Forward-Looking Statements

This Quarterly Report on Form 10-Q contains forward-looking statements as defined by the Private Securities Litigation Reform Act of 1995. In particular, statements pertaining to our business and growth strategies, investment and development activities and trends in our business, contain forward-looking statements. When used in this Quarterly Report on Form 10-Q, the words “estimate,” “anticipate,” “expect,” “believe,” “intend,” “may,” “will,” “could,” “should,” “would,” “seek,” “position,” “support,” “drive,” “enable,” “optimistic,” “target,” “opportunity,” “approximately” or “plan,” or the negative of these words and phrases or similar words or phrases that are predictions of or indicate future events or trends and that do not relate solely to historical matters are intended to identify forward-looking statements. You can also identify forward-looking statements by discussions of strategy, plans, or intentions of management.

Forward-looking statements involve numerous risks and uncertainties, and you should not rely on them as predictions of future events. Forward-looking statements depend on assumptions, data, or methods that may be incorrect or imprecise, and we may not be able to realize them. We do not guarantee that the transactions and events described will happen as described (or that they will happen at all). The following factors, among others, could cause actual results and future events to differ materially from those set forth or contemplated in the forward-looking statements:

- general business and economic conditions;
- continued volatility and uncertainty in the credit markets and broader financial markets, including potential fluctuations in the Consumer Price Index and changes in foreign currency exchange rates;
- the impact of tariffs and global trade disruptions on us and our customers;
- other risks inherent in the real estate business, including customer defaults, potential liability related to environmental matters, illiquidity of real estate investments and potential damages from natural disasters;
- the availability of suitable acquisitions and our ability to acquire properties or businesses on favorable terms;
- our success in implementing our business strategy and our ability to identify, underwrite, finance, consummate, integrate and manage diversifying acquisitions or investments;
- our ability to meet budgeted or stabilized returns on our development and expansion projects within expected time frames, or at all;
- our ability to manage our expanded operations, including expansion into new markets or business lines;
- our failure to realize the intended benefits from, or disruptions to our plans and operations or unknown or contingent liabilities related to, our recent and future acquisitions and greenfield developments;
- our failure to successfully integrate and operate acquired or developed properties or businesses;
- our ability to renew significant customer contracts;
- the impact of supply chain disruptions, including the impact on labor availability, raw material availability, manufacturing and food production, and transportation;
- difficulties managing an international business and acquiring or operating properties in foreign jurisdictions and unfamiliar metropolitan areas;
- changes in political conditions, geopolitical turmoil, political instability, civil disturbances, restrictive governmental actions or nationalization in the countries in which we operate;
- the degree and nature of our competition;
- our failure to generate sufficient cash flows to service our outstanding indebtedness;
- our ability to access debt and equity capital markets;

- continued volatility in interest rates;
- increased power, labor, or construction costs;
- changes in consumer demand or preferences for products we store in our warehouses;
- decreased storage rates or increased vacancy rates;
- labor shortages or our inability to attract and retain talent;
- changes in, or the failure or inability to comply with, government regulation;
- a failure of our information technology systems, systems conversions and integrations, cybersecurity attacks or a breach of our information security systems, networks, or processes;
- risks associated with artificial intelligence (“AI”);
- our failure to maintain an effective system of internal control over financial reporting;
- our failure to maintain our status as a real estate investment trust (“REIT”) for U.S. federal income tax purposes;
- changes in local, state, federal, and international laws and regulations, including related to taxation, tariffs, real estate and zoning laws, increases in real property tax rates, and challenges to our tax positions;
- the impact of any financial, accounting, legal, tax, or regulatory issues or litigation that may affect us; and
- additional factors discussed in the sections entitled “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and “Risk Factors” in this Quarterly Report on Form 10-Q and in the sections entitled “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and “Risk Factors” in our most recent Annual Report on Form 10-K.

You are cautioned not to place undue reliance on forward-looking statements, which speak only as of the date such statements are made. While forward-looking statements reflect our good faith beliefs, they are not guarantees of future performance. We undertake no obligation to publicly release the results of any revisions to these forward-looking statements that may be made to reflect events or circumstances after the date of this Quarterly Report on Form 10-Q or to reflect the occurrence of unanticipated events, except as required by law. In light of these risks and uncertainties, the forward-looking events discussed in this Quarterly Report on Form 10-Q might not occur as described, or at all.

Certain Terms Used in this Quarterly Report

Unless otherwise specified or required by the context, references in this Quarterly Report to “we,” “our,” “us,” “Lineage,” or the “Company” refer to Lineage, Inc., a Maryland corporation, and its consolidated subsidiaries. References herein to “our operating partnership” mean, prior to its conversion to a Maryland limited partnership in connection with the formation transactions, Lineage OP, LLC, a Delaware limited liability company, and after such conversion, Lineage OP, LP, a Maryland limited partnership. Lineage OP, LP, is our direct subsidiary and is managed by us.

In general, references to “Bay Grove” herein are to Bay Grove Capital Group LLC (“BG Capital”), a private owner-operator firm founded by our Co-Executive Chairmen, and its affiliated entities, including Bay Grove Management Company, LLC (“Bay Grove Management”) and Bay Grove Capital LLC (“Bay Grove Capital”), but excluding BGLH and the Co-Executive Chairmen. In general, references to “BGLH” are to BG Lineage Holdings, LLC, and its subsidiary BG Lineage Holdings LHR, LLC, (“LHR”). BG Capital is the managing member of Bay Grove Capital and Bay Grove Management, which is the managing member of BGLH. Our Co-Executive Chairmen, Adam Forste and Kevin Marchetti, are the managing members of BG Capital. BG Capital is also the managing member of BG Maverick, LLC (“BG Maverick”) and BG Cold, LLC (“BG Cold”).

LINEAGE, INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements - Unaudited

(1) Significant accounting policies and practices

(a) Nature of operations

Lineage, Inc. together with its subsidiaries (individually or collectively as the context requires, the “Company”) is a global temperature-controlled warehouse real estate investment trust (“REIT”) with a modern and strategically located network of temperature-controlled warehouses. The Company offers a broad range of essential warehousing services and integrated solutions for a variety of customers with complex requirements in the food supply chain. The Company's primary business is temperature-controlled warehousing, and the Company owns and operates the majority of its facilities. The Company provides customers with storage space, as well as handling and other warehousing services. The Company may rent to a customer an entire warehouse, a set amount of reserved space in a warehouse for a set term, or non-exclusive space in a warehouse pursuant to a storage agreement. In addition, the Company operates several critical and value-add temperature-controlled business lines within its integrated solutions business, including, among others, transportation and refrigerated rail car leasing. Lineage Logistics Holdings, LLC (“LLH”) is the Company's principal operating subsidiary. Bay Grove Management Company, LLC (“Bay Grove Management”), an affiliate of Bay Grove Capital, LLC (“Bay Grove Capital”), provides LLH operating support pursuant to a transition services agreement. As of the date of these financial statements, the majority of the outstanding common shares of the Company were held by BG Lineage Holdings, LLC, a Delaware limited liability company. The Company is the general partner of Lineage OP, LP (“Lineage OP” or the “Operating Partnership”) and owns a controlling 90% financial interest in Lineage OP. Lineage OP holds all direct interests in LLH other than certain interests held by BG Maverick, LLC (“BG Maverick”).

(b) Basis of presentation and principles of consolidation

The accompanying unaudited condensed consolidated financial statements have been prepared in conformity with the accounting principles generally accepted in the United States (“GAAP”) and applicable rules and regulations of the U.S. Securities and Exchange Commission (“SEC”) for interim financial information. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. These financial statements include all adjustments, which consist of normal, recurring adjustments and transactions or events discretely impacting the interim periods, considered necessary for a fair statement of the financial position, results of operations, and cash flows of the Company. Certain prior period amounts have been reclassified to conform to current period presentation.

The accompanying condensed consolidated financial statements include the accounts of Lineage, Inc. consolidated with the accounts of all subsidiaries and affiliates in which the Company holds a controlling financial interest as of the financial statement date. The operating results for the interim periods ended June 30, 2026 and 2025 are not necessarily indicative of results for the full year and should be read in conjunction with the Company's audited consolidated financial statements and related notes included in its Annual Report on Form 10-K for the year ended December 31, 2025.

(c) Use of estimates in preparation of financial statements

The preparation of the Company's condensed consolidated financial statements in conformity with GAAP requires the Company to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities as of the financial statement date and the reported amounts of revenues and expenses during the period. The Company bases its estimates on various factors and information which may include, but are not limited to, history and prior experience, expected future results, new related events, and economic conditions, which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from the estimates used in preparing the Company's condensed consolidated financial statements.

(d) Accounts receivable

Accounts receivable are recorded at the invoiced amount and are stated net of estimated allowances for credit losses. The Company's allowance for credit losses was \$10 million as of both June 30, 2026 and December 31, 2025, respectively.

LINEAGE, INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements - Unaudited

(e) Investments in partially owned nonconsolidated entities

The Company accounts for its investments in partially owned entities where the Company does not have a controlling interest but has significant influence using the equity method of accounting, under which the Company's share of net income or loss of the entity is recognized in income or loss and presented in Equity method investments in the condensed consolidated balance sheets. Allocations of profits and losses are made per the terms of the organizational documents. The Company's ownership percentages in such entities range from 8.8% to 50.0%.

The Company has committed to invest up to a total of \$108 million in its equity method investment Emergent Cold LatAm Holdings, LLC ("LatAm"). The Company has invested a total of \$101 million as of June 30, 2026, of which the Company invested \$2 million during the six months ended June 30, 2026 and \$7 million during the six months ended June 30, 2025. No amounts were invested during the three months ended June 30, 2026 or June 30, 2025. The Company has an option to purchase the remaining equity interests in LatAm until July 2027. As of June 30, 2026, the Company has not exercised this option.

The Company has interests in partially owned entities where the Company does not have a controlling interest or significant influence. These investments do not have readily determinable fair values, and the Company has elected the measurement alternative to measure these investments at cost less impairment, adjusted by observable price changes, with any fair value changes recognized in earnings. Refer to Note 11, *Fair value measurements* for additional information. As of June 30, 2026 and December 31, 2025, the carrying amount of these investments was \$33 million and \$32 million, respectively, and is presented in Other assets in the condensed consolidated balance sheets.

(f) Recently adopted accounting pronouncements

There have been no recently adopted accounting pronouncements which could have a material effect on the Company's financial condition, results of operations, and cash flows other than those disclosed in the Company's Annual Report on Form 10-K for the year ended December 31, 2025.

(g) Recently issued accounting pronouncements not yet adopted

The following table provides a brief description of recent accounting pronouncements that could have a material effect on the Company's consolidated financial statements.

Standard	Description	Date of Adoption	Effect on the Financial Statements or Other Significant Matters
ASU 2024-03, <i>Income Statement—Reporting Comprehensive Income—Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses</i>	This Accounting Standards Update ("ASU") enhances disclosures about a public business entity's expenses and requires more detailed information about the types of expenses that are included in certain expense captions in the consolidated financial statements.	Annual reporting periods beginning after December 15, 2026 and interim reporting periods beginning after December 15, 2027	The Company expects the adoption of this ASU will result in additional disclosures but will not impact its consolidated financial statements.
ASU 2025-06, <i>Intangibles—Goodwill and Other—Internal-Use Software (Subtopic 350-40): Targeted Improvements to the Accounting for Internal-Use Software</i>	This ASU provides updated guidance about criteria for capitalizing software costs and extends disclosure requirements in Accounting Standards Codification ("ASC") 360-10 to all capitalized software costs.	Annual and interim reporting periods beginning after December 15, 2027	The Company is currently evaluating the impact this guidance will have on its consolidated financial statements.

Notes to Condensed Consolidated Financial Statements - Unaudited

Standard	Description	Date of Adoption	Effect on the Financial Statements or Other Significant Matters
ASU 2025-07, <i>Derivatives and Hedging (Topic 815) and Revenue from Contracts with Customers (Topic 606): Derivatives Scope Refinements and Scope Clarification for Share-Based Noncash Consideration from a Customer in a Revenue Contract</i>	This ASU provides updated guidance about the scope of derivative accounting under ASC 815, as well as clarifies how share-based noncash consideration from a customer should be accounted for.	Annual and interim reporting periods beginning after December 15, 2026	The Company is currently evaluating the impact this guidance will have on its consolidated financial statements.
ASU 2025-09, <i>Derivatives and Hedging (Topic 815): Hedge Accounting Improvements</i>	This ASU provides targeted improvements intended to enhance the application of hedge accounting, including expanded eligibility of forecasted transactions, additional flexibility in measuring hedge effectiveness, and clarifications related to hedging non-financial items.	Annual and interim reporting periods beginning after December 15, 2026	The Company is currently evaluating the impact this guidance will have on its consolidated financial statements.
ASU 2025-11, <i>Interim Reporting (Topic 270): Narrow-Scope Improvements</i>	This ASU provides clarifications intended to improve the consistency and usability of interim disclosure requirements, including a comprehensive listing of required interim disclosures and a new disclosure principle for reporting material events occurring after the most recent annual period.	Annual and interim reporting periods beginning after December 15, 2027.	The Company is currently evaluating the impact this guidance will have on its consolidated financial statements.
ASU 2026-02, <i>Environmental Credits and Environmental Credit Obligations (Topic 818)</i>	This ASU adds new authoritative guidance on the recognition, measurement, presentation, and disclosure of environmental credits (such as emissions allowances, renewable energy certificates, and carbon offsets) and environmental credit obligations arising from regulatory compliance programs.	Annual and interim reporting periods beginning after December 15, 2027.	The Company is currently evaluating the impact this guidance will have on its consolidated financial statements.

LINEAGE, INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements - Unaudited

(2) Capital structure and noncontrolling interests

Lineage, Inc. capital structure

(a) Common Stock

Lineage, Inc. has one class of common stock. Each share of common stock entitles the holder to one vote on matters submitted to a vote of the shareholders. Holders of common stock have the right to receive any dividend declared by the Company.

Lineage, Inc. is authorized to issue up to 500,000,000 common shares with a par value of \$0.01 per share. As of June 30, 2026 and December 31, 2025, there were 227,700,211 and 226,967,652 common shares issued and outstanding, respectively.

Operating Partnership capital structure

The Operating Partnership's capital structure as of June 30, 2026 and December 31, 2025 was as follows:

	June 30, 2026	December 31, 2025
Partnership common units owned by Lineage, Inc.	227,700,211	226,967,652
Partnership common units owned by Non-Company LPs	577,745	698,915
Legacy Class A OP Units and Legacy Class B OP Units owned by Non-Company LPs	21,029,599	21,029,599
LTIP Units held by Non-Company LPs ⁽¹⁾	4,820,620	3,667,999
Total	254,128,175	252,364,165

(1) Includes 865,138 and 406,238 units, respectively, granted under the Amended and Restated Lineage 2024 Incentive Award Plan, which have vested but have not yet been converted into partnership common units.

Noncontrolling interest in the Operating Partnership relates to the interest in the Operating Partnership owned by investors other than Lineage, Inc. The Company accounts for the partnership common units, Legacy Class A OP Units, Legacy Class B OP Units (the Legacy Class A OP Units and Legacy Class B OP Units, together the "Legacy OP Units"), and LTIP Units based on their relative ownership percentage of the Operating Partnership. Each time the ownership percentage of the Operating Partnership held by investors in Lineage OP other than Lineage, Inc. ("Non-Company LPs") and BG Cold, LLC ("BG Cold") changes, the Company records an adjustment to Noncontrolling interests with a corresponding adjustment in Additional paid-in capital - common stock to appropriately reflect the new ownership percentage and to reflect the Non-Company LPs' and BG Cold's share of all capital contributed to the Operating Partnership. All activity related to these interests is included within Noncontrolling interests in the condensed consolidated balance sheets and condensed consolidated statements of redeemable noncontrolling interests and equity.

(b) Noncontrolling Interest in Operating Partnership - Partnership Common Units

Partnership common units include all Operating Partnership capital interests not designated as another class of units in the Operating Partnership's Agreement of Limited Partnership. Lineage, Inc. holds all partnership common units with the exception of those held by Non-Company LPs. Partnership common units held by Non-Company LPs represent a noncontrolling interest in the Operating Partnership and are included in Noncontrolling interests in the condensed consolidated balance sheets and condensed consolidated statements of redeemable noncontrolling interests and equity.

During the three and six months ended June 30, 2026, 5,000 and 121,170 partnership common units, respectively, held by Non-Company LPs were exchanged for an equivalent number of shares of Lineage, Inc. common stock. During the three and six months ended June 30, 2025, 194,440 partnership common units held by Non-Company LPs were exchanged for an equivalent number of shares of Lineage, Inc. common stock.

LINEAGE, INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements - Unaudited

(c) *Noncontrolling Interest in Operating Partnership - Legacy Class A OP Units, Legacy Class B OP Units*

Prior to the Company's initial public offering ("IPO") in 2024, Non-Company LPs held certain Class A and Class B units in the Operating Partnership. These units were reclassified into Legacy OP Units as part of certain changes the Company effectuated in its capital structure in connection with the IPO.

Legacy OP Units are generally not redeemable for cash or other consideration but can be reclassified into an equal number of partnership common units at any time at the discretion of BG Lineage Holdings LHR, LLC, which serves as the representative of all Legacy OP Units. No Legacy OP Units were reclassified into partnership common units during the six months ended June 30, 2026 or June 30, 2025.

(d) *Noncontrolling Interest in Operating Partnership - LTIP Units*

The Company grants interests in the Operating Partnership to certain members of management in the form of LTIP Units. LTIP Units are a form of voting interest in the Operating Partnership which may be subject to vesting requirements. Both vested and unvested LTIP Units are accounted for as Noncontrolling interests in the condensed consolidated balance sheets and condensed consolidated statements of redeemable noncontrolling interests and equity.

(e) *Redeemable Noncontrolling Interests - Operating Partnership Units*

Certain Operating Partnership units held by Non-Company LPs were redeemable at the greater of a fixed redemption amount or fair value if certain liquidation events did not occur. As of December 31, 2025, all such units have been redeemed. During each reporting period that the units were outstanding, the Company accreted the changes in the redemption value of the redeemable noncontrolling interest over the period of issuance to the earliest redemption date and recorded an adjustment if the accreted redemption value was greater than the ASC 810 carrying value. The Company's adjustments were recorded to Additional paid-in capital - common stock in the condensed consolidated balance sheets and condensed consolidated statements of redeemable noncontrolling interests and equity because the Company was in an accumulated deficit position. These adjustments to equity are not a component of net income (loss), however, they are accounted for in the Company's calculations of earnings (loss) per share ("EPS") as disclosed in Note 17, *Earnings (loss) per share*.

In connection with the acquisition of MTC Logistics Holdings, LLC and certain real property (together with its subsidiaries, "MTC Logistics") in 2022, the Company issued 319,006 Class A Units of the Operating Partnership with special redemption rights to the sellers of MTC Logistics. In connection with the IPO, the units were reclassified into Legacy Class A-4 OP units with similar redemption rights. These redemption rights, which had to be exercised between March 1, 2025 and April 15, 2025, allowed such holders of Legacy Class A-4 OP units to (1) redeem any or all of the Legacy Class A-4 OP units at a guaranteed floor or (2) receive a one-time top-up paid in cash or through the issuance of new Legacy Class A-4 OP units (or any combination of cash and units) in the amount by which the guaranteed minimum value exceeds the fair market value of the Legacy Class A-4 OP units (after adjusting for prior distributions on the Legacy Class A-4 OP units).

The Legacy Class A-4 OP units held by the sellers of MTC Logistics were accounted for as Redeemable noncontrolling interests in the condensed consolidated balance sheets and condensed consolidated statements of redeemable noncontrolling interests and equity due to the put right held by the sellers.

In April 2025, the holder of these units exercised its redemption rights for 219,006 units in exchange for total cash proceeds of \$23 million and waived its redemption rights for the remaining 100,000 units, with a one-time top-up of \$5 million paid in cash in relation to these remaining units.

LINEAGE, INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements - Unaudited

LLH Capital Structure

The Operating Partnership owns substantially all outstanding equity interests of LLH except for those held by BG Maverick. The equity interests held by BG Maverick are accounted for as Noncontrolling interests in the condensed consolidated balance sheets and condensed consolidated statements of redeemable noncontrolling interests and equity.

(f) OPEUs

Operating Partnership Equivalent Units (“OPEUs”) are a voting capital interest in LLH which are similar in all material respects to the common units of LLH held by the Operating Partnership. At any time beginning after July 24, 2026, any holder of OPEUs may require that the Operating Partnership exchange the OPEUs for partnership common units on a one-for-one basis. OPEUs are recorded as Noncontrolling interests in the condensed consolidated balance sheets and condensed consolidated statements of redeemable noncontrolling interests and equity based on their relative ownership in LLH.

There were 1,461,148 OPEUs outstanding, which represents 0.6% ownership in LLH, as of both June 30, 2026 and December 31, 2025.

Other Noncontrolling interests

Certain subsidiaries of LLH have also issued equity interests to third parties. All of these equity interests are accounted for as Noncontrolling interests in the condensed consolidated balance sheets and condensed consolidated statements of redeemable noncontrolling interests and equity.

(g) Noncontrolling Interests in Other Consolidated Subsidiaries

Noncontrolling interests in Other Consolidated Subsidiaries include entities other than the Operating Partnership in which the Company has a controlling interest but which are not wholly owned by the Company.

Noncontrolling interests in Other Consolidated Subsidiaries also include Series A Preferred shares issued by each of the Company’s REIT subsidiaries to third-party investors. The Company’s REIT subsidiaries had an aggregate amount of 373 Series A Preferred shares held by third parties outstanding as of both June 30, 2026 and December 31, 2025.

(h) Convertible Redeemable Noncontrolling Interests - Kloosterboer Preference Shares

In 2021, the Company issued non-voting preferred equity instruments (“Preference Shares”) to the seller (the “Co-Investor”) in connection with the Company’s acquisition of Kloosterboer Group B.V. and its subsidiaries (“Kloosterboer”). As of both June 30, 2026 and December 31, 2025, there were 2,214,553 Preference Shares outstanding. Upon completion of the IPO, the Preference Shares were reclassified in the condensed consolidated balance sheets from Redeemable noncontrolling interests to a liability based on the fair value of the instrument at the time of reclassification. Subsequent to the reclassification, the liability is being accreted up to the October 1, 2026 redemption value using an effective interest method. Its carrying value was \$293 million and \$294 million as of June 30, 2026 and December 31, 2025, respectively, and is recorded in Accounts payable and accrued liabilities in the condensed consolidated balance sheets.

(i) Redeemable Noncontrolling Interests - Operating Subsidiaries

In August 2023, the Company acquired a 75.0% ownership in Ha Noi Steel Pipe Joint Stock Company (“SK Logistics”). On each of September 30, 2025 and September 30, 2026, the noncontrolling shareholders had the right to sell the remaining 25.0% of SK Logistics to the Company, as such, this noncontrolling interest was classified as redeemable in the Company’s condensed consolidated balance sheets and condensed consolidated statements of redeemable noncontrolling interests and equity.

In March 2026, the Company purchased the noncontrolling shareholders’ shares in SK Logistics for \$2 million. As a result, Redeemable noncontrolling interests of \$7 million was derecognized in the condensed consolidated

LINEAGE, INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements - Unaudited

balance sheets and condensed consolidated statements of redeemable noncontrolling interests and equity. The \$5 million difference between the consideration paid and the carrying value was recorded as an adjustment to Additional paid-in capital - common stock.

Until the redemption, the Company accreted the changes in the redemption value of the redeemable noncontrolling interests over the period of issuance to the earliest redemption date and, if necessary, recorded an adjustment to the redeemable noncontrolling interests. The Company's adjustments were recorded to Additional paid-in capital - common stock in the condensed consolidated balance sheets and condensed consolidated statements of redeemable noncontrolling interests and equity. In accordance with ASC 810, the value was adjusted to reflect the lower of the redemption value or the ASC 810 value, which represents the floor. During the six months ended June 30, 2025, previously recorded accretion of \$4 million was reversed to reflect a decline in redemption value to its ASC 810 value.

Below is a summary of all activity for the Company's redeemable noncontrolling interests, which are discussed in further detail above.

	Redeemable Noncontrolling Interests - Operating Partnership Units	Redeemable Noncontrolling Interest - Operating Subsidiaries	Total Redeemable Noncontrolling Interests

(3) Revenue

The following table disaggregates the Company's net revenues by major stream and reportable segment.

<i>(in millions)</i>	Three Months Ended June 30,		Six Months Ended June 30,	
	2026	2025	2026	2025
Warehousing operations	\$ 875	\$ 855	\$ 1,731	\$ 1,698
Warehouse lease revenues	73	83	145	151
Managed services	54	27	107	54
Other	3	5	7	11
Total Global Warehousing	1,005	970	1,990	1,914
Transportation	173	198	323	386
Food sales	60	61	104	105
Redistribution revenues	60	59	119	113
E-commerce and other	42	44	82	87
Railcar lease revenues	21	18	40	37
Total Global Integrated Solutions	356	380	668	728
Total net revenues	\$ 1,361	\$ 1,350	\$ 2,658	\$ 2,642

As of June 30, 2026, the Company had \$1,736 million of remaining unsatisfied performance obligations from contracts with customers subject to a non-cancellable term and within contracts that have an original expected duration exceeding one year. These obligations also do not include variable consideration beyond the non-cancellable term, which is fully constrained because the amount cannot be reasonably estimated. The Company expects to recognize 19.4% of these remaining performance obligations as revenue over the next 12 months and the remaining 80.6% to be recognized over a weighted average period of 10.0 years through 2043.

Accounts receivable balances related to contracts with customers were \$814 million and \$785 million as of June 30, 2026 and December 31, 2025, respectively.

Deferred revenue balances related to contracts with customers were \$77 million and \$80 million as of June 30, 2026 and December 31, 2025, respectively. Substantially all revenue that was included in the deferred revenue balance at the beginning of 2026 has been recognized as of June 30, 2026 and represents revenue from the satisfaction of storage and handling services billed in advance.

(4) Property, plant, and equipment

Property, plant, and equipment, net consists of the following:

<i>(in millions)</i>	June 30, 2026	December 31, 2025
Buildings, building improvements, and refrigeration equipment	\$ 9,717	\$ 9,601

Furniture, fixtures, equipment, and software	857	753
Gross property, plant, and equipment	14,589	14,309
Less: Accumulated depreciation	(3,857)	(3,544)
Construction in progress	477	573
Property, plant, and equipment, net	\$ 11,209	\$ 11,338

LINEAGE, INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements - Unaudited

(5) Goodwill and other intangible assets, net

Goodwill

Changes in the carrying amount of goodwill for each reportable segment for the six months ended June 30, 2026 are as follows:

<i>(in millions)</i>	Global Warehousing	Global Integrated Solutions	Total
Balance as of December 31, 2025 ⁽¹⁾	\$ 2,838	\$ 628	\$ 3,466
Foreign currency translation and other	(36)	(4)	(40)
Balance as of June 30, 2026 ⁽¹⁾	\$ 2,802	\$ 624	\$ 3,426

⁽¹⁾ Net of accumulated impairment losses of \$48 million as of June 30, 2026 and December 31, 2025.

Other Intangible Assets

The following are the Company's total other intangible assets:

<i>(in millions)</i>	June 30, 2026			December 31, 2025		
	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
Customer relationships	\$ 1,495	\$ (563)	\$ 932	\$ 1,512	\$ (516)	\$ 996
In-place leases	84	(24)	60	86	(23)	63
Technology	32	(13)	19	32	(12)	20
Assembled workforce	9	(4)	5	9	(3)	6
Other	12	(8)	4	28	(23)	5
Other intangible assets	\$ 1,632	\$ (612)	\$ 1,020	\$ 1,667	\$ (577)	\$ 1,090

During the three and six months ended June 30, 2026, the Company derecognized fully-amortized intangible assets and the associated accumulated amortization totaling \$3 million and \$17 million, respectively. During the three and six months ended June 30, 2025, the Company derecognized fully-amortized intangible assets and the associated accumulated amortization totaling \$9 million and \$21 million, respectively.

(6) Prepaid expenses and other current assets

<i>(in millions)</i>	June 30, 2026	December 31, 2025
Prepaid expenses	\$ 84	\$ 79
Other current assets	57	53
Prepaid expenses and other current assets	\$ 141	\$ 132

(7) Income taxes

The Company's provision for income taxes is based upon an estimated annual tax rate for the year applied to U.S. federal, U.S. state, and foreign income. Significant discrete items that are not consistent from period to period are recorded to Income tax expense (benefit) in the quarter in which they occur.

The Company's effective tax rate for the three and six months ended June 30, 2026 was 3.0% and (3.8)%, respectively. The Company's effective tax rate for the three and six months ended June 30, 2025 was 50.0% and (16.7)%, respectively.

LINEAGE, INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements - Unaudited

The annual effective tax rates differ from the U.S. statutory rate primarily due to the Company's status as a REIT for U.S. federal income tax purposes, variations in tax rates applicable to foreign income, the generation of income tax credits, financial statement losses for which no tax benefit was recognized, and the impact of nondeductible expenses, including stock-based compensation and interest expense.

It is reasonably possible that the Company's uncertain tax positions will decrease by approximately \$8 million in the next 12 months due to the lapse of the applicable statute of limitations. This adjustment would positively impact the Company's effective tax rate.

(8) Debt

<i>(in millions)</i>	June 30, 2026	December 31, 2025
Unsecured credit facilities	\$ 2,890	\$ 2,565
Senior unsecured notes	1,745	1,774
New senior unsecured notes	1,298	1,323
Secured debt	315	476
Unsecured term loans	1	2
Total debt	6,249	6,140
Less: Current portion long-term debt	(2)	(2)
Less: Deferred financing costs	(18)	(21)
Less: Discount on debt issued	(9)	(10)
Total long-term debt, net	\$ 6,220	\$ 6,107

(a) Unsecured Credit Facilities

i. Credit Agreement - Revolving Credit Facility and Term Loan A

Originally entered into on December 22, 2020 and subsequently amended, the Company has an unsecured revolving credit and term loan agreement (collectively, the "Credit Agreement") consisting of a multi-currency revolving credit facility (the "Revolving Credit Facility" or "RCF") with a borrowing capacity of \$3,500 million and a USD denominated term loan (the "Term Loan A" or "TLA") with various lenders with a total commitment of \$1,000 million.

Total Revolving Credit Facility			\$ 1,890	\$ 1,565		

(1) SOFR = Secured Overnight Financing Rate, BKBM = Bank Bill Reference Rate, BBSW = Bank Bill Swap Rate, CORRA = Canadian Overnight Repo Rate Average, CIBOR = Copenhagen Interbank Offered Rate, NIBOR = Norwegian Interbank Offered Rate, EURIBOR = Euro Interbank Offered Rate.

There were \$61 million in letters of credit issued on the Company's Revolving Credit Facility as of June 30, 2026 and December 31, 2025. Under the Credit Agreement, the Company has the ability to issue up to \$100 million as letters of credit.

(b) Senior Unsecured Notes

On August 20, 2021, and on August 15, 2022, the Company issued a series of fixed-rate guaranteed, senior unsecured notes with various maturities pursuant to a private placement financing ("Senior Unsecured Notes"). Interest on these notes is due semi-annually in August and February.

The table below summarizes the balances and terms of the Senior Unsecured Notes:

(in millions, except interest rates)	Borrowing Currency Amount	Interest Rate	Maturity Date	June 30, 2026	December 31, 2025
Series A Senior Notes	\$300	2.22%	8/20/2026	\$ 300	\$ 300
Series B Senior Notes	\$375	2.52%	8/20/2028	375	375
Series C Senior Notes	€128	0.89%	8/20/2026	146	151
Series D Senior Notes	€251	1.26%	8/20/2031	286	295
Series E Senior Notes	£145	1.98%	8/20/2026	192	196
Series F Senior Notes	£130	2.13%	8/20/2028	172	175
Series G Senior Notes	€80	3.33%	8/20/2027	91	94
Series H Senior Notes	€110	3.54%	8/20/2029	126	129
Series I Senior Notes	€50	3.74%	8/20/2032	57	59
Total Senior Unsecured Notes				\$ 1,745	\$ 1,774

LINEAGE, INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements - Unaudited

Some of the Senior Unsecured Notes are set to mature in August 2026 and continue to be presented in Long-term debt, net in the condensed consolidated balance sheets, as the Company has the intent and ability to refinance these obligations on a long-term basis prior to their maturity using the RCF capacity.

(c) *New Senior Unsecured Notes*

In 2025, the Company issued senior notes fully and unconditionally guaranteed by Lineage, Inc., the Operating Partnership, Lineage Europe Finco B.V., Lineage Logistics Holdings, LLC, and certain other subsidiaries of the Company that guarantee or are otherwise obligated in respect of the Credit Agreement (other than the issuing subsidiary and any excluded subsidiaries) ("New Senior Unsecured Notes"). A summary of the notes issued and outstanding is as follows:

<i>(monetary amounts in millions)</i>	Borrowing Currency Amount	Interest Rate	Issuance Date	Interest Payable Date	Maturity Date	June 30, 2026	December 31, 2025
5.25% Notes	\$500	5.25%	6/17/2025	January and July	7/15/2030	\$ 500	\$ 500
4.125% Notes	€700	4.13%	11/26/2025	November	11/26/2031	798	823
Total New Senior Unsecured Notes						\$ 1,298	\$ 1,323

Interest on the above notes is paid at the dates noted, commencing in 2026. The 5.25% Notes were issued at 98.991% of par, with a total debt discount of \$5 million and debt issuance costs of \$5 million. The 4.125% Notes were issued at 99.324% of par, with a total debt discount of \$6 million and debt issuance costs of \$7 million. The discounts and issuance costs were capitalized as deferred financing costs recorded in Long-term debt, net in the condensed consolidated balance sheets.

The New Senior Unsecured Notes require that the Operating Partnership and its subsidiaries maintain total unencumbered assets of not less than 150% of the aggregate principal amount of all outstanding unsecured debt of the Operating Partnership and its subsidiaries, as determined on a consolidated basis. The bonds also contain certain financial covenants required, including:

- A maximum total indebtedness to total assets ratio of less than 0.60 to 1.00
- A maximum total secured indebtedness to total assets ratio of less than 0.40 to 1.00; and
- A minimum interest coverage ratio of not less than 1.50 to 1.00.

The Company was in compliance with all financial covenants as of June 30, 2026.

(d) *Secured Debt*

As of June 30, 2026, the total Secured Debt balance of \$315 million was comprised of two secured promissory notes with MetLife Real Estate Lending LLC (the "Metlife Real Estate Notes") totaling \$309 million (due in 2028 and 2029) and \$6 million of other fixed-rate real estate and equipment secured financing agreements with various lenders.

As of December 31, 2025, the total Secured Debt balance of \$476 million was comprised of the Metlife Real Estate Notes totaling \$469 million (due in 2026, 2028, and 2029) and \$7 million of other fixed-rate real estate and equipment secured financing agreements with various lenders.

One of the Metlife Real Estate Notes totaling \$160 million was paid off on January 2, 2026 using the RCF capacity. It was classified in Long-term debt, net in the condensed consolidated balance sheets as of December 31, 2025, as the Company had the intent and ability to refinance the obligation on a long-term basis prior to its maturity using the RCF capacity.

LINEAGE, INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements - Unaudited

(e) *Deferred financing costs and discount*

The table below presents the Company's net deferred financing costs and debt discount balances as well as their classification in the condensed consolidated balance sheets:

<i>(in millions)</i>	Balance Sheet	June 30, 2026	December 31, 2025
Deferred financing costs, net of amortization	Other assets	\$ 18	\$ 21
Deferred financing costs, net of amortization	Long-term debt, net	\$ 18	\$ 21
Debt discount, net of amortization	Long-term debt, net	\$ 9	\$ 10

(9) **Derivative instruments and hedging activities**

(a) *Risk management objective of using derivatives*

The Company manages certain economic risks, including interest rate, foreign currency, liquidity, and credit risk, primarily by managing the amount, sources, and duration of its assets and liabilities and with the use of derivative financial instruments.

(b) *Cash flow hedges of interest rate and foreign currency risk*

The Company's objectives in using interest rate derivatives are to manage its exposure to interest rate movements and to mitigate the potential volatility to interest expense. To accomplish this objective, the Company primarily uses interest rate swaps and caps as part of its interest rate risk management strategy. Interest rate swaps involve the receipt of variable amounts from a counterparty in exchange for the Company making fixed-rate payments over the life of the agreements without exchange of the underlying notional amount. Interest rate caps involve the receipt of variable amounts from a counterparty if interest rates rise above the strike rate on the contract in exchange for a premium.

In addition, the Company enters into derivative financial instruments to manage exposures that arise from business activities that result in the receipt or payment of future cash amounts due to changes in foreign currency rates. The impacts of these foreign currency derivative instruments on the condensed consolidated financial statements of the Company are insignificant.

(c) *Designated hedges - interest rate contracts*

As of June 30, 2026, the Company had the following effective interest rate derivatives that were designated as cash flow hedging instruments.

	Number of Instruments	Notional	Effective Date	Maturity Date
Interest rate derivatives:		<i>(in millions)</i>		
Interest rate swap	2	USD 500	December 31, 2025	February 15, 2028
Interest rate swap	3	USD 750	January 9, 2026	February 15, 2028

LINEAGE, INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements - Unaudited

The table below presents the effect of the Company's interest rate derivatives that are designated as hedging instruments in the condensed consolidated statements of operations and comprehensive income (loss) (in millions). Gain (loss) reclassified from accumulated other comprehensive income ("AOCI") into earnings for interest rate contracts is presented in Interest expense, net.

Interest Rate Derivatives in Cash Flow Hedging Relationships	Amount of Gain (Loss) Recognized in OCI on Derivatives		Amount of Gain (Loss) Reclassified from AOCI into Earnings	
	Three Months Ended June 30,		Three Months Ended June 30,	
	2026	2025	2026	2025
Included in effectiveness testing	\$ 8	\$ 3	\$ 2	\$ 19

Interest Rate Derivatives in Cash Flow Hedging Relationships	Amount of Gain (Loss) Recognized in OCI on Derivatives		Amount of Gain (Loss) Reclassified from AOCI into Earnings	
	Six Months Ended June 30,		Six Months Ended June 30,	
	2026	2025	2026	2025
Included in effectiveness testing	\$ 16	\$ 4	\$ 4	\$ 38

The estimated net amount of existing gains (losses) that are reported in Accumulated other comprehensive income (loss) as of June 30, 2026 that is expected to be reclassified into earnings within the next 12 months is \$10 million.

(d) Balance sheet presentation - interest rate contracts

The table below presents the fair value of the Company's interest rate derivative contracts as well as their classification in the condensed consolidated balance sheets:

(in millions)	June 30, 2026	December 31, 2025
Prepaid expenses and other current assets	\$ 9	\$ 3
Other assets	\$ 7	\$ —

(10) Interest expense

(in millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2026	2025	2026	2025
Interest expense ⁽¹⁾	\$ 68	\$ 64	\$ 133	\$ 121
(Gain) loss on hedge instruments	(2)	(19)	(4)	(38)
Finance lease liabilities interest	22	22	44	46
Amortization of deferred financing costs and discount on debt	4	3	7	6
Capitalized interest	(5)	(4)	(9)	(7)
Interest income	(1)	(2)	(3)	(4)
Other financing fees	1	3	3	3
Interest expense, net	<u>\$ 87</u>	<u>\$ 67</u>	<u>\$ 171</u>	<u>\$ 127</u>

(1) During the three and six months ended June 30, 2026, the Company recognized \$4 million and \$8 million, respectively, of expense related to the Kloosterboer Preference Shares liability. During the three and six months ended June 30, 2025, the Company recognized \$4 million and \$7 million, respectively, of expense related to the Kloosterboer Preference Shares liability (see Note 2, Capital structure and noncontrolling interests).

LINEAGE, INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements - Unaudited

(11) Fair value measurements

As of June 30, 2026 and December 31, 2025, the carrying amount of certain financial instruments, including cash and cash equivalents, restricted cash, accounts receivable, accounts payable, and accrued liabilities, were representative of their fair values due to the short-term maturity of these instruments. Certain non-financial assets such as property, plant and equipment, operating right-of-use assets, equity method investments, goodwill, and other intangible assets are subject to nonrecurring fair value measurements if they are deemed to be impaired.

The following table presents the fair value hierarchy levels of the Company's assets and liabilities at fair value:

<i>(in millions)</i>	Fair Value Hierarchy	June 30, 2026	December 31, 2025
Measured at fair value on a recurring basis:			
Non-qualified deferred compensation plan assets	Level 1	\$ 8	\$ 7
Non-qualified deferred compensation plan liabilities	Level 1	\$ 8	\$ 7
Interest rate derivative financial instrument assets	Level 2	\$ 16	\$ 3
Acquisition related contingent consideration	Level 3	\$ 5	\$ 14
Measured at fair value on a non-recurring basis:			
Other investments (included in Other assets) ⁽¹⁾	Level 3	\$ 27	\$ 26
Disclosed at fair value:			
5.25% Notes ⁽²⁾	Level 2	\$ 501	\$ 505
Long-term debt, excluding 5.25% Notes ⁽²⁾	Level 3	\$ 5,684	\$ 5,567
Kloosterboer Preference Shares ⁽³⁾	Level 3	\$ 304	\$ 279

(1) The investments in equity securities carried at fair value are subject to transfer restrictions and generally cannot be sold without consent.

(2) The carrying value of long-term debt is disclosed in Note 8, Debt.

(3) The carrying value of Kloosterboer Preference Shares is disclosed in Note 2, Capital structure and noncontrolling interests.

As of June 30, 2026, the Company's Level 3 liabilities excluded \$4 million of acquisition related contingent consideration for which the liability is determined based on actual results, as stipulated by the related purchase agreement. The final earnout amount has been agreed upon, and payment will be made in accordance with the agreement between the Company and the seller.

In accordance with GAAP, the Company has elected to remeasure investments without readily determinable fair values only when an observable transaction occurs for an identical or similar investment of the same issuer. During the three and six months ended June 30, 2026 and 2025, the Company recorded immaterial non-recurring fair value adjustments within Other nonoperating income (expense), net in the condensed consolidated statements of operations and comprehensive income (loss) related to certain other investments without readily determinable fair values.

The Company's long-term debt is reported at the aggregate principal amount less unamortized deferred financing costs and any above or below market adjustments (as required in purchase accounting) in the condensed consolidated balance sheets. For instruments with no prepayment option, the fair value is estimated utilizing a discounted cash flow model where the contractual cash flows (i.e., coupon and principal repayments) were discounted at a risk-adjusted yield reflective of both the time value of money and the credit risk inherent in each instrument. For instruments that include a prior-to-maturity prepayment option, the fair value is estimated using a Black-Derman-Toy lattice model. The inputs used to estimate the fair value of the Company's debt instruments, excluding the 5.25% Notes, are comprised of Level 2 inputs, including risk-free interest rates, credit ratings, and financial metrics for comparable publicly listed companies, and Level 3 inputs, such as risk-adjusted credit spreads based on adjusted yields implied at issuance, and yield volatility

LINEAGE, INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements - Unaudited

(used for instruments with a prepayment option). For the 5.25% Notes, the estimated fair value is determined based on quoted market prices in markets with low trading volumes, which is considered to be Level 2 inputs.

(12) Leases

The Company leases real estate, most significantly warehouses for use in operations, as well as equipment for use within owned and leased warehouses. The Company also leases vehicles, trailers, and other equipment. The Company has not pledged any assets as collateral related to the Company's existing leases as of June 30, 2026 and December 31, 2025.

Right-of-use asset balances are as follows:

<i>(in millions)</i>	June 30, 2026	December 31, 2025
Finance lease right-of-use assets	\$ 1,656	\$ 1,638
Less: Accumulated amortization	(589)	(537)
Finance lease right-of-use assets, net	\$ 1,067	\$ 1,101
Operating lease right-of-use assets	\$ 862	\$ 858
Less: Accumulated amortization	(267)	(242)
Operating lease right-of-use assets, net	\$ 595	\$ 616

Lease liabilities are presented in the following line items in the condensed consolidated balance sheets:

<i>(in millions)</i>	June 30, 2026		December 31, 2025	
	Finance Leases	Operating Leases	Finance Leases	Operating Leases
Accounts payable and accrued liabilities	\$ 84	\$ 63	\$ 79	\$ 55
Long-term finance lease obligations	1,195	—	1,216	—
Long-term operating lease obligations	—	574	—	599
Total lease obligations	\$ 1,279	\$ 637	\$ 1,295	\$ 654

Future minimum lease payments for each of the next five years and thereafter as of June 30, 2026 are as follows (in millions):

Years Ending December 31:	Finance Leases	Operating Leases
2026 (six months remaining)	\$ 85	\$ 51
2027	165	100
2028	156	88
2029	154	78
2030	133	71
2031 and thereafter	1,439	657
Total lease payments	2,132	1,045
Less: Imputed interest	(853)	(408)
Total lease obligations	\$ 1,279	\$ 637

LINEAGE, INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements - Unaudited

Supplemental condensed consolidated balance sheets information related to leases is as follows:

	June 30, 2026	December 31, 2025
Weighted average remaining lease term (in years):		
Finance	14.5	14.9
Operating	15.6	15.9
Weighted average discount rate:		
Finance	6.9 %	6.9 %
Operating	6.4 %	6.4 %

The components of lease expense are as follows:

(in millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2026	2025	2026	2025
Finance lease cost:				
Amortization of ROU assets	\$ 26	\$ 26	\$ 53	\$ 52
Interest on lease liabilities	22	22	44	46
Operating lease cost	29	26	54	52
Variable & short-term lease cost	8	9	17	20
Sublease income	(5)	(4)	(9)	(8)
Total lease cost	\$ 80	\$ 79	\$ 159	\$ 162

Supplemental cash flow information related to leases is as follows:

(in millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2026	2025	2026	2025
Cash paid for amounts included in the measurement of lease liability				
Operating cash flows from finance leases	\$ 22	\$ 22	\$ 44	\$ 46
Finance cash flows from finance leases	\$ 21	\$ 107	\$ 40	\$ 128
Operating cash flows from operating leases	\$ 26	\$ 24	\$ 51	\$ 48
ROU assets obtained in exchange for lease obligations (excluding the effect of acquisitions)				
Finance leases	\$ 11	\$ 3	\$ 15	\$ 9
Operating leases	\$ 5	\$ 1	\$ 6	\$ 6

(13) Stock-based compensation

Amended and Restated Lineage 2024 Incentive Award Plan

The Amended and Restated Lineage 2024 Incentive Award Plan (the “2024 Plan”) is administered by certain committees of the Board and provides for the award of RSUs, performance share awards, LTIP Units, stock options, stock appreciation rights, restricted stock, stock payments, dividend equivalents, and other incentive awards, each as defined in the 2024 Plan, to eligible employees, consultants, and members of the Board (collectively, “Plan participants”).

Certain Plan participants were granted awards of RSUs covering shares of the Company’s common stock or interests in the Operating Partnership in the form of LTIP Units. LTIP Units are a class of partnership interests in the Operating

LINEAGE, INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements - Unaudited

Partnership which may be issued to eligible Plan participants for the performance of services to or for benefit of the Company and Operating Partnership. Further description of LTIP Units is available in Note 2, *Capital structure and noncontrolling interests*. Stock-based compensation in the form of LTIP Units is recorded in Noncontrolling interests in the condensed consolidated statements of redeemable noncontrolling interests and equity.

Certain RSUs and LTIP Units contain only a service vesting condition ("time-based"). Performance-based RSUs and performance-based LTIP Units vest based on the achievement of Company performance metrics over the applicable performance period, which vary by grant year and award population. Awards granted in 2024 and 2025 are subject to performance targets based on Same Warehouse NOI Growth ("SS NOI Growth") and cumulative Adjusted Funds from Operations per share ("AFFO per share") over the performance period. Awards granted in 2026 are subject to performance targets based on a cumulative Same Warehouse NOI target and a cumulative AFFO per share target. Certain performance-based RSUs granted to executive, corporate, and operations leaders are instead subject to a performance target based on Adjusted EBITDA, as defined in the applicable award agreement. No performance-based LTIP Units are subject to an Adjusted EBITDA-based performance target. Certain performance-based RSUs and performance-based LTIP Units are also subject to a modifier based on the Company's relative total shareholder return ("TSR") measured against a specified peer group or index over the same performance period, which can increase or decrease the number of units ultimately earned.

For performance-based RSUs and performance-based LTIP Units that include a relative TSR modifier, the grant date fair value of the TSR component is estimated using a Monte Carlo simulation model, incorporating assumptions for expected stock price volatility, risk-free interest rate, expected term, and dividend yield, consistent with ASC 718, *Compensation—Stock Compensation*. Because the TSR modifier is a market condition reflected in the grant date fair value of the award, compensation cost attributable to the TSR modifier is not subsequently reassessed for probability of achievement and continues to be recognized over the requisite service period, provided the requisite service is rendered, regardless of whether the TSR condition is ultimately satisfied.

The following are details of grants and related expenses recognized during the periods presented.

(a) *Restricted stock units*

Time-based stock units granted during the six months ended June 30, 2026 consisted of the following: a) 1,040,883 units with a three-year vesting period and a grant date fair value of \$34 million in connection with the annual grant for executive, corporate, and operations leaders; and b) 17,960 units with a one-year vesting period and a grant date fair value of \$1 million in connection with the annual grant for Board members.

Performance-based stock units granted during the six months ended June 30, 2026 consisted of the following: a) 245,072 units with a one-year vesting period and a grant date fair value of \$10 million in connection with the annual grant for executive, corporate, and operations leaders; and b) 75,123 units with a three-year vesting period and a grant date fair value of \$3 million in connection with the annual grant for executive, corporate, and operations leaders.

During the three months ended June 30, 2026, the Company reassessed the probability of achieving the performance conditions associated with its outstanding performance-based RSU awards granted in 2025. Based on updated forecasts and year-to-date performance results, management determined that it was no longer probable that the SS NOI Growth and cumulative AFFO per share targets applicable to the 2025 grants would be fully achieved by the end of the respective performance period. Accordingly, the Company reversed \$5 million of previously recognized stock-based compensation expense related to these awards. This reassessment did not affect performance-based awards granted in other periods or performance-based RSUs subject to Adjusted EBITDA performance targets, for which management continues to believe achievement of the applicable targets remains probable as of June 30, 2026.

LINEAGE, INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements - Unaudited

The following represents a summary of RSUs activity for the six months ended June 30, 2026:

	Time-Based RSUs	Weighted Average Grant Date Fair Value per Unit	Performance-Based RSUs	Weighted Average Grant Date Fair Value per Unit
Unvested as of December 31, 2025	2,132,006	\$ 63.25	520,740	\$ 64.17
Awards granted	1,058,843	33.09	320,195	38.10
Awards vested	(888,500)	69.25	(79,707)	60.70
Awards forfeited	(104,260)	54.88	(79,459)	60.93
Unvested as of June 30, 2026	2,198,089	\$ 46.69	681,769	\$ 53.41

As of June 30, 2026, there was \$88 million of unrecognized stock-based compensation expense related to unvested time-based RSUs that is expected to be recognized over a weighted-average period of 1.4 years.

As of June 30, 2026, there was \$10 million of unrecognized stock-based compensation expense related to unvested performance-based RSUs that is expected to be recognized over a weighted-average period of 1.0 years.

(b) LTIP Units

Time-based LTIP Units granted during the six months ended June 30, 2026 consisted of the following: a) 147,472 units with a three-year vesting period and a grant date fair value of \$5 million in connection with the annual grant for executive, corporate, and operations leaders; and b) 63,637 units with a one-year vesting period and a grant date fair value of \$2 million in connection with the annual grant for executive, corporate, and operations leaders.

Performance-based LTIP Units granted during the six months ended June 30, 2026 consisted of the following: a) 239,056 units with a three-year vesting period and a grant date fair value of \$8 million in connection with the annual grant for executive, corporate, and operations leaders; and b) 224,319 units with a one-year vesting period and a grant date fair value of \$7 million in connection with the annual grant for executive, corporate, and operations leaders.

Consistent with the performance-based RSUs, the Company reevaluated the likelihood of achieving certain performance conditions associated with outstanding performance-based LTIP awards and concluded that it is no longer probable the applicable performance targets for SS NOI Growth and AFFO per share will be fully achieved by the end of the performance period for awards granted in 2025. As a result, during the three months ended June 30, 2026, the Company reversed previously recognized stock-based compensation expense of \$5 million related to these awards.

The following represents a summary of LTIP Units activity for the six months ended June 30, 2026:

	Time-Based LTIP Units	Weighted Average Grant Date Fair Value per Unit	Performance-Based LTIP Units	Weighted Average Grant Date Fair Value per Unit
Unvested as of December 31, 2025	1,018,783	\$ 80.20	2,242,978	\$ 83.54
Awards granted	211,109	32.78	463,375	33.22
Awards vested	(458,900)	58.57	—	—
Unvested as of June 30, 2026	770,992	\$ 75.99	2,706,353	\$ 74.92

As of June 30, 2026, there was \$39 million of unrecognized stock-based compensation cost related to unvested time-based LTIP Units that is expected to be recognized over a weighted-average period of 0.9 years.

As of June 30, 2026, there was \$11 million of unrecognized stock-based compensation cost related to unvested performance-based LTIP Units that is expected to be recognized over a weighted-average period of 1.2 years.

Stock-Based Compensation Expense

The following table summarizes the Company's stock-based compensation expense by line item in the condensed consolidated statements of operations and comprehensive income (loss):

(in millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2026	2025	2026	2025
Cost of operations	\$ 3	\$ 4	\$ 6	\$ 5
General and administrative expense	20	23	47	59
Acquisition, transaction, and other expense	—	2	—	5
Total stock-based compensation expense	<u>\$ 23</u>	<u>\$ 29</u>	<u>\$ 53</u>	<u>\$ 69</u>

The following table summarizes the Company's stock-based compensation expense by award type:

(in millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2026	2025	2026	2025
Restricted Stock Units:				
Time-based	\$ 16	\$ 19	\$ 31	\$ 35
Performance-based	(2)	3	—	5
LTIP Units:				
Time-based	11	9	20	23
Performance-based	(2)	(2)	2	6
Total stock-based compensation expense	<u>\$ 23</u>	<u>\$ 29</u>	<u>\$ 53</u>	<u>\$ 69</u>

(14) Related-party balances

The Company pays Bay Grove Management a transition services fee and reimburses certain expenses pursuant to a transition services agreement executed in connection with the IPO, which replaced a previously existing operating services agreement. During the three and six months ended June 30, 2026 and 2025 both, the Company recorded \$3 million and \$5 million, respectively, of expenses in General and administrative expense for transition services and expense reimbursements. Accounts payable and accrued liabilities included immaterial amounts in transition services fees and expenses owed to Bay Grove Management as of June 30, 2026 and December 31, 2025.

As of June 30, 2026 and December 31, 2025, Accrued dividends and distributions included dividends declared to all equity holders, including related parties.

The Company owns an investment stake in suppliers that are accounted for under the equity method of accounting, creating related-party relationships. For the six months ended June 30, 2026 and 2025, the Company incurred costs of \$1 million and \$3 million, respectively, with these suppliers, some of which were capitalized. An immaterial amount was incurred for both the three months ended June 30, 2026 and 2025. Accounts payable and accrued liabilities included \$2 million and \$3 million owed to these suppliers as of June 30, 2026 and December 31, 2025, respectively.

(15) Commitments and contingencies

(a) Self-insured risks

The Company is self-insured for workers' compensation costs, with the Company's workers' compensation plan having an individual claim stop-loss deductible of \$1 million. Self-insurance liabilities are determined by third-party actuaries. The Company has established restricted cash accounts with banks or directly with the insurers or letters of credit that are collateral for its self-insured workers' compensation obligations. The combined amount included in Accounts payable and accrued liabilities and Other long-term liabilities related to workers' compensation liabilities as of June 30, 2026 and December 31, 2025 was \$53 million and \$50 million, respectively. The liability represents the gross amount excluding

LINEAGE, INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements - Unaudited

amounts receivable from the insurers. The total included in Prepaid expenses and other current assets and Other assets related to the receivables from insurers as of June 30, 2026 and December 31, 2025 was \$15 million and \$14 million, respectively.

The Company is also self-insured for a portion of employee medical costs. The Company has a medical plan with a retained deductible. Medical self-insurance liabilities are determined by third-party actuaries. The total included in Accounts payable and accrued liabilities related to medical liabilities as of June 30, 2026 and December 31, 2025 was \$11 million and \$14 million, respectively.

(b) Legal and regulatory proceedings

The Company, from time to time and in the normal course of business, is party to various claims, lawsuits, arbitrations, and regulatory actions (collectively, "Claims"). In particular, as the result of numerous ongoing construction activities, the Company may be a party to construction and/or contractor related liens and claims, including mechanic's and materialmen's liens. The Company is also party to various Claims related to commercial disagreements with customers or suppliers. Additionally, given the Company's substantial workforce, and, in particular, its warehouse related workforce, the Company is party to various labor and employment related Claims, including, without limitation, Claims related to workers' compensation, wage and hour, discrimination, and related matters. Finally, given the Company's business of warehousing refrigerated food products and its utilization of anhydrous ammonia for its refrigeration systems (a known hazardous material), the Company is subject to the jurisdiction of various U.S. regulatory agencies, including, without limitation, the Department of Agriculture, Food and Drug Administration, Environmental Protection Agency ("EPA"), Department of Justice, Occupational Safety and Health Administration, and various other agencies in the locations in which the Company operates. Management of the Company believes the ultimate resolution of these matters will not have a material adverse effect on the condensed consolidated financial statements.

(c) Environmental matters

The Company is subject to a wide range of environmental laws and regulations in each of the locations in which the Company operates. Compliance with these requirements can involve significant capital and operating costs. Failure to comply with these requirements can result in civil or criminal fines or sanctions, claims for environmental damages, remediation obligations, the revocation of environmental permits, or restrictions on the Company's operations.

The Company records accruals for environmental matters when it is probable that a liability has been incurred and the amount of the liability can be reasonably estimated based on current law and existing technologies. The Company believes it is in compliance with applicable environmental regulations in all material respects. Under various U.S. federal, state, and local environmental laws, a current or previous owner or operator of real estate may be liable for the entire cost of investigating, removing, and/or remediating hazardous or toxic substances on such property. Such laws often impose liability, whether or not the owner or operator knew of, or was responsible for, the contamination. Even if more than one person may have been responsible for the contamination, each person covered by the environmental laws may be held responsible for the entire clean-up cost. Most of the Company's warehouses utilize anhydrous ammonia as a refrigerant. Anhydrous ammonia is classified as a hazardous chemical regulated by the EPA and various other agencies in the locations in which the Company operates, and an accident or significant release of anhydrous ammonia from a warehouse could result in injuries, loss of life, and property damage. There are no material liabilities arising out of environmental matters as of June 30, 2026 and December 31, 2025.

(d) Occupational Safety and Health Act (OSHA)

The Company's warehouses located in the U.S. are subject to regulation under OSHA, which requires employers to provide employees with an environment free from hazards, such as exposure to toxic chemicals, excessive noise levels, mechanical dangers, heat or cold stress, and unsanitary conditions. The cost of complying with OSHA and similar laws enacted by states and other jurisdictions in which the Company operates can be substantial, and any failure to comply with these regulations could expose the Company to substantial penalties and/or liabilities to employees who may be injured at the Company's warehouses. The Company records accruals for OSHA matters when it is probable that a liability has been incurred and the amount of the liability can be reasonably estimated. The Company believes that it is in

LINEAGE, INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements - Unaudited

compliance with all OSHA regulations in all material respects and that no material unrecorded liabilities exist as of June 30, 2026 and December 31, 2025.

(e) Kennewick, Washington warehouse fire

On April 21, 2024, a fire occurred at the Company's warehouse in Kennewick, Washington, destroying the building and customer inventories. No employees or other parties were injured. The Company expects the majority of all repair, replacement, and clean-up costs to be covered by its insurance policies, excluding any deductibles and self-insured retentions. The net gain is presented in Restructuring, impairment, and (gain) loss on disposals in the Company's condensed consolidated statements of operations and comprehensive income (loss) and consisted of the following:

(in millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2026	2025	2026	2025
Clean-up costs and legal and administrative fees	\$ 4	\$ —	\$ 5	\$ 1
Less: Insurance reimbursement ⁽¹⁾	(16)	(13)	(20)	(38)
Net (gain) loss	\$ (12)	\$ (13)	\$ (15)	\$ (37)

(1) Includes business interruption insurance recoveries of \$13 million during the three and six months ended June 30, 2026. There were no business interruption insurance recoveries during the three and six months ended June 30, 2025.

In July 2025, the Company received a customer claim for inventories losses associated with the fire. A settlement was reached in May 2026, with no material impact to the Company's consolidated financial statements.

In 2026, a series of lawsuits were filed on behalf of various residents against the Company, the State of Washington and Benton-Franklin Health District, and other defendants alleging damages to certain local residents from the Kennewick fire (collectively the "Kennewick lawsuits"). The Kennewick lawsuits are at a preliminary stage, and while the potential loss from these cases cannot be estimated at this time, the Company believes it has strong defenses to the alleged claims and does not expect the ultimate outcome of the Kennewick lawsuits to have a material adverse impact on the consolidated financial statements.

(f) Tax inquiry

In 2025, the Company received an inquiry from a foreign tax authority related to a historical tax matter. In June 2026, the Company received a notice from the tax authority that the inquiry has been closed and that no further action will be taken. Accordingly, the Company does not expect to incur any loss in connection with this matter.

(g) Lineage, Inc. Securities Litigation (formerly disclosed as City of St. Clair Shores v. Lineage, Inc., et al.)

On August 1, 2025, a putative class action complaint was filed against the Company in the Eastern District of Michigan captioned City of St. Clair Shores Police and Fire Retirement System v. Lineage, Inc., et al., Case No. 2:25-cv-12383 (the "Securities Lawsuit"). The Eastern District entered an order appointing two pension funds as Lead Plaintiffs and consolidating the actions into *In Re Lineage, Inc. Securities Litigation*. The Lead Plaintiffs filed a consolidated amended class action complaint on March 30, 2026.

The Securities Lawsuit alleges violations of Sections 11 and 15 of the Securities Act of 1933 on behalf of a putative class of investors who purchased the Company's common stock in the IPO (the "Plaintiffs"). The complaint names as defendants the Company, certain of its current officers and directors, Bay Grove Capital Group LLC, and the Company's underwriters in the IPO (the "Defendants"). The complaint alleges, among other things, that the Company and certain of its current officers and directors made false and misleading statements and failed to disclose certain information regarding the Company's business prospects in the lead-up to the IPO. The Plaintiffs seek damages, interest, costs, expenses, attorneys' fees, and other unspecified equitable relief. The case is at a preliminary stage. The Defendants intend to vigorously defend against the claims in the Securities Lawsuit. The Company is not able to estimate the possible loss or range of loss in connection with this matter at this time.

LINEAGE, INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements - Unaudited

(h) Los Angeles, California warehouse fire

On June 17, 2026, a fire occurred at one of the Company's leased warehouses in Los Angeles, California, destroying portions of the warehouse and all customer inventories. The warehouse is a finance lease asset, and the Company has a contractual obligation to restore the warehouse to its condition immediately before the fire. Under ASC 842, *Leases*, this obligation constitutes contingent variable lease payments which were triggered by the damage resulting from the fire. As the lessor is a named beneficiary of the Company's insurance policy on the warehouse, any insurance reimbursements related to restoring the warehouse that the lessor is entitled to receive and obligated to reimburse the Company will reduce the Company's variable lease payments. As such, the Company's lease obligations will be recorded net of reimbursements received. The Company will remeasure the right of use asset and lease liability when the total cost to restore the building and the insurance reimbursement amount are known. Until the final amounts are known, the Company records all costs incurred to restore the building as a lease deposit asset, included in Prepaid expenses and other current assets on the condensed consolidated balance sheets. This asset is offset by reimbursements of the related costs. As of June 30, 2026, the lease deposit balance, representing net unreimbursed costs, was \$3 million.

The right-of-use asset was determined not to be impaired. The Company recorded an immaterial impairment of the Company's machinery and equipment assets during the three and six months ended June 30, 2026.

Impairment loss and legal and administrative fees incurred during the three and six months ended June 30, 2026 were \$8 million and are presented in Restructuring, impairment, and (gain) loss on disposals in the Company's condensed consolidated statements of operations and comprehensive income (loss). Also included in this amount is a \$2 million donation the Company made to a non-profit organization to assist with negative impacts on the local community from the fire.

At this time, the Company is unable to estimate the total expected costs for clean-up, remediation, and recovery of the building. We expect to incur at least \$50 million in costs related to the initial clean up and demolition, but the Company is still evaluating the extent of the damage and estimating the costs to rebuild, which will impact the total cost estimate. The Company has notified its insurers of the loss and are partnering with insurers to provide the information they have requested to assess the claim.

The Company received customer claims for inventory losses associated with the fire. Additionally, a series of class action lawsuits have been filed by local residents alleging harm caused by the fire. All of these matters are at a preliminary stage, and while the potential loss from them cannot be estimated at this time, the Company believes it has strong defenses to the alleged claims, and intends to seek recovery under applicable insurance policies and pursue indemnification under contract and/or applicable laws.

LINEAGE, INC. AND SUBSIDIARIES

LINEAGE, INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements - Unaudited

(17) Earnings (loss) per share

Basic EPS is calculated by dividing net income (loss) attributable to common stockholders of the Company by the weighted average common shares outstanding during the reporting period. Diluted EPS is calculated by dividing net income (loss) attributable to common stockholders adjusted for any dilutive instruments of the Company by the weighted average common shares and common share equivalents outstanding during the reporting period. A reconciliation of the basic and diluted EPS is as follows:

(in millions, except per share amounts)	Three Months Ended June 30,		Six Months Ended June 30,	
	2026	2025	2026	2025
Earnings (loss) per share - basic and diluted:				
Net income (loss) attributable to Lineage, Inc.	\$ (29)	\$ (6)	\$ (75)	\$ (6)
Less: Redeemable noncontrolling interest redemption value adjustment	—	—	(5)	(2)
Net income (loss) attributable to common stockholders - basic and diluted	\$ (29)	\$ (6)	\$ (70)	\$ (4)
Weighted average common shares outstanding - basic and diluted	228	229	227	228
Net income (loss) per share attributable to common stockholders - basic and diluted	<u>\$ (0.13)</u>	<u>\$ (0.03)</u>	<u>\$ (0.31)</u>	<u>\$ (0.02)</u>

The Company's potential dilutive securities have been excluded from the computation of diluted net earnings (loss) per share, as they are antidilutive. Therefore, the weighted average number of common shares outstanding used to calculate both basic and diluted net earnings (loss) per share attributable to common stockholders is the same.

The Company's potential common share equivalents as of June 30, 2026 and 2025 are as follows:

- Non-Company LPs who hold partnership common units have certain redemption rights which allow them to require the Operating Partnership to repurchase the partnership common units in exchange for cash or, at the option of the Company, shares of Lineage, Inc. common stock. Other classes of Operating Partnership and LLH equity interests held by Non-Company LPs and BG Maverick, including Legacy OP Units, LTIP Units, and OPEUs may also be exchanged for partnership common units at future dates. The shares of Lineage, Inc. common stock which could be issued in connection with a hypothetical repurchase of currently outstanding partnership common units or potentially outstanding partnership common units issued in exchange for Legacy OP Units, LTIP Units, and OPEUs represent potential common share equivalents.
- The Company issued certain put options with special redemption and top-up rights in 2024 (the "Put Options"). In accordance with ASC 260, *Earnings per Share*, the incremental shares associated with satisfaction of the Put Options utilizing proceeds of a hypothetical issuance of common shares at market prices represent potential common share equivalents. Payments of top-up rights in the form of shares of common stock represented potential common share equivalents as of June 30, 2025. All Put Options were settled in 2025.
- The Preference Shares further described in Note 2, *Capital structure and noncontrolling interests* will be redeemed for cash or a variable number of shares of the Company's common stock on October 1, 2026. The Company's common shares that could be issued to the Co-Investor in settlement of the Preference Shares represent potential common share equivalents.
- Contingent consideration in the form of Operating Partnership units issued in a 2020 acquisition, which shall be issued if a certain customer exercises its purchase option, represent potential common share equivalents as of June 30, 2026 and 2025.

LINEAGE, INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements - Unaudited

- Time-based RSUs and performance-based RSUs that were unvested as of June 30, 2026 and 2025 represent potential common share equivalents because upon vesting, the Company will issue common shares to the awardee.

(18) Segment information

Reportable Segments Information

The Company's business is organized into two reportable segments, Global Warehousing and Global Integrated Solutions. The following table presents segment revenues, segment cost of operations, and segment net operating income ("NOI"), with a reconciliation to Net income (loss) before income taxes. All inter-segment transactions are not significant and have been eliminated in consolidation. Asset information by reportable segment is not presented, as the Company does not produce such information internally and the chief operating decision maker does not use such information to manage the business. Capital expenditures for property, plant, and equipment presented below by segment are inclusive of purchases recorded in Accounts payable and accrued liabilities during each period.

(1) Cost of operations in the Global Integrated Solutions segment primarily consists of third-party carrier charges, labor, fuel, and rail and vehicle maintenance.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion of our financial condition and results of operations should be read together with the condensed consolidated financial statements and related notes included in this Quarterly Report on Form 10-Q, as well as our audited consolidated financial statements and related notes included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2025 (the "2025 Annual Report on Form 10-K"). In addition, the following discussion contains forward-looking statements, such as statements regarding our expectation for future performance, liquidity, and capital resources, that involve risks, uncertainties, and assumptions that could cause actual results to differ materially from our expectations. Our actual results may differ materially from those contained in or implied by any forward-looking statements as a result of various factors, including those set forth below and those described under Item 1A. Risk Factors of our 2025 Annual Report on Form 10-K.

Management's Overview

We are the world's largest global temperature-controlled warehouse REIT, with a modern and strategically located network of properties. Our business is competitively positioned to deliver a seamless end-to-end, technology-enabled experience for a well-diversified and stable customer base, each with their own unique requirements in the temperature-controlled supply chain. As of June 30, 2026, we operated an interconnected global temperature-controlled warehouse network, comprising approximately 87 million square feet and 3.1 billion cubic feet of capacity across 498 warehouses predominantly located in densely populated critical-distribution markets, with 323 in North America, 89 in Asia-Pacific, and 86 in Europe.

We analyze the results of our operations through the following segments:

- **Global Warehousing** - This segment utilizes our high-quality industrial real estate properties to provide temperature-controlled warehousing storage and services to our customers; and
- **Global Integrated Solutions** - This segment complements Global Warehousing with specialized cold-chain services to facilitate the movement of products through the food supply chain, create cost savings for customers and generate additional revenue for our Company.

Components of Our Results of Operations

Global Warehousing Segment. Our primary business is owning and operating temperature-controlled warehouses.

Revenue. Our Global Warehousing segment revenues are generated from storing frozen and perishable food and other products and providing related warehouse services for our customers. Storage revenues relate to the act of storing products for our customers within our warehouses. Storage revenues can be in the form of storage fees we charge customers for utilization of non-exclusive space or a set amount of reserved space in a warehouse, blast freezing fees we charge customers for utilization of specific ultra-cold spaces within a warehouse designed to rapidly reduce product temperature, and rent we charge customers for the lease of warehouse space pursuant to a lease agreement.

Warehouse services fees relate to handling and other services required to prepare and move customers' pallets into, out of, and around the facilities. As part of our warehouse services, we offer receipt, handling, case-picking, retrieval of products from storage, building customized pallets and repackaging, order assembly and load consolidation, exporting and importing support services, container handling, cross-docking, quality control, and government-approved storage and inspection, among other services.

We utilize one of four types of contracts with our customers for use of space within our warehouses – warehouse agreements, rate letters, tariff sheets, and lease agreements. We may have one contract with a customer that covers all of the warehouses where we store products for the customer or, more typically, multiple contracts with the same customer, which may be driven by a variety of

factors, such as the geographic location of the products stored by the customer, the type of products stored by the customer, or the different business units of a customer.

- *Warehouse Agreements.* Warehouse agreements are designed to accommodate the individual needs and characteristics of our customers and may include negotiated provisions, such as a fixed term, transactional pricing for warehouse services, pricing increase mechanisms based on inflationary cost increases and customer profile changes, a storage fee based on a minimum storage guarantee of the customer, additional storage fees based on on-demand storage used, a warehouseman's lien on customer products held in our warehouses as security for payments, and provisions for interest and late payments. The initial term of our warehouse agreements generally ranges from one to five years for typical customer relationships and 10 to 20 years for build-to-suit warehouses. Renewal periods, in each case, generally range from one to five years. Inflationary price increase mechanisms may be fixed or tied to relevant market indices, giving us the ability to recover costs for wage increases, increases in rent, power, real estate, and other costs.
- *Rate Letters.* Rate letters are agreements that typically establish storage fee rates on products stored in our warehouses and rates for warehouse services pursuant to terms set forth on a standardized warehouse receipt and related rate schedule. Rate letters may have terms similar to our warehouse agreements, including minimum storage guarantees, and are typically for a term of one year or less. Rate letters generally require our customers to pay for storage in seven to 30-day increments.
- *Tariff Sheets.* Similar to rate letters, tariff sheets are agreements that establish storage fee rates on products stored in our warehouses and on an as-utilized, on-demand basis, pursuant to terms set forth on a standardized warehouse receipt but that do not require the customer to use our warehouse or for us to reserve space for these customers; however, our tariff sheets in certain jurisdictions may provide for a de minimis minimum monthly payment from a customer to maintain its access to a given warehouse. Our tariff sheets are updated annually, and the agreements are short-term in nature.
- *Leases.* We lease space to certain customers that desire to manage their own temperature-controlled warehousing or carry on processing operations in warehouses adjacent, or in close proximity, to their production facilities. Our customer leased warehouses are typically leased to third parties, such as food producers, distributors and retailers, under triple net lease agreements pursuant to which the customer is responsible for all costs incurred for facility maintenance, insurance, taxes, utilities, and other services necessary or appropriate for the applicable warehouse and the business conducted at the applicable warehouse. We typically charge rent based on the square footage leased in our warehouses. We consider the creditworthiness of a potential tenant to be an important consideration in determining whether to engage in a new lease agreement.

Cost of operations. Our Global Warehousing segment cost of operations consists primarily of labor, power, and other warehouse costs. Labor comprises the largest component of the cost of operations from our Global Warehousing segment and consists primarily of employee wages (both direct and indirect) and benefits, excluding stock-based compensation. Changes in our labor expense are driven by, among other things, changes in headcount, changes in compensation levels and associated performance incentives, the use of third-party labor to support our operations, changes in terms of collective bargaining agreements, changes in customer requirements and associated work content, workforce productivity, labor availability, governmental policies and regulations, and variability in costs associated with employer-provided benefits.

Our second-largest cost of operations is power utilized in the operation of our temperature-controlled warehouses. We may, from time to time, hedge our exposure to changes in power prices through fixed rate agreements. In addition, to the extent possible and appropriate, we may seek to mitigate or offset the impact of fluctuations in the price of power on our financial results through rate escalations or power surcharge provisions within our agreements with customers. We also look to implement energy saving alternatives to reduce energy consumption, including the installation of solar panels, state of the art refrigeration control systems, LED lighting, thermal energy storage, motion-sensor technology, variable frequency drives for our fans and compressors, and rapid open/close doors. Additionally, business mix impacts our power expense depending on the temperature zone and type and frequency of freezing required (e.g., blast freezing).

Other warehouse costs include utilities other than power, insurance, real estate taxes, repairs and maintenance, rent under real property operating leases where applicable, equipment costs, warehouse consumables (e.g., pallets and shrink-wrap), personal protective equipment, warehouse administration, and other related facility and services costs.

Global Integrated Solutions Segment. Our Global Integrated Solutions segment provides our customers with a comprehensive approach to facilitate the movement of products along the supply chain.

Revenues. Our Global Integrated Solutions segment revenues are primarily driven by transportation fees, which may also include fuel and capacity surcharges, to our customers for whom we arrange the transportation of their products. Within transportation, our core focus areas are multi-vendor less-than-full-truckload consolidation, drayage services to and from ports, transportation brokerage, and freight forwarding. We also provide rail transportation services and, in select markets, foodservice distribution and e-commerce fulfillment services.

Cost of operations. Our Global Integrated Solutions cost of operations consists primarily of third-party carrier charges, which are impacted by factors affecting those carriers, including truck and ocean liner capacity and driver and equipment availability. Additionally, in certain markets we employ drivers and operate assets to serve our customers. Costs to operate these assets include wages (excluding stock-based compensation), fuel, tolls, insurance, and maintenance.

Other Consolidated Operating Expenses.

Depreciation and amortization expense. Our depreciation and amortization expense result primarily from the capital-intensive nature of our business. The principal components of depreciation relate to our warehouses, both owned and leased, including buildings and improvements, refrigeration equipment, racking, leasehold improvements, material handling equipment, furniture and fixtures, our computer hardware, and internal use software. We also incur depreciation related to owned transportation assets. Amortization relates primarily to intangible assets for customer relationships and finance lease right-of-use assets.

General and administrative expense. Our general and administrative expense consists primarily of costs associated with the administration of our Global Warehousing and Global Integrated Solutions segments, including management wages and benefits, administrative, legal, business development, project management, sales, marketing, engineering, safety and compliance, food optimization, human resources, finance, accounting, network optimization, data science, and information technology personnel, transformational information technology expenses, equity incentive plans, communications and data processing, travel, professional fees, credit loss, training, office equipment, supplies, and transition services fees paid to Bay Grove for certain operating, strategic development, and financial services while we internalize such functions in the three years post-IPO. Trends in general and administrative expenses are influenced by changes in headcount and compensation levels and achievement of incentive compensation targets.

Acquisition, transaction, and other expense. Our acquisition, transaction, and other expense consists of costs with a high level of variability from period-to-period and include professional fees associated with planned and completed business expansion activities, and acquisition integration costs. It also includes legal and administrative costs associated with filing of other registration statements, and expenses incurred in connection with the coordinated settlement process that will occur for up to three years post-IPO for all legacy investors in BGLH. These costs are expensed as incurred. Employee-related expenses also include costs associated with acquisitions, such as acquisition-related severance and consulting agreements and certain cash-based incentive awards given to employees of legacy companies in acquisitions.

Restructuring, impairment, and (gain) loss on disposals. Our restructuring, impairment, and (gain) loss on disposals include certain contractual and negotiated severance and separation costs from exited former executives, costs related to reductions in headcount to achieve operational efficiencies, and costs associated with exiting non-strategic operations. We record such costs when there is a substantive plan for employee severance or employees are otherwise entitled to benefits (e.g., in case of one-time terminations) and related costs are probable and estimable. It also includes gains (losses) on dispositions of property, plant, and equipment and impairments of long-lived assets, net of related gains on insurance recoveries, excluding impairments of goodwill. This includes costs incurred as a result of property damage events, such as fires, including impairment and other asset write-offs, cleanup and remediation costs, and legal and administrative fees, net of any gains on insurance recoveries.

Key Factors Affecting Our Business and Financial Results

Market Conditions

Our business is impacted by general economic and market conditions, as well as by national and international political, environmental, and socio-economic events.

Significant factors impacting our business have included:

- *Inflation and Customer Rate Increases*. We are continuing to see pricing pressure in certain markets with excess capacity, but overall pricing has remained stable within a range based upon types of services provided, seasonal harvests, and types of customers (local versus export). We believe that higher food costs have continued to impact end-consumers' buying decisions for certain commodities, which could negatively impact specific customers; however, overall demand in retail and foodservice has grown recently, according to market data. Inflation overall has progressed toward more normal levels; however, tariff and other trade policies have continued to cause overall uncertainty and aggravated inflation in certain sectors, particularly in North America.
- *Occupancy and Throughput*. After a period of inventory adjustments from our customers over the last few years, we are seeing our occupancy levels stabilize and a return to more normal seasonal inventory patterns. Occupancy, throughput, and related ancillary services were also impacted by evolving tariff and trade policies. As trade agreements were reached, we saw stabilization in our customers' business, and end-consumer demand became consistent with historic levels. Additionally, in recent years, new supply of temperature-controlled warehousing capacity has come online in select markets, which continues to impact occupancy and throughput in those markets with excess capacity. We are seeing slowdown in new supply coming online in 2026 compared to recent years. To optimize our Global Warehousing network and maximize NOI, we review our operations to determine whether it is beneficial to reposition or temporarily idle existing warehouses or consolidate existing operations. When such actions are taken, we strive to relocate customers affected by such activities into other warehouses in our Global Warehousing network.
- *Labor*. Following headwinds in recent years from wage inflation, labor shortages, and team member turnover, our team has focused on strategic initiatives to decrease turnover through our stock-based compensation awards, higher wages, engagement best practices, and training to help retain talent. Retention has improved due to these internal efforts and macroeconomic factors.
- *Energy Costs*. Following increased costs in prior years, particularly in our European operations, our power costs have stabilized. While we have limited direct exposure to the Middle East and we expect the near-term impact to be materially net neutral, we are monitoring developments with respect to the ongoing conflict with Iran, including the impact on global commodity prices. We have generally been able to pass increased power costs through to our customers, and, in certain cases, we use energy hedges, regulate utilities usage, and generate in-house solar energy, all mitigating the impact of energy cost increases on our operating results.

Refer to Item 1A. "Risk Factors" for additional information.

Foreign Currency Translation Impact on Our Operations

Our consolidated revenues and expenses are subject to variations caused by the net effect of foreign currency translation on revenues and expenses incurred by our operations outside the United States. Future fluctuations of foreign currency exchange rates and their impact on our consolidated financial statements are inherently uncertain. Our primary currency exposures are to the euro, Canadian dollar, British pound sterling, and Australian dollar. Revenues and expenses are typically denominated in the local currency of the country in which they are derived or incurred, which partially mitigates the net impact of foreign currency fluctuations on our operating results and margins.

How We Assess the Performance of Our Business

Segment Net Operating Income or “Segment NOI”

We evaluate the performance of our segments based on their net operating income relative to our overall results of operations. We use the term “segment net operating income” or “segment NOI” to mean a segment’s revenues less its cost of operations (excluding any depreciation and amortization, general and administrative expense, stock-based compensation expense and related employer-paid payroll taxes from grants under our equity incentive plans, restructuring and impairment expense, gain and loss on sale of assets, and acquisition, transaction, and other expense). We use segment NOI to evaluate our segments for purposes of making operating decisions and assessing performance in accordance with Accounting Standards Codification (“ASC”) 280, *Segment Reporting*.

We also analyze the “segment NOI margin” to evaluate the performance of our segments, which we calculate as segment NOI divided by segment revenues.

Same Warehouse Analysis

In addition to segment NOI, we further evaluate the performance of our Global Warehousing segment using a “same warehouse” analysis, which isolates the operating performance of a consistent population of warehouses from period to period. We define our “same warehouse” population annually at the beginning of the calendar year. Our same warehouse population includes properties that were owned, leased, or managed for the entirety of two comparable periods and that have reported at least twelve months of consecutive normalized operations prior to January 1 of the current calendar year. We define “normalized operations” as properties that have been open for operation or lease after development or significant modification, including the expansion of a warehouse footprint or a warehouse rehabilitation subsequent to an event, such as a natural disaster or similar event causing disruption to operations. In addition, our definition of “normalized operations” takes into account changes in the ownership structure (e.g., purchase of a previously leased warehouse would result in a change in the nature of expenditures in the compared periods), which would impact comparability in our Global Warehousing segment NOI.

Acquired properties will be included in the “same warehouse” population if owned or leased by us as of the first business day of the prior calendar year and still owned by us as of the end of the current reporting period, unless the property is under development. The “same warehouse” pool can also be adjusted during the year to remove properties that were sold, entering development, or in operational transition subsequent to the beginning of the current calendar year. As such, the “same warehouse” population for the period ended June 30, 2026 includes all properties that we owned as of January 1, 2025 which had both been owned and had reached “normalized operations” by January 1, 2025.

We calculate “same warehouse NOI” as revenues for the same warehouse population less its cost of operations (excluding any depreciation and amortization, general and administrative expense, stock-based compensation expense and related employer-paid payroll taxes from grants under our equity incentive plans, restructuring and impairment expense, gain and loss on sale of assets, and acquisition, transaction, and other expense). We evaluate the performance of the warehouses we own, lease, or manage using a “same warehouse” analysis, and we believe that same warehouse NOI is helpful to investors as a supplemental performance measure because it includes the operating performance from the population of properties that is consistent from period to period, thereby eliminating the effects of changes in the composition of our warehouse portfolio on performance measures.

The following table shows the composition of our warehouse portfolio as of June 30, 2026.

Total warehouses ⁽¹⁾	479
Same warehouse	423
Non-same warehouse	56

(1) Excludes 19 warehouses in our Global Integrated Solutions segment as of June 30, 2026. We categorize warehouses as part of our Global Integrated Solutions segment if the primary business conducted in those warehouses is within our Global Integrated Solutions segment.

Same warehouse NOI is not a measurement of financial performance under GAAP. In addition, other companies providing temperature-controlled warehouse storage and handling and other warehouse services may not define same warehouse or calculate same warehouse NOI in a manner consistent with our definition or calculation. Same warehouse NOI should be considered as a supplement, but not as an alternative, to our results calculated in accordance with GAAP. We provide reconciliations of these measures in the discussions of our comparative results of operations below.

Economic Occupancy of Our Warehouses

We define average economic occupancy as the aggregate number of physical pallets on hand and any additional pallet positions otherwise contractually committed and paid for by customers for a given period divided by the approximate number of average physical pallet positions in our warehouse for the applicable period. We estimate the number of contractually committed pallet positions by taking into account the actual pallet commitment specified in each customer's warehouse agreement and subtracting the physical pallets on hand for that customer. We regard economic occupancy as an important driver of our financial results.

Physical Occupancy of Our Warehouses

We define average physical occupancy as the average number of physical pallets on hand divided by the estimated number of average physical pallet positions in our warehouses for the applicable period. We estimate the number of physical pallet positions by taking into account actual racked space and by estimating unracked space on an as-if-racked basis. We base this estimate on a formula utilizing the total cubic feet of each room within the warehouse that is unracked divided by the volume of an assumed rack space that is consistent with the characteristics of the relevant warehouse. The number of our pallet positions is reviewed and updated quarterly, taking into account changes in racking configurations and other warehouse attributes. We regard physical occupancy as an important driver of our financial results.

Throughput at Our Warehouses

The level and nature of throughput at our warehouses is an important factor impacting our warehouse services revenues. Throughput refers to the volume of inbound pallets that enter our warehouses plus the volume of outbound pallets that exit our warehouses, divided by two. Higher levels of throughput drive warehouse services revenues in our Global Warehousing segment, as customers are typically billed transactionally for these services. The nature of throughput may be driven by the expected inventory turns of the underlying product or commodity. Throughput pallets can be influenced by both customers' production as well as shifts in demand preferences. Customers' production levels, which respond to market conditions, labor availability, supply chain dynamics, and consumer preferences, may impact inbound pallets. Similarly, a change in inventory turnover due to shift in consumer demand may impact outbound pallets.

Results of Operations

The following discussion represents our analysis of results of operations for the three and six months ended June 30, 2026 as compared to the three and six months ended June 30, 2025.

Comparison of Results for the Three Months Ended June 30, 2026 and 2025

Global Warehousing Segment

The following table presents the operating results of our Global Warehousing segment for the three months ended June 30, 2026 and 2025.

(in millions except revenue per pallet)	Three Months Ended June 30,		Change
	2026	2025	
Warehouse storage	\$ 514	\$ 514	— %
Warehouse services	491	456	7.7 %
Total global warehousing segment revenues	1,005	970	3.6 %
Labor ⁽¹⁾	391	368	6.3 %
Power	55	51	7.8 %
Other warehouse costs ⁽²⁾	192	184	4.3 %
Total global warehousing segment cost of operations	638	603	5.8 %
Global warehousing segment NOI	\$ 367	\$ 367	— %
Total global warehousing segment margin	36.5 %	37.8 %	(130) bps
Number of warehouse sites	479	481	

Warehouse storage⁽³⁾

Average economic occupancy.

Average occupied economic pallets (in thousands)	8,151	7,998	1.9 %
Economic occupancy percentage	80.0 %	79.1 %	90 bps
Storage revenue per economic occupied pallet	\$ 63.06	\$ 64.12	(1.7) %

Average physical occupancy.

Average physical occupied pallets (in thousands)	7,522	7,412	1.5 %
Average physical pallet positions (in thousands)	10,188	10,105	0.8 %
Physical occupancy percentage	73.8 %	73.3 %	50 bps
Storage revenue per physical occupied pallet	\$ 68.33	\$ 69.20	(1.3) %

Warehouse services⁽³⁾

Throughput pallets (in thousands)	13,910	13,130	5.9 %
Warehouse services revenue per throughput pallet	\$ 32.21	\$ 31.77	1.4 %

(1) Labor cost of operations excludes \$3 million and \$4 million of stock-based compensation expense and related employer-paid payroll taxes for the three months ended June 30, 2026 and 2025, respectively.

(2) Includes real estate rent expense (operating leases) of \$23 million and \$23 million for the three months ended June 30, 2026 and 2025, respectively; and non-real estate rent expense (equipment lease and rentals) of \$7 million and \$5 million for the three months ended June 30, 2026 and 2025, respectively.

(3) Warehouse storage and warehouse services metrics exclude facilities owned or leased by the customer for which we manage the warehouse operations on their behalf ("managed sites").

Global Warehousing segment revenues were \$1,005 million for the three months ended June 30, 2026, an increase of \$35 million, or 3.6%, compared to \$970 million for the three months ended June 30, 2025. The increase was primarily driven by a \$31 million increase in our non-same warehouse pool and a \$4 million increase in our same warehouse pool, further discussed below. The

foreign currency translation of revenues earned by our foreign operations had a \$10 million favorable impact compared to the three months ended June 30, 2025.

Global Warehousing segment cost of operations was \$638 million for the three months ended June 30, 2026, an increase of \$35 million, or 5.8%, compared to \$603 million for the three months ended June 30, 2025. The increase was primarily driven by a \$21 million increase in costs of our non-same warehouse pool and a \$14 million increase in costs of our same warehouse pool, further discussed below. The foreign currency translation of cost of operations from our foreign operations had a \$7 million unfavorable impact compared to the three months ended June 30, 2025.

Global Warehousing segment NOI was \$367 million for the three months ended June 30, 2026, consistent with \$367 million for the three months ended June 30, 2025. This was primarily driven by a \$10 million increase in our non-same warehouse pool, offset by a \$10 million decrease in our same warehouse pool. The foreign currency translation from our foreign operations had a \$3 million net favorable impact compared to the three months ended June 30, 2025.

Same Warehouse Results

The following table presents the operating results for our same warehouses for the three months ended June 30, 2026 and 2025.

<i>(in millions except revenue per pallet)</i>	Three Months Ended June 30,		Change
	2026	2025	
Warehouse storage	\$ 469	\$ 468	0.2 %
Warehouse services	437	434	0.7 %
Total same warehouse revenues	906	902	0.4 %
Labor	349	340	2.6 %
Power	50	47	6.4 %
Other warehouse costs	170	168	1.2 %
Total same warehouse cost of operations	569	555	2.5 %
Same warehouse NOI	\$ 337	\$ 347	(2.9) %
Total same warehouse margin	37.2 %	38.5 %	(130) bps
Number of same warehouse sites ⁽¹⁾	423	423	

Warehouse storage⁽²⁾

Economic occupancy

Average occupied economic pallets (in thousands)	7,498	7,461	0.5 %
Economic occupancy percentage	81.5 %	80.8 %	70 bps
Storage revenue per economic occupied pallet	\$ 62.53	\$ 62.75	(0.4) %

Physical occupancy

Average physical occupied pallets (in thousands)	6,969	6,913	0.8 %
Average physical pallet positions (in thousands)	9,197	9,235	(0.4) %
Physical occupancy percentage	75.8 %	74.9 %	90 bps
Storage revenue per physical occupied pallet	\$ 67.28	\$ 67.73	(0.7) %

Warehouse services⁽²⁾

Throughput pallets (in thousands)	12,279	12,502	(1.8) %
Warehouse services revenue per throughput pallet	\$ 32.18	\$ 31.52	2.1 %

(1) Refer to our "Same Warehouse Analysis," which describes the composition of our same warehouse pool.

(2) Warehouse storage and warehouse services metrics exclude managed sites.

Same warehouse storage revenues increased \$1 million, or 0.2%, compared to the three months ended June 30, 2025, primarily driven by higher average occupancy, partially offset by unfavorable rates. Economic occupancy increased by 70 basis points,

while same warehouse storage revenues per economic occupied pallet decreased (0.4)% compared to three months ended June 30, 2025.

Same warehouse services revenues increased \$3 million, or 0.7%, compared to the three months ended June 30, 2025, primarily due to higher average rates and growth in international markets. Same warehouse services revenue per throughput pallet increased 2.1% compared to the three months ended June 30, 2025.

Same warehouse cost of operations increased \$14 million, or 2.5%, compared to the three months ended June 30, 2025, primarily driven by higher labor costs resulting from increases in wages for temporary contract labor, as well as warehouse services growth in international markets.

Non-Same Warehouse Results

The following table presents the operating results for our non-same warehouses for the three months ended June 30, 2026 and 2025.

<i>(in millions except revenue per pallet)</i>	Three Months Ended June 30,		Change
	2026	2025	
Warehouse storage	\$ 45	\$ 46	(2.2) %
Warehouse services	54	22	145.5 %
Total non-same warehouse revenues	99	68	45.6 %
Labor	42	28	50.0 %
Power	5	4	25.0 %
Other warehouse costs	22	16	37.5 %
Total non-same warehouse cost of operations	69	48	43.8 %
Non-same warehouse NOI	\$ 30	\$ 20	50.0 %
Total non-same warehouse margin	30.3 %	29.4 %	90 bps
Number of non-same warehouse sites ⁽¹⁾	56	58	

Warehouse storage⁽²⁾

Economic occupancy

Average occupied economic pallets (in thousands)	653	537	21.6 %
Economic occupancy percentage	65.9 %	61.7 %	420 bps
Storage revenue per economic occupied pallet	\$ 69.14	\$ 83.13	(16.8) %

Physical occupancy

Average physical occupied pallets (in thousands)	553	499	10.8 %
Average physical pallet positions (in thousands)	991	870	13.9 %
Physical occupancy percentage	55.8 %	57.4 %	(160) bps
Storage revenue per physical occupied pallet	\$ 81.58	\$ 89.53	(8.9) %

Warehouse services⁽²⁾

Throughput pallets (in thousands)	1,631	628	159.7 %
Warehouse services revenue per throughput pallet	\$ 32.42	\$ 36.76	(11.8) %

(1) Refer to our "Same Warehouse Analysis," which describes the composition of our non-same warehouse pool.

(2) Warehouse storage and warehouse services metrics exclude managed sites.

Non-same warehouse revenues increased \$31 million, or 45.6%, compared to the three months ended June 30, 2025, including approximately \$21 million from acquisitions and \$17 million from recently completed greenfield and expansion projects, partially offset by a \$7 million decrease from other non-same warehouse sites.

Non-same warehouse cost of operations increased \$21 million, or 43.8%, compared to the three months ended June 30, 2025, including approximately \$15 million from acquisitions, \$10 million from recently completed greenfield and expansion projects, partially offset by a \$4 million decrease from other non-same warehouse sites.

Global Integrated Solutions Segment

The following table presents the operating results of our Global Integrated Solutions segment for the three months ended June 30, 2026 and 2025.

(in millions)	Three Months Ended June 30,		Change
	2026	2025	
Global Integrated Solutions segment revenues	\$ 356	\$ 380	(6.3) %
Global Integrated Solutions segment cost of operations ⁽¹⁾	295	312	(5.4) %
Global Integrated Solutions segment NOI	<u>\$ 61</u>	<u>\$ 68</u>	<u>(10.3) %</u>
Global Integrated Solutions margin	17.1 %	17.9 %	(80)bps

(1) Cost of operations excludes less than one million and \$1 million of stock-based compensation expense and related employer-paid payroll taxes for the three months ended June 30, 2026 and 2025, respectively.

Global Integrated Solutions segment revenues were \$356 million for the three months ended June 30, 2026, a decrease of \$24 million, or 6.3%, compared to \$380 million for the three months ended June 30, 2025. The decrease was primarily driven by the divestiture of the Spain Transportation business, which occurred in August 2025, partially offset by higher transportation volumes. The foreign currency translation of revenues earned by our foreign operations had a \$3 million favorable impact compared to the three months ended June 30, 2025.

Global Integrated Solutions segment cost of operations was \$295 million for the three months ended June 30, 2026, a decrease of \$17 million, or 5.4%, compared to \$312 million for the three months ended June 30, 2025. The decrease was primarily driven by the above-mentioned divestiture of the Spain Transportation business, partially offset by \$7 million expense associated with a preliminary legal settlement and higher transportation and logistics expenses reflecting the increased cost of fuel and third-party labor. The foreign currency translation of cost of operations from our foreign operations had a \$3 million unfavorable impact compared to the three months ended June 30, 2025.

Global Integrated Solutions segment NOI was \$61 million for the three months ended June 30, 2026, a decrease of \$7 million, or 10.3%, compared to \$68 million for the three months ended June 30, 2025. Foreign currency translation had a less than \$1 million net favorable impact compared to the three months ended June 30, 2025.

Other Consolidated Operating Expenses

(in millions)	Three Months Ended June 30,		Change %
	2026	2025	
Other consolidated operating expense:			
Depreciation and amortization expense	\$ 237	\$ 224	5.8 %
General and administrative expense	\$ 138	\$ 143	(3.5) %
Acquisition, transaction, and other expense	\$ —	\$ 37	n.m. ⁽¹⁾
Restructuring, impairment, and (gain) loss on disposals	\$ (4)	\$ 3	n.m. ⁽¹⁾

(1) n.m. (not meaningful) throughout this Quarterly Report is used in place of percentage changes where the change is excessive, involves a comparison between income and loss amounts, or involves a comparison to zero.

Depreciation and amortization expense. Depreciation and amortization expense was \$237 million for the three months ended June 30, 2026, an increase of \$13 million, or 5.8%, compared to \$224 million for the three months ended June 30, 2025. The increase was primarily related to acquisitions, greenfield and expansion projects, and information technology investments.

General and administrative expense. General and administrative expense was \$138 million for the three months ended June 30, 2026, a decrease of \$5 million, or 3.5%, compared to \$143 million for the three months ended June 30, 2025. The decrease was primarily due to lower professional fees, including legal, tax, and audit fees and broader cost-saving initiatives. For the three months ended June 30, 2026 and 2025, general and administrative expense was 10.1% and 10.6% of total revenues, respectively.

Acquisition, transaction, and other expense. Acquisition, transaction, and other expense was less than \$1 million for the three months ended June 30, 2026, compared to \$37 million for the three months ended June 30, 2025. The decrease was primarily due to 2025 fair value adjustments of the Put Options issued in connection with the IPO and stock-based compensation expense for one-time IPO awards, as well as lower legal and professional fees from reduced acquisition activity. For further detail on stock-based compensation costs, see Note 13, *Stock-based compensation* to the condensed consolidated financial statements included in this Quarterly Report.

Restructuring, impairment, and (gain) loss on disposals. Restructuring, impairment, and (gain) loss on disposals were a net gain of \$4 million for the three months ended June 30, 2026, a decrease of \$7 million compared to net expenses of \$3 million for the three months ended June 30, 2025. The decrease was primarily due to \$7 million of estimated lease exit costs related to a previously acquired facility that were incurred in the three months ended June 30, 2025 and did not recur in 2026, a \$5 million decrease in severance costs, and a \$3 million favorable impact from fixed asset disposal activity, partially offset by \$8 million of impairment loss and legal and administrative fees related to a fire that occurred in our Los Angeles, California warehouse in June 2026. For further detail related to the Los Angeles, California warehouse fire, see Note 15, *Commitments and contingencies* in our condensed consolidated financial statements included in this Quarterly Report.

Other Income (Expense)

The following table presents other items of income and expense for the three months ended June 30, 2026 and 2025.

(in millions)	Three Months Ended June 30,		Change %
	2026	2025	
Other income (expense):			
Interest expense, net	\$ (87)	\$ (67)	29.9 %
Gain (loss) on foreign currency transactions, net	\$ —	\$ 26	n.m.
Equity income (loss), net of tax	\$ —	\$ 3	n.m.
Other nonoperating income (expense), net	\$ —	\$ 1	n.m.

Interest expense, net. We reported net interest expense of \$87 million for the three months ended June 30, 2026, an increase of \$20 million, or 29.9%, compared to \$67 million for the three months ended June 30, 2025, primarily driven by a decrease in income generated from hedging instruments, the increase of average debt balances, and the extension of our debt maturity via the issuance of new senior unsecured notes in 2025. The impact driven by the aforementioned factors was partially offset by decreases in benchmark interest rates determining the interest rates on our variable-rate debt.

The average effective interest rate of our outstanding debt was 4.3% for the three months ended June 30, 2026, the same as 4.3% for the three months ended June 30, 2025. The expiration of hedging instruments outstanding during the three months ended June 30, 2025, along with higher total borrowings between June 30, 2025 and June 30, 2026, have resulted in our current hedging instruments accounting for a reduced portion of overall borrowings. Additionally, the fixed rates at which our variable-rate borrowings are effectively locked in are higher under the current hedging instruments relative to the prior ones. When taking into account income generated from hedging instruments, the average effective interest rate of our outstanding debt was 4.2% for the three months ended June 30, 2026, an increase from 3.0% for the three months ended June 30, 2025. For additional information regarding our net interest expense, see Note 10, *Interest expense* in our condensed consolidated financial statements included in this Quarterly Report.

Gain (loss) on foreign currency transactions, net. We did not recognize a significant gain (loss) on foreign currency transactions for the three months ended June 30, 2026, compared to a net gain of \$26 million for the three months ended June 30, 2025. The decrease in gain on foreign currency exchange was due to movements in foreign currency exchange rates against the U.S. dollar, primarily driven by the euro.

Equity income (loss), net of tax. We did not recognize significant income (loss) from equity method investments for the three months ended June 30, 2026, compared to net income of \$3 million for the three months ended June 30, 2025.

Income Tax Expense (Benefit)

Income tax benefit for the three months ended June 30, 2026 was \$1 million, which represented a decrease of \$6 million from an income tax benefit of \$7 million for the three months ended June 30, 2025. The tax expense in 2026 and 2025 was principally the result of the tax-effect of pre-tax earnings in various jurisdictions, nondeductible expenses, including stock-based compensation and interest expense, and financial statement losses for which no tax benefit was recognized. The change in income tax benefit between the periods is primarily a result of the changes in pre-tax earnings between various tax filing groups. Our income taxes are discussed in more detail in Note 7, *Income taxes* to the condensed consolidated financial statements included in this Quarterly Report.

Comparison of Results for the Six Months Ended June 30, 2026 and 2025

Global Warehousing Segment

The following table presents the operating results of our Global Warehousing segment for the six months ended June 30, 2026 and 2025.

(in millions except revenue per pallet)	Six Months Ended June 30,		Change
	2026	2025	
Warehouse storage	\$ 1,028	\$ 1,005	2.3 %
Warehouse services	962	909	5.8 %
Total Global Warehousing segment revenues	1,990	1,914	4.0 %
Labor ⁽¹⁾	772	724	6.6 %
Power	109	100	9.0 %
Other warehouse costs ⁽²⁾	378	363	4.1 %
Total Global Warehousing segment cost of operations	1,259	1,187	6.1 %
Global warehousing segment NOI	\$ 731	\$ 727	0.6 %
Total Global Warehousing segment margin	36.7 %	38.0 %	(130) bps
Number of warehouse sites	479	481	

Warehouse storage⁽³⁾

Average economic occupancy

Average occupied economic pallets (in thousands)	8,158	8,027	1.6 %
Economic occupancy percentage	80.0 %	80.1 %	(10) bps
Storage revenue per economic occupied pallet	\$ 62.95	\$ 62.52	0.7 %

Average physical occupancy

Average physical occupied pallets (in thousands)	7,563	7,459	1.4 %
Average physical pallet positions (in thousands)	10,202	10,027	1.7 %

Storage revenue per physical occupied pallet	\$ 67.90	\$ 67.29	0.9 %

Warehouse services⁽³⁾

Throughput pallets (in thousands)	27,456	26,114	5.1 %
Warehouse services revenue per throughput pallet	\$ 32.02	\$ 31.86	0.5 %

(1) Labor cost of operations excludes \$5 million and \$4 million of stock-based compensation expense and related employer-paid payroll taxes for the six months ended June 30, 2026 and 2025, respectively.

(2) Includes real estate rent expense (operating leases) of \$47 million and \$46 million for the six months ended June 30, 2026 and 2025, respectively, and non-real estate rent expense (equipment lease and rentals) of \$11 million and \$10 million for the six months ended June 30, 2026 and 2025, respectively.

(3) Warehouse storage and warehouse services metrics exclude managed sites.

Global Warehousing segment revenues were \$1,990 million for the six months ended June 30, 2026, an increase of \$76 million, or 4.0%, compared to \$1,914 million for the six months ended June 30, 2025. The increase included a \$71 million net increase in our non-same warehouse pool and a \$5 million increase in our same warehouse pool, further discussed below. The foreign currency translation of revenues earned by our foreign operations had a \$36 million favorable impact compared to the six months ended June 30, 2025.

Global Warehousing segment cost of operations was \$1,259 million for the six months ended June 30, 2026, an increase of \$72 million, or 6.1%, compared to \$1,187 million for the six months ended June 30, 2025. The increase included a \$54 million net increase in our non-same warehouse pool and an \$18 million increase in our same warehouse pool, further discussed below. The foreign currency translation of cost of operations from our foreign operations had a \$24 million unfavorable impact compared to

the six months ended June 30, 2025.

Global Warehousing segment NOI was \$731 million for the six months ended June 30, 2026, an increase of \$4 million, or 0.6%, compared to \$727 million for the six months ended June 30, 2025. The net increase included a \$17 million increase in our non-same warehouse pool, partially offset by a net decrease of \$13 million in our same warehouse pool. The foreign currency translation from our foreign operations had a \$12 million net favorable impact compared to the six months ended June 30, 2025.

Same Warehouse Results

The following table presents the operating results for our same warehouses for the six months ended June 30, 2026 and 2025.

<i>(in millions except revenue per pallet)</i>	Six Months Ended June 30,		Change
	2026	2025	
Warehouse storage	\$ 940	\$ 930	1.1 %
Warehouse services	861	866	(0.6) %
Total same warehouse revenues	1,801	1,796	0.3 %
Labor	689	679	1.5 %
Power	98	92	6.5 %
Other warehouse costs	337	335	0.6 %
Total same warehouse cost of operations	1,124	1,106	1.6 %
Same warehouse NOI	\$ 677	\$ 690	(1.9) %
Total same warehouse margin	37.6 %	38.4 %	(80) bps

Number of same warehouse sites ⁽¹⁾	423	423	
---	-----	-----	--

Warehouse storage⁽²⁾

Economic occupancy

Average occupied economic pallets (in thousands)	7,534	7,531	— %
Economic occupancy percentage	81.8 %	81.5 %	30 bps
Storage revenue per economic occupied pallet	\$ 62.33	\$ 61.73	1.0 %

Physical occupancy

Average physical occupied pallets (in thousands)	7,012	7,003	0.1 %
Average physical pallet positions (in thousands)	9,209	9,237	(0.3) %
Physical occupancy percentage	76.1 %	75.8 %	30 bps
Storage revenue per physical occupied pallet	\$ 66.97	\$ 66.39	0.9 %

Warehouse services⁽²⁾

Throughput pallets (in thousands)	24,284	24,931	(2.6) %
Warehouse services revenue per throughput pallet	\$ 32.09	\$ 31.67	1.3 %

(1) Refer to our "Same Warehouse Analysis," which describes the composition of our same warehouse pool.

(2) Warehouse storage and warehouse services metrics exclude managed sites.

Same warehouse storage revenues increased \$10 million, or 1.1%, compared to the six months ended June 30, 2025, primarily driven by higher occupancy and increased rates. Economic occupancy increased by 30 basis points and same warehouse storage revenues per economic occupied pallet increased by 1.0% compared to the six months ended June 30, 2025.

Same warehouse services revenues decreased \$5 million, or 0.6%, compared to the six months ended June 30, 2025, primarily driven by lower throughput volumes, partially offset by favorable rates. Throughput pallets at our same warehouses decreased 2.6%, while same warehouse services revenue per throughput pallet increased 1.3% compared to the six months ended June 30, 2025.

Same warehouse cost of operations increased \$18 million, or 1.6%, compared to the six months ended June 30, 2025, primarily resulting from inflationary pressures and unfavorable net foreign currency impact.

Non-Same Warehouse Results

The following table presents the operating results for our non-same warehouses for the six months ended June 30, 2026 and 2025.

(in millions except revenue per pallet)	Six Months Ended June 30,		Change	
	2026	2025		
Warehouse storage	\$ 88	\$ 75	17.3	%
Warehouse services	101	43	134.9	%
Total non-same warehouse revenues	189	118	60.2	%
Labor	83	45	84.4	%
Power	11	8	37.5	%
Other warehouse costs	41	28	46.4	%
Total non-same warehouse cost of operations	135	81	66.7	%
Non-same warehouse NOI	\$ 54	\$ 37	45.9	%
Total non-same warehouse margin	28.6 %	31.4 %	(280)	bps
Number of non-same warehouse sites ⁽¹⁾	56	58		

Warehouse storage⁽²⁾

Economic occupancy

Average occupied economic pallets (in thousands)	624	496	25.8	%
Economic occupancy percentage	62.8 %	62.8 %	—	bps
Storage revenue per economic occupied pallet	\$ 70.59	\$ 73.95	(4.5)	%

Physical occupancy

Average physical occupied pallets (in thousands)	551	456	20.8	%
Average physical pallet positions (in thousands)	993	790	25.7	%

Warehouse services⁽²⁾

Throughput pallets (in thousands)	3,172	1,183	168.1	%
Warehouse services revenue per throughput pallet	\$ 31.48	\$ 35.81	(12.1)	%

(1) Refer to our "Same Warehouse Analysis," which describes the composition of our non-same warehouse pool.

(2) Warehouse storage and warehouse services metrics exclude managed sites.

Non-same warehouse revenues increased \$71 million, or 60.2%, compared to the six months ended June 30, 2025, including approximately \$60 million from acquisitions and \$29 million from recently completed greenfield and expansion projects, partially offset by a \$13 million net decrease from other non-same warehouse sites and a \$5 million decrease from divestitures.

Non-same warehouse cost of operations increased \$54 million, or 66.7%, compared to the six months ended June 30, 2025, including approximately \$42 million from acquisitions and \$18 million from recently completed greenfield and expansion projects, partially offset by a \$3 million net decrease from other non-same warehouse sites and a \$3 million decrease from divestitures.

Global Integrated Solutions Segment

The following table presents the operating results of our Global Integrated Solutions segment for the six months ended June 30, 2026 and 2025.

(in millions)	Six Months Ended June 30,		Change
	2026	2025	
Global Integrated Solutions segment revenues	\$ 668	\$ 728	(8.2) %
Global Integrated Solutions segment cost of operations ⁽¹⁾	550	603	(8.8) %
Global Integrated Solutions segment NOI	<u>\$ 118</u>	<u>\$ 125</u>	<u>(5.6) %</u>
Global Integrated Solutions margin	17.7 %	17.2 %	50 bps

(1) Cost of operations excludes \$1 million and \$2 million of stock-based compensation expense and related employer-paid payroll taxes for the six months ended June 30, 2026 and 2025, respectively.

Global Integrated Solutions segment revenues were \$668 million for the six months ended June 30, 2026, a decrease of \$60 million, or 8.2%, compared to \$728 million for the six months ended June 30, 2025. The decrease was primarily due to the divestiture of the Spain Transportation business which occurred in August 2025, partially offset by higher transportation and foodservice volumes and rates. In addition, the foreign currency translation of revenues earned by our foreign operations had a \$12 million favorable impact compared to the six months ended June 30, 2025.

Global Integrated Solutions segment cost of operations was \$550 million for the six months ended June 30, 2026, a decrease of \$53 million, or 8.8%, compared to \$603 million for the six months ended June 30, 2025. The decrease was primarily driven by the above-mentioned divestiture of the Spain Transportation business, partially offset by \$7 million of expense associated with a preliminary legal settlement and higher transportation and logistics expenses reflecting the increased cost of fuel and third-party labor. The foreign currency translation of cost of operations from our foreign operations had an \$11 million unfavorable impact compared to the six months ended June 30, 2025.

Global Integrated Solutions segment NOI was \$118 million for the six months ended June 30, 2026, a decrease of \$7 million, or 5.6%, compared to \$125 million for the six months ended June 30, 2025, due to the factors discussed above. NOI margin was positively impacted by the sale of the Spain Transportation business. Foreign currency translation had a \$1 million net favorable impact compared to the six months ended June 30, 2025.

Other Consolidated Operating Expense

The following table presents other consolidated operating expense for the six months ended June 30, 2026 and 2025.

(in millions)	Six Months Ended June 30,		Change
	2026	2025	
Other consolidated operating expense:			
Depreciation and amortization expense	\$ 470	\$ 436	7.8 %
General and administrative expense	\$ 279	\$ 297	(6.1) %
Acquisition, transaction, and other expense	\$ 4	\$ 52	(92.3) %
Restructuring, impairment, and (gain) loss on disposals	\$ (1)	\$ (18)	n.m.

Depreciation and amortization expense. Depreciation and amortization expense was \$470 million for the six months ended June 30, 2026, an increase of \$34 million, or 7.8%, compared to \$436 million for the six months ended June 30, 2025. The increase was primarily related to acquisitions and greenfield and expansion projects.

General and administrative expense. General and administrative expense was \$279 million for the six months ended June 30, 2026, a decrease of \$18 million, or 6.1%, compared to \$297 million for the six months ended June 30, 2025. The decrease was primarily due to an \$11 million reduction in stock-based compensation expense, mainly for unfavorable forecasted performance for the 2024 and 2025 performance awards (see Note 13, *Stock-based compensation* to the condensed consolidated financial statements included in this Quarterly Report for details). The decrease was also attributable to lower professional fees, including

legal, tax, and audit fees and broader cost-saving initiatives. For the six months ended June 30, 2026, general and administrative expenses were 10.5% of total revenues compared to 11.2% of total revenues for the six months ended June 30, 2025.

Acquisition, transaction, and other expense. Acquisition, transaction, and other expense was \$4 million for the six months ended June 30, 2026, a decrease of \$48 million compared to \$52 million for the six months ended June 30, 2025. The decrease was primarily due to fair value adjustments of the Put Options issued in connection with the IPO and stock-based compensation expense for one-time IPO awards, as well as lower legal and professional fees from reduced acquisition activity. For further detail on stock-based compensation costs, see Note 13, *Stock-based compensation* to the condensed consolidated financial statements included in this Quarterly Report.

Restructuring, impairment, and (gain) loss on disposals. Restructuring, impairment, and (gain) loss on disposals were a net gain of \$1 million for the six months ended June 30, 2026, as compared to a net gain of \$18 million for the six months ended June 30, 2025. The change was primarily driven by a \$22 million reduction in net gains associated with the Kennewick, Washington warehouse fire, reflecting \$17 million of lower insurance recovery proceeds and \$4 million of incremental costs related to a customer product-damage claim and associated legal fees, as well as \$8 million of impairment loss and legal and administrative fees related to a fire that occurred in our Los Angeles, California warehouse in June 2026. These decreases were partially offset by \$7 million of estimated lease exit costs related to a previously acquired facility that were incurred in the six months ended June 30, 2025 and did not recur in 2026, as well as \$5 million of net other favorable items, including disposals of fixed assets.

For further detail related to the Kennewick, Washington and Los Angeles, California warehouse fires, see Note 15, *Commitments and contingencies* in our condensed consolidated financial statements included in this Quarterly Report.

Other Income (Expense)

The following table presents other items of income and expense for the six months ended June 30, 2026 and 2025.

<i>(in millions)</i>	Six Months Ended June 30,		Change
	2026	2025	
Other income (expense):			
Interest expense, net	\$ (171)	\$ (127)	34.6 %
Gain (loss) on foreign currency transactions, net	\$ 3	\$ 42	n.m.
Equity income (loss), net of tax	\$ (3)	\$ (1)	200.0 %
Other nonoperating income (expense), net	\$ 1	\$ 1	n.m.

Interest expense, net. We reported net interest expense of \$171 million for the six months ended June 30, 2026, an increase of \$44 million, or 34.6%, compared to \$127 million for the six months ended June 30, 2025, primarily driven by a decrease in income generated from hedging instruments, the increase of average debt balances, and the extension of our debt maturity via the issuance of new senior unsecured notes in 2025. The impact driven by the aforementioned factors was partially offset by decreases in benchmark interest rates determining the interest rates on our variable-rate debt.

The average effective interest rate of our outstanding debt was 4.2% for the six months ended June 30, 2026, the same as 4.2% for the six months ended June 30, 2025. The expiration of hedging instruments outstanding during the six months ended June 30, 2025, along with higher total borrowings between June 30, 2025 and June 30, 2026, have resulted in our current hedged instruments accounting for a reduced portion of overall borrowings. Additionally the fixed rates at which our variable-rate borrowings are effectively locked in are higher under the current hedging instruments relative to the prior ones. When taking into account income generated from hedging instruments, the average effective interest rate of our outstanding debt was 4.1% for the six months ended June 30, 2026, an increase from 2.8% for the six months ended June 30, 2025. For additional information regarding our net interest expense, see Note 10, *Interest expense* in our condensed consolidated financial statements included in this Quarterly Report.

Gain (loss) on foreign currency transactions, net. We reported a net foreign currency exchange gain of \$3 million for the six months ended June 30, 2026 compared to a net gain of \$42 million for the six months ended June 30, 2025. The decrease in gain on foreign currency exchange was due to movements in foreign currency exchange rates against the U.S. dollar, primarily driven by the euro.

Equity income (loss), net of tax. We reported \$3 million of net loss from equity method investments for the six months ended June 30, 2026, compared to a net loss of \$1 million for the six months ended June 30, 2025. The net loss in both periods was primarily related to our investment in Emergent Cold LatAm Holdings, LLC.

Income Tax Expense (Benefit)

Income tax expense for the six months ended June 30, 2026 was \$3 million, an increase of \$2 million from an income tax expense of \$1 million for the six months ended June 30, 2025. The tax expense in 2026 was principally the result of the tax-effect of pre-tax earnings in various jurisdictions, nondeductible expenses including stock-based compensation and interest expense, and financial statement losses for which no tax benefit was recognized. The tax expense in 2025 was principally created by the tax-effect of pre-tax earnings in various jurisdictions and nondeductible stock-based compensation, reduced by tax adjustments related to REIT activity. Our income taxes are discussed in more detail in Note 7, *Income taxes* to the condensed consolidated financial statements included in this Quarterly Report.

Non-GAAP Financial Measures

We use the following non-GAAP financial measures as supplemental performance measures of our business: segment NOI, FFO, Core FFO, Adjusted FFO, EBITDA, EBITDAre, and Adjusted EBITDA. We also use same warehouse and non-same warehouse metrics described above.

We calculate total segment NOI (or “NOI”) as our total revenues less our cost of operations (excluding any depreciation and amortization, general and administrative expense, stock-based compensation expense and related employer-paid payroll taxes from grants under our equity incentive plans, restructuring and impairment expense, gain and loss on sale of assets, and acquisition, transaction, and other expense). We use segment NOI to evaluate our segments for purposes of making operating decisions and assessing performance in accordance with ASC 280, *Segment Reporting*. We believe segment NOI is helpful to investors as a supplemental performance measure to net income because it assists both investors and management in understanding the core operations of our business. There is no industry definition of segment NOI and, as a result, other REITs may calculate segment NOI or other similarly-captioned metrics in a manner different than we do.

The table below reconciles total segment NOI to net income (loss), which is the most directly comparable financial measure calculated in accordance with GAAP, in each case for the three and six months ended June 30, 2026 and 2025.

<i>(in millions)</i>	Three Months Ended June 30,		Six Months Ended June 30,	
	2026	2025	2026	2025
Net income (loss)	\$ (32)	\$ (7)	\$ (83)	\$ (7)
Stock-based compensation expense and related employer-paid payroll taxes in cost of operations	3	5	7	6
General and administrative expense	138	143	279	297
Depreciation expense	182	170	359	328
Amortization expense	55	54	111	108
Acquisition, transaction, and other expense	—	37	4	52
Restructuring, impairment, and (gain) loss on disposals	(4)	3	(1)	(18)
Equity (income) loss, net of tax	—	(3)	3	1
(Gain) loss on foreign currency transactions, net	—	(26)	(3)	(42)
Interest expense, net	87	67	171	127
Other nonoperating (income) expense, net	—	(1)	(1)	(1)
Income tax expense (benefit)	(1)	(7)	3	1
Total segment NOI	<u>\$ 428</u>	<u>\$ 435</u>	<u>\$ 849</u>	<u>\$ 852</u>

We calculate EBITDA as net income or loss determined in accordance with GAAP, excluding depreciation and amortization expense, interest expense, net, and income tax expense or benefit.

We also calculate EBITDA for Real Estate, or “EBITDAre”, in accordance with the standards established by the Board of Governors of the National Association of Real Estate Investment Trusts, or “NAREIT”, as EBITDA further adjusted for net loss or gain on sale of real estate assets, net of withholding taxes, impairment of real estate assets, and adjustments to reflect our share of EBITDAre for partially owned entities. EBITDAre is a measure commonly used in our industry, and we present EBITDAre to enhance investor understanding of our operating performance. We believe that EBITDAre provides investors and analysts with a measure of operating results unaffected by differences in capital structures, capital investment cycles, and useful life of related assets among otherwise comparable companies.

In addition, we calculate our Adjusted EBITDA as EBITDAre further adjusted for the effects of gain or loss on the sale of non-real estate assets, gain or loss on the destruction of property (net of insurance proceeds), other nonoperating income or expense, acquisition, restructuring, and other expense, foreign currency exchange gain or loss, stock-based compensation expense and related employer-paid payroll taxes from grants under our equity incentive plans, loss or gain on debt extinguishment and modification, impairments of goodwill and other non-real estate assets including intangible assets, technology transformation, and reduction in EBITDAre from partially owned entities. We believe that the presentation of Adjusted EBITDA provides a measurement of our operations that is meaningful to investors because it excludes the effects of certain items that are otherwise included in EBITDAre, which we do not believe are indicative of our core business operations. EBITDAre and Adjusted EBITDA are not measurements of financial performance under GAAP, and our EBITDAre and Adjusted EBITDA may not be comparable to similarly titled measures of other companies. You should not consider our EBITDAre and Adjusted EBITDA as alternatives to net income or cash flows from operating activities determined in accordance with GAAP. Our calculations of EBITDAre and Adjusted EBITDA have limitations as analytical tools, including the following:

- these measures do not reflect our historical or future cash requirements for maintenance capital expenditures or growth and expansion capital expenditures;
- these measures do not reflect changes in, or cash requirements for, our working capital needs;
- these measures do not reflect the interest expense, or the cash requirements necessary to service interest or principal payments, on our indebtedness;
- these measures do not reflect our tax expense or the cash requirements to pay our taxes; and
- although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and these measures do not reflect any cash requirements for such replacements.

We use EBITDA, EBITDAre, and Adjusted EBITDA as measures of our operating performance and not as measures of liquidity.

The table below reconciles EBITDA, EBITDAre, and Adjusted EBITDA to net income (loss), which is the most directly comparable financial measure calculated in accordance with GAAP, in each case for the three and six months ended June 30, 2026 and 2025.

<i>(in millions)</i>	Three Months Ended June 30,		Six Months Ended June 30,	
	2026	2025	2026	2025
Net income (loss)	\$ (32)	\$ (7)	\$ (83)	\$ (7)
Adjustments:				
Depreciation and amortization expense	237	224	470	436
Interest expense, net	87	67	171	127
Income tax expense (benefit)	(1)	(7)	3	1
EBITDA	\$ 291	\$ 277	\$ 561	\$ 557
Adjustments:				
Net loss (gain) on sale of real estate assets	—	3	—	3
Impairment of real estate assets	1	—	1	—
Allocation of EBITDAre of noncontrolling interests	(1)	(1)	(1)	(1)
EBITDAre	\$ 291	\$ 279	\$ 561	\$ 559

Acquisition, restructuring, and other	6	48	17	65
Technology transformation	6	7	12	12
(Gain) loss on property destruction	(11)	(13)	(14)	(37)
(Gain) loss on foreign currency transactions, net	—	(26)	(3)	(42)
Stock-based compensation expense and related employer-paid payroll taxes	25	30	55	70
Impairment of other non-real estate assets	1	—	1	1
Allocation related to unconsolidated JVs	3	2	7	5
Allocation adjustments of noncontrolling interests	—	—	1	—
Adjusted EBITDA	\$ 320	\$ 326	\$ 634	\$ 630

We calculate funds from operations, or FFO, in accordance with the standards established by the Board of Governors of the NAREIT. NAREIT defines FFO as net income or loss determined in accordance with GAAP, excluding extraordinary items as defined under GAAP and gains or losses from sales of previously depreciated operating real estate assets, plus specified non-cash items, such as real estate asset depreciation and amortization, in-place lease intangible amortization, real estate asset impairment, and our share of reconciling items for partially owned entities. We believe that FFO is helpful to investors as a supplemental performance measure because it excludes the effect of depreciation, amortization, and gains or losses from sales of real estate, all of which are based on historical costs, which implicitly assumes that the value of real estate diminishes predictably over time. Since real estate values instead have historically risen or fallen with market conditions, FFO can facilitate comparisons of operating performance between periods and among other equity REITs.

We calculate core funds from operations, or Core FFO, as FFO adjusted for the effects of gain or loss on the sale of non-real estate assets, gain or loss on the destruction of property (net of insurance proceeds), finance lease ROU asset amortization real estate, impairments of goodwill and other non-real estate assets including intangible assets, acquisition, restructuring and other, other nonoperating income or expense, loss on debt extinguishment and modifications and the effects of gain or loss on foreign currency exchange. We also adjust for the impact attributable to non-real estate impairments on unconsolidated joint ventures and natural disaster. We believe that Core FFO is helpful to investors as a supplemental performance measure because it excludes the effects of certain items which can create significant earnings volatility, but which do not directly relate to our core business operations. We believe Core FFO can facilitate comparisons of operating performance between periods, while also providing a more meaningful predictor of future earnings potential.

However, because FFO and Core FFO add back real estate depreciation and amortization and do not capture the level of recurring maintenance capital expenditures necessary to maintain the operating performance of our properties, both of which have material economic impacts on our results from operations, we believe the utility of FFO and Core FFO as a measure of our performance may be limited.

We calculate adjusted funds from operations, or Adjusted FFO, as Core FFO adjusted for the effects of amortization of deferred financing costs, amortization of debt discount/premium, amortization of above or below market leases, straight-line net operating rent, provision or benefit from deferred income taxes, stock-based compensation expense and related employer-paid payroll taxes from grants under our equity incentive plans, non-real estate depreciation and amortization, non-real estate finance lease ROU asset amortization, and recurring maintenance capital expenditures. We also adjust for Adjusted FFO attributable to our share of reconciling items of partially owned entities. We believe that Adjusted FFO is helpful to investors as a meaningful supplemental comparative performance measure of our ability to make incremental capital investments in our business and to assess our ability to fund distribution requirements from our operating activities.

FFO, Core FFO, and Adjusted FFO are used by management, investors, and industry analysts as supplemental measures of operating performance of equity REITs. FFO, Core FFO and Adjusted FFO should be evaluated along with GAAP net income and net income per diluted share (the most directly comparable GAAP measures) in evaluating our operating performance. FFO, Core FFO, and Adjusted FFO do not represent net income or cash flows from operating activities in accordance with GAAP and are not indicative of our results of operations or cash flows from operating activities as disclosed in our condensed consolidated financial statements included elsewhere in this Quarterly Report. FFO, Core FFO, and Adjusted FFO should be considered as supplements, but not alternatives, to our net income or cash flows from operating activities as indicators of our operating performance. Moreover, other REITs may not calculate FFO in accordance with the NAREIT definition or may interpret the NAREIT definition differently than we do. Accordingly, our FFO may not be comparable to FFO as calculated by other REITs. In addition, there is no industry definition of Core FFO or Adjusted FFO and, as a result, other REITs may also calculate Core FFO or Adjusted FFO, or other similarly-captioned metrics, in a manner different than we do.

The table below reconciles FFO, Core FFO, and Adjusted FFO to net income (loss), which is the most directly comparable financial measure calculated in accordance with GAAP, in each case for the three and six months ended June 30, 2026 and 2025.

<i>(in millions)</i>	Three Months Ended June 30,		Six Months Ended June 30,	
	2026	2025	2026	2025

Liquidity and Capital Resources

As of June 30, 2026, we had \$57 million of cash and cash equivalents and \$1.5 billion available under our Revolving Credit Facility (net of outstanding standby letters of credit in the amount of \$61 million, which reduce availability). We currently expect that our principal sources of funding will include:

- current cash balances;

- cash flows from operations;
- proceeds from the disposition of properties or other investments;
- our credit facilities; and
- other forms of debt financings and equity offerings.

Our liquidity requirements and capital commitments primarily consist of:

- operating activities and overall working capital;
- capital expenditures;
- development and acquisition activities;
- debt service obligations; and
- stockholder distributions.

As of June 30, 2026, we expect that our funding sources as noted above will be adequate to meet our short-term liquidity requirements and capital commitments for the next twelve months. For more information regarding our debt facilities, refer to Note 8, *Debt* in the condensed consolidated financial statements included in this Quarterly Report. We expect to utilize the same sources of capital we will rely on to meet our short-term liquidity requirements to also meet our long-term liquidity requirements, which include funding our operating activities, our debt service obligations and stockholder distributions, and our future development and acquisition activities.

Dividends and Distributions

We are required to distribute at least 90% of our taxable income (excluding capital gains) on an annual basis in order to continue to qualify as a REIT for federal income tax purposes. Accordingly, we intend to make, but are not contractually bound to make, regular quarterly distributions to stockholders from cash flows from our operating activities. All such distributions are at the discretion of our board of directors. We consider market factors and our performance in addition to REIT requirements in determining distribution levels. Amounts accumulated for distribution to stockholders are primarily invested in interest-bearing accounts, which are consistent with our intention to maintain REIT status.

As a result of this distribution requirement, we cannot rely on retained earnings to fund our ongoing operations to the same extent that other companies which are not REITs can. We may need to continue to raise capital in the debt and equity markets to fund our working capital needs, as well as potential developments in new or existing properties or acquisitions. In addition, we may be required to use borrowings under our Revolving Credit Facility, if necessary, to meet REIT distribution requirements and maintain our REIT status.

The board of directors of the Company has declared a regular quarterly cash dividend of \$0.5325 per share of common stock for the first and second quarters of 2026, which was an increase from \$0.5275 per share of common stock in the prior year quarters. Each dividend is payable to shareholders of record as of the last day of the respective quarter and is paid in the subsequent month.

Outstanding Indebtedness

The following table summarizes our outstanding indebtedness as of June 30, 2026 (in millions):

	As of June 30, 2026	
Fixed rate	\$	3,278
Variable rate—unhedged		1,721
Variable rate—hedged		1,250
Total debt	\$	6,249
Percent of total debt:		
Fixed rate		52.5 %
Variable rate—unhedged		27.5 %
Variable rate—hedged		20.0 %

The variable rate debt shown above bears interest at interest rates based on various one-month rates, of which SOFR is the most significant, depending on the respective agreement governing the debt, including our Revolving Credit Facility and Term Loan A. As of June 30, 2026, our debt had a weighted average term to maturity of approximately 2.9 years, assuming exercise of extension options.

For further information regarding outstanding indebtedness, please see Note 8, *Debt* in the condensed consolidated financial statements included in this Quarterly Report.

Security Interests in Customers' Products

By operation of law and in accordance with our warehouse customer contracts (other than leases), we typically receive warehouseman's liens on products held in our warehouses to secure customer payments. Such liens typically permit us to take control of the products and sell them to third parties in order to recover any monies receivable on a delinquent account, but such products may be perishable or otherwise not available to us for re-sale.

Our credit loss expense related to customer receivables was immaterial for both the three and six months ended June 30, 2026 and 2025. As of June 30, 2026 and December 31, 2025, we maintained allowances for uncollectible balances of \$10 million and \$10 million, respectively, which we believed to be adequate.

Maintenance Capital Expenditures and Repair and Maintenance Expenses

Lineage prides itself on maintaining its facilities, fleet, and railcars at a high standard. We regularly update long-range maintenance plans by asset so that our assets maintain the high quality and operational efficiency that our customers expect from us.

Recurring Maintenance Capital Expenditures

Recurring maintenance capital expenditures are capitalized funds used to maintain assets that will result in an extended useful life. This includes the cost to purchase and install, repair, or construct assets when it results in a useful life longer than one year and the installed cost per asset is over a *de minimis* threshold. Maintenance capital expenditures are related to both our Global Warehousing segment and Global Integrated Solutions segment, including information technology, and are all, in management's judgment, recurring in nature. These expenditures include maintenance performed multiple times over the lifetime of the facility or asset, such as replacing or repairing roofs, refrigeration systems, racking, material handling equipment, and fleet. These expenditures also include information technology maintenance to existing servers, equipment, and software.

The following table sets forth our recurring maintenance capital expenditures for the three and six months ended June 30, 2026 and 2025.

(in millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2026	2025	2026	2025
Global warehousing	\$ 28	\$ 35	\$ 54	\$ 64
Global integrated solutions	2	4	4	5
Information technology and other	3	3	6	5
Recurring maintenance capital expenditures	<u>\$ 33</u>	<u>\$ 42</u>	<u>\$ 64</u>	<u>\$ 74</u>

Repair and Maintenance Expenses

Repair and maintenance expenses are incurred when assets need repair or replacement and do not qualify as capital expenditures. If the work does not materially extend the useful life of the asset or the asset value is less than a *de minimis* threshold, it would be recorded as an operating expense under repair and maintenance expenses, included primarily in Cost of operations on the condensed consolidated statements of operations and comprehensive income (loss). Examples include ordinary repairs on roofs, racking, refrigeration, and material handling equipment. Project-related expenses are excluded.

The following table sets forth our repair and maintenance expenses for the three and six months ended June 30, 2026 and 2025.

(in millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2026	2025	2026	2025
Global warehousing	\$ 40	\$ 38	\$ 80	\$ 72
Global integrated solutions	13	15	25	28
Repair and maintenance expenses	<u>\$ 53</u>	<u>\$ 53</u>	<u>\$ 105</u>	<u>\$ 100</u>

Integration Capital Expenditures

Integration capital expenditures are capitalized funds related to integrating acquired assets and businesses. Integration capital expenditures are one-time expenditures. These are typically acquisition-related costs, including maintenance on acquired assets that are beyond their useful life at the time of acquisition, rebranding expenditures, and information technology expenditures to standardize system usage across our business, and also include certain non-acquisition related costs, including safety and compliance projects to comply with any applicable policies, laws, or codes, such as installation of site security or a new fire suppression system, as well as freon-to-ammonia conversions.

The following table sets forth our integration capital expenditures for the three and six months ended June 30, 2026 and 2025.

(in millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2026	2025	2026	2025
Global warehousing	\$ 13	\$ 15	\$ 24	\$ 23
Information technology and other	1	3	3	7
Integration capital expenditures	<u>\$ 14</u>	<u>\$ 18</u>	<u>\$ 27</u>	<u>\$ 30</u>

External Growth Capital Investments

External growth capital investments include acquisitions, greenfield projects and expansion initiatives, information technology platform enhancements, and other capital projects which result in an economic return. We divide growth projects into the following categories:

- Acquisitions: The purchase of an external company or facility. Also includes the purchase of the real estate of facilities we currently lease.

- **Greenfields and Expansions:** Projects either to build a new facility, including the purchase of land, or to increase the size of an existing warehouse (as measured by cubic feet). The costs associated with construction and materials are included.
- **Energy and Economic Return:** Energy return projects are intended to increase energy efficiency by decreasing the amount of kWh or fossil fuels consumed or reducing the cost to procure energy. Common examples include installing new LED technology, installing solar panels at a warehouse, and electrification of transportation fleet. Economic return projects require an investment of capital for a future cash flow and/or segment NOI benefit that is not an acquisition, greenfield, expansion, or energy project. Examples include addition of blast cells, racking replacements, replacing freezer doors, purchasing compressors, buying out leased equipment, and purchasing new rail cars.
- **Information Technology Transformation and Growth:** Capital investments focused on (a) warehouse operations efficiency – deploying technology that leverages advanced algorithms and artificial intelligence to increase labor productivity and higher utilization; (b) customer experience and service – building and implementing technology solutions to improve response times, automate common tasks, and offer seamless multi-channel support elevating both customer and employee experience; and (c) sales management, pricing and billing – creating and integrating IT systems to streamline sales processes, optimize pricing, and enhance billing accuracy and efficiency.

The following table sets forth our external growth capital investments for the three and six months ended June 30, 2026 and 2025.

(in millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2026	2025	2026	2025
Acquisitions, net of cash acquired and adjustments ⁽¹⁾	\$ 4	\$ 439	\$ 4	\$ 439
Greenfield and expansion expenditures	78	53	178	90
Energy and economic return initiatives	14	25	27	41
Information technology transformation and growth initiatives	14	18	31	32
External growth capital investments	<u>\$ 110</u>	<u>\$ 535</u>	<u>\$ 240</u>	<u>\$ 602</u>

(1) Excludes buildings and land acquired through exercise of finance lease purchase options, where amount paid did not exceed the finance lease liability.

We completed one immaterial acquisition during the three and six months ended June 30, 2026. We completed five acquisitions during the three and six months ended June 30, 2025, including the purchase of three warehouse campuses of Bellingham Cold Storage for approximately \$118 million and the acquisition of four cold storage warehouses and other related assets from Tyson Foods for \$256 million.

Our greenfield and expansion expenditures related primarily to projects that remained under construction as of the respective period end, with a notable expansion at the Hobart, IN cold storage facility and construction of a new facility in Bremerhaven, Germany during the three and six months ended June 30, 2025. During the three and six months ended June 30, 2026, we continued construction of a new greenfield in Dallas, TX under our arrangement with Tyson Foods and an expansion at one of our fully automated cold storage warehouses in the Netherlands.

Energy and economic return initiatives included corporate initiatives and smaller customer-driven growth projects. Information technology transformation and growth initiatives included spending on our patented LinOS technology.

Historical Cash Flows

The following summary discussion of our cash flows is based on the condensed consolidated statements of cash flows included in this Quarterly Report.

(in millions)	Six Months Ended June 30,	
	2026	2025
Net cash provided by operating activities	\$ 441	\$ 397
Net cash used in investing activities	\$ (286)	\$ (718)
Net cash (used in) provided by financing activities	\$ (162)	\$ 226

Operating Activities

For the six months ended June 30, 2026, our net cash provided by operating activities was \$441 million, compared to \$397 million for the six months ended June 30, 2025. The \$76 million increase in net loss was offset by non-cash items, primarily a \$34 million increase in depreciation and amortization and a \$39 million decrease in net gain on foreign currency transactions, both discussed above. Changes in operating assets and liabilities were favorable for the six months ended June 30, 2026 as compared to 2025. Operating cash flow was also positively impacted by \$18 million of proceeds from business interruption insurance recoveries, most of which related to a fire which occurred at the Company's warehouse in Kennewick, Washington in 2024 (see Note 15, *Commitments and contingencies* in our condensed consolidated financial statements included in this Quarterly Report for details). Other notable changes in non-cash items were \$28 million in Put Options fair value adjustments for the six months ended June 30, 2025 which did not recur in 2026, offset by lower stock-based compensation expense.

Investing Activities

For the six months ended June 30, 2026, cash used in investing activities was \$286 million. The most significant uses were \$310 million in purchases of property, plant, and equipment, primarily for the continued construction of a new greenfield in Dallas, TX under our arrangement with Tyson Foods and an expansion at one of our fully automated cold storage warehouses in the Netherlands. This was partially offset by \$21 million of proceeds from sale of assets and \$9 million of insurance proceeds for recoveries on impaired long-lived assets, which were primarily related to a fire which occurred at the Company's warehouse in Kennewick, Washington in 2024 (see Note 15, *Commitments and contingencies* in our condensed consolidated financial statements included in this Quarterly Report for details).

For the six months ended June 30, 2025, cash used in investing activities was \$718 million. The most significant uses were \$439 million in acquisitions, net of cash acquired, and \$314 million in purchases of property, plant, and equipment, primarily for growth capital expenditures. In addition, we invested \$7 million in Emergent Cold LatAm Holdings, LLC, offset by \$38 million in insurance recovery proceeds for the warehouse fire in Kennewick and \$6 million in proceeds from the sale of assets.

Financing Activities

Our net cash used in financing activities was \$162 million for the six months ended June 30, 2026, which primarily consisted of outflows of \$269 million for regular quarterly dividends and other distributions and \$201 million of repayments of long-term debt and finance leases (\$160 million of which was related to the payoff of the Metlife Real Estate Notes on January 2, 2026). To finance the secured debt payoff and some of the other financing activities, we borrowed \$327 million on revolving credit lines, net of repayments.

Our net cash provided by financing activities was \$226 million for the six months ended June 30, 2025. The financing activities primarily consisted of \$495 million of proceeds from issuance of New Senior Unsecured Notes and \$204 million of net borrowings on revolving credit lines. These inflows were offset by \$268 million of dividends and other distributions, \$156 million of repayments of long-term debt and finance leases, \$88 million of which was related to the Houston, Texas lease purchase, and \$28 million of redemption of redeemable noncontrolling interest.

Supplemental Guarantor Financial Information

In 2025, the Operating Partnership and Lineage Europe Finco B.V. issued senior notes ("New Senior Unsecured Notes") which were fully and unconditionally guaranteed by Lineage, Inc., the Operating Partnership, Lineage Europe Finco B.V., Lineage

Logistics Holdings, LLC, and certain other subsidiaries of the Company that guarantee or are otherwise obligated in respect of the Credit Agreement (other than the respective issuer and any excluded subsidiaries, collectively, the “Guarantors,” as detailed in Exhibit 22.1 to this Form 10-Q). The Company’s other subsidiaries do not guarantee the New Senior Unsecured Notes (collectively, “Non-Guarantor Subsidiaries”). Refer to Note 8, *Debt* in our condensed consolidated financial statements included in this Quarterly Report for additional information regarding the New Senior Unsecured Notes.

The following tables present summarized financial information for the Guarantors, including Lineage Europe Finco B.V., and the OP on a combined basis, after the elimination of (a) intercompany transactions and balances between all the Guarantors entities, Lineage Europe Finco B.V., and the OP and (b) equity in earnings from and investments in the Non-Guarantor Subsidiaries.

Summarized Balance Sheet Data <i>(in millions)</i>	June 30, 2026	December 31, 2025
Total current assets	\$ 349	\$ 347
Amounts due from non-guarantor subsidiaries	\$ 14,278	\$ 13,693
Total non-current assets	\$ 5,199	\$ 5,157
Total current liabilities	\$ 598	\$ 562
Amounts due to non-guarantor subsidiaries	\$ 13,458	\$ 12,460
Total non-current liabilities	\$ 5,961	\$ 5,708
Noncontrolling interests	\$ 970	\$ 978

Summarized Statement of Operations Data <i>(in millions)</i>	Six Months Ended June 30, 2026	Year Ended December 31, 2025
Net revenues from external customers	\$ 1,025	\$ 2,006
Cost of operations	\$ (771)	\$ (1,496)
Net revenue and cost of operations charges with non-guarantor subsidiaries	\$ 74	\$ 151
Income (loss) from operations	\$ (64)	\$ (94)
Net income (loss)	\$ (226)	\$ (326)
Net income (loss) attributable to the combined guarantor entities	\$ (217)	\$ (315)

The New Senior Unsecured Notes and each guarantee of the New Senior Unsecured Notes is effectively subordinated in right of payment to: all existing and future secured indebtedness and secured guarantees of the OP or such Guarantor (to the extent of the value of the collateral securing such indebtedness and guarantees); all existing and future indebtedness and other liabilities, whether secured or unsecured, of the Non-Guarantor Subsidiaries and of any entity the OP or such Guarantor accounts for using the equity method of accounting; and all existing and future preferred equity not owned by the OP or such Guarantor in Non-Guarantor Subsidiaries and in any entity the OP or such Guarantor accounts for using the equity method of accounting.

As of June 30, 2026, entities that are direct borrowers, guarantors, or otherwise obligated in respect the Credit Agreement had an aggregate of \$20,668 million of assets and were direct borrowers, guarantors or otherwise obligated in respect of an aggregate of \$5,933 million of indebtedness, in each case, excluding intercompany investments and obligations. As of June 30, 2026, the OP, Lineage Europe Finco B.V., and the Guarantors had an aggregate of \$19,825 million of assets and were direct borrowers in respect of \$5,786 million of indebtedness, in each case, excluding intercompany investments and obligations.

Critical Accounting Policies and Estimates

The condensed consolidated financial statements have been prepared in accordance with U.S. GAAP, which requires management to make estimates, assumptions, and judgments in certain circumstances that affect the reported amounts of assets, liabilities, and contingencies as of the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. We base our estimates on historical experience and on various other assumptions that we believe to be most appropriate and reasonable. Actual results may differ from these estimates under different assumptions or conditions.

There have been no material changes to our critical accounting policies and estimates as described in our 2025 Annual Report on Form 10-K.

New Accounting Pronouncements

Refer to Note 1 to our condensed consolidated financial statements included elsewhere in this Quarterly Report for more information regarding applicable new accounting pronouncements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Interest Rate Risk

Our future income and cash flows relevant to financial instruments are dependent upon prevalent market interest rates. Market risk refers to the risk of loss from adverse changes in market prices and interest rates.

As of June 30, 2026, we had \$2,890 million of variable-rate debt under our Revolving Credit Facility and Term Loan A agreements, primarily bearing interest at SOFR of approximately 3.7%, plus a margin of 77.5 basis points and 92.5 basis points on the Revolving Credit Facility and Term Loan A facilities, respectively (refer to Note 8, *Debt* to our condensed consolidated financial statements for details of the entire balance by currency and rate). In addition, we have \$81 million of Metlife Real Estate Notes bearing interest at SOFR plus a margin of 177 basis points. Out of this total, \$1,250 million is hedged until February 2028 at a weighted average rate of 3.16% plus applicable RCF/TLA margin. As a result, our exposure to changes in interest rates primarily consists of our \$1,721 million of unhedged variable-rate debt. A 100 basis point increase in market interest rates would result in an increase in interest expense to service our variable-rate debt of approximately \$17 million on an annualized basis. Conversely, a 100 basis point decrease in market interest rates would result in a decrease in interest of approximately \$17 million on an annualized basis.

Foreign Currency Risk

We are exposed to foreign currency exchange variability related to investments in and earnings from our foreign subsidiaries, as the revenues and expenses of these subsidiaries are typically generated in the currencies of the countries in which they operate. Foreign currency market risk is the possibility that our results of operations or financial position could be better or worse than planned because of changes in foreign currency exchange rates. When the local currencies in these countries decline relative to our reporting currency, the U.S. dollar, our consolidated revenues, segment NOI margins, and net investment in properties and operations outside the United States decrease. The impact of currency fluctuations on our earnings is partially mitigated by the fact that most operating and other expenses are also incurred and paid in the local currency. The impact of devaluation or depreciating currency on an entity depends on the residual effect on the local economy and the ability of an entity to raise prices and/or reduce expenses. Due to our constantly changing currency exposure and the potential substantial volatility of currency exchange rates, we cannot predict the effect of exchange rate fluctuations on our business. As a result, changes in the relation of the currency of our international operations to U.S. dollars may also affect the book value of our assets and the amount of total equity. Such foreign currency exposure as of June 30, 2026 was not materially different from what we disclosed in our 2025 Annual Report on Form 10-K.

Gains or losses from translating the financial statements of our foreign subsidiaries are reflected in the Accumulated other comprehensive income (loss) component of equity within our condensed consolidated financial statements included in this Quarterly Report.

We enter into foreign currency derivative instruments to manage our exposure to fluctuations in exchange rates between the functional currencies of our subsidiaries and the currencies of the underlying cash flows. All derivatives are recognized on the condensed consolidated balance sheets at fair value.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our Chief Executive Officer (“CEO”) and Chief Financial Officer (“CFO”), we evaluated the effectiveness of the design and operation of our disclosure controls and procedures

as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), as of the end of the period covered by this report. Such disclosure controls and procedures are designed to provide reasonable assurance that information required to be disclosed by us in the reports filed or submitted by us under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the SEC’s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our CEO and CFO, as appropriate to allow timely decisions regarding required disclosures.

Based on this evaluation, our CEO and CFO have concluded that our disclosure controls and procedures were not effective as of June 30, 2026 because of the material weakness in our internal control over financial reporting identified in connection with the audit of our consolidated financial statements for the year ended December 31, 2025, as described below, which continues to exist as of June 30, 2026.

Notwithstanding the material weakness described below, management believes the condensed consolidated financial statements for the periods covered by and included in this Quarterly Report on Form 10-Q fairly present, in all material respects, the Company’s financial condition, results of operations, and cash flows for the periods presented in accordance with generally accepted accounting principles in the United States.

As previously reported in our Annual Report on Form 10-K for the year ended December 31, 2025, we identified the following material weakness in internal control over financial reporting related to information technology general controls (“ITGCs”) as of December 31, 2025:

We did not design and maintain effective ITGCs for information systems that are relevant to the preparation of our consolidated financial statements. Specifically, we did not design and maintain: (i) program change management controls to ensure that program and data changes are identified, tested, authorized, and implemented appropriately; and (ii) user access controls to ensure appropriate segregation of duties and to adequately restrict user and privileged access to appropriate personnel. These IT deficiencies did not result in a material misstatement to the consolidated financial statements, however, the deficiencies, when aggregated, could impact maintaining effective segregation of duties, as well as the effectiveness of IT-dependent controls (such as automated controls that address the risk of material misstatement to one or more assertions, along with the IT controls and underlying data that support the effectiveness of system-generated data and reports) that could result in misstatements potentially impacting all financial statement accounts and disclosures that would not be prevented or detected. Accordingly, management has determined these deficiencies constitute a material weakness.

Remediation of Material Weakness

Management remains committed to maintaining a strong internal control environment and has initiated actions to remediate the identified material weakness. Remediation efforts include:

- the recent hiring of IT Compliance and Oversight personnel with responsibility to lead the remediation for the design and operating effectiveness of ITGCs, including the monitoring of effectiveness of these controls;
- enhancing the design of control activities and enforcing supporting documentation retention protocols for all program change management and user access controls; and
- developing and maintaining an enhanced controls training awareness program for new and existing employees addressing ITGCs and related policies, with a focus on program change management and user access controls.

Management will continue to assess the effectiveness of these efforts and adjust remediation plans as necessary. The material weakness will not be considered remediated until all corrective measures have been fully implemented, the relevant controls have operated effectively for a sufficient period, and management has concluded—through testing—that the controls are operating as intended. While management believes the remediation plan will resolve the material weakness, the timing of full remediation cannot be guaranteed.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting during the quarter ended June 30, 2026 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting, as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act.

Part II - Other Information

Item 1. Legal Proceedings

The Company, from time to time and in the normal course of business, is party to various claims, lawsuits, arbitrations, and regulatory actions. Refer to Note 15, *Commitments and contingencies* in the condensed consolidated financial statements included in this Quarterly Report for details of legal proceedings in which the Company is involved. Other than the Securities Lawsuit (as defined in Note 15), in the opinion of management, we are not currently party to any legal proceedings that would have a material impact on our business, financial condition, or results of operations, nor is a property of the Company subject to any material pending legal proceedings.

Item 1A. Risk Factors

There have been no material changes from the risk factors previously disclosed in “Risk Factors” included in our 2025 Annual Report on Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Issuer Purchases of Equity Securities

There were no share repurchases by us during the three months ended June 30, 2026.

Unregistered Sales of Equity Securities

The following table sets forth all unregistered sales of securities made by us during the three months ended June 30, 2026:

Date	Securities Issued	Purchaser	Consideration	Exemption From Registration
May 20, 2026	5,000 shares of common stock	An investor in Lineage OP, LP	Certain partnership common units in Lineage OP, LP	Section 4(a)(2)

Item 3. Defaults Upon Senior Securities

Not applicable.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

None of our directors or executive officers adopted or terminated a Rule 10b5-1 trading arrangement or a non-Rule 10b5-1 trading arrangement during the three months ended June 30, 2026, as such terms are defined in Item 408 of Regulation S-K.

Item 6. Exhibits

<u>Exhibit No.</u>	<u>Description</u>
3.1	<u>Articles of Amendment and Restatement of Lineage, Inc. (incorporated by reference to Exhibit 4.1 to the Company’s Registration Statement on Form S-8 (File No. 333-280997), filed on July 25, 2024).</u>
3.2	<u>Amended and Restated Bylaws of Lineage, Inc. (incorporated by reference to Exhibit 4.2 to the Company’s Registration Statement on Form S-8 (File No. 333-280997), filed on July 25, 2024).</u>

10.1	<u>First Amendment to Transition Services Agreement dated May 4, 2026, by and between Lineage Logistics Holdings, LLC and Bay Grove Management Company, LLC (incorporated by reference to Exhibit 10.6 to the Company's Quarterly Report on Form 10-Q for the quarter ended March 31, 2026, filed on May 6, 2026).</u>
22.1	<u>List of Subsidiary Guarantors (incorporated by reference to Exhibit 22.1 to the Company's Registration Statement on Form S-4 (File No. 333-292261), filed on December 18, 2025).</u>

PURSUANT TO RULE 13a-14(a) AND RULE 15d-14(a) OF THE EXCHANGE ACT,
AS ADOPTED PURSUANT TO
SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

I, Greg Lehmkuhl, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Lineage, Inc.;
 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
 4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
 5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
-

- (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
- (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

CERTIFICATION OF CHIEF FINANCIAL OFFICER
PURSUANT TO RULE 13a-14(a) AND RULE 15d-14(a) OF THE EXCHANGE ACT,
AS ADOPTED PURSUANT TO
SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

I, Robb LeMasters, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Lineage, Inc.;
 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
 4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
 5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
-

- (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
- (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
