Information presented in the AUM through IRR columns for these vehicles is presented on a quarter lag due to these vehicles being public filers with the SEC and not yet filing their quarterly information as of our filing date. Additional information related to these vehicles can be found in their filings with the SEC, which are not part of this presentation. Note 2. Information presented in the Invested Capital through IRR columns for this vehicle is presented on a quarter lag. Note 3. MoIC and IRR are NM as we consider total net return to be a useful measure of the overall investment performance for this product. Total net return was 8.6%, calculated as the change in NAV per Class I share since inception (annualized) plus any distributions per share declared in the period and assumes any distributions are reinvested in accordance with our distribution reinvestment plan. Note 4. AUM for Blue Owl Digital Infrastructure Fund I is NM as the product was fully realized during 4Q25. Note 5. Information presented in the Invested Capital through IRR columns for these vehicles is presented on a quarter lag and is exclusive of investments made by the related carried interest vehicles of the respective products. Note 6. Includes reinvested dividends and share repurchases, if applicable. Note 7. For the Credit Platform, invested capital includes capital calls, reinvested dividends, periodic investor closes and tender offers, as applicable. For the Real Assets Platform, invested capital includes investments by the general partner, capital calls, dividends reinvested, callable and recycled capital which has been reinvested, and periodic investor closes, as applicable. For the GP Strategic Capital Platform, invested capital includes capital calls. Note 8. Realized proceeds represent the sum of all cash distributions to investors. Note 9. Unrealized value represents the product's NAV. There can be no assurance that unrealized values will be realized at the valuations indicated. Note 10. Gross MoIC is calculated by adding total realized proceeds and unrealized values of a product's investments and dividing by the total amount of invested capital. Gross MoIC is calculated before giving effect to management fees (including Part I Fees), Part II Fees and carried interest, as applicable, but net of all other expenses. Note 11. Net MoIC measures the aggregate value generated by a product's investments in absolute terms. Net MoIC is calculated by adding total realized proceeds and unrealized values of a product's investments and dividing by the total amount of invested capital. Net MoIC is calculated after giving effect to management fees (including Part I Fees) and Part II Fees and carried interest, as applicable.

# Non-GAAP and Other Measures

<b>GAAP Margin</b>	Calculated as income before income taxes, divided by total revenues.
<b>Fee-Related Earnings, or FRE, and Related Components</b>	Fee-Related Earnings ("FRE") is a supplemental non-GAAP measure of our core operating performance used to make operating decisions and assess our core operating results, focusing on whether our core revenue streams, primarily consisting of management fees, are sufficient to cover our core operating expenses. FRE performance revenues refers to the GAAP performance revenues that are measured and eligible to be received on a recurring basis and not dependent on realization events from the underlying investments. Management also reviews the components that comprise Fee-Related Earnings (i.e., FRE revenues and FRE expenses) on the same basis used to calculate Fee-Related Earnings, and such components are also non-GAAP measures and have been identified with the prefix "FRE" throughout this presentation. Fee-Related Earnings exclude various items that are required for the presentation of our results under GAAP, including the following: noncontrolling interests in the Blue Owl Operating Partnerships; equity-based compensation expense; compensation expenses related to capital contributions in certain subsidiary holding companies that are in-turn paid as compensation to certain employees, as such contributions are not included in Fee-Related Earnings or Distributable Earnings ("DE"); amortization of acquisition-related earnouts and transaction bonuses; amortization of intangible assets; "Transaction Expenses" as defined below; expense support payments and subsequent reimbursements; net gains (losses) on investments; interest and dividend income; interest expense; changes in TRA, warrant and earnout liabilities; and taxes. Transaction expenses are expenses incurred in connection with acquisitions and strategic transactions, including subsequent adjustments related to such transactions, that were not eligible to be netted against consideration or recognized as acquired assets and assumed liabilities in the relevant transactions ("Transaction Expenses"). FRE revenues also exclude the portion of IPI catch-up fees earned that relate to periods prior to the closing of the IPI Acquisition, as such amounts are payable as contingent consideration to the sellers. FRE revenues and FRE expenses also exclude DE performance revenues and related compensation expense, as well as revenues and expenses related to amounts reimbursed by our products, including administrative fees and dealer manager reallocated commissions, that have no impact to our bottom line operating results, and therefore FRE revenues and FRE expenses do not represent our total revenues or total expenses in any given period. DE performance revenues refers to GAAP performance revenues that are not FRE performance revenues.
<b>Distributable Earnings or DE</b>	Distributable Earnings is a supplemental non-GAAP measure of operating performance that equals Fee-Related Earnings plus or minus, as relevant, DE performance revenues and related compensation, interest and dividend income, interest expense, as well as amounts payable for taxes and payments made pursuant to the TRA. Amounts payable for taxes presents the current income taxes payable, excluding the impact of tax contingency-related accrued expenses or benefits, as such amounts are included when paid or received, related to the respective period's earnings, assuming that all Distributable Earnings were allocated to Blue Owl Capital Inc., which would occur following the exchange of all Blue Owl Operating Group Units for Class A Shares. Current income taxes payable and payments made pursuant to the TRA reflect the benefit of tax deductions that are excluded when calculating Distributable Earnings (e.g., equity-based compensation expenses, Transaction Expenses, tax goodwill, etc.). If these tax deductions were to be excluded from amounts payable for taxes, Distributable Earnings would be lower and our effective tax rate would appear to be higher, even though a lower amount of income taxes would have been paid or payable for a period's earnings. We make these adjustments when calculating Distributable Earnings to more accurately reflect the net realized earnings that are expected to be or become available for distribution or reinvestment into our business. Management believes that Distributable Earnings can be useful as a supplemental performance measure to our GAAP results in assessing the amount of earnings available for distribution.
<b>FRE Margin</b>	FRE Margin is a supplemental non-GAAP measure that equals Fee-Related Earnings before net (income) loss allocated to noncontrolling interests, divided by FRE revenues. Management believes that FRE Margin can be useful as a supplemental performance measure used to make operating decisions and assess our core operating results.
<b>Adjusted Shares</b>	Adjusted Shares represents the weighted-average outstanding interests that are participating in distributions as of the end of each respective period. Adjusted Shares is the sum of Blue Owl Capital Inc.'s Class A Shares (and Class B Shares to the extent outstanding in the future), Common Units and vested Incentive Units of the Blue Owl Operating Group. Common Units and Incentive Units are limited partner interests held by certain members of management and employees, as well as other third parties in the Blue Owl Operating Group. Subject to certain restrictions, Common Units are exchangeable on a one-for-one basis for either Class A Shares or Class B Shares if held by certain senior members of management. A vested Incentive Unit may convert into a Common Unit upon becoming economically equivalent on a tax basis to a Common Unit.
