## Definitions

References to the “Company,” “SunocoCorp,” “we,” “us” and “our” refer to SunocoCorp LLC, including its consolidated subsidiary, Sunoco LP.

The terms “Partnership” or “Sunoco” should be understood to refer to Sunoco LP (NYSE: SUN) and its consolidated subsidiaries.

In addition, the following is a list of certain acronyms and terms used throughout this document:

AOCI	accumulated other comprehensive income (loss)
Burnaby Refinery	refinery located in Burnaby, British Columbia owned and operated by Sunoco LP, which was acquired in the Parkland Acquisition
Company Agreement	SunocoCorp’s Amended and Restated Limited Liability Company Agreement
Credit Facility	Sunoco LP's \$2.50 billion revolving credit facility, which matures in June 2030
Energy Transfer	Energy Transfer LP (NYSE: ET)
ET-S Permian	ET-S Permian Holdings Company LP, a joint venture between Sunoco LP and Energy Transfer, which owns crude oil and water gathering pipelines and storage assets in the Permian Basin
Exchange Act	Securities Exchange Act of 1934, as amended
GAAP	accounting principles generally accepted in the United States of America
General Partner	Sunoco GP LLC, the general partner of Sunoco LP
IDRs	incentive distribution rights
Isla	Isla Dominicana de Petroleo Corporation
J.C. Nolan	collectively, J.C. Nolan Terminal Co., LLC and J.C. Nolan Pipeline Co., LLC, both of which are joint ventures between Sunoco LP and Energy Transfer, which own a diesel fuel storage terminal in Midland, Texas and a 500-mile diesel fuel pipeline
LIFO	last-in, first-out
NuStar	NuStar Energy L.P.
NuStar Acquisition	acquisition of NuStar completed on May 3, 2024
NuStar Logistics	NuStar Logistics L.P., a wholly owned subsidiary acquired in the NuStar Acquisition
NYSE	New York Stock Exchange
Parkland	Parkland Corporation, a subsidiary of the Partnership acquired on October 31, 2025
Parkland Acquisition	Sunoco's acquisition of Parkland completed on October 31, 2025
Partnership Agreement	Sunoco's Third Amended and Restated Agreement of Limited Partnership, as amended to date
SARA	Societe Anonyme de la Raffinerie des Antilles refinery
SEC	United States Securities and Exchange Commission
Sunoco Retail	Sunoco Retail LLC, a wholly owned corporate subsidiary of Sunoco LP
SunocoCorp Manager	SunocoCorp Management LLC, the managing member of SunocoCorp
TanQuid	TanQuid GmbH & Co. KG, a subsidiary of Sunoco acquired on January 16, 2026

**SUNOCOCORP LLC**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
(Tabular dollar amounts, except per unit data, are in millions)  
(unaudited)

**1. Organization and Principles of Consolidation**

As used in this document, the terms “Company,” “SunocoCorp,” “we,” “us” or “our” should be understood to refer to SunocoCorp LLC, including its consolidated subsidiary, Sunoco LP.

The Terms “Partnership” or “Sunoco” should be understood to refer to Sunoco LP and its consolidated subsidiaries.

SunocoCorp is a Delaware publicly traded limited liability company that owns a direct limited partnership interest in Sunoco in the form of Sunoco Class D Units, all of which are held by SunocoCorp. SunocoCorp’s only cash-generating assets are the Sunoco Class D Units. SunocoCorp is managed by SunocoCorp Manager, which is controlled by Energy Transfer.

Sunoco is a Delaware master limited partnership. Sunoco is managed by Sunoco GP, which is owned by Energy Transfer. SunocoCorp currently holds the rights to appoint and remove the directors of the Sunoco GP Board. As of March 31, 2026, Energy Transfer owned 100% of the membership interest in Sunoco GP, 28,463,967 Sunoco Common Units and all of Sunoco’s IDR’s.

Sunoco is primarily engaged in energy infrastructure and distribution of motor fuels across 32 countries and territories in North America, the Greater Caribbean and Europe. Sunoco’s midstream operations include an extensive network of over 14,000 miles of pipeline and over 160 terminals. Sunoco’s fuel distribution operations distribute over 15 billion gallons annually to approximately 11,000 Sunoco and partner branded locations, as well as independent dealers and commercial customers.

The consolidated financial statements of SunocoCorp presented herein, have been prepared in accordance with GAAP and pursuant to the rules and regulations of the SEC. We consolidate Sunoco, as discussed below in “Change in Reporting Entity.” All significant intercompany transactions and accounts are eliminated in consolidation.

The operations of certain pipelines and terminals in which Sunoco owns an undivided interest are proportionately consolidated in the accompanying consolidated financial statements.

**Change in Reporting Entity**

SunocoCorp was previously named NuStar GP Holdings, LLC and was a consolidated subsidiary of Sunoco. SunocoCorp’s name was changed in 2025 in anticipation of the restructuring changes that occurred in connection with the Parkland Acquisition. Upon the consummation of the Parkland Acquisition, SunocoCorp became the primary beneficiary of Sunoco based on (i) SunocoCorp’s rights to appoint and remove the directors of Sunoco GP Board and (ii) SunocoCorp’s economic interest in Sunoco held via 100% of the Sunoco Class D Units; accordingly, management concluded that SunocoCorp should consolidate Sunoco. Given SunocoCorp’s consolidation of its previous parent (Sunoco) upon the consummation of the Parkland Acquisition, management of the Company concluded that the restructuring constituted a change in reporting entity under Accounting Standards Codification Topic 250 (“ASC 250”), because the consolidated financial statements of the Company are, in effect, the statements of a different reporting entity. Accordingly, the Company’s consolidated financial statements prior to the Parkland Acquisition have been retrospectively restated to reflect the consolidation of Sunoco for all periods, and Sunoco’s equity prior to the Parkland Acquisition is reflected as “predecessor equity” in the Company’s consolidated financial statements for those periods.

**2. Summary of Significant Accounting Policies**

**Interim Financial Statements**

The accompanying interim consolidated financial statements have been prepared in accordance with GAAP. Pursuant to Regulation S-X, certain information and disclosures normally included in the annual consolidated financial statements have been condensed or omitted. The interim consolidated financial statements and notes included herein should be read in conjunction with the consolidated financial statements and notes included in our Annual Report on Form 10-K for the year ended December 31, 2025 filed with the SEC on February 19, 2026.

**Significant Accounting Policies**

As of March 31, 2026, there have been no changes in the Company’s significant accounting policies from those described in our Annual Report on Form 10-K for the year ended December 31, 2025 filed with the SEC on February 19, 2026.

### ***Motor Fuel and Sales Taxes***

Certain motor fuel and sales taxes are collected from customers and remitted to governmental agencies either directly by the Partnership or through suppliers. The Partnership's accounting policy for wholesale direct sales to dealers, distributors and commercial customers is to exclude the collected motor fuel tax from sales and cost of sales.

For retail locations where the Partnership holds inventory, including commission agent locations, motor fuel sales and motor fuel cost of sales include motor fuel taxes. Such amounts were \$185 million and \$29 million for the three months ended March 31, 2026 and 2025, respectively. Merchandise sales and cost of merchandise sales are reported net of sales tax in our consolidated statements of operations.

### **Recent Accounting Pronouncements**

In November 2024, the Financial Accounting Standards Board issued Accounting Standards Update ("ASU") 2024-03, *Income Statement—Reporting Comprehensive Income—Expense Disaggregation Disclosures (Subtopic 220-40)*. ASU 2024-03 requires disclosure of specified information about certain costs and expenses in the notes to the consolidated financial statements. ASU 2024-03 is effective for annual periods beginning after December 15, 2026, and interim periods within annual periods beginning after December 15, 2027, with early adoption permitted. ASU 2024-03 is to be applied on a prospective basis, with retrospective application permitted. We are currently evaluating the impact, if any, of ASU 2024-03 on our consolidated financial statements and related disclosures.

## **3. Acquisitions**

### ***TanQuid Acquisition***

On January 16, 2026, the Partnership completed the previously announced acquisition of TanQuid for €206 million (\$239 million) and assumed debt with a fair value of €298 million (\$346 million). TanQuid owns and operates 15 fuel terminals in Germany and one fuel terminal in Poland. The transaction was funded using cash on hand and amounts available under the Partnership's Credit Facility.

The acquisition was recorded using the acquisition method of accounting which requires, among other things, that assets and liabilities assumed be recognized on the balance sheet at their estimated fair values as of the date of acquisition, with any excess purchase price over the fair value of net assets acquired recorded to goodwill. Management, with the assistance of a third-party valuation specialist, determined the fair value of assets and liabilities as of the date of the acquisition. Determining the fair value involves the use of management's judgment as well as the use of significant estimates and assumptions.

As of the date these financial statements were issued, management and the third-party valuation specialist continue to evaluate certain assumptions, which could result in a change to the allocation of the fair value among reporting units or between line items on the consolidated balance sheet, potentially impacting deferred tax balances and/or goodwill.

The following table summarizes the preliminary allocation of the purchase price among assets acquired and liabilities assumed.

	As of January 16, 2026
Total current assets	\$ 65
Property, plant and equipment	639
Operating lease right-of-use assets, net	59
Other non-current assets	1
Total assets	764
Total current liabilities	9
Long-term debt	346
Operating lease non-current liabilities	66
Deferred tax liabilities	62
Other non-current liabilities	42
Total liabilities	525
Total consideration	239
Cash acquired	45
Total consideration, net of cash acquired	\$ 194

#### ***Other Acquisitions***

In the first quarter of 2026, the Partnership completed other acquisitions for total cash consideration of approximately \$50 million, plus working capital. These transactions were accounted for as asset acquisitions.

#### **4. Cash and Cash Equivalents**

Cash and cash equivalents include cash on hand, demand deposits and short-term investments with original maturities of three months or less.

The net change in operating assets and liabilities, net of effects of acquisitions and divestitures, included in cash flows from operating activities is comprised as follows:

	Three Months Ended March 31,	
	2026	2025
Accounts receivable, net	\$ (1,471)	\$ 131
Inventories, net	479	18
Other assets	8	(80)
Accounts payable	947	(251)
Accounts payable to affiliates	43	(74)
Accrued expenses and other current liabilities	(39)	3
Other non-current liabilities	(20)	21
	\$ (53)	\$ (232)

Non-cash investing and financing activities and supplemental cash flow information:

	Three Months Ended March 31,	
	2026	2025
Units issued in connection with acquisitions	\$ —	\$ 5
Lease assets obtained in exchange for new lease liabilities	109	29
Interest paid	187	56

## 5. Accounts Receivable, net

Accounts receivable, net, consisted of the following:

	March 31, 2026	December 31, 2025
Accounts receivable, trade	\$ 2,988	\$ 1,686
Credit card receivables	58	42
Other receivables	436	286
Allowance for expected credit losses	(40)	(42)
Accounts receivable, net	<u>\$ 3,442</u>	<u>\$ 1,972</u>

## 6. Inventories, net

Fuel inventories included balances stated at the lower of cost or market using the LIFO method. As of March 31, 2026 and December 31, 2025, the Partnership's fuel inventory balance included lower of cost or market reserves of \$1 million and \$472 million, respectively. For the three months ended March 31, 2026 and 2025, the Partnership's cost of sales included favorable LIFO inventory valuation adjustments of \$444 million and \$61 million, respectively, which increased net income.

Inventories, net, consisted of the following:

	March 31, 2026	December 31, 2025
Fuel	\$ 2,146	\$ 2,178
Other	201	205
Inventories, net	<u>\$ 2,347</u>	<u>\$ 2,383</u>

During the three months ended March 31, 2026, the Partnership reduced its overall fuel inventories, resulting in a LIFO liquidation. Based on the assumed impact to cost of sales if the liquidated inventories had been replaced, the effect of the LIFO liquidation was an increase of \$102 million to pre-tax income, or \$0.54 per common unit (excluding any income tax impact or any assumed changes to distributions). Interim LIFO calculations are based on management's estimates of expected year-end inventory levels and costs; consequently, these interim estimates are subject to changes during the remainder of the year that could impact the final year-end inventory levels or valuation.

Certain of the Partnership's fuel inventories in the Caribbean are stated at the lower of cost or market using the first-in, first-out method, under which the cost of fuel sold consists of older acquisition costs, including transportation and storage costs. These FIFO method inventories totaled \$165 million and \$88 million as of March 31, 2026 and December 31, 2025, respectively.

## 7. Investments in Unconsolidated Affiliates

### **Description of Investments**

The following is a summary of the Partnership's significant unconsolidated investments:

#### *J.C. Nolan*

Sunoco owns a 50% interest in J.C. Nolan, which provides diesel fuel storage in Midland, Texas with storage capacity of 130,000 barrels and transports diesel fuel from a tank farm in Hebert, Texas to Midland, Texas on a 500 mile pipeline with a throughput capacity of approximately 36 thousand barrels per day.

#### *ET-S Permian*

Sunoco owns a 32.5% interest in ET-S Permian, which operates more than 5,000 miles of crude oil and water gathering pipelines with crude oil storage capacity in excess of 11 million barrels.

#### *SARA*

Sunoco owns a 29% interest in SARA, which is a refinery based in Martinique with operations to sell refined crude oil in Guadeloupe, French Guiana and Martinique.

#### *Isla*

Sunoco owns a 50% interest in Isla, which is comprised of over 200 retail locations alongside an integrated commercial and aviation business in Dominican Republic.

## Summary of Balances Related to Unconsolidated Affiliates

The carrying values of the Partnership's investments in unconsolidated affiliates as of March 31, 2026 and December 31, 2025 were as follows:

	March 31, 2026	December 31, 2025
J.C. Nolan	\$ 119	\$ 121
ET-S Permian	1,147	1,161
SARA	140	141
Isla	176	171
Other	29	30
	<u>\$ 1,611</u>	<u>\$ 1,624</u>

The following table presents equity in earnings (losses) of unconsolidated affiliates:

	Three Months Ended March 31,	
	2026	2025
J.C. Nolan	\$ 2	\$ 2
ET-S Permian	37	30
SARA	1	—
Isla	3	—

Net unamortized premiums, discounts and fair value adjustments	(1)	2
Deferred debt issuance costs	(92)	(83)
<b>Total debt</b>	<b>13,932</b>	<b>13,389</b>
Less: current maturities	12	17
<b>Total long-term debt, net</b>	<b>\$ 13,920</b>	<b>\$ 13,372</b>

<sup>(1)</sup> These senior notes were redeemed in March 2026. See additional information under “Recent Transactions.”

<sup>(2)</sup> As of March 31, 2026, \$490 million aggregate principal amount of senior notes due before March 31, 2027 were classified as long-term as management has the intent and ability to refinance the borrowings on a long-term basis.

### Recent Transactions

In March 2026, the Partnership issued \$600 million aggregate principal amount of 5.375% senior notes due 2031 and \$600 million aggregate principal amount of 5.625% senior notes due 2034. These notes will mature on July 15, 2031 and July 15, 2034, respectively, and interest is payable semi-annually on January 15 and July 15 of each year, commencing on July 15, 2026. The Partnership used a portion of the net proceeds from this private offering to redeem in full its \$500 million aggregate principal amount of 6.000% senior notes due 2026 and its \$600 million aggregate principal amount of 6.000% senior notes due 2027.

In March 2026, the Partnership redeemed Parkland's remaining senior notes.

## GoZone Bonds

NuStar Logistics' obligations include revenue bonds issued by the Parish of St. James, Louisiana pursuant to the Gulf Opportunity Zone Act of 2005 (the "GoZone Bonds").

As reflected in the table below, the holders of the Series 2008, Series 2010B and Series 2011 GoZone Bonds are required to tender their bonds at the applicable mandatory purchase date in exchange for 100% of the principal plus accrued and unpaid interest, after which these bonds may be remarketed with a new interest rate established. Each of the Series 2010 and Series 2010A GoZone Bonds is subject to redemption on or after June 1, 2030 by the Parish of St. James, at Sunoco's option, in whole or in part, at a redemption price of 100% of the principal amount to be redeemed plus accrued and unpaid interest. Interest on the GoZone Bonds is payable semi-annually on June 1 and December 1 of each year.

The following table summarizes the GoZone Bonds outstanding as of March 31, 2026:

Series	Date Issued	Amount Outstanding	Interest Rate	Mandatory Purchase Date	Optional Redemption Date	Maturity Date
Series 2008	June 26, 2008	\$ 56	6.10 %	June 1, 2030	n/a	June 1, 2038
Series 2010	July 15, 2010	100	6.35 %	n/a	June 1, 2030	July 1, 2040
Series 2010A	October 7, 2010	43	6.35 %	n/a	June 1, 2030	October 1, 2040
Series 2010B	December 29, 2010	48	6.10 %	June 1, 2030	n/a	December 1, 2040
Series 2011	October 1, 2025	75	3.70 %	June 1, 2030	n/a	August 1, 2041

NuStar Logistics' agreements with the Parish of St. James related to the GoZone Bonds contain: (i) customary restrictive covenants that limit the ability of NuStar Logistics and its subsidiaries to, among other things, create liens, enter into certain sale leaseback transactions, and engage in certain consolidations, mergers or asset sales; and (ii) a repurchase provision which provides that if Sunoco undergoes a change of control that is followed by a ratings decline that occurs within 60 days of the change of control, then each holder may require the trustee, with funds provided by NuStar Logistics, to repurchase all or a portion of that holder's GoZone Bonds at a price equal to 101% of the aggregate principal amount repurchased, plus any accrued and unpaid interest. The Partnership and certain of its subsidiaries are guarantors to the agreements related to the GoZone Bonds.

## Credit Facility

The Partnership's \$2.50 billion Credit Facility matures on June 17, 2030, which date may be extended in accordance with the terms of the Credit Facility. The Credit Facility can be increased from time to time upon Sunoco's written request, subject to certain conditions, up to an aggregate amount of \$3.50 billion. As of March 31, 2026, we had \$125 million outstanding borrowings on the Credit Facility, and \$151 million in standby letters of credit were outstanding. The unused availability on the Credit Facility as of March 31, 2026 was \$2.22 billion. The weighted average interest rate on the total amount outstanding as of March 31, 2026 was 5.52%. The Partnership was in compliance with all financial covenants as of March 31, 2026. The Partnership's net leverage ratio was 3.98 to 1.00 at March 31, 2026.

## Receivables Financing Agreement

Upon the closing of the NuStar Acquisition, the commitments under NuStar's receivables financing agreement were reduced to zero during a suspension period, for which the period end has not been determined. As of March 31, 2026, this facility had no outstanding borrowings.

## Fair Value of Debt

The aggregate estimated fair value and carrying amount of our consolidated debt obligations as of March 31, 2026 were \$13.99 billion and \$13.93 billion, respectively. As of December 31, 2025, the aggregate fair value and carrying amount of our consolidated debt obligations were \$13.52 billion and \$13.39 billion, respectively. The fair value of our consolidated debt obligations is a Level 2 valuation based on the respective debt obligations' observable inputs for similar liabilities.

## 10. Other Non-Current Liabilities

Other non-current liabilities consisted of the following:

	March 31, 2026	December 31, 2025
Asset retirement obligations	\$ 206	\$ 254
Accrued environmental expense, long-term	188	158
Other	142	100
Total	<u>\$ 536</u>	<u>\$ 512</u>

## 11. Related Party Transactions

Sunoco is party to fee-based commercial agreements with various affiliates for pipeline, terminalling and storage services. Sunoco also has agreements with subsidiaries of Energy Transfer and unconsolidated affiliates of Sunoco for the purchase and sale of fuel. Additionally, under our Limited Liability Company Agreement and Sunoco's Partnership Agreement, respectively, SunocoCorp Manager and Sunoco GP do not receive a management fee or other compensation for their roles as the managing member of SunocoCorp and Sunoco GP, respectively. However, SunocoCorp Manager and Sunoco GP are reimbursed for all expenses incurred on our and Sunoco's behalf, respectively. These expenses include shared service fees, as well as all other expenses necessary or appropriate to the conduct of our business that are allocable to us and Sunoco, as provided for in our Limited Liability Company Agreement and Sunoco's Partnership Agreement, respectively. There is no cap on the amount that may be paid or reimbursed to SunocoCorp Manager or Sunoco GP.

### Summary of Related Party Transactions

Related party transactions for the three months ended March 31, 2026 and 2025 were as follows:

	Three Months Ended March 31,	
	2026	2025
Motor fuel sales to affiliates	\$ 233	\$ 2
Bulk fuel purchases from affiliates	435	294
Expense reimbursement	12	11

Significant affiliate balances included on the consolidated balance sheets were as follows:

- Accounts payable to affiliates were \$374 million and \$331 million as of March 31, 2026 and December 31, 2025, respectively, which were attributable to operational expenses and bulk fuel purchases.
- Advances from affiliates were \$76 million and \$78 million as of March 31, 2026 and December 31, 2025, respectively, which were related to treasury services agreements with Energy Transfer.

## 12. Revenue

The following table depicts the disaggregation of revenue:

	Three Months Ended March 31,	
	2026	2025
Fuel	\$ 9,875	\$ 4,807
Non-fuel	287	67
Lease income	39	29
Pipeline throughput	176	158
Terminal throughput	39	27
Refinery	146	—
Other	128	91
Total revenues	<u>\$ 10,690</u>	<u>\$ 5,179</u>

### Contract Balances with Customers

The balances of the Partnership's contract assets and contract liabilities as of March 31, 2026 and December 31, 2025 were as follows:

	March 31,	December 31,
	2026	2025
Contract assets	\$ 575	\$ 480
Accounts receivable from contracts with customers	3,006	1,686
Contract liabilities	127	125

The following tables summarize the consolidated activity of our contract liabilities:

	Contract Liabilities
Balance, December 31, 2025	\$ 125
Additions	23
Revenue recognized	(21)
Balance, March 31, 2026	\$ 127

	Contract Liabilities
Balance, December 31, 2024	\$ 39
Additions	10
Revenue recognized	(12)
Balance, March 31, 2025	\$ 37

### Remaining Performance Obligations

The following table presents our estimated revenues from contracts with customers for remaining performance obligations that have not yet been recognized, representing our contractually committed revenue as of March 31, 2026:

	Remaining Performance Obligations
2026 (remaining)	\$ 330
2027	293
2028	213
2029	148
2030	122
Thereafter	260
Total	\$ 1,366

Our contractually committed revenue, for purposes of the tabular presentation above, is generally limited to customer contracts that have fixed pricing and fixed volume terms and conditions, including contracts with payment obligations for minimum volume commitments.

### Costs to Obtain or Fulfill a Contract

The Partnership recognized amortization on capitalized costs incurred to obtain contracts of \$17 million and \$9 million for the three months ended March 31, 2026 and 2025, respectively.

## 13. Commitments and Contingencies

### *Litigation and Contingencies*

We may, from time to time, be involved in litigation and claims arising out of our operations in the normal course of business. In the ordinary course of business, we are sometimes threatened with or named as a defendant in various lawsuits seeking actual and punitive damages for personal injury and property damage. We maintain liability insurance with insurers in amounts and with coverage and deductibles management believes are reasonable and prudent, and which are generally accepted in the industry. However, there can be no assurance that the levels of insurance protection currently in effect will continue to be available at reasonable prices or that such levels will remain adequate to protect us from material expenses related to personal injury or property damage in the future. In addition, various regulatory agencies such as tax authorities, environmental agencies, or other such agencies may perform audits or reviews to ensure proper compliance with regulations. We are not fully insured for any claims that may arise from these various agencies and there can be no assurance that any claims arising from these activities would not have an adverse, material effect on our consolidated financial statements.

### *Environmental Remediation*

Sunoco is subject to various federal, state, provincial and local environmental laws and regulations and makes financial expenditures in order to comply with regulations governing its operations adopted by federal, state, provincial and local regulatory agencies. Pursuant to the Resource Conservation and Recovery Act of 1976 ("RCRA"), as amended, the United States Environmental Protection Agency has established a comprehensive regulatory program for the detection, prevention, investigation and cleanup of leaking underground storage tanks. State, provincial or local agencies are often delegated the responsibility for

implementing the federal program or developing and implementing equivalent state or local regulations. Additionally, with respect to the Burnaby Refinery, the federal Storage Tank Systems for Petroleum Products and Allied Petroleum Products Regulations impose technical standards for design, installation, operation and removal of federally regulated tanks.

Federal and state regulations require us to provide and maintain evidence that we are taking financial responsibility for corrective action and compensating third parties in the event of a release from our underground storage tank systems, pipelines and terminals. In order to comply with these requirements, we have historically obtained private insurance in the states in which we operate. These policies provide protection from third-party liability claims. During 2026, our coverage was \$15 million per occurrence and in the aggregate. Our sites continue to be covered by these policies.

We are currently involved in the investigation and remediation of contamination at motor fuel storage and gasoline store sites where releases of regulated substances have been detected. We accrue for anticipated future costs and the related probable state reimbursement amounts for remediation activities. The table below reflects recorded estimated undiscounted liabilities for these sites which are classified as accrued expenses, other current liabilities and other non-current liabilities.

	March 31, 2026	December 31, 2025
Current	\$ 32	\$ 10
Non-current	188	158
Total environmental liabilities	<u>\$ 220</u>	<u>\$ 168</u>

#### ***New York Motor Fuel Excise Tax Audit***

New York State issued a motor fuel excise tax assessment to Sunoco, LLC, a wholly owned subsidiary of the Partnership, in the amount of approximately \$20 million, exclusive of penalties and interest, for the periods of March 2017 through May 2020. Sunoco, LLC filed an appeal with the New York State Division of Tax Appeals challenging the assessment. Sunoco, LLC cannot predict the outcome of this matter at this time.

## **14. Equity**

### **SunocoCorp Common Units**

As of March 31, 2026 and December 31, 2025, the Company had 51,517,198 common units outstanding.

### **Predecessor Equity**

Prior to the closing of the Parkland Acquisition, all of Sunoco's equity, including noncontrolling interest, is reflected as "predecessor equity" in the Company's consolidated financial statements, as discussed in Note 1.

### **Noncontrolling Interest**

The following table presents the total number of units outstanding for each class of Sunoco's equity at period end:

	March 31, 2026	December 31, 2025
Sunoco Common Units	136,894,754	136,866,854
Sunoco Class C Units	16,410,780	16,410,780
Sunoco Class D Units	51,517,198	51,517,198
Sunoco 7.875% Series A Fixed-Rate Reset Cumulative Redeemable Perpetual Preferred Units	1,500,000	1,500,000

Subsequent to the closing of the Parkland Acquisition, Sunoco's outstanding equity, other than the Class D Units which are 100% owned by the Company, is reflected as noncontrolling interest on the Company's consolidated financial statements.

As of March 31, 2026, Energy Transfer and its subsidiaries owned 28,463,967 Sunoco common units, which constitutes a 13.9% limited partnership interest in the Partnership. As of March 31, 2026, Sunoco's wholly owned consolidated subsidiaries owned 16,410,780 Class C units representing limited partnership interests in the Partnership (the "Class C Units").

## Cash Distributions on SunocoCorp Common Units

Our Company Agreement sets forth the Company's policy for paying regular quarterly cash distributions.

Cash distributions declared and/or paid with respect to SunocoCorp common units subsequent to December 31, 2025 were as follows:

Period Ended	Record Date	Payment Date	Common Unitholders	
			Per Unit Distribution	Distributions on Common Units
December 31, 2025	February 6, 2026	February 19, 2026	\$ 0.9317	\$ 48
March 31, 2026	May 8, 2026	May 20, 2026	0.9899	51

## Sunoco Cash Distributions

Sunoco's Partnership Agreement sets forth the calculation used to determine the amount and priority of cash distributions that the common unitholders receive.

Cash distributions declared and/or paid with respect to Sunoco common units and Class D Units subsequent to December 31, 2025 were as follows:

Period Ended	Record Date	Payment Date	Per Unit Distribution	Limited Partners		Distribution to IDR Holders
				Distributions on Common Units	Distributions on Class D Units	
December 31, 2025	February 6, 2026	February 19, 2026	\$ 0.9317	\$ 128	\$ 48	\$ 60
March 31, 2026	May 8, 2026	May 20, 2026	0.9899	136	51	71

Cash distributions with respect to Sunoco's Series A Preferred Units were as follows:

Record Date	Payment Date	Rate
March 2, 2026	March 18, 2026	\$ 39.38

## Accumulated Other Comprehensive Loss

The following table presents the components of AOCI, net of tax:

	March 31, 2026	December 31, 2025
Foreign currency translation adjustment	\$ (16)	\$ (6)
Total AOCI included in partners' capital, net of tax	\$ (16)	\$ (6)

## 15. Segment Reporting

### Description of Segments

Our consolidated financial statements reflect four reportable segments: Fuel Distribution, Pipeline Systems, Terminals and Refinery.

*Fuel Distribution.* Our Fuel Distribution segment supplies motor fuel to independently-operated dealer stations, distributors, commission agents and other consumers. Also included in our Fuel Distribution segment is lease income from properties that we lease or sublease, as well as the Partnership's credit card services, franchise royalties and retail operations in North America and the Greater Caribbean.

*Pipeline Systems.* Our Pipeline Systems segment includes an integrated pipeline and terminal network comprised of approximately 6,000 miles of refined product pipeline (including the pipeline of J.C. Nolan), approximately 6,000 miles of crude oil pipeline (including the pipelines of ET-S Permian), approximately 2,000 miles of ammonia pipeline and 69 terminals.

*Terminals.* Our Terminals segment is composed of four transmix processing facilities and 99 refined product terminals (18 in Europe, six in Hawaii, nine in Canada, 13 in the Greater Caribbean and 53 in the continental United States).

*Refinery.* Our Refinery segment includes the Burnaby Refinery, which was acquired in the Parkland Acquisition, with an operational capacity of approximately 55,000 barrels per day. The refinery consumes primarily sweet conventional crude oil and sweet synthetic crude oil to produce gasoline, diesel and jet fuel among other products.

## Segment Operating Results

We report Adjusted EBITDA by segment as a measure of segment performance. We define Adjusted EBITDA as net income before net interest expense, income tax expense, depreciation, amortization and accretion expense, non-cash compensation expense, gains and losses on disposal of asset, non-cash impairment charges, losses on extinguishment of debt, unrealized gains and losses on commodity derivatives, inventory valuation adjustments, certain foreign currency transaction gains and losses and certain other operating expenses reflected in net income that we do not believe are indicative of ongoing core operations. Inventory valuation adjustments that are excluded from the calculation of Adjusted EBITDA represent changes in lower of cost or market reserves on the Partnership's inventory; these amounts are unrealized valuation adjustments applied to fuel volumes remaining in inventory at the end of the period.

The following tables present financial information by segment for the three months ended March 31, 2026 and 2025:

	Three Months Ended March 31,	
	2026	2025
Revenues:		
Fuel Distribution		
Revenues from external customers	\$ 10,201	\$ 4,903

Equity in earnings of unconsolidated affiliates	(42)	(32)
Adjusted EBITDA related to unconsolidated affiliates	69	50
Other non-cash adjustments	47	11
Income tax expense (benefit)	74	(2)
Adjusted EBITDA (consolidated)	<u>\$ 858</u>	<u>\$ 458</u>

## 16. Net Income per Common Unit

A reconciliation of the numerators and denominators of the basic and diluted per unit computations is as follows:

	Three Months Ended March 31,	
	2026	2025
<b>Net income</b>	\$ 605	\$ 207
Less: Net income attributable to predecessor equity	—	207
Less: Net income attributable to noncontrolling interests	495	—
Net income attributable to members	\$ 110	\$ —
<b>Weighted average common units outstanding:</b>		
Basic	51,517,198	
Dilutive effect of unvested phantom unit awards	23,624	
Diluted	51,540,822	
<b>Net income per common unit:</b>		
Basic	\$ 2.14	
Diluted	\$ 2.13	

## 17. Derivatives

Our subsidiaries hold working inventories of refined petroleum products, renewable fuels, gasoline blendstocks and transmix in storage. While in storage, volatility in the market price of stored motor fuel could adversely impact the price at which we can later sell the motor fuel. However, we may use futures, forwards and other derivative instruments (collectively, “positions”) to hedge a variety of price risks relating to deviations in that inventory from a target base operating level established by management. Derivative instruments utilized consist primarily of exchange-traded futures contracts traded on the New York Mercantile Exchange, Chicago Mercantile Exchange and Intercontinental Exchange, as well as over-the-counter transactions (including swap agreements) entered into with established financial institutions and other credit-approved energy companies. While these derivative instruments represent economic hedges, they are not designated as hedges for accounting purposes. We may also engage in controlled trading in accordance with specific parameters set forth in a written risk management policy.

On a consolidated basis, the Partnership had derivative positions on 2.8 million barrels with an aggregate unrealized loss of \$76 million at March 31, 2026.

The following table summarizes the location and amounts recognized in our consolidated statements of operations with respect to our derivative financial instruments:

	Location of Gain Recognized on Income on Derivatives	Amount of Gain Recognized in Income on Derivatives	
		Three Months Ended March 31,	
		2026	2025
Derivatives not designated as hedging instruments:			
Commodity derivatives	Cost of sales	\$ 88	\$ 14

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

(Tabular dollar amounts, except per gallon data, are in millions)

*The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our consolidated financial statements and notes to consolidated financial statements included elsewhere in this report. Additional discussion and analysis related to the Company is contained in our Annual Report on Form 10-K, including the audited consolidated financial statements for the fiscal year ended December 31, 2025 included therein.*

*Adjusted EBITDA is a non-GAAP financial measure of performance that has limitations and should not be considered as a substitute for net income or other GAAP measures. Please see "Key Measure Used to Evaluate and Assess Our Business" below for a discussion of our use of Adjusted EBITDA in this "Management's Discussion and Analysis of Financial Condition and Results of Operations" and a reconciliation to net income for the periods presented.*

### Cautionary Statement Regarding Forward-Looking Statements

Some of the information in this Quarterly Report on Form 10-Q may contain forward-looking statements within the meaning of Section 21E of the Exchange Act. All statements, other than statements of historical fact included in this Quarterly Report on Form 10-Q, regarding our strategy, future operations, financial position, estimated revenues and losses, projected costs, prospects, plans and objectives of management are forward-looking statements. Statements using words such as "believe," "plan," "could," "expect," "anticipate," "intend," "forecast," "assume," "estimate," "continue," "position," "predict," "project," "goal," "strategy," "budget," "potential," "will" and other similar words or phrases are used to help identify forward-looking statements, although not all forward-looking statements contain such identifying words. Descriptions of our objectives, goals, targets, plans, strategies, costs, anticipated capital expenditures, expected cost savings and benefits are also forward-looking statements. These forward-looking statements are based on our current plans and expectations and involve a number of risks and uncertainties that could cause actual results and events to vary materially from the results and events anticipated or implied by such forward-looking statements, including:

- Sunoco's ability to integrate acquisitions from affiliates or third parties, including the ability to successfully integrate Parkland's business;
- business strategy and operations of Energy Transfer and its conflicts of interest with Sunoco and us;
- changes in the price of and demand for the motor fuel that Sunoco distributes and its ability to appropriately hedge any motor fuel it holds in inventory;
- Sunoco's dependence on limited principal suppliers;
- competition in the wholesale motor fuel distribution and retail store industry;
- changing customer preferences for alternate fuel sources or improvement in fuel efficiency;
- volatility of fuel prices or a prolonged period of low fuel prices and the effects of actions by, or disputes among or between, oil producing countries with respect to matters related to the price or production of oil;
- any acceleration of the domestic and/or international transition to a low carbon economy as a result of policy changes or otherwise;
- the possibility of cyber and malware attacks;
- changes in Sunoco's credit rating, as assigned by rating agencies;
- a deterioration in the credit and/or capital markets, including as a result of recent increases in cost of capital resulting from Federal Reserve policies and changes in financial institutions' policies or practices concerning businesses linked to fossil fuels;
- general economic conditions, including sustained periods of inflation, supply chain disruptions, new, increased and reciprocal tariffs and associated central bank monetary policies;
- environmental, tax and other federal, state and local laws and regulations;
- the macroeconomic, regulatory or other potential effects of a prolonged government shutdown;
- changes to, and the application of, regulation of tariff rates and operational requirements related to our joint ventures' and subsidiaries' interstate and intrastate pipelines, including the impact on the raw materials;
- political and economic conditions and events in the U.S. and in foreign oil, natural gas and NGL producing countries, including embargoes, political and regulatory changes implemented by the Trump Administration and foreign investments, continued hostilities in the Middle East, including the Israel-Hamas conflict, conflict with Iran and other sustained military

campaigns, the armed conflict in Ukraine and associated economic sanctions on Russia, conditions in South America, including most recently in Venezuela, Central America and China and acts of terrorism or sabotage;

- the fact that Sunoco is not fully insured against all risks incident to our business;
- dangers inherent in the storage and transportation of motor fuel;
- our ability to manage growth and/or control costs;
- Sunoco's ability to successfully identify and consummate strategic acquisitions at purchase prices that are accretive to our financial results and to successfully integrate acquired businesses;
- Sunoco's reliance on senior management, supplier trade credit and information technology; and
- our governance structure, which may create conflicts of interest between us and SunocoCorp Manager and its affiliates, and limits the fiduciary duties of SunocoCorp Manager and its affiliates.

All forward-looking statements, expressed or implied, are expressly qualified in their entirety by the foregoing cautionary statements.

Many of the foregoing risks and uncertainties are, and will be, heightened by any further worsening of the global business and economic environment. New factors that could impact forward-looking statements emerge from time to time, and it is not possible for us to predict all such factors. Should one or more of the risks or uncertainties described or referenced in this Quarterly Report on Form 10-Q, our Annual Report on Form 10-K for the year ended December 31, 2025, filed with the SEC on February 19, 2026 occur, or should underlying assumptions prove incorrect, actual results and plans could differ materially from those expressed in any forward-looking statements.

You should not put undue reliance on any forward-looking statements. When considering forward-looking statements, please review the risks described or referenced under the heading "Part II - Item 1A. Risk Factors" herein, including the risk factors set forth in our Annual Report on Form 10-K for the year ended December 31, 2025, filed with the SEC on February 19, 2026. The list of factors that could affect future performance and the accuracy of forward-looking statements is illustrative but by no means exhaustive. Accordingly, all forward-looking statements should be evaluated with the understanding of their inherent uncertainty. The forward-looking statements included in this report are based on, and include, our estimates as of the filing of this report. We anticipate that subsequent events and market developments will cause our estimates to change. However, we specifically disclaim any obligation to update any forward-looking statements after the date of this Quarterly Report on Form 10-Q, except as required by law, even if new information becomes available in the future.

In addition to risks and uncertainties in the ordinary course of business that are common to all businesses, important factors that are specific to our structure, our industry and our company could materially impact our future performance and results of operations.

## **Overview**

As used in this Management's Discussion and Analysis of Financial Condition and Results of Operations, the terms "Company," "SunocoCorp," "we," "us" or "our" should be understood to refer to SunocoCorp LLC, including its consolidated subsidiary Sunoco.

The terms "Partnership" or "Sunoco" should be understood to refer to Sunoco and its consolidated subsidiaries.

SunocoCorp is a Delaware publicly traded limited liability company that owns a direct limited partnership interest in Sunoco in the form of Sunoco Class D Units, all of which are held by SunocoCorp. SunocoCorp's only cash-generating assets are the Sunoco Class D Units. SunocoCorp is managed by SunocoCorp Manager, which is controlled by Energy Transfer.

Sunoco is a Delaware master limited partnership. Sunoco is managed by Sunoco GP, which is owned by Energy Transfer. SunocoCorp currently holds the rights to appoint and remove the directors of the Sunoco GP Board. As of March 31, 2026, Energy Transfer owned 100% of the membership interest in Sunoco GP, 28,463,967 Sunoco Common Units and all of Sunoco's IDRs.

## **Recent Developments**

### ***TanQuid Acquisition***

On January 16, 2026, the Partnership completed the previously announced acquisition of TanQuid for €206 million (\$239 million ) and assumed debt with a fair value of €298 million (\$346 million as of January 16, 2026). TanQuid owns and operates 15 fuel terminals in Germany and one fuel terminal in Poland. The transaction was funded using cash on hand and amounts available under the Partnership's Credit Facility.

### ***Other Acquisitions***

In the first quarter of 2026, the Partnership completed other acquisitions for total cash consideration of approximately \$50 million, plus working capital. These transactions were accounted for as asset acquisitions.

### **Regulatory Update**

#### ***OECD Pillar Two Global Minimum Tax***

The acquisition of Parkland brought Sunoco into the scope of the Pillar Two global minimum tax regime. Several jurisdictions in which Sunoco now operates have enacted legislation implementing the Organization for Economic Co-operation and Development (“OECD”) Pillar Two global minimum tax framework. These rules generally impose a 15% minimum top-up tax on the profits of large multinational enterprises. Sunoco estimates its Pillar Two global minimum tax expense to be immaterial in 2026 and has not accrued any current tax expense related to Pillar Two during the three months ended March 31, 2026.

On January 5, 2026, the OECD released new guidance that provides relief for U.S. parented multinationals and establishes a side-by-side framework for the U.S. tax system to coexist with Pillar Two global minimum tax. Effective for fiscal years beginning on or after January 1, 2026, U.S. parented multinationals would be exempt from the main charging provisions of Pillar Two. Sunoco will continue to estimate and potentially accrue Pillar Two global minimum tax until the relevant jurisdictions in which Sunoco operates enact the side-by-side framework into law.

#### ***Interstate Common Carrier Regulation***

In December 2020, the FERC issued an order setting the indexed rate at PPI-FG plus 0.78% during the five-year period commencing July 1, 2021 and ending June 30, 2026. The FERC received requests for rehearing of its December 17, 2020 order and on January 20, 2022, granted rehearing and modified the oil index. Specifically, for the five-year period commencing July 1, 2021 and ending June 30, 2026, FERC-regulated liquids pipelines charging indexed rates were permitted to adjust their indexed ceilings annually by PPI-FG minus 0.21%. The FERC directed liquids pipelines to recompute their ceiling levels for July 1, 2021 through June 30, 2022, as well as the ceiling levels for the period July 1, 2022 through June 30, 2023, based on the new index level. Where an oil pipeline’s filed rates exceeded its ceiling levels, the FERC ordered such oil pipelines to reduce the rate to bring it into compliance with the recomputed ceiling level to be effective March 1, 2022. Some parties sought rehearing of the January 20, 2022 order with the FERC, which was denied by the FERC on May 6, 2022. Certain parties appealed the January 20 and May 6 orders. On July 26, 2024, the D.C. Circuit ruled in *LEPA v. FERC* that the FERC violated the Administrative Procedure Act because the January 20, 2022 order modified the index without following notice and comment. As a result, the D.C. Circuit vacated the January 20, 2022 order and on September 17, 2024, the FERC reinstated the index level established by its original December 17, 2020 order, directed pipelines to file an informational filing to show their recomputed ceiling levels reflecting the reinstated index level and stated that pipelines could file to prospectively increase their indexed rates to their recomputed levels. On October 17, 2024, the FERC issued a Supplemental Notice of Proposed Rulemaking (“Supplemental NOPR”) that proposed a reduction to the then-effective index by one percent.

On November 20, 2025, the FERC withdrew the Supplemental NOPR and confirmed that the PPI-FG-0.78% index established in its December 17, 2020 order will remain in effect through June 30, 2026. On the same day, the FERC issued an Order Denying Rehearing of the Reinstatement Order and Granting Remedial Relief (“Remedial Relief Order”), which granted remedial relief to liquids pipelines for the period of March 1, 2022 to September 17, 2024 (the “Locked-In Period”), when the lower index was effective under the order vacated by the D.C. Circuit in *LEPA v. FERC*, but only if such pipelines charged the maximum rate allowed under the applicable index ceiling during the relevant time period. Parties have since filed requests for clarification or rehearing, as well as court appeals, to determine whether pipelines may recover rate differences in other scenarios. Those requests and appeals remain pending.

Also on November 20, 2025, the FERC issued a Notice of Proposed Rulemaking on the 2026 Five-Year Oil Pipeline Index (“2026 Index NOPR”), proposing to use the Producer Price Index for Finished Goods (PPI-FG) minus 1.42% as the index level beginning July 1, 2026 to June 30, 2031. The NOPR proceeded through the standard notice-and-comment process, with comments submitted in late 2025 and early 2026, and remains pending final Commission action.

On December 18, 2025, the FERC issued an Order Denying Petition for Emergency Relief (“Emergency Relief Order Denial”), which denied a petition requesting emergency relief from invoices issued by a liquid pipeline company to recover amounts of indexed rates for the Locked-In Period and explained that, consistent with the Remedial Relief Order, pipelines that charged the maximum rates permitted under the FERC’s now-vacated January 20, 2022 rehearing order during the Locked-In Period may invoice shippers to recover the amounts that would have been chargeable under the December 17, 2020 order.

In January 2026, multiple shippers have filed petitions for review at the D.C. Circuit challenging the FERC’s November 20, 2025 orders, including, the (i) Remedial Relief Order, (ii) Order Terminating Supplemental NOPR, and (iii) Emergency Relief Order Denial. These appeals are pending.

Separately, on December 15, 2022, the FERC issued a Proposed Policy Statement on Oil Pipeline Affiliate Committed Service, which addresses whether a contract for committed transportation service complies with the Interstate Commerce Act (“ICA”) where the only shipper to obtain the committed service is an affiliate of the regulated entity. If adopted, the proposed policy statement would create a rebuttable presumption that affiliate contracts are unduly discriminatory and not just and reasonable in certain circumstances and require a pipeline to produce additional evidentiary support for affiliate contracts rates and terms. This follows a trend of increased scrutiny by the FERC on affiliated contracts across all industries regulated by the FERC. The FERC has taken no further action on the proposed policy statement.

#### ***Regulation of Intrastate Crude Oil and Products Pipelines***

In addition to federally regulated body oversight, various states, including Colorado, Kansas, Louisiana, North Dakota and Texas, maintain commissions focused on the rates and practices of common carrier pipelines offering services within their borders. Although the applicable state statutes and regulations vary, they generally require that intrastate pipelines publish tariffs setting forth all rates, rules and regulations applying to intrastate service, and generally require that pipeline rates and practices be just, reasonable and nondiscriminatory.

Shippers may challenge tariff rates, rules and regulations on our pipelines. In most instances, state commissions have not initiated investigations of the rates or practices of pipelines in the absence of shipper complaints. There are no pending challenges or complaints regarding our tariffs or tariff rates.

In addition, as noted above, the rates, terms and conditions for shipments of crude oil or petroleum products on Sunoco’s pipelines could be subject to regulation by the FERC under the ICA and the Energy Policy Act of 1992 (“EPAAct of 1992”) if the crude oil or petroleum products are transported in interstate or foreign commerce whether by its pipelines or other means of transportation. Since Sunoco does not control the entire transportation path of all crude oil or petroleum products shipped on our pipelines, FERC regulation could be triggered by our customers’ transportation decisions.

#### ***Regulation of Interstate Ammonia Pipelines***

Our ammonia pipeline is subject to regulation by the Surface Transportation Board (the “STB”) pursuant to the ICA applicable to such pipelines (which differs from the ICA applicable to interstate liquids pipelines). Under that regulation, the ammonia pipeline’s rates, classifications, rules and practices related to the interstate transportation of anhydrous ammonia must be reasonable and, in providing interstate transportation, the ammonia pipeline may not subject a person, place, port or type of traffic to unreasonable discrimination. Similar to the crude and refined products pipelines, the rates for transportation services on the ammonia pipeline are required to be in a tariff which is posted publicly on Sunoco’s website, however, that tariff is not required to be on file with the STB. The STB does not prescribe an indexing approach similar to the EPAAct of 1992 but rates under the STB must be reasonable and the pipeline may not subject a person, place, port or type of traffic to unreasonable discrimination.

#### **Key Measure Used to Evaluate and Assess Our Business**

Adjusted EBITDA, as used throughout this document, is defined as net income before net interest expense, income tax expense, depreciation, amortization and accretion expense, non-cash compensation expense, gains and losses on disposal of asset, non-cash impairment charges, losses on extinguishment of debt, unrealized gains and losses on commodity derivatives, inventory valuation adjustments, certain foreign currency transaction gains and losses and certain other operating expenses reflected in net income that we do not believe are indicative of ongoing core operations. Inventory valuation adjustments that are excluded from the calculation of Adjusted EBITDA represent changes in lower of cost or market reserves on the Partnership’s inventory; these amounts are unrealized valuation adjustments applied to fuel volumes remaining in inventory at the end of the period.

Adjusted EBITDA is a non-GAAP financial measure. For a reconciliation of Adjusted EBITDA to net income, which is the most directly comparable financial measure calculated and presented in accordance with GAAP, read “Key Operating Metrics and Results of Operations” below.

We believe Adjusted EBITDA is useful to investors in evaluating our operating performance because:

- Adjusted EBITDA is used as a performance measure under our Credit Facility;
- securities analysts and other interested parties use Adjusted EBITDA as a measure of financial performance; and
- our management uses Adjusted EBITDA for internal planning purposes, including aspects of our consolidated operating budget and capital expenditures.

Adjusted EBITDA is not a recognized term under GAAP and does not purport to be an alternative to net income as a measure of operating performance. Adjusted EBITDA has limitations as an analytical tool, and one should not consider it in isolation or as a substitute for analysis of our results as reported under GAAP. Some of these limitations include:

- it does not reflect interest expense or the cash requirements necessary to service interest or principal payments on our Credit Facility or senior notes;

- although depreciation, amortization and accretion are non-cash charges, the assets being depreciated, amortized and accreted will often have to be replaced in the future, and Adjusted EBITDA does not reflect cash requirements for such replacements; and
- as not all companies use identical calculations, our presentation of Adjusted EBITDA may not be comparable to similarly titled measures of other companies.

Adjusted EBITDA reflects amounts for the unconsolidated affiliates based on the same recognition and measurement methods used to record equity in earnings of unconsolidated affiliates. Adjusted EBITDA related to unconsolidated affiliates excludes the same items with respect to the unconsolidated affiliates as those excluded from the calculation of Adjusted EBITDA, such as interest, taxes, depreciation, amortization, accretion and other non-cash items. Although these amounts are excluded from Adjusted EBITDA related to unconsolidated affiliates, such exclusion should not be understood to imply that we have control over the operations and resulting revenues and expenses of such affiliates. Sunoco does not control its unconsolidated affiliates; therefore, Sunoco does not control the earnings or cash flows of such affiliates. The use of Adjusted EBITDA or Adjusted EBITDA related to unconsolidated affiliates as an analytical tool should be limited accordingly.

## **Results of Operations**

### **Change in Reporting Entity**

SunocoCorp was previously named NuStar GP Holdings, LLC and was a consolidated subsidiary of Sunoco. SunocoCorp's name was changed in 2025 in anticipation of the restructuring changes that occurred in connection with the Parkland Acquisition. Upon the consummation of the Parkland Acquisition, SunocoCorp became the primary beneficiary of Sunoco based on (i) SunocoCorp's rights to appoint and remove the directors of Sunoco GP Board and (ii) SunocoCorp's economic interest in Sunoco held via 100% of the Sunoco Class D Units; accordingly, management concluded that SunocoCorp should consolidate Sunoco. Given SunocoCorp's consolidation of its previous parent (Sunoco) upon the consummation of the Parkland Acquisition, management of the Company concluded that the restructuring constituted a change in reporting entity under Accounting Standards Codification Topic 250 ("ASC 250"), because the consolidated financial statements of the Company are, in effect, the statements of a different reporting entity. Accordingly, the Company's consolidated financial statements prior to the Parkland Acquisition have been retrospectively restated to reflect the consolidation of Sunoco for all periods, and Sunoco's equity prior to the Parkland Acquisition is reflected as "predecessor equity" in the Company's consolidated financial statements for those periods. Accordingly, the results of operations included herein also reflect the consolidation of Sunoco for all periods.

	Three Months Ended March 31,		Change
	2026	2025	
Segment Adjusted EBITDA:			
Fuel Distribution	\$ 529	\$ 220	\$ 309
Pipeline Systems	179	172	7
Terminals	107	66	41
Refinery	43	—	43
Adjusted EBITDA (consolidated)	<u>\$ 858</u>	<u>\$ 458</u>	<u>\$ 400</u>

	Three Months Ended March 31,		Change
	2026	2025	
Reconciliation of net income to Adjusted EBITDA:			
Net income	\$ 605	\$ 207	\$ 398
Depreciation, amortization and accretion	286	156	130
Interest expense, net	201	121	80
Non-cash unit-based compensation expense	6	4	2
(Gain) loss on disposal of assets and impairment charges	(1)	3	(4)
Loss on extinguishment of debt	1	2	(1)
Unrealized (gains) losses on commodity derivatives	56	(1)	57
Inventory valuation adjustments	(444)	(61)	(383)
Equity in earnings of unconsolidated affiliates	(42)	(32)	(10)
Adjusted EBITDA related to unconsolidated affiliates	69	50	19
Other non-cash adjustments	47	11	36
Income tax expense (benefit)	74	(2)	76
Adjusted EBITDA (consolidated)	<u>\$ 858</u>	<u>\$ 458</u>	<u>\$ 400</u>

**Net Income.** For the three months ended March 31, 2026 compared to the same period last year, net income increased by \$398 million, or approximately 192%, primarily due to higher Segment Adjusted EBITDA from multiple segments, with the most significant increases driven by the Parkland Acquisition and other acquisitions; these increases were partially offset by increases in depreciation, amortization and accretion and interest expense. These increases and decreases are discussed further below.

**Adjusted EBITDA (consolidated).** For the three months ended March 31, 2026 compared to the same period last year, Adjusted EBITDA increased primarily due to the Parkland Acquisition and other acquisitions.

Additional information on changes impacting net income and comprehensive income (loss) and Adjusted EBITDA for the three months ended March 31, 2026 compared to the same period last year is available below and in “Segment Operating Results.”

**Depreciation, Amortization and Accretion.** For the three months ended March 31, 2026 compared to the same period last year, depreciation, amortization and accretion increased primarily due to additional depreciation and amortization from assets recently placed in service and from recent acquisitions.

**Interest Expense, net.** For the three months ended March 31, 2026 compared to the same period last year, interest expense increased primarily due to an increase in average total long-term debt, including debt assumed in the Parkland Acquisition.

**Unrealized (Gains) Losses on Commodity Derivatives.** The unrealized gains and losses on our commodity derivatives represent the changes in fair value of our commodity derivatives. The change in unrealized gains and losses between periods is impacted by the notional amounts and commodity price changes on our commodity derivatives. Additional information on commodity derivatives is included in “Item 3. Quantitative and Qualitative Disclosures about Market Risk” below.

**Inventory Valuation Adjustments.** Inventory valuation adjustments represent changes in lower of cost or market reserves using the LIFO method on the Partnership’s inventory. These amounts are unrealized valuation adjustments applied to fuel volumes remaining in inventory at the end of the period. For the three months ended March 31, 2026 and 2025, the Partnership’s cost of sales included favorable LIFO inventory valuation adjustments of \$444 million and \$61 million, respectively, which increased net income.

**Adjusted EBITDA Related to Unconsolidated Affiliates and Equity in Earnings of Unconsolidated Affiliates.** See additional information in “Supplemental Information on Unconsolidated Affiliates” and “Segment Operating Results.”

**Income Tax Expense (Benefit).** For the three months ended March 31, 2026 compared to the same period last year, income tax expense increased primarily due to increased corporate earnings from recent acquisitions.

## Supplemental Information on Unconsolidated Affiliates

The following table presents financial information related to unconsolidated affiliates:

	Three Months Ended March 31,		Change
	2026	2025	
Equity in earnings of unconsolidated affiliates			
J.C. Nolan	\$ 2	\$ 2	\$ —
ET-S Permian	37	30	7
SARA	1	—	1
Isla	3	—	3
Other	(1)	—	(1)
Total equity in earnings of unconsolidated affiliates	<u>\$ 42</u>	<u>\$ 32</u>	<u>\$ 10</u>
Adjusted EBITDA related to unconsolidated affiliates <sup>(1)</sup> :			
J.C. Nolan	\$ 3	\$ 3	\$ —
ET-S Permian	53	47	6
SARA	5	—	5
Isla	6	—	6
Other	2	—	2
Total Adjusted EBITDA related to unconsolidated affiliates	<u>\$ 69</u>	<u>\$ 50</u>	<u>\$ 19</u>
Distributions received from unconsolidated affiliates:			
J.C. Nolan	\$ 3	\$ 2	\$ 1
ET-S Permian	56	116	(60)
SARA	—	—	—
Isla	2	—	2
Other	—	—	—
Total distributions received from unconsolidated affiliates	<u>\$ 61</u>	<u>\$ 118</u>	<u>\$ (57)</u>

<sup>(1)</sup> These amounts represent our proportionate share of the Adjusted EBITDA of our unconsolidated affiliates and are based on our equity in earnings or losses of our unconsolidated affiliates adjusted for our proportionate share of the unconsolidated affiliates' interest, depreciation, amortization, accretion, non-cash items and taxes.

## Segment Operating Results

We evaluate segment performance based on Segment Adjusted EBITDA, which we believe is an important performance measure of the core profitability of our operations. This measure represents the basis of our internal financial reporting and is one of the performance measures used by senior management in deciding how to allocate capital resources among business segments.

The following tables identify the components of Segment Adjusted EBITDA, which is calculated as follows:

- *Segment profit, operating expenses and selling, general and administrative expenses.* These amounts represent the amounts included in our consolidated financial statements that are attributable to each segment.
- *Adjusted EBITDA related to unconsolidated affiliates.* Adjusted EBITDA related to unconsolidated affiliates excludes the same items with respect to the unconsolidated affiliates as those excluded from the calculation of Segment Adjusted EBITDA, such as interest, taxes, depreciation, amortization, accretion and other non-cash items. Although these amounts are excluded from Adjusted EBITDA related to unconsolidated affiliates, such exclusion should not be understood to imply that we have control over the operations and resulting revenues and expenses of such affiliates. We do not control our unconsolidated affiliates; therefore, we do not control the earnings or cash flows of such affiliates.

The following analysis of segment operating results includes a measure of segment profit. Segment profit is a non-GAAP financial measure and is presented herein to assist in the analysis of segment operating results and particularly to facilitate an understanding of the impacts that changes in sales revenues have on the segment performance measure of Segment Adjusted EBITDA. Segment profit is similar to the GAAP measure of gross profit, except that segment profit excludes charges for depreciation, amortization and accretion. The most directly comparable measure to segment profit is gross profit.

The following table presents a reconciliation of segment profit to gross profit:

	Three Months Ended March 31,		Change
	2026	2025	
Fuel Distribution segment profit	\$ 1,236	\$ 361	\$ 875
Pipeline Systems segment profit	184	174	10
Terminals segment profit	225	118	107
Refinery segment profit	44	—	44
Total segment profit	1,689	653	1,036
Depreciation, amortization and accretion, excluding corporate and other	284	156	128
Gross profit	\$ 1,405	\$ 497	\$ 908

In addition, for the Fuel Distribution segment, the following section includes information on the components of segment profit by sales type, which components are included in order to provide additional disaggregated information to facilitate the analysis of segment profit and Segment Adjusted EBITDA. These components of segment profit are calculated consistent with the calculation of segment profit; therefore, these components also exclude charges for depreciation, amortization and accretion.

**Fuel Distribution**

	Three Months Ended March 31,		Change
	2026	2025	
Motor fuel gallons sold (millions)	3,796	2,087	1,709
Motor fuel profit cents per gallon <sup>(1)</sup>	17.0 ¢	11.5 ¢	(11.3)¢
Fuel profit	\$ 1,044	\$ 297	\$ 747
Non-fuel profit	153	35	118
Lease profit	39	29	10
Fuel Distribution segment profit	\$ 1,236	\$ 361	\$ 875
Unrealized (gains) losses on commodity risk management activities	54	(1)	55
Expenses, excluding non-cash unit-based compensation expense <sup>(2)</sup>	(391)	(92)	(299)
Adjusted EBITDA related to unconsolidated affiliates	8	—	8
Inventory valuation adjustments	(398)	(58)	(340)
Other	20	10	10
Segment Adjusted EBITDA	\$ 529	\$ 220	\$ 309

<sup>(1)</sup> Excludes the impact of inventory valuation adjustments consistent with the definition of Adjusted EBITDA.

<sup>(2)</sup> Includes operating expenses, general and administrative and lease expense.

**Volumes.** For the three months ended March 31, 2026 compared to the same period last year, volumes increased primarily due to the Parkland Acquisition.

**Segment Adjusted EBITDA.** For the three months ended March 31, 2026 compared to the same period last year, Segment Adjusted EBITDA related to our Fuel Distribution segment increased due to the net impact of the following:

- an increase of \$590 million in segment profit (excluding unrealized gains and losses on commodity risk management activities and inventory valuation adjustments) primarily due to the Parkland Acquisition and other acquisitions, as well as a favorable impact from a one-time gain on sale of inventory in the current period; and
- an increase of \$8 million in Adjusted EBITDA related to unconsolidated affiliates from the Parkland Acquisition; partially offset by
- an increase of \$299 million in expenses primarily due to the Parkland Acquisition.

## Pipeline Systems

	Three Months Ended March 31,		Change
	2026	2025	
Pipelines throughput (thousand barrels per day)	1,291	1,258	33
Pipeline Systems segment profit	\$ 184	\$ 174	\$ 10
Expenses, excluding non-cash unit-based compensation expense <sup>(1)</sup>	(61)	(53)	(8)
Adjusted EBITDA related to unconsolidated affiliates	56	50	6
Other	—	1	(1)
Segment Adjusted EBITDA	\$ 179	\$ 172	\$ 7

<sup>(1)</sup> Includes operating expenses, general and administrative and lease expense.

*Volumes.* For the three months ended March 31, 2026 compared to the same period last year, the increase in throughput volumes reflected the impact of refinery turnarounds in the prior period and overall increased market demand in 2026.

*Segment Adjusted EBITDA.* For the three months ended March 31, 2026 compared to the same period last year, Segment Adjusted EBITDA related to our Pipeline Systems segment increased due to the net impact of the following:

- a \$10 million increase in segment profit primarily due to refinery turnarounds and contract expirations in the prior period, improved butane blending, and overall increased market demand; and
- a \$6 million increase in Adjusted EBITDA related to ET-S Permian; partially offset by
- an \$8 million increase in expenses primarily due to higher utility costs, maintenance costs and corporate allocations.

## Terminals

	Three Months Ended March 31,		Change
	2026	2025	
Throughput (thousand barrels per day)	1,013	620	393
Terminals segment profit	\$ 225	\$ 118	\$ 107
Expenses, excluding non-cash unit-based compensation expense <sup>(1)</sup>	(74)	(49)	(25)
Inventory valuation adjustments	(44)	(3)	(41)
Segment Adjusted EBITDA	\$ 107	\$ 66	\$ 41

<sup>(1)</sup> Includes operating expenses, general and administrative and lease expense.

*Volumes.* For the three months ended March 31, 2026 compared to the same period last year, volumes increased due to recently acquired assets.

*Segment Adjusted EBITDA.* For the three months ended March 31, 2026 compared to the same period last year, Segment Adjusted EBITDA related to our Terminals segment increased due to the net impact of the following:

- a \$66 million increase in segment profit (excluding inventory valuation adjustments) primarily due to the acquisitions of Parkland and TanQuid; partially offset by
- a \$25 million increase in expenses primarily due to the acquisitions of Parkland and TanQuid.

## Refinery

	Three Months Ended March 31,		Change
	2026	2025	
Crude utilization	38 %	—	38 %
Composite utilization	40 %	—	40 %
Crude throughput (thousand barrels per day)	21	—	21
Bio-feedstock throughput (thousand barrels per day)	1	—	1
Refinery segment profit <sup>(1)</sup>	\$ 44	\$ —	\$ 44
Unrealized losses on commodity risk management activities	2	—	2
Expenses, excluding non-cash unit-based compensation expense <sup>(2)</sup>	(6)	—	(6)
Adjusted EBITDA related to unconsolidated affiliates	5	—	5
Inventory valuation adjustments	(2)	—	(2)
Segment Adjusted EBITDA	\$ 43	\$ —	\$ 43

<sup>(1)</sup> Refinery segment profit includes \$61 million of production costs, supply and logistics, and terminal operating costs for the three months ended March 31, 2026.

<sup>(2)</sup> Includes operating expenses, general and administrative and lease expense.

**Volumes.** For the three months ended March 31, 2026 compared to the same period last year, volumes increased due to recently acquired assets.

**Segment Adjusted EBITDA.** For the three months ended March 31, 2026 compared to the same period last year, Segment Adjusted EBITDA related to our Refinery segment increased due to the Parkland Acquisition.

## Liquidity and Capital Resources

### Parent Company Only

The principal sources of SunocoCorp's cash flow are distributions we receive from our investment in Sunoco Class D Units. The amount of cash that Sunoco distributes to its unitholders, including SunocoCorp, each quarter is based on earnings from its business activities and the amount of available cash, as discussed below.

For a period of two years following October 31, 2025, Sunoco will ensure that SunocoCorp unitholders receive distributions on a per unit basis that are equivalent to the per unit distributions to Sunoco unitholders.

### Liquidity

Our principal liquidity requirements are to finance current operations, to fund capital expenditures, including acquisitions from time to time, to service our debt and to make distributions. We expect our ongoing sources of liquidity to include cash generated from operations, borrowings under the Credit Facility and the issuance of additional long-term debt or partnership units as appropriate given market conditions. We expect that these sources of funds will be adequate to provide for our short-term and long-term liquidity needs.

Our ability to meet our debt service obligations and other capital requirements, including capital expenditures and acquisitions, will depend on our future operating performance which, in turn, will be subject to general economic, financial, business, competitive, legislative, regulatory and other conditions, many of which are beyond our control. As a normal part of our business, depending on market conditions, we will from time to time consider opportunities to repay, redeem, repurchase or refinance our indebtedness. Changes in our operating plans, lower than anticipated sales, increased expenses, acquisitions or other events may cause us to seek additional debt or equity financing in future periods. There can be no guarantee that financing will be available on acceptable terms or at all. Debt financing, if available, could impose additional cash payment obligations and additional covenants and operating restrictions. In addition, any of the risks described or referenced under the heading "Part II - Item 1A. Risk Factors" herein, including the risk factors set forth in our Annual Report on Form 10-K for the year ended December 31, 2025 may also significantly impact our liquidity.

As of March 31, 2026, we had \$718 million of cash and cash equivalents on hand and borrowing capacity of \$2.22 billion on the Credit Facility. The Partnership was in compliance with all financial covenants at March 31, 2026. Based on our current estimates, we expect to utilize capacity under the Credit Facility, along with cash from operations, to fund our announced growth capital expenditures and working capital needs for 2026; however, we may issue debt or equity securities as we deem prudent to provide liquidity for new capital projects or other partnership purposes.

## Cash Flows

Our cash flows may change in the future due to a number of factors, some of which we cannot control. These factors include regulatory changes, the price of products and services, the demand for such products and services, margin requirements resulting from significant changes in commodity prices, operational risks, the successful integration of our acquisitions and other factors.

### Operating Activities

Changes in cash flows from operating activities between periods primarily result from changes in earnings, excluding the impacts of non-cash items and changes in operating assets and liabilities (net of effects of acquisitions and divestitures). Non-cash items include recurring non-cash expenses, such as depreciation, amortization and accretion expense and non-cash unit-based compensation expense. Cash flows from operating activities also differ from earnings as a result of non-cash charges that may not be recurring, such as impairment charges. Our daily working capital requirements fluctuate within each month, primarily in response to the timing of payments for motor fuels, motor fuels tax and rent.

*Three months ended March 31, 2026 compared to three months ended March 31, 2025.* Net cash provided by operating activities during 2026 was \$454 million compared to \$156 million for 2025, and net income was \$605 million for 2026 and \$207 million for 2025. The difference between net income and net cash provided by operating activities for the three months ended March 31, 2026 primarily consisted of net changes in operating assets and liabilities of \$53 million and non-cash items totaling \$139 million.

The non-cash activity in 2026 and 2025 consisted primarily of depreciation, amortization and accretion of \$286 million and \$156 million, respectively, non-cash unit-based compensation expense of \$6 million and \$4 million, respectively, favorable inventory valuation adjustments of \$444 million and \$61 million, respectively, loss on extinguishment of debt of \$1 million and \$2 million, respectively, gain on disposal of assets and impairment charges of \$1 million and loss on disposal of assets and impairment charges of \$3 million, respectively, amortization of deferred financing fees of \$9 million and \$3 million, respectively, and deferred income tax expense of \$56 million and deferred income tax benefit of \$7 million, respectively. Net income also included equity in earnings of unconsolidated affiliates of \$42 million and \$32 million in 2026 and 2025, respectively.

Cash provided by operating activities included cash distributions received from unconsolidated affiliates that were deemed to be paid from cumulative earnings, which distributions were \$41 million in 2026 and \$85 million in 2025.

### Investing Activities

Cash flows from investing activities primarily consist of capital expenditures, cash contributions to unconsolidated affiliates, cash amounts paid for acquisitions and cash proceeds from the sale or disposal of assets. Changes in capital expenditures between periods primarily result from increases or decreases in our growth capital expenditures to fund our construction and expansion projects.

*Three months ended March 31, 2026 compared to three months ended March 31, 2025.* Net cash used in investing activities during 2026 was \$430 million compared to \$101 million in 2025. Capital expenditures for 2026 were \$199 million compared to \$101 million for 2025. In 2026, we paid \$194 million for the acquisition of TanQuid and \$50 million in cash for other acquisitions. In 2025, we paid \$12 million in cash for other acquisitions. Proceeds from disposal of property, plant and equipment were \$3 million for both periods.

In 2026 and in 2025, we paid \$10 million and \$24 million in cash contributions to unconsolidated affiliates, respectively. Distributions from unconsolidated affiliates in excess of cumulative earnings were \$20 million and \$33 million for 2026 and 2025, respectively.

### Financing Activities

Changes in cash flows from financing activities between periods primarily result from changes in the levels of borrowings and equity issuances, which are primarily used to fund our acquisitions and growth capital expenditures. Distributions increase between the periods based on increases in the number of common units outstanding or increases in the distribution rate.

*Three months ended March 31, 2026 compared to three months ended March 31, 2025.* Net cash used in financing activities during 2026 was \$197 million compared to net cash provided in financing activities of \$23 million in 2025.

During the three months ended March 31, 2026, we:

- borrowed \$1.20 billion and repaid \$1.21 billion in senior notes;
- borrowed \$1.18 billion and repaid \$1.06 billion under the Credit Facility;
- paid \$15 million in loan origination costs;
- paid \$248 million in distributions to noncontrolling interests; and

- paid \$48 million in distributions to our common unitholders.

During the three months ended March 31, 2025, we:

- borrowed \$1.00 billion and repaid \$603 million in senior notes;
- borrowed \$1.09 billion and repaid \$1.30 billion under the Credit Facility;
- paid \$12 million in loan origination costs; and
- paid \$159 million in distributions to noncontrolling interests.

We intend to pay distributions to the holders of our common units on a quarterly basis. SunocoCorp's primary source of cash flow is its investment in Sunoco Class D units. The Sunoco Class D units provide dividend equalization rights for the period beginning on October 31, 2025 and ending December 31, 2027 (the "Equalization Period"); Sunoco shall ensure that SunocoCorp shall have cash necessary and sufficient to pay distributions on each SunocoCorp common unit for each quarter during the Equalization Period in an amount equal to 100% of the distributions paid by Sunoco on each Sunoco common unit during such quarter. For the quarter ended March 31, 2026, the Company declared a cash dividend of \$0.9899 to be paid on May 20, 2026 to unitholders of record as of May 8, 2026.

#### ***Capital Expenditures***

For the three months ended March 31, 2026, total capital expenditures on an accrual basis were \$199 million, which included \$106 million for growth capital and \$93 million for maintenance capital. This includes the Partnership's proportionate share of capital expenditures related to its investments in ET-S Permian and J.C. Nolan of \$13 million for growth capital.

We currently expect to spend between \$400 million and \$450 million in maintenance capital expenditures and at least \$600 million in growth capital for the full year 2026. These amounts include the Partnership's proportionate share for joint ventures.

## Description of Indebtedness

Our consolidated debt obligations, all of which are attributable to Sunoco or its subsidiaries, consisted of the following:

	March 31, 2026	December 31, 2025
Credit Facility	\$ 125	\$ —
6.000% Senior Notes due 2026 <sup>(1)</sup>	—	500
3.875% CAD senior notes due 2026 <sup>(2)</sup>	395	400
Parkland 3.875% CAD senior notes due 2026 <sup>(1)</sup>	—	37

Net unamortized premiums, discounts and fair value adjustments	(1)	2
Deferred debt issuance costs	(92)	(83)
<b>Total debt</b>	<b>13,932</b>	<b>13,389</b>
Less: current maturities	12	17
<b>Total long-term debt, net</b>	<b>\$ 13,920</b>	<b>\$ 13,372</b>

<sup>(1)</sup> These senior notes were redeemed in March 2026. See additional information under “Recent Transactions.”

<sup>(2)</sup> As of March 31, 2026, \$490 million aggregate principal amount of senior notes due before March 31, 2027 were classified as long-term as management has the intent and ability to refinance the borrowings on a long-term basis.

## Recent Transactions

In March 2026, the Partnership issued \$600 million aggregate principal amount of 5.375% senior notes due 2031 and \$600 million aggregate principal amount of 5.625% senior notes due 2034. These notes will mature on July 15, 2031 and July 15, 2034, respectively, and interest is payable semi-annually on January 15 and July 15 of each year, commencing on July 15, 2026. The Partnership used a portion of the net proceeds from this private offering to redeem in full its \$500 million aggregate principal amount of 6.000% senior notes due 2026 and its \$600 million aggregate principal amount of 6.000% senior notes due 2027.

In March 2026, the Partnership redeemed Parkland's remaining senior notes.

### **Credit Facility**

As of March 31, 2026, the Partnership had \$125 million outstanding borrowings on the Credit Facility, which matures on June 17, 2030, and \$151 million standby letters of credit were outstanding. The unused availability on the Credit Facility as of March 31, 2026 was \$2.22 billion. The weighted average interest rate on the total amount outstanding as of March 31, 2026 was 5.52%. The Partnership was in compliance with all financial covenants as of March 31, 2026.

Upon the closing of the NuStar Acquisition, the commitments under NuStar's receivables financing agreement were reduced to zero during a suspension period, for which the period end has not been determined. As of March 31, 2026, this facility had no outstanding borrowings.

### **Critical Accounting Estimates**

The Company's critical accounting estimates are described in our Annual Report on Form 10-K for the year ended December 31, 2025, filed with the SEC on February 19, 2026. No significant changes have occurred subsequent to the Form 10-K filing.

## **Item 3. Quantitative and Qualitative Disclosures about Market Risk**

### **Interest Rate Risk**

We are subject to market risk from exposure to changes in interest rates based on our financing, investing and cash management activities. As of March 31, 2026, we had \$179 million of variable rate debt outstanding. A hypothetical change of 100 basis points would result in a maximum potential change to interest expense of approximately \$2 million annually.

Our primary exposure relates to:

- interest rate risk on short-term borrowings; and
- the impact of interest rate movements on our ability to obtain adequate financing to fund future acquisitions.

While we cannot predict or manage our ability to refinance existing debt or the impact interest rate movements will have on our existing debt, management evaluates our financial position on an ongoing basis. From time to time, we may enter into interest rate swaps to reduce the impact of changes in interest rates on our floating rate debt.

### **Commodity Price Risk**

Our subsidiaries hold working inventories of refined petroleum products, renewable fuels, gasoline blendstocks and transmix in storage. As of March 31, 2026, we held approximately \$1.89 billion of such inventory. While in storage, volatility in the market price of stored motor fuel could adversely impact the price at which we can later sell the motor fuel. However, we may use futures, forwards and other derivative instruments (collectively, "positions") to hedge a variety of price risks relating to deviations in that inventory from a target base operating level established by management. Derivative instruments utilized consist primarily of exchange-traded futures contracts traded on the New York Mercantile Exchange, Chicago Mercantile Exchange and Intercontinental Exchange, as well as over-the-counter transactions (including swap agreements) entered into with established financial institutions and other credit-approved energy companies. While these derivative instruments represent economic hedges, they are not designated as hedges for accounting purposes. We may also engage in controlled trading in accordance with specific parameters set forth in a written risk management policy.

On a consolidated basis, the Company had derivative positions on 2.8 million barrels with an aggregate unrealized loss of \$76 million at March 31, 2026, for which an assumed hypothetical 10% change in the underlying price of the commodity would result in an impact of approximately \$24 million to pre-tax income, excluding any offsetting impact to the inventory that is economically hedged by these open positions.

### **Foreign Currency Translation Risk**

We generate revenues, incur expenses, and maintain investments and subsidiaries in currencies other than the U.S. dollar. As a result, our reported earnings, cash flows, and AOCI are exposed to fluctuations in foreign currency exchange rates. Changes in exchange rates can affect the U.S. dollar value of our foreign-currency-denominated assets and liabilities, as well as the translation of the operating results and financial position of our international subsidiaries. We may utilize derivative instruments, including foreign currency forward contracts and other hedging strategies, to mitigate the effects of foreign currency-denominated cash flow and earnings exposures. As of March 31, 2026, the Partnership did not have any outstanding foreign currency derivatives.

## **Item 4. Controls and Procedures**

### **Evaluation of Disclosure Controls and Procedures**

As required by paragraph (b) of Rule 13a-15 under the Exchange Act, our management, with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of the end of the period covered by this report. Based on such evaluation, our management, including our Chief Executive Officer and Chief Financial Officer, has concluded, as of the end of the period covered by this report, that our disclosure controls and procedures were effective at the reasonable assurance level for which they were designed in that the information required to be disclosed by the Partnership in the reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC rules and forms and such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

### **Changes in Internal Control over Financial Reporting**

There have been no changes in our internal control over financial reporting (as defined in Rule 13(a)-15(f) or Rule 15d-15(f) of the Exchange Act) during the three months ended March 31, 2026, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## PART II – OTHER INFORMATION

### Item 1. Legal Proceedings

For information regarding legal proceedings, see our Annual Report on Form 10-K filed with the SEC on February 19, 2026 and Note 13 in “Item 1. Financial Statements” in this Quarterly Report on Form 10-Q for the quarter ended March 31, 2026.

Sunoco, Aloha Petroleum and other Energy Transfer affiliates are defendants in lawsuits alleging liability for climate change impacts from greenhouse gas emissions in Hawaii, Maine and Vermont. Plaintiffs in these cases allege deceptive marketing and concealment of information about these effects, violations of state consumer protection and unfair trade practices laws, and seek certain equitable relief, statutory and civil penalties, punitive damages, disgorgement of profits and attorney’s fees. We are unable to estimate the possible loss or range of loss in excess of amounts accrued. Sunoco intends to vigorously defend the subject claims.

### Item 1A. Risk Factors

There have been no material changes from the risk factors described in “Part I — Item 1A. Risk Factors” of our Annual Report on Form 10-K for the year ended December 31, 2025 filed with the SEC on February 19, 2026.

Vice President, Controller and Principal  
Accounting Officer  
(In his capacity as principal accounting officer)

CERTIFICATION PURSUANT TO  
SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

I, Joseph Kim, certify that:

1. I have reviewed this quarterly report on Form 10-Q of SunocoCorp LLC (the “registrant”);
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - c. Evaluated the effectiveness of the registrant’s disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d. Disclosed in this report any change in the registrant’s internal control over financial reporting that occurred during the registrant’s most recent fiscal quarter (the registrant’s fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant’s internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant’s auditors and the audit committee of the registrant’s board of directors (or persons performing the equivalent functions):
  - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant’s ability to record, process, summarize and report financial information; and
  - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant’s internal control over financial reporting.
