Item 2.02 - Results of Operations and Financial Condition.

Financial Results for the Second Quarter of 2022

On August 2, 2022, Robinhood Markets, Inc. ("Robinhood," the "Company," "we," or "us") issued a press release regarding its financial results for the quarter ended June 30, 2022. A copy of the press release is furnished as Exhibit 99.1 to this report. As previously announced, Robinhood will hold an earnings conference call on August 3, 2022 at 2:00 p.m. PT/5:00 p.m. ET.

The information furnished with Item 2.02, including Exhibit 99.1, shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), or otherwise subject to the liabilities of that section, nor shall it be deemed incorporated by reference into any other filing under the Securities Act of 1933, as amended, or the Exchange Act, except as expressly set forth by specific reference in such filing.

Item 2.05 - Costs Associated with Exit or Disposal Activities.

Workforce Reduction and Restructuring

On August 2, 2022, we announced a reduction in force involving approximately 780 employees, representing approximately 23% of our full-time employees, the planned closure of two offices, and related matters (the "August 2022 Restructuring"). These actions are part of a Company reorganization into a general manager ("GM") structure under which GMs will assume broad responsibility for our individual businesses.

In connection with the August 2022 Restructuring, we estimate that we will incur approximately \$30 million to \$40 million of cash restructuring and related charges primarily related to employee severance and benefits costs (excluding the impact of share-based compensation) and approximately \$15 million to \$20 million of charges related to the office closures and contract termination fees, substantially all of which we expect to incur in the third quarter of 2022.

With respect to share-based compensation, as part of this reduction in force we will allow impacted employees' awards to continue vesting over a transitional period (generally two months during which they remain employed but are not expected to provide active service), which we will generally account for as a modification allowing a portion of the awards to vest that otherwise would have been forfeited. However, as a result of the reversal of share-based compensation expense that had been previously recognized (under the accelerated attribution method, generally) for the forfeited portions of such employees' stock awards, we expect the August 2022 Restructuring will result in a net reduction to share-based compensation of approximately \$40 million to \$50 million in the third quarter of 2022. This estimate may change due to future changes in our stock price.

If we subsequently determine that we will incur additional material restructuring costs or charges or there are material differences from the ranges provided above, we will file an amendment to this Current Report on Form 8-K (this "Current Report") to disclose any such material costs, charges, or differences.

Item 5.02 – Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers.

Departure of Chief Product Officer

Ms. Chennapragada is stepping down as the Chief Product Officer, effective August 2, 2022, and will remain employed in an advisory role to the CEO or his designee through January 2, 2023. In connection with the August 2022 Restructuring described above, our product teams are being reorganized within the GM structure.

Ms. Chennapragada has made invaluable contributions to the Company throughout her employment, including hiring leaders and building teams to develop and launch products to serve our customers and strengthen our business. In recognition of those contributions and pursuant to a separation agreement dated August 1, 2022, Ms. Chennapragada will remain employed in an advisory role for a transitional period ending January 2, 2023 and thereafter will receive the following severance benefits (which are generally in line with the standard severance benefits for executive officers provided by Robinhood's Change in Control and Severance Plan for Key Employees

upon an Involuntary Termination by the Company without Cause (as such terms are defined therein)): (a) the Company will pay Ms. Chennapragada \$550,000, representing 12 months of her base salary, (b) Ms. Chennapragada will remain an eligible participant in the FY2022 Senior Leadership Team bonus, to be paid in the normal course in the spring of 2023 subject to Company performance against preset targets, and (c) the Company will pay Ms. Chennapragada a lump-sum amount that, on an after-tax basis, equals 12 times her then-current premium for continued group health coverage under COBRA. Provision of these severance benefits is contingent upon Ms. Chennapragada entering into (and not revoking) a separation and release of claims agreement in favor of the Company in a form satisfactory to Robinhood. We will also reimburse Ms. Chennapragada for \$20,000 in legal fees. In connection with the severance benefits described above, Ms. Chennapragada has agreed to non-disparagement obligations and confirmed that her obligations in relation to intellectual property and confidentiality remain in effect. The separation and release of claims agreement does not provide for any equity acceleration and Ms. Chennapragada will forfeit all equity awards that remain unvested on her termination date.

Cautionary Note Regarding Forward-Looking Statements

This Current Report contains forward-looking statements, including with respect to our estimates and expectations in connection with the August 2022 Restructuring. Our forward-looking statements are subject to a number of known and unknown risks, uncertainties, assumptions, and other factors that may cause our actual future results, performance, or achievements to differ materially from any future results expressed or implied in this Current Report. Factors that contribute to the uncertain nature of our forward-looking statements include, among others, adverse legal, reputational and financial effects on the Company resulting from the reduction in force; and potential operational disruptions as a result of the reduction in force. Because some of these risks and uncertainties cannot be predicted or quantified and some are beyond our control, you should not rely on our forward-looking statements as predictions of future events. More information about potential risks and uncertainties that could affect our business and financial results is included in Part II, Item 1A of our Quarterly Report on Form 10-Q for the quarter ended March 31, 2022 as well as our other filings with the SEC, which are available on the SEC's web site at www.sec.gov. Except as otherwise noted, all forward-looking statements are made as of the filing date of this Current Report and are based on information and estimates available to us at this time. Except as required by law, we assume no obligation to update any of the statements in this Current Report whether as a result of any new information, future events, changed circumstances, or otherwise. You should read this Current Report with the understanding that our actual future results, performance, events, and circumstances might be materially different from what we expect.

Robinhood Reports Second Quarter 2022 Results

MENLO PARK, Calif. – August 2, 2022 – Robinhood Markets, Inc. ("Robinhood") (NASDAQ: HOOD) today announced financial results for the second quarter of 2022, which ended June 30, 2022.

- Total net revenues increased 6% sequentially to \$318 million.
- Transaction-based revenues decreased 7% seguentially to \$202 million.
 - Options decreased 11% sequentially to \$113 million.
 - Cryptocurrencies increased 7% sequentially to \$58 million.
 - Equities decreased 19% sequentially to \$29 million.
- Net interest revenue increased 35% sequentially to \$74 million.
- Net loss was \$295 million, or \$0.34 per diluted share, compared with net loss of \$392 million, or \$0.45 per diluted share in the first quarter of 2022
- Operating expenses decreased 12% sequentially to \$610 million.
 - Operating expenses excluding share-based compensation decreased 5% sequentially to \$446 million, which included \$17 million of restructuring charges related to the reduction-in-force announced in April 2022.
 - Share-based compensation expense decreased 25% sequentially to \$164 million. The decrease was primarily driven by a \$24 million reversal related to our April workforce reduction and our reduced pace of hiring this year.
- Adjusted EBITDA (non-GAAP) was negative \$80 million, a sequential improvement of \$63 million. We continue to challenge ourselves to reach
 a positive run-rate for Adjusted EBITDA by the end of 2022.
- · Net Cumulative Funded Accounts were 22.9 million, an increase of 100 thousand sequentially.
- Monthly Active Users (MAU) decreased 1.9 million sequentially to 14.0 million for June 2022, as customers navigated the volatile market
 environment.
- Assets Under Custody (AUC) decreased 31% sequentially to \$64.2 billion, primarily driven by lower market asset valuations.
- Net Deposits were \$5.2 billion, which translates to an annualized growth rate of 22% relative to prior period AUC. Over the past twelve months, Net Deposits were \$17.5 billion, which translates to a growth rate of 17%.
- Average Revenues Per User (ARPU) increased to \$56 from \$53 in the first quarter of 2022.
- Cash and cash equivalents totaled \$6.0 billion at June 30, 2022, compared with \$6.2 billion at March 31, 2022.

"In the second quarter we continued to make strong progress on our roadmap and delivered products that will help our customers navigate an environment marked by higher interest rates and rising inflation," said Vlad Tenev, CEO and Co-Founder of Robinhood Markets. "With the introduction of Stock Lending, extended hours for trading, improved options offerings, new coins, and the announcement of our non-custodial wallet, we've built an even better and more robust customer experience in the first half of the year and look forward to bringing our customers additional products and services throughout the remainder of 2022."

"This quarter saw Robinhood make important strides on both our business and financial goals," said Jason Warnick, Chief Financial Officer of Robinhood Markets. "In the second quarter, we were encouraged to see our customers continue to engage with us through the volatile environment. We saw Net Deposits of \$5.2 billion, representing a 22% annualized growth rate. Revenues in the quarter were up 6% and we managed our costs down 5%, leading to a \$97 million sequential improvement in net loss and a \$63 million improvement in Adjusted EBITDA. While the decision to make an additional reduction in force was a difficult one, we believe that it was the right decision and positions us to deliver on our mission of democratizing finance for all."

Highlights

Robinhood delivers enhanced user experience for all brokerage customers

In the first half of 2022, Robinhood has launched several new products focused on delivering the top feature requests and addressing pain
points for more advanced customers.

- This quarter, Robinhood rolled out Stock Lending to give customers an additional source of income on their stocks, with over \$3 billion of equity value already enrolled and available to lend.
- Robinhood has also made improvements to its options offering, including introducing options in cash accounts, the top requested feature among advanced customers
- In the back half of the year, Robinhood plans to further enhance the customer experience by introducing advanced charting and screening tools, delivering improvements to the core trading flow, and rolling out retirement accounts.

Robinhood continues to build momentum in crypto

- Despite the challenging environment for the whole crypto ecosystem, Robinhood has continued to build in this space. In the second quarter, Robinhood introduced a number of new coins in a deliberate and considered manner, and customers have been pleased with the offerings to date.
- Robinhood is working to give customers even more control over their crypto. In April, the company rolled out crypto Wallets, allowing customers to move their crypto in and out of Robinhood in a simple, safe, and seamless way. Robinhood also announced its plan to introduce a non-custodial wallet later this year. The standalone app will allow customers to trade and swap crypto with no network fees and maintain full custody of their crypto throughout, all with the simplicity and great user experience they have come to expect from Robinhood.

Robinhood makes progress on its money offering

- In March, Robinhood rolled out the Robinhood Cash Card, a debit card that features spending roundups as well as roundup bonuses and merchant rewards.
- Since launch, the company has been making steady improvements to the user experience. Through the Cash Card, Robinhood sees an
 opportunity to become the primary place where customers deposit their paychecks and drive additional customer loyalty as well as diversify
 revenue over time.

Webcast and Conference Call Information

Robinhood will host a conference call to discuss its results at 2 p.m. PT / 5 p.m. ET tomorrow, August 3, 2022. The live webcast of Robinhood's earnings conference call can be accessed at investors.robinhood.com, along with the earnings press release and accompanying slide presentation.

Following the call, a replay and transcript will also be available at the same website.

Financial Outlook

As a result of the progress we have made on our cost reduction initiatives, including the reductions in force announced April 26, 2022 (the "April 2022 Restructuring") and August 2, 2022 (the "August 2022 Restructuring") we expect:

- GAAP total operating expenses for full-year 2022 to be in the range of \$2.46 billion to \$2.60 billion, representing a decrease of approximately 25% to 29% from the prior year;
- total operating expenses, excluding share-based compensation, for full-year 2022 to be in the range of \$1.70 billion to \$1.76 billion, representing a decrease of approximately 7% to 10% from the prior year. (These amounts include severance and other restructuring charges of \$17 million in connection with the April 2022 Restructuring and an estimated \$45 million to \$60 million in connection with the August 2022 Restructuring); and
- share-based compensation for full-year 2022 to be in the range of \$760 million to \$840 million, representing a decrease of approximately 47% to 52% percent from the prior year. (These amounts include the benefit of share-based compensation reversal of \$24 million in connection with the April 2022 Restructuring and an estimated share-based compensation reversal of \$40 million to \$50 million in connection with the August 2022 Restructuring.)

Actual results might differ materially from our outlook due to several factors, including the rate of growth in net new funded accounts which affects several costs including variable marketing costs, the degree to which we are

successful in preventing fraud, our ability to manage web-hosting expenses efficiently, and our ability to achieve productivity improvements in customer service, among other factors. In connection with the August 2022 Restructuring, our actual share-based compensation reversal might differ from our estimate due to future changes in our stock price.

About Robinhood

Robinhood Markets is on a mission to democratize finance for all. With Robinhood, people can invest with no account minimums through Robinhood Financial LLC, buy and sell crypto through Robinhood Crypto, LLC, spend, save, and earn rewards through Robinhood Money, LLC, and learn about investing through easy-to-understand educational content.

Robinhood intends to use the "Overview" tab of its Investor Relations website and its blog, *Under the Hood*, as means of disclosing material information to the public in a broad, non-exclusionary manner for purposes of the Securities and Exchange Commission's ("SEC") Regulation Fair Disclosure (Reg. Reconciliation of GAAP to Non-GAAP Financial Outlook

(Unaudited)

Year Ended December 31, 2021

Financial Outlook for the Year Ending December 31, 2022

	(in millions)	(year- over-year change)	(in millions)
Total operating expenses (GAAP)	\$3,456	decrease by 25% – 29%	\$2,460 - \$2,600
Less: SBC	\$1,572	decrease by 47% – 52%	\$760 - \$840 ²
Total operating expenses excluding SBC (non-GAAP)	\$1,884	decrease by 7% – 10%	\$1,700 - \$1,760 ¹

These amounts include severance and other restructuring charges of \$17 million in connection with the April 2022 Restructuring and an estimated \$45 million to \$60 million in connection with the August 2022 Restructuring.

⁽²⁾ These amounts include the benefit of share-based compensation reversal of \$24 million in connection with the April 2022 Restructuring and an estimated share-based compensation reversal of \$40 million to \$50 million in connection with the August 2022 Restructuring.

Cautionary Note Regarding Forward-Looking Statements

This press release contains forward-looking statements regarding the expected financial performance of Robinhood Markets, Inc. and its consolidated subsidiaries ("we," "Robinhood," or the "Company") and our strategic and operational plans, including (among others) the statements regarding our plans to bring our customers additional products and services throughout the remainder of 2022; our plans for brokerage to introduce advanced charting and screening tools, deliver improvements to the core trading flow, and roll out retirement accounts; our plans for crypto to launch a non-custodial crypto wallet app later this year as a standalone app that will allow customers to trade and swap crypto with no network fees and maintain full custody of their crypto throughout, all with simplicity and a great user experience; our view that our money offering has an opportunity through the Cash Card to become the primary place where customers deposit their paychecks and to drive additional customer loyalty as well as to diversify revenue over time; as well as all statements and information under the headings "Financial Outlook" and "Reconciliation of GAAP to Non-GAAP Financial Outlook." Our forward-looking statements are subject to a number of known and unknown risks, uncertainties, assumptions, and other factors that may cause our actual future results, performance, or achievements to differ materially from any future results expressed or implied in this press release. Reported results should not be considered an indication of future performance. Factors that contribute to the uncertain nature of our forward-looking statements include, among others: our limited operating history; the difficulty of managing our business effectively, including our recent workforce reductions, and the risk of continued declining or negative growth; the fluctuations in our financial results and key metrics from quarter to quarter; our reliance on transaction-based revenue, including payment for order flow ("PFOF"), and the risk of new regulation or bans on PFOF and similar practices; the difficulty of raising additional capital (to satisfy any liquidity needs and support business growth and objectives) on reasonable terms or at all; the need to maintain capital levels required by regulators and self-regulatory organizations; the risk that we might mishandle the cash, securities, and cryptocurrencies we hold on behalf of customers, and our exposure to liability for operational errors in clearing functions; the impact of negative publicity on our brand and reputation; the risk that changes in business, economic, or political conditions, or systemic market events, might harm our business; our dependence on key employees and a skilled workforce; the difficulty of complying with an extensive and complex regulatory environment and the need to adjust our business model in response to new or modified laws and regulations; the possibility of adverse developments in pending litigation and regulatory investigations; the effects of competition; our need to innovate and invest in new products and services in order to attract and retain customers and deepen their engagement with us in order to maintain growth; our reliance on third parties to perform some key functions and the risk that operational or technological failures could impair the availability or stability of our platform; the risk of cybersecurity incidents, theft, data breaches, and other online attacks; the difficulty of processing customer data in compliance with privacy laws; our need as a regulated financial services company to develop and maintain effective compliance and risk management infrastructures; the volatility of cryptocurrency prices and trading volumes; the risk that our platform could be exploited to facilitate illegal payments of cash or cryptocurrency; and the risk that substantial future sales of Class A common shares in the public market could cause the price of our stock to fall. Because some of these risks and uncertainties cannot be predicted or quantified and some are beyond our control, you should not rely on our forward-looking statements as predictions of future events. More information about potential risks and uncertainties that could affect our business and financial results is included in Part II. Item 1A of our Quarterly Report on Form 10-Q for the quarter ended March 31, 2022 as well as our other filings with the SEC, which are available on the SEC's web site at www.sec.gov. Moreover, we operate in a very competitive and rapidly changing environment; new risks and uncertainties may emerge from time to time, and it is not possible for us to predict all risks nor identify all uncertainties. The events and circumstances reflected in our forward-looking statements might not be achieved and actual results could differ materially from those projected in the forward-looking statements. Except as otherwise noted, all forward-looking statements are made as of the date of this press release, August 2, 2022, and are based on information and estimates available to us at this time. Although we believe that the expectations reflected in our forward-looking statements are reasonable, we cannot guarantee future results, performance, or achievements. Except as required by law, Robinhood assumes no obligation to update any of the statements in this press release whether as a result of any new information, future events, changed circumstances, or otherwise. You should read this press release with the understanding that our actual future results, performance, events, and circumstances might be materially different from what we expect. All second guarter 2022 financial information in this press release is preliminary, based on our estimates and subject to completion of our financial closing procedures. Final results for the period, which will be reported in our Quarterly Report on Form 10-Q for the three months ended June 30, 2022, might vary from the information in this press release. In particular, until our financial statements are issued in our Quarterly Report on Form 10-Q, we might be required to recognize certain subsequent events (such as in connection with contingencies or the realization of assets) which could affect our final results.

Non-GAAP Financial Measures

We collect and analyze operating and financial data to evaluate the health of our business, allocate our resources and assess our performance. In addition to total net revenues, net income (loss) and other results under GAAP, we utilize non-GAAP calculations of adjusted earnings before interest, taxes, depreciation and amortization ("Adjusted EBITDA") and operating expense excluding share-based compensation. This non-GAAP financial information is presented for supplemental informational purposes only, should not be considered a substitute for or superior to financial information presented in accordance with GAAP and may be different from similarly titled non-GAAP measures used by other companies. Reconciliations of these non-GAAP measures to the most directly comparable financial measures calculated and presented in accordance with GAAP are provided in the financial tables included in this release.

Adjusted EBITDA

Adjusted EBITDA is defined as net income (loss), excluding (i) interest expenses related to credit facilities, (ii) provision for (benefit from) income taxes, (iii) depreciation and amortization, (iv) share-based compensation, (v) change in fair value of convertible notes and warrant liability, (vi) significant legal and tax settlements and reserves, and (vii) other significant gains, losses, and expenses (such as impairments, restructuring charges, and business acquisition- or disposition-related expenses) that we believe are not indicative of our ongoing results.

The above items are excluded from our Adjusted EBITDA measure because these items are non-cash in nature, or because the amount and timing of these items are unpredictable, are not driven by core results of operations and render comparisons with prior periods and competitors less meaningful. We believe Adjusted EBITDA provides useful information to investors and others in understanding and evaluating our results of operations, as well as providing a useful measure for period-to-period comparisons of our business performance. Moreover, Adjusted EBITDA is a key measurement used by our management internally to make operating decisions, including those related to operating expenses, evaluate performance, and perform strategic planning and annual budgeting.

Operating Expense excluding Share-Based Compensation

Operating expense excluding share-based compensation is defined as the applicable GAAP operating expense line item minus the share-based compensation (or SBC) included within such line item. We believe operating expense excluding SBC provides useful information to investors and others in understanding and evaluating our results of operations, as well as providing a useful measure for period-to-period comparisons of our cost structure.

Key Performance Metrics

In addition to the measures presented in our unaudited condensed consolidated financial statements, we use the key performance metrics described below to help us evaluate our business, identify trends affecting our business, formulate business plans, and make strategic decisions.

Net Cumulative Funded Accounts

A Robinhood account is designed to provide a user with access to any and all of the products offered on our platform. We define "Net Cumulative Funded Accounts" as New Funded Accounts less Churned Accounts plus Resurrected Accounts (each as defined below). A "New Funded Account" is a Robinhood account into which the account user makes an initial deposit or money or asset transfer, of any amount, during the relevant period. An account is considered "Churned" if it was ever a New Funded Account and its balance (measured as the fair value of assets in the account less any amount due from the user and excluding certain Company-initiated credits) drops to or below zero for at least 45 consecutive calendar days. Negative balances typically result from Fraudulent Deposit Transactions (as defined below) and, less often, from margin loans. An account is considered "Resurrected" in a stated period if it was a Churned Account as of the end of the immediately preceding period and its balance (excluding certain Company-initiated credits) rises above zero. Examples of credits excluded for purposes of identifying Churned Accounts and Resurrected Accounts are price correction credits, related interest adjustments, and fee adjustments.

"Fraudulent Deposit Transactions" occur when users initiate deposits into their accounts, make trades on our platform using a short-term extension of credit from us, and then repatriate or reverse the deposits, resulting in a loss to us of the credited amount.

Monthly Active Users ("MAU")

We define MAU as the number of Monthly Active Users during a specified calendar month. A "Monthly Active User" is a unique user who makes a debit card transaction, or who transitions between two different screens on a mobile device or loads a page in a web browser while logged into their account, at any point during the relevant month. A user need not satisfy these conditions on a recurring monthly basis or have a Funded Account to be included in MAU. Figures in this release reflect MAU for the last month of each period presented. We utilize MAU to measure how many customers interact with our products and services during a given month. MAU does not measure the frequency or duration of the interaction, but we consider it a useful indicator for engagement. Additionally, MAUs are positively correlated with, but are not indicative of, the performance of revenue and other key performance indicators.

Assets Under Custody ("AUC")

We define AUC as the sum of the fair value of all equities, options, cryptocurrency and cash held by users in their accounts, net of receivables from users, as of a stated date or period end on a trade date basis. Net Deposits and net market gains drive the change in AUC in any given period. We define "Net Deposits" as all cash deposits and asset transfers received from customers, net of reversals, customer cash withdrawals, and other assets transferred out of our platform (assets transferred in or out include debit card transactions, Automated Customer Account Transfer Service ("ACATS") transfers, and custodial crypto wallet transfers) for a stated period.

Average Revenue Per User ("ARPU")

We define ARPU as total revenue for a given period divided by the average of Net Cumulative Funded Accounts on the last day of that period and the last day of the immediately preceding period. Figures in this release represent annualized ARPU for each three-month period presented.

Growth Rate and Annualized Growth Rate with respect to Net Deposits

When used with respect to Net Deposits, "growth rate" and "annualized growth rate" provide information about Net Deposits relative to total AUC. "Growth rate" is calculated as aggregate Net Deposits over a specified 12 month period, divided by AUC for the fiscal quarter that immediately precedes such 12 month period. "Annualized growth rate" is calculated as Net Deposits for a specified quarter multiplied by 4 and divided by AUC for the immediately preceding quarter.
