date on which a payment on the fixed rate notes is due is not a business day (as defined below), the payment due on such interest payment date, redemption date, maturity date or other date, as applicable, will be made on the next succeeding business day with the same force and effect as if made on such interest payment date, redemption date, maturity date or other date, as applicable, and no additional interest shall accrue on the amount so payable for the period from and after such interest payment date, redemption date, maturity date or other date, as the case may be, to such next succeeding business day.

The TWDC Enterprises Guarantee

The Guarantor will fully and unconditionally guarantee, on a senior unsecured basis, the full and punctual payment of the principal of, premium, if any, interest on, and all other amounts payable under the notes when the same becomes due and payable, whether at maturity or upon redemption, upon acceleration or otherwise. If for any reason we do not make any required payment in respect of the notes of any series when due, the Guarantor will on demand pay the unpaid amount at the same place and in the same manner that applies to payments made by us under the indenture. The guarantee is of payment, performance and compliance and not of collection.

The Guarantor will automatically and unconditionally be released and discharged from all obligations under the guarantee under certain circumstances specified under the caption “Description of Debt Securities of The Walt Disney Company—The TWDC Enterprises Guarantee” in the accompanying prospectus.

Consequences of Holding Company Status

Operations are conducted almost entirely through our subsidiaries. Accordingly, our cash flow and our ability to service our debt, including the notes, are dependent upon the earnings of our subsidiaries and the distribution of those earnings to us, whether by dividends, loans or otherwise. The payment of dividends and the making of loans and advances to us by our subsidiaries may be subject to statutory or contractual restrictions, are contingent upon the earnings of our subsidiaries and are subject to various business considerations. Our right to receive assets of any of our subsidiaries upon their liquidation or reorganization (and the consequent right of the holders of the notes to participate in those assets) will be effectively subordinated to the claims of that subsidiary’s creditors (including trade creditors), except to the extent that we are recognized as a creditor of that subsidiary, in which case our claims would still be effectively subordinated to any security interests in the assets of the subsidiary and would still be contractually subordinated to any indebtedness of the subsidiary senior to that held by us.

Holders of the notes have a direct claim only against us and the Guarantor. See “*Risk Factors—The Walt Disney Company is a holding company, and the notes will be structurally subordinated to the indebtedness and other liabilities of our subsidiaries, other than the Guarantor. The guarantee will be structurally subordinated to the indebtedness and other liabilities of the Guarantor’s subsidiaries.*”

Further Issues

We may, from time to time, without notice to or the consent of the registered holders of any series of notes, issue additional notes ranking *pari passu* with, and with the same terms and provisions as, such series of notes offered hereby (except for the date of original issuance, and, if applicable, the date from which interest will accrue, the first interest payment date and the offering and sale prices thereof) (“additional notes”). Any such additional notes, together with the applicable series of notes offered hereby, will constitute a single series of our senior debt securities under the indenture. A separate CUSIP or ISIN would be issued for any additional notes, unless the notes issued on the original issue date and such additional notes are treated as “fungible” for U.S. federal income tax purposes. Except as otherwise specified herein, all references to the “notes” include any additional notes that are actually issued under the indenture.

Ranking

The notes will be our senior unsecured indebtedness and will rank *pari passu* with each other and with all of our other unsecured and unsubordinated indebtedness from time to time outstanding. However, the notes will be structurally subordinated to any indebtedness and preferred stock, if any, of our subsidiaries (other than the Guarantor) and will be effectively subordinated to any secured indebtedness to the extent of the value of the assets securing such indebtedness. Claims of the creditors and preferred stockholders of our subsidiaries other than the Guarantor will generally have priority with respect to the assets and earnings of such subsidiaries over the claims of our creditors, including holders of the notes. Accordingly, the notes will be structurally subordinated to creditors, including trade creditors and preferred stockholders, if any, of our subsidiaries other than the Guarantor.

The Guarantor will fully and unconditionally guarantee, on a senior unsecured basis, the full and punctual payment of the principal of, premium, if any, interest on, and all other amounts payable under the notes when the same becomes due and payable.

The guarantee will be the Guarantor’s senior unsecured obligation and will rank *pari passu* with all of its other unsecured and unsubordinated indebtedness from time to time outstanding. However, the guarantee will be structurally subordinated to any indebtedness and preferred stock, if any, of the Guarantor’s subsidiaries and will be effectively subordinated to any secured indebtedness to the extent of the value of the assets securing such indebtedness.

The indenture does not restrict the ability of our or the Guarantor’s subsidiaries to incur indebtedness. See “*Risk Factors—The Walt Disney Company is a holding company, and the notes will be structurally subordinated to the indebtedness and other liabilities of our subsidiaries, other than the Guarantor. The guarantee will be structurally subordinated to the indebtedness and other liabilities of the Guarantor’s subsidiaries.*”

Business Day

A “business day” means any day, other than a Saturday or Sunday, that is neither a legal holiday nor a day on which banking institutions are authorized or required by law, regulation or executive order to close in New York, New York, United States of America.

Mergers and Sales of Assets

The Walt Disney Company

The indenture provides that we may not consolidate with or merge with or into any other person or convey, transfer or lease our properties and assets substantially as an entirety to another person, unless, among other things, (i) we are the continuing corporation, or the resulting, surviving or transferee person (if other than us) is organized and existing under the laws of the United States, any state thereof or the District of Columbia and that person expressly assumes all of our obligations under the applicable debt securities and the indenture, (ii) immediately after giving effect to the transaction, no event which is, or after notice or passage of time or both would be, an event of default under the indenture (any such event, a “default”) shall have occurred and be continuing under the indenture and (iii) we deliver to the trustee an officer’s certificate and an opinion of counsel to the effect that the consolidation, merger, conveyance, transfer or lease, as the case may be, complies with the indenture and that all conditions precedent provided in the indenture with respect to the transaction have been satisfied. Any such successor person formed by any such consolidation or into which we are merged or to which any such conveyance, transfer or lease is made shall succeed to, and be substituted for, us under the indenture and we will be discharged from all obligations under the indenture and the debt securities issued thereunder, except in the case of a lease of our properties and assets substantially as an entirety.

Guarantor

Subject to the guarantee release provisions therein, the indenture provides that the Guarantor may not consolidate with or merge with or into any other person or convey, transfer or lease its properties and assets substantially as an entirety to another person, unless, among other things, (i) it is the continuing person, it is merged or consolidated into us or the resulting, surviving or transferee person (if other than us or the Guarantor) is organized and existing under the laws of the United States, any state thereof or the District of Columbia and that person expressly assumes all of the Guarantor’s obligations under the applicable debt securities and the indenture and (ii) we deliver to the trustee an officer’s certificate and an opinion of counsel to the effect that the consolidation, merger, conveyance, transfer or lease, as the case may be, complies with the indenture and that all conditions precedent provided in the indenture with respect to the transaction have been satisfied. Any such successor person formed by any such consolidation or into which the Guarantor is merged or to which any such conveyance, transfer or lease is made shall succeed to, and be substituted for, the Guarantor under the indenture and the Guarantor will be discharged from all obligations under the indenture and the debt securities issued thereunder, except in the case of a lease of its properties and assets substantially as an entirety.

Optional Redemption

Floating Rate Notes

The floating rate notes will not be subject to redemption at our option.

Fixed Rate Notes

We may redeem any series of the fixed rate notes at our option, in whole or in part, at any time and from time to time, at a redemption price (expressed as a percentage of principal amount and rounded to three decimal places) equal to the greater of:

- (1) (a) the sum of the present values of the remaining scheduled payments of principal and interest on the applicable series of fixed rate notes discounted to the applicable redemption date on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at the Treasury Rate plus 5 basis points, in the case of the 2029 notes, 10 basis points, in the case of the 2031 notes and 10 basis points in the case of the 2036 notes less (b) interest accrued to the applicable date of redemption, and
- (2) 100% of the principal amount of the fixed rate notes to be redeemed,

plus, in either case, accrued and unpaid interest thereon to, but not including, the applicable redemption date.

“Treasury Rate” means, with respect to any redemption date for a series of fixed rate notes, the yield determined by us in accordance with the following two paragraphs.

The Treasury Rate applicable to such redemption shall be determined by us after 4:15 p.m., New York City time (or after such time as yields on U.S. government securities are posted daily by the Board of Governors of the Federal Reserve System), on the third business day preceding the applicable redemption date based upon the yield or yields for the most recent day that appear after such time on such day in the most recent statistical release published by the Board of Governors of the Federal Reserve System designated as “Selected Interest Rates (Daily)—H.15” (or any successor designation or publication) (“H.15”) under the caption “U.S. government securities—Treasury constant maturities—Nominal” (or any successor caption or heading) (“H.15 TCM”). In determining the applicable Treasury Rate, we shall select, as applicable: (1) the yield for the Treasury constant maturity on H.15 exactly equal to the period from the applicable redemption date to the applicable maturity date (the “Remaining Life”); or (2) if there is no such Treasury constant maturity on H.15 exactly equal to the Remaining Life, the two yields – one yield corresponding to the Treasury constant maturity on H.15 immediately shorter than and one yield corresponding to the Treasury constant maturity on H.15 immediately longer than the Remaining Life – and shall interpolate to the applicable maturity date on a straight-line basis (using the actual number of days) using such yields and rounding the result to three decimal places; or (3) if there is no such Treasury constant maturity on H.15 shorter than or longer than the Remaining Life, the yield for the single Treasury constant maturity on H.15 closest to the Remaining Life. For purposes of this paragraph, the applicable Treasury constant maturity or maturities on H.15 shall be deemed to have a maturity date equal to the relevant number of months or years, as applicable, of such Treasury constant maturity from the applicable redemption date.

If on the third business day preceding the applicable redemption date H.15 TCM is no longer published, we shall calculate the Treasury Rate applicable to such redemption based on the rate per annum equal to the semi-annual equivalent yield to maturity at 11:00 a.m., New York City time, on the second business day preceding such redemption date of the United States Treasury security maturing on, or with a maturity that is closest to, the applicable maturity date. If there is no United States Treasury security maturing on the applicable maturity date but there are two or more United States Treasury securities with a maturity date equally distant from the applicable maturity date, one with a maturity date preceding the applicable maturity date and one with a maturity date following the applicable maturity date, we shall select the United States Treasury security with a maturity date preceding the applicable maturity date. If there are two or more United States Treasury securities maturing on the applicable maturity date or two or more United States Treasury securities meeting the criteria of the preceding sentence, we shall select from among these two or more United States Treasury securities the United States Treasury security that is trading closest to par based upon the average of the bid and asked prices for such United States Treasury securities at 11:00 a.m., New York City time. In determining the Treasury Rate in accordance with the terms of this paragraph, the semi-annual yield to maturity of the applicable United States Treasury security shall be based upon the average of the bid and asked prices (expressed as a percentage of principal amount) at 11:00 a.m., New York City time, of such United States Treasury security, and rounded to three decimal places.

Our actions and determinations in determining the redemption price shall be conclusive and binding for all purposes, absent manifest error.

The trustee shall have no duty to determine, or verify our calculations of, the redemption price.

Notice of any redemption will be mailed or electronically delivered (or otherwise transmitted in accordance with the depository’s procedures) at least 10 days but not more than 60 days before the applicable redemption date to each holder of fixed rate notes to be redeemed. The notice of redemption for the fixed rate notes will state, among other things, the principal amount of such notes to be redeemed, the redemption date, the redemption price or the manner in which the redemption price will be calculated and the place or places that payment will be made upon presentation and surrender of notes to be redeemed. Any redemption or notice may, at our discretion,

be subject to one or more conditions precedent and, at our discretion, the redemption date may be delayed until such time as any or all such conditions precedent included at our discretion shall be satisfied (or waived by us) or the redemption date may not occur and such notice may be rescinded if all such conditions precedent included at our discretion shall not have been satisfied (or waived by us).

In the case of a partial redemption of a series of fixed rate notes, selection of the fixed rate notes for redemption will be made in accordance with applicable depositary procedures (or, in case of fixed rate notes in definitive form, pro rata by the Trustee). No fixed rate notes of any series of a principal amount of \$2,000 or less will be redeemed in part. If any fixed rate note of a series is to be redeemed in part only, the notice of redemption that relates to such note of such series will state the portion of the principal amount of the fixed rate note of such series to be redeemed. A new fixed rate note of such series in a principal amount equal to the unredeemed portion of the fixed rate note of such series will be issued in the name of the holder of such fixed rate note upon surrender for cancellation of the original fixed rate note (or, in the case of global certificates, will be reduced in accordance with the policies and procedures of DTC (or another depositary)). For so long as the fixed rate notes are held by DTC (or another depositary), the redemption of the fixed rate notes shall be done in accordance with the policies and procedures of the depositary.

Unless we default in payment of the redemption price, on and after the redemption date of the fixed rate notes of a series, interest will cease to accrue on such fixed rate notes or portions thereof called for redemption.

Open Market Purchases

We or our affiliates may acquire the notes by means other than a redemption, whether by tender offer, open market purchases, negotiated transactions or otherwise, in accordance with applicable securities laws.

Notices

The trustee will send notices electronically or mail notices by first class mail, postage prepaid, to each registered holder's address as it appears in the registration books of the registrar and, to the extent applicable, transmit such notices in accordance with applicable procedures of DTC. The trustee will only mail or transmit these notices to the registered holder of the notes, and consequently holders of beneficial interests in global notes will not receive these notices unless we reissue the notes in fully certificated form.

Book-Entry System

The descriptions of operations and procedures of DTC that follow are provided solely as a matter of convenience. These operations and procedures are solely within DTC's control and are subject to changes by DTC, from time to time. Neither we nor any of the underwriters takes any responsibility for these operations and procedures and we urge you to contact DTC or its participants directly to discuss these matters. DTC has advised us as follows:

- DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Exchange Act.
- DTC holds securities that its direct participants deposit with DTC. DTC also facilitates the post-trade settlement among direct participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry transfers and pledges in direct participants' accounts, thereby eliminating the need for physical movement of securities certificates.
- Direct participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations.

- DTC is a 100% owned subsidiary of The Depository Trust & Clearing Corporation, or DTCC. DTCC, in turn, is owned by its principal users, which include banks, broker-dealers, mutual funds and other financial institutions.
- Access to the system of DTC is also available to others such as securities brokers and dealers, banks, trust companies and clearing corporations that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly, which are referred to as indirect participants and, together with the direct participants, the participants.
- The rules applicable to DTC and its participants are on file with the Securities and Exchange Commission.

DTC will act as securities depository for the notes. The notes will be issued as fully registered securities registered in the name of Cede & Co. (DTC's partnership nominee). Upon issuance, all notes having the same original issue date, stated maturity and other terms will be represented by the same global security or securities. One fully registered global security will be issued for all such notes having the same original issue date, stated maturity and other terms and will be deposited with or on behalf of DTC. If, however, the aggregate principal amount of any notes with the same stated maturity and other terms exceeds \$500,000,000, then one global security will be issued with respect to each \$500,000,000 of principal amount, and an additional global security will be issued with respect to any remaining principal amount of such notes.

Purchases of notes under DTC's system must be made by or through direct participants, which will receive a credit for such notes on DTC's records. The ownership interest of each actual purchaser of each note represented by a global security ("Beneficial Owner") is in turn to be recorded on the records of direct participants and indirect participants. Beneficial Owners will not receive written confirmation from DTC of their purchase, but Beneficial Owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct participants or indirect participants through which such Beneficial Owner entered into the transaction. Transfers of ownership interests in a global security representing notes are to be accomplished by entries made on the books of participants acting on behalf of Beneficial Owners.

To facilitate subsequent transfers, all global securities representing notes which are deposited with, or on behalf of, DTC are registered in the name of DTC's nominee, Cede & Co. or such other name as may be requested by an authorized representative of DTC. The deposit of global securities with, or on behalf of, DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the global securities representing the book-entry notes; DTC's records reflect only the identity of the direct participants to whose accounts such book-entry notes are credited, which may or may not be the Beneficial Owners. The participants will remain responsible for keeping account of their holdings on behalf of their customers.

So long as DTC or its nominee is the registered owner of a global security, DTC or its nominee, as the case may be, will be considered the sole owner or holder of the notes represented by such global security for all purposes under the indenture. Except as provided below, Beneficial Owners of a global security or securities will not be entitled to have notes represented by such global security registered in their names, will not receive or be entitled to receive physical delivery of notes in definitive form (except under the limited circumstances described below) and will not be considered the owners or holders thereof under the indenture. Accordingly, each person owning a beneficial interest in a global security must rely on the procedures of DTC and, if the person is not a participant, on the procedures of the participants through which such person owns its interest, to exercise any rights of a holder under the indenture.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct participants and indirect participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect, from time to time.

If the global securities are redeemable, redemption notices shall be sent to Cede & Co. If less than all of the global securities with the same stated maturity and other terms are being redeemed, DTC's practice is to determine by lot the amount of the interest of each direct participant in such global securities to be redeemed.

Neither DTC nor Cede & Co. will consent or vote with respect to the global securities representing the notes. Under its usual procedures, DTC mails an omnibus proxy (the "[Omnibus Proxy](#)") as soon as possible after the applicable record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those direct participants to whose accounts the notes are credited on the applicable record date (identified in a listing attached to the Omnibus Proxy).

Payments of principal, premium, if any, and/or interest, if any, on the global securities representing the notes will be made to DTC. DTC's practice is to credit direct participants' accounts upon DTC's receipt of funds and corresponding detailed information from us or the trustee for such notes on the payable date in accordance with the respective holdings shown on DTC's records. Payments by participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of such participant and not of DTC, the trustee or us, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, premium, if any, and/or interest, if any, on any of the global securities representing book-entry notes to DTC is the responsibility of us and the trustee, disbursement of such payments to direct participants shall be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners shall be the responsibility of direct participants and indirect participants.

A Beneficial Owner will give notice of any option to elect to have its notes repaid by us, through its participant, to the trustee, and will effect delivery of the applicable notes by causing the participant to transfer the participant's interest in the global security or securities representing such notes, on DTC's records, to the trustee. The requirement for physical delivery of notes in connection with a demand for repayment will be deemed satisfied when the ownership rights in the global security or securities representing such notes are transferred by direct participants on DTC's records.

DTC may discontinue providing its services as securities depository with respect to the notes at any time by giving reasonable notice to us. If DTC is no longer willing or able to discharge properly its responsibilities as depository with respect to the notes, we will use commercially reasonable efforts to locate a qualified successor. However, definitive notes will be issued in exchange for beneficial interests in global notes, registered in the names of persons other than DTC or its nominee, only if (i) DTC's book-entry only system ceases to exist, (ii) we determine that DTC is no longer willing or able to discharge properly its responsibilities as depository with respect to the notes and we are unable to locate a qualified successor, (iii) we, at our option, elect to issue definitive notes in lieu of the book-entry system through DTC with respect to all or a portion of such series of notes, (iv) required by law or (v) an event of default with respect to the notes has occurred and is continuing. In the event that definitive notes are to be issued as aforesaid, we will promptly execute, and the trustee or an authenticating agent, upon receipt of an order from us for the authentication and delivery of definitive notes, will authenticate and deliver definitive notes in an aggregate principal amount equal to the principal amount of the global securities in exchange for beneficial interests in such global securities in accordance with the instructions, if any, of DTC.

If we issue definitive notes in exchange for global securities as described in the preceding paragraph, such definitive notes shall be issued in denominations of \$2,000 and integral multiples of \$1,000 in excess thereof and each such definitive note will have the same stated maturity and other terms as the global security for which it is exchanged.

The laws of some states may require that certain purchasers of securities take physical delivery of securities in definitive form. Such limits and such laws may impair the ability to own, transfer or pledge beneficial interests in global securities.

The information in this section concerning DTC and DTC's system has been obtained from sources that we believe to be reliable, but neither we nor any underwriter takes any responsibility for the accuracy thereof.

Clearstream Luxembourg and Euroclear Systems

You may elect to hold interests in the notes through either DTC or Clearstream Luxembourg or Euroclear if you are a participant in those systems, or indirectly, through organizations that are participants in such systems. Clearstream Luxembourg and Euroclear will hold interests in notes on behalf of their participants through customers' securities accounts in Clearstream Luxembourg's and Euroclear's names on the books of their respective U.S. depositories, which in turn will hold such interests in customers' securities accounts in the U.S. depositories' respective names on the books of DTC.

Clearstream Luxembourg has advised us that it was incorporated under the laws of Luxembourg. Clearstream Luxembourg holds securities for its participating organizations ("[Clearstream Luxembourg Participants](#)") and facilitates the clearance and settlement of securities transactions between Clearstream Luxembourg Participants through electronic book-entry changes in accounts of Clearstream Luxembourg Participants, thereby eliminating the need for physical movement of certificates. Transactions may be settled by Clearstream Luxembourg in many currencies, including United States dollars. Clearstream Luxembourg has established an electronic bridge with Euroclear to facilitate settlement of trades between Clearstream and Euroclear.

As a registered bank in Luxembourg, Clearstream Luxembourg is subject to regulation by the Luxembourg Commission de Surveillance du Secteur Financier (Commission for the Supervision of the Financial Sector). Clearstream Luxembourg Participants are financial institutions around the world, including underwriters, securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations, and may include the underwriters or their affiliates. Indirect access to Clearstream Luxembourg is also available to others, such as banks, brokers, dealers and trust companies that clear through, or maintain a custodial relationship with, a Clearstream Luxembourg Participant.

Distributions with respect to notes held beneficially through Clearstream Luxembourg will be credited to cash accounts of Clearstream Luxembourg Participants in accordance with its rules and procedures, to the extent received by the U.S. depository for Clearstream Luxembourg.

Euroclear has advised us that it was created to hold securities for participants of Euroclear ("[Euroclear Participants](#)") and to clear and settle transactions between Euroclear Participants through simultaneous electronic book-entry delivery against payment, thereby eliminating the need for physical movement of certificates and any risk from lack of simultaneous transfers of securities and cash. Euroclear is operated by Euroclear Bank S.A./ N.V., as operator of the Euroclear System (the "[Euroclear Operator](#)"), under contract with Euroclear Clearance Systems S.C., a Belgian cooperative corporation (the "[Cooperative](#)"). All operations are conducted by the Euroclear Operator, and all Euroclear securities clearance accounts and Euroclear cash accounts are accounts with the Euroclear Operator, not the Cooperative. The Cooperative establishes policy for Euroclear on behalf of Euroclear Participants. Euroclear Participants include banks (including central banks), securities brokers and dealers and other professional financial intermediaries and may include the underwriters or their affiliates. Indirect access to Euroclear is also available to other firms that clear through or maintain a custodial relationship with a Euroclear Participant, either directly or indirectly.

Securities clearance accounts and cash accounts with the Euroclear Operator are governed by the Terms and Conditions Governing Use of Euroclear and the related Operating Procedures of the Euroclear System, and applicable Belgian law (collectively, the "[Terms and Conditions](#)"). The Terms and Conditions govern transfers of securities and cash within Euroclear, withdrawals of securities and cash from Euroclear, and receipts of payments with respect to securities in Euroclear. All securities in Euroclear are held on a fungible basis without attribution of specific certificates to specific securities clearance accounts. The Euroclear Operator acts under the Terms and Conditions only on behalf of Euroclear Participants, and has no record of, or relationship with, persons holding through Euroclear Participants.

Distributions with respect to notes held beneficially through Euroclear will be credited to the cash accounts of Euroclear Participants in accordance with the Terms and Conditions, to the extent received by the U.S. depository of Euroclear.

Global Clearance and Settlement Procedures

Initial settlement for the notes will be made in immediately available funds. Secondary market trading between DTC participants will occur in the ordinary way in accordance with DTC's rules. Secondary market trading between Clearstream Luxembourg Participants and/or Euroclear Participants will occur in the ordinary way in accordance with the applicable rules and operating procedures of Clearstream Luxembourg and Euroclear.

Cross-market transfers between persons holding directly or indirectly through DTC, on the one hand, and directly or indirectly through Clearstream Luxembourg or Euroclear Participants, on the other, will be effected within DTC in accordance with DTC's rules on behalf of the relevant European clearing system by its U.S. depository; however, such cross-market transactions will require delivery of instructions to the relevant European clearing system by the counterparty in such system in accordance with its rules and procedures and within its established deadlines (European time). The relevant European clearing system will, if the transaction meets its settlement requirements, deliver instructions to its U.S. depository to take action to effect final settlement on its behalf by delivering or receiving interests in book-entry notes in DTC, and making or receiving payment through DTC in accordance with normal procedures. Clearstream Luxembourg Participants and Euroclear Participants may not deliver instructions directly to their respective U.S. depositories.

Because of time-zone differences, credits of interests in book-entry notes received in Clearstream Luxembourg or Euroclear as a result of a transaction with a DTC participant will be made during subsequent securities settlement processing and dated the business day following the DTC settlement date. Such credits, or any transactions in the notes settled during such processing, will be reported to the relevant Euroclear Participants or Clearstream Luxembourg Participants on that business day. Cash received in Clearstream Luxembourg or Euroclear as a result of sales of interests in book-entry notes by or through a Clearstream Luxembourg Participant or a Euroclear Participant to a DTC participant will be received with value on the business day of settlement in DTC but will be available in the relevant Clearstream Luxembourg or Euroclear cash account only as of the business day following settlement in DTC.

Although DTC, Clearstream Luxembourg and Euroclear have agreed to the foregoing procedures in order to facilitate transfers of securities among participants of DTC, Clearstream Luxembourg and Euroclear, they are under no obligation to perform or continue to perform such procedures, and such procedures may be discontinued at any time.

The information in this section concerning DTC, Euroclear and Clearstream Luxembourg has been obtained from sources that we believe to be reliable but neither we nor any underwriter takes any responsibility for the accuracy thereof.

Payment of Interest and Principal

As long as DTC or its nominee is the registered owner of the global securities, DTC or its nominee will be considered the sole owner of the global securities for the purposes of receiving payments of interest and principal on such global securities. Payments of principal and any interest on notes in book-entry form represented by one or more global securities will be made by us in immediately available funds through the paying agent to DTC or its nominee, as the case may be, as the holder of the global security or global securities representing such notes in book-entry form.

We expect that DTC, upon receipt of any payment of principal or interest in respect of a global security, will credit, on the date principal or interest is payable, its participants' accounts with payments in amounts

proportionate to their respective interests in the principal amount of such global security as shown on the records of DTC. We also expect that payments of principal and interest by the participants to the owners of beneficial interests in such global security held through such participants in the depository service of DTC will be governed by standing instructions and customary practices and will be the responsibility of such participants. Our responsibility and liability in respect of notes represented by a global security is limited to making payment of any principal and interest due on such global security to DTC. The rules governing DTC provide that it acts as the agent and depository for its participants. As a result, such participants must look solely to DTC and beneficial owners of notes must look solely to participants for the payment of the principal and interest on the notes paid by or on behalf of us to DTC.

If definitive notes are issued under the limited circumstances described above, we will make payments of principal and the redemption price, if any, thereof upon presentation of the definitive notes at the office of a paying agent for the notes. At our option, payments of interest on definitive notes, if issued, due on any interest payment date (other than on the maturity date or any redemption date) may be made by cheque mailed to the addresses of the persons entitled thereto as such addresses shall appear in the register of notes or by wire transfer of immediately available funds to the accounts of the holders of such definitive notes if appropriate wire transfer instructions have been received in writing by the paying agent not less than 15 days prior to the applicable interest payment date. Notwithstanding the foregoing, we will make payments of interest on any interest payment date (other than on the maturity date or any redemption date) to each registered holder of \$10,000,000 or more in aggregate principal amount of definitive notes by wire transfer of immediately available funds if the applicable registered holder has delivered appropriate wire transfer instructions in writing to the paying agent not less than 15 days prior to the applicable interest payment date. Any wire transfer instructions received by the paying agent shall remain in effect until revoked by the applicable registered holder.

Governing Law

The indenture, including the guarantee, and the notes will be governed by, and construed in accordance with, the laws of the State of New York.

MATERIAL U.S. FEDERAL INCOME TAX CONSIDERATIONS

The following is a summary of the material U.S. federal income tax consequences of the acquisition, disposition and ownership of the notes to the beneficial owners of the notes that purchase the notes in the initial offering at the “issue price” (*i.e.*, the first price at which a substantial amount of the applicable series of notes is sold for money to the public (not including bond houses, brokers or similar persons or organizations acting in the capacity of underwriters, placement agents or wholesalers)). This summary is based upon the Internal Revenue Code of 1986, as amended (the “Code”), the Treasury Regulations promulgated or proposed thereunder, administrative pronouncements and judicial decisions, all as of the date hereof and all of which are subject to change, possibly on a retroactive basis. This summary assumes that purchasers will hold the notes as “capital assets” as defined in the Code. This summary does not address all aspects of U.S. federal income taxation that may be important to a particular investor in light of their personal circumstances or that are subject to special rules, such as:

- financial institutions;
- insurance companies;
- regulated investment companies;
- real estate investment trusts;
- tax-exempt organizations;
- broker-dealers;
- certain former citizens or former long-term residents of the United States;
- partnerships or other pass-through entities, hybrid entities and certain trusts;
- persons that hold notes as a position in a “straddle,” “hedge” or “appreciated financial position” for U.S. federal income tax purposes;
- persons subject to any alternative minimum tax;
- U.S. Holders (as defined below) that have a functional currency other than the U.S. dollar; and
- accrual method taxpayers that are required to recognize income with respect to the notes for U.S. federal income tax purposes no later than when it is taken into account in financial statements.

This discussion does not address the U.S. federal estate (except as set forth below with respect to Non-U.S. Holders (as defined below)) or gift tax laws or any aspects of non-U.S., state or local tax laws. Prospective investors are urged to consult their tax advisors regarding the U.S. federal income tax consequences of acquiring, holding and disposing of the notes in light of their particular situations, as well as any tax consequences that may arise under the laws of any foreign, state, local or other taxing jurisdiction.

For purposes of this summary, the term “U.S. Holder” means a beneficial owner of a note that is, for U.S. federal income tax purposes:

- an individual who is a citizen or resident of the United States;
- a corporation (or any other entity taxable as a corporation) created or organized in or under the laws of the United States, any state thereof or the District of Columbia;
- an estate the income of which is subject to U.S. federal income taxation regardless of its source; or
- a trust if (1) its administration is subject to the primary supervision of a court within the United States and one or more U.S. persons have the authority to control all of its substantial decisions, or (2) it has a valid election in effect under applicable Treasury Regulations to be treated as a U.S. person.

As used herein, the term “Non-U.S. Holder” means a beneficial owner of a note that is not a U.S. Holder and not an entity or arrangement that is classified as a partnership for U.S. federal income tax purposes.

If an entity or arrangement treated as a partnership for U.S. federal income tax purposes holds notes, the treatment of a partner in the partnership will generally depend upon the status of the partner and the activities of the partnership. A partnership holding notes and partners in such a partnership should consult their tax advisors about the U.S. federal income tax consequences of the acquisition, ownership and disposition of notes.

U.S. Holders

Payments of Interest

It is anticipated, and the remainder of this discussion assumes, that the notes will be issued with less than a *de minimis* amount (as set forth in the applicable Treasury Regulations) of original issue discount for U.S. federal income tax purposes. Accordingly, interest paid on a note will be taxable to a U.S. Holder as ordinary interest income at the time it accrues or is received in accordance with the U.S. Holder's regular method of accounting for U.S. federal income tax purposes.

Sale, Exchange, Redemption or other Taxable Disposition of the Notes

A U.S. Holder will generally recognize gain or loss equal to the difference between the amount realized on the sale, exchange, redemption or other taxable disposition of a note (except to the extent the amount realized is attributable to accrued but unpaid interest, which will be taxable as ordinary interest income as described above to the extent not previously included in income) and the U.S. Holder's adjusted tax basis in such note. A U.S. Holder's adjusted tax basis in the note generally will be the cost to purchase the note.

Any gain or loss recognized by a U.S. Holder on a taxable disposition of the note will generally be capital gain or loss and will be long-term capital gain or loss if at the time of the taxable disposition the note has been held by the U.S. Holder for more than one year. In the case of certain non-corporate U.S. Holders (including individuals), long-term capital gains are generally eligible for reduced rates of U.S. federal income taxation. The deductibility of capital losses is subject to limitations under the Code.

Information Reporting and Backup Withholding

Information reporting requirements generally will apply to interest on the notes and the proceeds of a sale, exchange, redemption or other taxable disposition of a note paid to a U.S. Holder unless the U.S. Holder is an exempt recipient (such as a corporation). Backup withholding generally will apply to those payments if the U.S. Holder fails to provide its correct taxpayer identification number, or certification of exempt status, or if the U.S. Holder is notified by the IRS that it has failed to report in full payments of interest and dividend income. Any amounts withheld under the backup withholding rules will be allowed as a refund or a credit against a U.S. Holder's U.S. federal income tax liability provided the required information is furnished to the IRS in a timely manner.

Medicare Tax on Net Investment Income

Certain U.S. Holders that are individuals, estates or trusts are subject to an additional 3.8% Medicare tax on "net investment income" (in the case of individuals) or "undistributed net investment income" (in the case of estates and trusts), which includes, among other things, interest on and gains from the sale, exchange, redemption or other taxable disposition of the notes. U.S. Holders should consult their tax advisors regarding the 3.8% Medicare tax.

Non-U.S. Holders

Payments of Interest

Subject to the discussion under “—*Information Reporting and Backup Withholding*” and “—*Foreign Account Tax Compliance Act (FATCA)*” below, U.S. federal withholding tax will not be applied to any payment of interest on a note to a Non-U.S. Holder; *provided that*:

- (a) interest paid on the note is not effectively connected with the Non-U.S. Holder’s conduct of a trade or business in the United States;
- (b) the Non-U.S. Holder does not actually or constructively own 10% or more of the total combined voting power of all classes of our stock that are entitled to vote within the meaning of Section 871(h)(3) of the Code;
- (c) the Non-U.S. Holder is not a controlled foreign corporation that is related to us (actually or constructively) through stock ownership; and
- (d) either (1) the Non-U.S. Holder provides its name and address, and certifies, under penalties of perjury, that it is not a U.S. person (which certification may be made on the applicable IRS Form W-8), or (2) the Non-U.S. Holder holds the notes through certain non-U.S. intermediaries or certain non-U.S. partnerships, and the Non-U.S. Holder and the non-U.S. intermediary or non-U.S. partnership satisfy the certification requirements of applicable Treasury Regulations.

If a Non-U.S. Holder cannot satisfy the requirements described above, payments of interest made to the holder will be subject to U.S. federal withholding tax at a rate of 30%, unless the Non-U.S. Holder provides the applicable withholding agent with a properly executed (1) IRS Form W-8BEN or W-8BEN-E, as applicable, claiming an exemption from or reduction in withholding under the benefit of an applicable income tax treaty or (2) IRS Form W-8ECI (or other applicable form) stating that interest paid on the notes is not subject to U.S. federal withholding tax because it is effectively connected with the Non-U.S. Holder’s conduct of a trade or business in the United States and is includible in the Non-U.S. Holder’s gross income for U.S. federal income tax purposes.

If a Non-U.S. Holder is engaged in a trade or business in the United States and interest on the notes is effectively connected with the conduct of that trade or business and, if required by an applicable income tax treaty, is attributable to a U.S. permanent establishment, then, although the Non-U.S. Holder will be exempt from the 30% withholding tax provided the certification requirements discussed above are satisfied, the Non-U.S. Holder will be subject to U.S. federal income tax on that interest on a net income basis in the same manner as if the Non-U.S. Holder were a U.S. Holder. In addition, if a Non-U.S. Holder is a non-U.S. corporation, it may be subject to a branch profits tax equal to 30% (or lesser rate as may be specified under an applicable income tax treaty) of its effectively connected earnings and profits, subject to adjustments.

Sale, Exchange, Redemption or Other Taxable Disposition of the Notes

Subject to the discussions under “—*Information Reporting and Backup Withholding*” and “—*Foreign Account Tax Compliance Act (FATCA)*” below, gain recognized by a Non-U.S. Holder on the sale, exchange, redemption or other taxable disposition of a note (excluding any amount allocable to accrued and unpaid interest, which generally will be taxable as described above under “—*Payments of Interest*”) will not be subject to U.S. federal income tax unless:

- that gain is effectively connected with a Non-U.S. Holder’s conduct of a trade or business in the United States (and, if required by an applicable income treaty, is attributable to a U.S. permanent establishment); or
- the Non-U.S. Holder is an individual who is present in the United States for a period aggregating 183 days or more in the taxable year of that disposition and certain other conditions are met.

If a Non-U.S. Holder is an individual or non-U.S. corporation described in the first bullet point above, it will be subject to tax on the net gain derived from the sale, exchange, redemption or other taxable disposition under regular U.S. federal income tax rates and in the same manner as if the Non-U.S. Holder were a U.S. Holder. In addition, if a Non-U.S. Holder is a non-U.S. corporation that falls under the first bullet point above, it may be subject to the branch profits tax equal to 30% (or lesser rate as may be specified under an applicable income tax treaty) of its effectively connected earnings and profits, subject to adjustments.

If a Non-U.S. Holder is an individual described in the second bullet point above, such Non-U.S. Holder will be subject to a flat 30% (or lesser rate as may be specified under an applicable income tax treaty) tax on the gain derived from the sale, exchange, redemption or other taxable disposition, which may be offset by U.S.-source capital losses, even though such Non-U.S. Holder is not considered a resident of the United States.

U.S. Federal Estate Tax

Notes held at the time of death by an individual who is not a U.S. citizen or resident (as specially defined for U.S. federal estate tax purposes) will not be included in such individual's gross estate for U.S. federal estate tax purposes; *provided* that (1) the individual does not actually (or constructively) own 10% or more of the total combined voting power of all classes of our voting stock within the meaning of the Code and applicable Treasury Regulations and (2) interest on those notes would not have been, if received at the time of the individual's death, effectively connected with the conduct by such individual of a trade or business in the United States.

Information Reporting and Backup Withholding

Generally, the amount of interest paid to Non-U.S. Holders and the amount of tax, if any, withheld with respect to those payments must be reported annually to the IRS and to Non-U.S. Holders. Copies of the information returns reporting such interest and withholding may also be made available to the tax authorities in the country in which a Non-U.S. Holder resides under the provisions of an applicable income tax treaty.

In general, a Non-U.S. Holder will not be subject to backup withholding with respect to payments of interest that we make, provided the applicable statement described above in the last bullet point under "*Payments of Interest*" has been provided and the applicable withholding agent does not have actual knowledge or reason to know that the holder is a United States person, as defined under the Code, that is not an exempt recipient. In addition, a Non-U.S. Holder will be subject to information reporting and, depending on the circumstances, backup withholding with respect to payments of the proceeds of the sale, exchange, redemption, repurchase by us or other taxable disposition of a note within the United States or conducted through certain U.S.-related financial intermediaries, unless the statement described above has been received, and the payor does not have actual knowledge or reason to know that the holder is a United States person, as defined under the Code, that is not an exempt recipient, or the Non-U.S. Holder otherwise establishes an exemption. Any amounts withheld under the backup withholding rules will be allowed as a refund or a credit against a Non-U.S. Holder's U.S. federal income tax liability provided the required information is furnished to the IRS in a timely manner.

Foreign Account Tax Compliance Act (FATCA)

Under the Foreign Account Tax Compliance Act (commonly referred to as "**FATCA**"), a 30% U.S. federal withholding tax may apply to interest income paid on the notes to (i) a "foreign financial institution" (as specifically defined in the Code), whether such foreign financial institution is the beneficial owner or an intermediary, unless such foreign financial institution agrees to verify, report and disclose its "United States account" holders (as specifically defined in the Code) and meets certain other specified requirements or (ii) a "non-financial foreign entity" (as specifically defined in the Code), whether such non-financial foreign entity is the beneficial owner or an intermediary, unless such non-financial foreign entity provides a certification that the beneficial owner of the payment does not have any substantial U.S. owners or provides the name, address and taxpayer identification number of each substantial U.S. owner and certain other specified requirements are met.

In certain cases, the relevant foreign financial institution or non-financial foreign entity may qualify for an exemption from, or be deemed to be in compliance with, these rules. Further, foreign financial institutions located in jurisdictions that have an intergovernmental agreement with the United States governing FATCA may be subject to different rules. If an interest payment is subject both to withholding under FATCA and to the U.S. federal withholding tax discussed above under “—*Non-U.S. Holders—Payments of Interest*,” the U.S. federal withholding under FATCA may be credited against, and therefore reduce, such other U.S. federal withholding tax. While withholding under FATCA may also apply to gross proceeds from the sale or other disposition of the notes (including settlement of the notes at maturity), under proposed U.S. Treasury Regulations, withholding on payments of gross proceeds is not required. Although such regulations are not final, applicable withholding agents may rely on the proposed regulations until final regulations are issued. Holders should consult their own tax advisors regarding these rules and whether they may be relevant to their ownership and disposition of the notes.

The underwriters are committed to take and pay for all of the notes being offered, if any are taken. If an underwriter defaults, the underwriting agreement provides that the purchase commitments of the nondefaulting underwriters may be increased or the underwriting agreement may be terminated.

Notes sold by the underwriters to the public will initially be offered at the public offering price set forth on the cover of this prospectus supplement. Any notes sold by the underwriters to securities dealers may be sold at a price that represents a concession not in excess of 0.120% of the principal amount of the floating rate notes, 0.120% of the principal amount of the 2029 notes, 0.200% of the principal amount of the 2031 notes and 0.250% of the principal amount of the 2036 notes. The underwriters may allow, and these dealers may re-allow, a concession of not more than 0.080% of the principal amount of the floating rate notes, 0.080% of the principal amount of the 2029 notes, 0.100% of the principal amount of the 2031 notes and 0.150% of the principal amount of the 2036 notes to other dealers. After the notes are released for sale, the underwriters may change the offering price and the other selling terms.

The following table shows the underwriting discounts that we will pay to the underwriters in connection with this offering:

	Per Floating Rate Note	Per 2029 Note	Per 2031 Note	Per 2036 Note	Total
Underwriting discounts	0.200%	0.200%	0.300%	0.400%	\$11,500,000

The notes are new issues of securities with no established trading market. We do not intend to list the notes on any securities exchange or have the notes quoted on any automated dealer quotation system. We have been advised by the underwriters that the underwriters intend to make a market in the notes after the completion of this offering but are not obligated to do so and may discontinue market making at any time without notice to or the consent of existing noteholders. No assurance can be given as to the development, maintenance or liquidity of

any trading market for the notes. If an active public trading market for the notes does not develop, the market price and liquidity of the notes may be adversely affected. If the notes are traded, they may trade at a discount from their initial offering price, depending on prevailing interest rates, the market for similar securities, our operating performance and financial condition, general economic conditions and other factors.

In connection with this offering, the underwriters may purchase and sell notes in the open market. These transactions may include short sales, stabilizing transactions and purchases to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater principal amount of notes than they are required to purchase in this offering. Stabilizing transactions consist of certain bids or purchases made for the purpose of preventing or retarding a decline in the market price of the notes while this offering is in progress.

The underwriters also may impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representatives have repurchased notes sold by or for the account of such underwriter in stabilizing or short covering transactions.

These activities by the underwriters may stabilize, maintain or otherwise affect the market price of the notes. As a result, the price of the notes may be higher than the price that otherwise might exist in the open market. If these activities are commenced, they may be discontinued by the underwriters at any time. These transactions may be effected in the over-the-counter market or otherwise.

Certain underwriters will not effect any offers or sales of any notes in the United States unless it is through one or more U.S. registered broker-dealers permitted by the regulations of FINRA.

The expenses of this offering, not including the underwriting discounts, are estimated to be \$3.0 million, all of which are payable by us.

We expect that delivery of the notes will be made to investors on or about the second business day following the date of this prospectus supplement (such settlement cycle being referred to as "T+2"). Under Rule 15c6-1 under the Exchange Act, trades in the secondary market are required to settle in one business day, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade the notes on any date prior to the business day before delivery will be required, by virtue of the fact that the notes initially settle in T+2, to specify an alternate settlement arrangement at the time of any such trade to prevent a failed settlement. Purchasers of the notes who wish to trade the notes prior to the business day preceding the delivery date of the notes should consult their advisors.

We and the Guarantor have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act, or to contribute to payments they are required to make in respect thereof.

Other Relationships

The underwriters and their respective affiliates are full-service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing, corporate trust and brokerage activities. Some of the underwriters and their affiliates have engaged in, and may in the future engage in, commercial banking, investment banking, advisory and other commercial dealings in the ordinary course of business with us or our affiliates. They have received, or may in the future receive, customary fees and commissions for these transactions.

In addition, in the ordinary course of their business activities, the underwriters and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of ours or our affiliates. If any of the underwriters or their affiliates has a lending relationship with us, certain of those underwriters or their affiliates routinely hedge, and certain others of those underwriters or their affiliates may hedge, their credit

exposure to us consistent with their customary risk management policies. Typically, these underwriters and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the notes offered hereby. Any such credit default swaps or short positions could adversely affect future trading prices of the notes offered hereby. The underwriters and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments. Certain affiliates of the underwriters are also lenders or agents under our bank facilities.

Selling Restrictions

Other than the United States, no action has been taken by us, the Guarantor or, to the best of our knowledge, the underwriters that would permit a public offering of the notes in any jurisdiction where action for that purpose is required. The notes may not be offered or sold, directly or indirectly, nor may this prospectus supplement or any other offering material or advertisements in connection with the offer and sale of any such notes be distributed or published in any jurisdiction, except under circumstances that will result in compliance with the applicable rules and regulations of that jurisdiction. Persons into whose possession this prospectus supplement comes are advised to inform themselves about and to observe any restrictions relating to the offering of the notes and the distribution of this prospectus supplement. This prospectus supplement does not constitute an offer to sell or a solicitation of an offer to buy any notes offered by this prospectus supplement in any jurisdiction in which such an offer or a solicitation is unlawful.

Notice to Canadian Investors

The notes may be sold in Canada only to purchasers purchasing, or deemed to be purchasing, as principal that are accredited investors, as defined in National Instrument 45-106 Prospectus Exemptions or subsection 73.3(1) of the Securities Act (Ontario), and are permitted clients, as defined in National Instrument 31-103 Registration Requirements, Exemptions and Ongoing Registrant Obligations. Any resale of the notes must be made in accordance with an exemption from, or in a transaction not subject to, the prospectus requirements of applicable Canadian securities laws.

Securities legislation in certain provinces or territories of Canada may provide a purchaser with remedies for rescission or damages if this prospectus supplement and the accompanying prospectus (including any amendment thereto) contains a misrepresentation, *provided* that the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's province or territory. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province or territory for particulars of these rights or consult with a legal advisor.

Pursuant to section 3A.3 (or, in the case of securities issued or guaranteed by the government of a non-Canadian jurisdiction, section 3A.4) of National Instrument 33-105 Underwriting Conflicts ("NI 33-105"), the underwriters are not required to comply with the disclosure requirements of NI 33-105 regarding underwriter conflicts of interest in connection with this offering.

Notice to Prospective Investors in the European Economic Area

offering or selling the notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation. This prospectus supplement and the accompanying prospectus have been prepared on the basis that any offer of notes in any Member State of the EEA will be made pursuant to an exemption under the Prospectus Regulation from the requirement to publish a prospectus for offers of notes. This prospectus supplement and the accompanying prospectus are not a prospectus for the purposes of the Prospectus Regulation.

Each time we sell securities, we will provide a prospectus supplement that will contain specific information about the terms of that offering. The prospectus supplement may also add, update or change information contained in this prospectus. You should read both the prospectus and any prospectus supplement together with the additional information described under the heading “Where You Can Find More Information.”

We may also prepare free writing prospectuses that describe particular debt securities. Any free writing prospectus should also be read in connection with this prospectus and with any prospectus supplement referred to therein. For purposes of this prospectus, any reference to an applicable prospectus supplement may also refer to a free writing prospectus, unless the context otherwise requires.

The registration statement that contains this prospectus, including the exhibits to the registration statement, contains additional information about us, TWDC Enterprises and the securities offered under this prospectus. That registration statement can be read at the Securities and Exchange Commission website mentioned under the heading “Where You Can Find More Information.”

We have not and TWDC Enterprises has not authorized any person to give any information or to make any representation in connection with this prospectus other than those contained or incorporated by reference in this prospectus, and, if given or made, the information or representation must not be relied upon as having been authorized by us or TWDC Enterprises.

This prospectus does not constitute an offer to sell or a solicitation of an offer to buy by anyone in any jurisdiction in which the offer or solicitation is not authorized, or in which the person is not qualified to do so or to any person to whom it is unlawful to make such offer or solicitation. Neither the delivery of this prospectus nor any sale under this prospectus shall, under any circumstances, create any implication that there has been no change in our affairs or the affairs of TWDC Enterprises since the date of this prospectus, that the information contained in this prospectus is correct as of any time subsequent to its date or that any information incorporated by reference in this prospectus is correct as of any time subsequent to its date.

Unless otherwise indicated, currency amounts in this prospectus and any prospectus supplement are stated in United States dollars (“\$,” “dollars,” “U.S. dollars” or “U.S.\$”), and references to a “prospectus supplement” include both prospectus supplements and pricing supplements.

CAUTIONARY STATEMENT CONCERNING FORWARD-LOOKING STATEMENTS

This prospectus, any prospectus supplement and the documents incorporated or deemed to be incorporated by reference herein or therein contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”), and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). Forward-looking statements generally relate to future events or our future financial or operating performance and may include statements concerning, among other things, financial results, results of operations, business plans (including statements regarding new products and services, future expenditures, costs, investments and transactions for which conditions to close have not been satisfied, including entering into definitive agreements, regulatory or other approvals or other conditions), competition, future performance and future actions. In some cases, you can identify forward-looking statements because they contain words such as “may,” “will,” “would,” “should,” “expects,” “plans,” “could,” “intends,” “target,” “projects,” “forecasts,” “believes,” “estimates,” “anticipates,” “potential,” “continue,” “assumption” or “judgment” or the negative of these, words or other similar terms or expressions that concern our expectations, strategy, plans or intentions. These statements, which speak only as of the date of this prospectus or any prospectus supplement or, in the case of documents incorporated or deemed to be incorporated by reference herein or therein, as of the date of those documents, reflect our current views with respect to future events and are based on assumptions as of the date of those documents. These statements are subject to known and unknown risks, uncertainties and other factors, including those described under the captions “Risk Factors,” “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and “Business” in our Annual Report on Form 10-K for the year ended September 28, 2024 and any subsequent Annual Reports on Form 10-K, and under the captions “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in any subsequent Quarterly Reports on Form 10-Q as well as in any subsequent periodic or current reports filed with the Securities and Exchange Commission under the Exchange Act that include “Risk Factors” or that discuss risks to us, that may cause our actual results, performance or achievements to be materially different from expectations or results projected or implied by forward-looking statements.

A forward-looking statement is neither a prediction nor a guarantee of future events or circumstances. You should not place undue reliance on the forward-looking statements. Unless required by federal securities laws, we assume no obligation to update any of these forward-looking statements, or to update the reasons actual results could differ materially from those anticipated, to reflect circumstances or events that occur after the date of this prospectus or any prospectus supplement.

RISK FACTORS

Our business is subject to significant risks. You should carefully consider the risks and uncertainties described in this prospectus, any accompanying prospectus supplement and the documents incorporated by reference herein and therein, including the risks and uncertainties described in our consolidated financial statements and the notes to those financial statements and the risks and uncertainties described in our Annual Report on Form 10-K for the year ended September 28, 2024, and in any subsequent Quarterly Reports on Form 10-Q and Annual Reports on Form 10-K, under the captions “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” as well as in any subsequent periodic or current reports filed with the Securities and Exchange Commission under the Exchange Act that include “Risk Factors” or that discuss risks to us, which are incorporated by reference in this prospectus or any applicable prospectus supplement. Before making an investment decision, you should carefully consider these risks, as well as any other information that we include or incorporate by reference in this prospectus or any applicable prospectus supplement. The prospectus supplement applicable to each type or series of securities we and TWDC Enterprises may offer may contain a discussion of additional risks applicable to an investment in the securities described in this prospectus and the particular type of securities we and TWDC Enterprises are offering under that prospectus supplement. If any of the risks and uncertainties described in this prospectus, any applicable prospectus supplement or the documents incorporated by reference herein or therein actually occur, our business, financial condition and results of operations could be adversely affected in a material way. This could cause the trading price of our securities to decline, perhaps significantly, and you may lose part or all of your investment.

The payment of dividends and the making of loans and advances to us by our subsidiaries may be subject to statutory or contractual restrictions, are contingent upon the earnings of our subsidiaries and are subject to various business considerations. Our right to receive assets of any of our subsidiaries upon their liquidation or reorganization (and the consequent right of the holders of the debt securities to participate in those assets) will be effectively subordinated to the claims of that

subsidiary's creditors (including trade creditors), except to the extent that we are recognized as a creditor of that subsidiary, in which case our claims would still be effectively subordinated to any security interests in the assets of the subsidiary and would still be contractually subordinated to any indebtedness of the subsidiary senior to that held by us.

Holders of our debt securities have a direct claim only against us, unless such debt securities are guaranteed, in which case they also have a direct claim against any applicable guarantor.

Form, Exchange, Registration and Transfer

The debt securities of a series will be issued as registered securities. Debt securities of a series may be issuable in whole or in part in the form of one or more global debt securities, as described below under "—Global Debt Securities." Unless otherwise indicated in an applicable prospectus supplement, debt securities will be issuable in denominations of \$2,000 and integral multiples of \$1,000 in excess thereof.

Debt securities of any series will be exchangeable for other securities of the same series of any authorized denominations and of a like aggregate principal amount and tenor. Unless otherwise indicated in an applicable prospectus supplement, debt securities may be presented for registration of transfer, at the office or agency designated by us as registrar or co-registrar with respect to any series of debt securities, without service charge and upon payment of any taxes, assessments or other governmental charges as described in the indenture. The transfer or exchange will be effected on the books of the registrar or any other transfer agent appointed by us upon the registrar or transfer agent, as the case may be, being satisfied with the documents of title and identity of the person making the request. We have appointed the trustee as the initial registrar under the indenture and the name of any different or additional registrar designated by us with respect to the debt securities of any series will be included in the applicable prospectus supplement. If a prospectus supplement refers to any office or agency where debt securities may be presented or surrendered for payment, registration of transfer or exchange and where notices and demands may be served (in addition to the registrar's office designated by us) with respect to any series of debt securities, we may at any time rescind such designation or approve a change in the location of such office or agency, except that we will be required to maintain an office or agency in each place of payment for that series and, if required by the depositary, we will appoint a paying agent and registrar in The City of New York.

We may at any time designate additional offices or agencies where the debt securities of any series may be presented or surrendered for any or all purposes listed above.

In the event of any redemption of debt securities of any series, we will not be required to:

- issue, register the transfer of or exchange debt securities of that series during a period beginning at the opening of business 15 days before any selection of debt securities of that series to be redeemed and ending at the close of business on the day of mailing or other delivery of the relevant notice of redemption; or
- register the transfer of or exchange any debt security, or portion thereof, called for redemption, except the unredeemed portion of any debt security being redeemed in part.

The TWDC Enterprises Guarantee

Unless otherwise indicated in an applicable prospectus supplement, the Guarantor will fully and unconditionally guarantee the full and punctual payment of the principal of, premium, if any, interest on, and all other amounts payable under the debt securities (such debt securities, the "guaranteed debt securities") and all other obligations under the indenture, in each case, when the same becomes due and payable, whether at maturity or upon redemption, repayment at the option of the holders of the debt securities, upon acceleration or otherwise. If for any reason we do not make any required payment in respect of our guaranteed debt securities or other obligations

under the indenture when due, the Guarantor will, on demand, pay the unpaid amount at the same place and in the same manner that applies to payments made by us under the indenture. The guarantee is of payment, performance and compliance, and not of collection.

Holders of our guaranteed debt securities are our direct creditors, as well as direct creditors of the Guarantor under the guarantee. The terms of the guarantee of any guaranteed debt securities will be described in the applicable prospectus supplement.

The Guarantor will be automatically and unconditionally released and discharged from its guarantee (i) upon notice by us to the trustee, at any time, that (x) the Guarantor is not a borrower, issuer or guarantor under certain material credit facilities or any debt securities (or substantially concurrently with the Guarantor's release and discharge under such obligations) or (y) the aggregate principal amount of indebtedness for borrowed money (without duplication) issued or borrowed by all Measured Subsidiaries (as defined below) of The Walt Disney Company (collectively) (other than any indebtedness for borrowed money represented by a guarantee under the indenture or guarantees of third-party indebtedness) constitutes (or, as a result of any event or circumstance occurring or arising substantially concurrently therewith, will constitute) no more than 10.0% of the aggregate principal amount of indebtedness for borrowed money of The Walt Disney Company and its Measured Subsidiaries (other than any indebtedness for borrowed money represented by guarantees of third-party indebtedness), on a consolidated basis, as of such time, (ii) upon the sale, transfer or disposition (including by way of consolidation or merger) of all or substantially all of the equity interests or assets of the Guarantor to another person (other than to us or any of our other subsidiaries), (iii) upon the discharge of our obligations under the indenture in accordance with its terms or (iv) upon any covenant defeasance or legal defeasance with respect to the debt securities of the applicable series as described in "—Discharge and Defeasance" below.

"Excluded Entity" means each of the Hong Kong Disneyland Entities, the Shanghai Project Entities and the Specified Project Entities.

"Hong Kong Disneyland Entity" means any subsidiary of the Guarantor and any other person whose equity securities or interests are owned, directly or indirectly, in whole or in part, by the Guarantor or any of its subsidiaries, the primary business of which is the direct or indirect ownership, management, operation, design, construction and/or financing of the recreational and commercial facilities and complex, or any part thereof or any addition thereto, commonly known as "Hong Kong Disney," "Hong Kong Disneyland" or "Disneyland Resort Hong Kong," located at Penny's Bay on Lantau Island, Hong Kong, which subsidiaries and other persons include, without limitation, as of the date hereof, Hongkong International Theme Parks Limited, Hong Kong Disneyland Management Limited and Walt Disney Holdings (Hong Kong) Limited.

"Measured Subsidiary" means, with respect to any person, any (a) corporation (or foreign equivalent) other than an Excluded Entity or (b) general partnership, limited partnership or limited liability company (or foreign equivalent) other than an Excluded Entity (each, a "Non-Corporate Entity"), in either case, of which more than 50% of the outstanding capital stock (or comparable interest) having ordinary voting power (irrespective of whether at the time capital stock (or comparable interest) of any other class or classes of such corporation or Non-Corporate Entity shall or might have voting power upon the occurrence of any contingency) is at the time directly or indirectly (through one or more Measured Subsidiaries) owned by such person. In the case of a Non-Corporate Entity, a person shall be deemed to have more than 50% of interests having ordinary voting power only if such person's vote in respect of such interests comprises more than 50% of the total voting power of all such interests in such Non-Corporate Entity. For purposes of this definition, any managerial powers or rights comparable to managerial powers afforded to a person solely by reason of such person's ownership of general partner or comparable interests (or foreign equivalent) shall not be deemed to be "interests having ordinary voting power."

"Shanghai Project Entity" means any subsidiary of the Guarantor and any other person whose equity securities or interests are owned, directly or indirectly, in whole or in part, by the Guarantor or any of its

subsidiaries, the primary business of which is the direct or indirect ownership, management, operation, design, construction and/or financing of the recreational and commercial facilities and complex or any part thereof or any addition thereto, to be known as “Shanghai Disney,” “Shanghai Disneyland” or “Disneyland Resort Shanghai” or by any similar name, located in the Pudong New Area, Shanghai, People’s Republic of China, which subsidiaries and other persons include, without limitation, as of the date hereof, Shanghai International Theme Park Company Limited, Shanghai International Theme Park Associated Facilities Company Limited, Shanghai International Theme Park and Resort Management Company Limited and WD Holdings (Shanghai), LLC.

“Specified Project Entity” means:

(a) DVD Financing, Inc.;

(b) each affiliate of the Guarantor organized after February 25, 2004 (the “Organization Date”) (or whose business commenced after the Organization Date) and any other person organized after the Organization Date (or whose business commenced after the Organization Date) whose equity securities or interests are owned, directly or indirectly, in whole or in part, by the Guarantor or any of its subsidiaries, in each case, if:

(i) such affiliate or other person has incurred debt for the purpose of financing all or a part of the costs of the acquisition, construction, development or operation of a particular project (“Project Debt”);

(ii) except for customary guarantees, keep-well agreements and similar credit and equity support arrangements in respect of Project Debt incurred by such affiliate or other person from the Guarantor or any of its subsidiaries not in excess of \$150,000,000 or from third parties, the source of repayment of such Project Debt is limited to the assets and revenues of such particular project (or, if such particular project comprises all or substantially all of the assets of such affiliate or other person, the assets and revenues of such affiliate or other person); and

(iii) the property over which liens are granted to secure such Project Debt, if any, consists solely of the assets and revenues of such particular project or the equity securities or interests of such affiliate or other person or a subsidiary of the Guarantor referred to in clause (c) below; and

(c) each affiliate of the Guarantor organized after the Organization Date (or whose business commenced after the Organization Date) whose equity securities or interests are owned, directly or indirectly, in whole or in part, by the Guarantor or any of its subsidiaries, the primary business of which is the direct or indirect ownership, management or operation of, or provision of services to, any affiliate or other person referred to in clause (b) above.

Covenants

Unless otherwise indicated in an applicable prospectus supplement, the indenture does not include covenants limiting the amount of secured or unsecured indebtedness that may be incurred by us and our subsidiaries or otherwise restricting our ability to enter into a highly leveraged transaction, including a reorganization, restructuring, merger or similar transaction involving us or the Guarantor that may adversely affect the holders of the debt securities, if, in the case of a consolidation, merger or transfer or lease of our or the Guarantor’s assets substantially as an entirety, the applicable transaction complies with the provisions described below under “—Mergers and Sales of Assets.” In addition, unless otherwise specified in an applicable prospectus supplement, the indenture does not afford the holders of the debt securities the right to require us to repurchase or redeem the debt securities in the event of a highly leveraged transaction. See “—Mergers and Sales of Assets.”

Payment and Paying Agents

Unless otherwise indicated in an applicable prospectus supplement, payment of principal of, premium, if any, and interest, if any, on debt securities will be made at the office of the paying agent or paying agents designated

by us from time to time, except that at our option, payment of principal and premium, if any, or interest also may be made by wire transfer to an account maintained by the payee. Unless otherwise indicated in an applicable prospectus supplement, payment of any installment of interest on debt securities will be made to the person in whose name the debt security is registered at the close of business on the regular record date for the interest payment, except as otherwise provided by the procedures of the depository.

Unless otherwise indicated in an applicable prospectus supplement, the trustee will be designated as our sole paying agent. Any other paying agents designated by us for any series of debt securities will be named in an applicable prospectus supplement. We may at any time designate additional paying agents or rescind the designation of any paying agent or approve a change in the office through which any paying agent acts, except that we will be required to maintain a paying agent in each place of payment for that series.

All moneys paid by us to a paying agent for the payment of principal of and premium, if any, or interest, if any, on any debt security which remains unclaimed at the end of two years after that principal or interest shall have become due and payable will be repaid to us, and the holder of the debt security will thereafter look only to us for payment of those amounts.

Global Debt Securities

The debt securities of a series may be issued, in whole or in part, in global form. A debt security in global form will be deposited with, or on behalf of, a depository, which will be identified in an applicable prospectus supplement. A global debt security may be issued in either temporary or permanent form. A debt security in global form may not be transferred except as a whole to the depository for the debt security or to its nominee or successor of the depository or a nominee of such successor. If any debt securities of a series are issuable in global form, the applicable prospectus supplement will describe the circumstances, if any, under which beneficial owners of interests in a global debt security may exchange their interests for definitive debt securities of that series of like tenor and principal amount in any authorized form and denomination, the manner of payment of principal of, premium, if any, and interest, if any, on the global debt securities and the specific terms of the depository arrangement with respect to any global debt security.

Mergers and Sales of Assets

The Walt Disney Company

The indenture provides that we may not consolidate with or merge with or into any other person or convey, transfer or lease our properties and assets substantially as an entirety to another person, unless, among other things, (i) we are the continuing corporation, or the resulting, surviving or transferee person (if other than us) is organized and existing under the laws of the United States, any state thereof or the District of Columbia and that person expressly assumes all of our obligations under the debt securities and the indenture, (ii) immediately after giving effect to the transaction, no event which is, or after notice or passage of time or both would be, an event of default under the indenture (any such event, a “default”) shall have occurred and be continuing under the indenture and (iii) we deliver to the trustee an officer’s certificate and an opinion of counsel to the effect that the consolidation, merger, conveyance, transfer or lease, as the case may be, complies with the indenture and that all conditions precedent provided in the indenture with respect to the transaction have been satisfied. Any such successor person formed by any such consolidation or into which we are merged or to which any such conveyance, transfer or lease is made shall succeed to, and be substituted for, us under the indenture and we will be discharged from all obligations under the indenture and the debt securities issued thereunder, except in the case of a lease of our properties and assets substantially as an entirety.

Guarantor

Subject to the guarantee release provisions therein, the indenture provides that the Guarantor may not consolidate with or merge with or into any other person or convey, transfer or lease its properties and assets substantially as

an entirety to another person, unless, among other things, (i) it is the continuing person, it is merged or consolidated into us or another guarantor under the indenture or the resulting, surviving or transferee person (if other than us or the Guarantor) is organized and existing under the laws of the United States, any state thereof or the District of Columbia and that person expressly assumes all of the Guarantor's obligations under the debt securities and the indenture and (ii) we deliver to the trustee an officer's certificate and an opinion of counsel to the effect that the consolidation, merger, conveyance, transfer or lease, as the case may be, complies with the indenture and that all conditions precedent provided in the indenture with respect to the transaction have been satisfied. Any such successor person formed by any such consolidation or into which the Guarantor is merged or to which any such conveyance, transfer or lease is made shall succeed to, and be substituted for, the Guarantor under the indenture and the Guarantor will be discharged from all obligations under the indenture and the debt securities issued thereunder, except in the case of a lease of its properties and assets substantially as an entirety.

Events of Default

The indenture provides that if an event of default (other than an event of default described in clause (c) of the next paragraph) occurs and is continuing with respect to a series of debt securities, the trustee or the holders of not less than 25% in aggregate principal amount of the outstanding debt securities of that series may declare the principal amount (or, if any of the debt securities of that series are original issue discount securities, that portion of the principal amount of the debt securities as may be specified by the terms thereof) of the debt securities of that series to be immediately due and payable. The indenture further provides that, if an event of default described in clause (c) of the next paragraph occurs and is continuing with respect to a series of debt securities, the principal amount (or, if any of the debt securities of that series are original issue discount securities, that portion of the principal amount of the debt securities as may be specified by the terms thereof) of the debt securities of that series shall become and be immediately due and payable, without any declaration or other act on the part of the trustee or the holders of any debt securities of that series. Under certain circumstances, the holders of a majority in aggregate principal amount of the outstanding debt securities of the series may rescind an acceleration of the debt securities of such series and its consequences.

Under the indenture, unless otherwise specified with respect to a series of debt securities in the applicable prospectus supplement, the following events will constitute an event of default with respect to a series of debt securities:

- (a) default in (i) payment of any principal of or premium, if any, on any debt security of the series at its maturity or (ii) payment of any interest on any debt security of the series when due and payable, continuing for 30 days;
- (b) failure by us to comply with our other agreements in the debt securities of the series or the indenture for the benefit of the holders of debt securities of that series upon the receipt by us of notice of the default given by the trustee or the holders of at least 25% in aggregate principal amount of the outstanding debt securities of the series and our failure to cure the default within 60 days after receipt by us of the notice;
- (c) specified events of bankruptcy or insolvency with respect to us or any guarantor that is a Significant Subsidiary;
- (d) the guarantee of a Significant Subsidiary ceases to be in full force and effect (other than as specified above under "—The TWDC Enterprises Guarantee" or as otherwise provided under the terms of the indenture) or a guarantor denies its liability under the guarantee; and
- (e) any other event of default applicable to the series of debt securities and set forth in the applicable prospectus supplement.

"Significant Subsidiary," means, at any time, any of our subsidiaries which would be a "Significant Subsidiary" at such time, as such term is defined in Regulation S-X promulgated by the Securities and Exchange Commission, as in effect on the date of the indenture.

The trustee will give notice to holders of the debt securities of any continuing default known to the trustee within 90 days after the occurrence of the default. However, the trustee may withhold notice of any default, other than a payment default, if it determines in good faith that withholding the notice is in the interests of the holders.

The holders of a majority in principal amount of the outstanding debt securities of any series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to the debt securities of that series, provided that the trustee may refuse to follow any direction that conflicts with any law or the indenture or that the trustee determines in good faith is unduly prejudicial to the rights of other holders or would involve the trustee in personal liability and subject to other limitations provided for in the indenture. Before proceeding to exercise any right or power under the indenture at the direction of holders, the trustee will be entitled to receive from the holders reasonable security or indemnity against the costs, expenses and liabilities which might be incurred by it in complying with the direction. With respect to each series of debt securities, no holder will have any right to pursue any remedy with respect to the indenture or the debt securities of that series, unless:

- (a) the holder has previously given the trustee written notice of a continuing event of default with respect to the debt securities of that series;
- (b) the holders of at least 25% in aggregate principal amount of the outstanding debt securities of the series have made a written request to the trustee to pursue the remedy;
- (c) the holder or holders have offered to the trustee reasonable security or indemnity satisfactory to the trustee;
- (d) the holders of a majority in aggregate principal amount of the outstanding debt securities of the series have not given the trustee a direction inconsistent with the request within 60 days after receipt of the request; and
- (e) the trustee has failed to comply with the request within the 60-day period.

Notwithstanding the foregoing, the right of any holder of any debt security to receive payment of the principal of, premium, if any, and interest in respect of such debt security on the date or dates specified for payment in the debt security (or, in the case of redemption, on the applicable redemption date), or to bring suit for the enforcement of any such payment on or after such respective dates, shall not be impaired or adversely affected without the holder's consent. The holders of at least a majority in aggregate principal amount of the outstanding debt securities of any series may waive an existing default with respect to that series and its consequences, other than (i) an event of default in the payment of any principal of, or premium, if any, or interest on, any debt security of the series when due, or (ii) a default in respect of the covenants or provisions in the indenture which may not be modified without the consent of the holder of each outstanding debt security of the series affected as described in "—Modification and Waiver" below.

The indenture provides for us to deliver to the trustee within 120 days after the end of each of our fiscal years an officer's certificate stating whether or not the signers know of any default that occurred during the last fiscal year.

Modification and Waiver

The indenture permits us, the Guarantor and the trustee to execute a supplemental indenture without the consent of the holders of the debt securities issued under the indenture:

- to evidence the succession of another organization to us and the assumption by it of our obligations under the indenture and the debt securities;
- to evidence the succession of another organization to the Guarantor and the assumption by it of the Guarantor's obligations under the indenture;

- to add to our or the Guarantor’s covenants, agreements and obligations for the benefit of the holders of all the debt securities or any series thereof, or to surrender any right or power conferred in the indenture upon us;
- to establish the form or terms of debt securities of any series as permitted by the indenture;
- to provide for the acceptance of appointment under the indenture of a successor trustee with respect to the debt securities of one or more series and to add to or change any provisions of that indenture as shall be necessary to provide for or facilitate the administration of the trusts by more than one trustee;
- to cure any ambiguity, defect or inconsistency;
- to add to, change or eliminate any provisions (which addition, change or elimination may apply to one or more series of debt securities), provided that the addition, change or elimination neither (a) applies to any debt security of any series that was created prior to the execution of the supplemental indenture and is entitled to the benefit of that provision nor (b) modifies the rights of the holder of any such debt security with respect to that provision;
- to change or eliminate any provisions as is necessary or desirable in accordance with any amendments to the Trust Indenture Act of 1939, as amended (the “[Trust Indenture Act](#)”);
- to reflect the release of the Guarantor in accordance with the provisions described in “—The TWDC Enterprises Guarantee” above;
- to add guarantors with respect to the debt securities of one or more series or to secure the debt securities (and to reflect the release of any such additional guarantees or security in accordance with the terms of the indenture); or
- to make any other change that does not adversely affect the rights of any holder of the debt securities issued under the indenture in any material respect.

The indenture also permits us, the Guarantor and the trustee, with the consent of (i) the holders of not less than a majority in principal amount of the outstanding debt securities issued under the indenture voting as a single class or (ii) in case less than all of the series of outstanding debt securities issued under the indenture are affected by such addition, change, elimination or modification, the holders of not less than a majority in principal amount of the outstanding securities of all series issued under the indenture so affected by such supplemental indenture voting as a single class (including, for the avoidance of doubt, consents obtained in connection with a purchase of, or tender offer or exchange for, the debt securities), to execute a supplemental indenture to add provisions to, or change in any manner or eliminate any provisions of, the indenture with respect to the applicable series of debt securities or modify in any manner the rights of the holders of the debt securities of the applicable series under the indenture, and the holders of at least a majority in aggregate principal amount of the outstanding debt securities of any series under the indenture may, by written consent, waive compliance by us or the Guarantor with any provision of the indenture (but solely insofar as such provision relates to the debt securities of such series) or any provision of the debt securities of such series; provided, however, that no such supplemental indenture or waiver shall, without the written consent of the holder of each outstanding debt security under the indenture affected thereby:

- change the stated maturity of the principal of, or any installment of principal or interest on, any such debt security, or reduce the principal amount thereof or the rate of interest thereon or any premium payable upon redemption thereof;
- reduce the amount of principal of any original issue discount security that would be due and payable upon declaration of acceleration of maturity thereof;
- change the place or currency of payment of principal and premium, if any, or interest, if any, on any such debt security;
- impair the right to institute suit for the enforcement of any such payment on any such debt security on or after the stated maturity thereof (or, in the case of redemption, on or after the redemption date);

- reduce the percentage in principal amount of outstanding debt securities of any series necessary to modify or amend the indenture or to waive compliance with certain provisions thereof or certain defaults thereunder with respect to the debt securities of such series; or
- modify any of the provisions of the indenture described in this paragraph except to increase the percentage of outstanding debt securities of such series required for such actions or to provide that certain other provisions of the indenture cannot be modified or waived without the consent of the holder of each outstanding debt security affected thereby.

Discharge and Defeasance

Unless otherwise indicated in an applicable prospectus supplement, the indenture provides that we may satisfy and discharge our obligations thereunder (subject to limited exceptions) with respect to the debt securities of any series issued thereunder by delivering to the trustee for cancellation all outstanding debt securities of such series or depositing with the trustee, after the outstanding debt securities of such series have become due and payable, or will become due and payable within one year or will be called for redemption within one year, cash sufficient to pay to the date of deposit (in the case of debt securities of such series which have become due and payable) or to the stated maturity or redemption date, as the case may be, all of the outstanding debt securities of the series and all other sums payable under the indenture with respect to the series.

In addition, unless otherwise indicated in an applicable prospectus supplement, the indenture provides that we may:

- (a) be discharged from our obligations (subject to exceptions) in respect of the debt securities of a series ("defeasance and discharge"); or
- (b) cease to comply with specified covenants insofar as they relate to the debt securities of a series ("covenant defeasance"), including those described under "Mergers and Sales of Assets";

and the omission will not be an event of default with respect to the debt securities of that series, in each case at any time prior to the stated maturity or redemption thereof, if we irrevocably deposit with the trustee, in trust:

- (i) sufficient funds in the currency or currency unit in which the debt securities of that series are denominated to pay the principal of, premium, if any, and interest to stated maturity or redemption on, the debt securities of that series; or
- (ii) that amount of direct obligations of, or obligations the principal of and interest on which are fully guaranteed by, the government which issued the currency in which the debt securities are denominated, and which are not subject to prepayment, redemption or call, as will, together with the predetermined and certain income to accrue thereon without consideration of any reinvestment thereof, be sufficient to pay when due the principal of, premium, if any, and interest to stated maturity or redemption on, the debt securities of that series.

The defeasance and discharge and covenant defeasance described above are effective only if, among other things, we deliver an opinion of counsel to the effect that (i) we have met all of the conditions precedent to the defeasance and the holders of the debt securities of the series will not recognize income, gain or loss for United States federal income tax purposes as a result of the defeasance, and will be subject to tax in the same manner as if no defeasance had occurred and (ii) in the case of defeasance and discharge, the opinion as to tax consequences is based upon an Internal Revenue Service ruling or a change in applicable United States federal income tax law; provided, however, that the opinion of counsel required by clause (i) above will not need to be delivered if all debt securities of the applicable series not theretofore delivered to the trustee for cancellation have become due and payable or will become due and payable at the maturity date of such debt securities within one year under arrangements reasonably satisfactory to the trustee for the giving of notice of redemption by the trustee in our name and at our expense.

Upon the defeasance and discharge, the holders of the debt securities of the series will no longer be entitled to the benefits of the indenture, subject to certain exceptions (including for the purposes of registration of transfer and exchange of the debt securities of the series and replacement of lost, stolen or mutilated debt securities), and should look to the deposited funds or obligations for payment. In the case of covenant defeasance of the debt securities of any series, we and any guarantors will no longer be required to comply, solely insofar as relates to the debt securities of that series, with the covenants as to which covenant defeasance has occurred and a failure to comply with those covenants shall thereafter not constitute a default or event of default with respect of the debt securities of that series.

The Trustee under the Indenture

The trustee under the indenture, and/or one or more of its respective affiliates, may be lenders under our credit agreements, if any, and may provide other commercial banking, investment banking and other services to us and/or our subsidiaries and affiliates. The trustee will be permitted to engage in other transactions with us and/or our subsidiaries and affiliates. However, if the trustee acquires any conflicting interest, as defined in the Trust Indenture Act, it must eliminate the conflict or resign.

Except during the continuance of an event of default, the trustee need perform only those duties that are specifically set forth in the indenture and no others. In case an event of default occurs and is continuing, the trustee is required to exercise the rights and powers vested in it by the indenture and use the same degree of care and skill in its exercise as a prudent person would exercise under the circumstances in the conduct of its own affairs.

The initial trustee under the indenture dated as of March 20, 2019 is Citibank, N.A.

Applicable Law

The debt securities and the indenture will be governed by and construed in accordance with the laws of the State of New York.

We may issue, from time to time, shares of one or more series or classes of our preferred stock. The following description sets forth certain general terms and provisions of the preferred stock to which any prospectus supplement may relate. The particular terms of any series of preferred stock and the extent, if any, to which these general provisions may apply to the series of preferred stock offered will be described in the prospectus supplement relating to that preferred stock. The following summary of provisions of the preferred stock does not purport to be complete and is subject to, and is qualified in its entirety by reference to, the provisions of our charter, bylaws and the certificate of designation relating to a specific series of the preferred stock, which will be in the form filed as an exhibit to, or incorporated by reference in, the registration statement of which this prospectus is a part at or prior to the time of issuance of that series of preferred stock. You should read our charter, bylaws and the relevant certificate of designation.

Under our charter, we have the authority to issue 100,000,000 shares of preferred stock. Our Board of Directors is authorized to issue shares of preferred stock, in one or more series or classes, and to fix for each series voting powers and those preferences and relative, participating, optional or other special rights and those qualifications, limitations or restrictions as are permitted by the Delaware General Corporation Law (the “DGCL”).

Our Board of Directors is authorized to determine the terms for each series of preferred stock, and the prospectus supplement will describe the terms of any series of preferred stock being offered, including:

- the designation of the shares and the number of shares that constitute the series;
- the dividend rate (or the method of calculation thereof), if any, on the shares of the series and the priority as to payment of dividends with respect to other classes or series of our capital stock;
- the dividend periods (or the method of calculation thereof);

- whether and on what terms the shares of the series will be convertible into or exchangeable for other securities;

Dividends

Holders of shares of preferred stock shall be entitled to receive, when and as declared by our Board of Directors out of our funds legally available therefor, a cash dividend payable at the dates and at the rates, if any, per share as set forth in the applicable prospectus supplement.

Unless otherwise set forth in the applicable prospectus supplement, each series of preferred stock will rank junior as to dividends to any preferred stock that may be issued in the future that is expressly senior as to dividends to that preferred stock. If we should fail at any time to pay accrued dividends on any senior shares at the time the dividends are payable, we may not pay any dividend on the junior preferred stock or redeem or otherwise repurchase shares of junior preferred stock until the accumulated but unpaid dividends on the senior shares have been paid or set aside for payment in full by us.

Unless otherwise set forth in the applicable prospectus supplement, no dividends (other than in common stock or other capital stock ranking junior to the preferred stock of any series as to dividends and upon liquidation) may be declared or paid or set aside for payment, nor may any other distribution be declared or made upon the common stock, or any of our other capital stock ranking junior to or on a parity with the preferred stock of that series as to dividends, nor may any common stock or any of our other capital stock ranking junior to or on a parity with the preferred stock of that series as to dividends be redeemed, purchased or otherwise acquired for any consideration (or any monies be paid to or made available for a sinking fund for the redemption of any shares of any of that stock) by us (except by conversion into or exchange for other capital stock of ours ranking junior to the preferred stock of that series as to dividends) unless (i) if that series of preferred stock has a cumulative dividend, full cumulative dividends on the preferred stock of that series have been or contemporaneously are declared and paid or declared and a sum sufficient for the payment thereof set apart for all past dividend periods and the then current dividend period and (ii) if such series of preferred stock does not have a cumulative dividend, full dividends on the preferred stock of such series have been or contemporaneously are declared and paid or declared and a sum sufficient for the payment thereof set apart for payment for the then current dividend period. However, any monies deposited in any sinking fund with respect to any preferred stock in compliance with the provisions of the sinking fund may be applied to the purchase or redemption of that preferred stock in accordance with the terms of the sinking fund, regardless of whether at the time of the application full dividends, including cumulative dividends, upon shares of the preferred stock outstanding on the last dividend payment date have been paid or declared and set apart for payment. In addition, any junior or parity preferred stock or common stock may be converted into or exchanged for our stock ranking junior to the preferred stock as to dividends.

The amount of dividends payable for the initial dividend period or any period shorter than a full dividend period shall be computed on the basis of a 360-day year of twelve 30-day months, unless otherwise set forth in the applicable prospectus supplement. Accrued but unpaid dividends will not bear interest, unless otherwise set forth in the applicable prospectus supplement.

Convertibility

No series of preferred stock will be convertible into, or exchangeable for, other securities or property except as set forth in the applicable prospectus supplement.

Redemption and Sinking Fund

No series of preferred stock will be redeemable or receive the benefit of a sinking fund except as set forth in the applicable prospectus supplement.

Liquidation Rights

Unless otherwise set forth in the applicable prospectus supplement, in the event of our liquidation, dissolution or winding up, the holders of shares of each series of preferred stock are entitled to receive out of our assets

available for distribution to stockholders, before any distribution of assets is made to holders of (i) any other shares of preferred stock ranking junior to that series of preferred stock as to rights upon liquidation, dissolution or winding up and (ii) shares of common stock, liquidating distributions per share in the amount of the liquidation preference specified in the applicable prospectus supplement for that series of preferred stock plus any dividends accrued and accumulated but unpaid to the date of final distribution; but the holders of each series of preferred stock will not be entitled to receive the liquidating distribution of, plus such dividends on, those shares until the liquidation preference of any shares of our capital stock ranking senior to that series of the preferred stock as to the rights upon liquidation, dissolution or winding up shall have been paid (or a sum set aside therefor sufficient to provide for payment) in full. If upon our liquidation, dissolution or winding up, the amounts payable with respect to the preferred stock, and any other preferred stock ranking as to any distribution on a parity with the preferred stock are not paid in full, then the holders of the preferred stock and the other parity preferred stock will share ratably in any distribution of assets in proportion to the full respective preferential amount to which they are entitled. Unless otherwise specified in a prospectus supplement for a series of preferred stock, after payment of the full amount of the liquidating distribution to which they are entitled, the holders of shares of preferred stock will not be entitled to any further participation in any distribution of our assets. Neither a consolidation or merger of us with another corporation nor a sale of securities shall be considered a liquidation, dissolution or winding up of us.

Voting Rights

The holders of each series or class of preferred stock we may issue will have no voting rights, except as required by law and as described below or in the applicable prospectus supplement. Our Board of Directors may, upon issuance of a series or class of preferred stock, grant voting rights to the holders of that series or class to elect additional board members if we fail to pay dividends in a timely fashion.

Without the affirmative vote of a majority of the shares of any class of preferred stock then outstanding, we may not:

- increase or decrease the aggregate number of authorized shares of that class;
- increase or decrease the par value of the shares of that class; or
- alter or change the powers, preferences or special rights of the shares of that class so as to affect them adversely.

If the amendment would adversely alter or change the powers, preferences or special rights of one or more series of a class of preferred stock, but not the entire class, then only the shares of the affected series will have the right to vote on the amendment.

Miscellaneous

The holders of our preferred stock will have no preemptive rights. All shares of preferred stock being offered by the applicable prospectus supplement will be fully paid and not liable to further calls or assessment by us. If we should redeem or otherwise reacquire shares of our preferred stock, then these shares will resume the status of authorized and unissued shares of preferred stock undesignated as to series, and will be available for subsequent issuance. There are no restrictions on repurchase or redemption of the preferred stock while there is any arrearage on sinking fund installments except as may be set forth in an applicable prospectus supplement. Payment of dividends on any series of preferred stock may be restricted by loan agreements, indentures and other transactions entered into by us. Any material contractual restrictions on dividend payments will be described or incorporated by reference in the applicable prospectus supplement.

When we offer to sell a series of preferred stock, we will describe the specific terms of the series in the applicable prospectus supplement. If any particular terms of a series of preferred stock described in a prospectus supplement differ from any of the terms described in this prospectus, then the terms described in the applicable prospectus supplement will be deemed to supersede the terms described in this prospectus.

No Other Rights

The shares of a series of preferred stock will not have any preferences, voting powers or relative, participating, optional or other special rights except as set forth above or in the applicable prospectus supplement, our charter or the applicable certificate of designation or as otherwise required by law.

Transfer Agent and Registrar

The transfer agent and registrar for each series of preferred stock will be designated in the applicable prospectus supplement.

DESCRIPTION OF DEPOSITARY SHARES OF THE WALT DISNEY COMPANY

In this “Description of Depositary Shares of The Walt Disney Company” section, when we refer to “The Walt Disney Company,” “we,” “us” or “our” or when we otherwise refer to ourselves, we mean The Walt Disney Company, excluding, unless otherwise expressly stated or the context requires, our subsidiaries (including TWDC Enterprises); all references to “depository shares” refer only to depository share receipts issued by The Walt Disney Company and not to any depository share receipts issued by any subsidiary, including TWDC Enterprises.

General

We may, at our option, elect to offer fractional shares rather than full shares of the preferred stock of a series. In the event that we exercise this option, we will issue receipts for depository shares, each of which will represent a fraction (to be set forth in the prospectus supplement relating to a particular series of preferred stock) of a share of a particular series of preferred stock as described below.

The shares of any series of preferred stock represented by depository shares will be deposited under one or more deposit agreements among us, a depository to be named in the applicable prospectus supplement, and the holders from time to time of depository receipts issued thereunder.

Subject to the terms of the applicable deposit agreement, each holder of a depository share will be entitled, in proportion to the applicable fraction of a share of preferred stock represented by the depository share, to all the rights and preferences of the preferred stock represented thereby (including, as applicable, dividend, voting, redemption, subscription and liquidation rights).

The depository shares will be evidenced by depository receipts issued pursuant to the deposit agreement. Depository receipts will be distributed to those persons purchasing the fractional shares of the related series of preferred stock.

The following description sets forth certain general terms and provisions of the depository shares to which any prospectus supplement may relate. The particular terms of the depository shares to which any prospectus supplement may relate and the extent, if any, to which such general provisions may apply to the depository shares so offered will be described in the applicable prospectus supplement. To the extent that any particular terms of the depository shares or the deposit agreement described in a prospectus supplement differ from any of the terms described below, then the terms described below will be deemed to have been superseded by that prospectus supplement. The forms of deposit agreement and depository receipt have been or will be filed or incorporated by reference as exhibits to the registration statement of which this prospectus is a part or the documents incorporated or deemed to be incorporated by reference in this prospectus.

The following summary of certain provisions of the depository shares and deposit agreement does not purport to be complete and is subject to, and is qualified in its entirety by express reference to, all the provisions of the deposit agreement and the applicable prospectus supplement, including the definitions therein of certain terms.

Immediately following our issuance of shares of a series of preferred stock that will be offered as fractional shares, we will deposit the shares with the depository, which will then issue and deliver the depository receipts to the purchasers thereof. Depository receipts will only be issued evidencing whole depository shares. A depository receipt may evidence any number of whole depository shares.

Pending the preparation of definitive depository receipts, the depository may, upon our written order, issue temporary depository receipts substantially identical to (and entitling the holders thereof to all the rights pertaining to) the definitive depository receipts but not in definitive form. Definitive depository receipts will be prepared thereafter without unreasonable delay, and such temporary depository receipts will be exchangeable for definitive depository receipts at our expense.

Dividends and Other Distributions

The depositary will distribute all cash dividends or other cash distributions received in respect of the related series of preferred stock to the record holders of depositary shares relating to the series of preferred stock in proportion to the number of the depositary shares owned by the holders.

In the event of a distribution other than in cash, the depositary will distribute property received by it to the record holders of depositary shares entitled thereto in proportion to the number of depositary shares owned by the holders, unless the depositary determines that the distribution cannot be made proportionately among the holders or that it is not feasible to make the distributions, in which case the depositary may, with our approval, adopt any method as it deems equitable and practicable for the purpose of effecting the distribution, including the sale (at public or private sale) of the securities or property thus received, or any part thereof, at the place or places and upon those terms as it may deem proper.

The amount distributed in any of the foregoing cases will be reduced by any amounts required to be withheld by us or the depositary on account of taxes or other governmental charges.

Redemption of Depositary Shares

If any series of the preferred stock underlying the depositary shares is subject to redemption, the depositary shares will be redeemed from the proceeds received by the depositary resulting from any redemption, in whole or in part, of the series of the preferred stock held by the depositary. The redemption price per depositary share will be equal to the applicable fraction of the redemption price per share payable with respect to the series of the preferred stock. If we redeem shares of a series of preferred stock held by the depositary, the depositary will redeem as of the same redemption date the number of depositary shares representing the shares of preferred stock so redeemed. If less than all the depositary shares are to be redeemed, the depositary shares to be redeemed will be selected by lot or substantially equivalent method determined by the depositary.

After the date fixed for redemption, the depositary shares so called for redemption will no longer be deemed to be outstanding and all rights of the holders of the depositary shares will cease, except the right to receive the moneys payable upon redemption and any money or other property to which the holders of the depositary shares were entitled upon such redemption, upon surrender to the depositary of the depositary receipts evidencing the depositary shares. Any funds deposited by us with the depositary for any depositary shares that the holders thereof fail to redeem will be returned to us after a period of two years from the date the funds are so deposited.

Voting the Underlying Preferred Stock

Upon receipt of notice of any meeting at which the holders of any series of the preferred stock are entitled to vote, the depositary will mail the information contained in the notice of meeting to the record holders of the depositary shares relating to the series of preferred stock. Each record holder of the depositary shares on the record date (which will be the same date as the record date for the related series of preferred stock) will be entitled to instruct the depositary as to the exercise of the voting rights pertaining to the number of shares of the series of preferred stock represented by that holder's depositary shares. The depositary will endeavor, insofar as practicable, to vote or cause to be voted the number of shares of preferred stock represented by the depositary shares in accordance with the instructions, provided the depositary receives the instructions sufficiently in advance of the meeting to enable it to so vote or cause to be voted the shares of preferred stock, and we will agree to take all reasonable action that may be deemed necessary by the depositary in order to enable the depositary to do so. The depositary will abstain from voting shares of the preferred stock to the extent it does not receive specific instructions from the holders of depositary shares representing the preferred stock.

Withdrawal of Stock

Upon surrender of the depositary receipts at the corporate trust office of the depositary and upon payment of the taxes, charges and fees provided for in the deposit agreement and subject to the terms thereof, the holder of the

depository shares evidenced thereby is entitled to delivery at such office, to or upon his or her order, of the number of whole shares of the related series of preferred stock and any money or other property, if any, represented by the depository shares. We will not issue any partial shares of preferred stock. Holders of depository shares will be entitled to receive whole shares of the related series of preferred stock, but holders of the whole shares of preferred stock will not thereafter be entitled to deposit the shares of preferred stock with the depository or to receive depository shares therefor. If the depository receipts delivered by the holder evidence a number of depository shares in excess of the number of depository shares representing the number of whole shares of the related series of preferred stock to be withdrawn, the depository will deliver to the holder or upon his or her order at the same time a new depository receipt evidencing the excess number of depository shares.

Conversion or Exchange of Preferred Stock

If the deposited preferred stock is convertible into or exchangeable for other securities, the following will apply. The depository shares, as such, will not be convertible into or exchangeable for such other securities. Rather, any holder of the depository shares may surrender the related depository receipts, together with any amounts payable by the holder in connection with the conversion or the exchange, to the depository with written instructions to cause conversion or exchange of the preferred stock represented by the depository shares into or for such other securities. If only some of the depository shares are to be converted or exchanged, a new depository receipt or receipts will be issued for any depository shares not to be converted or exchanged.

Amendment and Termination of a Deposit Agreement

The form of depository receipt evidencing the depository shares of any series and any provision of the applicable deposit agreement may at any time and from time to time be amended by agreement between us and the depository. However, any amendment that materially adversely alters the rights of the holders of depository shares of any series will not be effective unless the amendment has been approved by the holders of at least a majority of the depository shares of the series then outstanding. Every holder of a depository receipt at the time the amendment becomes effective will be deemed, by continuing to hold the depository receipt, to be bound by the deposit agreement as so amended. Notwithstanding the foregoing, in no event may any amendment impair the right of any holder of any depository shares, upon surrender of the depository receipts evidencing the depository shares and subject to any conditions specified in the deposit agreement, to receive shares of the related series of preferred stock and any money or other property represented thereby, except in order to comply with mandatory provisions of applicable law. The deposit agreement may be terminated by us at any time upon not less than 60 days' prior written notice to the depository, in which case, on a date that is not later than 30 days after the date of the notice, the depository shall deliver or make available for delivery to holders of depository shares, upon surrender of the depository receipts evidencing the depository shares, the number of whole or fractional shares of the related series of preferred stock as are represented by the depository shares. The deposit agreement shall automatically terminate after all outstanding depository shares have been redeemed or there has been a final distribution in respect of the related series of preferred stock in connection with any liquidation, dissolution or winding up of us and the distribution has been distributed to the holders of depository shares.

Charges of Depository

We will pay all transfer and other taxes and the governmental charges arising solely from the existence of the depository arrangements. We will pay the charges of the depository, including charges in connection with the initial deposit of the related series of preferred stock and the initial issuance of the depository shares and all withdrawals of shares of the related series of preferred stock, except that holders of depository shares will pay transfer and other taxes and governmental charges and any other charges as are expressly provided in the deposit agreement to be for their accounts.

Limitations on Liability

Neither we nor the depository will be liable if either of us is prevented or delayed by law or any circumstance beyond our control in performing our respective obligations under the deposit agreement. Our obligations and

those of the depositary will be limited to performance in good faith of our respective duties under the deposit agreement. Neither we nor the depositary will be obligated to prosecute or defend any legal proceeding in respect of any depositary shares or underlying stock unless satisfactory indemnity is furnished. We and the depositary may rely upon written advice of counsel or accountants, or upon information provided by persons presenting underlying stock for deposit, holders of depositary receipts or other persons believed to be competent and on documents believed to be genuine.

In the event the depositary receives conflicting claims, requests or instructions from any holders of depositary shares, on the one hand, and us, on the other, the depositary will act on our claims, requests or instructions.

Resignation and Removal of Depositary

The depositary may resign at any time by delivering to us written notice of its election to do so, and we may at any time remove the depositary. Any resignation or removal is to take effect upon the appointment of a successor depositary, which successor depositary must be appointed within 60 days after delivery of the notice of resignation or removal and must be a bank or trust company having its principal office in the United States and having a combined capital and surplus of at least \$50,000,000.

Miscellaneous

The depositary will forward to the holders of depositary shares all reports and communications from us that are delivered to the depositary and which we are required to furnish to the holders of the related preferred stock.

The depositary's corporate trust office will be identified in the applicable prospectus supplement. Unless otherwise set forth in the applicable prospectus supplement, the depositary will act as transfer agent and registrar for depositary receipts and if shares of a series of preferred stock are redeemable, the depositary will also act as redemption agent for the corresponding depositary receipts.

DESCRIPTION OF COMMON STOCK OF THE WALT DISNEY COMPANY

In this “Description of Common Stock of The Walt Disney Company” section, when we refer to “The Walt Disney Company,” the “Company,” “we,” “us” or “our” or when we otherwise refer to ourselves, we mean The Walt Disney Company, excluding, unless otherwise expressly stated or the context requires, our subsidiaries (including TWDC Enterprises); all references to “common stock” refer only to common stock issued by The Walt Disney Company and not to any common stock issued by any subsidiary, including TWDC Enterprises.

We may issue, from time to time, shares of our common stock, the general terms and provisions of which are summarized below. This summary does not purport to be complete and is subject to, and is qualified in its entirety by express reference to, the provisions of our charter, bylaws and the applicable prospectus supplement.

Authorized Shares

Under our charter, we have the authority to issue 4,600,000,000 shares of common stock.

Dividends

Subject to any preferential rights of any series of preferred stock, holders of shares of common stock will be entitled to receive dividends on the stock out of assets legally available for distribution when, as and if authorized and declared by our Board of Directors. The payment of dividends on the common stock will be a business decision to be made by our Board of Directors from time to time based upon results of our operations and our financial condition and any other factors as our Board of Directors considers relevant. Payment of dividends on the common stock may be restricted by loan agreements, indentures and other transactions entered into by us from time to time. Any material contractual restrictions on dividend payments will be described in the applicable prospectus supplement.

Voting Rights

Holders of common stock are entitled to one vote per share on all matters voted on generally by the stockholders, including the election of directors, and, except as otherwise required by law or except as provided with respect to any series of preferred stock, the holders of common stock possess all voting power. Our charter does not provide for cumulative voting for the election of directors. As a result, under the DGCL, the holders of more than one-half of the outstanding shares of common stock generally will be able to elect all the directors of The Walt Disney Company then standing for election and holders of the remaining shares will not be able to elect any director. Directors are elected by a majority of votes cast at the annual meeting of stockholders, unless the election is contested, in which case directors are elected by a plurality of votes cast. A majority of votes cast means that the number of shares voted “for” a director exceeds the number of votes cast “against” that director.

If an incumbent director in an uncontested election does not receive a majority of votes cast for his or her election, the director is required to submit a letter of resignation to the Board of Directors for consideration by the Governance and Nominating Committee. The Governance and Nominating Committee is required to promptly assess the appropriateness of such nominee continuing to serve as a director and recommend to the Board of Directors the action to be taken with respect to the tendered resignation. The Board of Directors is required to determine whether to accept or reject the resignation, or what other action should be taken, within ninety (90) days of the date of the certification of election results.

Liquidation Rights

Subject to any preferential rights of any series of preferred stock, holders of shares of common stock are entitled to share ratably in our assets legally available for distribution to our stockholders in the event of our liquidation, dissolution or winding up.

Absence of Other Rights

Holders of common stock have no preferential, preemptive, conversion or exchange rights.

Miscellaneous

All shares of common stock being offered by the applicable prospectus supplement will be fully paid and not liable to further calls or assessment by us.

Transfer Agent and Registrar

Computershare Trust Company, N.A. is the principal transfer agent and registrar for the common stock.

Certain Anti-takeover Effects

General. Certain provisions of our charter and the DGCL could make it more difficult to consummate an acquisition of control of us by means of a tender offer, a proxy fight, open market purchases or otherwise in a transaction not approved by our Board of Directors. The provisions described below may reduce our vulnerability to an unsolicited proposal for the restructuring or sale of all or substantially all of our assets or an unsolicited takeover attempt which is unfair to our stockholders. The summary of the provisions set forth below does not purport to be complete and is qualified in its entirety by reference to our charter, our bylaws and the DGCL.

Our bylaws permit adoption of a stockholder rights plan, rights agreement or any other form of distribution to stockholders which is designed to or has the effect of making an acquisition of large holdings of our shares of common stock more difficult or expensive if, but only if, approved by a majority of the Board of Directors including a majority of independent directors. The bylaw requires that any such plan terminate within one year following the date of adoption unless the plan has been ratified by stockholders or extended by further votes of the Board of Directors.

Business Combinations. Section 203 of the DGCL restricts a wide range of transactions (“business combinations”) between a corporation and an interested stockholder. An “interested stockholder” is, generally, any person who beneficially owns, directly or indirectly, 15% or more of the corporation’s outstanding voting stock. Business combinations are broadly defined to include (i) mergers or consolidations with, (ii) sales or other dispositions of more than 10% of the corporation’s assets to, (iii) certain transactions resulting in the issuance or transfer of any stock of the corporation or any subsidiary to, (iv) certain transactions resulting in an increase in the proportionate share of stock of the corporation or any subsidiary owned by or (v) receipt of the benefit (other than proportionately as a stockholder) of any loans, advances or other financial benefits by, an interested stockholder. Section 203 provides that an interested stockholder may not engage in a business combination with the corporation for a period of three years from the time of becoming an interested stockholder unless (a) the Board of Directors approved either the business combination or the transaction which resulted in the person becoming an interested stockholder prior to the time that person became an interested stockholder; (b) upon consummation of the transaction which resulted in the person becoming an interested stockholder, that person owned at least 85% of the corporation’s voting stock (excluding, for purposes of determining the voting stock outstanding, but not the outstanding voting stock owned by the interested stockholder, shares owned by persons who are directors and also officers and shares owned by certain employee stock plans); or (c) the business combination is approved by the Board of Directors and authorized by the affirmative vote of at least 66²/₃% of the outstanding voting stock not owned by the interested stockholder. The restrictions on business combinations with interested stockholders contained in Section 203 of the DGCL do not apply to a corporation whose certificate of incorporation or bylaws contains a provision expressly electing not to be governed by the statute; however, neither our charter nor our bylaws contains a provision electing to “opt-out” of Section 203.

Advance Notice Requirements. Stockholders wishing to nominate persons for election to our Board of Directors at an annual meeting or to propose any business to be considered by our stockholders at an annual meeting must

comply with certain advance notice and other requirements set forth in our bylaws. Likewise, if our Board of Directors has determined that directors shall be elected at a special meeting of stockholders, stockholders wishing to nominate persons for election to our Board of Directors at such special meeting must comply with certain advance notice and other requirements set forth in our bylaws.

Proxy Access. Our bylaws permit a qualified stockholder or group of stockholders to include up to a specified number of director nominees in our proxy materials for an annual meeting of stockholders. To qualify, the stockholders (or group of up to twenty stockholders) must have continuously owned for at least three years 3% or more of the total voting power of our outstanding shares of capital stock entitled to vote in the election of directors. The maximum number of stockholder nominees permitted under the proxy access provisions of our bylaws is generally the greater of (x) two or (y) 20% of the total number of our directors in office as of the last day on which notice of a nomination may be delivered or, if such amount is not a whole number, the closest whole number below 20%.

Notice of a nomination under our proxy access bylaw provisions must generally be submitted to our secretary at our principal executive offices no earlier than the close of business on the one hundred fiftieth day and no later than the close of business on the one hundred twentieth day prior to the first anniversary of the preceding year's annual meeting. The notice must contain certain information specified in our bylaws.

Special Meetings. Pursuant to the DGCL, a special meeting of stockholders may be called by the Board of Directors or by any other person authorized to do so in the charter or the bylaws. Our charter provides that special meetings of stockholders may only be called by our Board of Directors, the Chairman of our Board of Directors, the Chief Executive Officer or, solely to the extent required by our bylaws, by the Secretary of the Company at the written request in proper form of one or more stockholders who have continuously held as stockholders of record "Net Long Shares" (as defined in the bylaws) representing in the aggregate at least twenty-five percent (25%) of the outstanding shares of our common stock for at least one year prior to the date such request is delivered to the Secretary.

Board Vacancies. Any vacancy on the Board of Directors, howsoever resulting, may be filled by a majority of the directors then in office, even if less than a quorum, or by a sole remaining director. Any director elected to fill a vacancy shall hold office after the annual meeting at which his or her term is scheduled to end until his or her successor shall be elected and shall qualify, subject, however, to prior death, resignation, disqualification or removal from office.

Additional Authorized Shares of Capital Stock. The additional shares of authorized common stock and preferred stock available for issuance under our charter could be issued at such times, under such circumstances and with such terms and conditions as to impede a change in control.

DESCRIPTION OF WARRANTS OF THE WALT DISNEY COMPANY

In this “Description of Warrants of The Walt Disney Company” section, when we refer to “The Walt Disney Company,” “we,” “us” or “our” or when we otherwise refer to ourselves, we mean The Walt Disney Company, excluding, unless otherwise expressly stated or the context requires, our subsidiaries (including TWDC Enterprises); all references to “warrants” refer only to warrants issued by The Walt Disney Company and not to any warrants issued by any subsidiary, including TWDC Enterprises.

We may issue, either separately or together with other securities, warrants for the purchase of any of the other types of securities that we may sell under this prospectus (excluding the guarantees).

The warrants will be issued under warrant agreements to be entered into between us and a bank or trust company, as warrant agent, all to be set forth in the applicable prospectus supplement relating to any or all warrants in respect of which this prospectus is being delivered. Copies of the form of agreement for each warrant, which we refer to collectively as “warrant agreements,” including the forms of certificates representing the warrants, which we refer to collectively as “warrant certificates” and reflecting the provisions to be included in such agreements that will be entered into with respect to the particular offerings of each type of warrant, have been or will be filed as exhibits to the registration statement of which this prospectus forms a part or as exhibits to documents which have been or will be incorporated by reference in this prospectus.

The following description sets forth certain general terms and provisions of the warrants to which any prospectus supplement may relate. The particular terms of the warrants to which any prospectus supplement may relate and the extent, if any, to which the general provisions may apply to the warrants so offered will be described in the applicable prospectus supplement. The following summary of certain provisions of the warrants, warrant agreements and warrant certificates does not purport to be complete and is subject to, and is qualified in its entirety by express reference to, all the provisions of the warrant agreements and warrant certificates, including the definitions therein of certain terms.

General

The prospectus supplement shall set forth the terms of the warrants in respect of which this prospectus is being delivered as well as the related warrant agreement and warrant certificates, including the following, where applicable:

- the principal amount of, or the number of securities, as the case may be, purchasable upon exercise of each warrant and the initial price at which the principal amount or number of securities, as the case may be, may be purchased upon such exercise;
- the designation and terms of the securities, if other than common stock, purchasable upon exercise thereof and of any securities, if other than common stock, with which the warrants are issued;
- the procedures and conditions relating to the exercise of the warrants;
- the date, if any, on and after which the warrants, and any securities with which the warrants are issued, will be separately transferable;
- the offering price of the warrants, if any;
- the currency or currencies in which such warrants are exercisable;
- the date on which the right to exercise the warrants will commence and the date on which that right will expire;
- a discussion of any material United States federal income tax considerations applicable to the exercise of the warrants;

- whether the warrants represented by the warrant certificates will be issued in registered or bearer form, and, if registered, where they may be transferred and registered;
- call provisions of the warrants, if any;
- antidilution provisions of the warrants, if any; and
- any other material terms of the warrants.

Exercise of Warrants

Each warrant will entitle the holder to purchase for cash that principal amount of or number of securities, as the case may be, at the exercise price set forth in, or to be determined as set forth in, the applicable prospectus supplement relating to the warrants. Unless otherwise specified in the applicable prospectus supplement, warrants may be exercised at the corporate trust office of the warrant agent or any other office indicated in the applicable prospectus supplement at any time up to 5:00 p.m. New York City time on the expiration date set forth in the applicable prospectus supplement. After 5:00 p.m. New York City time on the expiration date, unexercised warrants will become void. Upon receipt of payment and the warrant certificate properly completed and duly executed, we will, as soon as practicable, issue the securities purchasable upon exercise of the warrant. If less than all of the warrants represented by the warrant certificate are exercised, a new warrant certificate will be issued for the remaining amount of warrants.

No Rights of Security Holder Prior to Exercise

Prior to the exercise of their warrants, holders of warrants will not have any of the rights of holders of the securities purchasable upon the exercise of the warrants, and will not be entitled to:

- in the case of warrants to purchase debt securities, payments of principal of, premium, if any, or interest, if any, on the debt securities purchasable upon exercise; or
- in the case of warrants to purchase equity securities, the right to vote or to receive dividend payments or similar distributions on the securities purchasable upon exercise.

Exchange of Warrant Certificates

Warrant certificates will be exchangeable for new warrant certificates of different denominations at the corporate trust office of the warrant agent or any other office indicated in the applicable prospectus supplement.

DESCRIPTION OF PURCHASE CONTRACTS OF THE WALT DISNEY COMPANY

In this “Description of Purchase Contracts of The Walt Disney Company” section, when we refer to “The Walt Disney Company,” “we,” “us” or “our” or when we otherwise refer to ourselves, we mean The Walt Disney Company, excluding, unless otherwise expressly stated or the context requires, our subsidiaries (including TWDC Enterprises); all references to “purchase contracts” refer only to purchase contracts issued by The Walt Disney Company and not to any purchase contracts issued by any subsidiary, including TWDC Enterprises.

We may issue, from time to time, purchase contracts, including contracts obligating holders to purchase from us and us to sell to the holders, a specified principal amount of debt securities or a specified number of shares of common stock or preferred stock or any of the other securities that we may sell under this prospectus (excluding the guarantees) at a future date or dates. The consideration payable upon settlement of the purchase contracts may be fixed at the time the purchase contracts are issued or may be determined by a specific reference to a formula set forth in the purchase contracts. The purchase contracts may be issued separately or as part of units consisting of a purchase contract and other securities or obligations issued by us or third parties, including United States treasury securities, securing the holders’ obligations to purchase the relevant securities under the purchase contracts. The purchase contracts may require us to make periodic payments to the holders of the purchase contracts or units or vice versa, and the payments may be unsecured or prefunded on some basis. The purchase contracts may require holders to secure their obligations under the purchase contracts.

The prospectus supplement will describe, among other things, the material terms of any purchase contracts and of the securities being sold pursuant to such purchase contracts, a discussion, if appropriate, of any special United States federal income tax considerations applicable to the purchase contracts and any material provisions governing the purchase contracts that differ from those described above. The description in the prospectus supplement will not necessarily be complete and will be qualified in its entirety by reference to the purchase contracts, and, if applicable, collateral arrangements and depositary arrangements, relating to the purchase contracts.

DESCRIPTION OF UNITS OF THE WALT DISNEY COMPANY

In this “Description of Units of The Walt Disney Company” section, when we refer to “The Walt Disney Company,” “we,” “us” or “our” or when we otherwise refer to ourselves, we mean The Walt Disney Company, excluding, unless otherwise expressly stated or the context requires, our subsidiaries (including TWDC Enterprises); all references to “units” refer only to units issued by The Walt Disney Company and not to any units issued by any subsidiary, including TWDC Enterprises.

We may, from time to time, issue units comprised of one or more of the other securities that we may offer under this prospectus (excluding the guarantees), in any combination. Each unit will be issued so that the holder of the unit is also the holder of each security included in the unit. Thus, the holder of a unit will have the rights and obligations of a holder of each included security. The unit agreement under which a unit is issued may provide that the securities included in the unit may not be held or transferred separately at any time, or at any time before a specified date.

Any applicable prospectus supplement will describe, among other things:

- the material terms of the units and of the securities comprising the units, including whether and under what circumstances those securities may be held or transferred separately;
- any material provisions relating to the issuance, payment, settlement, transfer or exchange of the units or of the securities comprising the units;
- if appropriate, any special United States federal income tax considerations applicable to the units; and
- any material provisions of the governing unit agreement that differ from those described above.

The terms and conditions described under “Description of Debt Securities of The Walt Disney Company,” “Description of Preferred Stock of The Walt Disney Company,” “Description of Depositary Shares of The Walt Disney Company,” “Description of Common Stock of The Walt Disney Company,” “Description of Warrants of The Walt Disney Company” and “Description of Purchase Contracts of The Walt Disney Company” will apply to any debt securities, preferred stock, depositary shares, common stock, warrants or purchase contracts, as applicable, included in each unit, unless otherwise specified in the applicable prospectus supplement.

See above "Description of Debt Securities of The Walt Disney Company—The TWDC Enterprises Guarantee."

PLAN OF DISTRIBUTION

We may sell the securities to one or more underwriters for public offering and sale by them or may sell the securities to investors through agents or dealers. Any underwriter, dealer or agent involved in the offer and sale of the securities will be named in the applicable prospectus supplement.

Securities offered hereby may also be issued upon conversion, exercise or exchange of other securities offered hereby. We also reserve the right to sell securities directly to investors on our own behalf in those jurisdictions where we are authorized to do so. In this case, no underwriters, dealers or agents would be involved.

Underwriters may offer and sell the securities at a fixed price or prices, which may be changed, or from time to time at market prices prevailing at the time of sale, at prices related to prevailing market prices or at negotiated prices. We also may, from time to time, authorize underwriters acting as our agents to offer and sell the securities upon the terms and conditions set forth in any prospectus supplement. The consideration for these securities may be cash or another form negotiated by the parties. In connection with the sale of the securities, underwriters may be deemed to have received compensation from us in the form of underwriting discounts or commissions and may also receive commissions from purchasers of the securities for whom they may act as agent.

If a dealer is utilized in the sale of the securities in respect of which this prospectus is delivered, we may sell the securities to the dealer, as principal. The dealer may then resell the securities to the public at varying prices to be determined by the dealer at the time of resale. If we sell securities to underwriters, we will execute an underwriting agreement with them at the time of sale. The debt securities, together with any guarantees thereof, may be offered to the public either through underwriting syndicates represented by managing underwriters or directly by one or more investment banking firms or others, as designated. Unless the applicable prospectus supplement specifies otherwise, the obligations of the underwriters or agents to purchase the offered debt securities will be subject to some conditions. The underwriters will be obligated to purchase all the offered debt securities if any of the offered debt securities are purchased. Any initial public offering price and any underwriting commissions or other items constituting underwriters' compensation may be changed from time to time.

Any underwriting compensation paid by us to underwriters or agents in connection with the offering of the securities, and any discounts, concessions or commissions allowed by underwriters to participating dealers, will be set forth in an applicable prospectus supplement.

Underwriters, dealers and agents participating in the distribution of the securities may be deemed to be underwriters under the Securities Act, and any discounts and commissions received by them and any profit realized by them on resale of the securities may be deemed to be underwriting discounts and commissions under the Securities Act. Underwriters, dealers and agents may be entitled under agreements with us to indemnification against and contribution toward certain civil liabilities, including liabilities under the Securities Act, and to reimbursement by us for certain expenses.

In connection with underwritten offerings of securities, underwriters may over-allot or effect transactions that stabilize, maintain or otherwise affect the market price of the offered securities at levels above those that might otherwise prevail in the open market, including by entering stabilizing bids, effecting syndicate covering transactions or imposing penalty bids, each of which is described below.

- A stabilizing bid means the placing of any bid, or the effecting of any purchase, for the purpose of pegging, fixing or maintaining the price of a security.
- A syndicate covering transaction means the placing of any bid on behalf of the underwriting syndicate or the effecting of any purchase to reduce a short position created in connection with the offering.
- A penalty bid means an arrangement that permits the managing underwriter to reclaim a selling concession from a syndicate member in connection with the offering when offered securities originally sold by the syndicate member are purchased in syndicate covering transactions.

These transactions may be effected on the New York Stock Exchange (if applicable), in the over-the-counter market or otherwise. Underwriters are not required to engage in any of these activities, or to continue the activities if commenced.

If so indicated in an applicable prospectus supplement, we may authorize dealers acting as our agents to solicit offers by institutions to purchase the securities from us at the public offering price set forth in the prospectus supplement pursuant to delayed delivery contracts providing for payment and delivery on the date or dates stated in the prospectus supplement. Each delayed delivery contract will be for an amount not less than, and the aggregate principal amount or offering price of the securities sold pursuant to delayed delivery contracts will not be less nor more than, the respective amounts stated in the prospectus supplement. Institutions with whom delayed delivery contracts, when authorized, may be entered into include commercial and savings banks, insurance companies, pension funds, investment companies, educational and charitable institutions and other institutions, but will in all cases be subject to approval by us.

The securities may also be offered and sold, if so indicated in the prospectus supplement, in connection with a remarketing upon their purchase, in accordance with a redemption or repayment pursuant to their terms, or otherwise, by one or more firms ("remarketing firms"), acting as principals for their own accounts or as agents for us. Any remarketing firm will be identified and the terms of its agreement, if any, with us and its compensation will be described in the applicable prospectus supplement. Remarketing firms may be deemed to be underwriters in connection with the securities remarketed thereby. Remarketing firms may be entitled under agreements which may be entered into with us to indemnification by us against certain liabilities, including liabilities under the Securities Act.

We may enter into derivative transactions with third parties, or sell securities not covered by this prospectus to third parties in privately negotiated transactions. If the applicable prospectus supplement indicates, in connection with those derivatives, the third parties may sell securities covered by this prospectus and the applicable prospectus supplement, including in short sale transactions. If so, the third party may use securities pledged by us or borrowed from us or others to settle those sales or to close out any open borrowings of stock, and may use securities received from us in settlement of those derivatives to close out any related open borrowings of stock. The third parties in such sale transactions will be underwriters and, if not identified in this prospectus, will be identified in the applicable prospectus supplement (or a post-effective amendment).

The securities may or may not be listed on a national securities exchange or a foreign securities exchange. Securities offered may be a new issue of securities with no established trading market. Any underwriters to whom or agents through whom these securities are sold by us for public offering and sale may make a market in these securities, but such underwriters or agents will not be obligated to do so and may discontinue any market making at any time without notice. No assurance can be given as to the liquidity of or the trading market for any such securities.

One or more of the underwriters, agents or dealers, and/or one or more of their respective affiliates, may be a lender under our credit agreements and may provide other commercial banking, investment banking and other services to us and/or our subsidiaries and affiliates in the ordinary course of business.
